All Idaho State University students regardless of insurance coverage, are eligible to receive services at the Health Center. There is no charge for an office visit.

University Health Center services are also available to ISU Faculty and Staff, their spouses, and dependents who have a valid Bengal ID card.

The University Health Center provides the entire range of medical office care as is provided at a hometown doctor’s office. This includes everything from colds and flu to treatment of high blood pressure and diabetes. We care for broken bones, lacerations, abscesses, and other urgent care problems. Preventative health services such as immunizations, healthy lifestyle counseling, and birth control are areas of particular interest.

The University Health Center bills private insurance when billable services such as laboratory tests, X-ray studies, special procedures, etc., are performed. The University Health Center does its best to see people on the same day they are ill. Same day appointments are available daily. A valid Bengal ID card is required to obtain services. University Health Center services are also available to ISU Faculty and Staff, their spouses, and dependents who have a valid Bengal ID card.

The University Health Center is located at 990 Cesar Chavez Avenue—across from Gravelly Hall.

**University Honors Program**

The University Honors Program is an academic learning community that offers a broad range of enriched educational experiences, typically found at a small private college, for bright, talented, and ambitious undergraduate students. The main goals of the program are:

1. Interdisciplinary Scholarship – developing the ability to integrate knowledge to express well-constructed insight and originality of thought through multidisciplinary courses and methodologies.
2. Intellectual and Creative Engagement – using the appropriate methodology and theoretical framework that includes design, synthesis, and interdisciplinary research.
3. Citizen Scholar – addressing real-world problems and finding ethical solutions, a process that culminates in reflective civic engagement, respect for diversity, and service-oriented action.

The University Honors Program offers opportunities for broader, deeper, and more complex learning experiences for students through interdisciplinary, theme-driven course sequences. Courses are designed for students who are motivated to develop their critical and creative thinking in a more personalized atmosphere than may be expected in typical courses. These courses are offered in small class sizes (25 maximum enrollment), deal with broad and/or interdisciplinary issues, and confront some aspect of the human condition. Innovative teaching and assignments are encouraged, and interaction with faculty and class members is lively. The University Honors Program curriculum fulfills many of the General Education Requirements. Please check isu.edu/honors (http://www.isu.edu/honors/) for this year’s core curriculum themes and additional information. Questions about the University Honors Program and courses may be directed to the address above.

University Tutoring supports students from diverse backgrounds in developing the active learning skills and content knowledge they need to meet their academic and professional goals. We provide a range of academic support services through our constituent programs (see below), including individual tutoring, group tutoring, in-person tutoring, and virtual tutoring. Tutoring sessions outside of the Math Center are by appointment, with some walk-in sessions available. Our primary goal is to facilitate students’ persistence through the academic challenges they face while promoting their long-term self-efficacy.

**Content Area Tutoring**

The Content Area Tutoring (CAT) program provides small-group tutoring in all academic areas (except writing and math, which are handled through the Writing and Math Centers). Students may request tutoring in courses from anthropology to zoology at the CAT offices in Pocatello (REND 323, 282-3662) or Idaho Falls (CHE 220, 282-7925).

Information on tutoring support for College of Technology students is available at isu.edu/tech/tutoring (https://isu.edu/tech/tutoring/).
Math Center
The Math Center provides drop-in tutoring services to help students in Pocatello (REND 327) and Idaho Falls (CHE 220) understand concepts in undergraduate math courses and courses with a math component. Tutors clarify what students know, how a math concept has been taught to them, and why they may be struggling with a particular concept. Tutors also work other examples with students to suggest approaches to the math problems that students are doing and enhance understanding.

Writing Center
The Writing Center provides individualized tutoring in Pocatello (REND 323), Idaho Falls (CHE 220), and online to help students improve the quality of their writing for undergraduate and graduate courses in all subjects. Tutors are available by appointment to work with students at any stage of the writing process, from generating ideas to revising full drafts. They assist with organization and development of ideas for particular audiences and purposes, as well as with issues of punctuation and usage.
