The student must fulfill the following requirements:

### Admission Requirements

The student must fulfill the following requirements:

1. Assume leadership roles in academics, rural and community health settings, research, professional associations or commercial industry;
2. Develop advanced clinical abilities that improve oral health and access to dental hygiene care;
3. Acquire research abilities that contribute to the scientific dental hygiene body of knowledge;
4. Assume responsibility for professional development through life-long learning capability; and
5. Provide a foundation for future doctoral education.

### Goals

Program goals of this graduate level dental hygiene program are to prepare professional dental hygienists to:

1. Assume leadership roles in academics, rural and community health settings, research, professional associations or commercial industry;
2. Develop advanced clinical abilities that improve oral health and access to dental hygiene care;
3. Acquire research abilities that contribute to the scientific dental hygiene body of knowledge;
4. Assume responsibility for professional development through life-long learning capability; and
5. Provide a foundation for future doctoral education.

### Master of Science in Dental Hygiene

The Master of Science degree in Dental Hygiene is an advanced degree; therefore, the program is designed for students who are licensed dental hygienists with baccalaureate degrees. Graduates will be prepared for various career opportunities within the health care arena.

**Dental Hygiene**

Director and Professor: Gurenlian

Emerti Professors: Bowen, Herzog, Paarmann, Hodges

Professor: Rogo

Associate Professors: Calley, Freudenthal, Johnson, Garland

Applicants can contact the Department at the following address:

Graduate Program Director
Department of Dental Hygiene
Division of Graduate Studies
921 South 8th Avenue, STOP 8048
Pocatello, Idaho 83209-8048
E-mail address: msdh@isu.edu
Telephone: (208) 282-2482

### General Requirements

A total of 37 credits, including a thesis (minimum of 6 credits), will be required for degree completion. Requirements include 7 courses (23 credits) in the core curriculum, 4 courses (a minimum of 11 credits) in an area of emphasis, and 3 credits of electives.

The core courses advance the theory and practice of dental hygiene and prepare students in research methodology to apply during the thesis process. A thesis is required because the Master of Science degree in Dental Hygiene is the terminal degree in the discipline and a research foundation is imperative to advance the theoretical knowledge base of the profession. In addition to the core curriculum, graduates complete an area of emphasis in dental hygiene education or rural and community health. Two required dental hygiene courses in the emphasis area, coupled with a practicum experience and a related elective course, provide a strong basis for advanced study and thesis work. To enhance the breadth of knowledge, students are required to complete a minimum of 3 credits of electives selected from related graduate coursework offered outside the Department of Dental Hygiene.

The program is an online graduate curriculum with on-campus visitations required for orientation, DENT 6619 Graduate Seminar II and oral examination for thesis defense. A maximum of 9 credits may be transferred officially to Idaho State University.
DENT 6618  Leadership Strategies to Improve Health Care  3
DENT 6619  Graduate Seminar II  1
DENT 6646  Health Research  3
DENT 6650  Thesis (minimum credits)  6

Elective course requirements (Program Director approval required)  3

Total Hours  37

1 Undergraduate statistics or biostatistics must be taken as a prerequisite. A minimum of "C" or better is required.

**Academic Requirements**

1. The ISU Graduate School will consider students who have been dismissed from another institution for causes that are not relevant to their current academic performance. Students admitted to this program will be subject to the academic policies and procedures of ISU.

2. This program is designed to be completed within two years, although this is not a requirement.

**Graduation Requirements**

1. A minimum of 30 semester hours is required for graduation, including 12 semester hours of coursework at the 6000 level.

2. Students must complete a plan of graduate study approved by the Program Director, Department of Dental Hygiene, Division of Graduate Studies, and by the ISU Graduate School.

**Courses**

**DENT 5596 Graduate Seminar I: 1 semester hour.**

This seminar uses web-based activities and on-site campus activities to assist students in developing skills and abilities essential for successful participation in the MSDH program. Graded S/U.

**DENT 5598P Professional Development Topics: 1-3 semester hours.**

A course for practicing professionals aimed at the development and improvement of skills. May be applied to graduate degrees under special circumstances. May be repeated. Graded S/U.

**DENT 5599 Experimental Course: 1-6 semester hours.**

This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**DENT 6605 Program Development and Evaluation: 3 semester hours.**

An overview of general principles of teaching, learning and evaluation in academic and community oral health programs. Emphasis on assessment, planning, implementation and evaluation of care.

**DENT 6610 Special Care Populations: 3 semester hours.**

Concepts related to providing oral health care for special care populations. Emphasis on assessment, planning, implementation and evaluation of care for individuals with transient or lifelong physical, mental, medical or social health needs.

**DENT 6612 Administration and Management of Healthcare Organizations: 3 semester hours.**

This course combines theoretical knowledge with practical application of principles and techniques for managing a healthcare environment and employees associated with providing care. Emphasis on organizational structure, human resource management, financial management, quality assurance, policy development, information management, grant writing and business planning.

**DENT 6615 Progressive Dental Hygiene Theory: 3 semester hours.**

Critical analysis of the dental hygiene process of care related to advanced preventive and therapeutic interventions to various population groups, technology and outcomes.

**DENT 6616 Progress Dent Hygiene Pract: 1 semester hour.**

This clinical course provides students with experiential learning opportunities to enhance self-assessment and peer/student evaluation in clinical dental hygiene. Formative assessment techniques are applied to the process of dental hygiene care: assessment, diagnosis, care planning, implementation and evaluation. The course will culminate in an individualized professional development plan constructed by each student based upon faculty, self and peer assessments as well as career goals. May be repeated for up to 2 credits. Graded S/U. PREREQ: DENT 6615 or permission of instructor.

**DENT 6618 Leadership Strategies to Improve Health Care: 3 semester hours.**

Application of leadership theory and models to professional issues, policy development, advocacy, coalition building, strategic planning, communication, conflict resolution and professional advancement.

**DENT 6619 Graduate Seminar II: 1 semester hour.**

This course provides students with experiential learning in dental hygiene practice, research, education, and innovations in technology. The course will culminate in an updated portfolio that addresses career goals within and beyond graduate education. PREREQ: DENT 6615 or permission of instructor. Graded S/U.

**DENT 6620 Advanced Educational Theory and Methods: 3 semester hours.**

Study of theory, principles, and research related to the faculty role in active teaching and learning, development of ethical reasoning, critical thinking and reflective judgment, development of curricular frameworks, outcomes and competencies, and course delivery methods. PREREQ: DENT 6605 or departmental approval.

**DENT 6621 Dental Hygiene Clinical Instruction and Administration: 3 semester hours.**

Theory and practices of clinical instruction and supervision, related to psychomotor skill development, competency-based evaluation, student mentoring and remediation. Examination of organizational and administrative philosophy and practice in curriculum planning, implementation, and evaluation based on accreditation standards. PREREQ: DENT 6620 or departmental approval.
DENT 6625 Dental Hygiene Education Practicum: 2-4 semester hours.
Individualized experience to apply principles and theories in dental hygiene education. Approval required for practicum sites. May be repeated for a maximum of 6 credits. Graded S/U. PREREQ: DENT 6616 and DENT 6620 or departmental approval.

DENT 6632 Community and Global Health: 3 semester hours.
A study of population groups that are at increased risk of poor health and a familiarity with policies and programs designed to reduce health inequalities. Emphasis on the ability to plan, implement, and evaluate an oral health program to increase access to care in an underserved target population.

DENT 6635 Rural and Community Health Practicum: 2-4 semester hours.
Individualized service-learning experience designed to apply theories in rural and community health to improve access to care. Approval required for practicum sites. May be repeated for a maximum of 6 credits. Graded S/U. PREREQ: DENT 6610 and DENT 6632 or departmental approval.

DENT 6640 Independent Study in Dental Hygiene: 2-3 semester hours.
Specific problems selected on the basis of interest and preparation. Individualized student effort under the guidance of the instructor. May be repeated up to 6 credits.

DENT 6646 Health Research: 3 semester hours.
Development of foundations in health research and design. The focus will be on effective literature searching with critical analysis and synthesis of evidence-based literature leading to identification of problems for research. PREREQ: Undergraduate Statistics or Biostatistics.

DENT 6650 Thesis: 1-9 semester hours.
Research project under supervision of academic faculty member. Minimum of 6 credits required. May be repeated. Graded S/U. PREREQ: DENT 6646 or permission of program director.

DENT 6699 Experimental Course: 1-6 semester hours.
This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.
