Welcome to the School of Rehabilitation and Communication Sciences

The School of Rehabilitation and Communication Sciences (SRCS) is home to 5 professions organized in 2 departments: The Department of Communication Sciences and Disorders (CSD) and the Department of Physical and Occupational Therapy (DPOT). The structure reflects the organization found in many education and medical facilities, acknowledging the strong relationships found among the disciplines. The PhD in Rehabilitation and Communication Sciences spans both departments.

Mission Statement

The shared mission of the School of Rehabilitation and Communication Sciences (SRCS) is to advance the overall missions of Idaho State University and the Kasiska Division of Health Sciences by educating current and future rehabilitation and communication science professionals. The SRCS fosters interprofessional academic and clinical experiences for the faculty and students to promote excellence in providing collaborative evidence-based practice, and ethical patient/client-centered care. We serve the state of Idaho and the world by providing innovative, accessible learning experiences via on-site, distance and online courses, graduating knowledgeable, accomplished professionals, and influencing future professional practice through our vital contributions to research and creative scholarly activities.

Programs

Doctor of Audiology, CSD

Master of Science in Speech Language Pathology, CSD

Doctor of Physical Therapy, DPOT

Master of Occupational Therapy, DPOT

Doctor of Philosophy in Rehabilitation and Communication Sciences, SRCS

Program Learning Outcomes

The Doctor of Philosophy in Rehabilitation and Communication Sciences program (PhD in RCS) provides students with education and research training to develop their area of expertise to become independent scholars, educators, administrators, or leaders within their disciplines. Students will be expected to complete academic core, research core, specialized program, dissertation and other program requirements for degree completion. The program is offered through either traditional (on-campus) or non-traditional (online) models with full-time or part-time options, however certain limitations may apply. See more information at the PhD Program website (https://www.isu.edu/grad-program/phd).

Admission requirements

Applicants seeking admission consideration for the Doctor of Philosophy in Rehabilitation and Communication Sciences program at ISU must apply to, and meet all criteria for, admission to the ISU Graduate School. The program has rolling admissions with the following priority consideration dates: February 15 (summer and fall) and October 15 (spring). In addition, the following items will be evaluated for admission consideration:

- successfully completed the 1) core curriculum in the program, 2) comprehensive examinations, and 3) submitted a grant proposal for funding consideration
- participated in cross-disciplinary and interprofessional education and pedagogy, which may include clinical, research, or teaching experiences outside of their professions
- demonstrated proficiency in face-to-face and online teaching (e.g., lecture, discussion, laboratory, lesson planning, testing, and grading) and use of innovative strategies for access (e.g., video interaction, online teaching, independent study)
- demonstrated the ability to plan, initiate, conduct, analyze, and disseminate quality research within their discipline

Please visit here for detailed information: Master of Speech Language Pathology Program (https://www.isu.edu/slp/graduate-program/)

Doctor of Physical Therapy, DPOT

Please visit here for detailed information: Doctor of Physical Therapy Program (https://www.isu.edu/pt/)

Master of Occupational Therapy, DPOT

Please visit here for detailed information: Master of Occupational Therapy Program (https://isu.edu/ot/)
International Students

Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission:

- Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or
- Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or
- Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test or a score of 84 on the MTELP, or a score of 6 on the IELTS.

*Altered consideration may be given to items evaluated for admittance pending petition approval from the PhD in Rehabilitation and Communication Sciences Executive Council (PhD EC)

All applicants are reviewed on a competitive case-by-case basis. Qualified applicants may be invited for an interview with members of the SRCS faculty. Meeting entry level requirements for admission does not guarantee a seat in the program. Admission into the program is separate from an offer of funding.

Preferential consideration will be given to those applicants already holding graduate degrees / clinical certification and demonstrated academic potential in Audiology, Speech-Language Pathology, Occupational Therapy, Physical Therapy, or other related fields. Others may apply and will be considered for admission based on merit and potential for success.

General Requirements

The Doctor of Philosophy in Rehabilitation and Communication Sciences requires a minimum of 60 credits post graduate degree or equivalent across: Academic Core, Research Core, Specialized Program, and Dissertation areas. Prior to starting the program the applicant must have completed a bachelor’s degree; completion of a graduate degree is also preferred. If a student is accepted to and starts the program without having completed a graduate degree in Audiology, Occupation Therapy, Physical Therapy, or Speech Language Pathology, or if they are currently enrolled in a graduate program, they may be required to complete graduate-level clinical-entry didactic coursework within their primary discipline during their program (typically an additional 30 or more credit-hours). These students may or may not receive specific clinical education training along with clinical placements during their program, but it may be an option if desired and if approved by the student’s advisory committee, PhD EC, and PhD Program Directors.

All students and candidates must adhere to:

- ISU / ISU Graduate School policies, procedures, and requirements
- SRCS PhD program policies, procedures, and requirements

*Failure to adhere to the policies, procedures, or requirements, poor performance / progress, or unprofessional / unethical conduct may result in probationary actions or immediate dismissal from the program.

Special Requirement (may not apply to all students)

Thesis Equivalent (1-6 credits of CRCS 7050): Students who did not complete a graduate thesis (or comparable research project) must complete a supervised research project prior to starting their research practicum. The project will follow ISU Graduate School requirements, policies, and procedures with the exception of not having to submit the final document to the graduate school for approval.

Program Requirements

- The student / candidate must have a major advisor and advisory committee as defined in the SRCS PhD studies manual. Mutual consent from both the student / candidate and a major advisor must be obtained and maintained throughout the program of study. Following the student’s self-evaluation the major advisor and advisory committee will initially be responsible for monitoring and evaluating annual performance and progress. Student progress will also be evaluated by the PhD EC and PhD in RCS Program Directors.

- Curriculum Requirements: The program of study consists of four core elements: Academic Core, Research Core, Specialized Program, and Dissertation. Students will work with their major advisor and their advisory committee to develop a program of study, which must be approved by the PhD EC and PhD in RCS Program Directors. Programs of study are individualized per student therefore the courses listed below provide a sampling of potential options. Changes to the program of study, major advisor, or advisory committee members may occur and will be handled by the PhD in RCS petitions process as described in the SRCS PhD in RCS manual.
  - Academic Core (12 credits): Academic core is focused on enhancing the student’s understanding of the related professions, interprofessionalism, and pedagogical theory and application.

  - Research Core (15 credits): Research core facilitates the student’s understanding of statistics, statistical procedures, research design, scholarship, scientific dissemination, and grant writing through theoretical understanding and application of such procedures. Students are required to take a repeatable CRCS 8020, Doctoral Colloquium (1cr) each academic semester they are enrolled in the program.

Specialized Program (15 credits): Specialized program develops the student’s area of expertise and scholarship through coursework, independent studies, directed student learning, and guided research. At least 6 credits of basic or applied sciences outside of the CRCS must be taken and should be based on the student’s area(s) of interest and program needs. A main requirement of the Specialized Program element is the research practicum, CRCS 8050, where the student is mentored through a research project that results in a manuscript submitted for publication consideration to a refereed academic journal of appropriate caliber. The project must follow ISU graduate thesis guidelines, requirements, and procedures, with the following exceptions: a GFR is not required and neither is submission of the completed document to the graduate school for approval.

Dissertation (18 credits): Dissertation further enhances the student’s area of expertise and scholarship through development of their dissertation project(s) that follows ISU Graduate School requirements, policies, and procedures for dissertations. Dissertations should be primarily self-guided by the student and should take a minimum of one year to complete.

Courses

CRCS 7050 Thesis Equivalent Research Project: 1-6 semester hours.
Under the guidance of the major advisor and research committee the student will develop, conduct, analyze, interpret, and present a research project defense. The project and product should follow most of the ISU Graduate School guidelines regarding theses and dissertations other than requiring a GFR and approval from their departmental committee. A final manuscript is required for the post-graduate degree. Graded S/U. Program of study. PREREQ: Permission of instructor

CRCS 8001 Overview of Rehabilitation Disciplines: 3 semester hours.
Overview of the disciplines of Audiology, Occupational Therapy, Physical Therapy and Speech-Language Pathology. Examines interdisciplinary and interprofessional functions of rehabilitation professionals within multiple settings, including education, clinical practice, research, and administration. PREREQ: Permission of instructor

CRCS 8010 Mentored Teaching Practicum: 1 semester hour.
Mentored teaching experience within the specific discipline of the doctoral student. Graded S/U. May be repeated. Only 1 credit may count toward degree. PREREQ: Permission of instructor

CRCS 8020 Doctoral Colloquium: 1 semester hour.
Advanced study, student and faculty presentations, discussions of research in the rehabilitation fields that will include methods in interprofessional, interdisciplinary, multidisciplinary, and transdisciplinary research. Students in the Ph.D. program are required to take this each academic semester they are enrolled in the program and will attend and present their research during seminar presentations/discussions. Graded S/U. May be repeated. Only 1 credit may count toward degree.

CRCS 8030 Advanced Seminar in Rehabilitation and Communication Sciences: 1-6 semester hours.
Readings, preparations, and discussions involving subjects of concern for students. Graded S/U. May be repeated. Only 6 credits may count toward degree. PREREQ: Permission of instructor

CRCS 8031 Independent Study: 1-6 semester hours.
Directed learning via independent study of problems selected by student and faculty member. Graded S/U. May be repeated. Only 6 credits may count toward degree. PREREQ: Permission of instructor

CRCS 8032 Special Topics in Rehabilitation and Communication Sciences: 1-6 semester hours.
Individualized readings, preparations, and discussions of reports and projects in all areas of rehabilitation, speech and hearing science, speech-language pathology, audiology, occupational therapy, and physical therapy. Graded S/U. May be repeated. Only 6 credits may count toward degree. PREREQ: Permission of instructor
CRCS 8033 Special Topics Workshop in Rehabilitation and Communication: 1-6 semester hours.
Symposium of professionally related topics in workshop format. Meets for a minimum of 16 contact hours per credit with appropriate outside assignments, readings, or papers. May be repeated. Only 1 credit may be counted towards degree.

CRCS 8050 Research Practicum in Rehabilitation and Communication Sciences: 1-6 semester hours.
Under the guidance of the research practicum mentor and committee the student will develop, conduct, interpret, and present a research project that will be submitted for publication consideration to an academic peer-reviewed journal of appropriate caliber. Graded S/U. May be repeated. Only 3 credits may count towards degree. PREREQ: Permission of instructor

CRCS 8080 Predoctoral Independent Study: 1-9 semester hours.
Self-study of a range of topics and techniques relevant to Rehabilitation and Communication Sciences, which may include comprehensive examinations or preparations for undertaking dissertation research. Graded S/U. May be repeated. Only 3 credits may count towards degree. PREREQ: Permission of instructor

CRCS 8899 Experimental Course: 1-6 semester hours.
The content of this course is not described in the catalog. Title and number of credits are announced in the Class Schedule. Experimental courses may be offered no more than three times with the same title and content. May be repeated.

CRCS 9000 Dissertation: 1-9 semester hours.
Students will develop, conduct, analyze, and interpret research for their dissertation. May be repeated. Only 18 credits may count toward degree.

CRCS 9001 Dissertation: Summer Research: 1-6 semester hours.
Students conducting dissertation research may register for this course in the summer, if desired. May be repeated. 1 credit may count toward degree. PREREQ: Permission of instructor
