2008-2009 Academic Calendar

Use the MyISU portal (http://my.isu.edu) to register, add/drop, change sections, or withdraw from academic classes.

These dates are subject to change prior to the first day of class.

Fall Semester 2008
August 20.......... Commuter bus payment due, or reservation will be canceled
August 25.......... Fall classes begin
August 29.......... Last day to add/drop, change section, or audit early 8-week courses
September 1........ Labor Day holiday (no classes)
September 8........ Last day to withdraw from early 8-week courses
September 8........ Last day to register, add/drop, change section, or audit full semester courses
October 11 – 17.... Mid-term week
October 17.......... Last day to apply for December 2008 graduation
October 20.......... Late 8-week courses begin
October 24.......... Last day to add/drop late 8-week courses
October 31.......... Last day to withdraw from individual full semester & late 8-week courses
October 31.......... Commuter bus preregistration for Spring semester begins; payment due by January 7
November 7........ Class level registration begins for Spring 2009
November 24-29... Fall recess (no classes--Thanksgiving holiday November 27 – 28)
December 5........ Last day to withdraw from school
December 6 - 12.... Closed Week
December 13 - 19.. Final Examinations

Spring Semester 2009
January 7.......... Commuter bus payment due, or reservation will be canceled
January 12.......... Spring classes begin
January 16.......... Last day to add/drop, change section, or audit early 8-week courses
January 19.......... Martin Luther King/Idaho Human Rights holiday (no classes)
January 26.......... Last day to withdraw from early 8-week courses
January 26.......... Last day to register, add/drop, change section, or audit full semester courses
February 9......... Registration for Summer 2009 begins
February 16........ Presidents’ Day holiday (no classes)
March 2 – 6........ Mid-term week
March 6............ Last day to apply for May 2009 graduation
March 9............ Late 8-week courses begin
March 13.......... Last day to add/drop late 8-week courses
March 20.......... Last day to withdraw from individual full Semester & late 8-week courses
March 23 – 28...... Spring Break (no classes)
April 10.......... Commuter bus preregistration for Spring semester begins; payment due by August 19
April 24.......... Last day to withdraw from school
Apr. 25 – May 1.... Closed week
May 2 – 8.......... Final Examinations
May 9.............. Commencement

## Policy Statements

Catalogs, bulletins, course and fee schedules, etc., are not to be considered as binding contracts between Idaho State University and students. The University and its divisions reserve the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fee schedule; (c) change the academic calendar; (d) change admissions and registration requirements; (e) change the regulations and requirements governing instruction in, and graduation from, the University and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine, and shall apply not only to prospective students but also to those who are matriculated at the time in the University. When economic and other conditions permit, the University tries to provide advance notice of such changes.

Students enrolled in a program that is closed, relocated, or discontinued should be given notice of the closure as soon as is practical. Notwithstanding any other provision of State Board of Education policy, University policy, or University catalog statements to the contrary, arrangements should be made for enrolled students to complete affected programs in a timely manner and with minimum interruptions. When there is a similar program within the institutions governed by the Board, affected students will be provided with information on transferring to that program, although admission to any such program is contingent upon the availability of a position and the student meeting any applicable admission requirements. If there is no similar program available within the institutions governed by the Board or the student is not able to gain admission to a similar program, the University will make reasonable efforts to place the student in a related or comparable program within the University. If none is available, the University will make reasonable efforts to assist the student in locating to another program at the University or elsewhere for which he or she is qualified.

Idaho State University subscribes to the principles and laws of the State of Idaho and federal government, including applicable executive orders pertaining to civil rights, and all rights, privileges, and activities of the University are made available without regard to race, creed, color, sex, age, disability, or national origin. The University is an Equal Opportunity and Affirmative Action employer. Evidence of practices which are not consistent with such a policy should be reported to the Affirmative Action Office, Museum Building Room 420. The Affirmative Action Office reports to the Office of the General Counsel.

Postmaster: Standard bound printed matter postage paid at Pocatello, Idaho. The Idaho State University Undergraduate Catalog is published annually in the spring. The Graduate Catalog is published annually in the spring. Copies are made available through the Bookstore. The Undergraduate Catalog is published by the Office of the Provost and Vice President for Academic Affairs, 921 8th Ave. Stop 8063, Pocatello, Idaho 83209-8063.

## Undergraduate Programs

(For Graduate Programs, see Graduate Catalog)

### Programs:
- Accounting (BBA) 151
- Actuarial Science (M) 146
- Actuarial Science (BS) 143, 146
- Actuarial Science (O) 122
- Advertising/Public Relations (E) 118
- American Indian Studies (M) 70
- American Studies (BA, M) 66
- Anthropology (BA, M) 70
- Applied Economics (O) 92
- Applied Mathematics (Music lessons) 128
- Applied Science (T) 132
- Arabic (C) 112
- Art (AA, BA, BFA, SS) 73, 74, 174
- Art History (M) 74
- Art (Studio) (M) 74
- Audiology (Pre-) (E) 207
- Bachelor of Science in Health Sciences Degree 34
- Behavior Disorders (E) 179
- Biochemistry (BS) 78, 88
- Biological Sciences (SS, TM, Tm) 170, 174
- Biological Sciences (T) 102
- Biology (AS, BA, BS, M, Ee) 77, 78, 81
- Biocore (T) 131-132
- Botany (BS, M) 79, 81
- Business (AS, M) 152
- Business Administration (BBA, E, Minor for non-Business majors) 150, 153, 154
- Business Education (SS, TM, Tm) 170, 175
- Chemistry (BA, BS, BS/MS, M, SS, TM) 87, 170, 175
- Chinese (C) 112-113
- Civil Engineering (BS) 195
- Clinical Laboratory Science (BS, M) 82
- Coaching (Athletic) (M) 185
- Communication and Rhetorical Studies (AA, BA, BS, SS, TM) 89-90, 170-171, 175
- Communication Sciences and Disorders (BS) 209
- Community/Worksites Health (Emphasis in Health Education) and completed at Creighton University in Omaha, Nebraska) 228
- Computer Information Systems (BBA, BS/MS, M, SS, TM) 220
- Computer Information Systems (BBA, Post-Baccalaureate Certificate, M) 151, 153, 154
- Computer Science (BS, M) 201
- Consumer Economics (M, M) 164, 171
- Costume (Theatre) (M, O) 146
- Counseling (C; see Graduate Catalog for degrees) 213-214
- Creative Writing (M, O) 95, 96
- Criminal Justice (AA) 141
- Dance (M) 143
- Dance (Studio) (C) 144-145
- Dance (Studio) (E) 143
- Dental Hygiene (BS) 215-216
- Dental Science (courses only; the Idaho Dental Education Program is a cooperative program beginning at Idaho State University and completed at Creighton University in Omaha, Nebraska) 218
- Dietetics (BS) 222-224
- Early Childhood Education (BA) 164-165
- Early Childhood K-8 Certification (E) 165
- Early Childhood Special Education (E) 165
- Earth and Environmental Systems (BS, NS) 101-103
- Ecology (BS, M) 79, 81
- Economics (BA, BS, M, TM, Tm) 92, 171
- Economics, Applied (O) 92
- Economic Theory (O) 92
- Education, Elementary (BA, BS) 168-169
- Education, Secondary (BA, BS) 170-176
- Educational Interpreting (BS) 210
- Electrical Engineering (BS) 197
- Elementary Education (BA, BS) 168-169
- Engineering (see also Civil, Electrical, Mechanical, and Nuclear Engineering) 193-202
- Engineering Geology (E) 195
- English (AA, BA, Be, M, O, SS, TM, Tm) 94-96, 169, 170, 175
- English (Creative Writing) (M, O) 95, 96
- English (Professional Writing) (O) 95
- English (Writing) (M) 96
- English as a Second Language (ESL) (TM) 171
- Entrepreneurship in Small Business Management (E) 152-153
- Environmental Change, Global (T) 103
- Environmental Geochemistry (T) 103
- Environmental Health (T) 103
- Environmental Policy and Management (T) 103
- Ethics (M) 99
- Exercise Science (E) 182-183
- Family and Consumer Sciences (BA, BS, SS, TM) 163-164
- Female Corrections (O) 141-142
- Finance (BBA) 151-152
- Folklore (M) 100
- Foreign Languages (See Arabic, Chinese, French, German, Japanese, Latin, Russian, Shoshoni, Spanish) 111-112
- French (AA, BA, M, TM, Tm) 111, 112, 171
- General Business (BBA) 152
- General English (M, O) 94, 96
- General Family and Consumer Sciences (BA, BS) 163
- General Studies (AA, BA, SS, M) 33, 46
- Geochronology, Environmental (T) 103
- Geology (AS, BA, BS, M, SS, TM) 101-104, 172, 175
- Geology (Engineering) (E) 195
- Geosciences (see Geology) 228
- GeoTechnology (M) 103-104
- German (AA, BA, M, TM, Tm) 111, 112, 172
- Global Environmental Change (T) 103
- Germanic (M, T) 103
- Guitar (specialty in Bachelor of Music) 126-127
- Health Care Administration (BS) 226
- Healthcare Information Systems (BBA) 152, 227
- Health Education (BA, BS, M, SS, TM, Tm) (also non-teaching Minor) 172, 175-176, 220-221
- Health, Environmental (T) 103
- Health Physics (E) 131-132
- History (AA, BA, Be, M, TM, Tm) 106-107, 169, 172
- Human Exceptionality (BA, BS) 179-180
- Human Resource Management (E) 153
- Instrumental Music (M, O) 127
- International Commerce (M) 153
- International Studies (BA, M) 109-110
- Japanese (AA, M) 112
- Journalism (E) 118
- Language, Literature, and Culture (O) 109
- Latin (AA) 112
- Latino Studies (M) 70-71
- Law (see Pre-Law) 141
- Law and Economics (O) 92
- Law Enforcement (O) 141 (also see Technical Programs, p. 3)
- Linguistics (M) 71

### Pre-Professional Programs

The student in pre-professional programs will typically take courses at Idaho State University for their first two years and complete the program at a cooperating University elsewhere.

- Pre-Architecture
- Pre-Counseling
- Pre-Dentistry
- Pre-Law
- Pre-Medicine
- Pre-Occupational Therapy
- Pre-Optometry
- Pre-Osteopathic Medicine
- Pre-Pharmacy
- Pre-Physical Therapy
- Pre-Physician Assistant
- Pre-Pediatric Medicine
- Pre-Student Affairs
- Pre-Veterinary Medicine

### Academic Programs

The programs in the first alphabetical list below are offered in all Colleges of the University except the College of Technology. The programs in the College of Technology are listed together in the second list. Shown after each program is at least one page number where information will be found.

### Abbreviations:
- AA: Associate of Arts
- AAS: Associate of Applied Science
- AS: Associate of Science
- BA: Bachelor of Arts
- BAS: Bachelor of Applied Science
- BAT: Bachelor of Applied Technology
- BBA: Bachelor of Business Administration
- BFA: Bachelor of Fine Arts
- BM: Bachelor of Music
- BME: Bachelor of Music Education
- BS: Bachelor of Science
- BSHS: Bachelor of Science in Health Science
- BS/MS: Combined Bachelor of Science and Master of Science
- BUS: Bachelor of University Studies
- C: Courses only; no degree, major or minor
- E: Emphasis
- Ec: Elementary Teaching Emphasis
- M: Minor
- O: Option
- P: Pre-Professional Program
- PharmD: Doctor of Pharmacy
- PharmD/MBA: Combined Doctor of Pharmacy and Master of Business Administration
- SS: Secondary Single Subject Teaching
- T: Track
- TM: Secondary Teaching Major
- Tm: Secondary Teaching Minor
Management (BBA) 152
Management, Sport (E, M) 184-185, 186
Marketing (BBA) (also M for non-Business majors) 152, 154
Marketing and Management (Eastern Idaho Technical College AAS) 155 (also see Technical Programs, p. 3)
Mass Communication (BA, M, Tm) 118-119, 171
Mathematics (AS, BS, Ee, M, SS, TM, Tm) 121, 169, 173, 176
Mechanical Engineering (BS) 198
Media Studies (E) 118
Microbiology (BS, M) 80, 81
Military Science (Army ROTC) (M) 124
Museum (C) 125-126
Music (BA, BS, BM, BME, M, and Private Lessons) 126-128
Music Education (BME) 127
Native American Business Administration (E) 153
Nuclear Engineering (BS) 200
Nursing (BS) (see also Associate Degree Nursing Program and Practical Nursing Program under Technical Programs) 205-206
Operations Management (E) 153
Organizational Communication (E, M) 90
Outdoor Education (E, M) 183-184, 185-186
Percussion (specialty in Bachelor of Music) 126-127
Performance and Choreography (Dance) (E) 143
Pharmaceutical Science (M) 238-239
Pharmacy (PharmD, PharmD/MBA) 235-236
Philosophy (BA, M) 98-99
Philosophy and Religion (M) 99
Photography (T) 118
Physical and Occupational Therapy (C) (see Graduate Catalog for degree) (see also Physical Therapist Assistant program under Technical Programs, p. 3) 229
Physical Education (BA, BS, SS, TM) 176, 182-185
Physical Education Activity (C) 188-191
Physical Education Teaching (E) 183
Physics (AS, BA, BS, M, TM, Tm) (see also Health Physics) 131, 173
Piano (Electro-piano specialty in Bachelor of Music) 125, 126-127
Policy and Management, Environmental (T) 103
Political and Economic Development (O) 109
Political Science (AS, BA, BS, M, TM, Tm) 135, 173
Pre-Architecture (C) 76
Pre-Audiology (E) 209-210
Pre-Law (E) 107, 135 (see also Law and Economics)
Pre-Speech-Language Pathology (E) 210
Professional Writing (O) 95
Psychology (BA, BS, M, Tm) 138, 173
Radiographic Science (AAS, BS) 231
Rhetorical Studies (E, M); see also Communication and Rhetorical Studies 90, 90-91
Russian (AA, M, Tm) 112, 173
School Health (E) 220
Science (Ee) 169
Secondary Education (BA, BS) 170-176
Shoshoni (AA) 112
Sign Language Studies (AS, M) 210
Small Business Management (Entrepreneurship and) (E) 152-153
Social Science (C, SS, TM, Tm) 173, 176
Social Work (BA) 140
Sociology (BA, M, TM, Tm) 140, 174
Spanish (AA, BA, M, TM, Tm) 111-112, 174
Special Education (see Human Exceptionality) Speech Pathology (Pre) (E) 208
Sport Management (E, M) 184-185, 186
Sport Science (see Physical Education)
Stringed Instruments (specialty in Bachelor of Music) 126-127
Studio (Art) (M) 74
Technical Theatre (M, O) 146
Technical Theatre and Costume (M) 146
Television (E) 118
Theatre (BA, BS, BFA, M, SS, TM, Tm) 145-146, 174, 176
Theatre History and Dramatic Literature (M) 146
United States and World Affairs (O) 110
University Studies (BUSB) 34
Visual Communication (E) 118
Voice (O) 127 (specialty in Bachelor of Music) 126-127
Wind Instruments (specialty in Bachelor of Music) 126-127
Women’s Studies (M) 148
Writing (English) (M) 96
Writing, Creative (M, O) 95, 96
Writing, Professional (O) 95
Zoology (BS, M) 80-81

Technical Programs

Abbreviations:
AAS Associate of Applied Science
AASBT Associate of Applied Science in Business Technology
AS Associate of Science
ATC Advanced Technical Certificate
BAS Bachelor of Applied Science
BAT Bachelor of Applied Technology
BS Bachelor of Science
BSHS Bachelor of Science in Health Science
C Courses Only (no certificate or degree)
Ce Certificate (different from PSTC or TC)
PSTC Post-Secondary Technical Certificate
TC Technical Certificate

Programs:
Accounting Technology (TC, AAS, BAS) 251
Administrative Technology (TC) 251
Adult Basic Education (C) 303-304
Aircraft Maintenance Technology (TC, ATC, AAS, BAS) 245
Airframe (in Aircraft Maintenance Technology (TC) 245
Associate Degree Nursing (AAS, BAS, BSHS) 246-247
Automotive Collision Repair (TC) 247
Automotive Collision Repair and Refinishing (AAS, BAT) 248
Automotive Refinishing (TC) 247-248
Automotive Repair and Refinishing (ATC) 248-249
Automotive Technology (ATC, AAS, BAS) 287
Building Construction Technology (ATC, AAS, BAS) 249
Business Administration (in Marketing and Management Occupations) (AAS, BAS) 285
Business Information Technology (TC) 251
Business Technology (TC, AAS, BAS) • Technical Certificate available in Marketing and Management Occupations 291 • Associate of Applied Science available in Cosmetology, Massage Therapy, and Practical Nursing programs 283, 282, 299
Child Development (PSTC, TC, AAS, BAT) 253-254
Civil Engineering Technology (ATC, AAS, BAS) 251
CNC Operator (in Computerized Machining Technology) (ATC) 261-262
CNC Programmer (PSTC) 261
Computer Aided Design Drafting Technology (ATC, AAS, BAS) 256-257
Computer/Business Equipment Technology (AAS, ATC, TC, BAS) 257-258
Computer Operator (TC) 259-260
Computer Programmer (TC) 260

Computer Software Development Technology (TC, ATC, AAS, BAS) 259-260
Computerized Machining Technology (ATC) 261-262
Corporate Training (in Human Resource Training and Development) (O) 285
Cosmetology (TC, AASBT) 263
Culinary Arts Technology (TC, AAS, BAS) 274-275
Culinary Management (TC, AAS, BAS) 264
Dental Laboratory Technology (AAS, BSHS) 266
Diesel/Diesel Electric Technology (ATC, AAS, BAS) 267-268
Electrical Technician (TC, ATC, AAS, BAS) 268-269
Electromechanical Technology (ATC, AAS, BAS) 269-270
Electronic Systems Technology (TC, ATC, AAS, BAS) 272
Electronic Wireless/Telecom Technology (ATC, AAS, BAS) 274
Emergency Management (AS) 275
Energy Systems Electrical Engineering Technology (AAS, BAS) 276
Energy Systems Instrumentation and Controls Engineering Technology (AAS, BAS) 277
Fire Services Administration (AS) 278-279
Geomatics Technology (BS) 279
Graphic Arts/Printing Technology (ATC, AAS, BAS) 281
Graphic Arts - Desktop Publishing/Print Media 281
Graphic Arts - Graphic Communication (AAS, BAS) 281
Health Information Technology (PSTC, AAS, BSHS) 285
Human Resource Training and Development (BS) 284
Industrial Controls (ATC, AAS, BAS) 287
Instrumentation and Automation Engineering Technology (ATC, AAS, BAS) 286-287
Internet Programmer (AAS) 260
Language Specialist (AAS) 260
Laser/Electro-Optics Technology (ATC, AAS, BAS, TC) 272, 289
Law Enforcement (TC, AAS, BAT) 290
Legal Office Technology (in Business Information Technology (TC, AAS, BAS) 251, 253
Machining Technology, Computerized (ATC) 261-262
Marketing and Management (AAS, BAT) 291-292
Massage Therapy (TC; AASBT, BAT) 292-293
Medical Assisting (AAS, BAT, BSHS) 294
Medical Office Technology (TC) 251
Medical Transcription (PSTC) 282
Nail Technology (TC) 263
Nursing (see Associate Degree Nursing and Practical Nursing)
Office Technology (see Business Information)
Paralegal Studies (AAS, BAT) 295
Paramedic Science (ATC, AAS, BSHS) 296-297
Physical Therapist Assistant (AAS, BAT, BSHS) 298
Power Plant (Aircraft) (ATC) 245
Practical Nursing (C, ATC, AASBT) 299
Professional-Technical Teacher Education (O) 285
Respiratory Therapy (AS, BSHS) 300
Restaurant Management (AAS, BAS) 265
Surveying (see Geomatics Technology) Web Site Design and Management (TC, AAS, BAT) 295-296
Welding (TC, ATC, AAS, BAT) 302

Also Offered in the College of Technology:
• WORKFORCE TRAINING 304
• Southeast Idaho Region 5 Tech Prep 304
About The University

Idaho State University has served the citizens of the state since 1901 when the institution was first established as the Academy of Idaho. Renamed the Idaho Technical Institute in 1915 and reorganized as the Southern Branch of the University of Idaho in 1927, it was established as Idaho State College in 1947. By action of the 37th Idaho Legislature, the institution became Idaho State University on July 1, 1963. The University’s Strategic Plan is online at http://www.isu.edu/acadaff/planning.html

Bachelor’s and master’s degrees in a variety of fields are awarded by the College of Arts and Sciences, College of Business, College of Education, College of Engineering, Kasiska College of Health Professions, College of Pharmacy, and the Graduate School. Terminal degrees offered at Idaho State University include Master of Business Administration, Master of Fine Arts, Doctor of Philosophy, Doctor of Arts, Doctor of Education, and Doctor of Pharmacy. Certificate and Advanced Technical Certificate programs of varying lengths, an Associate of Applied Science degree, a Bachelor of Applied Technology degree, and several Bachelor’s degrees are included in the curricula of the College of Technology.

Role and Mission

Idaho State University is a broad-based regional public doctoral research University, providing a broad range of educational services to a culturally diverse population of students and to the state. The University is Idaho’s center for education in the health professions. Idaho State University offers a wide array of academic programs: in the health professions and related biological and physical sciences and educator preparation (its areas of primary emphasis); in business and engineering education and technical training (its areas of continuing emphasis); and in the liberal arts. It is committed to maintaining a strong liberal arts and sciences program as the basis of other academic disciplines and as an independent, multifaceted field of inquiry. The University offers graduate programs in a number of fields and is a national center for the Doctor of Arts degree. Its College of Technology provides high-quality education and training in response to the needs of students and private industry. Idaho State University is dedicated to excellence in teaching. The University engages in sustained and significant research as an essential component of its academic and public service programs. It views public service as an integral part of its mission. Idaho State University is committed to providing accessible, high quality education to the diverse citizenry of its region and state, and delivers comprehensive and creative outreach programs using the latest available technology. The University works in collaboration with other state and regional postsecondary institutions in serving its constituencies. The University offers a range of academic and support services to help all students succeed. It encourages student and public participation in its cultural, recreational and athletic programs, and welcomes the continuing involvement of alumni and other friends in its endeavors.

Idaho State University...

–is a broad-based regional public doctoral/research university...

Idaho State University provides both general education and specialized programs and fulfills a community college role. It offers certificates, associate, baccalaureate, master’s and doctoral degrees, and post-doctoral residency programs. The University serves the current and emerging needs of the state and region through its wide range of education, research and public service programs for students, the general public, public agencies, and private industry.

Idaho State University is committed to serving the higher education needs of the citizens of the state and the intermountain region. The University seeks to attract and retain high quality undergraduate and graduate students from Idaho and the Intermountain West, while regarding eastern Idaho—an area including the Magic Valley east to Wyoming, north to Montana and south to Utah—as its primary service area.

–is Idaho’s center for education in the health professions...

The University serves as Idaho’s lead institution for education in the health professions and related biological and physical sciences. Idaho State University delivers statewide comprehensive academic programming, professional continuing education, basic and applied research, and specialized public service in the health sciences.

–offers an array of academic programs...

Idaho State University offers students a full range of academic programs, including majors in the liberal arts and a number of professional fields—the health sciences, business, education and engineering. All Idaho State University academic programs strive for the highest standards of academic excellence, and are responsive to the changing and increasingly complex needs of students and the professions they serve. They recognize that ongoing research is critical to maintaining that excellence and to providing high quality service to public agencies, private enterprise and to the citizens of Idaho.

–has a primary emphasis in educator preparation...

The State Board of Education has designated educator preparation as a primary emphasis area at all Idaho universities. Idaho State University views this area as a field of major importance. The University provides strong educator preparation programs as well as a comprehensive outreach component, serving school districts throughout Idaho.

–is committed to maintaining a strong liberal arts program...

Idaho State University recognizes that the heart of its undergraduate program is its rigorous liberal arts core—its arts and sciences curricula. These programs provide focused study in arts and sciences, essential general university courses, and the foundation for an understanding of other disciplines. Their emphasis on critical thinking skills
is essential to the lifelong education of an informed citizenry. The liberal arts must remain strong and responsive to the needs of students, of other academic units at the University, and the professions which its graduates enter.

–offers graduate programs in a range of disciplines...

Idaho State University’s Graduate School fosters and coordinates an array of high quality post-baccalaureate programs at the Master’s and Doctoral levels. The graduate school encourages monitoring of students by faculty and provides support for research activities throughout the University. The graduate school is committed to increasing public awareness of the importance of the University’s Doctor of Arts program and its role as a national center for that program.

–provides high quality applied technology programs...

Applied technology programs help Idaho State University fulfill its community college function and are responsive to the emerging needs of business and industry. These programs are well-coordinated with university academic courses, particularly those designated as primary emphasis areas. The College of Technology designs and provides programs in response to the employment and economic development needs of the region and state.

–is dedicated to excellence in teaching...

Idaho State University recognizes the importance of effective teaching and provides regular instructional improvement opportunities for all faculty. Part-time faculty and graduate students who teach are given appropriate guidance and oversight, and are expected to participate, along with full-time faculty, in activities related to instructional improvement. Teaching excellence is recognized and rewarded by the University.

–engages in sustained, significant research...

Idaho State University recognizes that ongoing research is essential to increasing our understanding of the world around us, to developing quality instruction, to promoting economic development and enhancing the quality of life. The University will encourage, support and reward quality research activity, particularly that which is related to its mission and to the needs of communities, businesses and industries in the region.

–considers public service an integral part of its mission...

The University views professional and public service as a crucial component of its role as a public institution, and will continue to provide a wide range of programs and services in response to the changing needs of the citizens of Idaho. The public service work of faculty, staff and students is recognized and rewarded.

–provides accessible, high quality education...

Idaho State University is committed to serving the citizenry of the region and state through an open enrollment policy for general university students. The University encourages and respects diversity among its students, faculty and staff. Idaho State University maintains high academic standards through a carefully managed process designed to provide the greatest opportunity for academic success for entering students.

–delivers comprehensive and creative outreach services...

Idaho State University provides degree and non-degree outreach programs in a coordinated, integrated effort which is responsive to the needs of students. Outreach efforts are clearly related to the University’s statewide and regional missions, and provide high quality programs in the most effective and efficient manner possible, through on-site classes taught by faculty and via telecommunications or other distance learning systems.

–offers a range of academic and support services to students...

Idaho State University’s student services programs are committed to the development of the whole person, and recognize that each student is unique and has worth and dignity. The Division of Student Affairs, Offices of Enrollment Planning and Academic Services and faculty offer programs to meet the current and projected needs of students. These offices provide programs on admissions, admissions counseling and advising, registration, financial aid, health care, child care, housing, employment, career and personal counseling, testing, academic skills development and placement. Student organizations and campus committees provide opportunities for personal and social growth.

–encourages student and public participation in a variety of cultural programs...

Idaho State University offers its students and all Idaho citizens a chance to participate in, learn from, and simply enjoy a variety of cultural programs and events in music, the Idaho State University arts, drama and natural history, to name a few. The Idaho Museum of Natural History, designated as a state museum, provides visitors with a window on Idaho’s past. The museum offers Idahoans and students at any educational level an array of on-campus and outreach programs about our natural heritage.

–encourages student and public participation in a variety of recreational and athletic programs...

Recreational and athletic programs are integral parts of the University, offering diverse opportunities for student competition and public involvement. The programs are guided by the principle that student-athletes are students first, with their academic success as the first priority. The public service work of these programs provides encouragement and instruction to young student-athletes throughout the region. They foster and enhance a positive institutional spirit and sense of community through their on-campus and outreach efforts.

–welcomes the involvement of alumni and other friends...

Idaho State University’s extended community includes its alumni and other friends—citizens of Idaho and from around the world who maintain an active interest in, and who may wish to support, the development and progress of the University. Idaho State University welcomes their ongoing involvement in its endeavors. The University strives to keep them informed about its activities, and to provide them with opportunities for participation in a range of programs serving the educational needs of the state and region.
Accreditation

Idaho State University is accredited by the Northwest Commission on Colleges and Universities. In addition, the University is accredited or approved for specific programs by the following organizations:

- Accreditation Board for Engineering and Technology, Inc.
- Accreditation Council for Graduate Medical Education
- Accreditation Council for Occupational Therapy Education
- Accreditation Council for Pharmacy Education
- Accreditation Review Committee for Physicai Assistants, Inc.
- Accrediting Board for Engineering and Technology
- American Assembly of Collegiate Schools of Business
- American Association for Accreditation of Laboratory Animal Care
- American Association for Health Education
- American Association of Colleges of Nursing
- American Association of Medical Assistants
- American Association of Museums
- American Bar Association
- American Chemical Society
- American Culinary Federation, Inc.
- American Dental Association Commission on Dental Accreditation
- American Dietetics Association
- American Health Information Management Association
- American Psychological Association
- American Speech-Language-Hearing Association
- American Equipment Distributors
- Association for Assessment and Accreditation of Laboratory Animal Care, Int'l.
- Association of University Programs in Health Administration
- Association to Advance Collegiate Schools of Business (AACSB, International)
- Automotive Standard Excellence
- Cisco
- Commission on Accreditation of Allied Health Education Programs
- Commission on Accreditation in Physical Therapy Education (of the American Physical Therapy Association)
- Commission on Collegiate Nursing Education
- Computer Science Accreditation Board
- Computing Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.
- Council for Education in Public Health
- Council for Education of the Deaf
- Council for the Accreditation of Counseling and Related Educational Programs
- Council on Social Work Education
- Federal Aviation Administration
- Idaho Board of Nursing
- Idaho Bureau of Occupational Licenses
- National Accrediting Agency for Clinical Laboratory Sciences
- National Association for Industrial Technology
- National Association of State Directors of Teacher Education and Certification
- National Automotive Technicians Education Foundation
- National Council for Accreditation of Teacher Education
- Northwest Commission on Colleges and Universities
- PrintEd
- State of Idaho Peace Officers Standards and Training
- The American Association of State Colleges and Universities
- The Council of Graduate Schools in the United States
- The Western Association of Graduate Schools

The University holds membership in numerous organizations which have specific academic requirements. Among these are the American Association of University Women, the Council of Graduate Schools in the United States, the Western Association of Graduate Schools, the National Commission on Accrediting, and the American Association of State Colleges and Universities.

Student Outcomes Assessment

All undergraduate academic programs at four year public institutions in Idaho are required to assess student learning in the major and general education programs. Similar requirements for assessment also appear in the new guidelines issued by the Northwest Commission on Colleges and Universities which provides Idaho State University’s institution-wide accreditation.

Idaho State University’s goal is to encourage students to develop abilities and acquire knowledge that will be of lasting benefit in their personal and professional lives. To ensure that this goal is met, a program of student outcomes assessment has been implemented to improve the teaching and learning process.

Comprehensive information that includes student performance and student opinion is vital to the success of the assessment program. To provide this information, undergraduate students in the academic division may be asked to participate in a variety of assessment activities which may include formal and informal examinations, interviews, surveys and follow-up studies after graduation.

Federal Family Education Rights and Privacy Act of 1974

Idaho State University, in compliance with the Family Educational Rights and Privacy Act (FERPA), is responsible for maintaining educational records and monitoring the release of information of those records. Staff and faculty with access to student educational records are legally responsible for protecting the privacy of the student by using information only for legitimate educational reasons to instruct, advise, or otherwise assist students.

Only those records defined as “directory information” may be released without the express written permission of the student. Directory information includes the student’s name, address listings, telephone listings, e-mail addresses, full-time/part-time status, class level, college, major field of study, degree types and dates, enrollment status, club and athletic participation records, and dates of attendance including whether or not currently enrolled. No other information contained in a student’s educational records may be released to any outside party without the written consent of the student.

A student may restrict release of all directory information by filing a Declaration of Non-Disclosure of Educational Record Information form in the Office of Registration and Records. A student may choose to restrict release of their address and telephone listings only. This may be done through their MyIdaho State University portal by accessing the Student Address Change Request form under Student Records Information. This restriction will apply to the students’ address and telephone listings only, all other directory listings will continue to be available for release.

Students must request complete directory information restriction or address/phone listings restrictions during the first week of fall term to prevent their information from being published in the Student Directory. Any restriction is permanent and remains in place even after the student has stopped attending or has graduated from the University unless the student requests, in writing, that it be removed. Additional FERPA information may be found on the web at: http://www.isu.edu/areg/ferpa-facts.shtml
Alumni Association and Foundations

Alumni Association
www.isu.edu/alumni
alumni@isu.edu

The mission of the Idaho State University Alumni Association is to promote the welfare and to advance the objectives of Idaho State University through the sustained involvement of its alumni by providing philanthropic, intellectual and social opportunities.

The association is governed by a board of directors and administered through the office of Alumni Relations, 554 S. 7th Avenue, Pocatello, in the H. F. Magnuson House.

Specific goals are to identify alumni and friends to assist Idaho State University in strengthening support from its constituencies, to inform alumni and friends about Idaho State University; to provide for the efficient management of the Alumni Association, and to involve and motivate alumni and students to maintain their affiliation and support of Idaho State University.

The officers and directors meet three times a year with the director of alumni relations, who is appointed by the University administration.

Idaho State University Bengal Foundation

The Idaho State University Bengal Foundation is a nonprofit organization formed in 1967 under the laws of the State of Idaho. It operates exclusively for the benefit of Idaho State University. The Foundation works to solicit, receive, hold and manage funds and property for the benefit of all the programs of the University. Staff members bring a wide range of business and professional competence to their efforts on behalf of the University.

Gifts to the Foundation may be unrestricted for use by the University in areas of greatest need, or donors may specify the use. Private funding helps provide scholarships, professorships, scientific equipment, building funds, and other assistance to academic and vocational/technical programs and instruction and co-curricular pursuits. Private support is recognized as a vital and necessary supplement for the funding of Idaho State University. All gifts to the Foundation, when itemized, are tax deductible.

The Idaho State University Foundation is located on the first floor of the Administration Building.

Physical Facilities and University Services

The Idaho State University campus is situated on 240 developed acres of its 1100 acres of property. Its 105 buildings are surrounded by 180 acres of attractively maintained landscape. There are over 5000 parking spaces available throughout the campus.

For convenience, a free on-campus shuttle bus is available during the fall and spring semesters. Riding a bicycle is also a popular way to get from upper to lower campus. The campus is located just off of the interstate, making access very easy. The University commuter bus system brings students to the campus from over one hundred miles away from Twin Falls, Rexburg, Idaho Falls and areas inbetween.

All seven colleges are housed in the various campus buildings ranging from the oldest, Frazier Hall (built in 1925), to the most recently completed building, the L.E. and Thelma E. Stephens Performing Arts Center (2004). Remodeling and updating of the campus facilities is an ongoing process. The recreation center was expanded in 1996, the physical science complex was remodeled in 2000. The Stephens Performing Arts Center houses the Department of Theatre and Dance. It boasts three state-of-the-art performance venues and a fantastic public entry rotunda. The facility and the various, wonderful performances are a must-see part of campus. A new 256,000 square foot, multi-use facility known as the “Rendezvous” is scheduled for completion during 2007. It is located in the center of campus and will contain 72 new student suites that will house 300 students, a 50 classroom academic building with a 250 seat planetarium, a new core food service facility to serve housing students and retail customers, as well as a 120 seat computer lab and numerous styles of study and relaxation spaces. This expansive facility will create a new social and academic heart for the campus. All of the campus buildings are accessible to the disabled.

Occupied in 1971, Holt Arena was the first enclosed football stadium on any university campus. The arena is used for football games, indoor track meets, and various trade and garden shows. Remodeled in 2002, Reed Gymnasium provides a unique and exciting venue for basketball games, volleyball, and other sporting events. A world class climbing wall is located in the Recreation Center along with racquetball courts, a running track, weight rooms and other sports equipment as well as a swimming pool.

Historic Davis Field provides a well-maintained, multi-use field and outdoor running track where Idaho State University hosts a variety of events including soccer and track tournaments and Special Olympics. Bartz Field is a 70,000 square foot, dog-friendly field used for events such as softball, archery, sledding, cross country, golf, and rugby. The Pocatello Greenway passes through the campus above Davis Field, connecting with several miles of trail through the Portneuf Valley.

Outdoor recreation opportunities abound on the many acres of developed and undeveloped campus grounds. A disc golf course, challenging cross country track, bike trails, jogging trails, hiking areas, and walking paths are part of the Idaho State University campus, and softball, track,
ultimate frisbee, soccer, and rugby are all options for the active student. Summer and winter sports are also available only minutes away in the beautiful mountains surrounding the city.

Idaho State University-Idaho Falls provides modern classroom facilities and a student union. The University also has outreach centers available to assist students in Southeast Idaho, Twin Falls, and Boise.

**Bookstore**

The Idaho State University Bookstore, located in the lower level of the Pond Student Union Building, carries a large selection of new and used textbooks, software, office supplies, Idaho State University clothing, and general interest books.

Regular Bookstore hours are 8 a.m. - 5 p.m. Monday through Friday, and 10 a.m. - 2 p.m. Saturdays, with extended hours during registration. Call the Bookstore at (208) 282-3237 (in Pocatello) or 1-800-688-478 (outside Pocatello) for more information.

Textbooks may be purchased online using our efollett.com service or a student’s ISU Portal. See the link, “Buy Books.”

The Bookstore maintains a branch office in Idaho Falls (Idaho State University-Idaho Falls, (208) 282-7940) and Twin Falls (CSI Bookstore, (208) 733-9554). At some other outreach locations (Soda Springs, Rexburg), faculty will sell books the first night of class. Elsewhere (Boise, Twin Falls), students use local bookstores or internet book sources.

Students should purchase textbooks as early as possible to ensure good selection. A full refund will be paid for unmarked books, accompanied by the original sales slip, that are returned by the 7th day from the start of Fall or Spring semester. Books that are marked or damaged will be refunded at used book price.

**Information Technology Services**

The Information Technology Service Center, located in the basement of the College of Business building, is dedicated to meeting the computing needs of students. Ten computer labs in Pocatello, three in Idaho Falls, and one each in Twin Falls, Boise, and Blackfoot are open to Idaho State University students. Students with a PC and wireless access card may obtain Help Desk assistance in setting up Internet access. Wireless laptops are available for checkout from several locations providing students with flexible mobile computing. Students living on-campus with their own PC may sign up for DSL to obtain fast Internet connectivity. Dial-up access to the Internet and Idaho State University resources is available for any student with a personal computer both on- and off-campus. Kiosk computers are installed in numerous locations throughout campus to provide fast and convenient stand-up email and Internet access.

Additional labs with specialized discipline-specific software, operated by individual departments, but supported by Academic Computing, are also available. Most computer labs are equipped with PCs running the Windows 2000 operating system. Apple Macintosh machines are also available in the College of Business building, room B-10. Use of the computer labs, laptops, kiosks and most departmental labs requires a network account. Accounts may be purchased, for $25.00 per fall or spring semester, and $20.00 per summer semester, at the Computer Center Help Desk in Pocatello, and in Idaho Falls, Twin Falls and Boise labs. The account provides login capability in the computer labs and all above listed facilities, data storage, printing, remote access, web-based instructional tools, access to email, access to personal student records, etc. The account provides access to both Windows and Unix software. Many Idaho State University computer resources, including email, can be accessed via the Internet. The Help Desk provides support and assistance for those with home computers and modems as well as assistance in the labs. A Help Desk tool kit containing Internet Explorer, Netscape Communicator, McAfee Antivirus and other software products can be obtained at the Computer Center Help Desk located in the basement of the College of Business building, as well as Idaho Falls, Twin Falls and Boise labs.

Idaho State University maintains a home page on the World-Wide Web (www.isu.edu) with access to a wide variety of university information (such as web-based course material, campus events, online library access and this Catalog). All admitted students have a personal customizable Web portal found at http://my.isu.edu. All enrolled students are provided an Idaho State University email account.

Tutorial materials are available through the Help Desk for several software products, especially those that are uniquely configured for Idaho State University, such as Electronic Mail using Netscape Communicator and/or Webmail. Students are encouraged to use the online technical support page at http://help.isu.edu.

Idaho Museum of Natural History

Founded in 1934, the Museum has evolved through research, collections, exhibitions and education programs into a museum of regional stature in anthropology and natural history. In 1977, the Idaho state legislature proclaimed the Idaho Museum of Natural History the state museum of natural history with a mission to enhance in the citizens of Idaho and visitors an understanding of and delight in Idaho’s natural and cultural heritage. Specific areas of interest encompass the anthropology, botany, geology, paleontology and zoology of Idaho and the Northern Intermountain West.

Faculty curators specializing in Cenozoic vertebrate paleontology, recent birds, recent reptiles and amphibians, and Idaho archaeology carry out teaching and research utilizing the collections. The Museum provides opportunities to students for Independent Projects in such topics as Museum Administration, Exhibits Development and Exhibits Design. Education majors can find opportunities to teach classes in its free-choice learning environment.

University classes in biology, geology, and anthropology use the Museum and its collections to enhance student learning from the original specimens and objects. An active slate of exhibitions and programs offers unique, entertaining, and educational opportunities for Idaho students and lifelong learners of all ages.

The Museum features exhibits in natural history subjects including dinosaurs, Ice Age mammals, Idaho geology, and Native American artifacts. A seasonal gallery offers a new exhibit quarterly. The Museum is open Tuesday through Saturday from 10 a.m. to 5 p.m. Admission for Idaho State University students is $3.00.

Student Unions

The Earl R. Pond Student Union (Pocatello) serves the campus as the focal point for experiential education. Among its many facilities are lounges, check cashing service, automatic teller machines, food service areas, bowling, billiards, film theater, computer lab, copy service, ballroom, barber shop, bookstore, meeting rooms, guest rooms, and much more. The facilities are in constant use by students, organizations, University departments, and community groups.

The Pond Student Union and the Union Hypostyle house other offices in addition to the office of the Associated Students of Idaho State University (ASISU), Student Affairs offices in the hypostyle include those of the Vice President for Student Affairs, Associate Dean of Students (University Judicial Officer), and the Student Affairs Development Officer. Other offices within the building include C.W. Hog, Craft Shop, Idaho State University Mail Center, Idaho State University-FM Public Radio, Multicultural and International Education Center, Outdoor Program, Student Activities Board, Scheduling and Event Services, Student Organizations and Greek Life, Students’ Community Service Center, University Food Services, Wilderness Rental Center, and the student newspaper.

The Samuel H. Bennion Student Union (Idaho Falls) also serves as a focal point for experiential education. Among its services are lounges, automatic teller machines, food service areas, computer lab, multi-purpose room, bookstore, meeting rooms, the Student Health Center, TRIO Student Services, Parking and Bengal Card Services, Counseling, Testing, Career Services, Early Learning Center, and the offices of Student Services.

Application Procedures

Applications for on-campus housing may be obtained from the University Housing Office, Stop 8083, Idaho State University, Pocatello, ID 83209, or phone (208) 282-2120. Direction will be provided for completing the application material and receiving an assignment to on-campus housing. For current information, see the Housing web page at http://www.isu.edu/housing/ or send an e-mail inquiry to reslife@isu.edu.

Housing Facilities

The University houses men and women in residence-hall-style or suite living facilities. It also has apartment-style living for married students, student families, graduate students, students with special needs, and upper-division students. Living units generally have lounges and all have laundry facilities.

Food Service

University food service is mandatory for students living in residence halls and is optional for students living in suites or apartments. Food service also may be purchased by students living off-campus.

University Library

The University Library, named for its past Director, Eli M. Oboler, contains major collections of books, periodicals, electronic resources, maps, microforms, and government publications and provides a full range of services to students, faculty, and staff. The library collection of over 56,827 books and serial volumes and its 4,444 active journal subscriptions in all formats are accessible through its automated catalog and circulation system, available through the library web page. In addition, the library provides access to numerous databases, many of them with full-text content providing access to an additional 39,000 journals. The University Library has been a depository for federal publications since 1908 and for State of Idaho publications since 1972. The government publications collection contains over 445,024 printed items and approximately 1,964,868 items published in microform.

General reference service is provided on the first floor, where librarians are available to assist patrons in the use of over 89 databases and other reference resources. Library instruction is available to classes and student groups and is tailored to
address students’ specific needs, from general library orientation to subject-specific bibliographic research. In addition to supplying informational materials from its own collections, the library provides an interlibrary loan service, equipped to locate and deliver books and periodical articles from other libraries’ holdings. Using online electronic ordering and transmission, as well as postal services, the interlibrary loan service fills most requests within a week, but students should allow a two-week turnaround time.

The Idaho Health Sciences Library, a department of the Eli M. Oboler Library, supports the health sciences information needs of the University and the Idaho health care community. It also provides specialized health science reference, research and instruction services. The Arthur P. Oliver Law Library, located on the first floor of the Eli M. Oboler Library, houses more than 13,000 law books. An excellent reference resource for students, faculty, and staff, it is supplemented with legal databases.

Idaho Falls Services
The University Library Center at Idaho State University-Idaho Falls provides reference services, a limited reference collection, and a study area for Idaho State University students. Also available are public access workstations on which students and faculty are able to access most of the information databases available to students at the main campus. With the assistance of trained staff, students are able to request the delivery of books and journal articles from the University Library.

Twin Falls and Lewiston
The Oboler Library has agreements with the libraries at the College of Southern Idaho and at Lewis-Clark State College. These agreements ensure strong library support for Idaho State University students in the Twin Falls and the Lewiston areas. Under these agreements, students are able to access the two libraries and check out materials. They also receive full reference, instruction, interlibrary loan, and database searching services. On-line access is available to Idaho State University Library databases and the catalog.

Boise
A similar agreement in Boise provides ISU students and faculty the same library privileges accorded to BSU students and faculty upon presentation of their Idaho State University identification card.

For more detailed information regarding Library services, including hours of service and policies, visit the library website at www.isu.edu/library.

Graduate Programs and Graduate Courses
Idaho State University offers many masters and several doctoral programs as well as a Family Practice Residency Training Program for Physicians. Numerous graduate courses are delivered in almost all disciplines. Undergraduates who are last semester seniors may take up to six credits at the graduate level in the 500 series with permission. Enrollment in graduate courses requires admission to graduate school, except the professional development courses which are the 597 series. For additional information regarding graduate courses and programs of study, please see the Graduate Catalog.
Undergraduate Admission

Office of Admissions
921 S 8th Ave. Stop 8270
Pocatello ID 83209-8270

email: info@isu.edu

Admission Process

Note: The following information applies to undergraduate students applying for admission to academic programs. Students seeking information regarding admission to Applied Technology programs are encouraged to contact the College of Technology. Graduate students should refer to the Graduate Catalog.

Idaho State University welcomes all students of good character who provide evidence of suitable preparation for work at the college level. Future students are welcome to contact the Office of Admissions for an admission application, other supporting forms, and accompanying instructions, or visit our web page at www.isu.edu/enroll.

Typically, the Office of Admissions notifies students of admission decisions within 10 days of receiving the student’s completed application. Decisions may be delayed if documentation is incomplete upon submission. Although some admission decisions may be made without all required documentation, students must submit all appropriate admission documentation prior to registration; otherwise the University reserves the right to restrict registration.

Application Deadlines

To allow appropriate time for evaluation, admission decisions, and appropriate notification, all applications and documentation should be submitted to the Office of Admission at least three weeks prior to the start of the semester for acceptance consideration. Otherwise, a $20 late fee is assessed and an admission decision cannot be guaranteed prior to the beginning of the ensuing semester.

New Freshmen Admission Requirements

The following college entrance core subject requirements were established by the State Board of Education and implemented beginning in the Fall semester of 1989. New freshmen must meet these minimum credit requirements with a predicted GPA of 1.5 to be eligible for Assured Admission (for more information on Idaho State University’s predicted GPA see Acceptance and Registration Levels section below); otherwise applicants may be admitted conditionally, or admission will be deferred. Students must comply with the requirements at the time of their high school graduation. Requirements for each subject area are shown below.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>English (Composition, Literature)</td>
<td>8 credits</td>
</tr>
<tr>
<td>Mathematics (Applied Math I, Applied Math II, Algebra I, Algebra II, Geometry, Analytic Geometry, Calculus, Statistics, Trigonometry; at least 4 semesters must be taken during grades 10 through 12)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Natural Science (Anatomy, Biology, Chemistry, Earth Science, Geology, Physiology, Physical Science, Physics, Zoology; selected applied science courses may count for up to 2 semesters. At least 2 semesters must be for courses which include a laboratory science experience.)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Social Science (American Government, Geography, U.S. History, World History, Economics, Philosophy, Psychology, Sociology)</td>
<td>5 credits</td>
</tr>
<tr>
<td>Humanities/Foreign Language (Literature, History, Philosophy, Foreign Language, and related study of 2 or more of the traditional humanities disciplines)</td>
<td>2 credits</td>
</tr>
<tr>
<td>Other college prep (Speech, Studio/Performing Arts (Art, Dance, Drama, Music), additional Foreign Language. Up to 2 semesters of approved vocational courses may apply; consult your high school counselor)</td>
<td>3 credits</td>
</tr>
</tbody>
</table>

Assured Admission

Freshmen applicants who meet core requirements with a core GPA of 2.0 or above, OR students whose predicted Idaho State University GPA is 1.5 or above may meet Assured Admission requirements.
Conditional Admission

Degree seeking applicants who do NOT meet the minimum credits required in the high school core subject areas, or who have an Idaho State University predicted GPA below 1.5 may be considered for Conditional Admission. Students admitted to the University conditionally may need to comply with credit hour restrictions, enter into an admission agreement, or complete additional placement exams prior to registration.

Applicants may be admitted conditionally by submitting two of the following requirements:

1. General Educational Development (GED) average score of 450, with no individual scores lower than 410.
3. Combined SAT Verbal and Math score of 860.
4. Passing score on COMPASS exam.

Persons who are at least 21 at the time of their first application to attend Idaho State University are exempt from taking the ACT, SAT, or COMPASS exam if they provide a qualifying GED score.

Conditional admission is not a probationary status. Students conditionally accepted are not restricted from being considered for scholarships and have the rights and privileges granted all students. However, conditionally admitted students may be assigned registration levels (see below) at the discretion of the Office of Admission or the Admission Committee.

Acceptance and Registration Levels

Students accepted in either the Assured or the Conditional Admission category are assigned an academic advisor and are assigned to one of two registration levels according to a predicted Idaho State University grade point average (GPA) based on a weighted combination of the core subject high school GPA and ACT Composite Score or SAT (Verbal + Math) total score.

**Level 2:** Students are assigned Level 2 status if their predicted first semester Idaho State University GPA is 2.00 or higher. Students admitted at this level may enroll for up to a maximum of 18 credits without special permission.

**Level 1:** Students are assigned Level 1 status if their predicted first semester Idaho State University GPA is less than 2.00. Students assigned to this level may enroll for no more than 13 credits per semester. They also meet with an assigned academic advisor who helps plan a schedule of classes that meets their needs and utilizes support services. Course schedules must be approved by an assigned academic advisor. Students in Level 1 status who complete at least four college level courses (not including developmental coursework), a minimum of 12 credit hours, and have an Idaho State University GPA of 2.00 or better will be allowed to register as Level 2 students in subsequent semesters.

Petitions

Applicants unable to provide two of the four conditional admission requirements as outlined above (or transfer students who are being considered for probationary admission) may deserve further consideration for admission because of special circumstances. Applicants may submit an Admission Petition to the Office of Admission explaining why they feel they can be successful at Idaho State University and documenting their extenuating circumstances. Letters of support from counselors, parents, teachers, etc., on the student’s behalf are encouraged. The petitioning applicant must also demonstrate evidence of suitable academic preparation.

All Admission Petitions are reviewed by an Admission Committee comprised of representatives from the University including a faculty person, student, professional staff from the Counseling and Testing Center, TRIO Student Services, the ADA and Disabilities Resource Center, the Athletic Department, Enrollment Planning and Academic Services, Academic Advising, and/or Registration and Records. Petitioning applicants may be asked to complete a placement exam prior to an admission decision. If conditionally admitted, successful petitioners may be asked to sign an “admissions agreement” which may limit the number of credits a student may attempt, register for developmental courses, and meet regularly with an assigned advisor.

Deferred Admission

Applicants not meeting requirements to be granted assured or conditional admission have the opportunity to re-apply to the University after they have completed 14 or more transferable semester hours (credits) at an accredited college or university. Students may also re-apply if they receive passing Test of Adult Basic Education (TABE) exam scores after additional preparation.

New Transfer Students

Definition

A transfer student is a student who has been enrolled and received grades at any college or university prior to being admitted to Idaho State University. Students who fit this definition but who have fewer than 14 transferable semester hours (credits) are subject to the admission requirements for New Freshmen shown above.

Application Steps

1. Apply for Admission—the form is online at apply.isu.edu
2. Pay $40 Nonrefundable Application Fee
3. Submit a final, official transcript from each college previously attended—transcripts must be sent directly to the Office of Admission from the Records Office of the previous institution.
4. If applying in mid-mester while attending elsewhere, submit an in-progress college transcript indicating grades earned through the most recent completed semester.

Failure to list and submit transcripts from all schools attended, or submission of inaccurate information, is considered fraud and is cause for refusal of admission or dismissal from Idaho State University. All required documentation must be received prior to registration.

Assured Admission

Students having a cumulative transfer grade point average (GPA) of 2.0 may be assured admission to the appropriate class standing upon prior presentation of official credentials.

Probationary Acceptance

Students with less than a 2.0 cumulative transfer GPA for previous college work are required to submit a petition to the Admission Committee (see Petitions under New Freshmen Conditional Admission), may be considered for probationary acceptance to the University, and may be asked to sign an admission agreement.
Transfer Credit Evaluation

Transfer credits will not be evaluated until the student has applied for admission and has furnished the Office of Admissions with official transcripts. Students transferring 58 or more credits to Idaho State University will be blocked from registering until they have declared their major with the appropriate academic department.

All credits earned or attempted and all grades received in college-level courses from regionally accredited institutions are evaluated for possible transfer credit to Idaho State University. The applicability of those credits to the student’s program of study is determined by their major department. A specific transfer grade point average is calculated separately, and a cumulative GPA is figured combining credits and grades from all previous institutions.

Transfer credits from non-U.S. colleges/universities are recorded with grades of satisfactory/unsatisfactory.

Transfer Credit Limitations

Junior and Community Colleges

Students transferring from a regionally accredited Junior College or Community College may transfer a maximum of 70 credits to Idaho State University.

Professional-Technical Credit

Credits earned at regionally accredited or state approved professional-technical schools may be petitioned through the appropriate academic departments for transfer credit consideration.

Lower v. Upper Division Transfer Credit

Credits are transferred to Idaho State University at the level earned at the institution of origin. Transferred lower division (100 and 200 level) credit may NOT count as upper division (300 and 400) credit regardless of the appropriate course equivalencies determined by the Admissions Office.

Transfer Credits toward General Education Requirements

1. Students who transfer to Idaho State University from a U.S. regionally accredited institution with an earned Associate of Arts (A.A.), Associate of Science (A.S.), or Associate of Arts and Science (A.A.&S.) degree (received in 1995 or later) or baccalaureate degree have met the General Education requirements for Idaho State University. However, they will be required to complete all courses that are required by their major/degree program at Idaho State University, including prerequisites to courses that may be on the Idaho State University General Education course list.

2. Students transferring from any U.S. academic regionally accredited institution, who have completed the Idaho general education core courses (but do not have an A.A., A.S. or A.A.&S. degree) and have their transcripts noted “Idaho core certified” by the sending institution, have met the Idaho State University general education requirements. However, they will be required to complete all courses that are required by their major/degree program at Idaho State University, including prerequisites to courses that may be on the Idaho State University General Education course list.

3. Records from students who do not meet either of the above criteria will be reviewed to determine fulfillment of Idaho State University general education core courses. Students who, after transfer credits are evaluated, have 58 or more transfer credits, will be given special consideration.

Departmental Prerequisites and Lower Division Requirements

Even students who have met the general education core will be required to take any course that is a prerequisite to a higher level course and/or is required by the student’s major.

Transfer students should be aware that graduation requirements for certain majors may include specific courses or additional credit hours in courses normally associated with General Education Requirements. In such instances, careful selection may enable the student to progress more efficiently by submitting the necessary admission documents early so they may be cleared to preregister for classes early. Those submitting application materials late cannot be assured of registration for the current semester.

Transfer Students with fewer than 58 Credits

Students who transfer to Idaho State University with fewer than 58 credits and without an earned A.A., A.S., or A.A. &S. degree from other institutions must complete the General Education Requirements at Idaho State University as previously stated. Work taken at other institutions is reviewed on a course-by-course basis to determine which Idaho State University General Education Goals are met. Goals not met with transferred course work must be satisfied by Idaho State University courses listed as meeting those goals.

Transfer Students with 58 credits and/or with an A.A., A.S., or A.A.&S. Degree

Students who have earned the A.A., A.S., or A.A.&S. degree (in 1995 or later) from a U.S. academic regionally accredited institution and/or who have met Idaho State Board core subject requirements are excluded from the provisions as stated below for students transferring 58 or more credits to Idaho State University.

Courses taken by the transfer student after enrolling at Idaho State University to meet the General Education Requirements for the B.A., B.S., and B.B.A. degrees as stated below must be selected from the unfulfilled goals in those groups.

Transfer Students Seeking a Bachelor’s Degree

Bachelor of Arts in the College of Arts and Sciences

Transfer students with 58 or more credits from other institutions who are seeking a B.A. degree in the College of Arts and Sciences must satisfy General Education Goals 1, 2, and 3. They may consider Goals 4 and 5 as a single eight-hour natural/physical science requirement, and Goals 6, 7, and 8 as a single nine-hour humanities requirement, and must complete both Goals 10A and 10B and nine more credits in Goals 9, 11, and/or 12.

Bachelor of Arts in Colleges Other than Arts and Sciences, and Bachelor of Business Administration

Students transferring to Idaho State University with 58 or more credits from other institutions and working toward a B.A. degree in any College other than Arts and Sciences, or toward a B.B.A. degree, must satisfy General Education Goals 1, 2, and 3. They may consider Goals 4 and 5 as a single eight-hour natural/physical science requirement, and Goals 6, 7, and 8 as a single nine-hour humanities requirement. Goals 9, 10A or 10B, 11, and 12 may be considered as a twelve-hour Social Science requirement. Those who opt to fulfill Goal 10B also must take nine credits from Goals 9, 11, and/or 12.
General Information

Bachelor of Science, Bachelor of Applied Science, and Bachelor of Applied Technology
Students transferring to Idaho State University with 58 or more credits from other institutions and working toward a B.S., B.A.S., or B.A.T. degree must satisfy Goals 1, 2, and 3. In transferring, students may consider Goals 4 and 5 as a single eight-hour natural/physical science requirement and Goals 6, 7, and 8 as a single six-hour humanities requirement. Goals 9, 10 A-B, 11, and 12 may be considered as a nine-hour Social Science requirement. Students who opt to fulfill Goal 10B also must take six credits from 9, 11, and/or 12.

Transfer Students with Bachelor’s Degrees
Students with bachelor’s degrees from a regionally accredited institution will be considered to have met Idaho State University’s General Education Requirements when seeking a second bachelor’s degree. See Requirements for Second Degree section of this Catalog.

Transfer Students from Non-Accredited Institutions
Credit from nonaccredited institutions will be accepted on the basis of those institutions listed in the Transfer Credit Practices of Designated Educational Institutions, published by the American Association of College Registrars and Admissions Officers and Accredited Institutions of Postsecondary Education published by the American Council on Education. Credit denied on the basis of such practice may be sought by examinations or petitioned through Idaho State University’s academic departments. An application for transfer credit may also be made with the Idaho State Board of Education.

Other Applicants

Former Students
Students who have NOT enrolled for classes at Idaho State University for a 3 year period are required to re-apply and submit the following to the Office of Admissions:
2. Complete, official transcripts from any other colleges attended since enrolled at Idaho State University.
3. Application Fee ($40, nonrefundable).

Students Who Previously Applied but did not Enroll
Students accepted for admission to Idaho State University who do not attend their first semester will be allowed to enroll the next semester without reapplying. Acceptance is granted for a two (2) semester time frame. However, students MUST complete an admissions update form or call the Office of Admissions at (208) 282-2475 to provide current information, including official transcripts from all other colleges or universities attended since initial application submission, prior to being allowed to enroll for classes.

Students with Behavioral Problems
Whenever an applicant for admission or a student (regardless of the program of study or whether full-time or part-time) exhibits behavior which poses a substantial threat to himself/herself or other members of the University community or is disruptive of the educational processes, said student or applicant will be subjected to a special screening process. This process has been formulated as a result of recommendations of a committee of the faculty and students of this institution and will apply to any admission or readmission request. In the event that the conduct or behavior of the individual or any other member of the University community is disruptive of the educational process of the institution, these procedures shall apply whether the cause of the condition is medical, psychiatric, behavioral, otherwise, or a combination of the above.

Non-Degree Seeking Students
A person may apply as a non-degree seeking student if he/she does not wish to qualify for admission for degree work but to pursue studies for personal reasons. Such a student may register part-time (maximum 7 credits per semester) and complete a maximum of 32 undergraduate semester credit hours. Upon completion of 32 semester credit hours, the student must complete regular admission procedures at Idaho State University to enroll for additional degree credits or sign a non-degree waiver to continue as a non-degree seeking student. All admission requirements must be met before the university can assist this student in obtaining a degree. Such a student will be classified as non-degree seeking until all admission requirements are met for classification as a regular student. Non-degree seeking students are NOT eligible for Federal Financial Aid.

Early College Program/High School Concurrent Enrollment
Academically qualified high school students may enroll at Idaho State University. Concurrent enrollment allows high school students the opportunity to earn college credit while continuing their high school courses and activities. Courses may be taught at their high schools by teachers approved as Idaho State University adjunct faculty. High schools may allow Idaho State University courses to be applied to meet high school graduation requirements.

High school students must complete an Idaho State University Early College Program registration form. Written permission from their principal or counselor is needed along with a parent’s and the student’s written signatures. High school students meeting the necessary requirements will be allowed to enroll on a part-time (1-7 credits) basis. High schools may enroll in any class offered through Idaho State University for which they have met the prerequisites. All qualified high school students receive a partial fee scholarship and pay reduced fees. A student must hold the status of high school student for the entire Idaho State University courses length in order to participate within the Early College Program. High school students are NOT eligible to receive federal financial aid.

For additional information and/or registration contact the Early College Program at (208) 282-6067/ (208) 282-3277 or www.earlycollege.isu.edu.

International Students
Idaho State University encourages and welcomes international students to apply. We are proud of the active part taken in student activities by students from around the world. Admission to Idaho State University for international students is dependent upon credentials showing proof that the students are able to perform well in an American academic environment. The Office of Admissions recognizes there are no such things as equivalents between curricula in any other country and the United States; thus foreign courses must be evaluated in terms of approximations.
Applications

All international student applications for admission must be received by June 1 for fall semester, and by November 1 for spring semester. The following additional items are needed:

1. Application Fee ($40, nonrefundable);
2. Official TOEFL Scores (minimum of 500 for the paper exam; 173 for the computer exam; or 61 iBT [internet based test]) or ACT English score of 18 or SAT Verbal score of 450 or ELS Level 112 pass;
3. Official Transcripts from all universities previously attended and statements of English proficiency when applicable;
4. Official Secondary or High School Transcripts if fewer than 26 transfer college credits have been earned;
5. Statement of financial support for one academic year.
6. Students transferring from another U.S. college or university are required to have the Transfer Verification form completed and submitted to the Office of Admissions along with a copy of the current I-20/DS-2019 and I-94 forms issued to them by the school from which they wish to transfer.

All required admissions documents must be received prior to enrollment.

NOTE: It is critical that students submit necessary admission documents early so they may be cleared to preregister. Those submitting application materials after the student is enrolled cannot be assured of registration for the current semester. An official transcript is one that is sent directly from the college/university to the Office of Admissions at Idaho State University.

Transfer of Credits

Students completing associate degrees (two year degrees) or three year baccalaureate degrees from other countries will be considered for undergraduate admission with possible advanced standing of up to two years (60 credits) or up to three years (90 credits). General Education Requirements will be waived for such students on a case by case basis. Specific course credits may be awarded only after they have been determined acceptable based on a course by course analysis after official transcripts and a syllabus have been submitted that describe the student’s courses and programs of study. Educational guides endorsed by AACRAO (American Association of Collegiate Registrars and Admissions Officers) are used during the transfer credit evaluation process, which takes place AFTER the student is enrolled at Idaho State University. Students who do not agree with the credits awarded may, at their own cost, send educational documents to an accredited foreign credentials evaluation service; additional credits might be awarded at Idaho State University. Students may also petition the academic departments for possible transfer credit consideration.

English Proficiency

Students from other countries are required to take and receive a satisfactory score (minimum of 500 for paper exam, 173 for computer exam or 61 for iBT) on the TOEFL (Test of English as a Foreign Language) or a score of 5 on the IELTS (International English Language Testing System) examination. An ACT English score of 18 or SAT Verbal score of 450 may also satisfy the English Proficiency requirement. Idaho State University will also accept Level 112 completed at any ELS program in place of a 500/550 TOEFL. Visit www.ets.org for more information. Conditional admission is possible. Successful scores must be submitted to the Admissions Office early so that an admission decision can be made. If the student is transferring from another college or university in the United States, and if s/he has completed college level English courses in the United States, grades in these courses (or TOEFL test scores) will be considered to demonstrate proficiency in English. The TOEFL requirement may be waived for students who are from English speaking countries or who have previously attended secondary or postsecondary schools where English is the instructional language. Arrangements to take the TOEFL or IELTS examination may be made by accessing the following websites: www.ets.org or www.ielts.org. For more information on the ELS program at Idaho State University, visit www.els.edu.

Financial Statement

All international students must submit written proof that they are financially able to support themselves while attending Idaho State University. An official statement of financial support from a sponsor along with an attached official bank statement will serve as proof of the student’s financial ability to meet his/her educational costs. The designated sponsor must release funds when needed to pay for expenses as indicated on the financial statement. Refer to the estimate of costs, shown below. International students receiving athletic scholarships from Idaho State University must have the Athletic Department submit written verification of such a financial award. Idaho State University reserves the right to require financial deposits from students before registration.

NOTE: Based on academic merit and availability, new entering International students may be considered for non-resident fee waiver scholarships worth approximately $7,700 per year. These are available only to students pursuing technical related programs of study. For more information, contact: intl@isu.edu

Estimated Costs of Full-time Attendance at Idaho State University (International Students)

Undergraduate Expenses Academic or Technology
Tuition:* 12,460.00
Books and Supplies* 950.00
Room and Meals 4,950.00
Other Expenses 1,830.00
Total for 120 students:*** 19,240.00

Note: Academic year includes Fall and Spring semesters only. Summer Semester costs are not included in the estimates. Costs are subject to change.

*Some academic and most College of Technology programs require additional tool or class costs. Students need to contact individual departments or programs for these costs.
**Students must have the necessary funds to purchase medical insurance for themselves and their family. Costs for medical services provided while in the U.S. are NOT covered by the State of Idaho or the Federal Government.
***Costs tend to increase by 5-10% each fall semester.

Tuition costs include the basic fees paid by all students, plus Non-resident Tuition, required of all non-Idaho residents.

See Expenses in the Registration section of this Catalog for on-campus housing. Off-campus options are available. Married international students accompanied by spouses and children must provide additional funds for them.

International students are confronted with a different circumstance than resident students or even out-of-state students. These students may need to supplement their personal belongings with purchases after they arrive on campus. In addition, international students may be required to arrange for their own meals during vacations when residence hall cafeterias are closed.

Transfer Verification Report

International students who have attended any other college or university in the United States are required to have the Transfer of I-20/DS-2019 Verification Report completed by the official International Student Advisor from their previous institution.
The form should be submitted to the Office of Admissions along with a copy of the student’s I-20/DS-2019 and I-94 forms. Information in this report and the I-20 will help verify the applicant’s status with the Bureau of Citizenship and Immigration Services (BCIS).

Class Level
Sophomore: 26 credit hours
Junior: 58 credit hours
Senior: 90 credit hours
The classification under which a student registers at the beginning of the academic year will continue through the year.

New Students
You must apply for and be accepted for admission. Contact the Office of Enrollment Planning and Academic Services for referral to a registration advisor.

Transfer Students
You must apply for and be accepted for admission. After notification of admittance, you should make an appointment with your major advisor.

Former Students
If you are a student who has attended within the last three years, you are eligible to register for classes without readmission. However, your program of study may require separate departmental readmission. Also, if any prior restrictions exist, they must be cleared. You are required to provide the Office of Admissions with current address, telephone number, major, and a transcript from any university or college you have attended and have not previously reported. Thus, you are encouraged to contact the Office of Admissions to indicate your intent to reenroll. Former students NOT enrolled for three years must reapply. Once accepted, make an appointment with your major advisor.

Part-Time/Full-Time Student Status
To be considered a full time student for academic and financial aid purposes, an undergraduate must be enrolled for 12 or more credits, unless otherwise stipulated by an Individualized Education Program (IEP). Graduate students are full time when enrolled for 9 or more credits. For purposes of fee collection, “full-time” fees are assessed whenever the semester load is 8 credits or more.

For financial aid purposes, an undergraduate may qualify for half-time financial aid when enrolled for 6-8 credits, and three-quarter time financial aid when enrolled for 9-11 credits (for a semester or any of the sessions within the summer semester).

To qualify for ASISU elective or appointive office, a student must enroll for at least 8 credit hours.

Please note: in order to graduate in four years, an undergraduate student must

Registration

Questions about academic regulations or registration should be directed to:
Office of Registration and Records
921 S 8th Ave Stop 8196
Pocatello ID 83209-8196
(208) 282-2661

Preregistration for all students will be conducted for approximately four weeks before the end of each semester. Questions concerning registration should be directed to the Office of Registration and Records.

Registration is not permitted after the second week of classes. A department, with the dean’s permission, may deny permission to register in any class or laboratory after the first week.

Students are expected to know academic requirements and policies and to assume major responsibility for planning their individual programs of study in accordance with University and major requirements and policies, as described in the Undergraduate Catalog.

Class schedule booklets for the next semester are available through the Office of Registration and Records prior to the preregistration period at the end of each semester. Class schedule information is also linked online at http://www.isu.edu.

Continuing Students
Students who major within the College of Engineering, selected departments within the Kassia College of Health Professions, and the College of Pharmacy must see their advisor before attempting to register.
complete an average of 32 credits per year and all required coursework. Students paying by the credit hour pay “full-time” fees when enrolled in 8 or more credits. However, full time status depends on the credit hours attempted, not the fees actually paid.

Expenses

The following fee rates are subject to change without advance notice. (See Policy Statement Concerning Catalog Contents at the beginning of this catalog.)

In general, the expenses for Idaho State University students may be divided into classifications of fees, board, and room. In addition to the fees listed, some courses may require the expense of special uniforms, protective clothing, field trip expenses, lab fees, special materials fees, etc.

Enrollment Fees

Academic Undergraduate and College of Technology Semester Fees, including Summer

The following fees are estimates and are subject to change. They are a sample of the generally charged fees, but the actual charges will be reflected on each student’s billing. Summer semester fees are paid on a per credit basis. Additional class fees and program fees may be charged. Updated fees and other Financial Services information are found at http://www.isu.edu/finserv/costinfo.shtml. College of Technology students should consult with the Student Services Office at (208) 282-2622.

*All students paying full-time fees and international students taking 1 credit or more must also pay the $578 per semester ($338 for College of Technology early or late 8-week session) premium for the University’s Student Health Insurance Program. Any student with existing health insurance coverage may become exempt from participating in the Student Insurance Plan by completing and filing a Health Insurance Waiver each academic year. For more information, contact the Student Health Insurance Office, (208) 282-2972.

Room and Board Expenses

All rates include all utilities. The expenses shown on the website given below do not include the cost of laundry, bedding, books, or personal items. A refundable multi-purpose deposit is collected. These prices are subject to change. The most current information will be found online at http://www.isu.edu/housing/.

Other Fees and Charges

Academic Credit for 198p, 298p, 398p, 498p and 598p Courses

Fees are established to recover costs attributable to each unique presentation. In addition to a cost recovery workshop fee, a $50.00 per credit hour recording fee will be levied.

Credit Recording Fee

Credit Recording Fee $15

Experiential Credit

Evaluation Fee $50* *(Per academic area evaluated; payable at Idaho State University Cashiers Office prior to evaluation process.)*

Credit Recording Fee $15* *(Per credit hour and in addition to evaluation fee; payable after evaluation.)*

Faculty, Staff and Spouses

Registration Fee $20 + $5 per cr. hour

A copy of the current Education Policy for Idaho State University Employees is available in the Human Resources Office, Administration Building Room 312. Verification of employment and authorization forms for reduction in fees may also be obtained from this office.

GED Transcript Fee

$5

Graduation/Diploma Fee

$20

This fee is collected from each applicant for a certificate or for each associate, bachelor’s, master’s or doctorate degree.

Idaho Dental Education Program (IDEP) Fee

Any student enrolled in the Idaho Dental Education Program is subject to a professional fee determined by the State Board of Education. For further information, contact the Program Director.

In-Service Teacher Education Fee

As defined by the State Board of Education, the In-Service Teacher Education fee “shall be one-third of the average part-time undergraduate credit hour fee or one-third of the average graduate credit hour fee.” This special fee shall be applicable only to approved teacher education courses. The State Board of Education determines if a course or individual qualifies for this special fee.

Credit from College Level Examination Program (CLEP)

For information about CLEP examinations (taken at Counseling and Testing Center), see the website http://www.isu.edu/ect/ or contact the Counseling and Testing Center at 208-282-2130.

Experiential Credit

Evaluation Fee $50* *(Per academic area evaluated; payable at Idaho State University Cashiers Office prior to evaluation process.)*

Credit Recording Fee $15* *(Per credit hour and in addition to evaluation fee; payable after evaluation.)*

Faculty, Staff and Spouses

Registration Fee $20 + $5 per cr. hour

A copy of the current Education Policy for Idaho State University Employees is available in the Human Resources Office, Administration Building Room 312. Verification of employment and authorization forms for reduction in fees may also be obtained from this office.

GED Transcript Fee

$5

Graduation/Diploma Fee

$20

This fee is collected from each applicant for a certificate or for each associate, bachelor’s, master’s or doctorate degree.

Idaho Dental Education Program (IDEP) Fee

Any student enrolled in the Idaho Dental Education Program is subject to a professional fee determined by the State Board of Education. For further information, contact the Program Director.

In-Service Teacher Education Fee

As defined by the State Board of Education, the In-Service Teacher Education fee “shall be one-third of the average part-time undergraduate credit hour fee or one-third of the average graduate credit hour fee.” This special fee shall be applicable only to approved teacher education courses. The State Board of Education determines if a course or individual qualifies for this special fee.
Late Registration Processing Charges
Second through tenth day of classes $50
After tenth day of classes $100

To help defray extra costs involved with late registration, processing fees are charged in addition to any other regular fees. All students (full-time, part-time, faculty, staff, etc.) paying fees after the first day of official university classes are charged a late processing fee. The cashier is not authorized to accept late registration fee payment without the appropriate late processing date of birth is required; fee is for courses on a 4-year basis, $1,086 per semester (applied music lessons). A current directory of applied music lessons Fee reduction does not apply to non-resident students.

Non-credit Course Fees
Fees are established to recover costs attributable to each unique presentation. Additional fees may be established to cover the cost of awarding Continuing Education Units (CEUs) if the course is one for which CEUs are awarded.

Pharmacy Professional Fee
Continuing Full-time Resident $900
Continuing Non-Resident $2,700
Nontraditional Pharmacy students should consult with the College of Pharmacy regarding fees.

Physical Therapy Professional Fees (per semester)
Resident $710
Nonresident $2,440

Placement Testing Fee (Compass Tests)
$5 per examination

Senior Citizens
Registration Fee $20 + $5 per cr. hour *Age 60 years or older; proper identification indicating date of birth is required; fee is for courses on a space available basis only; special course fees also may be charged. Fee reduction does not apply to non-resident students.

Social Work Application Fee
$30

Special Music Fee
Students taking applied music lessons pay fees currently set at $160, $220, and $320, depending on the level and length of the lessons. Please see the Class Schedule for the applicable fee under Applied Music Lessons.

Student Health Insurance Fee
All full-time fee paying students, and all International students taking 3 or more credits $523 per semester
$262 per session

Any student with existing health insurance coverage may become exempt from participating in the Student Insurance Plan by completing and filing a Health Insurance Waiver each academic year. For more information, contact the Student Health Insurance Office, (208) 282-2972.

Transcript Fee
See information at http://transcripts.isu.edu

VTE Competency Credit Fee (College of Technology) $135

Idaho Residency Requirements for Fee Payment
See the web address http://www.isu.edu/enroll/admissions/rinfo.shtml for the most complete and current information regarding residency requirements.

Residency for tuition purposes is governed by Idaho Code § 33-3717 and the residency rules of the State Board of Education. Although a full-time regularly-enrolled resident student is not required to pay tuition while enrolled at Idaho State University, students are charged fees for educational costs excluding the cost of instruction in accordance with the Idaho State System of Higher Education “Notice to Nonresidents of the State of Idaho.”

A student is a “resident” for purposes of fee payment if:
1. He/She has a parent or court appointed guardian currently domiciled in Idaho who has maintained a bona fide domicile in Idaho for at least one year prior to the opening day of the term for which the student enrolls; or
2. He/She receives less than 50% financial support from parents or guardians who are not residents of Idaho and has continuously resided in Idaho for at least 12 months prior to the opening day of the term for which the student enrolls and has established a bona fide domicile in Idaho primarily for purposes other than educational; or
3. He/She is a graduate of an accredited secondary school in the state of Idaho and is enrolled in a college or university in Idaho during the semester immediately following such graduation regardless of the residence of his/her parents or guardians; or
4. He/She is the spouse of an Idaho resident or person who qualifies for Idaho residency; or
5. He/She (or his/her parent or guardian) is an active duty member of the United States armed forces (only the U.S. Army, Navy, Air Force or Marine Corps) stationed in Idaho on military orders and the student receives 50% or more financial support from parent or guardian; or
6. He/She is separated, under honorable conditions, from the United States armed forces (a certified copy of the DD-214 separation papers may be requested) after at least two years of active duty service and has Idaho as the home of record in service or elects Idaho as his/her intended domicile within one year of separation and enters a college or university in Idaho within one year of the date of separation; or
7. He/She is a member of any one of the Idaho Native American Indian Tribes (Coeur d’Alene, Shoshone-Paiute, Nez Perce, Shoshone-Bannock, Kootenai, or Eastern Shoshone), regardless of current domicile.

Any individual who has been domiciled in the state of Idaho, has qualified as a resident and would otherwise be qualified under the provisions of this statute and who is away from the state for a period of less than one (1) calendar year and has not established legal residence elsewhere provided a twelve (12) month period of continuous residency has been established immediately prior to departure is considered an Idaho resident for purposes of fee payment.

Direct specific questions to:
Idaho State University
Admissions Office
921 S 8th Ave Stop 8270
Pocatello, ID 83209-8270
(208)-282-4096

A “nonresident” student shall include:
Any student attending an institution in this state with the aid of financial assistance provided by another state or governmental unit or agency thereof, such nonresidency continuing for one (1) year after the completion of the semester for which such assistance is last provided.
Any person who is not a citizen of the United States of America, who does not have permanent or temporary resident status or does not hold “refugee-parolee” or “conditional entrant” status with the U.S. Immigration and Naturalization Service or is not otherwise permanently residing in the U.S. under color of the law and who does not also meet and comply with all applicable requirements for establishing residency as covered under these provisions.

Establishing a New Domicile in Idaho:
The establishment of a new domicile in Idaho by a person formerly domiciled in another state has occurred if such person is physically present in Idaho primarily for purposes other than educational and can show satisfactory proof that such person is without a present intention to return to such other state or to acquire a domicile at some other place outside of Idaho. In determining whether a student is domiciled in the state of Idaho primarily for purposes other than educational Idaho State University shall consider, but shall not be limited to the following factors:

Registration and payment of Idaho taxes or fees on a motor vehicle, mobile home, travel trailer, or other item of personal property for which state registration and the payment of a state tax or fee is required.

Filing of Idaho state income tax returns.

Permanent full-time employment or the hourly equivalent thereof in the state of Idaho.

Registration to vote for state elected officials in Idaho at a general election.

Residency decisions for fee payment purposes are made by the Admissions Office. Students may appeal through the Residency Appeals Committee at Idaho State University.

This notice provides for appeal from a final determination denying residency status in the following way:
Appeal may be initiated by the filing of an action in the District Court of Bannock County wherein Idaho State University is located; an appeal from the District Court shall lie as in all civil actions.

Normal Idaho residency requirements shall be in force for students who apply for some special graduate and professional programs. These include but are not limited to the Idaho Dental Education Program (IDEP), the WAMI (Washington, Alaska, Montana, Idaho) Regional Medi-
cal Education Program; the University of Utah College of Medicine; the WOI (Washington, Oregon, Idaho) Regional Program in Veterinary Medicine; the Western Interstate Commission for Higher Education (WICHE) Professional Student Exchange Programs (medicine, optometry and occupational therapy) and Graduate Education Program.

NOTE: It is the responsibility of the person requesting reclassification of residency status to provide clear and convincing evidence of bona fide domicile in Idaho.

Non-Resident Tuition Waivers
Idaho State University Applications for Nonresident Tuition Waivers are available to students from:

Scholarship Office
Room 327, Museum Building
(208) 282-3315

A Nonresident Tuition Waiver Committee considers all applications and is responsible for awards. Students from the states of Utah and Washington, by indicating such residency status on the application form, have an opportunity to apply for nonresident tuition waivers at Idaho State University under reciprocal agreements with these states.

Time accrued while receiving a nonresident fee waiver will NOT contribute towards the length of time required for Idaho residency status.

Refund Policies
The Refund Policy applies to all for-credit classes regardless of location of the class.

This policy does not include the advance deposits required by the College of Technology and by the Dental Hygiene, Physical Therapy, and Physician Assistant programs in the Kasiska College of Health Professions.

All fee refunds are paid by University check.

When students enrolled in for-credit classes withdraw from Idaho State University or make schedule changes that reduce their total fee obligation, refunds are made on the following basis:

General University fees paid without use of a fee reduction program:
Refunds are calculated and authorized by the Office of Financial Services. The drop/withdrawal date is the actual date the drop or withdrawal form is received by an authorized University office or automated system.

Refunds of registration charges for full-time fees, part-time credit hour fees, nonresident tuition, professional program fees, and departmental fees are calculated on the total amount of fees paid, using the first official day of the University semester or session as the starting date.

Federal refund provisions may supersede Idaho State University Refund Policy under certain conditions for federal financial aid recipients. The greater of (1) Idaho State University calculations or (2) Federal guidelines, is refunded according to Federal refund requirements, when applicable.

Refunds
Academic and College of Technology Semester Classes
Before and during the first week of classes: 100%*
During the second week of classes: 75%*
During the third and fourth weeks of classes: 50%*
After the fourth week of classes NO REFUNDS
*There is a $25 processing fee for ALL refunds.

College of Technology Sessions
Before and during the first week of classes: 100%*
During the second week of classes: 50%*
After the second week of classes: NO REFUNDS
*There is a $25 processing fee for ALL refunds.

For classes, seminars and workshops with nonstandard starting and ending dates, refund requests are reviewed on an exception basis. The starting and ending dates are those designated by the University registrar.
This policy does not include the advance deposit required by the College of Technology or academic departments.

Nonrefundable Charges
1. State Board of Education authorized reduced fee charges. (Examples include but are not limited to faculty/staff reduced fees, senior citizen reduced fees, education contract classes, etc.)
2. Late processing charges.
3. Any amounts paid to satisfy fees/charges due from previous terms.
4. Amounts paid for student malpractice insurance.
5. Student Health Insurance premiums are not refunded under this policy. Please contact the ASIdaho State University Student Insurance Coordinator at (208) 282-2972 for Student Health Insurance refund provisions.

Refunds for Exceptional Circumstances
In specific cases, as listed below, a full refund of the registration fee, credit hour fee, nonresident tuition and professional fees will be granted following official withdrawal from school, provided the withdrawal process is completed during the first half of the semester or session (i.e., first eight weeks of a semester, first four weeks of a session). Proper documentation must be presented and approval granted by the offices of Student Affairs and Financial Services before the refund will be processed.

1. Military transfer of students who at the start of a semester are serving in the United States military in the Reserves, National Guard, or on active duty.
2. Incapacitating illness or injury which prevents the student from returning to school for the remainder of the term. A medical withdrawal must be processed through the University Student Health Center.
3. Death of a student.
4. Death of spouse, child, parent, or legal guardian of student.

Deductions from Refunds
The University reserves the right to deduct from refunds any amounts due the University. Refunds of actual fees for the term, less any remaining fee loan balances for the term, are used to offset financial aid awarded as prioritized below:
2. Agency authorizations for payment of actual fees.
3. University authorizations specifically for the payment of fees (i.e., graduate teaching assistant, athletics, etc.)
4. Miscellaneous outstanding balances due the University.
5. University loan programs.
6. University and donor scholarship programs.
Any balance is refunded to the student.

Payment of Refund
A check for the balance is mailed to the home address of the student with an itemized statement of deductions. Refund checks are not processed until four weeks after the start of the term or until at least three weeks after the actual date of payment for the term.

Registration Refund Appeals
Contact the Dean of Student Affairs or the University Controller for information on the University registration fee refund appeal process. Appeals should be submitted in writing before the end of the term for which the student is appealing.

Room and Board Fees
Students who fail to complete their agreement with the University Housing Office will have their board fees prorated and, after appropriate penalties have been deducted, may receive a refund. See the Terms and Conditions of Residence section of the Residence Life and Apartment Agreements for details on the penalties for room violations.

Delinquent Accounts
The Office of Financial Services may, without further notice, cancel current registration, withhold academic credit, place a hold on transcripts, or block future registration for any student with a delinquent account or unsatisfactory financial relationship with that office, provided the campus department in which the hold originated has attempted to notify the student. This regulation may be invoked at the discretion of the Vice President for Financial Services in cases of disregard in the settlement of returned checks, registration fees due, residence hall damage, library fines, telephone toll charges, overdue notes, traffic fines, room and/or board charges, apartment rental charges, etc.

Dishonored Check Policy
A charge of $15 is assessed each time a check is returned; this amount is charged to the student’s account and s/he is so notified. If the check is not cleared within ten days, a second notice is sent and a hold placed on his/her records.

Any check tendered in payment of registration fees and subsequently returned by the bank will result in automatic postponement of the student’s registration.

In the case of a check tendered in payment for room and board and subsequently returned by the bank, the student is notified immediately and allowed not more than five days for the check to clear. If not cleared within that time, the student’s meal ticket and/or room reservation is canceled.
Financial Aid and Scholarships

A significant number of students receive financial assistance at Idaho State University. Students frequently receive assistance from a variety of funding sources; e.g., Pell Grant plus an Idaho State University Freshman Scholarship plus College Work Study.

Financial assistance programs are administered by various departments at Idaho State University. The following list identifies the types of financial funding available and the University office to contact for further information. If writing to any of the departments listed below, use the address format here:

Major financial aid programs available through the Financial Aid and Scholarship Office include the following:

- Federal College Work Study
- Federal Perkins Loans
- Special Nonresident Waivers
- Leveraging Educational Assistance Partnership Grants
- Academic Competitiveness Grant
- Federal Supplemental Educational Opportunity Grants
- SMART Grant
- Federal Pell Grants
- Federal Ford Direct Student Loans
- Federal Ford Direct Parent Loans for Undergraduate Students

The application form used for financial aid programs through the Financial Aid Office is the Free Application for Federal Student Aid (FAFSA). The FAFSA will cover an application period for a given school year--fall, spring and summer semesters. Students are encouraged to file a FAFSA as soon as possible after January 1 for the subsequent school year and/or summer semester using copies of tax forms from the year most recently completed.

Financial Aid counselors are available to discuss students’ concerns related to financial aid. The Financial Aid staff will describe the types of financial assistance available and will assist students with the application process. Financial Aid counselors can also assist students in determining the cost of attendance, how to manage money while in school, and how to identify alternative sources of funding and also assists students in locating part-time jobs funded by the Federal Work Study Program.

Students must meet certain conditions in order to receive federal financial assistance through Idaho State University. The general conditions include the following: completion of a FAFSA to determine eligibility; admission and enrollment as a degree seeking student in a course of study leading to a degree or certificate; enrollment as a full-time (at least 12 credits per semester) three quarter time (9-11 credits per semester or halftime (6-8 credits per semester) student; meet Financial Aid satisfactory academic progress policy; be a U.S. citizen or an eligible non-citizen; and not owe a refund or repayment on Title IV grants or be in default or delinquent on Title IV loans.

To obtain more specific information, contact the Financial Aid Office, Room 337, Museum Building, 921 S 8th Ave Stop 8077, Pocatello, ID 83209-8077, (208) 282-2756. Or use the Financial Aid and Scholarship Web page, www.isu.edu/finaid/.

Scholarships

The majority of scholarships at Idaho State University are administered by the Associate Director of Scholarships with the assistance of various University committees. Scholarship funds are made possible through student fees, the generosity of individuals, and contributions of business, labor, fraternal, and professional organizations.

Scholarship criteria vary (i.e., minimum grade point average and/or financial need, major, etc.). Scholarship announcements, including eligibility and application deadline information, are regularly distributed by the Scholarship Office to campus departments, the student newspaper, posted on the Scholarship Bulletin Boards located in the lobby of the Museum Building, and published on the Scholarship Office website (www.isu.edu/scholar). Individuals seeking information on scholarships should contact the Scholarship Office:

Scholarship Office
Museum Building, Room 327
921 South 8th Avenue, Stop 8391
Pocatello, ID 83209-8391
(208) 282-3315
www.isu.edu/scholar

Nonresident tuition waivers are available to qualified students who demonstrate financial need (inquiries should be addressed to the Idaho State University Financial Aid and Scholarship Office), to students who have demonstrated strong academic ability, and to residents of Washington and Utah through reciprocal agreements. Contact the Scholarship Office for a scholar-related nonresident tuition waiver or Washington/Utah reciprocity nonresident tuition waiver information and applications.
Academic Information

Courses Required of All Degree-Seeking Students

All degree-seeking students must fulfill departmental, General Education, and general graduation requirements for their particular fields of study. Departmental graduation requirements are course concentration requirements for a major in each field of study, and are listed under the college to which the department belongs. General Education requirements are course distribution requirements for particular degrees, as listed below. Graduation requirements regarding credits, grades, and residence are common to all bachelor’s degrees and are described in the section following the General Education listing.

The General Education Program

Idaho State University’s General Education program is the foundation for degrees in the arts and sciences, business, education, engineering, health professions, pharmacy, and a Bachelor of Applied Science or Bachelor of Applied Technology (BAS/BAT) that combines an Applied Technology program with a foundation in general education and a supporting field. As a common foundation, general education is jointly owned by all the colleges even though almost all the courses that fulfill the requirements are taught in the College of Arts and Sciences.

The General Education requirements are organized into twelve goals: three in the skills areas of writing, speaking, and mathematics, and nine in content areas. Students are placed in general education courses on the basis of ACT scores and placement testing. Students in all colleges, including the College of Technology, take the College Board Computerized Placement Test for placement in English and mathematics courses. Depending on the results of placement testing in skill areas and foreign languages, general education comprises 37 to 61 of the 128 credit hours required for a baccalaureate degree.

Students pursuing a Bachelor of Arts or Bachelor of Fine Arts degree in the College of Arts and Sciences must complete all goals. Students pursuing the Bachelor of Music Education must complete all goals except 10B. Students pursuing the Bachelor of Business Administration, or the Bachelor of Arts in colleges other than Arts and Sciences, must complete Goals 1-9, 10A or 10B, and 11-12. Students pursuing the Bachelor of Science, the Bachelor of Applied Science, or the Bachelor of Applied Technology may substitute 12 hours in physical or biological sciences for Goals 4 and 5, and must complete only two of Goals 6, 7, and 8, and three of Goals 9, 10A or 10B, 11, and 12. Students pursuing the Bachelor of Music degree are required to take six credits of English composition, eight credits of a foreign language, twelve credits in the social sciences, eight credits in the natural sciences, and four credits other than music and foreign languages in the humanities. The General Education Requirements for students admitted to the Bachelor of University Studies degree are individualized, although most students in that program take courses that would meet most goals.

Some goals can be met only by a specified course or sequence of courses. Others allow a small range of choices that accommodate the needs of students with different prospective majors. To meet the quantitative competence goal, for example, students may elect one of six mathematics courses.

General Education Requirements: The Twelve Goals

Goal 1:

To express ideas in clear, logical, and grammatically correct written English.

Criteria for courses: Courses in expository writing fulfill this requirement. The skills learned in these courses are those that are readily adaptable to any situation in which one must communicate in writing. Writing courses designed to meet the special needs of one discipline do not fulfill this requirement.

Credits required: Variable, depending on whether the student is placed in ENGL 90 (noncredit), ENGL 101, or ENGL 102 (see Placement Protocols section, following the Goals section). Goal 1 is satisfied when the student has passed ENGL 102 with a grade of “C-” or better.

Goal 2:

To express ideas clearly, correctly, logically, and persuasively in spoken English.

Criteria for courses: Courses which fulfill this requirement are those in which students develop skills appropriate to formal and informal, public and private oral discourse. Students study and practice the principles of interpersonal communication, small group dynamics, expository speaking, argumentation, and persuasion. Courses designed to meet the special needs of one discipline do not fulfill this requirement.

Credits required: 3 or satisfactory completion of a proficiency examination administered by the Department of Communication and Rhetorical Studies.

Courses satisfying the goal:

</tbody>
</table>
Goal 3:
To gain an understanding of mathematics as a language in which to express, define, and answer questions about the world.

Criteria for courses: Courses which fulfill the requirement (1) require a basic high school algebra background as defined by the prerequisite listed for each course below, and (2) acquaint the student with a significant body of mathematical language, models, and methods.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Calculus AB, Calculus BC, or Statistics will also satisfy this goal.

Credits required: 3-4 credits

Courses satisfying the goal:

</table>

For further information about mathematics prerequisites and placement, see Placement in Mathematics, which follows these goal descriptions.

Goal 4:
To understand how the biological sciences explain the natural world.

Criteria for courses: Courses in the biological sciences which fulfill this requirement (1) examine the processes by which scientific knowledge is gained, (2) introduce the basic concepts and terminology of the biological sciences, and (3) explore how scientific knowledge influences human society.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Biology will also satisfy this goal.

Credits required: 4 credits

Courses satisfying the goal:

<table>

<td></td>
</tr>
</tbody>
</table>

Goal 5:
To understand how the physical sciences explain the natural world.

Criteria for courses: Courses in the physical sciences which fulfill this requirement (1) examine the processes by which scientific knowledge is gained, (2) introduce the basic concepts and terminology of one or more of the physical sciences, and (3) explore how scientific knowledge influences human society.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in Chemistry will also satisfy this goal.

Credits required: 4 credits

Courses satisfying the goal (choose one):

</tr>
</tbody>
</table>

Another means to satisfy this goal is to take one sequence from the following:

CHEM 101  Introduction to General Chemistry 3 cr AND
CHEM 102  Introduction to Organic and Biochemistry 3 cr AND
CHEM 103  Introduction to General, Organic and Biochemistry Lab 1 cr
CHEM 101 and 112 7 cr
CHEM 111-112  General Chemistry I and II 9 cr
CHEM 111, 102 AND 103 7 cr
PHYS 111, 112, 113, 114  General Physics I and II plus Labs 8 cr
PHYS 211, 212, 213, 214  Engineering Physics I and II plus Labs 10 cr
PHYS 111/112 and 213/214 8 cr
PHYS 211/212 and 113/114 10 cr

*GEOL 110 is the lab for students in geology majors.

Goal 6:
To understand the creative processes, the aesthetic principles and the historical traditions of one or more of the fine arts.

Criteria for courses: Courses in the fine arts disciplines which fulfill this requirement (1) demonstrate the creative processes and the aesthetic principles artists employ, (2) demonstrate how art both reflects and shapes human and artistic values, (3) introduce students to the work of major artists. Performing and studio courses do not fulfill this requirement.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in either Art History or Music History and Literature will also satisfy this goal.

Credits required: 3 credits

Courses satisfying the goal (choose one):

</tbody>
</table>

Goal 7:
To understand how major works of literature explore the human condition and examine human values.

Criteria for courses: Courses which fulfill this requirement (1) emphasize major writers and major genres, (2) emphasize how literary artists contribute to understanding the human condition. Courses devoted to the study of a single literary figure, a single genre, or a single national literature do not fulfill this requirement.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in English Literature and Composition will also satisfy this goal.

Credits required: 3 credits

Courses satisfying the goal (choose one):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 110</td>

</tbody>
</table>
Goal 8:
To understand how major philosophies influence human thought and behavior.

Criteria for courses: Courses which fulfill this requirement (1) examine a broad range of topics leading to or issuing from major philosophical questions, (2) emphasize the works of major philosophers.

Credits required: 3 credits
Courses satisfying the goal:
- PHIL 101 Introduction to Philosophy 3 cr
- PHIL 102 Introduction to Ethics 3 cr

Goal 9:
To understand the history and culture of the United States.

Criteria for courses: Courses which fulfill this requirement stress the interaction of ideas, events, and environment which have been significant in molding the nation’s culture and history through time. Courses which consider one or two narrow aspects of American history or culture do not fulfill this requirement.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in U.S. History will also satisfy this goal.

Credits required: 3 credits
Courses satisfying the goal (choose one):
- HIST 111 U.S. History I (to 1865) 3 cr
- HIST 112 U.S. History II (to present) 3 cr
- HIST 118 U.S. History and Culture 3 cr
- AMST 200 Introduction to American Studies 3 cr

Goal 10A:
To understand cultures other than that of the United States.

Criteria for courses: Courses which fulfill this requirement (1) concern themselves with one or more significant contemporary or past cultures other than that of the United States, (2) are broad studies of that culture, and (3) integrate intellectual, cultural, and historical developments of the culture. Studies of one aspect of a foreign culture do not fulfill this requirement.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in European History, World History, or World Geography will also satisfy this goal.

Credits required: 3 credits
Courses satisfying the goal (choose one):
- ANTH 237 People and Cultures of the Old World 3 cr
- ANTH 238 Peoples and Cultures of the New World 3 cr
- ANTH 239 Latino Peoples and Cultures 3 cr
- CMLT 207 Contemporary European Culture 3 cr
- CMLT 208 Cultures of the Spanish-Speaking World 3 cr
- CMLT 209 Asian Cultures 3 cr
- HIST 101 Foundation of Western Civilization 3 cr
- HIST 102 Development of Western Civilization 3 cr
- HIST 251 Latin American Civilization 3 cr
- HIST 252 East Asian History 3 cr
- HIST 254 Middle Eastern Civilization 3 cr
- HIST 255 African History and Culture 3 cr

Goal 10B:
To develop communication skills in a foreign language and an understanding of its cultural context.

Criteria for courses: Courses which fulfill this requirement are those that (1) stress spoken and written communication in a single foreign language; (2) examine the language’s grammatical structure in comparison with English; (3) treat the foreign language as a significant aspect of civilization; and (4) foster an appreciation for the cultural heritage of people from a different ethnic environment.

Credits required: 8 credits in a single language. Nonnative speakers of English, i.e. students who grew up in a non-English speaking country and learned English as their second language fulfill Goal 10B by passing ENGL 101 and 102.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in a foreign language will also satisfy this goal.

Credits required: 3 credits
Courses satisfying the goal (choose one):
- ANTH/SHOS 101-102 Elementary Shoshoni 8 cr
- ARBC 101-102 Elementary Arabic 8 cr
- CHNS 101-102 Elementary Chinese 8 cr
- FREN 101-102 Elementary French 8 cr
- GERM 101-102 Elementary German 8 cr
- JAPN 101-102 Elementary Japanese 8 cr
- LATN 101-102 Elementary Latin 8 cr
- RUSS 101-102 Elementary Russian 8 cr
- SPAN 101-102 Elementary Spanish 8 cr
- ANTH/SHOS 201-202 Intermediate Shoshoni 8 cr
- ARBC 201-202 Intermediate Arabic 8 cr
- CHNS 201-202 Intermediate Chinese 8 cr
- FREN 201-202 Intermediate French 8 cr
- GERM 201-202 Intermediate German 8 cr
- JAPN 201-202 Intermediate Japanese 8 cr
- LATN 201-202 Intermediate Latin 8 cr
- RUSS 201-202 Intermediate Russian 8 cr
- SPAN 201-202 Intermediate Spanish 8 cr

*Placement test is required for French, German, and Spanish 100-level courses.

Goal 11:
To understand how political and/or economic organizations, structures, and institutions function and influence human thought and behavior.

Criteria for courses: Courses in government and/or economics which fulfill this requirement (1) examine significant economic or political institutions; and (2) demonstrate the function and processes of those institutions through methods of these social sciences.

Courses which focus on narrow aspects of the economic or political systems or which are of a current, topical nature do not fulfill this requirement.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Political Science, or a score of 4 or 5 on the exam in Macroeconomics or Microeconomics, will also satisfy this goal.

Credits required: 3 credits
Courses satisfying the goal (choose one):
- ECON 100 Economic Issues 3 cr
- ECON 201 Principles of Macroeconomics 3 cr
- ECON 202 Principles of Microeconomics 3 cr
- POLS 101 Introduction to American Government 3 cr

Goal 12:
To understand how people function within society.

Criteria for courses: Courses in sociology, psychology, and/or anthropology which fulfill this requirement (1) emphasize individual or group behavior, and (2) demonstrate central analytical approaches used in these social sciences. Courses which focus on narrow aspects of sociology, psychology, or anthropology or which are of a current topical nature do not fulfill this requirement.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in Psychology will also satisfy this goal.

Credits required: 3 credits
Courses satisfying the goal (choose one):
- ANTH 100 General Anthropology 3 cr
- PSYC 101 Introduction to General Psychology 3 cr
- SOC 101 Introduction to Sociology 3 cr
- SOC 102 Social Problems 3 cr
General Education and Major Field Requirements

If a student’s major program requires a course which also is approved for general education, that course may fulfill both general requirements and major field requirements.

Other Means of Satisfying General Education Requirements

Goals 1 and 2 must be satisfied as stated above. Goals 4-12 may be satisfied by six hours in the appropriate field for the goal if the courses are compatible with the goal (determined by the department). A course may not satisfy two goals.

Departments have identified the following courses as other means of satisfying General Education Requirements:

**Goal 3:** A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Calculus AB, Calculus BC, or Statistics will also satisfy this goal. For Elementary Education majors ONLY, Goal 3 may be satisfied by taking both MATH 256 and MATH 257.

**Goal 4:** A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Biology will also satisfy this goal.

**Goal 5:**

Choose one combination:

- CHEM 101, 102, and 103 7 cr
- CHEM 111, 112 9 cr
- CHEM 111, 102 and 103 9 cr
- CHEM 101 and 112 7 cr
- PHYS 101, 101L* 4 cr
- PHYS 111, 112, 113, 114 8 cr
- PHYS 211, 212, 313, 214 10 cr
- PHYS 111 and 112 with labs 214 and 214 8 cr
- PHYS 211 and 212 with labs 113 and 114 10 cr

*This option is available only to students in the Civil Engineering Technology and Geomatics Technology programs in the College of Technology.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in Chemistry will also satisfy this goal.

**Goal 6:** A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in either Art or Music History and Literature will also satisfy this goal.

**Goals 6 and 7** together are satisfied when both the following courses have been completed, and **Goal 1** is also satisfied if both courses are completed with a grade of C- or better:

- HONS 101-102 Honors Humanities I and II 6 cr

**Goal 7:** Choose two:

- ENGL 211, 267, 268, 277, 278, 321.

A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement Exam in English Literature and Composition will also satisfy this goal.

**Goal 8:** Choose two:

- PHIL 220, 230, 305, 315, 325, 400, 410, 420, 430, 450, 460,
- PHIL/ENGL 440.

**Goal 9:** Choose two:

- ANTH/HIST 258,
- HIST 307, 308, 309,
- SOC 450

A score of 3 or better on the College Entrance Examination Board’s Advanced Placement exam in U.S. History will also satisfy this goal.

**Goal 10A:** Choose two:

- HIST 221, 223, 326, g443, g444, g446, g448, g460, g474

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in European History, World History, or World Geography will also satisfy this goal.

**Goal 10B:** A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in a foreign language will also satisfy this goal.

**Goal 11:** Choose two:

- POLS g401, g403, g404.

A score of 3 or above on the College Entrance Examination Board’s Advanced Placement exam in Political Science, or a score of 4 or 5 on the exam in Macroeconomics or Microeconomics, will also satisfy this goal.

**Goal 12:** A score of 4 or 5 on the College Entrance Examination Board’s Advanced Placement exam in Psychology will also satisfy this goal.

Goal Course Learning Outcomes

This section details specific learning outcomes for each of the goal courses described in the preceding overview of the General Education Requirements. These learning outcomes were articulated by the academic departments in the College of Arts and Sciences as part of the ongoing review of the general education program at Idaho State University. These review efforts underscore the College of Arts and Sciences commitment to a sound general education as the foundation for effective learning throughout students’ educational programs.

The learning outcomes listed below represent the specific expectations for student learning developed by each academic department for its goal course(s). Though there is considerable overlap between many of the stated outcomes, the various outcomes are specific to each course and to the academic discipline in which it is based. This specificity serves two primary purposes. One purpose is to make assessment of what is learned in the courses by the students more accurate and effective; however the most important purpose is to answer the question “What, exactly, will students get from this course; why should they take it?” These goal course learning outcomes, then, represent information vital to informing sound decisions as students plan their educational programs.

**Goal 1 Learning Outcomes — ENGL 102**

**Stated Goal:** To express ideas in clear, logical, and grammatically correct written English.

(The skills learned in these courses are those that are readily adaptable to any situation in which one must communicate in writing.)

**Student Learning Outcomes**

Students will:

1. Read academic texts critically, analyzing and interpreting prose written from a variety of disciplinary, ideological, and rhetorical perspectives.

2. Use appropriate research methods to gather, evaluate, analyze, and synthesize material from both primary and secondary sources, with special consideration of points of view and representations of academic discourse communities.

3. Demonstrate conscious control of practicing writing as a process aimed at developing abilities to write argumentative/persuasive prose for a variety of academic purposes and audiences. To
this end, students will produce at least 5,000 words of edited prose demonstrating the ability to:

a. support theses developed from thorough consideration of multiple perspectives on significant issues.
b. use a variety of rhetorical strategies for a range of audiences and purposes, chiefly for persuasion and argument.
c. control conventions of written English for academic purposes, including summary, paraphrase, and appropriate documentation style(s).
d. proofread and edit writing to conform to accepted standards for academic writing in English.

Goal 2 Learning Outcomes — COMM 101

Stated Goal: To express ideas clearly, correctly, logically, and persuasively in spoken English. (The course satisfying this goal ensures that students develop skills appropriate to formal and informal, public and private oral discourse.)

Student Learning Outcomes

1. Study, prepare, and present spoken exercises in interpersonal communication, group communication, informative speaking, argumentation, and persuasion.
2. Utilize appropriate research methods such as library research, web research, and interviewing to gather information and evidence for their presentations.
3. Select from their research important ideas and arguments. Students then structure their ideas and arguments according to appropriate informational, argumentative, and persuasive formats.
4. Present three spoken exercises to the class using extemporaneous (not read or memorized) delivery.
5. Demonstrate basic rhetorical principles in preparing and presenting their spoken exercises including: sound research, logical structure, appropriate and correct language, careful audience adaptation, logical argument, appropriate emotional appeal, and careful credibility development.

Goal 3 Learning Outcomes — MATH 123, 127, 130, 160, 170, and 253

Stated Goal: To gain an understanding of mathematics as a language in which to express, define, and answer questions about the world.

Student Learning Outcomes

In MATH 123, Mathematics in Modern Society, students will investigate fields of current interest in which mathematical reasoning is connected with and applied toward modern problems involving social choice and decision-making. Topics will be selected from such areas as voting and apportionment, fair division of property, networking, scheduling, population growth and decline, and the interpretation of graphical and statistical information.

Students will:
1. Read descriptions of the topics to be investigated and evaluate the importance of each in current society and in the marketplace;
2. Integrate verbal and quantitative aspects of the problems under consideration;
3. Study historical accounts of proposed solutions and algorithms;
4. Solve numerous examples of each problem, so as to appreciate the strengths and weaknesses of the various available procedures;
5. Learn to communicate their solutions orally and in writing.

In MATH 127, The Language of Mathematics, students will study the precise language used throughout mathematics.

Students will:
1. Read mathematical passages;
2. Study the necessity of appropriate notation in mathematical exposition;
3. Practice precise exposition of quantitative, logical, and spatial concepts;
4. Recognize and avoid pitfalls of inaccurate speech and writing;
5. Transfer mathematical precision to their analysis of other forms of prose;
6. Learn the basics about such concepts of mathematics as set, function, relation, and identity; become more proficient with proofs.

In MATH 130, Finite Mathematics, students will study problems similar to those which calculus handles successfully for continuous models. Finite mathematics provides an alternative approach to such applications when the underlying model is either not necessarily continuous or when the methods and concepts of calculus are not needed or not feasible.

Students will:
1. Study the concept, the notation, and the manipulations of matrices;
2. Use matrices as a convenient data structure for systems of linear equations and inequalities, applying them also to such problems as network analysis and optimization;
3. Study the computation and the application of probability and its consequences as a valuable tool for decision-making under uncertainty;
4. Develop and apply models that link matrix theory and probability (for example, Markov chains);
5. Solve numerous problems from the topics above and explore possible extensions and connections to such areas as elementary statistics, game theory, or the mathematics of finance.

In MATH 27, The Language of Mathematics, students will study the concepts of calculus via accurate interpretation, manipulation, and application of the symbols of calculus.

Students will:
1. Investigate the concepts of calculus via the examination of numerical measurement and data;
2. Investigate the concepts of calculus from a graphical perspective;
3. Investigate the concepts of calculus using insights gained from applications and successful mathematical models;
4. Solve numerous problems that illustrate the mutually reinforcing nature of the above-mentioned symbolic, numerical, graphical, and applied approaches to studying calculus.
MATH 170 Calculus I students will begin in this course an in-depth study of the central concepts of differential and integral calculus. Connections will be made between these concepts and their application toward problems arising primarily in the natural sciences and in engineering.

Students will:
1. Be able to evaluate various limits and to appreciate the concept of limit as the portal from background mathematics (algebra, geometry, trigonometry) into calculus;
2. Master the definition of derivative (both as a rate of change and as a slope), study its properties, compute and manipulate derivatives without dependence on symbolic software, and apply derivatives to the solution of actual problems arising in science;
3. Master the construction of the definite integral of a continuous function so as to recognize applications of integration when they arise, and practice the evaluation of indefinite integrals;
4. Study indefinite integrals and the Fundamental Theorem of Calculus, and solve numerous problems that apply it to natural sciences and geometry.

In MATH 253, Introduction to Statistics, students will be introduced to descriptive and inferential statistics. In a modern world which often suffers from both too much and too little data, students will participate in intelligently applying the concepts of this course to a variety of disciplines.

Students will:
1. Interpret and produce descriptive statistics, both graphical and numerical;
2. Study some of the foundational concepts of statistical inference, including the role of the normal distribution and other distributions;
3. Solve numerous problems in inferential statistics from a wide collection of real-world and academic environments, with emphasis on testing hypotheses and estimating parameters;
4. Determine the assumptions that underlie and explain past and present use and abuse of statistical reasoning;
5. Practice using tables and/or calculators and/or software as time-and labor-saving devices, but only to the extent that these devices enhance understanding of the concepts and procedures of statistics.

**Goal 4 Learning Outcomes** — BIOL 100, 100L, 101, 101L

**Stated Goal:** To understand how the biological sciences explain the natural world. (These courses examine the processes by which scientific knowledge is gained, introduce the basic concepts and terminology of the biological sciences, and explore how scientific knowledge influences human society.)

**Student Learning Outcomes**
Students will:
1. Design an experiment, based on a reasonable scientific hypothesis, to demonstrate how an environmental factor affects a living organism.
2. Choose two biological concepts from the following list and explain how they are related: ecology, cell function, evolution, genetics.
3. Provide two examples that show why it is important in everyday life for an educated person to understand biology.
4. Pick a single concept in biology and explain its historical development.
5. Discuss the biological evidence for ONE of the following biological concepts: biological evolution, DNA as the genetic material, independent assortment of chromosomes, competitive exclusion.
6. Develop their written arguments using clear and concise prose.

**Goal 5 Learning Outcomes** — GEOL 100, 100L; 101, 101L, 110L; 115, 115L; CHEM 100, 101, 102, 111, 112; PHYS 100; 101, 101L; 152, 153

**Stated Goal:** To understand how the physical sciences explain the natural world. These courses examine the processes by which scientific knowledge is gained, introduce the basic concepts and terminology of one or more of the physical sciences, and explore how scientific knowledge influences human society.

**Student Learning Outcomes**
CHEM 100, 101, 102, 111, and 112

Students will:
1. Demonstrate knowledge of basic chemical processes and terminology.
2. Demonstrate awareness of how chemistry is a part of their everyday lives.
3. Understand the nature of scientific knowledge as compared to other forms of knowledge and be able to distinguish what is scientific knowledge from what is not.
4. Demonstrate their understanding of how the process of science works.
5. Demonstrate developing confidence in learning chemistry (and science in general).
6. Demonstrate the development of a positive attitude toward chemistry.

GEOL 100, 100L, 101, 101L, 110L, 115, 115L

Students will:
1. Describe the scientific method and provide an example of its application.
2. Pick a single theory from the science represented by this course and explain its historical development.
3. Provide two examples of testable hypotheses.
4. Provide two specific examples that illustrate why it is important to the everyday life of an educated person to be able to understand science.
5. Describe two current examples of the relationship between physical science and public policy.
6. Describe an example of how the Earth’s internal heat drives physical processes we can observe at the Earth’s surface.
7. Describe an example of how solar energy drives physical processes we can observe at the Earth’s surface.
8. Describe the relationship between geologic processes and natural resources used by human society.
9. Outline our understanding of geologic time and discuss how this course opened their minds to the notion of a four-dimensional science.

PHYS 100, 101, 101L, 152, 153

Students will:
1. Improve their conceptual understanding of physical laws.
2. Develop problem solving skills, and the ability to apply fundamental principles to quantitatively describe and predict physical behavior.

3. Critically evaluate scientific and technical information and communicate their understanding.

4. (152/153) improve their conceptual knowledge of Earth, our solar system, our place in the universe, where we came from, and where we are going.

5. (152/153) develop a useful set of problem solving skills that will enable them to make predictions based on scientific data. Students will develop understanding of the scientific method and its usefulness in understanding how the universe works.

6. (152/153) demonstrate the ability to critically assess scientific and technical information and to communicate in a persuasive manner ideas based on such assessments.

**Goal 6 Learning Outcomes**

— **DANC 200 and 201; MUSC 100, 106, 108; ART/M C 210; THEA 101**

**Stated Goal:** To understand the creative processes, the aesthetic principles, and the historical traditions of one or more of the fine arts. (All of these courses emphasize understanding the creative processes and the aesthetic principles which artists employ, how art both reflects and shapes human and artistic values, and an introduction to the works of major artists.)

**Student Learning Outcomes**

DANC courses

Students will:

1. gain knowledge of various dance forms from around the world;
2. gain an understanding of dance as an art form, a form of education, a repository of cultural knowledge, and a form of physical development with therapeutic attributes;
3. view as well as embody dance experiences in the studio setting;
4. comprehend dance in relation to historical events and cultures;
5. gain perspective on dance criticism with respect to aesthetics and representation.

MUSC 100 students will focus on the history of Western music from the Medieval period through the 21st century.

Students will:

1. Encounter music through lectures, listening examples, videos, and live concert attendance.
2. Learn the basic elements of music.
3. Use their learned music vocabulary to hear music from different musical eras.
4. Use their learned music vocabulary to describe music (in speech and writing) from different musical eras.

MUSC 106 students will gain an appreciation and awareness of American folk, pop, and art music in the United States. The history of both sacred and secular music is traced from the indigenous (American Indian) and European cultures

Students will:

1. Encounter American music through reading, lectures, listening examples, videos, and live concert attendance.
2. Gain an appreciation of the range of musical genres and styles found in American music.
3. Students will aurally identify the range of musical genres and styles found in American music.
4. Articulate (in speech and writing) their understanding of the range of musical genres and styles found in American music, as well as the musical elements which constitute those genres and styles.

MUSC 108 students will survey both the history of Western and non-Western music. The course is a chronological journey through the musical eras which emphasizes awareness of music from around the world.

Students will:

1. Be introduced to world music through reading, lectures, listening examples, videos, and live concert attendance.
2. Understand the elements of music shared throughout the world.
3. Be able to define the history of traditional and ethnic music.
4. Articulate (in speech and writing) their understanding of the range of musical elements which constitute music around the world.

ART/M C 210

Students will:

1. Study photographs which are significant to the evolution of this medium and gain appreciation for their aesthetic and communicative importance. The conceptual basis for the images is stressed.
2. Gain a knowledge of the Vldaho State Universityal history from the early industrial revolution which spawned photography to images of present day society and their importance in the shaping of western culture and the photographic aesthetic.
3. Learn the social, cultural, political and major aesthetic influences on photography which were instrumental in the creation of the major styles and uses of photographs.

The progress of the students in this course is measured using the following instruments:

A. Midterm exam. This exam is comprised of objective and essay questions which test both specific information and overall understanding of the invention and evolution of photography throughout the 19th century.

B. Research paper. The paper demonstrates the students’ ability to write intelligently on a specific nontechnical topic in photography. They are required to discuss an artist’s work and how it contributed to the overall body of photographic knowledge.

C. Final exam. This exam is comprised of objective and essay questions which test both specific information and overall understanding of the evolution of photography and the impact of new technologies on 20th century image making.

Please note that as information on the historical importance of 21st century photography becomes available, it will be included in this course.

THEA 101 students will understand theatre as a highly collaborative art. A theatrical performance represents a host of choices made by the playwright, the director, the designers, the actors, and the running crew. In coming to understand these choices, THEA 101 students will gain an appreciation for all aspects of the art of theatre, and learn to be perceptive and knowledgeable audience members.
Students will:
1. Tour our performance, shop and backstage areas as possible, and will study theatre architecture, including types of stages (proscenium, thrust, arena, black box) and considerations in theatre design.

2. Be exposed to the basic considerations of theatrical design, including stage design/construction, costume design/construction, lighting, makeup, and sound design.

3. Be exposed to elements of acting and directing. Where possible, they will meet directors and actors involved with Theatre Idaho State University productions.

4. Attend several performances and attend our performance, shop and backstage areas as possible, and study theatre architecture, including types of stages (proscenium, thrust, arena, black box) and considerations in theatre design.

5. Read and discuss a number of plays from a variety of time periods, generally including Greek/Roman, Elizabethan, early Realism, and contemporary.

6. Gained a general sense of the history of Western theatre.

7. Participate in group projects which will acquaint them with specific aspects of theatrical production.

Goal 7 Learning Outcomes — English 110, 115, 257, 258

Stated Goal: To understand how major works of literature explore the human condition and examine human values. (All four of the Goal 7 courses emphasize both major writers and major genres, as well as how literary artists contribute to understanding the human condition.)

Student Learning Outcomes

Students will:
1. Tour our performance, shop and back-stage areas as possible, and will study theatre architecture, including types of stages (proscenium, thrust, arena, black box) and considerations in theatre design.

2. Be exposed to the basic considerations of theatrical design, including stage design/construction, costume design/construction, lighting, makeup, and sound design.

3. Be exposed to elements of acting and directing. Where possible, they will meet directors and actors involved with Theatre Idaho State University productions.

4. Attend several performances and attend our performance, shop and backstage areas as possible, and study theatre architecture, including types of stages (proscenium, thrust, arena, black box) and considerations in theatre design.

5. Read and discuss a number of plays from a variety of time periods, generally including Greek/Roman, Elizabethan, early Realism, and contemporary.

6. Gained a general sense of the history of Western theatre.

7. Participate in group projects which will acquaint them with specific aspects of theatrical production.

b. relating the characteristics of literature to larger cultural and human values.

c. articulating how individual works of literature are representative, even critical, of the cultures and historical periods in which they are written and read.

d. identifying traditional genres and subgenres of literature — poetry, prose fiction, drama, prose nonfiction — and the mental activities required to engage a literary text.

e. articulating an understanding of the range of ways to define text/reader and writer/reader relationships.

3. write at least 2500 words of edited prose demonstrating:
   a. the ability to analyze the constituent parts of a variety of literary texts and the ability to articulate the relationship between the construction of a text and the ability of a text to make significant comment concerning the human condition.
   b. the ability to analyze the historical contexts in which literary texts occur and the ability to articulate the relationship between the human condition explored in literary texts and the historical and cultural contexts from which it was written.

Goal 8 Learning Outcomes — PHIL 101, 103

Stated Goal: To understand how major philosophies influence human thought and behavior.

Student Learning Outcomes

Students will:
1. Demonstrate an understanding of how literary artists contribute to understanding the larger human condition, including an understanding of the nature of "literature," i.e. those texts worth critical study in a college classroom.

2. Demonstrate an understanding of the intellectual demands necessary to reading literature critically. Students will demonstrate this understanding by:
   a. identifying the characteristics inherent in literature, such as emotional, intellectual, and aesthetic designs, as well as dramatic meditations on problems of the human condition.

Goal 9 Learning Outcomes — AMST 200; HIST 111, 112, 118

Stated Goal: To understand the history and culture of the United States. (These courses stress the interaction of ideas, events, and environment which have been significant in molding the nation’s culture and history through time.)

Student Learning Outcomes

Students will:
1. Demonstrate an understanding of the concept of culture and the ability to apply the concept to various American cultures;

2. Demonstrate an understanding of the concept of cultural change over time.

3. Demonstrate an ability to construct and support effective arguments using historical and cultural perspectives.
and interactions with the natural and social environment in which they are embedded.

2. Critically assess their own culture and values through specific cross-cultural comparisons.

3. Describe how their own culture and values fit into the broader multicultural world.

4. Demonstrate the above understandings through graded exams, original papers and presentations, or projects.

HIST 101, 102, 251, 252, 254, 255

Students will:
1. Be able to describe and explain the principal features of the culture(s) of at least one major area outside of the United States and how those features have changed over a substantial period of time.
2. Be able to analyze products of the culture(s) such as literature, philosophical or religious texts, built environments, works of art, or rituals.
3. Demonstrate skills in relating changes in cultural expression to diverse aspects of its context including:
   a. political conflict;
   b. economic and technological change;
   c. environmental factors;
   d. interaction with other cultures through trade, travel, migration, or conquest;
   e. changes in social organization.

Goal 10B Learning Outcomes — Beginning foreign language courses

Stated Goal: To develop communication skills in a foreign language and an understanding of its cultural context.

Student Learning Outcomes
Students will:
1. gain a knowledge of all the important aspects of basic grammar in the chosen language.
2. develop speaking and comprehension abilities in the chosen language which are suitable for a variety of simple social encounters.
3. develop an appreciation of the cultural breadth of the parts of the world where the chosen language is spoken.
4. develop an elementary understanding of the scope of literary culture in the chosen language.

Goal 11 Learning Outcomes — ECON 100, 201, and 202; POLS 101

Stated Goal: To understand how political and/or economic organizations, structures, and institutions function and influence human thought and behavior.

Student Learning Outcomes
ECON 100, 201, and 202

Students will:
1. Read economic texts and articles critically, analyzing and examining economic models, organizations, structures, and institutions.
2. Develop an “economic thought process” (e.g., an approach that examines human actions and interactions which places a strong emphasis on choices by individuals who continually compare expected benefits and costs).
3. Demonstrate knowledge of key economic concepts and an ability to apply basic economic theory.
4. Explain and evaluate basic current economic concepts and controversies published in daily newspapers and weekly news magazines (e.g., The Wall Street Journal, or Business Week).
5. Demonstrate a basic understanding regarding the generation, construction, and meaning of economic data, and further exhibit an ability to analyze, interpret, and use this data.

POLS 101

Students will:
1. Demonstrate a well-rounded knowledge of American government and politics sufficient to fulfill civic education goals.
2. Demonstrate an understanding of how political scientists analyze and interpret the foundations, institutions, processes, and actors that constitute American government and politics.
3. Demonstrate critical thought about American government and politics.
4. Develop effective oral and written communication skills.
5. Engage in political problem solving and decision making exercises.
6. Be exposed to a variety of analytic, methodological, and ideological perspectives in the study of American government and politics.

Toward these ends, students in POLS 101 will:
1) Read texts that focus on the foundations, institutions, processes, and actors that constitute American government and politics.
2) Employ the appropriate interpretive, critical, and empirical frameworks and methods in order to analyze, interpret, and synthesize material relevant to the study of American government and politics and in support of civic education. These approaches and methods will be left to the professional judgment and pedagogical philosophy of the individual instructor.
3) Be tested with regard to recall (remembering terms, facts), comprehension (understanding meanings), application (using information in different situations), analysis (to ascertain the key elements of a theory, structure, institution, process, or event), synthesis (to generalize or create new ideas from existing sources), and evaluation (to discriminate and assess the value of evidence). (The types of testing employed will be left to the discretion of the individual instructor. Testing can range from traditional exams to critical research papers to groups projects to simulations to case studies.)

Goal 12 Learning Outcomes — ANTH 100; SOC 101, 102; PSYC 101

Stated Goal: To understand how people function within society. (These courses emphasize broad topics concerning individual and/or group behavior, and demonstrate the central analytical approaches used in the social sciences.)

Student Learning Outcomes

ANTH 100 recognizes that culture consists of the traditions, customs and accumulated knowledge learned by individuals as they mature within societies. The functioning of individuals within socio-cultural systems is normally an unexamined process because the maintenance of cultures often depends on individuals not understanding how the system works and how much of individual behavior and values are determined by the nature of the economies and politics in which they are raised. As the teaching of anthropology depends greatly upon understanding our own society through comparing it to others, students who suc-
cressfully complete this course will have a better appreciation of how individuals become acculturated into their own society, subculture, and/or nation; and how the various aspects of societies are integrated into viable and sustainable systems.

Students will:
1. Read about and visually study (through various audio-visual means) individuals and groups functioning within diverse societies, both past and present. This should include how economics, technology, art, religion, politics, and philosophy are all integrated with each other in functioning societies.
2. Critically assess their own role in their society through cross-cultural comparisons with individuals functioning in other societies.
3. Describe how their own culture and values fit into the broader multicultural world.
4. Compare a variety of cultures to one another with respect to the components of societies (religion, art, technology, economics, etc.) and how they contribute to making the system sustainable.
5. Demonstrate the above understandings through graded exams, original papers and presentations, or projects.

SOC 101 and 102
Students will:
1. (101) Demonstrate an awareness of the general sociological theory and research methods.
2. (101) Read academic texts to critically analyze the social groups and institutions.
3. (101) Demonstrate an understanding of sociological theory and method with regard to the analyzing social groups and institutions.
4. (102) Demonstrate an awareness of the general sociological theory and research methods.
5. (102) Read academic texts to critically analyze the social groups and institutions as these relate to social problems and issues.
6. (102) Demonstrate an understanding of sociological theory and method with regard to the analyzing social problems in the context of social groups and institutions.

PSYC 101
Students will:
1. Demonstrate an increased awareness of the determinants of behavior including:
   a. How individual, social and cultural differences influence behavior
   b. How learning and cognition influence behavior
   c. How developmental factors influence behavior across the life span
   d. How and what physiological mechanisms affect behavior.
2. Be exposed to research methods as the apply across the breadth of topics studied by psychologists.
3. Be involved in the research process by participating in or by reading original research projects.
4. Be exposed to different theoretical orientations adhered to by psychologists practicing both basic and applied science.

Placement in Mathematics Courses
All mathematics courses except MATH 015 have prerequisites. Students place into a course either by completing the prerequisite with a grade of C- or better (S in MATH 015 and 025) or by achieving appropriate scores on the ACT exam, SAT exam, or Compass mathematics placement exam. For placement purposes, prerequisite coursework or placement examinations must have been taken within the last seven years.

The following diagram shows the chain of prerequisites for basic mathematics courses. Courses that fulfill Goal 3 are in borders.

2. Students who have achieved scores of 3 or 4 on the Composition and Literature or the Language and Literature Advanced Placement Examination administered by Educational Testing Service receive a grade of “Satisfactory” and three ENGL 101-equivalent credits. Students who receive a 5 on the same test(s) will receive two grades of “Satisfactory” and three ENGL 101-equivalent credits and three ENGL 102-equivalent credits.

Because Goal 1 courses advance acquisition of writing skills important for academic success, students are encouraged to complete them in timely fashion. Accordingly, ENGL 101 should normally be completed during the freshman year, ENGL 102 by the conclusion of the sophomore year.

Placement in English Courses
1. Students with an ACT English score below 18 register for ENGL 90.
2. Students with an ACT English score of 18-24 and students who have passed ENGL 90 register for ENGL 101.

For questions regarding COMPASS (placement test) scores, SAT scores, or ACT scores over 27, contact the Department of English and Philosophy: (208) 282-2478.

Advanced Placement Options
Qualified students may satisfy the ENGL 101 requirement by two means:
1. Transfer students who have taken a three-credit freshman-level course in expository or argumentative writing which is equivalent to Idaho State University’s ENGL 101 course may proceed to ENGL 102.

Students should plan their mathematics coursework according to their intended majors. Some majors, for instance, require
Students who will take calculus must be especially careful to determine whether MATH 160, Applied Calculus, or MATH 170, Calculus I, is appropriate. Taking one after the other counts as a repeat and provides no further credit toward graduation. Students place into courses higher than MATH 015 by achieving any one of the following scores on their ACT, SAT, or Compass placement examinations (Goal 3 courses are underlined):

<table>
<thead>
<tr>
<th>Course(s)</th>
<th>ACT</th>
<th>SAT</th>
<th>Compass</th>
</tr>
</thead>
<tbody>
<tr>
<td>015</td>
<td>34</td>
<td>250</td>
<td>46 on Prealgebra (MAPL 1)</td>
</tr>
<tr>
<td>025</td>
<td>12</td>
<td>250</td>
<td>40 on Algebra (MAPL 2)</td>
</tr>
<tr>
<td>108</td>
<td>18</td>
<td>430</td>
<td>45 on Algebra (MAPL 2)</td>
</tr>
<tr>

<td>29</td>
<td>650</td>
<td>51 on Trigonometry (MAPL 4)</td>
</tr>
</tbody>
</table>

Notes:
1) There is no prerequisite course for MATH 015, and no scores are necessary. A student must:
2) Pass MATH 015 or achieve one of the listed test scores to take MATH 025.
3) Pass MATH 025 or achieve one of the listed test scores to take MATH 108, 123, or 127.
4) Pass MATH 108 or achieve one of the listed test scores to take MATH 130, 143, 147, or 223.
5) Pass MATH 143 or achieve one of the listed test scores to take MATH 144, 157, 160, or 230.
6) Pass MATH 144 or 147 or achieve one of the listed test scores to take MATH 170.

General Education Requirements for Certain Degrees

In addition to required courses in their major field of study, all students graduating from Idaho State University with a bachelor’s or associate’s degree must complete specified General Education Requirements. These General Education Requirements vary from one college to another. Specific General Education Requirements in each college, together with requirements for particular major fields of study, are detailed in the appropriate section relating to each college. The following goal statements provide a reference for the description of General Education Requirements for each degree.

Associate Degrees and Certificates

All academic Associate Degrees require a minimum of 64 credits. Other requirements differ amongst the Colleges and departments. The General Education requirements for the following degrees and certificates are found under the designated college or department:

**College of Arts and Sciences**
- **Associate of Arts** - Available with a Major in Art, Communication and Rhetorical Studies, Criminal Justice, English, Foreign Language, or History.
- **Associate of Science** - Available with a Major in Biology, Chemistry, Geology, Mathematics, Physics, or Political Science.

**College of Business**
- **Associate of Science**
- **Associate of Applied Science**
- **Technical Certificate**

**Bachelor’s Degrees**

**Bachelor of Applied Science or Bachelor of Applied Technology—B.A.S./B.A.T.**

Students pursuing the Bachelor of Applied Science degree or the Bachelor of Applied Technology must complete the same goals as those pursuing the Bachelor of Science: Goals 1, 2, and 3; Goals 4 and 5, or 12 hours in the physical or biological sciences; two of Goals 6, 7, and 8; and three of Goals 9, 10A OR 10B, 11, and 12.

**Bachelor of Arts—B.A.**

Students pursuing the Bachelor of Arts degree in the College of Arts and Sciences must complete all Goals (i.e., Goals 1-9, 10A AND 10B, and 11-12), while those in other colleges must complete Goals 1-9, 10A OR 10B, and 11-12.

**Bachelor of Arts in General Studies—B.A.G.S.**

Students pursuing the Bachelor of Arts in General Studies degree must complete all 12 of the General Education Goals (both 10A and 10B must be completed). Specific requirements for this degree are given under the College of Arts and Sciences.

**Bachelor of Business Administration—B.B.A.**

Students pursuing the Bachelor of Business Administration degree must complete Goals 1-9, 10A or 10B, and 11-12. (Note that certain goals may be met by specific College of Business requirements: Goal 3 by MATH 160; Goal 11 by ECON 201 and 202.)

**Bachelor of Fine Arts—B.F.A.**

Students pursuing the Bachelor of Fine Arts degree with a major in art, must complete Goals 1-9 (note that for art majors, Goal 6 must be met with courses outside the Department of Art and Pre-Architecture), 10A, 10B, 11, and 12. (Note: Students who are working on the B.F.A. have the option of fulfilling Goal 10B as is, or substituting with an equivalent amount of hours in humanities classes - consult with your advisor).

Students pursuing the Bachelor of Fine Arts degree, with a major in theatre, must refer to the Department of Theatre and Dance for degree requirements.

**Bachelor of Music—B.M.**

Students pursuing the Bachelor of Music degree must satisfy Basic Non-Music Requirements as follows: ENGL 102 Critical Reading and Writing - 3 cr; COMM 101 Principles of Speech - 3 cr; Foreign Language (French and/or German) - 8 cr (Voice majors are strongly encouraged to elect two years of foreign language); Social Sciences - 12 cr; Natural Sciences - 8 cr (including at least one laboratory course); Fine Arts/Humanities (not counting foreign language or music) - 3 cr; Electives (other than music) - 7 cr.

**Bachelor of Music Education—B.M.E.**

Students pursuing the Bachelor of Music Education degree must complete Goals 1-9, 10A or 10B, 11, and 12.

**Bachelor of Science—B.S.**

Students pursuing the Bachelor of Science degree must complete Goals 1, 2, and 3; Goals 4 and 5, or 12 hours in the physical or 12 hours in biological sciences; two of Goals 6, 7, and 8; and three of Goals 9, 10A OR 10B, 11, and 12.

Specific programs may have more specific requirements. Students should consult with their advisors while choosing goal courses.
Bachelor of Science in Health Science—B.S.H.S.

Students pursuing the Bachelor of Science in Health Science degree (specifically for students who have earned an Associate of Science degree in any of several Health Occupations majors) must complete Goals 1, 2, and 3, Goals 4 and 5, or 12 credits in the physical or biological sciences, two of Goals 6, 7, and 8, and three of Goals 9, 10A, or 10B, 11, and 12.

Specific goal requirements may be listed under individual health occupations program curricula.

Bachelor of University Studies—B.U.S.

Candidates for the Bachelor of University Studies degree must complete Goals 1, 2, and 3, Goals 4 and 5, or 12 hours in the physical sciences, or 12 hours in the biological sciences; two of Goals 6, 7, and 8; and three of Goals 9, 10A, or 10B, 11, and 12. Candidates may fulfill a goal using courses other than those listed in the Undergraduate Catalog description of the goal, but the B.U.S. Committee must approve such substitutions.

Second Degrees

Second Associate Degree

A student may be granted a second associate degree after earning a first associate degree by meeting the following minimum requirements:

(a) a minimum of 16 hours of department-approved work beyond the accumulated number of credits earned at the time of completion of the first degree;

(b) satisfaction of upper and lower division courses required by the department beyond the general education requirements fulfilled by the first degree.

A student with an academic associate degree (A.A., A.S., or A.A.&S.) earned in 1995 or later from a U.S. regionally accredited institution will be considered to have met Idaho State University’s General Education Requirements when seeking a second associate degree.

Second Bachelor’s Degree

A student may be granted a second bachelor degree after earning a first bachelor degree by meeting the following minimum requirements:

(a) a minimum of 32 hours of department-approved work beyond the accumulated number of credits earned at the time of completion of the first degree;

(b) satisfaction of upper division requirements in the major field as recommended by the department in which the second degree is to be granted;

(c) satisfaction of lower division courses required by the department beyond the general education requirements fulfilled by the first degree.

A student who wishes to earn two degrees concurrently must meet the requirements set forth for a second degree and the General Education Requirements for each degree (a minimum of 160 total credits). A student with a bachelor degree from a U.S. regionally accredited institution will be considered to have met Idaho State University’s General Education Requirements when seeking a second bachelor degree.

Major Concentration

Students must declare a major at 58 credits. For assistance with choosing a major, contact the Career Center, 4th Floor Museum Building, (208) 282-2380. Departmental graduation requirements are satisfied by 24-50 semester hours in the major concentration. Some degree programs may require more than 50 hours in the major. In general, the number of credits in excess of 50 credits earned in a major field must be reflected by that same number in the total number of credits required for graduation. The number of hours and particular courses required or recommended vary by department and are more fully described in this catalog under department headings.

Minor Concentration

A minimum of 18 semester hours with a minimum grade point average of 2.0 is required in the minor concentration. Not all departments offer a minor. Those that do may require more than the minimum number of credits and they may specify some of the courses required. Consult departmental catalog entries for more information. The minor program at Idaho State University is optional for all students and more than one minor may be declared. If a student wishes to declare a minor, the student should consult with the appropriate department. A student declaring a minor must do so before or at the time of application for graduation.

Intent to Major

Each degree-seeking student admitted to Idaho State University will indicate an intent to major in a subject field in which a degree is offered by the university. As a part of the admissions process, the student will select from a coded list of majors the one which most appropriately applies to his/her educational goal. If a student intends to pursue a double major or to seek two degrees, the student will select both of the codes for the two majors or for the two degrees. The major code (or codes) will be entered by the Admissions Office on the student’s record. The student will be considered a pre-major in the field selected. A student may elect to change an intent to major by notifying the college coordinator of the new major code to be entered on his/her record.

Application for Status as a Major in a Field of Study

When a degree-seeking student has completed the prerequisites for majoring in a field of study, the student should apply to the appropriate department or college for admission to status as a major and be accepted as a major by the department or college no later than the time at which s/he has acquired 58 semester credits. Failure to do so will block subsequent registration as a degree-seeking student. No student may graduate from the University without having been accepted as a major by the appropriate department or college.

The student will initiate the application for status as a major by filing an application form with the appropriate department or college. A student who is pursuing a double major or a double degree must apply to both of the appropriate departments or colleges.

A student may change his/her status as a major by applying to and being accepted into the appropriate department or college for the new major.

Double Major

A student may pursue one degree with two major fields. Majors may be from the same or different colleges. To earn a double major a student must complete all general education, college and major requirements of both major fields. The primary major will be that for which the degree awarded requires the largest number of general education credit hours. The primary major’s department and college will be considered the student’s home department and college for administrative purposes.
When one of the double major fields is in business, the student must earn a bachelor’s of business administration degree and have a department within the College of Business as a home department. Students in professional programs, other than business, should consult about licensing/certification requirements before undertaking any double major.

**Additional Majors or Minors Earned after the First Bachelor’s Degree**

An Idaho State University student who wishes to complete additional majors or minors after receiving a baccalaureate degree at Idaho State University may be admitted as a special graduate and must meet the major or minor requirements as determined by the program. Limitations include:

- a. the additional coursework must be completed within the five years of the first bachelor’s degree;
- b. a maximum of nine credits may be transferred from other accredited colleges or universities, as approved by the program; and
- c. a maximum of sixteen (16) credits will be allowed under this policy.

A student who needs more than sixteen credits for the major or minor should proceed to earn the second degree (32 credits minimum). After acceptance by the appropriate department, school or college and verification of completion, the student’s permanent academic record will be updated accordingly. No additional diploma or certificate will be awarded. Requests for the posting of such majors and minors must be made to the graduation staff in the Office of Registration and Records. The posted graduation application deadline for the relevant term. **Students should consult with a program advisor or department chair for any program restrictions to this policy.**

**Graduation Requirements**

The requirements for graduation from Idaho State University are in several broad categories, each of which is detailed below:

1) Graduation Application
2) Credit Requirements
3) Catalog Requirements
4) Grade Requirements

Degrees, diplomas, or certificates may not be granted unless all requirements are fulfilled. A degree, diploma, or certificate when is awarded in error, or upon fraudulent claims, will be withdrawn immediately and the student record corrected accordingly.

**Graduation Application**

Students planning to graduate should complete a graduation application no less than one semester before all requirements are completed.

Students will be notified by the Registrar’s Office of any University course or credit deficiencies. Students must consult their advisors about departmental requirements. The graduation application must be approved by the student’s major department chairperson and the college dean before the degree will be granted.

**Application Deadlines**

Graduation applications for December and May candidates will not be accepted after mid-term week of the student’s graduation semester.

Graduation applications for August candidates will not be accepted after last day of spring semester.

**How To Apply**

**Academic Undergraduate Students**

- In person: Contact the Office of Registration and Records, located in the Museum Building, Room 319, at (208) 282-4225
- On-line: [http://my.isu.edu](http://my.isu.edu)

**College of Technology Students**

- In person: Student Services Office, located in the RFC Building, Room 184, at (208) 282-2622

**Graduate Students**

- In person: Contact the Graduate School, located in the Museum Building, Room 401, at (208) 282-2229
- On-line: [http://www.isu.edu/graduate](http://www.isu.edu/graduate)

**Graduation/Diploma Fee**

Both undergraduate and graduate students are required to pay a $20.00 graduation/diploma fee.

**Payment Options**

- Paying by credit card: Contact the Cashier’s at (208) 282-2900
- Paying in person:
  - Academic students: contact the Registrar’s Office
  - College of Technology students: contact the Student Services Office

**Additional Deadlines**

**Transfer Work**

- All pending transfer work must be reported to the ISU graduation staff in the Registration and Records Office.
- Official transcripts with transfer work (including correspondence courses), must be received no later than four weeks after the date of graduation.

**Incomplete Grades**

- All incomplete (I) or in-progress (IP) grades received in ISU courses must be cleared prior to posting of degrees.
- Change of grade forms must be received in the Registration and Records Office no later than two weeks after the date of graduation.

**Additional Information Website** [http://www.isu.edu/areg/grad.shtml#gradapp](http://www.isu.edu/areg/grad.shtml#gradapp)

**Credit Requirements**

**Idaho State University Resident Credit Requirements**

- Students earn “Resident credits” for credit-bearing Idaho State University courses. Resident credit is also granted for program-sponsored non-Idaho State University courses completed in conjunction with Idaho State University Outreach Education Centers. Please call (208) 282-2661 to ask for the list of such programs and their approved courses.
- Of the last 24 credits applied to an Associate’s Degree, 16 must be Resident Credits, as defined above.
- Of the last 50 credits applied to a Bachelor’s degree, 32 must be Resident Credits, as defined above.
- At least 16 upper division credits required for the major must be Resident Credits, as defined above and approved by the department.
- At least 6 credits required for the minor must be Resident Credits, as defined above and approved by the department.
• Certain pre-professional curricula allow completion of the fourth year in a professional school. In these cases the last 32 credits of work taken before transfer to the professional school must be in residence on an Idaho State University campus, as defined above.

Please note: Resident Credits are not synonymous with Idaho State residency definitions for tuition purposes (see the section on “Idaho Residency Requirement for Fee Payment” earlier in this section of the catalog).

Bachelor’s Degree Credit Requirements
At least 128 undergraduate credits are required for graduation with a bachelor’s degree. At least 36 of the credits counted toward graduation must be in upper division courses carrying 300 or 400 numbers. Sixteen of these credits must be earned in courses in the department of the student’s major concentration.

Of the credits transferred from a junior college, no more than half the number required for graduation in a given four-year curriculum or the first four years of a longer program may be applied to meet the requirements of the curriculum. (70 credits will be allowed for Idaho Junior College transfer students.) Transferred courses with grades of D may be used to meet course requirements for graduation unless the department in which the student is majoring requires that the courses be retaken. The department may refuse the application toward graduation of any transfer course in which the student has received a D grade.

Graduation requirements may be met by no more than the number of credits in certain groups as listed below.

• 48 credits by examination*
• 32 credits in experiential learning*
• 16 credits of correspondence courses*
• 8 credits from Professional Development workshop courses.
• 8 credits of electives from an Idaho State University or transfer Professional Technical program.

*See Alternative Credit Opportunities for specific information.

Not more than a total of 64 credits may be counted from the above areas.

• 32 credits in business or courses commonly available in a school of business, unless the student is earning a Bachelor of Business Administration.
• 8 credits in organized music (Music majors may count 8 credits of organized music as free electives in addition to 50 credits)
• 8 credits in nonsectarian courses in religious education
• 8 credits in physical activity courses (including all PEAC courses, DAAC courses, and M S 110)
• 8 credits in speech and drama activity
• 4 credits in autotutorial foreign language courses.

It is further stipulated that not more than a total of 12 credits from the last five of the above may be counted.

A maximum of 50 credits may be earned in the major area of study. In general, the number of credits in excess of 50 earned in the major field must be reflected by that same number of credits required for graduation.

Catalog Requirements
Candidates for bachelor’s degrees may elect to fulfill degree requirements as outlined in any one catalog in effect during the academic year (or any subsequent year) that the student is accepted as a major by the department in which the student intends to graduate. For majors without formal acceptance, the choice of catalog year begins with the year in which the student first files their major program and course requirements. Students who change their majors utilize catalogs in effect during the year in which the change is made (or any subsequent year). A limit of 8 years is placed on the choice of the catalog year, with the additional stipulations that:

1. Selection of a catalog for certifying graduation requirements must be approved by the department’s chair or program director.
2. Students with a gap in enrollment in the University for three years or more from the date of last attendance must meet degree requirements as outlined in the catalog in effect at the date of their reenrollment or any subsequent catalog (subject to the main policy above) during their dates of registration for university credit.
3. If a major program is discontinued by the University and the State Board of Education, students enrolled will be assisted in transferring to an equivalent program in the state. If there is no similar program within the state, currently enrolled students will be permitted to complete the program in accordance with existing graduation requirements.

Regardless of the Catalog the student chooses, deviations may be required for accreditation, licensing or State Board of Education mandates.

Grade Requirements
An accumulative grade point average of 2.0 or higher is required for graduation. Certain allowances in the calculation of the average may be possible when a curriculum is changing or courses are repeated.

In addition, a grade point average of at least 2.0 is required for all courses taken at Idaho State University and those required by the department in which the major or minor is sought.

Individual departments may require a higher grade point average.

Other Information Related to Graduation

Revocation of Degrees
The University reserves the right to revoke a previously granted degree, either for failure to satisfy the degree requirements (i.e., a mistake in granting the degree), or for fraud or other academic misconduct on the part of the recipient discovered or acted upon after the degree has been awarded.

Honors Designation at Graduation
Students who secure minimum grade point averages of 3.33 and also are in the top 10% of their respective college’s graduating class are designated as graduating with honors. Those in the top 5% graduate with high honors. Honors designations must be approved by the student’s major department and dean. See also the University Honors Program, described later in this section.

Non-Degree Seeking Status
Each non-degree-seeking student admitted to Idaho State University will declare himself/herself as such by selecting the code for this non-degree-seeking status on the application for admission. Other students attend classes as non-degree students without being admitted to the University. In either case, the student may change his/her status to that of a degree-seeking student by complying with admissions criteria for degree-seeking students (detailed in the Admissions section of this catalog). A maximum of 32 credits may be earned by non-degree-seeking students.
Grade Reports and Transcripts

Report cards are not automatically sent to students at the end of the semester. Students may access report cards electronically by logging on to the MyIdaho State University web portal at http://my.isu.edu

Current students and students who have attended within the past five years may also access their unofficial transcripts via the MyIdaho State University web portal at http://my.isu.edu.

Students who wish to order official Idaho State University transcripts will find the latest ordering information on the web at http://transcripts.isu.edu or call (208) 282-2919 for more information. Official transcript requests will be processed within 3 to 5 working days, unless there is a financial obligation on record for the student requesting the transcript. A $10 fee is charged for rush orders, which are processed within 24 working hours.

Course Policies

See also the sections on Auditing Courses and Repeating Courses, listed under Credit and Grading Policies.

Course Numbering

Courses numbered 000-099 do not carry academic credit. Courses numbered 100-299 are lower-division courses for freshmen and sophomores, respectively.

Courses numbered 300-499 are upper-division courses for juniors and seniors, respectively. Courses above 300 are open without restrictions, except specific prerequisites, to students who have completed 58 credits. Other students may take such courses on approval of the instructor, advisor, and dean.

Courses numbered g4xx are the undergraduate counterparts of graduate courses numbered g5xx, in which extra work is required for graduate credit. Applicability of g5xx courses to degree requirements is determined by the department offering the degree. Credit is not generally granted toward a graduate degree for g5xx courses when the corresponding g4xx course was taken at the undergraduate level.

Courses numbered 6xx and 7xx are for students admitted into Graduate School only.

Courses numbered 9xx are currently reserved for the Doctor of Pharmacy (Pharm. D.) program.

Cross-listing

Any University program leading to an academic degree that approves courses taught by College of Technology faculty for inclusion in the academic curriculum may cross-list the course(s) using the academic department’s prefix and the College of Technology department’s prefix.

All-University Courses

Departments in colleges of the University may offer any of the following courses subject to adequate student interest. The following course numbers are regarded as “reserved” for these uses.

198P, 298P, 398P, 498P Professional Development Workshop 0-3 credits. New methods and opportunities to enhance and supplement skills. Subject to the approval of the Dean of the student’s college, a maximum of eight credits earned in workshops may be applied toward a degree; students taking the courses only for personal development may choose the 0-credit option; those seeking professional development must choose a for-credit option. May be repeated. May be graded S/U. Courses and course instructors are approved by the appropriate department chairs and college deans. Idaho State University maintains responsibility for the academic quality of all programs and courses through management and supervision by Idaho State University faculty and administrators. Credit for these courses is established using the same methods as a normal semester course (i.e. 15 contact hours equals one credit.). Course assignments and tests should be used for outcomes assessment and should be clearly linked to the course goals.

199, 299, 399, 499 Experimental Courses 1-6 credits. These are courses not described in the catalog. Title and number of credits are announced in the Class Schedule. Experimental Courses may be offered no more than three times.

493 Senior Thesis 1-4 credits. Supervised by a committee of at least two faculty members, the thesis must be approved by the chairperson(s) of the department(s) involved. The thesis topic may be interdisciplinary, with up to six credits total conferred by one or more departments. May be repeated for up to 6 credits. PREREQ: Senior standing and permission of chairperson(s) involved.

497 Professional Development 1-3 credits. A course for practicing professionals (certified Idaho teachers) aimed at the development and improvement of skills. May not be applied to undergraduate or graduate degrees. May be repeated. May be graded S/U.

Course Scheduling

To assist with your academic planning, courses in the Undergraduate Catalog are designated according to the semester they are usually offered. Unanticipated faculty vacancies and academic program changes may affect future course scheduling. Therefore, students should always contact the academic department to verify future course offerings, especially when specific courses are needed for graduation.

The following letters which appear after the course descriptions indicate the anticipated course scheduling:

F = Fall Semester, every year
S = Spring Semester, every year
Se = Sequential; a series of courses is presented until all have been taught.
Su = Summer Semester, every year
AF = Fall Semester, every other year (Even or Odd may also be noted)
AS = Spring Semester, every other year (Even or Odd may also be noted)
ASu = Summer Semester, every other year (Even or Odd may also be noted)
D = On Demand - Students should contact the department to ask when this course will be offered.
R1 = Course is rotated every year, either Fall or Spring
R2 = Course is rotated every two years, either Fall or Spring
R3 = Course is rotated every three years, either Fall or Spring
W = Web (Internet) interactive course, scheduled in conjunction with Idaho State University semester(s); contact department for details.

A course number including a lower-case “g” (for example, BIOL g432) indicates that the course may also be offered for graduate credit. The appearance of the g-numbered course in a list of required or elective courses does NOT indicate that the student is to take the course at graduate level.

Grade Reports and Transcripts

Report cards are not automatically sent to students at the end of the semester. Students may access report cards electronically by logging on to the MyIdaho State University web portal at http://my.isu.edu

Current students and students who have attended within the past five years may also access their unofficial transcripts via the MyIdaho State University web portal at http://my.isu.edu.

Students who wish to order official Idaho State University transcripts will find the latest ordering information on the web at http://transcripts.isu.edu or call (208) 282-2919 for more information. Official transcript requests will be processed within 3 to 5 working days, unless there is a financial obligation on record for the student requesting the transcript. A $10 fee is charged for rush orders, which are processed within 24 working hours.

Course Policies

See also the sections on Auditing Courses and Repeating Courses, listed under Credit and Grading Policies.

Course Numbering

Courses numbered 000-099 do not carry academic credit. Courses numbered 100-299 are lower-division courses for freshmen and sophomores, respectively.

Courses numbered 300-499 are upper-division courses for juniors and seniors, respectively. Courses above 300 are open without restrictions, except specific prerequisites, to students who have completed 58 credits. Other students may take such courses on approval of the instructor, advisor, and dean.

Courses numbered g4xx are the undergraduate counterparts of graduate courses numbered g5xx, in which extra work is required for graduate credit. Applicability of g5xx courses to degree requirements is determined by the department offering the degree. Credit is not generally granted toward a graduate degree for g5xx courses when the corresponding g4xx course was taken at the undergraduate level.

Courses numbered 6xx and 7xx are for students admitted into Graduate School only.

Courses numbered 9xx are currently reserved for the Doctor of Pharmacy (Pharm. D.) program.

Cross-listing

Any University program leading to an academic degree that approves courses taught by College of Technology faculty for inclusion in the academic curriculum may cross-list the course(s) using the academic department’s prefix and the College of Technology department’s prefix.

All-University Courses

Departments in colleges of the University may offer any of the following courses subject to adequate student interest. The following course numbers are regarded as “reserved” for these uses.

198P, 298P, 398P, 498P Professional Development Workshop 0-3 credits. New methods and opportunities to enhance and supplement skills. Subject to the approval of the Dean of the student’s college, a maximum of eight credits earned in workshops may be applied toward a degree; students taking the courses only for personal development may choose the 0-credit option; those seeking professional development must choose a for-credit option. May be repeated. May be graded S/U. Courses and course instructors are approved by the appropriate department chairs and college deans. Idaho State University maintains responsibility for the academic quality of all programs and courses through management and supervision by Idaho State University faculty and administrators. Credit for these courses is established using the same methods as a normal semester course (i.e. 15 contact hours equals one credit.). Course assignments and tests should be used for outcomes assessment and should be clearly linked to the course goals.

199, 299, 399, 499 Experimental Courses 1-6 credits. These are courses not described in the catalog. Title and number of credits are announced in the Class Schedule. Experimental Courses may be offered no more than three times.

493 Senior Thesis 1-4 credits. Supervised by a committee of at least two faculty members, the thesis must be approved by the chairperson(s) of the department(s) involved. The thesis topic may be interdisciplinary, with up to six credits total conferred by one or more departments. May be repeated for up to 6 credits. PREREQ: Senior standing and permission of chairperson(s) involved.

497 Professional Development 1-3 credits. A course for practicing professionals (certified Idaho teachers) aimed at the development and improvement of skills. May not be applied to undergraduate or graduate degrees. May be repeated. May be graded S/U.

Course Scheduling

To assist with your academic planning, courses in the Undergraduate Catalog are designated according to the semester they are usually offered. Unanticipated faculty vacancies and academic program changes may affect future course scheduling. Therefore, students should always contact the academic department to verify future course offerings, especially when specific courses are needed for graduation.

The following letters which appear after the course descriptions indicate the anticipated course scheduling:

F = Fall Semester, every year
S = Spring Semester, every year
Se = Sequential; a series of courses is presented until all have been taught.
Su = Summer Semester, every year
AF = Fall Semester, every other year (Even or Odd may also be noted)
AS = Spring Semester, every other year (Even or Odd may also be noted)
ASu = Summer Semester, every other year (Even or Odd may also be noted)
D = On Demand - Students should contact the department to ask when this course will be offered.
R1 = Course is rotated every year, either Fall or Spring
R2 = Course is rotated every two years, either Fall or Spring
R3 = Course is rotated every three years, either Fall or Spring
W = Web (Internet) interactive course, scheduled in conjunction with Idaho State University semester(s); contact department for details.

A course number including a lower-case “g” (for example, BIOL g432) indicates that the course may also be offered for graduate credit. The appearance of the g-numbered course in a list of required or elective courses does NOT indicate that the student is to take the course at graduate level.
Credit and Grading Policies

Credit or Credit Hour

The credit, sometimes referred to as semester credit or semester hour, is a unit of academic work. One credit is defined to require fifty minutes in a class each week for one semester (or the equivalent).

One semester credit hour in academic courses requires (1) fifty minutes in class each week for one semester (which assumes approximately twice this amount of time in study and preparation outside the classroom), or (2) approximately two and one-half hours in laboratory each week for a semester, or (3) equivalent combinations of (1) and (2). For purposes of equivalency calculations a semester is assumed to be sixteen weeks. Short term courses of one week (five days) or more require time in class, laboratory, and preparation equivalent to the above for a total of 40 clock hours per credit.

Credits per Semester

Students may enroll for up to 18 credits per semester, and may enroll for a larger number with permission of the dean. To be eligible for participation in student activities, a student must be enrolled for at least 8 credits.

The number of credits awarded for a graduate thesis and other courses varies from department to department, and students may spread the registration for those credits over several semesters.

Attendance

Students are expected to attend all meetings or classes in which they are registered. Students who do not attend any sessions of a class during the first week, and have not made prior arrangements with the instructor, may be dropped from the class by the instructor to make room for students who are interested in adding the class.

No student may be absent from the campus in connection with extracurricular activities more than sixteen college instructional days per semester. No one extracurricular activity may take students away from the campus more than twelve college instructional days.

Auditing Courses

An auditor is a person who is permitted to attend a course without participating in the discussions or submitting work for a grade.

Courses posted in the Class Schedule with an “A” in the column to the right of the Index Number allow students to choose the audit option when registering up to the 10th day of the semester or session. Changing from audit to credit is NOT allowed at any time.

To enroll in courses not so listed, and/or to change from credit to audit option after the 10th day of classes to the end of the 10th week (last day to Withdraw), the student must obtain permission by using a Schedule Change Card and having his/her College Dean sign it in addition to the instructor and Department Chair. Students must pay the part-time credit hour fee to audit a course. This fee is waived in the case of full fee paying students. Attendance as an auditor does not entitle one to credit or admission to examinations. Schedule Change Cards are available at the Registration and Records Office window.

If, in the judgment of the instructor, an auditor has not attended sufficiently, the instructor will so indicate on the final grade sheet and the Audit (AU) will not be recorded on the student’s transcript; a Withdraw (W) will be recorded in its place.

Repeating Courses

A course in which an F grade is earned must be repeated if that course is required for graduation. Courses in which a D or D grade is earned must be repeated if the major department so requires. Also, a student may elect to repeat a course provided he/she has not completed a course for which that course was prerequisite. If a course is repeated, the latest grade is used in computing grade point average, unless the description includes language indicating the maximum number of credits for which the course may be repeated.

Grading System

Idaho State University uses a graduated letter grading system to indicate the instructor’s evaluation of a student’s performance in a course. These letter grades are converted to a numerical value for computing a student’s semester and cumulative grade point averages (GPAs). At the beginning of each course, an instructor should inform students via the course syllabus or other written means of the criteria to be used in evaluating their performance. There are no campus-wide grading criteria.

Idaho State University uses letter grades with the four (4) point maximum grading scale. The grade A is the highest possible grade, and a grade of F is considered failing. Plus (+) or minus (-) symbols are used to indicate grades that fall above or below the letter grades. The grades of A+, A-, B+, B-, B, C+, C, C-, D+, D, D- are used. For purposes of calculating grade point averages, the plus (+) increases the grade’s point value by .3 and minus (-) decreases the grade’s point value by .3 (e.g., a grade B+ is equivalent to 3.3 and A- is 3.7). A student’s work is rated in accordance with the following definitions:

A 4.00 excellent performance
A- 3.70 excellent performance
B+ 3.30 good performance
B 3.00 good performance
B- 2.70 good performance
C+ 2.30 adequate performance
C 2.00 adequate performance
C- 1.70 adequate performance
D+ 1.30 marginal performance
D 1.00 marginal performance
D- 0.70 marginal performance
F 0.00 unacceptable performance

Courses in which any A, A-, B+, B, B-, C+ or C grade is earned are always acceptable toward an undergraduate program and graduation requirements. Courses in which A-, D+, D or D- grade is earned are acceptable towards graduation requirements, unless otherwise noted. No credits are awarded for any course in which an F grade is earned. A grade of C+, C, C-, D+, D, D-, or F is considered failing for students pursuing graduate level programs or degrees.

The plus (+) and minus (-) grading system is in effect for all new freshmen and transfer students, all returning former students who have not been enrolled at Idaho State University for five years, and any student starting a degree or certificate program. Students who are not yet subject to the +/- grading system may elect to be included by completing paperwork, in person, at the Office of Registration and Records in Pocatello or Student Services Offices in Idaho Falls, Twin Falls, or Boise. A student’s election of the +/- grading system is final and cannot be reversed.

Other Grade Symbols

Other grading symbols used are: 1 - Incomplete; IP - Thesis work “in progress,”
W - Withdrawal after the close of the registration period; P or NP - the Pass or No pass option; and S or U, for Satisfactory/Unsatisfactory performance. Each of these grades has special conditions which are described below.

Incomplete Grades
An incomplete grade, I, may be awarded only as a final grade and only at the discretion of the instructor. To be eligible for an incomplete grade, a student must have satisfactorily completed a substantial portion of the course. No grade points are awarded for a course in which an Incomplete grade is earned.

The instructor must complete a Course Completion contract that stipulates the assignment(s) required to finish the course and the allowable time period. No student will be allowed more than one year to complete the required assignment(s). Both the student and the instructor must sign the contract, a copy of which is to be given to the student. The instructor retains a copy and a third copy is kept on file by the department head. Upon the student’s timely satisfaction of the Course Completion Contract, the instructor will fill out a Change of Grade Form and send it to the Registrar.

Students should NOT re-register for a course in which an incomplete grade has been assigned. If the Registrar does not receive a Change of Grade Form within a one-year time period following the recording of the Incomplete, the Registrar’s Office will automatically convert the Incomplete to an F. Only in extreme circumstances will a student be allowed an extension of the time stipulated by the instructor. A normal petition process may be used for those circumstances that would extend the allowable time period beyond one calendar year following the recording of the Incomplete grade.

Not Attending
NA is recorded, on a midterm grade report only, when a student has not been attending the class section for which s/he is registered. Students receiving this mark are notified of the options to re-register in the correct section or withdraw.

No Record
NR is recorded when a grade has not been submitted by the instructor, but there is no evidence of the student’s having withdrawn from the course. No credits are awarded for a course in which NR is recorded.

Pass/No-Pass Grades
P/NP grades are given in courses taken under the pass/no-pass option (only certain courses, as indicated in the Class Schedule by the Department, may be taken this way). This option is offered as an inducement for students to take courses outside their major curriculum. The following restrictions apply: the option applies only to undergraduate courses; the option must be declared at the original registration of classes, not later; credits earned under the option will not satisfy specific graduation requirements except that they may be counted towards total credits required; students taking a course under this option must comply with the established prerequisites or obtain the permission of the instructor; students may not register for more than one P/NP course per semester.

Instructors will report ordinary letter grades on the grade list. The Office of Registration and Records will affix to the student’s transcript a P for letter grades A, B, C, or D, or an NP for a letter grade of F. The P or NP may be changed on the transcript to the original letter grade only by petition.

No credits are awarded for any course in which an NP grade is earned.

Satisfactory/Unsatisfactory
S/U grades are awarded in such courses as religion, student teaching and special projects to which the regular performance grades are not applicable. The use of S/U grades must be specifically approved by the University Curriculum Council. All students in such courses are graded either S or U. There is no method for incorporating these grades into a student’s grade point average. No credits are awarded in any course for which a U grade is earned.

Withdrawal Grades
A student may withdraw from a course in the first ten days of a semester; no transcript entry will reflect his/her ever having been in the course.

From the end of the registration period to the end of the withdrawal period, a student may withdraw at his/her option. After the withdrawal period, a student may withdraw from individual courses only by the procedure described in the section covering withdrawal procedures. In both of these two cases, a W grade will be recorded, and no grade points will be awarded.

If a student simply ceases to attend classes without formally withdrawing from the University, an F grade will be recorded for each affected class. A student may be withdrawn from a course or receive a reduced grade as a result of disruptive classroom behavior.

Midterm Grades
Only D, F, U, NA (not attending), NP (not passing), or I grades are reported at midterm. Students receiving such grades will be notified by electronic mail. Those grades are not recorded on the student’s transcript and are not used in grade point average computations.

Grade Point Average
A grade point average (GPA) is computed each semester by dividing the sum of the products of grade points and credits for each course by the sum of the credits for the courses. Numerical grade points for each course credit are assigned as shown earlier, on a scale in which an A is 4.00 points and an F is 0.00 points. For purposes of calculating grade points and averages, the plus (+), if present, increases the grade’s value by .3 and minus (-) decreases the grade’s value by .3 (e.g., a grade B+ is equivalent to 3.3 and A- is 3.7).

An accumulated grade point average (Accum. GPA) is computed by the same process, but the student’s entire record, including transfer credits, is covered by the computation.

To maintain “academic satisfactory progress” and avoid probation and/or academic dismissal, a student must maintain a minimum Idaho State University GPA of 1.75 up to 25 credits and an Idaho State University GPA of 2.0 after earning 26 or more credits.

Credits and Grades for Transfer Courses
When students transfer credit to Idaho State University, the University reserves the right to reclassify credit designated as correspondence, extension, credit by examination and repeated credit according to its own policy governing the acceptance and limitations of such credit. Grades transferred from other institutions will be converted to the equivalent grades at Idaho State University by the registrar. Where there is a question as to whether transferred courses satisfy specific departmental requirements, the head of the department concerned will make the interpretation.
Transfer students may be required to repeat transfer courses in which a grade equivalent to a D or F was received.

**Awarding of Credit from Non-Accredited Institutions**

The process for considering possible transfer credits and recognizing undergraduate degrees granted by non-accredited colleges and universities is as follows:

The student must petition the appropriate academic department at Idaho State University. In addition to formal evaluation of the request, the department may require competency verification.

In the petition, the student must explain how s/he wishes to deviate from university policy. Some scenarios include:

- a) wishing to have certain courses from the non-accredited institutions substitute for courses at Idaho State University that fulfill general education goals;
- b) a request to have designated courses from the non-accredited institution substitute for Idaho State University courses that fulfill requirements in the student’s major;
- c) a request that an entire degree from a non-accredited institution be recognized as equivalent to that earned from an accredited institution.

**Academic Renewal**

The purpose of this policy is to allow undergraduate students who are returning or transferring to Idaho State University after having been away from college for a number of years a chance for a fresh start. Idaho State University has a petition process for one-time-only use in which the student may request that consecutive terms of course work be disregarded in calculating the GPA for graduation. To apply, a student must file an academic renewal petition with the dean of his/her college. Eligibility for the program will be subject to the following conditions:

1. A minimum of three (3) years will have elapsed since last enrollment at an institution of higher education before petition may be filed, and
2. Applicants must have a previous cumulative ISU GPA of less than 2.00.
3. This policy will not be used for individual courses.
4. The petition to be filed by the students will specify consecutive terms of undergraduate courses on the transcript to be disregarded.
5. Academic renewal may be awarded one time only.
6. Academic renewal shall not apply to any credits earned for a completed, prior academic degree.
7. Before the petition may be filed, the student must have completed a semester or semesters of an additional 12 credit hours of coursework at Idaho State University with a minimum grade point average of 2.5 or at least 24 credit hours of coursework with a minimum grade point average of 2.00.
8. Upon approval of the petition, the student’s permanent official academic record will be suitably annotated to indicate that no work taken during the disregarded term(s) may apply toward the computation of credits and grade points, academic standing, and graduation requirements. However, all work will remain on the records, ensuring an accurate academic history.
9. Students should be aware that this policy MIGHT NOT BE ACCEPTED at transfer institutions.

**Good Academic Standing**

Students are considered to be in Good Academic Standing at Idaho State University until their Idaho State University GPA places them on academic probation. At the end of any fall or spring semester, undergraduate students may be placed on probation if the accumulative Idaho State University grade point average does not meet minimum requirements. To maintain “academic satisfactory progress” and avoid probation and/or academic dismissal, a student who has completed up to 25 credits (including transfer credits) must maintain a minimum Idaho State University GPA of 1.75 and a student with 26 or more credits must maintain an Idaho State University GPA of 2.0.

**Dismissal from an Undergraduate Program for Academic and/or Nonacademic Reasons**

Students receiving letters of dismissal from a program will automatically be dropped from all courses exclusive to that program regardless of whether they choose to appeal and will receive a full refund of fees. A “W” grade will then be entered on the transcript for all program exclusive courses not completed. Students receiving this kind of dismissal letters after the 10th day of classes may petition the dean of the college for permission to complete the program exclusive courses in which they are enrolled. Students who appeal the dismissal will be blocked from registration for further program exclusive courses during the appeals process itself. For appeal procedures, see the subsection of the Student Handbook entitled “Procedures for the Appeal of Dismissal” or the Student Handbook online at [http://www.isu.edu/studenta/handbook.pdf](http://www.isu.edu/studenta/handbook.pdf).

A student may be dismissed from an undergraduate program by a department/college according to the Dismissal policy described in the Appeal of Dismissal from an Undergraduate Program section located in the Student Handbook and online at [http://www.isu.edu/studenta/handbook.pdf](http://www.isu.edu/studenta/handbook.pdf).

**Scholastic Dismissal**

A student who has been academically dismissed under scholastic probation rules may take courses for credit at Idaho State University only during a session of summer and does not earn a 2.00 GPA, that student will be placed on “continued dismissal” and must fulfill the previously assigned layout period during the Fall and/or Spring semester(s).

A student may also petition to audit courses with approval of the instructor and academic dean, or petition the Readmission Review Board for fall or spring enrollment.
If academically dismissed, a student must lay out one semester for a first dismissal and two semesters for a second dismissal. A third dismissal requires a layout of two semesters, and the student must send a petition to the Readmission Review Board, who will determine eligibility for readmission.

The Readmission Review Board is located in the Academic Advising Center (SAAC), Room 316, Administration Building.

Students will be notified at mid-semester as to whether they are doing D or F work in any class. The students’ advisors will also receive this information so they may work with the students to try to prevent probationary status. (Refer to Academic Dismissal and Reinstatement under Petitions, below.)

For Graduation, Progression, and Probation Requirements for Students in the College of Technology, see the College of Technology section of this catalog.

**Petition Policies**

A student may petition the appropriate college dean or committee for consideration of problems of curricula or admission which are not covered by stated procedures. Curricular petitions must: 1) include a recommendation from the student’s advisor, 2) a recommendation by the chair of the department offering courses in the subject field or by a special committee overseeing the requirement, and 3) catalog copy of descriptions of courses transferred from other institutions if the course is to be considered in a test of course equivalency. All copies of the petition are to be advanced to the Registrar’s Office for action after all signatures are affixed. Decisions may require several weeks, and notice of the result will be mailed to the student. A student may petition:

1. **Deletion of Idaho State University grades** from computation in the grade point average (GPA) under the conditions which follow:
   a. When a student changes to a radically different curriculum, lower division courses which are not required in nor appropriate to the new curriculum may be eliminated from computation of grade point averages for the purpose of determining probation or graduation at the discretion of the dean who has responsibility for the new curriculum.
   b. Elimination of computation of courses from grade point average by petition also results in the elimination of the corresponding course credits.
   c. This adjustment will not be made until the conclusion of one semester in the new curriculum.
   d. Courses (and their prerequisites) that satisfy any general education requirements in the University cannot be removed from GPA computation, even if alternate courses meeting the requirement have been taken.

2. **Academic dismissal and reinstatement.** Students will be notified at mid-semester as to whether they are doing D or F work in any class. The students’ advisors will also receive this information so they may work with the students to try to prevent probationary status.

   Following dismissal, under the scholastic probation ruling, a student on first dismissal will be automatically reinstated after a one-semester layout, but must meet with an advisor in order to register for classes. A student on second dismissal will be automatically reinstated after a two-semester layout and must meet with an advisor to register. A student who has been dismissed three or more times must lay out two semesters, petition the Readmission Review Board for reinstatement, and meet with an advisor to register. Readmission to the University does not mean readmission to the program or major in which a student was enrolled prior to dismissal. See the appropriate department or college advisor for information on readmission to that program. Readmitted students will be on academic probation and must attain at least a 2.00 GPA for the semester to avoid another dismissal.

   Students who wish to petition the layout period or who have been dismissed three or more times will need to submit an Undergraduate Petition and the three-page Supplement to the Readmission Review Board located in the Academic Advising Center in the Administration Building. Students must have a major advisor or department chairperson add his or her recommendation to the petition prior to submitting it to the Readmission Review Board. The petition deadlines are two weeks before Fall semester begins and one week before Spring semester begins. Decisions reached by the Readmission Review Board are final. The summer semester does not qualify for a semester layout. Students who are dismissed must lay out either Fall and/or Spring semester(s).

   **Students on dismissal may attend one or more sessions within the Summer semester at their own discretion but will NOT be eligible for Financial Aid.**

   Dismissed students who have not laid out the required time period, but who attend one or more sessions within the Summer semester and wish to attend Fall or Spring semester, will need to petition the Readmission Review Board for admission unless grades from Summer are sufficient to remove the student from probationary status.

3. **Substitution of departmental requirements.** A student may petition to substitute courses in lieu of departmental requirements. The course or courses the student wishes to substitute must be approved by the departmental chairperson.

4. **Substitution of the general education requirements.** A student who transfers from another institution may petition to have courses with similar content but different titles than those offered at Idaho State University substituted for courses listed in the general education requirements. Petitions must be approved by the department chairperson of the discipline in which the course being petitioned is offered.

5. **General education requirements deficiencies.** A transfer student may petition to waive a maximum of one credit hour in the area of humanities, social science, or natural science to fulfill the general education requirements. This normally pertains to students transferring to Idaho State from an institution which uses the quarter system rather than the semester system.

6. **Pass-No-Pass option.** A student may petition to have a P or NP converted to a letter grade. The petition must contain the grade assigned in the class and must be signed by the class instructor. (See Section on Pass-No Pass Grades.)

**Probation Policy**

**Scholastic Probation**

At the end of any semester, undergraduate students may be placed on probation if the Idaho State University grade point average does not meet minimum requirements. To maintain “academic satisfactory progress” and avoid probation and/or academic dis-
From a class

Information General

may withdraw either earn a 2.00 GPA and does not achieve the withdrawal deadlines. The time in which and add classes freely. No grades are Registration Period), students may drop at the end of any probationary semester in which the student obtains a GPA of less will be on continued probation.

Students on scholastic probation who attain a GPA of 2.0 or higher during the next or subsequent semester after being placed on probation, but whose cumulative GPA is still below the minimum required for their class level, will be on “continued probation.”

A student on probation will be dismissed at the end of any probationary semester in which the student obtains a GPA of less than 2.0 unless the student is a freshman and has not attempted 12 or more Idaho State University credits (not including withdrawals).

A student on probation who attends a session during Summer semester, but does not earn a 2.00 GPA and does not achieve the appropriate Idaho State University GPA, will be on continued probation.

Withdrawal Procedures*

During the first 10 class days of each fall and spring semester (this is called the Registration Period), students may drop and add classes freely. No grades are recorded to reflect their presence in any classes dropped during this period.

After the Registration Period, students may withdraw either from a class or from the University. There are different deadlines for these withdrawals; check the Academic Calendar at the front of this catalog. The deadline to withdraw from a class is one week after the official midterm grade reporting deadline as indicated in the Academic Calendar. There are also different procedures to follow before and after the withdrawal deadlines. The time in which withdrawals are allowed is called the Withdrawal Period. A grade of W is recorded on the student’s transcript for each course from which he or she withdraws.

Before Withdrawal Deadline (see Class Schedule for dates):

To initiate a withdrawal from a class prior to the deadline, a student may use the web or obtain a schedule change card from the Office of Registration and Records, or see an advisor in the Academic Advising Center (SAAC).

To withdraw from the University (withdraw from all classes) prior to the deadline, the student may use the web or obtain a Withdrawal Permit from the Office of Registration and Records. Students are encouraged to meet with an advisor before withdrawing completely.

After Withdrawal Deadline (see Class Schedule for dates):

After the deadline, all withdrawals are initially handled by petition to the Dean of the College in which the student is enrolled. (College of Technology students should contact the Student Services Office.) The dean will follow the same procedure used in the petitioning process for considering extraordinary curricular or admissions problems.

Students may withdraw from individual classes for hardship reasons only--this includes medical reasons.

Students wishing to withdraw completely (from all classes) after the established deadline but before the end of the semester must contact the Dean of their College to determine available options.

Students wishing to withdraw completely after the end of the semester must use the Undergraduate or Graduate Student Petition form available from the Registrar’s Office or the Dean of the College in which the student is enrolled (or Student Services for College of Technology students). The procedure is the same as the petitioning process for considering extraordinary curricular or admissions problems.

*At the time of publication, the Withdrawal Policy was under review; it remains subject to change.

Medical Withdrawal Policy*

Voluntary Medical Withdrawal (Student Initiated Medical Withdrawal)

A medical withdrawal request must involve the student being ill or disabled from an illness, not the effects of another person’s illness. It is initiated in the same manner as other withdrawals, as noted above. Only complete withdrawals from the University are eligible to be considered for a medical withdrawal designation on the student’s transcript.

To initiate a medical withdrawal before the complete withdrawal deadline (typically the Friday before Closed Week--consult the Class Schedule), a student first needs to completely withdraw from all classes through the Office of Registration and Records (via a paper form or on the web). When that is done the student may then apply for a medical withdrawal through the Student Health Center by completing a medical withdrawal form. This form may be obtained from the Student Health Center, the Office of Registration and Records, the Counseling and Testing Center, Academic Advising Services, the Student Services Office in the College of Technology, and the outreach offices of Idaho Falls, Twin Falls, and Boise. Completed forms should be submitted to the Student Health Center within two weeks (10 working days) of the date of complete withdrawal. The application must include a narrative summary written by the student requesting the medical withdrawal, as well as medical documentation from a physician or counselor describing the problem. The Medical Withdrawal Committee then reviews the completed applications and determines medical withdrawal eligibility. If a medical withdrawal is granted, the designation “Authorized Medical Withdrawal (date)” will be noted on the student’s transcript. For refund information, see Idaho State University’s Refund Policy and Refunds for Exceptional Circumstances Policy.

If the complete withdrawal deadline (typically the Friday before Closed Week--consult Class Schedule) has passed, a student can still seek a medical withdrawal designation. First, the student fills out a petition for hardship withdrawal through the dean’s office of the college in which the student is enrolled (Arts and Sciences
for undecided students). If the dean (or designee) grants the student a hardship withdrawal, the student may then pursue a medical withdrawal designation as outlined in the above paragraph. The dean (or designee) may choose instead to sign a referral allowing the Student Health Center to examine the evidence (always medically related) and determine whether a withdrawal is warranted. Only if a hardship withdrawal is granted, or a referral is signed by the dean’s office, will the Medical Withdrawal Committee consider a request for medical withdrawal designation.

Note: A student wishing to initiate an appeal for refund of fees should contact Financial Services at (208) 282-2287.

The Medical Withdrawal Committee
The Medical Withdrawal Committee shall be composed of the Director of the Student Health Center (or designee), the Director of the Counseling and Testing Center (or designee), the University Controller (or designee), the Associate Dean of Student Affairs (or designee), and the Director of the ADA and Disabilities Resource Center (or designee).

Appeal of Denial of Medical Withdrawal
If the medical withdrawal is denied, the student may appeal the decision by written request to the Dean of Student Affairs. The appeal must be received within one month of the date of denial. The Dean’s (or designee’s) decision is final.

Readmission
Students who have withdrawn for medical reasons may be required to petition the University Medical Withdrawal Committee for readmission. The decision to require a petition for readmission is based upon consideration of (1) reports of treatment, (2) letters of recommendation and in some instances, (3) a personal interview with the medical director.

Appeal of Readmission Denial
In the event of denial of readmission, the student may appeal to the Dean of Student Affairs. A written appeal (a letter from the student explaining the circumstances) must be received in the Dean of Student Affairs Office within two weeks (10 working days) of receipt of notification of denial of readmission. The Dean’s (or designee’s) decision is final.

Mandatory Medical/Psychiatric Withdrawal
The Directors of the University Counseling and Testing Service and the Student Health Center are authorized to order a mandatory medical or psychiatric withdrawal in those situations where there is reason to believe that a student is a substantial threat to him/herself or interferes with the welfare of other members of the University or the education process of the institution. These directors may require immediate withdrawal if there appears to be a substantial imminent threat. Either director may request that the student be professionally evaluated by a physician, psychologist, or psychiatrist. The student shall be notified in writing of initiation of the withdrawal process.

If a psychological/psychiatric evaluation is requested and the student does not comply within a reasonable time or refuses to comply, mandatory withdrawal may be ordered by either director. The responsible director shall submit a written report to the Medical Withdrawal Committee and Dean of Student Affairs summarizing the need for mandatory withdrawal and the reasons for the action. The student and the director will have the opportunity to present information to the Medical Withdrawal Committee. The Medical Withdrawal Committee shall convene at the earliest reasonable time for final determination of disposition. If the physician ordering the withdrawal is also on the Medical Withdrawal Committee, another physician from the Student Health Center or the Center Director will be appointed to sit on the committee for that case.

In the event that mandatory withdrawal is ordered, the student may appeal to the Dean of Student Affairs. A request for an appeal must be filed in writing to the Dean of Student Affairs within two weeks of receipt of notification of mandatory withdrawal.

*At the time of publication, the Withdrawal Policy was under review; it remains subject to change.

Other Policies

Academic Study Day Policy
The University annual calendar includes two academic study days each semester. The academic study days are scheduled during the two calendar days directly following Closed Week and directly preceding Final Examination Week. Saturday classes are exempt from the Academic Study Day Policy. When the last two calendar days directly following Closed Week fall on Saturday, Sunday, or both, those days will be designated as academic study days. No undergraduate classes are held during academic study days. For academic study days falling on Monday through Friday, faculty will schedule office hours.

Closed/Finals Week Policy
Any final examination must be conducted during the officially scheduled time slot except in laboratory courses or sections where the final examination may be conducted during the last regularly scheduled class session. Any exception to this policy may be allowed only on an individual student basis, to be arranged between the professor and the student.

Other required tests or quizzes on which the professor bases any part of the course grade are prohibited during the 7 calendar days immediately preceding the first day of final examinations week except in performance sections, night classes, 8-week courses, Saturday courses, and sessions during the summer semester. Graduate-level courses and activities are exempt from this closed week and final exam policy.

Final Examinations
Regular final examinations are held during an examination period at the end of the semester in accordance with a schedule published by the registrar. They shall not be rescheduled outside of the period, nor to a different time within it except by permission of the Deans’ Council. No examination shall be longer than the scheduled time. Special examinations
may be arranged for individual students within the examination period.

A student who is absent from a regular final examination without valid excuse receives an F on the exam. If the excuse is valid and the work of the semester is satisfactory, the student receives an incomplete, which may be removed by taking a special final examination.

**Saturday Classes—Vacation Policy**

Saturday Classes will recognize the following holidays during the fall and spring semesters: Fall—Labor Day and Thanksgiving weekends; Spring—the Saturday at the end of Spring Break. Saturday classes will be held on the Saturdays prior to all other Monday holidays, and on the Saturday at the beginning of Spring Break.

**Credits for Prior Learning**

Students at Idaho State University have the opportunity to earn undergraduate credit for prior learning through a wide variety of means:

- **College Entrance Examination Board Advanced Placement Program (AP)**
- **College Level Examination Program (CLEP)**
- **Credit by Challenge Examination**
- **Credit for Military Service**
- **Credit through the Defense Activity for Non-Traditional Education Support (DANTES)**
- **Experiential Learning Assessment (ELA)**
- **Correspondence and Extended Learning Online Courses**

A maximum of 64 credit hours granted through any combination of the means listed above may be counted toward a baccalaureate degree. Credits earned through any of the above means affect total credits toward a particular degree but generally do not impact the student’s grade point average. Grades for all said credits, except challenge and correspondence, are recorded as Satisfactory (S). The student is responsible for providing Idaho State University with an official copy of grades/scores from the appropriate school, testing or reporting agency.

When the credit awarded is dependent upon evaluation by Idaho State University faculty, such as Experiential Learning Assessment and Challenge, credit should be counted as resident credit; that which is standardized or not evaluated by Idaho State University faculty should be counted as non-resident credit.

An explanation of each program is given below. Additional information on these programs can be obtained by contacting the:

Office of Registration and Records, Museum Building Room 319 921 S 8th Ave Stop 8196 Pocatello, ID 83209-8196 (208) 282-2661

**College Entrance Examination Board Advanced Placement Program**

Idaho State University affirms the principle of advanced placement and acknowledges the accomplishments of students who have taken college level courses in high school. The University encourages participation in the College Entrance Examination Board Advanced Placement Program.

The CEEB Advanced Placement Examinations are administered each May, at a cost of $72 per test, at most high schools. For more information about the tests, students should contact their Advanced Placement instructor or high school counselor. The tests and students’ ratings are sent to the University at the individual student’s request.

Idaho State University accepts Advanced Placement examinations in art, biology, chemistry, computer science, economics, English, foreign language, history, mathematics, music, physics and political science. The Departments of Biology, Chemistry, Computer Science, English, Foreign Languages, History, Mathematics, Physics, and Political Science allow college credits with Advanced Placement scores of 3 or higher. The Art, Economics, Music, and Psychology Departments require scores of 4 or higher in order for credit to be granted. Departments may allow advanced placement credits in their major program for AP students and may judge that an Advanced Placement examination satisfies specific General Education Requirements offered through the Department.

An “S” grade is entered on the student’s record for credit earned in this way. Credit for AP examinations transferred from another institution is subject to evaluation based on the rules and regulations of Idaho State University. Advanced Placement Examinations will not be released on an official Idaho State University transcript to other agencies or institutions until the student is “officially registered” with the institution.

An “S” grade is entered on a student’s record for credit hours earned through CLEP examinations. Credit for CLEP examinations transferred from another institution is subject to evaluation based on the rules and regulations of Idaho State University. CLEP examinations will not be released on an official Idaho State University transcript to other agencies or institutions until the student is “officially registered” with the institution. CLEP credits cannot be granted for college courses previously taken. Subject-area CLEP examinations are given at the Counseling and Testing Center, Gravelly Hall, 3rd Floor South, 921 S 8th Ave Stop 8027, Pocatello, ID 83209-8027. Information including costs may be obtained from the website http://www.isu.edu/ctc or by contacting the Center at (208)-282-2130.

SUBJECT-AREA CLEP SCORES REQUIRED FOR CREDIT

College Spanish
Level 1 (2 semesters) 50 8 credits, SPAN 101 & 102
Level 2 (4 semesters) 63 8 credits, SPAN 201 & 202

Students who have studied French, German, or Spanish (secondary schools) or lived in a foreign country for a short period of time and learned the language can receive credit by examination (C.L.E.P.) to be applied to their transcripts with an “S” grade (16 credits maximum). Students who gain the CLEP credits will fulfill Goal 10B by taking one sequence course in the language in which they have gained the credits (e.g. 8 CLEP credits plus SPAN 201, or 16 credits plus SPAN 301). For further information, see the Foreign Language Department.

HISTORY/SOCIAL SCIENCES
American History I: Early Colonization to 1877 50 3 credits, HIST 111
American History II: 1865 to the Present 50 3 credits, HIST 112

History 111 or History 112 satisfies Goal 9 of the General Education Requirements.
Intro Macroeconomics 50 3 credits, ECON 201
Intro Microeconomics 50 3 credits, ECON 202

Economics 201 or Economics 202 satisfies Goal 11 of the General Education Requirements.

General Psychology 50 3 credits, PSYC 101
Intro Sociology 50 3 credits, SOC 101

Psychology 101 or Sociology 101 satisfies Goal 12 of the General Education Requirements.

SCIENCE/MATHEMATICS
College Algebra 60 3 credits, MATH 143

Trigonometry 60 2 credit, MATH 144

Precalculus 60 5 credits, MATH 147

General Chemistry 50 5 credits, CHEM 111 or CHEM 101 or 4 credits, CHEM 100

Chemistry 100 satisfies Goal 5 of the General Education Requirements.

Credit by Challenge Examination

Enrolled Idaho State University students may obtain credit by course-specific examinations only with permission of the department and the college. Other relevant policies are as follows:

- Students may challenge a course through examination by 1) obtaining approval

College Level Examination Program

Elective credit only is granted toward graduation for achievement of satisfactory scores on any of the four CLEP general examinations: humanities, natural science, mathematics, social science/history. A student may earn a maximum of 32 elective semester hours toward a degree on the basis of the general examinations. Scores on the general examinations range from 200 to 800. The point of test proficiency is fixed at 500 for the purpose of granting credit.

Subject-area CLEP examinations may satisfy specific goals in the General Education Requirements at the discretion of the departments whose courses satisfy those goals. Similarly, at the discretion of the department, credits earned on the CLEP subject-area examinations may be allowed towards that department’s major program. Students may earn a maximum of 48 semester credit hours by CLEP subject-area examination with department approval, and scores of 50 or higher are accepted for credit award.

An “S” grade is entered on a student’s record for credit hours earned through CLEP examinations. Credit for CLEP examinations transferred from another institution is subject to evaluation based on the rules and regulations of Idaho State University. CLEP examinations will not be released on an official Idaho State University transcript to other agencies or institutions until the student is “officially registered” with the institution. CLEP credits cannot be granted for college courses previously taken.

Subject-area CLEP examinations are given at the Counseling and Testing Center, Gravelly Hall, 3rd Floor South, 921 S 8th Ave Stop 8027, Pocatello, ID 83209-8027. Information including costs may be obtained from the website http://www.isu.edu/ctc or by contacting the Center at (208)-282-2130.

SUBJECT-AREA CLEP SCORES REQUIRED FOR CREDIT

Department/Subject Area | Acceptable Score | Credit Awarded | Course Equivalent
--- | --- | --- | ---
BUSINESS
Intro Marketing | 50 | 3 elective credits | 
Intro Business Law | 50 | 3 elective credits | 
Intro Management | 50 | 3 elective credits | 
Info. Systems and Computer Applications | 50 | 3 elective credits | ACCT 201 & 202
Intro Accounting | 50 | 3 elective credits | 

Achievement of an acceptable score on the subject-area CLEP examination in Accounting can be used to meet core requirements in the College of Business upon faculty review of test results.

FOREIGN LANGUAGES
College French
Level 1 (2 semesters) 50 6 credits, FREN 101 & 102
Level 2 (4 semesters) 59 12 credits, FREN 201 & 202

College German
Level 1 (2 semesters) 50 8 credits, GERM 101 & 102
Level 2 (4 semesters) 63 8 credits, GERM 201 & 202
Credit for Military Service
Non-resident credit will be given for military courses according to recommendations of the American Council on Education (ACE) Service Guide. Military credits will be evaluated only after the student has applied for admission and furnished the Veterans’ Coordinator with official transcripts, and will appear on Idaho State University transcripts only after the student is officially registered with the institution.

In the case of former military personnel, the high school GED test will be accepted for admission, but college level GED tests receive no credit.

Credit for military education experience may be granted upon evaluation of a transcript submitted to:

Veterans Coordinator
Office of Registration and Records
Museum Building Room 319
921 S 8th Ave Stop 8196
Pocatello ID 83209-8196
(208) 282-2676

Use the following contact information in ordering transcripts:

Army: Army personnel who entered active duty on or after October 1, 1981, may request an Army Ace Registry Transcript System (AARTS) transcript at https://aartstranscript.army.mil/

Navy: Individuals who served in the Navy or Marine Corps may requested a Sailor and Marine Corps American Council on Education Registry Transcript (SMART) at https://www.navycollege.navy.mil or by phone at (877) 253-722.

Air Force: Request a transcript from the Community College of the Air Force (CCAF) through e-mail: http://www.au.af.mil/au/ccaf/ or write to:

CCAF
130 W Maxwell Blvd
Maxwell AFB AL 36112-6613

Defense Activity for Nontraditional Education Support (DANTES) Examination Credit
The College Level Examination Program (CLEP) general and specific subject-area examinations administered through DANTES are treated in the same manner as those taken through the traditional CLEP. Only elective credits may be granted to those completing the general examinations, while subject-area CLEP examinations may satisfy specific goals in the General Education Requirements. Refer to the section describing College Level Examination Program credit in this catalog for details.

Experiential Learning Assessment
Experiential Learning Assessment (ELA) is an avenue by which a student may be awarded undergraduate credit for experiential learning. The program assists in the process for requesting academic credit through the portfolio method. In a portfolio, a student thoroughly describes and documents knowledge gained experientially and also demonstrates how knowledge gained outside the classroom is related to college-level learning. The academic department in which credit is being requested assesses the portfolio and makes credit recommendations to the dean of their college. Idaho State University allows a maximum of 32 credits through this evaluation process. To receive credit awarded through ELA, the student must have completed at least 9 semester credit hours in Idaho State University coursework with a minimum of a 2.0 GPA and must be enrolled the semester in which credit is awarded. ELA credit is available only for those academic subjects offered at Idaho State University. Required fees include an evaluation fee of $50 per subject field plus $15 per credit awarded.

Experiential Learning Assessment

Independent Study in Idaho
PO Box 443225
Moscow ID 83844-3225
(208) 885-6641 or (877) 464-3246
Fax 208/885-5738
indepst@uidaho.edu
www.uidaho.edu/isi

Independent Study in Idaho (ISI) was created in 1973 by the Idaho State Board of Education as a consortium of four accredited Idaho institutions led by the University of Idaho. Other consortium members include Boise State University (BSU), Idaho State University (ISU), and Lewis-Clark State College (LCSC). The ISI office is located at the University of Idaho North Campus Center in Moscow, Idaho. Each member institution of the ISI consortium is accredited by the Northwest Commission on Colleges and Universities (NWCCU), the region's accrediting agency. High school courses are accredited by the Northwest Association of Accredited Schools (NAAS).

Independent Study in Idaho delivers over 100 college undergraduate, graduate, and high school distance education courses in online and print-based formats in over 30 subject areas to more than 1,600 students each year. Independent Study in Idaho college courses parallel their on-campus counterparts in content and completion standards. People from all walks of life, worldwide, take ISI courses to begin college programs early, resolve on-campus class-time conflicts, satisfy prerequisites, pursue professional development, and for personal enrichment. Courses are self-paced and available anytime, anywhere; students have one full year to complete ISI courses, or may purchase a time extension. Idaho residency is not required. Independent Study in Idaho courses carry semester-hour credit from one of the four consortium institutions and may be applied toward a degree at one of the consortium institutions or transferred to other institutions that accept ISI credits.

On average, ISI students may expect to spend at least 45 hours of scholarly activity per course credit to successfully complete a course. Upon course completion, a student may request a transcript of the credits from the Registration office or website of the credit-granting institution.

National Student Exchange

The National Student Exchange (NSE) is an exciting opportunity to attend one of over 175 colleges and universities across the U.S. and Canada (including Guam, Puerto Rico, and Virgin Islands) for up to one calendar year while paying in-state tuition or fees. To be eligible to apply, you must be enrolled at Idaho State University as a full-time student with at least a minimum 2.5 GPA. There is a nonrefundable application fee, and students pay either Idaho State University’s or the host school’s in-state tuition and fees, plus room, board, and transportation to and from the host campus, applying for financial aid accordingly. Full credit is given for work satisfactorily completed while on exchange, and grades earned on exchange are computed into the student’s Idaho State University cumulative GPA. Prior to the exchange, the student reaches an advising agreement with his/her academic advisor and evaluations are completed. NSE students are Idaho State University students studying on other campuses, not transfer students. For more information, call:

National Student Exchange Coordinator
Administration Building Room 316
Pocatello ID 83209
(208) 282-3277

Study Abroad

The Idaho State University Director of International Programs and Services provides information and assistance to students who wish to augment their education with study outside the United States. Study abroad is a viable option for students for a number of reasons. A study abroad program is an excellent way to develop foreign language skills. An international educational experience also helps students gain a competitive edge in the global marketplace. And since many programs are taught in English, or located in English speaking countries, students without foreign language skills may still study abroad in a wide range of disciplines.

Idaho State University participates in a number of quality study abroad programs, providing students access to programs in more than 50 countries. Course work in these programs is recognized as resident credit at Idaho State University and allows students to use financial aid to support their study abroad. Idaho State University also has cooperative agreements with The University of Plymouth in England, Al Akhawayn University in Morocco, The University of Valencia and The Politecnica University of Valencia in Spain, Paderborn University in Germany, Kansai Gaidai University and KCP International in Japan, Umea University in Sweden, Egerton University and Kenyatta University in Kenya, InHolland University in The Netherlands, and Universidad ORT in Uruguay.

The Director of International Programs and Services assists students in identifying appropriate programs, works with academic advisors and departments in preparation for transfer of study abroad credit, and advises students on financial aid and other related matters. For more information on study abroad and related opportunities, contact International Programs and Services, PSUB 106, at (208) 282-2941.

Students may register for Study Abroad credits after their program is approved by an advisor and the Director of International Programs and Services. The course description is as follows:

STUA 200, 300, 400 Study Abroad 12-18 credits each: Pre-arranged, planned courses of study at selected academic institutions outside of the United States. Student is responsible for resident credit arrangements with department(s) and the Office of International Programs and Services prior to departure. Prefix and course name will be replaced on Idaho State University transcript when study abroad transcript arrives. Graded S/U, F, S, Su

Individualized Degree Programs

The degrees described below are administered by faculty committees that approve course choices designed to meet the student’s goals. Degrees described here are:
General

• Bachelor of Applied Science or Bachelor of Applied Technology
• Associate of Arts and Bachelor of Arts in General Studies
• Bachelor of University Studies

Bachelor of Applied Science or Bachelor of Applied Technology

The Bachelor of Applied Science (BAS) and the Bachelor of Applied Technology (BAT) degrees are interdisciplinary degrees designed specifically for students who have completed Associate of Applied Science (AAS) degrees approved by the Idaho State Board of Education. The purpose of these degrees is to provide AAS graduates the opportunity to expand their general education competencies and to enhance the technical coursework of their AAS with related academic coursework. These degrees build upon the knowledge a student gained through the pursuit of the AAS while providing the education and critical-thinking skills that open career opportunities. The BAS and BAT degrees are administered through the Student Services Office in the College of Technology. All individual degree plans are approved by assigned advisors and a committee.

The BAS/BAT degree includes the following credit requirements:

<table>
<thead>
<tr>
<th>Requirements</th>
<th>Electronic Systems Technology</th>
<th>All Other ISU CTech A.A.S. Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic credits awarded for technical coursework in an Associate of Applied Science Degree**</td>
<td>76 (58 lower division credits awarded; 18 upper division credits awarded)</td>
<td>Up to 50 credits (all lower division credits)</td>
</tr>
<tr>
<td>General Education Requirements, 16 credits of which will be completed in the A.A.S.</td>
<td>approximately 31</td>
<td>approximately 34</td>
</tr>
<tr>
<td>Academic Coursework**</td>
<td>29 (18 of these 29 academic credits must be upper division credits; these credits are all earned beyond coursework completed for the A.A.S. degree)</td>
<td>44 (36 of the 44 academic credits must be upper division credits)</td>
</tr>
<tr>
<td>TOTAL MINIMUM CREDITS REQUIRED</td>
<td>136</td>
<td>128</td>
</tr>
</tbody>
</table>

*Out-of-state AAS degrees must be evaluated for meeting Idaho State Board of Education standards. If the AAS degree is over 5 years old, the student must be evaluated for currency in technical field.

**A minimum of 12 of these credits must support the AAS technical coursework. All BAS/BAT students must earn a minimum of a 2.0 GPA in academic coursework for graduation. No more than 32 credits of the academic coursework may be taken from the College of Business. Upper division academic coursework must relate to the student’s approved goal statement. It is recommended that 24 academic credits be completed after degree plan approval.

After completing a minimum of 15 credit hours of BAS/BAT general education requirements and one semester of the technical program, the BAS/BAT student develops an individualized degree plan in consultation with both academic and technical advisors assigned to the student by the BAS/BAT Committee Chair in the College of Technology Student Services Office. Based on the student’s concise and clearly written goal statement, the individualized degree plan will list the specific approved courses that meet the above described degree requirements. The degree plan and the goal statement must be approved by the BAS/BAT Committee.

College of Technology Student Services

Associate of Arts or Bachelor of Arts in General Studies

This is a non-specialist degree program designed to meet the needs of students interested in broadly based education in the liberal arts. It provides greater flexibility and breadth in subject matter than provided by traditional degree programs. Students in the General Studies program must complete all of the General Education goals (including 10A and 10B) as a program requirement. See the Assistant Dean of the College of Arts and Sciences for advising in this program.

The Associate degree requires completion of the following program:

- All of the General Education Goals (10A and 10B) 37 - 53* cr
- Additional lower division courses in the humanities 6 cr
- Additional lower division courses in the social sciences 6 cr
- Electives (lower division) 0 - 15 cr

TOTAL: 64 cr

* The number of credits required for the General Education Requirements varies depending on the student’s performance on proficiency or placement examinations in English, foreign languages, or mathematics.

A student’s Bachelor of Arts in General Studies (BAGS) program must include approved coursework from these areas:
- a) English composition; b) speech; c) mathematics; d) biological science and laboratory; e) physical science and laboratory; f) fine arts (arts, dance, film, music, theater); g) literature; h) philosophy; i) U.S. history; j) non-U.S. history or culture; k) foreign language; l) economics or political science; m) anthropology, psychology, or sociology. The BAGS advisor approves these courses. Students may use courses they have taken to satisfy General Education goals to meet these additional program requirements.

Upper division courses - At least 48 credits of Arts and Sciences courses are required, but not more than a total of 40 credits may be earned in any one subject field. Coursework graded P/NP or S/U must be approved in advance.

Electives - Courses from all across the university may be utilized to complete the 128 credit hours required for graduation.

Bachelor of University Studies

The Bachelor of University Studies (BUS) is an interdisciplinary degree designed for students whose educational and career goals are not addressed by traditional degree programs offered at Idaho State University. Formal application to the BUS program requires completion of a minimum of 24 semester hours, a 2.5 cumulative GPA, and an application packet that includes a statement of educational and career goals, a rationale for an individualized program of study, and a proposed selection of courses to meet stated goals. The BUS Committee will review and approve all applications. Once the BUS Committee grants approval for admission to candidacy, an advisory committee is appointed to assist the student in refining the proposed program of study. Completion of a Senior Essay, a BUS Committee interview, and achievement of a 2.5 cumulative GPA are required for graduation. The BUS degree requires careful and thoughtful planning. At least 24 semester...
Cooperative Education Programs
In addition to regular programs, Idaho State University students may be eligible to participate in any one of a number of special cooperative programs, both in-state and out-of-state. For specific information on requirements for pre-health professions programs, see the section on pre-health professional programs under the College of Arts and Sciences.

Dental Education
Idaho Dental Education Program (IDEP): Idaho state residents are eligible to participate in the Idaho Dental Education Program. The program, a cooperative effort of the Creighton University School of Dentistry and Idaho State University, provides Idaho residents with the opportunity to attend their first year of dental school at Idaho State University. Students will spend their second, third and fourth years in Omaha. For further information, contact:

ELS Language Center
1001 North 7th Avenue
Dan Plaut, Director
Idaho State University’s new partner in English-language instruction, ELS Language Centers, is located in the Continuing Education Center Building. Founded in 1961, ELS Language Centers is the oldest and largest U.S.-based Intensive English as a Second language (ESL) program. Since its inception, ELS has assisted well over a quarter million people in learning U.S.-style English. Affiliated with Berlitz International since 1997, ELS currently has more than 40 centers in the U.S. and another 35 schools in other countries. As an intensive, preparatory ESL program, ELS will supplement Idaho State University’s existing English for Speakers of Other Languages (ESOL) program housed in the Center for Teaching and Learning. The ESOL program will continue to provide tutorial and other support services for international students already enrolled at Idaho State University. ELS, by contrast, will serve as an initial point of entry for other international students who seek full-time English-language instruction, and who intend to complete this training to enroll at Idaho State University or another institution of higher education.

Visit ELS at Idaho State University on the Web at http://www.els.edu/Centers/Pocatello

Medical Education
Certification of Idaho Residency
The cooperative medical education programs described below (WWAMI and University of Utah) require a Certification of Residency (that is, documentation that the person is a legal resident of Idaho). This certification is obtained at the following addresses for each of these programs:

WWAMI (University of Washington):
Director of Admissions
University of Idaho
Moscow, ID 83843

University of Utah Contract:
Office of Admissions
Stop 8270
Pocatello, ID 83209

WWAMI (Washington/Wyoming/Alaska/Montana/Idaho) Regional Medical Education Program
This program is designed to enhance the training capability of the University of Washington School of Medicine by using facilities of Washington State University, University of Wyoming, University of Alaska, Montana State University and the University of Idaho. Currently 18 Idaho residents are accepted into the WWAMI program each year. For further information, contact:

Coordinator, WWAMI Medical Program
University of Idaho
Moscow ID 83843
or

Pocatello, ID 83209-8007
Western Interstate Commission for Higher Education (WICHE) Programs

Professional Student Exchange Program

The Professional Student Exchange Program (PSEP) of the Western Interstate Commission for Higher Education (WICHE) enables students in the 13 western states (including North Dakota) to enroll in professional programs in other states when those programs are not available in their home states. Students accepted in the program pay resident tuition at public schools (or one-third the standard tuition at private schools) and their home states pay a support fee to the admitting school to help cover educational costs. Exchange areas supported by Idaho for include optometry and occupational therapy.

To be certified as eligible for this program, the student must write to the WICHE Certifying Officer in his/her state of legal residence for the program application form.

For further information, contact the Certifying Officer for Idaho, WICHE Student Exchange Program:

Office of the State Board of Education
Room 307, Len B. Jordan Building
650 West State Street, Room 307
Boise, ID 83720
Phone (208) 334-2270
Fax (208) 334-2632

Western Regional Graduate Program

The Western Regional Graduate Program (WRGP) of WICHE provides Idaho residents an opportunity to enroll at resident tuition rates in selected graduate programs in 13 states which are not available in Idaho. Doctor of Arts programs in biology, English, mathematics and political science are available at Idaho State University to graduate students from participating WICHE states. An interdisciplinary Master of Science program in Hazardous Waste Management is also available, as is a Master of Science in Deaf Education.

Students pay tuition at the resident rate of the receiving institution, rather than the normal nonresident rate. For further information, contact:

Graduate School
Idaho State University
Stop 8075
Pocatello, ID 83209
Phone (208) 282-2150

Western Undergraduate Exchange

The Western Undergraduate Exchange (WUE) is a WICHE program that allows undergraduate students residing in 12 participating states the opportunity to enroll in specified programs at Idaho State University at a reduced cost. Interested students must apply for admission by the scholarship deadline date of February 15 in order to be eligible for WUE. Because participation is limited, final selections are made based on GPA, test scores and other criteria.

Idaho State University fees for Approved WUE Students are equal to 150% of the Idaho State University full-time resident fee rate. Fees for College of Technology sessions (early or late eight-week sessions within a semester) are half that amount.

Time accrued while receiving WUE reduced fees will NOT contribute towards the length of time required for establishing Idaho residency status.

WUE recipients will receive notification from:

Scholarship Office
Room 327, Museum Building
(208) 282-3315

Oak Ridge Associated Universities

Since 1993, students and faculty of Idaho State University have benefitted from Idaho State University’s membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility operated by ORAU, undergraduates, graduates, postgraduates and faculty may access a multitude of opportunities for study and research. Students may participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at www.orau.gov/orise/educ.htm, or by calling either of the contact persons below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Jr. Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, visit the ORAU website at www.orau.gov or contact:

Sawtooth Science Institute

The Sawtooth Science Institute (SSI) is an outreach field study center of Idaho State University, the Idaho Museum of Natural History, and the Division of Continuing Education. Our goals include:

• Serving the needs of all students of natural history: teachers, community groups and other lifelong learners;

• Providing site-specific natural history information, materials, and resources;
• Aiding in the integration of locally relevant cultural and natural history across disciplines in the K through 12 classroom; and
• Facilitating a re-connection with the natural environment and our unique intermountain heritage.

Each year, SSI offers many short field study courses on Idaho natural history topics, open to all. The courses may be attended with credit (for an additional fee) or without. Additionally, SSI is a partner in two national projects, the Idaho Master Naturalist Program (IMNP) and the NatureMapping program. The IMNP is a training program that produces naturalists who may then serve as educated volunteers for a variety of programs and needs. Contact the Idaho Department of Fish and Game’s Watchable Wildlife coordinator for more information. The NatureMapping program utilizes trained volunteers to assist in monitoring the plants and animals of Idaho.

SSI Director, Chris Gertschen, also directs the new Idaho State University Blaine County Center to serve the upper division educational needs of the region.

Idaho State University Outreach

Academic Support and University Summer Programs

Academic Support and University Summer Programs
Business Administration, Rm 242
921 S 8th Ave Stop 8015
Pocatello ID 83209-8015
(208) 282-4545 or (208) 282-4569

Academic Support
Idaho State University offers off-campus students the opportunity to take general education courses, online virtual university courses, and interactive telecommunications system broadcast classes throughout its service territory. Students may also complete some associate, baccalaureate and graduate degrees in resident centers located in Boise, Idaho Falls, Twin Falls, and the Sun Valley/Wood River area.

Idaho State University sponsors courses for academic credits in several other Idaho locations as well.

The Office of Academic Support coordinates the instructional support necessary to deliver these courses for the College of Arts and Sciences and the Kasiska College of Health Professions, and facilitates the payment of instructional costs for sessions within the summer semester. Academic Support is the central clearing house for information concerning Idaho State University’s off-campus academic courses. More information is available online at: www.isu.edu.acadsup.

Idaho State University - Boise

Dean, Academic Programs:
Ms. Bessie Katsilometes
Idaho State University-Boise
12301 W. Explorer Drive
Boise, Idaho 83713
(208) 373-1700

In keeping with Idaho State University’s mission to educate health professionals and address the need for graduates in the health disciplines, Idaho State University - Boise offers several programs in the health professions.

Idaho State University-Boise currently offers five undergraduate programs which include an Associate of Science in Paramedic Science, Bachelor of Science degrees in Communication Sciences and Disorders, Clinical Laboratory Science, and Educational Interpreting, and a 16-month Fast Track Nursing program. Idaho State University-Boise also offers 10 graduate degree programs, primarily in the health professions, including the third and fourth year in a Doctor of Audiology program. The College of Pharmacy oversees third- and fourth-year professional pharmacy students, including clinical rotations in the Boise area. Other programs housed at Idaho State University-Boise include a dietetic internship and a dental residency program.
The campus covers approximately 40,000 square feet and houses classrooms, six distance learning rooms, two computer labs, a laboratory, and clinics for speech-language pathology, nursing, and counseling.

Student applications and enrollment materials are available at Idaho State University-Boise.

Idaho State University-Idaho Falls

Idaho State University-Idaho Falls is the higher-education center of one of Idaho’s most dynamic cities. It offers a comprehensive general education curriculum as well as 29 complete degree programs, all from a Carnegie-classified research institution.

Idaho State University-Idaho Falls’ contemporary facilities include up-to-date computing labs, a large auditorium and student-services offices. A campus centerpiece is the Samuel H. Bennion Student Union that includes study and games areas, cafeteria, lounge, bookstore, and computer lab.

Between classes, students can cross-country ski at adjacent Freeman Park, jog on the paved riverside greenbelt, or watch University Place’s resident bald eagles and ospreys soar above the river.

To learn how Idaho State University–Idaho Falls can help you achieve your goals conveniently and affordably, call (208) 282-7800; visit the campus at 1776 Science Center Drive; or browse online at www.isu.edu/departments/ifche.

Idaho State University-Twin Falls

Idaho State University–Twin Falls provides the upper-division and graduate work on a rotating schedule, while the general education requirements and most other lower-division courses are available through CSI. University professors and highly qualified local adjunct instructors ensure that course quality is equal to that found on the Pocatello campus.

An interactive telecommunications system has broadcast classes live from Pocatello to CSI since 1990. Courses in anthropology, biology, corporate training, education, English, geosciences, health education, history, library science, mass communication, nursing, pharmacy, political science, psychology, rhetorical studies, social work, sociology, women’s studies, and vocational education have all been presented in this way. Regularly scheduled courses are enhanced by courses Idaho State University delivers to area school districts for teacher development. Workshops and seminars in specific professional development areas are also available.

Access to Internet, email, and a large variety of software augments the Idaho State University student experience in a 20-station computer lab networked with the main campus. Twin Falls area Idaho State University students who have home computers with modems may access the network with a local phone call. Free computer workshops are routinely scheduled in the lab.

Other services include registration, fee payment, and assistance with university forms and information. In addition, a student commuter bus operates between Twin Falls and Pocatello.
Division of Continuing Education

Continuing Education coordinates programs throughout Idaho State University, as well as area businesses. Programs include courses and workshops for faculty and staff, professionals, businesses and educators, with emphasis on administering a wide variety of educational experiences for the community and surrounding region.

The general mission of Continuing Education is to provide high quality leadership and support services for continuing professional education and lifelong learning activities for all ages held throughout the University’s service territory, with special emphasis on teacher education, health related professions and arts and sciences. Program sites in Idaho include Pocatello, Idaho Falls, Twin Falls, Ketchum/Sun Valley, and Boise. Specific programs are also held nationally. Offerings include credit and non-credit programs, evening and weekend programs, short courses, web conferences, seminars, institutes, youth enrichment programs, customized training and conferences. Continuing Education administers the National Continuing Education Unit (CEU) (see below) in conjunction with the International Association for Continuing Education and Training. More than 15,000 people participate annually in 400 activities.

Programs served by Conference Services include the annual Idaho Conference on Health Care, Elderhostel, Intermountain Conference on the Environment, Science, Nature, Astronomy, Research and Forensics (SNARF), and coordination of web conferences such as those produced by the National University Telecommunications Network (NUTN), PBS/Adult Learning Systems (ALS), and Worldwide Lessons in Leadership.

For a list of course offerings, to make suggestions for course offerings or potential instructors, or other desired information, write or telephone the address given above.

CEU Program

The Continuing Education Unit is an internationally accepted method for quantifying the value of noncredit continuing education activities (defined as quality instruction that does not carry academic credit). Each contact hour in an approved workshop, inservice, conference session, short course or training program is recorded as 1/10 CEU. These do not accumulate for college credit. Noncredit continuing education programs which offer CEUs are most frequently sponsored by associations, agencies, educational institutions, business and industry for the benefit of members, registered participants, employees, etc. It communicates to participants the value that the sponsoring group places upon professional development, information updating, retraining and lifelong learning. There is a $20.00 recording fee per participant to create a permanent transcript that is then available through the Idaho State University Registrar’s Office upon written request.

New Knowledge Adventures and Friends for Learning

Under the direction of the Institute for Learning in Retirement, an arm of the national Elderhostel program, Idaho State University has developed this new program for Idahoans 50 years and older, featuring member directed, peer led programs throughout the year, and short courses in a wide variety of areas. Members join for one year and all programs are open to them in Pocatello and Idaho Falls.

Conference and Workshop Services

Continuing Education can provide conference coordinating services assistance in delivering a variety of programs to a broad range of audiences. Programs can be held on campus, at facilities in Pocatello, or at a distant site. Comprehensive services are available to off-campus as well as on-campus individuals and groups, and include program planning, bid preparation, brochure preparation, marketing, direct mail and customized mailing list development, financial administration, registration services, arrangements and logistics, and evaluation. Fees are based upon size of the group, length of the program, and the amount and type of services required.

Elderhostel

Elderhostel is an educational travel program for older adults who want to continue expanding their horizons and developing new interests and enthusiasms. Elderhostel offers to students 55 and older a dynamic, noncredit, and low cost week of college-level study with 22 hours of academic coursework and field trips. Idaho State University offers Elderhostel currently on the Pocatello campus and in the Ketchum/Sun Valley area. Resident students are housed in a motel in Pocatello and in a local lodge in Ketchum. All facilities have private baths. Commuters have reduced rates and are always welcome. Courses range from the Oregon Trail and Railroad History to Environmental Issues to Pharmacology. Intergenerational Elderhostel (grandparents and grandchildren) started in 1997, as did the Institute for Learning in Retirement, a membership program specifically geared toward local participants.
Student Services

ADA and Disabilities Resource Center
Graveley Hall Lobby
921 S 8th Ave Stop 8121
Pocatello ID 83209-8121
(208)282-3599
www.isu.edu/ada

The ADA and Disabilities Resource Center is located in the lobby of Graveley Hall. Students with documented disabilities who merit accommodations provided by the University must self-identify to the Center in order to have accommodations provided. Information about accommodations is available in the Center and may be picked up in person or requested by telephone or TTY by calling (208) 282-3599.

Americans with Disabilities Compliance Statement

The Americans With Disabilities Act (ADA) is the civil rights guarantee for persons with disabilities in the United States. It provides protection from discrimination for individuals on the basis of disability. The ADA extends civil rights protection to people with disabilities in matters which include transportation, public accommodations, accessibility, services provided by state and local government, telecommunication relay services, and employment in the private sector.

Idaho State University, in the spirit and letter of the law, will make every effort to comply with “reasonable accommodations,” according to Section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act. ISU will not discriminate in the recruitment, admission, or treatment of students or employees with disabilities.

In order for the ADA Center to arrange accommodations for those who need assistance, the Center requests notification as early as possible so that timely arrangements can be made. For further information or questions, please contact Dennis Toney, Director, ADA and Disabilities Resource Center, Room 123, Graveley Hall, (208) 282-3599.

Affirmative Action/Equal Employment Opportunity
Museum Building, Room 420
(208) 282-3964 or (208) 282-3973

Idaho State University endeavors to achieve equal educational and employment opportunity for minorities, persons with disabilities and women through recruitment, admission, curricular and extracurricular programs, advising and retention practices, and student aid. Discrimination affecting any person based on race, religion, gender, sex, national origin, or disability is illegal and should be reported to the Affirmative Action/EOO office located in the Museum Building, Room 420, (208) 282-3964 or (208) 282-3973. No person will be retaliated against for filing a complaint regarding harassment or discrimination.

Associated Students of Idaho State University (ASISU)
Hypostyle, Room 299
921 S 8th Ave Stop 8008
(208) 282-3435
www.isu.edu/asisu

The Associated Students of Idaho State University (ASISU) is the representative body for students, and functions through the leadership of the student body president, vice president, Student Senate, and numerous committees. These officers are responsible for all activities sponsored by the Associated Students. Applications for committee membership are available in the ASISU Administrative Offices (Hypostyle). ASISU also contracts with an attorney who offers free legal counseling to all students. Detailed information on student government can be found in the Student Handbook.

Athletics
Holt Arena
http://isubengals.cstv.com/

The Athletic Department at Idaho State University is a Division I (FCS) member of the National Collegiate Athletic Association (NCAA) and the Big Sky Conference. Men’s sports offered are basketball, cross country, football, golf, tennis, and indoor and outdoor track and field. Women’s sports offered are basketball, cross country, golf, soccer, softball, tennis, and outdoor track and field, and volleyball. In addition, Idaho State University has extensive participation in a wide variety of club sports, especially soccer, karate, and volleyball.

Athletic Eligibility

To participate in intercollegiate athletics, students must comply with the eligibility rules of the National Collegiate Athletic Association, the Big Sky Conference, and Idaho State University. Prospective students who have questions concerning eligibility should direct their questions to the Director of Athletic Compliance.

Career Center
440 Museum Building
921 S 8th Ave Stop 828
(208) 282-2380
www.isu.edu/career

Stretching from your entry into the University on through graduation, the Career Center’s continuum of services will meet your career needs.

The Career Center offers Career and Life Planning Courses, online career information, career counseling, and career testing to learn more about majors and occupations that fit with your personality and interests. We can assist you with internship opportunities, resumes and cover letters, interviewing, on-campus recruiting, and other job search strategies. We also offer job listings which include full-time opportunities to part-time and temporary positions. Throughout the year 6 different career-related fairs are offered to help students find a broad range of positions and career information.

The Career Center primarily serves Idaho State University students and alumni, but also extends services to community members. Call us to see how we can help you meet your career needs.

C. W. HOG
1st Floor, Student Union
(entrance below east end of Hypostyle)
921 S 8th Ave Stop 8128
(208) 282-3912
The Cooperative Wilderness Handicapped Outdoor Group, C. W. HOG, shares its office with the Outdoor Program in the lower level of the Student Union. The mission of Cooperative Wilderness Handicapped Outdoor Group, located on the campus of Idaho State University, is to provide challenging outdoor adventures for individuals with disabilities, focusing on enhancing attitudes, increasing positive self-image, and supporting people of all ages and abilities. C.W. HOG also runs the new Universal Challenge Course, which is an amazing tool for teambuilding and fun. Academic credit may be granted for participation in activities which include weight training, seated aerobics, swimming, snow skiing, challenge course facilitation, water skiing and whitewater rafting.

Craft Shop
1st Floor, Student Union
921 S 8th Ave Stop 8119
(208) 282-3281
www.isu.edu/stunion/craftshop

The Craft Shop is a workshop facility established for students and the University community. Work Centers include a wood shop, clay studio, dark room, sewing area, mat cutting tables, and a fibers area. Staff members are available to help you get acquainted with the shop. Non-credit classes are offered in a variety of arts and crafts.

Diversity Resource Center
Student Union, Third Floor
921 S 8th Ave Stop 8036
Pocatello ID 83209-8036
(208) 282-3142

The Center’s primary focus is to assist ethnic and international students and organizations. We seek both to enhance their experience at Idaho State University and to assist them in contributing to campus diversity and cultural competency. In addition, the Center develops, promotes, and delivers campus-wide activities directed toward enhancing multicultural understanding. The Center provides orientation sessions to American minority students to inform them about the University culture and expectations. The Center also houses audio, video, and printed material, both historical and current, related to diversity and multicultural issues.

Early Learning Center (ELC)
921 S 8th Ave Stop 8316
Pocatello, ID 83209-8316
(208) 282-2769 (Pocatello)
(208) 282-7868 (Idaho Falls)

The Early Learning Center (ELC) has child care centers in Pocatello and Idaho Falls. The Pocatello Center cares for children six weeks through eleven years of age, while the Idaho Falls Center accepts children ages two through six. Services are provided to Idaho State University students, staff, faculty and alumni. In Idaho Falls, the privilege is extended to the same members of the University of Idaho community. Each center offers a developmentally appropriate curriculum, and USDA approved breakfast, lunch and afternoon snack are provided.

The Pocatello program is housed in the Early Learning Center, located near the Pond Student Union Building. In Idaho Falls, the center is in the Sam Bennion Student Union Building.

Entertainment

Every week during the school year and the summer, the Student Activities Board and other student organizations host a wide variety of activities—movies, concerts, lectures, art gallery shows, homecoming events, holiday parties, theatrical plays, celebrations and more! In addition, the Student Union houses a Games Center with video games, billiards, and bowling. For the more relaxed crowd, a television is located in the Bengal Café and also on the lower level of the Student Union.

International Programs and Services
Museum Building, Room 319
921 S 8th Ave Stop 8270
(208) 282-2941

The office of International Programs and Services provides assistance to the international students and scholars on campus as well as providing assistance to those interested in an international educational experience abroad. International student services include student orientation to the Idaho State University campus and Pocatello community, ongoing cross-cultural activities, and additional programs to help international students make the most of their time at Idaho State University.

Education abroad services include assisting students in choosing a program, facilitating the credit transfer, and conducting a predeparture orientation for those about to embark on an international experience. Services continue for those who have returned from an experience abroad.

This office supports all academic departments in bringing foreign faculty and visiting scholars to campus by assisting with the necessary paperwork for immigration and by offering support services to departments hosting visiting scholars.

Finally, this office coordinates communication among relevant offices on campus and works with faculty, administrators and the student organizations to provide ongoing support and guidance for international students and those who have completed an international educational experience.

Intramural Sports Program
Reed Gym
Campus Recreation Offices
921 S 8th Ave Stop 8105
(208) 282-3516

The Idaho State University intramural sports program is designed to improve and maintain health and physical fitness through participation in satisfying sports activities; to make social contacts and build friendships which can enrich college and later life; to develop a knowledge of strategy and techniques and to improve skills in a variety of sports activities; to develop traits such as courage, perseverance, cooperation, confidence, and desire to succeed; and to develop desirable patterns of sportsmanship, fair play, integrity, and respect for self and others. A full program of intramural activities is offered to all students. The Intramural Office is located in Room 243 of Reed Gymnasium.

Janet C. Anderson
Gender Resource Center
Graveley Hall, North Wing
921 S 8th Ave Stop 8141
Pocatello ID 83209-8141
(208) 282-2805
24-hour crisis line: (208) 282-HOPE (4673)
Through its mission to increase awareness and promote open dialogue about gender, the Janet C. Anderson Gender Resource Center serves as the focal point on campus for the consideration of gender issues.

The Center, including its staff, interns, and volunteers, currently provides:

• **Educational Programming:** The Center organizes special activities to mark theme-related months throughout the year, including Heart Health and Dating Violence Awareness Month (both February), Women’s History Month (March), Sexual Assault Awareness Month (April), Domestic Violence Awareness Month (October), and special days such as Positive Body Image (late February), National Coming Out Day (October 11), and World AIDS Day (December 1). The Center also hosts discussion groups and sponsors entertainment-oriented events.

• **Support of Gender-Related Research:** Each fall semester, the Center hosts a brown bag lunch series, “Every Other Thursday,” in which ISU researchers present their gender-related work. During spring semester, we host the annual Art of Gender in Everyday Life conference. The Center also sponsors invited lectures on an irregular basis.

• **Services:**

  • **Project Hope:** Advocates and staff provide supportive assistance to students, staff, and faculty who suffer the effects of relationship violence, sexual assault, stalking or other crimes. Services include:
    - A crisis and information line;
    - Support and referral services for survivors, family and friends;
    - Court/Judicial system advocacy.

  • **Project W.I.S.E. (Women’s Issues and Sexual Empowerment):** Aimed primarily at heterosexual women between the ages of 18 and 25, a population determined to be at an increased risk for HIV, W.I.S.E. seeks to empower women to make better choices about their sexual activities.

  • **1 in 4:** Aims to elucidate the aspects of men’s lives that contribute to, perpetuate and reward men’s violence, and to design ways to counter these forces. Issues that concern us include defining masculinity, maintaining healthy relationships and addressing the culture of male violence, including violence against women. Group members are involved in any or all of these activities; giving educational presentations, planning events, and hosting group discussions.

• **Resources:** The Center library holds books, magazines, and pamphlets on a variety of gender-related topics. Materials may be borrowed for up to a month.

Additionally, we offer internship, practicum, and volunteer opportunities for Idaho State University students, faculty, and staff as well as educational presentations on related topics, including domestic violence, sexual assault, stalking, healthy relationships, HIV/AIDS (including prevention), diversity, and other topics.

The Anderson Center is open to all members of the Idaho State University community regardless of gender identity, sexual orientation, ethnic or cultural background, religion, abilities, or age—everyone is welcome!

Everyone who is a part of the Center, whether staff, intern, or volunteer, strives to ensure that all Center services and activities will be: accessible and available, provided in safe and comfortable surroundings, of high quality, and of interest to the Idaho State University community. The opportunities at the Center are limited only by the imaginations of those who choose to participate.

**Leadership Education and Development (LEAD) Program**

The Idaho State University LEAD program was created to help Idaho State University students more fully develop their potential as leaders for today and tomorrow. LEAD programs and services include the Leadership Library which contains books, videos, and audio cassette tapes on leadership topics; LEAD to Succeed Resource Information Series handouts which are designed to help with getting involved, managing organizations, planning events, and personal development; LEAD to Succeed newsletter; team building activities; an annual Leadership Symposium; a service learning-based Leadership Academy; academic courses in leadership; and customized leadership training for campus groups. For information about the LEAD program, contact:

Jim Fullerton, LEAD Director
(208) 282-3154
fulljim@isu.edu

**Outdoor Adventure Center**

1st Floor, Pond Student Union
(208) 282-3912

Here is your ticket to adventure, fun and smiles! Students, faculty and staff are invited to participate in any or all of the Outdoor Adventure Center’s activities. The Center offers common adventure based outings and classes such as canoeing, climbing, cross-country skiing, kayaking, rafting, backpacking, caving, mountain biking, horseback riding, mountaineering, orienteering, and camping. The Center also has a rental center where you can rent equipment for all types of outdoor activities. The Center also teaches special topic workshops on topics such as avalanche awareness, backcountry survival and the Leave no Trace Ethics.

The Outdoor Adventure Center hosts speakers and other special events like the Pocatello Pump (a climbing competition). The Center has an extensive resource center with books, magazines and maps. The Center also runs the Portneuf Yurt Range Yurt System, consisting of five yurts available for use by winter enthusiasts.

Visit our website at www.isu.edu/outdoor

**Student Activities Board**

Student Leadership and Involvement
3rd Floor, Pond Student Union
(208) 282-3451

The Student Activities Board, appointed by the Student Senate, is responsible for many of the entertainment and social programs on campus. This student committee has the responsibility of programming movies, dances, homecoming, musical entertainment, art displays, speakers, family programming, and many other activities. The Student Activities Board provides valuable leadership experience for its members, who learn to maintain
and work within a budget, negotiate and fulfill contractual details, arrange publicity, work with committee members, and coordinate all details associated with event production.

**Religion**

Religious activities among students are promoted by Pocatello churches. There are three religious centers on campus; the LDS Institute, St. John’s Community (Roman Catholic), and the University Bible Church.

Some of the religious organizations on campus include the Baptist Campus Ministries, Campus Crusade for Christ, Catholic Campus Ministry, Idaho State University Ecumenical Ministry (American Baptist, Christian-Disciples of Christ, Episcopal, United Methodist, United Presbyterian, and United Church of Christ-Congregational), Latter-Day Saints Student Association, Lutheran Campus Ministry, Muslim Student Association, and Wesley Foundation.

**Scheduling and Event Services**

2nd Floor, Pond Student Union
921 S 8th Ave Stop 8354
(208) 282-2297

The Scheduling and Event Services Office assists students, the campus community, and university guests in planning and coordinating meetings, conferences, programs, and other special events to serve the educational development needs of Idaho State University. The office coordinates facility reservations, room set-up, sound, and audiovisual equipment needs.

**Student Employment**

(See Career Center)
(208) 282-2778

**Student Health Center**

Student Health Center
921 S 8th Ave Stop 8311
(208) 282-2300

Students with private health insurance from home, as well as students with ASISU student insurance, may use the Student Health Center. **Office visits are free for full-time students!**

Same day morning and advance appointments are available. A walk-in clinic is held each afternoon from 1:00 p.m. to 4:30 p.m. Monday through Friday. Part-time students and spouses of full-time students can also received medical care for a minimal clinic fee. A valid Bengal ID card is required to obtain services.

The Student Health Center employs a professional, licensed medical staff to provide students with high quality, low cost health care while attending Idaho State University. Good physical health and medical care are essential for students during this exciting time in their lives. If laboratory tests, X-rays, or procedures are performed, we will bill these low-cost services to your private insurance or to student insurance.

**Student Health Center Pharmacy**

Student Health Center Pharmacy
921 S 8th Ave Stop 8311
(208)-282-2960

The Student Health Center Pharmacy provides low-cost prescription drugs as well as over-the-counter medications at reduced costs. “Cold Kits,” two-day supplies of over-the-counter cold medication, are available at the Pharmacy **free of charge**. Students may wish to transfer prescriptions from their hometown to the Student Pharmacy while they are attending Idaho State University. All Idaho State University students, both full and part-time, and their spouses, may use the Student Pharmacy. A valid Bengal ID card is required to obtain services.

**Student Organizations & Greek Life**

Involvement Center
1st Floor, Pond Student Union
921 S 8th Ave Stop 8170
(208) 282-3451

Organizations play an important role in the education of students at Idaho State University. We encourage a rich climate of diverse and active organizations.

At Idaho State University there are over one hundred fifty active clubs and organizations including academic, professional, cultural, religious, service, and special interest organizations, honor societies, sports clubs and fraternities and sororities.

Minimum requirements for membership in an organization are determined by the University. To be eligible to join a recognized university club or organization a student must be a regularly enrolled, fee paying student in good standing.

Other regulations and/or standards are set by the individual clubs or organizations. All organizations are required to file a list of their officers, members and advisor, with the Office of Student Organizations every year to remain current and eligible to receive the privileges of a recognized club or organization.

Regulations for Fraternity and Sorority recruitments are determined by the National Panhellenic Conference and the fraternity organizations.

For further information please refer to the Student Organizations Directory or the Student Handbook, or contact the Student Organizations Office.

**Students’ Community Service Center (SCSC)**

Student Leadership and Involvement Center
3rd Floor, Pond Student Union
921 S 8th Ave Stop 8170
(208) 282-4201

The Students’ Community Service Center (SCSC) organizes students, faculty, and staff to participate in meaningful community service on campus and in Southeast Idaho. The Center operates six core programs: Into the Streets, Bonner Leaders Program, Idaho State University Recycling, Alternative Spring Break, Student Action Volunteers for the Environment (S.A.V.E.), and the Youth Mentoring Program. SCSC also serves as a campus contact for community agencies seeking volunteers for short- or long-term positions.

**TRiO Student Services**

Museum Building, Room 312
921 S 8th Ave Stop 8345
Pocatello, ID 83209-8345
(208) 282-3242

TRiO Student Services is a multifaceted, federally funded student assistance program. In order to participate in any of the TRiO programs, potential participants must meet the following criteria:
• Two-thirds of participants must meet federal low-income guidelines AND be first-generation college students.
• Remaining one-third of participants may be low-income OR first-generation college students OR have a documented physical, psychological, or learning disability.
• Students must have a need for program services.

Note: TRiO eligibility criteria will vary with individual programs.

Once students have been determined eligible, they may be provided a diversity of academic support services through one of the three TRiO programs including Educational Talent Search, Upward Bound, and Student Support Services.

Educational Talent Search (ETS) works with eligible program participants who are in the 8th through 12th grades and have potential to be successful in college. Students receive tutoring, assistance with study skills, organizational skills, test taking strategies, and career exploration. They also attend field trips and cultural activities, and participate in community service projects and technology workshops. During their senior year they are also provided help with admission/financial aid forms and obtaining other information that will prepare them to enter the college of their choice.

Upward Bound (UB) assists eligible 9th through 12th grade students in preparing for the challenges of a postsecondary education. The program consists of an intense academic summer component and a follow-up component during the school year. The summer program is held on the Idaho State University campus. For eight weeks students are taught by certified high school teachers and receive credit toward high school graduation in most of the traditional academic disciplines including math, English, science, and foreign languages. Study skills, test taking strategies, and career exploration are incorporated into the summer curriculum and additional academic support services such as tutoring are provided by Tutor/Mentors. The academic year follow-up program is geared to supporting the curricular and academic support activities students experience during the summer. Regular tutoring and other academic enhancement services are provided to students throughout the school year.

Student Support Services (SSS) is a postsecondary retention oriented program that offers academic support services to eligible students. Academic Advisor/Counselors provide students assistance with course selection and scheduling along with personal and financial counseling. Other important services available to students include tutoring and supplemental instruction. Tutors and Supplemental Instruction Leaders are model students who have excelled in their academic disciplines. The SSS program’s goal is to help students be successful, both academically and socially, while attending Idaho State University, by providing strong support to help students achieve their educational and career objectives.

University Counseling and Testing Services

In Pocatello:
Gravelly Hall, Top Floor, South Wing
921 S 8th Ave Stop 8027
(208) 282-2130

In Idaho Falls:
1784 Science Center Drive
Room 223 Benmion SUB
Stop 8150
(208) 282-7750

Internet:
http://www.isu.edu/ctc/testing.html

Counseling Service

The staff of the University Counseling and Testing Service are available to assist students who are encountering personal, social, and emotional difficulties while enrolled at Idaho State University. During an initial assessment process, the student and counselor discuss the student’s needs and concerns and decide upon an appropriate counseling plan. Individual, couples, and group counseling are available. When appropriate, the counselor will assist the student with a referral. We can usually counsel students with concerns such as anxiety, depression, low self esteem, lack of motivation, eating problems, stress, grief, and interpersonal relations including couple and family problems.

Personal counseling is free, and confidentiality is maintained within the ethical and legal guidelines of the American Counseling Association, the American Psychological Association and the State of Idaho. Staff are licensed by the State of Idaho as counselors or psychologists. Masters and Doctorate trainees (interns) are under the direct supervision of licensed staff.

Consultation and Crisis Intervention Services

Whenever any member of the University Community has an immediate mental health concern for their self or another person, they may contact our office. One staff member is available each day during normal working hours for emergencies and consultations. After normal working hours, emergency response is initiated by contacting Campus Security and/or 911. Counseling staff may coordinate and assist with follow-up to such emergencies.

In addition to crisis intervention and follow-up services, counseling service staff are available for a variety of other consultations. The most common consultations include debriefing with individuals and departments who have had a critical incident, assisting individuals and departments in working with students with difficulties, and providing support and follow-up to individuals and departments undergoing significant change.

Outreach Services

University Counseling and Testing Service staff provide a wide variety of outreach services including: teaching academic courses; leadership development programs; workshops on communication skills, mindfulness, anxiety, anger, and stress management; guest lectures on a variety of topics; and information on such concerns as depression, anxiety, eating disorders and sexual assault. Workshops, lectures, and courses can be designed to fit the needs of specific individuals, groups, or departments.

Testing Service

The University Counseling and Testing Service actively pursues the opportunity to serve the University and the community as a full service testing center. In addition to serving the University’s needs for course placement testing, proctoring on-line course exams, and special requests for proctored exams, we currently serve the larger community as a contract test site for: PROMETRIC, ACT, Miller Analogies Test (MAT), GED, Pearson Vue, Kryterion, and CLEP. For current information on the cost and registration process for any of the over 500 examinations available through our center, please check out our website: http://www.isu.edu/ctc/
Veterans’ Benefits
For any information concerning veterans’ educational benefits, rights, and opportunities, contact:
Veterans Coordinator
Office of Registration and Records
921 S 8th Ave Stop 8196
Pocatello, ID 83209-8196
(208) 282-2676

Wellness Center
Students at Idaho State University have the unique opportunity of having a Wellness Center on campus. The mission of the Wellness Center is to promote a holistic approach to health through quality health promotion and education programs, and public service to all students at Idaho State University. We are committed to providing opportunities that facilitate and support personal growth in the multiple dimensions of health: physical, mental, emotional, spiritual, social, and environmental.

A wide variety of aerobic classes is offered: aerobics, aquacize, step aerobics, yoga, cardiobtone, and toning. All classes are held at Idaho State University. The Wellness Center also offers fitness assessments to Idaho State University students. This includes cardiovascular endurance, body composition, blood pressure, flexibility, abdominal strength and health risk appraisal. These are by appointment.

For further information on Wellness Center activities, please call the Wellness Center at (208) 282-2217 or send email to: wellness@isu.edu. Office hours during the Fall and Spring academic semesters, are 8 a.m. - 5 p.m. Monday through Friday. For Wellness Center activities and information during the Summer term, please contact the Department of Health and Nutrition Sciences at (208) 282-2729; office hours are 7:30 a.m. through 4 p.m., Monday through Friday.

All-University Academic Services
Administered by the Office of the Provost and Vice President for Academic Affairs

Academic Advising
Administration Building, Room 316
921 S 8th Ave Stop 8054
(208) 282-3277

Mandatory Advising
The Mandatory Advising program is required for academic degree seeking freshman students for the first two semesters of attendance at Idaho State University and for transfer students for the first semester of attendance. Students subject to mandatory advising must meet with a representative of the Academic Advising Center for this purpose. Undergraduate international students may see the Director of International Recruitment in the Admissions Office for advising.

Mandatory advising applies to all international students, including international graduate students. Moreover, all international students are required to attend an orientation to the University coordinated by the Director of International Programs and Services. International graduate students are also required to meet with an advisor from their major department.

Mandatory Advising at Idaho State University is not intended to replace College or Faculty advising.

Academic Advising Center
The Academic Advising Center is a service available through the Office of Enrollment Planning and Academic Services. Its main purpose is to serve freshmen and sophomores who are undecided about a major or who need a little extra assistance. The Center additionally serves GED students, students admitted at Level 1, and those admitted by petition.

Students are welcome to contact the Academic Advising Center for advising or referral. The Center also serves as a general resource for all Idaho State University students. If students are unsure about whether an advisor has been assigned to them, they should contact the Center for information.

Center for Teaching and Learning
Museum Building, Room 434
921 S 8th Ave Stop 8010
(208) 282-3662

The Center for Teaching and Learning (CTL) offers programs in college learning strategies, reading, writing, mathematics, and English for speakers of other languages, which include individualized instruction, tutoring, and workshops—all intended to increase the probability of students’ academic success. The Center also administers the ASIdaho State University Content Area Tutoring Program. There is no charge for these services. Students may also register for credit and noncredit courses taught by CTL staff.

Tutoring Services
The Content Area Tutoring (CAT) Program provides free tutoring in all disciplines, with the exception of writing and mathematics which are offered by the staff in the Center for Teaching and Learning. Students may receive tutoring at the CAT office, on the top floor of the Museum (Room 436) on the Pocatello Campus, (208) 282-3334, or in Room 454 of the University Place Building on the Idaho Falls Campus (208) 282-7925.

College Learning Strategies
The College Learning Strategies Program offers a one-credit course, College Learning Strategies. The areas covered include time management, note-taking skills, reading strategies, memory-improvement, test-taking strategies, controlling test anxiety, and critical thinking. Students can also learn study strategies relevant to their particular courses through individual conferences and workshops.

Mathematics
The Mathematics Center provides drop-in tutoring services to help students on the Pocatello and Idaho Falls campuses
understand concepts in math and math-related courses. At the beginning of each semester, the program offers a one-credit course, College Learning Strategies for Mathematics, which covers a wide range of study strategies for math. Students can also learn about these study strategies through individualized conferences and workshops.

**Writing**

The Writing Center provides individualized tutoring in the Center and online to help students improve the quality of their writing for courses across campus. At any stage of the writing process, from generating ideas through successive drafts, tutors assist with organization and development of ideas for particular audiences and purposes, as well as more local issues such as punctuation, spelling, and usage. Student workshops, tutoring hours in Idaho Falls, and credit courses—teaching writing one on one, and writing laboratory—as well as faculty workshops on assignment design, responding to student writing, and writing across the curriculum are also part of the program.

**English for Speakers of Other Languages (ESOL)**

The English for Speakers of Other Languages (ESOL) Program serves undergraduate and graduate students enrolled in academic and professional courses at Idaho State University. The program offers a wide variety of individual tutoring, workshops and courses in idioms, special vocabularies, lecture comprehension, American culture, pronunciation, grammar, rhetorical styles and skills for conversation and discussion. There are also support services for international teaching assistants, an online tutorial for off-campus needs, and faculty workshops for responding to ESOL issues.

**First Year Seminar (FYS)**

The First Year Seminar course aims to assist first year students with their transition into the University. Students interact closely with instructors and participate in collaborative learning activities and exercises. Courses are co-instructed by a campus faculty and staff member and are highly recommended for all first year students.

**Clustered Learning for Academic Student Success (C.L.A.S.S.)**

The C.L.A.S.S. program creates a learning community for first year students by enrolling small groups together in a cluster of courses that combine First Year Seminar and at least two academic classes. The C.L.A.S.S. program is designed for students who have a high level of achievement in their high school core classes and have earned a score of 20 or higher on the English portion of the ACT (540 or higher on the SAT).

**Academic Skills Courses**

Academic Skills courses are designed to help students maximize their academic success at Idaho State University. These courses are highly recommended for both traditional and non-traditional students in all majors and at all class levels. The intent of these courses is to provide a foundation for learning and academic success. Academic Skills courses span the continuum of learning for students throughout their academic careers. For first year students, some of the classes provide a foundation for their academic experience, such as orientation to the University environment and study skills. For upper level students, some of the classes assist in the learning process for a broad range of classes, such as refining efficiency in reading.

**ACAD 101 College Learning Strategies 1 credit.** Covers learning strategies and study techniques (notetaking), textbook study, test preparation, memory, time management, etc. which promote academic success. Especially recommended for new students and re-entry students. F, S, Su, W

**ACAD 102 First Year Seminar 1 credit.** Provides an extended orientation to the University for new students. Utilizes presenters from various campus support systems, collaborative learning activities, and written assignments which involve students in resources and activities on campus. F, S

**ACAD 103 College Learning Strategies for Mathematics 1 credit.** Covers math anxiety, notetaking, homework, textbook study, learning styles, test preparation and problem solving. Concurrent registration in a mathematics course is recommended. F, S

**ACAD 104 Orientation to University 2 credits.** Combines content of two courses: Study Skills and First Year Seminar. Introduces students to university culture and to learning strategies and study techniques which promote academic success. Especially recommended for entering students. F, S

**ACAD 110 Money Management 1 credit.** Covers basic Money Management techniques including: credit, saving, budgeting, debt, food dollars, financial goals, and investing. This is an eight-week course. F, S

**ACAD 210 Peer Tutor Training 1 credit.** Introduction to individual and small group tutoring with adult students. Emphasis on teaching strategies, communication skills, ethics, learning styles. Graded S/U. F, S

**ACAD 220 Peer Instruction Seminar 2 credits.** Innovative teaching techniques for peer instructors who will plan the syllabus and collaborate with their faculty/staff teaching partners in preparing for and teaching one section of ACAD 102. Students will research and explore pragmatic applications of teaching, mentoring and leadership theories. COREQ: Peer instructor in ACAD 102. F, S.

**ACAD 310 Efficient Reading 1 credit.** Emphasis on developing flexibility and acceleration of reading speed and refinement of comprehension and content of two courses: Study Skills and First Year Seminar. Introduces students to university culture and to learning strategies and study techniques which promote academic success. Especially recommended for entering students. F, S

University Honors Program

**Overview**

The University Honors Program is an academic learning community that offers a broad range of enriched educational experiences, typically found at a small private college, for bright, talented, and ambitious undergraduate students. The main goals of the program are:

1. to provide a challenging and imaginative curriculum;
2. to prepare students for a post-graduate education through seminars, individual research, and one-on-one interaction with faculty;
3. to enrich the life of all honors students by fostering a spirit of ongoing inquiry and a love of learning.

The University Honors Program offers interdisciplinary, theme-driven course sequences in the humanities, social sciences, and natural sciences. They are designed for students who are motivated to develop their critical and creative thinking in a more personalized atmosphere than may be expected in normal lower division courses. These courses are offered in small classes (25 maximum enrollment) by interested faculty, deal with broad and/or interdisciplinary issues, and confront some aspect of the human condition. Innovative teaching and assignments are encouraged,
and interaction with faculty and class members is lively.

The University Honors Program curriculum fulfills many of the General Education Requirements: First year: goals 1, 6, 7, 10A, and 11. Second year: Goals 4 and 5; other goal courses may be offered.

Admission

Admission to the University Honors Program is competitive. Please check http://www.isu.edu/honors for admission requirements.

Transfer students from honors programs at other institutions are welcome to apply to the University Honors Program, and honors credits will be evaluated. Students who wish to enter the program in their sophomore or junior years should consult with the honors program director.

Student Progress

Students admitted to the Honors Program are required to maintain a cumulative grade point average of 3.25. Students must show evidence of continuous progress toward their degrees. Students dropping below the 3.25 requirement have one probationary semester to raise the GPA before facing dismissal from the program.

Interdisciplinary Seminars

University Honors Degree students are required to complete two upper division interdisciplinary seminar courses (HONS 391, 1 credit, a repeatable course) during the junior and senior years. In general, at least one Honors seminar will be offered each semester.

Honors Contract Courses

In addition to the interdisciplinary seminars, each University Honors student must complete a minimum of 6 credits of Honors Contract courses in the student’s major or minor. Honors Contract courses are departmental courses offered under an “honors contract” between the student and instructor. An Honors Contract course requires that the student and instructor agree, on a case-by-case basis, to a set of requirements for the course. All honors contracts must be approved by the Honors Program Director. In general, 300- and 400-level courses are available for Honors Contract credit, as designated by each department.

Capstone Project or Thesis

Each University Honors Degree student is required to complete an honors project or thesis at the senior level in the department of his or her major. The capstone project (3-6 credits) requires the Honors student to prepare a project proposal for review by a departmental Honors Advisor. The project could be a research-based senior thesis or another appropriate project. The completed project is presented in a public forum and defended before a committee comprised of the Honors Advisor within the major department, another faculty member in the department, and the Director of the University Honors Program. Appropriate public venues for the presentation include but are not limited to: a departmental seminar, the Idaho State University Undergraduate Research Symposium, an honors regional or national conference, or a discipline specific conference.

Graduation from the Honors Program

Members of the University Honors Program who complete 19 credits of honors coursework, including a 1-credit honors seminar, graduate from the program. This is noted on the transcript and at Commencement. The Honors Degree requires 2 Honors Interdisciplinary Seminars (1 credit each), at least 6 credits of upper division Honors Contract courses, and an honors project or thesis, for a total of 32 honors credits.

Honors Degrees

Graduates of the University Honors Program who complete 32 honors credits will receive one of the following degrees:

- Honors Bachelor of Arts
- Honors Bachelor of Science
- Honors Bachelor of Business Administration
- Honors Bachelor of Fine Arts

Contact Information

Please check http://www.isu.edu/honors for the current year’s core curriculum themes and additional information. Questions about the University Honors Program and courses may be directed to:

Honors Courses

HONS 101 Honors Humanities I 3 credits. A writing-intensive interdisciplinary course examining relationships between the arts and letters from the Classical Age through the Enlightenment. F

HONS 102 Honors Humanities II 3 credits. A writing-intensive interdisciplinary course examining relationships between the arts and letters from the nineteenth century to the present. With HONS 101, satisfies Goals 6 and 7 of the General Education Requirements and with grades of C- or better in both courses, also satisfies Goal 1 of the General Education Requirements. S

HONS 103 Honors Social Science I 3 credits. A writing-intensive interdisciplinary course examining the relationships in the social sciences from the Classical Age through the Enlightenment. F

HONS 104 Honors Social Science II 3 credits. A writing-intensive interdisciplinary course examining the relationships in the social sciences from the nineteenth century to the present. With HONS 103, satisfies Goals 10A and 11 of the General Education Requirements. S

HONS 201 Honors Science I 4 credits. First of a two-course sequence. An interdisciplinary examination of the processes by which scientific knowledge is gained in biology, physics, chemistry, and geology and how that knowledge influences our world, especially human societies. Includes laboratory. With HONS 202, fulfills Goals 4 and 5. PREREQ: MATH 108 or equivalent. F

HONS 202 Honors Science II 4 credits. Second course in the introduction to science for honors students. A continuation of the concepts developed in HONS 201. Includes laboratory. With HONS 201, fulfills Goals 4 and 5. PREREQ: MATH 108 or equivalent. F

HONS 391 Honors Seminar I 1 credit. Exposes students to a range of critical and theoretical approaches within various disciplines in multiple seminars. Students formulate research problems.
and incorporate the results of their research into a seminar paper and/or oral presentation. May be repeated for up to 4 credits with different content. F, S

HONS 493 Honors Senior Thesis or Project 3 credits. Supervised by a committee of at least two faculty members and approved by the University Honors Program director. DEPT 493H will be used when possible. May be repeated for up to 6 credits. PREREQ: Permission of instructor and Honors Program director.
College of Arts and Sciences

Scott S. Hughes, Ph.D., Interim Dean
Margaret Johnson, Ph.D.,
Interim Associate Dean
Kandi Turley-Ames, Ph.D.,
Interim Assistant Dean

The College of Arts and Sciences introduces students to ways of thinking and expression intrinsic to the arts, humanities, and social and natural sciences. Students are thereby aided in the development of intellectual skills and personal values which serve them in career planning and lifelong learning.

Some eighty different curricula provide work leading to Associate of Science, Associate of Arts, Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Science, Bachelor of Music, Master of Arts, Master of Fine Arts, Master of Public Administration, Master of Natural Science, Master of Science, Doctor of Arts, and Doctor of Philosophy degrees. These curricula provide a rather wide selection which includes the recognized courses in the main fields of knowledge. The general plan is to provide an acquaintance with the basic tools of culture and to explore one or another discipline in greater depth. The bachelor’s degrees which are awarded are considered as evidence of qualification to enter certain occupations directly; in many instances they indicate preparation for more advanced professional study.

Students planning to complete work in a graduate school or professional school, for example, in engineering, law, dentistry or medicine, should pay particular attention to the stated requirements of the institution which they plan to attend to be prepared for admission. If a particular institution has not yet been selected, the student is advised to consult catalogs and seek advice as to the requirements commonly made in such schools.

General Education Requirements

All Associate and Bachelor of Arts and Associate and Bachelor of Science degree programs include a general education component intended to provide a breadth of knowledge in liberal studies as a necessary background for the specialized knowledge acquired in the discipline in which the student majors. Additionally, the General Education Requirements are intended to assist the student in developing the intellectual flexibility necessary for a fulfilling career.

By meeting these requirements, students develop their skills in oral, written, and mathematical communication. They also acquire habits of thought traditionally associated with the well-educated person: the ability to analyze and propose solutions to personal, social, and scientific problems; the ability to recognize and assess value structures; and the ability to understand and evaluate the literary and expressive arts.

The general education components for the Associate and Bachelor of Arts and Associate and Bachelor of Science degree programs require students to complete the goal requirements listed under the General Education Requirements section under General Academic Information of this catalog. Students are encouraged to consult with their advisor in determining their curriculum.

Transfer Students

Students transferring to Idaho State University who seek a bachelor’s degree in the College of Arts and Sciences should refer to the section, Policies Governing Fulfillment of General Education Requirements by Transfer Students (under Admissions in General Information).

Major Requirements

In addition to the general education component, all Bachelor of Arts and Bachelor of Science degree programs require a concentration in a departmental major of at least 24 credits, of which at least 16 credits must be in courses numbered 300 and above. The particular course requirements of the departmental majors in the College of Arts and Sciences are outlined under the department headings in the catalog.

The Teacher Education Program

The College of Arts and Sciences shares responsibility with the College of Education for the Teacher Education Program. Students may fulfill the requirements of the Teacher Education Program while majoring in a discipline within the College of Arts and Sciences. Application for admission to the Teacher Education Program does not require a student to apply for admission to the College of Education. The Teacher Education Program admission and completion requirements are detailed in the College of Education section of this catalog.

Pre-Health Professions Advising

Idaho State University offers advising for pre-health professional students which prepares them for application to and acceptance by a variety of health professional schools. Health professional programs for which advising is offered include: dentistry, medicine, osteopathic medicine, optometry, podiatric medicine, veterinary medicine, physical therapy, occupational therapy, chiropractic, and physician assistant. For students interested in one of the health professional programs offered at Idaho State University, such as clinical laboratory science, counseling, dental hygiene, family medicine, health and nutrition sciences, health care administration, nursing, physical therapy, physician assistant, pharmacy, radiographic science, and speech pathology and audiology, the Pre-health Advisor will refer the students to the appropriate department or college for additional information.

The Pre-health Professions Advising Office is located in the Department of Biological Sciences, Room 202 of the Life Sciences Building (Building #65 on the Idaho State University map). Students who plan to apply to one of the professional schools listed above should establish and maintain close contact with the Pre-health Advisor throughout their undergraduate program at Idaho State University. The Pre-health Advisor monitors students’ progress through their degree programs and the health professional prerequisite courses, provides information about application procedures, and organizes informational meetings, workshops, and speakers on specific health professions. The advisor also coordinates the Pre-health Professions Advisory Committee that provides
interviews to prepare students for the health professional programs application processes.

Pre-Health Advisor: Becky Connell

Current members of the Idaho State University Pre-Health Professions Advisory Committee are:

Co-Chairs of Committee:
- Dr. Maureen Brandon, Dr. Jeff Perkel, and Dr. Rod Seeley, Biological Sciences
- Dr. Lyle Castle, Chemistry
- Dr. Joseph Steiner, Pharmaceutical Sciences
- Dr. Linda Hatzenbuehler, College of Health Professions
- Dr. Cynthia Hill, Economics
- Dr. Jeffrey Meldrum, Biological Sciences
- Dr. Alex Urfer, Physical Therapy
- Dr. Derek Wright, Idaho State University Family Practice Clinic
- Dr. Jonathan Westphal, English and Philosophy

In general, health professional schools have no preference for specific academic majors. Instead, they prefer that applicants major in a defined academic area (zoology, chemistry, psychology, economics, for example) and concurrently satisfy the prerequisite courses for the specific health professional school. Pre-health professional students should consult with a member of the Pre-Health Professions Advisory Committee or the Pre-health Advisor in order to successfully combine an academic major with a pre-health professional program. It is strongly recommended that pre-professional students develop a strong background in courses such as those listed below. Courses required by most health professional schools include, but are not limited to, the following:

(Departmental prerequisites may apply to some of these courses.)

In addition to completing specified prerequisite courses, most health professional schools require that the pre-professional student obtain practical experience in the health professional field she or he plans to enter, and take a national standardized admission test. Specific information about the national exams and acceptable practical experiences are included in the sections below.

Students who complete three years of the curriculum in zoology with a grade point average of 2.5 or higher may be eligible to receive a B.S. degree in zoology after completion of the first year of study at a departmentally approved school of dentistry, or veterinary medicine. Students choosing this option must complete a minimum of 96 credits, satisfy all Idaho State University General Education Requirements, and complete all courses numbered lower than 400 which are required by the zoology curriculum. Students are advised to consult with the Assistant Chair for Undergraduate Programs of the Department of Biological Sciences or the Pre-health Advisor early in their undergraduate programs if they plan to pursue this program option. Students should be aware that this practice is in decline, and few applicants matriculate into schools of dentistry or veterinary medicine prior to completion of a bachelor’s degree.

Chiropractic

The undergraduate courses listed above provide some guidance for the pre-chiropractic student. However, significant differences in pre-requisite coursework by the various chiropractic schools require that students obtain a specific list of requirements for each school. The most current admission requirements for chiropractic schools are described on the schools’ websites, which can be accessed through the Association of Chiropractic Colleges website at www.chirocolleges.org.

Dentistry

The Idaho State University courses listed above provide a core for pre-dental requirements of most dental schools. However, some dental schools have additional requirements. The most current admission requirements for each dental school are described on the schools’ websites, which can be accessed through the American Dental Education Association website at www.adea.org or by consulting the latest edition of “ADEA Official Guide to Dental Schools,” published by the American Dental Education Association, 1625 Massachusetts Avenue NW, Washington, D.C. 20036. A copy of this guide is available in the Pre-health Professions Office. All dental applicants must take the Dental Admission Test (DAT), and have shadowed a practicing dentist prior to applying to the individual schools of dentistry.

Cooperative Program with the Creighton University School of Dentistry

In the fall of 1982, Idaho State University and the Creighton University School of Dentistry implemented a decentralized dental education program, the Idaho Dental Education Program (IDEP). Under this program, up to seven seats per year at the Creighton University School of Dentistry are reserved for Idaho residents. The first professional year of the dental school program is on the Idaho State University campus in Pocatello. The students then move to the Creighton University School of Dentistry in Omaha, NE for the second, third, and fourth professional years. Idaho residents who wish to be considered for IDEP must apply to Creighton University School of Dentistry and meet all other admission requirements.

Medicine

The undergraduate courses required by most medical schools is the same as described above. However, many medical schools have additional requirements. The most current admission requirements for each medical school are described on the individual schools’ websites, which can be accessed through the Association of American Medical Colleges (AAMC) website at www.aamc.org, or by consulting the latest edition of “Medical School Admission Requirements, USA and Canada,” published by the Association of American Medical Colleges, One Dupont Circle NW, Washington, D. C. 20036. A copy of this publication is available in the Pre-health Professions Advising Office. All medical applicants must take the Medical College Admission Test (MCAT), and have shadowed a practicing physician prior to applying to the individual schools of medicine.

Cooperative Program with the University of Washington School of Medicine

Idaho residents are eligible for the Washington-Wyoming-Alaska-Montana-Idaho (WWAMI) decentralized medical education program of the University of Washington School of Medicine. Currently, the University of Washington reserves 18 seats for Idaho residents, and accepted students
are charged an Idaho tuition rate. Idaho residents who wish to be considered for the WWAMI program must apply to the University of Washington School of Medicine, and meet all other admission requirements. Additional information about the WWAMI program is available in the Pre-health Professions Advising Office.

Cooperative Program with the University of Utah School of Medicine

Idaho residents are eligible to compete for 8 reserved seats at the University of Utah School of Medicine, and those accepted under this program pay an Idaho tuition rate. To be considered for this program, students must apply to the University of Utah School of Medicine, and meet all other admission requirements. Additional information about the Idaho agreement with the University of Utah School of Medicine is available in the Pre-health Professions Advising Office.

Occupational Therapy, Physical Therapy, Physician Assistant

Advising for each of these professions is available at Idaho State University. Specific pre-professional requirements for these programs can be obtained elsewhere in this catalog where those programs are described.

Students may be advised to satisfy prerequisites not only for these programs at Idaho State University, but also for programs in the same profession located at other institutions. Students may consult with the Pre-health Advisor for information about prerequisites for admission to these programs at other institutions. Prerequisites for professional programs at other institutions can be met by courses taken at Idaho State University.

Optometry

The undergraduate courses listed above provide some guidance for the pre-optometry student. However, significant differences in pre-optometry requirements by the various optometry schools require that students obtain a specific list of requirements for each optometry school. The most current admission requirements for optometry schools are described on the schools' websites, which can be accessed through the Association of American Optometric Colleges (AAOMC). All optometry applicants must take the Optometry Admission Test (OAT). Several optometry schools are members of the Western Interstate Commission for Higher Education (WICHE) and will therefore give preference to applicants who are residents of WICHE states, such as Idaho. To be considered for the WICHE program, Idaho residents must apply to the participating optometry schools, and meet all other admission requirements. Additional information about the WICHE program is available in the Pre-health Professions Advising Office.

Osteopathic Medicine

Admission requirements and undergraduate prerequisite courses for schools of osteopathic medicine are nearly identical to those described elsewhere. More information about osteopathic medicine can be found at the American Association of Colleges of Osteopathic Medicine (AACOM) website at www.aacom.org, or by consulting the Pre-health Advisor. All osteopathic medical applicants must take the Medical College Admission Test (MCAT), and have shadowed a practicing physician prior to applying to the individual schools of osteopathic medicine.

Podiatric Medicine

The undergraduate courses listed above are required by most podiatric medical schools. However, some podiatric medical schools may have additional requirements. The most current admission requirements for podiatric medical schools are described on the schools' websites, which can be accessed through the American Association of Colleges of Podiatric Medicine website at www.aacpm.org, or by consulting the latest edition of "Podiatric Medical Education," available from the American Association of Colleges of Podiatric Medicine, 1350 Piccard Drive, Suite 322, Rockville MD 20850. A copy of this publication is available in the Pre-health Professions Office. All podiatric medical applicants must take the Medical College Admission Test (MCAT). In addition, most schools of podiatric medicine expect applicants to have shadowed a practicing podiatrist prior to applying to the individual schools of podiatry.

Veterinary Medicine

The undergraduate courses listed above provide some guidance for the pre-veterinary medicine student. However, significant differences in pre-veterinary requirements by the various schools of veterinary medicine require that students obtain a specific list of requirements for each school. The most current admission requirements for veterinary medicine schools are described on the schools' websites, which can be accessed through the Association of American Veterinary Medical Colleges (AAVMC). Veterinary medicine applicants must take the General Test of the Graduate Record Exam (GRE), and have volunteer experience with a practicing veterinarian prior to applying to the individual schools of veterinary medicine.

Idaho residents should be aware that a long term agreement has been reached among the states of Washington, Oregon, and Idaho (WOI) to share responsibility for the curriculum and program at the Washington State University College of Veterinary Medicine. The WOI program gives admissions preference to Idaho residents. Students who are not residents of Idaho or any students who wish to apply to other schools of veterinary medicine should consult with the Pre-health Advisor concerning the proper development of a pre-veterinary medical program at Idaho State University.

Websites of Interest to Pre-health Professions Students

Most health professions have national associations that maintain detailed websites with information about the profession, the professional schools, and admissions information. The list below includes websites most commonly used by the pre-health professions students.

**Dentistry**
- American Dental Association: www.ada.org
- American Dental Education Association: www.adae.org

**Medicine**
- Allopathic (M.D.)
  - Association of American Medical Colleges (AAMC): www.aamc.org
- Osteopathic (D.O.)

**Podiatric (D.P.M.)**
- American Association of Colleges of Podiatric Medicine (AACPM): www.aacpm.org
Bachelor of Arts in General Studies

This is a non-specialist degree program designed to meet the needs of students interested in broadly based education in the liberal arts. It provides greater flexibility and breadth in subject matter than provided by traditional degree programs. Students in the General Studies program must complete all of the General Education goals (including 10A and 10B) as a program requirement. See the Assistant Dean of the College of Arts and Sciences for advising in this program.

A student’s BAGS program must include approved coursework from these areas: a) English composition; b) speech; c) mathematics; d) biological science and laboratory; e) physical science and laboratory; f) fine arts (art, dance, film, music, theater); g) literature; h) philosophy; i) U.S. history; j) non-U.S. history or culture; k) foreign language; l) economics or political science; m) anthropology, psychology, or sociology. The BAGS advisor approves these courses. Students may use courses they have taken to satisfy General Education goals to meet these additional program requirements.

Upper division courses - At least 48 credits of Arts and Sciences courses are required, but not more than a total of 40 credits may be earned in any one subject field. Coursework graded P/NP or S/U must be approved in advance.

Electives - Courses from all across the university may be utilized to complete the 128 credit hours required for graduation.

American Studies Program

Mission

The American Studies program provides students with the opportunity to examine American culture, literature, institutions, and history through the combined perspectives and methods of the humanities, fine arts, and social sciences. Graduates can find their places in many fields that require interdisciplinary skills and knowledge: journalism, politics, publishing, social services, or writing and editing. Graduates may choose to pursue further professional training in graduate programs in American Studies or in a discipline or professional area emphasized within the option they choose for the major.

The major’s “American Cultures” and “America in the World” thematic tracks enable students to minor in one of the College of Arts and Sciences’ interdisciplinary minors or in English, history, or political science. Students may also choose a special option, in which they design a thematic track in consultation with the American Studies director. Special option tracks might be possible, for example, in topics such as ethnic studies, regionalism, social groups, popular culture, political processes, health issues, local history and museology, environmental history, or the arts. Students are encouraged to consult with the American Studies director to design programs that meet personal aspirations.

Admission to Major Status

Students desiring to major in American Studies must have satisfied the following:

1. General Education Goals 1, 2, and 3 in their entirety;
2. AMST 200 with a C or better; and
3. an overall GPA of 2.5 or better.
Bachelor of Arts in American Studies

Requirements
In addition to the requirements for a Bachelor of Arts degree in the College of Arts and Sciences, American Studies majors will complete required core courses (15 credits), disciplinary methods courses (9 credits), AND a thematic, special, or general option of at least 24 credits. Thematic options also satisfy an interdisciplinary minor or a minor in a discipline. Some of the thematic options require completion of particular disciplinary methods courses from the list below; these are labeled “Required Disciplinary Methods Course Choices.”

Required Courses (15 cr)
- AMST 200 Introduction to American Studies 3 cr
- AMST 403 Senior Project 3 cr
- ENGL 277 or 278 Survey of American Literature I or II 3 cr
- HIST 118 U.S. History and Culture 3 cr
- POLS 101 Introduction to American Government 3 cr

Disciplinary Methods Courses (9 cr)
Consistent with your choice (below) of the thematic option track if selecting the thematic option, select three courses from three of the following eight groups.

1. Fine Arts
- ART 103 Creative Process 3 cr
- ART/MC 210 History and Appreciation of Photography 3 cr
- DANC 105 Survey of Dance 3 cr
- MUSC 106 American Music 3 cr
- THEA 101 Appreciation of Drama 3 cr

2. Literature
- ENGL 211 Introduction to Literary Analysis 3 cr

3. Language Studies
- ANTH/ENGL/LANG 107 Nature of Language 3 cr
- ENGL 280 Grammar and Usage 3 cr
- ENGL 281 Introduction to Language Studies 3 cr

4. Communication
- M C 119 Introduction to Mass Media 3 cr
- COMM 208 Group Communication 3 cr
- COMM 254 Organizational Communication 3 cr

5. History
- HIST 291 The Historian’s Craft 3 cr

6. Women’s Studies
- W S 201 Introduction to Women’s Studies 3 cr

7. Social Sciences: Culture and Society
- ANTH 203 Introduction to Archaeology 3 cr
- ANTH 230 Introduction to Biological Anthropology 3 cr

8. Social Sciences: Economics and Politics
- ECON 100 Economic Issues 3 cr
- ECON 201 Principles of Macroeconomics 3 cr
- ECON 202 Principles of Microeconomics 3 cr
- POLS 202 Introduction to Politics 3 cr
- POLS 221 Introduction to International Relations 3 cr

Required Disciplinary Methods Course Choices:
- ANTH/ENGL/LANG 107 Nature of Language 3 cr
- ENGL 211 Introduction to Literary Analysis 3 cr

Required Course:
- ENGL 301 Writing About Literature 3 cr

Plus four of the following:
- ANTH/ENGL 367 Language in the United States 3 cr
- ANTH/ENGL 453 American Indian Language 3 cr
- ENGL 277 or 278* Survey of American Literature I or II* 3 cr
- ENGL 353 The West in American Literature 3 cr
- ENGL 356 Ethnicity in Literature 3 cr
- ENGL g480 Varieties of American English 3 cr

Upper-division ENGL period or genre courses with an American literature emphasis (chosen in consultation with Director of American Studies)
- OR

American Cultures Track 1,
American Literature in Context (24 cr) (includes a Minor in English)

Required Disciplinary Methods Course Choices:
- ANTH/ENGL/LANG 107 Nature of Language 3 cr
- ENGL 211 Introduction to Literary Analysis 3 cr

Required Course:
- ENGL 301 Writing About Literature 3 cr

Plus four of the following:
- ANTH/ENGL 367 Language in the United States 3 cr
- ANTH/ENGL 453 American Indian Language 3 cr
- ENGL 277 or 278* Survey of American Literature I or II* 3 cr
- ENGL 353 The West in American Literature 3 cr
- ENGL 356 Ethnicity in Literature 3 cr
- ENGL g480 Varieties of American English 3 cr

American Cultures Track 2
American Indian Studies (27 cr) (includes a Minor in American Indian Studies)

Consultation with the Director of the American Indian Studies Program is required.

Required Courses:
- ANTH 100 General Anthropology 3 cr
- ANTH 238 People and Cultures of the New World 3 cr
- ANTH g466 Current Issues in Indian Country 3 cr
- ANTH g476 Seminar in American Indian Studies 3 cr

Plus one of the following:
- ANTH/HIST g435 Native American History 3 cr
- ANTH/POLS g478 Federal Indian Law 3 cr
- ANTH g452 American Indian Verbal Arts 3 cr
- ANTH g454 Survey of American Indian Languages 3 cr

Approved American Indian language course* 3 cr

Minimum of one 3-credit course

Contextual Electives:
Choose two courses from the following, with at least one course being upper-division:
- ANTH/ENGL g490 Topics in Folklore 3 cr
- ENGL 353 The West in American Literature 3 cr
- ENGL 356 Ethnicity in Literature 3 cr
- HIST 251 Latin America 3 cr
- HIST 307 Early North America 3 cr
- HIST g421 Federal Indian Relations 3 cr
- HIST g435 Colonial Frontiers in America and Africa 3 cr
- SOC 248 Social Diversity 3 cr
- SOC 366 The Community 3 cr

American Cultures Track 3
American Languages (32 cr) (includes a Minor in Linguistics)

Required Disciplinary Methods Course Choices:

- ANTH 238 Peoples and Cultures of the New World 3 cr
- ANTH g452 American Indian Verbal Arts 3 cr
- ANTH/HIST g478 Native American History* 3 cr
- ANTH/POLS g478 Federal Indian Law 3 cr
- ART g424 Twentieth Century Art 3 cr
- HIST g451 Latin America* 3 cr
- HIST g452 East Asian History* 3 cr
- HIST g454 Middle Eastern Civilization* 3 cr
- HIST g455 African History and Culture* 3 cr

American Indian Studies Track 2
Native American History 3 cr
- ANTH g466 Current Issues in Indian Country 3 cr
- ANTH g476 Seminar in American Indian Studies 3 cr

Plus 2 additional approved upper-division American Indian Studies courses 6 cr

Plus one of the following:
- ANTH/HIST g435 Native American History 3 cr
- ANTH/POLS g478 Federal Indian Law 3 cr
- ANTH g452 American Indian Verbal Arts 3 cr
- ANTH g454 Survey of American Indian Languages 3 cr

Approved American Indian language course* 3 cr

Minimum of one 3-credit course

American Cultures Track 3
American Languages (32 cr) (includes a Minor in Linguistics)

Required Disciplinary Methods Course Choices:

- ANTH 238 Peoples and Cultures of the New World 3 cr
- ANTH g452 American Indian Verbal Arts 3 cr
- ANTH/HIST g478 Native American History* 3 cr
- ANTH/POLS g478 Federal Indian Law 3 cr
- ART g424 Twentieth Century Art 3 cr
- HIST g451 Latin America* 3 cr
- HIST g452 East Asian History* 3 cr
- HIST g454 Middle Eastern Civilization* 3 cr
- HIST g455 African History and Culture* 3 cr

Contextual Electives:
Choose two courses from the following, with at least one course being upper-division:
- ANTH/ENGL g490 Topics in Folklore 3 cr
- ENGL 353 The West in American Literature 3 cr
- ENGL 356 Ethnicity in Literature 3 cr
- HIST 251 Latin America 3 cr
- HIST 307 Early North America 3 cr
- HIST g421 Federal Indian Relations 3 cr
- HIST g435 Colonial Frontiers in America and Africa 3 cr
- SOC 248 Social Diversity 3 cr
- SOC 366 The Community 3 cr

American Cultures Track 3
American Languages (32 cr) (includes a Minor in Linguistics)
American Cultures Track 4
The American West (24 cr)  
(includes a Minor in History)

The American Studies Program recommends that students taking this track consider taking Spanish or Shoshoni for Goal 10B.

Required Disciplinary Methods Course Choice:  
HIST 291 The Historian's Craft 3 cr

Plus three of the following:  
At least one must be HIST 101 or 102.

- HIST 101 Foundation of Western Civilization 3 cr
- HIST 102 Development of Western Civilization 3 cr
- HIST 251 Latin America 3 cr
- HIST 252 East Asian History 3 cr
- HIST 254 Middle Eastern Civilization 3 cr
- HIST 255 African History and Culture 3 cr

Plus two of the following:  
HIST 421 Federal Indian Relations 3 cr
HIST 423 Idaho History 3 cr
HIST 425 Women in the North American West 3 cr
HIST 427 North American West 3 cr
GEOL/HIST/POLS 471 Historical Geography of Idaho 3 cr

Contextual Electives  
Choose three courses from the following; at least two must be upper-division:

- ANTH 238 Peoples and Cultures of the New World* 3 cr
- ANTH 239 Latino Peoples and Cultures 3 cr
- ANTH/ENGL 453 American Indian Literature 3 cr
- ANTH/HIST 258 Native American History 3 cr
- ENGL 353 The West in American Literature 3 cr
- HIST 435 Colonial Frontiers in America and Africa 3 cr

*(only those offerings focusing on western peoples)

American Cultures Track 5
Gender in America (24 cr)  
(includes a Minor in Women's Studies)

Required Disciplinary Methods Course Choice:  
W S 201 Introduction to Women's Studies 3 cr

Required Course  
W S 401 Feminist Thought 3 cr

Plus at least two of the following:  
HIST 425 Women in the North American West 3 cr
SOC 321 Families in America Society 3 cr
W S 311 Americas Women's Movements 3 cr

Plus two courses, totaling at least 6 credits, from the following:  
ANTH 215 Anthropology of Gender 3 cr
COMM 240 Gender and Communication 3 cr
HE 445 Human Sexuality and Health Education 2 cr
HIST 437 Families in Former Times 3 cr
HIST 439 Women in History 3 cr
SOC 250 Women, Crime and Corrections 3 cr
W S 459 Internship 1-6 cr
W S 461 Independent Study 1-3 cr

Other courses approved semester-by-semester for the Minor in Women's Studies

Contextual Electives  
Choose three courses, two being upper-division, from the following:

- ENGL 328 Gender in Literature 3 cr
- HIST 307 Early North America 3 cr
- HIST 308 Industrialization and Reform in the United States 3 cr
- HIST 309 Modern United States 3 cr
- HIST 427 North American West 3 cr
- PSYC 250 Female and Male Roles 3 cr
- SOC 248 Social Diversity 3 cr

America in the World Track 1
America and World Affairs (24 cr)  
(includes a Minor in Political Science)

Required Disciplinary Methods Course Choice:  
POLS 202 Introduction to Politics 3 cr

Required Courses:  
POLS 221 Introduction to International Relations 3 cr
POLS 326 Recent American Foreign Policy 3 cr
POLS 331 Comparative Politics: Framework for Analysis 3 cr

Plus two of the following:  
POLS 425 Topics in International Politics 3 cr
POLS 433 Politics of Developing Nations 3 cr
POLS 434 Terrorism and Political Violence 3 cr
POLS 492 Seminar (when offered with title: Human Rights) 1-3 cr

Contextual Electives  
Choose three of the following, with no two in the same discipline:

- ANTH 239 Latino Peoples and Cultures 3 cr
- ANTH 423 Anthropology of International Health 3 cr

American in the World Track 2
America in World History (24 cr)  
(includes a Minor in History)

Required Disciplinary Methods Course Choice:  
HIST 291 The Historian's Craft 3 cr

Three of the following:  
At least one must be HIST 101 or 102.

- HIST 101 Foundation of Western Civilization 3 cr
- HIST 102 Development of Western Civilization 3 cr
- HIST 251 Latin America 3 cr
- HIST 252 East Asian History 3 cr
- HIST 254 Middle Eastern Civilization 3 cr
- HIST 255 African History and Culture 3 cr

Plus two of the following:  
HIST 307 Early North America 3 cr
HIST 308 Industrialization and Reform in the United States 3 cr
HIST 309 Modern United States 3 cr
HIST 427 North American West 3 cr
HIST 430 Global Environmental History 3 cr
HIST 435 Colonial Frontiers in America and Africa 3 cr
HIST 460 The Global Hispanic Monarchy 3 cr
HIST 467 The Global Islamic Monarchy 3 cr

Plus three of the following:  
No more than two may be from the same discipline.

- ANTH 423 Anthropology of International Health 3 cr
- ART 424 Twentieth Century Art 3 cr
- ECON 334 Comparative Economics 3 cr
- ECON 472 Comparative Economic Systems 3 cr
- POLS 326 Recent American Foreign Policy 3 cr
- POLS 331 Comparative Politics: Framework for Analysis 3 cr
- POLS 406 Intergovernmental Relations 3 cr
- POLS 433 Topics in International Politics 3 cr
- POLS 434 Politics of Developing Nations 3 cr
- POLS 434 Terrorism and Political Violence 3 cr
- POLS 492 Seminar (when offered with title: Human Rights) 1-3 cr

America in the World Track 3
Western Hemisphere Studies (24-26 cr)  
(includes a Minor in Latino/a Studies)

Required Disciplinary Methods Course Choice:  
ANTH 250 Introduction to Sociocultural Anthropology 3 cr
Required Courses:

ANTH 239  Latino Peoples and Cultures 3 cr
HIST 251  Latin America 3 cr
SPAN 201,202  Intermediate Spanish I and II 8 cr
OR
SPAN 301,302  Spanish Conversation and Composition I and II 6 cr
OR
Other 6-credit option with permission of Latino Studies Director

Plus two of the following:

ANTH g424  Ethnographic Field School 3 cr
ANTH g487  Ethnographic Field School, when offered in Mexico, Guatemala, and other Latin American countries 1-6 cr
ANTH g489  Special Topics in American Indian Studies, when offered with title: Latin American Indigenous Resource Management 3 cr
HIST g450  Golden Age Castile 3 cr
HIST g460  The Global Hispanic Monarchy 3 cr
SPAN 342  Survey of Latin American Literature and Civilization 3 cr
SPAN g462  Early Twentieth Century Spanish American Literature 3 cr

Contextual Electives

Choose three of the following courses, with no more than one from any one discipline.

ANTH/ENGL g453  American Indian Literature 3 cr
ANTH/POLS g478  Federal Indian Law 3 cr
ANTH/POLS g479  Tribal Governments 3 cr
ENGL 353  The West in American Literature 3 cr
ENGL 356  Ethnicity in Literature 3 cr
ENGL 367  Language in the United States 3 cr
ENGL g480  Varieties of American English 3 cr
HIST 307  Early North America 3 cr
HIST 308  Industrialization and Reform in the United States 3 cr
HIST 309  Modern United States 3 cr
HIST g421  Federal Indian Relations 3 cr
HIST g425  Women in the North American West 3 cr
HIST g427  North American West 3 cr
POLS 326  Recent American Foreign Policy 3 cr
POLS g401  Political Parties and Interest Groups 3 cr
POLS g403  The Presidency 3 cr
POLS g404  The Legislative Process 3 cr
POLS g411  American Political Theory 3 cr
POLS g442  Constitutional Law 3 cr

C. General Option (24 cr)

For their final 24 credits toward the Bachelor of Arts in American Studies, students may choose a general interdisciplinary approach by taking courses with strong American content from the following four groupings. It is strongly recommended that students choosing this option add course work to minor in one of these disciplines.

1. Two courses from Anthropology:

ANTH g414  New World Archaeology 3 cr
ANTH g452  American Indian Verbal Arts 3 cr
ANTH g454  Survey of American Indian Languages 3 cr
ANTH g466  Current Issues in Indian Country 3 cr
ANTH g472  Native American Arts 3 cr
ANTH g474  Special Topics in Indian Education 3 cr
ANTH g489  Special Topics in American Indian Studies 3 cr

2. Two Courses from English and Fine Arts:

ANTH/ENGL g453  American Indian Literature 3 cr
ART/M C 210  History and Appreciation of Photography 3 cr
ART g424  Twentieth Century Art 3 cr
COMM g442  American Rhetoric and Public Address 3 cr
ENGL 353  The West in American Literature 3 cr
ENGL 356  Ethnicity in Literature 3 cr
ENGL 367  Language in the United States 3 cr
ENGL g480  Varieties of American English 3 cr
Upper-division ENGL Period or Genre Literature courses chosen from semester offerings with American emphasis (subject to review of American Studies director)

MC 290  American Broadcasting 3 cr
MUSC 106  American Music 3 cr
THEA g420  American Theatre History 3 cr

3. Two courses from History:

HIST 307  Early North America 3 cr
HIST 308  Industrialization and Reform in the United States 3 cr
HIST 309  Modern United States 3 cr
HIST 337  Archaeology and History of Southern Idaho 3 cr
HIST g421  Federal Indian Relations 3 cr
HIST g425  Women in the North American West 3 cr
HIST g427  North American West 3 cr
HIST g435  The Global Hispanic Monarchy 3 cr
HIST g460  The Global Hispanic Monarchy 3 cr
HIST g466  Current Issues in Indian Country 3 cr
HIST g472  Native American Arts 3 cr
HIST g474  Special Topics in Indian Education 3 cr
HIST g489  Special Topics in American Indian Studies 3 cr

4. Two courses from Political Science

ANTH/POLS g478  Federal Indian Law 3 cr
ANTH/POLS g479  Tribal Governments 3 cr
POLS 308  State and Local Government 3 cr
POLS 326  Recent American Foreign Policy 3 cr
POLS g401  Political Parties and Interest Groups 3 cr
POLS g403  The Presidency 3 cr
POLS g404  The Legislative Process 3 cr
POLS g411  American Political Theory 3 cr
POLS g442  Constitutional Law 3 cr

B. Special Option (24 cr)

For their final 24 credits toward the Bachelor of Arts in American Studies, students may write a proposal for a thematic track of their own design, including at least 15 upper-division credits, in accordance with their academic interests and career goals. The proposal must include a rationale and a list of courses. These will be subject to review and approval of the American Studies Committee and Director of American Studies.

Minor in American Studies

The American Studies minor is designed to give the student majoring in another field an interdisciplinary knowledge of American culture. The minor requires 21 credits:

AMST 200  Introduction to American Studies 3 cr
ENGL 277 or 278  Survey of American Literature 1 or II 3 cr
HIST 118  U.S. History and Culture 3 cr
POLS 101  Introduction to American Government 3 cr
Three upper-division courses with strong American content, approved by the American Studies program director 9 cr

American Studies Courses

AMST 100  Introduction to American Language and Cultures 3 credits. Introduction to the forms, uses, and conventions of American English, with emphasis upon their cultural origins and functional varieties. Intended primarily for speakers of standard English as second language or second dialect. F, S

AMST 200  Introduction to American Studies 3 credits. This course will introduce essential themes in American studies, will outline a basic canon of interdisciplinary knowledge, and will discuss methods with which aspects of American cultural life may be analyzed. Fulfills Goal 9 of the General Education Requirements. R1

AMST 348  Independent Problems 3 credits. Consultation course for American Studies majors interested in problems in American Studies not adequately covered by regular offerings; for use in the American Studies Special Option. PREREQ: 58 credits and permission of the Director of American Studies. D

AMST 403  Senior Project 3 credits. Capstone interdisciplinary research project consolidating students’ grasp of American Studies by examining an issue through at least two academic disciplines. Directed by the program director and evaluated by the American Studies Committee. PREREQ: Senior standing. D

AMST 410  Internship 1-6 credits. On-the-job experience in business, industry, government, or non-profit organization settings; for use in the American Studies Special Option. May be repeated for up to 6 credits. PREREQ: 58 credits and permission of the Director of American Studies. D
Department of Anthropology

Chair and Professor: Lohse
Research Professor: Maschner
Professors: Holmer, Loether
Associate Professor: Cartwright
Assistant Professors: Glowacka, Peterson, Reedy-Maschner
Native Language Instructor: Gould
Assistant Lecturers: Dudgeon, Petersen, Thomas
Adjunct Faculty: Ballard, Meldrum, Wolfley
Research Affiliate Faculty: Dean, Hansen, Woods
Emeriti: Butler, Stocks

Mission
The mission of the Department of Anthropology is to research and teach about human behavior in a holistic and respectful manner. Anthropology consists of sub-fields that specialize in the human past, human biology and evolution, language, and biocultural behavior. Anthropology provides cross-cultural, international, and global perspectives on past and present human behavior. At Idaho State University, an important part of the anthropology mission is to apply anthropological concepts to the resolution of important social, cultural, and environmental problems of our times. The Department of Anthropology offers courses leading to the Bachelor of Arts degree and the Master of Arts or Master of Science degrees in Anthropology. For a full description of the M.A. and M.S. degrees, refer to the Graduate Catalog. The anthropology major provides training in all four sub-disciplines in the field, including archaeology, biological anthropology, anthropological linguistics, and sociocultural anthropology. In addition, the department offers minors in Anthropology, American Indian Studies, Latino Studies, and Linguistics.

Undergraduate Learning Objectives And Outcomes

Program Objectives – Students who have completed an undergraduate major in Anthropology at Idaho State University should be able to:

1. Understand basic methods, concepts, alternative theories and approaches, and modes of explanation appropriate to each of the subfields of the discipline.

2. Read and understand anthropological theory at an appropriate level.

Bachelor of Arts in Anthropology

Beyond the general university requirements, a student seeking Bachelor of Arts degree with a major in anthropology must complete at least 48 credits in the following curriculum, earning at least a C grade in all lower and upper division core courses. Students for both the major and the minor in anthropology must have a minimum of 1 year of foreign language at the college level to graduate.

Required Lower Division Courses:

- ANTH 107 The Nature of Language 3 cr
- ANTH 203 Introduction to Archaeology 3 cr
- ANTH 205 Introduction to Archaeology Laboratory 1 cr
- ANTH 230 Introduction to Biological Anthropology 3 cr
- ANTH 232 Introduction to Biological Anthropology Laboratory 1 cr
- ANTH 235 Introduction to Sociocultural Anthropology 3 cr
- ANTH 237 Peoples and Cultures of the Old World 3 cr OR
- ANTH 238 Peoples and Cultures of the New World 3 cr OR
- ANTH 239 Latino Peoples and Cultures 3 cr

TOTAL: 17 cr

Required Upper Division Courses:

- ANTH 203 Introduction to Archaeology 3 cr
- ANTH 205 Introduction to Archaeology Laboratory 1 cr
- ANTH 230 Introduction to Biological Anthropology 3 cr
- ANTH 232 Introduction to Biological Anthropology Laboratory 1 cr
- ANTH 235 Introduction to Sociocultural Anthropology 3 cr
- ANTH 237 Peoples and Cultures of the Old World 3 cr OR
- ANTH 238 Peoples and Cultures of the New World 3 cr OR
- ANTH 239 Latino Peoples and Cultures 3 cr
- MATH 253 Introduction to Statistics 3 cr

TOTAL: 15 cr

Minor in American Indian Studies

Required Courses

- ANTH/HIST 258 Native American History 3 cr
- ANTH 100 General Anthropology 3 cr
- ANTH 238 Peoples and Cultures of the New World 3 cr
- ANTH 421 Federal Indian Relations 3 cr
- ANTH 440 Current Issues in Indian Country 3 cr
- ANTH 476 Seminar in American Indian Studies 3 cr

TOTAL: 12 cr

Plus ONE of the following courses:

- ANTH/HIST 258 Native American History 3 cr
- ANTH 452 American Indian Verbal Arts 3 cr
- ANTH 454 Survey of American Indian Languages 3 cr
- IN ADDITION: Approved American Indian Language course 3 cr

TOTAL: 21 cr

Minor in Latino Studies

Required Courses

- ANTH 250 Introduction to Sociocultural Anthropology 3 cr
- ANTH 239 Latino Peoples and Cultures 3 cr
- MATH 253 Introduction to Statistics 3 cr

TOTAL: 9 cr
ANTH 239 Peoples of Mexico
ANTH 239 Culture South of the Border
HIST 251 Latin America

One year intermediate Spanish:
SPAN 201-202 Intermediate Spanish
SPAN 301-302 Spanish Conversation and Composition

Other with permission of Latino Studies Director 6 cr

Plus 6 credits from the following for a total of at least 21 credits

ANTH 108 Spanish for Health Care Providers 1 cr
ANTH 239 Contemporary Latinos in the U.S. 3 cr
ANTH 239 Peoples of Mexico Through Film 3 cr
ANTH 239 Culture South of the Border 3 cr
ANTH 239 Ancient Meso America 3 cr
ANTH 424 Ethnomedicine of Latin America 3 cr
ANTH 447 Ethnographic Fieldschool* 3-6 cr
ANTH 449 Latin American Indigenous Resource management 3 cr
HIST 450 Golden Age Castile 3 cr
HIST 460 The Global Hispanic Monarchy 3 cr
SPAN 342 Survey of Latin American Literature and Civilization 3 cr
SPAN 462 Early Twentieth Century Spanish American Literature 3 cr

*When offered in Mexico, Guatemala and other Latin American countries

Minor in Linguistics

Required Courses
ANTH/LANG/ENGL 107 Nature of Language 3 cr
ENGL 281 Introduction to Language Studies 3 cr
ANTH/LANG 455 Introduction to Phonetics 3 cr
ENGL 485 Linguistic Analysis 3 cr
PHIL 410 Philosophy of Language 1 cr

One year of a foreign language* 8 cr

Plus 9 credits from the following, for a total of 26 credits:

ANTH/LANG 367 Language in the United States 3 cr
ANTH 450 Introduction to Socio-linguistics 3 cr
ANTH 452 Survey of American Indian Languages 3 cr

ANTH/LANG 455 Introduction to Phonetics 3 cr
ANTH/LANG 456 Introduction to Phonology and Morphology 3 cr
ANTH 458 Historical Linguistics 3 cr
ANTH 459 Linguistic Field Methods 3 cr
ANTH/LANG 457 Survey of Indo-European Languages 3 cr

ANTH/ENGL/LANG 484 Topics in Linguistics 3 cr
ENGL 280 Grammar and Usage 3 cr
ENGL 481 Advanced Grammar 3 cr
ENGL 483 Varieties of American English 3 cr
ENGL 485 Linguistic Analysis 3 cr
ENGL 486 Old English 3 cr
ENGL 487 History of the English Language 3 cr
LANG 488 Comparative Philology 3 cr
PHIL 201 Introduction to Logic 3 cr
PHIL 410 Philosophy of Language 3 cr

*in addition to the 8 credit hours of foreign language required under General Education Goal 10B.

Anthropology

Courses

Only Juniors and Seniors may register for 400-level courses without permission of the instructor.

ANTH 100 General Anthropology 3 credits.
Introduction to fields of anthropology: physical anthropology, archaeology, linguistics, and ethnology, and to biological and cultural development of humans. Satisfies Goal 12 of the General Education Requirements. F, S, Su

ANTH 101 Elementary Shoshoni I 4 credits.
Basic communication skills and grammar of Shoshoni and introduction to Shoshoni culture. Cross-listed as SHOS 101. Satisfies Goal 10B of the General Education Requirements. F

ANTH 102 Elementary Shoshoni II 4 credits.
Furthering basic communication skills and grammar of Shoshoni and introduction to Shoshoni culture. Cross-listed as SHOS 102. Satisfies Goal 10B of the General Education Requirements. S

ANTH 107 Nature of Language 3 credits.
General survey of structure and use of language. Topics include language origins, descriptive and historical linguistics, language and culture, and history of the English language. Cross-listed as ENGL 107 and LANG 107. S

ANTH 201 Intermediate Shoshoni I 4 credits.
Intermediate communication skills and grammar of Shoshoni. Deepens understanding of Shoshoni culture and builds on skills and knowledge gained in Elementary Shoshoni. Cross-listed as SHOS 201. F

ANTH 202 Intermediate Shoshoni II 4 credits.
Intermediate communication skills and grammar of Shoshoni. Deepens understanding of Shoshoni culture and builds on skills and knowledge gained in Elementary Shoshoni. Cross-listed as SHOS 202. S

ANTH 203 Introduction to Archaeology 3 credits.
Introduction to basic methods, data and concepts of archaeology. S

ANTH 205 Introduction to Archaeology Laboratory 1 credit.
Exercises and experiments introducing the methods and techniques of archaeology. COREQ: ANTH 203. S

ANTH 206 Indigenous Traditional Parenting 3 credits.
Using the traditional knowledge of a Shoshoni language speaker, course is based in language and philosophy. Includes concepts of personhood, relations between parent and child, and the philosophy and use of childcare artifacts such as cradleboards. F

ANTH 210 Conversational Shoshoni 3 credits.
Refresher in Shoshoni words and phrases for those with previous exposure to the language and culture. S

ANTH 212 Introduction to Folklore/oral Tradition 3 credits.
Folklore genres and folk groups, including introductory experience in folklore fieldwork focused on study of a genre or group of genres within verbal, customary, or material culture. Cross-listed as ENGL 212. R1

ANTH 215 Anthropology of Gender 3 credits.
Human behavior, social and biological differences in the context of various cultures and stratification systems. D

ANTH 230 Introduction to Biological Anthropology 3 credits.
Introduction to human biology, including human origins, evolution, human adaptation, and diversity. F

ANTH 232 Introduction to Biological Anthropology Laboratory 1 credit.
Introduction to methodologies and techniques in biological anthropology. COREQ: ANTH 230. F

ANTH 237 Peoples and Cultures of the Old World 3 credits.
Examination of human social and cultural diversity from different parts of the Old World. Topics include social structure, ecology, religion, politics, and language. May be repeated for up to 6 credits. Satisfies Goal 10A of the General Education Requirements. D

ANTH 238 Peoples and Cultures of the New World 3 credits.
Examination of human social and cultural diversity from different parts of the New World. Topics include social structure, ecology, religion, politics, and language. May be repeated for up to 6 credits. Satisfies Goal 10A of the General Education Requirements. D, S

ANTH 239 Latino Peoples and Cultures 3 credits.
Examination of the human, social and cultural diversity among Latino people in different regions of the world. Topics include ethnicity, health and healing, social structure, ecology, religion, politics, prehistory and language. May be repeated for up to 6 credits. Satisfies Goal 10A of the General Education Requirements. F, S

ANTH 250 Introduction to Sociocultural Anthropology 3 credits.
Explores cultural and biocultural behavior including cross-cultural examination of enculturation, culture and personality, social organization, kinship and marriage, economics, politics, and ideology. Focus on cultural dynamics and contemporary issues in cultural anthropology. F

ANTH 258 Native American History 3 credits.
Assesses diversity of North American natives, their life and thought; European impact; federal policy; and natives’ response to continual cultural and physical assault. Cross-listed as HIST 258. D

ANTH 301 Introduction to Shoshoni Folklore 3 credits.
Survey of Shoshoni beliefs, customs, music, dance and various genres of oral tradition including tales, legends and myths. Includes the material manifestations of Shoshoni culture, including arts and crafts, costuming and folk technology. R1

ANTH 367 Language in the United States 3 credits.
A survey of the languages of the United States (American Indian languages, immigrant languages, and ethnic and regional varieties of English) along with the social and political
Arts and

ANTH g401 History and Theory of Sociocultural Anthropology 3 credits. Survey of the development of anthropology, various schools of thought, important personalities, and concepts that have contributed to anthropology over time. PREQ: ANTH 203 or permission of instructor. S

ANTH g402 Ecological Anthropology 3 credits. Interaction of human biocultural systems and environment. Relations of natural resources, technological inventories, social organization, cultural categories. Native resource management practices. PREQ: ANTH 250, ANTH 230, BIOL 100 or permission of instructor. D

ANTH g403 Method and Theory in Archaeology 3 credits. History of the development of current methods and theory in archaeology and contemporary applications. PREQ: ANTH 203 or permission of instructor. F

ANTH g404 Material Culture Analysis 3 credits. Methods and analyses used in archaeology and anthropology to understand the relationship between objects and culture. PREQ: ANTH 203 or permission of instructor. COREQ: ANTH g405. D

ANTH g405 Analytical Techniques Laboratory 1 credit. Analytical techniques laboratory to accompany ANTH g404. Students will complete an assigned project in material culture analysis. PREQ: ANTH 203 or permission of instructor. COREQ: ANTH g404. D

ANTH g406 American Indian Health Issues 3 credits. An overview of health concerns, both current and past, of American Indian people, and the biological and sociocultural factors which influence health status. PREQ: Permission of instructor. AF

ANTH g407 Anthropology of Global Health 3 credits. How cultures define health and illness, and how these definitions ultimately influence the health status of individuals. PREQ: Prior Anthropology course or permission of instructor. F

ANTH g408 Special Topics in Medical Anthropology 3 credits. Rotating topics, including international health issues, ethno-psychiatry, ethnomedicine and non-western healing systems. May be repeated for up to 6 credits. PREQ: Permission of instructor. S

ANTH g409 Clinical Medical Anthropology 3 credits. Explores the culture of biomedicine and the beliefs of patients. Topics include doctor/patient communication, cultural competency, cultural construction of risk, critiques of high-tech medicine and the international pharmaceutical industry. S

ANTH g410 Introduction to Cultural Resources Management 3 credits. Introduction to CRM reviewing historic preservation and federal legislation as they pertain to archaeology; practical experience in site survey and recording. PREQ: ANTH 203 or permission of instructor. D, W

ANTH g413 Old World Archaeology 3 credits. Prehistory of the Old World. Precise area/evolutionary emphasis. PREREQ: ANTH 203 or permission of instructor. D

ANTH g414 New World Archaeology 3 credits. Examination of the prehistory of the Americas with emphasis on the North American Continent. PREREQ: ANTH 203 or permission of instructor. D

ANTH g423 Anthropology of International Health 3 credits. Exploration of critical health issues that exist in the world today from an anthropological perspective. Diseases of poverty/development, emerging infectious diseases, medical tourism and the political arena of international health programs. S

ANTH g424 Ethnomedicine of Latin America 3 credits. Examines traditional medical systems and folk illnesses in order to better understand the underlying logics of healing that exist in Latino populations worldwide. Shamanism, witchcraft, spiritual healing and biomedicine will be addressed. F

ANTH g430 Human Origins and Diversity 3 credits. Examines human origins, adaptations and biological diversity within the context of evolutionary processes. PREREQ: ANTH 230 or permission of instructor. S

ANTH g432 Human Osteology 3 credits. Provides a working knowledge of skeletal anatomy, primarily focusing on identification of individual bones. Other topics include: osteogenesis, pathologies, and applications of knowledge and techniques. PREREQ: ANTH 230 and 232 or permission of instructor. D

ANTH g433 Survey of Living Primates 3 credits. Anatomy, behavioral ecology, and adaptive diversity of extant non-human primates, including a history of primate/human interactions. PREREQ: ANTH 230 and ANTH 232, or BIOL 101 and BIOL 102; or permission of instructor. AF

ANTH g435 Survey of Fossil Primates 3 credits. Evolution and adaptations of primates from the earliest primates to the enigmatic giants of the Pleistocene. PREREQ: ANTH 230, ANTH 232; or BIOL 101, and BIOL 102; or permission of instructor. AF

ANTH g437 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed as BIOL g439, GEOL g439. PREQ: Permission of instructor. AS

ANTH g449 Methods and Techniques of Ethnographic Field Research 3 credits. Participant observation, field notes, data types, analytical procedures, interviewing skills, oral history, report writing. PREREQ: ANTH 250 or permission of instructor. AF

ANTH g450 Introduction to Socio-linguistics 3 credits. Study of the patterned covariation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Cross-listed as ENGL g488. PREREQ: ANTH 107, ENGL 280 or ENGL 281, or permission of instructor. F

ANTH g452 American Indian Oral Arts 3 credits. Analysis of current theories in the study of oral literature and ethnic poiesis, focusing on the oral traditions of American Indians. PREREQ: ANTH 107 or permission of instructor. AF

ANTH g453 American Indian Language Literature 3 credits. Consider literary works by and about North American native people, especially in relationship to history, genre, and culture, including oral traditions. Cross-listed as ENGL g453. PREREQ: Goal 1. R2

ANTH g454 Survey of American Indian Languages 3 credits. History of scholarship, analysis and classification of American Indian languages with emphasis on the languages of particular phylogems or geographical area. PREREQ: ANTH 107 or permission of instructor. AF

ANTH g455 Introduction to Phonetics 3 credits. Introduction to descriptive linguistics focusing on the phonetics and phonetic phenomena of English and the other languages of the world. Extensive practice in perception and production of such phenomena. Cross-listed as LANG g455. PREREQ: ANTH/ENGL/LANG 107. D

ANTH g456 Introduction to Phonology and Morphology 3 credits. Phonological theory and analysis; current theories in morphology. Phonological rules, representations, underlying forms, derivations, justifications of phonological analyses; morphological structure, derivational and inflectional morphology; relation of morphology to phonology. Cross-listed as LANG g456. PREREQ: ANTH/ENGL/LANG 107. D

ANTH g457 Survey of Indo-European Languages 3 credits. Survey of Indo-European languages from ancient to modern times, their relationships to one another, and chief characteristics. Cross-listed as LANG 457. PREREQ: completion of Goal 10B. D

ANTH g458 Historical Linguistics 3 credits. The methods and theories of the historical study of language. The comparative method, internal reconstruction, linguistic change over time, genetic typology of languages, and applications to prehistory. PREREQ: ANTH 107. AS

ANTH g459 Linguistic Field Methods 3 credits. Practical experience in linguistic analysis of a language using data elicited from a native speaker. May be repeated for up to 6 credits. PREREQ: ANTH 456 or permission of instructor. D

ANTH g463 Applied Statistics in Anthropology 3 credits. Practical applications of commonly used statistical analyses in anthropology. PREREQ: MATH 253 or permission of instructor. AF

ANTH g464 Advanced Analytical Methods in Anthropology 3 credits. Examination and practical experience in applying advanced quantitative and qualitative methods and analyses in anthropological research. PREREQ: ANTH g463. AS

ANTH g466 Current Issues in Indian Country 3 credits. Survey of significant issues affecting Indian communities including religious freedom, economic development, judicial systems, treaty rights and environmental regulation. D
ANTH g472 Native American Arts 3 credits. Survey of Native American arts and industries, including prehistoric, ethnographic, and contemporary venues. PREREQ: ANTH 238 and permission of instructor. D

ANTH g474 Special Topics in Indian Education 3 credits. Rotating review of topics dealing with issues in Indian education. Consult current schedule of classes for exact course being taught. D

ANTH g476 Seminar in American Indian Studies 3 credits. Advanced-level course with critical examination, readings, discussion and presentation of selected issues facing American Indians. PREREQ: 9 credits of American Indian Studies or permission of instructor. D

ANTH g478 Federal Indian Law 3 credits. Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional conflicts over land and resources; and economic development. Cross-listed as POLS g478. D

ANTH g479 Tribal Governments 3 credits. Complex legal position of Indian tribes as self-governing entities; principles of inherent powers; governmental organization, lawmaking, justice, relation to state and federal government. Cross-listed as POLS g479. D

ANTH g480 Varieties of American English 3 credits. In-depth study of various dialects of American English, including historical evolution of different dialects, effects of migration on dialects, and influences of non-English immigrant languages on development of American English. Field-work studying the Snake River dialects of Idaho. Cross-listed as ENGL g480. PREREQ: ANTH/LANG/ENGL 107. D

ANTH g481 Specializations in Anthropology 3 credits. Rotating specialized topics such as applied anthropology, proxemics, ethnology, religion, international development. See class schedule for titles. May be repeated for up to 6 credits. PREREQ: Upper Division status or permission of instructor. D

ANTH g482 Independent Problems in Anthropology 1-3 credits. Investigation of an anthropological problem chosen by the student and approved by the staff. May be repeated for up to 6 credits. PREREQ: Permission of instructor. D

ANTH g483 Field Research 3 credits. Practical experience in field research. May be repeated for up to 6 credits. PREREQ: Permission of instructor. D

ANTH g484 Special Topics in Linguistics 3 credits. Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught. May be repeated with different content. Cross-listed as ENGL g484 and LANG g484. PREREQ: ANTH/ENGL/LANG 107 or ENGL 280 or ENGL 281. D

ANTH g485 Anthropology of War and Violence 3 credits. Survey of war and violence from its evolutionary foundations through its modern representations. History and ethnography of violent conflict around the world. PREREQ: Any upper division social science course. AS

ANTH 486 Archaeology Field School 1-6 credits. Practical field and laboratory training in archaeological excavation techniques and methods of analysis. May be repeated for up to 6 credits. PREREQ: ANTH 203 or permission of instructor. Su

ANTH g487 Ethnographic Field School 1-6 credits. Supervised fieldwork in cultural anthropology in a given ethnographic setting where students and faculty work on a specific set of field problems. May be repeated for up to 6 credits. PREREQ: ANTH 250 and ANTH g449 or permission of instructor. D

ANTH g489 Special Topics in American Indian Studies 3 credits. Rotating review of topics dealing with issues in American Indian studies. Consult current schedule of classes for exact course being taught. May be repeated with different content. D

ANTH g490 Topics in Folklore 3 credits. Focused study of an issue in folkloristics or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. May be repeated for up to 9 credits with different topics. Cross-listed as ENGL g490. RI

ANTH g491 Archaeology Laboratory Analysis 3 credits. Directed analysis of archaeological remains and report writing. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, W

ANTH 492 Senior Seminar 3 credits. Individual critiques of visual representation. Students investigate an area of interest in anthropology; psychological, medical, visual, educational, biodiversity conservation. See current class schedule for course titles. May be repeated for up to 6 credits. D

ANTH g493 Interdisciplinary Anthropology 3 credits. Rotating review of cross-disciplinary anthropology; psychological, medical, visual, educational, biodiversity conservation. See current class schedule for course titles. May be repeated for up to 6 credits. D

ANTH g494 Visual Anthropology 3 credits. Documentary and ethnographic filmmaking techniques including story structure, interviewing, audio and lighting, camera handling, composition, Pov, and editing. Anthropological critiques of visual representation. Students create their own short film for a final project. May be repeated for up to 6 credits. PREREQ: ANTH 100 or ANTH 250 or permission of instructor. F

ANTH g495 Department Colloquium 1 credit. Presentations of current research issues in Anthropology by faculty and students. S

ANTH g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Department of Art and Pre-Architecture

Chair and Professor: Kovacs

Professors: Evans, Martin, Warnock

Assistant Professor: Leeuwrik, Zielinski

Assistant Lecturer: Popa

Adjunct Faculty: Babcock, Feige, Pirro, Rudd

Affiliate Faculty: Hanson

Emeriti: Brown, Dial, Obermayr

The primary aim of the art program is to develop the aesthetic awareness and technical proficiency of the individual student in the visual arts. The student who declares an art major can earn either the Bachelor of Arts degree or the Bachelor of Fine Arts degree. The B.F.A. is strongly recommended for those students who plan to pursue graduate work in the visual arts or who intend to enter into studio artist production. The studio areas offered for concentration are drawing, painting, printmaking, sculpture, weaving, ceramics and jewelry/metal arts. Additionally, papermaking and special topics courses are available. The art major may concentrate in one studio area or work in several areas. In addition, the program offers a variety of studio and art history courses for university students majoring in other fields.

Students who are working on the B.F.A. have the option of fulfilling Goal 10B as is or substituting with an equivalent amount of hours in humanities classes. Please check with advisor for an approved list of Humanities courses for substitution.

For art majors, Goal 6 of the General Education Requirements must be met with courses outside the Department of Art and Pre-Architecture.

Admission

Departmental requirements are the same for both degrees. Students who wish to declare a major in art must meet the following criteria:

1. Overall grade point average of 2.5.

2. Achieve a grade point average of 3.0 or higher from completion of the foundation courses (ART 100, 103, 104, 105, and 106). Students who do not have a 3.0 grade point average in these foundation courses may, with the approval of their advisor, appeal for admission as an art major by submitting a portfolio for faculty review. The student should consult his/her advisor for declaration of major forms.
The Department of Art and Pre-Architecture will accept no D or F grades for major and minor course work. Courses with D or F grades, including art electives, must be repeated and a higher grade earned before a student can qualify for graduation with a degree in Art. Individual Project courses (ART 385) must be taken in the same medium when being repeated to raise grade.

**Prerequisites**

Students who major in art must complete the foundation courses (100, 103, 104, 105, 106) in sequence before enrolling in any 200 level or above studio courses. Creative Process 103 must be taken before enrolling in Creative Process 104. Drawing 105 must be taken before enrolling in 106. The student should take these five courses during the freshman year. After completion and upon achieving a 3.0 in these foundation classes, the student may formally declare as an Art major. For Art majors, ART 100 will be required prior to enrollment in 101 and 102. Non-majors may take studio courses/art history without the foundation prerequisites. Note that ART 310 Professional Practice and Display requires at least 60 completed credits and is for declared art majors.

**Senior Presentation**

During the last semester of the senior year the student must enroll in Senior Presentation, ART 494. As a requirement for graduation as an art major, the student must present an exhibit of work, participate in an oral review with faculty members, and write a statement that addresses his/her development and growth as an artist/scholar. Elementary and secondary art education majors should refer to the Teacher Education Section of this catalog. Please note that ART 334, Secondary Art Methods, is offered only during the spring semester. Summer school graduates must exhibit during the spring semester preceding graduation. At least 36 of the credits earned toward graduation must be in upper division courses (300 or 400 numbers) and sixteen of these must be in Art.

**Bachelor of Arts in Art**

The Bachelor of Arts degree in art combines a liberal arts education with a strong concentration in studio areas and art history.

### Bachelor of Fine Arts in Art

Students planning professional art careers in educational or studio fields or who are planning to do graduate work in art are encouraged to earn the B.F.A. degree.

#### Required Courses:

- **ART 100** Survey of Art 3 cr
- **ART 101** History of Western Art I 3 cr
- **ART 102** History of Western Art II 3 cr
- **ART 103** Creative Process 3 cr
- **ART 104** Creative Process 3 cr
- **ART 105** Drawing I 3 cr
- **ART 106** Drawing II 3 cr
- **ART 201** Intermediate Drawing 3 cr
- **ART 231** Introduction to Printmaking 3 cr
- **ART 241** Introduction to Painting and Composition 3 cr
- **ART 251** Introduction to Metals/Jewelry 3 cr
- **ART 271** Introduction to Ceramics 3 cr
- **ART 281** Introduction to Sculpture 3 cr
- **ART 301** Anatomy Drawing and Painting 3 cr
- **ART 310** Professional Practice and Display 3 cr
- **ART 494** Senior Presentation 1 cr

**IN ADDITION:** Art electives 18 cr

**TOTAL:** 49 cr

### Minor in Art History

The minor in art history allows the university student to develop their interests in the art of various cultures and periods.

#### Required Courses:

- **ART 100** Survey of Art 3 cr
- **ART 101** History of Western Art I 3 cr
- **ART 102** History of Western Art II 3 cr
- **ART 385** Individual Projects (Art History) 3 cr
- **ART 422** World Arts 3 cr

**IN ADDITION:** Select 2 of the following:

- **ART 423** Nineteenth Century Art 3 cr
- **ART 424** Twentieth Century Art 3 cr
- **ART 425** Contemporary Art Forms 3 cr
- **ART 426** Seminar in Art History 3 cr

**TOTAL:** 21 cr

### Associate of Arts in Art

Students seeking an Associate of Arts degree in Art must complete the following:

All of the General Education Goals (10A and 10B) 37.5 credits

- **ART 100** Survey of Art 3 cr
- **ART 101** History of Western Art I 3 cr
- **ART 102** History of Western Art II 3 cr
- **ART 103** Creative Process 3 cr
- **ART 104** Creative Process 3 cr
- **ART 105** Drawing I 3 cr
- **ART 106** Drawing II 3 cr

**IN ADDITION:** Upper-division electives and additional classes to total 64 credits:

- **ART 271** Ceramics 3 cr
- **ART 281** Sculpture 3 cr
- **ART 291** History of American Art 3 cr
- **ART 301** Anatomy Drawing and Painting 3 cr
- **ART 310** Professional Practice and Display 3 cr
- **ART 494** Senior Presentation 1 cr

**TOTAL:** 21 cr

*The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.

### Art Courses

- **ART 100 Survey of Art 3 credits.** A study of the elements of visual art, various media and techniques of artistic expression, with a brief historical overview. When appropriate, gallery tours and presentations by visiting artists will be included. Satisfies Goal 6 of the General Education Requirements. F, S, Su

- **ART 101 History of Western Art 3 credits.** Study of the visual arts from prehistoric to Gothic times and the cultural influences on art forms. Satisfies Goal 6 of the General Education Requirements. F

- **ART 102 History of Western Art 3 credits.** Study of the visual arts from the Renaissance to the modern era with comparisons of major movements. Satisfies Goal 6 of the General Education Requirements. S
ART 103 Creative Process 3 credits. A foundation course that deals with the “vocabulary” of design and the basic elements of art through a series of exercises in both black and white and color and in two and three dimensions. F, S

ART 104 Creative Process 3 credits. Use of design vocabulary in the solution of specific 2 and 3 dimensional visual problems. Emphasis shifts to the thought process—the formulation of ideas and solutions and the implementation of concept and craft. PREREQ: ART 103. F, S

ART 105 Drawing I 3 credits. Introduction to the fundamental skills of drawing, including composition, proportion, light, gesture, and black and white media. Students will begin to explore technical and conceptual approaches to drawing. May cover still life, landscape, figure drawing. Investigate artists and stylistic periods. F, S

ART 106 Drawing II 3 credits. Continuation of ART 105; refine skills and further explore technical and conceptual approaches to drawing. Introduction to color. Continue investigating historical and contemporary artists. PREREQ: ART 105. F, S

ART 201 Intermediate Drawing 3 credits. Course designed to expand the student’s creative range in subject matter and technique. Includes studies in the historical importance of the drawing in art. PREREQ: ART 105 and ART 106. S

ART 202 Intermediate Drawing 3 credits. Further exploration in drawing technique and theme. Also includes thorough experience with varieties of drawing media and papers, both traditional and contemporary. PREREQ: ART 201. S

ART 231 Introduction to Printmaking 3 credits. Introduction to one of several major print media—etching, lithography, relief, collograph, monotype. Emphasis is on the learning of various technical processes and their incorporation in the development of the student’s imagery. F, S

ART 241 Introduction to Painting and Composition 3 credits. Introduction to methods, materials, and basic concepts of painting. F, S

ART 243 Watercolor 3 credits. Beginning watercolor techniques, color theory, traditional and contemporary subject matter. One field trip required. D

ART 251 Introduction to Metals/Jewelry 3 credits. Introduction to jewelry and metal-smithing in various metals with emphasis on design, basic technical processes and craftsmanship. F, S

ART 261 Introduction to Weaving 3 credits. Procedures and processes involved in dressing the loom. Production of various weaves on the loom and experimentation with woven and constructed textiles. F, S

ART 263 Weaving II 3 credits. Further experiments in opaque and transparent media, variety of supports and styles. One field trip required. PREREQ: ART 243. D

ART 271 Introduction to Ceramics 3 credits. Techniques of forming ceramic art by coiling, slab construction, and throwing on the potter’s wheel, with emphasis on form, glazing, and decorative techniques. F, S, Su

ART 281 Introduction to Sculpture 3 credits. Introduction to various methods and materials of sculpture construction, including additive, subtractive, manipulative, and substitution techniques. F, S

ART 301 Anatomy Drawing and Painting 3 credits. Course designed for intense explorations of human form using both drawing and painting media. Some studies in the historical position of the figure in art of the present and the past. PREREQ: ART 105 and ART 106 or permission of instructor. F

ART 302 Advanced Anatomy Painting and Sculpture 3 credits. Further work with human form using two and three dimensional format. PREREQ: ART 301 or permission of instructor. F

ART 310 Professional Practice and Display 3 credits. Course will prepare the student to present work professionally, and to explore employment possibilities, grant writing, gallery maintenance, business practices, and survival skills. PREREQ: 60 credits and declared Art major. F

ART 311 Intermediate Printmaking 3 credits. Individual work within the media of one’s experience or introduction to a new print medium. Students will be exposed to new techniques and processes including those used in color printing. PREREQ: ART 231. F, S

ART 312 Intermediate Printmaking 3 credits. Individual work within the media of one’s experience or introduction to a new print medium. Students will be exposed to new techniques and processes including those used in color printing. PREREQ: ART 311. S, F

ART 334 Secondary School Art Methods 3 credits. Practical techniques and philosophical approaches to teaching art in the middle and high schools. PREREQ: 12 hours of studio classes. S

ART 343 Intermediate Watercolor 3 credits. Further experiments in opaque and transparent media, variety of supports and styles. One field trip required. PREREQ: ART 243. D

ART 351 Intermediate Metals 3 credits. Experimental work. Individual projects may include stone settings, enameling, angle raising, procedure for hinges, anodizing, répouseé and riveting. PREREQ: ART 251. F, S

ART 352 Intermediate Metals 3 credits. Experimental work. Individual projects may include stone settings, enameling, angle raising, procedure for hinges, anodizing, répouseé and riveting. PREREQ: ART 351. F, S

ART 361 Intermediate Weaving 3 credits each. Experimental work on and off loom, fiber structures and dyeing. PREREQ: ART 261. F, S

ART 362 Intermediate Weaving 3 credits each. Experimental work on and off loom, fiber structures and dyeing. PREREQ: ART 361. F, S

ART 371 Intermediate Ceramics 3 credits. Individual work. Special projects may include glaze and clay technology, history of ceramic art, work on the potter’s wheel and forming techniques. PREREQ: ART 271. F, S, Su

ART 372 Intermediate Ceramics 3 credits. Individual work. Special projects may include glaze and clay technology, history of ceramic art, work on the potter’s wheel and forming techniques. PREREQ: ART 371. F, S, Su

ART 381 Intermediate Sculpture 3 credits. Further explorations in imagery and development of skills in sculptural media. PREREQ: ART 281. F, S

ART 382 Intermediate Sculpture 3 credits. Further explorations in imagery and development of skills in sculptural media. PREREQ: ART 381. F, S

ART 385 Individual Projects 1-3 credits. Supervised research, experimentation, or creative work in an art history subject or studio area not listed in the regular offerings. Course may be repeated for up to 6 credits. PREREQ: Permission of instructor or Department Chair. F, S

ART 391 Papermaking 3 credits. History, fundamental techniques of Western/Eastern papermaking based on traditional methods. Traditional sheet forming, paper chemistry, pulp preparation, types of nonadhesive book structures, history and terminology of book binding PREREQ: 12 hours studio or permission of instructor. F

ART 401 Advanced Study in Drawing 3 credits. Individualized course-of-study designed to address drawing-specific concerns for the advanced art student. Involves exploration of technical, material, and/or conceptual possibilities inherent to drawing as an independent medium. PREREQ: ART 202. F, S

ART 418 Art of the Book 3 credits. Expands the traditional idea of book form with innovative structures and concepts. Textual and nontextual formats and methods for generating ideas for works are addressed. Traditional techniques for bookbinding will also be included. Cross-listed as M C 418. D

ART 422 World Arts 3 credits. Study of the art produced in cultures outside the Western tradition. Topics include pre-Hispanic art of Mexico, Central and South American art, East Indian art, and the art of Africa south of the Sahara. AS
ART g423 Nineteenth Century Art 3 credits. History of the visual arts from the beginning of the 19th century up to the advent of Expressionism. F

ART g424 Twentieth Century Art 3 credits. History of the visual arts from Expressionism to the present. S

ART g425 Contemporary Art Forms 3 credits. The study of the major developments of art as an expression of contemporary society. Emphasis on art since 1950. PREREQ: ART g423 or ART g424 or permission of instructor. D

ART g426 Seminar in Art History 3 credits. Extensive reading and discussion in art history and aesthetics under the supervision of the instructor. May be repeated for up to 6 credits. D

ART g431 Advanced Printmaking 3 credits. Advanced work in printmaking. Choice of medium. PREREQ: ART 332. F, S

ART g432 Advanced Printmaking 3 credits. Advanced work in printmaking. Choice of medium. PREREQ: ART 431. F, S

ART g441 Advanced Painting and Composition I 3 credits. Special projects, individual experimentation and independent thinking. Continued emphasis placed on conceptual and technical nature of work. High level of work ethic and craftsmanship expected. Frequent readings assigned. Continue artist research. PREREQ: ART 342. F, S

ART g442 Advanced Painting and Composition II 3 credits. Special projects, individual experimentation, and independent thinking. Develop a thorough understanding of conceptual and technical nature of work. High level of work ethic and craftsmanship expected. Frequent readings assigned. Continue artist research. PREREQ: ART 441. F, S

ART g451 Advanced Metals 3 credits. Experimental work. Individual projects may include plastics, electroplating, electroforming, advanced fabrication or raising techniques. PREREQ: ART 352. F, S

ART g452 Advanced Metals 3 credits. Experimental work. Individual projects may include plastics, electroplating, electroforming, advanced fabrication or raising techniques. PREREQ: ART 451. F, S

ART g461 Advanced Weaving 3 credits. Experimental work. Individual projects may include on-loom and off-loom techniques, dyeing processes, basketry, or multilayered fabrics. PREREQ: ART 362. F, S

ART g462 Advanced Weaving 3 credits. Experimental work. Individual projects may include on-loom and off-loom techniques, dyeing processes, basketry, or multilayered fabrics. PREREQ: ART 461. F, S

ART g471 Advanced Ceramics 3 credits. Individual projects may include ceramic sculpture, mosaics or experimental problems in form and techniques. PREREQ: ART 371 or ART 372. F, S, Su

ART g472 Advanced Ceramics 3 credits. Individual projects may include ceramic sculpture, mosaics or experimental problems in form and techniques. PREREQ: ART 371 or ART 372. F, S, Su

ART g473 Clay and Glaze Calculation 3 credits. Research in clay bodies and glaze calculation. Development of formulas for stoneware, whiteware and porcelain. Simple to complex glaze calculation. Historical use of clays and glazes. PREREQ: ART 271 or permission of instructor. D

ART g474 Kiln Construction 3 credits. Historical use and structure of all types of kilns. Design and construction principles of kilns, burner systems, and safety methodology. PREREQ: ART 371 or permission of instructor. D

ART g481 Advanced Sculpture 3 credits. Experimental work with an emphasis on scale and environmental problems. PREREQ: ART 381. F, S

ART g482 Advanced Sculpture 3 credits. Experimental work with an emphasis on scale and environmental problems. PREREQ: ART 481. F, S

ART g490 Experimental Studio 3 credits. Class work will be in two and three dimension, conceptual art, environmental art, performance, and multimedia modes. PREREQ: Three semesters of studio or permission of instructor. D

ART g491 Advanced Papermaking 3 credits. Further development of topics from ART 391. PREREQ: ART 391 or permission of instructor. F

ART g494 Senior Presentation 1 credit. A retrospective exhibit of the student’s best work. This includes techniques of professional presentation, posters and publicity. To be completed under advisor and/or director, Davis Gallery. F, S

ART g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Pre-Architecture

Affiliate Instructor: Hanson

The practice of architecture requires training in both aesthetic concepts and practical knowledge. The pre-architecture program satisfies both of these needs as well as provides the basis for further professional education.

The basic courses in the sciences, mathematics, and design will serve as a foundation upon which the student may build a professional education and career. The program is designed to facilitate transfer to the professional architecture program at the University of Idaho, leading to the degree of Master of Architecture. The required courses are as nearly as possible identical to those taken at the University of Idaho during the first two years. By following this program, the qualified student may transfer to the University of Idaho without loss of credit. S/he would also be eligible to enter any accredited architecture program. See the current University of Idaho general catalog for further details.

Admission

Students who wish to declare a major in Pre-Architecture must meet the following criteria:

1. Overall grade point average of 2.5.
2. Achieve a grade point average of 3.0 or higher from completion of the following courses: ART 105, ART 106, and ARCH 111.

Required Courses:

<table>

Department of Biological Sciences

Chair and Professor: Bowyer
Assistant Chair for Undergraduate Programs and Professor: Scalarone
Assistant Chair for Graduate Programs and Professor: Rose
Professors: Huntly, Inouye, Peterson, Rodnick, Stephens, Urfer, Wharton, Winston
Research Professor: Kie
Associate Professors: C. Anderson, Brandon, Delehanty, DeVaux, Germino, J. Hill, Keeley, Magnuson, Matoq, Meldrum, Sheridan, Shields, R. Smith
Clinical Associate Professor: Nehr-Kanet
Assistant Professors: Baxter, Bearden, Cretekos, Evilia, Groome, Kelchner, Thomas, Williams
Clinical Assistant Professor: S. Galindo
Visiting Assistant Professor: Murphy
Research Professor: Kie
Research Assistant Professor: St. Hilaire
Technical Instructional Designer: C. Bunde
Associate Lecturer: Kazakevich
Assistant Lecturers: Crandall, Farrar, Frank, Harmon, S. Hill, Loxterman, Ogden, Owen, Perkel, Shurley
Adjunct Faculty: Black, Chapman
Affiliate Faculty: Apel, Beardsley, Beckman, Belzer, R. Boeger, W. Boeger, Bryant, C. Bunde, Burch, Carlson-Lammers, Colwell, Connelly, Cook, Eisentrager, Foster, E. Galindo, Howard, LaPatra, Lenington, Loxterman, McGonigle, Newby, Pierce, Poulsoun, Pateck, Ray, Reed, Roberto, Rosentreter, Schuerman, Schwam, Scoville, Shell, L. Smith, Stevens, Thompson, Ver Hoef, Watwood, Weinberg, Wells, White, J. Young, M. Young

The Department of Biological Sciences offers the following undergraduate degrees:
Associate of Science
Bachelor of Science in Biology
Bachelor of Science in Biochemistry*
Bachelor of Science in Botany
Bachelor of Science in Clinical Laboratory Science
Bachelor of Science in Ecology
Bachelor of Science in Microbiology
Bachelor of Science in Zoology
*(Joint program with the Department of Chemistry.)

The B.S. in Biology program, with fewer required courses than the other B.S. majors, is designed to present the student selecting this major with considerable latitude in developing an individualized program. It also has the flexibility of permitting a student to select courses to meet the State of Idaho requirements for teacher certification while completing a degree in the Department of Biological Sciences. The student is permitted 67 elective hours in the program. Twenty-seven (27) of these credits must be selected from biology with the remainder restricted only by university general requirements.

The B.A. in Biology program is designed for students who wish to emphasize the biological sciences but who do not plan to enroll in graduate or professional programs in the biological or medical sciences. Students who meet the minimum requirements for this program, which requires fewer courses in Chemistry and Physics, will not meet the minimum requirements for admission to most graduate and professional programs.

The B.S. degrees in Botany and Zoology are designed to prepare students for professional and graduate schools. These majors incorporate the biology, chemistry, mathematics, and physics required to meet the admission requirements of most graduate and professional schools. Included in these programs are the General Education Requirements as well as electives which permit considerable breadth in training.

The Ecology program seeks to develop an understanding of ecological systems and their reactions to perturbations, expertise in problem solving and communication skills, and a solid background in basic ecology and supporting disciplines. The curriculum was designed to meet the needs of students who are interested in environmental assessment, planning, conservation, and work with natural resource management agencies, or of those who wish to pursue advanced training in ecology.

The student majoring in Microbiology, Clinical Laboratory Science, or Biochemistry is provided with a broad base of theoretical and practical knowledge which will qualify him or her either for an immediate career in microbiology, clinical laboratory science, or biochemistry or for further education in graduate or professional school. Men and women in the health professions use their microbiological and biochemical training daily to diagnose and treat disease conditions caused by bacteria, fungi, viruses, cancers, and biochemical imbalances. Food microbiologists and research scientists directly apply their knowledge of the basic principles of microbiology and biochemistry in the development and processing of their products. Doctors, nurses, and medical and dental technicians constantly utilize microbiology training in their work.

The student pursuing any B.S. degree in the biological sciences must complete General Education Goals 1, 2, 3, 4 and 5; two of Goals 6, 7, 8; and three of Goals 9, 10, 11, and 12 (Goals 10A and 10B are alternate means of satisfying Goal 10), in addition to satisfying the departmental requirements. A student pursuing a B.A. in biology must complete all General Education Goals (i.e., Goals 1-9a, 10A and 10B, and 11-12) in addition to satisfying the departmental requirements.

A maximum of 8 credits of BIOL g481/482, Independent Problems, may be applied to any Bachelor's degree program in Biological Sciences. Students involved in undergraduate research may also apply 4 credits of BIOL 493, Senior Thesis, to their degree program.

Students may select courses in the College of Education to meet the requirements for teacher certification while completing a degree in the College of Arts and Sciences. Such students must apply for admission to the Teacher Education Program. See the Teacher Education Program in this Catalog for requirements in the College of Education.

Students should consult current departmental list of course rotations to determine which semesters and years these courses will be offered.

Associate of Science in Biology

Required Courses:
General Education Goals for the Bachelor of Science*
BIOL 101,101L Biology I, and Lab 4 cr
BIOL 102,102L Biology II, and Lab 4 cr
BIOL 209,209L General Ecology, and Lab 4 cr
Bachelor of Science in Biochemistry

The purpose of the B.S. in Biochemistry is to serve students who seek to develop a strong background in biochemistry and the supporting sciences of biology, chemistry and physics. Majors also gain experiences in the broad areas of biochemistry, molecular biology, biotechnology, and medical and/or ecological applications of each. Majors gain experiences that will prepare them to participate in research development, planning and implementation and to be competent to carry out standard biochemical and molecular biology techniques in the laboratory. The B.S. in Biochemistry prepares students to be competitive for positions in research, graduate schools, health profession schools, and in the biotechnology industry.

Bachelor of Arts in Biology

The purpose of the B.A. in Biology is to serve students who have a broad interest in the biological sciences and who seek substantial latitude in the development of their own programs. This degree fosters broad exposure to disciplines outside of the biological sciences and knowledge and understanding of major concepts in the biology as well as the processes of scientific investigation. The B.A. serves students who intend to graduate with a B.A. in biology, certify to teach in public schools, satisfy the admission requirement for health related professional schools, emphasize ecology or natural history, or develop a variety of laboratory skills. The B.A. in Biology requires significant exposure to concepts in math and the physical sciences and broad exposure to disciplines outside of the biological sciences as well to disciplines within the biological sciences while providing a large number of electives. The consequence is broad exposure to the biological and an opportunity to specialize in areas of interest to students.

**Notes:**

1. Students pursuing a Bachelor of Arts degree must satisfy all of the General Education goals.
2. Students who plan to apply to graduate or professional programs in the biological or medical sciences are strongly advised to take CHEM 111/112, a full year of Organic Chemistry (add CHEM 302, 304), and a full year of Physics (add PHYS 112, 114). These classes are required by many graduate and professional programs.
3. Students should consult with their advisors and with the current departmental list of course rotations to determine which semesters and years biology electives will be offered.
4. Students may select courses in the College of Education to meet the requirements for teacher certification while completing a degree in the College of Arts and Sciences. Such students must apply for admission to the Teacher Education Program. See the Teacher Education Program in the University Bulletin for requirements in the College of Education.
5. Students may take MATH 170 in place of MATH 160. MATH 160 has a prerequisite of MATH 114. MATH 170 has prerequisites of MATH 143 and 144. Prerequisites for both classes may be satisfied by the Mathematics placement exam.
6. Up to 8 credits of Organic Chemistry may be counted towards required upper division credits in Biological Sciences. 7. A maximum of 8 credits of BIOL g481/g482, Independent Problems, may be applied to this degree program.
Bachelor of Science in Biology

The purpose of the B.S. in Biology is to serve students who have a broad interest in the biological sciences and who seek substantial latitude in the development of their own programs. This degree fosters, in students, knowledge and understanding of major concepts in the discipline as well as the processes of scientific investigation. The B.S. also serves students who intend to graduate with a B.S. in biology, certify to teach in public schools, satisfy the admission requirement for health related professional schools, emphasize ecology or natural history, or develop a variety of laboratory skills. The B.S. in Biology requires significant exposure to concepts in math and the physical sciences and broad exposure to the biological sciences while providing a large number of electives. The consequence is broad exposure to the biological and an opportunity to specialize in areas of interest to students.

Required Courses:

- **CHEM 111, 111L General Chemistry I, and Lab** 5 cr
- **CHEM 112, 112L General Chemistry II, and Lab** 4 cr
- **BIOL 101, 101L Biology I, and Lab** 4 cr
- **BIOL 102, 102L Biology II, and Lab** 4 cr
- **PHYS 111, 111L General Physics I, and Lab** 4 cr
- **PHYS 112, 112L General Physics II, and Lab** 4 cr
- **BIOL 206, 206L Cell Biology, and Lab** 4 cr
- **BIOL 209, 209L General Ecology, and Lab** 4 cr
- **BIOL 235, 235L General Microbiology, and Lab** 4 cr
- **BIOL 358 Genetics** 3 cr
- **BIOL 417 Organic Evolution** 3 cr
- **BIOL 491, 492 Seminars** 2 cr
- **MATH 160 Applied Calculus** 3 cr
- **MATH 170 Statistical Methods** 3 cr
- **BIOL 206, 206L Cell Biology, and Lab** 4 cr
- **BIOL 209, 209L General Ecology, and Lab** 4 cr
- **BIOL 358 Genetics** 3 cr
- **BIOL 417 Organic Evolution** 3 cr
- **BIOL 491, 492 Seminars** 2 cr
- **BIOL 493 Senior Thesis** 1-4 cr
- **BIOL 496 Ecology Senior Seminar** 1 cr

Notes:
1. Students pursuing a Bachelor of Science degree must satisfy goals 1, 2, 3, 4, and 5, and two of goals 6, 7, 8, and 9, and three of goals 9, 10, 11, and 12. Goal 10 may be satisfied by either 10A or 10B.
2. Students who plan to apply to graduate or professional programs in the biological or medical sciences are strongly advised to take the MATH 150, 151, 250, 251, 252 course sequence.
3. Biology-elective courses include upper division course work in both botany and zoology. Students should consult with their advisors and with the current departmental list of course rotations to determine which semesters and years biology electives will be offered.
4. Students may select a major in Botany or Zoology, or a major in Biological Sciences.

Bachelor of Science in Botany

The purpose of the B.S. in Botany is to serve students who seek to develop a strong background in the core areas of Plant Sciences. Majors receive advance training in specific fields of study to provide experiences that are professionally relevant. The B.S. in botany major is recommended to students who plan careers related to the biology of plants, including areas like plant conservation, developmental biology, ecology, evolutionary biology, horticulture, physiology, and systematics. The Botany degree prepares students for direct employment with public agencies and private companies, or for entry into graduate school.

1. Courses in Biological Sciences

- **BIOL 101, 101L Biology I, and Lab** 4 cr
- **BIOL 102, 102L Biology II, and Lab** 4 cr
- **BIOL 206, 206L Cell Biology, and Lab** 4 cr
- **BIOL 209, 209L General Ecology, and Lab** 4 cr
- **BIOL 358 Genetics** 3 cr
- **BIOL g404, g404L Elements of Plant Physiology, and Lab** 4 cr
- **BIOL g406, g406L Plant Diversity and Evolution, and Lab** 4 cr
- **BIOL g408, g408L Plant Ecology, and Lab** 3 cr
- **BIOL g412, g412L Systematic Botany, and Lab** 4 cr
- **BIOL g417 Organic Evolution** 3 cr
- **BIOL g491, g492 Seminars** 2 cr

Plus at least 6 credits from the following upper division Botany electives:

- **BIOL 313 Plants and Human Prospects** 3 cr
- **BIOL g405, g405L Plant Form and Function, and Education Program** 3 cr
- **BIOL g416, g416L Population and Community Ecology, and Lab** 3 cr
- **BIOL g442, g442L Plant/Animal Interactions, and Lab** 3 cr
- **BIOL g489 Field Ecology** 3 cr
- **BIOL g481, g482 Independent Problems** 1-6 cr
- **BIOL 493 Senior Thesis** 1-4 cr

Bachelor of Science in Ecology

The purpose of the B.S. in Ecology is to serve students who seek to develop a strong background in the fundamental principles of ecology and in more specific fields of study, many of which include the collection and analysis of field data. The B.S. in Ecology is recommended to students who plan careers in ecology, conservation biology, environmental studies, or resource management. The B.S. in Ecology prepares students for employment in resource management agencies and private companies as well as for advanced studies at the graduate level.

1. Required Biology Courses:

- **BIOL 101, 101L Biology I, and Lab** 4 cr
- **BIOL 102, 102L Biology II, and Lab** 4 cr
- **BIOL 206, 206L Cell Biology, and Lab** 4 cr
- **BIOL 209, 209L General Ecology, and Lab** 4 cr
- **BIOL g417 Organic Evolution** 3 cr
- **BIOL g489 Field Ecology** 3 cr
- **BIOL 496 Ecology Senior Seminar** 1 cr

2. Required Ecology Courses*, †

- **BIOL 192 Ecology Seminar** 1 cr
- **BIOL 209, 209L General Ecology, and Lab** 4 cr
- **BIOL g418 Ecological Topics** 1-3 cr
- **BIOL g489 Field Ecology** 3 cr
- **BIOL 496 Ecology Senior Seminar** 1 cr

Plus two of the following courses:

- **BIOL 337 Conservation of Natural Resources** 3 cr
- **BIOL g408, g408L Plant Ecology, and Lab** 3 cr
- **BIOL g416, g416L Population and Community Ecology, and Lab** 3 cr
- **BIOL g442 Plant/Animal Interactions** 3 cr
- **BIOL g459 Fish Ecology** 3 cr
- **BIOL g462 Freshwater Ecology** 3 cr
- **BIOL g476, g476D Ecology of Water Pollution, and Lab** 3 cr

3. Organismal Biology (Take two of the following courses)†

- **BIOL 303, 303L Principles of Animal Physiology, and Lab** 4 cr

Notes:
* Students may take MATH 170 in place of MATH 160. MATH 160 has a prerequisite of MATH 143. MATH 170 has a prerequisite of MATH 144 and 145. Prerequisites for both classes can be satisfied by the Mathematics placement exam. The requirement for MATH 250 and BIOL 316 may be satisfied by taking MGT 216 and MGT 217. MATH 253 does not satisfy this requirement.
† Students planning to apply to graduate programs are advised to take CHEM 302, 304 or BIOL g432, and PHYS 112, 114.

* Students may be satisfied by either 10A or 10B.
† Plus two of the following courses:
### Bachelor of Science in Microbiology

The purpose of the B.S. in Microbiology is to serve students who seek to develop a strong background in microbiology, and in broad areas of molecular biology, biotechnology, and medical and/or ecological applications. Majors gain experiences that prepare them to participate in the development of research plans and their implementation, and to be competent to carry out standard microbiological and molecular biology techniques in the laboratory. The B.S. in microbiology prepares students to be competitive for positions in research, graduate schools, health professional schools, and in the biotechnology industry.

#### Courses in Biological Sciences*

- BIOL 101,101L: Biology I, and Lab 4 cr
- BIOL 102,102L: Biology II and Lab 4 cr
- BIOL 235,235L: General Microbiology and Lab 4 cr
- BIOL 334: Experimental Microbiology 1 cr
- BIOL 453,453L: Microbial Physiology and Lab 4 cr
- BIOL 434: Microbial Diversity 3 cr
- BIOL 451: Immunology 3 cr
- BIOL 455L: Immunology Laboratory 1 cr
- BIOL 455: Pathogenic Microbiology 3 cr
- BIOL 455L: Pathogenic Microbiology Laboratory 2 cr
- BIOL 465: Microbial Genetics 3 cr
- BIOL 467: Microbial Genetics Laboratory 1 cr
- BIOL 476: General Virology 3 cr
- BIOL 477: Bacterial Virology Laboratory 1 cr
- BIOL 478: Animal Virology Laboratory 1 cr
- BIOL 491: Senior Seminar 1 cr
- BIOL 494: Seminar in Microbiology 1 cr

#### Courses in Math**

- MATH 147: Precalculus 5 cr
- MATH 160: Applied Calculus 3 cr

---

### Bachelor of Science in Zoology

The purpose of the B.S. in Zoology is to serve students who have a broad interest in zoology and who seek to develop a strong background in supporting disciplines. Majors gain substantial exposure to concepts in math and the physical sciences, broad exposure to cell biology, genetics, anatomy, physiology, and animal diversity, and the opportunity to develop strengths in specific disciplines. This degree fosters knowledge and understanding of major concepts in the discipline as well as the processes of scientific investigation. The B.S. in Zoology prepares students to pursue graduate education, to satisfy the admission requirement for health related professional schools, and to develop investigative skills.

#### Required Courses**

- BIOL 101,101L: Biology I, and Lab 4 cr
- BIOL 102,102L: Biology II, and Lab 4 cr
- BIOL 206,207: Cell Biology, and Lab 4 cr
- BIOL 209,209L: General Ecology, and Lab 4 cr
- BIOL 303,303L: Principles of Animal Physiology, and Lab 4 cr
- BIOL 310,310L: Invertebrate Zoology, and Lab 4 cr
- BIOL 314,314L: Comparative Vertebrate Anatomy, and Lab 4 cr
- BIOL 315L: Biometry Lab 1 cr
- BIOL 417: Organic Evolution 3 cr
- BIOL 438: Ornithology 3 cr
- BIOL 439: Vertebrate Paleontology 4 cr
- BIOL 441,441L: Mammalogy, and Lab 3 cr
- BIOL 455L: Pathogenic Microbiology Laboratory 2 cr
- BIOL 465: Microbial Genetics 3 cr
- BIOL 467: Microbial Genetics Laboratory 1 cr
- BIOL 476: General Virology 3 cr
- BIOL 477: Bacterial Virology Laboratory 1 cr
- BIOL 478: Animal Virology Laboratory 1 cr
- BIOL 491: Senior Seminar 1 cr
- BIOL 494: Seminar in Microbiology 1 cr

---

### Notes:

* It is recommended that additional credits be taken in BIOL g481/g482, Independent Problems, or BIOL 491, Senior Thesis, in the area of ecology. A maximum of 8 credits of BIOL g481/g482 may be applied to this degree program. ECON 201 and 202 are highly recommended (only 3 credits apply toward Goal 1 of the General Education Requirements). In addition, a student should take a minimum of 9 credits in a single area of concentration outside the Biological Sciences Department, e.g., business, computer science, political science.

** Many graduate programs in Ecology, including Idaho State University’s M.S. and Ph.D. programs, require one year of organic chemistry and one year of physics. If you plan to apply to a graduate program, you are advised to include these courses in your undergraduate program. In many cases a semester of biochemistry can be used in place of the second semester of organic chemistry.
Minors in Biological Sciences

Minor in Biology
The Biology Minor is available only for majors outside of the Biological Sciences.

Clinical Laboratory Science Program

Description of the Program

Clinical Laboratory Scientists perform, develop, evaluate, correlate and assure validity of laboratory information; direct and supervise clinical laboratory resources and operations; and collaborate in the diagnosis and treatment of patients. Clinical Laboratory Scientists practice in a variety of settings including hospitals, private laboratories, research and development laboratories, public health laboratories, and regulatory agencies, and also find positions in health care education and management. The CLS program is accredited by NAACLS, (National Accrediting Agency for Clinical Laboratory Science), Chicago, Illinois.

Degree Alternatives

- The CLS Program at Idaho State University offers two degree alternatives at the baccalaureate level:
  1. B.S. in Clinical Laboratory Science;
  2. A second B.S. in CLS for students who have completed degree requirements in related disciplines from accredited institutions and take the 38 credit professional block of CLS courses

Admission Criteria

Admissions are competitive. The deadline for entrance to the CLS professional block in the Fall semester is May 1. At that time, up to 20 students will be selected. The qualified alternates, along with any late applicants, will be evaluated on August 1 for inclusion in the class if additional seats become available. Progression in the program is dependent upon successful academic progress as determined by CLS faculty evaluation in December and May of the program year. Application materials, including criteria for selection and progression, are available from the Department of Biological Sciences and may be downloaded from the CLS website (isu.edu/cls).

Certification as a Clinical Laboratory Scientist (Medical Technologist)

Certification by a national credentialing examination qualifies the graduate to practice as a Clinical Laboratory Scientist in hospitals and other practice venues where credentialing is required. Completion of the 38 credit CLS professional block (as part of the CLS degree, the second B.S. in CLS, or the certificate of completion) will qualify as the accredited program or internship requirement for national certification exams for Clinical Laboratory Scientists (Medical Technologists). In order to be eligible to sit for the national credentialing exam in CLS, the student must complete the full 6 credit hours of clinical experience (BIOL 411N).

The B.S. degree in CLS may be awarded with the minimum number of credits in
clinical experience (1 credit hour) as long as the 128 total credit hour graduation requirement is satisfied. Such a degree would be of interest to students preparing for CLS related careers but not for employment in hospitals as Clinical Laboratory Scientists (Medical Technologists).

Students planning to attend other professional schools after completing the degree in CLS are strongly advised to check the requirements of those professional schools, particularly regarding requirements in Physics, Organic Chemistry and specific course prerequisites. Other professional programs may require different courses or prerequisites than outlined for the B.S. in CLS.

Professional Block

The professional block with the exception of 411N (Clinical Experience) is offered in live lecture/lab classes and via WEB CT (electronic delivery) in both Pocatello and Boise. With permission of the program director, the professional block can be taken on-line. 411N (Clinical Experience) is arranged through participating hospitals and clinics throughout Idaho and adjacent states.

Admission to the level II courses in the professional block and the clinical experience is by application to the program. Application packets are available through the Department of Biological Sciences. Successful completion of the level I courses is required prior to entry into the level II courses and clinical experience.

Required Clinical Courses (Professional Block):

A student may be awarded a B.S. degree in Clinical Laboratory Science by fulfilling the following requirements:

1. University General Education Goals 1-5, two of Goals 6, 7, and 8, and three of Goals 9, 10a/10b, 11 or 12.

2. Required Science and Math Courses:

   **Chemistry:**
   - BIOL 411I Clinical Immunology 3 cr

   **Biology:**
   - BIOL 101, 101L, 102, 102L
   - AND
   - BIOL 206, 207 Cell Biology, and Lab 8 cr

   **Mathematics:**
   - MATH 143 College Algebra 3 cr
   - MATH 160 Applied Calculus 3 cr

   **Genetics:**
   - BIOL 358 Genetics 3 cr

**Unified Science Courses:**

</table>

A minimum of 128 credits is required for graduation. 36 of these must be upper division credits.
second B.S. degree. Credits used to satisfy the requirements for the first degree may not be used toward the second degree’s 32 credit requirement.

**Biological Sciences Courses**

Each of the following BIOL courses has a required laboratory component that is listed separately in the Class Schedule. These laboratories are integral to the courses. Register for a laboratory section in addition to the lecture:

**BIOL 202 Biology II 4 credits.** Major concepts in biology with an emphasis on the development of diversity, plant and animal structure and function, principles of inheritance, and evolution. This course is for students majoring in the biological sciences. Lectures, laboratories. No credit if taken after BIOL 207 or BIOL 208. PREREQ: BIOL 101. COREQ: BIOL 101L. S

**BIOL 301 Anatomy and Physiology 4 credits.** Structures and functions of integumentary, skeletal, muscular, and nervous systems. Lectures, laboratories. PREREQ: BIOL 101. COREQ: BIOL 301L. F

**BIOL 303 Principles of Animal Physiology 4 credits.** Compares homeostatic processes including ionic and osmotic regulation, nerve and muscle physiology, circulation, and respiration. Lecture and Laboratory. PREREQ: BIOL 101 and 102, and one year of college chemistry. COREQ: BIOL 303L. S

**BIOL 305 Introduction to Pathobiology 3 credits.** Concepts of pathobiology, to include causes, common mechanisms and manifestations of human disease. Patterns of pathogenesis as related to physiological mechanisms are examined. PREREQ: BIOL 301 and BIOL 302. F

**BIOL 307 Radiobiology 3 credits.** Survey of the effects of ionizing radiation on living matter at the subcellular, cellular, and organismal levels. Lectures, laboratories. PREREQ: BIOL 101, PHYS 111, and PHYS 112, or permission of instructor. COREQ: BIOL 307L. S

**BIOL 310 Invertebrate Zoology 4 credits.** General study of invertebrate animals with laboratory work on representatives of the invertebrate phyla. Field trips. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL 310L. S

**BIOL 314 Comparative Vertebrate Anatomy 4 credits.** Descriptive studies of adult morphology of selected vertebrates and examples of other representative chordates are used to illustrate the evolution of structure and function. Lectures, laboratories. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL 314L. F

**BIOL 315 Introduction to Biometry 3 credits.** Concepts of experimental design and microcomputer application of basic statistical techniques to analysis of biological data. Lectures, laboratories. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL 315L. F, S

**BIOL 316 Biometry Laboratory 1 credit.** Statistical analysis and presentation of data for the biological sciences. This course, which complements MATH 350, focuses on manipulation, presentation, and analysis of data sets. COREQ: MATH 350. AS

**BIOL 324 Developmental Biology 4 credits.** Fundamental principles and concepts of embryological development. Selected model systems will be studied to illustrate basic concepts in development. Lectures, laboratories. BIOL 101 and BIOL 102. COREQ: BIOL 324L. S

**BIOL 334 Experimental Biochemistry 1 credit.** Laboratory course including both qualitative and quantitative experiments. PREREQ or COREQ: BIOL 342. F

**BIOL 337 Conservation of Natural Resources 3 credits.** Principles and concepts relevant to man’s influence upon his environment, especially through interruption of ecological succession, reduction of diversity in the landscape and pollution, and over-breeding. PREREQ: BIOL 209 or permission of instructor. S

**BIOL 358 Genetics 3 credits.** Basic principles of heredity and variation. PREREQ: BIOL 101 and BIOL 102, and BIOL 206. F, S

**BIOL g400 Oral Histology and Embryology 3 credits.** The microanatomy and formative processes of the teeth and their surrounding structures. Lectures, laboratories. COREQ: BIOL g400L. S

**BIOL g404 Plant Physiology 4 credits.** Study of plant physiological processes including water relations, mineral nutrition, photosynthesis, respiration, translocation of photosynthate, secondary compounds and phytohormones. Lectures, laboratories. PREREQ: BIOL 101, BIOL 102 and one year of college chemistry. COREQ: BIOL g404L. AS
BIOL g405 Plant Form and Function 3 credits.

Integrated studies of anatomical and physiological adaptations of plants to their natural environment. Data collection and analysis will be emphasized. PREREQ: BIOL 102. COREQ: BIOL g405L AF

BIOL g406 Plant Diversity and Evolution 4 credits.

Study of the reproduction, structure, development, evolution, and classification of the fungi, algae, bryophytes, and vascular plants. Lectures, laboratories. PREREQ: BIOL 101 AND 102. COREQ: BIOL g406L AF

BIOL g408 Plant Ecology 3 credits.

Major factors limiting plant growth and distribution with emphasis on adaptation and response at the individual, population, and community levels. Lectures, laboratories. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL g408L AF

BIOL 410 Ecology of Microorganisms 3 credits.

Ecological theory and principles applied to microorganisms in various environments. Emphasis on role of microbial populations and communities in key environmental processes, including nutrient cycling, trophic interactions, and ecosystem function. PREREQ: BIOL 433 or permission of instructor. AS

BIOL g411D Clinical Microbiology 13 credits.

Study and identification of medically important bacteria, viruses, fungi, chlamydiae, rickettsiae, and parasites as applicable to laboratory and infection control settings. PREREQ: BIOL 235 or BIOL 221 or equivalent and permission of instructor or acceptance into CLS Program. F

BIOL g411E Clinical Microbiology II 3 credits.

Advanced topics in clinical microbiology, including application of laboratory techniques to the identification and evaluation of medically important pathogens, and correlations with disease states. PREREQ: BIOL 411D, permission of instructor or acceptance into CLS Program; admitted to CLS Internship. F, S

BIOL g411F Clinical Hematology 3 credits.

Theoretical and applied aspects of clinical hematology and hemostasis with emphasis on recognition and correlation of abnormal laboratory observations with pathological conditions. Graduate students will prepare, conduct and evaluate case study sessions. PREREQ: Permission of instructor or acceptance into CLS Program. F

BIOL g411G Critical Analysis of Laboratory Values 3 credits.

Evaluation of clinical laboratory values with emphasis on advanced methods, specialized statistics, algorithm building, and clinical correlations. PREREQ: Permission of the instructor or acceptance into CLS Program. S

BIOL g411H Immunology/Serology/Immunohematology II 3 credits.

Advanced topics in immunology/serology/immunohematology. Application of laboratory techniques to the identification and evaluation of antibodies and antigens. Emphasis on transfusion therapy. PREREQ: BIOL 411H, permission of instructor, or acceptance into CLS Program; admitted to CLS Internship. F, S

BIOL g411I Clinical Chemistry 3 credits.

Theoretical and applied aspects of chemistry with emphasis on test development, validation, and use in diagnosis and management of pathological conditions. Graduate students will prepare, conduct and evaluate discussion sessions. PREREQ: Permission of instructor or acceptance into CLS Program. F

BIOL g411K Molecular Biology Laboratory Methods 3 credits.

Molecular biological techniques necessary for the understanding of research and diagnostics. Specific skills include DNA purification, amplification, cloning, manipulation, analysis, sequencing expression of cloned genes, and computer bioinformatic analysis of this information. PREREQ: Permission of instructor or acceptance into CLS Program. S

BIOL g411M Clinical Laboratory Research 1-3 credits.

Individual theory and application of related topics associated with the clinical laboratory. PREREQ: permission of instructor; admitted to CLS Internship. F, S, Su

BIOL g411N Clinical Laboratory Site Experience variable credits (a minimum of 6 credits are required).

Structured clinical experiences at a minimum of two medical facilities. PREREQ: Permission of instructor or acceptance into CLS Program; admitted to CLS Internship. Graded S/U. F, S, Su

BIOL g411P Phlebotomy, Uirnalysis, and Waived Testing 2 credits.

Web assisted. Introduction to the theory and procedures for the practice of phlebotomy and simple clinical testing. Part of Clinical Laboratory ScienceCore Curriculum, also suited for other health care providers. PREREQ: Permission of instructor or acceptance into CLS Program. F

BIOL g411Q Introduction to Clinical Laboratory Science 2 credits.

Introduction to current terminology, regulations, concepts of quality control, handling of blood borne pathogens, chemical safety, predictive value theory, regulatory agencies and standard laboratory practice. Part of the core CLS curriculum and suitable for other health care providers and professions. PREREQ: Permission of instructor or acceptance into CLS Program. F

BIOL g411S Laboratory Analysis and Management 3 credits.

Advanced principals of current quality control, personnel, financial and regulatory issues, laboratory information systems, management and Education. Student presentations will be required. Students taking the course for graduate credit will develop, complete and present a project. Permission of instructor or acceptance into CLS Program. F

BIOL g411V Immunology and Transfusion Medicine 1 3 credits.

Practical aspects of immunology with emphasis on pathological conditions and laboratory practice. Theoretical considerations of major blood groups with respect to transfusion therapy. Oral and written project presentation required for graduate credit. PREREQ: Permission of instructor or acceptance into CLS Program. F

BIOL g412 Systematic Botany 4 credits.

Study of classification and evolution of flowering plants; techniques of phylogeny reconstruction based on molecular and morphological characters. Lectures/Laboratories. Collection/identification of local flora. Field trips. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL g412L. S

BIOL g413 Biology Teaching Methods 3 credits.

Designed to help biology teachers plan, teach and evaluate teaching activities. Includes practical experience in a diversity of methods used in science classrooms, and in resources that enhance professional development. Required for secondary teaching majors in biology. PREREQ: 16 credit hours of biology and EDUC 302, or permission of instructor. F

BIOL g415 Human Neurobiology 4 credits.

Cellular-to-organismal structure and function of the human central nervous system (CNS), and CNS pathologies. PREREQ: permission of instructor. S

BIOL g415L Human Neurobiology Lab 1 credit.

Detailed examination of the gross anatomy and pathways of the human central nervous system. PREREQ: or permission of instructor. S

BIOL g416 Population and Community Ecology 4 credits.

Introduces quantitative analysis of populations and communities, emphasizing demography, distribution, abundance, spatial and temporal dynamics, biodiversity, coexistence, and applications to conservation and land use decision-making. Includes data collection and analysis. PREREQ: BIOL 209. COREQ: BIOL g416L. AF

BIOL g417 Organic Evolution 3 credits.

An integrated study of evolution as a unifying concept in biology. An examination of patterns and processes that affect the origin and diversification of species through time. PREREQ: BIOL 358. F, S

BIOL g418 Ecological Topics 1 credit.

Flexible use of seminars, lectures, and laboratory/field work dealing with current issues in ecology. Topic/emphasis varies. May be repeated for up to 3 credits. PREREQ: BIOL 209 or permission of instructor. F, S

BIOL g419 Mammalian Histology 4 credits.

Study of animal tissues, including structural and functional characteristics of tissues and organs. Lectures, laboratories. PREREQ: BIOL 206, or BIOL 303, or BIOL 301 and BIOL 302. COREQ: BIOL g419L. F

BIOL g420 Musculo-Skeletal Anatomy 2 credits.

Study of human body structure emphasizing muscular system and its relationship to axial and appendicular skeleton. Focus is on extremities, thorax, and pelvis with applications toward normal, diseased and rehabilitative functions. PREREQ: BIOL 301 and BIOL 302. AS

BIOL g423 General Parasitology 3 credits.

Study of parasitic symbioses of animals, plants and other organisms focusing on concepts, principles, and consequences of such interactions and the coevolutionary processes by which they are created. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL g423L. AS

BIOL g426 Herpetology 3 credits.

The biology of amphibians and reptiles: lecture topics include evolutionary history, functional morphology, physiological ecology, biogeography, reproductive, and population ecology. Laboratories and field trips cover systematic, natural history, and collecting/sampling techniques. PREREQ: BIOL 209. COREQ: BIOL g426L. AS
BIOL g427 Ichthyology 3 credits. The biology of fishes: lecture topics include evolutionary history, functional morphology, physiological ecology, and biogeography. Laboratory and weekend field trips cover identification, natural history and collecting techniques. Emphasis on Idaho species. PREREQ: BIOL 209. COREQ: BIOL g427L. AF

BIOL g428 Medical Parasitology and Entomology 3 credits. Study of animal parasites, with an emphasis on protoists, helminths and arthropods affecting human health and welfare by their presence or indirectly via pathogens they transmit. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL g428L. AF

BIOL g429 Regional Anatomy and Histology 4 credits. Regional approach to gross human anatomy emphasizing the use of prossected materials and microscopic anatomy. Designed primarily for students in the Physician Assistant Program. Lectures, laboratories. PREREQ: BIOL 301, BIOL 302. COREQ: BIOL g429L. F

BIOL g431 General Entomology 3 credits. Structure, development, classification, and life histories of insects, including ecological, economic and management considerations. An insect collection may be required. Lectures, laboratories, Field trips. PREREQ: BIOL 101 and BIOL 102. COREQ: BIOL g431L. AF

BIOL g432 Biochemistry 3 credits. Comprehensive discussion/presentation of structure, function and metabolism of biological macromolecules and their constituents, including energetics, regulation, and molecular biology, with emphasis on critical analysis of biochemical issues. PREREQ: CHEM 301 or permission of instructor. F

BIOL g433 Microbial Physiology 4 credits. Comparative physiology of microorganisms, including structure/function, metabolic diversity, enzymatic mechanisms of microbial metabolism, and physiology of extreme organisms. Lectures, Class Exercises. PREREQ: BIOL g432 or permission of instructor. COREQ: BIOL g433L. F

BIOL g434 Microbial Diversity 3 credits. Enrichment, cultivation, and isolation of prokaryotes from various metabolic groups and environments. Microorganisms will be identified using classical microbial techniques and modern molecular methodologies. PREREQ: BIOL g433 or permission of instructor. F

BIOL g435 Vertebrate Paleontology 4 credits. Phylogenetic history of the vertebrates outlined in the light of morphology, classification, evolution, paleoecology, and the significance of fossils. Field trips. Cross-listed as GEOL g435. PREREQ: GEOL g431 or BIOL 314 or equivalent. F

BIOL g438 Ornithology 3 credits. Study of the origin, evolution, structure, habits, adaptations, distribution, and classification of birds. Field trips. PREREQ: BIOL 101 and BIOL 102. S

BIOL g439 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed as ANTH g439, GEOL g439. PREREQ: permission of instructor. AS

BIOL g440 Human Gross Anatomy 4 credits. Comprehensive regional study of gross human anatomy with emphasis on the upper limb, thorax, abdomen, pelvis, and perineum. Designed for first year dental students and complements BIOL g450. Lecture and laboratory. COREQ: BIOL g440L. F

BIOL g441 Mammalogy 3 credits. General study of mammals including classification, identification, habits, ecology, economics, and techniques of study, with emphasis on North American forms. Lectures, laboratories, field trips. PREREQ: BIOL 209. COREQ: BIOL g441L. AF

BIOL g442 Plant and Animal Interactions 3 credits. Coevolution of plant and animal form and function emphasizing pollination, herbivory, parasitism, frugivory/seed dispersal, and optimal foraging. PREREQ: BIOL 209. AF

BIOL g443 Endocrinology 3 credits. Study of the anatomy and physiology of the ductless glands and the properties and uses of natural and synthetic hormones. PREREQ: BIOL 303. AS

BIOL g445 Biochemistry II 3 credits. Introduction to basic aspects of biochemical systems, including fundamental chemical and physical properties of biomolecules. Enzymology, including allosterism, metabolic regulation, bioenergetics, and carbohydrate metabolism. PREREQ: CHEM 302. or permission of instructor. F

BIOL g446 Selected Topics in Physiology I 1 credit. Selected topics in physiology for dental students: blood coagulation-compement-kinin systems, prostaglandin and related substances, vitamins, steroids, mucopolysaccharides, collagen and other extracellular matrix macromolecules and cyto- and molecular genetics. S

BIOL g447 Biochemistry II 3 credits. Functional continuation of g445. Lipid, amino acid, and nucleotide metabolism. Emphasis is on regulation of metabolism, metabolic dysfunctions, biochemical mechanisms of hormone action, biochemical genetics, protein synthesis, and metabolic consequences of genetic defects. S

BIOL g448 Advanced Experimental Biochemistry 2 credits. Advanced laboratory projects designed to emphasize techniques of qualitative and quantitative biochemical analysis. COREQ: BIOL g447 or permission of instructor. S

BIOL g449 Human Physiology 4 credits. First of a two course sequence. Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. Lectures, laboratories. BIOL g449 Human Physiology 4 credits. First of a two course sequence. Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. Lectures, laboratories. PREREQ: BIOL 101, CHEM 111 and CHEM 112. COREQ: BIOL g449L. F

BIOL g450 Head and Neck Anatomy 3 credits. Comprehensive presentation of the anatomy of the head and neck as it applies to the practice of dentistry. Lecture and laboratory. COREQ: BIOL g450L. S

BIOL g451 Immunology 3 credits. Study of antigens, antibodies, complement, humoral and cell-mediated immune responses, hypersensitivity, immunodeficiency, autoimmunity, tumor immunology, transplantation, vaccines, infectious disease immunology, and immunodiagnostic assays. PREREQ: BIOL 255 or permission of instructor. F

BIOL g451L Immunology Laboratory 1 credit. Selected laboratory experiments to accompany Immunology BIOL g451. PREREQ or COREQ: BIOL g451. Open to non-majors by special permission. F

BIOL g454 Advanced Immunology 3 credits. Detailed study of selected areas of immunobiology. Course content will vary with current demand. Students will lead discussions and present current literature. PREREQ: BIOL g451 and permission of instructor. F

BIOL g455 Pathogenic Microbiology 3 credits. How the medically important bacteria, viruses and fungi interact with the host to produce disease, including microbe characteristics, pathogenesis, pathological processes, prevention, and treatment methods. PREREQ: BIOL g451 or permission of instructor. S

BIOL g455L Pathogenic Microbiology Laboratory 2 credits. Will emphasize procedures for the isolation and identification of pathogenic bacteria. Clinical specimens will be provided for use in identification of unknowns. PREREQ or COREQ: BIOL g455. S

BIOL g456 Human Physiology II 4 credits. Physiology of gastrointestinal, endocrine, and reproductive systems. Includes studies of acid-base balance, peripheral circulation, shock, and temperature regulation. Lectures, laboratories. PREREQ: BIOL g449 or equivalent. COREQ: BIOL g456L. S

BIOL g459 Fish Ecology 3 credits. Study of the behavior, habitat use, population dynamics, and management of freshwater fishes, especially salmon and trout. Laboratory and weekend field trips emphasize sampling techniques and data analysis. PREREQ: BIOL 209, BIOL 315, BIOL g427 recommended. AF

BIOL g459L Fish Ecology Laboratory 0 credits. Assignments to apply principles from BIOL g459. AF

BIOL g460 Neuroscience 4 credits. Comprehensive presentation of the anatomy of the central nervous system, the brain and spinal cord. Combined lecture and laboratory demonstration. PREREQ: permission of instructor. S

BIOL g461 Advanced Genetics 3 credits. Detailed and critical consideration of selected genetic topics with emphasis on recent advances. PREREQ: BIOL 358 or permission of instructor. AS

BIOL g462 Freshwater Ecology 3 credits. Study of the interaction of physical and biotic factors in aquatic ecosystems. Lectures, Laboratories, Field trips. PREREQ: BIOL 209. COREQ: BIOL g462L. AF

BIOL g463 Human Pathophysiology 4 credits. The study of basic process underlying diseases, with an emphasis on correlating anatomical, functional, and biochemical altera-
BIOL g463L Human Pathophysiology Lab 0 credits. Assignments to apply principles from BIOL g463. F, W

BIOL g464 Lectures in Human Physiology 4 credits. Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. PREREQ: BIOL 301, BIOL 302, and one year of college chemistry. F

BIOL g465 Microbial Genetics 3 credits. Principles of heredity and variation with application of these principles to bacteria and viruses. PREREQ: Senior standing and CHEM 301. COREQ: BIOL g467. S

BIOL g466 Medical Mycology 3 credits. Lecture/laboratory course addressing medically important fungi. Taxonomy, clinical disease, pathogenesis, immunological diagnosis and laboratory identification of contaminants, opportunists, superficial, cutaneous, subcutaneous and systemic mycoses. PREREQ: BIOL 221 OR BIOL 235. S

BIOL g467 Microbial Genetics Laboratory 1 credit. Laboratory investigations of the principles of heredity, variation and genetic exchange in bacteria and viral viruses. PREREQ: BIOL 235, or BIOL 221 and BIOL 221L. COREQ: BIOL g465. S

BIOL g469 Special Topics in Microbiology 1-4 credits. Study of selected topics in microbiology. Course contents will vary with topics selected. May be repeated with departmental approval for nonrepetitive course content. PREREQ: Permission of instructor. F, S

BIOL g470 Cross-Sectional Anatomy 2 credits. Applied regional anatomy as viewed in sectional planes, emphasizing topographic relationships of organs and surface anatomy, with interpretation of correlated CT and MRI imaging. PREREQ: BIOL 301 and BIOL 302. S

BIOL g471 Fundamentals of Biological Imaging 3 credits. Introduction to optical microscopy with an emphasis on optical image formation, documentation, interpretation and digital image analysis relevant to experimental applications in the biological sciences. Lecture and laboratory with independent research component. AS(E)

BIOL g473 Industrial Microbiology 4 credits. Microbiological and biochemical aspects of fermentative and oxidative processes of industrial importance such as yeast, mold, and bacterial fermentation. PREREQ: BIOL g433. AS

BIOL g474 Human Anatomy (Occupational Therapy/Physical Therapy) 5 credits. Applied regional anatomy emphasizing the development, histology and gross anatomy of the musculoskeletal, peripheral nervous, and cardiopulmonary systems. Includes laboratory with cadaver dissection. PREREQ: permission of instructor. COREQ: BIOL g474L. F

BIOL g475 General Virology 3 credits. Introduction to the general principles of virology through consideration of structure, genetics, replication and biochemistry of animal and bacterial viruses. PREREQ: completion of 90 credits. F

BIOL g476 Ecology of Water Pollution 3 credits. Causes of pollution and their effects on the aquatic environment and its inhabitants. Special consideration given to biological and chemical assessment of pollution in streams. Field and Laboratory work. PREREQ: BIOL g462 or permission of instructor. COREQ: BIOL g476L. AS

BIOL g477 Bacterial Virology Laboratory 1 credit. Designed to acquaint students with the techniques and experimental principles used in the study of viral viruses. PREREQ OR COREQ: BIOL g475. S

BIOL g478 Animal Virology Laboratory 1 credit. Introduces tissue culture methods and other techniques employed in the study of animal viruses. PREREQ OR COREQ: BIOL g475. F

BIOL g479 Survey of Electron Microscopy 2 credits. Introduction to the potentialities, theory, techniques, and limitations of electron microscopy. The field will be surveyed as a whole, but primary emphasis will be on biological applications. PREREQ: permission of instructor. F

BIOL g481 Independent Problems 1-4 credits. Individual problems will be assigned to students on the basis of interest and previous preparation. May be repeated. PREREQ: A minimum of two courses in biological sciences and permission of the instructor. F

BIOL g482 Independent Problems 1-4 credits. Individual problems will be assigned to students on the basis of interest and previous preparation. May be repeated. PREREQ: A minimum of two courses in biological sciences and permission of the instructor. S

BIOL g486 Human Systemic Physiology 5 credits. One-semester lecture/laboratory human physiology course emphasizing the function and regulation of the muscular, skeletal, circulatory, respiratory, urinary, reproductive, and immune systems. PREREQ: CHEM 111 and CHEM 112; BIOL 301 and BIOL 302 or equivalent. COREQ: BIOL g486L. F

BIOL g488 Advanced Radiobiology 3 credits. An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Crosslisted as PHYS g488. PREREQ: permission of instructor. S

BIOL g489 Field Ecology 4 credits. An intensive field study of at least one biogeographical region to increase student’s knowledge of, and skill with, field sampling techniques, field study design, data collection and analysis, and report preparation. Lectures, laboratories. PREREQ: BIOL 209 and a course in statistics. S

BIOL 491 Seminar 1 credit. Review of current research and literature in the general fields of biological science. PREREQ: Senior standing or permission of department. F, S, Su

BIOL 492 Seminar 1 credit. Review of current research and literature in the general fields of biological science. PREREQ: Senior standing or permission of department. F, S, Su

BIOL 493 Senior Thesis 1-4 credits. This is a course supervised by a committee of at least two faculty members, approved by the department chair. The thesis topic may be interdisciplinary, with four credits conferred by one or more departments. PREREQ: Senior status; permission of department. F, S

BIOL 494 Seminar in Microbiology 1 credit. Presentation of written and oral review of library research in microbiology and molecular biology by students for discussion with faculty and fellow students. May be repeated for up to 2 credits. F, S, Su

BIOL 495 Ethology 3 credits. Behavior of animals and the evolutionary mechanisms which dictate behavioral patterns. PREREQ: Upper-division or Graduate status. AF

BIOL 496 Ecology Senior Seminar 1 credit. Review of current research in ecology and related areas. Attendance at Departmental Seminars and written summaries of the seminars required. PREREQ: Senior status and Ecology major or permission of department. F, S

BIOL 497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Department of Chemistry

Chair and Professor: Holman (Organic) Professors: Castle (Organic), De Jesus (Organic), Kalivas (Analytical), Rodriguez (Physical), J. Rosentreter (Analytical) Affiliate Professors: Goss (Physical), Pak (Organic) Assistant Professors: R. Rosentreter Sabbatical Leave Replacements: Gardner, Phillips Visiting Faculty: Visquad Adjunct Instructor: Podgorny Affiliates: Emmert: Braun, Faler, Ronald, Strommen, Sutter, Wiegand Our chemistry courses will prepare students for industrial or government laboratory work or for graduate study in chemistry, biochemistry, or allied fields or serve as preparation for medical pharmacy, optometry, physician assistant or dental school. The department offers four degree programs, three traditional degrees and a unique com-
bined B.S./M.S. program. The Bachelor of Arts degree is designed for students who desire a flexible program so they can develop more interdisciplinary competence. This degree is ideal for those students endeavoring to work at the chemistry/biology/pharmaceutical chemistry interface. The Bachelor of Science degree places greater emphasis on comprehensive chemistry, leading to American Chemical Society (ACS) certification upon graduation. The Bachelor of Science degree in Biochemistry is a joint program with the Department of Biological Sciences. The combined B.S./M.S. program is designed to enable students to attain both a B.S. and an M.S. in a five year time frame. This program allows the student to receive the ACS certified Bachelor of Science degree and the Master of Science degree at the end of the fifth year. Students may apply as sophomores for this program and can be admitted into the program at the beginning of their junior year.

Course work to be used as a prerequisite for a chemistry class must have been taken within the most recent 5 year period, unless the student obtains permission of the instructor. All credits applied to a chemistry degree or applied to chemistry courses used to satisfy Goal 5 must have been taken within the most recent 10 years unless it can be shown that the course work taken earlier covers material which has not changed substantially during the intervening time, or that the student has been able to remain current in the topics covered in the course. Evidence that the older course work is still appropriate must be approved by the department chairperson.

Bachelor of Arts in Chemistry

A suggested sequence for the science requirements is listed below. Variations from the suggested sequence should be checked to ensure that all prerequisite courses are met.

**First Year**

<table>

Combined B.S./M.S. Program in Chemistry

Students may be admitted to the program after having completed 64 credit hours, which typically is at the beginning of the junior year. At this point, the chemistry, mathematics, and physics courses completed should include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

Application for admission must be made to the Chemistry Department.

Overview of B.S./M.S. Program

**Year 1 in the B.S./M.S. Program (Junior Year):** During the first semester each student is expected to select three faculty members to serve as an advisory committee subject to the approval of the Department Chair. In the second semester, each student will form a planned program of study with a research advisor, write a research overview of a chosen project, and apply and be admitted to the Graduate School. The student must score at or above the 35th percentile in two areas of aptitude (Verbal, Quantitative, and Analytical) of the Graduate Record Exam. The student is expected to begin his/her research no later than the beginning of the summer semester. Thereafter, individual sections of the research paper will be required as the student progresses through the program.

**Year 2 in the B.S./M.S. Program (Senior Year) and year 3 (Graduate standing):** To remain in the program a student must
maintain a minimum GPA of 3.0 from date of admission and must earn a grade of C- or better in all 600-level courses. The students’ committees will assess student standing annually, and will recommend that students who are not making adequate progress discontinue the program. Students are required to have completed all general education requirements by the end of their second year in the combined B.S./M.S. program.

Suggested Schedule in B.S./M.S. Program

First Year (Junior year)

Fall/Spring
CHEM 331* Instrumental Analysis 2 cr
CHEM 334* Instrumental Analysis Laboratory 2 cr
CHEM 351* Physical Chemistry 3 cr
CHEM 352* Physical Chemistry 3 cr
MATH 360 Differential Equations 3 cr
Electives 11 cr
TOTAL: 24 cr

* Must be completed by the end of the junior year.

Summer
CHEM 485 Senior Research 6 cr

Second Year (Senior year)

Fall/Spring
BIOL g432 Biochemistry 3 cr
CHEM 365 Synthetic Methods 2 cr
CHEM 366 Synthetic Methods Lab 2 cr
CHEM g400 Inorganic Chemistry II 2 cr
CHEM g453 Modern Experimental Physical Chemistry 2 cr
CHEM 485 Senior Research 2 cr
CHEM g491 Seminar 1 cr
CHEM 609 Advanced Inorganic Chemistry 3 cr
CHEM 655 Advanced Physical Chemistry 3 cr
Electives 8 cr
TOTAL: 28 cr

Summer
CHEM 635 Master’s Research 6 cr

Third Year (Graduate standing)

Fall/Spring
CHEM 630 Advanced Analytical Chemistry 3 cr
CHEM 671 Advanced Organic Chemistry 3 cr
CHEM 681 Seminar 2 cr
CHEM 635 Master’s Research 4 cr
Electives 13 cr
TOTAL: 25 cr

Teaching Major in Chemistry

Students wishing to pursue a teaching major in chemistry should make an appointment to meet with the Department Chair.

Minor in Chemistry

Required courses:
CHEM 111 General Chemistry I 5 cr
CHEM 112 General Chemistry II 4 cr

Bachelor of Science in Biochemistry

The Department of Biological Sciences and the Department of Chemistry jointly offer the B.S. degree in biochemistry. The curriculum is designed to prepare the student for graduate work in biochemistry and related fields, as well as for admission to medical, dental, or other health professional schools. The graduate also is prepared to go directly into research or industrial positions which require preparation only at the B.S. level.

A detailed description of the program is listed under the Department of Biological Sciences.

Associate of Science in Chemistry

Students seeking an Associate of Science degree in Chemistry must complete the following:

General Education Goals for the Bachelor of Science*

CHEM 101 Introduction to General Chemistry 4 cr
CHEM 102 Organic Chemistry I 3 cr
CHEM 103 Organic Chemistry II 3 cr
CHEM 111 General Chemistry I 5 cr
CHEM 112 General Chemistry II 4 cr
CHEM 232 Quantitative Analysis 2 cr
CHEM 234 Quantitative Analysis Lab 2 cr
Electives to bring total to 64 cr variable
TOTAL: 64 cr

* The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.

Chemistry Courses

CHEM 100 Introduction to Chemistry 4 credits.
CHEM 101 General Chemistry I 5 cr
CHEM 102 General Chemistry II 4 cr
CHEM 200 General Chemistry Lab 1 cr
CHEM 232 Quantitative Analysis 2 cr
CHEM 234 Quantitative Analysis Lab 2 cr
Electives to bring total to 64 cr variable
TOTAL: 64 cr

Applications. Recommended for students not majoring in the natural sciences. Satisfies Goal 5 of the General Education Requirements. S

CHEM 101 Introduction to General Chemistry 3 credits. Atomic structure, chemical calculations, solutions, acid-base reactions and equilibrium. May not be used as a prerequisite to other courses in chemistry except CHEM 102. PREREQ: MATH 108 or equivalent. F, S

CHEM 102 Introduction to Organic and Biochemistry 3 credits. Descriptive organic and biochemistry with emphasis on organic compounds of biological importance. May not be used as a prerequisite to other courses in chemistry. PREREQ: CHEM 101 or CHEM 111. COREQ: CHEM 103. F, S

CHEM 103 Introduction to General, Organic and Biochemistry Laboratory 1 credit. Laboratory course introducing fundamental measurement techniques, methods and materials used in general, organic and biochemistry. PREREQ: CHEM 101 or CHEM 111. COREQ: CHEM 102. F, S

CHEM 111 General Chemistry I 5 credits. Introductory course for students in scientific and technical fields; structure and reactivity of elements and compounds, stoichiometry, states of matter, solutions, and chemical periodicity. PREREQ: MATH 143 or MATH 147 or equivalent. F, S

CHEM 112 General Chemistry II 4 credits. Introduction to kinetics, equilibrium, electrochemistry, and nuclear chemistry. PREREQ: CHEM 111 or equivalent and MATH 143 or MATH 147 or equivalent. S

CHEM 211 Inorganic Chemistry I 3 credits. An introduction to the chemistry of the elements, including: molecular and solid-state structure, aqueous chemistry (acid/base, solubility, and redox phenomena), and coordination chemistry (ligand field theory, and reaction mechanisms). Selected topics in materials, bioinorganic, and/or environmental inorganic chemistry will be surveyed. PREREQ: CHEM 112 or permission of instructor. COREQ: CHEM 213. F

CHEM 212 Inorganic Chemistry I Laboratory 1 credit. Qualitative and quantitative inorganic chemistry, including: precipitation, acid/base and reduction/oxidation reactions in aqueous media, preparation and isolation of inorganic compounds, characterization techniques for inorganic compounds (e.g. magnetic susceptibility measurements, electrochemistry, UV-vis). COREQ: CHEM 211 or permission of instructor. F

CHEM 232 Quantitative Analysis 2 credits. Theoretical foundations of quantitative analysis including an introduction to statistical analysis of chemical data generated from gravimetric, volumetric and colorimetric methods. PREREQ: CHEM 112 and MATH 160 or MATH 170. S
CHEM 234 Quantitative Analysis Laboratory 2 credits. Laboratory experiments in gravimetric, volumetric, and colorimetric analysis. PREREQ: CHEM 112. COREQ: CHEM 232 or permission of instructor. S

CHEM 301 Organic Chemistry I 3 credits. The fundamentals of organic chemistry are examined through nomenclature, structure, physical and chemical properties, reaction mechanisms, spectroscopy and principal synthetic methods. PREREQ: CHEM 112 or permission of instructor. F

CHEM 302 Organic Chemistry II 3 credits. A continuation of CHEM 301. The further study of the preparation, reactions, properties, reaction mechanisms and spectroscopy of organic compounds. PREREQ: CHEM 301 or permission of instructor. F

CHEM 303 Organic Chemistry Laboratory I 1 credit. Introductory laboratory work in organic chemistry. Study and development of elementary techniques and their application to the preparation, isolation and characterization of simple organic compounds. COREQ: CHEM 301 or permission of instructor. S

CHEM 304 Organic Chemistry Laboratory II 1 credit. Further experience in the fundamental operations of organic chemistry laboratory work including the preparation and analysis of typical compounds. PREREQ: CHEM 303. COREQ: CHEM 302 or permission of instructor. S

CHEM 311-312 Introduction to Research 1-2 credits each. Directed library and laboratory research. Courses may be repeated for up to 6 credits. F, S

CHEM 331 Instrumental Analysis 2 credits. Advanced quantitative analysis dealing chiefly with quantitative applications of instrumental methods. PREREQ: CHEM 232 and CHEM 234 or permission of instructor. F

CHEM 334 Instrumental Analysis Laboratory 2 credits. Laboratory course giving experience in fundamental operations of modern instrumental methods of analysis. PREREQ: CHEM 234 and CHEM 331 or permission of instructor. S

CHEM 341 Topics in Physical Chemistry 3 credits. Topics in physical chemistry with application to biological systems are covered. Molecular structure, thermodynamics of gases and solutions, reaction rates and mechanisms, basic quantum mechanics, and spectroscopic principles are covered in this first course of a two semester sequence. PREREQ: CHEM 112, MATH 160 or 170, PHYS 112 or 212, or permission of instructor. F, S

CHEM 342 Topics in Physical Chemistry 3 credits. Topics in physical chemistry with application to biological systems are covered. Molecular structure, thermodynamics of gases and solutions, reaction rates and mechanisms, basic quantum mechanics, and spectroscopic principles are covered in this two semester sequence. PREREQ: CHEM 341, or permission of instructor. F, S

CHEM 351 Physical Chemistry 3 credits. The fundamental principles of physical chemistry, thermodynamics, reaction kinetics, molecular structure, quantum theory, spectroscopy, and solution chemistry. PREREQ: CHEM 112, MATH 175, and PHYS 212, or permission of instructor. F

CHEM 352 Physical Chemistry 3 credits. The fundamental principles of physical chemistry; thermodynamics, reaction kinetics, molecular structure, quantum theory, spectroscopy, and solution chemistry. PREREQ: CHEM 351. S

CHEM 365 Synthetic Methods 2 credits. Practical aspects of chemical synthesis: preparation, purification, and spectral interpretation for organic and inorganic molecules. PREREQ: CHEM 211 and CHEM 304. F

CHEM 366 Synthetic Methods Laboratory 2 credits. Advanced laboratory methods for preparation of organic and inorganic molecules: synthetic techniques, air-sensitive methods, purification techniques, and characterization methods. PREREQ: CHEM 365. S

CHEM 391 Seminar 1 credit. A formal introduction to scientific presentations including a short student presentation on selected library or laboratory research. PREREQ: CHEM 301, 303 or permission of instructor. R1

CHEM g400 Practicum in Physical Science 2 credits. Practical problems associated with equipping, setting up and operating laboratories in chemistry. PREREQ: permission of department Chair. D

CHEM g407 Inorganic Chemistry II 2 credits. Structure and reactivity of inorganic compounds including coordination compounds; acid-base chemistry and nonaqueous solvent systems; organometallic chemistry and other special topics of current interest. PREREQ: CHEM 211 and CHEM 352, or permission of instructor. F

CHEM g433 Environmental Chemistry 2 credits. Application of chemical principles and calculations to investigate environmental issues. Natural systems, environmental degradation and protection, and the methodology of chemical detection and monitoring. PREREQ: CHEM 232 and CHEM 234 or permission of instructor. F

CHEM g437 Environmental Chemistry Laboratory 1 credit. Utilizes both structured and self-designed field and classroom experiments to emphasize principles of environmental chemistry. COREQ: CHEM g433 or permission of instructor. F

CHEM g453 Modern Experimental Physical Chemistry 2 credits. Magnetic, optical and electrical properties of materials, calorimetry, voltammetry, optical and laser spectroscopic techniques. PREREQ: CHEM 334 and CHEM 352. F

CHEM g481 Independent Problems in Chemistry 1-4 credits. Directed library and laboratory research. Courses g481 and g482 may be repeated for up to 6 credits. PREREQ: CHEM 352. F

CHEM g482 Independent Problems in Chemistry 1-4 credits. Directed library and laboratory research. Courses g481 and g482 may be repeated for up to 6 credits. PREREQ: CHEM 352. S

CHEM 485 Senior Research 1-4 credits. The student will be introduced to research techniques, development of manipulative skills, instrumental methods, laboratory notebook keeping, data interpretation and library research. PREREQ: Acceptance into the B.S./M.S. program. May be repeated for up to 8 credits. D

CHEM g491 Seminar 1 credit. A formal introduction to the chemical literature including electronic methods of literature searching. A detailed treatment of methods for presenting scientific seminars including a full-length student presentation on selected library or laboratory research. COREQ: CHEM g481, g482, 485, or permission of instructor. F, S

Department of Communication and Rhetorical Studies

Chair and Professor: DiSanza
Professors: Gribas, Legge, Loeb
Associate Professor: Partlow, Lefevre
Lecturers: Broadway, Corrigan, Czerpinski, Dixon, M. Eckert, T. Eckert, Haan, Leek, Sowell, Underwood

The Department of Communication and Rhetorical Studies administers a Bachelor of Arts or Bachelor of Science degree in Communication and Rhetorical Studies, with emphases in Organizational Communication or Rhetorical Studies; an Associate of Arts degree in Communication and Rhetorical Studies; and minors in Organizational Communication and Rhetorical Studies.

Bachelor of Arts or Bachelor of Science in Communication and Rhetorical Studies

The primary objectives related to the Bachelor of Arts and Bachelor of Science programs in Communication and Rhetori-
The ability to use effective information research strategies.
5. The ability to use effective information in interpersonal settings.
6. An understanding of the role of communication in interpersonal settings.
7. An understanding of the role of communication in group settings.
8. An understanding of the role of communication in organizational settings.
9. An understanding of the role of communication in historical/current events.
10. Knowledge and skill applicable to graduates’ professional lives.
11. Knowledge and skill applicable to graduates’ personal lives.

The Communication and Rhetorical Studies curriculum is structured on the basic assumption that people’s ability to communicate orally in an effective manner is vital to successful social interaction. Two areas of emphasis are offered: Rhetorical Studies and Organizational Communication. The area of Rhetorical Studies is the humanistic study of speech from its origins in ancient Greece to the role of rhetoric in shaping the modern world. Organizational Communication is the social scientific study of the role of communication in the creation of interpersonal, small group, and organizational structures. In both areas of emphasis, our program is designed to meet a fourfold purpose: to study the nature and process of oral communication; to develop the student’s ability to communicate clearly, confidently, and rationally; to understand the critical role of rhetoric in shaping historical events; to understand the methods of the social sciences and analyze communication situations according to those methods. Students who study in our program receive a broad liberal arts background which may lead to careers in law, business, public relations, management, teaching, the ministry, politics, broadcasting, personnel work, and public administration.

Select one of the following emphases:

**Emphasis in Organizational Communication**

**Required Major Core Courses:**
- COMM 201 Business and Professional Speaking 3 cr
- COMM 208 Group Communication 3 cr
- COMM 305 Argumentation and Debate 3 cr
- COMM 308 Persuasion 3 cr
- COMM 408 Communication Theory 3 cr
- COMM 436 Rhetorical Criticism 3 cr
- COMM 437 Rhetorical Theory 3 cr
- COMM 441 Interpersonal Communication 3 cr

**Required Organizational Communication Emphasis Courses:**
- COMM 254 Organizational Communication 3 cr
- COMM 452 Management Communication 3 cr
- COMM 454 Management Communication 3 cr

**Organizational Communication Emphasis Electives:** (Must take 12 credits from the following:)
- COMM 313 Academic Internship 1-6 cr
- COMM 355 Nonverbal Communication 3 cr
- COMM 440 Gender and Communication 3 cr
- COMM 442 American Rhetoric and Public Address 3 cr
- COMM 447 Rhetoric of Hitler and Churchill 3 cr
- COMM 451 Recent Rhetorical Issues 3 cr

**TOTAL: 45 cr**

**Emphasis in Rhetorical Studies**

**Required Major Core Courses:**
- COMM 201 Business and Professional Speaking 3 cr
- COMM 208 Group Communication 3 cr
- COMM 305 Argumentation and Debate 3 cr
- COMM 308 Persuasion 3 cr
- COMM 408 Communication Theory 3 cr
- COMM 436 Rhetorical Criticism 3 cr
- COMM 437 Rhetorical Theory 3 cr
- COMM 441 Interpersonal Communication 3 cr

**Required Rhetorical Studies Emphasis Courses:**
- COMM 442 American Rhetoric and Public Address 3 cr
- COMM 447 Rhetoric of Hitler and Churchill 3 cr
- COMM 451 Recent Rhetorical Issues 3 cr

**TOTAL: 45 cr**

**Associate of Arts in Communication and Rhetorical Studies**

Students seeking an Associate of Arts degree in Communication and Rhetorical Studies must complete the following:

All of the General Education Goals (10A and 10B) 37-53* cr
- COMM 101 Principles of Speech 3 cr
- COMM 111 Speech Practicum 1-4 cr
- COMM 201 Business and Professional Speaking 3 cr
- COMM 208 Group Communication 3 cr
- THEA 118 Oral Interpretation: Textual Analysis 3 cr
- THEA 131 Voice and Diction 2 cr
- Additional COMM elective 3 cr
- Electives to bring total to 64 cr variable

* The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.

**Minor in Organizational Communication**

**Required Minor Core Courses:**
- COMM 305 Argumentation and Debate 3 cr
- COMM 308 Persuasion 3 cr
- COMM 441 Interpersonal Communication 3 cr

**Required Organizational Communication Minor Courses:**
- COMM 254 Organizational Communication 3 cr
- COMM 454 Management Communication 3 cr

**Organizational Communication Minor Electives:** (Must take 6 credits from the following):
- COMM 201 Business and Professional Speaking 3 cr
- COMM 208 Group Communication 3 cr
- COMM 313 Internship 1-3 cr
- COMM 355 Nonverbal Communication 3 cr
- COMM 408 Communication Theory 3 cr
- COMM 452 Conflict Management 3 cr

**TOTAL: 21 cr**

**Minor in Rhetorical Studies**

**Required Minor Core Courses:**
- COMM 305 Argumentation and Debate 3 cr
- COMM 308 Persuasion 3 cr
- COMM 441 Interpersonal Communication 3 cr

**Required Rhetorical Studies Minor Courses:**
- COMM 436 Rhetorical Criticism 3 cr
- COMM 437 Rhetorical Theory 3 cr

**Rhetorical Studies Minor Electives:** (Must take 6 credits from the following):
- COMM 201 Business and Professional Speaking 3 cr
- COMM 208 Group Communication 3 cr
- COMM 305 Argumentation and Debate 3 cr
- COMM 441 Interpersonal Communication 3 cr
- COMM 452 Conflict Management 3 cr
- COMM 454 Management Communication 3 cr

**TOTAL: 45 cr**
Communication and Rhetorical Studies

Courses

COMM 101 Principles of Speech 3 credits. Basic course in oral communication that emphasizes the theory and practice of informative speaking, logical argumentation, persuasion, small group discussion, and interpersonal communication. Designed to explain the humanistic nature of human communication and to improve a student’s ability to express ideas orally. Satisfies Goal 2 of the General Education Requirements. F, S

COMM 111 Speech Practicum 1-4 credits. Students speak on timely topics to community organizations in the symposium program. May be repeated for up to 4 credits. F, S

COMM 115 Intercollegiate Debate 1-3 credits. Students prepare for regional- and national-level intercollegiate debate tournament competition. Students may receive up to eight credits in speech and drama activities. PREREQ: Debate team member. S

COMM 201 Business and Professional Speaking 3 credits. Advanced speech course emphasizes practical speaking needs of business and professional people. PREREQ: COMM 101. F, S

COMM 208 Group Communication 3 credits. Examines the process of human communication among members of organized groups. Topics studied include leadership development, norms, roles, cohesion, problem-solving techniques, and conflict. S

COMM 254 Organizational Communication 3 credits. Survey course covering the development of the organizational communication field. Students are introduced to various perspectives and theories for understanding and evaluating the role of communication in organizational systems. F

COMM 313 Internship 1-6 credits. Department approval required. Directed field experience with an approved agency. Learning contract required. May be repeated for up to 6 credits. PREREQ: Permission of instructor and department. F, S

COMM 315 Intercollegiate Debate 1-3 credits. Students prepare for regional- and national-level intercollegiate debate tournament competition. Students may receive up to eight credits in speech and drama activities. PREREQ: Debate team member. F

COMM 316 Intercollegiate Debate 1-3 credits. Students prepare for regional- and national-level intercollegiate debate tournament competition. Students may receive up to eight credits in speech and drama activities. PREREQ: Debate team member. S

COMM 355 Nonverbal Communication 3 credits. Examines models of social science and how these contribute to the development of communication theory. Examines a variety of communication theories in interpersonal, small group, organizational contexts. Focus on history of theory development in communication. S

COMM 360 Research Methods 3 credits. Study and application of various theories and methods of research methods including Aristotelian and Burkean principles. PREREQ: COMM 437 or permission of instructor. S

COMM 372 Rhetoric and Communication 3 credits. Principal Rhetorical studies from the Greeks through the 18th century and contemporary American theorists. Writings of Plato, Aristotle, Cicero, Quintilian, Campbell, Blair, Whately, and Burke are stressed. F

COMM 375 Gender and Communication 3 credits. Course examines communication arenas from a perspective that focuses on gender and includes study of similarities and differences in female/male patterns. Topics include nonverbal, organizational, language, family and friendship. S

COMM 420 Interpersonal Communication 3 credits. Largely theoretical course, drawing from research in social sciences as well as speech. Focuses on communication variables associated with interpersonal communication including awareness of self/others, nature/functions of language, nonverbal behavior, norms, and roles. F

COMM 441 Interpersonal Rhetoric 3 credits. Rhetorical theory and practice of these influential leaders and the impact of their persuasion. Topics include Hitler’s oratory, Nazi propaganda, and Churchill’s World War II speeches. F

COMM 451 Recent Rhetorical Issues 3 credits. Study of the rhetoric of contemporary issues such as the Vietnam War, the Black revolution, and other current political and social topics, including the rhetoric of ongoing election campaigns. F

COMM 452 Conflict Management 3 credits. Examines the dynamics of everyday conflicts across a variety of settings, from personal to organizational. Principles of conflict, similar across all communicative contexts, are emphasized. Theory and its application are given equal importance. F

COMM 454 Management Communication 3 credits. Examines the communication goals and functions unique to organizational managers and leaders. Topics studied include socialization and training, leader-member relationships, incentive based systems of motivation, employee identification and commitment, and organizational development. S

COMM 491 Independent Research Projects 1-2 credits. Under the supervision of professors in the various areas of communication, students will prepare reports and carry out projects designed to promote professional growth. F, S

LEAD Courses

LEAD 201 Foundations of Leadership 3 credits. Introductory exploration of the modern dimensions of leadership. Students will link current theory and practices to personal self-assessment and behavioral applications. F, S

LEAD 360 Student Leadership Practicum 1-3 credits. Supervised leadership experience through placement in a campus or community organization. Includes discussion and analysis with peers. May be for up to 3 credits. PREREQ: LEAD 201. F, S

LEAD 480 Leadership Capstone 3 credits. Capstone overview for participants in the Leadership Minor, challenging the students to integrate their previous course work within the minor, and emphasizing the importance of community involvement, service, and ethical behavior. PREREQ: LEAD 360 and permission of the instructor. S

Department of Economics

Chair and Professor: Stegner Professors: Benson, Norman, Tokle Associate Professors: Green, Hill Visiting Assistant Professor: Yik Emeritus Faculty: Hofman

Program Goals

The goal of the Department of Economics is to help students prepare for a career requiring a bachelor’s degree in economics and
for graduate study. In order for a student to be successful in these pursuits, the following skills must be obtained:

1. Learn how economists interpret and apply economic data to understand and predict economic events.

2. Develop an ability to objectively and critically identify and analyze economic issues.

3. Acquire an understanding of the theory and technical analysis required for graduate study.

One way or another, economic forces affect every individual, and thus an understanding of economics helps individuals cope with and adapt to the rapidly changing global marketplace. Most issues discussed at local, domestic, and international centers have an economic component. As our society moves through the twenty-first century, issues such as the role and size of the government, to what extent nation’s borders remain open to the foreign sector, the trade-off between the quality of the environment and the quantity of production, and the distribution of a country’s income between labor and other resources will continue to dominate the national agenda. Indeed, the technological advances of the past century, which could have alleviated problems of scarcity and the need to make difficult decisions, seem only to have exacerbated the trade-offs nations face and the competing uses for the world’s limited resources.

While it is true that to be hired with the title of economist generally requires graduate study, there are ample employment opportunities for those who achieve a baccalaureate degree. An economics degree is an excellent background for careers in banking, real estate, litigation analysis, planning, government, bond trading, financial analysis, teaching, and a host of other employment opportunities. An economics background is also excellent preparation for graduate study in economics, law, business and international relations.

The Economics Department offers programs leading to Bachelor of Arts and Bachelor of Science degrees. A student may choose an option in economic theory, applied economics, or law and economics.

Economic Theory
This option provides a broad-based background to the many specialties within the realm of economics. It provides a comprehensive overview to those who plan to pursue graduate study in Economics. It is also appropriate as a terminal degree for those who seek a diverse background in Economics.

Applied Economics
This option is designed for students wishing to major in business economics, political economy, or any other applied area approved by the student’s departmental advisor.

Law and Economics
Economics is widely viewed as a very good major for students planning on attending law school. This option provides a clearly specific path for those planning to pursue a career in the legal profession.

Bachelor of Arts or Bachelor of Science in Economics
The following courses are required in addition to the General Education Requirements for the B.A. or B.S. degree. Recommended electives for economics majors are political science, finance, or mathematics depending upon the student’s specific interests.

Option 1—
Economic Theory

Required Courses:

- ECON 201-202 Principles of Macroeconomics 3 cr
- ECON 301 Macroeconomic Theory 3 cr
- ECON 302 Microeconomic Theory 3 cr
- ECON 306 History of Economic Doctrines 3 cr
- ECON 384 Mathematics for Economics 3 cr
- ECON 474 Current Economic Problems 3 cr
- ECON 485 Econometrics 3 cr
- MATH 170 Calculus I 4 cr
- MATH 253 Introduction to Statistics 3 cr
- Plus 12 additional hours of upper-division courses in economics and 6 additional hours in advisor approved courses.

Option 2—
Applied Economics

Required Courses:

- ECON 201-202 Principles of Macroeconomics 6 cr
- ECON 301 Macroeconomic Theory 3 cr
- ECON 302 Microeconomic Theory 3 cr
- ECON 474 Current Economic Problems 3 cr
- ECON 485 Econometrics 3 cr
- MATH 160 Applied Calculus 3 cr
- MATH 170 Calculus I 4 cr
- MATH 253 Introduction to Statistics 3 cr
- Plus 12 additional upper-division economics credits*

* All electives shall be selected by the student with prior approval from a Department of Economics faculty member.

Option 3—
Law and Economics

Students choosing this option must obtain a B.A. rather than a B.S., and must satisfy Goal 8 with PHIL 103.

Required Courses:

- ECON 201 Principles of Macroeconomics 3 cr
- ECON 202 Principles of Microeconomics 3 cr
- ECON 301 Macroeconomic Theory 3 cr
- ECON 302 Microeconomic Theory 3 cr
- ECON 474 Current Economic Problems 3 cr
- ECON 485 Internship* 1-9 cr
- ECON 485 Econometrics 3 cr
- ENGL 401 Advanced Composition 3 cr
- PHIL 201 Introduction to Logic 3 cr
- MATH 160 Applied Calculus 3 cr
- MATH 170 Calculus I 4 cr
- MATH 253 Introduction to Statistics 3 cr

Plus 18 credits chosen from the following:

- ANTH 478 Federal Indian Law 3 cr
- ANTH 479 Tribal Governments (max 3 credits) 3 cr
- HCA 375 Health Law and Bioethics 3 cr
- M C 440 Media Law and Ethics 3 cr
- MGT 362 Business Law 3 cr
- MGT 480 Labor and Employment Law 3 cr
- PHIL 450 Ethical Theory 3 cr
- POLS 342 American Legal Systems 3 cr
- POLS 345 Jurisprudence and Legal Systems 3 cr
- POLS 442 Constitutional Law 3 cr
- POLS 443 Constitutional Law 3 cr
- PSYC 463 Clinical Psychology and the Law 3 cr
- Plus 12 additional hours of upper-division economics courses (excluding additional ECON 482 credits)

* All electives shall be selected by the student with prior approval from a Department of Economics faculty member.

Economics Minor

Required Courses:

- ECON 201-202 Principles of Macroeconomics 6 cr
- ECON 301 Macroeconomic Theory 3 cr
- ECON 302 Microeconomic Theory 3 cr
- Plus 9 additional upper-division economics credits.*

TOTAL: 21 cr

* All electives shall be selected by the student with prior approval from a Department of Economics faculty member.

Economics Courses

The following courses satisfy Goal 11 of the General Education Requirements: ECON 100, ECON 201, ECON 202.

ECON 100 Economic Issues 3 credits. Introduction to current economic problems as they affect such matters as inflation, unemployment, discrimination, war, peace, taxes, retirement, welfare, education, profits, poverty, pollution, and the quality of life. This course may not be taken if both ECON 201 and 202 have been taken. Satisfies Goal 11 of the General Education Requirements. F, S, Su

ECON 201 Principles of Macroeconomics 3 credits. Introduction to economic analysis, including the structure, processes, and problems
of modern economic society. Satisfies Goal 11 of the General Education Requirements. F, S, Su
ECON 202 Principles of Microeconomics 3 credits. Introduction to economic analysis, including the structure, processes, and problems of modern economic society. Satisfies Goal 11 of the General Education Requirements. F, S, Su
ECON 301 Macroeconomic Theory 3 credits. Techniques of measuring aggregate economic activity including theories of general equilibrium. PREREQ: ECON 201 and ECON 202. F
ECON 302 Microeconomic Theory 3 credits. Theory of partial equilibrium, including economics of the firm, price theory, competition, monopoly, and linear processes. PREREQ: ECON 201 and ECON 202. S
ECON 303 Economics of Health Care 3 credits. Study of the economics of the health care sector. The class will focus on the allocation of resources to health care, financing, and distribution of health care services. PREREQ: ECON 201 and ECON 202. S
ECON 304 History of Economic Doctrines 3 credits. Survey of the development of economic thought from early times to the present, including doctrines developed by Aristotle, Aquinas, Smith, Malthus, Ricardo, Marx, Mill, Marshall, Veblen, and Keynes. PREREQ: ECON 201 and ECON 202. S
ECON 323 Economic History 3 credits. The origin and development of modern economic institutions and the study of economic forces which have contributed to this development. PREREQ: ECON 201 and ECON 202. F
ECON 331 Money and Banking 3 credits. Principles of money, credit, and government controls of monetary institutions. History and organization of the money and banking systems of the United States. PREREQ: ECON 201 and ECON 202. S
ECON 333 International Economics 3 credits. Study of the principles and practices of international trade including the historical and economic background of foreign trade tariffs, foreign exchange, international finance, international balance of payments, and contemporary problems and policies in the field of foreign trade. PREREQ: ECON 201 and ECON 202. F
ECON 338 Public Finance 3 credits. Study of government revenues, expenditures, and debt management, including an analysis of the effects of these governmental activities on the American economy. PREREQ: ECON 201 and ECON 202. S
ECON 341 Labor Economics 3 credits. History of the American labor movement and the structure and functioning of the labor market. PREREQ: ECON 201 and ECON 202. D
ECON 352 Environmental Economics 3 credits. An introduction to the economic principles relating to pollution control, the use of exhaustible natural resources, and conservation. Federal, state and local policy and legislation concerning the environment is examined. PREREQ: ECON 201 and ECON 202. S
ECON 384 Mathematics for Economics 3 credits. Introductory study of mathematical methods that are frequently used in economics. Includes their application to basic economic theory. PREREQ: ECON 201 and 202 or permission of instructor. S
ECON 406 History of Economic Development 3 credits. Study of the economics of the health sector. The class will focus on the allocation of resources to health care, financing, and distribution of health care services. PREREQ: ECON 201 and ECON 202. F
ECON 407 Industrial Organization 3 credits. Industrial organization extends the theory of the firm to examine firms’ strategic behavior, including methods to differentiate products and aggressive pricing schemes, and the government’s response to these activities. PREREQ: ECON 201 and ECON 202. D
ECON 411 Political Economy 3 credits. A critical introduction to the relationship between economic institutions and social analysis. The social implications of different views on economic concepts, such as the division of labor, capital, and value, are investigated from a classical, neoclassical and an institutional perspective. PREREQ: ECON 201 and ECON 202. D
ECON 433 Economic Development 3 credits. Theories and principles of economic development, characteristics, and problems of underdeveloped and developing countries, alternative techniques and policies for the promotion of growth and development. PREREQ: ECON 201 and ECON 202. D
ECON 439 State and Local Finance 3 credits. Study of taxation, borrowing and spending by state, city, county and other local governments. Taxing and spending patterns are evaluated and compared by states. PREREQ: ECON 201 and ECON 202. D
ECON 472 Comparative Economic Systems 3 credits. Study and comparison of the theories and practices found in various economic systems. Includes a study of both the free market and socialist planning. PREREQ: ECON 201 and ECON 202. D
ECON 474 Senior Seminar 3 credits. Discussion driven capstone class that integrates selected topics in economics. Students will be required to do economic research, and write on and discuss current economic issues. PREREQ: At least senior standing. S
ECON 482 Internship 1-9 credits. Directed student internship in economic organizations and businesses involving supervised work experience. The internship must be approved by the chair of the department. May be repeated for up to 9 credits. F, S, Su
ECON 485 Econometrics 3 credits. The application of statistical and mathematical methods to the analysis of economic data, with a purpose of giving empirical content to economic theories and verifying them or refuting them. PREREQ: ECON 201. ECON 202 and MATH 253. F
ECON g481 Independent Studies 1-3 credits. Individuals will be assigned independent projects for research under the supervision of a departmental faculty member. May be repeated for up to 6 credits. F, S, Su
ECON g491 Seminar 1-3 credits. F
ECON g492 Seminar 1-3 credits. S
ECON g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Department of English and Philosophy

Chair and Associate Professor: Engebretsen
Director of Philosophy and Professor: Wahl
Director of Graduate Studies and Associate Professor: A. Johnson
Director of American Studies Program and Professor: J. Attebery
Professors: B. Attebery, Baergen, Levenson, Schmidt, Westphal
Associate Professors: S. Adkison, Hellwig, M. Johnson, Klein, Launspach, Montgomery, Skidmore, Whitaker, Winston
Assistant Professors: J. Adkison, Goslee, Norman, Shutters, Wolter
Visiting Assistant Professor: Pelleti
Senior Lecturers: Flanigan, Norton, Person, Pfister
Lecturers: Donovan, Raymond
Associate Lecturers: Maughan, McCurdy
Assistant Lecturers: Blair, Dodd, Eckert, Hall, Hueter, S. Johnson, Lattin, Reedy, Schultz
Adjunct Faculty: Graham, J.H. Levenson, Keezer, Morris, Studebaker
Emeriti: Cantrill, Goldbeck, Huck, Jacob, Jensen, Kijimski, K. King, W. King, Mullin, Myers, Schow, Smith, Tate, D. Walsh, M. E. Walsh

The Department of English and Philosophy offers broad curricula in two humanistic disciplines. English studies include courses that treat the nature of language, courses that explore human experience as represented in imaginative literature, and courses that develop general and specialized writing skills. The philosophy curriculum examines such topics as the nature of reality and being,
the ways that knowledge is acquired, and the bases for ethical choices.

These curricula serve two broad purposes: 1) they contribute to the general education, the personal enrichment and fulfillment, of students in all disciplines, and 2) they lead to degrees with majors or minors. Specifically, the department offers the A.A., B.A., M.A., and D.A. in English, and the B.A. in philosophy. (Full descriptions of the graduate degree programs in English may be found in the Graduate Catalog.)

Equipped with an undergraduate degree in either English or philosophy, students are prepared to enter graduate degree programs, to pursue training in such professions as medicine, law, or religion, or to embark upon a great variety of careers in government/business/industry that demand broad, liberal arts perspectives and strong observational, fact-finding, analytical, and communication skills. Additionally, English majors (with proper certification) are well prepared for careers in secondary education.

English Program

The Department of English and Philosophy offers broad curricula in English studies which include courses that treat the nature of language, courses that explore human experience as represented in imaginative literature, and courses that develop general and specialized writing skills. Beyond contributing to students’ general education and the personal enrichment and fulfillment of students in all disciplines, courses in the English programs lead to Bachelor’s degrees as well as a range of minors. After graduation English students are prepared to embark upon a variety of careers which demand broad, liberal arts perspectives, and strong observational, fact-finding, analytical, and communications skills.

As such, the Department has articulated the following goals and student learning outcomes for students at the undergraduate level.

Mission and Goals

Undergraduate English programs in the Department of English and Philosophy provide students wishing to pursue a liberal arts education training in the study of language, literature, writing, and culture. Such training will provide students with strong communication skills, an ability to gather information and use it critically, an understanding of the function of language within the culture, and a historical and critical understanding of the role literature plays within the human experience.

Student Learning Outcomes

1. Undergraduate English students will write in a variety of modes and genres suitable to the demands of the given rhetorical situation.

2. Undergraduate English students will formulate research problems, do effective research, and incorporate the results of their research into their own writing.

3. Undergraduate English students will read effectively and analyze critically literary texts and will understand the theoretical underpinnings of this process.

4. Undergraduate English students will understand the significance of texts within their historical and cultural contexts.

5. Undergraduate English students will understand language as a medium of common linguistic principles; they will understand the relationship of these linguistic principles to communication and expression.

Philosophy Program

The Philosophy Program offers courses on the history of philosophy, philosophical issues, and the cognitive skills required in philosophy. These offer students a deeper understanding of our past and our place in the world, as well as helping them to develop analytic and writing skills that are valuable in all disciplines. Students take either Introduction to Philosophy (PHIL 101) or Introduction to Ethics (PHIL 103) to meet General Education Requirement Goal 8. The Philosophy Program offers a Bachelor’s degree and a minor to our undergraduate students. After graduation, philosophy students are well prepared to enter law school or graduate degree programs, or to pursue careers that require strong analytical and writing skills.

Mission and Goals:

The Philosophy Program provides students pursuing a liberal arts education training in the history of philosophy, philosophical issues, and the analytic skills required in philosophy. This training will provide students with strong analytical and writing skills, the ability to read philosophical texts critically, the ability to formulate and defend philosophical positions, and a grasp of the historical context and broader implications of philosophical positions.

Student Learning Outcomes:

1. Undergraduate Philosophy students will be able to write clear, organized, and grammatically correct prose.

2. Students will be able to read philosophical texts critically.

Bachelor of Arts in English

Students who wish to major in English will select the General Option, Professional Writing Option, or Creative Writing Option. Each option requires completion of 45 semester hours as specified (excluding lower division composition courses—ENGL 90, 101, 102, 103, 105).

Option 1—General

Category I—Literature (27 credits)

Required:

ENGL 211 Introduction to Literary Analysis 3 cr
ENGL 491 Senior Seminar 3 cr

Plus two courses from the following, one of which must be from 267/268 or 277/278:

ENGL 257 Survey of World Literature I 3 cr
ENGL 258 Survey of World Literature II 3 cr
ENGL 267 Survey of English Literature I 3 cr
ENGL 268 Survey of English Literature II 3 cr
ENGL 277 Survey of American Literature I 3 cr
ENGL 278 Survey of American Literature II 3 cr

Plus one course from the following:

ENGL 321 Genre Studies in Drama 3 cr
ENGL 322 Genre Studies in Poetry 3 cr
ENGL 323 Genre Studies in Prose Fiction 3 cr
ENGL 324 Genre Studies in Prose Non-Fiction 3 cr
ENGL 327 Special Topics in Genre 3 cr

Plus two courses from the following:

ENGL g461 Classical Literature 3 cr
ENGL g462 Medieval Literature 3 cr
ENGL g463 Renaissance Literature 3 cr
ENGL g464 Seventeenth-Century Literature 3 cr
ENGL g465 Eighteenth-Century Literature 3 cr
ENGL g466 Early Nineteenth-Century Literature 3 cr
ENGL g467 Late Nineteenth-Century Literature 3 cr
ENGL g468 Early Twentieth-Century Literature 3 cr
ENGL g469 Contemporary Literature 3 cr

Plus one course from the following:
ENGL g472 Proseminar in a Major Literary Figure 3 cr
ENGL g473 Chaucer 3 cr
ENGL g474 Milton 3 cr
ENGL g476 Shakespeare 3 cr

Plus one course from the following:
ENGL 328 Gender in Literature 3 cr
ENGL 356 Ethnicity in Literature 3 cr
ENGL g470 Post-Colonial Literature 3 cr
ENGL g489 American Indian Literature 3 cr

Category II—Language Studies (6 credits)

Required:
ENGL 280 Grammar and Usage 3 cr
OR
ENGL 281 Introduction to Language Studies 3 cr

Plus one course from the following:
ENGL g480 Varieties of American English 3 cr
ENGL g481 Studies in Grammar 3 cr
ENGL g482 Linguistic Analysis 3 cr
ENGL g486 Old English 3 cr
ENGL g487 History of the English Language 3 cr

Category III—Writing (3 credits)

Required:
ENGL 301 Writing About Literature 3 cr

Category IV—Electives (9 credits)

An additional 9 credits of English, of which at least 6 credits must be in upper-division courses.

GENERAL ENGLISH MAJOR TOTAL: 45 cr

Option 2—
Professional Writing

Note: Students electing the writing option in the professional writing track are strongly encouraged to minor in a discipline relevant to their professional interests.

Category I—Composition and Communication (33 credits)

Required:
ENGL 280 Grammar and Usage 3 cr
OR
ENGL 281 Introduction to Language Studies 3 cr
ENGL 301 Writing About Literature 3 cr
ENGL 307 Technical Writing 3 cr
ENGL 308 Business Communications 3 cr
ENGL g401 Advanced Composition and Prose Analysis 3 cr
ENGL 410 Writing Internship 3 cr
PHIL 201 Introduction to Logic 3 cr

Plus one course from the following:
ENGL 206 Creative Writing Workshop 3 cr
ENGL 306 Creative Writing Workshop 3 cr
ENGL g406 Advanced Creative Writing Workshop 3 cr

Plus three courses from the following:
ENGL 410 Writing Internship (3 further credits) 3 cr
M C 215 Graphic Design 3 cr
OR
M C 415 Advanced Graphic Design 3 cr
M C 241 Introduction to Public Relations 3 cr
M C 230 Introduction to Photography 3 cr
OR
M C 410 Advanced Photography 3 cr
M C 325 Editing for Print Media 4 cr
M C 327 Magazine Article Writing 3 cr
M C 355 Advertising Copywriting 3 cr
M C 445 Editorial Writing 3 cr
COMM g437 Rhetorical Theory 3 cr

Category II—Literature (12 credits)

Required:
ENGL 211 Introduction to Literary Analysis 3 cr

Plus one course from the following:
ENGL 257 Survey of World Literature I 3 cr
ENGL 267 Survey of English Literature I 3 cr
ENGL 277 Survey of American Literature I 3 cr

Plus one course from the following:
ENGL 258 Survey of World Literature II 3 cr
ENGL 268 Survey of English Literature II 3 cr
ENGL 278 Survey of American Literature II 3 cr

Plus one course from the following:
ENGL 321 Genre Studies in Drama 3 cr
ENGL 322 Genre Studies in Poetry 3 cr
ENGL 323 Genre Studies in Prose Fiction 3 cr
ENGL 324 Genre Studies in Prose Non-Fiction 3 cr

PROFESSIONAL WRITING ENGLISH MAJOR TOTAL: 45 cr

Option 3—Creative Writing

Note: Students electing the writing option in the creative writing track are strongly encouraged to minor in a discipline relevant to their professional interests.

Category I—Composition and Communication (33 credits)

Required:
ENGL 206 Creative Writing Workshop 3 cr
ENGL 280 Grammar and Usage 3 cr
OR
ENGL 281 Introduction to Language Studies 3 cr
ENGL 301 Writing About Literature 3 cr
ENGL 306 Creative Writing Workshop 3 cr
ENGL g401 Advanced Composition and Prose Analysis 3 cr
ENGL g406 Advanced Creative Writing Workshop 3 cr
ENGL 448 Senior Creative Project 3 cr

Plus one course from the following:
ENGL 307 Technical Writing 3 cr
ENGL 308 Business Communications 3 cr

Plus one course from the following:
ENGL g480 Varieties of American English 3 cr
ENGL g481 Studies in Grammar 3 cr
ENGL g485 Linguistic Analysis 3 cr
ENGL g487 History of the English Language 3 cr

Plus two courses (at least one upper division) from the following:
ART g422 World Arts 3 cr
OR
ART g423 Nineteenth Century Art 3 cr
OR
ART g424 Twentieth Century Art 3 cr
OR
ART g425 Contemporary Art Forms 3 cr
ENGL 305 Art of the Films II 3 cr
ENGL 212 Introduction to Folklore 3 cr
OR
ENGL g490 Folklore 3 cr
OR
ENGL g492 Folklore and Literature 3 cr
M C 215 Graphic Design 3 cr
OR
M C 415 Advanced Graphic Design 3 cr
M C 230 Introduction to Photography 3 cr
OR
M C 410 Advanced Photography 3 cr
M C 300 Television Production 3 cr
M C 327 Magazine Article Writing 3 cr
THEA 251 Beginning Acting 3 cr
OR
THEA 252 Intermediate Acting 3 cr

Category II—Literature (12 credits)

Required:
ENGL 211 Introduction to Literary Analysis 3 cr

Plus one course from the following:
ENGL 257 Survey of World Literature I 3 cr
ENGL 267 Survey of English Literature I 3 cr
ENGL 277 Survey of American Literature I 3 cr

Plus one course from the following:
ENGL 321 Genre Studies in Drama 3 cr
ENGL 322 Genre Studies in Poetry 3 cr
ENGL 323 Genre Studies in Prose Fiction 3 cr
ENGL 324 Genre Studies in Prose Non-Fiction 3 cr

PROFESSIONAL WRITING ENGLISH MAJOR TOTAL: 45 cr

Option 3—Creative Writing

Note: Students electing the writing option in the creative writing track are strongly encouraged to minor in a discipline relevant to their professional interests.

Category I—Composition and Communication (33 credits)

Required:
ENGL 206 Creative Writing Workshop 3 cr
ENGL 280 Grammar and Usage 3 cr
OR
ENGL 281 Introduction to Language Studies 3 cr
ENGL 301 Writing About Literature 3 cr
ENGL 306 Creative Writing Workshop 3 cr
ENGL g401 Advanced Composition and Prose Analysis 3 cr
ENGL g406 Advanced Creative Writing Workshop 3 cr
ENGL 448 Senior Creative Project 3 cr

Plus one course from the following:
ENGL 307 Technical Writing 3 cr
ENGL 308 Business Communications 3 cr

Plus one course from the following:
ENGL g480 Varieties of American English 3 cr
ENGL g481 Studies in Grammar 3 cr
ENGL g485 Linguistic Analysis 3 cr
ENGL g487 History of the English Language 3 cr

Plus two courses (at least one upper division) from the following:
ART g422 World Arts 3 cr
OR
ART g423 Nineteenth Century Art 3 cr
OR
ART g424 Twentieth Century Art 3 cr
OR
ART g425 Contemporary Art Forms 3 cr
ENGL 305 Art of the Films II 3 cr
ENGL 212 Introduction to Folklore 3 cr
OR
ENGL g490 Folklore 3 cr
OR
ENGL g492 Folklore and Literature 3 cr
M C 215 Graphic Design 3 cr
OR
M C 415 Advanced Graphic Design 3 cr
M C 230 Introduction to Photography 3 cr
OR
M C 410 Advanced Photography 3 cr
M C 300 Television Production 3 cr
M C 327 Magazine Article Writing 3 cr
THEA 251 Beginning Acting 3 cr
OR
THEA 252 Intermediate Acting 3 cr

Category II—Literature (12 credits)

Required:
ENGL 211 Introduction to Literary Analysis 3 cr

Plus one course from the following:
ENGL 257 Survey of World Literature I 3 cr
ENGL 267 Survey of English Literature I 3 cr
ENGL 277 Survey of American Literature I 3 cr

Plus one course from the following:
ENGL 321 Genre Studies in Drama 3 cr
ENGL 322 Genre Studies in Poetry 3 cr
ENGL 323 Genre Studies in Prose Fiction 3 cr
ENGL 324 Genre Studies in Prose Non-Fiction 3 cr

PROFESSIONAL WRITING ENGLISH MAJOR TOTAL: 45 cr

Each student in this option will be assigned a major advisor and a committee composed of members of the creative writing program. This committee will be responsible for evaluating the student’s creative project in the genre of the student’s choice. In addition, each student will be required to present the project material in
Minors in English

Many students take English courses as electives to enhance their studies in other areas or as preparation for professional work. The Department of English and Philosophy offers three minors in English—one general minor and two specialized minors in writing—for students who wish to receive recognition for substantial training in literature and writing. Lower division composition courses—ENGL 90, 101, 102, and 105—do not count toward completion of these minors.

Minor in English: General

Twenty-one hours of credit in English, 12 of which must be in upper division courses, including either ENGL 301 or ENGL 307.

Minor in English: Writing

Twenty-one hours of credit in English, including ENGL 280 or 281; 301, and 487, plus four other courses, of which at least two must be upper-division, from among the following courses: ENGL 107, 206, 306, 307, g401, g406, g481, g485, PHIL 201.

Minor in English: Creative Writing

A minimum of twenty-one (21) hours of credit in English, including at least one of the following courses: ENGL 206, 306, or 406; twelve (12) credits must be earned in upper-division courses, three (3) of which must be from ENGL 448 Senior Creative Writing Project.

Associate of Arts in English

Students seeking an Associate of Arts degree in English must complete the following:

Two additional 3 cr English courses (these may include courses from the above list but may not include lower division composition courses) 6 cr

Electives to bring total to 64 cr variable

*The number of credits required for the General Education requirements varies depending on the student's performance on proficiency or placement tests in English, foreign languages, and mathematics.

English Composition Program

For the requirements of the Secondary Subject Teaching Major in English, the Single Subject Teaching Major in English, and the Teaching Minor in English, see the descriptions in the Teacher Education Program.

Prerequisites and Standards

Students are encouraged to complete ENGL 101 (or its equivalent) before enrolling in other English courses. At least one semester of lower-division literature is prerequisite for 300-level literature courses; nine hours of course work in English (excluding lower-division composition courses) plus junior or senior standing is prerequisite for all 400-level literature courses; all upper-division language courses have ENGL 281 as a prerequisite (ENGL 280 is the prerequisite for ENGL 481). In general, students may take the second half of a two-semester literature sequence without having taken the first. To graduate as an English major, or with an English minor, a student must maintain at least a 2.25 grade point average in courses within the English curriculum.

Placement in English Composition Courses

Regulations and procedures governing student placement in the composition-course sequence are summarized under General Education Requirements, Goal 1. Students should consult with the Director of Composition concerning applicability toward Goal 1 requirements of writing courses taken at other institutions.

English Composition and Language Courses

ENGL 90 Basic Writing 0 credits (3 credit equivalent). For students not meeting ENGL 101 placement requirements. Prepares students for ENGL 101 by addressing fundamentals at sentence, paragraph, and essay levels, with emphasis on student’s own writing. Graded S/U. F, S, Su

ENGL 100 Introduction to Academic Writing and Speaking for Non-Native Speakers of English 3 credits. Explores culture-based academic expectations and conventions in communication. Graded S/U. PREREQ: ISU Admission; 500+ TOEFL or permission. F, S

ENGL 101 English Composition 3 credits. Course in which students read, analyze and write expository essays for a variety of purposes consistent with expectations for college-level writing in standard edited English. F, S, Su, W

ENGL 102 Critical Reading and Writing 3 credits. Writing essays based on readings. Focus on critical reading; research methods; gathering, evaluating, analyzing, and synthesizing ideas and evidence; documentation. Satisfies Goal 1 of the General Education Requirements when passed with at least C- grade. PREREQ: ENGL 101 or equivalent. F, S, Su

ENGL 105 Writing Laboratory 1-3 credits. Composition course designed for students who transfer from quarter-system schools and who are deficient in one or more hours in English composition credits. PREREQ: Permission of the Director of Composition. F, S, Su

ENGL 107 Nature of Language 3 credits. General survey of structure and use of language. Topics include language origins, descriptive and historical linguistics, language and culture, and history of the English language. Cross-listed as ANTH 107 and LANG 107. S

ENGL 206 Creative Writing Workshop 3 credits. Introduction to one or more forms of creative writing. May be repeated for up to 6 credits with permission of department. R1

ENGL 280 Grammar and Usage 3 credits. Introduction to the grammar of standard written English. The course is designed to give students an improved knowledge of grammar in order to improve usage and writing skills at both the sentence and paragraph level. S

ENGL 281 Introduction to Language Studies 3 credits. Introduction to basic concepts and models for the study of English phonology, morphology, syntax, and lexis. F, S

ENGL 301 Writing About Literature 3 credits. Academic discourse in English Studies. Students read examples of secondary essays, practice writing for an academic audience, and develop longer essays and more complex issues in writing. PREREQ: 60 credits including ENGL 211. F, S

ENGL 306 Creative Writing Workshop 3 credits. Advanced training in one or more of the forms of creative writing. May be repeated for...
ENGL 101 Introduction to Literature 3 credits. An examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. Satisfies Goal 7 of the General Education Requirements. R1

ENGL 102. F, S, Su

ENGL 110 Introduction to Literature 3 credits. Introduction to the critical reading of various literary genres, with attention to the interpretation and evaluation of representative texts. Satisfies Goal 7 of the General Education Requirements. F, S, Su

ENGL 115 Major Themes in Literature 3 credits. Introduction to literature through the study of one or more major themes that cross historical and cultural boundaries. May be repeated for up to 6 credits with different content. Satisfies Goal 7 of the General Education Requirements. F, S

ENGL 126 Art of Film I 3 credits. Course examines the creative process, aesthetic principles and historical background of cinematic arts. Screening of representative films and examination of critical works and theories are included. Satisfies Goal 6 of the General Education Requirements. S

ENGL 211 Introduction to Literary Analysis 3 credits. Introduction to major critical and theoretical approaches to literature. Includes close reading of various literary forms and reading of critical or theoretical works. Students engage in a variety of writing tasks. Students will be introduced to the use of secondary sources in writing and to MLA documentation style. PREREQ: English 102 or equivalent. F, S

ENGL 212 Introduction to Folklore/Oral Tradition 3 credits. Folklore genres and folk groups, including introductory experience in folklore fieldwork focused on study of a genre or group of genres within verbal, customary, or material culture. Cross-listed as ANTH 212. R1

ENGL 257 Survey of World Literature I (Beginnings through 16th Century) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. Satisfies Goal 7 of the General Education Requirements. R1

ENGL 258 Survey of World Literature II (17th Century to Present) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. Satisfies Goal 7 of the General Education Requirements. R1

ENGL 267 Survey of English Literature I (Beginnings through 18th Century) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. R1

ENGL 268 Survey of English Literature II (19th Century to Present) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. R1

ENGL 277 Survey of American Literature I (Beginnings to 1860) 3 credits. Examination of major works and authors in historical perspective with emphasis upon literary and cultural backgrounds. R1

ENGL 278 Survey of American Literature II (1860 to present) 3 credits. Examination of major works and authors in historical perspective with emphasis upon literary and cultural backgrounds. R1

ENGL 305 Art of the Film II 3 credits. In-depth investigation of cinematic art with focus on one or more of the following: genre, historical development, aesthetics, criticism, social impact, and artists. Screening of representative films. PREREQ: ENGL 126 or permission. D

ENGL 321 Genre Studies in Drama 3 credits. Comparative study of selected plays through recognition of generic forms and conventions, their origins and continuing evolution, and their theoretical basis. R2

ENGL 322 Genre Studies in Poetry 3 credits. Comparative study of selected poems through recognition of generic forms and conventions, their origins and continuing evolution, and their theoretical basis. Emphasis on lyric poetry. R2

ENGL 323 Genre Studies in Prose Fiction 3 credits. Comparative studies of varying forms and conventions in selected prose fiction, with

up to 6 credits with permission of department. PREREQ: ENGL 206 or equivalent. R1

ENGL 307 Technical Writing 3 credits. An intensive course covering skills and conventions pertinent to technical writing. Applications in disciplines or subjects of interest to the individual student. Especially appropriate for science, engineering, business, and pre-professional majors. PREREQ: 45 credits and ENGL 102. F, S

ENGL 308 Business Communications 3 credits. An advanced course in conventions of business communications, emphasizing purpose and audience. Focus on style, semantics, research skills, format, persuasion, and critical analysis and synthesis of data. PREREQ: 60 credits and ENGL 102. F, S, Su

ENGL 333 Teaching Writing One-on-One 3 credits. Theory and practice in individualized writing instruction; includes readings, class discussions, research and supervised tutoring. Emphasis on strategies for addressing particular problems of inexperienced, ESL, and learning disabled writers. PREREQ: Permission of instructor. F

ENGL 367 Language in the United States 3 credits. A survey of the languages of the United States (American Indian languages, immigrant languages, and ethnic and regional varieties of English) along with the social and political aspects of American language use. Cross-listed as ANTH 367. PREREQ: ANTH/LANG/ENGL 107. D

ENGL 401 Advanced Composition 3 credits. An advanced course in which students develop an independent style in writing such types of essays as the personal, biographical, argumentative, and critical. May contain prose analysis. PREREQ: ENGL 301, ENGL 307 or ENGL 308. R2

ENGL 406 Advanced Creative Writing Workshop 3 credits. Production and discussion of student writing. Study in a specific genre with emphasis on longer works. Undergraduate course may be repeated for up to 6 credits. PREREQ: ENGL 306 or permission of instructor. R1

ENGL 409 Literary Magazine Production 3 credits. Hands-on experience in literary magazine production: editing, proofreading, and design. Strategies for screening and selecting stories, poems, and reviews. Consideration of the role of the small press in national literary culture. S

ENGL 410 Writing Internship 1-6 credits. On-the-job writing experience in business, industry, or government settings. May be repeated for up to 6 credits. PREREQ: 90 credits and ENGL 301, ENGL 307, or ENGL 308. Graded S/U. F, S

ENGL 431 Teaching and Writing Projects: Special Topics 3 credits. Aids teachers of all grade levels and all academic subjects in developing skills in teaching writing. Combines composition theory and practical classroom exercises with daily writing and critiques. D

ENGL 448 Senior Creative Project 3 credits. Consultation course for creative writing majors and minors. The student produces and revises a substantial body of creative writing, reads relevant texts, writes a critical essay, and gives a public reading. D

ENGL 480 Varieties of American English 3 credits. In-depth study of various dialects of American English, including historical evolution of different dialects, effects of migration on dialects, and influences of non-English immigrant languages on development of American English. Field-work studying the Snake River dialects of Idaho. Cross-listed as ANTH 480. PREREQ: ANTH/ENGL/LANG 107 or ENGL 280 or ENGL 281. D

ENGL 481 Studies in Grammar 3 credits. Focus on the study of transformational-generative grammar and its application to sentence level problems. PREREQ: ENGL 280. R2

ENGL 484 Special Topics in Linguistics 3 credits. Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught. Cross-listed as ANTH g484 and LANG g484. PREREQ: ANTH/ENGL/LANG 107 or ENGL 280 or ENGL 281. D

ENGL 485 Linguistic Analysis 3 credits. Advanced topics course in the techniques of language analysis. Examples are phonology and morphology, semantics, or rhetorical grammar. May be repeated for up to 6 credits. PREREQ: ENGL 281. R2

ENGL 486 Old English 3 credits. Intensive study of the Old English language, with attention to its intrinsic structure and its relation to Middle and Modern English. R2

ENGL 487 History of the English Language 3 credits. Study of the linguistic and socio-political changes and developments in the English language. R2

ENGL 488 Introduction to Sociolinguistics 3 credits. Study of the patterned covariation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Cross-listed as ANTH 484. PREREQ: ANTH 107, ENGL 280 or ENGL 281, or permission of instructor. F

ENGL 497 Workshop 1-2 credits. Workshop aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Literature Courses

ENGL 110 Introduction to Literature 3 credits. Introduction to the critical reading of various literary genres, with attention to the interpretation and evaluation of representative texts. Satisfies Goal 7 of the General Education Requirements. F, S, Su

ENGL 115 Major Themes in Literature 3 credits. Introduction to literature through the study of one or more major themes that cross historical and cultural boundaries. May be repeated for up to 6 credits with different content. Satisfies Goal 7 of the General Education Requirements. F, S

ENGL 126 Art of Film I 3 credits. Course examines the creative process, aesthetic principles and historical background of cinematic arts. Screening of representative films and examination of critical works and theories are included. Satisfies Goal 6 of the General Education Requirements. S

ENGL 211 Introduction to Literary Analysis 3 credits. Introduction to major critical and theoretical approaches to literature. Includes close reading of various literary forms and reading of critical or theoretical works. Students engage in a variety of writing tasks. Students will be introduced to the use of secondary sources in writing and to MLA documentation style. PREREQ: English 102 or equivalent. F, S

ENGL 212 Introduction to Folklore/Oral Tradition 3 credits. Folklore genres and folk groups, including introductory experience in folklore fieldwork focused on study of a genre or group of genres within verbal, customary, or material culture. Cross-listed as ANTH 212. R1

ENGL 257 Survey of World Literature I (Beginnings through 16th Century) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. Satisfies Goal 7 of the General Education Requirements. R1

ENGL 258 Survey of World Literature II (17th Century to Present) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. Satisfies Goal 7 of the General Education Requirements. R1

ENGL 267 Survey of English Literature I (Beginnings through 18th Century) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. R1

ENGL 268 Survey of English Literature II (19th Century to Present) 3 credits. Examination of major works and authors in historical perspective, with emphasis upon literary and cultural backgrounds. R1

ENGL 277 Survey of American Literature I (Beginnings to 1860) 3 credits. Examination of major works and authors in historical perspective with emphasis upon literary and cultural backgrounds. R1

ENGL 278 Survey of American Literature II (1860 to present) 3 credits. Examination of major works and authors in historical perspective with emphasis upon literary and cultural backgrounds. R1

ENGL 305 Art of the Film II 3 credits. In-depth investigation of cinematic art with focus on one or more of the following: genre, historical development, aesthetics, criticism, social impact, and artists. Screening of representative films. PREREQ: ENGL 126 or permission. D

ENGL 321 Genre Studies in Drama 3 credits. Comparative study of selected plays through recognition of generic forms and conventions, their origins and continuing evolution, and their theoretical basis. R2

ENGL 322 Genre Studies in Poetry 3 credits. Comparative study of selected poems through recognition of generic forms and conventions, their origins and continuing evolution, and their theoretical basis. Emphasis on lyric poetry. R2

ENGL 323 Genre Studies in Prose Fiction 3 credits. Comparative studies of varying forms and conventions in selected prose fiction, with
attention to their origins, evolution, and theoretical basis. R2

ENGL 324 Genre Studies in Prose Non-Fiction 3 credits. Comparative study of varying forms and conventions in selected prose nonfiction, with attention to their origins, evolution, and theoretical basis. R2

ENGL 327 Special Topics in Genre 3 credits. Focused study of a generic tradition modified by thematic or historical contexts, with emphasis on topics not regularly treated in ENGL 321-324. D

ENGL 328 Gender in Literature 3 credits. Considers the role of gender in literature, including issues of authorship, reader communities, and literary representations of women and men. R2

ENGL 341 Bible as Literature 3 credits. Study of various types of literature found in the Bible, with a view of attaining greater knowledge of and appreciation for this aspect of the literary heritage. R2

ENGL 348 Independent Problems 1-3 credits. Consultation course for upperclassmen interested in problems in language and literature not adequately covered by regular offerings. PREREQ: Permission of the Department. D

ENGL 353 The West in American Literature 3 credits. Survey of the literature of Western America since 1800. D

ENGL 356 Ethnicity in Literature 3 credits. Study of the construction of ethnicity in literature, with attention to specific concerns relevant to one or more ethnic groups. R2

ENGL 433 Methods: Teaching English 3 credits. Study of the objectives and methods of teaching literature and composition in secondary schools. Ideally taken semester before student teaching. PREREQ: GOAL 1, ENGL 211 and ENGL 281, plus 3 additional hours of English. F

ENGL g400 Philosophy and Literature 3 credits. Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. R2

ENGL g453 American Indian Literature 3 credits. Considers literary works by and about North American native people, especially in relationship to history, genre, and culture, including oral traditions. Cross-listed as ANTH g453. PREREQ: Goal 1. R2

ENGL g455 Studies in National Literature 3 credits. Studies in important literatures and cultures not otherwise covered in the curriculum. May include literatures in translation and literature written in English outside of America and the British Isles. Cross-listed as LANG g415. May be repeated for up to 6 credits with different content. R3

ENGL g456 Comparative Literature 3 credits. The analysis of ideas, problems, and techniques common to important writers of various national literatures. R3

ENGL g461 Classical Literature 3 credits. Study of the major literature of the classical Greek and Roman periods, especially in relationship to its cultural backgrounds. R3

ENGL g462 Medieval Literature 3 credits. Study of the major literature of the Middle Ages and its background, with emphasis upon the development of English literature. R2

ENGL g463 Renaissance Literature 3 credits. Study of the major literature of the Renaissance and its background, with emphasis upon the development of English literature. R2

ENGL g464 Seventeenth-Century Literature 3 credits. Study of the major literature of the seventeenth century and its background, with emphasis upon the development of English literature. R2

ENGL g465 Eighteenth-Century Literature 3 credits. Study of the major literature of the eighteenth century and its background, with emphasis upon the development of English, American or other literature of the period. R2

ENGL g466 Early Nineteenth-Century Literature 3 credits. Study of the major literature of the early nineteenth century and its background, with emphasis upon the development of English, American or other literature of the period. R2

ENGL g467 Late Nineteenth-Century Literature 3 credits. Study of the major literature of the late nineteenth century and its background, with emphasis upon the development of English, American or other literature of the period. R2

ENGL g468 Early Twentieth-Century Literature 3 credits. Study of the major literature of the early twentieth century and its background, with emphasis upon English, American or other literature of the period. R2

ENGL g469 Contemporary Literature 3 credits. Study of recent major literature and its background, with emphasis upon English or American or other literature of the period. R2

ENGL g470 Post-Colonial Literature 3 credits. Study of post-colonial literary texts, with attention to the role of literature in history, political resistance, and social movements of one or more colonized cultures. R2

ENGL g472 Proseminar in a Major Literary Figure 3 credits. Intensive study in a single major author other than Chaucer, Milton, and Shakespeare, demanding some independent study and small group participation. R1

ENGL g473 Chaucer 3 credits. Intensive study of selected works of Chaucer. D

ENGL g474 Milton 3 credits. Intensive study of selected works of Milton. D

ENGL g476 Shakespeare 3 credits. Intensive study of selected works of Shakespeare. R1

ENGL g477 Shakespeare in Performance 2 credits. Intensive study of selected works by Shakespeare, with special emphasis placed upon performance issues. Includes field trip to attend live dramatic productions of Shakespearean plays. D

ENGL g490 Topics in Folklore 3 credits. Focused study of an issue in folklore studies or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. May be repeated up to 9 credits with different topics. Cross-listed as ANTH g490. R1

ENGL 491 Senior Seminar 3 credits. A seminar which exposes students to a range of critical and theoretical approaches to literature. Students formulate research problems and incorporate the results of their research into their own writing. Among the course requirements are a seminar paper and an oral presentation. PREREQ: ENGL 301 and 6 additional hours of upper-division English. F, S

ENGL g492 Folklore and Literature 3 credits. Study of cross-influences between oral and written literatures. Emphasis may be on a written genre that imitates and draws upon oral genres, a movement or period in which oral tradition strongly influences written forms, or a particular writer who incorporates motifs and storytelling patterns from folklore. Rotating topics. May be repeated for up to 9 credits. R2

Bachelor of Arts in Philosophy

Students who wish to major in philosophy should select either the Traditional major or the major with a Pre-law Emphasis. In addition to University General Education requirements for a Bachelor of Arts degree, students wishing to major in Philosophy will follow the curriculum listed below. Students interested in coursework with an ethics or religion perspective should consult with departmental advisors.

Option 1 - Traditional Major

Required courses:

PHIL 201 Introduction to Logic 3 credits
PHIL 305 History of Philosophy: Greek Reason and Christian Faith 3 credits
PHIL 315 History of Philosophy: Rationalism and Empiricism 3 credits
PHIL g450 Ethical Theory 3 credits
PHIL g460 Theory of Knowledge 3 credits
PHIL 492 Senior Tutorial 3 credits

Plus 12 additional hours of philosophy electives.

Option 2 - Pre-law Emphasis

Required courses:

PHIL 201 Introduction to Logic 3 credits
PHIL 305 History of Philosophy: Greek Reason and Christian Faith 3 credits
PHIL 353 Philosophy of Law 3 credits
PHIL g450 Ethical Theory 3 credits
PHIL g460 Theory of Knowledge 3 credits
PHIL 492 Senior Tutorial 3 credits

Plus one course from the following:

PHIL 355 Political and Social Philosophy 3 credits
POLS 313 Introduction to Political Philosophy 3 credits
POLS g418 Topics in Political Theory 3 credits
POLS g420 Contemporary Political Theory 3 credits

Plus one course from the following:

POLS 249 Introduction to Criminal Law 3 credits
POLS 342 American Legal System 3 credits
POLS 345 Jurisprudence 3 credits
POLS g442 Constitutional Law 3 credits
POLS g443 Constitutional Law 3 credits
Plus six additional hours of philosophy electives.

**Minor in Ethics**

Required courses: eighteen semester-hours of philosophy including

- PHIL 450 Ethical Theory 3 cr

And at least two of the following:

- PHIL 220 Philosophical Issues in Religion 3 cr
- PHIL 230 Bioethics 3 cr
- PHIL 353 Philosophy of Law 3 cr
- PHIL 355 Political and Social Philosophy 3 cr

**Minor in Philosophy**

A minor in philosophy is recommended for students seeking a liberal arts education. Required courses for the minor: any eighteen semester-hour credits elected from the philosophy curriculum.

**Minor in Philosophy and Religion**

Eighteen semester-hours of philosophy including two of:

- PHIL 210 Introduction to Asian Philosophy 3 cr
- PHIL 220 Philosophical Issues in Religion 3 cr
- PHIL 225 Philosophy and the Old Testament 3 cr
- PHIL 425 Existentialism 3 cr

Plus one of the following:

- HIST 252 East Asian History 3 cr
- HIST 254 Middle Eastern Civilization 3 cr
- SOC 368 The Sociology of Religion 3 cr

**Philosophy Courses**

**PHIL 101 Introduction to Philosophy 3 credits.** An introduction to the major thinkers and major problems in Western philosophical and scientific traditions. Sections may emphasize either an historical or problems approach. Satisfies Goal 8 of the General Education Requirements. F, S, Su

**PHIL 103 Introduction to Ethics 3 credits.** An introduction to philosophy through an analytical and historical study of major ethical theories. The course will focus on the basis of judgments and reasoning concerning questions of good and bad, right and wrong. Satisfies Goal 8 of the General Education Requirements. F, S

**PHIL 201 Introduction to Logic 3 credits.** An introduction to the concepts and methods of deductive and inductive logic, with special emphasis on the use of logical methods to identify, analyze, construct, and evaluate everyday arguments. R1

**PHIL 210 Introduction to Asian Philosophies 3 credits.** A study of Hindu, Buddhist, and other Far Eastern approaches to topics such as immortality, time, reality, mystical experience, the divinity of the soul, the question of duty. Emphasis varies. R2

**PHIL 220 Philosophical Issues in Religion 3 credits.** An inquiry into the nature of religious belief, the concept of God, rational proofs of the existence of God, the religious experience, the concept of faith, the character of religious language, the meaning of myths and symbols, and the question of modern atheism. R2

**PHIL 225 Philosophy and the Old Testament 3 credits.** Discussion of Hebrew Scripture, with emphasis on the narrative material in the Pentateuch. Commentaries drawn from classical and contemporary philosophy, theology, and literary theory. D

**PHIL 230 Bioethics 3 credits.** An examination of ethical issues that arise in medical practice and biotechnology. Includes an overview of ethical theories and principles. F, S, Su

**PHIL 305 History of Philosophy: Greek Reason and Christian Faith 3 credits.** Philosophical readings from the pre-Socratics to St. Thomas Aquinas. Topics include the theory of essence, human nature and happiness, the problem of evil, the relation of reason and faith. R2

**PHIL 315 History of Philosophy: Rationalism and Empiricism 3 credits.** Readings in philosophy from Descartes to Hegel. Emphasis on the question of the limits of human knowledge. D

**PHIL 325 History of Philosophy: Modern Philosophical Movements 3 credits.** Readings in philosophy of the 19th and 20th centuries. Organized to illuminate the development of particular schools of thought, including existentialism, pragmatism, phenomenology, analytic philosophy, and Marxism. Emphasis varies. D

**PHIL 353 Philosophy of Law 3 credits.** An investigation of historical and contemporary theoretical approaches to law and a variety of philosophical problems that arise with respect to the law. Topics include natural law theory, legal positivism, legal realism, Constitutional interpretation, theory of punishment, and civil liberties. R2

**PHIL 355 Political and Social Philosophy 3 credits.** Questions concerning social justice as discussed by Plato, Aristotle, Hobbes, Locke, Hegel, Marx and others. D

**PHIL 400 Philosophy of Art 3 credits.** Study of philosophic problems encountered in perceiving, interpreting, and evaluating works of art. Topics include the nature of a work of art, aesthetic response, expression, symbol, the nature and role of representation; the nature of interpretive and evaluative claims. R2

**PHIL 410 Philosophy of Language 3 credits.** Study of theories of language, with emphasis on contemporary thinkers such as Frege, Heidegger, Russell, Wittgenstein, Piaget, and Chomsky. Topics include the nature and origin of meaning, the temporal dimension of discourse, the significance of syntax, animal languages, computer languages. D

**PHIL 420 Philosophy of Mind 3 credits.** Inquiry into the mind-body problem and representational issues, such as dualism, philosophical behaviorism, central-state materialism. Related topics include the self, personal identity, immortality, claims of parapsychology, mystical consciousness. R2

**PHIL 425 Existentialism 3 credits.** A survey of major works of Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus. Topics may include the origins of values, the death of God, the varieties of despair, the inevitability of love’s failure and the absurdity of life. R2

**PHIL 430 Philosophy of Science 3 credits.** A critical analysis of the philosophical presuppositions of the empirical sciences, with attention given to the wider expressions of these presuppositions in contemporary life. R2

**PHIL 435 Metaphysics 3 credits.** A study of some of the main questions of metaphysics, including such topics as being, substance, universals, space and time, appearance and reality, identity, freewill and determinism, causality and the nature and possibility of metaphysics itself. D

**PHIL 440 Philosophy and Literature 3 credits.** Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. Cross-listed as ENGL 440. D

**PHIL 450 Ethical Theory 3 credits.** Study of the nature of value claims, stressing ethical value claims; examination of the scope of reason in ethical decision-making. Applications to normative ethical theories. Related topics include human rights, justice, ethical and legal systems. R2

**PHIL 460 Theory of Knowledge 3 credits.** A survey of questions on the question, “What, if anything, can we know?” Topics include knowing, believing, meaning, truth, and certainty. R2

**PHIL 470 Symbolic Logic and Foundations of Mathematics 3 credits.** A comprehensive study of formal methods of determining validity and of systems of symbolic logic, with attention to the philosophy of logic and the relationship between logic and mathematics. D

**PHIL 480 Philosophy Tutorial 2 credits.** Consultation course for seniors interested in a philosophical problem connected with their major field. Will consist of independent reading, conferences, and the preparation of a term paper. May be repeated for up to 6 credits. F, S

**PHIL 490 Philosophy Seminar 1-3 credits.** Advanced reading and discussion on selected topics in philosophy. May be repeated with permission of the department. D

**PHIL 492 Senior Tutorial 3 credits.** A culminating course for senior majors. Directed research resulting in a senior thesis, to be evaluated by the philosophy faculty. PREREQ: 90 credits and permission of the Director of Philosophy. S
Folklore Program

Director and Professor: J. Attebery (English)

Folklore is the part of our culture that we learn in informal, personal interactions with people we meet regularly. The many genres of folklore include the verbal arts, such as epic, ballad, folksong, folktales, legend, myth, joke, tall tale, riddle, and proverb. Folklore also includes customary and material forms, such as calendar customs, games, dances, foodways, modes of dress, folk architecture, and crafts such as chair making, blacksmithing, and the many forms of fabric art. People learn and share folklore within groups that have a common ethnic, religious, occupational, or other basis.

Folklorists with a literary orientation tend to focus on genres, the ways in which they are learned, the ways they change in transmission, the ways they are performed, and their cultural and historical contexts. They may focus on textual questions, studying folk aesthetics and connotation and the relationships between folklore genres and literature. Folklorists with an anthropological orientation tend to study the variety of genres within a single culture, examining the interrelationships and functions of folk forms within the cultural group. The Program in Folklore at Idaho State University draws on both of these orientations to provide students with a well-rounded course of study.

Experience in folklore benefits students interested in continuing to graduate programs in folklore, history, anthropology, English, American studies, and sociology. Knowledge of folklore is helpful, too, in public history, museum, and oral history programs. Folklore courses enhance the knowledge of both elementary and secondary teachers and of those planning to do social work or work in health-related professions.

Minor in Folklore

The program in folklore offers a minor designed to augment American Studies, Anthropology, English, History, Sociology, and other majors. The program’s required course, ANTH/ENGL 212, introduces students to the study of folklore genres, folklore fieldwork, and types of folk groups. Upper-division courses provide students with more focused study of folklore issues and genres, the history of folklore scholarship, particular folk cultures, and the inter-relationship of genres within those cultures. The program also provides opportunities for study of ethnographic and material culture fieldwork techniques. Specialized courses include material culture, American Indian verbal and material arts, and courses in the relationships between folklore and literature, including fantasy literature.

The minor in folklore consists of 18 credits, as follows:

**Required Course:**
ANTH/ENGL 212 Introduction to Folklore/Oral Tradition 3 cr

**Choose 15 credits from:**
- ANTH 301 Introduction to Shoshoni Folklore 3 cr
- ANTH 404 Material Culture Analysis 3 cr
- ANTH 449 Methods and Techniques of Ethnographic Field Research 3 cr
- ANTH 452 American Indian Verbal Arts 3 cr
- ANTH 472 Native American Arts 3 cr
- ANTH/ENGL 490 Topics in Folklore 3 cr
- ENGL 492 Folklore and Literature 3 cr

Department of Geosciences

Chair and Professor: Rodgers

Professors: Hughes, Link, McCurry, Thackray

Assistant Professors: Ames, Crosby, Leif Tapanila

Research Associate Professor: Glenn
Research Assistant Professor: Said
Lecturer: Lori Tapanila

Affiliate Faculty: Akersten, Cecil, Dehler, Hertzog, Kuntz, Mahar, McGinnis, Panda, Plummer, Sherwin, Smith, Stephens, Thomas, Welhan, Winterfeld

GIS TrC Affiliate: Weber
Research Associates: Aly, Streutker, Wang

Emeriti: Blount, Fortsch, Ore

Overall Departmental Goals

1. Graduates will think critically and comprehend written and verbal communications about geoscience topics.
2. Graduates will have specific skills for careers in geoscience and related industries, licensure, or to continue in graduate study.
3. Graduates will attain employment in geology or related fields or gain admission to graduate programs.

Program-Specific Goals and Objectives

I. Goals

1. Graduates will know geoscience materials, principles, and their applications to scientific inquiry and to societal concerns.
2. Graduates will understand geologic processes and their expression in the history of the Earth.

II. Objectives

1. Provide undergraduate students with coursework, laboratory experiences, field exercises and hands-on opportunities in order to achieve all goals set forth above.
2. Improve students’ awareness of opportunities for professional employment, licensure, or continued education.

The Idaho State University Department of Geosciences is an active community of scholars consisting of undergraduate and graduate students, support and research staff, and professors. Objectives of the department are to train students for professional positions or further study in all aspects of the geosciences. Most courses include field trips and hands-on experience. The Idaho State University Geology summer field camp based at the Lost River Field Station north of Mackay, Idaho, is nationally recognized and attended by students from universities nationwide. Numerous evening classes are offered for the general public.

The Idaho State University Geosciences Department offers Bachelor of Science and Bachelor of Arts degrees in Geology, Post-Baccalaureate Geotechnology Certificate, Master of Science degree in Geology, Master of Science degree in Geographic Information Science, and Master of Natural Science degree for teachers who desire more training in up-to-date science methods. The B.S. in Geology with Emphasis in Engineering Geology, the M.S. in Geology with Emphasis in Environmental Geoscience, and a Doctor of Philosophy degree in Engineering and Applied Science are also available. Additional cooperative degrees are offered through agreements with Geoscience departments at Boise State University and the University of Idaho, which facilitate the transfer of undergraduate credits between the three institutions.

Students who have taken GEOL 100 and GEOL 100L, or GEOL 101 and GEOL 101L, and who have decided to major in
geology, must take GEOL 110, which is the prerequisite for many other courses in the geology major. For the purposes of a geology major or minor, only 4 credits will be granted for any combination of GEOL 100, GEOL 100L, GEOL 101, GEOL 101L, and GEOL 110.

Admittance to Geosciences Major
Idaho State University recognizes three categories with regard to a student’s major status:

P—Pre-Major
In the process of applying to Idaho State University, the student may indicate a preference for the Geosciences major. This is not the same as actually having a major in Geosciences.

I—Intending to Major
1. Declare a Geosciences major in the Geosciences Department office;
2. Meet with an advisor and outline a plan of study.

A—Admitted to Geosciences Major
1. Earn a grade of “C” or better in GEOL 100 or 101 (3 cr.);
2. Earn a grade of “C” or better in GEOL 110 (1 cr.);
3. Complete University General Education Goals 1 through 3 (English, Speech, and Mathematics).
4. Choose one or more of the degrees available in Geosciences.

Bachelor of Arts in Geology
The B.A. degree is offered for students who wish either a broader-based liberal arts degree or a broader multi-disciplinary science degree than is possible with the B.S. The B.A. degree is especially suited for future earth science teachers, environmental scientists, environmental lawyers, and others who wish to learn more about how the earth works. The degree fulfills major requirements for secondary school earth science teachers.

The Geology B.A. may be an excellent alternative for students who desire a technical degree that prepares them for the growing fields of environmental geology and hydrology, but require less of the strenuous and time-consuming laboratory and field component of the Geology B.S.

To this end, students should augment their Geology B.A. curriculum with courses in related sciences. The specific program of study should be designed after consultation with advisors in the Department of Geosciences and other science departments. Possible areas of emphasis include: Chemistry courses in Organic Chemistry and Quantitative Analysis, Mathematics courses through Differential Equations, Engineering courses in Surveying, Geotechnics, and Fluid Mechanics, Biological Sciences courses in Ecology and Biochemistry, or classes in Health Physics.

Required Courses:

TOTAL: 33 to 35 geoscience credits plus 5 to 7 other geoscience credits to equal 40 credits.

Bachelor of Science in Geology
The B.S. degree is offered for undergraduates who wish to become professional geoscientists either after their bachelor’s degree or after subsequent graduate study. It trains students in the essential observational and analytical skills of field geology as well as more applied areas of microscope petrology, geochemistry, and geotechnology. The B.S. degree is designed to give the student a broad and comprehensive understanding of the discipline of geology and a firm background in math, physics, and chemistry.

</table>

Bachelor of Science or Bachelor of Arts in Earth and Environmental Systems
The purpose of this program is to deliver a multidisciplinary education with environmental geosciences as a foundation, while
also drawing upon existing courses from a
diverse array of campus programs.
The emphasis in this program spans local
to global concerns. Core knowledge is de-
developed through a set of required courses
across several disciplines, emphasizing the
Geosciences, and through required and
elective core courses. The student then
chooses a specific track composed of other
disciplinary courses.

Curriculum Outline
The Earth and Environmental Systems
curriculum consists of three components:
required cross-disciplinary courses, 
required and elective core courses, and
required and elective courses in one of five
cross-disciplinary tracks. Most students
will be able to complete degree requirements
(76-80 credits) and general education re-
quirements (40-46 credits) within the typical
128-credit, 4-year Bachelor’s degree. Some
of the degree requirements will also satisfy
general education requirements. Depending
on results of placement tests in mathematics
and other areas, some students use as many
as 61 credits to satisfy general education re-
quirements, and will thus require more than
128 credits to fulfill both general education
and degree requirements.

Required General Courses
(27-28 cr)
The Required General Courses provide a
solid background in areas outside of the De-
partment of Geosciences. Environmental
Systems include both physical and human
systems; thus, we require course work in
biological sciences, physical science,
mathematics, statistics and social sciences.
Many of these courses will satisfy General
Education Goal requirements, specifically
Goal 4 (Biological Sciences), Goal 5
(Physical Sciences), Goal 3 (Mathematics),
and either Goal 9 (U.S. History) or Goal
11 (Political Science/Economics).

All of the following 4 courses
BIOL 101,101L Biology I, and Lab 4 cr
BIOL 102,102L Biology II, and Lab 4 cr
CHEM 111 General Chemistry I 5 cr
BIOL 209 General Ecology 4 cr

One of the following 3 courses
MATH 147 Pre-Calculus (B.A.) 5 cr
MATH 160 Applied Calculus (B.S.) 3 cr
MATH 170 Calculus I (B.S.) 4 cr

Plus
MATH 253 Introduction to Statistics 3 cr
or another approved statistics course

One of the following 4 courses
HIST g430 Environmental History 3 cr
POLS g455 Environmental 3 cr

Restrictions: 

SOG 335 Politics and Policy 3 cr
GEOL/HIST 471 Idaho Historical Geography 3 cr

Recommended
ENGL 307 Technical Writing 3 cr
PHYS 211 Engineering Physics (B.S.) 4 cr

Required and Elective Core
Courses (28-31 cr):
The required and elective core provides
a broad background in Earth Systems and
Geosciences. The GEOL 115 course
introduces the Earth System components
and GEOL 406 covers modern environ-
mental issues and their relationship to the
Geosciences. GEOL 415, Past Global Changes
(new name and revised focus) and GEOL 416,
Global Environmental Change, are capstone
integrative courses intended for seniors who
have completed most degree requirements.

Required Courses
GEOL 115, 115L Physical Geography, and Lab 4 cr
GEOL 110 Physical Geology for Scientists Laboratory 1 cr
GEOL 210 Earth in Space and Time 3 cr
GEOL 406 Environmental Geology 3 cr
GEOL 415 Past Global Change 3 cr
GEOL 416 Global Environmental Change 3 cr

Geotechnologies core courses—
Choose at least 2 courses from this list
GEOL 403 Principles of Geographic Information Systems 3 cr
GEOL 404 Advanced Geographic Information Systems 3 cr
GEOL 407 Global Positioning Applications in Research 3 cr
GEOL 409 Remote Sensing 3 cr

Note: students who earn a total of 19 credits in
gs, including GEOL 210 and these four
Geotechnologies core courses, will have completed
the Geotechnology minor.

Electives—choose at least 2 courses from this list
GEOL 313 Earth Materials I 3 cr
GEOL g402 Geomorphology 4 cr
GEOL g403 Principles of Geographic Information Systems 3 cr
GEOL g404 Advanced Geographic Information Systems 3 cr
GEOL g405 Volcanology 3 cr
GEOL g407 Global Positioning Applications in Research 3 cr
GEOL g409 Remote Sensing 3 cr
GEOL g410 Science in American Society 2 cr
GEOL g417 General Soils 3 cr
GEOL g420 Principles of Geochemistry 3 cr
GEOL g421 Structural Geology 4 cr
GEOL g430 Principles of Hydrogeology 3 cr
GEOL g431 Geobiology and the History of Life 3 cr
GEOL g452 Sedimentation-Stratigraphy 4 cr
GEOL g456 Geology of Idaho 3 cr
OR
GEOL g458 Geology of North America 3 cr
GEOL 450 Field Geology 6 cr
GEOL 482 Independent Problems and Studies in Geology 3 cr
GEOL 451 Field Methods in Environmental Sciences 3 cr

Cross-disciplinary Tracks (21 cr):
Students must choose one track from the
following list (at least 21 credits):

1. Biological Systems: 200- through 400-level courses in Biological
Sciences, Geosciences (Earth Systems), Chemistry, and Sociology

2. Environmental Geochemistry: 200- through 400-level courses in Chemistry,
Geosciences, and Biological Sciences

3. Environmental Health: 200- through 400-level courses in Biosciences,
Sociology, Anthropology and Health Education

4. Environmental Policy and Manage-
ment: 200- through 400-level courses in Economics, Management, Political
Science, Biological Sciences, History, Speech, and English

5. Global Environmental Change: 200-
through 400-level courses in Anthropology, Political Science, Geosciences
(Earth Systems, Geotechnologies), and Sociology

Biological Systems Track
(B.S.)
This track develops knowledge and skill
in the biological sciences to complement
the geoscience core. This track will train
students interested in field-related positions
who need to understand the environmental
relations between geologic and living
systems. The student must complete the
required courses, plus electives to equal or
exceed 21 credits.

Required (15-16 cr):
All of the following 3 courses
BIOL g416 Population and Community Ecology 3 cr
BIOL g462 Freshwater Ecology 4 cr
BIOL g489 Field Ecology 3 cr

2 of the following 7 courses (remaining
courses may be taken as electives)
BIOL 213 Fall Flora 2 cr
BIOL 214 Spring Flora 2 cr
BIOL 4g26 Herpetology 3 cr
BIOL g427 Ichthyology 3 cr
BIOL g438 Ornithology 3 cr
BIOL g431 Entomology 3 cr
BIOL g441 Mammalogy 3 cr

Electives
SOG 335 Population and Environment 3 cr
BIOL 315 Introduction to Biodiversity 3 cr
BIOL 337 Conservation of Natural Resources 3 cr
BIOL g476 Ecology of Water Pollution 3 cr
HIST g430 Environmental History 3 cr
ENVE g404 Environmental Risk Analysis 3 cr
GEOL g402 Geomorphology 4 cr
GEOL/HIST g471 Idaho Historical Geography 3 cr
GEOL g451 Field Methods in Environmental Sciences 3 cr
Environmental Geochemistry Track (B.S.)

This track develops knowledge and skill in the chemical, biological and engineering sciences to complement the Geoscience core. This emphasis track will train students interested in field- or laboratory-related positions who need to understand geochemical and biological components of hydrologic systems. The student must complete the required courses, plus electives to equal or exceed 21 credits.

Required (19 credits)

Environmental Health Track (B.A.)

This track focuses on the relationship between environment and health concerns. It combines health science knowledge with the Geoscience core to train students interested in environment and health connections. Students from this track may find work in health or environmental governmental agencies and private sector employers looking for a broad range of sci- ence and social science skills. The student must complete the required courses, plus electives to equal or exceed 21 credits.

Environmental Policy and Management Track (B.A.):

This track develops knowledge needed to address environment and business issues. Students from this track will have skills necessary to work in business, government, non-profit, or policy-making venues where scientific background is valuable. The student must complete the required courses, plus electives to equal or exceed 21 credits.

Global Environmental Change Track (B.S.)

This track examines the mechanisms and societal implications of global environmental change. The focus of this track includes feedbacks and mechanisms of environmental change, the magnitude and nature of recent environmental change within a longer-term context, and the role of people in altering their environment. The student must complete the required courses, plus electives to equal or exceed 21 credits.

Geology Courses

GEOL 100 The Dynamic Earth 3 credits.

Understanding Earth as a dynamic system. Explores the interaction between four major earth components: the solid earth, the atmosphere, the ocean and biological communities, including humans. Specific focus on climate change, natural hazards, and Earth resources. COREQ: GEOL 100L.

GEOL 101L The Dynamic Earth Lab 1 credit.

Focuses on the Earth system and the interaction of humans with the environment. Topics include: earth, water and energy resources as well as natural and human-caused disasters. COREQ: GEOL 100. With GEOL 100L, satisfies Goal 5 of the General Education Requirements.

GEOL 101 Physical Geology 3 credits.

Geological fundamentals: rocks and minerals, geologic time, plate tectonics, earthquakes, volcanoes, surface processes, earth resources and climatic change. With GEOL 101L or GEOL 110, Satisfies Goal 5 of the General Education Requirements.

GEOL 101L Physical Geology Lab 1 credit.

GEOL 110 Physical Geology for Scientists Laboratory 1 credit.

Identification and classification of minerals, rocks, and fossils; introduction to geologic maps and plate tectonics. Field trips. Required for Geology majors. May be taken in place of GEOL 100 or 101L.

GEOL 115 Physical Geography 3 credits.

The study of the form of the earth's surface, the hydrologic cycle, weather and climate. The global distribution of soils, animals and vegetation. Effects of climatic changes. Man's role in maintaining natural ecosystems. Laboratory exercises and field trips. COREQ: GEOL 115L.

GEOL 115L Physical Geography Lab 1 credit.

Laboratory exercises and field trips to study the form of the earth's surface, the hydrologic cycle, weather and climate, soils, animals and vegetation, and natural ecosystems. COREQ: GEOL 115. With GEOL 115, satisfies Goal 5 of the General Education Requirements.

GEOL 122 Rocks and Stars 3 credits.

A scientific multimedia guide to planetary geology, principles of mass and energy interactions; planetary growth and evolution, bolide impacts, volcanoes and lava plains, fault systems and mountains, streams, dunes, mass extinctions. AS

GEOL 201 Rocks, Rails, and Trails 1 credit.

Interactions between geology, geography and early history of Southeast Idaho, emphasizing the fur trapping period, the Oregon and California Trails, the coming of the railroad, and early Pocatello. Field trips. Graded S/U/F.

GEOL 202 Historical Geology 3 credits.

Major events in earth history; continental drift, age dating, events and ages; times of extinction, mountain building, episodes of world glaciation. PREREQ: GEOL 100 or GEOL 101.

GEOL 210 Earth in Space and Time 3 credits.

Tools-oriented course in map coordinates, GPS, basic GIS and remote sensing, spread sheets and data analysis. Includes applications to geologic maps, cross sections, and Geologic Time Scale. PREREQ OR COREQ: GEOL 100.

GEOL 282 Undergraduate Laboratory Experience 1-3 credits.

Participate in various laboratory or field-related tasks related to research projects. Grading supervised operation of equipment, computers, and analytical instrumentation. PREREQ or COREQ: GEOL 100 or 101. Graded S/U/F.

GEOL 313 Earth Materials I 3 credits.

Introduction to physical and chemical composition of the earth, emphasizing minerals, mineral associations and mineral formation, and lab-based determinative methods of mineralogy from microscopic to planetary scales. PREREQ: GEOL 110.

GEOL 314 Earth Materials II 3 credits.

Classifications, processes and environments of formation of igneous, metamorphic and sedimentary rocks; rocks in space; petrogenesis of the principal igneous and metamorphic rock types on Earth and other planetary bodies. PREREQ: GEOL 100 or 101.

GEOL 400 Practicum in Geology Teaching 1-3 credits.

Practical problems in teaching geology in public schools. Lab and field trip design and planning. Graded S/U/F.

GEOL 402 Geomorphology 4 credits.

Process-response approach to landforms and landscapes. Historical perspectives, endo- and exogenic processes, equilibrium and relict landforms. Emphasis on interrelations among various geologic sub-disciplines. Field trips, some lab exercises. PREREQ: GEOL 313, GEOL 315, or consent of instructor. COREQ: GEOL 402L.

GEOL 404 Advanced Geographic Information Systems 3 credits.

Study of GIS fundamentals, introduction to GPS, databases, and metadata. Practical application of ESRI’s ArcView®. Build, edit, and query a GIS; basic spatial analysis. Requires competence in computer operating systems. PREREQ: CIS 101 or permission of instructor.

GEOL 405 Volcanology 3 credits.

Aspects of physical and chemical volcanology: types of volcanoes; interpretation of volcanic deposits; properties of magma; generation, rise and storage of magma; volcanic hazards and prediction. PREREQ: One of: GEOL 314, GEOL 402, GEOL 421 or GEOL 452.

GEOL 406 Environmental Geology 3 credits.

Humans and the environment. Topics include: industrial exploitation of fossil fuels, energy sources, soils, water and other materials, environmental health, pollution, waste disposal, hazards, disasters, and land use. PREREQ: GEOL 100 or 101.

GEOL 407 GPS Applications in Research 3 credits.

Overview of satellite positioning systems usage. Topics include GPS theory, basic mapping concepts, use of mapping grade receivers for GIS data collection, and processing of carrier phase data for high precision applications.

GEOL 408 GeoTechnology Seminar 2 credits.

GIS applications in natural and social sciences; ethical and legal issues, current status and recent advances in GeoTechnology. Lectures, discussion, readings. PREREQ: GEOL 402 or permission of instructor.

GEOL 409 Remote Sensing 3 credits.

Fundamentals and applications of single frequency, multispectral, and hyperspectral remote sensing for physical, natural, engineering, and social sciences. Emphasis on acquiring, processing, integrating, and interpretation of imagery. Requires competence in computer operating systems.

GEOL 410 Science in American Society 2 credits.

Observational basis of science; technological and ethical issues, current status and recent advances in Geology. Lectures, discussion, readings. PREREQ: GEOL 402 and 409.

GEOL 411 Planetary Petrology 3 credits.

Chemistry, mineralogy, tectonic association and petrogenesis of the principal igneous and metamorphic rock types on Earth and other planetary bodies. PREREQ: GEOL 314.
GEOL g412 Petrology Laboratory 2 credits. Microscopic identification of igneous and metamorphic minerals and rocks. PREREQ: GEOL 210 and GEOL 313; COREQ: GEOL g411. AF

GEOL 413 Sedimentary Rocks in Thin Section 2 credits. A variety of terrigenous, volcanioclastic, and carbonate rocks will be studied. PREREQ OR COREQ: GEOL g411. AF

GEOL g415 Quaternary Global Change 3 credits. Use and interpretation of landforms, sediments, and fossil life in the reconstruction of Quaternary events, environment, and climates. PREREQ: Permission of instructor. AS

GEOL g417 General Soils 3 credits. Formation, morphology, and distribution of soils, including developments in soil classification. PREREQ: GEOL 100, GEOL 101 or GEOL 115 or permission of instructor. S

GEOL g420 Principles of Geochemistry 3 credits. Chemistry of the earth; discussion of factors controlling abundance, distribution, and migration of chemical elements within the earth. PREREQ: GEOL 313 and CHEM 112, or permission of instructor. S

GEOL 421 Structural Geology 4 credits. Structure of the earth's crust. Investigation of behavior of materials; identification and interpretation of earth structures. PREREQ: MATH 147 or equivalent, and GEOL 452. S

GEOL 421L Structural Geology Laboratory 0 credits. Assignments to apply principles in GEOL 421. S

GEOL g422 Planetary Geology 3 credits. Formation of planetary bodies (planets, moons, asteroids and comets), internal and surficial processes, tectonics, and planetary exploration. PREREQ: GEOL 100 or GEOL 101 or permission of instructor. D, W

GEOL g427 Information Technology for GIS 3 credits. Study of servers, networks, system administration, relational database design and management, spatial database engines, and serving maps on the internet. The course uses traditional lectures along with demonstrations, and hands-on exercises. PREREQ: GEOL g403 or instructor approval. S

GEOL g428 Programming for GIS 3 credits. Course introduces students Visual Basic programming for GIS. Students will learn the fundamentals of object oriented programming, rapid application development, basic coding, help documentation, and compiling. Students will complete a project where they develop a GIS utility of their choice. PREREQ: g403 and instructor approval. S

GEOL g430 Principles of Hydrogeology 3 credits. Surface and groundwater occurrence, movement and recovery, water quality and pollution, well construction principles, and computer modeling. PREREQ: MATH 147, and GEOL 100 or GEOL 101 or permission of instructor. F

GEOL g431 Invertebrate Paleontology Lab 0 credits. Assignments to apply principles from GEOL 431. F

GEOL g435 Vertebrate Paleontology 4 credits. Phylogenetic history of the vertebrates outlined in the light of morphology, classification, evolution, paleoecology, and the significance of fossils. Field trips. Cross-listed as BIOL 435. PREREQ: GEOL g431 or BIOL 314 or equivalent. F

GEOL g439 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed as ANTH g439, BIOL 439. PREREQ: Permission of instructor. AS

GEOL g440 Ore Deposits 3 credits. Nature, mode of occurrence, origin of ores with each type related to a given rock association and as the product of a particular environment. PREREQ: One of: GEOL 314, GEOL g452 (recommended), or GEOL 421. AF

GEOL g445 Environmental and Engineering Geophysics 4 credits. Geophysical applications to environmental and geological engineering problems. Includes seismic, gravity, magnetic, electrical, and electromagnetic methods. (Includes lab.) PREREQ: MATH 144 or MATH 147, and GEOL 100 or GEOL 101, or permission of instructor. COREQ: GEOL g445L. AF

GEOL g445L Environmental and Engineering Geophysics Laboratory 0 credits. Assignments to apply principles in GEOL g445. COREQ: GEOL g445. AF

GEOL g450 Field Geology 6 credits. Five-week summer field camp, applying standard geologic field instruments and geologic concepts to a series of field problems. PREREQ: GEOL 314 (recommended) or GEOL g420, GEOL 421 and GEOL g452. Su

GEOL g452 Sedimentation-Stratigraphy 4 credits. Principles of sedimentation from source to deposition. The basis of stratigraphic nomenclature, classification, and correlation of rock units. Laboratory covers unconsolidated sediment, hand specimens, and field techniques. PREREQ: GEOL 210 and ENGL 102 or permission of instructor. PREREQ OR COREQ: CHEM 111. COREQ: GEOL g452L. F

GEOL g452L Sedimentation-Stratigraphy Laboratory 0 credits. Assignments to apply principles in GEOL g452. COREQ: GEOL g452. F

GEOL g454 Basic Engineering Geology 3 credits. Geology applied to civil engineering projects; rock engineering classification systems and geotechnical parameters such as joint set orientation, ground behavior and underground construction. Preparation of baseline geotechnical reports. Cross-listed as CE g454. COREQ: GEOL 314 or CE 332. D

GEOL g455 Geologic Data Methods 3 credits. Geotechnical investigations for civil works projects; geologic mapping for civil engineering purposes; development of engineering geologic profiles; core logging; preparation of Geotechnical Data Reports for civil works projects. Cross-listed as CE g455. PREREQ: CE g454. D

GEOL g456 Geology of Idaho 2 credits. Geologic provinces and plate tectonic history of Idaho. Topics include basement, Belt Supergroup, Phanerozoic passive margin, Cordilleran orogen, accreted terranes, Idaho batholith, Challis volcanics, Idaho mineral deposits, Basin and Range, Snake River Plain and Pleistocene floods. PREREQ: GEOL 100 OR 101. AS

GEOL g458 Geology of North America 3 credits. Regional stratigraphy and tectonics of North America emphasizing National Parks and the Intermountain West. Graduate students will do extensive additional reading in current literature. PREREQ: GEOL 100 or GEOL 101. AS

GEOL g465 Subsurface Geology 3 credits. Principles of well log interpretation and correlation, core and cuttings description, cross section, and subsurface map creation. Environmental geology, hydrogeology, mining, geological engineering, and petroleum applications. PREREQ: GEOL 210 or permission of instructor. AF

GEOL g471 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho's economic, political and cultural history. May be team taught and include field trips, and POLS g471. AS

GEOL g475 Essentials of Geomechanics 3 credits. Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as CE g475. PREREQ: GEOL 421 or ENGR 330. D

GEOL g476 Engineering Geology Project 1 credit. Team projects studying actual problems in engineering geology. Cross-listed as CE g476. PREREQ: GEOL g454 or CE g454. D

GEOL g480 Special Topics in GIS 1-3 credits. Students will do extensive additional reading in current literature. PREREQ: GEOL g403 and permission of instructor. F, S

GEOL g481 GeoTechnology Internship 1-3 credits. Choose a project with either Natural Resource or municipal GIS emphasis and work with real-world data at the Internship's off-campus location. Projects focus on using/creating geotechnical data. PREREQ: GEOL g403 or permission of instructor. F, S

GEOL g482 Independent Problems and Studies in Geology 1-3 credits. Investigation of a geologic problem chosen by the student and approved by the staff. May be repeated for up to 6 credits. D

GEOL g483 Earthquake Engineering 3 credits. Mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. Cross-listed as CE g480. PREREQ: GEOL 313 OR CE 332, or permission of instructor. D

GEOL g491 Seminar 1 credit. Field trip or discussion of current geologic literature and geologic problems. May be repeated for up to 3 credits. PREREQ: Permission of instructor. Graded S/U. F, S

GEOL g493 Senior Thesis 1-4 credits. This is a course supervised by a committee of at least two faculty members, approved by the chairperson(s) of the department(s) involved. The thesis topic
may be interdisciplinary, with credits conferred by one or more departments. PREREQ: 90 credits and invitation by (or permission of) department chairperson(s). F, S

GEOL 497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

### Department of History

Chair and Associate Professor: Woodworth-Ney
Professors: A. Christelow, S. Christelow, Hale, Hatzenbuehler, Owens
Associate Professors: Kuhlman, Marsh
Assistant Professor: Himman
Assistant Lecturer: Reinke
Adjunct Faculty: Davis, Emfield, James, Maheras, Williams
Emeriti: Marley, Ruckman, Swanson

#### Historical Thinking Objectives

The Department of History has developed the following Historical Thinking Objectives as a guide to the design of the undergraduate curriculum. We use this list to review the department’s course offerings to make sure that the students have adequate opportunities to develop towards these goals.

1. Understand historical events and developments in their global context.
2. Understand how places are connected (for example, by economic, political, and cultural links) and analyze how these interconnections have changed over particular periods.
3. Understand regions as historical entities, including change in their spatial dimensions and characteristics over time.
4. Understand cartographic representations of spatial features and relationships and of historical developments.
5. Understand how local developments are linked to regional or global themes.
6. Understand explanations of individual and collective action.
7. Understand ideas and values and how they are interpreted and transformed in historical contexts.
8. Understand how historians use evidence and develop differing interpretations.
9. Understand bias and points of view in primary and secondary sources, including in images, documentary films, and cartographic representations.

### Bachelor of Arts in History

#### Admission Requirements:
For admission to status as a major and to be accepted as a major by the History Department, a student must have completed General Education Goals 1, 2, 3, 9, and 10A for the Bachelor of Arts degree and have an overall grade point average of 2.5 or higher.

#### Graduation Requirements
In addition to the general requirements for the Bachelor of Arts Degree, all history majors must take a minimum of 36 credits from the following six categories:

**Category I: World Regions (9 credits, no more than 3 of which must be in HIST 101 or HIST 102)**

- HIST 101: Foundation of Western Civilization 3 cr
- HIST 102: Development of Western Civilization 3 cr
- HIST 249: World Regional Geography 3 cr
- HIST 251: Latin America 3 cr
- HIST 252: East Asian History 3 cr
- HIST 254: Middle Eastern Civilization 3 cr
- HIST 255: African History and Culture 3 cr

*Note: Students may use one of the above courses to satisfy Goal 10A of the General Education requirements.*

**Category II: Research Skills (6 credits)**

- HIST 291: The Historian’s Craft 3 cr
- HIST 491: Seminar 3 cr

**Category III: Course for Teachers**

The following course is designed expressly for education majors. It may be taken as elective credit under Category IV below, only if the prerequisites are satisfied.

- HIST 48: United States History for Teachers 3 cr

**Category IV: Upper Division United States History (6 credits)**

Choose one 300-level and one 400-level course from the following list:

- HIST 307: Early North America 3 cr
- HIST 308: Industrialization and Reform in the United States 3 cr
- HIST 309: Modern United States 3 cr
- HIST 421: Federal Indian Relations 3 cr
- HIST 423: Idaho History 3 cr
- HIST 425: Women in the North American West 3 cr
- HIST 427: North American West 3 cr

**Category V: Upper division world, comparative, and non-U.S. history (6 credits)**

- HIST 318: History of Christianity 3 cr

- HIST 322: Religious Reformation and Conflict 3 cr
- HIST 323: Old Regime and French Revolution 3 cr
- HIST 326: Twentieth Century Europe 3 cr
- HIST 382: Russia 3 cr
- HIST 429: International Relations since 1900 3 cr
- HIST 430: Global Environmental History 3 cr
- HIST 435: Colonial Frontiers 3 cr
- HIST 437: Families in Former Times 3 cr
- HIST 438: Women in Pre-industrial Europe 3 cr
- HIST 439: Women in History 3 cr
- HIST 441: The Viking Age 3 cr
- HIST 445: English History 3 cr
- HIST 444: Victorian England and After 3 cr
- HIST 446: Social and Economic History of Greece and Rome 3 cr
- HIST 448: Medieval Social and Economic History 3 cr
- HIST 450: Golden Age Castile 3 cr
- HIST 453: Renaissance Creativity 3 cr
- HIST 460: The Global Hispanic Monarchy 3 cr
- HIST 474: Islam and Nationalism in the Modern World 3 cr
- HIST 478: Imperialism and Progressivism 3 cr
- HIST 490: Cartography: History and Design 3 cr

**Category VI: Electives (9 credits)**

Students must take at least 9 additional credits from courses listed in Categories III, IV, V, or the following list of courses:

- HIST 221: Greece and Rome 3 cr
- HIST 222: Medieval Europe 3 cr
- HIST 337: Archaeology and History of Southern Idaho 2 cr
- HIST 364: Public History Internship 1-6 cr
- HIST 405: Problems in History 3 cr
- HIST 461: Independent Study: United States* 1-3 cr
- HIST 462: Independent Study: Europe* 1-3 cr
- HIST 466: Independent Study: World Regions* 1-3 cr
- HIST 471: Historical Geography of Idaho 3 cr
- ANTH 410: Introduction to Cultural Resources Management 3 cr
- ECON 322: Economic History 3 cr
- GEOL 403: Principles of Geographic Information Systems 3 cr
- MATH 350: Information Systems 3 cr
- POLS 313: Introduction to Political Philosophy 3 cr
- POLS 411: American Political Theory 3 cr

*Note: Using more than one independent study class (461, 462, or 463) to fulfill the requirements requires the permission of the History Chair.

### Associate of Arts in History

Students seeking an Associate of Arts degree in History must complete the following:

**General Education Goals for the Bachelor of Arts**

All of the General Education Goals (10A and 10B) 35-36 cr

**World Regions**

(9 credits, no more than 3 of which must be in HIST 101 or HIST 102)
Students must take at least three of the following World Regions courses:

- **HIST 101**: Foundation of Western Civilization 3 cr
- **HIST 102**: Development of Western Civilization 3 cr
- **HIST 249**: World Regional Geography 3 cr
- **HIST 251**: Latin America 3 cr
- **HIST 252**: East Asian History 3 cr
- **HIST 254**: Middle Eastern Civilization 3 cr
- **HIST 255**: African History and Culture 3 cr

Students may use one of the above courses to satisfy Goal 10A of the General Education requirements.

Three additional 200-400 level courses in history 9 cr Electives to bring total to 64 cr* variable

* The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.

Minor in History

**World Regions (9 credits, no more than 3 of which must be HIST 101 or HIST 102):**

Students must take at least three of the following World Regions courses:

- **HIST 101**: Foundation of Western Civilization 3 cr
- **HIST 102**: Development of Western Civilization 3 cr
- **HIST 249**: World Regional Geography 3 cr
- **HIST 251**: Latin America 3 cr
- **HIST 252**: East Asian History 3 cr
- **HIST 254**: Middle Eastern Civilization 3 cr
- **HIST 255**: African History and Culture 3 cr

Students may use one of the above courses to satisfy Goal 10A of the General Education requirements.

Other Courses:

- ONE additional 200-400 level course in History 3 cr
- TWO additional 300-400 level courses in History 6 cr

TOTAL: 18 cr

Teaching Majors and Minors

All students exercising this option must have an advisor in the History Department as well as in the College of Education.

Pre-Law Majors

Dr. Ron Hatzenbuehler is the pre-law advisor for the History Department. Students interested in postgraduate legal education should consult regularly with him.

Foreign Language Recommendation

All students, particularly those planning graduate work, are strongly urged to develop a foreign language program in addition to the courses required for the B.A. degree. Students should consult with their advisors.

### History Courses

- **HIST 101 Foundations of Europe 3 credits.** Historical development of Europe since ancient times as a world region and its expanding importance in the first global age, to 1700. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 102 Modern Europe 3 credits.** Europe’s rise and decline as the dominant world region during the second global age, from 1700 to the present. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 111 U.S. History I (to 1865) 3 credits.** Colonial origins and achievement of independence, constitutional government, national boundaries, and the preservation of the union. Satisfies Goal 9 of the General Education Requirements. F, S

- **HIST 112 U.S. History II (to present) 3 credits.** The domestic and international development of a plural, industrial society. Satisfies Goal 9 of the General Education Requirements. F, S

- **HIST 118 U.S. History and Culture 3 credits.** An introduction to U.S. history and culture, including cultural change over time. Fulfills General Education Goal 9. F, S, Su

- **HIST 221 Greece and Rome 3 credits.** Social, political, economic and cultural developments of the Mediterranean world during Greek and Roman times. D

- **HIST 223 Medieval Europe 3 credits.** The decline of the Roman Empire; the early development of the states of western Europe; the Medieval Church and the Papacy; and the industry, philosophy, science, and arts of the Middle Ages. D

- **HIST 249 World Regional Geography 3 credits.** Introduction to world regions, using a geographic perspective as a vehicle, through the principal themes of human geography including, but not limited to, the spatial distributions and interactions of history, culture, economy, population, and environment. Satisfies Goal 10A of the General Education Requirements. F

- **HIST 251 Latin America 3 credits.** Historical development in its global context of Latin America as a world region, defined by the religion, political institutions, and languages brought by Iberian conquerors and characterized by the contributions of Native Americans, Africans, and Europeans. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 252 East Asian History 3 credits.** The origins and growth of the distinctive cultures of China and Japan; their encounters with the West and different responses to Westernization, and their roles in the modern world. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 254 Middle Eastern Civilization 3 credits.** Middle Eastern Civilization from the emergence of Islam to the present. Emphasis on fundamentals of Islamic culture and modern political and social developments. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 255 African History and Culture 3 credits.** An introductory survey of Africa covering its origins to its various expressions in contemporary Africa. Satisfies Goal 10A of the General Education Requirements. D

- **HIST 258 Native American History 3 credits.** Assesses diversity of North American natives, their life and thought; European impact; federal policy; and natives’ response to continual cultural and physical assault. Cross-listed as ANTH 258. D

- **HIST 291 The Historian’s Craft 3 credits.** Takes an interdisciplinary approach to historical research. Trains students in diverse methods of inquiry and analysis. To be taken as early as possible after a student has declared a major in History. Required prerequisite for HIST g891. F, S

- **HIST 307 Early North America 3 credits.** A study of American cultures prior to the arrival of Europeans, of the variety of transplanted cultures in America and their changes over time. Special emphasis on the founding of the United States and the establishment of government under the Constitution. R2

- **HIST 308 Industrialization and Reform in the United States 3 credits.** 1820-1932. The emergence of industrialization in the early 19th century, the impact of the Civil War on industrialization, and industrialization’s attendant political, social, cultural, and economic reforms and changes. Special attention paid to abolitionism, postwar reconstruction, and the Great Migration of African Americans to the industrialized North. R2

- **HIST 309 Modern United States 3 credits.** An historical examination of the United States from the 1930s to the present, focusing on the Great Depression, New Deal, World War II, the U.S. rise to global power, its maturation as a mass society, the rise and decline of liberalism and conservatism, the Civil Rights Movement, the Vietnam War, the changing nature of citizenship and culture, and the end of the Cold War. R2

- **HIST 318 History of Christianity 3 credits.** This course will survey the history of Christianity from its origins to its various expressions in the modern world. Special attention will be given to the initial formation of Christian traditions, the encounter of Christianity with intellectual and social trends in western history, and the periodic movements of reform which sought to reform Christian life and institutions. D

- **HIST 322 Religious Reformations and Conflict 3 credits.** A comparative study of the development of new faith communities and the religious violence which shattered the unity of Western Christianity, 1300-1650. PREREQ: HIST 101. D

- **HIST 323 Old Regime and French Revolution 3 credits.** A study of traditional European institutions, society, and culture from 1650 to 1789 and their transformation in the age of the French Revolution and Napoleon, 1789-1815. D

- **HIST 326 Twentieth Century Europe 3 credits.** Europe from World War II through the end of the Cold War. PREREQ: HIST 102 or permission of instructor. D

- **HIST 337 Archaeology and History of Southern Idaho 2 credits.** A multicultural, ethnographic perspective on the history of the Snake River Plain. Course content focuses on the 1811 to 1890s time period and is rich in details based on information gathered from the earliest accounts and historical archaeological fieldwork. ASU
HIST 364 Public History Internship 1-6 credits. Faculty supervised placement in historical societies, museums, archives, government agencies, municipal departments, libraries or other institutions engaged in historical preservation, dissemination, and/or research. May be repeated for a maximum of 6 credits. D

HIST 382 Russia 3 credits. Russian history and civilization from the medieval Kievan state to modern times. D

HIST 405 Problems in History 3 credits. A thorough consideration of historical problems, particularly from a comparative perspective. Designed to give deeper insight into problems, issues, and topics which are treated more generally in other courses. May be repeated with different content. D

HIST 418 United States History for Teachers 3 credits. U.S. history from indigenous cultures through modern America. Based on Idaho Department of Education Standards for High School Students. F, S

HIST 421 Federal Indian Relations 3 credits. Legal-historical examination of the relationship between North American tribal peoples and the U.S. federal government between 1750 and the present. Special emphasis will be placed on Indian removal, assimilation policy, treaty negotiation, the Dawes Severalty Act, education policy, Indian reorganization policy, and termination. R2

HIST 423 Idaho History 3 credits. A survey of the social, cultural, environmental, and political history of Idaho from pre-contact indigenous cultures to the present, emphasizing Idaho’s relationship to other states and regions in the West. F, S

HIST 425 Women in the North American West 3 credits. Comparative examination of the varied experiences of women in the North American West. Analyzes perceptions of women and women’s views of themselves, women’s activism, and women’s cultural activities. Places special emphasis on the use of non-textual historical sources in uncovering the past lives of North American western women. R

HIST 427 North American West 3 credits. History of the North American West from pre-contact indigenous cultures to the present, with an emphasis on exploration, settlement, ethnic groups, borderlands, environment, federal policy, and cultural depictions. R2

HIST 429 Foreign Relations since 1900 3 credits. An introduction to the history of international relations in the twentieth century. This course emphasizes the impact of wars on various peoples and cultures, anti-colonialism, and the rise of the so-called “Third World,” and the processes of political, cultural and economic ‘globalization.’ R2

HIST 430 Global Environmental History 3 credits. Comparative examinations of historical interactions between humans and environmental factors in various time periods and regions throughout the world, and an assessment of their impacts on historical change. R2

HIST 435 Colonial Frontiers in America and Africa 3 credits. A comparative examination of exploration, conquest, and resistance, and the interaction of cultures in frontier settings. Examines both the realities of the frontier and their impact on Western thought and imagination. D

HIST 437 Families in Former Times 3 credits. Reconstructs the marriage patterns and domestic lives of people in pre-industrial Europe (1000-1700 AD).

HIST 438 Women in Pre-Industrial Europe 3 credits. Compares and contrasts the social, cultural and economic roles of women from 700-1700 AD, and analyzes the impacts of historical change on their lives. D

HIST 439 Women in History 3 credits. Comparative study of the history of women in different world regions. R2

HIST 441 The Viking Age 3 credits. Studies the cultures and societies of Scandinavia, England and continental Europe from 700 to 1100 AD. D

HIST 443 English History 3 credits. Survey of the more important British political, constitutional, economic, and cultural developments from Anglo-Saxon times to the Victorian period. D

HIST 444 Victorian England and After 3 credits. England, 1837 to the present. An examination of the cultural, social, political, and economic history of the most prosperous and productive period of English history including British national and imperial decline in the twentieth century. D

HIST 446 Social and Economic History of Greece and Rome 3 credits. Investigates ways in which geography, demography and politics affected the mentalities and behaviors of social groups—men, women, patrons, clients and slaves—and the functioning of households, villages and cities. D

HIST 447 Medieval Social and Economic History 3 credits. Analyzes the impact of political instability, migration and environment upon Europeans (AD 200-1400). D

HIST 450 Golden Age Castile 3 credits. History of a major European country in an age of globalization, military revolution, religious conflict, and significant cultural development, 1450-1700. D

HIST 453 Renaissance Creativity 3 credits. Examination of the conditions promoting individual creativity among Europeans in the first global age, 1400-1700. Special emphasis on geospatial research on the history of printing. AS

HIST 460 The Global Hispanic Monarchy 3 credits. The African, American, Asian, European, and Oceanic domains of the Iberian Habsburg dynasty, especially those of Castile and Portugal, whose officials and subjects created and maintained many of the communications routes that defined the first global age. Students prepare geospatial datasets on these routes. AS

HIST 461 Independent Study: United States 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. PREREQ: Previous upper-division course work in the subject area with a minimum grade of A; GPA of 3.5 in all history courses; permission of the instructor, and approval by the Department Chair. D

HIST 462 Independent Study: Europe 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. PREREQ: Previous upper-division course work in the subject area, with a minimum grade of A; GPA of 3.5 in all history courses; permission of the instructor; and approval by the Department Chair. D

HIST 463 Independent Study: World Regions 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. PREREQ: Previous upper-division course work in the subject area, with a minimum grade of A; GPA of 3.5 in all history courses; permission of the instructor; and approval by the Department Chair. D

HIST 471 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho’s economic, political and cultural history. May be team taught and include field trips, discussion sections. Cross-listed as GEOL 471 and POLS g471, AS

HIST 474 Islam and Nationalism in the Modern World 3 credits. A study of the interaction of Islam and national and ethnic identities in the Middle East including North Africa from 1800 up to the recent past. D

HIST 478 Imperialism and Progressivism 3 credits. A study of the world 1880-1920. Movements of change within the West, Third World responses to the Western challenge, and global crisis. PREREQ: HIST 252, HIST 254, or HIST 255. D

HIST 490 Cartography: History and Design 3 credits. History of how map-makers represent geographic, spatial data. Special attention to the elements of successful cartographic design. F

HIST 491 Seminar 3 credits. Reading, discussion, and preparation for research papers on selected topics. PREREQ: Senior standing in History major; HIST 291. F, S

HIST 497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U.

International Studies Program

Director and Professor: Foster

The International Studies Program offers to students an opportunity to expand their cultural, linguistic, and social horizons beyond their own local experience. As the world becomes increasingly interdependent it demands of all of us an expanded knowledge of other people, their social and political institutions, and their culture. The program leads to a B.A. in International Studies. There is no B.S. option.

The International Studies Program encourages students to develop a general understanding of language, culture, economics, and politics while simultaneously offering
the opportunity to specialize in one of three areas:
1. Political and Economic Development;
2. Language, Literature, and Culture; or
3. The United States and World Affairs.

Bachelor of Arts in International Studies

Admission Requirements
For final admission to status as a major in the International Studies Program, a student must have completed:
1. General Education Goals 1, 2, and 3 for the Bachelor of Arts degree, a minimum of eight (8) credits of a foreign language (or demonstrated equivalent);
2. POLS 221 Introduction to International Relations (with at least a C grade);
3. A minimum of 24 credit hours with at least a 2.25 grade point average;
4. A signed agreement with the International Studies Program Director for advising.

Program Requirements
The following courses may be taken as part of the general education requirements of the University:
1. Sixteen (16) credits of a modern foreign language (8 credits beyond Goal 1B) or the equivalent demonstrated competency. The languages offered at Idaho State University are French, German, Japanese, Russian, and Spanish.
2. ECON 201, Principles of Macroeconomics (3 credits).

Major Requirements
The major in International Studies, in addition to the general requirements stated above, requires thirty-seven (37) credits distributed in the following categories:
1. Required Courses,
2. Areas of Concentration, and
3. Electives.

1. Required Courses—Nine (9) credits:
- IS 200 Simulation* 1 cr
- IS 400 Simulation* 3 cr
- IS 493 Senior Thesis 4 cr

2. Areas of Concentration—Eighteen (18) credits
Students must complete eighteen (18) credits to be chosen from within one of the following areas of concentration (choose A, B, or C)

A. Political and Economic Development
This area of concentration has as its focus issues of political and economic development in those parts of the world which at once seek the possibility of change and are threatened by change. Eighteen (18) credits are to be selected from the following list and approved by your advisor. No more than twelve (12) of these required eighteen credits are to be taken from any one department's offerings.

- Anthropology
  - ANTH 250 Introduction to Sociocultural Anthropology 3 cr
  - ANTH g402 Ecological Anthropology 3 cr

- Economics *
  - ECON 334 International Economics 3 cr
  - ECON g433 Economic Development 3 cr
  - ECON g472 Comparative Economic Systems 3 cr
  - *Both ECON 201 and ECON 202 are prerequisites for the Economics courses above.

- History
  - HIST 251 Latin America 3 cr
  - HIST 252 East Asian History 3 cr
  - HIST 254 Middle Eastern Civilization 3 cr
  - HIST 255 African History and Culture 3 cr
  - HIST 382 Russian History 3 cr
  - HIST 430 Global Environmental History 3 cr
  - HIST g474 Islam and Nationalism in the Modern World 3 cr
  - HIST g478 Imperialism and Progressivism 3 cr

- Political Science
  - POLS 331 Comparative Politics: Framework for Analysis 3 cr
  - POLS g432 Comparative Politics: Change and Political Order 3 cr
  - POLS g433 Politics of Developing Nations 3 cr
  - POLS g434 Terrorism and Political Violence 3 cr
  - POLS g435* Topics in National/Regional Studies 3 cr
  - *In consultation with your advisor and when the topic relates to political and economic development.

- Sociology
  - SOC 335 Population and Environment 3 cr

B. Language, Literature, and Culture
This area of concentration is for those wishing to study the language, literature, and culture of societies other than the United States. It is limited to concentrations in French, German, Japanese, Russian, and Spanish. No more than twelve (12) of the required eighteen (18) credits may be taken from the offerings of a single department.

- French
  - CMLT 207 Contemporary European Culture 3 cr
  - FREN 301,302 French Conversation and Composition I and II 6 cr
  - FREN 341,342 Survey of French Literature and Civilization I and II 6 cr
  - FREN 381 French Current Affairs 3 cr
  - FREN g410 Seventeenth Century French Literature 3 cr
  - FREN g400 French Advanced Grammar 3 cr
  - FREN g420 Eighteenth Century French Literature 3 cr
  - FREN g450 Twentieth Century French Literature 3 cr
  - FREN g430 French Realism and Naturalism 3 cr
  - FREN g470 Readings in French 2 cr
  - FREN g480 Independent Studies in French 3 cr
  - FREN g490 French Senior Seminar 3 cr
  - HIST 255 African History and Culture 3 cr
  - HIST 323 Old Regime and French Revolution 3 cr
  - HIST 326 Twentieth Century Europe 3 cr
  - POLS g435* Topics in National/Regional Studies 3 cr
  - *In consultation with your advisor and when the topic relates to this area of concentration.

- German
  - CMLT 207 Contemporary European Culture 3 cr
  - GERM 301,302 German Conversation and Composition 6 cr
  - GERM 341,342 Survey of German Literature and Civilization 6 cr
  - GERM 381 German Current Affairs 3 cr
  - GERM g400 German Advanced Grammar 3 cr
  - GERM g410 Survey of German Poetry 3 cr
  - GERM g420 The Age of Goethe 3 cr
  - GERM g430 German Romantism 3 cr
  - GERM g440 German Realism and Naturalism 3 cr
  - GERM g450 Modern German Literature 3 cr
  - GERM g470 Readings in German 2 cr
  - GERM g480 Independent Studies in German 3 cr
  - GERM g490 German Senior Seminar 3 cr
  - HIST 326 Twentieth Century Europe 3 cr
  - POLS g435* Topics in National/Regional Studies 3 cr
  - *In consultation with your advisor and when the topic relates to this area of concentration.

- Japanese
  - HIST 252 East Asian History 3 cr
  - JAPN 301,302 Japanese Conversation and Composition I and II 6 cr
  - JAPN 341,342 Survey of Japanese Literature I and II 6 cr
  - JAPN g470 Readings in Japanese 2 cr
  - POLS g432 Comparative Politics: Change and Political Order 3 cr
  - POLS g435* Topics in National/Regional Studies 3 cr
  - *In consultation with your advisor and when the topic relates to this area of concentration.

- Russian
  - CMLT 207 Contemporary European Culture 3 cr
  - HIST 326 Twentieth Century Europe 3 cr
  - HIST 382 Russian History 3 cr
  - POLS g432 Comparative Politics: Change and Political Order 3 cr
  - POLS g435* Topics in National/Regional Studies 3 cr
  - *In consultation with your advisor and when the topic relates to this area of concentration.
Sciences
College of
courses listed in Areas of Concentration A, B, C and not taken to fulfill the requirements for one of those Concentrations; or the courses and electives listed below; or a mixture of Concentration courses and those listed here.

Ten (10) credits to be selected from either courses listed in Areas of Concentration A, B, C and not taken to fulfill the requirements for one of those Concentrations; or the courses listed below; or a mixture of Concentration courses and those listed here.

3. Electives

Minor in International Studies

General Requirements
1. Eight (8) credits in a foreign language or the equivalent demonstrated competency.
2. Economics 201 (3 credits).

Minor Requirements
In addition to the General Requirements, students wishing to minor in International Studies must complete twenty-three (23) credits as detailed under Required Courses and Electives below.

Required Courses:
- Introduction to International Relations (3 credits)
- Simulation (1 credit)
- Simulation (1 credit)

Electives

International Studies Courses

IS 200 Simulation 1 credit. Preparation for, and participation in, a simulation of international affairs. Required for International Studies majors and minors. May be repeated for up to 2 credits. F, S

IS 300 Travel and Study Abroad 3 or 6 credits. Travel and study abroad through student exchange programs and other supervised experience. PREREQ: Approval of the Director of International Studies. F, S

IS 350 International Symposium 1 credit. Active participation in organizing the annual Frank Church Symposium for International Affairs, and attendance at the sessions. May be repeated for up to 8 credits. F, S

IS 350 International Symposium 1 credit. Active participation in organizing the annual Frank Church Symposium for International Affairs, and attendance at the sessions. May be repeated for a maximum of 8 credits. F, S

IS 400 Simulation 1 credit. Preparation for, and participation in, a simulation of international affairs. Required for International Studies majors and minors. May be repeated for up to 2 credits. F, S

IS 493 Senior Thesis 4 credits. International Studies majors will write and present a senior thesis under direction of one of the faculty affiliated with the International Studies Program. F, S

Department of Languages and Literatures

Chair and Professor: Fogelquist
Professors: Dolsen, Park, Sieber
Assistant Professors: Hunt, Tarp
Associate Professors: Heath, Stewart
Assistant Lecturers: Alvarez, Ballard, Fukuoka, McCurry, Roberdo, Yonk
Adjunct Faculty: Ballard, Dillon, Johnsen, Koby, Moor, Nagata, Omar, Tatarova, Yonk, Zaltzman
Emeritus Faculty: Nickisch

Mission
The goal of the Department of Languages and Literatures is to teach skills in speaking, listening, reading, and writing in languages other than English; to increase the student’s understanding of the history, traditions, literature, and civilization associated with the language of study; and to develop the critical, analytical, and composing skills
necessary to use the language in the profession of choice.

The Department of Languages and Literatures offers Bachelor of Arts (B.A.) degrees in French, German and Spanish intended to prepare students for public school teaching and certification in cooperation with the College of Education; for admission to graduate school; and for careers in international organizations, government, and business. Majors are expected to achieve satisfactory levels of proficiency in speaking, listening, reading, and writing; and to acquire knowledge of the literature of the major language and of the historical and cultural contexts in which it was produced.

Minors in French, German, Japanese, Russian, and Spanish, and introductory and intermediate courses in Arabic, Chinese, Latin, and Shoshoni provide an important component of the student’s general education in the Humanities and complement a wide variety of majors in other disciplines, increasing the ability to compete for jobs where a knowledge of one or more foreign languages is desired. The Department of Languages and Literatures also teaches courses in English on comparative literature, literature in translation, film, and cultural studies designed for a broad audience, in particular those who lack the language competency to read major works in their original language.

Language Placement Testing
It is strongly recommended that all students with previous experience in French, German or Spanish who have not yet taken a course in the language at Idaho State University take a placement test to determine the appropriate course in which to enroll. Placement tests are offered in the Counseling and Testing Center on the Second Floor (South Wing) of Graveley Hall. Results are available immediately upon completion of the exam. Students who have questions about how to determine an appropriate course after taking a placement exam should contact the Department of Languages and Literatures at (208) 282-3630. Students who have no experience in a language should enroll in the first course in the language (i.e. FREN 101).

Admission to Major Status
To secure a major in French, German or Spanish, the student is required to complete at least 27 hours of courses numbered 300 or above, most of which are given in the respective language.

Prospective high school teachers may obtain teaching majors or minors in foreign languages. They should consult the Teacher Education Program in the College of Education concerning the requirements for certification. Foreign language majors and minors are expected to include in their programs the designated required courses and to attain a reasonable degree of fluency in the languages they have selected.

The department maintains a modern language laboratory, which includes tapes, CDs, DVDs, a record library, computers and video equipment. Its facilities are available to all language students.

General Education Requirements
Please note the following goal requirements:

1. For a major or minor in a foreign language, the student must fulfill both Goals 10A and 10B.
2. The following 3 credit courses taught in English fulfill Goal 10A: CMLT 207, Contemporary European Culture; CMLT 208, Cultures of the Spanish-Speaking World; CMLT 209, Cultures of Asia.
3. One year of Arabic, Chinese, French, German, Japanese, Latin, Russian, Shoshoni, or Spanish at the elementary or intermediate level fulfills Goal 10B.

Foreign Students
Foreign students cannot apply their native language to fulfill Goal 10B (8 credits of a foreign language). Instead, their pass on English 101 and 102 with at least a C- average will serve the dual purpose of fulfilling Goals 1 and 10B.

C.L.E.P. Credit
Students who speak French, German or Spanish at home or who have learned the language abroad can receive credit by examination (C.L.E.P.) to be applied to their transcripts with an “S” grade (16 credits maximum). Students who gain the C.L.E.P. credits will fulfill Goal 10B by taking one sequence course in the language in which they have gained the credits (e.g. 8 CLEP credits plus SPAN 201, or 16 credits plus SPAN 301). No C.L.E.P. exams are available for other languages. For further information, see the department secretary.

Other Language Exams
Students who have learned languages other than French, German, or Spanish may satisfy Goal 10B of the General Education Requirements by successfully completing one of the proficiency exams developed by Brigham Young University for a number of rarely taught languages. Applications for this exam may be obtained in the office of the Department of Languages and Literatures (Business Administration Building, Room 338-A).

Bachelor of Arts in French, German or Spanish
All courses required for the majors listed below must be completed with a minimum of a C- (C-minus).

Degree Requirements for French, German and Spanish Majors:

One of the following courses (3 cr)

CMLT 207 Contemporary European Culture 3 cr
CMLT 208 Cultures of the Spanish-Speaking World 3 cr
CMLT 209 Cultures of Asia 3 cr
CMLT 220 Introduction to International Film 3 cr

Plus:

CMLT 360 Literary Theory 3 cr

Major in French

FREN 201-202 Intermediate French (or equivalent high school courses or experience) 8 cr
FREN 301-302 French Conversation and Composition 6 cr
FREN 341-342 Survey of French Literature and Civilization AND 6 cr

Upper-division FREN, CMLT, or LANG courses other than LANG 437, four of which must be taught in French 18 cr

Major in German

GERM 201-202 Intermediate German (or equivalent high school courses or experience) 8 cr
GERM 301-302 German Conversation and Composition 6 cr
GERM 341-342 Survey of German Literature and Civilization AND 6 cr

Upper-division GERM, CMLT, or LANG courses other than LANG 437, four of which must be taught in German 18 cr

Major in Spanish

SPAN 201-202 Intermediate Spanish (or equivalent high school courses or experience) 8 cr
SPAN 301-302 Spanish Conversation and Composition 6 cr
Major in French, German or Spanish for Business and Professions

Requirements:
1) Two of the following courses (6 cr):
   - CMLT 207 Contemporary European Cultures 3 cr
   - CMLT 208 Cultures of the Spanish-Speaking World 3 cr
   - CMLT 235 Introduction to International Film Studies 3 cr
2) CMLT 360 Literary Theory (3 cr)
3) The following courses in the chosen major language (15 cr):
   - 301, 302 Conversation and Composition I, II 6 cr
   - 341, 342 Survey of Literature and Civilization I, II 6 cr
   - 381 Current Affairs 3 cr
4) CMLT 460 Translation and Interpretation (3 cr)
5) Three upper-division electives (9 cr):
   - Two taught in the major language
   - The third in the major language or an upper-division course with a CMLT or LANG prefix
6) One of the following minors* offered by the College of Business:
   - Computer Information Systems 18 cr
   - Business Administration 33 cr
   - Marketing 18 cr

*See the detailed listings of requirements for the three minors in the College of Business section of the catalog.

Minor in German

A Goal 10A course must also be taken.

- GERM 201-202 Intermediate German 8 cr
- GERM 301-302 German Conversation and Composition 6 cr
- Upper-division GERM, CMLT, or LANG courses other than LANG 437, four of which must be taught in Spanish 18 cr

Choose one set (for Goal 10B):
- FREN 101-102 Elementary French 8 cr
- FREN 201-202 Intermediate French 8 cr
- GERM 101-102 Elementary German 8 cr
- GERM 201-202 Intermediate German 8 cr
- JAPN 101-102 Elementary Japanese 8 cr
- JAPN 201-202 Intermediate Japanese 8 cr
- LATN 101-102 Elementary Latin 8 cr
- LATN 201-202 Intermediate Latin 8 cr
- RUSS 101-102 Elementary Russian 8 cr
- RUSS 201-202 Intermediate Russian 8 cr
- SHOS 101-102 Elementary Shoshoni 8 cr
- SHOS 201-202 Intermediate Shoshoni 8 cr
- SPAN 101-102 Elementary Spanish 8 cr
- SPAN 201-202 Intermediate Spanish 8 cr
- Electives to bring total to 64 cr variable

TOTAL: 64 cr

*The number of credits required for the General Education requirements varies depending on the student's performance on proficiency or placement tests in English, foreign languages, and mathematics.

Associate of Arts Degree

Students seeking an Associate of Arts degree in French, German, Japanese, Latin, Russian, Shoshoni or Spanish must complete the following:

- ANTH/ENGL/LANG 101 The Nature of Language 3 cr
- ENGL 110 Introduction to Literature 3 cr
- ENGL 211 Introduction to Literary Analysis 3 cr
- Upper-division ANTH, ENGL, FREN, LANG, SPAN, CMLT or LANG courses (excluding 10A and 10B, using the courses below) 37-53 cr

Choose one course (for Goal 10A):
- CMLT 207 Contemporary European Culture 3 cr
- CMLT 218 CMLT 208 Cultures of the Spanish-Speaking World 3 cr
- CMLT 209 Cultures of Asia 3 cr

Arabic Courses

ARBC 101 Elementary Arabic I 4 credits.
Basic communication skills and grammatical structures of Arabic and introduction to cultures of Arabic-speaking countries. Practice in the language laboratory is required. With ARBC 102, satisfies Goal 10B of the General Education Requirements. D

ARBC 102 Elementary Arabic II 4 credits.
Continuation of ARBC 101 Practice in the language laboratory is required. PREREQ: ARBC 101 or equivalent. With ARBC 101, satisfies Goal 10B of the General Education Requirements. D

ARBC 201 Intermediate Arabic I 4 credits.
Extensive review of grammatical structures and continued emphasis on developing students' communication skills in Arabic. Contrastive study of culture as reflected in the Arabic language. Practice in the language laboratory is required. PREREQ: ARBC 102 or equivalent. With ARBC 201, satisfies Goal 10B of the General Education Requirements. D

ARBC 202 Intermediate Arabic II 4 credits.
Continuation of ARBC 201. PREREQ: ARBC 201 or equivalent. With ARBC 202, satisfies Goal 10B of the General Education Requirements. D

ARBC 205 Study Abroad 3-6 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

Chinese Courses

CHNS 101 Elementary Chinese I 4 credits.
Basic communication skills and grammatical structures in Chinese and introduction to the culture of Mandarin Chinese-speaking peoples. Practice in the language laboratory is required. With CHNS 102, satisfies Goal 10B of the General Education Requirements. D

CHNS 102 Elementary Chinese II 4 credits.
Continuation of CHNS 101. Practice in the
language laboratory is required. PREREQ: CHNS 101 or equivalent. With CHNS 101, satisfies Goal 10B of the General Education Requirements. D

CHNS 201 Intermediate Chinese 4 credits. Extensive review of grammatical structures and continued emphasis on developing communication skills in Chinese. Contrastive study of culture as reflected in the Chinese language. Practice in the language laboratory is required. PREREQ: CHNS 102 or equivalent. With CHNS 202, satisfies Goal 10B of the General Education Requirements. D

CHNS 202 Intermediate Chinese II 4 credits. Continuation of CHNS 201. PREREQ: CHNS 102 or equivalent. With CHNS 201, satisfies Goal 10B of the General Education Requirements. D

CHNS 205 Study Abroad 3-6 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

Comparative Literature Courses

CMLT 207 Contemporary European Culture 3 credits. European culture in French, German, and Spanish-speaking countries is examined in terms of its historical bases and its contemporary expressions in customs, institutions, lifestyles, literature, art, and music. Taught in English. Satisfies Goal 10A of the General Education Requirements. S

CMLT 208 Cultures of the Spanish-Speaking World 3 credits. Topics in art, history, literature and film of Spain, Spanish-America and Latino USA. Taught in English. Satisfies Goal 10A of the General Education Requirements. S

CMLT 209 Cultures of Asia 3 credits. Overview of the cultures of China, Japan, and Korea, intended to help the student understand each within the framework of East Asian civilization, their historical importance and the crucial role they play in the world today. Satisfies Goal 10A of the General Education Requirements. F

CMLT 220 Introduction to International Film Studies 3 credits. An introduction to the world of international film and the cultural, historical, and artistic issues the art form embodies. Focus on interpretations of nationality and multiculturalism through the medium of film. AS

CMLT 335 World Film Studies 3 credits. Based on the premise of film as text. Examines the creative process, aesthetic principles, and historical background, through the screening of representative films and the reading of theory and critical analysis of European, Francophone, African and Latin American cinema. Taught in English. PREREQ: CMLT 220 or permission of instructor. D

CMLT 360 Critical Theory 3 credits. The application of critical theory to the reading of world literature. Taught in English. PREREQ: ENGL 102. D

CMLT 415 Studies in Major National Literatures 3 credits. Studies in important literatures and cultures not covered by regular course offerings. May include literatures in translation and literature written in English outside of America and the British Isles. Cross-listed as ENGL g455. May be repeated for up to 6 credits with different content. D

CMLT g435 Topics in World Film Studies 3 credits. Rotating topics in world film studies. Consult Class Schedule for topic being taught. May be repeated with different content. PREREQ: Permission of instructor. D

CMLT 488 Comparative Literature Seminar 3 credits. Advanced work in the areas of cultural studies, literature, and research methods. May be conducted in English. May be repeated for up to 6 credits with different content. PREREQ: Permission of instructor. D

French Courses

FREN 101 Elementary French I 4 credits. Intended to teach students basic communication skills and grammatical structures in French and to acquaint them with the culture of the French-speaking countries. Practice in the language laboratory is required. With FREN 102, satisfies Goal 10B of the General Education Requirements. F, S

FREN 102 Elementary French II 4 credits. Intended to teach students basic communication skills and grammatical structures in French and to acquaint them with the culture of the French-speaking countries. Practice in the language laboratory is required. With FREN 101, satisfies Goal 10B of the General Education Requirements. F, S

FREN 201 Intermediate French I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in French. Contrastive study of culture as reflected in the French language. Practice in the language laboratory is required. With FREN 202, satisfies Goal 10B of the General Education Requirements. F, S

FREN 202 Intermediate French II 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in French. Contrastive study of culture as reflected in the French language. Practice in the language laboratory is required. With FREN 201, satisfies Goal 10B of the General Education Requirements. F, S

FREN 205 Study Abroad 3-6 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

FREN 301 French Conversation and Composition I 3 credits. Intensive practice speaking and writing French in forms and styles common to economics, politics, science, society, the arts and creative writing of the French-speaking world. PREREQ: FREN 202 or equivalent. F

FREN 302 French Conversation and Composition II 3 credits. Intensive practice speaking and writing French in forms and styles common to economics, politics, science, society, the arts and creative writing of the French-speaking world. PREREQ: FREN 202 or equivalent and FREN 301. S

FREN 303 Professional French 3 credits. Intensive practice speaking, reading and writing in French in business, medical, legal, or other professions. PREREQ: FREN 202 or equivalent experience. Can be repeated for up to 6 credits with different content. D

FREN 305 Study Abroad 3 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

FREN 341 Survey of French Literature and Civilization I 3 credits. Comprehensive overview of the main currents of French cultural history and literature. Conducted in French. PREREQ: FREN 202 or equivalent. AF

FREN 342 Survey of French Literature and Civilization II 3 credits. Comprehensive overview of the main currents of French cultural history and literature. Conducted in French. PREREQ: FREN 202 or equivalent and FREN 341. AS

FREN 381 French Current Affairs 3 credits. Study of contemporary French culture through an examination of current sociocultural issues in French speaking countries. Conducted in French. R3

FREN g400 French Advanced Grammar 3 credits. Survey of selected grammar and composition topics on the advanced level. PREREQ: Permission of instructor. D

FREN g410 Seventeenth Century French Literature 3 credits. Study of representative works of the 17th century, with particular emphasis on the works of Corneille, Moliere, and Racine. Conducted in French. PREREQ: Permission of instructor. R3

FREN g420 Eighteenth Century French Literature 3 credits. French thought as reflected in the literature from 1715 to the Revolution. Special emphasis on the works of Montesquieu, Voltaire, Diderot, and Rousseau. Conducted in French. PREREQ: Permission of instructor. R3

FREN g430 French Romanticism 3 credits. Study of the Romantic prose, poetry, and drama of the period: Lamartine, Musset, Vigny, Hugo, and others. Conducted in French. PREREQ: Permission of instructor. R3

FREN g440 French Realism and Naturalism 3 credits. Study of the main currents in French literature, as reflected in the works of Balzac, Flaubert, Zola, Maupassant, and other writers of the latter 19th century. Conducted in French. PREREQ: Permission of instructor. R3

FREN g450 Twentieth Century French Literature 3 credits. Study of the main currents of contemporary French literature including symbolism, surrealism, existentialism, objectivism, etc. Conducted in French. PREREQ: Permission of instructor. R3

FREN g455 Dissidence in French Literature 3 credits. The study of French writings of a variety of genres that criticize political, social and religious practices spotlighting questions of moral
values and human rights. Conducted in French. PREREQ: Permission of instructor. R3

FREN 465 French Translation and Interpretation 3 credits. Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary. May be repeated once with a different content. PREREQ: FREN 301, FREN 302, FREN 341, and FREN 342, or permission of instructor. D

FREN 470 Readings in French 2 credits. Reading, discussion, and preparation of reports on selected topics in French literature. May be repeated for up to 4 credits with different content. Conduced in French. PREREQ: Permission of instructor. D

FREN 480 Independent Studies in French 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. PREREQ: Permission of instructor. D

GERM 101 Elementary German I 4 credits. Intended to teach students basic communication skills and grammatical structures in German and to acquaint them with the culture of the German-speaking countries. Practice in the language laboratory is required. With GERM 102, satisfies Goal 10B of the General Education Requirements. F, S

GERM 102 Elementary German II 4 credits. Intended to teach students basic communication skills and grammatical structures in German and to acquaint them with the culture of the German-speaking countries. Practice in the language laboratory is required. With GERM 101, satisfies Goal 10B of the General Education Requirements. F, S

GERM 201 Intermediate German I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in German. Contrastive study of culture as reflected in the German language. Practice in the language laboratory is required. PREREQ: GERM 102 or equivalent. With GERM 201, satisfies Goal 10B of the General Education Requirements. F

GERM 202 Intermediate German II 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in German. Contrastive study of culture as reflected in the German language. Practice in the language laboratory is required. PREREQ: GERM 102 or equivalent. With GERM 202, satisfies Goal 10B of the General Education Requirements. F

GERM 205 Study Abroad 3 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

GERM 301 German Conversation and Composition I 3 credits. Students work toward mastery of German through readings, compositions, discussions and oral presentations. Subject matter centers on business, science, politics, and society. PREREQ: GERM 202 or equivalent. F

GERM 302 German Conversation and Composition II 3 credits. Students work toward mastery of German through readings, compositions, discussions and oral presentations. Subject matter centers on business, science, politics, and society. PREREQ: GERM 202 or equivalent experience. D

GERM 305 Study Abroad 3 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

GERM 341 Survey of German Literature and Civilization 3 credits. Comprehensive overview of the main currents of German cultural history and literature. Conducted in German. PREREQ: GERM 202 or equivalent. AF

GERM 342 Survey of Austrian and Swiss Literature 3 credits. Comprehensive overview of the main currents of Swiss and Austrian cultural history and literature. PREREQ: GERM 202 or equivalent. AS

GERM 381 German Current Affairs 3 credits. Study of contemporary German culture through an examination of current sociocultural issues in the German-speaking world. Conducted in German. R

GERM 405 Introduction to German Poetry and Drama 3 credits. Study of representative works of German poetry and drama, with emphasis on works from the Enlightenment to the present. Conducted in German. PREREQ: permission of instructor. R

GERM 415 Introduction to the German Novel 3 credits. Comprehensive overview of the German novel from the Enlightenment to the present. Conducted in German. PREREQ: permission of instructor. R

GERM 420 The Age of Goethe 3 credits. A survey of the major works and movements of the pre-classical and classical periods in German literature. Conducted in German. PREREQ: Permission of instructor. R

GERM 425 The Holocaust in German Literature, Film and Art 3 credits. Examination of the representation of the Holocaust in literature, film, and art. Conducted in German. PREREQ: Permission of Instructor. R

GERM 435 German Culture through Film 3 credits. Examination of German politics, culture and identity through German film. Conducted in German. PREREQ: Permission of Instructor. R

GERM 445 Social Problems in German Literature 3 credits. Study of the representation of social problems in German literature from the Enlightenment to the present. Conducted in German. PREREQ: Permission of instructor. R

GERM 455 GDR and Post-GDR Literature 3 credits. Examination of East German culture and politics through literature written from 1960-1989 and in the nostalgic texts of the post-unification period. Conducted in German. PREREQ: Permission of instructor. R

GERM 460 German Translation and Interpretation 3 credits. Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary. May be repeated once with different content. PREREQ: GERM 301, GERM 302, GERM 341, and GERM 342, or permission of instructor. D

GERM 470 Readings in German 2 credits. Reading, discussion, and preparation of reports on selected topics in German literature. May be repeated for up to 4 credits with different content. Conducted in German. PREREQ: Permission of instructor. D

GERM 480 Independent Studies in German 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. PREREQ: Permission of instructor. D

GERM 490 German Senior Seminar 3 credits. Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated for up to 3 credits. Graded S/U. F, S

GERM 495 A Survey of the German Novel from the Enlightenment to the Present 3 credits. Conducted in German. PREREQ: Permission of instructor. R

JAPN 101 Elementary Japanese I 4 credits. Basic communication skills, grammatical structures, and acquaintance with culture in Japan. Practice in the language laboratory is required. With JAPN 102, satisfies Goal 10B of the General Education Requirements. F

JAPN 102 Elementary Japanese II 4 credits. Basic communication skills, grammatical structures, and acquaintance with culture in Japan. Practice in the language laboratory is required. PREREQ: JAPN 101 or equivalent. With JAPN
JAPN 201 Intermediate Japanese I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in Japanese. Contrastive study of culture as reflected in the Japanese language. Practice in the language laboratory is required. PREREQ: JAPN 201 or equivalent. With JAPN 202, satisfies Goal 10B of the General Education Requirements. F
JAPN 202 Intermediate Japanese I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students’ communication skills in Japanese. Contrastive study of culture as reflected in the Japanese language. Practice in the language laboratory is required. PREREQ: JAPN 201 or equivalent. With JAPN 201, satisfies Goal 10B of the General Education Requirements. S
JAPN 205 Study Abroad 3-6 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D
JAPN 220 Basic Kanji I 3 credits. Introduction to basic kanji practice through acquisition of communication skills, grammatical structures, and acquaintance with culture in Japan. Writing, reading, and speaking of basic kanji and kanji components. PREREQ: JAPN 101 or equivalent. AF
JAPN 221 Basic Kanji II 3 credits. Introduction to basic kanji practice through acquisition of communication skills, grammatical structures, and acquaintance with culture in Japan. Writing, reading, and speaking of basic kanji and kanji components. PREREQ: JAPN 220 or equivalent. AS
JAPN 301 Japanese Conversation and Composition I 3 credits. Intensive practice speaking and writing Japanese in forms and styles common to economics, politics, science, society, the arts and creative writing of the Japanese-speaking world. PREREQ: JAPN 202 or equivalent. F
JAPN 302 Conversation and Composition II 3 credits. Intensive practice speaking and writing Japanese in forms and styles common to economics, politics, science, society, the arts and creative writing of the Japanese-speaking world. PREREQ: JAPN 202 or equivalent and JAPN 301. S
JAPN 303 Professional Japanese 3 credits. Intensive practice speaking, reading and writing Japanese in business, medical, legal, or other professions. May be repeated for up to 6 credits with different content. PREREQ: JAPN 202 or equivalent experience. D
JAPN 305 Study Abroad 3 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D
JAPN 320 Intermediate Kanji I 3 credits. Intensive practice of intermediate kanji through development of intermediate level communicative competencies in speaking, listening, reading, and writing in kanji and kanji components. PREREQ: JAPN 221 or equivalent. AF
JAPN 321 Intermediate Kanji II 3 credits. Intensive practice of intermediate kanji through development of upper-division level communicative competencies in speaking, listening, reading, and writing in kanji and kanji components. PREREQ: JAPN 320 or equivalent. AS
JAPN 341 Survey of Japanese Literature and Civilization I 3 credits. Comprehensive overview of main currents of Japanese cultural history and literature. Conducted in English using translated texts Knowledge of the language is not required. PREREQ: ENGL 102. AF
JAPN 342 Survey of Japanese Literature and Civilization II 3 credits. Comprehensive overview of main currents of Japanese cultural history and literature. Conducted in English using translated texts Knowledge of the language is not required. PREREQ: ENGL 102. AF
JAPN g400 Special Topics in Language and Culture 3 credits. Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught. Cross-listed as ANTH g484 and ENGL g484. PREREQ: ANTH/LANG/ENGL 107 or ENGL 280 or ENGL 281. D
JAPN g488 Foreign Language Seminar 3 credits. Advanced studies in selected topics from language, culture, literatures or methods of research. May be conducted in English. May be repeated for up to 6 credits with different content. PREREQ: Permission of instructor. D
LANG g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Latin Courses
LATN 101 Elementary Latin I 4 credits. Intended to teach students basic reading skills and grammatical structures in Latin and to acquaint them with the culture of Ancient Rome. Practice in the language laboratory is required. With LATN 102, satisfies Goal 10B of the General Education Requirements. F, S
LATN 102 Elementary Latin II 4 credits. Intended to teach students basic reading skills and grammatical structures in Latin and to acquaint them with the culture of Ancient Rome. Practice in the language laboratory is required. With LATN 101, satisfies Goal 10B of the General Education Requirements. F, S
LATN 201 Intermediate Latin I 4 credits. Review and further study of Latin grammar. Readings from various authors. Study of one book of Virgil’s Aeneid. With LATN 202, satisfies Goal 10B of the General Education Requirements. PREREQ: LATN 102 or equivalent. D
LATN 202 Intermediate Latin II 4 credits. Review and further study of Latin grammar. Readings from various authors. Study of one book of Virgil’s Aeneid. With LATN 201, satisfies Goal 10B of the General Education Requirements. PREREQ: LATN 102 or equivalent and LATN 201. D
LATN g470 Readings in Latin 2 credits. Reading, discussion, and preparation of reports on selected topics in Latin literature. May be repeated for up to 6 credits with different content. PREREQ: Permission of instructor. D

Russian Courses
RUSS 101 Elementary Russian I 4 credits. Intended to teach students basic communication skills and grammatical structures in Russian and to acquaint them with the culture of Russian speakers. Practice in the language laboratory is required. With RUSS 102, satisfies Goal 10B of the General Education Requirements. F
RUSS 102 Elementary Russian II 4 credits. Intended to teach students basic communication skills and grammatical structures in Russian and to acquaint them with the culture of Russian speakers. Practice in the language laboratory is required. With RUSS 101, satisfies Goal 10B of the General Education Requirements. S
RUSS 201 Intermediate Russian I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students' communication skills in Russian. Contrastive study of culture as reflected in the Russian language. Practice in the language laboratory is required. PREREQ: RUSS 102 or EQUIVALENT. With RUSS 202, satisfies GOAL 10B of the General Education Requirements. F, S

RUSS 202 Intermediate Russian II 4 credits. Extensive review of grammatical structures and continued emphasis on developing students' communication skills in Russian. Contrastive study of culture as reflected in the Russian language. Practice in the language laboratory is required. PREREQ: RUSS 102 or equivalent and RUSS 201. With RUSS 201, satisfies GOAL 10B of the General Education Requirements. S

RUSS 205 Study Abroad 3-6 credits. Available only through study overseas. Development of intermediate-level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

RUSS 301 Russian Conversation and Composition I 3 credits. Extensive practice in speaking and writing Russian in forms and styles common to economics, politics, science, society, the arts and creative writing of the Russian-speaking world. PREREQ: RUSS 202 or equivalent. F

RUSS 302 Russian Conversation and Composition II 3 credits. Extensive practice in speaking and writing Russian in forms and styles common to economics, politics, science, society, the arts and creative writing of the Russian-speaking world. PREREQ: RUSS 202 or equivalent and RUSS 301. S

RUSS 305 Study Abroad 3 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

RUSS g470 Readings in Russian 2 credits. Reading, discussion, and preparation of reports on selected topics in Russian literature. May be repeated for up to 6 credits with different content. Conducted in Russian. PREREQ: Permission of instructor. D

Shoshoni Courses

SHOS 101 Elementary Shoshoni I 4 credits. Basic communication skills and grammar of Shoshoni and introduction to Shoshoni culture. Cross-listed as ANTH 101. With SHOS 102, satisfies Goal 10B of the General Education Requirements. F

SHOS 102 Elementary Shoshoni II 4 credits. Furthering basic communication skills and grammar of Shoshoni and introduction to Shoshoni culture. Cross-listed as ANTH 102. With SHOS 101, satisfies Goal 10B of the General Education Requirements. S

SHOS 201 Intermediate Shoshoni I 4 credits. Intermediate communication skills and grammar of Shoshoni. Deepens understanding of Shoshoni culture and builds on skills and knowledge gained in Elementary Shoshoni. Cross-listed as ANTH 201. F

SHOS 202 Intermediate Shoshoni II 4 credits. Intermediate communication skills and grammar of Shoshoni. Deepens understanding of Shoshoni culture and builds on skills and knowledge gained in Elementary Shoshoni. Cross-listed as ANTH 202. S

Spanish Courses

SPAN 101 Elementary Spanish I 4 credits. Intended to teach students basic communication skills and grammatical structures in Spanish and to acquaint them with the culture of the Spanish-speaking countries. Practice in the language laboratory is required. With SPAN 102, satisfies Goal 10B of the General Education Requirements. F, S

SPAN 102 Elementary Spanish II 4 credits. Intended to teach students basic communication skills and grammatical structures in Spanish and to acquaint them with the culture of the Spanish-speaking countries. Practice in the language laboratory is required. With SPAN 101, satisfies Goal 10B of the General Education Requirements. F, S

SPAN 110 Spanish for Health Care I 3 credits. A course designed to teach health care professionals how to communicate proficiently with Spanish-speaking patients. Integrates thematically related vocabulary, grammar, and culture with an emphasis on occupational communication. F

SPAN 111 Spanish for Health Care II 3 credits. A course designed to teach health care professionals how to communicate proficiently with Spanish-speaking patients. Integrates thematically related vocabulary, grammar, and culture with an emphasis on occupational communication. F

SPAN 201 Intermediate Spanish I 4 credits. Extensive review of grammatical structures and continued emphasis on developing students' communication skills in Spanish. Contrastive study of culture as reflected in the Spanish language. Practice in the language laboratory is required. With SPAN 202, satisfies Goal 10B of the General Education Requirements. PREREQ: SPAN 201 or equivalent. F, S

SPAN 202 Intermediate Spanish II 4 credits. Extensive review of grammatical structures and continued emphasis on developing students' communication skills in Spanish. Contrastive study of culture as reflected in the Spanish language. Practice in the language laboratory is required. With SPAN 201, satisfies Goal 10B of the General Education Requirements. PREREQ: SPAN 102 or equivalent and SPAN 201. F, S

SPAN 205 Study Abroad 3-6 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

SPAN 301 Spanish Conversation and Composition I 3 credits. Extensive practice in speaking, reading and writing standard Spanish in the forms and styles common to the medium, commerce, research and the arts. Conducted in Spanish. PREREQ: SPAN 202 or equivalent. F, S

SPAN 302 Spanish Conversation and Composition II 3 credits. Intensive practice speaking, reading and writing standard Spanish in the forms and styles common to the medium, commerce, research and the arts. Conducted in Spanish. PREREQ: SPAN 202 or equivalent and SPAN 301. F, S

SPAN 303 Professional Spanish 3 credits. Intensive practice speaking, reading and writing Spanish in business, medical, legal, or other professions. May be repeated for up to 6 credits with different content. PREREQ: SPAN 202 or equivalent experience. D

SPAN 305 Study Abroad 3 credits. Available only through study overseas. Development of upper-division level communicative competencies in speaking, listening, reading, and writing, and of cultural awareness through exposure to customs, traditions, places, and peoples. Graded S/U. D

SPAN 341 Survey of Spanish Literature and Civilization 3 credits. Comprehensive overview of main currents of Peninsular cultural history and literature. Conducted in Spanish. PREREQ: SPAN 202. AS

SPAN 381 Spanish Current Affairs 3 credits. Study of contemporary Spanish culture through an examination of current sociocultural issues in Spanish speaking countries. Conducted in Spanish. PREREQ: Permission of instructor. R3

SPAN g400 Spanish Advanced Grammar 3 credits. Survey of selected grammar and composition topics on the advanced level. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g412 Medieval Spanish Literature 3 credits. Study of representative works of Medieval Spanish literature with an emphasis on the major trends that shaped Spanish thought and letters. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g414 Golden Age Spanish Literature 3 credits. Study of representative works of Renaissance and Baroque Spanish literature with an emphasis on the major trends that shaped Spanish thought and letters. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g415 Cervantes and His Age 3 credits. Study of Cervantes' artistic creation and relation to the 16th and 17th centuries. The course includes Don Quijote and the Novelas Ejemplares. May be offered in English. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g422 Colonial Spanish American Literature 3 credits. Study of major writers and their historical contexts from the conquest to the eve of independence, including indigenous and colonial prose, poetry, and drama. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. AF

SPAN g425 Nineteenth Century Spanish American Literature 3 credits. Study of major writers and their historical contexts in the nineteenth century, including prose, poetry and drama.
Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. AS

SPAN g430 Spanish Enlightenment and Romanticism 3 credits. Consideration of literary currents from the beginning of the Bourbon Monarchy in Spain (1700) until 1868. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. R3

SPAN g440 Spanish Realism through Generation of '98 3 credits. Examination of major literary works beginning with the realist and naturalist authors and concluding with the Generation of 1898. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. R3

SPAN g450 Twentieth Century Spanish Literature 3 credits. Examination of modern Peninsular letters as evidenced in poetry, the short story, the novel and the essay. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. R3

SPAN g460 Spanish Translation and Interpretation 3 credits. Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary. May be repeated once with different content. PREREQ: SPAN 301, SPAN 302, SPAN 341 and SPAN 342, or permission of instructor. D

SPAN g462 Early Twentieth Century Spanish American Literature 3 credits. Study of major writers and their historical contexts from "modernismo" to World War II, including prose, poetry and drama. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. AS

SPAN g465 Contemporary Spanish American Literature 3 credits. Study of major writers and their historical contexts from World War II until the present, including prose, poetry and drama. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. AS

SPAN g468 US Latino Literature 3 credits. Examination of major works and authors in historical perspective, with emphasis on literary and cultural contexts. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g470 Readings in Spanish 2 credits. Reading, discussion, and preparation of reports on selected topics in Spanish literature. May be repeated for up to 4 credits with different content. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g480 Independent Studies in Spanish 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN g490 Spanish Senior Seminar 3 credits. Advanced studies in selected topics from language, culture, literature or methods of research. May be repeated for up to 6 credits with different content. Conducted in Spanish. PREREQ: SPAN 301 or SPAN 302 or permission of instructor. D

SPAN 493 Spanish Internship 1-3 credits. Internship coordinated by faculty providing significant exposure to the use of Spanish in a professional environment. May be repeated for up to 3 credits. Graded S/U. F, S

The James E. Rogers
Department of Mass Communication

Chair and Professor: Terry Professors: Frazier, Jull Assistant Professors: Beachboard, Couper, Hallaq, Kim Visiting Faculty: Schreindel Adjunct Faculty (Lecturers): Blair, J. Davis, R. Davis, Hillebrant Emeritus Faculty: House, Mauch, Trinklein

Departmental Goals

The goals for Mass Communication majors are as follows:

1. The ability to communicate effectively in writing.
2. The ability to communicate effectively orally.
3. The ability to solve problems that arise in a professional setting.
4. Skills in television, journalism, photography and advertising/public relations appropriate for entry-level position.
5. Sufficient general knowledge to pursue a successful career in mass communication.
6. The ability to gain the necessary skills for advancement in a career in mass communication.
7. The ability to criticize their own work effectively.
8. The ability to present and accept constructive criticism.

Each area of study in mass communication emphasizes the importance of a strong liberal arts education to students preparing for careers in the media and mass communication. Effective communication in any form depends upon an adequate breadth of knowledge.

For the Bachelor of Arts in Mass Communication, five emphases are available: Advertising/Public Relations, Journalism, Media Studies, Television, and Visual Communication. Journalism, Television, and Advertising/Public Relations sequences require approximately 33 credits and an additional 15 credits from a selected component of specialized study outside the emphases. These emphases are designed to give practical as well as theoretical skills in those areas. The Media Studies option requires 45 credit hours selected from Mass Communication and other departments and prepares students in a more general way for career options in business, industry or government.

Admission to Major Status

Students wishing to major in emphases offered in the Department of Mass Communication must fulfill the following requirements:

1. Be officially admitted to Idaho State University.
2. Successfully complete the following lower division courses or their equivalents:
   - MC 119 Introduction to Mass Media 3 cr
   - MC 121/121L Reporting and Newswriting and Lab 4 cr
   - MC 215 Graphic Design 3 cr
   - MC 320/320L Introduction to Photography and Lab 4 cr
   - Goals 1, 2, 6, 11, and 12 of the General Education Requirements
3. Have a minimum overall cumulative grade point average of 2.0.
4. Submit to the Department of Mass Communication an official copy of their transcript and a complete application form. Application forms are available in the Mass Communication office and this process must be completed by April 1 for Fall admission to major status and November 1 for Spring admission.

No student will be admitted to the Mass Communication major without completing these requirements.

Students are eligible to declare Mass Communication as their major and can be admitted to the Mass Communication major after completing the requirements for admission to major status. This application is usually done in the sophomore year. Majors must complete MATH 108 Intermediate Algebra and MATH 235 Introduction to Statistics or their equivalents. Majors must also earn a grade of C or better in all mass communication courses.

All students must be advised each semester before graduation. Students who do not receive advisement will not be allowed into blocked Mass Communication courses.

SPECIAL NOTE: Students who fail to attend the first class meeting may be disenrolled.
Bachelor of Arts in Mass Communication

Select one of the following emphases:

**Emphasis in Advertising/Public Relations**
- M C 119 Introduction to Mass Media 3 cr
- M C 121,121L Reporting and Newswriting and Lab 4 cr
- M C 200 Introduction to Advertising 3 cr
- M C 215 Graphic Design 3 cr
- M C 230,230L Introduction to Photography and Lab 4 cr
- M C 241 Introduction to Public Relations 3 cr
- M C 315 Intermediate Graphic Design 3 cr
- M C 355 Advertising Copywriting 3 cr
- M C g52 Mass Communication and Society 3 cr
- M C 455 Advertising Campaigns 3 cr
- M C 480 Public Relations Programs 3 cr

**Plus one of the following courses:**
- M C 260 Photo and Graphic Workshop 3 cr
- M C 300 Television Production 3 cr
- M C 305L Photo and Graphic Worksho, and Lab 4 cr
- M C 375 Special Projects in Advertising 3 cr

**In Addition:**
- Components, listed below
- TOTAL: 15 cr

**The Department also strongly recommends:**
- M C 494 Media Internship 1-3 cr

---

**Components**

Students must take 15 credits from ONE of the following five component areas, subject to the following conditions:

1. At least nine of the 15 credits must be upper division.
2. None of the courses included in the component may also be used to satisfy any of the General Education Requirements.
3. The faculty advisor for each student must approve the courses selected to satisfy the component.
4. A minor or a second major may be substituted for the entire component requirement if approved by the student’s faculty advisor.

**Component 1—Business and Economics**
- Business
- Economics
- Marketing Management 3 cr
- Marketing Communications 3 cr
- Group Communication 3 cr
- Nonverbal Communication 3 cr
- Interpersonal Communication 3 cr
- Organizational Communication 3 cr
- Rhetorical Criticism 3 cr
- Rhetorical Theory 3 cr
- American Rhetoric and Public Address 3 cr
- Rhetoric of Hitler and Churchill 3 cr
- Recent Rhetorical Issues 3 cr

**TOTAL:** 55 or 56 cr

**The Department also strongly recommends:**
- M C 494 Media Internship 1-3 cr

---

**In Addition:**
- Components, listed below
- TOTAL: 51 cr

---

**The Department also strongly recommends:**
- M C 494 Media Internship 1-3 cr
Component 2—World Affairs
GEOL 115
History
Political Science

Component 3—Social Sciences
American Studies
Anthropology
Communication and Rhetorical Studies

Geology
Mathematics
Physics

Minor in Mass Communication

A minor in mass communication requires 18 credits including M C 119, M C 452, one additional 100-200 level class, one additional 300 level class, and one additional 400 level class, plus additional credits to total 18 from anywhere in the mass communication curriculum except M C 494, Media Internship, which is offered to majors only. Students must have declared a major before naming mass communication as a minor and are responsible for meeting all prerequisites for mass communication courses they take. Students are encouraged to seek advisement from mass communication faculty.

Mass Communication Courses

SPECIAL NOTE: Students who fail to attend the first class meeting may be disenrolled.

Prerequisites: Students must earn a minimum C grade in prerequisite Mass Communication courses in order to meet prerequisite requirements. For example, a student must pass MC 121 Reporting and Newswriting with a minimum C in order to be allowed to take MC 341 Introduction to Public Relations.

M C 119 Introduction to Mass Media 3 credits. Historical and contemporary roles of newspapers, magazines, photography, film, radio and television in society. Media economics and government regulation. Sociological and psychological effects of the mass media on the individual. F

MC 120 Writing Across the Media 3 credits. Fundamentals of writing in several formats including persuasive and informative writing, scripts, captions and web pages. Topics include structure, word selection and audience identification; emphasizes clarity and concision. PREREQ: ENGL 101 or placement into ENGL 102. COREQ: M C 120L. F

M C 120L Writing Across the Media Laboratory 1 credit. Assignments to apply principles from M C 120. COREQ: M C 120. F

MC 121L Reporting and Newswriting Lab 0 credits. Assignments to apply principles from M C 121. F, S

M C 121L Reporting and Newswriting Laboratory 0 credits. Assignments to apply principles from M C 121. F, S

M C 200 Introduction to Advertising 3 credits. In-depth study of the various aspects of advertising including agencies, media, clients, suppliers, creativity in advertising, consumers, ethics and law, strategy, and culture. F

M C 201 Writing for the Camera 2 credits. Introduction to concepts and practices of writing for television, film, Internet and other time-based media. Coverage of scripting styles and content in news, entertainment, information, feature and documentary productions. PREREQ: M C 119 and Goal 1. D

M C 215 Graphic Design 3 credits. Introduction to concepts and procedures of graphic design. Lectures, studio and computer exercises will explore issues in design for graphic media, typography, and design for the page. F, S

M C 230 Introduction to Photography 4 credits. Function and use of camera and darkroom. Fundamentals of composition and use of light. Students must have their own camera, film, paper and some chemicals. Laboratory required. COREQ: M C 230L. F, S

M C 230L Introduction to Photography Laboratory 0 credits. Assignments to apply principles from M C 230. F, S

M C 241 Introduction to Public Relations 3 credits. Provides background in public relations, including public opinion, law and ethics, and writing PR communications, such as news releases and newsletters. PREREQ: Goal 1, M C 119, and either M C 120 or M C 121. S

M C 260 Photo and Graphic Workshop 3 credits. Theory, ideology, and practical application of two dimensional computer graphics production using Adobe Photoshop®. In-depth exploration of print, digital media, and web output formats. Emphasis placed on graphic visual communication techniques and strategies. D

M C 270 Journalism History 3 credits. The development of mass media from Gutenberg to the present with emphasis on American print journalism. R2

M C 290 American Broadcasting 3 credits. Introduction to the history, structure, economics, programming and regulation of broadcasting in the United States. PREREQ: M C 119. R2

M C 300 Television Production 3 credits. Emphasis on studio and remote television production, with exercises in basic camera operation, electronic editing, studio directing and field reporting. PREREQ: M C 119, M C 121, M C 230 or permission of instructor. F

M C 305 Photo Communication 3 credits. Laboratory required. Application of still photographic methods to newspaper, magazine and advertising/public relations needs. Introduction to computer manipulation of images. PREREQ: M C 230 or permission of instructor. COREQ: M C 305L. F

M C 305L Photo Communication Laboratory 0 credits. Assignments to apply principles from M C 305. F

M C 306 Non-linear Editing 2 credits. Application of visual storytelling techniques, styles, and devices used in digital video production. In-depth exploration and usage of Apple's Final Cut Pro™ used to increase student understanding of visual syntax and timing. PREREQ: M C 260 and M C 300 or permission of instructor with demonstrated professional experience. F

M C 315 Intermediate Graphic Design 3 credits. Explore more techniques and applications of graphic design. Emphasis on developing a deeper understanding of the foundations of type and its use. Explore the use of color and photography in printed projects. Field trips to printing shops and working professionals are part of the class. PREREQ: M C 215. F

M C 321L Reporting of Public Affairs Lab 0 credits. Assignments to apply principles from M C 321. D

M C 325L Editing for Print Media Lab 0 credits. Assignments to apply principles from M C 325. F

M C 325 Editing for Print Media 4 credits. Editing, typography, layout and desktop publishing of newspapers, advertising fliers, pamphlets. Emphasis on laboratory projects. COREQ: M C 325L. F

M C 327 Magazine Article Writing 3 credits. Writing nonfiction magazine articles to the requirements of publications chosen by the student. COREQ: M C 327L. D
M C 327L. Magazine Article Writing Lab 1 credit. Assignments to apply principles from M C 327. D

M C 343 Public Relations Principles and Concepts 3 credits. The history, scope, ethics and functions of public relations. Particular attention given to understanding of publics and ways of gaining public support for an activity, cause, movement or institution. PREREQ: C or better in either M C 120 or M C 121 and M C 241. F

M C 350 New Media 3 credits. Development and role of cable, home video, satellites and other video delivery systems in contemporary society. Emphasis on programming, technology, economics, regulation, industry trends and future directions. AS

M C 355 Advertising Copywriting 3 credits. Includes overview of basic creative skills, with emphasis on how to write creative advertising for print, radio, television, and the Internet. PREREQ: Goal 1, M C 119, M C 121, and one of: M C 200, M C 215 or M C 230 or permission of instructor with demonstrated professional experience. S

M C 360 Film-Style Production 3 credits. Non-news film and video production. Focuses on creative aspects of making films and videos: sound, lighting, composition, editing, special effects, animation, etc. PREREQ: M C 300 or permission of instructor with demonstrated professional experience. D

M C 367 Advertising Media Planning 3 credits. Selecting and evaluating advertising media. Media characteristics, media markets and comparisons, audience and product usage. Elements of a strategic media plan. Trends in mass communication media. PREREQ: C or better in M C 200 or permission of instructor. S

M C 375 Special Projects in Advertising 3 credits. Students work as a team to apply persuasive mass communication principles to solving a real-world client marketing communication problem. May be repeated for up to 6 credits. PREREQ: Permission of instructor. D

M C 405 Color Printing 4 credits. A darkroom oriented class teaching practical applications of color theory in printing color negatives and slides. Weekly shooting and printing assignments required. PREREQ: M C 230 or permission of instructor. S

M C 405L. Color Printing Laboratory 0 credits. Assignments to apply principles from M C 405. S

M C 410 Advanced Photography 4 credits. Advanced black and white techniques including controlled printing techniques and the Zone System. Intensive criticism of work and encouragement of individuals’ photographic growth. Lectures, laboratories. PREREQ: M C 230 or permission of instructor. F

M C 410L. Advanced Photography Laboratory 0 credits. Assignments to apply principles from M C 410. F

M C g412 Digital Imaging 3 credits. Lab based course on the use of digital cameras, imaging technologies, computer manipulations and printing. Emphasis on aesthetic expression unique to this photographic medium. PREREQ: M C 260, either M C 405 or M C 410; permission of instructor. S

M C 415 Advanced Graphic Design 3 credits. Leading issues and problems in the current design field. Advanced development of style and direction in projects. Understanding of present work in the field and leading practitioners; discussion of design history and theory. Emphasis on illustration and more complex projects like package design, corporate design and printed publications. PREREQ: M C 215 and M C 315 or permission of instructor with demonstrated professional experience. F

M C g418 Art of the Book 3 credits. Expands the traditional idea of book form with innovative structures and concepts. Textual and non textual formats and methods for generating ideas for works are addressed. Traditional techniques for bookbinding will also be included. Cross-listed as ART g418. D

M C 425 Senior Graphic Portfolio 1 credit. Create a professional portfolio for career or graduate school. Work for the portfolio must be generated in this class. Critiques require demonstrated competency in all uses of graphic design. May be offered as independent project. PREREQ: M C 215, M C 315, M C 415, senior standing or permission of instructor with demonstrated professional experience. D

M C 426 Senior Photography Portfolio 1 credit. Create a professional portfolio. Work for this portfolio must be generated in this class. Covers all uses of photography. Course may be offered as independent project. PREREQ: M C 230, M C 260, M C 410 or permission of instructor with demonstrated professional experience. D

M C 435 Television News 3 credits. Writing, reporting and producing the television newscast. Emphasis on proper technique as well as ethical and social issues. PREREQ: M C 121, M C 300. D

M C g440 Media Law and Ethics 3 credits. Principles of the law of libel, privacy, obscenity, press freedom, responsibility and ethics as they apply to the news media. R2

M Cg441 Intellectual Property and Commercial Speech 3 credits. Examination of principles and laws regarding intellectual property including copyright and trademark and examination of the regulation of commercial speech. S

M C 445 Editorial Writing 3 credits. Writing and producing the editorial page including fundamentals of column and opinion piece writing, syndication, letters to the editor, cartoons. D

M C 450 Television Workshop 2 credits. Practical experience producing television programs for local airing. May be repeated for up to 6 credits. PREREQ: M C 201 and 300 or permission of instructor with demonstrated professional experience. S

M C 451 Television Studio Directing 2 credits. Live in-studio directing of news, music and dramatic productions. Focuses on the aesthetic, organizational and leadership elements of a director. Focus on camera operation, technical directing and lighting. May not be taken concurrently with M C 435 or M C 450. PREREQ: M C 300 or instructor permission with demonstrated professional experience. D

M C g452 Mass Communication and Society 3 credits. Interface between mass media and audiences. Public’s right to know, press freedom, censorship, political and other leanings in the media, media effectiveness, ethics, and aspects of critical media literacy. PREREQ: 58 credits including M C 119, M C 121 and at least one course from the student’s emphasis area or permission of instructor. S

M C 455 Advertising Campaigns 3 credits. Capstone course; the development of an advertising campaign; includes situation analysis, research, strategy, and creation of the advertising. PREREQ: M C 355 or permission of instructor. D

M C g460 Corporate Video Production 3 credits. Producing for corporate, educational, home video, documentary and other nonfiction markets. Advanced production techniques. Major project required. M C 300 and M C 306 or permission of instructor with demonstrated professional experience. D

M C 470 Communication Through Web Design 3 credits. Theory, ideology and practical application of interactive document design utilizing several different software applications. Emphasis placed on communication. Also taught within a practical and aesthetic context, ethics, current practices, purposes, styles, genres and directions in authoring for the world wide web. PREREQ: M C 260 or permission of instructor. D

M C 480 Public Relations Programs 3 credits. Tactics and strategies for planning public relations programs for public and private organizations. PREREQ: M C 343 or permission of instructor. S

M C 491 Independent Projects 1-3 credits. Under direct supervision of a department faculty member, student conducts individual projects in the field of mass communication. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S

M C 494 Media Internship 1-3 credits. Practical experience in the media, supervised by faculty and professional journalists. Work equivalent to full time for one-half semester. PREREQ: Permission of department. Open to juniors and seniors with 3.0 GPA in major course work. F, S

M C 495 Applied Research Methods 3 credits. Introduces and develops practical methods for designing, conducting and analyzing studies used in many public relations, advertising and marketing campaigns. Students will create complete studies. PREREQ: MATH 253 or MGT 216, or permission of instructor. D
Department of Mathematics

Chair and Professor: Fisher
Assistant Chair and Professor: Laquer
Professors: Egger, Hanin, R. Hill, Kratz, Lang, Palmer, Stowe, Wolper
Associate Professors: Ford, Gryazin, Krilloff, Payne, Van Kirk
Assistant Professors: Chen, Derryberry, Gironella, Zhu
Visiting Faculty: Battle
Senior Lecturers: Marsden, Walker, Yost
Associate Lecturers: England, Kress, Martin, Mills, Potter
Assistant Lecturers: Fredericks, Jones, Miller, Reed
Part-time Adjunct Faculty: Barclay, Bowen, Christensen, Dewey, Harmon, Judy, Mayes, Rude, Weaver
Emeritus: Cresswell, L. Hill, Parker

Objectives
The undergraduate programs in Mathematics have the following objectives:
1. Students in algebra courses develop the algebra skills needed in later courses.
2. Students in general education courses gain an understanding of mathematics as a language in which to express, define, and answer questions about the world.
3. Students in courses that serve the sciences and engineering, particularly calculus and linear algebra courses, develop technical skills, learn to apply mathematical tools, and develop an understanding of the mathematical basis for those tools.
4. Students in statistics courses develop an understanding of the basic concepts of probability and statistics and learn how to use statistical tools in real-life problems.
5. Education students with a mathematics teaching major or minor gain a basic understanding of several areas of mathematics, develop a sense for exploring mathematics, and learn to read, write, and present mathematics.
6. Mathematics majors become acquainted with the major branches of the discipline; learn to read and write mathematics; and develop the mathematical skills and general knowledge necessary for employment or for graduate work in mathematics or other fields.

Mathematics Core
All bachelor’s degrees offered in the Department of Mathematics have a common core consisting of the following six courses (21 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>C S 181</td>
<td>Computer Science and Programming 1*</td>
<td>3 cr</td>
</tr>
<tr>
<td>MATH 170</td>
<td>Calculus I</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Calculus II</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 275</td>
<td>Calculus III</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 240</td>
<td>Linear Algebra</td>
<td>3 cr</td>
</tr>
<tr>
<td>MATH 326</td>
<td>Elementary Analysis</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

The two courses, ENGR 165 Structured Programming and ENGR 166 Symbolic Programming, may be substituted for CS 181.

Bachelor of Science in Mathematics

The Bachelor of Science program is designed to prepare students to take positions in industry, to pursue graduate training, or to enter the teaching profession. It allows some flexibility in course work which necessitates close cooperation with a mathematics department advisor who should be selected early in the student’s career.

Required Courses:

- **MATH CORE**: (See above) 21 cr
- MATH 287 Discrete Structures 3 cr
- MATH 327 Vector Analysis 3 cr
- MATH 360 Elements of Algebra 3 cr
- MATH 407 Modern Algebra 3 cr
- MATH 423 Introduction to Abstract Algebra 3 cr

Plus one course (3 credits) chosen from:

- MATH 327 Vector Analysis 3 cr
- MATH 360 Elements of Algebra 3 cr
- MATH 407 Modern Algebra 3 cr

Plus 12 more credits of 400-level mathematics coursework, which includes completing two of the following sequences:

- MATH 407 Modern Algebra 6 cr
- MATH 423 Introduction to Real Analysis 6 cr
- MATH 441 Introduction to Numerical Analysis 6 cr

Associate of Science in Mathematics

Students seeking an Associate of Science degree in Mathematics must complete the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 015</td>
<td>Mathematics in Modern Society</td>
<td>3 cr</td>
</tr>
<tr>
<td>MATH 027</td>
<td>Infinite Mathematics</td>
<td>3 cr</td>
</tr>
<tr>
<td>MATH 044</td>
<td>Trigonometry**</td>
<td>2 cr</td>
</tr>
<tr>
<td>MATH 060</td>
<td>Applied Calculus</td>
<td>3 cr</td>
</tr>
<tr>
<td>MATH 253</td>
<td>Introduction to Statistics</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

\* The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.

Track A is designed to provide the student with a broad overview of basic topics in mathematics. Track B is designed to provide the student with the lower-division coursework generally expected for a major or minor in mathematics.

**MATH 014 may be waived given a sufficient score on the Mathematics Placement Exam or the Mathematics Sub-test of the ACT or SAT.

Track A

Electives to bring total to 64 cr variable

Total: 64 cr

Minor in Mathematics

Required Courses:

- **MATH CORE**: (See above) 21 cr
- MATH 360 Differential Equations 3 cr

Plus one course (3 credits) chosen from:

- MATH 327 Vector Analysis 3 cr
- MATH 360 Elements of Algebra 3 cr
- MATH 407 Modern Algebra 3 cr
- MATH 441 Introduction to Numerical Analysis 3 cr
- MATH 450 Mathematical Statistics 3 cr

Mathematics Courses

All mathematics courses except MATH 015 have prerequisites. Students place into a course either by completing the prerequisite courses with a grade of C- or better (S in MATH 015 and 025) or by achieving appropriate scores on the ACT Mathematics exam, SAT Mathematics exam, or the Compass Mathematics Placement Exam. For placement purposes, prerequisite coursework or placement examinations must have been taken within the last seven years. See the Mathematics Department for further information.

Students must pass a mathematics course with a grade of C- or better before using that course as a prerequisite for another mathematics course.
MATH 015 Arithmetic and Pre-algebra 0 credits (3 credit equivalent)
Arithmetic of integers and rational numbers. Decimals; introduction to variables; linear equations; problems involving rates, ratios, proportions and percentages. Graded S/U. F, S

MATH 025 Elementary Algebra 0 credits (3 credit equivalent).
Variables and algebraic expressions. Absolute value; linear equations and inequalities and their applications; expansion and factorization of polynomials; rational expressions; radical expressions; the real number line; the Cartesian coordinate system and graphing of linear equations. Graded S/U. PREREQ: MATH 015 or equivalent. F, S, Su

MATH 108 Intermediate Algebra 3 credits.
Topics in algebra, with an emphasis on solving equations and inequalities. Systems of linear equations; quadratic equations and the quadratic formula; polynomial, absolute value, rational, and radical equations and inequalities. Rational exponents; calculations and equations involving exponentials and logarithms. PREREQ: MATH 025. F, S, Su

MATH 123 Mathematics in Modern Society 3 credits.
Survey of applications of mathematics to real-world problems. Topics from graph theory, management science, political science, statistics, geometry, and computer science. PREREQ: MATH 025. Satisfies Goal 3 of the General Education Requirements. F, S, Su

MATH 127 The Language of Mathematics 3 credits.
Introduction to the precise language used throughout mathematics. Development of skills including reading with comprehension, expressing mathematical thoughts clearly, reasoning logically, and employing common patterns of mathematical thought. PREREQ: MATH 025. Satisfies Goal 3 of the General Education Requirements. S

MATH 130 Finite Mathematics 3 credits.
Introduction to probability, linear systems, inequalities, and linear programming. Applications directed to non-physical science areas. PREREQ: MATH 108. Satisfies Goal 3 of the General Education Requirements. S

MATH 143 College Algebra 3 credits.

MATH 144 Trigonometry 2 credits.
Circular functions and right triangle approaches to trigonometry. Graphs of trigonometric functions: amplitude, frequency, phase shift. Trigonometric identities, inverse functions, and equations. Introduction to vectors in the plane, polar coordinates, and polar representation of complex numbers. PREREQ: MATH 143. F, S, Su

MATH 147 Precalculus 5 credits. A single one-semester course equivalent to College Algebra (MATH 143) plus Trigonometry (MATH 144). Credit cannot be granted in both MATH 143 and MATH 147, or in both MATH 144 and MATH 147. PREREQ: MATH 108. F, S

MATH 160 Applied Calculus 3 credits.
Course in differential and integral calculus designed primarily for students in biological sciences, social sciences, business, education, and humanities. Credit cannot be granted in both MATH 160 and MATH 170. PREREQ: MATH 143. Satisfies Goal 3 of the General Education Requirements. F, S, Su

MATH 170 Calculus I 4 credits.
First course in the sequence 170, 175, 275. Real-valued functions of one real variable: limits, continuity, derivatives, integrals, applications. Credit cannot be granted in both MATH 160 and MATH 170. PREREQ: MATH 147, or MATH 143 and MATH 144. Satisfies Goal 3 of the General Education Requirements. F, S, Su

MATH 175 Calculus II 4 credits.

MATH 187 Applied Discrete Structures 3 credits.
Discrete structures in CS and EE. Boolean algebra and logic; sets, functions, and relations; iteration, recursion, and induction; algorithms; programming in pseudocode; basic counting principles; graphs and trees; and other selected topics from discrete mathematics. Cross-listed as CS 187. PREREQ: CS 181. S

MATH 240 Linear Algebra 3 credits.
Introduction to linear algebra. Linear systems, matrices, determinants, vector spaces, linear transformations, linear independence, eigenvalues and eigenvectors, orthogonalization. PREREQ: MATH 170. F, S

MATH 253 Introduction to Statistics 3 credits.
Descriptive statistics, probability, confidence intervals, and hypothesis testing for one and two parameters. Emphasis on applications to a wide variety of disciplines. PREREQ: MATH 108. Satisfies Goal 3 of the General Education Requirements. F, S, Su, W

MATH 256 Structure of Arithmetic for Elementary School Teachers 3 credits.
Development of number systems. Emphasis on principles, representations, and concept development. For elementary education majors. PREREQ: MATH 143. F

MATH 257 Structure of Geometry and Probability for Elementary School Teachers 3 credits.
Topics from geometry, probability, and statistics. Emphasis on principles, representations, and concept development. For elementary education majors. PREREQ: MATH 143. S

MATH 275 Calculus III 4 credits.

MATH 287 Discrete Structures 3 credits.
An introduction to discrete structures. Material covered will include sets, propositions, proofs, functions and relations, equivalence relations, quantifiers, Boolean algebras, graphs. Cross-listed as C S 287. PREREQ: MATH 160 or MATH 170. F, S

MATH 326 Elementary Analysis 3 credits.
A beginning course in analysis on the real line. Proof writing and the underlying logic are emphasized throughout the course. Topics include sets and functions, sequences, convergence, limits, continuity, and infinite series. PREREQ: MATH 240 and MATH 275. S

MATH 327 Vector Analysis 3 credits.
Calculus of vector functions of several variables, derivative matrix, chain rule, inverse function theorem, multiple integration. Change of variables. Integrals over curves and surfaces. Green’s, Stokes’ and divergence theorems. Applications to physics. PREREQ: MATH 275. F

MATH 343 Modern Geometry 1 credits.
Planar Euclidian geometry. Rigid motions and symmetry in the plane. PREREQ: MATH 240 and MATH 287. F

MATH 350 Statistical Methods 3 credits.
A calculus-based introduction to statistical procedures, including simple regression, basic experimental design, and non-parametric methods. PREREQ: MATH 160 or MATH 170. F, S

MATH 352 General Statistics 3 credits.
Probability, random variables, discrete and continuous distributions such as the Binomial, Poisson, Geometric, Hypergeometric, Normal, and Gamma, sampling distribution, point and interval estimation, hypothesis testing. PREREQ: MATH 175 or permission of instructor. F

MATH 355 Operations Research 3 credits.
Deterministic problems in operations research oriented towards business. Includes linear programming, transportation problems, network analysis, PERT, dynamic programming, and elementary game theory. PREREQ: MATH 130 or MATH 240, or permission of instructor. AF

MATH 356 Operations Research II 3 credits.
Probabilistic models oriented towards business are treated. Selections from stochastic processes, Markov chains, queueing theory, inventory theory, reliability, decision analysis and simulation. PREREQ: MATH 355. AS

MATH 360 Differential Equations 3 credits.
Theory and applications of ordinary differential equations. PREREQ: MATH 175; MATH 275 recommended. F, S

MATH 362 Introduction to Complex Variables 3 credits.
Introduction to the study of functions of a complex variable including the algebra and geometry of complex numbers, analytic functions, power series, integral theorems, and applications. PREREQ: MATH 326 or permission of instructor. D

MATH 406 Advanced Linear Algebra 3 credits.
Advanced linear algebra with a strong emphasis on proofs. Real and complex vector spaces, linear transformations, polynomials associated to matrices, determinants, canonical forms, inner product spaces. PREREQ: MATH 240. S

MATH 407 Modern Algebra 3 credits.
Rings, fields, groups, algebras, and selected topics in abstract algebra. PREREQ: MATH 240 and MATH 287. F
MATH g408 Modern Algebra II 3 credits.
Rings, fields, groups, algebras, and selected topics in abstract algebra. PREREQ: MATH 407. S

MATH g421 Advanced Engineering Mathematics I 3 credits.
Analysis of complex linear and nonlinear engineering systems using advanced techniques, including Laplace transforms, Fourier series and classical partial differential equations. Cross-listed as ENGR g421. PREREQ: MATH 360. F

MATH g422 Advanced Engineering Mathematics II 3 credits.
Analysis of complex linear and nonlinear engineering systems using advanced techniques, including probability and statistics, advanced numerical methods and variational calculus. Cross-listed as ENGR g422. PREREQ: MATH g421 or MATH g422. S

MATH g423 Introduction to Real Analysis I 3 credits.
The real number system, limits, sequences, series and convergence; metric spaces, completeness; and selected topics on measure and integration theory. PREREQ: MATH 240, limit theorems, point and interval estimation, limit theorems, point and interval estimation, and in-depth treatment of topics covered in MATH 240 and MATH 350; MATH g457 or MATH g458, or permission of instructor. D

MATH g424 Introduction to Real Analysis II 3 credits.
The real number system, limits, sequences, series and convergence; metric spaces, completeness; and selected topics on measure and integration theory. PREREQ: MATH 423. S

MATH g435 Elementary Number Theory 3 credits.
Diophantine equations, prime number theorems, residue systems, theorems of Fermat and Wilson, and continued fractions. PREREQ: MATH g407. D

MATH g441 Introduction to Numerical Analysis I 3 credits.
Introduction to numerical techniques for solving problems dealing with nonlinear equations, systems of linear equations, differential equations, interpolation, numerical integration, and differentiation. PREREQ: MATH 240, MATH 287, MATH 326, and MATH 360. F

MATH g442 Introduction to Numerical Analysis II 3 credits.
Extension of MATH g441 for students who wish to pursue more advanced techniques with emphasis on analysis. Typical topics covered include numerical methods applied to partial differential equations, integral equations, and in-depth treatment of topics covered in MATH g441. PREREQ: MATH g441. S

MATH 444 Modern Geometry II 3 credits.
Transformation groups, Topics from hyperbolic, projective, and other geometries. S

MATH g450 Mathematical Statistics I 3 credits.
Probability, random variables, discrete and continuous distributions, order statistics, limit theorems, point and interval estimation, uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests. PREREQ: MATH 326. F

MATH g451 Mathematical Statistics II 3 credits.
Probability, random variables, discrete and continuous distributions, order statistics, limit theorems, point and interval estimation, uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests. PREREQ: MATH g450. S

MATH g453 Topics in Statistics 1-3 credits.
Content varies. May be repeated for up to 6 credits. PREREQ: Permission of instructor. D

MATH g457 Applied Regression Analysis 3 credits.
Simple and multiple linear regression, polynomial regression, diagnostics, model selection, models with categorical variables. PREREQ: MATH 350 or MATH 352 or permission of instructor. D

MATH g458 Experimental Design 3 credits.
The linear model for experimental designs, analysis of variance and covariance, block designs, factorial designs, nested designs, choice of sample size. PREREQ: MATH 350 or MATH 352 or permission of instructor. D

MATH g459 Applied Multivariate Analysis 3 credits.
Matrix computation of summary statistics, graphical analysis of multivariate procedures, multivariate normal distribution, MANOVA, multivariate linear regression, principal components, factor analysis, canonical correlation analysis. PREREQ: MATH 240 and MATH 350; MATH g457 or MATH g458, or permission of instructor. D

MATH g465 Partial Differential Equations 3 credits.
Equations of the first and second orders, methods of solution, Laplace’s equation, heat equation, and wave equation. Emphasis on applications in physical sciences and engineering. PREREQ: MATH 360, and MATH 326 or MATH g421. D

MATH g473 Introduction to Topology 3 credits.
Metric spaces; convergence; notions of continuity; connected, separable and compact spaces. PREREQ: Permission of instructor. D

MATH g481 Directed Readings and Problems 1-3 credits.
Individual work under the direction of a professor. May be repeated for up to 6 credits. PREREQ: Senior or graduate student in good standing. D

MATH g491 Mathematics Seminar 1-3 credits.
Advanced reading and discussion on selected topics in mathematics. May be repeated. PREREQ: 90 credits or equivalent. D

Department of Military Science
(Army ROTC)

Chair: Pratt
Instructing: Larson, Logan
Scholarship: Anglesey

The U.S. Army Reserve Officers’ Training Corps (ROTC) was established at Idaho State University under provisions recommended to the State Board of Education and in accordance with national requirements. Participation by students in the program is voluntary. The objective of the Advanced Course is to provide students who have the ability, and desire, the opportunity to become commissioned officers in the United States Army, Army Reserve, or Army National Guard.

Scope of Instruction

Instruction in ROTC is divided into the Basic Course and the Advanced Course. Each is described below.

General

The program of instruction leading to a commission as a second lieutenant consists of academic classes in military science, one or more several-week summer training events, and a bachelor’s degree in an academic major (including the Bachelor of Applied Science and Bachelor of Applied Technology). Training in leadership is emphasized. Instruction is given in subjects common to all branches of the Army with emphasis placed on the following: organization of the Army and ROTC; individual weapons and marksmanship; military history; management; leadership; map reading; land navigation and orienteering; U.S. Army and national security; military teaching principles; tactics; communications; operations; logistics; administration; military law; and the role of the United States military in world affairs.

Basic Course

Normally taken the Freshman and Sophomore years, the basic course gives the student the opportunity to experience the Army without incurring any obligation.

Satisfactory completion of the Basic Course fulfills one of the requirements for continuation in the four-year program and acceptance into the Advanced Course. Those students desiring to take the Advanced Course, but lacking the credit for the Basic Course, may satisfy the requirements by attending a 5-week summer camp or by completing Military Basic Training. Veterans and Reserve/National Guard members may receive credit for the Basic Course.

Students in the Basic Course who are contemplating taking the Advanced Course are highly encouraged to take either the Military Style Fitness class or the Ranger Challenge fitness class.

Advanced Course

In addition to the requirements of the Basic Course, the Advanced Course requires two additional years of military science and a 33-day training course, which provides practical application of instruction previously given. Admission to the Advanced

College of Arts and Sciences
Course is by permission of the Chair of the Department of Military Science.

Admission Requirements
Advanced Course cadets must:

1. Have satisfied one of the following requirements: Successful completion of the Basic Course, the five-week summer Leader Training Course (LTC) or Basic Training. In addition, all students must have completed a minimum of 54 credits toward their chosen career field.
2. Be able to complete all requirements for commissioning before their 34th birthday (waivable to 39 years).
3. Successfully complete the prescribed survey and general screening tests.
4. Execute an individual contract with the government in which they agree to complete the Advanced Course at Idaho State University or any other institution at which they may thereafter be enrolled where such a program is offered.
5. Devote a minimum of eight hours a week to the military training prescribed by the Secretary of the Army.
6. Contract into the Army Reserve ROTC Control Group. This enlistment does not involve additional training or duty but is to insure compliance with the terms of the contract signed by the student.
7. Agree to accept a commission if tendered.
8. Serve as a commissioned officer in the active Army, the Army Reserve, or the National Guard. Guaranteed Reserve Forces Duty (GRFD) assignments are available for those who do not want to compete for the active duty assignments. The GRFD assignment allows officers to serve in the Reserves or National Guard with an Army Commission.
9. Complete the requirements for Precommissioning Training (PCT). The PCT system is designed to articulate skills and knowledge that are required of all U.S. Army Officers. The professional military education component consists of two parts, a baccalaureate degree in an academic field and a military history course.
10. Participate in either the Ranger Challenge fitness class or the Military Style fitness class every semester until commissioned.

Scholarships
The Military Science department offers a multitude of scholarships, both Cadet Command Army sponsored and Idaho State University sponsored. Cadet Command offers a four-year scholarship to high school graduating seniors which pays up to $20,000.00 a year for college tuition and education fees, OR room and board (chosen by the student). There is an additional book allowance. There are also limited numbers of 4, 3 and 2- year scholarships available once a student is on campus. In addition, Army scholarship winners also receive a taxfree subsistence allowance for 10 months per year, increasing yearly upon progression through Military Science. Each student selected for a scholarship must serve in the National Guard, Reserves, or Active Duty as a commissioned officer upon commissioning. For more information please log on to www.rotc.usaac.mil/scholarship. Students who are in the Advanced Course (Junior and Senior status) and some qualifying sophomores will also receive an additional monthly subsistence (see “Financial Assistance” below). The Military Science department offers scholarships for room and board, room, and various monetary amounts. Applications are available from the department (Garrison Hall, Building 63, Room B9 or 208-282-4264).

Financial Assistance
Each contracted student receives an allowance of between $300 and $500 a month for up to ten months a year for two to three years. Summer training pay, in addition to meals, quarters, medical/dental attention, and travel pay. A uniform allowance of $400 is paid to each commissioned officer upon entry into active duty.

Uniforms
Basic and Advanced Course students will be provided uniforms and equipment for ROTC classes. All such items of clothing and equipment are the property of the U.S. government and are provided solely for the purpose of furthering the military training of the student. Students are responsible for the safekeeping, care, and return of the property issued to them.

Required Courses/Activities

Basic Course (choose a, b, or c):

a) The following four courses:
- MSL 101, 101L Leadership and Personal Development, and Lab 2 cr
- MSL 102, 102L Introduction to Tactical Leadership, and Lab 2 cr
- MSL 201, 201L Innovative Team Leadership, and Lab 3 cr
- MSL 202, 202L Foundations of Tactical Leadership, and Lab 3 cr

Optional:
- MSL 110 Basic Course Military Style 1 cr
- MSL 104 Ranger Challenge 1 cr

(b) Attendance at ROTC Leaders Training Course, * 6 cr

(c) Prior military service
*Attention at ROTC Leader Training Course (LTC) is one means of completing the Basic Course. Students may sign up for MSL 290 to receive 6 elective credits for LTC.

ROTC Advanced Course:
- MSL 301, 301L Adaptive Tactical Leadership, and Lab 4 cr
- MSL 302, 302L Leadership in Changing Environments, and Lab 4 cr
- MSL 310 Advanced Course Physical Fitness** 1 cr
- MSL 320 Leadership in U.S. Military History 3 cr
- MSL 401, 401L Developing Adaptive Leaders, and Lab 4 cr
- MSL 402, 402L Leadership in a Complex World, and Lab 4 cr

Optional:
- MSL 104 Ranger Challenge 1 cr
- MSL 380 ROTC Nurse Summer Training 3 cr
- MSL 390 Leader Development and Assessment Course*** 6 cr
- MSL 492 Military Science Internship 6 cr

** Required if student is on scholarship and/or contracted.
***Attention at Leader Development and Assessment Course (MSL 390) is required of all contracted students normally between junior and senior year. Students may sign up for MSL 390 to receive academic credit for Leader Development and Assessment Course.

Minor in Military Science
(For contracted cadets ONLY)

Required Military Science Courses:
- MSL 301, 301L Adaptive Team Leadership, and Lab 4 cr
- MSL 302, 302L Leadership in Changing Environments 4 cr
- MSL 310 Military Style Fitness* 4 cr
- MSL 320 Leadership in Military History 3 cr
- MSL 390 Leader Development and Assessment 6 cr
- MSL 401, 401L Developing Adaptive Leaders 4 cr
- MSL 402, 402L Leadership in a Complex World 4 cr
- MSL 492 Military Science Internship (SMP)** 6 cr

TOTAL: 35 cr

*This is a 1-credit course, taken once each semester, for a total of 4 credits

**Optional, if student qualifies

Military Science and Leadership Courses
MSL 101 Leadership and Personal Development 2 credits. Introduces personal challenges and competencies critical for effective leadership. Learn life skills such as critical thinking, goal setting, time management, physical fitness, and stress management, as related to leadership, officer training, the Army profession. Develop
basic knowledge and comprehension of Army leadership dimensions, the ROTC program, its purpose, and its advantages. COREQ: MSL 101L. F

MSL 101L Leadership and Personal Development Laboratory 0 credits. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 101. F

MSL 102 Introduction to Tactical Leadership 2 credits. Setting direction, problem-solving, listening, presenting briefs, providing feedback, and using effective writing skills. Students explore dimensions of leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises. Explore in more detail the Army’s leadership philosophy and learn fundamental military concepts. COREQ: MSL 102L. S

MSL 102L Introduction to Tactical Leadership Laboratory 0 credits. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 102. S

MSL 104 Ranger Challenge 1 credit. Students are instructed in basic military/survival skills: field expedient bridging, marksmanship, individual weapons familiarization, individual tactical movement, and physical readiness. Culminates in team competitions with other universities. May be repeated for up to 4 credits by contracted Military Science students. F, S

MSL 110 Basic Course Military Style Physical Fitness 1 credit. Participate in and learn to lead a physical fitness program. Emphasis on developing an individual fitness program and the role of exercise and fitness in one’s life. Cross-listed as PEAC 110. F, S

MSL 201 Innovative Team Leadership 3 credits. Explore creative and innovative tactical leadership strategies and styles; examine team dynamics and two historical leadership theories. Includes planning, executing and assessing team exercises and participating in leadership labs as well as land navigation and squad tactics. COREQ: MSL 201L. F

MSL 201L Innovative Team Leadership Laboratory 0 credits. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 201. F

MSL 202 Foundations of Tactical Leadership 3 credits. Terrain analysis, patrolling, operation orders, and other challenges of leading tactical teams in the contemporary operating environment (COE). Students assess their own leadership styles and practice communication and team building. COE case studies reflect the importance and practice of teamwork and tactics in real-world scenarios. COREQ: MSL 202L. S

MSL 202L Foundations of Tactical Leadership Laboratory 0 credits. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 202. S

MSL 290 ROTC Leaders Training Course 6 credits. 5-week summer course taken at Fort Knox, KY provides an introduction to military science for students having little or no military experience. Provides experiences in management, teaching, first aid, physical conditioning. Qualifies student for ROTC Advanced Course. PREREQ: Permission of Chair. F

MSL 301 Adaptive Tactical Leadership 4 credits. Study, practice, develop, and evaluate adaptive leadership skills using squad tactical operations scenarios and systematic feedback on leadership attributes and actions. Cadets develop tactical leadership abilities to enable success at the summer Leadership Development and Assessment Course. PREREQ: Contracted MSL student. COREQ: MSL 301L. F

MSL 301L Adaptive Team Leadership Laboratory 0 credit. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 301. F

MSL 302 Leadership in Changing Environments 4 credits. Intense situational leadership challenges to build cadet awareness and skills in leading tactical operations up to platoon level. Review aspects of combat, stability, and support operations; conduct military briefings; develop operation orders. Explore, evaluate, and develop skills in decision-making, persuading, and motivating team members in the COE. PREREQ: MSL 301. COREQ: MSL 302L. S

MSL 302L Leadership in Changing Environments Laboratory 0 credit. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 302. S

MSL 310 Advanced Course Physical Fitness 1 credit. Participate in, plan and lead physical fitness programs. Develop the physical fitness requirements of an officer in the Army. Emphasize on developing an individual fitness program and the role of exercise and fitness in one’s life. May be repeated for up to 8 credits by contracted Military Science students. PREREQ: Contracted MSL student. PREREQ OR COREQ: MSL 301, MSL 302, MSL 401, or MSL 402. F, S

MSL 320 Leadership in U.S. Military History 3 credits. Introduction to American military experience. Personal and military examples of changes made as a result of lessons learned from history. Accounts from major wars and battles throughout U.S. history are described to focus on how leadership decisions affected the success or failure of military operations. PREREQ: Contracted student or permission of Instructor. F, S

MSL 380 ROTC Nurse Seminar Training 3 credits. Clinical leadership experience with an Army Nurse Corps preceptor at an Army hospital in the US or overseas after completion of Leader Development and Assessment Course (MSL 390). PREREQ: MSL 390 and one clinical nursing course. F

MSL 390 Leader Development and Assessment Course (LDAC) 6 credits. Culmination of MSL 301 and MSL 302; Leader Development and Assessment Course at Fort Lewis, Washington. Required of all contracted students, normally between junior and senior years. PREREQ: MSL 301 and MSL 302. F

MSL 401 Developing Adaptive Leaders 4 credits. Develop proficiency in planning, executing, and assessing complex operations, and in functioning as a member of a staff. Provide performance feedback to subordinates by assessing risk, making ethical decisions, and leading fellow ROTC cadets. Lessons on military justice and personnel processes prepare cadets to make the transition to becoming officers. PREREQ: MSL 301 and MSL 302. COREQ: MSL 401L. F

MSL 401L Developing Adaptive Leaders Laboratory 0 credit. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 401. F

MSL 402L Leadership in a Complex World Laboratory 0 credit. Practical application of classroom instruction, leadership exercises, adventure training, military skills, and tactical instruction. Military branch and rank orientation is also applied. COREQ: MSL 402. S

MSL 492 Military Science Internship 6 credits. Apply skills learned in MSL program. PREREQ: Permission of Chair. COREQ: Simultaneous membership in ROTC and Army Reserves/National Guard. S

MUSE 411 Basic Museology 2 credits. History, philosophy, purposes, organization and administration of museums. Practical work in collections management and museum interpretation. D

MUSE g450 Independent Study in Museum Methods 1-3 credits. Individual projects based...
The Idaho State University Department of Music offers programs leading to Bachelor of Music, Bachelor of Arts, Bachelor of Science, and Bachelor of Music Education degrees. Students who major in music take courses that provide a broad cultural background for careers in music teaching, performance, graduate study and music-related work. Membership in organized music groups, Wind Ensemble, Symphonic Band, Marching Band, Symphony Orchestra, Concert Choir, ISU Women’s Choir, Idaho State Chorale, Jazz Bands, Chamber Choir, Opera Workshop and a variety of small woodwind, brass, percussion, string, vocal and keyboard ensembles, is open to all university students.

Accreditation
The Idaho State University Department of Music is an accredited institutional member of the National Association of Schools of Music. Its music education program is also accredited by regional and state accrediting agencies.

Goals and Objectives
The Department of Music at Idaho State University has the following goals:
1. To offer instruction of the highest possible quality to music students;
2. To provide an atmosphere of professional experiences in music, including concerts, master classes, and guest artists;
3. To prepare professional musicians for careers in teaching and/or performance;
4. To offer courses and musical experiences as an element of cultural enrichment for students who do not major in music;
5. To provide opportunities for continued participation by all university students in various performing ensembles and other musical activities; and
6. To exhibit a strong posture in community service through co-sponsorship and promotion of music cultural events.

The student related outcome objectives relating to these goals are as follows:
1. Students will gain professional level performing experience in a variety of settings including large ensemble, small ensemble, and solo performance. These performance experiences will culminate in the presentation of a solo recital in the senior year.
2. Students will gain a broad understanding of the history of music, focusing primarily upon Western musical culture, but also including an overview of world musics. Students will gain an understanding of how music functions within society and culture.
3. Students will gain a broad understanding of music theory, including part writing, analysis, and composition.
4. Students will develop ear training skills, including the abilities to hear and notate pitch, intervals, chords, and rhythms. Students will be able to hear and identify procedures and large scale structures that are used in music.
5. Students, especially those in the Bachelor of Music Education degree, will gain knowledge and experience in the art of teaching music.
6. Students will gain and be able to display basic competencies on piano, including performance, sight reading, transposition, harmonization, and proper piano technique.

Admission
All prospective music majors/minors and transfer students must contact the department office prior to their first semester's registration to be assigned a departmental advisor and take diagnostic placement tests and performance auditions. Acceptance as a music major/minor is dependent upon auditions and these examinations. Examinations should be taken before or during the week preceding classwork.

Performance Auditions
These auditions will include technique demonstration and repertoire performance.

Theory Placement Exam
This exam will determine the specific semester of music theory to which a student will be assigned.

Piano Placement Exams
These tests serve to determine the specific semester and section of class piano or private instruction to which a student will be admitted. All music majors must successfully complete the department’s required piano proficiency to graduate. Credits in MUSC 118-119, MUSC 218-219, or MUSC 120 may be used toward passing the piano proficiency. The student must register for piano or piano class each semester until passing the proficiency exam.

Special Graduation Requirements
1. An overall accumulative grade point average of 2.0 for all University courses is required for graduation. The Music Department requires a Music GPA of 2.5 as a standard for graduation. An additional requirement is that a music major or minor must earn no less than a “C-” grade in each music course. Furthermore, at least a “C-” grade must be received to advance to another course for which the earlier course is a prerequisite, or to advance to the next level of a continuation course.
2. All Music majors must pass the department’s Junior Standing Exam (usually taken at the end of the sophomore year) and register for, and pass, applied music lessons, a minimum of 2 semesters at the 300 level, and 1-2 semesters at the 400 level.

Music Department Handbook
A handbook is available online at http://www.isu.edu/music/handbook.shtml which describes more completely the facilities, policies, course sequencing and departmental operations. Prospective students and music majors/minors are urged to become familiar with its contents.

Bachelor of Music
The Bachelor of Music degree is designed for students preparing for graduate study or careers in performance. A student majoring in Music Performance may choose to specialize in voice, piano, guitar, strings, winds, or percussion.

EDUC 301 Inquiring, Thinking, Knowing 3 cr
EDUC 401 Language and Literacy 3 cr
SPED 350 Creating Inclusive Classrooms 3 cr
EDUC 492 Secondary Music Education: Internship 7-14 cr

Note: Music Education students are not required to take EDUC 215, which is normally part of the Education core courses.

General Education Requirements
Goals 1, 2, 3, 4, 5, 6, 7, 8, 9, 10A or 10B, 11, 12

Bachelor of Arts or Bachelor of Science in Music

The Bachelor of Arts in Music degree is a general music degree with additional electives in the arts and humanities. The Bachelor of Science in Music degree emphasizes the study of music with additional electives in science and mathematics. Seventy credits of non-music courses are required in the B.A. and B.S. degrees.

Degree candidates whose applied major is voice are encouraged to take a second year of a foreign language - French or German.

Basic Music Requirements
MUSC 103 Theory of Music I 3 cr
MUSC 104 Theory of Music II 3 cr
MUSC 107 Recital attendance (7 semesters) 0 cr
MUSC 108 The World of Music (Goal 6) 4 cr

MUSC 305 Music History II 3 cr
MUSC 306 Music History III 3 cr
MUSC 311 Form and Analysis 2 cr
MUSC 312 Music Technology 2 cr
MUSC 319 Choral Conducting 2 cr
MUSC 320 Instrumental Conducting 2 cr
MUSC 333 Elementary Music Methods 3 cr
MUSC 334 Choral Music Methods 2 cr
MUSC 335 Instrumental Music Methods 2 cr
MUSC 338 Field Experience in Music Education 2 cr
MUSC 401 Orchestration 2 cr
Applied music (major instrument or voice) 7 cr
Large Performing Ensembles (band, orchestra, choir) 7 cr

In addition:
Solo or joint senior recital Piano proficiency*
Chamber Ensembles

* Piano proficiency is required for all degree candidates. Applied music secondary credits (MUSC 118-119, MUSC 218-219, or MUSC 120) may be used toward passing the piano proficiency. The student must register for piano each semester until able to pass the proficiency exam.

**Music electives must be chosen from Music Courses, not from Applied Music or Music Ensembles (Performing Organizations).

Minor in Music

Required Courses
MUSC 103 Theory of Music I 3 cr
MUSC 104 Theory of Music II 3 cr
MUSC 107 Recital attendance (4 semesters) 0 cr
MUSC 108 The World of Music (Goal 6) 4 cr
MUSC 113 Aural Skills I 1 cr
MUSC 114 Aural Skills II 1 cr

Applied Music (2 credits at the 100 level, 2 credits at the 200 level) 4 cr
Large Performing Ensembles (Band, Choir, Orchestra) 4 cr
Music Elective 2 cr
Performing Organizations

Membership in organized music groups is open to all university students subject to approval of the respective directors. All music majors are required to participate in a large ensemble (band, orchestra, choir) as a portion of their applied music study. **Participation in chamber ensembles is expected during the degree program with a chamber ensemble performance required as a portion of the student's senior recital program.**

**MUSC 166 Chamber Choir 1 credit.** Reading, study and performance of representative literature for chamber choir. Emphasis is placed on the individual’s contribution toward the highest of choral standards. Open to all students by audition. F, S

**MUSC 167 Opera Workshop 1 credit.** Ensemble course devoted to the study of opera from the standpoint of workshop. S

**MUSC 168 Instrumental Ensemble 1 credit.** Ensemble training in various instrument combinations, such as string quartet and various woodwind and brass ensembles. Section 1, Woodwind Ensemble; 2, Brass Ensemble; 3, Percussion Ensemble; 4, String Ensemble; 5, Keyboard Ensemble. PREREQ: Junior level standing in applied music. F, S

**MUSC 169 Orchestral 1 credit.** Sight reading of representative orchestral literature; orchestral routine, study, and public performance of major symphonic compositions including orchestral accompaniments. F, S

**MUSC 170 Camerata Singers/Idaho State Chorale 1 credit.** Reading, study, and performance of representative choral literature. Open to community members and students. Does not meet the ensemble requirement for music majors F, S

**MUSC 172 ISU Women’s Choir 1 credit.** Study, rehearsal and performance of traditional and non-traditional choral music for treble voices. F, S

**MUSC 173 Concert Choir 1 credit.** Study and performance of the entire body of choral music. Includes several performances and concerts. Emphasis on musical standards and levels of choral vocal proficiency. PREREQ: Junior level standing in applied music. F, S

**MUSC 174 Woodwinds 1 credit.** Rehearsal and performance of traditional and contemporary wind literature. Section 1, Woodwind Ensemble; 2, Brass Ensemble; 3, Percussion Ensemble; 4, String Ensemble; 5, Keyboard Ensemble. PREREQ: Junior level standing in applied music. F, S

**MUSC 175 Strings 1 credit.** Rehearsal and performance of traditional and contemporary string literature. Section 1, String Ensemble; 2, Piano Ensemble; 3, General Recital Hours/Studio Classes and evening concerts. A student who does not plan to attend the required recital hour/studio classes and evening concerts should register for one of the following secondary instruction course numbers.

Any student registering in any of the above course numbers will be required to register for MUSC 107 and attend the weekly General Recital Hours/Studio Classes and evening concerts. A student who does not plan to attend the required recital hour/studio classes and evening concerts should register for one of the following secondary instruction course numbers.

**MUSC 100 Introduction to Music 3 credits.** A listening-oriented course with Western art music as its principal focus. Designed for the general student. No music reading ability/performing skills are assumed. Credit cannot be granted in both MUSC 100 and MUSC 108. Satisfies Goal 6 of the General Education Requirements. F, S, Su

**MUSC 102 Elements of Music 2 credits.** A course designed to familiarize the student with music reading/notation and elementary music theory. Credit cannot be granted in both MUSC 102 and MUSC 112. F, S, Su

**MUSC 104 Theory of Music II 3 credits.** continuation of MUSC 103. PREREQ: MUSC 103 AND MUSC 113, S

**MUSC 108 String Instrumental 1 credit.** Study and performance of the strings from the standpoint of workshop. F, S

**MUSC 110 Piano Ensemble 1 credit.** Rehearsal and performance of standard and contemporary piano repertoire. One or two concerts are given each semester. PREREQ: Junior level standing in applied music. F, S

**MUSC 112 Organ Ensemble 1 credit.** Rehearsal and performance of standard and contemporary organ repertoire. One or two concerts are given each semester. PREREQ: Junior level standing in applied music. F, S

**MUSC 114 Percussion Ensemble 1 credit.** Rehearsal and performance of standard and contemporary percussion literature. One or two concerts are given each semester. PREREQ: Junior level standing in applied music. F, S

**MUSC 115 Percussion Ensemble 1 credit.** Rehearsal and performance of standard and contemporary percussion literature. One or two concerts are given each semester. PREREQ: Junior level standing in applied music. F, S

**MUSC 116 American Music 2 credits.** A listening-oriented course for general students and community members. Does not meet the ensemble requirement for music majors. F, S

**MUSC 118-119 Class Piano 1 credit.** Private lessons are offered in band and orchestral instruments, voice, piano, percussion, and classical guitar for 1-3 credits each semester.

A special music fee is charged for enrollment in applied music. Students taking applied music lessons pay fees currently set at $200, $220, and $320, depending on the level and length of the lessons. Please see the Class Schedule for the applicable fee under Applied Music Lessons.

Students desiring to major or minor in music will normally be classified as entering freshmen in the 100 level of the series. All music majors must pass the department’s Junior Standing Exam in applied music (usually taken at the end of the sophomore year) and register for, and pass, a minimum of 2 semesters at the 300 level and 1-2 semesters at the 400 level. Music Education students will take applied music for 1 credit per semester; Music Performance students will take applied music for 2-3 credits per semester.
Intermediate guitar technique and analysis. MUSC 104 and MUSC 114. F

Perception through analysis and writing of music, with a focus on Western art music. Music reading ability required. Credit cannot be granted in both MUSC 100 and MUSC 108. Satisfies Goal 6 of the General Education requirements. F

MUSC 113 Aural Skills I 1 credit. Development of skills in sight singing, aural recognition, and critical listening. Designed to correlate with Theory of Music I. PREREQ: MUSC 102 or MUSC 103 and MUSC 113. S

MUSC 118 Class Piano I 1 credit. Primarily for music and elementary education majors completing piano proficiency requirements. Normally taken concurrently with MUSC 103. F

MUSC 119 Class Piano II 1 credit. Primarily for music and elementary education majors completing piano proficiency requirements. Normally taken concurrently with MUSC 103. F

MUSC 125 Beginning Guitar Class I credit. Basic guitar technique and repertoire. Open to any student. Students must provide their own guitars. F, S

MUSC 126 Intermediate Guitar Class I credit. Intermediate guitar technique and repertoire. Open to any student. Students must provide their own guitars. F, S

MUSC 127 Class Voice I credit. Basic singing technique and vocal repertoire. Open to any student, including elementary education majors completing requirements. F, S

MUSC 203 Theory of Music III 3 credits. Continued development in aural and visual perception through analysis and writing of 15th, 19th, and 20th century styles. PREREQ: MUSC 104 and MUSC 114. F

MUSC 204 Theory of Music IV 3 credits. Continuation of MUSC 203. PREREQ: MUSC 203 and MUSC 213. S

MUSC 213 Aural Skills III 1 credit. Continued development of skills in sight singing, aural recognition, and critical listening. Designed to correlate with Theory of Music III. PREREQ: MUSC 104 and MUSC 114. F

MUSC 214 Aural Skills IV 1 credit. Continued development of skills in sight singing, aural recognition, and critical listening. Designed to correlate with Theory of Music IV. PREREQ: MUSC 203 and MUSC 213. S

MUSC 218 Class Piano III 1 credit. Primarily for music and elementary education majors completing piano proficiency requirements. Normally taken concurrently with MUSC 203. F

MUSC 219 Class Piano IV 1 credit. Primarily for music and elementary education majors completing piano proficiency requirements. Normally taken concurrently with MUSC 204. S

MUSC 225 Voice Dictation I 2 credits. Principles of voice dictation with emphasis on English and Italian. AF

MUSC 235 Singing for Actors 2 credits. Introduction to voice sound technique and basic musicianship through the study of folk song and musical theater repertory. Selecting and preparing audition repertory. Vocal health issues. AF

MUSC 233 Music Methods for Elementary Teachers 2 credits. Methodology/materials for teaching elementary school music. Basic skills for the classroom teacher include: basic notation, conducting, autoharp, Orff instruments, piano, recorder, guitar, singing, listening. Two lectures, one lab per week. F, S, Su

MUSC 252 Introduction to Music Education I 1 credit. An introduction to music education philosophy, psychology, and history, and a survey of music education approaches. Requires nine hours of classroom observations. D

MUSC 255 Woodwind Methods 2 credits. Designed primarily for music education majors. Application of the theory and playing techniques involved in teaching students to play woodwind instruments in band/orchestra. R1

MUSC 256 Brass Methods 2 credits. Designed primarily for music education majors. Application of the theory and playing techniques involved in teaching students to play brass instruments in band/orchestra. R1

MUSC 258 Percussion Methods 2 credits. Designed primarily for music education majors. Application of the theory and playing techniques involved in teaching students to play percussion instruments in band/orchestra. R1

MUSC 259 String Methods 2 credits. Designed primarily for music education majors. Application of the theory and playing techniques involved in teaching players of stringed instruments in band/orchestra. R1

MUSC 301 Accompanying 1 credit. Practical training in the tradition, interpretation, and execution of accompaniment, vocal and instrumental. May be repeated for up to 4 credits. D

MUSC 304 Music History 3 credits. Study of music and the development of Western Art music from ancient times to circa 1750. Examination of major trends, including chant and song in the Middle Ages, Ars Antiqua, Ars Nova, Burgundian Music, the Renaissance, and the Baroque. PREREQ: ENGL 102, MUSC 203, and either MUSC 100 or MUSC 108. S

MUSC 305 Music History II 3 credits. Study of Western Art music during the Pre-classic, Classic and Romantic periods. Examination of major trends and philosophies including the Enlightenment, Romanticism and Nationalism. PREREQ: ENGL 102, MUSC 203, and either MUSC 100 or MUSC 108. F

MUSC 306 Music History III 3 credits. Study of music in Europe and America from Post-Romanticism to the present. Examination of major trends, including impressionism, expressionism, serialism, jazz, the avant-garde, neo-classicism, neoromanticism, and post-modernism. PREREQ: ENGL 102, MUSC 204, and either MUSC 100 or MUSC 108, or permission of instructor. S

MUSC 311 Form and Analysis II 2 credits. Analysis and study of standard compositions from the Renaissance to the 20th century with emphasis on structural, stylistic, and historical aspects. PREREQ: MUSC 203 and MUSC 204. F

MUSC 312 Music Technology 2 credits. Introduction to music technology concepts using computers and MIDI instruments. Includes computer accompaniments, improvisation and development of creativity. PREREQ: MUSC 103 or permission of instructor. D

MUSC 314 Jazz Improvisation I 1 credit. Development of skills and knowledge necessary to become a competent jazz improviser. Activities include jazz theory, aural skills and practical applications. Proficient knowledge of scales and advanced instrumental technique are required. May be repeated for up to 2 credits. D

MUSC 319 Choral Conducting 2 credits. A practical course in selecting and conducting choral materials, rehearsal techniques, use of small ensembles, planning and organization of choral groups. Students will work with ensemble groups for laboratory experience in conducting. PREREQ: MUSC 104. F

MUSC 320 Instrumental Conducting I 1 credit. A practical course in selecting and conducting instrumental materials, rehearsal techniques, use of small ensembles, planning and organization of instrumental groups. Students will work with ensemble groups for laboratory experience in conducting. PREREQ: MUSC 104. S

MUSC 325 Advanced Voice Dictation I 1 credit. Principles of voice dictation with emphasis on French, German and Latin. PREREQ: MUSC 225. D

MUSC 333 Elementary Music Methods 3 credits. Music curriculum, materials, and teaching techniques for the development of sequential experiences which contribute to children’s musical growth in the elementary schools, including Kodaly, Orff, choral music, recorder, and guitar. Includes practicum. PREREQ: MUSC 204, MUSC 214, and MUSC 252. D

MUSC 334 Choral Methods 2 credits. Methods and materials of choral music education in secondary schools including: ensemble instruction, classroom management and organization. PREREQ: MUSC 204, MUSC 214, and MUSC 252. D

MUSC 335 Instrumental Methods 2 credits. Methods and materials of instrumental music education in secondary schools including: ensemble instruction, classroom management and organization. PREREQ: MUSC 252, MUSC 255, MUSC 256, MUSC 258, and MUSC 259. D

MUSC 338 Field Experience in Music Education 2 credits. Student completes 30 hours of practicum within secondary school music settings, and develops teacher work samples. COREQ: MUSC 334 or MUSC 335. Graded S/U. D

MUSC 395 Junior Recital 1 credit. A solo and/or collaborative public recital. PREREQ: Junior Level Standing in Applied Music. Graded S/U. D
MUSC 397 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

MUSC 401 Orchestration 2 credits. Study of the characteristics of individual instruments and their combinations from section to full orchestral scoring. Scores, recordings, and performances may be used as available and appropriate. PREREQ: MUSC 204. AS

MUSC g406 Opera Literature 3 credits. Masterworks of operatic literature. PREREQ: MUSC 304, MUSC 305 and MUSC 306. D

MUSC g407 Symphonic Music Literature 3 credits. Masterworks of symphonic literature. PREREQ: MUSC 304, MUSC 305 and MUSC 306. D

MUSC g408 Chamber Music Literature 3 credits. Masterworks of chamber music literature. PREREQ: MUSC 304, MUSC 305 and MUSC 306. D

MUSC g411 Instrument Literature 2 credits. A study of instructional materials and literature for an orchestral instrument or guitar. PREREQ: Junior level standing in applied music or permission of instructor. D

MUSC g412 Instrument Pedagogy 2 credits. A survey and comparative study of pedagogical materials, principles and procedures. Application of pedagogical techniques in teaching situations. PREREQ: Junior level standing in applied music or permission of instructor. D

MUSC g413 Piano Literature 2 credits. A study of instructional materials and literature for piano. PREREQ: Junior level standing in applied music or permission of instructor. D

MUSC g414 Piano Pedagogy 2 credits. A survey and comparative study of pedagogical materials, principles and procedures for piano. Application of pedagogical techniques in teaching situations. PREREQ: Junior level standing in applied music or permission of instructor. D

MUSC g415 Seminar in Band Music 2 credits. Analysis and study of instrumental works from the Baroque to the present era with particular attention to performance practice. PREREQ: MUSC 305 and MUSC 306 or equivalent. D

MUSC g416 Seminar in Choral Music 2 credits. Analysis and study of choral works from the Renaissance through the present era with particular attention to performance practice. PREREQ: MUSC 305 and MUSC 306 or equivalent. D

MUSC g418 Seminar in Orchestral Music 2 credits. Analysis and study of orchestral works from the Baroque to the present era with particular attention to performance practice. PREREQ: MUSC 305 and MUSC 306 or equivalent. D

MUSC g419 Voice Literature 3 credits. Instructional materials and literature for voice. PREREQ: Junior level standing in applied music or permission of instructor. F

MUSC g420 Voice Pedagogy 3 credits. A survey and comparative study of pedagogical materials, principles and procedures for voice, with application. PREREQ: Junior level standing in applied music or permission of instructor. S

MUSC g424 Music in the Baroque Era 3 credits. Intensive study of music from Monteverdi through J.S. Bach. PREREQ: MUSC 304. D

MUSC g425 Music in the Classical Era 3 credits. Intensive study of music in the Classical era, principally 1730 through Beethoven. PREREQ: MUSC 305. D

MUSC g426 Music in the Romantic Era 3 credits. Intensive study of music in the Romantic era, principally 1800 to 1900. PREREQ: MUSC 305. D

MUSC g427 Music in the Modern Era 3 credits. Intensive study of music in the Modern era, principally since 1900. PREREQ: MUSC 306. D

MUSC g429 Advanced Music History Survey 3 credits. Study of music history topics, including vocal and instrumental forms and styles. PREREQ: MUSC 304, MUSC 305 and MUSC 306. D

MUSC g432 Instrumental Arranging 2 credits. Arranging music for different instrumental combinations and various textures. PREREQ: MUSC 204 or permission of instructor. F, S

MUSC g435 Analysis of Musical Styles 2 credits. The techniques of stylistic analysis of music from the Baroque period through the 20th century. PREREQ: MUSC 311 D

MUSC g438 Special Topics in Music Theory 2 credits. Advanced studies in selected topics in music theory. May be repeated for up to 12 credits. PREREQ: MUSC 204 or permission of instructor. F, S

MUSC g439 Advanced Music Theory Survey 3 credits. Study of music theory methods, including harmonic and formal analysis. PREREQ: MUSC 311 D

MUSC g445 Advanced Instrumental Conducting 2 credits. Designed for secondary school music educators. Practical experience in analyzing and rehearsing instrumental conducting techniques for a wide variety of instrumental music. PREREQ: MUSC 320. D

MUSC g446 Advanced Choral Conducting 2 credits. Designed for secondary school music educators, Practical experience in analyzing and rehearsing choral conducting techniques for a wide variety of choral music. PREREQ: MUSC 319. D

MUSC g491 Independent Study 1-4 credits. Supervised study in selected areas, primarily research, writing, or analysis. May be repeated for up to 7 credits. PREREQ: Permission of instructor and the department Chair. D

MUSC g495 Senior Recital 2 credits. Graded S/U. D

MUSC g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Department of Physics

Chair and Professor: Dale Professors: Brey, Gesell, Shropshire, Wells
Research Professor: Beezhold Associate Professors: Cole, Keeter, Tatar Research Associate Professors: Chouffani, Forest, Hunt Assistant Professor: Harris Research Assistant Professor: Chandler Visiting Assistant Professor: Popp Visiting Faculty: Starovoitova Senior Lecturer: Hackworth Instructor: Keller Research Instructors: Claver, Dunker Adjunct Instructors: Clarke, DeVeaux, Harker, Jones, Nieschmidt, Schrader Affiliate Faculty: Cummings, Hall, Harker, Jones, Langley, Nigg, O’Rear, Otis, Rich, Ritter, Roney, White Emeriti: Harmon, Parker, Price, Vegors Students who wish to major in physics will take courses which will prepare them for industrial or governmental positions or for graduate study in physics or allied fields.

The department offers three undergraduate degree programs as well as a minor in physics. The Associate of Science, Bachelor of Arts, and the minor are designed for students who desire a flexible program so they can develop interdisciplinary competence. The Bachelor of Science degree places greater emphasis on physics and is designed to prepare students for careers in physics or a closely allied profession. These programs consist of a set of required core courses plus a selection of courses in a particular field. The core courses include the basic physics and mathematics courses which serve as a foundation for more advanced study. A student planning to do graduate work in physics should elect to complete the Bachelor of Science in Physics.

In addition to the more traditional physics program options, the Department of Physics also offers the A.S., B.S. and M.S. options in Health Physics. Health Physics, an applied science, is concerned with the protection of humans and their environment from the possible harmful effects of radiation while providing for its beneficial uses. Health Physics is a multi-disciplined profession that incorporates aspects of both the physical and biological sciences. The B.S. option in Health Physics will prepare the student for work in government, university, medical or industrial settings dealing with such areas as operational radiation
The common objectives for students of our undergraduate programs in physics include developing: (1) broad, fundamental technical skills and knowledge, (2) strong communication skills, and (3) the capability to think critically and work independently. Each of these objectives has a “level” that is appropriate for the degree.

For the A.S. degree in physics, the technical learning objectives are to achieve a hands-on core competence that is appropriate for a technician. This includes the general education goals of a B.S. degree, plus knowledge of general physics, calculus, and general chemistry. The communication objectives at this level are writing and speaking skills that meet the needs of a within-a-work-group setting. Our expectations are that these students will obtain critical thinking skills and an ability to work independently at the technician level.

For the B.A. degree in physics, the technical objectives are mastery of calculus, ordinary differential equations, linear algebra, general physics, modern physics, and student-selected areas of classical mechanics, quantum mechanics, electromagnetism and methods of nuclear measurements. For the B.S. degree in physics, the technical objectives are the learning goals of the B.A. degree, plus additional hands-on research laboratory experience and further knowledge in solid-state physics, statistical physics, nuclear physics, optics and the conduct of research. The communication objectives at the B.A. and B.S. levels are writing and speaking skills that are sufficient to represent themselves and their organizations at regional or national scientific meetings. Our expectations are that these students will obtain critical thinking skills and an ability to work independently at a level that will require minimal or modest supervision of either management or a more senior scientist.

The objective of the Idaho State University Health Physics program is to produce Health Physicists with:

- The ability to work independently, and
- A thorough understanding of professional ethics.

The Idaho State University Health Physics program is evaluated by periodically monitoring a series of programmatic outcomes which are used to indicate the extent to which our objectives are being accomplished and to provide information by which the program may be modified to optimize accomplishing these objectives.

Students may enter the M.S. program in Health Physics from several undergraduate majors including: health physics, physics, chemistry, biology and other science or engineering majors. Additional course work to correct deficiencies may be necessary.

To declare a major in one of the physics programs, a student must have completed at least 24 semester hours and not be on probation. Declaration of major should be done as soon as possible in the student’s program. For further details, please consult the Department of Physics.

Bachelor of Arts in Physics

The following courses are required in addition to the General Education Requirements for the B.A. degree:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 170</td>
<td>Calculus I</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 175</td>
<td>Calculus II</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 275</td>
<td>Calculus III</td>
<td>4 cr</td>
</tr>
<tr>
<td>MATH 360</td>
<td>Differential Equations</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

At least 24 credits of Physics, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 211-212</td>
<td>Engineering Physics</td>
<td>8 cr</td>

Associate of Science in Physics

Students seeking an Associate of Science degree in Physics must complete the following:

- General Education Goals for the Bachelor of Science*
  - variable
- CHEM 111 General Chemistry I 5 cr
- MATH 170 Calculus I 4 cr
- MATH 175 Calculus II 4 cr
- PHYS 213,214 Engineering Physics Laboratory 2 cr
- Electives to bring total to 64 cr variable

* The number of credits required for the General Education Requirements varies depending on the student's performance on proficiency or placement tests in English, foreign languages, and mathematics.

Associate of Science in Physics (Health Physics Emphasis)

The objective of the Idaho State University program that awards an Associate of Science in Physics with Emphasis in Health Physics is to develop an individual to assume the role of a health physics technician (sometimes referred to as Radiological Control Technician or RCT) with the knowledge in radiological and biological sciences appropriate for this career option. That same knowledge serves as the basis for certification by the National Registry of Radiation Protection Technologist (NRRPT). Students completing this program will develop the fundamental skills important to life-long learning and advancing within the discipline of Health Physics.

Curriculum

Summer before 1st Year

- PHYS 217 RCT Internship I (Optional) 3 cr

Fall 1st Year

- BIOL 101L Biology I and Lab 4 cr
- ENGL 101 English Composition 3 cr
- MATH 147 Precalculus 5 cr
- MATH 143 College Algebra AND
- PHYS 113 General Physics I Laboratory 1 cr
- PSYC 101 Introduction to General Psychology 3 cr

Spring 1st Year

- COMM 101 Principles of Speech 3 cr
- ENGL 102 Critical Reading and Writing 3 cr
- MATH 108 Introduction to Statistics 3 cr
- PHYS 212,214 Engineering Physics I Laboratory 1 cr
- PHYS 218 Fundamentals of Radiation Protection Physics 3 cr
- GOAL 9 or 10A 3 cr

Summer following 1st Year

- PHYS 219 RCT Internship II 3 cr

Fall 2nd Year

- CHEM 111 General Chemistry I 5 cr
- PHYS 111 General Physics I 3 cr
- PHYS 113 General Physics I Laboratory 1 cr
- PHYS 225 Radiation Protection I 3 cr
- PHYS 228 Health Physics 3 credits.
- PHYS 227 Radiation Protection II 3 cr
- GOAL 6 or 7 3 cr

Total: 77 or 80 cr

Spring 2nd Year

- PHYS 112 General Physics II 3 cr
- PHYS 114 General Physics II Laboratory 1 cr
- CHEM 112 General Chemistry II 4 cr
- PHYS 228 Health Physics Regulations 3 cr
- PHIL 101 Introduction to Philosophy 3 cr
- BIOL 307 Radiobiology 3 cr
- Goal 6 or 7 3 cr

Physics Courses

PHYS 100 Essentials of Physics 4 credits.

A survey of basic physics principles; motion, gravitation, electricity and magnetism, light, atoms and nuclei. Includes lecture, demonstrations and elementary problem solving. COREQ: MATH 108 or equivalent. F, S

PHYS 101 Elements of Physics 3 credits.

A survey of basic physics principles; motion, gravitation, electricity and magnetism, light, atoms and nuclei. Includes lecture, demonstrations, elementary problem solving. With PHYS 101L, satisfies Goal 5 of the General Education Requirements. PREREQ: permission of the College of Technology. COREQ: MATH 108 or equivalent; PHYS 101L. F, S

PHYS 101L Elements of Physics Laboratory 1 credit. Laboratory-based application of PHYS 101, to demonstrate basic physics principles; motion, gravitation, electricity and magnetism, light, atoms and nuclei. With PHYS 101, Satisfies Goal 5 of the General Education Requirements. PREREQ: permission of the College of Technology. COREQ: MATH 108 or equivalent; PHYS 101. F, S

PHYS 103 Tools for Scientists I credit.

Personal computer, Internet and WWW, and HP graphics calculator applications in the sciences. Familiarizes students with the capabilities of these computing tools. Emphasizes problems frequently encountered in science and engineering courses. F, S

PHYS 111 General Physics I 3 credits.

Introduces physics course for students in scientific and technical fields, particularly the biological sciences; mechanics, wave motion, thermodynamics. PREREQ: MATH 143 or MATH 147 or equivalent. F

PHYS 112 General Physics II 3 credits.

Introduction to optics, electricity and magnetism and selected topics from atomic and nuclear physics. PREREQ: PHYS 111 or equivalent, and MATH 143 or MATH 147 or equivalent. S

PHYS 113 General Physics I Laboratory 1 credit.

Demonstrating principles of physics. COREQ: PHYS 111. F, S

PHYS 114 General Physics II Laboratory 1 credit.

Demonstrating principles of physics. PREREQ: PHYS 113. COREQ: PHYS 112. F, S

PHYS 152 Descriptive Astronomy 3 credits.

Survey of the historical and modern observation of the sky. Physical relationships in the solar system; planets, satellites, comets, etc., and theories of the creation of the universe and life in the universe. With PHYS 153, satisfies Goal 5 of the General Education Requirements. F, S, Su

PHYS 153 Descriptive Astronomy Laboratory 1 credit. Use of astronomical equipment, telescopes, cameras, etc. With PHYS 152, satisfies Goal 5 of the General Education Requirements. F, S, Su

PHYS 211 Engineering Physics 4 credits.

Mechanics of particles and rigid bodies; kinetic theory and thermodynamics; electricity and magnetism; wave motion; optics. COREQ: MATH 175. F, S

PHYS 212 Engineering Physics 4 credits.

Mechanics of particles and rigid bodies; kinetic theory and thermodynamics; electricity and magnetism; wave motion; optics. PREREQ: PHYS 211. F, S

PHYS 213 Engineering Physics I Laboratory 1 credit. Principles and methods of physical measurement. COREQ: PHYS 211. F, S

214 Engineering Physics II Laboratory 1 credit. Principles and methods of physical measurement. COREQ: PHYS 212. PREREQ: PHYS 213. F, S

PHYS 275 Physics of Aviation 3 credits.

Introduction to the physics of flight covering aerodynamics including the airplane, flight controls, systems and instrumentation. Includes aviation meteorology and navigation. Satisfies the FAA ground school requirements for the Private Pilot certificate. D

PHYS 300 Medical Electronics 2 credits.

A lecture-laboratory course covering circuit theory, qualitative theory of active devices and their applications to instrumentation. Laboratory work will be done with basic test instruments. Primarily for students in the allied health fields. COREQ: PHYS 321. S

PHYS 301 Modern Physics 3 credits.

A one-semester course surveying 20th century physics...
including elements of special relativity and quantum mechanics as applied to atoms. A continuation of the Engineering Physics sequence. PREREQ: PHYS 212; COREQ: MATH 360. F

PHYS 312 Introduction to Biophysics 4 credits. Survey course designed for pre-medical, pharmacy, biology, and physical science students covering topics such as the physics of sensory systems, electromagnetic radiations, and physical measurement techniques applied to biological problems. PREREQ: CHEM 112, MATH 160 or MATH 170. D

PHYS 313 Intermediate Laboratory 12 credits. Modern and historical experiments in atomic physics, nuclear physics, and optics. COREQ: PHYS 301 and MATH 360. F

PHYS 325 Introduction to Weather and Climate 3 credits. Introduces the principles that govern weather and climate, including movements of air masses, genesis of storms, creation of frontal systems. Provides insight into forecasting techniques and the effects of weather and climate on people and societies. PREREQ: CHEM 112, PHYS 112 or permission of instructor. F, W

PHYS 400 Practicum in Physical Science 2 credits. Emphasizes design, set-up, operation, and administration of physics teaching laboratories, demonstrations and activities. Introduces pre-designed experiments plus the design and maintenance of lab equipment. Ideal for Education majors. PREREQ: permission of instructor. D

PHYS g403 Advanced Modern Physics I 3 credits. Study of the elementary principles of quantum mechanics and an introduction to atomic, solid state and nuclear physics. Quantum mechanics will be used as much as possible. PREREQ: MATH 360 or equivalent, and PHYS 301. AF

PHYS g404 Advanced Modern Physics II 3 credits. Study of the elementary principles of quantum mechanics and an introduction to atomic, solid state and nuclear physics. Quantum mechanics will be used as much as possible. PREREQ: PHYS g403. AS

PHYS g405 Advanced Modern Physics III 3 credits. Experiments in radiation detection and measurement, nuclear spectroscopy including x-ray and gamma spectroscopies, neutron activation and ion beam methods. Available to Geology, Engineering, Health Physics, and Physics majors. PREREQ: Permission of instructor. F

PHYS g406 Advanced Modern Physics Laboratory II 2 credits. Senior projects providing a capstone to the physics major curriculum. Written and oral presentation of the project procedures and results are required. PREREQ: PHYS g405. S

PHYS g409 Introductory Nuclear Physics 3 credits. A course in Nuclear Physics with emphasis upon structural models, radioactivity, nuclear reactions, fission and fusion. PREREQ: Knowledge of elementary quantum mechanics and differential equations or permission of instructor. AF

PHYS g410 Science in American Society 2 credits. Observational basis of science; technology's historical influences on scientific developments; perceptions of science in contemporary America; tools/strategies for teaching science. Cross-listed as GEOL g410. PREREQ: Junior standing and permission of instructor. AF

PHYS g415 Statistical Physics 3 credits. Topics covered may include kinetic theory, elementary statistical mechanics, random motion and the theory of noise. Choice of topics will depend upon the interest of the students and instructor. PREREQ: PHYS 212 and MATH 360. AS

PHYS g416 Radiation Detection and Measurement 3 credits. Lecture/laboratory course emphasizing practical measurement techniques in nuclear physics. PREREQ: CHEM 112, PHYS 111 and PHYS 113 or PHYS 211 and PHYS 213. S

PHYS g421 Electricity and Magnetism I 3 credits. Intermediate course in fundamental principles of electrical and magnetic theory. Free use will be made of vector analysis and differential equations. PREREQ: PHYS 212 and MATH 360. AF

PHYS g422 Electricity and Magnetism II 3 credits each. Intermediate course in fundamental principles of electrical and magnetic theory. Free use will be made of vector analysis and differential equations. PREREQ: PHYS g421. AS

PHYS g442 Solid State Physics 3 credits. Introduction to the field of solid state physics emphasizing the fundamental concepts. Topics usually covered are crystal structure, x-ray diffraction, crystal binding energies, free electron theory of solids, energy bands. PREREQ: PHYS 302, PHYS g403, MATH 360 or permission of instructor. AS

PHYS g452 Intermediate Optics 3 credits. Wave theory, e/m waves, production of light, measurement of light, reflection, refraction, interference, diffraction, polarization, optical systems, matrix methods, Jones vectors, Fourier optics, propagation of e/m waves in materials, atmospheric optics. PREREQ: PHYS 212; COREQ: MATH 360. AS

PHYS g453 Topics in Astrophysics 2 credits. Applications of upper division physics to astronomy or cosmology. May include lab exercises. PREREQ: Permission of instructor. D

PHYS g461 Introduction to Mathematical Physics I 3 credits. Introduction to the mathematics most commonly used in physics with applications to and practice in solving physical problems; includes vector analysis, ordinary and partial differential equations. PREREQ: PHYS 212 and MATH 360. D

PHYS g462 Introduction to Mathematical Physics II 3 credits. Introduction to the mathematics most commonly used in physics with applications to and practice in solving physical problems; includes vector analysis, ordinary and partial differential equations. PREREQ: PHYS g461. D

PHYS 481 Independent Problems 1-3 credits. Students are assigned to, or request assignment to, independent problems on the basis of interest. May be repeated for up to 6 credits. F, S

PHYS g483 Theoretical Mechanics 4 credits. Detailed study of the motion of particles, satellites, rigid bodies and oscillating systems. Develop and apply Lagrangian and Hamiltonian methods. PREREQ: PHYS 212 AND MATH 360. AF

PHYS g492 Colloquium in Physics I 1 credit. Faculty and student lectures in current research topics in physics. Open to upper division and graduate students in physics. May be repeated for up to 4 credits. F, S

PHYS g497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D

Health Physics Courses

PHYS 217 RCT Internship I 13 credits. Structured Internship. An optional experience taken as a class the summer prior to the start of the program. PREREQ: Acceptance into the program and permission of the program director. Su

PHYS 218 Fundamentals of Radiation Protection Physics 3 credits. Atomic structure, nuclear structure, fission and fusion, radioactive decay types of radiation, decay schemes, decay kinetics, interaction of radiation with matter, inverse square, attenuation, shielding, sources of radiation, reactors; accelerators, X-ray machines, units and terminology. F

PHYS 219 RCT Internship II 3 credits. Structured Internship. A required class taken the summer between the first and second years of the program. PREREQ: Acceptance into the program and permission of the program director. Su

PHYS 225 Radiation Protection Instrumentation 3 credits. Gas filled detectors: theory of operation, field applications, calibration and maintenance. Standard laboratory radiation detection instrumentation including solid state detectors, liquid scintillation detectors, scintillators, TLD and film dosimetry, and spectrometer techniques. PREREQ: PHYS 218. F

PHYS 226 Radiation Protection II 3 credits. Principles of radiation protection; evaluating internal and external exposures and controls, survey, sampling and inspections, analytical techniques and emergency preparedness. PREREQ: PHYS 218. S

PHYS 227 Radiation Protection II 3 credits. Personnel dosimetry, prescribed dosimetry and radiation equipment, radiation protection dosimetry, procedures and programs (ALARA), industrial ventilation, PPE, contamination control, shielding, hazard evaluation primer on internal dosimetry and bioassay techniques. PREREQ: PHYS 218. S

PHYS 228 Health Physics Regulations 3 credits. Reviewing 10 CFR 19, 20, 30, 35, 835 and portions of 49 CFR dealing with shipment of Radioactive Materials and acquainting students with NCRP, NUREG, REG Guides, ICRP, etc. PREREQ: PHYS 218. S

PHYS g411 Accelerator Health Physics 3 credits. Fundamentals of particle accelerator
design and operation. Examination of the potential radiation environment associated with accelerators and health and safety issues of their operation. PREREQ: Senior standing in health physics or permission of instructor. D

PHYS g412 Environmental Health Physics 3 credits. State-of-the-art applied mathematical techniques for estimating the release, transport, and fate of contaminants in multi-media environmental pathways (air, ground water, terrestrial). Both radiological and non-radiological contaminants will be addressed, with emphasis on radiological contaminants. PREREQ: Permission of instructor. S

PHYS g413 Fundamentals of Industrial Hygiene 3 credits. Overview on the recognition, evaluation, and control of hazards arising from physical agents in the occupational environment. The exposure consequences associated with agents of major occupational health concerns are considered. PREREQ: Permission of instructor. Se

PHYS g416 Radiation Detection and Measurement 3 credits. Lecture/laboratory course emphasizing practical measurement techniques in nuclear physics. PREREQ: CHEM 112, and PHYS 111 and PHYS 113 0r PHYS 211 and PHYS 213 S

PHYS g417 Industrial Ventilation and Aerosol Physics 3 credits. This course focuses on two distinct subject areas: an elaboration on the details of the ACGIH method of local exhaust-system design, and a study of applied aerosol physics based upon trajectory analysis. PREREQ: Permission of instructor. Se

PHYS g418 Nonionizing Radiation Protection 3 credits. Occupational safety and health issues of human exposure to nonionizing radiation. Topics include health concerns and safety strategies developed for extremely low frequency, microwave, radio-frequency, ultraviolet, infrared, laser radiation, and soundwaves. PREREQ: Permission of instructor. Se

PHYS g419 Radiological Emergency Planning 3 credits. Radiological emergency planning for facilities ranging from reactors and other major nuclear facilities to transportation accidents and smaller-scale nuclear accidents. Topics include planning, co-ordination, “exercises”, exposure pathways, modeling, measurement, control, decontamination, and recovery. PREREQ: Permission of instructor. Se

PHYS g420 Reactor Health Physics 3 credits. Introduction to reactor physics; nuances peculiar to reactor health physics; reactor designs. Critiques of exposure pathways, accidents, decommissioning, contamination control, and emergency planning examine radiation safety approaches within the nuclear fuel cycle. PREREQ: Permission of instructor. Se

PHYS g431 Radiation Physics I 3 credits. Atomic and nuclear structure, series and differential-equation descriptions of radioactive decay, physical theory of the interaction of radiation with matter suitable for the discipline of Health Physics. PREREQ: Permission of instructor. F

PHYS g432 Radiation Physics II 3 credits. Continuation of PHYS g431 considering dosimetric quantities/units, theory and technology of radiation damage and measurement, and radiobiology important to an advanced understanding of radiation protection. PREREQ: PHYS g431 and permission of instructor. S

PHYS g433 External Dosimetry 3 credits. Lecture course emphasizing external radiation protection including study of point kernel techniques, monte carlo modeling, and NCRP-49 methods. Also discussed are external dosimetry measurement techniques. PREREQ: PHYS g432 or permission of instructor. F

PHYS g434 Internal Dosimetry 3 credits. A lecture course emphasizing internal radiation protection including studies of ICRP-2, ICRP26&30, ICRP-60&66, and MIRD methods of internal dosimetry. PREREQ: PHYS g433 or permission of instructor. S

PHYS g455 Topics in Health Physics I 2 credits. A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS g432 or permission of instructor. F

PHYS g456 Topics in Health Physics II 2 credits. A continuation of PHYS g455. A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS g432 or permission of instructor. S

PHYS 480 Health Physics Capstone Course 3 credits. Senior project involving development of an abstract, report, poster and oral presentation with synthesis of the many aspects of the undergraduate Health Physics education into a unified focused endpoint. PREREQ: Permission of instructor. F S

PHYS g488 Advanced Radiobiology 3 credits. An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Cross-listed as BIOL g488. PREREQ: Permission of instructor. S

PHYS g490 ABHP Review 3 credits. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to undergraduate or graduate degrees. May be repeated. May be graded S/U. S

### Department of Political Science

Chair and Professor: Gabardi
Professors: Adler, Anderson, McBeth
Associate Professor: Nilson
Assistant Professors: Lybecker, Newman
Adjunct Faculty: Chambers, Cleverley, Eckert, Phuppen, Stallings, Tingey
Emeriti: Burns, Foster, Hjelmi, Maughan

The study of governments and human beings as decision makers is at once an ancient discipline and one of the most recently developed social sciences. Political inquiry reaches back to the recorded beginnings of human society, for individuals have always been curious about the nature of governments, the bases of authority and personality of leaders, the obligations of followers, and consequences of public policies. Although interest persists in these matters, inquiry has broadened to include scientific observations about politics which utilize relatively new techniques of analysis that are common to many of the social sciences. The newer emphasis is upon systematic procedures of investigation, rigorous standards of proof, comparative analysis and interdisciplinary studies.

Both of these approaches—the traditional and the behavioral—are offered in the undergraduate and graduate levels of study. The curriculum provides background in the theory and practice of politics and techniques of methodological inquiry for the student with general interests. It offers training of a general and specific nature that is useful for persons planning to seek careers in education, the legal profession, state and local government, urban and regional planning, the federal bureaucracy and journalism, or in any of the proliferating quasi-public organizations which seek to monitor the political processes or to influence the content of public policy.

The Department of Political Science offers programs leading to Associate of Science, Bachelor of Arts, Bachelor of Science, Master of Arts, Master of Public Administration, and Doctor of Arts degrees. Within the framework of the Bachelor of Arts and Bachelor of Science programs, students may pursue a major in political science or they may choose an emphasis in pre-law. There is no required or specified curriculum which students who emphasize pre-law are expected to follow. An advisory committee has been created to assist such students in developing a curriculum that reflects their individual needs.

Outcome objectives are related to both student and program development. Student related outcome objectives are listed below:

1. To gain a well-rounded knowledge of the basic fields of the discipline.
2. To develop an understanding of how political scientists think, gather evidence, process data, and reach tentative conclusions.
3. To think critically about political phenomena and thought.
4. To develop effective oral and written communication skills.
5. To engage in problem solving.
6. To be exposed to a rich variety of perspectives and ideas.
7. To prepare for a career or profession after graduation that is related to the political science major. This includes graduate school.

Admission Requirements
1. Completion of a minimum of 24 credit hours with at least a 2.25 GPA.
2. Satisfactory completion of general education Goals 1 (English Composition), 2 (Principles of Speech), and 3 (Mathematics).
3. Completion of both POLS 101 Introduction to American Government and POLS 202 Introduction to Politics (or their equivalents) with at least a C grade in each.
4. A signed agreement between the student and a member of the faculty agreeing to academic advising.

Bachelor of Arts or Bachelor of Science in Political Science

Requirements for the B.A. and B.S. Degrees:
In addition to the general requirements for the B.A. and B.S. degrees, political science majors are required to take the following courses from the “core curriculum”:

POLS 101 Introduction to American Government 3 cr
POLS 202 Introduction to Politics 3 cr
POLS 221 Introduction to International Relations 3 cr
POLS 313 Introduction to Political Philosophy 3 cr
POLS 331 Comparative Politics: Framework for Analysis 3 cr
POLS g401 Political Parties and Interest Groups 3 cr OR
POLS g402 Legislative Process 3 cr OR
POLS g403 The Presidency 3 cr OR
POLS g404 Constitutional Law 3 cr OR
POLS g405 The Legislative Process: American Politics 3 cr OR
POLS g406 Intergovernmental Relations: American Politics 3 cr OR
POLS g407 American Politics 3 cr OR
POLS g408 Metropolitan and Urban Studies: American Politics 3 cr OR
POLS g409 Community and Regional Planning: American Politics 3 cr OR
POLS g411 American Political Theory: Political Philosophy 3 cr OR
POLS g412 Modern Political Analysis: Political Analysis 3 cr OR
POLS g413 Topics in International Relations: American Politics 3 cr OR
POLS g414 American Politics 3 cr OR
POLS g415 Comparative Politics: Change and Political Order: Comparative Government 3 cr OR
POLS g416 General Courses 3 cr OR
POLS g417 American Indian Studies 3 cr OR
POLS g418 American Politics 3 cr OR
POLS g419 Comparative Government 3 cr OR
POLS g420 American Politics 3 cr OR
POLS g421 American Politics 3 cr OR
POLS g422 American Politics 3 cr OR
POLS g423 American Politics 3 cr OR
POLS g424 American Politics 3 cr OR
POLS g425 American Politics 3 cr OR
POLS g426 American Politics 3 cr OR
POLS g427 American Politics 3 cr OR
POLS g428 American Politics 3 cr OR
POLS g429 American Politics 3 cr OR
POLS g430 American Politics 3 cr OR
POLS g431 American Politics 3 cr OR
POLS g432 American Politics 3 cr OR
POLS g433 American Politics 3 cr OR
POLS g434 American Politics 3 cr OR
POLS g435 American Politics 3 cr OR
POLS g436 American Politics 3 cr OR
POLS g437 American Politics 3 cr OR
POLS g438 American Politics 3 cr OR
POLS g439 American Politics 3 cr OR
POLS g440 American Politics 3 cr OR
POLS g441 American Politics 3 cr OR
POLS g442 American Politics 3 cr OR
POLS g443 American Politics 3 cr OR
POLS g444 American Politics 3 cr OR
POLS g445 American Politics 3 cr OR
POLS g446 American Politics 3 cr OR
POLS g447 American Politics 3 cr OR
POLS g448 American Politics 3 cr OR
POLS g449 American Politics 3 cr OR
POLS g450 American Politics 3 cr OR
POLS g451 American Politics 3 cr OR
POLS g452 American Politics 3 cr OR
POLS g453 American Politics 3 cr OR

In addition to the 27 credits from the core curriculum, majors are required to earn a minimum of 12 elective credits selected from any of the courses in the political science curriculum (excluding POLS 459).

Emphasis in Pre-law
Students who desire to complete this emphasis should consult with a pre-law advisor in the Department of Political Science.

Minor in Political Science
Students seeking a minor in political science must complete the following: POLS 101, 202, six credits of core curriculum courses (excluding POLS 460) and six elective political science credits (excluding POLS 459).

Associate of Science in Political Science
Students seeking an Associate of Science degree in Political Science must complete the following:

General Education Goals for Bachelor of Science variable

POLS 101 Introduction to American Government 3 cr
POLS 202 Introduction to Politics 3 cr
POLS 221 Introduction to International Relations 3 cr
POLS 248 Administration of Justice 3 cr
POLS 249 Introduction to Criminal Law 3 cr
POLS 308 State and Local Government: American Politics 3 cr
POLS 313 Introduction to Political Philosophy: Political Theory 3 cr
POLS 326 Recent American Foreign Policy: International Politics 3 cr
POLS 330 Comparative Politics: Framework for Analysis - Comparative Government 3 cr
POLS 350 Special Topics in Political Science: General Courses 3 cr
POLS 397 Workshop: General Courses 3 cr
POLS g401 Political Parties and Interest Groups: American Politics 3 cr
POLS g402 American Politics 3 cr
POLS g403 The Presidency: American Politics 3 cr
POLS g404 The Legislative Process: American Politics 3 cr
POLS g405 The Administrative Process: American Politics 3 cr
POLS g406 Intergovernmental Relations: American Politics 3 cr
POLS g408 Metropolitan and Urban Studies: American Politics 3 cr
POLS g409 Community and Regional Planning: American Politics 3 cr
POLS g411 American Political Theory: Political Theory 3 cr
POLS g412 Modern Political Analysis: Political Analysis 3 cr
POLS g413 Topics in International Relations: American Politics 3 cr
POLS g414 American Politics 3 cr
POLS g415 Comparative Politics: Change and Political Order: Comparative Government 3 cr
POLS g416 General Courses 3 cr
POLS g417 American Indian Studies 3 cr
POLS g418 American Indian Studies 3 cr
POLS g419 Comparative Government 3 cr
POLS g420 American Politics 3 cr
POLS g421 American Politics 3 cr
POLS g422 American Politics 3 cr
POLS g423 American Politics 3 cr
POLS g424 American Politics 3 cr
POLS g425 American Politics 3 cr
POLS g426 American Politics 3 cr
POLS g427 American Politics 3 cr
POLS g428 American Politics 3 cr
POLS g429 American Politics 3 cr
POLS g430 American Politics 3 cr
POLS g431 American Politics 3 cr
POLS g432 American Politics 3 cr
POLS g433 American Politics 3 cr

Political Science Courses

Topics into which courses are grouped:
American Indian Studies
American Politics
Comparative Government
General Courses
International Politics
Introductory Courses
Political Analysis
Political Theory
Public Administration
Public Law

* The number of credits required for the General Education requirements varies depending on the student’s performance on proficiency or placement tests in English, foreign languages, and mathematics.
Course Descriptions, grouped by topic:

Introductory Courses
POLS 202 Introduction to Politics 3 credits. This class is an introduction to the fundamental issues in political science. Examples of topics covered include equality, majority rule, and the fact-value distinction. Required for all students majoring in political science. F

American Indian Studies
POLS 478 Federal Indian Law 3 credits. Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional conflicts over land and resources; and economic development. Cross-listed as ANTH 478. D
POLS 479 Tribal Governments 3 credits. Complex legal position of Indian tribes as self-governing entities; principles of inherent powers; governmental organization, lawmaking, justice, relation to state and federal government. Cross-listed as ANTH 479. D

American Politics
POLS 250 Idaho Politics 3 credits. Historical development and political analysis of Idaho politics from the first settlers to the present. D
POLS 308 State and Local Government 3 credits. Study of the institutions of state and local government in a behavioral context. D
POLS 401 Political Parties and Interest Groups 3 credits. The nature and development of political parties and pressure groups as exemplified in the United States. S
POLS 403 The Presidency 3 credits. Evolution and development of the office of the President; its major responsibilities in domestic and foreign affairs, with emphasis on particular power problems that confront the President. F
POLS 404 The Legislative Process 3 credits. Nature and functions of the U.S. Congress. Topics covered: legislative campaigns, the politics of lawmaking, congressional investigations, and major problems facing the Congress. S
POLS 405 The Administrative Process 3 credits. Analysis of the principles of public administration with an introduction to theories of organization and administration. D
POLS 406 Intergovernmental Relations 3 credits. Analysis of patterns of intergovernmental relations including changing patterns of program and fiscal responsibility in the federal system. The emerging role of new federal structures, state and substate regional organizations will be reviewed in the context of “new” federalism and its implications for intergovernmental relationships. D

Public Administration
POLS 412 Modern Political Analysis 3 credits. Methods of political inquiry and theories and doctrines of politics, with emphasis on modern developments. D
POLS 419 Political Research Methods 3 credits. This class investigates the theory and application of various research methods and statistical techniques common to the social sciences, with particular reference to their use in political inquiry. D
POLS 419L Political Research Methods Laboratory 1 credit. Application of and practice in research methods. D

POLS 414 Administrative Law 3 credits. Introductory survey of the legal principles defining governmental administrative processes. Topics include judicial review, tort liability of governments and offices, rules and rule-making, due process, and the limits of administrative discretion. D
POLS 415 Organizational Theory and Bureaucratic Structure 3 credits. Introduction to the study of complex organizations and organizational behavior in the administration of public policy. Emphasis on public institutions. PREREQ: POLS 405 recommended. D
POLS 416 Financial Administration and Budgeting 3 credits. Emphasis on different approaches to financial administration, ranging from incremental and short-term planning to more recent and comprehensive emphases on management by objectives and zero based budgeting. The development of the Office of Management and Budget and its relationship with the President, Congress and the Federal Bureaucracy will be considered as well as political, organizational and behavioral constraints on budgetary decision-making. D
POLS 418 Public Personnel Administration 3 credits. Operations and processes of personnel management in public institutions. Major topics include personnel processes, public employee rights and duties, employee motivation and morale, the political environment of public personnel administration, and the impact of professionalism, technology, and participatory democracy on public personnel practices. D
POLS 419 Labor Organization 3 credits. Evolution of economic systems and labor’s response to changing patterns of production is studied, and a counter perspective to traditional management views of “efficiency” is presented. Emphasis is on governmental employee unions. D
POLS 420 Grantwriting 3 credits. Steps involved in the grantwriting process from strategic planning, research, and writing to finding appropriate grant sources. D
POLS 421 Public Administration Ethics 3 credits. A course in applied ethics serving to educate students from a theoretical and a practical point of view. The course provides an historical and social perspective of ethics in public administration. D
POLS 422 State and Local Administration 3 credits. Seminar in the practice and principles
of state, municipal, and sub-state management. Emphasis on the evolution of interaction between different branches of sub-national government. S

**Political Theory**

POLS 313 *Introduction to Political Philosophy 3 credits.* Examination of selected writings in political philosophy from the classical, Christian and early modern eras. S

POLS g411 *American Political Theory 3 credits.* Political ideas in the United States from Colonial and Revolutionary times through the controversies of the Civil War to the present. D

POLS g418 *Topics in Political Theory 3 credits.* This course requires examination, analysis and investigation of selected texts and topics in political philosophy. May be repeated for up to 6 credits. D

POLS g420 *Contemporary Political Theory 3 credits.* Recent 20th century political philosophies and theories ranging from democratic, Marxist, and existentialist thought to Critical Theory and postmodernism. D

POLS g421 *Democratic Political Thoughts 3 credits.* Historical and contemporary models of democracy as well as contemporary debates in democratic thought. Democracy is treated as a contested idea. D

**International Politics**

POLS 321 *Introduction to International Relations 3 credits.* Conceptual introduction to international relations, with emphasis on sovereignty, national interest, power, and balance of power. F

POLS 326 *Recent American Foreign Policy 3 credits.* Study of recent American foreign policy focused on the interrelationship of domestic and foreign policies and the problems of formulating foreign policy in a democratic state. D

POLS g425 *Topics in International Politics 3 credits.* This course requires examination, analysis and evaluation of selected topics in international politics. May be repeated for up to 6 credits. D

POLS g434 *Terrorism and Political Violence 3 credits.* A survey of forms of domestic and transnational terrorism, other forms of political violence, and problems of counter-terrorism. D

**Comparative Government**

POLS 331 *Comparative Politics: Framework for Analysis 3 credits.* Introduction to various theoretical approaches to comparative analysis of different cultures and nations, and to other courses in this area of emphasis. F

POLS g342 *Comparative Politics: Change and Political Order 3 credits.* An examination of political change, political order, political culture and the role of revolutionary violence. Change and order in the context of globalization is emphasized. D

POLS g433 *Politics of Developing Nations 3 credits.* Study of problems in the political analysis of rapidly changing and unstable “developing” nation states with an emphasis on problems of the political, economic, and social development of selected states. D

POLS g435 *Topics in National/Regional Studies 3 credits.* Surveys the political, economic, and social issues of a nation or region. May be repeated for up to 6 credits with different content. D

**Public Law**

POLS 248 *Politics and the Administration of Justice 3 credits.* The criminal justice system in the United States will be examined by investigating its component parts: police, court, and correction. In addition, the problem of coordination among these agencies will be explored as will the relationship of the criminal justice network to the larger society. D

POLS 249 *Introduction to Criminal Law 3 credits.* The major categories of criminal liability are studied within the context of American criminal justice. These include crimes against individuals, property, and society. Defenses available to those accused of criminal activity are also discussed. D

POLS g442 *Constitutional Law 3 credits.* Analysis of opinions of the United States Supreme Court concerning the distribution of authority between the national government and the states and the relationship among the branches of the national government. F

POLS g443 *Constitutional Law 3 credits.* Analysis of opinions of the United States Supreme Court with a special emphasis on criminal cases and civil liberties. S

POLS g445 *Jurisprudence 3 credits.* Nature, source, and theories of law; the role of law in modern society; and the application of legal philosophy to the political system. D

POLS g450 *Special Topics in Law 3 credits.* Examine and analyze selected topics in constitutional law and legal philosophy. Topics may include the constitution and foreign affairs, women and the law, law and literature, and law and film. May be repeated for up to 6 credits. D

**General Courses**

POLS 350 *Special Topics in Political Science 3 credits.* Examine and analyze selected topics in politics. May be repeated for up to 6 credits. D

POLS g459 *Government Internship 1-9 credits.* Directed student internship in political science and organizations or associations related to public policy and the selection of public officials involving supervised work experience in research, staff management practices, or making and implementing public policies. The student will be placed in a supervised position commensurate with his/her abilities as determined and approved by faculty in the department. May be repeated for up to 9 credits. Graded S/U. F, S, Su

POLS 460 *Senior Seminar 3 credits.* This seminar is designed to integrate undergraduate academic experience in the major. Students will be required to do research and writing on topics encountered in their undergraduate curriculum. Required of, and open to, senior majors. S

Department of Psychology

Chair and Professor: Turley-Ames
Professors: Cellucci, Hatzenbuehler, Roberts, Vik
Associate Professor: Lynch, Rasmussen, Wong
Assistant Professors: Brumley, Lawyer, Letzring, Pause
Adjunct Faculty: Atkins, Dickey, Heyneman, Larsen, Simonson, Stephens, Tran, Welsh
Emeriti: Enloe, Joe, Matthews, McGee

Psychology is defined as the science of behavior and conscious experience. Its domain ranges from the natural to the social sciences and includes such diverse topics as brain function, sensation and perception, learning and cognition, development, personality, and social behavior. At the undergraduate level, the major emphasizes the role of the liberal arts in higher education and personal development.

Goals for majors in the undergraduate program in psychology are listed below; each goal has associated objectives and competencies.

1. Be informed of the departmental goals and degree requirements for psychology majors,
2. Know about possible careers in and/or related to psychology,
3. Integrate knowledge and theories across, and think critically about, topics within the domains of psychology,
4. Be competent in library information technology and computer applications related to the study of psychology,
5. Be competent in scientific methodology and analysis as they apply to the study of psychology,

6. Communicate effectively, in both oral and written form, about issues within the field of psychology,

7. Have an understanding of the breadth of the field of psychology and its applications,

8. Have knowledge pertaining to individual and cultural differences and their importance in community and public policy decisions,

9. Perceive their undergraduate education and the skills they developed as beneficial in their chosen fields, and

10. Be prepared for post-graduate study.

Beyond the general education goals, psychology students learn critical thinking and problem-solving skills by developing competence in the methods of scientific research, psychometric principles, and data analysis. They integrate and apply the theories and knowledge base from the various domains of psychology and develop a well-rounded view of psychology and its importance in understanding behavior. Psychology promotes an appreciation for individual and cultural differences, as well as ethical principles in decision-making. The study of psychology increases understanding of self and others and enables individuals to make informed judgments that strengthen community and public policy.

The major assists students in developing their skills in library research, scientific writing, public presentations, and computer applications. Psychology students are encouraged to participate in research projects and community practicums. They also become aware of the various career options related to the major. By providing a broad-based education and the aforementioned skills, the major prepares students for entry-level positions in business, government, and a wide range of human service positions. The major also prepares students for graduate education and careers in psychology as well as areas such as law and public service, medicine and health-related professions, business programs emphasizing organizational development and human resources, and seminary.

**Admission**

The requirements for admission to the Psychology major are as follows:

- Successful completion of Goals 1, 2, and 3 (C- or better for Goal 1 and D- or better for Goals 2 and 3)
- Successful completion of PSYC 101 and PSYC 201 (D- or better)
- GPA of 2.0 or better.

**Bachelor of Arts or Bachelor of Science in Psychology**

Majors in the psychology program have as their core the following courses:

- PSYC 101 Introduction to General Psychology 3 cr
- PSYC 201 Careers in Psychology 1 cr
- PSYC 227 Basic Statistics 3 cr
- PSYC 228 Introduction to the Theory of Measurements and Test Construction 3 cr
- PSYC 303 Experimental Psychology 4 cr
- PSYC 431 Physiological Psychology I 3 cr
- PSYC 472 History of Psychology 3 cr
- PSYC 491 Senior Seminar 3 cr

**One of the following courses:**

- PSYC 435 Animal Behavior 3 cr
- OR
- PSYC 445 Psychology of Learning 3 cr

**One of the following courses:**

- PSYC 341 Social Psychology 3 cr
- OR
- PSYC 401 Theories of Personality 3 cr

**One of the following courses:**

- PSYC 404 Sensation and Perception 4 cr
- OR
- PSYC 446 Cognitive Processes 3 cr

**TOTAL: 32 cr**

**Elective Courses**

In addition, the student must take 12 additional credits in psychology; of these must be at the upper-division level. Students who are preparing for graduate study are strongly encouraged to take two of the following as part of their required electives:

- PSYC 404 Sensation and Perception 4 cr
- PSYC 432 Physiological Psychology II 3 cr
- PSYC 446 Cognitive Processes 3 cr

**Minor in Psychology**

- PSYC 101 Introduction to General Psychology 3 cr
- PSYC 227 Basic Statistics 3 cr
- PSYC 228 Introduction to the Theory of Measurements and Test Construction 3 cr
- PSYC 303 Experimental Psychology 4 cr
- PSYC 310 Applied Techniques 4 cr

**TOTAL: 13 cr**

In addition, the student must take 9 additional elective credits in psychology.

**Psychology Courses**

PSYC 101 satisfies Goal 12 of the General Education Requirements. PSYC 101 or PERMISSION OF THE INSTRUCTOR is a prerequisite of all upper-division courses in psychology.

PSYC 101 Introduction to General Psychology 3 credits. Brief history of the science of psychology and study of human behavior and mental processes. Discusses biological, cognitive, and social bases of behavior. Satisfies Goal 12 of the General Education Requirements. F, S

PSYC 200 Child Abuse 3 credits. Investigation into the psychological and social factors which contribute to child abuse and neglect, and to their identification, treatment, and prevention. D

PSYC 201 Careers in Psychology 1 credit. Provides psychology majors with the information and skills necessary to be successful and to pursue a career in psychology or a related field. F, S

PSYC 205 Human Sexuality 3 credits. The psychological, biological, and sociological aspects of human sexuality. Emphasis on gender identity, the human reproductive system, human sexual expressions, and sexual problems in males and females. D

PSYC 211 Personality and Adjustment 3 credits. The lifelong development of personality and the search for self-realization will be emphasized. Opportunities and crises common at various periods will be discussed. PREREQ: PSYC 101. D

PSYC 225 Child Development 3 credits. Study of development from conception through adolescence. Considers typical changes within the biological, cognitive, and socioemotional domains and the influence of contexts (e.g., family, peers, school, culture) within each area. F, S

PSYC 227 Basic Statistics 3 credits. Consideration of statistical techniques and methods used in psychological investigations in terms of derivation, application, and limitation. PREREQ: MATH 253 or permission of instructor. F, S

PSYC 228 Introduction to the Theory of Measurement and Test Construction 3 credits. Brief history and survey of the development of psychological test instruments and an introduction to the theory and mechanisms of test construction. PREREQ: PSYC 227. F, S

PSYC 250 Female and Male Roles 3 credits. Examines the biological and social factors involved in the present-day conceptions of male and female and the relations between the sexes. D

PSYC 301 Abnormal Psychology 3 credits. The role of biological, psychological and sociological factors in the development of abnormal behavior of a functional nature. Neuroses, character disorders, functional psychosis, behavior disorders of childhood, and maladaptive groups. Explanatory and predictive value of several models of psychopathology. PREREQ: PSYC 101. F, S

PSYC 302 Abnormal Psychology II 3 credits. Alcoholism and drug dependence, psychosomatic disorders, organic brain syndromes, and mental retardation. Contemporary approaches to assessment and treatment of abnormal behavior,
including a survey of psychotherapeutic methods. 
PREREQ: PSYC 301. D

PSYC 303 Experimental Psychology 4 credits. Introduction to the methods of psychological research. Students will be required to perform experiments. PREREQ: PSYC 227 and PSYC 228. F, S

PSYC 305 Psychology of Consciousness 3 credits. This course presents the principle concepts, theories, and research regarding the nature of consciousness and its various states. Topics may include the human sleep-wake cycle, dreaming, time phenomenology, psychotropic drug effects, hypnosis, meditation, biofeedback, and intuition. D

PSYC 310 Applied Techniques 2 credits. Acquaints students with techniques in selected areas of applied psychology, such as stress management, animal training, human factors, behavior modification, etc. May be repeated for up to 6 credits. PREREQ: PSYC 101. S

PSYC 332 Psychology of Adolescence 3 credits. Critical review of work related to the psychological, cognitive, and emotional development of the adolescent personality. General concepts relating to specific characteristics of adolescent behavior will be developed. PREREQ: PSYC 101 or permission of instructor. D

PSYC 341 Social Psychology 3 credits. Study of the impact of social and cultural forces upon the individual and of the interaction between individuals producing social phenomena. PREREQ: PSYC 101. F

PSYC 344 Adult Development and Aging 3 credits. Study of development across adulthood, emphasizing late adulthood to death. Considers biological, social, and cognitive domains of development and contexts of change. PREREQ: PSYC 101 or permission of instructor. AF

PSYC 369 AIDS 1 credit. This survey course provides an overview of AIDS from biomedical, psychological, and sociological perspectives. The intrusive nature of this epidemic into all aspects of our lives is emphasized. No science background is required. Graded S/U. D

PSYC 401 Theories of Personality 3 credits. Detailed study of the leading theories of personality with emphasis on the Freudian, Neo-Freudian, humanistic and existential theories. PREREQ: PSYC 225 or PSYC 301. S

PSYC 404 Sensation and Perception 4 credits. The anatomical and physiological bases of sensation will be reviewed. Moreover, traditional and contemporary theories of perception will be critically considered. Students will be expected to do laboratory work illustrating basic concepts of sensory and perceptual functions. PREREQ: PSYC 303 and PSYC 431. AF

PSYC 408 Science, Pseudoscience, and Psychology 3 credits. Critical evaluation of fringe-science, paranormal, and other unproven claims. Introduction to the psychological processes underlying pseudo-scientific thinking and beliefs. D

PSYC 412 Ethical and Professional Issues in Psychology 2 credits. Topics include informed consent, confidentiality, deception, duty to protect, competency, malpractice, dual and collegial relationships, and impaired professionals in research and practice. PREREQ: 24 credits in psychology or permission of instructor. F

PSYC 423 Community Practicum 1-2 credits. Students work regional agencies by observing or participating in professional activities under appropriate supervision. Four hours per week per credit. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, Su

PSYC 425 Psychology Clinic Practicum 1-2 credits. Undergraduates observe and assist graduate students and faculty in the delivery of psychological services. Four hours per week per credit. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, Su

PSYC 431 Physiological Psychology I 3 credits. Introduction to neuropsychology with an emphasis on methods, basic neuroanatomy, and neurophysiology. PREREQ: PSYC 303. F

PSYC 432 Physiological Psychology II 3 credits. Survey of the physiological bases of psychological processes, including learning, emotion, motivation, sensation, and perception. Emphasizes current research and theory concerning brain mechanisms and behavior. PREREQ: PSYC 431 or permission of instructor. AS

PSYC 435 Animal Behavior 3 credits. Study of experiments in animal learning which relate to our understanding of human learning. Course is concerned with both observation and experimental studies of habit formation, conditioning, related endocrinology, and nerve structure as they are associated with behavior capabilities. PREREQ: Six hours in Psychology beyond PSYC 101 or permission of instructor. AS

PSYC 443 Advanced Social Psychology 3 credits. In-depth study of current theory, issues and research in the field of social psychology. Emphasis is on newly emerging research areas such as nonverbal communication; human uses of space; development of moral and ethical values; helping behavior; and compliance and obedience research. PREREQ: PSYC 303 and PSYC 341 or permission of instructor. D

PSYC 445 Psychology of Learning 3 credits. Survey of the major principles of learning. Including the processes underlying classical and instrumental conditioning and motor behavior. PREREQ: Permission of instructor. F

PSYC 446 Cognitive Processes 3 credits. A survey of the major and current concepts, theories, and research in cognitive psychology. Areas of emphasis include attention, memory, information processing, mental imagery, decision-making, and problem solving. PREREQ: PSYC 303. S

PSYC 451 Clinical Psychology 3 credits. Surveys the field of clinical psychology; with emphasis on past and present status, diagnosis, assessment, critical topics related to intervention, the clinical psychologist’s professional role, and student training. PREREQ: PSYC 301. D

PSYC 453 Theory and Method of Psychosocial Child Therapy 3 credits. Review of the psychopathology, diagnosis, and treatment of the major psychosocial disorders of childhood. PREREQ: PSYC 225 or CFS 302 or permission of instructor. S

PSYC 463 Clinical Psychology and the Law 3 credits. An introduction to the field of forensic psychology by exposing students to the major areas in which clinical psychology relates to the legal system. Emphasis will be on expert testimony by clinicians in matters of criminal responsibility, mental competency, civil commitment, and child custody. D

PSYC 464 Dilemmas of Youth 3 credits. This course surveys theory and research concerned with dilemmas of identity formation. Personal accounts, literature—classical and psychological—will serve to illustrate dilemmas and explain their resolutions. D

PSYC 465 Behavioral Medicine 3 credits. Psychological issues of health, disease states, and prevention. Critical evaluation of clinical research and practice, including nontraditional healing techniques and current models used to understand health and disease. PREREQ: PSYC 101 or permission of instructor. D

PSYC 467 Topics in Psychology 1-3 credits. Selected topics in psychology. Contents vary. May be repeated with different content and departmental approval. PREREQ: Permission of instructor. D

PSYC 472 History of Psychology 3 credits. Modern psychology in historical perspective. Genesis and development of fundamental problems and methods, with emphasis on specific fields of research. PREREQ: Fifteen hours in Psychology beyond PSYC 101 PSYC 101 or permission of instructor. F, S

PSYC 483 Special Problems 1-3 credits. Research or readings in a special area of interest to be arranged on an individual basis with individual faculty. May be repeated for up to 6 credits. PREREQ: 24 hours in Psychology. D

PSYC 491 Senior Seminar 3 credits. Library, field, or experimental research in an area selected by the instructor, including oral and written presentation of results. PREREQ: 90 credits and PSYC 303. Graded S/U. F, S

PSYC 497 Workshop 1-2 credits. Workshops aimed at the development and improvement of skills. Does not satisfy requirements for a major or a minor. May be repeated. Graded S/U. D
The Department of Sociology, Social Work and Criminal Justice offers courses leading to the Associate of Arts degree in criminal justice, the Bachelor of Arts degree in sociology or social work, and the Master of Arts degrees in sociology. For a full description of the M.A. degrees, refer to the Graduate Catalog.

Outcome Objectives
The objectives of the Sociology program are:
1. To gain a well-rounded knowledge of the fields of the discipline.
2. To develop an understanding of how sociologists think, gather information, process data and reach tentative conclusions.
3. To sort out trends in social data.
4. To assist in conflict resolution between groups of people in society.
5. To engage in problem solving based on varying patterns of behavior of diverse groups.
6. To be exposed to a rich variety of perspectives and ideas.
7. To prepare for a career after graduation that is related to the sociology major.

The objectives of the social work program are:
1. Preparation of students for beginning generalist social work practice with individuals, families, small groups, organizations and communities.
2. Preparation of students to develop an identity which will incorporate the values, principles and ethics of the social work profession.
3. Preparation of students as beginning social work generalists who link social research and social work practice.
4. Preparation of students for lifelong learning and critical thinking through an educational process combining a liberal arts foundation and professional foundation.
5. Preparation of students to work with diverse, vulnerable, oppressed and disadvantaged populations.

As a graduate of the program, the student is eligible to apply for licensure as a social worker to the State of Idaho. Many excellent career opportunities for social workers are available in the areas of family and children’s services, adult and juvenile corrections, healthcare, community mental health and services for senior citizens.

Bachelor of Arts in Sociology
Sociology deals with social institutions, activities, and patterns of behavior of diverse groups. The challenge for sociologists is to sort out trends and to find ways to resolve the conflicts between groups of people. The sociology major provides students with background in the basic theoretical, research, and substantive areas of the discipline. The field of sociology leads to an understanding of the social forces impinging upon one’s life and can lead to careers in many diverse settings.

Required Courses for Graduation
The following courses representing the core of the discipline are required. Sociology majors must attain a grade of “C” or better in all required and elective courses.

- **SOC 101** Introduction to Sociology 3 cr
- **SOC 206** Sociological Methods 3 cr
- **SOC 207** Social Statistics 3 cr
- **SOC 301** Classical Social Theory 3 cr
- **SOC g403** Contemporary Sociological Theory 3 cr
- **SOC g462** Social Stratification 3 cr

**TOTAL: 18 cr**

Elective Courses
In addition to the required courses, students are expected to complete 18 credit hours from any of the remaining courses in the Sociology curriculum excluding SOC g482. Fifteen of the elective credit hours must be upper division.

Minor in Sociology

**TOTAL: 12 cr**

**Eelective Courses (9 credits)**
With the approval of a Department of Sociology faculty member, the student shall select nine credit hours from any of the electives listed for the sociology major.

Bachelor of Arts in Social Work
The Social Work Program is accredited by the Council on Social Work Education at the Baccalaureate level. As such it provides students with a generalist framework for beginning professional social work practice. Social workers help individuals, families, groups, and communities meet basic human needs and enhance the quality of life.

**General Education Requirements**

Students pursuing the Bachelor of Arts in Social Work must complete Goals 1-9, Goals 10A and 10B and Goals 11-12. Certain goals may be met using Social Work Program requirements; for example:

- **Goal 3:** MATH 108 (Intermediate Algebra) and MATH 253 (Introduction to Statistics);
- **Goal 4:** BIOL 100 (Concepts Biology: General Psychology).

Upper division courses are those numbered 300-400. Social Work students must attain a C or better grade in departmental and social work requirements.

Social Work Electives Include:
- SOWK 482 Independent Problems 6 cr
- SOWK 485 Grieving 3 cr
- SOWK 486 Family Issues in Social Work 3 cr
- SOWK 499 Seminar* 3 cr
*May be repeated, with different content, up to 9 credits

Admission to the Social Work Program

Application for admission to the Social Work Program is required of all students desiring to progress toward a social work major. Admission to the Social Work Program is competitive. Students may apply to the major at the completion of the sophomore year and after completing SOWK 271 and SOWK 272. Students will be evaluated using grades in pre-professional courses and overall grade point average. A minimum grade point average of 2.5 is required.

The following criteria must be met for an applicant to be eligible for consideration for admission to the social work major:
1. Completion of a minimum of 61 credit hours with a minimum GPA of 2.5 for the semester at the time of application.
2. Completion of the following goals and departmental requirements: Goals 1, 3, 4, 11 and 12, SOC 248, SOWK 271 and SOWK 272 with a minimum grade of “C” in each course.
3. Maintenance of the 2.5 minimum GPA from the time of application until the semester of admission to the major.
4. Completion of the Application for admission to Social Work Major along with a $30 application fee, submitted to the Social Work Admissions Committee with a 3-5 page (typed and double-spaced) statement explaining why you would like to be a social worker and why you might be a good fit for the Social Work Program at Idaho State University (you may want to consider your life experiences, educational background, specific personal skills, commitment to the social work profession, job history, and any other relevant information), and an unofficial copy of your transcript.
5. Students must have a background check performed by the Public Safety Office at Idaho State University (call (208) 282-2515). The cost to the student is approximately $50. The criminal history check must be “in progress” or completed before application is submitted. A background check conducted by the Department of Health & Welfare within six months of application to the Social work program is acceptable. Senior practicum agencies may require an additional background check. For further information, please refer to the Faculty/StaffHandbook at http://www.isu.edu/fs-handbook/part6/6.4/6_4o.html.
6. Completion of a Declaration of Major form.

Application Deadline

The above admission materials must be completed and submitted to the Department of Social Work prior to February 15 for full semester admission, and prior to October 1 for Spring semester admission.

The Social Work Program does not grant credit for previous life experience.

All social work majors are required to meet the above standards before they may enroll in upper division social work courses (those numbered 300 and above). Pre-social work students enrolled in upper division courses without admission to the major will be withdrawn until major admission requirements have been met.

Admission to 400 Level Courses

Admission to the senior field courses (SOWK 476-477) is contingent upon completion of the following:
- Completion of SOWK 308, SOWK 317, SOWK 372, SOWK 373, and SOC 207 with a minimum GPA of 2.5.
- Maintenance of GPA to senior year at the 2.5 level.
- Submission of form applying for senior field experience.
- Interview by program senior field placement committee prior to notification of field agencies.

Associate of Arts in Criminal Justice

This two-year degree program provides two career goal options. Option A, Law Enforcement, is for those who are, or are seeking to be, law enforcement officers. Option B, Female Corrections, is for those interested in a career working in correctional institutions and agencies which serve female offenders. Graduates from either option of this program will have fulfilled the majority of the General Education Requirements applicable to a four-year degree.

Option A, Law Enforcement, recognizes that many law enforcement agencies encourage or require personnel to obtain a higher education in order to better meet increased demands to perform more effectively in the face of complex legal, social, political and economic situations. For admission into Option A, a person must have been admitted as a student in the College of Arts and Sciences at Idaho State University and must immediately contact the Criminal Justice Program Advisors to declare a major.

Option B, Female Corrections, provides an academic background specifically directed at issues associated with correctional approaches toward female offenders. This program is based on the premise that correctional workers should truly be able to provide corrective assistance in mathematics, English, and the various sciences in addition to fulfilling the more traditional custodial tasks. Admission into Option B requires three letters of reference, a minimum of 3.0 GPA, and a formal interview with the Criminal Justice Advisors prior to the declaration of a major.

Required Courses

I. General Education Requirements (45 credits minimum), as listed in the catalog excepting as specified for Goals 10A, 10B, 11, and 12 provided below.

Goal 10A
- ANTH 238 Peoples and Cultures of the New World 3 cr

Goal 10B
- SPAN 101-102 Elementary Spanish 8 cr
OR
- Satisfactory completion of a language proficiency examination.

Goal 11
- POLS 101 Introduction to American Government 3 cr

Goal 12
- SOC 102 Social Problems 3 cr
* Or approved substitutes

II. Social Science Requirements (24 credits)

Option A — Law Enforcement
- POLS 248* Politics and the Administration of Justice 3 cr
- POLS 249 Introduction to Criminal Law 3 cr
SOC 101 Introduction to Sociology 3 credits.
Introduction to the scientific point of view in the study of group life, social institutions, and processes. Satisfies Goal 12 of the General Education Requirements. F, S

SOC 102 Social Problems 3 credits. Theoretical analyses and application of research to selected social issues and social institutions such as politics, economics, education, medicine, families, the military, crime and corrections, religion and related major social forces. Satisfies Goal 12 of the General Education Requirements. F, S

SOC 206 Sociological Methods 3 credits. Introduces the principles and procedures of scientific research and includes a variety of strategies and tools for studying social phenomena. F

SOC 207 Social Statistics 3 credits. A survey of statistical techniques focusing on descriptive statistics, hypothesis testing and correlations. Students work in computer labs and use SPSS-PC to produce descriptive and summary statistics for large data sets. PREREQ: MATH 253. S

SOC 231 Juvenile Delinquency 3 credits. Theories of delinquency, criminal behavior, and law enforcement in relation to the modern social institutions in American culture. PREREQ: SOC 101 or SOC 102. F, S

SOC 238 Local and National Minorities 3 credits. An examination of the social institutions and impact of family interaction dynamics. Cross-listed as CFS 321. PREREQ: SOC 101 or permission of instructor. F

SOC 248 Social Diversity 3 credits. Examines selected theories and research concerning how race, class, gender and ethnicity intersect in and affect the lives and cultures of the peoples in the United States historically and in contemporary society. S

SOC 250 Women, Crime and Corrections 3 credits. Analysis of theories and research applicable to women's involvement in crime, correctional centers and in professional roles in the criminal justice system. PREREQ: SOC 102. S

SOC 295 Criminal Justice Internship 1-4 credits. Required reading assignments and daily journal to be completed. Maximum of four credits per semester. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, Su

SOC 301 Classical Social Theory 3 credits. A survey of the foundation of sociological thought from the Enlightenment to 1945. The focus is on the recurring themes in sociology and the importance of classical theory to understanding contemporary sociological theory and current social issues. PREREQ: SOC 101. F, S

SOC 321 Families in American Society 3 credits. American families in social-historical contexts. Contemporary issues confronting families as social institutions and impact of family interaction dynamics. Cross-listed as CFS 321. PREREQ: SOC 101 or permission of instructor. F

SOC 330 Sociology of Health and Illness 3 credits. Sociological examination of health and illness including historical and cultural variations, health care and physician-patient issues. S

SOC 335 Population and Environment 3 credits. The scientific study of population and its environmental consequences. AF

SOC 366 The Community 3 credits. Examines selected theories of community origins, characteristics, structures, boundaries, and change. Analyze methods of studying various aspects of communities. PREREQ: SOC 101. F

SOC 368 The Sociology of Religion 3 credits. Contemporary issues as they relate to religion. The relationship of religion to other social institutions. Religious experience and mysticism, Prophecy and its routinization. Cults and religious dissent. PREREQ: SOC 101. F

SOC 403 Contemporary Sociological Theory 3 credits. Survey and appraisal of sociological theories since 1945: structural functionalism, rational choice, conflict, symbolic interactionism, and phenomenology. PREREQ: SOC 301. S

SOC 408 Advanced Sociological Methods 3 credits. Emphasizes advanced techniques in research design, data measurement, and multivariate analysis utilizing computer application. PREREQ: SOC 206 and SOC 207. AS

SOC 413 Mind, Body and Society 3 credits. Symbolic interaction and its relation to selfhood, sympathy, illness, sexuality, and addiction; and to groupings like enemies, communities, and associations. PREREQ: SOC 101. F

SOC 431 Criminology 3 credits. Analysis of criminal law, law enforcement, judicial roles and processes, correctional approaches, the criminal offender and societal reactions. Theory and research as applicable to behavior and institutional relations. PREREQ: SOC 101 or SOC 102. S

SOC 462 Social Stratification 3 credits. Theories and methodology of status systems; the relation of class to the social structure; analysis of class in different societies, with emphasis upon the class system and power. PREREQ: SOC 101 or permission of instructor. S

SOC 467 Community Networking: Cultivating the Sociological Imagination 3 credits. Advanced study of the sociology of community through readings, class discussions, lectures, and a community networking internship. S

SOC 482 Sociology Internship 1-3 credits. Apply sociological principles in such ways as assisting the supervising professor with a lower-level course, conducting study groups, or small group instruction. Credits not applicable toward the major. May be repeated for up to 6 credits. PREREQ: Permission of instructor; advanced junior status; minimum of 12 hours and 3.0 GPA in Sociology. D

SOC 483 Independent Problems in Sociology 1-4 credits. Readings, observations, applied work, or data analysis in content area not offered in our curriculum. May be repeated for up to 6 credits. PREREQ: Permission of the instructor; advanced junior status; minimum of 12 hours and 3.0 GPA in Sociology. D

SOC 491 Topics in Sociology 3 credits. Readings, discussion, and preparation of reports on selected topics. May be repeated for up to 9 credits with different content. D

Social Work Courses

SOWK 271 Introduction to Social Work 3 credits. Introduction to social welfare institutions, social work profession, practice approaches, occupational contexts, and historical development of social welfare. Designed for students considering a career in social work or related fields. F, S

SOWK 272 Human Behavior and the Social Environment 3 credits. Survey of human development from conception through adulthood. Focus is on the social context within which the bi-psycho-social development occurs using systems theory as a framework. F, S

SOWK 308 Social Work Research 3 credits. Basic elements of the scientific method and research on human behavior. Examination of various research designs and techniques utilized in the field. PREREQ: Admission to Social Work major. F

SOWK 371 Social Welfare Policy 3 credits. Social policies are created as society’s strategy...
for addressing social problems such as unemployment, poverty, mental illness. Programs and policies are re-examined to understand strengths and weaknesses. PREREQ: Admission to Social Work major.

SOWK 372 Practice with Individuals and Families 3 credits. Presents generic base of skills utilizing systems theory. Interviewing methods, problem identification, assessment, treatment planning, implementation and evaluation are examined in use with families and individuals. PREREQ: Admission to Social Work major.

SOWK 476 Social Work Field Practicum I 6 credits. Field experience in a social service agency under direct supervision of licensed social worker. Minimum of 200 hours of field instruction and weekly seminar. PREREQ: Permission of Department. COREQ: SOWK 498.

SOWK 477 Social Work Field Practicum II 6 credits. Field experience in a social service agency under direct supervision of licensed social worker. Minimum of 200 hours of field instruction and weekly seminar. PREREQ: Permission of Department. COREQ: SOWK 498.

SOWK 482 Independent Problems 1-6 credits. Consultation course. May be repeated for up to 6 credits. PREREQ: 12 credits in Social Work and permission of instructor.

SOWK 485 Grieving 3 credits. Preparation for working with grieving clients. Philosophical, cultural, medical, and psychological aspects of grieving.

SOWK 491 Seminar 3 credits. Reading, discussion, and preparation of reports on selected topics. May be repeated for up to 9 credits with different content. PREREQ: Permission of instructor.

SOWK 494 Community Organization and Social Change 3 credits. Practice skills related to understanding and working in the community. Focus is on social action and social change. PREREQ: Senior level in Social Work major.

SOWK 498 Integration of Social Work Methods 3 credits. Integration of advanced skills and theory involved in working with individuals, families, groups, and communities. Focus on work with poor, elderly, minorities, and women. PREREQ: Senior level in Social Work major. PREREQ OR COREQ: SOWK 476 or SOWK 477.

**Department of Theatre and Dance**

Chair and Professor: Dienstfrey Professor: Schroeder Associate Professors: Harwood, Johnson Assistant Professor: Gross Visiting Faculty: Vissers Lecturers: Underwood, Zimmerly Assistant Lecturers: Jorgensen, Romine

The Department of Theatre and Dance administers a Minor in Dance, a Bachelor of Arts or Bachelor of Science degree in Theatre, a Bachelor of Fine Arts degree in Theatre, and a variety of minors in Theatre.

**Minor in Dance**

The Dance minor may be taken by any Idaho State University student. Courses are especially designed to meet the needs of students involved in the performing arts, liberal arts, and education, as well as private dance studio teachers and those interested in pursuing professional careers in dance. There are two Minor Emphases in Dance—one in Performance and Choreography and one in Dance Education. Students pursuing a Minor in Dance with either Emphasis should be enrolled in a dance technique class every semester. See also the list of courses recommended for students minoring in Dance.

**Performance and Choreography Emphasis**

**College of Arts and Sciences**

**Dance Courses (DANC Prefix)**

DANC 100 Ballet I 2 credits. Beginning barre, center floor, and movement combinations. Phrase material learned in class is performed for class members and for an end of semester informal presentation. Students are required to attend live performances and view dance video work outside of class. May be repeated for up to 4 credits. F, S

DANC 105 Survey of Dance 3 credits. Historical development of dance cross-culturally from early to modern times. A study of language,
literate and forms of dance through readings, demonstrations, and performances. Relationship of dance to the fine arts and other disciplines. Satisfies Goal 6 of the General Education Requirements. F, S, Su

DANC 120 Jazz Dance 1 2 credits. Techniques taught at beginning level including skills from ballet, modern dance, and tap. Phrase material created in class is performed for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 4 credits. F, S

DANC 130 Modern Dance 1 2 credits. Modern technique taught at beginning level including warmups, strength and flexibility development, and phrase material. Students create material to present for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 4 credits. F, S

DANC 200 Ballet II 2 credits. Intermediate barre, center floor, and movement combinations. Phrase material created in class are performed for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 8 credits. F, S

DANC 205 History of Modern Dance 3 credits. A survey of modern dance from the era of Isadora Duncan to the present in both the United States and Europe. This course connects historical world events to the world of dance art through readings, films, demonstrations, and live performances. PREREQ: At least Sophomore standing. Satisfies Goal 6 of the General Education Requirements. F

DANC 210 Dance Composition I 3 credits. Explore various techniques and processes used to create movement studies and choreographic work at the beginning level. Students explore improvisational processes and design and present choreography created for individuals and groups. PREREQ DANC 120, DANC 230, or DANC 330, or permission of instructor. S

DANC 220 Jazz Dance II 2 credits. Techniques taught at intermediate level including skills from ballet, modern dance, and tap. Phrase material created in class is performed for end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 8 credits. PREREQ: DANC 120 or equivalent. F

DANC 230 Modern Dance II 2 credits. Modern technique taught at intermediate level including warmups, strength and flexibility development, and phrase material. Students create material to present for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 8 credits. PREREQ: DANC 130 or equivalent. F

DANC 260 Methods of Dance for Children 3 credits. Study of a variety of dance activities suitable for early childhood through grade 6. Students plan and teach dance to children. Interdisciplinary approaches to incorporate dance into an educational setting are used. F

DANC 270 Dance Performance 1-2 credits. A student performing group. Designed to assist students in developing skills necessary to create and produce lecture/demonstrations for schools and concerts. Various dance forms are used. May be repeated for up to 8 credits. COREQ: DANC 130 or DANC 230 or DANC 330. F

DANC 280 Dance Production 1-2 credits. Students design and participate in producing a formal dance production. Opportunities to choreograph, perform, and assist in costuming, lighting, set decoration. May be repeated for up to 8 credits. COREQ: DANC 130 or DANC 230 or DANC 330. S

DANC 290 Contact Improvisation, 2 credits. Beginning techniques of contact improvisation including focus on momentum, flow, gravity, and partnering skills. Students create improvisational scores to present for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 4 credits. AS

DANC 300 Ballet III 2 credits. Advanced barre, center floor, and movement combinations. Phrase material created in class is performed for end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. Pointe work optional based on instructor and students. May be repeated for up to 8 credits. R1

DANC 310 Dance Composition II 3 credits. Explore various techniques and processes used to create movement studies and choreographic work at an intermediate level. Students continue to explore improvisational processes that emphasize space, time and energy. Students present their work in a concert at the end of the semester. PREREQ: DANC 210. F

DANC 320 Jazz Dance III 2 credits. Techniques taught at intermediate level including skills from ballet, modern dance, and tap. Phrase material created in class is performed for end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 8 credits. PREREQ: DANC 230 or equivalent. F

DANC 330 Modern Dance III 2 credits. Modern technique taught at the advanced level including warmups, strength and flexibility development, and phrase material. Students create material to present for an end of semester informal presentation. Students are also required to attend live performances and view dance video work outside of class. May be repeated for up to 8 credits. PREREQ: DANC 230 or equivalent. S

DANC 390 Workshop: Cultural Forms I-2 credits. Workshops aimed at the development and breadth of dance skills cross-culturally. May be repeated for up to 6 credits with different titles. F, S

DANC 401 Issues in Dance 3 credits. A study of current issues and trends in dance. Typical topics include philosophical issues, aesthetics, representations, research, and political approaches to dance of various forms and from various cultures. S

DANC 460 Dance Teaching Methods and Curriculum Design 3 credits. Study of curricular designs, methods, materials utilized in teaching dance in schools. Practical experience in teaching others. Develop basic skills in a variety of dance forms such as creative, folk, square. F

DANC 485 Independent Study in Dance 1-3 credits. Individual work under the direction of a dance faculty member. Field and/or library study on specific dance related topics of interest to students who want further studies in dance. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, Su

Dance Activity Courses (DAAC Prefix)

DAAC 110 Ballroom Dance I 1 credit. Beginning techniques in two-step, Fox Trot, Waltz, Polka, Cha Cha Cha, Swing, and others. Taught at beginning skill level along with partnering, appropriate dress, proper etiquette. Informal performance opportunities available. F, S

DAAC 111 Ballroom Dance II 1 credit. Intermediate techniques in two-step, Fox Trot, Waltz, Polka, Cha Cha Cha, Swing, and others. Taught at intermediate skill level along with partnering, appropriate dress, proper etiquette. Informal performance opportunities available. PREREQ: DAAC 110 or equivalent. F, S

DAAC 115 Ballroom Dance Performance 1 credit. Advanced ballroom dance students learn to choreograph and perform a “Couples’” dance routine; learn how to select music, costumes, and stage individual performances. PREREQ: Permission of instructor. F, S

DAAC 140 Tap and Clog Dance I 1 credit. Techniques and combinations taught at beginning level. Patterns taught by instructor and created by students are performed for class members and end of semester informal presentation. F

DAAC 141 Tap and Clog Dance II 1 credit. Techniques and combinations taught at intermediate level. Patterns taught by instructor and created by students are performed for class members and end of semester informal presentation. PREREQ: DAAC 140 or equivalent. S

DAAC 150 Folk and Square Dance I 1 credit. Steps/combinations taught at various skill levels. Folk dances from around the world, square dances from America are included. Informal performance at end of semester. D

DAAC 151 Folk and Square Dance II 1 credit. Steps/combinations taught at various skill levels. Folk dances from around the world, square dances from America are included. Informal performance at end of semester. PREREQ: DAAC 150 or equivalent. D

DAAC 160 Recreational Dance I 1 credit. Recreational dance forms such as line dance, country western, mixers, and round dances will be taught in a social setting. Partners not required. D
Theatre Program

The primary objectives related to the undergraduate Theatre programs (B.A., B.S., and B.F.A.) are to help all students obtain a level of achievement appropriate to entry-level professionals in their specialty areas:

1. Knowledge of theatre as a social and aesthetic experience.
2. Knowledge of the history of the theatre and related dramatic literature.
3. Competence in basic acting and directing skills.
5. Competence in study skills.
6. Competence in research skills.
7. Competence in thinking clearly, logically, and independently.
8. Ability to effectively communicate and work within a collaborative art.

The theatre curriculum is designed to provide not only a humanistic awareness of our history and civilization through a study of dramatic literature and theatre history, but also to allow the student to pursue courses of study which develop skills and techniques applicable to the production of plays and other theatrical media. A balance between theoretical and practical courses is offered in several degree programs. A theatre program can lead to careers in such varying areas as theatre, television, film, education, journalism, public relations, personnel work, sales, insurance, government, and law.

performance. Prose, poetry and dramatic literature will be investigated. S
THEA 131 Voice and Diction 2 credits. Performance-based course focusing on basic breathing, tone, diction, and other aspects of speech for stage. Students will demonstrate acquisition of these skills through lab performances. F
THEA 191 Theatre Production 1 credit. Supervised work in theatre production. Enrollment must be approved by a theatre faculty member and does not presume casting in a given production. THEA 191-192, 391-392 may be repeated for up to 8 credits as speech and theatre activity. F
THEA 192 Theatre Production 1 credit. Supervised work in theatre production. Enrollment must be approved by a theatre faculty member and does not presume casting in a given production. THEA 191-192, 391-392 may be repeated for up to 8 credits as speech and theatre activity. S
THEA 209 Stage Lighting 2 credits. Theory and practice of lighting applied to various types of stage production. Includes operation of switchboard and participation on light crews. PREREQ: THEA 111. S
THEA 211 Drafting 2 credits. Class explores mechanical drafting needs in the performing arts with special emphasis on scene and lighting design. Class offers an in-depth look at manual drafting and extension toward computer-aided drawings. D
THEA 214 Makeup 2 credits. Laboratory sessions on the technique of makeup. Includes participation on crews of university productions. F
THEA 218 Stage Dialects 2 credits. A practical course in the production of commonly used stage dialects. Students study the international phonetic alphabet (IPA), and train in dialect development techniques. PREREQ: THEA 131. D
THEA 221 Stage Costume Construction 2 credits. Methods of assembling stage costumes. Use of various fabrics and materials will be emphasized. F
THEA 2251 Beginning Acting 3 credits. Exercises in awareness, concentration, relaxation, imagination, and character interrelationships. Includes improvisation and some scene work. F, S
THEA 252 Intermediate Acting 3 credits. Creating a character. Emphasis on movement, gesture, scene analysis, and performance. PREREQ: THEA 251, or permission of instructor. S
THEA 300 Theatre Movement Workshop 1-2 credits. Intensive physical movement workshop for the actor. Explore movement frequently used in theatrical work, such as mask work, tumbling, period movement, and stage combat. The class will improve the student’s strength and flexibility. R2
THEA 301 Theatre Voice Workshop 1-2 credits. Intensive vocal workshop for the actor, resulting in an understanding of phonetics using the International Phonetic Alphabet. The class will correct regional and other speech deficiencies, and aid the student in attaining a clear, articulate, and standardized American Speech for the stage. R2
THEA 302 Beginning Costume Materials Workshop 1-2 credits. Beginning costume materials, including millinery, jewelry, and mask making. R2
THEA 303 Advanced Costume Materials Workshop 1-2 credits. Experimentation with several types of fabric dye and fabric modification, such as stenciling, screen painting, batik methods, Devoe, and piping. R2
THEA 304 Theatre Management 2 credits. Consideration of administrative aspects of play production with emphasis on stage management, theatre management, publicity, and advertising. S
THEA 311 Introduction to Scene Design 3 credits. Basic scene design emphasizing concepts of line, color, form, and texture; drafting techniques, perspective drawing, foreshortening, rendering, and model building will be introduced. F
THEA 331 Materials and Methods for High School Speech Arts 3 credits. Required for teaching majors in speech and theatre. D
THEA 388 Independent Research Projects 1-3 credits. Under the supervision of the Theatre faculty, intermediate students will undertake special research projects in theatre, focusing on themes, methods and/or problems encountered early in one’s stage life. F, S
THEA 390 Practicum Theatre Arts I 1-2 credits. Recital projects for intermediate student groups in various areas of theatre arts. May be repeated for a maximum of 4 credits with different titles. AS
THEA 391 Theatre Production 1 credit. Supervised work in theatre production. Enrollment must be approved by a theatre faculty member and does not presume casting in a given production. THEA 191, 192, 391 and 392 may be repeated for up to 8 credits as speech and theatre activity. F
THEA 392 Theatre Production 1 credit. Supervised work in theatre production. Enrollment must be approved by a theatre faculty member and does not presume casting in a given production. THEA 191, 192, 391 and 392 may be repeated for up to 8 credits as speech and theatre activity. S
THEA 393 Independent Research Projects 1-3 credits. Under the supervision of the Theatre faculty, intermediate students will undertake special research projects in theatre, focusing on themes, methods and/or problems encountered early in one’s stage life. F, S
THEA 400 Theatre Background I 3 credits. Study of the theatre and drama from the beginnings to mid-twentieth century. AS
THEA 401 Theatre Background II 3 credits. Theatre and drama, from their origins through the Jacobean period. AF
THEA 402 Stage Costume History 3 credits. Study of the theatre and drama from the Spanish Golden Age through the “well-made play.” AS
THEA 403 Stage Costume Design 3 credits. Costume design for the theatre incorporating the influence of period, concept, and mood. Course work includes text analysis, research, drawing, painting, and collage. AS
THEA 404 Problems in Acting 3 credits. Focuses on special acting problems such as characterization, movement, voice, pantomime, film and television acting. Content varies from year to year. May be repeated for up to 6 credits with permission of instructor. PREREQ: THEA 251, THEA 252. AS
THEA 405 Advanced Costume Construction 3 credits. A study in period corset and millinery construction. A lab course in which students gain practical experience and skills crucial to a career in costume technology. PREREQ: THEA 221. AS
THEA 406 Advanced Light Design 3 credits. Study of lighting design in performing arts. Students gain knowledge through actualized projects, study of television and film lighting, and exploration of the Controllable Properties including color. PREREQ: THEA 111, THEA 209, and THEA 311. D
THEA 412 Scenic Painting 3 credits. A study of painting techniques as used in theatrical scenery; theory, practice, and equipment will be investigated as they apply to the art of stage painting. AS
THEA 414 Advanced Makeup 2 credits. Concentrated study of characterization, care, setting, styling and application of various types of wigs. Design and construction of polyfoam prosthesis. PREREQ: THEA 214 or permission of instructor. AS
THEA 419 Modern European Theatre 3 credits. Continental and British theatre and drama from 1850 to mid-twentieth century. R2
THEA 420 American Theatre History 3 credits. American theatre and drama from the beginnings to mid-twentieth century. AS
THEA 421 Basic Pattern Drafting for Stage Costuming 3 credits. Cutting patterns from measurements. Adjusting various patterns to designs. Alterations and fittings. PREREQ: THEA 221 or permission of instructor. AF
THEA 422 Period Pattern Drafting for Stage Costuming 3 credits. Use of the basic patterns to reproduce historical costumes from the 12th century to 1950. PREREQ: THEA 405 or permission of instructor. AS
THEA 424 Advanced Acting Styles 3 credits. Study of various period styles of acting including Greek, Medieval, Elizabethan, Restoration, and 19th century melodrama. The student will act in a series of special projects encompassing a variety of styles. PREREQ: THEA 251, THEA 252, or permission of instructor. AF
THEA 426 Advanced Scene Design 3 credits. Study of scene design in performing arts and beyond. Students work toward portfolio-qual- ity work in realized and non-realized projects in theatre, television, film, and design areas. PREREQ: THEA 111, THEA 209, and THEA 311. D
THEA g455 Beginning Stage Direction 3 credits. Consideration of aesthetics of dramatic production and the relationship of basic techniques of stage direction. Includes the direction of scenes and one-act plays. PREREQ: THEA 111, THEA 251, THEA 252, or permission of instructor. F

THEA g456 Advanced Stage Direction 3 credits. Advanced theories in techniques of stage direction including consideration of period styles. The student will direct a series of advanced projects including scenes and a full-length play. PREREQ: THEA g455 or permission of instructor. AS

THEA 457 BFA Studio 3 credits. Intensive process and skills training in a controlled studio environment. Lecture/survey in professional preparation and marketability for the prospective actor. PREREQ: BFA Acting/Directing student; THEA 251, THEA 252, and THEA g455, and permission of instructor. D

THEA 470 Contemporary Theatre 3 credits. World drama and theatre during the two most recent decades. AS

THEA g490 Practicum Theatre Arts II 1-3 credits. Recital projects for advanced students in various areas of theatre arts. May be repeated for a maximum of 4 credits with different titles. AS

THEA g491 Independent Research Projects II 1-3 credits. Under the supervision of the Theatre faculty, the advanced student will undertake special research projects in theatre, focusing on themes, methods, and/or problems encountered later in one’s stage life. F, S

Women’s Studies Program

Program Director and Assistant Professor: Kuhlman (History)
Assistant Director: McCoy
Emerita: Ruckman

Advisory Committee

Members of the Advisory Board meet to review curricula, advise the Director on program content, consider issues facing the field or program, and formulate strategy for the future of Women’s Studies at Idaho State University. Students may consult with any of the faculty in the program or on this committee:

• Dr. David Adler (Political Science)
• Dr. Nicole Hill (Kasiska College of Health Professions)
• Dr. Ann Hunter (Sociology, Social Work and Criminal Justice)

• Ms. Kathleen Lane (Music)
• Dr. Shannon Lynch (Psychology)
• Dr. Rebecca Morrow (Anderson Gender Resource Center)
• Dr. Priscilla Reis (College of Business)
• Ms. Nancy Renn (Kasiska College of Health Professions)
• Ms. Valerie Williams (College of Education)
• Dr. Laura Woodworth-Ney (History)

Minor in Women’s Studies

The program in Women’s Studies promotes an interdisciplinary approach to learning that emphasizes gender as an essential component in an understanding of our past, present, and future. Grounded in contemporary scholarship, Women’s Studies provides students with innovative perspectives from which to analyze and assess familiar subjects. Critical and analytical skills are developed and honed as students identify and contextualize profound connections between gender and one’s place in history, one’s assigned roles and statuses, and one’s access to social, economic, and political power.

Women’s Studies supports Idaho State University’s mission to create an effective and efficient learning environment that serves students of various ages, abilities, needs, and backgrounds. It enhances intellectual growth and complements the degree major by broadening academic knowledge bases and by developing a wide range of skills applicable in a variety of post-graduation settings.

The Women’s Studies office is located in the Department of History, Liberal Arts Room 348 (208-282-8079).

An undergraduate interdisciplinary minor in Women’s Studies consists of 18 credits of courses in gender topics offered by various departments and approved by the directors of Women’s Studies.

Required Courses:

W S 201 Introduction to Women’s Studies 3 cr
W S 401 Feminist Thought 3 cr

Choose 12 credits from:

ANTH 215 Anthropology of Gender 3 cr
H E g445 Human Sexuality and Health Education 2 cr
HIST g437 Families in Former Times 3 cr
HIST g439 Women in History 3 cr

Minor in Women’s Studies

Minor in Women’s Studies

Women’s Studies Courses

W S 160 Rape Aggression Defense 1 credit. Strategies for self-defense in physically threatening situations. Methods to enhance possibilities for avoidance of physical harm are also covered. Cross-listed as H E and P E 160, F, S

W S 201 Introduction to Women’s Studies 3 credits. Interdisciplinary survey of the ways that various academic disciplines examine women’s roles and women’s issues past and present in various cultures, with a focus on American culture. F

W S 205 Topics in Women’s Studies 1-3 credits. Examination of topics related to Women’s Studies. D

W S 311 American Women’s Movements 3 credits. Social, historical, and political examination of the 19th century women’s suffrage movement, the 20th century women’s rights movement, and the current status of women’s rights activism. S

W S 401 Feminist Thought 3 credits. In-depth analysis and historical overview of various feminist perspectives including liberal, radical, Marxist-Socialist, psychoanalytic, post-modern, existential, multi-cultural, third world, and eco-feminism. PREREQ: W S 201. F

W S 405 Topics in Women’s Studies 1-3 credits. In-depth examination of topics relating to women’s studies, especially from a comparative or theoretical perspective. D

W S 459 Internship 1-6 credits. Directed student internship in organization related to Women’s Studies. The student will be placed in a supervised position approved by faculty in the program. May be repeated for up to 6 credits. PREREQ: W S 201. D

W S g461 Independent Study 1-3 credits. Selected readings and research in areas of Women’s Studies not covered by the regular curricular offerings. May be repeated for up to 6 credits. PREREQ: 3.0 cumulative GPA and W S 201 or equivalent; permission of instructor. D
College of Business

Kenneth A. Smith, Ph.D., Dean
Corey Schou, Ph.D., Associate Dean for Information Systems
Kregg Aytes, Ph.D., Associate Dean
Robert Picard, Ph.D., Associate Dean

Department of Accounting
Chair and Professor: Picard
Professors: Boes, Frischmann, Plewa, K. Smith
Associate Professor: Reis
Assistant Professors: Bezik, J. Smith
Lecturer: Law

Professor: Hoover, Nitse, Story
Emeriti: Balsley, LeBlanc, Schwendig, Scott

Idaho State University offers a four-year undergraduate program of business administration and liberal arts subjects leading to the degree of Bachelor of Business Administration. There are seven majors available—Accounting, Computer Information Systems, Finance, General Business, Management, Marketing, and Health Care Information Systems Management. The College of Business also offers minors in Business Administration, Computer Information Systems, Marketing, and International Commerce. In addition, the Master of Business Administration degree is offered through the Graduate School. The B.B.A., M.B.A., and accounting programs are nationally accredited by AACSB, the International Association for Management Education.

Role and Mission
The College of Business, an integral part of Idaho State University, shares the role and mission of the University as established by the State Board of Education. Idaho State University’s business programs respond to current and emerging demands within the state and region and serve local and statewide constituencies, including students seeking traditional, nontraditional and continuing education. The College also serves public and private sector management education and economic development needs and engages in research consistent with its undergraduate and graduate programs and public service mission.

The primary mission of the College is to offer high quality professional business educational programs. Excellent undergraduate teaching and learning is a top priority. In addition, a quality M.B.A. program is a vital part of the educational mission. All areas of study appropriately emphasize the local, state, national, and international business environments. The College of Business delivers its educational programs on day and night schedules and at off-campus sites within the Idaho State University primary service area.

The research mission complements the instructional and public service missions. Research focuses on advancing understanding of theory and practice within the business disciplines, developing ways to teach business disciplines more effectively, and defining issues affecting economic development in the region and state.

The service mission of the College uses the expertise of its faculty and staff to enhance economic development. Public service programs focus on continuing education needs of business professionals and applied research and assistance needed by Idaho organizations.

In addition to its primary teaching, research, and service missions, the College of Business supports other programs within the University by providing courses and faculty support.

Undergraduate Curriculum
To meet the demands of the business environment and provide a more effective educational environment, the College of Business undergraduate curriculum emphasizes the following principal skills:

1. **Problem solving and effective communication.**
   - These skills are embedded within courses across the curriculum as appropriate.
   - Additional courses at the sophomore, junior, and senior levels focus on developing and assessing students’ abilities to:
     - solve the types of unstructured problems faced in the business environment;
     - write effectively; and
     - conduct effective oral presentations.

2. **Using computer technology to effectively solve problems and communicate.**
   - Students entering the College of Business are required to own a notebook computer and to bring it to class regularly.

3. **Building teamwork and cooperative learning skills.**
   - Students are encouraged to participate in a voluntary cohort program where they take the core business courses together with the same group of students.

Admission to Major Status
Students wishing to major in disciplines offered in the College of Business are first enrolled at Idaho State University as Pre-Business students. To move from Pre-Business status to Business major status, students must be formally admitted to the College of Business. Students begin the admission process by completing an application form and submitting it, together with an official copy of their transcript, to the office of the College of Business. The application process should occur during the semester in which the student will complete the following requirements:
1. complete at least 58 credit hours.
2. complete the remainder of the specific lower division requirements listed in the "Minimum Criteria for Admission" section below

All College of Business majors are required to meet the Minimum Criteria listed below before they may enroll in upper division College of Business courses (those courses numbered 300 and above). Pre-business students enrolled in upper division College of Business courses without admission to Business major status will be administratively withdrawn. Pre-Business status remains in effect until the student meets the Business Major admission requirements.

Incoming freshmen or transfer students should plan their scheduled course work in order to complete the requirements for admission to Business major status. Information regarding Business major status along with application for admission are available from:

Undergraduate Programs Coordinator
College of Business
Location: BA 510
Phone: (208) 282-3448

Minimum Criteria for Admission to Business Major Status

Students must be officially admitted to Idaho State University. Students must successfully complete the following lower division courses or their equivalent. Successful completion means that students must have passed each course with a grade of C- or better and have a 2.25 grade point average among these required courses. Application may be made during the semester in which the student completes the remainder of these courses.

ACCT 201 Principles of Accounting I 3 cr
ACCT 202 Principles of Accounting II 3 cr
BA 200 Professional Development Seminar I 1 cr
COMM 101 Principles of Speech 3 cr
ECON 201 Principles of Macroeconomics 3 cr
ECON 202 Principles of Microeconomics 3 cr
ENGL 102 Critical Reading and Writing 3 cr
MGT 216 Business Statistics 3 cr

Either the following course:
MATH 160 Applied Calculus 3 cr

OR BOTH of the following two courses:
MATH 130 Finite Mathematics 3 cr
MATH 143 College Algebra 3 cr
TOTAL: 25 or 28 cr

Students must have a minimum cumulative grade point average of 2.25. Students must have completed 58 credit hours. The 58 hours may include transfer credits and courses the student is taking during the application semester. Students must submit to the office of the College of Business a completed application form.

Bachelor of Business Administration

B.B.A. Objective

The objective of Idaho State University’s Bachelor of Business Administration program is to assist students to take their places in business and society, domestic and worldwide. The program develops in students inquiring minds and critical thinking so they can analyze problems, implement courses of action, and function within an organization.

The College of Business offers major areas of study designed both to equip students for immediate entry into the professional world and to meet the challenges of our changing environment. The College delivers daytime and nighttime courses to meet the needs of both traditional and nontraditional students within the Idaho State University primary service area.

General Education Requirements

Students pursuing the Bachelor of Business Administration degree must complete Goals 1-9, 10A or 10B, and 11-12. (Note: that certain goals may be met by specific College of Business requirements listed below: Goal 3 by MATH 160 or by MATH 130 and MATH 143; Goal 11 by ECON 201 and 202.)

Specific College of Business Graduation Requirements

Several of the specific graduation requirements listed below may also be used to satisfy General Education Requirements (Goals 1-12).

ECON 201-202 Principles of Macroeconomics and Microeconomics 6 cr
ENGL 101 English Composition 3 cr
ENGL 102 Critical Reading and Writing 3 cr
ENGL 308 Business Communications 3 cr
COMM 201 Business and Professional Speaking 3 cr

EITHER this course:
MATH 160 Applied Calculus 3 cr

OR BOTH of the following two courses:
MATH 130 Finite Mathematics 3 cr
MATH 143 College Algebra 3 cr
TOTAL: 21 or 24 cr

Note:
A minimum grade of C- (C Minus) or better is required to fulfill all College of Business Core Requirements, Major Requirements, and Specific Graduation Requirements. The C- or better requirement extends to satisfying prerequisites for all College of Business courses.

A minimum of 57 credits in courses not taught by the College of Business is required to graduate. The minimum total required to graduate is 128 credits.

Core Requirements

To assure a minimum level of competence in all functional areas of business, the College of Business requires each student to complete the following courses:

ACCT 201 Principles of Accounting I 3 cr
ACCT 202 Principles of Accounting II 3 cr
BA 200 Professional Development Seminar I 1 cr
BA 301 Professional Development Seminar II 1 cr
BA 302 Professional Development Seminar III 1 cr
BA 400 Professional Development Seminar IV 1 cr
CIS 301 Information Systems and Problem Solving 2 cr
CIS 302 Information Systems 2 cr
FIN 315 Corporate Financial Management 3 cr
FIN 317 Fundamentals of Investments 3 cr
MGT 216 Business Statistics 3 cr
MGT 217 Advanced Business Statistics 3 cr
MGT 261 Legal Environment of Organizations 3 cr
MGT 312* Individual and Organizational Behavior 3 cr
MGT 329 Operations/Production Management 3 cr
MGT 460 Problems in Policy and Management 3 cr
MKTG 325* Basic Marketing Management 3 cr

TOTAL: 41 cr

*HCA 350 and HCA 473 are recommended substitutes for MGT 312 and MKTG 325, respectively, for students seeking the Major in Healthcare Information Systems Management.
The Idaho State University Accounting program meets Idaho's legal requirements without a CPA certificate, graduates intend by individuals with a bachelor's degree many accounting positions can be filled requiring that a candidate for Certified Public Accountant (CPA) must have a college accounting emphasis program enhances the knowledge and skills useful for rapid advancement in either managerial or public accounting. Students planning to pass the CPA and Certified Management Accountant (CMA) examinations should continue beyond the B.B.A. degree into the M.B.A. with Emphasis in Accounting.

### Accounting Major

Following a national trend, Idaho law requires that a candidate for Certified Public Accountant (CPA) must have a college degree and at least 150 credit hours. While many accounting positions can be filled by individuals with a bachelor's degree without a CPA certificate, graduates intending to progress in a professional career in either managerial or public accounting will benefit greatly from the additional breadth and depth offered by a graduate degree. The Idaho State University Accounting program meets Idaho's legal requirements and provides the additional knowledge and skills demanded by a rapidly changing business environment with both a B.B.A. in Accounting and an M.B.A. with Emphasis in Accounting.

The program strives to produce graduates with the knowledge and skills necessary for successful professional accounting careers. Both the undergraduate and graduate degrees emphasize characteristics that promote success among graduates, including:

- business and accounting knowledge;
- capability and motivation for continued learning;
- competence in learning skills (including research of data bases);
- abilities to analyze, critique, and communicate;
- interpersonal skills, and
- rigorous ethical standards.

The undergraduate degree program prepares accountants with broad knowledge in business and accounting suitable for entry level positions in the several career paths available to accountants. The M.B.A. Accounting Emphasis program enhances the knowledge and skills useful for rapid advancement in either managerial or public accounting. Students planning to pass the CPA and Certified Management Accountant (CMA) examinations should continue beyond the B.B.A. degree into the M.B.A. with Emphasis in Accounting.

### Computer Information Systems Major

The Computer Information Systems major prepares students for a wide variety of careers, including systems analysis, software and web development, and computer operations. With a breadth of course offerings that include an emphasis on problem solving, communication, programming, process modeling, project management, and business, CIS majors are valuable to employers both for their technical skills as well as their ability to solve organizational problems. All modern organizations rely on information technology to function, and CIS majors are uniquely positioned to apply that technology to effectively support an organization's operations.

**TOTAL:** 30 cr

In consultation with their major advisors, students may also use courses outside the College of Business to satisfy elective requirements.

### Finance Major

Finance majors may earn a degree in Finance without emphasis or a degree in Finance with emphasis in Entrepreneurship/Small Business (see description of emphasis following the Major in Marketing).
Required Courses:

- FIN 405 Advanced Corporate Financial Management 3 cr
- FIN 450 Advanced Corporate Financial Management II 3 cr
- FIN 478 Investments 3 cr

Plus THREE of the following, of which TWO must be within the Finance Department:

- FIN 431 Financial Modeling 3 cr
- FIN 445 Real Estate Finance 3 cr
- FIN 448 Financial Management of Depository Institutions 3 cr
- FIN 451 Student-Managed Investment Fund I 3 cr
- FIN 452 Student-Managed Investment Fund II 3 cr
- FIN 464 Entrepreneurial Finance 3 cr
- FIN 475 International Corporate Finance 3 cr
- FIN 484 Options and Futures 3 cr
- FIN 491 Seminar in Finance 3 cr
- FIN 492 Special Problems in Finance 3 cr

Any 300-400 level Economics course except

- FIN 492 Special Problems in Finance 3 cr
- FIN 491 Seminar in Finance 3 cr
- FIN 464 Entrepreneurial Finance 3 cr
- FIN 475 International Corporate Finance 3 cr
- FIN 484 Options and Futures 3 cr
- FIN 451 Student-Managed Investment Fund I 3 cr
- FIN 452 Student-Managed Investment Fund II 3 cr

Required Courses:

- CIS 120 Foundations of Computer Programming 3 cr
- CIS 285 Introduction to Software and Systems Architecture 3 cr
- CIS 403 Systems Analysis and Logical Design 3 cr
- CIS 407 Database Design and Implementation 3 cr
- CIS 411 Intermediate Information Assurance 3 cr
- CIS 485 Network and Communications Systems 3 cr
- MGT 482 Project Management 3 cr
- HCA 115 U.S. Health System 3 cr
- HCA 330 Health Information Systems 3 cr
- HCA 489 Health Care Information Systems Practicum 3 cr

TOTAL: 18 cr

General Business Major

The General Business major is offered to broadly augment core curricula and is often chosen by students who may be entering a family-owned or small business where they may assume multiple responsibilities. The major provides additional breadth of knowledge in contemporary business subjects and also establishes a strong foundation for those who expect to receive specialized training from an employer.

Choose six classes from this list to complete the major:

- ACCT 360 Small Business Accounting 3 cr
- ACCT 441 Management Control Systems 3 cr
- CIS 403 Systems Analysis and Logical Design 3 cr
- CIS 407 Database Design and Implementation 3 cr
- FIN 431 Financial Modeling 3 cr
- FIN 478 Investments 3 cr
- MGT 410 Entrepreneurship 3 cr
- MGT 441 Organizational Behavior 3 cr
- MGT 445 International Business 3 cr
- MKTG g432 New Product Management 3 cr
- MKTG g475 Competitive Intelligence 3 cr

TOTAL: 18 cr

Health Care Information Systems Management Major

The Bachelor of Business Administration Degree in Health Care Information Systems Management is delivered in cooperation with Idaho State University’s Kasiska College of Health Professions. The degree is designed to enable graduates to enter careers in information systems support in healthcare organizations. Upon graduation, students will receive a minor in Computer Information Systems in addition to the Health Care Information Systems Management Major. Information systems play an increasingly important role in the burgeoning healthcare field. The Health Care Information Systems Management (HISM) degree is intended to develop the skills necessary to manage information systems in a healthcare environment. Combining courses in healthcare administration, general business, and computer information systems, the HISM degree prepares students to work in hospitals, health clinics, and doctors’ offices, as well as other health-related organizations.

Required Courses:

- CIS 120 Foundations of Computer Programming 3 cr
- CIS 285 Introduction to Software and Systems Architecture 3 cr
- CIS 403 Systems Analysis and Logical Design 3 cr
- CIS 407 Database Design and Implementation 3 cr
- CIS 411 Intermediate Information Assurance 3 cr
- CIS 485 Network and Communications Systems 3 cr
- MGT 482 Project Management 3 cr
- HCA 115 U.S. Health System 3 cr
- HCA 330 Health Information Systems 3 cr
- HCA 489 Health Care Information Systems Practicum 3 cr

TOTAL: 33 cr

Marketing Major

Marketing majors may earn a degree in Marketing without emphasis or a degree in Marketing with emphasis in Entrepreneurship/Small Business (see description below).

Required Courses:

- MKTG 327 Consumer Behavior 3 cr
- MKTG 353 Methods of Marketing Analysis 3 cr
- MKTG 454 Advanced Marketing Management 3 cr

Plus THREE of the following:

- MKTG 350 Personal Selling 3 cr
- MKTG 367 Markets and Segmentation 3 cr
- MKTG 370 Sales and Sales Management 3 cr
- MKTG 405 Sales Force Management 3 cr
- MKTG 421 Services Marketing 3 cr
- MKTG 426 Marketing Research 3 cr
- MKTG 428 Marketing Communications 3 cr
- MKTG 432 New Product Management 3 cr
- MKTG 440 Seminar on International Marketing 3 cr
- MKTG 465 International Marketing 3 cr
- MKTG 475 Competitive Intelligence 3 cr
- MKTG 480 Marketing on the Internet 3 cr
- MKTG 491 Seminar in Marketing 3 cr
- MKTG 492 Special Problems in Marketing 3 cr
- MKTG 410 Entrepreneurship 3 cr
- MKTG 411 Small Business and Entrepreneurship Practicum 3 cr

TOTAL: 18 cr

Entrepreneurship/Small Business Emphasis

This emphasis may be added to a major in Finance, Management, or Marketing. Any College of Business course numbered 491, Special Topics, may be applied to this emphasis when the topic relates to small business or entrepreneurship. Students should request prior approval to have a topics course used for the emphasis.

Courses used to meet the requirements for the Entrepreneurship/Small Business Emphasis may also be used to meet major requirements.

Requirements:

1. Complete all degree and major requirements for a B.B.A. with major in Finance, Management, or Marketing.
2. Take the following four courses:

ACCT 360 Small Business Accounting and Finance 3 cr
MGT g410 Entrepreneurship 3 cr
MGT 411 Small Business and Entrepreneurship Practicum 3 cr
MKTG g432 New Product Management 3 cr

Human Resource Management Emphasis

An option in the Management major, the Human Resource Management emphasis provides students with an understanding of the issues faced by personnel administrators, industrial relations managers, and others involved in the management of employees. Students receive a B.B.A. in Management with Human Resources Management Emphasis.

Required Courses:
MGT g441 Organization Behavior 3 cr
MGT g462 Issues in Business and Society 3 cr
MGT g473 Human Resource Management 3 cr
MGT g474 Advanced Human Resource Management 3 cr
MGT g480 Labor and Employment Law 3 cr
MGT g483 Industrial Relations 3 cr
TOTAL: 18 cr

Native American Business Administration Emphasis

This emphasis may be added to any of the majors offered in the College of Business.

Requirements:
1. Complete all degree and major requirements for a B.B.A. in a major within the College of Business.
2. Take the following two courses:
   MGT 420 Native American Organizational Systems 3 cr
   MGT 422 Native American Enterprise 3 cr
3. Plus 6 credits of program-approved electives.

Operations Management Emphasis

This emphasis requires a total of 12 credit hours. In addition to College of Business core and major requirements, four courses must be completed, three required courses and one elective. Management majors may use MGT g434 and g482 to satisfy major electives and the Operations Management Emphasis Requirements.

Required courses:
ACCT 341 Management and Cost Accounting 3 cr
MGT g434 Productivity and Quality 3 cr
MGT g482 Project Management 3 cr

One elective to be chosen from the following courses:
CIS g403 Systems Analysis 3 cr
CIS g486 Business System Simulation 3 cr
CIS g490 Management of Information Systems 3 cr
FIN g450 Advanced Corporate Financial Management 3 cr
MKTG g432 New Product Management 3 cr
MKTG g421 Services Marketing 3 cr

Minor in Computer Information Systems

Students receiving degrees in all colleges may satisfy the requirements for a Computer Information Systems minor by completing the following courses. Students pursuing this minor should seek assignment of a minor advisor early in their program to complete a Program of Study Agreement.

Required Courses:
CIS 120 Interactive Web Development 3 cr
CIS 301 Information Management Systems 2 cr
CIS g403 Systems Analysis and Logical Design 3 cr

Information Systems Electives

Plus 12 additional credits chosen from any CIS courses (except CIS 101) or MGT g482.

Minor in International Commerce

Most often chosen by majors in Finance, Management, or Marketing, the Minor in International Commerce may be added to any Business major. Requirements are:

1. MAJOR IN BUSINESS. To be successful in an international business enterprise, a baccalaureate degree holder must be able to contribute to one of the functional operations of the business. For this reason, the minor in international commerce is limited to students obtaining a major in business.
2. FOREIGN LANGUAGE PROFICIENCY. Students must demonstrate a proficiency in a foreign language. This requirement could be met through:
   a. Completion of a second semester of intermediate level foreign language with a grade of C or better.
   b. Achieving a score on the appropriate language placement exam equivalent to a grade of C in second semester intermediate level language. International students whose primary language is not English would be exempt from this requirement. Credits in foreign language used to meet this requirement could also be used to meet General Education requirements.

3. COURSES TO DEVELOP CULTURAL AWARENESS. Nine credit hours must be taken in courses approved by the Assistant Dean that compare different cultures or examine the history, politics, social structures, or cultures of countries other than those of the student. Courses taken to meet this requirement may also be used to meet General Education requirements when appropriate.

4. INTERNATIONAL COMMERCE COURSES. Nine credit hours must be taken in international or comparative business or economics. Courses taken to meet this requirement may be used to meet major requirements when appropriate, but are in addition to FIN 317 (Fundamentals of Investments) which is required of all business majors. Approved courses include:

   ECON 334 International Economics 3 cr
   ECON g472 Comparative Economic Systems 3 cr
   FIN g475 International Corporate Finance 3 cr
   MKTG g440 Seminar in International Marketing 3 cr
   MGT g465 International Business 3 cr
   MKTG g465 International Marketing 3 cr

Minor in Business (for Non-Business Majors only)

The Minor in Business augments the undergraduate education of non-business students by providing exposure to courses in accounting, finance, marketing, management, and computer information systems. The goal of the minor is to provide students the opportunity to learn basic business language, concepts, and tools that will assist them in pursuing careers in their major fields.
Minor in Marketing (for Non-Business Majors only)

Students receiving degrees in other colleges may satisfy the requirements for a Marketing Minor by completing the following courses (total 18 credits):

- ECON 201 Principles of Macroeconomics 3 cr
- MGT 216 Business Statistics 3 cr
- OR
- MATH 253 Introduction to Statistics 3 cr
- MGT 325 Management 3 cr
- MGT 327 Consumer Behavior 3 cr

Plus two courses from the following, to total 18 credits:
- MKTG 350 Personal Selling 3 cr
- MKTG 353 Methods of Marketing Analysis 3 cr
- MKTG 367 Markets and Segmentation 3 cr
- MKTG 370 Sales and Sales Management 3 cr
- MGT g405 Sales Force Management 3 cr
- MGT g421 Services Marketing 3 cr
- MGT g426 Marketing Research 3 cr
- MGT g428 Marketing Communications 3 cr
- MGT g432 New Product Management 3 cr
- MGT g440 Seminar in International Marketing 3 cr
- MKTG g465 International Marketing 3 cr
- MKTG g475 Competitive Intelligencce 3 cr
- MKTG g480 Marketing on the Internet 3 cr
- MKTG g491 Seminar in Marketing 3 cr
- MKTG g492 Special Problems in Marketing 2-3 cr

Certificate in Computer Information Systems

A Certificate in Computer Information Systems is offered for those students who have a bachelor’s degree in a field other than CIS and want to improve their knowledge of information systems. To earn a Certificate in CIS, a student must complete 30 total credits from the following list. At least twelve of those credits must be taken after the student has completed a bachelor’s degree.

Required Courses (32 credits)
- CIS 120 Interactive Web Development 3 cr
- CIS 220 Foundations of Computer Programming 3 cr
- CIS 285 Introduction to Software and Systems Architecture 3 cr
- CIS 301 Information Systems and Problem Solving 2 cr
- CIS g403 Systems Analysis and Logical Design 3 cr
- CIS g407 Data Base Physical Design and Implementation 3 cr

Associate of Science in Business

An Associate of Science in Business (AS) degree is offered for those students who do not plan to complete a B.B.A. at Idaho State University. To earn an Associate of Science in Business, a student must complete 71 total credits as listed below.

General Education Requirements

Students pursuing the Associate of Science in Business degree must complete Goals 1-9, 10A or 10B, 11, and 12 (note that Goal 3 may be satisfied by MATH 160 Brief Calculus or by MATH 130 and 143).

Business and Economics Core

- ACCT 201 Principles of Accounting I 3 cr
- ACCT 202 Principles of Accounting II 3 cr
- CIS 101 Introduction to Computer Systems 3 cr
- ECON 201-202 Principles of Macroeconomics and Microeconomics 6 cr
- MGT 216 Business Statistics 3 cr
- MGT 217 Advanced Business Statistics 3 cr
- MGT 261 Legal Environment of Organizations 3 cr

Electives

- Business electives* 6 cr

TOTAL: 30 cr

* Upper-level business courses may be used to meet this requirement.
A student taking upper division business classes must be admitted in a business major OR be a non-business major with junior standing who has completed general education goals 1, 2, and 3 and four other goals.

**Idaho Falls Programs**

The Idaho State University College of Business offers the Bachelor of Business Administration (B.B.A.) in General Business, and the Master of Business Administration (M.B.A.) degrees in Idaho Falls. Students wishing to complete B.B.A. degrees with other majors must plan to complete major requirements (beyond General Education and College of Business core requirements) on the Pocatello campus.

**EITC/Idaho State University Program**

Eastern Idaho Technical College (EITC) and the College of Business cooperatively deliver an Associate of Applied Science (A.A.S.) degree in Marketing and Management. The A.A.S. is offered by EITC and students interested in the program should consult the EITC catalog for a detailed listing of the requirements. The purpose of this program is to provide Idaho Falls area residents with a business associate degree that combines the immediate job skills of a technical program with the academic foundation needed for the Bachelor of Business Administration (B.B.A.) degree. Students in this program must meet the general admission requirements of both EITC and Idaho State University.

The A.A.S. combines 32-36 credits of EITC business courses, 15-18 credits of Idaho State University business and economics courses, and 23-26 credits of general education courses for a total associate degree of 75 credits. Those completing this cooperative A.A.S. and who include Math 160 and MGT 216 within their A.A.S. programs will need approximately 74-77 credits to complete a B.B.A. in Finance, Management or Marketing from Idaho State University.

Those who have completed the EITC/Idaho State University Associate of Applied Science in Marketing and Management:

- 1. May be admitted to business major status if they maintain a 2.25 or higher grade point average (GPA) in the program and a 2.25 G.P.A. in these eight courses: ENGL 102, COMM 101, ECON 201, ECON 202, MATH 160, (or MATH 130 and 143), ACCT 202, MGT 216, and MGT 261.

2. Will be awarded 13 undesignated lower division business credits towards the requirements of the B.B.A. upon admission to business major status.

3. Will be waived from the ACCT 201 requirement for the B.B.A. if they have earned a grade of “C” or better in ACCT 202. Specific credit for ACCT 201 will, however, not be awarded.

**Accounting Courses**

**ACCT 200 Personal Tax Planning 3 credits.** Service course in federal taxation of individuals and small business, including tax-free income, legal tax deductions, inequities, tax planning opportunities, and individual tax return preparations. Not open to accounting majors. D

**ACCT 201 Principles of Accounting I 3 credits.** Study of financial accounting processes, including analysis and recording of transactions, preparation of financial statements, and written communication of financial information. PREREQ: ENGL 101 and MATH 143. F, S, Su

**ACCT 202 Principles of Accounting II 3 credits.** Understanding a business from an internal management perspective. Basic terminology and use of basic cost behavior, cost analysis, and planning models to support a firm’s decision making process. Basic spreadsheet assignments using Excel. PREREQ: ACCT 201 and MATH 143. F, S, Su

**ACCT 203 Accounting Concepts 3 credits.** Overview of the use of financial and managerial accounting information by internal and external decision makers; emphasis on the uses and limitations of accounting information with real-world emphasis where appropriate. Available to non-business majors only. D

**ACCT 323 Intermediate Accounting I 3 credits.** Fundamental accounting principles of valuation and income determination. Financial accounting reporting in concept as well as in accordance with generally accepted accounting principles. PREREQ: ACCT 201, ENGL 101, ECON 201, ECON 202 and MATH 143. PREREQ OR COREQ: FIN 315 or FIN 317. F, S

**ACCT 324 Intermediate Accounting II 3 credits.** Continuation of ACCT 323. Accounting principles of valuation and income determination. Financial accounting reporting in concept as well as in accordance with generally accepted accounting principles. PREREQ: ENGL 101, ECON 201, ECON 202, and MATH 143. PREREQ OR COREQ: FIN 315 or FIN 317. F, S, Su

**ACCT 331 Principles of Taxation 3 credits.** Study of federal income taxation and its application to individual taxpayers and business enterprises. Practical problems in making and filing returns. PREREQ: ACCT 202, ENGL 101, ECON 201, ECON 202, and MATH 143. F, S

**ACCT 341 Managerial and Cost Accounting 3 credits.** A strategic approach to supporting managerial decision-making throughout an organization and across the value chain. Emphasizes the measurement, analysis, communication and control of financial and nonfinancial accounting information. PREREQ: ACCT 201, ACCT 202, MGT 217, and MATH 143. PREREQ OR COREQ: ENGL 308. F, S

**ACCT 350 Junior Accounting Seminar 1 credit.** Seminar requiring students to research and present specialized accounting topics. PREREQ: ENGL 101, ECON 201, ECON 202, and MATH 143. PREREQ OR COREQ: ACCT 323, and FIN 315 or FIN 317. D

**ACCT 360 Small Business Accounting 3 credits.** Practical accounting issues related to starting and managing a small business, including taxes, system design and implementation, financial presentation and analysis, and personal financial planning. PREREQ: ACCT 201 and ACCT 202. D

**ACCT g400 Managerial Tax Planning 3 credits.** For prospective business managers, owners, or investors interested in important tax consequences of alternative financial transactions. PREREQ: ECON 201, ECON 202, and FIN 315. D

**ACCT g431 Advanced Tax Concepts 3 credits.** Specialized federal tax concepts for individuals, business, estates, and trusts. Elaborates on basic principles discussed in Principles of Taxation. PREREQ: ENGL 101, ECON 201, ECON 202, and MATH 143. F, S

**ACCT g433 Legal Environment of Accounting 3 credits.** Study of legal issues facing accountants, including business law, forms of organizations, and regulatory requirements. PREREQ: ECON 201, ECON 202, and MGT 261. D

**ACCT g441 Management Control Systems 3 credits.** Focuses on strategic and managerial evaluation and control systems using financial and nonfinancial accounting information. PREREQ: ACCT 201, ACCT 202, ENGL 101, ECON 201, ECON 202, MGT 217 and MATH 143 and ACCT 341, ENGL 308, or senior standing and permission of instructor. F, S

**ACCT g456 Auditing 3 credits.** Concepts and practices of independent and internal auditing. Professional responsibilities, risk assessment, audit planning and reporting. PREREQ: ACCT 324, MGT 216, ECON 201, ECON 202, ENGL 101, and MATH 143. PREREQ OR COREQ: CIS g403. F, S

**ACCT g457 Advanced Auditing 3 credits.** Integration of financial statement auditing concepts in case discussions. Research into contemporary auditing literature. PREREQ: ACCT g456, ACCT 324, MGT 216, CIS g403, ECON 201, ECON 202, ENGL 101, and MATH 143. S

**ACCT g460 Governmental and Not-for-Profit Accounting 3 credits.** Accounting and reporting principles, standards and procedures applicable to governmental units and not-for-profit institutions, i.e. universities, hospitals. Special consideration to financial management problems peculiar to the not-for-profit sector. PREREQ: ACCT 324, ECON 201, ECON 202, ENGL 101, and MATH 143. F
ACCT g461 Advanced Accounting 3 credits. Study of accounting problems arising in connection with partnerships, corporate affiliation; institutional, social, and fiduciary accounting; consignments; installment sales; and foreign exchange. PREREQ: ACCT 324, ECON 201, ECON 202, ENGL 101, and MATH 143. F

ACCT g470 Contemporary Issues in Managerial Accounting 3 credits. Contemporary topics and emerging issues in managerial accounting. This field is rapidly evolving to meet the needs of enterprises competing in a dynamic global environment. PREREQ: ACCT 324, ACCT 201, ACCT 202, ECON 201, ECON 202, ENGL 101, and MATH 143. D

ACCT g480 Comparative International Accounting 3 credits. Study of systems that have proven to be problems in an international accounting context, particularly for corporate financial reporting. Also, the progress toward international harmonization of financial reporting and taxation. PREREQ: ACCT 324, ECON 201, ECON 202, ENGL 101, and MATH 143. D

ACCT g490 Financial Reporting and Statement Analysis 3 credits. A financial accounting capstone focusing on statement analysis from the point of view of the many users of financial statements: investors, creditors, managers, auditors, analysts, regulators, and employees through the case analysis of actual companies' financial statements. PREREQ: ACCT 461, ACCT 324, ECON 201, ECON 202, ENGL 101, and MATH 143. D

ACCT g491 Seminar in Accounting 3 credits. Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated for up to 6 credits with permission of instructor. D

ACCT g492 Special Problems in Accounting 1-3 credits. Research and reports on selected problems or topics in accounting. May be repeated for up to 9 credits with different content and permission of major advisor and the Dean. PREREQ: Senior or Graduate status in Business, and permission of the Dean. D

ACCT g493 Accounting Internship 1-3 credits. A program of significant business experience coordinated by the faculty to provide broad exposure to issues. May be repeated for up to 3 credits. Graded S/U. F, S

Business Administration Courses

BA 200 Professional Development Seminar I 1 credit. Assessment and development of entry level technology and communication skills. Introduction to college goals and processes, Investigation of business career opportunities. Required of all students intending to major in business. PREREQ OR COREQ: ACCT 202. F, S, Su

BA 203 Issues in Business 3 credits. A basic overview of business operations and current issues in business with an emphasis on one or more of several business dimensions. Dimensions include business ethics, international business, business law, supply chain management, and entrepreneurship. Available to non-business majors only. D

BA 301 Professional Development Seminar II 1 credit. Examination of critical thinking models and development of writing, oral communication, and teamwork skills using assignments from CIS 301. Must be taken concurrently with the same numbered section of CIS 301. COREQ: CIS 301. F, S, Su

BA 302 Professional Development Seminar III 1 credit. Examination of critical thinking models and development of writing, oral communication, and teamwork skills using assignments from CIS 302. Must be taken concurrently with the same numbered section of CIS 302. COREQ: CIS 302. F, S, Su

BA 400 Professional Development Seminar IV 1 credit. Assessment and development of critical thinking and communication skills. Investigation of business career and placement opportunities. COREQ: MGT 460. F, S, Su

Computer Information Systems Courses

CIS 010 Fundamental Computer Literacy 0 credits (3 credit equivalent). Use of basic computer software to solve problems in the academic setting. Includes familiarization with word processing, presentations, spreadsheet, Internet. Graded S/U. PREREQ: Permission of instructor. D

CIS 101 Introduction to Computer Systems 3 credits. Introduction to effective use of computers for all majors. Includes hands-on use of current computer software, description of computer systems, data files storage and devices, input/output procedures, computer logic. Lectures, laboratories. F, S, Su

CIS 101I Introduction to Computer Systems Laboratory 0 credits. Assignments to apply concepts from CIS 101. F, S

CIS 120 Interactive Web Development 3 credits. Introduction to developing interactive/dynamic web sites, including HTML, scripting, style sheets. F, S

CIS 219 Introduction to Informatics Practice 1-3 credits. Informatics experience under close faculty supervision designed to provide broad exposure to issues including Information Assurance. Does not fulfill major/minor requirements. May be repeated for up to 6 credits. Graded S/U. PREREQ: Permission of instructor. D

CIS 220 Foundations of Computer Programming 3 credits. Introduction to concepts of computers and computer-programming hardware and software, programming with an object-oriented visual language, data structures, file organization and processing. Lectures, laboratories. PREREQ: MATH 143, CIS 120 or any programming course. F, S

CIS 220L Foundations of Computer Programming Laboratory 0 credits. Assignments to apply concepts from CIS 220. F, S

CIS 285 Introduction to Software and Systems Architecture 3 credits. Principles and application of computer hardware and systems software in the context of designing business IT infrastructures through combination of theory based lectures and applied laboratory experiences. PREREQ: CIS 220 or CS 181. F, S

CIS 285L Introduction to Software and Systems Architecture Lab 0 credits. Assignments to apply concepts from CIS 285. F, S

CIS 301 Information Systems and Problem Solving 2 credits. Techniques and tools for analyzing and solving business problems. Development of technology based knowledge and skills for communicating solutions. PREREQ OR COREQ: MGT 217 or any statistics course and CIS 101 equivalent skills and knowledge. COREQ: BA 301. F, S

CIS 302 Information Systems 2 credits. Operational and strategic uses of information systems in an organizational context. Examination of critical thinking models and development of writing, oral communication, and teamwork skills. PREREQ: CIS 301. COREQ: BA 302. F, S, Su

CIS 303 Information Technology Concepts 3 credits. A hands-on, applied approach to providing the software tools that business minor students are likely to need in an academic setting and early in their careers. The course places an emphasis on the business use of spreadsheets and interaction with the Internet along with current issues in information technology. Available to non-business majors only. D

CIS 310 Introduction to Information Assurance 3 credits. A survey course providing an introduction to the fields of Information Assurance and Privacy. Emphasizes legal and ethical components of information security practices. The course is designed primarily for non-CIS majors. Not applicable toward CIS major. D

CIS 320 Advanced Business Programming 3 credits. Advanced programming; dynamic data structures; file organization and processing; efficient searching and sorting techniques. Includes study of an object-oriented visual language and a comparison with a modern database language. PREREQ: CIS 220. D

CIS 403 Systems Analysis and Logical Design 3 credits. Develops systems analysis skills, using modern CASE techniques, prototyping with a relational database, structured analysis and design phases of the systems development life cycle. PREREQ: CIS 301 and junior status. F, S, Su

CIS 407 Database Design and Implementation 3 credits. Design and implementation of multi-user relational DBMS. Use of stored procedures, advanced SQL, query optimization, transaction processing, DBMS information assurance and administration. Secure object-oriented design, programming and UML. PREREQ: CIS 120 or CS 181, and CIS 403. D

CIS g411 Intermediate Information Assurance 3 credits. Focuses on homeland security,
CIS g412 Systems Security for Senior Management 1-3 credits. Review of system architecture, system security measures, system operations policy, system security management plan, and provisions for system operator and end user training. PREREQ: CIS 410 or permission of instructor. D

CIS g413 Systems Security Administration 1-3 credits. Outlines the basic principles of systems security administration. The student will be introduced to the methods and technologies associated with running a system to maintain privacy and security. PREREQ: CIS 410 or permission of instructor. D

CIS g414 Systems Security Management 1-3 credits. Establishes a framework for managing both systems and systems administrators operating in a secure and private computing environment. The course deals with facilities management, contingency plans, laws, standards of conduct and operations management. PREREQ: CIS 410 or permission of instructor. D

CIS g415 System Certification 1-3 credits. Describes techniques and methods for certifying a system is in compliance with national and governmental information assurance standards. Evaluates various certification methodologies. PREREQ: CIS 410 or permission of instructor. D

CIS g416 Risk Analysis 1-3 credits. Develops techniques to characterize and provide perspective on the likelihood of adverse events. Explains methods to characterize the consequences and general costs associated with the various adverse events occurring. The analysis provides insight into various likelihood and consequence combinations. PREREQ: CIS 411 or permission of instructor. D

CIS g419 Advanced Informatics Practicum 1-3 credits. Significant informatics experience including research coordinated by the faculty designed to provide broad exposure to issues in Information Assurance. Does not fulfill major/minor requirements. May be repeated for up to 6 credits. Graded S/U. PREREQ: Permission of instructor. D

CIS g424 Decision Support Systems 3 credits. Study of the design and implementation of decision support tools and techniques using programming languages and skills. PREREQ: CIS g403, FIN 315, and MGT 217. D

CIS g430 E-Business and Web Development 3 credits. Technical and business topics related to conducting business over the Internet and other networks, including implementation technologies, electronic money and funds transfer, legal and regulatory considerations, security and privacy issues. PREREQ: CIS 120 and CIS g403. D

CIS g440 Object-Oriented Development 3 credits. The organization of software as a collection of discrete objects incorporating both data and operations performed on that data. Concepts of object-oriented development, including classes, inheritance, and encapsulation in an object-oriented language. PREREQ: CIS 220. D

CIS g482 Advanced Systems Analysis and Design 3 credits. Provides the knowledge and tools necessary to develop a physical design and an operational computerized system in a secure environment. PREREQ: CIS g403, CIS g407, MGT 312, MGT 329, FIN 315, FIN 317, and MKTG 325, or graduate status. F, S

CIS g482L Advanced Systems Analysis and Design Laboratory 0 credits. Assignments to apply principles in CIS g482. COREQ: CIS g482. F, S

CIS g485 Network and Communication Systems 3 credits. Study of the implementation and development of network information systems. Protocols and technologies will be compared. PREREQ: CIS 285 or permission of instructor. D

CIS g485L Network and Communication Systems Laboratory 0 credits. Assignments to apply principles in CIS g485. COREQ: CIS g485. D

CIS g486 Business System Simulation 3 credits. Study, construction, and operation of computer simulations as aids for management and administrative decisions. PREREQ: CIS 120, MGT 217, or permission of instructor. D

CIS g487 Software Systems Study of the Software Implementation Process 3 credits. In addition to system optimization techniques, management strategies will be discussed. PREREQ: CIS g403. D

CIS g488 Senior Project 3 credits. Design, implementation and testing of a large software program. Senior status and permission of instructor. D

CIS g490 Management of Information Systems and Information Security 3 credits. Study of the problems associated with the organization, management, and operation of information technology services. PREREQ: CIS 302 or permission of instructor. F, S

CIS g491 Seminar in Computer Information Systems 3 credits. Reading, discussion, and reporting on selected topics. May be repeated for up to 6 credits with permission of instructor. PREREQ: Senior or Graduate status in Business, and permission of instructor. D

CIS g492 Special Problems in Computer Information Systems 1-3 credits. Research and reports on problems or topics in computer science. May be repeated for up to 9 credits with different content. PREREQ: Senior or Graduate status in Business, and permission of the Dean. D

CIS g493 Computer Information Systems Internship 1-3 credits. Significant business experience coordinated by the faculty to provide broad exposure to issues. Does not fulfill major/minor requirements. May be repeated for up to 9 credits. Graded S/U, F, S

CIS g497 Business Systems Laboratory 0 credits. Provides the knowledge and tools necessary to develop a physical design and an operational computerized system in a secure environment. PREREQ: CIS g403, CIS g407, MGT 312, MGT 329, FIN 315, FIN 317, and MKTG 325, or graduate status. F, S

CIS g498 Management Information Systems 3 credits. Study of the problems associated with the organization, management, and operation of information technology services. PREREQ: CIS 302 or permission of instructor. F, S, Su

FIN g431 Financial Monitoring 3 credits. Survey of integrative modeling with special applications of computer models. Includes topics from cash flow forecasting, mergers and acquisition, financial structure, and capital budgeting. PREREQ: FIN 315, S, Su

FIN g448 Financial Management of Depository Institutions 3 credits. An analysis of the managerial issues which affect the financial performance of depository institutions such as capital adequacy, liquidity and asset/liability management techniques, profitability analysis, funding and investment decisions. PREREQ: FIN 315 and FIN 317. D

FIN g450 Advanced Corporate Financial Management II 3 credits. Advanced development of financial statement analysis, financial planning, working capital management and special topics emphasizing analysis and application to financial management decisions. PREREQ: FIN 315 and MGT 216. S
FIN g451 Student-Managed Investment Fund 3 credits. Management of the D.A. Davidson Student-Managed Investment Fund. Students act as financial analysts. Provides students with the real-world knowledge and judgment crucial to sound investing. Students may apply either FIN 451 or FIN 452, but not both, toward their finance electives. PREREQ: FIN 317. F

FIN g452 Student-Managed Investment Fund II 3 credits. Continuation of FIN 451. Management of the D.A. Davidson Student Investment Fund. Students act as financial analysts. Emphasis on security selection, portfolio management, and creation of an annual report. Students can apply either FIN 451 or FIN 452, but not both, toward their finance electives. PREREQ: FIN 317. S

FIN g464 Entrepreneurial Finance 3 credits. Develops financial/managerial skills important to students pursuing entrepreneurial careers. Topics include financial issues to entrepreneurial firms and financing sources available to entrepreneurial companies. PREREQ: FIN 315. D

FIN g475 International Corporate Finance 3 credits. Study of financing investment projects abroad including the tapping of overseas capital markets, financing export transactions, hedging foreign exchange risks, and the control alternatives of international business. PREREQ: FIN 315, FIN 317, and MGT 216. D

FIN g478 Investments 3 credits. Fundamental principles in the risk-return valuation of financial instruments. Topics include the institutional framework in which securities are traded, modern portfolio theory, asset pricing, derivatives, and portfolio management. PREREQ: FIN 315, FIN 317 and MGT 216. F, S

FIN g484 Options and Futures 3 credits. Examination of the pricing and use of options, financial futures, swaps, and other derivative securities. PREREQ: FIN 315, FIN 317, and MGT 216. D

FIN g491 Seminar in Finance 3 credits. Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated for up to 6 credits with permission of instructor. D

FIN g492 Special Problems in Finance 2-3 credits. Research and reports on selected problems or topics in finance. May be repeated for up to 9 credits with different content and permission of major advisor and the Dean. PREREQ: Senior or Graduate status in Business, and permission of the Dean. D

FIN g493 Finance Internship 1-3 credits. Internship coordinated by faculty providing significant exposure to financial issues. May not be used to fulfill major requirements. May be repeated for up to 3 credits. Graded S/U. F, S

Management Courses

MGT 101 Introduction to Business 3 credits. Relates the business person and business enterprise to the economy as a whole, describes the major field of business in terms of functions and opportunities, and charts the significant relationship to government and society. May not be taken by business students who have been admitted to major, or by juniors or seniors taking classes toward any business major. D

MGT 216 Business Statistics 3 credits. Descriptive statistics, probability, confidence intervals, hypothesis testing including one and two sample z-tests, chi-square and ANOVA. Emphasis on statistical software to analyze data for business decision making. PREREQ OR COREQ: MATH 143. F, S, Su

MGT 217 Advanced Business Statistics 3 credits. Linear and multiple regression, forecasting and statistical process control. Emphasis on use of statistical software; written and oral communication of statistical information in a business setting. PREREQ: MGT 216. PREREQ OR COREQ: MATH 143. F, S

MGT 261 Legal Environment of Organizations 3 credits. Covers the legal, ethical, social, economic, political, and regulatory environment of business. Topics include: Business ethics, constitutional law, tort law, product liability, antitrust, employment law, securities regulation, and bankruptcy. PREREQ: Sophomore standing. F, S, Su

MGT 303 Management Concepts 3 credits. A broad overview of management concepts focusing primarily on managing people in organizations. Available to non-business majors only. D

MGT 312 Individual and Organizational Behavior 3 credits. Study of internal structure and function of organizations and management practices. Provides theoretical and conceptual bases for analyzing relationships among individual, group, and total system behavior in achievement of organizational objectives within larger organizational environments. PREREQ: Junior standing and ENGL 102. F, S, Su

MGT 329 Operations and Production Management 3 credits. Basic concepts, philosophy, and techniques of analysis for decision-making at the operational level. PREREQ: ACCT 202, BA 301, CIS 301, and MGT 217. F, S, Su

MGT 345 Business Communications 3 credits. Provides the student with the opportunity and motivation to improve communications skills with emphasis on their application to business. Critical reading and writing skills as well as effective public speaking techniques are stressed. PREREQ: 6 hours of English Composition. D

MGT 362 Business Law 3 credits. Traditional business law. Topics include the law of contracts, sales, agencies, business organizations, and personal property and bailments. PREREQ: MGT 261. D

MGT g410 Entrepreneurship 3 credits. Developing new business ideas, initiating a new enterprise, bringing new technology to the market; applying sound business practices involving management, marketing, accounting, finance and CIS to accommodate changing marketing opportunities. PREREQ: FIN 315, MGT 312, and MKTG 325; Business major or permission of dean. D

MGT 411 Small Business and Entrepreneurship Practicum 3 credits. Advanced students address eastern Idaho entrepreneurship and small business issues. Projects address complex business problems under the supervision of a senior consultant. Class discussions supplement field work. PREREQ: MGT g410. D

MGT 420 Native American Organizational Systems 3 credits. Analysis of factors and dimensions to be considered in the structure and design of contemporary Native American organizations. Comparison of contemporary Native organizational systems with traditional Native American organizations and contemporary organizations. PREREQ: MGT 312 or permission of instructor. D

MGT 422 Native American Enterprise 3 credits. Approaches, strategies, and models utilized in developing tribally-owned and privately-owned Native American businesses across the U.S. and Canada. Analysis of social, economic, and environmental contingency factors that contribute to successful establishment of Native American businesses. PREREQ: Junior standing or permission of instructor. D

MGT g430 Advanced Operations and Production Management 3 credits. Study of problems of line management in organizations. Major sections include strategy, process analysis, manpower planning, inventories, scheduling, and control of operations. Emphasizes both behavioral and technical aspects of problem solving in the area of operations management. PREREQ: MGT 329 and MGT 312. D

MGT g434 Product Quality and Quantity 3 credits. Study of the factors involved in an organization's productivity and quality of product or service. PREREQ: MGT 329 and MGT 312. D

MGT g441 Organization Behavior 3 credits. Case study approach designed to encourage independent thought in the application of behavioral theories and concepts or organizational problems. Emphasis on integrating theoretical concepts with patterns of organizational direction, control, communication, and decision making. PREREQ: MGT 312. F, S

MGT g450 Manufacturing Strategy 3 credits. Study of the various production alternatives as critical factors in a company's competitive strategies. PREREQ: MGT 329 AND MGT 312. D

MGT 460 Problems in Policy and Management 3 credits. A capstone course, which integrates the functional areas of business designed to provide insight into how business decisions are made. PREREQ: Senior standing and BA 301, CIS 301, FIN 315, FIN 317, MGT 312, MGT 329 and MKTG 325. COREQ: BA 400. F, S, Su

MGT g462 Issues In Business and Society 3 credits. Seminar course designed to focus thinking on critical issues facing managers making decisions regarding employees and other stakeholder groups, the community, and the environment. PREREQ: Senior standing or permission of instructor. D

MGT g465 International Business 3 credits. Special emphasis on managerial functions and critical elements of the management process.
in a firm operating under foreign economic, technological, political, social, and cultural environments. PREREQ: ECON 201 and FIN 317. D

MGT g473 Human Resource Management 3 credits. Introduction to the methodology of employee selection, employment and development; personnel supervision and management; financial compensation; job analysis; behavior tools and techniques employed to deal with personnel problems, and contemporary problems of manpower management. PREREQ: MGT 312. F, S

MGTg474 Advanced Human Resource Management 3 credits. In-depth study of selected personnel/human resources management topics, including employee selection, performance evaluation, and compensation administration. PREREQ: MGT 217 and MGT g473. S

MGT g480 Labor and Employment Law 3 credits. State and federal laws, domestic and foreign, governing employment relationships, including labor-management relations, discrimination and employee rights, work place safety, compensation and benefits, and related topics. PREREQ: MGT 261 or MGT 473. F

MGT g482 Project Management 3 credits. Philosophy and tools of project management focusing on applied methodologies. Addresses project scope, breakdown structure, schedules, and closure following professionally accepted industry standards. PREREQ: MGT 329 or permission of instructor. D

MGT g483 Industrial Relations 3 credits. Integrated study of principles and practices of collective bargaining and industrial relations. Discussion of methods and techniques in dealing with labor-management problems arising out of contract negotiations and administration. PREREQ: MGT 312. S

MGTg491 Seminar in Management 3 credits. Reading, discussion, and preparation of reports on selected topics. May be repeated for up to 6 credits with permission of instructor. PREREQ: Senior or Graduate status in Business, and permission of instructor. D

MGT g492 Special Problems in Management 2-3 credits. Research and reports on selected problems or topics in management and organization. May be repeated for up to 9 credits with different content and permission of major advisor and the Dean. PREREQ: Senior or Graduate status in Business, and permission of the Dean. F, S, Su

MGT 493 Management Internship 1-3 credits. Internship program coordinated by faculty providing significant exposure to management issues. May not be used to fulfill major requirements. May be repeated for up to 3 credits. Graded S/U. F, S

Marketing Courses

MKTG 303 Marketing Concepts 3 credits. Basic marketing concepts that emphasize fundamental decision making process. Topics include segmentation and targeting, marketing mix, promotional mix, marketing ethics, and marketing internationally. Projects include developing a personal marketing plan and researching the role of marketing in their chosen majors. Available to non-business majors only. D

MKTG 325 Basic Marketing Management 3 credits. Introduction to the marketing function in business and other organizations. Environmental aspects of market selection and strategy. Analysis of product pricing, promotion, and distribution. PREREQ: MGT 216 or equivalent and ECON 201 or ECON 202. F, S, Su

MKTG 327 Consumer Behavior 3 credits. Analysis of the psychological and sociological aspects of consumer decision-making and behavior including learning, consumer perception, influence of individual predispositions on buying processes, and group influences. PREREQ: MKTG 325. F, S

MKTG 350 Personal Selling 3 credits. Attention given to product features, buying motives, selling points, principles and practices of selling, psychology of salesmanship, sales problems, personal requirements, opportunities. PREREQ: COMM 201, MKTG 325. D

MKTG 353 Marketing Analysis Methods 3 credits. Data analysis techniques to improve marketing operations and research. Use of models to assist in understanding marketing phenomena and decision-making. PREREQ: MKTG 325 and MGT 216, or MKTG 325 and Goal 3. F, S

MKTG 367 Markets and Segmentation 3 credits. An in-depth analysis of the segmentation, targeting and positioning process. Examines segmentation as it operates in the macro-environment and as it impacts price, promotion and brand decisions. PREREQ: MKTG 325. D

MKTG 370 Sales and Sales Management 3 credits. Attention given to buying motives, principles of selling, psychology of salesmanship, personal requirements and motivation, allocation of personal sales effort, and methods of organizing, evaluating, and controlling this effort. PREREQ: MKTG 325. D

MKTG g405 Sales Force Management 3 credits. Determination of the amount and allocation of personal sales effort to be applied to the market and methods of organizing, evaluating, and controlling this effort. D

MKTG g421 Services Marketing 3 credits. Examines the development, promotion, and management of services. Topics covered include strategic planning, delivery channels and promotional challenges inherent to services. PREREQ: MKTG 325. D

MKTG g426 Marketing Research 3 credits. Evaluation and study of the primary means of providing relevant marketing information to management. Emphasizes problem formulation, consideration of data sources, means of acquiring information, sampling, interpretation of results. PREREQ: MGT 216, MGT 217 and MKTG 325. D

MKTG g432 New Product Management 3 credits. Introduction to the promotion process of business enterprises and other types of organizations. Emphasizes the management and implementation of advertising and sales promotion. Includes organizing and operating a sales force. PREREQ: MKTG 325. D

MKTG g432 New Product Management 3 credits. Analysis of new product ideas: screening, business analysis, prototype development, market testing, and commercialization of goods and services. Includes diffusion of innovation issues in consumer and industrial markets. PREREQ: MKTG 325. S

MKTG g440 Seminar in International Marketing 3 credits. Assessment of export potential using secondary research regarding the export feasibility of products offered by select firms in Southeast Idaho. PREREQ: MKTG 325 and Permission of the instructor. D

MKTG 454 Advanced Marketing Management 3 credits. Examines planning and problem-solving activities confronting the marketing manager. Integrates pricing, promotion, merchandising, and physical distribution and relates these to other major functional areas. PREREQ: 9 credits of upper division marketing courses. F, S

MKTG 465 International Marketing 3 credits. Comparative marketing arrangements are examined. Covers factors which need to be recognized by international marketing managers in analyzing markets, covering foreign operations, and assessing economic, cultural, and political aspects of international markets. PREREQ: MKTG 325. S

MKTG g475 Competitive Intelligence 3 credits. How to use competitive intelligence to gain strategic advantages. Includes understanding of information gathering techniques, the conversion of information into intelligence, various analysis methodologies, and intelligence dissemination processes. PREREQ: MKTG 325. F

MKTG g480 Marketing on the Internet 3 credits. Understanding and using the Internet for marketing communications. Includes evaluating current sites, developing skills for authoring HTML pages, and developing an Internet marketing strategy and site for an organization. PREREQ: MKTG 325. D

MKTG g491 Seminar in Marketing 3 credits. Reading, discussion, and preparation of reports on selected topics. May be repeated for up to 6 credits with permission of instructor. PREREQ: At least Senior level and permission of instructor. D

MKTG g492 Special Problems in Marketing 2-3 credits. Research and reports on selected problems or topics in marketing. May be repeated for up to 9 credits with different content and permission of major advisor and the Dean. PREREQ: At least Senior level and permission of the Dean. D

MKTG 493 Marketing Internship 1-3 credits. Internship program coordinated by faculty providing significant exposure to management issues. May not be used to fulfill major requirements. May be repeated for up to 3 credits. Graded S/U. F, S
College of Education

Deborah L. Hedeen, Ph.D., Dean
Jack D. Newsome, Ph.D., Associate Dean
Peter R. Denner, Ph.D., Assistant Dean

The College of Education prepares students (known as “candidates”) who will enter the profession of education. Candidates pursuing teaching, professional school personnel, or administrative careers in schools and other education agencies will find an assortment of integrated programs organized to meet their professional aspirations. All programs of the College are experiential, collaborative, problem-centered, standards-based, assessment-informed, research-guided, and technologically-supported. The College is organized into four departments:

Educational Foundations
Educational Learning and Development
Graduate Department of Educational Leadership and Instructional Design (see the Graduate Catalog)
Sport Science and Physical Education

Accreditations
The professional degrees offered by the College of Education comply with State of Idaho standards for certification and licensure that ensure reciprocity standards with many other states.

The College of Education is fully accredited by the National Council for the Accreditation of Teacher Education (NCATE). The preschool laboratory is accredited by the National Academy of Early Childhood Programs. The Bachelor of Music Education is accredited by the National Association of Schools of Music in the Department of Music, which is in the College of Arts and Sciences. The School Psychology program is accredited by the National Association of School Psychologists. The Special Education program is accredited by the Council for Exceptional Children.

Idaho State University has an institutional commitment to the preparation of teachers. This commitment is carried out by the faculties of the College of Education, the College of Arts and Sciences, and the Kasiska College of Health Professions, working in close cooperation through the Teacher Education Committee. This committee represents the joint curriculum and professional aspects of teacher education and is a subcommittee of the University Curriculum Council. The College of Education shares responsibility with the College of Arts and Sciences and the Kasiska College of Health Professions for many of the secondary level teacher education degrees.

Undergraduate Degrees Offered in the College of Education

Undergraduate degrees offered within the College of Education are:

- Bachelor of Arts in Early Childhood Education
- Bachelor of Arts or Bachelor of Science in:
  - Elementary Education
  - Family and Consumer Sciences (Home Economics)
  - Human Exceptionality
  - Physical Education
  - Secondary Education
- Bachelor of Music Education

College of Education Advising Center
Paula Mandeville, Coordinator

Through the College of Education Advising Center, candidates receive specific advising information relative to admission to teacher education, undergraduate advisor assignments, transfer course evaluations, petitions, academic appeals, and certification recommendations. An advisor is appointed for each candidate who applies for admission to teacher education or files an intent to become a declared major in the College of Education.

Declaration of Major
Declaration of major must be accomplished by the time a candidate has completed 58 credits of coursework.

General Education Requirements

All candidates who have declared a major in the College of Education and plan to acquire a Bachelor of Arts or Bachelor of Music Education degree must complete all goals of the University’s general education requirements (Goals 1, 2, 3, 4, 5, 6, 7, 8, 9, 10A or 10B, 11, and 12).

Candidates pursuing a Bachelor of Science degree must complete Goals 1, 2, 3, 4, 5, two of Goals 6, 7, and 8; and three of Goals 9, 10A or 10B, 11 and 12. A checklist available in the College of Education Advising Center provides goal selection guidance for candidates in the elementary, secondary and early childhood education programs.

Candidates transferring to Idaho State University from a junior college that is part of the statewide articulation agreement should refer to the General Information section of this catalogue to determine fulfillment of the university general education requirements; however, all candidates who plan to enter teacher education and who plan to complete the Student Teaching Internship must fulfill, or have fulfilled, Goals 1, 2, and 3.

Candidates who possess a bachelor’s degree in a discipline other than education and desire to complete requirements for a teaching certificate in any area, must complete, or have completed, Goals 1, 2, and 3 or their equivalents.

Specific general education requirements unique to individual programs in the College of Education are listed with the program in this section of the catalogue.

Education of the Deaf

Individuals interested in becoming certified teachers of children who are deaf/hard of hearing in Idaho will need to meet all requirements of the Idaho State Board of Education. Undergraduate candidates preparing to do this should consult the Office of the Dean, College of Education, as well as the Teacher Education Program for details about admission into an undergraduate program in Elementary, Secondary or Special Education. Individuals who have completed the required undergraduate teacher education program should consult the Department of Communication Sciences & Disorders, and the Education of the Deaf, Kasiska College of Health Professions, for information about the graduate degree program in the Education of the Deaf.
Reasonable Accommodation for Candidates with Disabilities

If you have a diagnosed disability or believe that you have a disability that might require “reasonable accommodation” on the part of the instructor, please call the Director of the ADA and Disabilities Resource Center, (208) 282-3599. As a part of the Americans with Disabilities Act, it is the responsibility of the candidate to disclose a disability prior to requesting reasonable accommodation.

Petitions

Petitions from candidates concerning College of Education and/or teacher education requirements are initiated with the advisor on forms which are available in the Teacher Education Advising Center. The advisor will review the petition for form and content and provide a recommendation. The candidate next seeks the signature and recommendation of the appropriate Director/Department Chair, then files it in the Dean’s office for review and/or action. Petitions concerning general education requirements of the university must also have the signature of the Assistant Dean, College of Arts and Sciences.

Intermountain Center for Education Effectiveness

Charles (Chuck) R. Zimmerly, Ed.D., Director
Susan Jenkins, Ph.D., Associate Director

The mission of the Intermountain Center for Education Effectiveness (ICEE) is to collaborate with local school districts, education agencies, professional organizations, and policy makers throughout the Intermountain West, working within partnerships that enhance the delivery of quality education for the persons we serve. The ICEE coordinates professional education programs and coursework, agency/school development, business and community partnerships, and research with its related services.

These functions are performed in cooperation with the following agencies within this office:

- Center for Policy Studies and Education Research
- Center for Accountability Systems
- Center for Economic Education

- Center for Effective Schools
- Center for Technology Solutions
- League of Schools
- Leadership Development Academy
- Collaborative partnerships with schools and businesses

Department of Educational Foundations

Chair and Associate Professor: Ray
Professors: Denner, Jenkins, Peña, Rankin
Associate Professors: Coffland,*
Luckey, Jack Newsome, Julie Newsome, J. Strickland*
Assistant Professors: Counsell,
Moulton,* Sanger
Associate Lecturers: Jacobsen, Lin, Toevs
Assistant Lecturer: Kauer

*Note: These faculty members are affiliated with the Graduate Department of Educational Leadership and Instructional Design, and also teach in Educational Foundations.

The Department of Educational Foundations is comprised of the Business Education, Child and Family Studies, Early Childhood Education, and Teacher Education program areas, each of which is detailed below.

Business Education Program

The Business Education program expects its candidates to:

1. Develop career awareness and related skills to enable candidates to make viable career choices and become employable in a school setting.
2. Develop in-depth knowledge of technology as it relates to the business education curriculum.
3. Develop and demonstrate the appropriate methodologies for successfully teaching the business education curriculum.
4. Develop skills and knowledge in business education subject matter.
5. Develop competencies in professional technical education.
6. Develop decision making and management skills to be effective as a classroom teacher.

The Business Education program offers a minor, major and single-subject major in Business Education. The program meets the standards for the Business Technology Education standard certification for the State Department of Education in secondary education (grades 6-12). Additionally the program includes coursework leading to occupational certification by the Idaho Division of Professional-Technical Education.

The graduate would be qualified to teach all business education courses such as accounting, clerical procedures, computer technology and keyboarding. Also available through this program is an endorsement in Consumer Economics that qualifies graduates to teach senior high Consumer Economics and Economics.

The Business Education program also participates in Business Professionals of America at the post-secondary level and provides additional opportunities for the potential business education teacher.

Business Education Courses

B ED 100 Electronic Keyboarding 1 credit.
Participants will learn the touch method of keyboarding for entering information into various types of equipment through the use of a typewriter-like keyboard and a ten-key pad. D, W

B ED 102 Intermediate Keyboarding 3 credits. Instruction in typing/formatting letters, tabulations, manuscripts, and business forms on typewriters and microcomputers. Skill building will be attained, utilizing microcomputers and appropriate software. Laboratory time will be in addition to formal class instruction. PREREQ: 35 WPM or permission of instructor. D

B ED 310 Microcomputers in Business Education 3 credits. An investigation into the role of microcomputers in the Business Education Curriculum. Basic concepts of computer applications in data base, spread sheet, word processing, keyboarding, and accounting will be covered. D, W

B ED 320 Clerical Procedures 3 credits. Instruction in telephone techniques, filing and retrieving, mail/communications, reprographics, technical services and information processing. Microcomputers with appropriate software will be utilized. Laboratory time will be in addition to formal class instruction. PREREQ: 1 semester keyboarding or permission of instructor. D

B ED 330 Advanced Technology in Business Education 3 credits. Designed to prepare poten-
tial business educators with respect to the latest technological advances and microcomputer applications as they relate to the secondary business education curriculum.

B ED 332 Methods in Business Education 3 credits. Designed to prepare the potential business education teacher with the necessary methodology to successfully teach business education courses at the secondary level.

B ED 396 Work Experience in Business Occupations 1-2 credits. Credits awarded for work experience as verified by written/performance evaluation. Graded S/U. D

B ED g485 Independent Study in Business Education 1-3 credits. Individual work under staff guidance on areas of concern in business education. PREREQ: Permission of instructor. D

B ED 496 Business Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities while teaching Business Education in a supervised high school setting. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program and approval by advisor. Graded S/U, F, S

Child and Family Studies Program

The Child and Family Studies program includes several undergraduate options:

- Bachelor of Arts in Early Childhood Education
- Bachelor of Arts or Bachelor of Science in Secondary Education with a major in Family and Consumer Sciences Education
- Bachelor of Arts or Bachelor of Science in General Family and Consumer Sciences (a non-teaching major)
- Minor in Consumer Economics
- Minor in Family and Consumer Sciences

These degree areas are designed to prepare teachers and other professionals through general and specialized coursework. The coursework requirements for each major are listed in this section of the catalog, and include core coursework in Education (EDUC), Child and Family Studies (CFS), and/or related areas of study. Candidates interested in pursuing a degree in the area of Child and Family Studies should contact the Department of Educational Foundations for additional information. A master’s degree emphasis in Child and Family Studies is also offered; this degree program is described in the Graduate Catalog.

Bachelor of Arts or Bachelor of Science in General Family and Consumer Sciences

The goal of Family and Consumer Sciences is to prepare individuals for family life, work life, and careers in Family and Consumer Sciences by providing opportunities to develop the knowledge, skills, attitudes, and behaviors needed in a diverse global society. Our unique focus is on families, work, and their inter-relationships. The program intends:

1. To empower the Family and Consumer Sciences practitioner to make unique contributions to diverse and ever evolving educational, community, and business contexts.

2. To produce Family and Consumer Sciences graduates who will be proficient in the delivery of their subject areas and in subject matter knowledge, as well as those research strategies, which can be used to evaluate curriculum effectiveness.

The Bachelor degree in General Family and Consumer Sciences (a minimum of 128 credits) is designed to provide a strong generalist background in all the content areas included in FCS: Child Development, Family Relations, Clothing and Textiles, Nutrition and Foods, Housing/Interior Design, Consumer Economics, and Management. This degree offers a broad-based curriculum to prepare candidates for a variety of employment settings and non-paid work. FCS is a unique profession whose vision “empowers individuals and families across the lifespan to manage the challenges of living and working in a diverse global society.”

Summary of Requirements for a Bachelor’s Degree in General Family and Consumer Sciences (128 credits minimum)

University General Education Requirements

Candidates pursuing a Bachelor of Arts degree in General Family and Consumer Sciences must complete Goals 1-9, 10A or 10B, and Goals 11-12. Candidates pursu-
Secondary Single Subject Major in Family and Consumer Sciences Education

The Family and Consumer Sciences Education major (a minimum of 128 credits) is designed to prepare beginning teachers with a strong background in all areas of Family and Consumer Sciences endorsement on a secondary teaching credential. In addition to the required major coursework, candidates must also complete the occupational teacher preparation coursework. Candidates must also have accumulated two (2) years (4,000 clock hours) of related work experience or shall have completed an approved practicum in their field of specialization.

It is recommended that a candidate complete the Family and Consumer Sciences Education major and a supporting teaching minor such as Consumer Economics, Health or Natural Science.

Summary of Requirements for a Bachelor’s Degree in Secondary Education with a Major in Family and Consumer Sciences Education (128 credits minimum)

University General Education Requirements

Candidates pursuing a Bachelor of Arts in Secondary Education with a major in Family and Consumer Sciences Education must complete Goals 1-9, 10A or 10B, and Goals 11-12. Candidates pursuing a Bachelor of Science degree must complete Goals 1-6, Goal 7 or 8, Goal 9 or 10, and Goals 11-12. It is strongly recommended that Goal 3 be met by MATH 108 and 253; Goal 4 by BIOL 100; and Goal 5 by CHEM 100. The program requires that Goal 6 be met by ART 101; Goal 11 by ECON 201; and Goal 12 by PSYC 101 AND SOC 101.

Required Courses

Required courses must be taken in the recommended sequence. The candidate must work closely with a Family and Consumer Sciences Education advisor as early as possible in the program.

Minors in Consumer Economics

Candidates receiving degrees in majors other than Family and Consumer Sciences may satisfy the requirements for a minor in Consumer Economics. Candidates interested in this minor should consult a Family and Consumer Sciences advisor.
Bachelor of Arts in Early Childhood Education

The Bachelor of Arts in Early Childhood Education degree program is designed to prepare professionals in the field of early childhood education. Early Childhood Education is the study and education of young children from birth through third grade.

Candidates majoring in Early Childhood Education may elect to pursue a Standard K-8 teaching certificate or a Blended Early Childhood Education / Early Childhood Special Education Certificate. This degree program is competency/field based and allows candidates the opportunity to apply course work instruction to practical experiences in approved early childhood education centers at each level of preparation.

Candidates interested in pursuing Early Childhood Education, either as a major field of endeavor or as a support component area, are advised to contact the coordinator for Child and Family Studies for general information and program advisement.

Summary of Requirements for a Bachelor of Arts degree in Early Childhood Education

1. Completion of General Education requirements of the University.

2. Completion of a major in Early Childhood Education including:
   a. Required coursework for the Early Childhood Education major
   b. Supporting coursework leading to EITHER an Idaho Standard K-8 Certificate OR the Blended ECE/ECSE Certificate.

Required coursework leading to both emphases:

CFS 109 Introduction to the Early Childhood Profession 2 cr
CFS 203 The Young Child 3-8 3 cr
CFS 209 Early Childhood Environments and Interactions 3 cr
CFS 373 Curriculum and Assessment in ECE 4 cr
CFS 374 Constructing Social Understanding in ECE 4 cr
CFS 375 Integrating Practice in ECE 3 cr
CFS 411 Concepts and Practices in Blended ECE Programs I 3 cr
CFS 412 Concepts and Practices in Blended ECE Programs II 3 cr

P E 357 Methods of Teaching Elementary Physical Education 3 cr
EDUC 204 Family, Community, Culture 3 cr
EDUC 215 Preparing to Teach with Technology 3 cr
EDUC 311 Instructional Technology 3 cr
EDUC 321 Integrated Language Arts Methods 3 cr
EDUC 322 Literature for Children 3 cr
EDUC 330 Elementary Math Methods 3 cr
EDUC 331 Elementary Science Methods 3 cr
EDUC 401 Language and Literacy Developmental Literacy 3 cr
EDUC 419 Foundations of ESL 3 cr
CFS 493 Early Childhood Education: Student Teaching Internship 7-14 cr

Additional Coursework leading to Idaho Blended ECE/ECSE Certificate Emphasis:

CFS 207 The Young Child Birth to Three 3 cr
CFS 440 Partnerships with Families of Young Children Assessment 3 cr
SPED 424 Strategies for Severe Disabilities 3 cr

Additional Coursework leading to Idaho Standard K-8 Certificate Emphasis:

CFS 435 Family as Developmental Context 3 cr
MUSC 233 Music Methods for Elementary Teachers 2 cr
EDUC 201 Development and Individual Differences 3 cr
EDUC 235 Introduction to Elementary Art Methods / Materials 1 cr
EDUC 301 Inquiry, Thinking, Knowing 3 cr
EDUC 302 Motivation and Management 3 cr
EDUC 309 Planning, Delivery and Instruction 6 cr
EDUC 336 Social Studies Methods 3 cr
SPED 330 The Exceptional Child 3 cr
SPED 350 Creating Inclusive Classrooms 3 cr

Child and Family Studies Courses

CFS 100 Child and Family Studies Professions 1 credit. An introduction to professional careers in related fields. Candidate and career expectations, career options, leadership, balancing work and family, publications, and research directed toward the development of emancipated professionals. F

CFS 109 Introduction to Early Childhood Professions 2 credits. Foundations and professional careers in early childhood education and early childhood special education. S

CFS 120 Personal Economics 3 credits. A study of economic decisions facing people in their daily lives as individuals and families. Topics include budgeting, consumer credit, buying or renting a home, medical care, life insurance, retirement planning, investing, and tax management. D

CFS 202 Field Experience Internship 1-32 credits. Working field internship, innovative approaches in preparation of CDA trainees. Experiences in a curriculum center, library, local settings, resource and day care centers, head start programs, nursery schools (public and private), and child development centers. Experience with educational and creative supplies and materials. PREREQ: Approved enrollment in Child Development Associate Program. D

CFS 203 The Young Child 3 credits. Study and observation of typical and atypical development from conception to age eight. Focus on interaction and balance among developmental domains and influence of societal contexts. Field experience required. PREREQ: EDUC 215. PREREQ OR COREQ: CIS 101 or equivalent competency. F

CFS 207 Infants and Toddlers in Early Childhood Education 3 credits. Study of developmentally appropriate care and education of infants and toddlers. Field experience required. PREREQ: CFS 203 or permission of instructor.

CFS 209 Early Childhood Environments 3 credits. Study of home and school environments as foundations for fostering young children’s learning. Emphasis on materials, space, schedule, and verbal interactions. Field experience required. PREREQ: CFS 203 or permission of instructor. S

CFS 229 Textile Products 3 credits. Study of the interactive relationship among fibers, fabrics, and the construction of textile products. Information applied within the context of home and family use. PREREQ: CHEM 100, ART 100 or permission of instructor. S

CFS 314 Interior Design and Housing Perspectives 3 credits. Study of individual housing needs and alternatives including practical applications and decision making. Emphasis on social-psychological aspects of housing. Topics include dwelling design, construction, financing, remodeling, and interior furnishings. F

CFS 318 Leadership Issues Seminar 1 credit. Consideration of issues related to the transition from candidate to professional. Insight into successful functioning as a team member and leader in the profession. PREREQ: Junior standing or permission of instructor. S

CFS 321 Families and American Society 3 credits. American families in social-historical contexts. Contemporary issues confronting families as social institutions and examination of impact of family interaction dynamics. Cross-listed as SOC 321. PREREQ: SOC 101 or permission of instructor. F

CFS 322 Building Positive Relationships 3 credits. Exploration of the role of decision-making and interpersonal understanding as forces in creating self-formed individuals. Emphasis placed upon building and maintaining positive interpersonal relationships. PREREQ: SOC 101 and PSYC 101. D

CFS 332 Programs in Family and Consumer Sciences 3 credits. Organization of professional-technical programs as influenced by legislation, State guidelines, association standards, and philosophical frameworks. Lecture and laboratory. D

CFS 373 Curriculum and Assessment in Early Childhood Education 4 credits. Study of assessment and inquiry based curriculum practices
which support development and integrate learning in content areas, including literacy, math, science, art, music, drama, and movement. Field experience required. PREREQ: CFS 209 and admission to Teacher Education Program or permission of instructor. COREQ: CFS 435. F

CFS 374 Constructing Social Understanding in ECE 4 credits. Study of psychosocial and linguistic strategies to support learning, problem solving and other positive relationships in families and classrooms. Emergent social studies connections defined. PREREQ: CFS 373 or permission of instructor. S

CFS 375 Integrating Practices in Early Childhood Education 3 credits. Planning, delivery and assessment of learning in early childhood settings. Emphasis on reflective practice and professional collaboration as basis for decision-making. Field experience required. COREQ: CFS 374 or permission of instructor. S

CFS 400 Foundations of Early Childhood Special Education 3 credits. Survey of the history, philosophy, relevant legislation, and interdisciplinary aspects of the field. Major focus on typical and atypical development from birth through five years, integrating all areas of development. F

CFS 401 Foundations of Early Childhood Education 3 credits. Examination of social, historical, and philosophical foundations of early childhood education and their respective influences on currently accepted concepts and practices in programs serving young children from birth through age eight. AF

CFS 411 Concepts and Practices in Blended Early Childhood Programs 1-3 credits. Synthesis of assessment and curriculum practices which support development and learning for all young children. Field experiences required. PREREQ: CFS 373 or permission of instructor. F

CFS 412 Concepts and Practices in Blended Early Childhood Programs II 3 credits. Candidate projects and integration of current policies, issues, and practices affecting young children and families. Introduction to program administration, supervision, and evaluation. Field experiences required. PREREQ: CFS 411 or permission of instructor. S

CFS 429 Social and Psychological Aspects of Clothing 3 credits. Study of clothing as a tool of self-expression and social interaction. Various personal and societal contexts emphasized. PREREQ: SOC 100, PSYC 100 or permission of instructor. F

CFS 431 Family Resource Management 3 credits. Management theory for resource utilization and goal achievement. Issues include stress, communication, and family types. Emphasis on decision-making related to the dynamics of balancing work and family. PREREQ: CFS g470 or permission of instructor. S

CFS 435 Relationships Within Families 3 credits. Building and maintaining positive relationships within families. Critical issues facing individuals and families including communication, cultural diversity, balancing multiple roles, time management and financial planning. F

CFS 440 Partnerships with Families of Young Children 3 credits. Examination of early intervention policies and practices. Emphasis on development and implementation of individual family service plans and service delivery in natural settings. Field experience required. PREREQ: CFS 373 or permission of instructor. S

CFS g470 Consumer Economics 3 credits. Financial management content with a focus on developing effective decision-making processes for managing resources. Topics: The changing American family; consumer protection and recourse; purchasing decisions; consumer credit; fundamentals of savings/investment; and insurance. F

CFS g471 Advanced Consumer Economics 3 credits. Advanced study of social and economic problems affecting individuals and families. Topics: financial security; credit and loans; tax planning; major consumer purchases; risk management; investments; retirement and estate planning. PREREQ: CFS g470 or permission of instructor. S

CFS g472 Teaching Consumer Economics 1-3 credits. Designed to provide educators with current content and resources for developing consumer and economic education curriculum. Teaching techniques discussed and practiced. PREREQ: CFS g471 or permission of instructor. D

CFS 481 Special Problems in Child and Family Studies 1-3 credits. Candidates select problem on the basis of needs, interests, or abilities. Independent work in the laboratory, library, or community. Regular advisor conferences required PREREQ: Permission of instructor F, S, Su

CFS 490 Field Experience in Child and Family Studies 1-3 credits. Candidates participate in a variety of settings including schools, agencies, businesses, and child care settings. PREREQ: Permission of instructor. F, S

CFS 493 Early Childhood Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in supervised early childhood/primary setting. PREREQ: Admission to Teacher Education Program and/or approved application. Graded S/U. F, S

CFS 494 Partnerships with Professionals 3 or 6 credits. Professional cooperative experience with business agency. Seminar plus 126 hours experience, 3 credits; 252 hours, 6 credits. PREREQ: 9 credits in emphasis area, 2.5 GPA, HRD g457 or HRD g455, and permission of instructor. D

CFS 495 Family and Consumer Sciences Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in supervised settings. PREREQ: Admission to Teacher Education Program and permission of instructor. Graded S/U. D

Teacher Education Program

Bachelor’s Degrees in Teacher Education

Bachelor’s degrees administered by the Teacher Education Program are:

- Bachelor of Arts and Bachelor of Science in:
  - Elementary Education
  - Physical Education
  - Secondary Education
- Bachelor of Music Education

The transfer policy, alternate means to satisfy general education requirements, and general education and major field requirements as listed in the graduation requirements section of this bulletin also apply to College of Education majors.

Teacher Education General Requirements

A candidate pursuing any bachelor’s degree in the College of Education must fulfill the University’s General Education requirements, listed in this catalog’s General Information section.

Core Standards

The coursework and clinical experiences of the Idaho State University Teacher Education Program are designed to insure that graduates in teacher education meet the following Idaho State Core Standards for Beginning Teachers (CSBT) and Idaho Core Teacher Standards (ICTS):

- CSBT/ICTS 1. Knowledge of Subject Matter
  The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.
- CSBT/ICTS 2. Knowledge of Human Development and Learning
  The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
- CSBT/ICTS 3. Adapting Instruction for Individual Needs
The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

- **CSBT/ICTS 4. Multiple Instructional Strategies**
The teacher uses a variety of instructional strategies to develop student learning.

- **CSBT/ICTS 5. Classroom Motivation and Management Skills**
The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

- **CSBT/ICTS 6. Communication Skills**
The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

- **CSBT/ICTS 7. Instructional Planning Skills**
The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

- **CSBT/ICTS 8. Assessment of Student Learning**
The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

- **CSBT/ICTS 9. Professional Commitment and Responsibility**
The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

- **CSBT/ICTS 10. Partnerships**
The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community, to support students’ learning and well-being.

- **CSBT 11. (ISU) Technology**
The teacher uses technology in the planning, delivery, analysis, and assessment of learning and instruction.

- **CSBT 12. (ISU) Literacy**
The teacher supports and expands student literacy skills and models effective communication.

- **CSBT 13. (ISU) Professional Studies and Research**
The teacher uses alternative theoretical perspectives and research to guide instructional decision making and reflection on practice.

Fulfilling the general requirements of teacher education gives the candidate for teaching a well-rounded education. Choice of a subject major and a subject minor provides the teaching background specialization for the secondary school teacher. Certain subject field requirements provide for the specialization needed by elementary school teachers. This general and specialized education is fulfilled via courses taken by the teacher education candidate in the College of Arts and Sciences and College of Health Professions. Professional education is provided through a broad foundation in the principles and practices of teaching with particular attention being given to pedagogy, adaptation of instruction for all learners, educational psychology, educational philosophy, child growth and development, child guidance, diversity, and assessment. Transition from preparation for teaching to actually becoming a teacher is provided during the pre-internship and internship periods under competent and experienced classroom teachers.

**Admission, Retention, and Recommendation for Certification**
To be admitted to the Teacher Education Program, candidates must meet admission criteria described in the following pages. Procedures for admission and retention of a candidate in the Teacher Education Program have been established. These procedures call for a review of each individual prior to a recommendation for certification. Copies of these standards and procedures are available from the Idaho State Department of Education and can be obtained from their website or from the office of the Dean of the College of Education.

Because of the responsibility of a member of the teaching profession to the total development of young people, and notwithstanding a candidate’s enrollment in or graduation from the College of Education, the Dean and the faculty of the College of Education reserve the right to refuse to recommend a candidate for a standard teaching certificate, or to admit a candidate to a teaching program, if such recommendation or assignment, in the discretion of the Dean and faculty of the College of Education, would appear to be contrary to or in violation of Sections 33-1202 and/or 33-1208, Idaho Code.

**Admission to Teacher Education Program**
Candidates must make formal application and complete an interview for admission to the Teacher Education Program. Application for admission and the scheduling of the admission interview are completed through forms available in the College of Education Advising Center of the College of Education. Standards for admission are approved and implemented by the Teacher Education Committee, a committee representing all Idaho State University teacher education programs.

Candidates in teacher education are under the same general probationary policy as the rest of Idaho State University as far as probation and dismissal from the institution are concerned. Candidates must continue to demonstrate satisfactory progress in achieving the Teacher Education Program standards.

Application for admission to teacher education is made on forms provided in the College of Education Advising Center following the completion of at least 26 credits hours of college work. Candidates may not register for core courses numbered 300 and above until admittance to teacher education is achieved. Candidates who have been denied admittance to teacher education may reapply when deficiencies have been met. Criteria for admission include the following:

1. A 2.75 overall grade point average including all transfer credits or credits earned in a previous degree program.
2. A grade of “B” or higher in at least two of the following areas with a grade of no lower than “C” in any of the three areas:
   - ENGL 101 (English Composition) or ENGL 102 (Critical Reading and Writing) or College of Education approved equivalent.
   - COMM 101 (Principles of Speech) or College of Education approved equivalent.
   - MATH: Any of the following, or College of Education approved equivalent:
Elementary

a) 108 Intermediate Algebra
b) 143 College Algebra
c) 256 Structure of Arithmetic for Elementary School Teachers
d) 257 Structure of Geometry and Probability for Elementary School Teachers

Secondary

a) 123 Mathematics in Modern Society
b) 127 The Language of Mathematics
c) 130 Finite Mathematics
d) 160 Applied Calculus
e) 170 Calculus I
f) 253 Introduction to Statistics

3. A background check as outlined in EDUC 201.
4. A grade of “C” or higher in the following courses:
   EDUC 215 (Preparing to Teach with Technology)
   AND
   EDUC 201 (Development and Individual Difference) OR
   CFS 203 (The Young Child)
5. Presentation of minimum scores achieved on the Praxis I Academic Skills Assessments:
   Reading = 172;
   Writing = 174;
   Mathematics = 169.
6. Submission of Professional Portfolio entry completed as course requirement for EDUC 201 or CFS 203.
7. Recommendation forms completed by EDUC 201 or CFS 203 instructor.
8. Submission of signed affidavit indicating awareness of Idaho Code pertaining to teacher certification requirements.
9. Successful completion of the Teacher Education Program Admission Interview.

Denial of Admission to Teacher Education

Candidates who have been denied admission to teacher education may reapply; however, they must meet the standards for admission in place at the time of their reapplication to attain admission.

Student Teaching Internship

The student teaching internship is designed to be the culminating professional clinical experience for candidates in teacher education. This is a professional development experience during which the intern works in a school context with students. It provides an opportunity for the intern to assume major responsibility for the full range of teaching in an approved school situation under the guidance of qualified personnel from Idaho State University and the cooperating elementary and secondary schools.

The internship is scheduled for a full semester. Candidates should not plan to enroll in any additional coursework during the internship semester. All programs other than Music Education require 14 credits of internship. Some internships may consist of two 7 credit blocks, and others may be a single 14 credit block. The Music Education program requires 7 or 14 credits to be determined in consultation with the Music Department.

Admission to Internship

A candidate’s application for a student teaching internship must be filed with the Office of Field Experiences by October 20 for full semester of the following year, and by April 20 for spring semester of the following year. There is a $50 charge for late applications, a $25 charge for change of placement, and a $25 charge for reapplication. Applications for all teaching internships may be obtained from the Office of Field Experiences.

The application must be signed by the advisor(s) and the Director of the Office of Field Experiences.

Eligibility Criteria

The candidate must meet the following criteria for enrollment in the internship (EDUC 492, 494, 495, or 496, B ED 496, CFS 493 or 495, P E 495, SPED 495):

1. Completion of all requirements unless specifically approved by petition.
2. Completion of at least 67% of the professional education core credits from Idaho State University.
3. A 2.75 grade point average overall including all transfer credits or credits earned in a previous degree program.
4. A 2.75 grade point average in the professional education core including all transfer credits or credits earned in a previous degree program with a grade of “C” or higher in all courses used for the professional education core.
5. A 2.50 grade point average in the teaching major and minor (secondary) or emphasis area (elementary) including all transfer credits or credits earned in a previous degree program.
6. A grade of “C” or higher in ENGL 102 (Critical Reading and Writing) or College of Education approved equivalent course.
7. Must be admitted to the teacher education program.
8. Successful completion of the Praxis II Content Test in each area being recommended for certification. Qualifying scores for each test are available in the Teacher Education Office and the College of Education Dean’s Office.
9. For elementary, special education, and early childhood candidates successful completion of two of the three Idaho Comprehensive Literacy Assessment standards. Qualifying scores for the ICLA are available in the College of Education Advising Center.

Correspondence Courses

No candidate is permitted to enroll in a correspondence course during the semester in which s/he is completing the internship without written permission from the Director of the Office of Field Experiences.

Elementary Education

The emerging elementary education professional is expected to:

1. Select general education goal courses that support the cognitive knowledge and skill requirements of an elementary teacher, including a study of the state’s history.
2. The emerging elementary education professional is expected to have subject matter depth in social science, language arts, science, mathematics, or language. He/she must utilize this knowledge in specific applications and assessments within the educational methods curriculum.
3. The emerging elementary education professional is expected to be aware of the theories related to cognitive and physical child development, classroom management and motivation, lesson planning, delivery, technology classroom integration and assessment.
4. The emerging elementary education professional is expected to participate in diverse early and extended field experiences, where their actual lesson planning, delivery, and assessment can be externally evaluated.

Summary of Requirements for a Bachelor of Arts or a Bachelor of Science degree in Elementary Education

1. Completion of General Education requirements of the University.

In order to meet the State of Idaho Elementary teaching certification requirements and the standards generated by the “No Child Left Behind” legislation, the College of Education prescribes the following set of courses to meet the General Education requirements of the University:

All Elementary Education majors will complete a minimum of the Bachelor of Science (B.S.) [goals 1-7, 9, 11, and 12] option of the General Education Requirements. Candidates wishing to earn a Bachelor of Arts (B.A.) must meet the requirements for the B.S., but could add goal 8, and either 10A or 10B.

Required Courses

Goal 1:  ENGL 101 and ENGL 102;  
Goal 2:  COMM 101;  
Goal 3:  MATH 256 and MATH 257;  
Goal 4:  BIOL 100-100L;  
Goal 5:  PHYS 100;  
Goal 6:  ART 100; ART 101; ART 102;  
MUSC 100; MUSC 106;  
MUSC 108;  
Goal 7:  ENGL 110;  
Goal 9:  HIST 118;  
Goal 10:  POLS 101;  
Goal 12:  SOC 101

Additional course work in content areas is required:

- English (11 credits)  
- History (HIST g423 or GEOL/HIST/POLS g471) 3 cr
- Science (GEOL 101/101L) 4 cr

2. Completion of a major in Elementary Education includes:

a. the Professional Education Core.

b. one Emphasis Area (English, Mathematics, Science, or History), chosen from the fields listed under Elementary Education Emphasis Areas.

Secondary Teacher Education

Summary of Requirements for a Bachelor of Arts or a Bachelor of Science degree in Secondary Education.

A minimum of 128 semester credit hours to include:

1. Completion of general university requirements (see Academic Information and Graduation Requirements of the university).

2. Completion of a subject teaching major of at least 30 semester credit hours as recommended by the subject department and approved by the College of Education, and completion of a subject teaching minor of at least 20 semester credit hours as recommended by the subject department and approved by the College of Education, OR completion of a single subject teaching major of at least 45 semester credit hours as recommended by the subject department and approved by the College of Education.

3. Completion of the professional education core.

Professional Education Core

EDUC 201 Development and Individual Differences 3 cr
EDUC 204 Families, Communities, Culture 3 cr
EDUC 215 Preparing to Teach with Technology 3 cr
EDUC 301 Inquiring, Thinking, Knowing 3 cr
EDUC 302 Motivation and Management 3 cr
EDUC 309 Instructional Technology 3 cr
EDUC 311 Instructional Technology 3 cr
EDUC 401 Language and Literacy 3 cr
EDUC 350 Creating Inclusive Classrooms 3 cr
EDUC 496 Secondary Education: Student Teaching Internship 7-14 cr

Conceptual Framework. In addition, the program graduated teacher who exemplify the following guiding principles. The Secondary Educator:

1. Is a content area expert able to represent subject matter in multiple ways to ensure depth of student understanding.

2. Ensures curriculum alignment with state and national student achievement standards.

3. Uses all appropriate tools and techniques of teaching to guide and assess student learning.

4. Provides consistent opportunities for all students to learn and adapts instruction to meet the needs of diverse learners.

5. Fosters family and community relationships that promote student learning.

Biological Sciences Major

BIOL 101/101L Biology I and Lab 4 cr
BIOL 102/102L Biology II and Lab 4 cr
BIOL 206 Cell Biology 3 cr
BIOL 207 Cell Biology Laboratory 1 cr
BIOL 209 General Ecology 4 cr
BIOL 221 Introductory Microbiology 3 cr
BIOL 223 Introductory Microbiology Laboratory 1 cr
BIOL 310 Invertebrate Zoology 4 cr
BIOL 358 Genetics 3 cr
BIOL 413 Biology Teaching Methods 3 cr
BIOL 417 Organic Evolution 3 cr
BIOL 491 Seminar 1 cr
BIOL 492 Seminar 1 cr
MATH 160 Applied Calculus 3 cr
MATH 253 Introduction to Statistics 3 cr

Plus one of the following botany course options:

BIOL 213-214 Spring and Fall Flora* 4 cr
BIOL 404 Plant Physiology 4 cr
BIOL 405 Plant Anatomy 3 cr
BIOL 406 Plant Diversity and Evolution 4 cr
BIOL 408 Plant Ecology 3 cr
BIOL 412 Systematic Botany* 4 cr
BIOL 431 also a recommended elective.

Biological Sciences Minor

BIOL 101/101L Biology I and Lab 4 cr
BIOL 102/102L Biology II and Lab 4 cr
BIOL 221 Introductory Microbiology 3 cr
BIOL 223 Introductory Microbiology Laboratory 1 cr
BIOL (Botany—a minimum of 2 credits are required)
BIOL 209 General Ecology 4 cr
BIOL 413 Biology Teaching Methods 3 cr
MATH 160 Applied Calculus 3 cr
MATH 253 Introduction to Statistics 3 cr

Plus two of the following:

BIOL 209 General Ecology 4 cr
BIOL 358 Genetics 3 cr
BIOL 417 Organic Evolution 3 cr

Business Education Major

ACCT 201 Principles of Accounting 3 cr
B ED 102 Intermediate Keyboarding 3 cr
B ED 310 Microcomputers in Business Education 3 cr

Business Education Minor

ACCT 201 Principles of Accounting 3 cr
B ED 102 Intermediate Keyboarding 3 cr
B ED 310 Microcomputers in Business Education 3 cr

Chemistry Major

CHEM 111 General Chemistry I 5 cr
CHEM 112 General Chemistry II 4 cr
CHEM 211 Inorganic Chemistry I 3 cr
CHEM 213 Inorganic Chemistry I Lab 1 cr
CHEM 232 Quantitative Analysis 2 cr
CHEM 234 Quantitative Analysis Lab 2 cr
CHEM g400 Practicum in Physical Science 2 cr
Approved electives in Chemistry 12 cr

Chemistry Minor

CHEM 111 General Chemistry I 5 cr
CHEM 112 General Chemistry II 4 cr
CHEM 211 Inorganic Chemistry I 3 cr
CHEM 213 Inorganic Chemistry I Lab 1 cr
CHEM g400 Practicum in Physical Science 2 cr
Approved electives in Chemistry 7 cr

Communication and Rhetorical Studies Major

M C 119 Introduction to Mass Media 3 cr
COMM 208 Group Communication 3 cr
COMM 305 Argumentation and Debate 3 cr
COMM g437 Rhetorical Theory 3 cr
COMM g441 Interpersonal Communication 3 cr
THEA 111 Stagecraft I 3 cr
THEA 118 Oral Interpretation 3 cr
THEA 251 Beginning Acting 3 cr
THEA 331 Materials and Methods for High School Speech Arts 3 cr
One 400 level elective in Speech 3 cr

Communication and Rhetorical Studies Minor

COMM 208 Group Communication 3 cr
COMM 305 Argumentation and Debate 3 cr
COMM 355 Nonverbal Communication 3 cr
COMM g436 Rhetorical Criticism 3 cr
COMM g437 Rhetorical Theory 3 cr
COMM g441 Interpersonal Communication 3 cr
One 400 level elective in Speech 3 cr

Consumer Economics Minor
CFS g431 Family Resource Management 3 cr
CFS g470 Consumer Economics 3 cr
CFS g471 Advanced Consumer Economics 3 cr
ECON 201 Principles of Microeconomics 3 cr
ECON 202 Principles of Microeconomics 3 cr
Choose two of the following (6 credits):
ACCT 201 Principles of Accounting I 3 cr
ACCT 202 Principles of Accounting II 3 cr
CFS g472 Teaching Consumer Economics 1-3 cr
ECON 323 Economic History 3 cr
ECON 331 Money and Banking 3 cr
ECON 334 International Economics 3 cr
ECON 338 Public Finance 3 cr
MGT 261 Legal Environment of Organizations 3 cr
MGT 362 Business Law 3 cr
MKTG 325 Basic Marketing Management 3 cr
MKTG 327 Consumer Behavior 3 cr

Economics Major
ECON 201-202 Principles of Microeconomics and Microeconomics 6 cr
ECON 301 Macroeconomics Theory 3 cr
ECON 302 Microeconomics Theory 3 cr
ECON 323 Economic History 3 cr
ECON 331 Money and Banking 3 cr
Approved electives in Economics 12 cr

Economics Minor
ECON 201-202 Principles of Microeconomics and Microeconomics 6 cr
ECON 301 Macroeconomics Theory 3 cr
ECON 302 Microeconomics Theory 3 cr
ECON 331 Money and Banking 3 cr
Approved electives in Economics 12 cr

Minor in Deaf Education*
CSED 126 Deaf Studies 1 cr
CSED 265 Introduction to Communication Differences and Disorders 3 cr
CSED 266 Deaf Culture and Community 3 cr
CSED 330 Language Science and Development 3 cr
CSED 456 Psychosocial Aspects of Deafness 3 cr
CSED g460 Educational Audiology 3 cr

Electives (8 credits minimum)
CSED 151 American Sign Language I 4 cr
CSED 152 American Sign Language II 4 cr
CSED 251 American Sign Language III 4 cr
CSED 252 American Sign Language IV 4 cr
CSED 327 Basic Sign I 2 cr
CSED 328 Basic Sign II 2 cr
CSED g405 Neurological Bases of Communication Disorders 3 cr
* (non certification)

Procedure: Interested students should contact the department of Communication Sciences & Disorders, and the College of Education at the Deaf to declare a minor and be assigned a minor advisor. Students with a minor in Deaf Education who are eligible for a teaching certificate may be prepared to enter the regular, 14-month graduate program.

English Major
ENGL 211 Introduction to Literary Analysis 3 cr
ENGL 267 or 268 Survey of English Literature I or II 3 cr
ENGL 277 or 278 Survey of American Literature I or II 3 cr
ENGL 280 Grammar and Usage 3 cr
ENGL 283 Introduction to Language Studies 3 cr
ENGL 301 Writing About Literature 3 cr
ENGL 433* Methods: Teaching English 3 cr
ENGL 491 Senior Seminar 3 cr

One of the following:
ENGL g472 Proseminar in a Major Literary Figure 3 cr
ENGL g473 Chaucer 3 cr
ENGL g474 Milton 3 cr
ENGL g476 Shakespeare 3 cr

Plus one additional course from the following:
ENGL 257 or 258 Survey of World Literature I or II 3 cr
ENGL 267 or 268 Survey of British Literature I or II 3 cr
ENGL 277 or 278 Survey of American Literature I or II 3 cr
Approved electives (6 cr must be upper division) 9 cr
* ENGL 433 must be completed before Student Teaching Internship.

English Minor
ENGL 211 Introduction to Literary Analysis 3 cr
ENGL 267 or 268 Survey of English Literature I or II 3 cr
ENGL 277 or 278 Survey of American Literature I or II 3 cr
ENGL 280 Grammar and Usage 3 cr
ENGL 283 Introduction to Language Studies 3 cr
ENGL 301 Writing About Literature 3 cr
ENGL 433* Methods: Teaching English 3 cr

Plus one course from the following:
ENGL 206 Creative Writing Workshop 3 cr
ENGL 307 Technical Writing 3 cr
ENGL 308 Business Writing 3 cr
ENGL 333 Teaching Writing One-on-One 3 cr
ENGL g401 Advanced Composition 3 cr
ENGL g431 Teaching and Writing Projects: Special Topics 3 cr

Plus one course from the following:
ENGL 257 or 258 Survey of World Literature I or II 3 cr
ENGL 267 or 268 Survey of British Literature I or II 3 cr
ENGL 277 or 278 Survey of American Literature I or II 3 cr
* ENGL 433 must be completed before Student Teaching Internship.

English as a Second Language (ESL) Minor

Foreign Language (8 credits) Choose 8 credits from any foreign language.

Multicultural Education (6 credits)
Choose two courses from:
ANTH/ENGL 212 Introduction to Folklore/ Oral Tradition 3 cr
ANTH 250 Introduction to Sociocultural Anthropology 3 cr

English as a Second Language (ESL) Minor

Foreign Language (8 credits) Choose 8 credits from any foreign language.

Multicultural Education (6 credits)
Choose two courses from:
ANTH/ENGL 212 Introduction to Folklore/ Oral Tradition 3 cr
ANTH 250 Introduction to Sociocultural Anthropology 3 cr

ENGL 356 Ethnicity and Minority Literature 3 cr
SOC 248 Social Diversity 3 cr

ESL Methodology (7 credits)
EDUC g460 Foundations of ESL 3 cr
EDUC g463 ESL Methods 3 cr
EDUC g464 ESL Methods Lab 1 cr

Linguistics (6 credits)
ANTH/ENGL/LANG 107 Nature of Language 3 cr

Choose one course from:
ANTH g450 Introduction to Socio-linguistics 3 cr
ANTH/LANG g455 Linguistic Analysis I 3 cr

Family and Consumer Sciences Minor
CFS 203 The Young Child 3 cr
CFS 314 Interior Design and Housing Perspectives 3 cr
CFS 332 Programs in Family and Consumer Sciences 3 cr
CFS 429 Social and Psychological Aspects of Housing 3 cr
CFS g431 Family Resource Management 3 cr
EDUC 204 Families, Communities, Culture 3 cr
NTD 104 Foods 3 cr

Select one course from the following:
CFS 209 Early Childhood Environments 3 cr
CFS 229 Textile Products 3 cr
CFS g435 Consumer Sciences 3 cr
NTD 204 Meal Management 2 cr
NTD 239 Nutrition 3 cr

This is a non-certification program; please consult an advisor.

French Major
FREN 301-302 French Conversation and Composition 6 cr
and their prerequisites or equivalent high school courses.
LANG g437 The Teaching of Foreign Languages 3 cr
Upper division electives in French 12 cr
(must be approved by the Foreign Languages Department and the College of Education).

French Minor
FREN 201-202 Intermediate French (or equivalent) 8 cr
LANG g437 The Teaching of Foreign Languages 3 cr
Approved electives in French 12 cr
(must be approved by the Foreign Languages Department and the College of Education).

Geology Major (at least 30 cr)
Must be accompanied by a Science minor of 20 credits.
GEOL 100,100L The Dynamic Earth, and Lab 4 cr
GEOL 101 Physical Geology 3 cr
GEOL 110* Physical Geology for Scientists Lab 1 cr
GEOL 115,115L Physical Geography, and Lab 6 cr
GEOL 210 Earth in Space and Time 3 cr
GEOL 400 Geology Teaching Practicum 1 cr
GEOL g406 Environmental Geology 3 cr
GEOLPHYS g410Science in American Society 2 cr
Plus approved electives from the following, to reach a total of at least 30 credits:

<table>
<thead>
<tr>

MATH 326 Elementary Analysis 3 cr
MATH 407 Modern Algebra I 3 cr
MATH 444 Modern Geometry II 3 cr

Music Education
See Bachelor of Music Education degree program (K-12 certification) for requirements.

Physical Education Major

P E 220 Foundations of Physical Education 3 cr
P E 221 History, Philosophy, and Ethics of Physical Education and Sport 3 cr
P E 222 First Aid, CPR and Sport Safety 3 cr
P E 235 Activity Performance Techniques I 3 cr
P E 236 Activity Performance Techniques II 3 cr
P E 237 Activity Performance Techniques III 3 cr
P E 243 Anatomical Foundations of Human Activity 3 cr
P E 292 Leadership Practicum 1 cr
P E 300 Movement Theory and Motor Development 3 cr
P E 301 Physiology of Exercise 3 cr

AND one of the following:
P E 302 Biomechanics 3 cr
P E 322 Psycho-Social Aspects of Human Activity 3 cr
P E 357 Methods of Teaching Elementary Physical Education 3 cr
P E 362 Tests and Measurements in Physical Education 3 cr
P E 435 Methods of Teaching Creative Movement 3 cr
P E 437 Methods of Teaching Secondary Physical Education 3 cr
P E 475 Organization and Administration of Physical Education and Sport 3 cr
P E 494 Adapted Physical Activity (consult with advisor) 1 cr
Approved Electives in Physical Education 6 cr

TOTAL: 59 cr

Russian Minor

RUSS 201-202 Intermediate Russian 8 cr
LANG g437 The Teaching of Foreign Languages 3 cr

Required electives in Russian 12 cr

Required courses in English

They must be approved by the Foreign Languages Department and the College of Education.

Social Science Major

Required prerequisite foundational courses which also satisfy the General Education requirements:

HIST 101 Foundation of American Government 3 cr
HIST 118 U.S. History and Culture 3 cr
POLS 101 Introduction to American Government 3 cr
SOC 101 Introduction to Sociology 3 cr

Required Courses

ECON 201-202 Principles of Macroeconomics and Microeconomics 6 cr
ECON 323 Economic History 3 cr
EDUC 336 Social Science Methods 2 cr
HIST 102 Development of Western Civilization 3 cr
HIST 418 U.S. History for Teachers 3 cr
HIST g427 North American West 3 cr
SOC 248 Social Diversity 3 cr
SOC g462 Social Stratification 3 cr

One course from:
POLS 331 Comparative Politics: Framework for Analysis 3 cr
POLS g432 Comparative Politics: Change and Political Order 3 cr
POLS g433 Politics of Developing Nations 3 cr

One course from:
POLS 308 State and Local Government 3 cr
POLS 326 Recent American Foreign Policy 3 cr
POLS 342 American Legal Systems 3 cr
POLS g401 Political Parties and Interest Groups 3 cr
POLS g403 The Presidency 3 cr
POLS g404 The Legislative Process 3 cr
POLS g411 American Political Theory 3 cr
POLS g443 Constitutional Law 3 cr

Social Science Minor

ECON 201-202 Principles of Macroeconomics and Microeconomics 6 cr
HIST 118 U.S. History and Culture 3 cr
HIST g418 U.S. History for Teachers 3 cr
POLS 101 Introduction to American Government 3 cr
SOC 101 Introduction to Sociology 3 cr

One course in non-U.S. History or one course selected from:
ANTH 100 General Anthropology 3 cr
ANTH 237 Peoples and Cultures of Old World 3 cr
ANTH 238 Peoples and Cultures of New World 3 cr

One course selected from:
POLS 331 Comparative Politics: Framework for Analysis 3 cr
POLS g432 Comparative Politics: Change and Political Order 3 cr
POLS g433 Politics of Developing Nations 3 cr

One course selected from:
SOC 248 Social Diversity 3 cr
SOC g462 Social Stratification 3 cr

Sociology Major
SOC 101 Introduction to Sociology 3 cr
SOC 102 Social Problems 3 cr
SOC 206 Sociological Methods 3 cr
SOC 251 Juvenile Delinquency 3 cr
SOC 248 Social Diversity 3 cr
SOC 301 Classical Social Theory 3 cr
SOC g462 Social Stratification 3 cr

Electives selected from:
SOC 207 Social Statistics 3 cr
SOC 321 Families and American Society 3 cr
SOC 335 Demography and Human Ecology 3 cr
SOC g403 Contemporary Sociological Theory 3 cr
SOC g408 Advanced Sociological Methods 3 cr
SOC g413 Mind, Body and Society 3 cr
SOC g431 Criminology 3 cr
SOC g450 Developing Societies 3 cr

Sociology Minor
SOC 101 Introduction to Sociology 3 cr
SOC 102 Social Problems 3 cr
SOC 206 Sociological Methods 3 cr
SOC 301 Classical Social Theory 3 cr

Electives selected from:
SOC 207 Social Statistics 3 cr
SOC 231 Juvenile Delinquency 3 cr
SOC 248 Social Diversity 3 cr
SOC 321 Families and American Society 3 cr
SOC 335 Demography and Human Ecology 3 cr
SOC g403 Contemporary Sociological Theory 3 cr
SOC g408 Advanced Sociological Methods 3 cr
SOC g413 Mind, Body and Society 3 cr
SOC g431 Criminology 3 cr
SOC g450 Developing Societies 3 cr

Spanish Major
SPAN 301-302 Spanish Conversation and Composition 6 cr
LANG g437 The Teaching of Spanish Languages 3 cr
Upper Division electives in Spanish 12 cr (must be approved by the Foreign Languages Department and the College of Education).

Spanish Minor
SPAN 201-202 Intermediate Spanish 8 cr (OR equivalent)
LANG g437 The Teaching of Foreign Languages 3 cr
Approved electives in Spanish (must be approved by the Foreign Languages Department and the College of Education).

Special Education Major
A teaching major in secondary education is also required. For initial certification in special education, SPED 495, Special Education: Student Teaching Internship (7-14 cr) is required in addition to the 30 credits.

SPED 270 Field Work in Special Education 2 cr
SPED 330 The Exceptional Child 3 cr
SPED 334 Classroom Behavior Management 3 cr
SPED g423 Designing Instruction 3 cr
SPED g424 Assess Procedures in Special Education 3 cr
SPED g427 Precision Teaching Strategies: Severe Disabilities 1 cr
SPED g429 Direct Instruction Systems in Special Education 3 cr
SPED g432 Secondary Special Education 3 cr

Three credits of electives selected from the following:
P E g494 Special Physical Activity 3 cr
PSYC 332 Psychology of Adolescence 3 cr
PSYC g445 Psychology of Learning 3 cr
SOC 231 Juvenile Delinquency 3 cr
SOC 251 Juvenile Delinquency 3 cr
SOC g426 Assessment: Severe Disabilities 3 cr
SOC g440 Biomedical Aspects of Physical Disability 2 cr
SOC g443 Autism 2 cr
SOC g448 Pre-Practicum: Moderately Handicapped 1-3 cr
SOC g480 Seminar in Special Education 1 cr
SOC g491 Seminar 1-3 cr
SOC g498 Advanced Field Work 1-3 cr

Special Education Minor
SPED 270 Field Work in Special Education 2 cr
SPED 330 The Exceptional Child 3 cr
SPED 334 Classroom Behavior Management 3 cr
SPED g423 Designing Instruction 3 cr
SPED g424 Assess Procedures in Special Education 3 cr
SPED g432 Policies and Procedures in Special Education 3 cr
SPED g446 Secondary Special Education 3 cr

Theatre Major
COMM 208 Group Communication 3 cr
COMM 305 Argumentation and Debate 3 cr
THEA 101 Appreciation of Drama 3 cr
THEA 111 Stagecraft 3 cr
THEA 118 Oral Interpretation 3 cr
THEA 221 Stage Costume Construction 2 cr
THEA 304 Theatre Management 2 cr
THEA 251 Beginning Acting 3 cr
THEA 252 Intermediate Acting 3 cr
THEA 331 Materials and Methods for High School Speech Arts 3 cr
THEA g455 Beginning Stage Direction 3 cr
THEA g420 American Theatre History 3 cr

Theatre Minor
THEA 101 Appreciation of Drama 3 cr
THEA 111 Stagecraft I 3 cr
THEA 251 Beginning Acting 3 cr
THEA 252 Intermediate Acting 3 cr
THEA g455 Beginning Stage Direction 3 cr

Electives selected from:
THEA 209 Stage Lighting 2 cr
THEA 214 Makeup 2 cr
THEA 221 Stage Costume Construction 2 cr

Single Subject Teaching Majors

American Studies (English emphasis)
ENGL 267-268 Survey of English Literature I & II 6 cr
ENGL 277-278 Survey of American Literature I & II 6 cr
ENGL 433* Methods in the Teaching of English 3 cr
Approved electives in English 15 cr
HIST 101 Foundation of Western Civilization 6 cr
HIST 102 Development of Western Civilization 6 cr
HIST 118 U.S. History and Culture 3 cr
HIST g418 U.S. History for Teachers 3 cr
Approved 400-level History electives 6 cr
Approved electives in History 12 cr
AMST 200 Introduction to American Studies 3 cr
Any 400-level course approved for the American Studies Component in the American Studies Major 3 cr
PHIL 101 Introduction to Philosophy 3 cr
Approved electives in Philosophy 9 cr
Approved electives in social sciences 6 cr
* ENGL 433 must be completed before Student Teaching Internship.

American Studies (History emphasis)
AMST 200 Introduction to American Studies 3 cr
Any 400-level course approved for the American Studies Component in the American Studies Major 3 cr
ENGL 267-268 Survey of English Literature I & II 6 cr
ENGL 277-278 Survey of American Literature I & II 6 cr
Approved electives in English 12 cr
HIST 101 Foundation of Western Civilization 6 cr
HIST 102 Development of Western Civilization 6 cr
HIST 118 U.S. History and Culture 3 cr
HIST g418 U.S. History for Teachers 3 cr
HIST 291 The Historian’s Craft 3 cr
Approved 400-level History electives 6 cr
Approved electives in History 15 cr
PHIL 101 Introduction to Philosophy 3 cr
Approved electives in Philosophy 9 cr
Any course in American Government 3 cr
Approved electives in Social Science 6 cr
Approved electives in fine arts 6 cr

Art
ART 100 Survey of Art 3 cr
ART 101-102 History of Western Art I & II 6 cr
ART 103-104 Creative Process 6 cr
ART 105 Drawing I 3 cr
ART 334 Secondary School Art Methods 3 cr
Approved electives in Art 24 cr

Biological Sciences
BIOL 101/101L Biology I and Lab 4 cr
BIOL 102/102L Biology II and Lab 4 cr
BIOL 358 Genetics 3 cr
BIOL 206 Cell Biology 3 cr
BIOL 207 Cell Biology Laboratory 1 cr
BIOL 209 General Ecology 4 cr
**College of Education**

### Biology and Chemistry

- **BIOL 221** Introductory Microbiology 3 cr
- **BIOL 223** Introductory Microbiology Laboratory 1 cr
- **BIOL 310** Invertebrate Zoology 4 cr
- **BIOL 441** Systematic Botany 4 cr
- **BIOL 413** Biology Teaching Methods 3 cr
- **BIOL 417** Organic Evolution 3 cr
- **BIOL 491** Seminar 1 cr
- **BIOL 492** Seminar 1 cr
- **MATH 160** Applied Calculus 3 cr
- **MATH 253** Introduction to Statistics 3 cr

**Plus one of the following botany course options:**

- **BIOL 213-214** Spring and Fall Flora 4 cr
- **BIOL 404** Plant Physiology 4 cr
- **BIOL 405** Plant Anatomy 3 cr
- **BIOL 406** Plant Diversity and Evolution 4 cr
- **BIOL 408** Plant Ecology 3 cr

Plus upper-division electives in biological sciences courses to bring the total credits in biological sciences to 45 semester hours.

### Business Education

- **ACCT 201** Principles of Accounting I 3 cr
- **BED 101** Intermediate Keyboarding 3 cr
- **BED 310** Microcomputers in Business Education 3 cr
- **BED 320** Clerical Procedures 3 cr
- **BED 330** Advanced Technology in Business Education 3 cr
- **CFS 470** Consumer Economics 3 cr
- **CFS 471** Consumer Economics 3 cr
- **ECON 201-202** Principles of Macroeconomics and Microeconomics 6 cr
- **MGT 261** Legal Environment of Organizations 3 cr
- **HRD 401** Foundations of Professional-Technical Education 3 cr
- **HRD 444** Career Guidance and Special Needs in Professional-Technical Education 3 cr
- **HRD 468** Teaching Cooperative Education and School-to-Work 3 cr

Plus two elective courses approved by advisor 6 cr

### Chemistry

- **CHEM 111** General Chemistry I 5 cr
- **CHEM 112** General Chemistry II 4 cr
- **CHEM 114** Cations and Anions 1 cr
- **CHEM 211** Inorganic Chemistry I 2 cr
- **CHEM 232** Quantitative Analysis 2 cr
- **CHEM 234** Quantitative Analysis Lab 2 cr
- **CHEM 301** Organic Chemistry I 3 cr
- **CHEM 302** Organic Chemistry II 3 cr
- **CHEM 304** Organic Chemistry Lab II 1 cr
- **CHEM 331** Instrumental Analysis 2 cr
- **CHEM 334** Instrumental Analysis Lab 2 cr
- **CHEM 351-352** Physical Chemistry 6 cr
- **CHEM 400** Practicum in Physical Science 2 cr

Approved electives in Chemistry 7 cr

### Communication and Rhetorical Studies

- **M C 119** Introduction to Mass Media 3 cr
- **COMM 208** Group Communication 3 cr
- **COMM 305** Argumentation and Debate 3 cr
- **COMM 355** Nonverbal Communication 3 cr
- **COMM 437** Rhetorical Theory 3 cr
- **COMM 441** Interpersonal Communication 3 cr
- **THEA 111** Stagecraft I 3 cr
- **THEA 118** Oral Interpretation 3 cr
- **THEA 251** Beginning Acting 3 cr

### English

**ENGL 211** Introduction to Literary Analysis 3 cr

### Geology

**GEOL 110**, **110L** Physical Geology 3 cr

### Health Education

**H E 200** Promoting Wellness 2 cr

### Information Sciences

- **CFS 321** Families and American Society 3 cr
- **CFS 322** Building Positive Relationships 3 cr
- **CFS g471** Consumer Economics 3 cr
- **CFS g472** Teaching Consumer Economics 3 cr
- **CFS 494** Partnerships with Professionals 3 or 6 cr

### Music

**MATH 253** Introduction to Statistics 3 cr

### Professional-Technical Certification Requirements

**HRD g401** Foundations of Professional-Technical Education 3 cr

**HRD g444** Career Guidance and Special Needs in Professional-Technical Education 3 cr

**HRD g468** Teaching Cooperative Education and School-to-Work 3 cr

### Recommended Electives

**CFS 321** Families and American Society 3 cr

### Geology

**GEOL 100, 100L** The Dynamic Earth, and Lab 4 cr OR

**GEOL 101** Physical Geology 3 cr

**GEOL 110**, **110L** Physical Geology for Scientists Lab 3 cr

**GEOL 115/115L** Physical Geogrophy 4 cr

**GEOL 210** Earth in Space and Time 3 cr

**GEOL 313** Earth Materials I 3 cr

**GEOL 400** Practical in Geology Teaching 1 cr

**GEOL g406** Environmental Geology 3 cr

**GEOL/PHYS g410** Science in American Society 2 cr

**GEOL g421** Structural Geology 4 cr

**GEOL g431** Geobiology and the History of Life 4 cr

**GEOL g451** Sedimentation Stratigraphy 4 cr

**GEOL g491** Seminar 1 cr

### One of the following four courses:

- **GEOL 202** Historical Geology 3 cr
- **GEOL g456** Geology of Idaho 2 cr
- **GEOL g458** Geology of North America 3 cr
- **GEOL/HIST/POLS g471** Historical Geography of Idaho 4 cr

### One of the following three courses:

- **GEOL 122** Rocks and Stars 3 cr
- **GEOL 314** Earth Materials II 3 cr
- **GEOL g422** Planetary Geology 3 cr

### One of the following three courses:

- **GEOL g415** Quaternary Geology 4 cr
- **GEOL g420** Principles of Geochemistry 3 cr
- **GEOL g430** Principles of Hydrogeology 3 cr

### Prerequisites:

- Admission to Teacher Education Program
- Admission to Education Program

### Required Courses:

- **H E 200** Promoting Wellness 2 cr
- **H E 221** Introduction to Health Education 1 cr
- **H E 332** Community and Public Health 2 cr
- **H E 340, 340L** Fitness and Wellness Programs, and Lab 3 cr
- **H E 342** Stress and Emotional Health 3 cr
- **H E 383** Epidemiology 3 cr
- **H E 410** Behavior Change Theory and Applications 3 cr
- **H E 420** Program Planning and Implementation 3 cr

### Professional-Technical Certification Requirements

**HRD g401** Foundations of Professional-Technical Education 3 cr

**HRD g444** Career Guidance and Special Needs in Professional-Technical Education 3 cr

**HRD g468** Teaching Cooperative Education and School-to-Work 3 cr

**Recommended Electives**

- **CFS 321** Families and American Society 3 cr
- **CFS 322** Building Positive Relationships 3 cr
- **CFS g471** Consumer Economics 3 cr
- **CFS g472** Teaching Consumer Economics 3 cr
- **CFS 494** Partnerships with Professionals 3 or 6 cr

**ECON 202** Principles of Microeconomics 3 cr

### Geology

**GEOL 100, 100L** The Dynamic Earth, and Lab 4 cr OR

**GEOL 101** Physical Geology 3 cr

**GEOL 110**, **110L** Physical Geology for Scientists Lab 3 cr

**GEOL 115/115L** Physical Geography 4 cr

**GEOL 210** Earth in Space and Time 3 cr

**GEOL 313** Earth Materials I 3 cr

**GEOL 400** Practical in Geology Teaching 1 cr

**GEOL g406** Environmental Geology 3 cr

**GEOL/PHYS g410** Science in American Society 2 cr

**GEOL g421** Structural Geology 4 cr

**GEOL g431** Geobiology and the History of Life 4 cr

**GEOL g451** Sedimentation Stratigraphy 4 cr

**GEOL g491** Seminar 1 cr

**One of the following four courses:**

- **GEOL 202** Historical Geology 3 cr
- **GEOL g456** Geology of Idaho 2 cr
- **GEOL g458** Geology of North America 3 cr
- **GEOL/HIST/POLS g471** Historical Geography of Idaho 4 cr

**One of the following three courses:**

- **GEOL 122** Rocks and Stars 3 cr
- **GEOL 314** Earth Materials II 3 cr
- **GEOL g422** Planetary Geology 3 cr

**One of the following three courses:**

- **GEOL g415** Quaternary Geology 4 cr
- **GEOL g420** Principles of Geochemistry 3 cr
- **GEOL g430** Principles of Hydrogeology 3 cr

**Plus electives (any of the above courses not already completed) to total at least 45 credits**

**Note:** Candidates must take GEOL 110 even if they have taken the lab for GEOL 100 or GEOL 101.

### Health Education

**Prerequisites:**

- Admission to Teacher Education Program
- Admission to Education Program

### Required Courses:

- **H E 200** Promoting Wellness 2 cr
- **H E 221** Introduction to Health Education 1 cr
- **H E 332** Community and Public Health 2 cr
- **H E 340, 340L** Fitness and Wellness Programs, and Lab 3 cr
- **H E 342** Stress and Emotional Health 3 cr
- **H E 383** Epidemiology 3 cr
- **H E 410** Behavior Change Theory and Applications 3 cr
- **H E 420** Program Planning and Implementation 3 cr

Bachelor of Music Education

The Bachelor of Music Education is a nine-semester degree program designed to prepare candidates to obtain a teaching credential certificate to teach in the elementary and secondary schools. Complete information on admission to the music program, applied music, course sequencing, senior recital, large and small ensemble requirements, and other departmental policies may be found in the Music Department Student/Faculty Handbook, available upon request from the chair of the Music Department. Candidates should request advisors in the Music Department and in the College of Education.

Candidates must complete requirements and be fully admitted to teacher education before they can take courses in professional education numbered 300 and above.

Candidates seeking the Bachelor of Music Education degree must complete Goals 1, 2, 3, 4, 5, 6, 7, 8, 9, 10A or 10B, 11, and 12 of the University General Education requirements.

Professional Education Requirement

EDUC 201 Development and Individual Differences 3 cr
EDUC 204 Families, Communities, and Culture 3 cr
EDUC 301 Inquiring, Thinking, Knowing 3 cr
EDUC 401 Language and Literacy 3 cr
EDUC 492 Secondary Music Education: Student Teaching Internship 7-14 cr

Basic Music Requirements

MUSC 103 Theory of Music I 3 cr
MUSC 104 Theory of Music II 3 cr
MUSC 107 Recital attendance (7 semesters) 0 cr
MUSC 108 The World of Music (Goal 6) 4 cr
MUSC 113 Aural Skills I 1 cr
MUSC 114 Aural Skills II 1 cr
MUSC 127 Class Voice 1 cr
MUSC 172 ISU Women’s Choir 1 cr
MUSC 173 Concert Choir 1 cr
MUSC 203 Theory of Music III 3 cr
MUSC 204 Theory of Music IV 3 cr
MUSC 213 Aural Skills III 1 cr
MUSC 214 Aural Skills IV 1 cr
MUSC 252 Introduction to Music Education 1 cr
MUSC 255 Woodwind Methods 2 cr
MUSC 256 Brass Methods 2 cr
MUSC 258 Percussion Methods 2 cr

THEA 251 Beginning Acting 3 cr
THEA 304 Theatre Management 3 cr
THEA 331 Materials and Methods for High School Speech Arts 3 cr
THEA 455 Beginning Stage Direction 3 cr
Upper division electives in Theatre 10 cr
(All electives must be approved by candidate’s advisor)
In populations. F, S, Su and travel to designated settings with diverse learning. Requires 15 hours of field experience as a basis for reflecting on the social contexts of school, family, community, and culture as a field of education.

Candidates are advised to consult with their education advisors regarding course sequencing. Concurrent enrollment in some methodology courses is restricted. Admission to teacher education is required for enrollment in all EDUC courses numbered 300-level and above.

EDUC 170 Tutoring Reading 1 credit. Intensive reading strategies for the tutelage of children or adults. Interactive learning, lecture and demonstrations enable candidates to provide basic tutoring skills in literacy. Meets tutoring requirements for America Reads and other volunteer reading initiatives. Graded S/U. D

EDUC 201 Development and Individual Differences 3 credits. Examination of human development/individual differences as a basis for reflecting on learning. Requires 16 hours of field experience in designated settings. PREREQ: 26 credits completed; 2.75 GPA; “C” or higher in ENGL 101. F, S, Su

EDUC 204 Families, Communities, Culture 3 credits. Examination of interactions among school, family, community, and culture as a basis for reflecting on the social contexts of learning. Requires 15 hours of field experience and travel to designated settings with diverse populations. F, S, Su

EDUC 210 Peer Tutor Training 1 credit. Introduction to individual and small group tutoring with adult students. Emphasis on teaching strategies, communication skills, ethics, and learning styles. Graded S/U. F, S

EDUC 215 Preparing to Teach with Technology 3 credits. Provides prospective Teacher Education candidates the strategies and techniques for planning and instructional delivery: troubleshooting, content/tool software, ethical/fair use of technology in the educational setting. F, S, Su

EDUC 235 Introduction to Elementary Art Methods and Materials 1 credit. Exploration of media, methods, and materials useful in the integration of art with the elementary curriculum. F, S, Su

EDUC 250 Educational Careers 1 credit. An introduction to careers in education via faculty presentations, guest speakers, collaborative learning activities, and assignments. The course is intended for candidates interested in exploring careers in education. F, S

EDUC 301 Inquiring, Thinking, Knowing 3 credits. Examination of multiple perspectives on inquiring, thinking, and knowing as a basis for reflecting on educational practice. PREREQ: Admission to Teacher Education Program; EDUC 201 and EDUC 204. F, S, Su

EDUC 302 Motivation and Management 3 credits. Examination of multiple perspectives on student motivation/management of learning environments as bases for reflecting on educational practice. PREREQ OR COREQ: EDUC 301. PREREQ: EDUC 201, EDUC 204, and admission to Teacher Education Program. F, S, Su

EDUC 309 Instructional Planning, Delivery, and Assessment 6 credits. Analysis of multiple planning models, teaching methods, assessment approaches as bases for instructional decision making, delivery, and the assessment of learning. PREREQ: EDUC 301, EDUC 302, SPD 350 or SPD 355. F, S

EDUC 310 Efficient Reading 1 credit. Emphasis on developing flexibility and acceleration of reading speed and refinement of comprehension skills through intensive practice of rapid reading and comprehension building techniques applied to fiction and textbook reading. PREREQ: Permission of instructor. Graded S/U. D

EDUC 311 Instructional Technology 3 credits. Analysis of content, strategies, and evaluation for integrating technology into school curricula. Includes word processing, spreadsheets, databases, communication, and presentation software. PREREQ: EDUC 215 and admission to Teacher Education Program. F, S

EDUC 321 Integrated Language Arts Methods 3 credits. Theory and application of teaching methods for word recognition strategies and integrated language arts skills in preK-Elementary schools. Thirty-hour laboratory experience required. PREREQ: Admission to Teacher Education Program. F, S

EDUC 322 Literature for Children 3 credits. Study of different types of children’s literature, authors, and poets. Emphasis on strategies for implementing literature in grades K-8. Twenty-five hour lab required. PREREQ: Admission to Teacher Education Program. F, S

EDUC 330 Elementary Math Methods 3 credits. Study of the subject matter of elementary math programs. Emphasis on teaching methods and materials. Field experience required. PREREQ: MATH 256, MATH 257, and admission to Teacher Education Program. F, S

EDUC 331 Elementary Science Methods 3 credits. Study of the subject matter of elementary science programs. Emphasis on teaching methods and materials. Field experience required. PREREQ: General Education Goals 4 and 5, and admission to Teacher Education Program. F, S

EDUC 334 Secondary School Art: Methods and Materials 3 credits. Demonstrations and practical methods and problems involved in teaching art. Practical work in all art media used at the secondary school level. Cross-listed as ART 334. D

EDUC 335 Elementary School Art: Methods and Materials 2 credits. Demonstrations and practical methods and problems involved in teaching art. Practical work in all art media used at the elementary school level. Some craft work. Su

EDUC 336 Social Science Methods 3 credits. Study of subject content of the social studies program with emphasis on methods and materials used by the teacher, K-12. Field experience required. PREREQ: Admission to Teacher Education Program. F, S

EDUC 340 Methodology/Diagnosis in ECE 1-5 credits. Supervised practice in an approved nursery, day care center, and/or kindergarten based upon the results of diagnostic/prescriptive procedures utilized during prior coursework which indicates the student’s progression and needs. PREREQ: Permission of Early Childhood Coordinator and admission to Teacher Education Program. D

EDUC 401 Language and Literacy 3 credits. Synthesis of principles of language and literacy as a basis for teaching across all curriculum areas. PREREQ: EDUC 321 for Elementary Education only, EDUC 301, and admission to Teacher Education Program. F, S, Su

EDUC 419 Developmental Literacy 3 credits. Instructional planning and strategies for reading and writing emphasizing early literacy and language development, comprehension and metalinguistic awareness for all populations pre K-8. Graduate candidates complete three topical article summaries on three different areas of the literacy developmental process and submit a graduate research paper focusing on one aspect of literacy development. PREREQ: EDUC 321. F, S, Su

EDUC 420 Advanced and Compensatory Reading in the Content Areas 3 credits. Advanced training in developmental, remedial reading emphasizing independent strategies in study skills, critical/creative reading, metacognition. Content area application. PREREQ: Teaching experience or permission of instructor. D
Field experience in Education
College of

EDUC g492 Secondary Music Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in a supervised secondary school music setting. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program, MUSC 336, and/or approved application. Graded S/U. F, S

EDUC 494 Elementary Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in supervised primary/elementary setting. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program and/or approved application. Graded S/U. F, S

EDUC 495 Junior High or Middle School: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in supervised middle/junior high school setting. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program and/or approved application. Graded S/U. F, S

EDUC 496 Secondary Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in supervised high school setting. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program and/or approved application. Graded S/U. F, S

EDUC 497 Professional Education Development 1-3 credits. A course for the practicing educator aimed at the development and improvement of educational skills. Various sections will have different subtitles. A maximum of 10 credits may be applied to fifth year programs. Graded S/U. D

Requirements for Elementary Education Standard Certification

1. Completion of the Professional Education Core:

Certification Only

The Certification Only program is designed for candidates who already hold a bachelor of arts or bachelor of science degree and seek teaching certification only. Candidates pursuing certification must fulfill all teacher education requirements as outlined for institutional recommendation for teaching certification in the area of certification (i.e., early childhood, elementary, or secondary) and for endorsements (i.e., chemistry, history, Spanish, etc.) on the certificate.

Certification Procedures

Candidates who successfully complete the teacher education program at Idaho State University are eligible to receive the Idaho State University recommendation for the Standard Elementary certificate, the Standard Secondary certificate, or the Standard Exceptional Child certificate. Candidates who anticipate teaching (certifying) in a state other than Idaho are advised to consult with the Dean’s office as to reciprocity agreements and possible additional requirements related to the states in question.

The candidate will initiate the certification process by obtaining an application for certification from the Dean’s office. The application must be completed by the candidate and returned with the transcript order and check or money order for the certificate attached. After the end of the semester, the necessary paperwork will be processed and signed by the certification officer and forwarded to the State Department of Education Certification Office. The College of Education maintains a record of all individuals recommended for certification. The Dean is the official certification officer for the College of Education; all requests for certification must be processed and signed by the certification officer before the papers can be processed by any state Office of Certification.
Requirements for Secondary Education Certification

1. Completion of a subject teaching major of at least 30 semester credit hours as recommended by the subject department and approved by the College of Education, and completion of a subject teaching minor of at least 20 semester credit hours as recommended by the subject department and approved by the College of Education OR completion of a single subject teaching major of at least 45 semester credit hours as recommended by the subject department and approved by the College of Education.

2. Completion of the Professional Education Core and Student Teaching Internship:

- EDUC 201 Development and Individual Differences 3 cr
- EDUC 204 Families, Communities, Culture 3 cr
- EDUC 215 Preparing to Teach With Technology 3 cr
- EDUC 301 Inquiring, Thinking, Knowing 3 cr
- EDUC 302 Motivation and Management 3 cr
- EDUC 309 Instructional Planning, Delivery, and Assessment 6 cr
- EDUC 411 Instructional Technology 3 cr
- EDUC 401 Language and Literacy 3 cr
- SPED 150 Creating Inclusive Classrooms 3 cr
- EDUC 496 Secondary Education: Student Teaching Internship 7-14 cr

Education of the Deaf

Individuals interested in becoming certified teachers of children who are deaf or hard of hearing in Idaho will need to meet all requirements of the Idaho State Board of Education. Undergraduate candidates preparing to do this should consult the Office of the Dean, College of Education, as well as the Teacher Education Program, for details about admission into an undergraduate program in Elementary, Secondary, or Special Education. Individuals who have completed the required undergraduate teacher education program should consult the Department of Communication Sciences & Disorders, and Education of the Deaf, in the Kasiska College of Health Professions, for information about the graduate degree program in the Education of the Deaf.

Special Education/Human Exceptionality

The special education undergraduate major prepares candidates for professional certification in special education as K-12 generalists in special education. This program also prepares individuals pursuing non-teaching degrees in human exceptionality. The program also offers a minor that does not provide teacher certification in special education. The special education minor is open to all University candidates who wish to gain some expertise in working with children with disabilities. The program also offers Master’s degrees as well as post-baccalaureate training for special education certification only (i.e. nondegree). For information on the master’s degree offerings, please refer to the Graduate Catalog.

Broadly stated, the objectives of the Special Education Program are:

1. Candidates will demonstrate an understanding of a wide variety of disability categories and their instructional implications, as well as the legal and ethical considerations for educating individuals with disabilities.

2. Candidates will demonstrate understanding of instructional methodologies and curricula that have an extensive experimental research base to support their effectiveness for all individuals, especially those with learning difficulties.

3. Candidates will make instructional decisions based on reliable and valid data that are primarily objective in nature.

4. Candidates will demonstrate instruction and behavior management strategies that are proactive and teach new skills, as opposed to being punitive in nature.

5. Candidates will demonstrate professional and collaboration skills with teachers, parents, administrators, and other professionals.

Bachelor of Arts or Bachelor of Science in Human Exceptionality

The Bachelor of Arts or Bachelor of Science in Human Exceptionality can be completed either as a nonteaching major for candidates who are interested in working with people with disabilities outside the public school context or as a teaching major for candidates who wish to earn special education certification as K-12 Generalists. The course requirements are the same for the teaching and nonteaching majors. For candidates in the nonteaching major, practica are arranged in non-school settings.

Admission Requirements

Prior to acceptance to the B.A./B.S. in Special Education/Human Exceptionality Program, all applicants must complete SPED 330 and SPED 340 and earn a grade of at least C in each course and an average of at least 3.0 across the two courses. Candidates must also complete EDUC 201, EDUC 204, and EDUC 215 with grades of C or better and pass performance assessments associated with these courses, have an overall GPA of at least 2.75, and be approved by a faculty screening committee following an admission interview. Candidates seeking teacher certification in special education must pass Praxis I tests with at least the following scores: Reading, 172; Math, 169; and Writing, 174; as well as Praxis II Elementary Education Content Knowledge (0014) with a score of at least 143.

Retention and Exit Requirements

In addition to meeting all of the retention and exit requirements of the College of
Course Requirements for the B.A. or B.S. degree (in addition to University requirements):

EDUC 201 Development and Individual Differences 3 cr
EDUC 204 Families, Communities and Culture 3 cr
EDUC 215 Preparing to Teach with Technology 3 cr
EDUC 311 Instructional Technology 3 cr
EDUC 401 Language and Literacy 3 cr
P E 300 Movement Therapy and Motor Development 3 cr
SPED 312 Assistive Technology 3 cr
SPED 330 The Exceptional Child 4 cr
SPED 340 Principles of Behavior Management 3 cr

PSYC 332 Psychology of Adolescence (secondary emphasis) 3 cr
PSYC 445 Psychology of Learning 3 cr
SOC 231 Juvenile Delinquency 3 cr

Reading Endorsement

An candidate seeking special education certification as a K-12 Generalist should consult faculty advisors in the Department to learn about adding a reading endorsement.

Special Education Courses

SPED 312 Assistive Technology 3 credits. Instructional and assistive technology, benefits they offer to individuals with various types of disabilities, how to evaluate children’s technology needs, how to find new technologies using a variety of resources, and how to fund the purchase of technology for children with disabilities. Focus on how to use technology to adapt and accommodate for the needs of children with diverse learning needs. PREREQ: EDUC 215 and EDUC 311. F, S

SPED 330 The Exceptional Child 4 credits. Essential areas of exceptionality. Each area is studied on the dimensions of etiology, identification and labeling, characteristics, educational treatment, and prognosis for adjustment. Consideration also given toward structuring suitable educational programs applicable for each area and the basics of special education law. Includes 50-hour practicum. F

SPED 340 Principles of Behavior Management 3 credits. Overview of basic principles of applied behavior analysis as it relates to educating children with disabilities. S

SPED 350 Creating Inclusive Classrooms 3 credits. Curricula and methods for educating students with diverse abilities in elementary classrooms. Characteristics of students with disabilities and students who are English language learners. Emphasizes inclusive lesson design, curricular adaptations, and collaborative teaching. PREREQ: Admission to Teacher Education Program. F, S

SPED 355 Differentiated Instruction 3 credits. Adaptations and accommodations for differentiating student learning in secondary classrooms. Characteristics of students with disabilities and students who are English language learners. Emphasizes adaptations in content areas, instructional strategies, and team collaboration. PREREQ: Admission to Teacher Education Program. F, S

SPED g423 Designing Instruction 3 credits. Introduction to instructional design principles and strategies for engaging students in higher order thinking and problem-solving. Emphasis on teaching complex concepts in reading comprehension, writing, mathematics and other academic subjects. PREREQ: Permission of instructor. F

SPED g424 Assessment Procedures in Special Education 3 credits. Introductory study of diagnostic assessment techniques and the writing of individual educational and behavioral prescriptions and instructional objectives which are required to provide interventions suitable for remediating the learning problems in basic school curricula. PREREQ OR COREQ: SPED 330 and SPED 441 or permission of instructor. F

SPED g426 Assessment: Severe Disabilities 3 credits. Selection, administration, and interpretation of criterion-referenced tools employed with severely disabled students. Emphasizes functional approach to assessment and evaluation of behavioral and instructional domains. PREREQ: Permission of instructor. AS

SPED g429 Strategies: Severe Disabilities 3 credits. Consideration and evaluation of curriculum materials from behavioral, developmental, and ecological perspectives. Emphasizes functional approach to development and implementation of individualized intervention plans. PREREQ: Permission of instructor. AS

SPED 430 Practicum in Individualized Instruction 3 credits. Requires 150 clock hours of field experience working with children with severe disabilities, developing and implementing individual instructional programs. PREREQ: SPED 330 and SPED 340. COREQ: SPED 429. F

SPED g432 Direct Instruction Systems 3 credits. Provides mastery level skills training in direct instruction systems for reading, math, and written language. Includes field work, adaptation of curricula to direct instruction model and evaluation. PREREQ: Permission of instructor. F, S
SPED g433 The Emotionally Disturbed Child 2 credits. Survey of the causes of emotional disturbance in children and the effects upon the child’s school performance and achievement. School programs and treatment considerations will be reviewed. F

SPED 434 Language and Communication Methods in Special Education 3 credits. Strategies for teaching expressive and receptive language skills to children with disabilities. Focus on augmenting oral communication with both low and high technology applications, teaching expressive writing (e.g., spelling) skills using explicit instruction, and teaching receptive vocabulary using explicit instruction. PREREQ: SPED 330 and SPED 340. COREQ: SPED 432, SPED 434, and SPED 446. S

SPED 435 Practicum in Small Group Instruction 3 credits. Requires 150 clock hours of field experience working with children with disabilities, implementing small group instructional programs in reading and language, as well as developing transition plans for secondary students. PREREQ: SPED 330 and SPED 340. COREQ: SPED 432, SPED 433, and SPED 446. S

SPED 436 Math Methods for Children with Disabilities 3 credits. How to teach basic mathematical skills to children with disabilities and other at-risk learners. Emphasis on mathematical techniques having research supporting their effectiveness with children with disabilities. Prospective teachers are taught how to teach, monitor, assess, and remediate various mathematical skills. PREREQ: SPED 330 and SPED 340. COREQ: SPED 432, SPED 433, and SPED 446. S

SPED 437 Practicum in Large Group Instruction 3 credits. Requires 150 clock hours of field experience working with children with disabilities implementing large group instructional programs in mathematics and other content areas, with special emphasis on managing student behavior using positive behavior supports. PREREQ: SPED 330 and SPED 340. COREQ: SPED 432, SPED 433, and SPED 435. F

SPED 438 Policies and Procedures in Special Education 3 credits. Consideration of legal background, current court rulings, professional responsibilities, and models for consultation and collaboration in a variety of educational settings. Includes the IEP process. PREREQ: Permission of instructor. S

SPED g440 Biomedical Aspects of Physical Disability 2 credits. Study of the causes, treatments, and educational implications of physical and neurological disorders of genetically and orthopedically disabled children. PREREQ: Permission of instructor. S

SPED 441 Classroom Behavior Management 3 credits. Emphasizes the practical application of reinforcement learning models and theory to classroom and other settings. PREREQ OR COREQ: SPED 330. COREQ: SPED 423, SPED 435, and SPED 436. F

SPED g443 Autism 3 credits. An overview of autism and implications for educational planning. Teaching strategies that are successful in working with individuals who have autism will be reviewed. AF

SPED g446 Secondary Special Education 3 credits. Teaching methodology focusing on needs of secondary and adult special education students. Topics include functional academics, transition, independent living, social skills, professional-technical training, employment options, and accessing community resources. PREREQ: SPED 330 and SPED 340. COREQ: SPED g432, SPED 433, AND SPED 434. S

SPED g448 Pre-Practicum, Moderately Handicapped 1-3 credits. Supervised practical work with moderately handicapped children in a clinical setting. Permission of instructor. F, S

SPED g462 Seminar: Behavior Disorders 1 credits. Topical issues related to the education of children with behavior disorders in a variety of educational and therapeutic settings. PREREQ: Permission of instructor. D

SPED g480 Seminar in Special Education 1 credit. Current topics in the field of special education presented by departmental faculty and guest lecturers. May be repeated for up to 2 credits. Graded S/U. F, S

SPED g481 Advanced Issues in Behavior Disorders 2 credits. Educational organization, collaboration and consultation skills necessary to provide cooperation between the schools and other community agencies that provide integrated service for this exceptionality. PREREQ: Permission of instructor. AF

SPED g485 Independent Problems 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. May be repeated. May be graded S/U. PREREQ: Permission of instructor. D

SPED 490 Consultation and Collaboration 3 credits. This course will provide candidates with strategies for working with paraeducators and other professional colleagues in educational settings. The focus of the course will be on providing training and feedback to paraeducators and effective strategies for teaming with other educators. COREQ: SPED 498. S

SPED g491 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Limited enrollment. PREREQ: Permission of instructor. May be graded S/U. F, S, Su

SPED 495 Special Education: Student Teaching Internship 7-14 credits. Candidates assume instructional and management responsibilities in a supervised K-12 resource room or special education setting. Full semester for 14 credits; half semester 7 credits. PREREQ: Special Education Methods Core and approved application. F, S

SPED g498 Advanced Field Work 1-3 credits. Orientation, observation, planning, and implementation of special education instruction in a special education setting in the public schools. PREREQ: Permission of instructor. D

Department of Sport Science and Physical Education

Chair and Professor: Lyons
Professor: Lester
Associate Professor: Fitzpatrick
Assistant Professors: Appleby, Fauré
Lecturer: Cordingley
Emeritus Faculty: Watters

The mission of the Department of Sport Science and Physical Education at Idaho State University is to provide candidates with the intellectual and physical skills necessary to maximize their potential. The study of the physical education discipline is an important part of the curriculum at Idaho State University; it strives to fulfill the University mission as well as the College of Education’s mission in the enhancement of learning, lifelong development, and educational leadership. The study of physical education encourages candidates to respect human dignity, to be critical thinkers, and to be effective communicators. It provides an opportunity for the individual to make decisions regarding lifestyle and health choices enhancing self-direction and self-esteem. Physical education develops both the mental and physical discipline to provide opportunities for mental, social, emotional, spiritual, and personal development while interacting in a university environment.

The Idaho State University Department of Sport Science and Physical Education is committed to providing an academic program in which men and women can discover, experience, and reflect upon the study of movement. Curricula are designed to challenge candidates in the theory and to provide opportunity for practical experiences. Candidates are expected to become both advocates for and contributors to the discipline on personal and professional levels. Faculty members are committed to excellence in teaching, concerns for the needs of candidates, service to the community, and expertise in their discipline.

Majors in Physical Education receive preparation for a number of careers. The candidate majoring in Physical Education may select from four emphasis areas.
including exercise science, outdoor education, sport management, and teaching. Majors receive preparation for graduate work in areas such as physical education, physical therapy, exercise science, outdoor education, and athletic administration.

The Department of Sport Science and Physical Education also offers three minor areas of study to facilitate professional and career development needed by women and men to succeed in a changing world. Candidates may choose to minor in coaching, outdoor education, or sport management.

The Department of Sport Science and Physical Education is committed to make the sport and leisure activity program for the major and non-major an experience serving the needs and interests of participants. The activity program is designed to develop participants’ skills in lifetime activities and to increase participants’ fitness level.

The Department of Sport Science and Physical Education also offers a Master of Physical Education degree with an emphasis in Athletic Administration. The program is designed to facilitate the intellectual and practical knowledge necessary to enter the field of sport management or administration upon graduation.

Bachelor of Arts or Bachelor of Science in Physical Education

Physical Education Standards

The Physical Education Learning Goals are aligned with 2 sets of standards: The Idaho State University College of Education Core Standards (described previously), and the Content Standards in Physical Education of the National Association for Sport and Physical Education (NASPE).

Admission to Program

Admission to a major in physical education or any of the minors available in the department should be done as early as possible during the candidate’s career. Admission to the PE major is dependent upon completion of PE 220 and PE 292 with a grade of C (2.0) or better, and a minimum cumulative GPA of 2.5.

1. Completion of the following General Education Goals: 1, 2, 3, 4, 6, and 12.
2. Overall GPA of 2.5.
3. GPA of 2.7 in Professional Physical Education courses.
4. No grades below “C” (2.0) in Professional Physical Education.
5. Enrollment in PE 292 leadership Practicum for a minimum of one credit.
6. Candidate portfolio initiation.
7. An interview in conjunction with PE 292 or as scheduled by the department.
8. Faculty review and recommendation of candidate for admission to the Sport Science and Physical Education program based upon successful completion of the above requirements.

Candidates must make formal application for full admission to the Sport Science and Physical Education program. Application forms are available in the department office. Candidates may not register for upper division courses until admittance to the program is achieved.

Denial of Admission to the Sport Science and Physical Education Major Program

Candidates who have been denied full admission to the Sport Science and Physical Education program may reapply; however, they must meet the standards for admission in place at the time of their reapplication to attain full admission.

Graduation Requirements

In order to graduate from the Sport Science and Physical Education Program as a major, the candidate must achieve the following in addition to completing the course requirements:*  
1. Minimum grade of “C” (2.0) in professional courses.
2. Minimum overall cumulative GPA of 2.7.
3. Minimum GPA of 3.00 in the major.
4. Completion of candidate portfolio, with review by advisor.
5. Exit interview with advisor.
6. Current Red Cross First Aid and CPR Card

* Transfer candidates and change of major/minor candidates will be allowed to enroll in 6 credits of upper division courses while completing admission requirements.

Physical Education Core

Physical Education majors in all emphasis areas must complete a common core. The core consists of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PE 220</td>
<td>Foundations of Physical Education and Sport</td>
<td>3</td>

182
Objective #3: To develop skills assessing and analyzing human movement activities (11 credits)
P E 470  Care and Prevention of Athletic Injuries  2 cr
P E 482  Mechanical Analysis of Human Movement  3 cr
P E 484  Exercise Assessment and Prescription  3 cr
P E 490  Practicum in Exercise Science  3 cr

Objective #4: To develop knowledge and skills in cognate exercise disciplines (10 credits)
NDT 439  Sports Nutrition  3 cr
Recommended Electives: (7 credits)
H E 340  Fitness and Wellness Programs  3 cr
NDT 239  Nutrition  3 cr
PSCI 205  Drugs in Society  2 cr

Physical Education
Teaching Emphasis (K-12 certification) – 46 credits, not including credits in Education and the Physical Education Core
Candidates who have completed the required physical education and teacher education courses may also obtain K-12 Teacher Certification in Physical Education. In addition to completing departmental major requirements, candidates must make formal application and complete an interview for admission to the Teacher Education Program. See all requirements in the Teacher Education section of the College of Education portion of the catalog.

Physical Education Standards
The Physical Education Learning Goals are aligned with 2 sets of standards: The Idaho State University College of Education Core Standards and the Content Standards in Physical Education of the National Association for Sport and Physical Education (NASPE).

NASPE Content Standards in Physical Education
The NASPE Standards identify seven areas that include the following.

The candidate completing this program:
1. Demonstrates competency in many movement forms and proficiency in a few movement forms;
2. Applies movement concepts and principles to the learning and development of motor skills;
3. Exhibits a physically active lifestyle; Achieves and maintains a health-enhancing level of physical fitness;
4. Achieves and maintains a health-enhancing level of physical fitness;
5. Demonstrates responsible personal and social behavior in physical activity settings;
6. Demonstrates understanding and respect for differences among people in physical activity settings; and
7. Understands that physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.

Objective #1: To develop teaching skills in a variety of areas in physical activities, athletics, and creative movement (19 credits)

Skills Component: 10 credits
P E 235  Activity Performance Techniques I  3 cr
P E 236  Activity Performance Techniques II  3 cr
P E 237  Activity Performance Techniques III  3 cr
One (1) aquatics course  1 cr

Methods Component: 9 credits
P E 357  Methods of Teaching Elementary Physical Education 3 cr
P E 437  Methods of Teaching Secondary Physical Education 3 cr
P E 435  Methods of Teaching Creative Movement 3 cr

Objective #2: To acquire knowledge in the basic foundations of human activity (15 credits)
P E 300  Movement Theory and Motor Development 3 cr
P E 301  Physiology of Exercise and Lab  3 cr
P E 302  Biomechanics and Lab  3 cr
P E 322  Psycho-Social Aspects of Human Activity  3 cr
P E 494  Adapted Physical Activity  3 cr

Objective #3: To understand and develop skills required for teaching physical education (6 credits)
P E 362  Tests and Measurements in Physical Education 3 cr
P E 475  Organization and Administration of Physical Education and Sport 3 cr

Objective #4: To develop a well-rounded physical educator who is marketable and well suited for positions in the public and private sector (6 credits)
Certification and/or endorsement or professional development in at least one area of your choice (i.e., Aerobics, Pilates, ASEP Coaching, Personal Training, Water Aerobics, Water Safety Instructor, Wilderness First Aid, etc.). The amount of credit applied towards the required 6 credits will be determined from the total hours completed for the earned certification (with 15 contact hours equal to 1 credit hour).

Additional Approved courses:
ENGL 206  Creative Writing  3 cr
MGT 101  Introduction to Business  3 cr
P E 281  Practical Outdoor Skills  1 cr
P E 473  Facilities Planning and Design 3 cr
P E 485  Independent Problems in Physical Education*  1-3 cr
P E 490  Practicum Physical Education  3 cr
P E 491  Physical Education Workshop  3 cr
P E 493  Diversity Issues in Education and Sport  3 cr
POLS 457  Grantwriting  3 cr
( or other advisor-approved Grant writing workshops)
Approved Health Education (H E) Courses (Health Endorsement)  6 cr
* When independent problem involves certification training.

Outdoor Education Emphasis – 46 credits, plus Core

Objective #1: To explore the intellectual, historic and philosophic foundations of the field of physical education and movement science.

Physical Education Core Component (included in PE Core listed above): 9 credits
Note: Leadership (P E 292) and First Aid (P E 222) core requirements are satisfied by P E 386 Outdoor Leadership and P E 285 Wilderness First Aid included below.

Objective #2: To develop leadership and teaching skills.
Criteria for courses: Courses that fulfill this objective (a) introduce the concepts of leadership in the outdoor environment, (b) explore the literature of the outdoor field, and (c) provide practical experience in leadership and teaching.

Leadership and Teaching Component (8 credits)
P E 386  Outdoor Leadership  2 cr
P E 440  Survey of Outdoor Education Literature  2 cr
P E 445  Methods of Teaching Outdoor Activities and Practicum  3-4 cr

Objective #3: To conduct outdoor activities safely in the outdoors with minimal impact on the environment.
Criteria for courses: Courses that fulfill this objective (a) stress safe use of the outdoors, (b) provide the knowledge and experience to respond to outdoor emergencies, (c) examine ways in which impact on the environment can be minimized.

Outdoor Education Safety Component (7 credits)
Any of the following may be selected, but Outdoor Risk Management, Leave No Trace Trainer, and first aid certification (Wilderness First Aid, Wilderness First Responder or Emergency Medical Technician) are required.
Courses that fulfill the Education Core:

- **BIOL g489** Field Ecology 3 cr
- **BIOL g441** Mammalogy 3 cr
- **BIOL g438** Ornithology 3 cr
- **BIOL g427** Ichthyology 3 cr
- **BIOL g426** Herpetology 3 cr
- **BIOL g427** Ichthyology 3 cr
- **BIOL g438** Ornithology 3 cr
- **BIOL g441** Mammalogy 3 cr
- **BIOL g489** Field Ecology 3 cr

**Objective #4: To understand and interpret the natural environment.**

**Criteria for courses:** Courses that fulfill this objective (a) provide a scientific foundation of the understanding of the outdoor world and natural systems; (b) develop knowledge and the requisite skills to identify plants, animals, rocks, minerals, landforms, and other natural objects.

**Natural History Component (8 credits)**

- **BIOL 101,101L** Biology I, and Lab 4 cr
- **BIOL 102,102L** Biology II, and Lab 4 cr
- **BIOL 209** General Ecology 4 cr
- **BIOL 212** Fall Flora 2 cr
- **BIOL 214** Spring Flora 2 cr
- **BIOL 337** Conservation of Natural Resources 3 cr
- **BIOL g426** Herpetology 3 cr
- **BIOL g427** Ichthyology 3 cr
- **BIOL g438** Ornithology 3 cr
- **BIOL g441** Mammalogy 3 cr
- **BIOL g489** Field Ecology 3 cr
- **GEOL 100,100L** The Dynamic Earth, and Lab 4 cr
- **GEOL 109** Physical Geology for Scientists 3 cr
- **GEOL 110** Physical Geology for Scientists Laboratory 1 cr
- **GEOL 201** Rocks, Rails, and Trails 1 cr
- **GEOL 210** Rocks, Minerals, Fossils and Maps 2 cr
- **GEOL g456** Geology of Idaho 2 cr
- **GEOL g491** Seminar 1 cr
- **PHYS 152** Descriptive Astronomy 3 cr
- **PHYS 153** Descriptive Astronomy 1 cr
- **PHYS 325** Introduction to Weather and Climate 3 cr
- **PEAC 101** Adaptive Snow Skiing 1 cr
- **PEAC 108** Instructor Training of Adaptive Snowskiing 1 cr
- **PEAC 165** Backcountry GPS Navigation 1 cr
- **PEAC 166** Canoeing 1 cr
- **PEAC 167** Kayak Touring 1 cr
- **PEAC 175A** Beginning Kayaking 1 cr
- **PEAC 176A** Beginning Rock Climbing 1 cr
- **PEAC 177A** Beginning Cross-Country Skiing 1 cr
- **PEAC 178A** Beginning Telemark Climbing 1 cr
- **PEAC 181** Bicycle 1 cr
- **PEAC 182C** Advanced Dutch Oven Cooking 1 cr
- **PEAC 185** Basic Mountaineering 1 cr
- **PEAC 186B** Intermediate Fly Fishing 1 cr
- **PEAC 188** Winter Survival Skills 1 cr
- **PEAC 189** Beginning Gym Climbing 1 cr
- **PEAC 192** Wilderness Survival Skills 1 cr
- **PE 280** Winter Camping and Backcountry Travel 1 cr
- **PE 281** Practical Outdoor Skills 1 cr
- **PE 282** Map, Compass and Backcountry Navigation 1 cr
- **PE 284** Intermediate Kayaking and Whitewater Safety 1 cr
- **PE 286** Avalanche and Winter Sports Safety 1 cr
- **PE 287** Snowboard Instructor Training 1 cr
- **PE 288** Ski Instructor Training 1 cr
- **PE 381** River Safety and Swiftwater Rescue 1 cr
- **PE 383** Advanced Rock Climbing and Climbing Safety 2 cr
- **PE 491** Physical Education Workshop 1-3 cr

*When workshop relates to outdoor education, i.e. Canoe Workshop (1 credit), Whitewater Rafting Workshop (1 credit), Backpacking Workshop (1 credit), Advanced Kayaking-Summer Field Experience (1 credit), Beginning Rock Climbing-Summer Field Experience (1 credit), Advanced Rock Climbing-Summer Field Experience (1 credit).*

**Objective #6: To foster a well-rounded educational background with an emphasis on subjects with historic and traditional importance in the outdoor education field.**

**Criteria for courses:** Courses that fulfill this objective (a) emphasize the expression of ideas through the written and spoken word, (b) provide experience in creative processes, (c) explore environmental issues through the political process.

**Electives (Minimum of 6 credits)**

Courses may include those listed in the Natural History Component and/or the Outdoor Education Safety Component. (Note: Only 8 PEAC credits can be counted towards graduation requirement).

**Sport Management Emphasis – 43 credits, plus Core**

**Objective #1: To understand and appreciate the physical education and sport setting.**

**Criteria for courses:** Courses that fulfill this objective (a) introduce the concepts of sport and motor development, and (b) explore administrative duties in the athletic setting. Twelve (12) credits required.

Choose 2 of the following (6 credits)

- **P E 235** Activity Performance Techniques I 3 cr
- **P E 236** Activity Performance Techniques II 3 cr
- **P E 237** Activity Performance Techniques III 3 cr

**Addtional Coursework (7 credits):**

- **P E 281** Practical Outdoor Skills 1 cr
- **P E 322** Psycho-Social Aspects of Human Activity 3 cr

**Optional Electives:**

- **P E 300** Movement Theory and Motor Development 3 cr
- **P E 301, 301L** Physiology of Exercise and Lab 3 cr
- **P E 302, 302L** Biomechanics and Lab 3 cr
- **P E 357** Methods of Teaching Elementary Physical Education 3 cr
- **P E 362** Tests and Measurements in Physical Education 3 cr
- **P E 437** Methods of Teaching Secondary Physical Education 3 cr
- **P E 497** Diversity Issues in PE and Sport 3 cr
- **P E 494** Adapted Physical Activity 3 cr

**Objective #2: To develop leadership and management skills.**

**Criteria for courses:** Courses that fulfill this objective (a) introduce the concepts of leadership in the sport setting, and (b) explore administrative duties in the athletic setting. Ten (10) credits required.

Choose 2 of the following (6 credits)

- **P E 364** Introduction to Sport Law 3 cr
- **P E 475** Organization and Administration of Physical Education and Sport 3 cr
- **PE 473** Facilities Planning and Design 3 cr

**Additional Electives:**

- **P E 386** Outdoor Leadership 2 cr
- **POLS g455** Environmental Politics and Policy 3 cr
- **POLS g457** Grantwriting 3 cr
- **MGT g312** Individual and Organizational Behavior 3 cr
- **MGT g441** Organization Behavior 3 cr

---

Courses may include those listed in the Natural History Component and/or the Outdoor Education Safety Component.
Courses that fulfill

Objective # 3: To understand and interpret the business setting.

Criteria for courses: Courses that fulfill this objective (a) provide a business perspective of the understanding of the management setting; (b) provide understanding of human resource management; and (c) provide understanding of legal implications in running a business. Fifteen (15) credits required.

ACCT 201 Principles of Accounting I 3 cr
MGT 312 Individual and Organizational Behavior 3 cr
MGT 473 Human Resource Management 3 cr
P E 366 Sport Finance and Marketing 3 cr
Approved Electives 3 cr

Possible Elective Choices:

ACCT 202 Principles of Accounting II 3 cr
CIS 300 Information Management 3 cr
ECON 201 Principles of Macroeconomics 3 cr
ECON 202 Principles of Microeconomics 3 cr
FIN 315 Corporate Financial Management 3 cr
MGT 216 Business Statistics 3 cr
MGT 217 Advanced Business Statistics 3 cr
MKTG 261 Legal Environment of Organizations 3 cr
MKTG 325 Basic Marketing Management 3 cr
MKTG 441 Organizational Behavior 3 cr
MKTG 327 Consumer Behavior 3 cr
M C 241 Introduction to Public Relations 3 cr
P E 309 Community and Regional Planning 3 cr
POLS g411 Administrative Law 3 cr
POLS g412 Constitutional Law 3 cr
POLS g441 Constitutional Law 3 cr
POLS g451 Organizational Theory and Bureaucratic Structure 3 cr
POLS g452 Financial Administration and Budgeting 3 cr
POLS g454 Public Personnel Administration 3 cr
POLS g456 Labor Organization 3 cr
POLS g457 Grantwriting 3 cr

Objective # 4: To obtain practical experience in the field of sport management.

Criteria for courses: Candidates will engage in a pre-approved 45-hour sports management internship. Three (3) credits required.

PE 490 Sport Management Practicum 3 cr

Nutrition; Social-Psychological Aspects of Coaching; Skills, Tactics and Strategies; Teaching and Administration; and Professional Preparation and Development.

To be eligible for the Coaching minor, candidates must complete 24 credits—13 credits of required courses and 11 credits of elective courses.

Required Courses (13 credits):

PE 301 Physiology of Exercise 3 cr
PE 302, 302L Biomechanics, and Lab 3 cr
PE 322 Psycho-Social Aspects of Human Activity 3 cr
P E 470 Care and Prevention of Athletic Injuries 2 cr
P E 480 Coaching Problems 2 cr

Elective Courses (11 credits):

Select eight (8) practicals:

PE 312 Practical Applications of Coaching Baseball/Softball 2 cr
PE 313 Practical Applications of Coaching Basketball 2 cr
PE 314 Practical Applications of Coaching Football 2 cr
PE 315 Practical Applications of Coaching Soccer 2 cr
PE 316 Practical Applications of Coaching Tennis 2 cr
PE 317 Practical Applications of Coaching Track and Field 2 cr
PE 318 Practical Applications of Coaching Volleyball 2 cr
PE 319 Practical Applications of Coaching Wrestling 2 cr

Select three (3) credits:

PE 300 Movement Theory and Motor Development 3 cr
P E g475 Organization and Administration of Physical Education and Sport 3 cr
P E g493 Diversity Issues in Education and Sport 3 cr

Minor in Outdoor Education

Outdoor Education Standards

The Outdoor Education minor is modeled around 4 goals that were developed after an extensive review of several other Outdoor Education program curricula. The Association of Outdoor Recreation and Education (AORE) recommends that individual programs establish goals that are relevant to their specific programs. The 4 component areas in the Outdoor Education minor include Leadership and Teaching, Outdoor Education Safety, Natural History, and Experiential Skills.

Candidates seeking a minor in outdoor education must complete a total of 21 credits from the following four components:

Leadership and Teaching Component (7 credits)

PE 386 Outdoor Leadership 2 cr
PE 440 Survey of Outdoor Education Literature 2 cr
PE 445 Methods of Teaching Outdoor Activities and Practicum 3 cr

Outdoor Education Safety Component (5 credits)

Required Course

PE 283 Leave No Trace Trainer 1 cr

Electives

Choose a minimum of four (4) additional credits from the following list. One of the courses (and no more than one course) must be wilderness first aid related.

PE 282 Map, Compass, and Backcountry Navigation 1 cr
PE 285 Wilderness First Aid 1 cr
PE 286 Avalanche and Winter Sports Safety 1 cr
PE 381 River Safety and Swiftwater Rescue 1 cr
PE 383 Advanced Rock Climbing and Climbing Safety 2 cr
PE 491 Wilderness First Responder 3 cr

Natural History Component

Minimum of four (4) credits required. (The Natural History Component is waived for majors or minors in geology, biology, botany, zoology or ecology.)

BIOL 209 General Ecology 4 cr
BIOL 213 Fall Flora 2 cr
BIOL 214 Spring Flora 2 cr
BIOL g266 Herpetology 3 cr
BIOL g277 Ichthyology 3 cr
BIOL g338 Ornithology 3 cr
BIOL g441 Mammalogy 3 cr
GEOL 110 Physical Geology for Scientists Laboratory 1 cr
GEOL 201 Rocks, Rails, and Trails 1 cr
GEOL 210 Rocks, Minerals, Fossils and Maps 2 cr
GEOL g491 Seminar 1 cr

Experiential Skills Component

Minimum of five (5) credits required. Courses selected must be different from those used to fulfill the requirements of the Outdoor Education Safety Component.

PE 280 Winter Camping and Backcountry Travel 1 cr
PE 281 Practical Outdoor Skills 1 cr
PE 282 Map, Compass and Backcountry Navigation 1 cr
PE 284 Intermediate Kayaking and Whitewater Safety 1 cr
PE 286 Avalanche and Winter Sports Safety 1 cr
PE 287 Snowboard Instructor Training 1 cr
PE 288 Ski Instructor Training 1 cr
PE 381 River Safety and Swiftwater Rescue 1 cr
PE 383 Advanced Rock Climbing and Climbing Safety 2 cr
PE g491 Physical Education Workshop* 1-3 cr
PEAC 101 Adaptive Snow Skiing 1 cr
PEAC 108 Instructor Training of Adapted Snowskiing 1 cr
PEAC 165 Backcountry GPS Navigation 1 cr
PEAC 166 Canoing 1 cr
PEAC 167 Kayak Touring 1 cr
### Minor in Sport Management

**Sport Management Standards**
The Sport Management Minor is modeled to frame the NASPE-NASSM Content Standards for undergraduate Sport Management programs. The standards encompass 10 core areas that include: Behavioral Dimensions of Sport; Management and Organizational Skills; Ethics in Sport Management; Marketing in Sport; Communication in Sport; Finance in Sport; Economics in Sport; Legal Aspects of Sport; Governance in Sport; and Field Experience in a Sport Setting.

Candidates completing this minor must complete a total of 24 credits, including 18 credits of required courses and 6 approved elective credits from the courses listed below. No more than 32 credit hours of College of Business courses may be counted toward the minor in Sport Management. In addition, the candidate must show satisfactory completion of the ASEF Citizenship Through Sports Course.

#### Required Courses (18 credits):
- **MGT 312** Individual and Organizational Behavior 3 cr
- **MGT 473** Human Resource Management 3 cr
- **P E 364** Introduction to Sport Law 3 cr
- **P E 366** Sport Finance and Marketing 3 cr
- **P E g475** Organization and Administration of Physical Education and Sport 3 cr
- **P E g491** Physical Education Workshop* 1-3 cr
- **P E g493** Diversity Issues in Education and Sport 3 cr

#### Sport Management Elective Courses (6 credits):
- **ECON 201** Principles of Macroeconomics 3 cr
- **ECON 202** Principles of Microeconomics 3 cr
- **FIN 315** Corporate Financial Management 3 cr
- **MGT 216** Business Statistics 3 cr
- **MKTG 325** Basic Marketing Management 3 cr
- **MKTG 327** Consumer Behavior 3 cr
- **P E g465** Organization and Administration of Intramural Sports 3 cr

*When workshop relates to outdoor education, i.e. Canoe Workshop (1 cr), Whitewater Rafting Workshop (1 cr), Backpacking Workshop (1 cr), Advanced Kayaking-Summer Field Experience (1 cr), Beginning Rock Climbing-Summer Field Experience (1 cr), Advanced Rock Climbing-Summer Field Experience (1 cr).

**P E 259 Lifeguarding 2 credits.** Provides a fundamental knowledge and practical application of principles involving lifesaving techniques in an aquatic environment. Academic course work and pool activity are required of all candidates. Can result in American Red Cross certification.

**P E 280 Winter Camping and Backcountry Travel 1 credit.** Techniques, equipment and safety of overnight winter wilderness travel, backcountry skiing and snowshoeing. Permission of instructor.

**P E 281 Practical Outdoor Skills 1 credit.** Study and application of knowledge and skills common to most outdoor activities, and ways in which such skills can be integrated in school, youth and adult activity programs. Practical outdoor knots, map and compass, sheltering strategies, outdoor emergencies, safety procedures, minimal impact techniques, and outdoor team building.

**P E 282 Map, Compass and Backcountry Navigation 1 credit.** Practical application of map and compass and wilderness navigation concepts including map and field bearings, declination, resection, contour line interpretation, GPS receiver use, map types, scales, and coordinate systems.

**P E 283 Leave No Trace Trainer 1 credit.** Principles and practices of minimum impact outdoor techniques including traveling approaches, waste disposal, campsite placement, outdoor ethics, state/federal land management requirements, and sport-specific procedures. Students receive “Leave No Trace” national certification.

**P E 284 Intermediate Kayaking and Whitewater Safety 1 credit.** Combines practical field experience in moving water with a study of river safety and accident prevention. Topics include hazard evaluation, self and team rescue, case history review, and whitewater safety procedures. **PREREQ:** PEAC 175A or permission of instructor.

**P E 285 Wilderness First Aid 1 credit.** Provides an introduction to First Aid and patient care in remote settings. Includes wound and infection management, realigning fractures and dislocations, improvised splinting techniques, patient monitoring and long-term management problems, and up-to-date information on environmental emergencies.

**P E 286 Avalanche and Winter Sports Safety 1 credit.** A study of snow, winter hazards, avalanche safety and rescue. Topics include basic snow physics, crystal identification, metamorphic processes, factors influencing avalanches, use of transceivers, snow pack evaluation, and avalanche rescue techniques.

**P E 287 Snowboard Instructor Training 1 credit.** Classroom sessions will include mechanics of snowboarding, teaching progressions, effective teaching styles and snowboarding techniques. The snow sessions will include teaching progressions, snowboarding demos and snowboarding tips to make you a better boarder.

**P E 288 Ski Instructor Training 1 credit.** Classroom sessions will include skiing mechan-
ics, teaching progressions, effective teaching styles and coaching techniques. On the Snow sessions will include teaching progressions, skiing demos and skiing techniques to make you a better skier. S

P E 292 Leadership Practicum 1 credit. Candidates develop, implement, and evaluate an individual program of professional leadership activities. F, S

P E 300 Movement Theory and Motor Development 3 credits. Introduces the candidate to the science of developmental human movement including fundamental concepts of movement behavior presented in a bio-social context and the concepts of learning in the psychomotor domain. S

P E 301 Physiology of Exercise 3 credits. Theoretical and applied study of the effects of physical work and exercise on physiological processes of the human body. Lecture and laboratory. PREREQ: PE 243, or Biol 301 and Biol 302. COREQ: P E 301L. F

P E 301L Physiology of Exercise Laboratory 0 credit. Physiological experiments and testing. COREQ: P E 301. F

P E 302 Biomechanics 3 credits. The study of anatomical and mechanical principles that apply to human movement. Study will include exercise and sport applications. Lecture and laboratory. PREREQ: PE 243, or Biol 301 and Biol 302. COREQ: P E 302L. S

P E 302L Biomechanics Laboratory 0 credit. Biomechanical experiments and testing. COREQ: P E 302. S

P E 312 Practical Applications of Coaching Baseball and Softball 2 credits. Essential elements of coaching baseball and softball. Emphasis on application and practice in the educational setting. D

P E 313 Practical Applications of Coaching Basketball 2 credits. Essential elements of coaching basketball. Emphasis on application and practice in the educational setting. F

P E 314 Practical Applications of Coaching Football 2 credits. Essential elements of coaching football. Emphasis on application and practice in the educational setting. S

P E 315 Practical Applications of Coaching Soccer 2 credits. Essential elements of coaching soccer. Emphasis on application and practice in the educational setting. D

P E 316 Practical Applications of Coaching Tennis 2 credits. Essential elements of coaching tennis. Emphasis on application and practice in the educational setting. D

P E 317 Practical Applications of Coaching Track and Field 2 credits. Essential elements of coaching track and field. Emphasis on application and practice in the educational setting. S

P E 318 Practical Applications of Coaching Volleyball 2 credits. Essential elements of coaching volleyball. Emphasis on application and practice in the educational setting. S

P E 319 Practical Applications of Coaching Wrestling 2 credits. Essential elements of coaching wrestling. Emphasis on application and practice in the educational setting. D

P E 322 Psycho-Social Aspects of Human Activity 3 credits. Study of theoretical and applied psychological parameters in sport settings. Specific topics include the coach-athlete relationship and issues in sport performance. Also includes motivation, leadership, communication, ethics, and intervention strategies. S

P E 357 Methods of Teaching: Elementary Physical Education 3 credits. Prepares candidates to teach elementary physical education activities. Emphasis on a variety of teaching methods and their application to all skill levels at the elementary level. F, S, Su

P E 358 Water Safety Instructor’s course 3 credits. Techniques of teaching swimming, diving, and community water safety skills including small craft safety. Emphasis on skill progressions and planning/organizing courses. American Red Cross certificate awarded if examination is passed. Su

P E 362 Tests and Measurements in Physical Education 3 credits. Study of constructive practical and written tests applicable to physical education. Study of the theory of practice of test administration, brief study of statistical methods and measurements in physical education. F

P E 364 Introduction to Sport Law 3 credits. Study of the law as it relates to physical education and sport. Includes fields of tort law, criminal law, contract law, and constitutional law as they relate to physical education and sport settings. AF

P E 366 Sport Finance and Marketing 3 credits. Study of sport marketing theory, basic economics, accounting, and budgeting principles. Additional topics will also include sport marketing strategies and tactics, sponsorships, and sport licensing. AF

P E 380 Field Experience 1 credit. Orientation, observation, planning, and supervised experience exposes the candidate to activity instruction under the direction of a major advisor. D

P E 381 River Safety and Swiftwater Rescue 1 credit. A comprehensive safety and rescue course for river users and rescue personnel. Topics include safety equipment, river hazards, river crossings, tag line procedures, zip line and z-pulley use, moving water extractions, and first aid considerations. Su

P E 383 Advanced Rock Climbing and Climbing Safety 2 credits. A comprehensive examination of climbing safety—anchor placement, self-rescue, belaying, route protection, case history review, equipment limitations—along with field experience including lead and aid climbing, advanced knots, movement techniques, and minimal impact procedures. PREREQ: PEAC 176A or permission of instructor. S

P E 384 Outdoor Risk Management and Liability 1 credit. Legal implications of outdoor recreation programming including a study of tort liability, risk evaluation, relevant case law, legal management strategies, and the use of waivers and releases. F

P E 386 Outdoor Leadership 2 credits. Designed to provide candidates with the knowledge to organize and lead outdoor activities. Includes leadership styles, liability, program promotion, planning, safety, and environmental impact. Practical experiences are included. S

P E 413 Sport in Cinema 3 credits. Investigate sport, and the treatment of sport, through the medium of modern cinema. Sport will be analyzed from the sociological, psychological, moral and ethical perspective of the filmmakers. D

P E 435 Methods of Teaching Creative Movement 3 credits. A course for integrating movement into the curriculum. Practical involvement and discussion will cover the following topics: motor learning and development, games and rhythms and problem solving. F

P E 437 Methods of Teaching Secondary Physical Education 3 credits. Designed to prepare the candidate for teaching secondary physical education activities. Emphasis on a variety of teaching methods and their application to all skill levels at the secondary level. PREREQ: P E 300. S, Su

P E 440 Survey of Outdoor Education Literature 2 credits. An examination of recent research, literature and contemporary writing in outdoor education. Course work consists of a series of reading assignments followed by oral reports and class discussions. F

P E 445 Methods of Teaching Outdoor Activities and Practicum 3-4 credits. This culminating course for outdoor education minors consists of two parts: a study of the objectives, programs and methods of teaching outdoor recreation activities followed by a practicum experience in which candidates assist in teaching and leading outdoor activities. PREREQ: PE 386, PE 440, and permission of instructor. S

P E 465 Organization and Administration of Intramural Sports 3 credits. Study of various methods of organizing and administering intramural sports programs on the junior high school, high school, and college levels. D

P E 470 Care and Prevention of Athletic Injuries 2 credits. Prevention, cause and care of athletic injuries. Emphasis on the role of the coach relative to responsibility and resultant liability. F, S

P E 473 Facilities Planning and Design 3 credits. An investigation of the various components, principles, and fundamental practices involved in facility planning and design for physical education, athletics, and recreation. AF

P E 475 Organization and Administration of Physical Education and Sport 3 credits. Study of the management theory and practices utilized in conducting physical education and sport programs. Emphasis will be placed on interscholastic as well as intercollegiate physical education and athletic programs. F

P E 480 Coaching Problems 2 credits. Athletic control, eligibility, new coaching techniques, finances, safety measures, public relations, duties of coaches, managers, and officials. May be repeated for up to 4 credits. F, S, Su

P E 481 Coaching Clinic 1 credit. Idaho State University is a sponsor of the annual Idaho Coaches Association Clinic held during the first week of August. Instruction offered in football, basketball, and other sports by coaches of national reputation. Total cost of registration at the clinic, board, room, and privileges for the
full period of the clinic will be about $50. An extra fee will be charged for those who register at the clinic for credit. May be repeated for up to 6 credits. Graded S/U. Credits will not be acceptable for degree completion requirements/electives. D

PE 482 Mechanical Analysis of Human Movement 3 credits. Advanced study of assessing human motion patterns. Course will include computer analysis and videography techniques along with various field analysis techniques utilized in physical skill analyses. PREQ: PE 302. AF

PE 484 Exercise Assessment and Prescription 3 credits. Design and principles of exercise assessment procedures in physical education and sport setting. Physical Fitness testing concepts and procedures will be covered along with the principles involved when prescribing exercise programs for physical education and sport participants. PREREQ: PE 301. AS

PE 485 Independent Problems in Physical Education 1-3 credits. Individual work under staff guidance. Field and/or library study on specific physical education problems of interest to majors and minors. May be repeated for up to 6 credits. PREREQ: Permission of instructor. F, S, Su

PE 490 Practicum in Physical Education 1-16 credits. Practical experience in a field-based setting, congruent with candidate’s employment goals. May require multiple experiences in a variety of settings outside K-12 school settings. F, S, Su

PE 491 Physical Education Workshop 1-3 credits. Critical analysis of one or more areas of physical education. May be repeated for up to 6 credits. PREREQ: Permission of instructor. D

PE 493 Diversity Issues in Education and Sport 3 credits. Candidates will explore various issues of social justice that are encountered in education and sport settings. PREREQ: General Education Goal 1. F, ASu

PE 494 Adapting Physical Activity 3 credits. History, philosophy, and the teaching/learning processes in providing adapted physical activity in schools and community-based settings. Includes clinical experiences. PREREQ: BIOL 301 or equivalent, or PE 243, PE 300, and PE 362. S

PE 495 Physical Education: Student Teaching Internship 7-14 credits. Observation and teaching under supervision in approved physical education programs with the opportunity to assume direct responsibility for the learning activities of secondary level students. Includes weekly professional development seminar. PREREQ: Admission to Teacher Education Program and approved application for Student Teaching Internship. Graded S/U. F, S

PE 397 Professional Education Development 1-3 credits. A course for the practicing educator aimed at the development and improvement of educational skills. Various sections will have different subtitles. A maximum of 10 credits may be applied to fifth year program. Graded S/U. D

Activity Courses in Physical Education

PEAC 100 Adaptive Martial Arts 1 credit. Adaptive and corrective exercise programs in the martial arts (including judo and tae kwondo) designed for individuals unable to participate in a regular activity class. F, S

PEAC 101 Adaptive Snow Skiing 1 credit. Adaptive and corrective exercise program in snowsking designed for individuals unable to participate in a regular activity class. Su

PEAC 102 Adaptive Waterskiing 1 credit. Adaptive and corrective exercise program in waterskiing designed for individuals unable to participate in a regular activity class. Su

PEAC 103 Adaptive Swimming 1 credit. Adaptive and corrective exercise programs in progressive body building and conditioning exercises designed for individuals unable to participate in a regular activity class. Su

PEAC 104 Adaptive Weight Training 1 credit. Adaptive and corrective exercise programs in progressive body building and conditioning exercises designed for individuals unable to participate in a regular activity class. Su

PEAC 107 Instructor Training of Adapted Waterskiing 1 credit. Methods and techniques of teaching waterskiing to people with disabilities. Su

PEAC 108 Instructor Training of Adapted Snowsking 1 credit. Methods and techniques of teaching snowsking to people with disabilities. S

PEAC 109 Instructor Training of Adapted Sport 1 credit. Methods and techniques of teaching a variety of sport skills to people with disabilities. F, S

PEAC 110 Basic Course Military Style Physical Fitness 1 credit. Participation in and learn to lead a physical fitness program. Emphasis on developing an individual fitness program and the role of exercise and fitness in one’s life. Cross-listed as MSL 110. F, S

PEAC 120 Introduction to Pilates-Based Method 1 credit. Introduction of the Pilates-based methods of exercise and how to safely perform some of the basic fundamental movements on the floor and with the equipment. F, S

PEAC 121A Beginning Pilates Matwork 1 credit. Provides an introduction to this form of exercise and direction on how to perform some of the basic fundamental movements performed on the floor. F, S

PEAC 121B Intermediate Pilates Matwork 1 credit. Build upon basic skills learned in beginning matwork course. More advanced floor Pilates skills in building understanding of technique and how technique relates to Pilates apparatus. PREREQ: PEAC 121A or permission of instructor. D

PEAC 122 A Beginning Yoga 1 credit. Introduction to Yoga practice; building and developing strength, balance, flexibility and an appreciation for controlled movement. F, S

PEAC 122B Intermediate Yoga 1 credit. Course builds upon basic skills learned in beginning yoga. More advanced skills in building and developing strength, balance, flexibility and an appreciation for controlled movement. F, S

PEAC 130 Aquatics 1 credit. Techniques of water exercises for physical conditioning. Physiological self-assessments and water safety will be covered. F, S

PEAC 131A Beginning Aerobics 1 credit. Introduction to elementary techniques and modalities of aerobic exercise. Physiological self-assessments and safety will be covered. F, S

PEAC 131B Intermediate Aerobics 1 credit. Continuation of elementary techniques, and introduction to more strenuous aerobic exercise for the intermediate level student. Physiological self-assessments, safety, and training benefits of a variety of modalities will be covered. F, S

PEAC 131C Advanced Aerobics 1 credit. High-level aerobic techniques and modalities designed for the advanced student. More advanced physiological self-assessments and discussion of a variety of modalities will be covered. D

PEAC 132 Individualized Physical Education 1 credit. Introduction to lifetime fitness programming components with individually-designed programs. Physiological self-assessments, safety, and equipment are covered. F, S

PEAC 133 Jogging/Perso nal Fitness 1 credit. Fitness-oriented course, designed for students who wish to maintain or increase their present fitness level. Physiological self-assessments and safety are covered. F, S

PEAC 134A Beginning Weight Training 1 credit. Instruction and participation in fundamentals of progressive body-building and conditioning with resistance, including various modalities. Physiological self-assessments and safety will be covered. F, S, Su

PEAC 134B Intermediate Weight Training 1 credit. Instruction and participation in fundamentals of progressive body-building and conditioning with resistance, including various modalities. Designed for the intermediate lifter. F, S

PEAC 135A Introduction to Hatha Yoga 1 credit. Introduction to yoga philosophy, beginning postures, and techniques of breathing, relaxation, and meditation. Progressive movement builds strength, flexibility, and balance, and is adaptable to all ability levels. Special emphasis on proper alignment and diaphragmatic breathing. F, S

PEAC 135B Intermediate Hatha Yoga 1 credit. Course builds upon basic skills learned in introductory course, including addition of more challenging postures, advanced breathing and relaxation techniques, while continuing to build flexibility, strength and balance. More attention given to yoga philosophy and meditation. PREREQ: PEAC 135A OR PERMISSION OF INSTRUCTOR. D
PEAC 136 Target Fit (TM) Conditioning 1 credit. Target Fit (TM) system used for over 115 different weight room type exercises while learning resistance training. Resistance training options allow students to improve muscular strength, overall cardiovascular endurance and flexibility while improving bone density. F, S

PEAC 137 Marathon Training 1 credit. Physical, mental and spiritual training principles for beginning runners training to complete marathons. D

PEAC 138 Kendo 1 credit. Introduction to principles and philosophies of Kendo, including training hall etiquette, basic sword handling, combat stances, footwork and striking a target. D

PEAC 139A Beginning Fencing 1 credit. Introduction to the basic skills of foil fencing including equipment, grip, salute, on-guard, advance, retreat, lunge, and defense. Includes safety concerns, basic strategies, and rules. F, S

PEAC 139B Intermediate Fencing 1 credit. Continuation and expansion of the basic skills included in the beginning course with the addition of parries, engagements, and advanced attacks. Also includes advanced strategies. F, S

PEAC 140A Beginning Billiards 1 credit. Introduction to the fundamental skills involved in billiards: technique, game play, scoring, and etiquette. F, S

PEAC 140B Intermediate Billiards 1 credit. Designed for the intermediate level player; this course explores a variety of more advanced shots and strategies. F, S

PEAC 141A Fundamentals of Bowling 1 credit. Introduction to fundamental skills, score-keeping, handicaps, and rules of bowling. F, S

PEAC 141B Intermediate Bowling 1 credit. Designed for the intermediate level bowler, this course builds upon the skills and knowledge of the fundamentals course. F, S

PEAC 141C Advanced Team Bowling 1 credit. Introduction to more advanced individual techniques and skill assessment and corrections for bowling. F, S

PEAC 142A Beginning Golf 1 credit. Fundamental philosophies and techniques of golf, including grip, use of irons, woods, and putter, and etiquette. F, S, Su

PEAC 142B Intermediate Golf 1 credit. Designed for the intermediate golfer, this course builds on the acquisition of skill in the fundamental strokes; etiquette; and more advanced reading of the course. F, S, Su

PEAC 143A Beginning Judo 1 credit. Rudimentary principles and philosophies of judo, including the techniques of grappling, throwing and falling. F, S

PEAC 143B Intermediate Judo 1 credit. A continuation of fundamental judo skills and philosophies for intermediate-skilled students, including basics of some advanced skills. F, S

PEAC 143C Advanced Judo 1 credit. A refinement of fundamental judo skills and philosophies for advanced-skilled students, including advanced techniques of throwing, grappling, and falling. F, S

PEAC 144 Taekwondo 1 credit. Presentation of principles and philosophies of Taekwondo, a Korean form of karate meant for energy conservation in self-defense technique. F, S

PEAC 145Rodeo 1 credit. An orientation to the safety and techniques of the various events of the modern-day rodeo. F, S

PEAC 146 Archery 1 credit. Introduction to equipment, technique, and safety practices of archery. D

PEAC 146B Archery — Bowhunter Education 1 credit. Technique, strategy, safety and equipment in the sport of Bowhunter Archery. Bowhunter Education Certification included. F, S

PEAC 147A Beginning Karate 1 credit. Principles and philosophies of a modified Shorin Ryu Karate Do directed towards beginning martial artists. F, S

PEAC 148A Beginning Women’s Judo 1 credit. Introduction to methods and techniques of judo for women. Includes a variety of holding and throwing techniques. Rules, safety considerations, and the philosophy of judo are emphasized. D

PEAC 149A Tai Chi 1 credit. This course is designed to facilitate fitness through the practice in the Yang-style short form of Tai Chi Chuan. D

PEAC 149B Intermediate Tai Chi 1 credit. This course is designed to further skill competency and fitness through practice in the Yang-style short form of Tai Chi Chuan. PREREQ: PEAC 149A or equivalent skill and ability. D

PEAC 150A Beginning Racquetball 1 credit. Introduction to fundamentals of technique, strategy, and safety in the game of racquetball. F, S

PEAC 150B Intermediate Racquetball 1 credit. Continuation of basic skills and fundamental strategies for the intermediate level racquetball player. F, S

PEAC 150C Advanced Racquetball 1 credit. Refinement of skills, techniques, and strategies for the advanced level racquetball player. D

PEAC 151A Beginning Tennis 1 credit. Rudimentary principles and techniques of tennis, including basic shot selection, conditioning, drill works, and game play. F, S, Su

PEAC 151B Intermediate Tennis 1 credit. A continuation of fundamental tennis skills and principles for intermediate-skilled students, including an introduction to some advanced skills. F, S

PEAC 151C Advanced Tennis 1 credit. Refinement of skills, techniques, and strategies for the advanced level player. D

PEAC 152A Beginning Badminton 1 credit. Introduction to basic skills, game play, and strategies in the game of badminton. D

PEAC 152B Intermediate Badminton 1 credit. Continuation of skill refinement, more advanced game play, and strategies for the intermediate player. D

PEAC 152C Advanced Badminton 1 credit. Refinement of fundamental skills, more advanced game play, and strategies for the advanced player. D

PEAC 153 Racquet Sports 1 credit. Introduction to and instruction in fundamental skills for a variety of court sports, specifically tennis, racquetball and badminton. D

PEAC 154 Table Tennis 1 credit. Introduction to the basic fundamentals of the game of table tennis. Includes fundamental individual and doubles techniques, strategies, and play. D

PEAC 155A Beginning Soccer 1 credit. Introduction to basic individual and team soccer skills, including dribbling, shooting, and offensive and defensive techniques and strategies. S

PEAC 155B Intermediate Soccer 1 credit. Continuation of fundamental team and individual skill acquisition, and introduction of more advanced techniques and strategies. D

PEAC 156A Beginning Basketball 1 credit. Fundamental individual and team techniques, strategies, and play. F, S

PEAC 156B Intermediate Basketball 1 credit. More advanced individual and team techniques, strategies, and play for intermediate level players. F, S

PEAC 157A Beginning Volleyball 1 credit. Introduction to fundamental individual and team skills, strategies, and play for beginning level volleyball players. S

PEAC 157B Intermediate Volleyball 1 credit. More advanced individual and team skills, strategies, and play for intermediate level volleyball players. S

PEAC 158 Softball 1 credit. Introduction to fundamental skills, and refinement of more advanced skills, for individual and team techniques, strategies, and play in softball. F, S

PEAC 159 Ultimate Frisbee 1 credit. This course is designed to enhance student skills and abilities in ultimate frisbee. D

PEAC 160A Beginning Skiing 1 credit. Fundamental techniques, etiquette, training, safety practices and skill practice in downhill skiing for beginners. S

PEAC 160B Intermediate Skiing 1 credit. For intermediate level skiers, an emphasis on safety practices, etiquette, more advanced techniques, training, and skill practice. S

PEAC 160C Advanced Skiing 1 credit. Intended for advanced skiers, this course emphasizes high-level skill acquisition, training, safety, ski etiquette, and skill practice. S

PEAC 161A Beginning Night Skiing 1 credit. Skill acquisition and safety practices for beginners who wish to ski at night. S

PEAC 162A Beginning Snowboarding 1 credit. Introduction to snowboarding, including selection of equipment, safety practices, etiquette, and techniques. S

PEAC 162B Intermediate Snowboarding 1 credit. Designed for the experienced snowboarder. A continuation of the basic skills and techniques included in the beginning course. S
PEAC 163 Backpacking 1 credit. Designed for the beginning to advanced backpacker, this course prepares the students for and includes a week long backpacking trip. Includes discussions on navigation, equipment, low impact techniques and food preparation. F, S

PEAC 164A Beginning Ice Skating 1 credit. The ice skating course is designed for full participation on ice. Proper techniques are taught for various levels of figure and hockey skaters. S

PEAC 165 Backcountry GPS Navigation 1 credit. The practical use of portable GPS devices for outdoor applications. Topics covered include angular and rectangular coordinates, cross-country land navigation, use of waypoint coordinates, determining distance, and limitations of GPS. F

PEAC 166 Canoeing 1 credit. A basic level course, teaching both American Red Cross and Native American canoeing styles, and covering paddling techniques, canoe design, equipment, clothing, camping, safety and rescue. Su

PEAC 167 Kayak Touring 1 credit. Basic skills for lake, ocean and flat-water kayaking including equipment, technique, navigation, safety and rescue. F

PEAC 168 Day Hiking 1 credit. Skills necessary to be successful in outdoor hiking situations. Learn to plan, prepare and execute a daily hiking adventure by focusing on equipment, skills and physical preparation. D

PEAC 169 Touch Rugby 1 credit. Introduction to the participation in the fundamental techniques, strategies, training systems and safety of touch rugby. D

PEAC 170A Beginning Swimming 1 credit. Introduction to propulsive movement skills in the water; includes safety, front crawl, and elementary backstroke. F, S

PEAC 170B Intermediate Swimming 1 credit. Refinement of beginning skills; includes an introduction to breaststroke, intermediate level safety, basic diving technique, back crawl, and sidestroke. F, S

PEAC 170C Advanced Swimming 1 credit. Refinement of previous strokes; includes introduction to butterfly, inverted breaststroke, the trudgen, and overarm sidestroke. D

PEAC 171 Synchronized Swimming 1 credit. An orientation to the fundamentals of the Olympic sport of individual and team synchronized swimming, including tricks, presentation, and basic to advanced skills. D

PEAC 172SCUBA Diving 1 credit. Basic skills in SCUBA diving: mask, fins, snorkel use; safety techniques; mechanical equipment use; aquatic environments. Students must: swim 400 yards; tread water 15 minutes; carry ten pound brick 25 yards. No certification. F, S

PEAC 173 Skin and SCUBA Diving Certification 2 credits. Skills in SCUBA: mask, fins, and snorkel use; safety techniques; mechanical equipment use; aquatic environments. Students must: swim 400 yards; tread water 15 minutes; carry ten pound brick 25 yards. Certification possible. F, S, Su

PEAC 174 Advanced Open Water Scuba Diving 2 credits. Course builds upon basic skills learned in beginning scuba diving. Student must have open water certification. Teaches the four specialties of photography, equipment, navigation and search/recovery. Requires eight dives during two open water diving days. Student will receive certification after completion of course requirements. PREREQ: Open water certification. D

PEAC 175A Beginning Kayaking 1 credit. Uses controlled environment of ISU pool and includes basic skills including draw and sculling strokes, high and low bracing, eddy turns, deep water rescue techniques, river safety, and Eskimo roll. F, S

PEAC 176A Beginning Rock Climbing 1 credit. Designed for students with little or no climbing experience, this outdoor class covers basic climbing including knot tying, belaying, movement techniques, top rope anchor systems, and safety procedures. F, S

PEAC 176B Intermediate Rock Climbing 1 credit. Designed for the intermediate level student, this course explores more advanced techniques, etiquette, and minimal impact techniques. F, S

PEAC 177A Beginning Cross-Country Skiing 1 credit. Designed for beginning skiers, this course introduces students to flat surface techniques and progresses to uphill and downhill techniques. Indoor lectures are combined with tours to local cross-country ski areas. S

PEAC 177B Intermediate Cross-Country Skiing 1 credit. Designed for intermediate skill x-country skiers, this course builds on the fundamental techniques of the beginning course. Includes safety in the backcountry, more advanced uphill and downhill techniques, and overnight trip planning. S

PEAC 178A Beginning Telemark Cross-Country Skiing 1 credit. Fundamental skills of executing downhill turns on cross-country skis. Telemark is primary emphasis, but wedge, stem christie, and parallel turns are also covered in relation to free heel skis. S

PEAC 178B Intermediate Telemark Cross-Country Skiing 1 credit. Course builds upon the basic skills first introduced in the beginning course. Introduces additional techniques. S

PEAC 179 Diver Stress and Rescue 2 credits. Introduction to fundamentals and techniques to understand stress, reasons for occurrence, methods of detection, methods of prevention, methods of treatment at occurrence. Student will receive certification after completion of course requirements. D

PEAC 180A Beginning Windsurfing 1 credit. Introduction to the basic skills of sailboarding including sail rigging, sailing maneuvers, wind reading and windsurfing safety. F, S

PEAC 180B Intermediate Windsurfing 1 credit. Continuation of basic skills of sailboarding, with additional emphasis on more advanced techniques and weather reading for the intermediate level windsurfer. F, S

PEAC 181 Bicycling 1 credit. Includes both mountain and road biking. Combines a series of indoor lectures with practical outdoor riding experience. Topics include riding techniques, clothing, equipment, safety and bike maintenance. F

PEAC 182A Beginning Dutch Oven Cooking 1 credit. Includes basic food preparation, meal planning and the care and use of cast iron dutch ovens. Nightly demonstrations by guest chefs. Students will select recipes, buy food, and prepare their own meals. F, S

PEAC 182C Advanced Dutch Oven Cooking 1 credit. Expands upon the basics taught in the beginning course. Includes large group meal planning, dutch oven catering, garnishing and presentation of meals, gourmet meal preparation, and competitive cooking. F

PEAC 185 Basic Mountaineering 1 credit. Designed for students wishing to climb mountains on a non-technical basis. Includes ice axe use, rope team travel, clothing, equipment, hazards, hypothermia, and acute mountain sickness. S

PEAC 186A Beginning Fly Fishing 1 credit. Equipment selection, basic techniques of flycasting, basic knots and types of flies are included. Dry fly fishing, nymphing, and streamer fishing included. D

PEAC 186B Intermediate Fly Fishing 1 credit. Specialized casting techniques for different conditions included. Selecting and using the proper fly as well as how to read a stream and locate fish will be addressed. Emphasis will be on fishing still waters, small streams and big rivers. PREREQ: PEAC 186A or permission of instructor. D

PEAC 186C Advanced Flyfishing Skills 1 credit. Advanced level specialized techniques including casting, fly selection and use, fish behavior, stream, still water and big water fishing, advanced equipment use, and advanced equipment construction. PREREQ: PEAC 186B or permission of instructor. F, S

PEAC 187A Beginning Fly Tying 1 credit. Basic fly tying skills for the beginner. Introduction and explanation of basic tools and materials. Course will include simple nymph, wet and dry fly patterns. D
PEAC 187B Intermediate Fly Tying 1 credit.
Intermediate level course for the experienced fly-tyer. Advanced patterns included with additional emphasis on innovative materials and techniques. Basic entomology will also be addressed. PREREQ: PEAC 187A or permission of instructor. D

PEAC 188 Winter Survival Skills 1 credit.
Designed to equip students with knowledge necessary for a 72 hour winter survival situation. Content includes winter shelter building, recognizing and treating frostbite, signaling, fire building, survival psychology, nutrition needs, clothing and equipment. S

PEAC 189 Beginning Gym Climbing 1 credit.
Taught entirely indoors on the Idaho State University Climbing Wall, this course covers climbing knots, belaying procedures, basic equipment, movement techniques, and safety. S

PEAC 190 Varsity Athletics, Bengal Dance Team, and Cheerleading 1 credit. Instruction and participation in ISU Department of Athletics approved sports. Coach’s approval required. F, S

PEAC 191A Basic Horsemanship 1 credit.
Introduces the student to horsemanship, safety and riding skills. Includes horse behavior, safety, grooming, tack care, tacking horse, nutrition, fitness, basic skills for the horse and rider. Skills include guiding, posting at a trot, correct leads, flying lead changes, obtaining balanced stops, roll maneuvers and techniques to work the problem horse. F, S

PEAC 191B Intermediate Horsemanship 1 credit.
Build upon basic skills learned in beginning horsemanship. Intermediate skills include guiding, posting at a trot, correct leads, flying lead changes, stops, roll maneuvers and techniques to work the problem horse. PREREQ: PEAC 191A or permission of instructor. D

PEAC 192 Wilderness Survival Skills 1 credit.
Designed to provide students with knowledge and skills necessary to survive a 72-hour emergency (summer and fall seasons). Includes signaling, shelter building, hypothermia, survival kits, fire building, direction finding and desert hazards. F

PEAC 193 Leave No Trace Workshop 1 credit.
Participants will gain a better understanding of LNT practices and outdoor ethics, developing confidence in teaching others about LNT. Through activities, outdoor overnight experience, and discussions, students will look at their own outdoor ethics and be challenged to better develop their skills and practices to lessen their impact on the land. D

PEAC 194 Caving Workshop 1 credit.
Designed for students that want to develop the skills necessary to explore non technical caves. The course covers navigation, equipment, rappelling, light sources, emergency preparation, and the history of caving. S

PEAC 195A Beginning Disc Golf 1 credit.
Introduction to the sport of Disc Golf. The class covers basic throwing techniques, putting styles and mental preparation for competitive play. F

PEAC 196 Skateboarding 1 credit.
Introduction to the fundamentals, technique, and overall knowledge of skateboarding. F, S

PEAC 197 Handball 1 credit.
Introduction to the fundamentals of technique, strategy, and safety in the game of handball. D

PEAC 198A Team Sports: Inline Roller Hockey 1 credit.
Fundamentals of inline hockey, including game rules, safe practices, skating, stick handling, passing, shooting, goal tending, offensive and defensive play, and officiating. D

PEAC 198B Team Sports: Lacrosse 1 credit.
Fundamentals of Lacrosse including: game rules, equipment, safe practices, cradling, passing, catching, scooping, and scrimmaging. D

PEAC 198C Team Sports: Flag Football 1 credit.
Fundamentals of flag football including game rules, equipment, safe practices, passing, catching, offensive and defensive play, and scrimmaging. F

PEAC 200 Challenge Course Facilitator 2 credits.
Trains individuals to facilitate and lead on a challenge course. Setup and dismantling of an Alpine Tower course, facilitation of large and small team building groups, safety and rescue techniques. Designed to train participants in pursuit of employment within the challenge course industry. D
College of Engineering

Richard T Jacobsen, Ph.D., Dean
D. S. Naidu, Ph.D., Associate Dean
Professors: Bosworth, Ebrahimipour, Imel, Jacobsen, Kunze, Leung, Mousavinezhad, Naidu, Sadid, Stuffle, Zoghi
Research Professor and Director of Institute of Nuclear Science and Engineering: Lineberry
Associate Professors: Bennion, Ellis, Kantabutra, Sato, Schoen, Wabrek, Williams
Research Associate Professors: Hartmann, Paviet-Hartmann
Assistant Professors: Chen, Chiu, Dunzik-Gouggar, Pan, Perez, Savage, Tappan
Senior Lecturer: Mahar
Associate Lecturer: Hofle
Specialist Engineer and Associate Lecturer: Hart
Engineer and Assistant Lecturer: Gansauge
Adjunct Faculty: Ambrose, Gossett, Korth, Lundeen, Maio, Smith
Affiliate Faculty: Aumeier, Boston, Carney, Sandquist, Start, Walker, Wolper, Zaltzman
Emeritus Faculty: Wilson

Mission
The mission of the College of Engineering is to provide students with programs of study leading to a comprehensive education designed to prepare them for, and support them in, careers in engineering and related professions. The goals of the College are to:

- Provide undergraduate education in computer science and selected traditional engineering disciplines.
- Strengthen the engineering program by implementing changes based on continuous assessment.
- Serve society by providing continuing support to graduates, industry, the profession, and the community.
- Provide graduate education and research opportunities in selected areas.

To accomplish these goals, Educational Objectives have been established by each department.

The Bachelor of Science (B.S.) degree programs which are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET), include Civil, Electrical, and Mechanical Engineering. The B.S. degree in Computer Science is accredited by the Computing Accreditation Commission of ABET. In addition, the College has a program leading to the Bachelor of Science in Nuclear Engineering.

Engineering students are encouraged to take the Fundamentals of Engineering (FE) exam (administered nationally, twice a year) during their senior year, while the breadth of the engineering material covered on the examination is still fresh in their minds. This exam is considered the first step in professional licensure for engineers. Those who successfully pass the FE exam while enrolled at Idaho State University will have that fact noted on their transcript.

Idaho State University engineering graduates are successfully employed in many areas, and many have chosen to continue advanced studies in a wide variety of specialized engineering disciplines.

Each student entering an engineering program is assigned a faculty advisor to guarantee an appropriate plan of study and to insure continuity throughout the program. Each student completes general education and engineering core courses, which account for more than five semesters. They devote their last three semesters to more specialized, design-oriented courses. During the last two or three semesters, each student completes a senior design project.

The College recommends that students entering an engineering or computer science program have: (a) adequate algebra and trigonometry to enter the calculus sequence and (b) some familiarity with computer language and computer fundamentals. A student deficient in these areas may be delayed in entering their major. Preparatory mathematics and computer courses are available at Idaho State University.

College of Engineering

Academic Rules
1. A student who fails the same engineering or computer science course (any course offered by the College of Engineering) two or more times may be dismissed from the College contingent upon review by the appropriate College committee.
2. Students who have been dismissed from the college may not enroll in engineering or computer science courses prior to readmission.
3. A student who enrolls in an engineering or computer science class while petitioning for a waiver of applicable prerequisites must secure the waiver by the second week of classes or be dropped from the course in question.
4. Transfer credits, including correspondence and video-tape courses, are subject to existing College articulation and/or transfer credit review criteria. The College recommends that students who intend to transfer a course to Idaho State University obtain prior approval for the transfer. Any transfer course must be completed within a single academic term. Evaluation of transfer credits must be completed before a student can matriculate or rematriculate into the College.
5. Any prerequisite in a sequence of courses is an effective prerequisite for any subsequent course in the sequence. For example, if course A is a prerequisite for course B, and course B is a prerequisite for course C; then course A is an implied prerequisite for course C.
6. Every College of Engineering student must meet with a College faculty member from her/his discipline for academic advising prior to registration each semester. Students will not be permitted to register for engineering/computer science classes without an advisor approved schedule. A student who pursues a double major must be advised each semester by a faculty member from each of the two major programs.

Under the Graduate School, the College of Engineering administers programs leading to the Master of Science in Engineering and the Ph.D. The M.S. program comprises majors in Nuclear Science and Engineering, Measurement and Control Engineering, Environmental Engineering, Civil Engineering and Mechanical Engineering. The Ph.D. is available in Engineering and Applied Science. For more information, see the Graduate Catalog. Additional graduate programs are available through interdisciplinary majors with mathematics and the physical sciences.
General Education Requirements (38 or 43 cr)

Students earning the Bachelor of Science (except in Computer Science) must complete the General Education Requirements as follows. See the Computer Science section for instructions specific to that major.

Goal 1
ENGL 102, Critical Reading and Writing 3 cr
Goal 2
COMM 101, Principles of Speech 3 cr
Goal 3
MATH 170, Calculus I 4 cr
Goal 4
Met via 12-credit policy in physical sciences
Goal 5
CHEM 111, General Chemistry 5 cr
PHYS 211, 212 Engineering Physics 8 cr
Any two of Goals 6, 7, and 8 6 cr
Any three of Goals 9, 10 (A or B), 11 and 12 9 or 14 cr

Engineering Courses

ENGR 105 Engineering Graphics 2 credits.
Introduction to design/construction process, sketching, and 3-D visualization. PREREQ: MATH 147 or equivalent. F, S

ENGR 120 Introduction to Engineering 2 credits.
Introduction to engineering problem solving, engineering design, analysis of contemporary societal issues and methods of presenting engineering information. Design projects and/or presentations of current engineering challenges. F, S

ENGR 165 Structured Programming 2 credits.
Introduces concepts of structured programming via top-down design concepts, in an interpreted programming environment. Covers conditionals, loop structures, function modules, array processing, structures, input and output of data, and graphical visualization, with applications to engineering problems. PREREQ: MATH 170. F, S

ENGR 166 Symbolic Programming 1 credit.
Introduces a symbolic programming language, with emphasis on algebraic, calculus, and linear algebraic manipulations and visualization, with engineering applications. COREQ: ENGR 165. F, S

ENGR 167 Engineering and Scientific Programming 1 credit.
Introduces a high level, compiled, programming language used in engineering and scientific applications, such as FORTRAN. Covers compilation and linking, functions and procedures, the use of libraries, and engineering applications. COREQ: ENGR 165. F, S

ENGR 190 Energy and Nuclear Power 2 credits.
Energy sources, distribution, and use. Environmental effects. Development of alternative energy sources. PREREQ: MATH 147 or equivalent. F

ENGR 210 Engineering Statics 3 credits.
Concepts of force vectors and equilibrium with emphasis on freebody diagrams. Trusses, beams, frames, centroids, fluid statics, and friction. PREREQ: ENGR 120. COREQ: ENGR 105 or ME 105; PHYS 211, and MATH 175. F, S

ENGR 220 Engineering Dynamics 3 credits.

ENGR 223 Materials and Measurements 3 credits.
Structure of materials. Mechanical, electrical and thermal behavior of metals, ceramics, polymers and composite materials. Laboratory measurement of material properties. Three lectures and one lab per week. PREREQ: CHEM 111 and ENGL 102. F, S

ENGR 224 Materials and Measurements Laboratory 1 credit.
Laboratory measurement of material properties. COREQ: ENGR 223. F, S

ENGR 240 Introduction to Electrical Circuits 3 credits.

ENGR 307 Thermodynamics 3 credits.
Fundamental concepts of thermal energy equations. Applications to ideal and real gases, liquids, and solids in static and transient systems. PREREQ: CHEM 111, ENGR 220, and PHYS 212. F

ENGR 340 Fundamentals of Electrical Devices 3 credits.

ENGR 342 Fundamentals of Electrical Devices Laboratory 1 credit.
Laboratory course emphasizing basic electrical measurements and methods. COREQ: ENGR 340. S

ENGR 350 Mechanics of Materials 3 credits.
Theories of stresses and strains for ties, shafts, beams, columns and connections. Determination of deflections and the investigation of indeterminate members. An introduction to design. PREREQ: ENGR 210, ENGR 223, and ENGR 224. F, S

ENGR 360 Engineering Economics 2 credits.
Introduction to design/construction process, planning, scheduling, contracts, procurements, liability, insurance, cost estimating, cash flow, safety, environmental considerations, and project life-cycle. S, D

ENGR 361 Engineering Economics and Management 3 credits.
Introduction to design/construction processes, planning, scheduling, contracts, procurements, liability, insurance, cost estimating, cash flow, safety, environmental considerations, and project life-cycle with applications to civil engineering projects. S, D

ENGR 364 Engineering Numerical Techniques 3 credits.
Numerical methods for solving linear and nonlinear systems of equations, data fitting and smoothing, numerical integration and differentiation, initial and boundary value problems, and optimization. Stresses engineering applications and programming projects. PREREQ: ENGR 165 or CS 181; MATH 240, MATH 275, and MATH 360. F

ENGR 392 Cooperative Education 1-3 credits.
Academic work done in conjunction with approved engineering work experience. Written report required. Consult with faculty advisor regarding availability and specific requirements. Graded S/U. PREREQ: Junior standing and permission of instructor. F, S, Su

ENGR 400 Essentials of Engineering 2 credits.
Preparation for Fundamentals of Engineering Exam. May not be used as a technical elective. May be repeated once for a total of 4 credits. PREREQ: Senior standing in Engineering. Graded S/A. F, S

ENGR 415 Model Theory 3 credits.
Theory of design and testing of scaled system models. Dimensional analysis with application to physical models. True and distorted models, linear and nonlinear models and analogies. Laboratory work required. PREREQ: ME 341 and ENGR 350. D

ENGR 416 Applied Engineering Methods 3 credits.
Applied discrete and continuous probability, random variables, probability distributions, sampling, data description, parameter estimation, hypothesis testing, inference, correlation and linear and multiple regression. PREREQ: MATH 170. S

ENGR 421 Advanced Engineering Mathematics I 3 credits.
Analysis of complex linear and nonlinear engineering systems using advanced techniques including Laplace transforms, Fourier series and classical partial differential equations. Cross-listed as MATH 421. PREREQ: MATH 360. F

ENGR 422 Advanced Engineering Mathematics II 3 credits.
Analysis of complex linear and nonlinear engineering systems using advanced techniques including Laplace transforms, Fourier series and classical partial differential equations. Cross-listed as MATH 422. PREREQ: ENGR 421 or MATH 421. S

ENGR 478 Probabilistic Risk Assessment 3 credits.
Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance emphasized. PREREQ: ENGR 364, MATH 360 and Senior standing in Engineering. D

ENGR 481 Independent Problems 1-3 credits.
Students are assigned to, or request assignment to, independent problems on the basis of interest and preparation. May be repeated for a maximum of 6 credits. PREREQ: Permission of instructor. D

ENGR 492 Human Factors in Engineering 3 credits.
Overview of the discipline of human factors engineering, including design of information displays, controls, workspace, and human performance. Relationship of engineering to corporate issues such as R&D, maintenance, training, operations, safety. D
Declaring a Civil Engineering Major

1. Prior to formally declaring Civil Engineering as their major, students are classified as "pre-engineering" students. To become eligible to declare the Civil Engineering major, the student must complete at least 10 of the 13 "key courses" listed below with a minimum grade of "C-" (C-minus) in each course, and must have at least a 2.0 GPA, both in the key courses and overall.

Key Courses:

- MATH 170 Calculus I 4 cr
- MATH 175 Calculus II 4 cr
- CHEM 111 General Chemistry I 5 cr
- PHYS 211,212 Engineering Physics 8 cr
- ENGR 105 Engineering Graphics 2 cr
- ENGR 120 Introduction to Engineering 2 cr
- ENGR 165 Structured Programming 2 cr
- ENGR 167 Engineering and Scientific Programming 1 cr
- ENGR 210 Engineering Statics 3 cr
- ENGR 220 Engineering Dynamics 3 cr
- ENGR 223,224 Materials and Measurements, and Lab 4 cr
- ENGR 240 Introduction to Electrical Circuits 3 cr

2. No key course may be repeated more than twice, and any remaining key courses must be completed by the end of the first year following the declaration.

3. Upon making the declaration and submitting the proper form, if approved, students become eligible to enroll in upper-division engineering courses (i.e., those numbered 300 or above). The student will not be allowed to register for any College of Engineering upper-division course until the declaration has been approved.

Bachelor of Science in Civil Engineering

Including the General Education Requirements listed earlier (38 or 43 credits), the program of study for the Bachelor of Science in Civil Engineering degree totals 133 or 138 credits as follows:

Mathematics and Engineering Core Courses (41 credits)

- MATH 175 Calculus II 4 cr
- MATH 230 Introduction to Linear Algebra 2 cr
- MATH 360 Differential Equations 3 cr
- ENGR 105 Engineering Graphics 2 cr
- ENGR 120 Introduction to Engineering 2 cr
- ENGR 165 Structured Programming 2 cr
- ENGR 167 Engineering and Scientific Programming 1 cr
- ENGR 210 Engineering Statics 3 cr

Civil Engineering Courses

CE 301 Surveying 3 credits. Fundamental principles of surveying. Electronic and conventional angle and distance measurement, leveling traversing, stadia, solar observation, surveying computations, mapping. Application to engineering, geology and architecture. PREREQ: MATH 147 or equivalent. F, D

CE 351 Engineering Hydrology 2 credits. Quantitative descriptions of hydrolologic processes and dynamics for the understanding and prediction of precipitation, storm water runoff, groundwater flow, flood routing, and water quality. COREQ: ME 341. S

Other Engineering and Mathematics Courses (39 credits)

ENGR 350 Mechanics of Materials 3 cr
MATH 352 General Statistics 3 cr
CE 301 Surveying 3 cr
CE 372 Basic Geotechnics 3 cr
CE 351 Engineering Hydrology 2 cr
CE 362 Structural Analysis 4 cr
CE 434 Geotechnical Design 3 cr
CE 435 Hydraulic Design 3 cr
CE 436 Highway Design 3 cr
CE 437 Geotechnical Engineering Laboratory 1 cr
CE 462 Design of Steel Structures 3 cr
CE 464 Design of Concrete Structures 3 cr
CE 467 Structural Engineering Laboratory 1 cr
CE 490 Engineering Seminar 1 cr
ME 341 Fluid Mechanics 3 cr

Additional Requirements (15 credits)

ENVE 408 Water and Wastewater Quality 3 cr
ENVE 410 Introduction to Environmental Engineering 3 cr
CE electives* 9 cr
* List of approved courses is available from the College of Engineering office.

Emphasis in Engineering Geology

Complete the following courses in addition to the Bachelor of Science in Civil Engineering:

CE/GEOL 454 Basic Engineering Geology 3 cr
CE/GEOL 455 Geologic Data Methods 3 cr
CE/GEOL 475 Essentials of Geomechanics 3 cr
CE/GEOL 476 Engineering Geology Project 1 cr
CE 480/GEOL 483 Earthquake Engineering 3 cr

Civil and Environmental Engineering Department

Chair and Professor: Zoghi
Professors: Ebrahimpour, Leung, Sadid
Associate Professor: Sato
Assistant Professor: Savage
Lecturer: Mahar

Educational Objectives

The following Educational Objectives have been established:

- Career Focus – Graduates will have the ability to practice in the civil engineering field with a broad background and understanding of a multidisciplinary approach to engineering at state, national, and international levels. Consideration will be given to engineering as a business and its impact on the present and future societal issues.

- Engineering Principles and Practices – Graduates will be able to apply the knowledge of mathematics, science, and engineering to identify civil engineering problems and design and implement engineering solutions for structural, geological, roadway (transportation), water resource and environmental engineering problems.

- Professional Skills – Graduates will be able to function as leaders or members of teams with appropriate communication skills (oral, written, and graphical) and an understanding of legal and ethical issues.

- Professional Activities – Graduates will have an appreciation for and the qualifications to pursue advanced studies and an understanding of the need for life-long learning and licensing as part of their professional practice and development.

Courses

ENGR 496A Project Design I 3 credits. Semester one of a two semester sequence dealing with the conceptual design of multi-disciplinary projects requiring multi-disciplinary teams. Cross-listed as CS 496A. PREREQ: Approval of application for admission to course. F
ENGR 496B Project Design II 3 credits. Continuation of design sequence dealing with the design, analysis, implementation, and consequences of multi-disciplinary projects. Cross-listed as CS 496B. PREREQ: ENGR 496A. S

Courses
CE 362 Structural Analysis 4 credits. Analysis of statically determinate and indeterminate trusses, beams, and frames; effects of moving loads; matrix stiffness method; computer applications. Three lectures and one 3-hour lab a week. PREREQ: ENGR 350 and MATH 230. F

CE 431 Advanced Mechanics of Solids 3 credits. An introduction to elasticity, plasticity, and energy foundations, stability, plates. PREREQ: ENGR 350 and MATH 360. F

CE 434 Geotechnical Design 3 credits. Application of soil mechanics to design of foundations, retaining wall, stable slopes, buried conduits and pavement structures. Computer methods utilized. PREREQ: ENGR 350 and CE 332. F

CE 435 Hydraulic Design 3 credits. Hydraulic design of water control and transport structures, pipelines, and distribution systems. Computer methods utilized. PREREQ: ME 341. F

CE 436 Roadway Design 3 credits. Fundamentals of earthwork, route location, drainage, and pavement materials with application to geometric and pavement design of highways, streets and rural roads. PREREQ: ENGR 223 and CE 301. COREQ: CE 332. S

CE 437 Geotechnical Engineering Laboratory 1 credit. Field and laboratory work on site investigation, soil sampling, classification and testing. Evaluation of soil properties. Design of experiments. PREREQ: CE 332. F

CE 454 Basic Engineering Geology 3 credits. Geology applied to civil engineering projects; rock engineering classification systems and geo-technical parameters such as joint set orientation, ground behavior and underground construction. Preparation of baseline geotechnical reports. Cross-listed as GEOL g454. COREQ: GEOL 314 or CE 332. D

CE 455 Geologic Data Methods 3 credits. Geotechnical investigations for civil works projects; geologic mapping for civil engineering purposes; development of engineering geologic profiles; core logging; preparation of Geotechnical Data Reports for civil works projects. Cross-listed as GEOL g455. PREREQ: CE/GEOL g454. D

CE 461 Advanced Structural Analysis 3 credits. Analysis of statically indeterminate structures. Continuation of the use of classical methods. Introduction to computer methods in structural analysis including the use of commercially available software, and lateral load effects. PREREQ: CE 362. F

CE 462 Design of Steel Structures 3 credits. Design of steel members and connections with emphasis on the AISC specifications. PREREQ: CE 362. S

CE 464 Design of Concrete Structures 3 credits. Design of reinforced concrete beams, columns, and slabs. Introduction to pre-stressing. PREREQ: CE 362. S

CE 465 Design of Prestressed Concrete Structures 3 credits. Basic concepts in pre-stressed concrete design, full versus partial prestressing, flexural design, ultimate load design, beams with constant and variable tendon eccentricity, design of reinforcement for shear and torsion. PREREQ: CE g464. F

CE 466 Design of Wood Structures 3 credits. Design of solid and laminated wood members and connections. Includes the design of wooden diaphragms for resisting lateral loads. PREREQ: CE 362. D

CE 467 Structural Engineering Laboratory 1 credit. Measurement of stresses and load distribution through concrete, steel and wood components and structures. Design of experiment. PREREQ: CE 362. S

CE 468 Behavior of Composite Materials 3 credits. Macro and micromechanical behavior of laminae and laminates; bending, buckling and vibration of laminated beams and plates. PREREQ: ENGR 350 and MATH 230. D

CE 475 Essentials of Geomechanics 3 credits. Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as GEOL g475. PREREQ: GEOL 421 or ENGR 350. D

CE 476 Engineering Geology Project 1 credit. Team projects studying actual problems in engineering geology. Cross-listed as GEOL g476. PREREQ: GEOL g454 or CE 454. D

CE 480 Earthquake Engineering 3 credits. Topics include: mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. PREREQ: GEOL 313, CE 332, or permission of instructor. D

CE 490 Civil Engineering Seminar 1 credit. Professional roles and responsibilities, professional registration, continuing education, and engineering ethics. Presentations by guest lecturers on topics of current interest in civil engineering. PREREQ: Senior standing in Engineering. F

Environmental Engineering Courses

ENVE g404 Environmental Risk Assessment 3 credits. Quantitative and qualitative approaches to characterizing and controlling contaminant pathways. Risk assessment requirements and implications in superfund projects for engineers working on remediation. PREREQ: Permission of major advisor. F

ENVE g408 Water and Waste Water Quality 3 credits. Principles of chemistry in application to water and wastewater treatment systems for water quality control and reuse. PREREQ: CHEM 111 or equivalent. S, D

ENVE g409 Water and Waste Water Lab 1 credit. Fundamental analytical procedures for measurement of water and waste water quality. Introduction to materials and protocols associated with general environmental analytical techniques. COREQ: ENVE g408. D

ENVE g410 Environmental Risk Assessment 3 credits. Introduction to physical, chemical, and biological principles of solid and hazardous waste management, water and wastewater treatment, air pollution control, and national environmental regulation. PREREQ: ENVE g408 or equivalent. F

ENVE g430 Air Pollution and Solid Waste 3 credits. Sources, characteristics, regulations, and effects of air pollution and solid waste on environmental quality; analysis and design of control systems, including the recovery of resources from solid waste. PREREQ: Senior standing in Engineering or permission of instructor. D

Electrical Engineering Department

Chair and Professor: Mousavinezhad
Professors: Naidu, Stuffle
Associate Professor: Ellis
Assistant Professor: Pan
Associate Lecturer: Hart
Adjunct Faculty: Jensen, LeFevre, Prasad
Affiliate Faculty: Tolle

Educational Objectives

The undergraduate program in Electrical Engineering (EE) is accredited by the Engineering Accreditation Commission of ABET, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700. The following EE Program Educational Objectives have been established:

- **PEO1. Depth and Breadth:** Produce graduates who demonstrate broad and in-depth knowledge in the practice of, or advanced study of, electrical engineering.

- **PEO2. Career Development:** Produce graduates who will demonstrate and maintain the necessary knowledge and skills throughout their careers to solve problems in the complex modern work environment.

- **PEO3. Professionalism:** Produce graduates who demonstrate professional responsibilities.

Declaring an Electrical Engineering Major

To declare an Electrical Engineering major, a student must have an overall GPA of 2.0 and have completed all the key courses
listed below with a grade point average (GPA) for these courses of at least 2.0 with no grade lower than C-. Each student should submit an application form (available in the College of Engineering Office) and transcripts as soon as possible (Sophomore year) – and will not be allowed to register for any College of Engineering upper division course (i.e. those numbered 300 or above) until officially declared an Electrical Engineering major.

**Bachelor of Science in Electrical Engineering**

**Electrical Engineering Degree Requirements**

Including the University's General Education Requirements listed earlier (38 or 43 credits), the program of study for the Bachelor of Science in Electrical Engineering degree totals 128 or 133 credits as follows:

Bachelor of Science in Mechanical Engineering

Including the University General Education Requirements listed earlier (38 or 43 credits), the program of study for the Bachelor of Science in Mechanical Engineering degree totals a minimum of 128 credits as follows:

Additional Mathematics Course Requirements (13 credits):
- MATH 175 Calculus II 4 cr
- MATH 230 Introduction to Linear Algebra 2 cr
- MATH 275 Calculus III 4 cr
- MATH 360 Differential Equations 3 cr

Mechanical Engineering Course Requirements (77 credits):
- ENGR 120 Introduction to Engineering 2 cr
- ENGR 165 Structured Programming 2 cr
- ENGR 166 Symbolic Programming 1 cr
- ENGR 210 Engineering Statics 3 cr
- ENGR 220 Engineering Dynamics 3 cr
- ENGR 233, 234 Materials and Measurements, and Lab 4 cr
- ENGR 240 Introduction to Electrical Circuits 3 cr
- ENGR 307 Thermodynamics 3 cr
- ENGR 340, 342 Fundamentals of Electrical Devices, and Lab 4 cr
- ENGR 350 Mechanics of Materials 3 cr
- ENGR 360 Engineering Economics 2 cr
- ENGR 496A Project Design I 3 cr
- ENGR 496B Project Design II 3 cr
- ME 105 Solid Modeling 2 cr
- ME 341 Fluid Mechanics 3 cr
- ME 416 Thermal Power Cycles 3 cr
- ME 443 Thermal Fluids Laboratory 1 cr
- ME 476 Heat Transfer 3 cr
- ME 320 Kinematics and Dynamics 3 cr
- ME 323 Machine Design 3 cr
- ME g405 Machine Measurements Systems Design 3 cr
- ME g406 Measurement System Laboratory 1 cr
- ME g440 Mechanical Vibrations 3 cr
- ME g465 Thermal Fluid Systems Design 3 cr
- ME electives*** 9 cr
- Free Electives 4 cr

*** Students are to consult with their advisors and choose courses which will complement their engineering education.

Mechanical Engineering Courses
- ME 105 Solid Modeling 3 credits. Introduction to the fundamentals of Solid Modeling. Sketching, features, modeling, assemblies and drawings. PREREQ: MATH 147. F, S
- ME 320 Kinematics and Dynamics of Machinery 3 credits. Kinematic analysis and design of cams, gears, and linkages; velocity, acceleration and force analysis; kinematic synthesis; balancing; analysis by complex numbers; computer-aided analysis and synthesis. PREREQ: ENGR 220 and MATH 230. F

Mechanical Engineering Department

Chair and Associate Lecturer: Hofle
Professor: Jacobsen
Associate Professors: Schoen, Wabrek, Williams
Assistant Professor: Perez

Educational Objectives

Five years after they graduate, our Mechanical Engineering graduates should:

- **Technical Competency** – demonstrate communication and technical skill to formulate and solve problems.
- **Professional and Social Responsibility** – demonstrate professionalism and ownership of their work, and be an active and positive influence in their community.
- **Professional Leadership** – balance the relationship between business and engineering and interface with multidisciplinary teams to achieve the combined objective.
- **Career Development and Professional Growth** – pursue life-long learning, professional affiliations, and increasing responsibility in the workplace.

ME 353 Manufacturing Processes 3 credits. Production techniques and equipment. Casting, molding, pressure forming, metal removal, joining and assembly, automation and materials handling. Field trips. PREREQ: ENGR 223 and MATH 360. D

ME 355 System Dynamics 3 credits. Modeling and representations of dynamic 3-dimensional physical systems emphasizing rigid bodies: transfer functions, block diagrams, state equations. Transient response. PREREQ: ENGR 220 and MATH 360. D

ME 405 Measurement Systems Design 3 credits. Introduction to instrumentation systems analysis and design, including: statistical analysis, system modeling, actuators, transducers, sensor systems, signal transmission, data acquisition, and signal conditioning. PREREQ: ENGR 340, ENGR 342, and MATH 360. COREQ: ME 406. F

ME 406 Measurement Systems Laboratory 1 credit. Principles of measurement, measurement standards and accuracy, detectors and transducers, digital data acquisition principles, signal conditioning systems and readout devices, statistical concepts in measurement, experimental investigation of engineering systems. COREQ: ME 405. F

ME 416 Thermal Power Cycles 3 credits. Application of thermodynamics to design of systems for conversion of thermal energy to power by various power cycles. PREREQ: ME 341. F

ME 425 Mechatronics 3 credits. Basic kinematics, sensors, actuators, measurements, electronics, microprocessors, programmable logic controllers, feedback control, robotics and intelligent manufacturing. PREREQ: ENGR 340, ENGR 342, and MATH 360. D

ME 443 Thermal Fluids Laboratory 1 credit. Measurement of thermal and fluid properties, experiments on fluid flow and heat transfer systems. PREREQ: ME 341. COREQ: ME 476. S

ME 451 Compressible Fluid Flow 3 credits. Fundamentals and practical applications of compressible fluid flow and gas dynamics; techniques for isentropic friction, heat addition, isothermal flow, shock wave analysis, propagation, expansion waves, reflection waves. PREREQ: ME 341. D

ME 465 Thermal Fluid Systems Design 3 credits. Application of engineering concepts and principles to the design of thermal and fluid systems, including economic, environmental, sustainability, and societal considerations. PREREQ: ME 476.

Nuclear Engineering Department
Chair and Professor: Imel Professor: Kunze
Research Professor and Director of Institute of Nuclear Science and Engineering: Lineberry Associate Professor: Bennion
Research Associate Professors: Hartmann, Paviet-Hartmann
Assistant Professors: Chen, Dunzik-Gougar
Assistant Lecturer: Gansauge

Educational Objectives
The following Program Educational Objectives have been established:

- Application of Core Knowledge and Technical Competency --- Our graduates will make significant contributions in the nuclear enterprise, either in industry, research, or educational careers as measured by peer recognition, visible leadership roles, and other evidence of professional accomplishments. Our graduates will broaden and deepen their knowledge and technical competency as they advance in their careers. In addition to on-the-job learning and training, our graduates will take initiative in acquiring further knowledge on their own and continue to pursue lifelong learning, including formal academic or continuing education courses as well as informal means such as reading journals in the field, participating in technical organizations, and attending technical conferences to keep current with developments in their chosen field.

- Professional Collaboration and Communication --- As their careers develop, our graduates will become increasingly involved in collaborative work with teams composed of colleagues from other science and technology fields. To that end, they will communicate effectively with others to perform tasks, to make decisions, and to assume leadership roles.

- Professionalism --- Our graduates will develop and uphold the highest standards of professionalism in their careers. They will recognize ethical issues when they arise and respond in an ethical manner. Our graduates will also take into consideration the economic, environmental, and societal consequences of their actions as they engage in their work. Our graduates will increase their awareness and involvement with issues in the nuclear enterprise, including the nuclear power industry and the many non-power applications of nuclear science and technology, particularly as these fields evolve years after their leaving ISU.

Within two to three years of graduation, the majority of our B.S. graduates in Nuclear Engineering will be working in industry, government agencies, or national laboratories and in many cases will be pursuing advanced degrees. After five to ten years many of our graduates will have established strong records of achievement at various technical and managerial levels in academia, industry and government, and will become leaders in the field.

Declaring a Nuclear Engineering Major
1. Prior to formally declaring Nuclear Engineering as their major, students are classified as "pre-engineering" students. To become eligible to declare the major, the student must complete at least 10 of the 12 "key courses" listed below with a minimum grade of "C-" in each course, and must have at least a 2.0 GPA, both in the key courses and overall. (Note: ENGR 165/167 and ENGR 223/224 are considered single key courses that are taken concurrently.)

Key Courses
MATH 170 Calculus I 4 cr
MATH 175 Calculus II 4 cr
CHEM 111 General Chemistry I 5 cr
PHYS 211, 212 Engineering Physics I, II 8 cr
ENGR 105 Engineering Graphics 2 cr
ENGR 120 Introduction to Engineering 2 cr
ENGR 165, 167 Structured Programming, and Engineering and Scientific Programming 3 cr
ENGR 210 Engineering Statics 3 cr
ENGR 220 Engineering Dynamics 3 cr
ENGR 223, 224 Materials and Measurements, and Laboratory 4 cr
ENGR 240 Introduction to Electrical Circuits 3 cr

2. No key course may be repeated more than twice, and any remaining key courses must be completed by the end of the first semester following the declaration.

3. Upon making the declaration and submitting the proper form, if approved, students become eligible to enroll in upper division engineering courses (i.e., those numbered 300 or above). The student will not be allowed to register for any College of Engineering upper-division course until the declaration has been approved.
Bachelor of Science in Nuclear Engineering

Including the University’s General Education Requirements listed earlier (38 or 43 credits), the program of study for the Bachelor of Science in Nuclear Engineering degree totals 137 or 142 credits as follows:

Additional Mathematics Courses (13 credits)

<table>
<thead>
<tr>

Electives (9 credits)

- Free Electives | 3 cr |
- NE elective*  | 3 cr |
- Upper division engineering elective | 3 cr |

* A list of approved courses is available from the College of Engineering office.

**Nuclear Engineering Courses**

NE g402 Introduction to Nuclear Engineering 3 credits. Basic nuclear and atomic processes; radioactive decay, binding energy, radiation interactions, reaction cross sections. Neutron diffusion, radiation sources. PREREQ: ENGR 190 and PHYS 212. COREQ: ENGR 307 and MATH 360. F

NE g419 Energy Systems and Resources 3 credits. Fundamentals of conventional and alternative/renewable energy systems. Electrical supply, building HVAC, resources utilized by transportation sector. PREREQ: ENGR 307 and MATH 360. COREQ: ENGR 340 and ENGR 342. S

NE g444 Nuclear Fuel Cycles 3 credits. Exploration of the processes associated with nuclear fuel cycles including mining, fabrication, reprocessing, and disposal. Intended primarily as a descriptive course. PREREQ: NE g402. D

NE g445 Neutron Reactions and Transport 3 credits. Physical principles underlying neutron interactions. Multi-region and multi-energy diffusion and transport. Beamport and filter concepts and design. PREREQ: NE g402. COREQ: ENGR 364 and ENGR/MATH g421. S

NE g446 Analysis and Design of Nuclear Fuel Cycle Systems 3 credits. Alternative fuel cycles. Analysis and design of key fuel cycle components (e.g., uranium enrichment, fuel fabrication, reactor fuel management, reprocessing, and waste management). Principles of nuclear criticality safety. Criticality and thermal analysis codes. Design principles of nuclear fuel cycle facilities and equipment. PREREQ: NE g445. F

NE g447 Nuclear Systems Laboratory 1 credit. Techniques of radiation detection and measurements, flux measurements, neutron activation analysis, approach to criticality, Inhour equation, subcritical experiments. PREREQ: NE g445 and PHYS g416. F and D

NE g51 Nuclear Seminar 1 credit. Current topics in nuclear science and engineering. PREREQ: Senior standing or permission of instructor. Graded S/U. S, D

NE g487 Medical Applications in Engineering and Physics 3 credits. Applications of engineering and physics principles, particularly nuclear science, to medicine. Covers radioisotopes, X-ray imaging, magnetic resonance and ultrasound imaging, radiation protection, codes and standards. PREREQ: MATH 360 and PHYS 212. S

**Computer Science Department**

Chair and Professor: Bosworth
Associate Professor: Kantabutra
Assistant Professors: Chiu, Tappan
Affiliate Faculty: Wolper

**Educational Objectives**

The goal of the Computer Science Department at Idaho State University is to provide students with a broad, yet rigorous Computer Science education, with emphasis in operating systems, computer organization and architecture, data structures and algorithms, software implementation, programming languages, and project management.

Graduates earning a Bachelor of Science in the Computer Science program will have:

- exposure to Computer Science applications in scientific computations, engineering, and business.
- the requisite qualifications for obtaining employment as a Computer Scientist in industry, business, or government.
- awareness and commitment to their ethical and social responsibilities. They will have an understanding that life-long learning is an integral part of personal, professional and social interaction.
- the requisite qualifications for pursuing an advanced degree in Computer Science or a related scientific or engineering field.

**Declaring a Computer Science Major**

Prior to declaring the major, a student is classified as a "pre-computer science" student. Students should declare their major as soon as possible, as enrollment in upper division computer science courses (i.e. those numbered 300 or above) is contingent upon that declaration. A student pursuing a computer science degree will not be allowed credit for any College of Engineering upper division course until a declaration of computer science major form has been filed with the College. Students must also agree to complete ENGL 307, Technical Writing, within the first year of declaring the Computer Science major.
**Bachelor of Science in Computer Science**

The program of study for the Bachelor of Science in Computer Science degree totals 130 credits as follows:

### General Education and Mathematics Requirements (40-46 credits minimum)

Students pursuing a Bachelor of Science in Computer Science must complete the University's General Education Requirements using the following courses:

<table>
<thead>
<tr>
<th>Goal 1</th>
<th>ENGL 102, Critical Reading and Writing</th>
<th>3 cr</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal 2</td>
<td>COMM 101, Principles of Speech</td>
<td>3 cr</td>
</tr>
<tr>
<td>Goal 3</td>
<td>MATH 170, Calculus I</td>
<td>4 cr</td>
</tr>
<tr>
<td>Goals 4 and 5</td>
<td>are met by taking EITHER of the following courses or plus 2 additional courses in the physical and biological sciences</td>
<td>15 or 16 cr</td>
</tr>
<tr>
<td>CHEM 111 and 112</td>
<td>General Chemistry I and II (9 cr)</td>
<td>9 cr</td>
</tr>
<tr>
<td>OR</td>
<td>PHYS 211-214 Engineering Physics I, II, and Labs (10 cr)</td>
<td>10 cr</td>
</tr>
<tr>
<td>Two additional courses*</td>
<td>in the Physical and Biological sciences (6 cr)</td>
<td></td>
</tr>
</tbody>
</table>

*Please consult with a CS advisor for a list of approved courses.

### Additional Mathematics Courses (10 credits):  
| MATH 175 | Calculus II | 4 cr |
| MATH 240 | Linear Algebra | 3 cr |
| MATH 352 | General Statistics | 3 cr |

### Major Core Requirements (53 credits)

Computer Science students must complete the following group of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 181, 181L</td>
<td>Computer Science and Programming I, and Lab</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 182, 182L</td>
<td>Computer Science and Programming II, and Lab</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS/MATH 187</td>
<td>Applied Discrete Structures</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 263</td>
<td>Advanced Object-oriented Programming</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 282</td>
<td>Advanced Computer Programming</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 321</td>
<td>Fundamentals of Software Engineering</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 385</td>
<td>Data Structures and Algorithm Analysis I</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 386</td>
<td>Data Structures and Algorithm Analysis II</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 451</td>
<td>Database Theory and Implementation</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 460</td>
<td>Comparative Programming Languages</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 475</td>
<td>Computer Architecture and Organization</td>
<td>3 cr</td>
</tr>
<tr>
<td>CS 477</td>
<td>Operating Systems</td>

<tr>
<td>MATH g442</td>
<td>Introduction to Numerical Analysis</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

*Other choices may be approved by Computer Science advisors on an individual basis.

### Additional Electives (14-15 credits)

1. Students must take enough additional elective courses to total at least 130 credits.

2. A minimum of 64 non-computing credits must be taken in meeting graduation requirements.

3. No more than a TOTAL of 6 credits in business courses, including courses from the Computer Information Systems Department, may be used to meet degree requirements.

4. Passing grades are required in all courses, and at least a 2.00 GPA is required for graduation.

### Minor in Computer Science

Students receiving degrees in all colleges may satisfy the requirements for a Minor in Computer Science (CS) by completing the following courses. Students pursuing this minor must consult with a CS advisor early in their program to complete a Program of Study Agreement.

### Required Courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS 181, 181L</td>
<td>Computer Science and Programming I, and Lab</td>

<td>Partial Differential Equations</td>
<td>3 cr</td>
</tr>
</tbody>
</table>

**With prior advisor approval.**

**No more than 6 credits of business/CIS courses from this list may be applied toward degree requirements.**

### Computing Electives:

Six upper division credits in Computer Science, Computer Information Systems, or Electrical Engineering, chosen with the approval of a Computer Science advisor.

### Computer Science Courses

**CS 181, 181L. Computer Science and Programming I, 2 credits.** Problem solving methods and algorithm development with an emphasis on programming style. Lecture and laboratory. COREQ: CS 181L; MATH 160 or MATH 170, and CS 181L. F, S

**CS 181L. Computer Science and Programming I. 1 lab credit.** Assignments to apply principles from CS 181. COREQ: CS 181. F, S
CS 182 Computer Science and Programming II 2 credits. Continuation of CS 181, including such topics as data structures, sorts, searches, recursion, and object-oriented programming concepts. PREREQ: CS 181. PREREQ OR COREQ: CS 187. COREQ: CS 182L. F, S

CS 182L Computer Science and Programming II Lab 1 credit. Assignments to apply principles from CS 182. COREQ: CS 182. F, S

CS 187 Applied Discrete Structures 3 credits. Discrete structures in CS and EE. Boolean algebra and logic; sets, functions, and relations; iteration, recursion, and induction; algorithms; programming in pseudocode; basic counting principles; graphs and trees; and other selected topics from discrete mathematics. Cross-listed as MATH 187. PREREQ: CS 181.

CS 263 Advanced Object-oriented Programming 3 credits. Advanced programming in a modern object-oriented language, different from the one used in CS 181 and CS 182; philosophy, application, and examples of object-oriented concepts and techniques; comprehensive survey of software-engineering design patterns. PREREQ: CS 182. S

CS 282 Advanced Computer Programming 3 credits. Further supervised programming experience, covering advanced features of the language used in CS 182. Includes the use of a Unix-like operating system. PREREQ: CS 182. F

CS 321 Fundamentals of Software Engineering 3 credits. Formal approaches and tools for conceive, designing, building, testing, deploying, maintaining, and documenting large software systems; software lifecycle models; project and team management; verification and validation techniques; legal and ethical issues. Includes a major software development project. PREREQ: CS 263. F

CS 331 Web Programming 3 credits. HTML, server- and client-side programming, web-based database programming. PREREQ: CS 263. R2

CS 342 Computer Graphics 3 credits. Covers raster graphics, primitives, scan conversion, geometric transformations, object hierarchies, curves and surfaces, solid modeling, visible surface determination, illumination, shading, manipulation and advanced modeling techniques. PREREQ: CS 263 and MATH 240. R2

CS 343 Neural Networks 3 credits. Survey of neural network architectures and applications. Training algorithms, multi-layer perceptrons, backpropagation, learning and generalization, Hopfield and recurrent nets. PREREQ: CS 263, CS/MATH 187, MATH 275, and MATH 352. R2

CS 344 Artificial Intelligence 3 credits. Fundamental principles and techniques of artificial intelligence systems; search strategies; knowledge acquisition and representation; commonsense reasoning; planning; machine learning; expert systems; intelligent agents and multi-agent systems. COREQ: CS 386. R2

CS 385 Data Structures and Algorithm Analysis I 3 credits. Analysis and design of non-numeric algorithms which act on data structures. PREREQ: CS 282 and either CS/MATH 187 or MATH 240. F

CS 386 Data Structures and Algorithm Analysis II 3 credits. Continuation of CS 385. PREREQ: CS 385. S

CS g420 Computer Security and Cryptography 3 credits. Public key and private key cryptography, key distribution, cryptographic protocols, requisite mathematics and selected topics in the development of security and cryptography. PREREQ: CS 385. R2

CSg442 GUI Development 3 credits. Planning and construction of Graphical User Interfaces and discussion of essential software engineering concepts. Includes the use of a modern toolkit language. COREQ: CS 385. R2

CS g444 Image and Audio Processing 3 credits. Image/audio acquisition, quantization, spatial and spectral filters, sharpening, smoothing, restoration, compression, segmentation, Fourier and Wavelet transforms. PREREQ: CS/MATH 187, MATH 352, and MATH 360. R2

CS g445 Data Compression 3 credits. A survey of modern techniques of data compression, both lossy and loss-less, and encryption. COREQ: CS 386. R2

CS g451 Database Theory and Implementation 3 credits. Data models, relational algebra, SQL, data storage, index structures, query compilation and execution, concurrency control. PREREQ: CS 263 and CS 385. COREQ: CS 386. S

CS g460 Comparative Programming Languages 3 credits. Design of historical and contemporary programming languages, concentrating on promoting understanding of structural organization, data structures and typing, name structures, and control structures. PREREQ: CS 385. COREQ: CS g475. F

CS g470 Parallel Processing 3 credits. Topics in high-performance computing: parallel architectures, SIMD, MIMD, SMP, NUMA models, message passing, cache coherency issues, MPI, PVM, parallel programming languages, cluster and grid approaches, applications and experience programming on a cluster. COREQ: CS 385. R2

CS g475 Computer Architecture and Organization 3 credits. Design, implementation, and performance evaluation of modern computer systems; instruction sets; datapath and control optimizations; single-cycle, multiple-cycle, and pipelined processors; hazard detection and resolution; memory hierarchies, peripheral devices. PREREQ: EE 274. F

CS g477 Operating Systems 3 credits. CS g477 Operating Systems 3 credits. Processes description and control, threads, concurrency, memory management scheduling, I/O and files, distributed systems, security, networking. PREREQ: CS 263 and CS g475. S

CS g480 Theory of Computation 3 credits. Finite representations of languages, deterministic and nondeterministic finite automata, context free languages, regular languages, parsing, Turing Machines, Church’s Thesis, uncomputability, computational complexity classes. COREQ: CS 385. R2

CS g481 Compilers and Lexical Analysis 3 credits. Covers lexical analysis, syntax analysis, top-down, bottom-up, and LR parsing, syntax-directed translation, type checking, code generation and optimization, writing a compiler. PREREQ OR COREQ: CS 386. R2

CS g487 Topics in Computer Science 3 credits. Selected topics in Computer Science will be chosen depending on the instructor’s interests. PREREQ: CS 386. D

CS g491 Computer Science Ethical-Societal Issues 3 credits. Investigate various ethical issues arising in the profession, ranging from research to commercial settings. The societal impacts of computing and its prevalence in all aspects of the modern world are investigated. Seminar format: students will read papers, make oral presentations, conduct class discussion, and submit written reports. F

CS 496A Project Design I 3 credits. Semester one of a two semester sequence dealing with the conceptual design of multi-disciplinary projects requiring multi-disciplinary teams. Cross-listed as ENGR 496A. PREREQ: Approval of application for admission to course. F

CS 496B Project Design II 3 credits. Continuation of design sequence dealing with the design, analysis, implementation, and consequences of multi-disciplinary projects. Cross-listed as ENGR 496B. PREREQ: CS 496A. S
Kasiska College of Health Professions

Linda C. Hatzenbuehler, Ph.D., Dean
Linda Rankin, Ph.D., and
David Sorensen, Ph.D., Assistant Deans

Mission and Goals
The primary mission of the Kasiska College of Health Professions (KCHP) is to enhance the quality of life of the residents of Idaho and the greater community outside of Idaho through the education of students across five dimensions of the health professions: 1) physical, 2) mental, and 3) oral health, 4) rehabilitation and 5) wellness. Our mission is facilitated through excellence in research, community service, teaching and the application of technology, as well as strong leadership on issues related to health professions.

Five Goal Categories have been identified in the KCHP Strategic Plan in order to fulfill the mission of the college: Access, Teaching, Scholarly Activity, Community Service, and Interprofessional Activity.

1. Access: Providing the citizens of Idaho with a wide variety of educational choices within the health professions through addressing availability of programs and resources, student recruitment, marketing and publicity.

2. Teaching: Addressing faculty development, faculty recruitment and retention, and improvement of instructional capabilities.

3. Scholarly Activity: Facilitating and improving faculty and student research and scholarly activity in the health professions.

4. Community Service: Facilitating the interaction of KCHP programs, faculty, staff and students with the general public and the professional communities within Idaho and the country.

5. Interprofessional Activity: Encouraging interaction and collaboration among the college departments, professional disciplines and faculty on projects relating to teaching, research and clinical activities in the health professions.

The Kasiska College of Health Professions is organized into a School of Nursing and several Departments which offer programs of professional education leading to Associate of Applied Science degree in Radiographic Science; Associate of Science degree in Sign Language Studies; Bachelor of Arts degree in Health Education; Bachelor of Science degrees in Dental Hygiene, Dietetics, Educational Interpreting, Health Care Administration, Health Education, Nursing, Radiographic Science, and Speech Pathology and Audiology; Master of Counseling degrees with majors in Marital, Couple, and Family Counseling, Mental Health Counseling, School Counseling, and Student Affairs Counseling; Master of Occupational Therapy, Master of Physician Assistant Studies, Master of Public Health, Master of Science degrees in Deaf Education, Dental Hygiene, Health Education, Nursing, and Speech-Language Pathology; Clinical Doctorate in Audiology; Doctor of Physical Therapy; and a Doctor of Philosophy in Counselor Education and Counseling. The Dietetic Internship Certificate Program is offered at the postgraduate level. A Post-Master’s Certificate is offered in all Master of Science in Nursing options. Each curriculum combines a core of liberal arts and professional subjects with clinical experience.

The Kasiska College of Health Professions cooperates with the Creighton University Boyne School of Dentistry and basic science departments at Idaho State University in offering the first year of dental education through the Dental Sciences Department. Students then spend their second, third, and fourth years at Creighton University in Omaha, Nebraska. The college also administers the Medical Residency Program leading to a certificate in family practice and the Advanced General Dentistry Residency Program leading to a certificate.

For the purpose of providing opportunities for students to obtain appropriate clinical experience, the Department of Dental Hygiene operates the on-campus Dental Hygiene Clinic; the Department of Communication Sciences & Disorders, and Education of the Deaf operates the Speech, Language and Hearing Clinics; the Family Practice Center provides outpatient medical services to the community; the Department of Dental Sciences provides services to the community through Pocatello Family Dentistry; the Department of Counseling operates the Family Education and Counseling Center; the School of Nursing operates the Senior Health Mobile; and the Department of Physical and Occupational Therapy operates the Physical and Occupational Therapy Clinic.

The college delivers outreach Bachelor of Science and Master of Science programs for registered nurses in Twin Falls and Idaho Falls. Outreach programming also includes the Bachelor of Science degrees in Speech Pathology and Audiology; the Master of Counseling degrees in Mental Health Counseling and in Marital, Couple, and Family Counseling; the Master of Science in Nursing, Master of Public Health, Master of Science in Speech-Language Pathology, Bachelor of Science in Nursing, and a Dietetic Internship, all in Boise. The Master of Science in Nursing includes a Family Nurse Practitioner Option, a Nurse leadership Option, a Nurse Education Option, a Clinical Nurse Leader and a Clinical Nurse Specialist Option. All options are offered in Pocatello, Boise, Lewiston, Coeur d’Alene, Twin Falls, and Idaho Falls.

Institute of Rural Health

Research Faculty:
Director and Research Professor: Stamm
Research Professors: Piland, Tivis
Research Assistant Professor and Research Administrator: Kelchner
Research Assistant Professors: Beedasy, Larsen, Philipp, Ramloll

Researchers and Grant Coordinators:
Senior Research Associates: Kirkwood, Spearman
Research Associates: Bodily-Roan, Hobbs, Okeyo, Sandford, Stewart-Burch
Senior Grant Project Coordinator: Cunningham
Grant Project Coordinators:
Dahlquist, Forney, Story
Assistant Grant Project Coordinator:
Cutler

The Institute of Rural Health, established in 1989, is a University-based research, education, and service organization. Its work spans public health, health professions training, community programming, and mental health areas.

The mission of the Institute of Rural Health is to improve the health of rural communities in Idaho and the Intermountain...
The undergraduate nursing program at Idaho State University is a four-year professional program which leads to the degree of Bachelor of Science with a major in nursing. The program is accredited nationally and approved by the Idaho Board of Nursing. The aim of the School of Nursing is to prepare graduates to function as professional nurses wherever there are people who need nursing services. Students are provided an opportunity to learn and practice nursing in special learning laboratories and in a variety of settings where people need nursing care. After an initial period of orientation, graduates are prepared to assume leadership responsibility. Graduates are eligible to write the National Council Licensure Examination for registered nurses (NCLEX-RN). The undergraduate program serves as a foundation for graduate study.

**Completion Programs**

**Associate Degree and Diploma Registered Nurses - Bachelor of Science**

This is a program appropriate for Registered Nurses who wish to complete a baccalaureate degree in nursing. Please request the completion packet from the School of Nursing.

**Licensed Practical Nurses – Bachelor of Science**

This is a program appropriate for Licensed Practical Nurses who wish to complete a baccalaureate degree in nursing. Please request the completion packet from the School of Nursing.

**Boise Fast Track Baccalaureate Program**

This is an accelerated program appropriate for people who have already obtained a baccalaureate degree in a field other than nursing. Students will complete coursework which will make them eligible to sit for the RN licensure exam (NCLEX) after completion of the course requirements. The program accepts a maximum of 20 students per cycle. Contact the School of Nursing for further information about the program and the admission process for this program.

The courses listed below reflect a curriculum which is responsive to national trends and the health care needs of Idaho citizens. The focus in this curriculum is on multiple dimensions of client care, including the promotion of health as well as the alleviation of illness.

**Admission to the Baccalaureate Program**

Students are expected to apply for admission to the nursing program in the fall semester of the sophomore year. Those students admitted to the program will then begin the program in the spring semester of their sophomore year. All materials, including official transcripts of all courses completed at universities other than Idaho State University, and a $40 non-refundable application fee, must be submitted to the School of Nursing by September 15 to ensure consideration for spring enrollment. Applicants will be notified of the results of the review process by November 1. Please see the Nursing School web site (www.isu.edu/nursing/) for the current admission criteria.

1. The following criteria must be met for an applicant to be eligible for consideration for admission to the baccalaureate nursing program:

   a. Completion of the prerequisite courses, or equivalents, with a grade of “C-” or better and a cumulative grade point average of 3.0 or better for all prerequisite courses (failure to do so will result in revocation of program admission).

   **One of the following:**
   - ANTH 237 Peoples and Cultures of the Old World 3 cr
   - ANTH 238 Peoples and Cultures of the New World 3 cr
   - ANTH 239 Latino Peoples and Cultures 3 cr
   - ANTH 100 General Anthropology 3 cr
   - SOC 101 Introduction to Sociology* 3 cr
   *These fulfill Goal 12, thus goal 9 or 10 still required

   **Other prerequisite courses:**
   - BIOL 101,101L Biology I, and Lab 4 cr
   - BIOL 221,221L Introductory Microbiology, and Lab 3 cr
   - BIOL 301,301L Anatomy and Physiology, and Lab 4 cr
   - CHEM 101 Introduction to General Chemistry 3 cr or OR
   - CHEM 111 General Chemistry I 5 cr
   - CHEM 102 Introduction to Organic and Biochemistry 3 cr
   - CHEM 103 Introduction to General, Organic, and Biochemistry Laboratory 1 cr
   - HCA 210 Medical Terminology and Communication 2 cr
   - MATH 253 Introduction to Statistics (MATH 108 prerequisite) 3 cr
   - NTD 340 Nutrition for Health Professionals 3 cr
   - NURS 220 Introduction to Professional Nursing 2 cr
   - PSYC 101 Introduction to General Psychology 3 cr
   - PSYC 225 Child Development 3 cr

   b. Students (Traditional and LPN) will be required to submit an application that includes their score from the Test of Essential Academic Skills (TEAS) from Assessment Technologies Institute, which must be taken from computers at Idaho State University testing centers in Pocatello or Idaho Falls. This score will be combined with the GPA earned from nursing pre-requisite courses to rank-order applicants. Applicants are responsible for the cost of the test.

   b.1 TEAS test will consist of all sections: Reading, Science, English and Language Usage, and Math.

   b.2 Cost to students will be $20 plus $10 hourly, or approximately $45-$50.

   b.3 A study guide is available for purchase by students at the ATI website for $25.00. http://www.atitesting.com
2. An alternate admission list is established when there are more eligible students than there are available positions. Alternate status is recognized only for the year of the application. Should the student not be admitted, s/he must reapply for the next year in order to be reviewed for admission with the new group of applicants. If positions become available to accommodate additional eligible students, those on the alternate list will be notified.

3. All students reapplying to the nursing program must meet the prevailing admission criteria in order to be eligible for readmission. Reapplication does not guarantee readmission. Reapplicants will be subject to the same scrutiny and consideration as an initial applicant.

Completion Program
a) All students (R.N.s and L.P.N.s included) must first be admitted to the University. Criteria for admission may be obtained from the School of Nursing website (www.isu.edu/nursing/), or from the School of Nursing offices in Pocatello (208) 282-2185; Twin Falls (208) 734-4478; and Idaho Falls (208) 529-0185.

b) Registered Nurses may request that prerequisite and requisite courses be waived; request that credit for nursing courses taken in another baccalaureate nursing program be accepted for comparable courses at Idaho State University; or request that they be allowed to receive credit for courses based upon successfully passing NCLEX-RN exams.

Graduation
Each senior student must contact the graduation clerk in the semester preceding graduation. The student’s academic record will be formally reviewed for completeness of specified course work and university requirements. The School of Nursing formally reviews the transcripts of senior students for completeness of departmental requirements. Failure to maintain a cumulative grade point average of 2.0 will result in non-conference of the degree and the inability of the person to apply for NCLEX-RN and licensure.

Expenses
Students in the School of Nursing will incur certain expenses, such as the cost of clinical apparel and lab fees, in addition to the student expenses listed by the university. Clinical learning experiences are held in a variety of agencies, so transportation and/or housing expenses will be incurred by the student.

Financial Assistance
In addition to the financial aid available to all university students, special awards and funds may be available to qualified nursing students. For information about financial assistance, contact the Financial Aid and Scholarship Office.

Graduate Program
The School of Nursing offers a graduate program leading to the degree of Master of Science with a major in nursing. See the Graduate Catalog for information. For further information write to the School of Nursing, 921 S 8th Ave Stop 8101, Pocatello, ID 83209-8101, or phone (208) 282-2720.

Bachelor of Science in Nursing

University General Requirements
(Specific Goal Courses Required for Nursing)
Students pursuing the Bachelor of Science degree must complete Goals 1, 2, and 3; Goals 4 and 5, or 12 hours in the physical or 12 hours in the biological sciences; two of Goals 6, 7, and 8; and three of Goals 9, 10A or 10B, 11 and 12.

ANTH 237 People and Cultures of the Old World 3 cr
ANTH 238 People and Cultures of the New World 3 cr
ANTH 239 Latino Peoples and Cultures 3 cr
ANTH 100 General Anthropology* 3 cr
SOCE 101 Introduction to Sociology* 3 cr

Nursing Courses
NURS 200 Health Assessment 3 credits. Assesses biological and psychosocial health status and health promotion needs of clients through collecting and interpreting health history and physical assessment data. PREREQ: Acceptance into Nursing program. S
NURS 203 Health Assessment Practicum 1 credit. Clinical section in health assessment techniques for Licensed Practical Nurses. Application and practice of health assessment examination techniques performed by professional nurses. PREREQ: Acceptance into Nursing program and permission of instructor. S
NURS 204 Concepts of Nursing Practice 4 credits. Introduces fundamental nursing skills and analyzes theoretical foundations, historical and social forces affecting the evolution of the nursing profession and their impact on health care. The professional nurse’s role, health promotion, the nursing process, and teaching and learning are presented through discussion and simulation. PREREQ: Acceptance into Boise Fast Track Nursing Program. S
NURS 204L Concepts of Nursing Practice Lab 3 credits (9 contact hours). Application and practice of assessment and fundamental nursing skills. PREREQ: Acceptance into Boise Fast Track Nursing Program. COREQ: NURS 204. S
NURS 263 Fundamentals of Nursing Lab 3 credits (9 contact hours). Application and practice of assessment and fundamental nursing skills. PREREQ: Acceptance into Nursing program. S
NURS 330 Evidence Based Nursing Practice 3 credits. An introduction to nursing research and evidence based practice with emphasis on the critical evaluation of existing nursing literature for application to nursing practice and on the relationship among research, evidence based practice, and professional nursing practice. PREREQ: Junior year professional status or RN licensure. S
NURS 351 Medical Surgical Nursing Practicum I 4 credits (12 contact hours). Introduction to the nursing care of clients in acute and ambulatory/community settings utilizing the nursing process. PREREQ: Junior year professional status. F
NURS 352 Nursing Care of Children 3 credits. Application of the nursing knowledge and health promotion in the well child as well as acutely, chronically and terminally ill children and their families to achieve maximum potential for daily living. PREREQ: Junior year professional status. S
NURS 354 Medical Surgical Nursing I 3 credits. Introduction to the theory and process focusing on care of clients with alteration in health status, wellness, and/or restoration of health, including applied drug therapy. PREREQ: Junior year professional status. F
NURS 371 Medical Surgical Nursing II Practicum 4 credits (12 contact hours). Application of the nursing process to the care of clients in acute and ambulatory/community care settings. PREREQ: Junior year professional status. S
NURS 372 Nursing Care of the Older Adult 2 credits. Use of geriatric nursing principles to help older adults. PREREQ: Junior year professional status. F
NURS 374 Medical Surgical Nursing II 4 credits. Theory and process focusing on the application of care to clients with alterations in health status, wellness, and/or restoration of health, including applied drug therapy. PREREQ: Junior year professional status. S
NURS 375 Clinical Practicum 2 credits (6 contact hours). Clinical section in selected medical surgical areas for Licensed Practical Nurses. Application of the nursing process to the care of complex medical surgical patients. PREREQ: Admission to the nursing program and permission of instructor. COREQ: NURS 374. D
NURS 381 Care of the Acutely Ill Child and Family 1-2 credits. Application of the nursing process in providing care for children and their families with an emphasis on acute illnesses or acute episodes of chronic illness in an tertiary care setting. A nursing elective course. PREREQ: Permission of instructor. Su
NURS 405 Socialization into Professional Nursing 1 credit. Linkage course that introduces the philosophy and conceptual framework of the College of Nursing. Nursing theories are introduced for the guiding of nursing care. PREREQ: LPN or RN licensure. D
NURS 412 Childbearing Families and Women 3 credits. Explores health issues of and nursing care principles for childbearing families and women in the reproductive years. F, S
NURS 413 Childbearing Families and Women Practicum 2 credits (6 contact hours). Application and practice of nursing care for childbearing families and women in the reproductive years in various health care settings. F, S
NURS 414 Psych Mental Health Nursing 3 credits. Holistic theoretical perspective of psychiatric mental health nursing of clients of all ages. PREREQ: Senior year professional status. F, S
NURS 415 Psych Mental Health Nursing Practicum 2 credits (6 contact hours lab). Clinical application of psychiatric mental health concepts to clients with potential or actual mental illness. PREREQ: Senior year professional status. F, S
NURS 416 Health Care Informatics—Nursing 1 credit. Introduction to the management of health care information through technology with an emphasis on nursing applications. Current issues and trends will be examined along with skills for accessing, managing, and critically examining information. PREREQ: Senior year professional status. F, S
NURS 418 Leadership and Management 3 credits. Fundamental knowledge of leadership and management theories to prepare professional nurses to function in any health care setting. Includes personal career development principles. PREREQ: Senior Year Professional Status. COREQ: NURS 418L. F, S, Su
NURS 418L Leadership and Management Lab 2 credits. Application of leadership and management theories to prepare professional nurses to function in any health care setting. PREREQ: Senior Year Professional Status. COREQ: NURS 418. F, S, Su
NURS 424 Leadership in the Community for Registered Nurses 2 credits. Provides leadership and community theory to registered nurses who will be prepared to function in leadership roles in the changing health care environment. PREREQ RN licensure. F
NURS 425 Leadership in the Community for Registered Nurses Practicum 3 credits (9 contact hours). Integrates Leadership/management and Community Nursing principles to prepare the registered nurse to function in the changing health care environment. PREREQ RN licensure. F
NURS 426 Community Health Nursing 3 credits. Fundamentals of community health nursing. Use of the nursing process to assess, plan, implement and evaluate strategies to improve the health of the individuals, families and community. PREREQ: Senior year professional status. COREQ: NURS 426L. F, S, Su
NURS 426L Community Health Nursing Lab 2 credits. Application of fundamentals of community health nursing. Use of the nursing process to assess, plan, implement and evaluate strategies to improve the health of the individuals, families and community. PREREQ: Senior year professional status. COREQ: NURS 426L. F, S, Su
NURS 428 Holistic Health Care 2 Credits. Introduction of world health beliefs, evolving practices complementary to western medicine and health care. A nursing elective course. Also offered for no credit as Holistic Health, Idaho State University Continuing Education/Special Programs. S
NURS 430 Nursing Care of the Critically Ill Adult and Family 3 credits. Theoretical application of the nursing process with a focus on care of critically ill adults and families with an emphasis on acute illness or acute episodes of chronic illness. A nursing elective course. PREREQ: Permission of instructor. D
NURS 431 Nursing Care of Critically Ill Adult and Family Practicum 2 credits. Clinical application of the nursing process with a focus on care of critically ill adults and families with an emphasis on acute illness or acute episodes of chronic illness. A nursing elective course. PREREQ: Approval of instructor. D
NURS 490 Senior Practicum 2 credits. Synthesis of previous learning and effective transition to the professional nursing role. Integrate psychomotor/teaching/relationship skills into practice and analysis of health problems typical to a chosen practice site. Explore major concepts of professional nursing practice. PREREQ: Senior year professional status. F, S, Su
NURS 491 Independent Study in Nursing Credit variable to 3. Independent study in a specific area of nursing of special interest. PREREQ: Permission of the School of Nursing. F, S

Department of Communication Sciences & Disorders, and Education of the Deaf

Chair and Professor: Seikel
Professor: Sorensen
Associate Professors: Kangas, Mercaldo

Assistant Professors: Brockett, Flipsen, Melvin Miller, Swain
Clinical Professors: Loftin, Malepeai
Clinical Associate Professors: Bishop, Turner, Whitaker, Walliser, Willer
Clinical Assistant Professors: Gurryan, Holst, Knudson, Negliski
Clinical Instructors: Melton, Marcie Miller
Adjunct Faculty: Mattingly, Wallis-Rucklas, Stubbs, Wesen
Emeriti: Bain, Schow, Smedley, Weston

Degrees

The Department of Communication Sciences & Disorders, and Education of the Deaf offers an Associate of Science Degree in Sign Language Studies, a Bachelor of Science Degree in Educational Interpreting, and a Bachelor of Science Degree in Communication Sciences and Disorders, with an emphasis in either Pre-Audiology or Pre-Speech-Language Pathology. These degrees provide the education and training necessary for individuals who wish to work in education, hospitals, clinics, governmental agencies, skilled nursing facilities, medical offices, and more.

The professions represented within the department seek to help children, youth, and adults with communication disabilities and differences that are either present at birth or acquired later in life. Curricula rich in biological and social sciences in conjunction with rigorous departmental courses in evaluation, treatment, teaching, and research lead our graduates to gainful employment and diverse career opportunities. The career path an individual takes will depend upon training and personal goals. Those who accept the challenge of these professions will find that the effort put forward to earn degrees will be rewarding.

Associate of Science Degree in Sign Language Studies

The Associate of Science Degree in Sign Language Studies is a two year degree which is primarily designed for students who wish to continue their education beyond the associate degree level in the Educational Interpreting Program or for students who wish to obtain an interim
degree before entering another major, such as Deaf Education. The Sign Language Studies degree focuses on American Sign Language skills through academic courses and labs designed to provide a small group setting to facilitate instructor feedback and guidance.

Bachelor of Science Degree in Educational Interpreting

The Bachelor of Science Degree in Educational Interpreting is designed to prepare students for employment as interpreters in elementary, secondary, and post-secondary educational programs. An associate degree in Sign Language Studies or its equivalent is required. Students are taught with a “hands on” approach as they learn about the Deaf culture, how to collaborate in a professional setting, and participate in field observations culminating in an interpreting internship. Public and private education programs, local and state public health units, institutions such as the Idaho, Montana, and Utah Schools for the Deaf and the Blind, and vocational rehabilitation agencies participate in affiliate service and training. Internship sites may require record of vaccinations and a police background check.

Bachelor of Science Degree in Communication Sciences and Disorders, with Emphases in Pre-Audiology and in Pre-Speech-Language Pathology

The areas of Speech-Language Pathology and Audiology have foundations grounded in basic communicative behavior. Included in these emphases are the study of biological and social sciences, phonetics, acoustics, neurology, development of normal speech, language, and hearing abilities as well as deviations from normal communicative processes. Students are introduced to assessment and treatment procedures at the undergraduate level. The Bachelor of Science Degree emphasizes prepare students to apply to graduate programs in either Speech-Language Pathology or Audiology. The undergraduate program offers both clinical and non-clinical tracks. Students who wish to pursue a master’s degree in Speech-Language Pathology or a clinical doctorate in Audiology (AuD) are strongly encouraged to complete the clinical track in consultation with their advisors.

Idaho State University has the distinction of offering the bachelor’s degree with emphasis in Pre-Speech-Language Pathology, as well as the Master of Science degree in Speech-Language Pathology, on both the Pocatello and Boise campuses. Many departmental classes are taught via distance learning technology, with clinical and academic faculty in both sites. Students should note that admission to graduate programs is competitive.

The combined bachelor’s and master’s programs in Speech-Language Pathology, and the bachelor’s and clinical doctorate programs in Audiology are designed to prepare students to meet the academic and clinical requirements for the Idaho Department of Education Certification for Speech-Language Pathologist or Audiologist, state licensing, and the Certificate of Clinical Competence issued by the American Speech-Language and Hearing Association (ASHA). Both the graduate programs in Speech-Language Pathology and Audiology are accredited by the Council of Academic Accreditation of ASHA. Additional information about the graduate programs in Speech-Language Pathology and Audiology can be found in the Graduate Catalog, Kasiska College of Health Professions, Department of Communication Sciences & Disorders, and Education of the Deaf.

Admission to Junior Level Classes

Prospective students are expected to have a cumulative GPA of 3.0 or better after completing 40 semester hours before registering for CSED 321 and/or CSED 330. Interested students with GPAs above 2.75 may petition the department chair to enroll in junior level courses through a letter and supporting documentation.

Junior Transfer Programs

It is strongly recommended that students interested in the Boise undergraduate program complete their general education requirements at Boise State University, ACI, or other accredited university before transferring to Idaho State University-Boise. It is recommended that prospective transfer students complete CSED 205 in the second semester of their sophomore year. Junior transfer students may complete the requirements for a Bachelor of Science Degree within two years at Idaho State University. January junior transfers may complete the program requirements in two and one half years. Students interested in the undergraduate program at Idaho State University-Boise should call (208) 373-1706 for additional information.

Preprofessional Coursework

Students with undergraduate degrees in disciplines other than communication sciences and disorders must take a series of courses that are prerequisite to entering the Master’s degree program. These courses are delivered in two formats. The traditional Preprofessional Program format involves 13 courses provided through on-campus classroom instruction over the course of two semesters and a summer. The Online Preprofessional Program (OPP) involves delivery of 11 courses via totally online format, designed to provide nontraditional students with a means of acquiring these courses. Note that the online courses require extra fees, and the program is available to individuals seeking degrees at other institutions. The course sequence and specific aspects of the programs may be found on the Communication Science & Disorders, and Education of the Deaf home page at http://www.isu.edu/departments/spchpath/.

Academic Standards

Each student is responsible for completing the required coursework in the proper sequential order. Required prerequisite courses must be completed before the student can enroll in upper division departmental courses. Transfer students may submit petitions to the department for equivalent recognition of required courses. Students must maintain a GPA of 2.25 and obtain a letter grade of “C” or better in departmental courses counting toward fulfillment of graduation requirements. A grade of “D” in departmental courses will not be counted toward satisfaction of requirements for the major. All students must meet with their advisors each semester before a computer block will be removed to allow registration.

Practicum Standards

Students within the department may enroll in limited practicum activities as seniors. Specified departmental course requirements must be met before a student enrolls.
Clinical Services
The Idaho State University Speech-Language and Hearing Clinic on the Pocatello Campus and the Speech and Language Clinic on the Boise Center Campus offer a variety of clinical training opportunities for students while providing valuable services to the community. Among our audiological services offered at the Pocatello campus are complete audiological and vestibular testing, hearing aid evaluation, auditory training, aural habilitation and rehabilitation, including services for individuals with cochlear implants. The Speech and Language Clinics in Pocatello and Boise offer evaluation and treatment of speech, language, stuttering, voice, alternative and augmentative communication, and speech-language problems associated with cerebral palsy, traumatic brain injury, autism, cleft palate, and stroke. Clients served in our clinics range in age from infancy to adulthood and all clinical services are provided by experienced students under the direction of ASHA certified clinical faculty.

Master of Science Degree in Deaf Education
Undergraduate students interested in obtaining a Master of Science Degree in Deaf Education degree should check the undergraduate catalog under the Department of Communication Sciences & Disorders, and Education of the Deaf. Accredited by the National Council of Accreditation of Teacher Education, the Master of Science degree in Deaf Education also meets the requirements for training in the state of Idaho and other states in the region through reciprocal agreements. This degree provides future Deaf educators with the tools to work with hard of hearing students in elementary and secondary education.

Bachelor of Science in Communication Sciences & Disorders, with Emphasis in Pre-Audiology or Pre-Speech-Language Pathology
The following courses are required in addition to the University’s General Education Requirements. Students must complete Goals 4 and 5 as part of the General Education Requirements, and choose either the Pre-Audiology Emphasis or the Pre-Speech-Language Pathology Emphasis.

* (non certification)

Procedure: Interested students should contact the department to declare a minor and be assigned a minor advisor. Students with a minor in Deaf Education and who are eligible for a teaching certificate may be prepared to enter the regular, 14 month graduate program.

**Minor in Deaf Education**

Individuals interested in becoming a certified teacher of children who are deaf/hard of hearing in Idaho will need to meet all requirements of the Idaho State Board of Education. Individuals preparing to do this should begin by consulting the Undergraduate Catalog, College of Education, Teacher Education Program for details about admission into an undergraduate program in Elementary, Secondary or Special Education. Individuals will then need to apply to the Master’s Degree Program in Deaf Education in order to meet Idaho’s requirements for Teacher Certification: Deaf Education. Information about the Master’s Degree in Deaf Education can be found in the Graduate Catalog, Kasiska College of Health Professions, Department of Communication Sciences & Disorders, and Education of the Deaf.
Communication Sciences & Disorders, and Education of the Deaf Courses

Coursework in American Sign Language is restricted to majors in the Sign Language Studies or Educational Interpreting programs, or by permission of instructor.

CSED 126 Deaf Studies 1 credit. Introduction to deafness; the culture and community of deaf individuals; language and communication issues; education and employment considerations in deafness. F

CSED 151 American Sign Language I 3 credits. Manual communication course introduces the student to ASL. Students experience the language directly without presentation of English equivalents, emphasizing development of receptive language and vocabulary expansion. PREREQ: Sign Language Studies major or permission of instructor. COREQ: CSED 151L and CSED 151F. F

CSED 151L American Sign Language I Laboratory 1 credit. F

CSED 152 American Sign Language II 3 credits. Emphasis on receptive and expressive skills to achieve fluency in a grammatically appropriate level. Students are introduced to videotaping as a learning tool. PREREQ: CSED 151, CSED 151L and Sign Language Studies major or permission of instructor. COREQ: CSED 152L. S

CSED 152L American Sign Language I Laboratory 1 credit. S

CSED 205 Introduction to Communication Differences and Disorders 3 credits. Survey of speech, hearing, and language disorders, including study of the development of speech. Observations, films and assigned readings serve as illustrations of the various communication problems. S

CSED 227 Basic Sign I 2 credits. Beginning study of sign vocabulary, phrases and fingerspelling focused on expressive and receptive modes. Based on signing using English syntax. Designed for non-Sign Language Studies majors/minors: does not substitute for American Sign Language (ASL) classes. F

CSED 228 Basic Sign II 2 credits. Application of basic sign vocabulary, phrases and fingerspelling skills focused on expressive and receptive modes. Based on signing using English syntax. Designed for non-Sign Language Studies majors/minors: does not substitute for American Sign Language (ASL) classes. PREREQ: CSED 227 or permission of instructor. S

CSED 250 Signing Seminar 3 credits. This course introduces and discusses sign systems, ethical considerations for signers, employment options, and support for advancement with signing profession options and signing environments. PREREQ: CSED 151 and permission of instructor. S

CSED 250L Signing Seminar Laboratory 1 credit. Provides experiences in support of CSED 250 concepts and skills. PREREQ: CSED 151 and permission of instructor. COREQ: CSED 250. S

CSED 251 American Sign Language III 4 credits. Students are introduced to linguistic principles of ASL and a transcription system for recording and preparing dialogues and texts. Emphasis is on student generated conversations. PREREQ: CSED 152, CSED 152L, and Sign Language Studies major or permission of instructor. COREQ: CSED 251L. F

CSED 251L American Sign Language III Laboratory 0 credits. F

CSED 252 American Sign Language IV 4 credits. Linguistic features of ASL are expanded, including inflection, spatialization, movement, redundancy, and use of facial expression and body posture. Emphasizes vocabulary development. PREREQ: CSED 251, CSED 251L, and Sign Language Studies major or permission of instructor. COREQ: CSED 252L. S

CSED 252L American Sign Language IV Laboratory 0 credits. S

CSED 256 Deaf Culture and Community 3 credits. An information course emphasizing aspects of deafness and deaf culture that are related to language study and minority group dynamics. PREREQ: CSED 151 and CSED 151L. F

CSED 315 Introduction to Clinical Processes 3 credits. Basic treatment and assessment principles, methods, and procedures in speech-language pathology and audiology. PREREQ: CSED 321, CSED 330, or permission of the instructor. S

CSED 321 Clinical Phonetics and Phonology 3 credits. Basic concepts in applied phonetics and phonology, emphasizing applications in communication disorders and differences. Introduction to International Phonetic Alphabet. COREQ: CSED 321L. F

CSED 321L Clinical Phonetics and Phonology Lab 1 credit. Required laboratory portion of CSED 321 for emphasis pre-speech-language pathology. Not required for Pre-Audiology emphasis. Skill development in use of International Phonetic Alphabet. COREQ: CSED 321. F

CSED 325 Speech Sound Development and Disorders 3 credits. Introduction to childhood speech development and disorders. Basic clinical principles and procedures for diagnosis and treatment of disorders of speech sound production. PREREQ: CSED 321 with a grade of “C” or better or permission of instructor. S

CSED 335 Language Disorders 3 credits. Study of children who are delayed language users. Intervention principles, including content and procedures of programming as they relate to language disorders. PREREQ: CSED 330 or permission of instructor. S

CSED 340 Communication Disorders Lifet ime Perspective 3 credits. An overview of speech and language disorders across the age span. Assessment, treatment, and referral options will be presented. Class intended for students not pursuing a speech language pathology degree. PREREQ: CSED 321 and 330 or permission of the instructor. S

CSED 341 Audiology and Hearing Science 3 credits. Introduction to basic hearing science, sound measurement, audiometry, tympanometry, hearing disorders, public school screening, and methods of aural rehabilitation. Review of role of audiology in human services. F

CSED 351 American Sign Language V 4 credits. Intensive practice involving expressive and receptive skills in various language activities. Introduces language forms in poetry, art, and theater. Explores signing styles and registers. PREREQ: CSED 252. COREQ: CSED 351L. F

CSED 351L American Sign Language V Laboratory 0 credits. F

CSED 352 American Sign Language VI 4 credits. Structural properties of ASL compared with other languages. Includes phonology, morphology, syntax, and semantics. PREREQ: CSED 351. COREQ: CSED 352L. S

CSED 352L American Sign Language VI Laboratory 0 credits. S

CSED 353 Interpreting Seminar 3 credits. Presents theoretical models, concepts, and language skills and ethical considerations necessary to render the source language into an accurate, culturally equivalent target in the target language. PREREQ: CSED 250, CSED 250L, CSED 352, and permission of instructor. F

CSED 353L Interpreting Seminar Laboratory 0 credits. Assignments to apply principles in CSED 353. COREQ: CSED 353. F

CSED 354 Interpreting 4 credits. This course introduces practice and processing of interpreting in educational settings. Voice-to-sign and sign-to-voice in ASL are the focus in practical activities and theoretical models are reinforced. PREREQ: CSED 353 and permission of instructor. S

CSED 354L Interpreting Laboratory 0 credits. Assignments to apply principles in CSED 354. COREQ: CIS 354. S

CSED 355 Creative Signing 3 credits. Techniques of facial expression, body movements, and ASL features as used in performing arts settings. Skills are developed through pantomime, song, and other activities. PREREQ: CSED 353. S

CSED g400 Organic Communication Disorders 4 credits. Review of major organic speech, language and hearing disorders. PREREQ: Permission of instructor. S

CSED g405 Neurological Bases of Communication Disorders 3 credits. Fundamentals of neuroanatomy and physiology related to speech, language and hearing. Introduction to communication disorders related to neurological damage. PREREQ: CSED 435 or permission of instructor. S
CSED 415 Clinical Practicum in Audiology 1-2 credits. Supervised experience in the evaluation, (re)habilitation, and counseling of persons with hearing disorders. Students will also participate in weekly clinical staffing. May be repeated up to 6 credits. PREREQ OR COREQ: CSED 416, F, S

CSED 416 Audiology Methods and Applications 1 credit. Introductory training and experience in audologic clinical procedures. PREREQ: Completion of CSED 341 and permission of instructor. F

CSED 417 Interdisciplinary Evaluation Team 1 credit. Introduction to principles, techniques of interdisciplinary evaluation. Disciplines emphasized: Audiology, Nursing, Physical Therapy, Psychology, Social Work, Special Education, Speech-Language Pathology. Cross-listed as NURS g417, PSYC g417, and SOWK g417. PREREQ: Permission of instructor. S

CSED 420 Assessment and Intervention of Speech and Language Disorders 3 credits. Advanced assessment and treatment principles, methods and procedures for speech and language disorders to prepare students for their first clinical education experience. PREREQ: CSED 315, CSED 325, and CSED 335, or permission of the instructor. F

CSED 425 Speech Language Pathology Methods and Application 3 credits. Application of assessment and treatment principles, methods, and procedures in speech and language disorders through classroom experiences, observation, and clinical experiences. For students planning to pursue graduate education. PREREQ: CSED 315, CSED 325, CSED 335, and CSED 420 or permission of the instructor. S

CSED 435 Speech and Hearing Science 4 credits. Introduction to the anatomy and physiology of speech production. Topics include respiratory dynamics, laryngeal functions, articulatory dynamics, hearing mechanism, and the neurophysiology of speech and hearing. PREREQ: BIOL 301 and BIOL 302 or permission of instructor. COREQ: CSED 435L. F

CSED 435L Speech and Hearing Science Laboratory 0 credits. Required laboratory portion of CSED 435. F

CSED 440 Special Topics Workshop 1-3 credits. Presentation of professionally related topics in workshop format. Meets for a minimum of 16 contact hours per credit with appropriate outside assignments, readings, or papers. May be repeated for up to 6 credits. Graded S/U. D

CSED 445 Aural Rehabilitation 3 credits. Aural rehabilitation of the hearing impaired. Consideration of amplification, speech reading, auditory training, and other aspects of the process. PREREQ: CSED 341 or permission of instructor. S

CSED 449 Fingerspelling and Numbers 3 credits. Improve receptive and expressive fingerspelling skills. Emphasis on whole-word and phrase recognition, and on reading fingerspelling and numbers embedded in signed sentences. Use ASL number systems including cardinal, ordinal, and informational numbers relating to time, temporal-aspect signs, measurements, and math terms. PREREQ: Permission of instructor. F

CSED 452 Manually Coded English 3 credits. Introduces the conversational signer to MCE, developed for the education of the hearing impaired child. Designed for educational interpreters who plan to work in K-8 educational settings. PREREQ: Permission of instructor. S

CSED 453 Transliterating 1: Voice to Sign 4 credits. Theoretical and practical “hands-on” approach to the process of sign language transliterating. Students will render spoken messages in English into contact varieties and signed English, using sample discourses and texts as appropriate to K-12 educational settings. PREREQ: CSED 354 and permission of instructor. COREQ: CSED 453L. F

CSED 453L Transliterating 1: Voice to Sign Lab 0 credit. Assignments to apply principles taught in CSED 453. COREQ: CIS 453.F

CSED 454 Transliterating II: Sign to Voice 4 credits. Continuation of the theoretical and practical “hands-on” approach to sign language transliterating. Render contact varieties and signed English messages into spoken English. PREREQ: CSED 354 and permission of the instructor. COREQ: CSED 454L. S

CSED 454L Transliterating II: Sign to Voice Laboratory 0 credits. Assignments to apply principles taught in CSED 454. COREQ: CSED 454. S

CSED 456 Psychosocial Aspects of Deafness 3 credits. Psychological, educational, and social influences of the hearing community on deaf persons and the structure of the deaf community as a socio-cultural entity. PREREQ: CSED 351 with a “B” or better. F

CSED 460 Educational Audiology 3 credits. Overview of school-based audiology services including working within the public school system and with related professionals, legal issues and options for providing comprehensive services to children with hearing loss and their families. S, ASU

CSED 461 The Professional Interpreter 3 credits. Ethical guidelines and standards of conduct expected of a professional interpreter. Acquaints students with theoretical issues involved in interpreting as a profession. PREREQ: Permission of instructor. AF

CSED 470 Field Observation in Interpreting 2 credits. Student will be assigned to observe in an elementary/secondary or post-secondary school for six hours per week. May be repeated for up to 8 credits. PREREQ: Permission of advisor. F, S

CSED 473 Collaboration 2 credits. Presents theoretical models, principles, practices pertaining to collaborating in educational settings. Relevant concepts from the social/behavioral sciences will be examined through discussions, hypothetical situations, and role playing. PREREQ: Permission of instructor. S

CSED 474 Educational Interpreting Internship 4-8 credits. Student will be assigned to elementary/secondary or post-secondary setting for a period of weeks to match credit. Assignment includes observation and assuming the role of the interpreter under appropriate supervision. May be repeated to a maximum of 8 credits. PREREQ: Permission of advisor. F, S

CSED 482 Independent Study 1-4 credits. Study of problems selected by students and faculty. May be repeated up to 8 credits. D

CSED 491 Seminar 1-4 credits. Reading, preparation, and discussion of reports and projects in all areas of speech and hearing science, speech pathology and audiology. May be repeated up to 12 credits. D

Department of Counseling

Chair and Professor: Feit
Professors: Allen, Kleist
Associate Professors: Crews, Hill, Paulson
Assistant Professors: Doughty, Harrwood, Vereen
Clinical Assistant Professor: Singararah
Instructors: Bennett, Erickson, Kase, Johnson, Reimann
Adjunct Faculty: Bolinger, Johnsen, Schmidt, Watts
Emeriti: Edgar, Lloyd

Mission

The principle mission of the Department of Counseling is to prepare quality counselors for various settings in Idaho and the nation. More specifically, we seek to prepare quality School Counselors for public schools in K-12 settings, Marital, Couple and Family Counselors for agency and community settings, Mental Health Counselors for community agencies and other mental health settings. Student Affairs counselors for working in college settings such as advising and residence hall and career centers. In addition, we prepare doctoral level counselor educators. In addition to specific job settings, the faculty believe that it is also our mission to instill a strong sense of professional identity and appreciation for our rich knowledge base and to develop expertise in the skills of counseling with our students. To aid them in becoming certified and/or licensed and in their initial job placement. The Department of Counseling also has a mission within the Kasiska College of Health Professions which is to represent the mental health perspective within KCHP and to consult with KCHP faculty and departments in encouraging a holistic perspective for health care services.
Goals and Objectives
The Department of Counseling has curricular and professional objectives for each student. Each of these objectives has specific outcome measures.

Curricular Objectives:
1. Students will have knowledge of Human Growth and Development so that they can understand the nature and needs of individuals at all developmental levels.
2. Students will have knowledge of Social and Cultural Foundations to be effective in a multicultural and diverse society.
3. Students will be knowledgeable and skillful in Counseling and Consultation processes.
4. Students will be knowledgeable about group development, dynamics, counseling theory, group counseling methods, and group work approaches.
5. Students will be knowledgeable and understand career development and related factors.
6. Students will understand and be knowledgeable about individual and group approaches to assessment and evaluation.
7. Students will be knowledgeable about various research methods and basic statistics.
8. Students will be knowledgeable about the profession of counseling including history, organizational structures, ethics, standards and credentialing.

Student Professional Objectives:
In addition to the above curricular objectives, the Department of Counseling has program wide objectives. These include:
9. School counseling students will obtain certification as school counselors.
10. Mental Health and Marital, Couple and Family students will obtain the appropriate state licensure.

Counseling
Graduate-level preparation for (1) counselors who seek employment in schools, universities, community mental health and various other settings, and (2) college student affairs professionals.

Pre-Counseling and Pre-Student Affairs
Preparation should consist of a broad undergraduate course of study including some work in psychology (learning and personality theory), sociology, and the communication skills. For those seeking positions in public elementary and secondary schools, state certification requirements should be considered.

Undergraduates interested in continuing their education in the Master of Counseling program should consider enrolling in the seminar course, COUN g491, Introduction to Counseling Services. This 1-credit course is offered each Fall semester.

Degree Programs
Degree programs offered by the department, all at the graduate level, include Doctor of Philosophy, Educational Specialist, and Master of Counseling. Majors are available in Counselor Education and Counseling (Ph.D.); Counseling (Ed.S.), Marital, Couple, and Family Counseling (M.Coun.); Mental Health Counseling (M.Coun.); School Counseling (M.Coun.); and Student Affairs Counseling (M.Coun.).

Accreditation
The program for school counselor preparation is accredited by the State of Idaho (2008).

The Counselor Education programs are approved by the Council for Accreditation of Counseling and Related Educational Programs through June 30, 2009 as follows: Marital, Couple, and Family Counseling (M.Coun.), Mental Health Counseling (M.Coun.), School Counseling (M.Coun.), and Student Affairs Counseling (M.Coun.), and Counseling Education and Counseling (Ph.D.).

Admission
Admission to the Department of Counseling Master’s program is based on a variety of criteria outlined in the Graduate Catalog. Because of limited class sizes and the large number of applicants, admission into the Department of Counseling is highly competitive.

Application forms and the Graduate Catalog are available after August 15 from the Department of Counseling and online. Application deadline is February 15 for the Master of Counseling program; January 15 for the Ph.D. program. If you are interested in admission and the deadlines have passed, please contact the Department. A secondary admission process will be conducted if the programs have not filled with high quality applicants.

A maximum of 20-25 students are admitted to the Master of Counseling program each year. Classes begin in the Fall semester each year.

Counseling Courses
COUN 150 Career and Life Planning 1 credit. Centers on theories and actual processes of effective decision-making with direct application to participants’ short and long range life goals. Course will emphasize self-understanding and methods for gathering appropriate external information. Career decisions are emphasized. PREREQ: Permission of instructor. F, S

COUN 200 Multicultural Development 1 credit. Acquaints students with information related to the appreciation of individual differences as it relates to race, gender, and national origin in a pluralistic society. F, S

COUN 201 Introduction to Leadership 1 credit. Contemporary approaches to leadership with an emphasis on the practical application of theoretical models. Graded S/U. F, S

COUN 210 Human Relations at Work 3 credits. The development of knowledge and skills to enhance cooperation between employers and employees in various work settings. Exploration of current thought on the nature, process, and diversity of human interaction as it applies to the world of work. D

COUN 300 Interpersonal Skills in Health Professions 2 credits. Theory and practice in the use of effective interpersonal communication skills and styles for health care providers. R1

COUN 350 Self Fulfilling Behavior 1 credit. Course objective is to assist the student in developing satisfying personal and interpersonal emotional skills and habits. Combines instruction in principles of mental health with practical methods for applying principles to problems of everyday life. PREREQ: Permission of instructor. Graded S/U. D

COUN 423 Vocational Guidance and Counseling 3 credits. Study of occupational trends, job opportunities, factors involved in selecting an occupation and means of evaluating interests in terms of capabilities. D

COUN g450 Peer Counseling Seminar 1-2 credits. Supervised experience in assisting another student. Students meet out of class on a weekly contact basis. Course provides ongoing training for the peer counselors. May be repeated up to 6 credits. PREREQ: Permission of instructor. D

COUN g484 Guidance Principles and Practices 3 credits. Survey of the various guidance practices in secondary education. Each service is discussed from the point of view of its role in the total educational program. D
the administration of local anesthesia and nitrous oxide analgesia, and/or certain restorative procedures. As a specialist, the dental hygienist is an integral co-therapist in helping consumers prevent oral disease, arrest existing periodontal (gum) disease, and maintain oral health.

**Philosophy, Mission and Goals**

The fundamental philosophy of the Idaho State University Department of Dental Hygiene is threefold. First, its members are committed to excellence in all academic endeavors. Second, the program is progressive in instituting ongoing change to prepare for the future of dental hygiene. The program also places priority on basing these changes on evaluation findings while maintaining essential traditional values. Third, as a component of the university’s primary emphasis area, the program serves statewide and regional needs by providing access to quality education in the discipline as well as meeting the employment demands and oral health needs of the public.

The primary mission of the Idaho State University Department of Dental Hygiene is to:

- facilitate the development of dental hygienists who are able to fulfill the multiple roles of professional dental hygienists;
- award baccalaureate degrees in the discipline with a vision toward granting graduate degrees;
- contribute to the science of dental hygiene and the advancement of related knowledge through applied qualitative and quantitative research;
- promote the health and well-being of the public by providing clinical dental hygiene care and community service;
- participate as an integral, active, and contributing entity of the institution through University service.

Pursuant to the broad philosophy and mission statement above, the Department of Dental Hygiene seeks to positively impact the education of its students and the delivery of dental hygiene services to the public by fulfilling the following interrelated goals:

**Goal 1.** To comprehensively prepare dental hygiene graduates who possess the knowledge, values, ethics, and skills to provide optimal dental hygiene care through demonstrated competence as defined by the “Department of Dental Hygiene Competency Document.”

**Goal 2.** To offer a baccalaureate dental hygiene program sufficient in scope and depth to prepare graduates with a broad general education and high quality professional education that fosters their ability to adapt to the future, provide leadership in dental hygiene, and enroll in graduate level education.

**Goal 3.** To create knowledge through faculty research programs that are of sufficient depth to contribute to the art and science of dental hygiene, to dental hygiene practice and to the delivery of improved health care in Idaho and the nation.

**Goal 4.** To foster professional behaviors consistent with legal and ethical expectations essential to the dental hygiene profession and the public through professional activities, continuing education programs, and community service.

**Goal 5.** To remain responsive to program expansion according to the needs of Idaho and the western region of the United States, as well as to the future of the dental hygiene profession.

**Goal 6.** To operate and maintain the on-campus clinical facility to provide quality oral health care while fulfilling the program’s educational mission.

**Program Description**

The Department of Dental Hygiene awards a Bachelor of Science degree. Students apply to the professional curriculum after completing prerequisite courses in science and general education. The professional program is two years in length. Prerequisites can be completed at the institution of the student’s choice. The Department of Dental Hygiene has formal articulation agreements with every college/university in Idaho.

The program is designed to foster student growth, promote development of critical and ethical judgment, and encourage lifelong learning. The curriculum includes didactic, laboratory and clinical instruction sufficient to graduate competent clinicians who are capable of practicing contemporary dental hygiene procedures. Students are educated to clinical competency in both traditional and advanced procedures, with emphasis placed on preventive, therapeutic, and nonsurgical services essential for providing total patient care to the public. As a result, graduates possess an increased...
understanding of dentistry and dental hygiene, expanded capabilities as members of the oral health team, and greater career mobility. Graduates of the Idaho State University dental hygiene program also are prepared to pursue graduate studies in dental hygiene or related areas. The dental hygiene program is fully accredited by the American Dental Association Commission on Dental Accreditation.

Employment Opportunities
Upon completion of the dental hygiene curriculum, graduates are qualified to take the Dental Hygiene National Board Examination and licensure exams in every state, the District of Columbia, Puerto Rico, and Canada and abroad. Graduates are eligible for positions in private dental offices, public health programs, school health programs, dental hygiene education and research. In addition, the dental hygiene program provides instruction and experience in advanced procedures to broaden capabilities for clinical practice.

Admission
Formal application for admission to the dental hygiene program must be submitted before January 15 of the year the student wishes to enter. Applicants must have completed prerequisite courses and completed specific requirements for consideration. Application materials must be forwarded to the Department of Dental Hygiene. Applications for the dental hygiene program and information regarding current admission criteria and procedures can be obtained from the Dental Hygiene website at http://www.isu.edu/departments/dentalhy, or directly from the department. Admission to Idaho State University is a separate procedure and must be completed simultaneously with application to the dental hygiene program. Students must provide verification of current CPR certificates prior to beginning the junior year.

Academic Standards
To enroll in upper division courses with a dental hygiene prefix, students must be accepted for admission to the dental hygiene program. Each student is responsible for completing the required course work in proper sequential order. To be eligible for graduation and progression in the dental hygiene program, the student must have a cumulative grade point average of 2.25. Course work for which the student receives a grade below “C-” (C minus) will not be accepted as fulfilling requirements for the Department of Dental Hygiene. Deviations from these standards must be approved by the department chairperson.

Dental Hygiene Services
Preventive and therapeutic oral health services are provided by licensed dental hygienists and dentists and experienced students in the dental hygiene clinic. Services for the public include oral prophylaxis, x-rays, nonsurgical treatment for periodontal (gum) disease, fluoride treatments, and patient education in the care of the mouth. Selected advanced services are available for full-time Idaho State University students, faculty and staff. Individuals desiring information should inquire about the availability of services with the dental hygiene clinic receptionist.

Master of Science Degree in Dental Hygiene
The graduate program is designed for licensed dental hygienists with baccalaureate degrees. Graduates are prepared for more complex roles in the discipline such as dental hygiene educators, researchers and advanced rural and community oral health practitioners. The program provides an online graduate curriculum with minimal on-campus visitations required.

Graduation Requirements
Prerequisite courses 40-51 cr (department requirements and general education) Required dental hygiene courses 67 cr Other courses (including general education), minimum of: 15 cr Electives 6 cr TOTAL: 134 cr

Bachelor of Science in Dental Hygiene

**Other Required Courses**

PSCI 314 Basic and Applied Pharmacology for Dental Hygiene 2 cr

**Dental Hygiene Courses**

DENT 201 Principles of Dental Hygiene 2 credits. Prevention of dental diseases, role of the dental hygienist and oral healthcare team are presented at the pre-professional level. Dental hygiene career content assists in formulating a career decision. F, S

DENT 220 Introduction to the Dental Office 2 credits. Introduction to dental terminology and office procedures including duties and responsibilities of various dental personnel through lectures, activities and field experiences. F

DENT 305 Personal and Career Development 1 credit. Incorporation of time management, stress management and assertiveness skills into career and life planning. Graded S/U. F

DENT 307 Managing Oral Health Care for Medically Compromised Patients 3 credits. Lectures, discussions, cases, and active learning modalities provide a working knowledge of management of medically compromised patients during oral health care. Emphasis on precautions and treatment alterations for patients with medical complications as well as an overview of protocols for handling a medical emergency. PREREQ: Acceptance into Dental Hygiene program. COREQ: DENT 313C. F

DENT 308 Oral Histology and Embryology 2 credits. Study of the embryologic and histologic development of the face and oral structures and the histologic response of oral tissues specifically related to health and disease. Utilization of laboratory, microscopic and diagnostic aids. F

DENT 309 Oral Pathology 2 credits. Study of common oral lesions and neoplasms including general, dental and oral pathological processes with emphasis on etiology and clinical manifestations. Utilization of patient history, laboratory, roentgenographic and other diagnostic aids. PREREQ: DENT 308. S

DENT 311 Tooth Morphology 2 credits. Morphological characteristics and development of the teeth and oral structures. Emphasis on root anatomy and preparation for advanced clinical skills. F

DENT 312 Head and Neck Anatomy 3 credits. Descriptive anatomical study of regions of the head and neck, including skeletal, blood, and nervous tissues. Special emphasis on structures related to clinical dental hygiene procedures. COREQ: DENT 311. F

DENT 313C Clinical Dental Hygiene I, Clinic 3 credits. Preclinical application of principles, techniques, and concepts presented in DENT 307 and 313. PREREQ: Acceptance into Dental Hygiene program. COREQ: DENT 313. F

DENT 314 Clinical Dental Hygiene II 2 credits. Continued didactic instruction expanding on principles of patient communication and implementation of dental hygiene procedures for a variety of clients. PREREQ: DENT 313, DENT 313C and DENT 315. COREQ: DENT 314C. S

DENT 316 Dental Materials 2 credits. Survey of physical and chemical properties of dental materials. Manipulation and practical application used in general restorative dentistry also are included. F

DENT 317 Oral Radiology I 1 credit. Survey of principles of x-ray production and radiographic equipment with emphasis on radiographic safety and protection. F

DENT 318 Oral Radiology II 2 credits. Principles and technique of exposing and interpreting oral radiographic surveys. PREREQ: DENT 312, DENT 313, DENT 313C, and DENT 317. S

DENT 318L Oral Radiology Laboratory 1 credit. Laboratory instruction and supervision for the production, processing, evaluation and interpretation of oral radiographs. Proficiency examination and educational training model experience precede patient exposure. PREREQ: DENT 317. COREQ: DENT 314C and DENT 318. S

DENT 319 Preclinical Expanded Functions 3 credits. Didactic and laboratory application of dental materials and dental hygiene restorative expanded duties. Duties relate to amalgam, tooth colored and temporary restorations; four-handed dentistry; impressions and study models. PREREQ: DENT 311 and DENT 316. S

DENT 320 Local Anesthesia 2 credits. Didactic and clinical instruction in the administration of local anesthetic agents, with emphasis on techniques of field and nerve block anesthesia. PREREQ: DENT 307 and DENT 312. S

DENT 321 Introduction to Peridontology 2 credits. Concepts of periodontal disease involving assessment, etiology, risk factors, and classification of periodontal diseases; basic treatment planning, and periodontal debridement/ root planing. PREREQ: DENT 308, DENT 313, and DENT 313C. COREQ: DENT 314 and DENT 314C. S

DENT 330C Interim Clinic 2 credits. Continued clinical application of dental hygiene procedures emphasizing total patient care. For students who require additional clinical course experience for DENT 314C or DENT 404C sufficient for progression or graduation. May be repeated once. PREREQ: Permission of department. F, S, Su

DENT 340C Summer Clinic Enrichment 0 credit. Continued clinical application of dental hygiene procedures emphasizing total patient care. For students who desire to enrich their clinical course experience for 314C or 404C. PREREQ: Permission of department. Graded S/U. Su

DENT 401 Research Methodology 3 credits. Fundamental and working knowledge of the scientific method employed in oral health research. Development of lifelong learning skills through critical analysis of research findings. PREREQ: MATH 253 and ENGL 102. F

DENT 402 Periodontology 2 credits. Continued study of periodontal diseases with emphasis on aggressive forms, periodontal treatment planning, maintenance procedures, related systemic diseases and therapy. PREREQ: DENT 314, DENT 314C, and DENT 321. COREQ: DENT 403 and DENT 403C. F

DENT 403C Clinical Dental Hygiene III 2 credits. Advanced clinical procedures in all phases of dental hygiene practice including nonsurgical periodontal therapy, ultrasonic scaling, instrument recontouring, assessment procedures and dietary counseling. PREREQ: DENT 314 and DENT 314C. COREQ: DENT 403C. F

DENT 404 Clinical Dental Hygiene IV 2 credits. Continued study of advanced clinical procedures. Emphasizes periodontal instrumentation and advanced ultrasonic techniques, subgingival irrigation, air polishing, job interviewing, résumé writing and professional practice management. PREREQ: DENT 403 and DENT 403C. COREQ: DENT 404C. S

DENT 404C Clinical Dental Hygiene IV, Clinic 4 credits. Comprehensive care including assessment, planning, implementation and evaluation is practiced. Emphasis on competency in nonsurgical periodontal therapy, ethical/professional case management and practice management. PREREQ: DENT 403 and DENT 403C. COREQ: DENT 404. S

DENT 408 Ethics and Jurisprudence 2 credits. The study of legal, ethical, and moral responsibilities of health care professionals as related to the practice of dental hygiene. Licensure, legal
Language and the Idaho Dental Practice Act will be discussed. F

**DENT 409 Communication and Behavior Management in Dentistry** 1 credit. Principles of communication and behavior management as related to patient-provider relationships, management of dental fears/anxiety, and interpersonal interactions in the employment setting. S

**DENT 411 Expanded Functions 1 2 credits.** Didactic and laboratory application of advanced procedures emphasizing pain control methods, preventive and restorative expanded functions and four-handed dentistry procedures. PREREQ: DENT 319 and DENT 320. COREQ: DENT 411C. F

**DENT 411C Expanded Functions 1 Clinic 1 credit.** Clinical application of advanced procedures emphasizing pain control methods, restorative expanded functions and four-handed dentistry techniques. PREREQ: DENT 319 and DENT 320. COREQ: DENT 411. F

**DENT 412 Dental Specialties 1 credit.** Didactic and laboratory application of information related to the dental specialties. Emphasis is placed on those specialties not covered elsewhere in the curriculum. PREREQ: DENT 411. COREQ: DENT 412C. S

**DENT 412C Expanded Functions II Clinic 1 credit.** Continuation and amplification of skills developed in DENT 411C. PREREQ: DENT 411 and DENT 411C. COREQ: DENT 412. S

**DENT 413 Community Health and Special Needs Populations 1 2 credits.** Concepts of oral health education and preventive counseling, health promotion, patient management, public health and research are applied to achieve a sustained improvement in the oral health behavior, knowledge, and attitude of a group of subjects not normally seen as patients. Field experiences required. PREREQ: DENT 403 and DENT 404C. F

**DENT 414 Community Health and Special Needs Populations II 2 credits.** Concepts of oral health education and preventive counseling, health promotion, patient management, public health, and research are applied to achieve a sustained improvement in the oral health behavior, knowledge, and attitude of a group of subjects not normally seen as patients. Field experiences required. PREREQ: DENT 404, DENT 404C, and DENT 412C. S

**DENT 420 Dental Hygiene Specialty Emphasis 2 credits.** Didactic and clinical instruction offered in three dental hygiene specialties, including community dental health, dental hygiene education, and advanced clinic and periodontology. Students select one emphasis. PREREQ: DENT 402. S

**DENT 481 Independent Studies in Dental Hygiene 1-3 credits.** Students will select an area of special interest to pursue through independent study. The student normally is required to present a report giving results of his/her work. May be repeated to a maximum of 12 credits. F, S, Su

**Department of Dental Sciences**

Chair, IAGD Program Director, and Associate Professor: Crawford

IAGD Boise Clinic Director: Powell

IAGD Pocatello Clinic Director: Klingler

IDEP Director and Adjunct Instructor: Ybarquen

Adjunct Faculty: Nielsen

Affiliate Faculty: Bingham, Brady, Bruce, Chapman, Comstock, Dean, DiGrazia, Doyle, Duncan, Ellis, Eppich, Ferguson, Hanson, Hopkins, Johnson, Kempers, Leavitt, Matunas, McMinn, McMurray, Meadors, Morrison, Moultin, Munk, Nelson, Newton, Peterson, Polson, Ruppel, Seyler, Staats, Sutton, Taybos, Vania, Zirker

The Department of Dental Sciences administers the Idaho Dental Education Program (IDEP) for predental doctoral students, and the Idaho Advanced General Dentistry Residency (IAGD) as a postdoctoral program.

The Idaho Dental Education Program is designed to provide residents of Idaho with access to a high quality dental education as if Idaho had its own dental school. The IDEP program is fully accredited as a Satellite Program of Creighton University School of Dentistry by the American Dental Association. The program involves a first year curriculum at Idaho State University in Pocatello, followed by completion of the second through fourth years at Creighton University in Omaha, Nebraska. Students completing the four year program receive the Doctor of Dental Surgery (D.D.S.) degree and are eligible to take the licensure examinations necessary to become practicing dentists. Students may also elect to pursue advanced training through residencies or specialty programs, eventually becoming board certified in one of the recognized dental specialties.

There are eight positions available for Idaho residents. Applicants to the program must have completed the necessary prerequisites in English, Biology, Inorganic Chemistry, Organic Chemistry, Physics and other requirements as outlined in the Department of Dental Sciences Bulletin. In addition to fulfilling the minimal prerequisites most students accepted into the program will have a bachelor’s degree at the time of entry into IDEP. Occasionally, some exceptional students who have completed the junior level (upper division) of college course work are admitted into the program.

Students are encouraged to work closely with their pre-dental academic advisor in making course selections which fulfill dental school and degree completion requirements.

Formal application for admission to the IDEP program follows the guidelines printed in the Department of Dental Sciences Bulletin and the Creighton University School of Dentistry Bulletin. The application process involves: taking the Dental Aptitude Test (DAT), completion of the American Dental Education Association Application Service centralized application, the Creighton Supplemental Application and the IDEP Residency Certification Form. Although the application process can be completed as late as January 1 of the year the student plans to enter the program, earlier application is strongly encouraged to allow adequate time for completion of admission requirements and consideration by the admissions committee.

Further information concerning the program, admission requirements, Bulletins and Residency Certification forms can be obtained by contacting the program at the following address:

Performing a complete scaling prophylaxis of the teeth. Periodontal charting and instrument sharpening techniques are also performed. Didactic, laboratory, and clinical introduction. **S**

**IDEP g434 Dental Materials Science II 3 credits.** Continuation of IDEP g415. PREREQ: IDEP g415. **S**

**IDEP g435 Occlusion Laboratory 1 credit.** Various exercises simulating clinical diagnostic and treatment procedures are employed to exemplify principles of maxillomandibular relationships. **S**

**IDEP g444 Values and Ethics 1 credit.** Designed to identify and understand one’s own ethical decision-making processes and the relationship of religion with values and ethics. Students will discuss the areas of value of care for people as individuals, challenges of personal and professional opportunities, code of ethics of the A.D.A. and dental care delivery systems. Graded S/U. **F**

**IDEP g454 Occlusion Lecture I 1 credit.** Basic principles of maxillomandibular relationships, static and functional, as related to the occlusal surfaces of the teeth. **S**

**IDEP g463 Dental Radiology I 1 credit.** History, theory and application of ionizing radiation resulting in radiography of the oral structures; including exposure and developing parameters along with basic interpretation. COREQ: IDEP g464. **S**

**IDEP g464 Dental Radiology Technique 1 credit.** Practical experience in exposing and developing dental radiographs. The course will include techniques required to complete a diagnostic full mouth series, bitewing films and panoramic radiographs. COREQ: IDEP g463. **S**

**IDEP g465 Dental Radiology II 1 credit.** History, theory, and application of radiographic methods in dentistry including cephalometric, panoramic, and digital modalities. COREQ: IDEP g463 and IDEP g464. **S**

**IDEP g467 Extramural Dental Education Program 2 credits.** Community clinical experience at the Idaho State University dental clinic. Under direct supervision, dental students observe and participate in total patient care and office management while serving Idaho residents who would not normally receive dental care. **D**

### Clinical Assistant Professors
- Alston, Murdock, Pettinger
- Affiliate Faculty: Buitrago, DeSano, Fernandez, Hogan, Joseph
- Emeritus Faculty: Rush

### Family Medicine Residency Program

The Idaho State University Family Medicine Residency is a postgraduate training program for physicians who have an M.D. or D.O. degree. The program is affiliated with the medical schools of the University of Washington and the University of Utah and is accredited by the Accreditation Council for Graduate Medical Education. The Pocatello Family Medicine Clinic, located on the Idaho State University campus, is the outpatient training site; hospital rotations are scheduled at Portneuf Medical Center.

Accepting six residents per year, the program trains Family Physicians to practice in rural Idaho. The curriculum includes family medicine, obstetrics/gynecology, surgery, internal medicine, pediatrics, geriatrics, emergency medicine, community medicine, behavioral science, rural medicine, orthopedics and other subspecialties.

For more information, please contact:
- Family Medicine Residency Program
  - 465 Memorial Drive
  - 921 S 8th Ave Stop 8357
  - Pocatello, ID 83209-8357

  - Internet: [www.fmed.isu.edu](http://www.fmed.isu.edu)
  - E-mail: fammed@fmed.isu.edu

### Department of Family Medicine

**Director and Clinical Professor:** Cree
**Associate Director:** Woodhouse
**Professor:** Force
**Associate Professor:** Dyer
**Clinical Associate Professors:**
- Bokelmann, Dickey, Hachey, Hoffmann, Jones, Routson, Wright

### Department of Health and Nutrition Sciences

**Chair and Professor:** McAleese
**Professor:** Rankin
**Assistant Professors:** Blanton, Louis, Murillo, Olsen
**Instructors:** Albers, Davis
**Clinical Associate Professors:** McKnight, SCHneider
Clinical Assistant Professors: Grim, Munn
Clinical Instructor: Batacan
Emeriti: Kearns, Kritsky, Morris

Our Mission
The mission of the Department of Health and Nutrition Sciences is to improve the health and wellness of human populations through excellence in dynamic, competency-based instruction, exemplary service, innovative and applied research, evidence-based practical application in health careers, and leadership to the professional health community.

About Us
The Department of Health and Nutrition Sciences offers baccalaureate degree programs in health education and dietetics, post-graduate dietetic internships, and graduate degrees in health education and in public health.

The undergraduate health education program is accredited by the Association for the Advancement of Health Education (AAHE) through NCATE. Students may choose from three options: 1) public school teaching certification, 2) community/worksite health, or 3) addiction studies. An option is available for students seeking a health component in elementary education.

The Didactic Program in Dietetics (DPD) is accredited by the Commission on Accreditation of Dietetics Education of the American Dietetic Association (ADA) 120 South Riverside Plaza Suite 2000, Chicago, IL 60606-6995, (800) 877-1600). Students completing their B.S. degree are eligible to apply for dietetic internships.

The Dietetic Internship (DI) Program is also accredited by the Commission on Accreditation of Dietetics Education of the American Dietetics Association. The DI Program provides a supervised postgraduate practical experience preparing interns for successful completion of the registration exam and entry-level practice.

Graduate degrees are offered through a Master of Health Education (M.H.E.) and a Master of Public Health (M.P.H.). To learn more about these graduate programs, please click on their respective links. Distance Learning through our Boise Center Campus makes the attainment of the M.P.H degree more accessible to campuses in Pocatello and Idaho Falls.

Department Objectives
Health is a dynamic multi-dimensional measure of the quality of life rather than simply a freedom from illness. The Department of Health and Nutrition Sciences promotes a holistic approach to health which focuses on positive health habits and lifestyle. This includes incorporating knowledge and skills, which enables the individual to assume personal responsibility for health decisions with strategies that combine educational, political, regulatory, and organizational supports for actions and conditions conducive to the health of individuals, groups, or communities. Disease prevention/health promotion coupled with the treatment of diseases and disorders enables a person to achieve a healthy, productive life in all respects.

Bachelor of Arts or Bachelor of Science in Health Education
There is little doubt in today’s world that health promotion/disease prevention strategies are on nearly every national health care agenda. As a society, we have learned that a fuller measure of health, a better quality of life, is within the grasp of almost all people. The lifestyle choices a person makes today may influence that individual’s health forever.

The undergraduate program in health education is designed to prepare students to teach preventive health strategies. More specifically, they learn to facilitate the voluntary adoption of actions which are conducive to the health of individuals, groups, or communities. To earn a degree, each student must complete the health education core requirements, and then complete additional coursework and field experience in one of two emphasis areas (school health or community/worksite health). An addiction studies options is also available for students.

Health Education Program Goals and Objectives
Coursework in the Idaho State University undergraduate health education program prepares students to work with individuals, groups, and organizations and to be able to:

1. Assess individual and community needs for health education
   a. Access existing and collect health-related data
   b. Distinguish between behaviors that foster and hinder well-being
   c. Determine factors that influence learning
   d. Identify factors that foster or hinder the process of health education
   e. Infer needs for health education from obtained data

2. Plan health education strategies, interventions, and programs
   a. Involve people and organizations in program planning
   b. Incorporate data analysis and principles of community organization
   c. Formulate appropriate and measurable program objectives
   d. Develop a logical scope and sequence plan for health education practice
   e. Design strategies, interventions, and programs consistent with specified objectives
   f. Select appropriate strategies to meet objectives
   g. Assess factors that affect implementation

3. Implement health education strategies, interventions, and programs
   a. Initiate a plan of action
   b. Demonstrate a variety of skills in delivering strategies, interventions, and programs
   c. Use a variety of methods to implement strategies, interventions, and programs
   d. Conduct training programs

4. Conduct evaluation and research related to health education
   a. Develop plans for evaluation and research
   b. Review research and evaluation procedures
   c. Design data collection instruments
   d. Carry out evaluation and research plans
e. Interpret results from evaluation and research
f. Infer implications from findings for future health-related activities

5. Administer health education strategies, interventions, and programs
   a. Exercise organizational leadership
   b. Secure fiscal resources
   c. Manage human resources
   d. Obtain acceptance and support for programs

6. Serve as a health education resource person
   a. Use health-related information resources
   b. Respond to requests for health information
   c. Select resource materials for dissemination
   d. Establish Consultative Relationships

7. Communicate and advocate for health and health education
   a. Analyze and respond to current and future needs in health education
   b. Apply a variety of communication methods and techniques
   c. Promote the health education profession individually and collectively
   d. Influence health policy to promote health.

Admission
Application for admission to the Health Education program is required of all students desiring to progress toward this major. Students may apply for program admission during the first semester of their sophomore year. The Health Education program has an open admission policy. Transfer students must have their transcripts evaluated by the Office of Admissions prior to application for program admission.

The following criteria must be met for an applicant to be eligible for consideration for admission to the health education program:

1. A minimum of a 2.75 GPA at the time of application.

2. Completion of or concurrent enrollment in: ENGL 101, COMM 101, MATH 108, H E 200, H E 201, H E 202, HE 221, NTD 139 OR NTD 239.

3. Submission of a health education philosophy statement and a statement describing an occupational goal that includes the use of health education.

Students must also maintain a 2.75 GPA during their undergraduate studies after acceptance as a major in the health education program.

Transfer students who have satisfied the ISU general education requirements, have at least a 2.75 GPA, and have completed the equivalent of at least three of the health education courses listed in #2 above will be considered for admission.

Major in Health Education
Students choosing to major in health education must complete: all university general education requirements for the B.A. or B.S. degree, all core health education requirements, and all courses from one of the two emphasis areas listed below. Students selecting the school health emphasis should complete coursework toward a teaching minor or second teaching major. In addition, students wishing to teach must also complete all College of Education course requirements.

The following courses are required in addition to the University's general education requirements for the B.A. or B.S. degree:

<table>

Addition Studies Option
- H E 232 Helping Theories | 3 cr |
- H E 311 Case Management of Substance Abuse | 3 cr |
- H E 312 Ethics for the Addictions Counselor | 2 cr |
- H E 420 Health Planning, Presentation, and Evaluation | 3 cr |
- H E 473 Health Program Marketing | 2 cr |
- H E 490 Practicum in Health Education | 8, 12, or 16 cr |
- Addiction Studies Total: 21-29 cr

Community/Worksite Health Emphasis
- H E 473 Marketing for Health Care | 2 cr |
- H E 420 Medical Terminology | 2 cr |
- H E 490 Practicum in Health Education | 8, 12, or 16 cr |
- Community/Worksite Emphasis Total: 15-23 cr

School Health Emphasis
- EDUC 496 Secondary Education | 7-14 cr |
- H E 430 Curriculum and Methods in Health Education | 3 cr |
- H E Electives | 4 cr |
- School Health Emphasis Total: 14-21 cr

TOTAL CREDITS FOR HEALTH EDUCATION DEGREE | 42-51 cr

In Addition:
Credits earned in a health education course with a grade of lower than a “C” will not be counted toward graduation for a health education major. The student must present a current first aid and CPR card to her/his advisor. The student must choose any two of the three courses from the following H E 201 listings: Trust and Self-Esteem, Stress and Emotional Health, Consumer Health.

Health Education Minor
Prerequisite: Admission to Teacher Education Program

Required Courses:
- H E 200 Promoting Wellness | 2 cr |
- H E 201 Selected Topics in Health Education: Trust and Self Esteem | 1 cr |
- H E 201 Selected Topics in Health Education: Stress and Emotional Health | 1 cr |
- H E 340 Fitness and Wellness Programs | 3 cr |
- H E 340L Fitness and Wellness Programs Lab | 0 cr |
- H E 430 Curriculum and Methods in Health Education | 3 cr |
- H E g442 Environmental Health and Health Education | 2 cr |
- H E g443 Substance Abuse and Health Education | 2 cr |

Health Education Courses

- **H E 100 Driver Training and Traffic Safety 1 credit.** Basic instruction and procedures in the operation of motor vehicles, defensive driving, and general traffic safety. Classroom, driving simulation, and range and road experience. D
- **H E 160 Rape Aggression Defense 1 credit.** Strategies for self-defense in physically threatening situations. Methods to enhance possibilities for avoidance of physical harm are also covered. Cross-listed as P E and W S 160. F, S
- **H E 190 Alcohol and Drug Awareness 1 1 credit.** Essential elements of identification and recognition of behaviors relating to substance abuse; discussion of laws pertaining to illegal substance use; costs and programs that deal primarily with the intervention and treatment of drug and alcohol abuse. F, S
- **H E 200 Promoting Wellness 3 credits.** A survey of the issues and topics that most affect health and wellness. Particular emphasis is placed on the intelligent self-direction of health behaviors. Topics address individual health assessments and decision-making skills. F, S
- **H E 201 Selected Topics in Health Education 1 credit.** Topical courses emphasizing the effects of individual lifestyle choices on health. Topics include: stress and emotional health; consumer health; trust and self-esteem. May be repeated for up to 3 credits. F, S
- **H E 202 Computer Applications in Health 1 credit.** A study of the use of word processing, database management, and spreadsheet programs as they apply to health education. Various health education software programs are also explored. F, S, Su
- **H E 210 Medical Terminology and Communication 2 credits.** Terminology and vocabulary basic to all areas of medical science, hospital services, and allied health specialties. Develops skills in correct written and oral usage of medical terms. Cross-listed as HCA 210. F, S
- **H E 221 Introduction to Health Education 1 credit.** Study of aims, objectives, current practices, similarities and differences in health education in various settings. F, S
- **H E 221 Introduction to Health Education 3 credits.** Concepts essential to understanding the discipline: competencies, ethics, health education theories and philosophies, and career opportunities for professional health educators in school and community settings. F, S
- **H E 230 Introduction to Addictions 3 credits.** Four primary aspects of addiction: the physiology of drugs of abuse and chemical addiction, the assessment and diagnosis of chemical dependency, the treatment of addictive disorders, and topics focused on special populations. PREREQ: Admission to Health and Nutrition Science or permission of instructor. S
- **H E 232 Helping Theories 3 credits.** Provides an introduction to the essential components and techniques of addiction counseling. Students will learn the basic facilitation model, group techniques, counseling theories, issues faced by beginning counselors, and characteristics of the effective counselor. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Su
- **H E 233 Harmful and Illicit Substances 3 credits.** This course is designed to introduce students to drug classification systems and specific drugs within each classification. The psychological and physical effects, signs and symptoms of use, abuse, dependency, overdose, and withdrawal. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Su
- **H E 234 Blood Borne Illness 1 credit.** Provides a basic understanding of blood borne pathogens/infectious diseases within an addictions framework. Promotes competence and ethical responsibility in assessing client needs in regard to blood borne pathogens/infectious diseases. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Se
- **H E 270 Peer Education in Health 2 credits.** Covers methods and techniques of presenting health information to college students. Interview required with instructor prior to enrolling. May be repeated to 4 credits. PREREQ: Approval of instructor. F, S
- **H E 287 Healthful Cooking 2 credits.** Nutritional components of food, food preparation techniques, and recipe selection and development, all from a health perspective. Emphasis on food products that are both healthful and flavorful. PREREQ: NTD 139 or NTD 239. S
- **H E 290 Alcohol and Drug Awareness II 1 credit.** Case studies of active drug users and recovering addicts; in-depth discussion of the family dynamics of drug/alcohol abusers; medical aspects of chemical dependency. PREREQ: H E 190. F, S
- **H E 310 Screening and Assessment of Substance Abuse 3 credits.** Provides a basic understanding of appraisal techniques within an addictions framework. Promotes competency and ethical responsibility in assessing clients. Enhances the ability to assess client’s needs based on clinical knowledge and instrumentation. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Se
- **H E 311 Case Management of Substance Abuse 3 credits.** Provides a basic understanding of case management philosophy and basic case management skills within an addictions framework. Promotes competency and ethical responsibilities. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Se
- **H E 312 Ethics for the Addictions Counselor 2 credits.** Provides information regarding ethical and legal issues in the field of chemical dependency counseling. Topics include values and helping relationships, client’s rights and counselor responsibilities. PREREQ: Admission to Health and Nutrition Science or permission of instructor. Se
to Health and Nutrition Science or permission of instructor. 

H E 313 Practicum for the Chemical Dependency Counselor 3 credits. Practical experience in a field based setting congruent with the core functions of a chemical dependency counselor including: assessment, counseling, groups, education, and professional responsibility. PREREQ: Completion of all other Addiction Studies courses. 

H E 332 Community and Public Health 2 credits. A basic study of the structure and function of community and public health with specific application to the educational setting. 

H E 340 Fitness and Wellness Programs 3 credits. A study of the theory, development, and application of components necessary for providing fitness and wellness programs in a variety of settings. 

H E 350 Driver and Traffic Safety Education 1-2 credits. Comprehensive study of factors basic to responsible driving. Practical application to improve driving skills and understanding of the organization, administration, and planning of a driver traffic safety education curriculum. 

H E 383 Epidemiology 3 credits. The study of the distribution, frequency and determinants of diseases and injuries in human populations with the overall goal of implementing prevention and control programs. 

H E 401 Issues in Health and Wellness 1 credit. Study of wellness issues emphasizing education interventions. Topics include: death and dying, internet health resources, aging, international health. May be repeated to 4 credits. PREREQ: Admission to Health and Nutrition Science or permission of instructor. 

H E 420 Health Planning, Presentation and Evaluation 3 credits. Provides both a theoretical framework for and skill development in organizing, planning, implementing, and evaluating community health interventions. Key topics include: planning models, assessing community needs, evaluation design, presentation strategies, and budgeting. 

H E 425 Patient Education Skills 2 credits. Explores the organizational and communication skills which promote a positive atmosphere for patient education in clinical and worksite settings. Semesters offered will vary. PREREQ: H E 340 and H E 460 or permission of instructor. 

H E 430 Curriculum and Methods in Health Education 3 credits. Curriculum planning, implementation, methodology, and evaluative procedures utilized in the school health education setting. Emphasis will be placed on the integration of content and practical experiences. 

H E 442 Environmental Health and Health Education 2 credits. Study of a variety of issues related to protecting and preserving the environment with an emphasis on school and community educational programs. PREREQ: Admission to Health Education program or permission of instructor. 

H E 443 Substance Abuse and Health Education 2 credits. Study of the physical, psychological, sociological, and environmental factors related to drug use with emphasis on school and community prevention programs. PREREQ: Admission to Health Education program or permission of instructor. 

H E 444 Human Diseases and Health Education 2 credits. Study of diseases that affect humans with an emphasis on school and community educational interventions to prevent disease. PREREQ: Admission to Health Education program or permission of instructor. 

H E 445 Human Sexuality and Health Education 2 credits. Study of the multifaceted nature of human sexuality with an emphasis on school and community-level educational programs. PREREQ: Admission to the Health Education program or permission of instructor. 

H E 446 Health Behavior Change Theory and Application 3 credits. Provides a basic understanding of the social, emotional, and lifestyle factors related to health behavior. Strategies designed to identify barriers to behavior and to enhance the health of selected populations are examined. 

H E 473 Health Program Marketing 2 credits. Current marketing trends in the health care marketplace. Consumer orientation; health care marketing plans, strategy development, basic public health and free-enterprise marketing principles. Strategies to promote social change and the importance of core human values of freedom, independence, autonomy, control, fairness, and democracy. 

H E 485 Independent Problems in Health Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific health education problems of interest to majors and minors. Permission of instructor. May be repeated up to 6 credits. 

H E 490 Practicum - Health Education 8, 12, or 16 credits. Practical experience in a field based setting, congruent with student’s employment goals. Required for community/worksite health option students. PREREQ: Senior standing in Health Education. Graded S/U. 

H E 491 Health Education Workshop 1-3 credits. A critical analysis of one or more areas of health education. Limited enrollment. PREREQ: Permission of instructor. 

H E 498 Professional Education Development 1-3 credits. A course for the practicing health educator aimed at the development and improvement of educational skills. Various sections will have different subtitles. Graded S/U. 

Bachelor of Science in Dietetics

Didactic Program in Dietetics (DPD)

The mission of the DPD program at Idaho State University is to provide courses for students to earn a Baccalaureate degree which prepares students to enter into, and to successfully complete an accredited dietetic internship.

The philosophy of the Idaho State University Dietetics Program has been, since its inception, to educate individuals through didactic training and practical experiences in the field of dietetics, and to develop visionary and competent individuals who will be able to understand and to solve complex problems encountered by the professional dietitian. Practical experiences are incorporated in both lecture and laboratory courses in medical nutrition therapy, foodservice systems management and community nutrition.

Prospective students should schedule a conference with the Program Director. The requirements of the program, curriculum, supervised practice experience, and registration examination are explained to prospective and current students in the program.

Completion of the required course work and attainment of a Bachelor of Science degree in Dietetics makes one eligible to apply for admission into a Dietetic Internship. The graduate must complete a dietetic internship prior to becoming eligible to take the National Registration Exam for Dietitians.

NOTE: Enrollment in the Idaho State University Didactic Program in Dietetics and/or fulfillment of specific requirements does not ensure admission into the Dietetic Internship Program.

Program Goals and Outcome Measures

The following goals and outcome measures were identified in the 2003 Program Assessment Report. These goals and outcome measures reflect the mission and philosophy of the ISU DPD program and are the basis for program evaluation and effectiveness.

1. Program Goal One: Prepare students to perform competently in a dietetics supervised practice program in preparation to be an entry-level dietitian.
**Outcome Measures**

a. 75% of graduates who apply, will be accepted to a supervised practice program.

b. 90% of graduates will pass the registration exam.

c. 90% of responding graduates will indicate a “satisfactory” response or better that the DPD program prepared them for their supervised practice experience and career as a Registered Dietitian (RD).

d. 75% of graduates who have finished their supervised practice experience and are seeking employment will be employed within 6 months of passing the RD exam.

e. 90% of graduates from this program will receive satisfactory ratings or higher on their knowledge and skill of dietetics from their employer or supervised practice program director.

**2. Program Goal Two:** Provide didactic and field experiences for students by continuing cooperative relationships with community, clinical and foodservice management dietitians, other health care professionals and administrators in order to prepare graduates to work in the current health-care environment and in industry.

**Outcome Measures**

a. Maintain a wide variety of experiential sites for foodservice, community and clinical dietetics.

b. 90% of responding graduates will indicate “satisfactory” or better that the DPD program prepared them for their supervised practice experience and career as a dietitian.

c. 90% of graduates from this program will receive “satisfactory” ratings or higher from their employer or supervised practice program director.

d. 1/3 of Dietetic Advisory Committee (DAC) members will consist of external constituents.

e. 10% of graduates will achieve advanced level practice or have a leadership role in a professional organization within 5 years of graduation.

**3. Program Goal Three:** Provide recruitment and guidance counseling for high school and college students who are interested in the profession of dietetics, as well as retain and mentor excellent students who are in the program.

**Outcome Measures**

a. 90% of students who enter the DPD will complete it.

b. 75% of all dietetics majors will obtain advising once per year.

c. 90% of responding graduates will indicate “satisfactory” or better score with respect to encouragement, respect, motivation, advising and support provided by the program faculty and preceptors.

**Admission Requirements:**

1. Accumulative GPA of 3.0 or above on a 4.0 scale.

2. Completion of required courses listed under pre-dietetics with no course grade lower than a C in any of the following classes: CHEM 101, 102, 103; BIOL 101, 221, 223, 301, 302; ENG 101, 102; and NTD 104, 204, 239.

3. Completion of ISU general education requirements is strongly suggested prior to applying and must be completed before graduation.

Students may apply to the professional component of the Didactic Program in Dietetics (DPD) only in the spring semester once requirements are met. Appointments are awarded to begin the following fall semester. Requirements for the DPD include:

- A completed DPD application form.
- Completion of required courses listed above; completion of several of the ISU General Education requirements including basic sciences and English, along with pre-requisite food and nutrition courses.

**Application Process:**

Students may only apply to the professional component of the DPD in the spring semester once requirements are met. Applicants must complete the DPD application, write a letter of application, and include an application fee of $20. In addition, transcripts of all colleges and universities attended other than ISU must be submitted unless required classes taken at other colleges or universities are already listed on the student’s ISU transcript. Applications will not be reviewed until all application materials have been received. The application deadline is February 15th.

Application should include the following:

1. A completed DPD application form.

2. Official sealed transcripts from all colleges and universities other than ISU (see conditions above).

3. A typed letter of application stating reasons for selected dietetics as a career and professional goals.

5. Put all materials together in one large envelope and send to the address below.

**NOTE:** Students accepted into the dietetics program must start the hepatitis B series shots and TB screening. This can be done by the Student Health Center, a private physician, or a clinic. Students under 35 must submit proof of updated and acceptable MMR vaccines (Measles, Mumps, and Rubella.)

Applications should be sent to:

Dietetic Internship (DI) Program

The mission of the ISU Dietetic Internship Program is to provide a supervised postgraduate practical experience that exceeds the performance requirements of the Commission on Accreditation for Dietetics Education (CADE), which prepares interns for successful completion of the registration exam and entry-level practice.

The DI Program provides for supervised experience in clinical, community, and administrative dietetics leading to a certificate of completion. Graduates of the Dietetic Internship Program will be eligible to take the National Registration Exam for Dietitians.

Program Eligibility and Admission:
1. Candidates must have a Bachelor of Science degree in Dietetics, Family and Consumer Sciences (Home Economics), or Food and Nutrition and have completed Didactic Program in Dietetics requirements as established by The Commission on Dietetic Registration (CADE) of the American Dietetic Association, 120 S. Riverside Plaza, Suite 2000, Chicago, Illinois, 60606-6995. Phone: 800-877-1600.
2. A minimum grade point average of 3.00 is required for admission.
3. Fifteen (15) students, seven (7) in Pocatello and eight (8) in Boise, will be admitted to the program with the April computer match, with a start date in August.

NOTE: Enrollment in the Idaho State University Didactic Program in Dietetics and/or fulfillment of specific requirements does not ensure admission into the Dietetic Internship Program.

New students are admitted to the Dietetic Internship Program for the fall semester. Candidates should submit all application materials no later than February 15th for admission the following fall semester. Application packets can be obtained from the Department of Health and Nutrition Sciences at (208) 282-2729. A $50 non-refundable fee will be charged for processing applications.

Program Goals and Outcomes
1. Program Goal #1: Prepare interns to become professionally competent registered dietitians through a comprehensive supervised practice experience.

Outcome measures:
- Ninety percent of interns will complete the program.
- Ninety percent of interns who complete the program will take the exam within 1 year of completion.
- Ninety percent of interns who take the RD exam will pass on the first time.
- Mean registration exam scores will be greater than or equal to the national average.
- Ninety percent of working RD’s will be satisfied that the DI program adequately prepared them for careers in dietetics.
- Ninety percent of RD’s will receive satisfactory ratings from employers.
- Interns will rate the session on CDR Professional Development Portfolio as useful or higher than or equal to 80%.
- Ten percent of the alumni will seek graduate degrees, obtain specialty certification or have a leadership role in a professional organization.

Program Overview

Internship Components: Community dietetics, clinical dietetics, and food service management are all major areas of emphasis. Interns rotate through various sites including: medical centers, university food services, long-term care facilities, local health departments, local school district, a diabetes center, nephrology center, and out-patient clinics.

Number of Positions: There are fifteen (15) internship positions - Eight (8) interns in Boise, and seven (7) interns in Pocatello.

Selection Process: Applicants are primarily ranked according to their grade point average (minimum 3.0), work experience and references. Finalists will go through a 15-20 minute interview.

Internship Length: The length of the internship is two academic semesters: Fall (August through mid-December) and Spring (mid-January through mid-May).

Weekly Time Requirement: Approximately 40 hours-per-week are spent in seminars and rotations. An additional 20 hours-per-week are usually required for preparation and completing assignments. Interns work in facilities Tuesday through Friday, and Monday is spent in seminar. Travel time has not been included, but some rotations are 20-50 miles away.

Housing
Dietetic Internship students may choose to live in University housing or in a variety of off-campus sites. In Boise, no university housing is available.

Transportation
Each student should have his or her own car or, at least, access to one. Some rotation sites are up to fifty miles away (e.g. Pocatello to Idaho Falls).

Liability for safety in travel to and from assigned rotation sites will rest on the individual dietetic intern. In no way does the Department of Health and Nutrition Sciences or Idaho State University assume liability for interns for safety in travel to and from assigned rotation sites.

Nutrition and Dietetics Courses

NTD 104 Foods 3 credits. Fundamental processes underlying food preparation with emphasis on the chemical and physical properties of foods. Lecture and laboratory. F

NTD 139 Consumer Nutrition 3 credits. Introduction to nutrition, relationships among food choices, levels of nutrition, health of the individual and family. Experiences in dietary analysis, label and advertising critiques, and discussions of current trends. Designed for non-science majors. F, S

NTD 204 Meal Management 2 credits. Management of money, time, and energy for the selection, preparation, and service of nutritious meals to fit current lifestyles. Lecture and laboratory. PREREQ: NTD 104. S

NTD 239 Nutrition 3 credits. Descriptive survey of nutrients required by the human body and the health consequences of nutrition practices. Study of food sources and proper dietary selection needed to fulfill human needs. PREREQ: CHEM 101; CHEM 102 recommended. F, S

NTD 300 Medical Nutrition Therapy I 3 credits. Medical nutrition therapy for the prevention and treatment of diseases including obesity, eating disorders, diseases of the liver and gastrointestinal tract, cardiovascular disease and diabetes mellitus. PREREQ: Acceptance into Didactic Program in Dietetics. COREQ: NTD 300L. F

NTD 300L Medical Nutrition Therapy I Lab 2 credits (6 contact hours). Introduction to the profession of dietetics and medical nutrition therapy. Development of nutrition assessment skills, care plans and modified diet writing. PREREQ: NTD 239, BIOL 301, and BIOL 302. COREQ: NTD 300. F

NTD 301 Medical Nutrition Therapy II 3 credits. Medical nutrition therapy in treatment of neurological and metabolic disorders, enteral and parenteral nutrition, HIV/AIDS, renal, pulmonary, neoplastic diseases, food allergies and intolerance. PREREQ: NTD 300 and NTD 300L. COREQ: NTD 301. S

NTD 301L Medical Nutrition Therapy II Lab 2 credits. Medical nutrition therapy in treatment of neurological and metabolic disorders, enteral and parenteral nutrition, HIV/AIDS, renal, pulmonary, neoplastic diseases, food allergies and intolerance. PREREQ: NTD 300 and NTD 300L. COREQ: NTD 301L. S

NTD 312 Quantity Foods 2 credits. Principles and procedures for preparation of quantity food. Experiences in food production facilities with coordination of management principles through cost control, supervision, and food production. Two hours lecture. PREREQ: NTD 104 and NTD 204. COREQ: NTD 312L. F

NTD 312L Quantity Foods Laboratory 1 credit. Practical application of food production methods in various facilities. COREQ: NTD 312. F

NTD 340 Nutrition for Health Professionals 3 credits. Nutrition through the lifecycle, function of nutrients in the body, medical nutrition therapy in the treatment and prevention of diseases. COREQ: BIOL 301. F, S

NTD 360 Nutrition Through the Lifecycle 3 credits. Nutrition in pregnancy, lactation, infancy, childhood, adolescence, adulthood and senior adulthood. Physiological changes during the lifecycle and changing nutrient needs. PREREQ: NTD 239. F

NTD 407 Principles of Community Nutrition 3 credits. Introduction to nutritional programming and education in community and public health settings. Emphasis on principles of needs assessments, program planning, implementation and evaluation. Discussion of national nutrition status, food insecurity and identification those at highest risk. PREREQ: NTD 360, or NTD 239 and permission of instructor. F

NTD 408 Applications in Community Nutrition 3 credits. Application of nutritional programming and education in community and public health settings. Emphasis on conducting needs assessments, program planning, implementation and evaluation, nutrition presentations and nutrition counseling skills development. PREREQ: NTD 407. S

NTD g409 Professional Readings 1-3 credits. Identification and investigation of conceptual ideas about the relationship of programs, trends, legislation, and developments in food and nutrition. PREREQ: Permission of instructor. D

NTD 410 Foodservice Systems Management 3 credits. Principles and concepts of foodservice management planning, organization, and controls. Development of skills through projects in foodservice facilities. PREREQ: NTD 312 and NTD 312L. COREQ: NTD 410L. S

NTD 410L Foodservice Systems Management Laboratory 2 credits. Practical application of foodservice management skills in various facilities. COREQ: NTD 410. S

NTD g439 Sports Nutrition 3 credits. Nutrition recommendations for competitive and recreational athletic performance. Rationale for nutrition practices through an examination of individual nutrient metabolism. Controversies and misinformation addressed. PREREQ: NTD 239. F

NTD g457 Experimental Foods 3 credits. Development of experimental methods and their application to cookery and food technology; preparation of student for independent investigation in foods; acquaintance with literature in the field. Two hours lecture/four hours laboratory. PREREQ: Junior standing and NTD 104. F

NTD g461 Nutritional Biochemistry I 3 credits. Advanced study of nutrition science, including protein, carbohydrate, lipid, vitamin, and mineral metabolism. Introduction to research methodology and professional literature. PREREQ: NTD 239, CHEM 101, CHEM 102, and CHEM 103 or higher levels of chemistry including inorganic, organic, and biochemistry. F

NTD 470 Dietetics Senior Seminar 2 credits. Current issues in food and nutrition. Discussion of research and application to practice. PREREQ: Senior in Dietetics. S

NTD g481 Special Problems in Nutrition and Dietetics 1-2 credits. Students select problems on the basis of special needs, interests, or abilities and work on them independently in the laboratory, library, or community, with regular conferences with the advisor. PREREQ: Permission of instructor. D

NTD g485 Nutritional Biochemistry II 3 credits. Human metabolism in health and disease. Emphasizes interrelationships among hormones, carbohydrates, proteins, lipids, vitamins and minerals within tissues and organs. PREREQ: NTD g461 or permission of instructor. S

NTD 488 Internship in Dietetics I 15 credits. Supervised field experience at regional health care facilities, food service establishments, and community programs. PREREQ: Admission into Dietetic Internship program. Graded S/U. F, S

NTD 489 Internship in Dietetics II 15 credits. Continuation of NTD 488 with supervised field experience at regional health care facilities and food service establishments and community programs. Emphasis on entry level skills in clinical, community, and administrative dietetics. PREREQ: NTD 488. Graded S/U. F, S

NTD 492 Special Problems in Nutrition and Dietetics 1-2 credits. Students select problems on the basis of special needs, interests, or abilities and work on them independently in the laboratory, library, or community, with regular conferences with the advisor. PREREQ: Permission of instructor. D

Required Courses*

NTD 488 Internship in Dietetics I 15 cr
NTD 489 Internship in Dietetics II 15 cr

* A $1000 course fee will be applied in addition to tuition for each NTD 488 and NTD 489.

Department of Health Care Administration

Chair and Associate Professor: Cellucci
Program Director and Professor: Wiggins
Associate Professor: Discenza
Adjunct Faculty: Farnsworth, Hall, Hermanson, Jardine, Lovelace, Swanson, Weeg, Wilker, Wright

Mission

The Department of Health Care Administration provides quality education and lifelong learning opportunities to current and future healthcare leaders in Idaho. We
support Idaho State University’s Mission as the center for education of health professionals in the State of Idaho by maximizing value to our students and stakeholders, and to our state, in the enhancement of the knowledge and ability of healthcare professionals to lead their organizations, to serve their communities and, in turn, to improve the health status of their communities.

**Learning Goals**

The Department of Health Care Administration delivers state-of-the-art education to traditional and nontraditional students using a theoretical and programmatic approach. We address emerging industry needs using innovative instructional methods to deliver valid competencies and educational outcomes based on industry’s and our constituency’s needs.

Specifically, we:

- prepare individuals for entry or mid-level management positions in group practice, ambulatory care, long-term care, hospitals, managed care organizations, and other health-related organizations.
- develop administrative, technical, problem-solving, conceptual, and human relations knowledge and skills that provide the foundation for future healthcare administrators and leaders.
- use industry competency models and current evidence on teaching and learning to provide students the best quality education possible.
- foster practical educational experiences and promote interaction among students, alumni, and mentors in area and regional health organizations.
- work with each student in the program to ensure proper placement and professional development in administrative internships and initial positions assuring an appropriate match between the individual and the healthcare organization.

Health care facilities constitute some of the most complex institutions in our society. These facilities and the scope of their services are becoming more responsive to the community they serve. The health care administrator is at the forefront of these activities and is in demand in a number of organizations, including hospitals, extended-care facilities, group practices, insurance companies, state and federal health agencies, educational programs and research institutions. The purpose of the undergraduate program in health care administration at Idaho State University is to prepare students for the wide range of activities needed for administration of health care facilities and to provide service courses for students majoring in other health-related programs. Also, the program is designed to provide students with the basic requirements to pursue a graduate degree in the field. The curriculum leads to a Bachelor of Science degree in health care administration with a minor in business administration. Students may enroll in the program at the beginning of any semester and must meet requirements provided below.

### Bachelor of Science in Health Care Administration

Courses Which Fulfill Both General Education Goals and Major Requirements

**Goal 11**  
ECON 201 Principles of Macroeconomics 3 cr

**Goal 12**  
ANTH 100 General Anthropology 3 cr  
PSYC 101 Introduction to General Psychology I 3 cr  
SOC 101 Introduction to Sociology 3 cr

**Other Required Courses**  
ECON 202 Principles of Microeconomics 3 cr  
ECON 303 Health Economics 3 cr  
MATH 143 College Algebra 3 cr  
**TOTAL: 9 cr**

#### Business Core Requirements

ACCT 201 Principles of Accounting I 3 cr  
ACCT 202 Principles of Accounting II 3 cr  
BA 311 Professional Development Seminar II 1 cr  
CIS 301 Information Systems and Problem Solving 2 cr  
FIN 315 Corporate Financial Management 3 cr  
MG 217 Business Statistics I 3 cr  
MG 217 Business Statistics II 3 cr  
MG 313 Individual and Organization Behavior 3 cr  
MG 320 Operations/Production Management 3 cr  
MKTG 325 Basic Marketing Management 3 cr

**Health Care Administration Core Requirements**

HCA 115 U.S. Health System 3 cr  
HCA 120 Health and Society 2 cr  
HCA 215 Healthcare Leadership 3 cr  
HCA 230 Insurance and Reimbursement 3 cr  
HCA 330 Health Information Systems 3 cr  
HCA 340 Healthcare Policy 2 cr  
HCA 375 Health Law and Bioethics 3 cr  
HCA 384 Human Resource Management in Health Care Organizations 3 cr  
HCA 453 Healthcare Finance 3 cr  
HCA 455 Health Organization Management and Strategy 3 cr  
HCA 460 Operations and Quality 3 cr  
HCA 473 Marketing for Health Care Organizations 3 cr  
HCA 495 Administrative Internship 4 cr

**Plus 2 credits from the following courses:**

HCA 352 Long Term Care Management 2 cr  
HCA 353 Physician Practice and Ambulatory Care Management 2 cr  
HCA 354 Health Management Communication 2 cr  
**TOTAL: 66 cr**

#### Elective courses

The student is required to select 58 semester hours of goal and elective courses. Elective courses should be selected according to the student’s interests and career needs, in conjunction with a faculty advisor. No more than a total of 32 credit hours (required and elective) may be taken in the College of Business.

**Total required credits for Bachelor of Science in Health Care Administration:** 128.

### Admission and Program Graduation Requirements

Application forms for admission to the major in health care administration can be accessed on line or can be requested from the department office. Completed application forms and copies of transcripts of previous college work must be submitted to the department not before the end of the student’s first semester, sophomore year. Applications are considered by the department’s admission committee as they are received. Cumulative college or university grade point averages of 2.75 or higher are required for admittance as a major. The following courses are prerequisites for admission as health care administration major: ACCT 201, ECON 201, HCA 115, Goal 1, Goal 2, and MATH 143.

Students are required to earn a grade of C- or better in all business, HCA, and required courses. Students who receive a grade of D or below twice in the above required courses will not be admitted and if admitted will be dropped from the Bachelor of Science program. All such decisions will be reviewed by the department’s admission committee.

Students whose cumulative GPAs fall below 2.75 will be unable to continue in the program until the cumulative average is 2.75 or better.
Bachelor of Business Administration, with a Major in Health Care Information Systems Management

The Bachelor of Business Administration Degree in Health Care Information Systems Management is delivered in cooperation with the Idaho State University College of Business. The degree is designed to enable graduates to enter careers in information systems support in healthcare organizations. Upon graduation, students will receive a minor in Computer Information Systems in addition to the Health Care Information Systems Management Major. Information systems play an increasingly important role in the burgeoning health-care field. The Health Care Information Systems Management (HISM) degree is intended to develop the skills necessary to manage information systems in a health-care environment. Combining courses in healthcare administration, general business, and computer information systems, the HISM degree prepares students to work in hospitals, health clinics, and doctor’s offices, as well as other health-related organizations.

Required Courses:

CIS 120 Foundations of Computer Programming 3 cr
CIS 285 Introduction to Software and Systems Architecture 3 cr
CIS g403 Systems Analysis and Logical Design 3 cr
CIS g407 Database Design and Implementation 3 cr
CIS g411 Intermediate Information Assurance 3 cr
CIS g485 Network and Communications Systems 3 cr
MGT g482 Project Management 3 cr
HCA 115 U.S. Health System 3 cr
HCA 330 Health Information Systems 3 cr
HCA 460 Operations and Quality 3 cr
HCA 489 Health Care Information Systems Practicum 3 cr
TOTAL: 33 cr

Health Care Administration Courses

HCA 110 Introduction to the Allied Health Professions 2 credits. Introduction to the allied health professions with emphasis on interrelationships and the team approach to health care. F, S
HCA 115 U.S. Health System 3 credits. An introductory, comprehensive overview of the healthcare industry, health and disease, health professions, institutions, populations, and reimbursement, addressed from the three point perspective of history, terminology, and current issues. F
HCA 120 Health and Society 2 credits. The theoretical foundations of epidemiology, public health, and medical sociology are used to explore and understand the personal and societal impacts of disease. F
HCA 210 Medical Terminology and Communication 2 credits. Terminology and vocabulary basic to all areas of medical science, hospital services, and allied health specialties. Develops skills in correct written and oral usage of medical terms. Cross-listed as H E 210. F, S
HCA 215 Healthcare Leadership 3 credits. This course actively teaches the relational, operational, and analytical skills key to success in health management. S
HCA 230 Insurance and Reimbursement 2 credits. In-depth examination of insurance and reimbursement practiced in today’s healthcare industry; their history, current status, and future. Topics include fee-for-service, prospective and retrospective reimbursement, public and private insurance systems, and managed care. PREREQ: HCA 115. S
HCA 330 Health Information Systems 3 credits. An overview of information system methodologies and approaches in the administration and delivery of health services including data content and structure, quality, and legal issues related to collection, use, and the security of health information. PREREQ: HCA 115 and MGT 216. F
HCA 340 Healthcare Policy 2 credits. This course investigates the formulation of healthcare priorities, the development of legislation, the implementation of legislative provisions through administrative action, and the modification of health policy within the context of the provision of services. PREREQ: HCA 230. F
HCA 350 Organizational Behavior in Healthcare 3 credits. Study of individual and group behavior in HCOs. Topics include social responsibility and ethics; decision making; motivation; leadership; communication; power, politics and stress; organizational culture, change and development. S
HCA 352 Long-Term Care Management 2 credits. The management of nursing homes and other long term facilities. Includes supervisory policies, labor relations, human relations, gerontology and geriatrics, nutrition and housekeeping, patient care, reimbursement policies, purchasing, inventory, and financial analysis. F
HCA 353 Physician Practice and Ambulatory Care Management 2 credits. The fundamentals of group practice and ambulatory care management. Includes leadership, planning, marketing, IT, business operations, physician/hospital relationships, and basic principles of management applied to the out-patient setting. PREREQ: HCA 115, 120, 215, 230. D
HCA 354 Health Management Communication 2 credits. Advanced management communication skills for managers in health settings. This speaking and writing intensive course includes topics such as conflict management, negotiating, report writing, grant writing, and context specific presentation preparation and delivery. PREREQ: HCA 115, 120, 215, 230. D
HCA 375 Health Law and Bioethics 3 credits. This course develops a roadmap to facilitate risk management in the provision of healthcare services. Issues addressed include regulation and licensure, liability, selected aspects of public programs, and ethical issues regarding death, reproduction, and research. S
HCA 384 Human Resource Management in Healthcare Organizations 3 credits. Create and maintain a productive health workforce by understanding the science and practice of managing the employment relationship, including human resource planning, job analysis, recruitment, selection, development, performance planning, compensation, employee relations, and the legal environment. PREREQ: HCA 350 or MGT 312. F
HCA g450 Special Topics in Healthcare 1-3 credits. Topics relevant to health professionals. May be repeated for up to 9 credits with different titles or content. Graded S/U. D
HCA 453 Healthcare Finance 3 credits. The application of financial management principles, practices, and techniques used in healthcare organizations. An understanding and analysis of how these financial tools are used in decision making and how they are integrated into the healthcare organization’s planning process. PREREQ: ACCT 202 and FIN 315. S
HCA 455 Health Organization Management and Strategy 3 credits. The application of managerial concepts and practices to healthcare organizations. Compares and contrasts governance, strategy, structure, firm conduct, and performance across different sectors, levels, and types of health organizations. PREREQ: HCA 330, HCA 375, HCA 384 and MGT 312. F
HCA 460 Operations and Quality 3 credits. Course examines the manager’s role in improving healthcare quality and outcomes, including clinical and organizational improvement, technology assessment, and quality improvement practices. PREREQ: All HCA 300 level courses and MGT 329, or permission of instructor. S
HCA g473 Marketing for Healthcare Organizations 3 credits. Current marketing trends in the health care marketplace. Consumer orientation; health care marketing plans and strategy development. PREREQ: MKTG 325. S
HCA 481 Independent Problems in Health Services Administration 1-3 credits. Student selects an area of special interest through
Department of Physical and Occupational Therapy

Chair and Professor: Urfer
OT Program Director: Eakman
Associate Professors: Creelman, Devine
Assistant Professors: Dye, Helgeson
Clinical Assistant Professors: Gee, Jackman, Leight, Seiger, Thompson
Adjunct Faculty: Anderson, Hurley, Meldrum, Rodnick, Owens, Seargent, Sutherin

The Department of Physical and Occupational Therapy offers the Doctor of Physical Therapy (DPT) and the Master of Occupational Therapy graduate degrees for those students wanting to enter the professions of occupational or physical therapy. The programs are three years in length and degrees are granted after successful completion of all academic and clinical requirements. Both graduate degree programs are accredited.

The Physical Therapy Graduate Program is accredited by the Commission on Accreditation of Physical Therapy Education. The Occupational Therapy Graduate Program is accredited by the Accreditation Council for Occupational Therapy Education.

A 3.00 overall GPA for all prerequisite coursework and a 3.0 GPA in each science area is required for consideration for admission into either program. Applicants must additionally meet all requirements for admission to the Graduate School. In addition to specific course prerequisites, applicants will have to provide evidence of having worked in a physical therapy or an occupational therapy setting as an aide or volunteer.

Undergraduate students preparing for physical or occupational therapy should choose a major which is of interest to them and which will assist in completion of prerequisite coursework. Baccalaureate students will have advisors in their major department, but should also seek additional health professions advising through the Department of Biological Sciences. Students who have completed a baccalaureate degree and who are completing prerequisites for physical or occupational therapy should call the Department of Physical and Occupational Therapy for appropriate advising. For further information on physical therapy or occupational therapy entrance requirements and program description, refer to the Graduate Catalog.

Pre-Physical Therapy Preparation

Preparation should consist of a strong background in natural and social sciences. Any undergraduate major is acceptable.

- **BIOLOGY (3 courses).** Botany courses will NOT be accepted.
  1 & 2. Anatomy and Physiology each with laboratory (vertebrate or human). 2 semesters or 2-3 quarters. This course must have been completed within the last 7 years. Human anatomy and physiology courses MUST be listed in Biology, Zoology, Anatomy or Physiology Departments for fulfillment of this requirement.
  
  Note: All biology prerequisites including advanced biology MUST be listed in Biology or Zoology Departments.

- **CHEMISTRY (2 courses).**
  1 & 2. Introductory Chemistry with laboratory. Must be courses for science majors. 2 semesters or 2-3 quarters. A more recently completed chemistry course at upper division or graduate level with laboratory may also meet this requirement.

- **PHYSICS (2 courses).**
  1 & 2. Introductory Physics with laboratory. Must be courses for science majors. 2 semesters or 2-3 quarters. A more recently completed physics course at upper division or graduate level with laboratory may also meet this requirement.

- **MATHEMATICS (1 course).**
  1. Statistics - 3 or more units. Research methods or tests & measurements courses will NOT meet this requirement.

- **PSYCHOLOGY and SOCIOLOGY or ANTHROPOLOGY or HEALTH SCIENCE (5 courses).**
  1. Introductory Psychology. More recent upper division psychology courses may be accepted.
  2. Sociology or Anthropology or Health Science or Psychology (1 course). This course must be relevant to health care, rural societies, cultural diversity, aging, health care administration, abnormal psychology or epidemiology. Marriage/Family, religion or history courses will NOT meet this requirement.
  3. Course in Human Development or Motor Development Learning (2-3 credits).
  4. Course in Exercise Physiology (2-3 credits)

**Computer Competence and Technical Writing**

Applicants must be competent in working with computers and be able to use word processing and spreadsheet software prior to entry into the program. A course in technical writing is recommended.

Pre-Occupational Therapy Preparation

Occupational Therapy is a profession that uses occupation to promote well-being and health among people of all ages and abilities. Occupations are goal directed, meaningful pursuits that occupy a person’s time each day. Occupations include work and productive activities, self-care or care of others, and leisure/recreational activities.

Occupational therapists adapt the environment, tasks, or techniques to meet individual needs while helping each client develop new skills necessary to function productively. Occupational therapists view every aspect of a client’s life as important to his/her health. Occupational therapy seeks
to improve the quality of life for individuals who are at risk for physical, cognitive, mental or psychosocial impairments.

Demand for occupational therapy will increase to address the needs of a growing population of aging adults, children with developmental disabilities and those who struggle with traumatic injuries and illness. When one experiences physical or mental illness or injury, it is the job of the occupational therapist to help the individual return to work, family roles and satisfying life.

The curative nature of occupational therapy is extremely broad and requires individuals with an interest in the complexity of humanity and occupations. One also needs an ability to think critically and creatively and be able to address occupational performance problems resulting from disease, trauma and mental illness. To be prepared, a student must enter the profession with a foundation in the liberal arts in addition to biological, physical, and social sciences.

Admission into the Occupational Therapy Program

Students may be admitted into the Master of Occupational Therapy (MOT) program through the normal graduate school admissions procedure by satisfactorily completing the prescribed prerequisite courses. Students may also have the option of early pre-professional entry into the program through the established guidelines of the Bachelor of University Studies (BUS) degree program. The BUS is an interdisciplinary degree designed for students whose career and educational goals are not met by traditional degrees offered at Idaho State University.

During the first three years, the student develops a course of study that will meet his/her interests, university degree requirements, and Occupational Therapy Program admission requirements. The student may apply to the BUS program during their junior year. The student completes the pre-professional year for occupational therapy during their senior year. With successful completion of the first professional year in the OT program, the student will receive a Bachelor of University Studies and continue directly into the MOT program over the next two years.

The combination of the BUS and Master of Occupational Therapy (MOT) Program creates a seamless entry into the occupational therapy profession, ensuring that all prerequisites in social, physical and biological sciences are completed in a timely manner. For further information on the BUS and the occupational therapy program, contact the Department of Physical and Occupational Therapy at (208) 282-4095.

Prerequisites

- **SOCIAL BEHAVIORAL SCIENCE** (4 courses, 3 credits each)
  - Human Development - 1 semester
  - Sociology - 1 semester
  - Abnormal Psychology - 1 semester
- **BIOLOGY** (2 courses, 4 credits each)
  - 1 & 2. Anatomy and Physiology, each with laboratory (vertebrate or human).
  - 2 semesters or 2-3 quarters. This course must have been completed within the last 7 years. Human anatomy and physiology courses MUST be listed in Biology, Zoology, Anatomy or Physiology Departments for fulfillment of this requirement.
- **CHEMISTRY** (1 course, 4 credits)
  - 1. Introductory Chemistry with laboratory. Must be a course for science majors. 1 semester. A more advanced chemistry course at upper division or graduate level with laboratory may also meet this requirement.
- **MATHEMATICS** (1 course)
  - 1. Statistics - 3 or more units. Research methods or tests & measurements courses will NOT meet this requirement.
- **ENGLISH/COMMUNICATION** (2 courses)
  - 1. Composition - 3 credits
  - 2. Speech Communication - 2 or 3 credits
  - 3. Technical Writing (not required, but highly recommended) - 3 credits
- **OTHER REQUIRED COURSES**
  - At least 5 courses from this category are required, 3 credits each, chosen from:
    - economics
    - history
    - education
    - humanities
    - ethics
    - literature
    - fine arts
    - philosophy
    - foreign language
- **HIGHLY RECOMMENDED:**
  - Introductory Physics with Laboratory

Computer Competence

Applicants must be competent in working with computers and be able to use word processing and spreadsheet software prior to entry into the program.

Physical and Occupational Therapy Courses

PTOT g401 Clinical Kinesiology and Biomechanics 4 credits. Analysis of normal and pathological human movement in joints, posture, gait, and the vertebral column. Application of movements to therapeutic interventions is emphasized. PREREQ: BIOL g474. F

PTOT g402 Clinical Neuroscience 5 credits. Study of structure and function of the human nervous system or the cellular and systemic levels. Specific application to clinical management of neurological problems and pathology. PREREQ: BIOL g474 and BIOL g486. S

PTOT g412 Professional Communication 2 credits. Introduction to standard forms of professional communication in physical and occupational therapy and among other health care professions. Medical record-keeping and interdisciplinary communication are emphasized. F

PTOT g413 Occupational Therapy Profession 3 credits. Historical overview of occupational therapy in health care, education and psychosocial settings. Occupational therapy process, rural human service delivery system, professionalism, ethics, and legal issues will be examined. F

PTOT g421 Self-exploration in Occupation 3 credits. Focus on self-exploration in occupation and purposeful activity. Self-evaluation in occupational performance areas, components, and context. The student will complete a self-development plan in occupation. Su

PTOT g422 Occupational Performance 3 credits. Person/occupation/environment interactions are examined from the perspective of multiple theories and models that analyze typical occupations and address performance dysfunctions. PREREQ: PTOT g413 and PTOT g421. COREQ: PTOT g442. S

PTOT g442 Occupational Performance Laboratory 1 credit. Introduction to and practice using occupation focused evaluation tools and methodologies used in analyzing, evaluating, and categorizing occupational performance. COREQ: PTOT g422. S
Department of Physician Assistant Studies

Chair and Program Director: Schroeder
Medical Director: D’Souza
Associate Professor: Phelps
Assistant Professors: Whitaker
Clinical Assistant Professors: Bunnage, Dickey, Hachey, Martin, Papa
Clinical Instructors: Miles, Talford

Program
The Physician Assistant (PA) Program at Idaho State University awards the Master of Physician Assistant Studies (MPAS) degree and a PA certificate upon successful completion of its 24-month graduate curriculum. A new class of students is enrolled each fall semester. In addition to a baccalaureate degree, students must have a cumulative GPA of 3.0 or higher for the following required prerequisite courses: Anatomy, Physiology, Statistics and Abnormal Psychology. For information about requirements and courses, please refer to the Graduate Catalog.

Accreditation
The program is fully accredited by the Accreditation Review Commission on the Education of Physician Assistants, Inc. (ARC-PA). Graduates of this program are eligible to take the NCCPA’s Physician Assistant National Certifying Exam (PANCE).

Undergraduate Course
PAS g489 Independent Problems in Physician Assistant Studies 1-3 credits.
Explore the field of Physician Assistant through experiential learning predominantly by participating in research with PA program faculty. May be repeated for up to 3 credits. PREREQ: Approval of PA Director. F, S

Department of Radiographic Science

Chair and Associate Professor: Francis
Associate Professor: Hobbs
Assistant Professor: Mickelsen
Clinical Affiliate Faculty: Bird, Eng, Pristupa, Smith, Struhs, Wells

Accreditation
Idaho State University is fully accredited by the Northwest Association of Schools and Colleges.

Overview
The Radiographic Science Program is designed to facilitate the development of professional radiologic technologists who have acquired the technical skills and knowledge necessary to fulfill the needs required in the medical imaging setting. The radiologic technologist plays a vital role in the health care team. Due to the rapid growth of technology in the health care setting, there is an increased demand for qualified personnel.

Vision/Mission
In keeping with the mission of Idaho State University as the lead institution in health sciences education in the state of Idaho, the Radiographic Science Program educates radiographers for today and tomorrow through baccalaureate education. This educational emphasis prepares students to meet the demands in an ever-evolving healthcare industry.

This is accomplished by:
- Academics—the faculty and staff are dedicated to pursing excellence in all academic endeavors.
- Technology—to provide application of new technology in a profession that is predisposed to change while maintaining traditional values and emphasizing the needs of the patient.
- Access—to help meet the statewide and regional needs by providing access to quality education to prospective students located in Idaho and beyond.
- Community—to help meet the needs of the community in the health care setting by providing competent, qualified technologists who are eligible upon graduation to sit for the national certification examination in radiography sponsored by the American Registry of Radiologic Technologists (ARRT).

Admission Procedures
Admission to the Radiographic Science Program is competitive. Students will be evaluated using grades in pre-professional courses, and overall grade point average. A minimum grade point average of 2.25 is required. Procedures for admission to the program include:
1. Complete procedures for admission to the University.
2. Complete and return the radiographic science application form and $30 fee.
3. Complete the necessary prerequisite course work.
4. Submit transcripts of all college and/or university courses completed.

Application Deadline
The above admission procedures must be completed and submitted to the Department of Radiographic Science prior to February 15 of the year the student is seeking admission. The first professional year begins in the Fall semester.

Idaho State University Radiographic Science Program Policy for Transfer of Credit from Hospital-Based and Vocational-Technical Radiography Programs
The Idaho State University Radiographic Science Program will award up to 44 credits in radiography for programs completed at accredited hospital-based and/or accredited vocational-technical schools. To be eligible to receive credit, the student must:
1. be a currently registered radiographer (RT(R)).
2. have worked as a radiographer during the past three years (amount of time to remain proficient to be determined by evaluating committee).
3. submit evidence of experience and curriculum including:
   (a) certificate of successful completion of registry.
   (b) certified list of courses and descriptions of curriculum from accredited hospital-based and/or accredited vocational technical programs.
   (c) copies of all college transcripts.
   (d) certification of completion of continuing education courses. Proficiency examinations or regular enrollment will be required of students when evidence of proficiency is lacking or inadequate.
Certification
Graduates of the associate or bachelor degree program in radiographic science at Idaho State University are eligible to sit for the national certification examination sponsored by the American Registry of Radiologic Technologists (ARRT).

Degree Programs
The radiographic science program at Idaho State University offers both an associate and a bachelor’s degree option.

Bachelor of Science in Radiographic Science

The Bachelor of Science degree program in Radiographic Science is a four-year curriculum. During the first two years the student takes general education, basic science, and business courses at the University. During the two professional years the student studies and practices the clinical application of radiography at the University’s energized laboratory and at affiliated hospitals. The graduate is eligible to write the national examination for registration (ARRT). The full curriculum is listed below for both the Bachelor and Associate degrees.

PREPROFESSIONAL YEAR I

Associate of Applied Science in Radiographic Science

The Associate of Applied Science degree program is a three-year curriculum which consists of one pre-professional year, followed by two years in the program. The student studies and practices the clinical applications of radiography at the University’s energized laboratory and at affiliated hospitals. The graduate is eligible to write the national examination for registration (ARRT). The combined curriculum for the program’s two degrees is shown below.

Preprofessional Year I

Associate of Applied Science and Bachelor of Science

BIOL 101, 101L Biology I, and Lab (Goal 4) 4 cr
BIOL 301, 301L Anatomy and Physiology and Lab 4 cr
CIS 101 Introduction to Computer Systems 3 cr
ENGL 101 English Composition (Part of Goal 1) 3 cr
COMM 101 Principles of Speech (Goal 2) 3 cr
HCA 110 Introduction to the Allied Health Professions 2 cr
HCA 210 Medical Terminology and Communication 2 cr
MATH 143 College Algebra 3 cr
PHYS 100 Essentials of Physics (Goal 5) 4 cr
PSYC 101* Introduction to General Psychology (Goal 12) 3 cr
R S 105 Radiographic Science 1 cr

Total: 13 cr

Professional Year I

Bachelor of Science

ACCT 201 Principles of Accounting 3 cr
ACCT 350 Principles of Accounting in Health Care (Spring only) 3 cr
OR
HCA 375 Organizational Behavior in Health Care Law (Spring Only) 3 cr
HCA 384 Human Resource Management in Health Care Organizations (Fall Only) 3 cr
OR
MGT 473 Personnel Management 3 cr
ART 100* Survey of Art (Goal 6) 3 cr
CHEM 101* Introduction to General Chemistry 3 cr
OR
CHEM 111 General Chemistry I 5 cr
ECON 201* Principles of Macroeconomics (Goal 11) 3 cr
ENGL 102 Critical Reading and Writing (Goal 1) 3 cr
HIST 112* U.S. History II (to Present) (Goal 9) 3 cr
MATH 253 Introduction to Statistics (Goal 3) 3 cr
PHIL 101* Introduction to Philosophy (Goal 8) 3 cr

Total: 33 or 35 cr

* These courses are suggested to fulfill university requirements; other courses may be substituted to satisfy University goal requirements.

PROFESSIONAL YEAR I

Fall Semester
R S 310 Radiographic Methods I 2 cr
R S 320/320L Radiographic Processing (with Lab) 2 cr
R S 325 Patient Care in Radiography 3 cr
R S 330 Radiographic Exposure (with Lab) 3 cr
R S 340 Laboratory Practicum I 1 cr
R S 389 Applied Radiography I 4 cr

Total: 15 cr

Spring Semester
R S 311 Radiographic Methods II 2 cr
R S 341 Laboratory Practicum II 1 cr
R S 375 Pediatric Radiography 1 cr
R S 388 Radiation Protection 1 cr
R S 390 Applied Radiography II 4 cr
BIOL 470 Sectional Anatomy 2 cr
PHYS 300 Medical Electronics 2 cr
PHYS 321 Radiologic Physics (with Lab) 2 cr

Total: 15 cr

PROFESSIONAL YEAR II

Summer Semester
R S 488 Applied Radiography III 5 cr

Fall Semester
R S 312 Radiographic Methods III 2 cr
R S 342 Laboratory Practicum III 1 cr
R S 420 Radiologic Facility Organization (B.S. degree only) 1 cr
R S 450 Alternate Imaging Modalities and Radiation Therapy 1 cr
R S 460 Introduction to Radiographic Quality Assurance 2 cr
R S 489 Applied Radiography IV 6 cr

Total: 13 cr

Spring Semester
BIOL 307 Radiobiology (with Lab) 3 cr
R S 430 Radiographic Pathology 2 cr
R S 441 Advanced Radiographic Methods I 1 cr
R S 470 Advanced Radiographic Exposure 2 cr
R S 481 Independent Study (Optional) 2 cr
R S 490 Applied Radiography V 6 cr

Total: 14 or 16 cr

Academic Standards

A grade of “C” or better is required in all radiographic science, biology, physics, math, business, chemistry, and health care administration courses in the curriculum. A student who fails to achieve a minimum of a “C” grade in a course designated Radiographic Science (R S) will be dismissed from the program and prohibited from taking any further courses with the R S designation until the course(s) in question has/have been completed with(a) minimum grade(s) of “C.”
The student is required to reapply to the program, in writing, at least one (1) month prior to the first day of classes of the semester in which readmission is sought. Additional details regarding readmission can be found in the current Radiographic Science Student Handbook.

Radiographic Science Courses

RS 105 Introduction to Radiographic Science 1 credit. History of the profession, responsibilities of the technologist, professional development, radiation protection, areas of specialization. F, S, W

RS 310 Radiographic Methods I 2 credits. Theory and principles of radiographic examination of the extremities, shoulder girdle, and the pelvic girdle. F

RS 311 Radiographic Methods II 2 credits. Introduces the student to basic theory and principles of radiographic procedures of the abdomen and the chest. Emphasis is placed on radiographic examinations of visceral organs requiring the use of contrast media. S

RS 312 Radiographic Methods III 2 credits. Continuation of 311 emphasizing theory and principles of radiographic examinations of the vertebral column, cranium, and the facial bones. S

RS 320 Radiographic Processing I 1 credit. Photographic technique including developing methodology and the chemical effects on radiographic film. F

RS 320L Radiographic Processing Laboratory 1 credit. Laboratory experience with photographic technique including developing methodology and the chemical effects on radiographic film. F

RS 325 Patient Care in Radiography 3 credits. Introduction to patient care principles and procedures utilized in radiography including vital signs, body mechanics, catheterization, sterile procedures, drug administration, isolation techniques and medical emergency procedures. F

RS 330 Radiographic Exposure 3 credits. Determination of radiographic exposure values with emphasis on radiographic quality and equipment used in the production of radiographs. F

RS 340 Laboratory Practicum I 1 credit. Designed to develop pre-clinical competency in routine hospital procedures and radiographic tasks, basic x-ray interpretation, patient management, communications, and manipulation of x-ray equipment. F

RS 341 Laboratory Practicum II 1 credit. Designed to develop pre-clinical competency in routine hospital procedures and radiographic tasks, basic x-ray interpretation, patient management, communications, and manipulation of x-ray equipment. COREQ: RS 311 and RS 389. S

RS 342 Laboratory Practicum III 1 credit. Designed to develop pre-clinical competency in routine hospital procedures and radiographic tasks, basic x-ray interpretation, patient management, communications, and manipulation of x-ray equipment. COREQ: RS 312 and RS 390. S

RS 375 Pediatric Radiography 1 credit. Study of the theory and clinical application of pediatric radiography. S

RS 388 Radiation Protection 1 credit. Topics include: x-ray interaction with matter, quantities and units of radiation, biological effects of ionizing radiation, MPD, radiation detection instruments, methods to minimize radiation exposure to patients and personnel, and U.S. Government radiation control standards. S

RS 389 Applied Radiography I 4 credits. Clinical applications of radiographic examinations with emphasis on the upper extremity, shoulder and chest. Graded S/U. F

RS 390 Applied Radiography II 4 credits. Clinical applications of radiographic examinations with emphasis on the lower extremity, hips, pelvis and abdomen. Graded S/U. F

RS 420 Radiologic Facility Organization 1 credit. Organization and operation of a radiology department. Emphasis on management, design, record systems, equipment, personnel and budgets. F

RS 430 Radiologic Pathology 2 credits. Study of the pathological processes of various diseases and disorders with emphasis on the demonstration of pathology on radiographs. F

RS 441 Advanced Radiographic Methods I 1 credit. Advanced methodology, theory and principles of radiographic procedures. Designed to develop proficiency in performance of specialized radiographic examinations. PREREQ: RS 312 and RS 342. S

RS 450 Alternate Imaging Modalities and Radiation Therapy 1 credit. An introduction to nuclear medicine, computerized axial tomography, ultrasonography, and radiation therapy. F

RS 460 Introduction to Radiographic Quality Assurance 2 credits. Study and application of equipment maintenance procedures to assure consistency in the contrast, density, and sharpness of radiographic films. F

RS 470 Advanced Radiographic Exposure 2 credits. In-depth study in establishing radiographic exposure values in new installations or when equipment is changed. F

RS 481 Independent Problems in Radiography 1-2 credits. Study of topics in radiography selected by students and faculty. May be repeated to a maximum of 4 credits. D

RS 488 Applied Radiography III 5 credits. Clinical application of radiographic examinations with emphasis on the abdomen, especially examinations requiring use of contrast media to include the esophagus. Graded S/U. Su

RS 490 Applied Radiography V 6 credits. Clinical application of radiographic examinations including portables and surgical procedures as well as tomoscopy and arthrography. Graded S/U. S

RS 491 Seminar-Selected Topics 1-3 credits. Group studies of topics not covered in regular offerings. May be repeated under different titles for a maximum of 6 credits. PREREQ: Permission of instructor. D

RS 495 Internship in Special Diagnostic Imaging 2 credits. Eight week internship providing opportunity to participate in diagnostic examinations requiring a special modality, e.g. peripheral or cardiac angiography, computerized tomography, ultrasound, magnetic resonance. PREREQ: Permission of instructor. D
College of Pharmacy

Joseph Steiner, Pharm.D., Dean
Paul S. Cady, Ph.D., Associate Dean

Department of Pharmacy Practice and Administrative Sciences
Interim Chair and Professor: Mason
Interim Assistant Chair and Assistant Professor: Owens
Professors: Adamcik, Cady, Culbertson, Erramouspe, R. Force, Mason, Rhodes
Associate Professors: Gould, Hefflinger, Heyman, Hunt, Liday, Lott, Madaras-Kelly, Oliphant
Assistant Professor: Carr
Clinical Professor: Woon
Clinical Associate Professor: Jue
Clinical Associate Professor: Borzadek, Casperson, Cleveland, Davis, Hachey, Ladd, Mayne, Murdock, Pettinger, Pugmire
Visiting Clinical Assistant Professors: Eroschenko, Wadsworth
Adjunct Faculty: Hoagland, Robison
Clinical Affiliate Faculty: Byron, Davis, Flowers, Gundlach, Munkelt, Payne, Reed, Robison, Sawyer, Shea, Sibley, Stander, Vanden Bosch, Wilson, Young
Emeriti: Galizia, Hurley, Sharp

Department of Biomedical and Pharmaceutical Sciences
Chair and Professor: Risinger
Professors: Daniels, Devaud, Diedrich, Dodson, Lai
Associate Professors: Bhushan, Bigelow, Eley, Ohah, Wilson
Assistant Professor: Selvage
Emeriti: Cole, Fontenelle, Goettsch, Hilyard, Isaacs

Accreditation
The Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education (ACPE).

Professional Standards
Students enrolled in the programs of the College of Pharmacy are expected to endorse professional standards by subscribing to the Oath of the Pharmacist. Students are also expected to abide by the American Pharmaceutical Association’s Code of Ethics of the Profession.

Prepharmacy Curriculum
To be eligible to apply to the professional pharmacy program, each student must complete the prepharmacy curriculum. The prepharmacy curriculum for resident and transfer students must include those requirements listed below (see under Doctor of Pharmacy) and at least the following: two semesters of general chemistry, two semesters of organic chemistry, one semester of physics, one semester of biology or zoology, one semester of microbiology, one semester of calculus, one semester of economics (macro or micro), two semesters of anatomy and physiology.

Admission to the College of Pharmacy

Application
Apply online at http://pharmacy.isu.edu

Admission Criteria
The recommended high school background for students planning to enter the preprofessional program at Idaho State University includes four units of mathematics and three units of natural science (biology, chemistry, and physics).

All of the preprofessional curriculum must be completed by the end of spring term of the year the applicant is applying for admission. In addition, the faculty encourages applicants to have a broad background in the arts, humanities and social sciences, as well as in the biological and physical sciences. Students should be competent in using word processing, spreadsheet and presentation software.

Applicants are encouraged to obtain pharmacy experience prior to applying for admission to the Doctor of Pharmacy program. Pharmacy experience can be gained through shadowing, volunteering or working in a paid position within a pharmacy.

To apply to the College of Pharmacy, a student must have a minimum cumulative grade point average (GPA) of 2.5 in all previous college academic courses. Admission is competitive; in recent classes, successful applicants had an accumulative GPA in excess of 3.0 with a class average of 3.6 GPA. Fulfillment of the specific requirements does not ensure admission to the college. Idaho residents are given preference.

New students are admitted to the professional program of the college only in the fall semester of each year. All students must be CPR and first-aid certified and demonstrate immunization compliance prior to entering the first professional year. A criminal background check will be required on all students.

Application Procedure
Admission to the Pharm.D. program requires a separate application in addition to the one for the University’s general admission. All application materials must be received by February 1.

Application materials include:
1. College of Pharmacy application and a $55 nonrefundable application fee;
2. Official transcripts of all previous college course work, including detailed evaluation of all international coursework;
3. Three letters of recommendation, one being from a pharmacist.

Evaluation of Students for Admission
Admission to the College of Pharmacy is limited to 60 positions per class. Historically, there have been more applicants than available positions. This requires the faculty to select from among the applicants those who will have the best opportunity to complete the curriculum and have productive professional lives. An invitation to schedule an on-campus interview is based upon the student’s academic ability as reflected in prepharmacy courses and references.

Students with international coursework to be considered with their applications must submit an official detailed evaluation report from an institution that is a member of the National Association of Credential Services Incorporated (NACSI).
International students must meet Idaho State University’s admission requirements for international students, which are shown at www.isu.edu/iso/admission.

Upon completion of interviews, applicants are placed into three categories:

1. admission,
2. reserve for possible admission pending available positions, or
3. no admission.

As positions become available, students in the reserve admission category will be notified of their selection for admission.

Admission Under Special Circumstances

Transfer from Other Schools of Pharmacy

Students wishing to transfer from another college of pharmacy are considered competitive with prepharmacy students and must present the following materials to the Associate Dean of the College of Pharmacy:

1. A letter from the dean of the College of Pharmacy previously attending certifying the program (B.S. in Pharmacy or Pharm. D.) the student was matriculated in and status as to good academic standing;
2. An official transcript(s) showing that prepharmacy requirements of Idaho State University have been completed and any pharmacy courses completed thus far;
3. A letter to the Associate Dean requesting evaluation of class standing.

Progression Requirements

Students accepted into the professional program of the College of Pharmacy will be permitted to progress to the next semester in the professional curriculum only when all of the required courses of the previous semester have been successfully completed. Successful completion is defined to mean that a grade point average of C (2.0) or better must be maintained in required professional courses, as well as required courses outside the College. In addition, no student shall be allowed (on his or her transcript) more than two D grades in required professional courses both in and outside of the College. Policies adopted within these guidelines are distributed to all students in the professional program.

Students failing to meet minimal academic standards at the end of any semester must petition the Progressions Committee to further progress in the College.

A student who intends to take a required Idaho State University pharmacy course at another institution must receive written permission from the dean. This permission must be received prior to enrolling in the course.

Experiential Curriculum

Forty-two (42) weeks of the Doctor of Pharmacy curriculum are spent in a variety of patient care areas. This requirement assures that the student becomes competent at applying information and concepts learned in the classroom to the practice of pharmacy. Practice sites are assigned by the College. Site locations currently include southeast, southwest, and northern Idaho, and Reno, Nevada. Decentralization of off-campus programs is a commitment the College has made to provide students with the best possible educational experiences. Students should clearly understand that they will be required to complete at least part of their last year at a site other than Pocatello.

Students are required to complete a minimum of 40 contact hours per week of practice experience in a variety of health care settings. Since patient care is a continuous activity, some off-campus experiences are conducted outside the traditional workday (shift work). Personal expenses including travel, food, and lodging while enrolled in off-campus programs are the student’s responsibility.

Pharmacy Extern Registration

All students are required to be licensed externs with the Idaho State Board of Pharmacy during all phases of the clinical program. An additional extern registration is required in other states in which a student does any portion of his or her clinical program (except for Indian Health Service sites).

Graduation Requirements

All students graduating from Idaho State University with a Doctor of Pharmacy degree are expected to complete the General Education Requirements as described for the Bachelor of Science degree.

To be eligible for graduation in pharmacy, a student must have earned an average GPA of 2.0 or better on all credits applied toward the minimum graduation requirements of the curriculum. He or she also must have earned an average GPA of 2.0 or better for all required pharmacy courses applied toward graduation. A minimum of 218 semester credits is required for graduation with the Doctor of Pharmacy.

Students are held responsible for meeting degree requirements in proper sequence. Frequent consultation between student and faculty advisor is encouraged.

Licensure

For graduation with the Doctor of Pharmacy degree, students are required to complete a program of 42 weeks (1,680 hours) of structured practical experiences in pharmacy practice environments administered by the College. By action of the Idaho Board of Pharmacy, successful completion of the clinical program/externship required for the Doctor of Pharmacy degree will satisfy all of the practical experience requirements for licensure in Idaho.

Following completion of all requirements, candidates must pass the North American Pharmacist Licensure Examination (NAPLEX) and the Multistate Pharmacy Jurisprudence Examination to obtain licensure to practice pharmacy in Idaho. If a student plans to practice pharmacy in states other than Idaho, he or she must meet the specific licensing requirements of each state.

All questions relative to externship training requirements and other qualifications for examination and licensure as a pharmacist in Idaho should be addressed to:

Professional Curriculum

The professional curriculum requires four years of study. The first three years are a mix of academic courses and practice experiences. The fourth year is comprised of 42 weeks of clinical experiences.

The first professional year provides a foundation in the basic and pharmaceutical sciences that includes physiology, biochemistry, pharmacology and pharmaceutics. Other courses provide a foundation for professional development that includes topics on ethics, law, drug information, research design, patient care, and the health care system.

Courses and clinical experiences in the second and third professional years build on accrued knowledge and skills. The curriculum centers on an integrated, organ-system approach to the therapeutic management of disease. Topics include cardiovascular, hepatic, hematology/oncology and endocrine. Additional courses provide insight into the human relation aspects of pharmacy, dosage form design, pharmacy management and physical assessment. A series of case studies courses, designed to enhance the student’s knowledge base and problem-solving skills while focusing on the application of knowledge to specific patient cases, spans the first three years.

The last 42 weeks, or the fourth professional year, is devoted to full-time clinical experience in various pharmacy practice or, at the student’s option, research environments. Students will complete six-week experiences in various areas of practice. Students will also have the option of selecting an elective in an area of interest.

Given the length of the final year of the Pharm. D. program, students will begin practice experiences in mid-May after completing their third academic year in the professional program and will continue throughout the ensuing twelve (12) months.

* 45 hours lab with students rotating fall and spring.
** The requirement for PHAR 901 is fulfilled for students who provide evidence of completion of 260 hours externship in a licensed or public health pharmacy which has been approved by a State Board of Pharmacy and which was supervised by a licensed preceptor. This experience must have occurred since entry into the pharmacy school program and may include extern experience from more than one practice setting.

Total for Doctor of Pharmacy Degree, including a minimum of 6 Elective credits: 224 cr

*The following experiences are taken as PHAR 981 Advanced Pharmacy Practice Experiences (APPE): Ambulatory Care 6 weeks Community Pharmacy 6 weeks Hospital Pharmacy 6 weeks Medicine 6 weeks Pharmaceutical Care Emphasis ** 12 weeks Elective 6 weeks

** Students select two experiences (each 6 weeks in length) from an approved list of specialty pharmacy practice sites providing a high level of pharmaceutical care. A maximum of 12 weeks experience is allowed in any specialty practice area.

Advanced Practice Experience Descriptions

Ambulatory Care - Integration of basic pharmacy related concepts to patient care as a member of an interdisciplinary health care team in the ambulatory care setting.

Community Pharmacy - Emphasizes the distributive, communicative and managerial aspects of community pharmacy practice. For this experience, students are assigned to selected community pharmacy preceptors.
The program is closely aligned with the Pharm.D. curriculum with the following changes and requirements:

- During the two years of prepharmacy course work, the student should take ECON 201, ECON 202, ACCT 201 and ACCT 202.
- During the third professional year in the Pharm.D. program and the summer preceding that year, the student should take MBA 613, MBA 614, MBA 615 and MBA 616. These courses will satisfy six hours of electives required for the Pharm.D. curriculum. In addition, the completion of MBA 612 (Human Behavior in Organizations) will substitute for PPRA 945 (Pharmacy Management) required in the third professional year of the Pharm.D. curriculum.
- Six hours of specified experiential courses taken in the fourth professional year of the Pharm.D. program will satisfy six elective hours required in the M.B.A. curriculum.
- In the year following the fourth professional year of the Pharm.D. program, the student must return to campus to complete the second year of the M.B.A. curriculum, which includes MBA 621, MBA 622, MBA 623, MBA 624, MBA 625, MBA 626 and six hours of 600-level electives in the College of Business.

Nontraditional Doctor of Pharmacy Program

The Nontraditional Doctor of Pharmacy (NonT) program at Idaho State University is designed for practitioners holding a Bachelor’s degree in pharmacy and a valid U.S. or Canadian pharmacy license who desire the opportunity to earn the Pharm.D. degree without returning full-time to a college campus. The curriculum includes 37 credits of didactic course work that is taught using a combination of DVDs, interactive web-based case studies, detailed syllabi and textbooks. Each course has an assigned instructor who is available to students via telephone for questions or assistance. Upon completion of the didactic portion of the NonT program, students must perform 18 weeks of training in various clinical pharmacy disciplines.

Admission Requirements

Candidates for the NonT Pharm.D. program must complete an admissions procedure that includes submitting documented evidence of a strong academic record, clinical experience, and past achievements as a pharmacy practitioner. In determining admission status, the Admissions Committee will weigh all evidence each student provides, including their academic record and documented achievements as a pharmacy practitioner. Priority is given to residents of Idaho; however, pharmacists are encouraged to apply regardless of their state of residence. Prior to admission to the program, candidates must travel to Pocatello to complete an assessment process, which includes interviews and baseline evaluation of clinical skills.

Admissions Process

The application process consists of two phases:

Phase I - Submission of Documents

Students must submit the following documents to the College of Pharmacy at least four months prior to their intended enrollment date:

1. Completed application form.
2. Designated application fee.
3. Official transcripts of all college course work.

Joint Doctor of Pharmacy/Master of Business Administration

The College of Business and College of Pharmacy at Idaho State University offer a combined joint Pharm.D./M.B.A. program for students interested in earning both degrees. Students enrolled in the Pharm.D. program may earn an M.B.A. degree with approximately one summer and one year of additional course work.
4. Proof of current licensure in one of the states or territories of the United States or Canada.

5. Three letters of recommendation—one from the applicant’s current supervisor or employer and two from professional colleagues.

Submission of the above documents does not ensure admission to the program. An assessment process will be initiated to review the documents. If the student meets the academic and professional assessment criteria, he or she will be encouraged to participate in Phase II of the application process.

Phase II - Assessment
Once the student has completed the first phase of the admissions process, a notice will be sent from the College to proceed with the second phase. The second phase contains two assessment activities:

1. Each student must schedule an on-campus interview. This will allow students to meet members of the faculty with whom they will be interacting throughout their studies, and ask questions about the program. The interview will give faculty members an opportunity to meet each student and learn about their professional achievements and goals.

2. During the student’s visit to campus, he or she will be asked to take a written examination designed as a tool to assist both the student and the faculty in evaluating the student’s baseline knowledge of clinical pharmacy. The examination is not an admission test in that there is not a minimum score that must be achieved for admission to the program.

Dates to Begin the Program
The NonT program does not follow the usual academic calendar of the University. Students will be enrolled and initiate courses once official notification of admission has been received.

Requirements for Completion
The courses students will take are competency-based. This means the student will not receive a passing grade in the course until s/he has achieved the minimum level of knowledge and skills required for the course.

To remain accredited by the Accreditation Council for Pharmacy Education (ACPE), the didactic portion of the program must be completed within 3.5 years of the admission date. This admission date is given to each student upon beginning the program.

Before beginning the experiential portion of the program, a second on-campus visit is required during which the student must complete a comprehensive examination of the didactic curriculum. A physical assessment practicum will also be offered at this time. Following successful completion of these evaluations, students will complete the practical experience requirements.

Over 300 sites have been established throughout the U.S. Additional sites may be approved if they meet the learning objectives specified by the program. Every effort will be made to place each student in an appropriate site convenient to their residence; however, the right must be retained to assign a student to a site away from his/her residence if local accommodations are not available or will not meet the requirements specified by the program.

Curriculum
The minimum didactic courses students will be required to complete are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>

<td>2 cr</td>
</tr>
</tbody>
</table>

TOTAL: 37 cr

In addition to these didactic courses, students will be required to complete 18 weeks of advanced practical experiences (PHAR 981). These include:

- Ambulatory Care: 6 weeks
- Pharmacy Care: 6 weeks
- Elective: 6 weeks

* The student may choose one 6-week experience or Pharmacology Care in a specialty area such as (but not limited to) Pediatrics, Geriatrics, Mental Health, Drug Information, Infectious Disease, and Transplant Therapeutics. While most advanced practice experiences constitute established pharmacy specialities, the Pharmacology Care option offers the student the unique opportunity to implement an aspect of pharmaceutical care at their site of employment. Thus, both the employer and the student benefit directly from this educational experience.

The College permits waivers of one Advanced Pharmacy Practice Experience (APPE) based upon experience. If a student has extensive experience in one area, then a portfolio of patient write-ups may be submitted. If approved, this portfolio may replace one 6-week APPE.

Continuing Education
The Idaho State University College of Pharmacy is approved by the Accreditation Council for Pharmacy Education (ACPE) as a provider of Continuing Pharmacy Education. Students will be awarded ACPE-accredited continuing education credits in addition to academic credits. Five (5) hours of continuing education (CE) will be granted for successful completion of each credit in the didactic portion of the program. In addition, 20 hours of CE will be conferred for the Medicine and Ambulatory Care practice experiences.

Sequence of Study and Time Allowed to Complete a Course
The first three courses may be taken in any order. A suggested sequence for those who have not been in school recently is: PDNT 938, PDNT 905 and then PDNT 918. The first three courses must be completed before the Pharmacotherapy modules are started. These modules must be taken in the sequence in which they are listed.

The NonT program does not function on a traditional semester calendar. Students must register for and complete didactic courses within the 3.5 years allotted.

It is recommended that students complete one credit per month to keep within the 3.5 year deadline; however, students are allowed to advance more quickly. Students will not be allowed to remain in the didactic portion of the program longer than 3.5 years.

The Doctor of Pharmacy degree is conferred three times a year—May, August, and December. Students completing all program requirements before these dates may be supplied with an official letter stating that they have completed the program.

Format of Didactic Instruction
The didactic course work is taught utilizing a combination of DVDs, interactive web-based case studies, detailed syllabi and textbooks suitable for the nontraditional learner. Each course has an assigned instructor who is available to students via telephone or email for questions or assis-
Students must sign a validation sheet before each examination agreeing to abide by an honor code.

To protect the integrity of the program, some graded examinations will not be returned to the student. However, if a student so desires, the exam questions missed will be returned to them via fax, mail, or email with the correct answers indicated.

Criteria for Selection of Nontraditional Pharm.D. Practice Sites and Preceptors

The experiential component of the nontraditional Pharm.D. curriculum provides the mechanism whereby students are given practical education in several important areas of clinical pharmacy practice. It is essential that this education be provided in facilities where high standards of pharmaceutical care and instruction are available. Therefore, preceptors and sites must meet certain qualifications.

Qualifications of Preceptors: Preceptors are expected to be clinical pharmacists actively engaged in the delivery of high quality pharmaceutical care. These individuals typically will have completed the Pharm.D. degree and may have residency and/or fellowship training. These individuals will spend the majority of their time providing pharmaceutical care in their facility but will be able to commit sufficient time to the education of the student. Preceptors may be eligible to receive affiliate faculty appointment at Idaho State University College of Pharmacy.

Qualifications of Facilities: Facilities will be licensed and accredited by appropriate agencies which govern pharmacy practice and/or health care delivery in respective geopolitical regions. Clinical services will be integrated into the routine practice of pharmacy; mechanisms to assure the quality of these services will be in place. Commitment of the facility to the Idaho State University educational program may be documented with an “Affiliation Agreement” with the University.

Nontraditional students who desire to complete clinical experiences at facilities currently affiliated with the Idaho State University College of Pharmacy traditional Pharm.D. program will be incorporated into the placement process employed for traditional students.

Student Responsibilities

Students may request to complete clinical experiences at sites in close proximity to their home but which are not currently affiliated with the Idaho State University College of Pharmacy. Practice sites requested by students may require that a representative of the College visit the facility to validate the acceptability of the site for clinical instruction before the site can be approved.

Students who request non-affiliated sites must follow the steps outlined below:

1. Notify the Director or Assistant Director of the Nontraditional Pharm.D. Program of the desire to complete clinical experiences at alternative sites. The Director or Assistant Director will give the student permission to make initial contact with the facility(ies) and preceptor(s). This step ensures that the College is aware that its students are making initial educational contacts on its behalf. If a student wants to complete training at a facility(ies) or with a preceptor(s) unacceptable to the College, the Director or Assistant Director will deny permission.

2. Contact the facility(ies) and preceptor(s) to determine if they have interest in having the student complete training at their site in the desired time frame.

3. Report to the Director or Assistant Director the results of contact(s) with proposed facility(ies) and preceptor(s).

College of Pharmacy Responsibilities

Assuming the student has successfully identified facilities and preceptors which are tentatively acceptable to the College, the following steps will occur:

1. The Director or Assistant Director will contact the preceptor(s) to confirm the interest in affiliation with the College. This contact will document the ability of preceptor(s) and facility(ies) to fulfill the educational requirements. Preliminary discussions regarding affiliate faculty appointment and payment for supervision may also occur.

2. Provided mutual interest in an academic affiliation is sustained, the Director or Assistant Director may schedule a visit to the facility(ies) and preceptor(s) to confirm the acceptability of the site(s) for clinical instruction.

3. Acceptable consensus will be reached between the facility(ies) and the University regarding “Affiliation Agreements,” payment of facilities or preceptors, and affiliate faculty appointments.

4. The Director or Assistant Director will communicate with preceptors, receive grades, receive student evaluations of preceptors, and visit sites as needed.

Program Director/Advisor

Students will be assigned an advisor upon admission to the program. The NonT program will be responsible for course and practical training registration, delivery of examination materials to the proctor and any other administrative details associated with the program.

Nontraditional Application Materials

Application materials and other information may be obtained by mail, telephone or the internet:

Nontraditional Doctor of Pharmacy Program

PSCI 402 Immunopharmacology 2 credits. Examination of drugs affecting the immune system. PREREQ: PSCI 301. S
PSCI 403 Infectious Diseases and Natural Products 3 credits. Review of antimicrobial drugs including antibiotics, antifungal and antiviral drugs. Review of pharmacology and medicinal chemistry of drugs derived from environmental sources. PREREQ: PSCI 301. S
PSCI 404 Pulmonary and Cardiac Pharmacology 3 credits. Review of the pulmonary and cardiovascular systems including major drug classes affecting these systems. PREREQ: PSCI 301. F
PSCI 405 Behavioral Pharmacology 2 credits. Review of drugs affecting behavioral processes including emotion, learning, memory, and cognition. PREREQ: PSCI 301. Permission of instructor. S
PSCI 406 Introduction to Endocrinology 2 credits. Review of the endocrine systems and drugs used for endocrine based disorders. PREREQ: PSCI 301. S
PSCI 407 Pharmacogenomics 2 credits. Review of contemporary genetic approaches in the understanding of disease and the development of pharmacological agents to treat disease. PREREQ: PSCI 301. S
PSCI 408 Medicinal Chemistry 3 credits. A study of the general chemistry, chemical properties and relationships between chemical structures and pharmacological activities of organic and inorganic medicinal agents. PREREQ: PSCI 301. F
PSCI 414 Women’s Health Issues 3 credits. This course will cover medical, pharmacological and societal aspects of women’s health issues, including risk for various diseases and effectiveness of treatments using a multidisciplinary approach involving several health care practitioner faculty. Issues particular to women will be emphasized. PREREQ: Permission of instructor. F
PSCI 430 Psychopharmacology 3 credits. This course will cover the mechanisms of action of psychoactive drugs, including drugs used in the treatment of psychopathological disorders and drugs of abuse. PREREQ: Permission of instructor. F
PSCI 431 Cancer Biology 3 credits. Study of growth control, carcinogenesis, receptors, oncogenes, signal transduction pathways in cancer, metastasis, angiogenesis, invasion and tumor markers. PREREQ: Permission of instructor. F
PSCI 432 Anti-cancer Drugs 3 credits. Introduction to conventional chemotherapeutic drugs, novel chemotherapeutic drugs in clinical trials and cancer drug discovery. PREREQ: Permission of instructor. F
PSCI 433 Physical Pharmaceutics 3 credits. Illustrates the basic concepts of physical pharmaceutics, including physiochemical and biopharmaceutical principles applicable to formulation design, drug disposition and calculations. PREREQ: Permission of instructor. S
PSCI 434 Pharmacokinetics 3 credits. Illustrates the principles of pharmacokinetics and dosing regimen design. PREREQ: Permission of instructor. F
PSCI 435 Drug Delivery Systems 3 credits. Illustrates principles, processes, and techniques applied to drug delivery systems, preparation, use and assessment of pharmacological dosage forms and emphasizes formulation design, dose regimens, and specific compounding techniques. PREREQ: Permission of instructor. S
PSCI 436 Special Topics in Oncology 1 credit. Study of current topics in cancer research and novel approaches to understand and treat cancer. PREREQ: Permission of instructor. S
PSCI 437 Nuclear Pharmacy 2 credits. Basic principles of radiation physics, preparation of radiopharmaceuticals, operator safety, quality control, laboratory design, radiation monitoring equipment, clinical aspects, therapeutic and diagnostic applications of radiopharmaceuticals and diagnostic agents in pharmacy practice. PREREQ: Permission of instructor. F
PSCI 438 Pharmaceutical Science Research 2 credits. Hands on research experience under the direction of pharmaceutical science faculty including the completion of experiments and analyses of data. PREREQ: Permission of instructor. F, S
PSCI 439 Drug Delivery in the 21st Century 2 credits. State-of-the-art information on the science and technology of novel drug delivery systems, controlled release formulations and pharmaceutical proteins, vaccines and anti-sense drugs. PREREQ: Permission of instructor. F
PSCI 440 Fundamentals of Nanoscience 3 credits. Introduction to the fundamental properties of nanomaterials. Emphasis on the application of nanomaterials in biological systems and their impact on society, and understanding nanomaterials for their future in medicine. PREREQ: Permission of instructor. F
PSCI 441 Diabetes for Health Sciences 2 credits. Discussion of diabetes: types, development, monitoring and patient related issues. Topics include basic science and patient applications. Discussions based on student interest and background. PREREQ: Permission of instructor. S
PSCI 455 Medicinal Chemistry 3 credits. A study of the general chemistry, chemical properties and relationships between chemical structures and pharmacological activities of organic and inorganic medicinal agents. PREREQ: Permission of instructor. F
PSCI 457 Clinical Chemistry 2 credits. The influence of disease states on the results of laboratory diagnostic procedures; the effects of drug therapy on diagnostic tests. PREREQ: Second year professional status in Pharm. D. program. F
PSCI 462 Neuropharmacology 3 credits. The molecular basis of drug action in the central nervous system including nerve excitation, molecular properties of ion channels, neuropharmacological methods, pharmacology of ethanol

Pharmacy Courses

Biomedical and Pharmaceutical Science Courses

PSCI 205 Drugs in Society 2 credits. Survey of the response of people to drugs and chemicals. This course is for non-pharmacy majors. F, S
PSCI 301 Introduction to Pharmacology 3 credits. Overview of basic pharmacological principles and drug classes emphasizing organ systems and mechanisms of action. PREREQ: BIOL 102 and CHEM 112. F
PSCI 308 Drug Discovery 3 credits. Overview of the new drug discovery process including drug screening and the development of targeted therapies. PREREQ: PSCI 301. F
PSCI 314 Basic and Applied Pharmacology for Dental Hygiene 2 credits. Basic pharmacology and therapeutic uses of selected drug groups. PREREQ: BIOL 301 and BIOL 302; Dental Hygiene major. S
PSCI 315 Pharmaceutical Science for Nursing 4 credits. The pharmacologic actions and therapeutic implications of the major classes of drugs. PREREQ: BIOL 301 and BIOL 302; accepted to Nursing, Paramedic, or Respiratory Therapy program. S
PSCI 316 Basic and Applied Pharmacology for Physical Therapists 2 credits. Introduction to the basic concepts of pharmacology. Discussion of pharmacologic therapy of problems affecting the musculoskeletal and connective tissues, including pain management. PREREQ: Admitted to Physical Therapy program. S
PSCI 353 Introduction to Methods in Pharmaceutical Sciences 2 credits. Review of in vitro and in vivo methodology for the study of various aspects of pharmaceutical sciences. BIOL, 102 and CHEM 112. S
PSCI 368 Introduction to Toxicology 3 credits. Review of environmental and clinical poisons with emphasis on mechanisms of toxicity, causes, detection and treatment. PREREQ: PSCI 301. F
PSCI 401 Drug Abuse 2 credits. A discussion of pharmacological and societal aspects of drugs of abuse. PREREQ: PSCI 301. S

College of Pharmacy
and the mechanisms in tolerance and physical dependence. PREREQ: PSCI 301. S

PSCI 480 Health Issues of Drug Abuse 2 credits. In-depth discussion of pharmacological and societal aspects of drug abuse, including the risk for harm from both legal and illegal substances. Emphasis on treatment options. D

PSCI 482 Special Topics in Pharmaceutical Sciences 1-3 credits. Examination of selected topics in the pharmaceutical sciences. PREREQ: Permission of instructor. F, S

PSCI 529 Clinical Pharmacokinetics 3 credits. The application of pharmacokinetic principles to the rational design of individualized drug dosage regimens. PREREQ: PSCI 425. F

PSCI 537 Professional Student Seminar in Pharmaceutical Sciences 1 credit. Review of current research and literature in the fields of pharmacy. Oral and written reports are required. May be repeated. PREREQ: Enrolled in PHARM.D. program. S

PSCI 538 Independent Problems in Pharmaceutical Sciences 1-4 credits. Advanced students are assigned special laboratory studies on the basis of interest and previous preparation. May be repeated. PREREQ: Enrolled in PHARM.D. program. F, S

PSCI 569 Pathophysiology 3 credits. The study of basic processes underlying diseases with an emphasis on gross functional disturbances. Students may not receive credit for both PSCI 569 and BIOL 463. PREREQ: B.S. in Pharmacy. F, S

PSCI 592 Special Topics in Pharmaceutical Sciences 1-4 credits. Examination of selected topics in pharmaceutical sciences. PREREQ: Enrolled in PHARM.D. program. D

Pharmacy Practice and Administrative Sciences Courses

PPRA 335 Smoking Cessation 1 credit. Knowledge and skills necessary to provide comprehensive tobacco cessation counseling to patients who use tobacco. D

PPRA 341 Topics in Drug Utilization Review 1-2 credits. Provides additional clinical experience, knowledge and skills necessary to provide population-based therapeutic monitoring and appropriate drug use. PREREQ: Permission of instructor. F, S

PPRA 345 Pharmacy and Therapeutics Formulary 1 credit. Examination of selected drug classes with the goal of choosing individual agents for mock formulary inclusion. Emphasis on therapeutic variances, available dosage forms and pharmacoeconomic considerations, among other parameters, will drive the selection of individual agent(s) within the selected drug class. D

PPRA 425 Introduction to Traditional Chinese Medicine 2 credits. Survey of philosophical basis of traditional Chinese medicine, diagnostic techniques, and modalities of treatment. PREREQ: Permission of instructor. S

PPRA 459 Externship in Pharmacy Practice 1 credit. 200 hours of practical experience in a pharmacy practice environment. Graded S/U. S

PPRA g491 Topical Seminar in Pharmacy Practice 1-4 credits. Examination of selected topics in Pharmacy Practice and Pharmacy Administration. May be repeated. PREREQ: Permission of instructor. D

PPRA 507 Complementary and Natural Medicine 2 credits. Introduction to safety and efficacy of methods and products used in treating patients outside of modern medicine. PREREQ: Enrolled in the PHARM.D. program. S

PPRA 513 Marketing Management of the Community Pharmacy 2 credits. Principles of marketing management as applied to community pharmacy practice. S

PPRA 514 Institutional Pharmacy Practice 2 credits. The practice of institutional pharmacy with special emphasis on the practice of hospital pharmacy. PREREQ: PHAR 945. S

PPRA 515 Financial Management of the Community Pharmacy 2 credits. Principles of financial management as applied to community pharmacy practice. PREREQ: PHAR 945. S

PPRA 518 Clinical Research Design and Analysis 4 credits. The fundamentals of experimental design, implementation and data analysis pertinent to pharmaceutical clinical investigations. F, S

PPRA 530 Geriatric Pharmacy I 3 credits. Principles of effective pharmaceutical care of the elderly patient. PREREQ: Third professional year status. F

PPRA 531 Geriatric Pharmacy II 3 credits. This course is a continuation of PPRA 530, and includes advanced study of the principles of effective pharmaceutical care of the elderly patient. PREREQ: Third professional year status. S

PPRA 534 Pathophysiology and Therapeutics I 4 credits. This course presents drug therapies by disease state with emphasis placed on selection and monitoring of drug therapy, patient counseling and application of knowledge to patient situations. F, S

PPRA 535 Pathophysiology and Therapeutics II 4 credits. Provide knowledge of therapeutics and prepare for learning in a clinical setting. PREREQ: PPRA 534. F, S

PPRA 538 Drug Information and Literature Analysis 2 credits. Advanced course in retrieving, analyzing, and evaluating medication-related information from the literature. PREREQ: PPRA 518. F

PPRA 539 Quality Assurance and Cost Containment Strategies 1 credit. A study of the drug use process with special emphasis on methods whereby pharmacists can enhance patient care and reduce costs of care. F, S

PPRA 550 Physical Assessment I 1 credit. An introduction to the practical applications of pharmacy including performing a basic physical examination and taking a medical history. F, S

PPRA 588 Independent Problems in Pharmacy Practice 1-2 credits. Advanced students are assigned special studies on the basis of interest and previous preparation. May be repeated. PREREQ: Enrolled in PHARM.D. program. F, S

Professional Pharmacy Courses

PHAR 901 Early Practice Experience I 1 credit. A self-directed, competency-based 200 hours of experiential training in an approved pharmacy practice setting to be completed prior to the start of the second professional year. Graded S/U. PREREQ: First professional year. S

PHAR 902 Early Practice Experience II 1 credit. Forty hours of competency-based experiential training in an approved pharmacy practice setting or voluntary service activity to be completed prior to the start of the third professional year. Graded S/U. PREREQ: PHAR 901. S

PHAR 903 Early Practice Experience III 1 credit. Forty hours of competency-based experiential training in an approved pharmacy practice setting or voluntary service activity to be completed prior to the start of the fourth professional year. Graded S/U. PREREQ: PHAR 902. S

PHAR 905 Introduction to Clinical Problem Solving 2 credits. An introduction to the deductive, problem-based clinical reasoning process for identifying, preventing, and resolving drug-related problems. PREREQ: First professional year. S

PHAR 906 Case Studies in Pharmacy I 2 credits. Application of principles in pharmaceutical sciences, pathophysiology and therapeutics to drug therapy issues. PREREQ: Second professional year. F

PHAR 907 Case Studies in Pharmacy II 2 credits. Application of principles in pharmaceutical sciences, pathophysiology and therapeutics to drug therapy issues. PREREQ: PHAR 906. S

PHAR 908 Case Studies in Pharmacy III 2 credits. Application of principles in pharmaceutical sciences, pathophysiology and therapeutics to drug therapy issues. PREREQ: PHAR 907. F

PHAR 921 Biological Basis of Drug Actions I 3 credits. Basic concepts in pharmacology. PREREQ: First professional year. F

PHAR 921R Biological Basis of Drug Actions I Recitation 0 credits.

PHAR 922 Biological Basis of Drug Actions II 4 credits. Basic concepts in Pharmacology. PREREQ: First professional year. S
PHAR 922R Biological Basis of Drug Actions II Recitation 0 credit.

PHAR 924 Physiochemical Basis of Drug Action 3 credits. Concepts of physical and chemical properties of drugs and how these properties affect absorption, distribution, metabolism, excretion, and pharmacological actions. PREREQ: First professional year. COREQ: BIOL g432, BIOL g449, and PHAR 924R. F

PHAR 924R Physiochemical Basis of Drug Action Recitation 0 credit.

PHAR 926 Basic Pharmaceutics and Calculations 3 credits. Fundamentals of physical pharmacy, mathematics associated with drug dispensing and pharmacokinetic principles applicable to the design of rational dosage regimens. PREREQ: PHAR 924. S

PHAR 927 Dosage Form Design and Compounding with Lab 4 credits. Principles, processes and techniques applied to design of therapeutic systems, including preparation, use and assessment of pharmaceutical dosage forms. Includes three hours of laboratory each week. PREREQ: PHAR 926. F

PHAR 927L Dosage Form Design and Compounding Lab 0 credits. Principles, processes and techniques applied to design of therapeutic systems, including preparation, use and assessment of pharmaceutical dosage forms. COREQ: PHAR 927. S

PHAR 941 Introduction to Pharmacy Practice and Literature I with Lab 4 credits. Introduction and socialization to the pharmacy profession. A general overview of the health care system, the role of pharmacy in health care, pharmacy law, experimental design, analysis, and career pathways within the profession. PREREQ: First professional year. COREQ: PHAR 941L. F

PHAR 941L Pharmacy Practice and Literature I Lab 0 credit. Experiences in the retrieval, interpretation and analysis of literature and other sources of medical information. Design and development of research projects suitable for publication. COREQ: PHAR 941. F

PHAR 942 Introduction to Pharmacy Practice and Literature II 3 credits. Introduction and socialization to the profession of pharmacy. A general overview of the health care system, the role of pharmacy in health care, pharmacy law, experimental design, analysis and career pathways within the profession. PREREQ: PHAR 941. S

PHAR 944 Social and Behavioral Medicine and Pharmaceutical Care with Lab 4 credits. Emphasizes cultural sensitivity, empathy, communication skills, and the social, behavioral and ethical influences on pharmacotherapy. PREREQ: Second professional year. D

PHAR 944L Social and Behavioral Medicine and Pharmaceutical Care Lab 0 credits. Emphasizes cultural sensitivity, empathy, communication skills, and the social, behavioral and ethical influences on pharmacotherapy. COREQ: PHAR 944. D

PHAR 945 Pharmacy Practice Management with Lab 4 credits. Principles of financial and human resource management as applied to pharmacy practice. PREREQ: ECON 201 or ECON 202, and third professional year. F

PHAR 945L Pharmacy Practice Management Lab 0 credits. Application and experiences in financial and human resource management as applied to pharmacy practice. COREQ: PHAR 945. F

PHAR 948 Pharmacy Law 2 credits. The study of federal and state statutes, regulations and court decisions which control the practice of pharmacy and drug distribution; and an introduction to civil liability in pharmacy practice. PREREQ: Third professional year. S

PHAR 951 Pharmacotherapy Lab I 1 credit. Integration of skills and knowledge necessary for providing pharmaceutical care. Emphasizes patient assessment and therapeutic monitoring and management. PREREQ: Second professional year. Graded S/U. D

PHAR 952 Pharmacotherapy Lab IV 1 credit. Integration of skills and knowledge necessary for providing pharmaceutical care. Emphasizes patient assessment and therapeutic monitoring and management. PREREQ: Third professional year. Graded S/U. D

PHAR 961 Pharmacotherapy I 4 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Second professional year. D

PHAR 962 Pharmacotherapy II 3 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Second professional year. D

PHAR 963 Pharmacotherapy III 4 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Second professional year. D

PHAR 964 Pharmacotherapy IV 3 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Second professional year. D

PHAR 965 Pharmacotherapy V 3 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring and patient counseling. PREREQ: Second professional year. D

PHAR 966 Pharmacotherapy VI 3 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Third professional year. D

PHAR 967 Pharmacotherapy VII 3 credits. An organism system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Third professional year. D

PHAR 968 Pharmacotherapy VIII 4 credits. An organism-system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring, and patient counseling. PREREQ: Third professional year. D

PHAR 970 Pharmacotherapy X 4 credits. An organism-system approach to the therapeutic management of selected disease states with an emphasis on appropriate drug selection, therapeutic drug monitoring and patient counseling. PREREQ: Third professional year. D

PHAR 971R Capstone Recitation 0 credit. Recitation for PHAR 971 Capstone Pharmacotheapeutics. D

PHAR 980 Case Studies in Pharmacy Practice 1 credit. This series of one credit courses will require students to present selected cases for discussion to the preceptor or other students. May be repeated up to 7 times. Graded S/U. PREREQ: Fourth professional year status. F, S, Su

PHAR 981 Advanced Pharmacy Practice Experience 4-6 credits. Students are assigned to pharmacy practice sites including community, hospital, and clinical settings for experimental training. May be repeated up to 7 times. PREREQ: Fourth professional year status. F, S, Su

PHAR 982 Professional Student Seminar 1 credit. Development of a relevant therapeutic concept including the review, analysis, and oral presentation of all appropriate medical and scientific literature. Graded S/U. PREREQ: Fourth professional year status. F, S, Su

Nontraditional Doctor of Pharmacy Courses

PDNT 905 Introduction to Clinical Problem Solving 1 credit. An integrated case study format emphasizing the development of quality assurance concepts, physical assessment skills, and clinical problem-solving abilities related to the diagnosis, resolution and prevention of drug-related problems. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 918 Drug Literature Evaluation and Statistics 2 credits. The fundamentals of experimental design, implementation and data analysis pertinent to pharmaceutical clinical investigations. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su
PDNT 938 Drug and Medical Informatics 1 credit. Advanced course in retrieving, analyzing, and evaluating medication-related information from the literature. PREREQ: Enrollment in the Nontraditional Pharm.D. program and PPRA 518. F, S, Su

PDNT 961 Pharmacotherapy I 3 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 962 Pharmacotherapy II 3 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 963 Pharmacotherapy III 2 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 964 Pharmacotherapy IV 3 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 965 Pharmacotherapy V 4 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 966 Pharmacotherapy VI 3 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 967 Pharmacotherapy VII 3 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 968 Pharmacotherapy VIII II 2 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 969 Pharmacotherapy IX 4 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 970 Pharmacotherapy X 4 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su

PDNT 971 Pharmacotherapy XI (Capstone with recitation) 2 credits. An organ-system approach to the therapeutic management of selected disease states with an emphasis on the appropriate selection/monitoring of drug therapy and patient counseling. PREREQ: Enrollment in the Nontraditional Pharm.D. program. F, S, Su
College of Technology

Marilyn Davis, Dean
Deborah L. Thompson, Associate Dean

The College of Technology is the largest post-secondary technical institution in Idaho. The College provides high quality professional-technical programs that are designed to meet the employment and economic development needs of business and industry.

Students are offered a distinctive opportunity to acquire a professional, technical education in a University setting. In this setting students may participate in a wide range of campus activities in addition to completing occupationally-focused programs of study. Programs of study include adult basic education, special workforce training and development, technical certificate programs, associate degree programs, bachelor’s degree programs, and graduate degree programs.

Students may gain leadership skills by participating in organizations such as the Associated Students of Idaho State University (ASISU), Delta Epsilon Chi, the Association of Information Technology Professionals (AITP), the Business Professionals Association (BPA), and Skills USA.

Admission to the College of Technology

Prospective students are admitted to College of Technology programs based on their interests, aptitudes, and potential to succeed in specific programs of instruction. Some programs have specific entry requirements in addition to the general requirements. Part-time enrollment in some regular preparatory programs is possible. Counselors are available to assist students in choosing programs and completing applications. For additional information, contact the College of Technology’s Student Services Office at (208) 282-2622.

Admission Process

Because some programs fill several months in advance, all necessary documentation should be completed and returned to respective offices as early as possible. If applications are late, processing may be delayed. Students may appeal admission decisions through a petition process.

Upon completion of fourteen (14) College of Technology credits with a 2.0 GPA or better, students are eligible for academic admission.

The following professional/technical standards were established by the Idaho State Board of Education and implemented at the beginning of the Fall 1997 semester.

A. Students who graduate from high school in 1997 or later must:

1. Verify graduation from an accredited high school by providing an official transcript that reflects the date of graduation, completion of the Professional-Technical Admission Standards (see below), and a minimum 2.0 GPA, and
2. Meet the minimum COMPASS levels or the equivalent ACT/SAT scores established by the program of choice.

B. Students who graduated from high school or received a GED prior to 1997 must:

1. Verify graduation from an accredited high school by providing an official transcript that reflects the date of graduation and a minimum 2.0 GPA, or verify an earned GED by providing an official certificate, and
2. Meet the minimum COMPASS levels or the equivalent ACT/SAT scores established for the program of choice.

C. Students who do not meet the above standards for admission and still want to pursue admission should contact the College of Technology’s Student Services Office at (208) 282-2622 to inquire about the appeal process. Students admitted through the appeal process must complete an admission agreement which requires attending five College of Technology Success Track and Retention System (STARS) workshops and/or enrollment in STARS 102, First Year Seminar. To maintain enrollment, students admitted through the appeal process must also complete the initial 12 credits with at least a 2.0 cumulative GPA.

Professional-Technical Admission Standards

*Six (6) semesters recommended for students intending to pursue education beyond the Associate of Applied Science.

Readmission

Former College of Technology students who have been out of school one session/semester or more must complete necessary forms in the Student Services office before returning to the program. Students will enter under the current catalog.

Acceptance

An acceptance letter is sent to all accepted College of Technology applicants. An advance registration deposit, which will be applied to the first registration fee, is required of applicants upon acceptance into a College of Technology program to assure a place in the program. Registration materials will be mailed to accepted students approximately three weeks prior to fee payment.

Non-attendance Policy

Students not attending the first day of class may be disenrolled due to non-attendance.

Change of Curriculum

Students who want to change registration from the College of Technology to academic courses are required to meet the University’s academic admission standards. Students should contact the College of Technology’s Student Services Office to initiate the process.

Credits

One College of Technology credit is equivalent to approximately 15 hours of lecture, 30 hours of laboratory, or 45 hours of clinical or internship.
Credits Granted for Previous Training or Experience

1. A student seeking credit for prior training, education, or work experience must complete a petition (initiated through the Student Services Office) and receive official approval. Performance objectives established for specific program courses must be met. The assessment procedure includes providing written documentation of training and experience, completing written examinations and demonstrations of skills, and submitting to interviews with program faculty.

2. If the petition is approved, and once the student has successfully completed one semester of coursework, the course(s) for which the student is granted credit for prior training, education, or work experience will be noted on the transcript. “Successful completion” is defined as receiving a minimum, cumulative 2.0 GPA without any “F” grades.

3. A recording fee will be required upon approval of the petition.

General Education Requirements

A student seeking an Associate of Applied Science (A.A.S.) degree must complete sixteen (16) credits of general education coursework. The sixteen hours must include:

1. Six (6) credit hours of communication selected from Goals 1 and 2.
2. Three (3) credit hours of mathematics/computation from Goal 3.
3. Three (3) credit hours of social science/human relations/interpersonal communications selected from Goals 6, 7, 9, 10A, 11, or 12.
4. Four (4) additional credits hours from any courses that meet the General Education requirements (some programs require specific General Education courses).

Progression

Progression into succeeding courses of study will require successful completion of (passing grades in) any courses listed as prerequisites for those desired courses.

Probation and Dismissal Policy

Please refer to the academic section of the Undergraduate catalog for a complete description of Idaho State University’s Scholastic Probation and Dismissal Rules. Probation and Dismissal policy includes summer sessions for all College of Technology professional-technical students.

Change of Program

To change programs within the College, a currently-enrolled student must see a counselor in the Student Services Office. If a student on probation changes to another program, the probation status is transferred to the new program. If a student is on academic dismissal and changes programs, the dismissal status transfers to the new program. Please refer to the academic section of the Undergraduate catalog for a complete description of Idaho State University’s Scholastic Probation and Dismissal Rules.

Application for Graduation

Students planning to graduate should apply for graduation no later than one semester before all requirements are completed. Students should contact the Student Services Office to obtain applications for graduation and pay the $20 graduation/diploma fee. Additional and optional graduation applications may be completed for a fee of $10 each.

To graduate from a College of Technology program, a student must have an accumulative grade point average of 2.0 (without any F grades based on the required College of Technology courses) in the enrolee’s program of study. A student must complete an application for graduation and pay a diploma fee.

Certificates

The following certificates are offered for designated programs through the College of Technology. Programs offering certificates meet approved curriculum.

- Postsecondary Technical Certificate
- Technical Certificate
- Advanced Technical Certificate

Associate of Applied Science Degree

The Associate of Applied Science Degree is offered for designated programs through the College of Technology. Programs offering this degree are at least 18 months in length and follow specific approved curricula. For additional information, contact the Student Services Office at the College of Technology at (208) 282-2622.

Interdisciplinary Degrees

Bachelor of Applied Technology/Bachelor of Applied Science

The Bachelor of Applied Technology/Bachelor of Applied Science (B.A.T./B.A.S.) degree is an optional degree for students who have completed Associate of Applied Science (A.A.S.) degrees approved by the Idaho State Board of Education. All A.A.S. degree programs at Idaho State University are approved. If students want to coordinate the option of using the A.A.S. to apply toward a B.A.T. degree, they should consult with their A.A.S. program advisors about which general education courses may be used to fulfill requirements for both the A.A.S. and the B.A.T. degrees. More detailed information is provided in this catalog under General Information, and at www.isu.edu/ctech/studentservices/BAT.shtml. The B.A.T. degree is administered through the Student Services Office in the College of Technology.

Bachelor of Science in Health Science

The objective of the Bachelor of Science in Health Science (B.S.H.S.) program is to allow students who have graduated or are enrolled in health occupations training at the level of an associate degree to pursue a bachelor’s degree with an advanced general health science focus. This degree provides a curriculum for students who desire an education that can serve as a foundation for additional professional or graduate work in several health science professions, including medicine, dentistry, hospital administration, medical technology, physical therapy, and occupational therapy. The B.S.H.S. degree is administered through the Student Services Office in the College of Technology. See www.isu.edu/ctech/bshealth.shtml.

Regular Preparatory Programs

Each of the college’s preparatory programs consists of a series of courses designed to teach the necessary skills and knowledge of a specific occupational field. Program length may vary depending on students’ academic qualifications at time of acceptance. One semester consists of sixteen weeks of instruction. Programs operate on the average of six hours each week day.

Academic Programs in the College of Technology

The following College of Technology programs offer academic degrees:
• Associate Degree Registered Nursing*
• Bachelor of Applied Science*
• Bachelor of Applied Technology*
• Bachelor of Science in Health Science*
• Geomatics Technology
• Human Resource Training and Development
• Paramedic Science*
• Respiratory Therapy*

*These programs also have “pre-” programs that prepare students to enter the actual degree track.

Program/Option/Course Availability
A program, option, and/or course may not be offered if one or more of the following conditions exist:
1. insufficient student enrollment
2. a certified instructor is not available
3. adequate facilities and/or equipment are not available

Other Policies
Policies not stated in the College of Technology section of the catalog will follow Idaho State University policies. Waiver of any of the above rules may be made only by petition and with the approval of the program coordinator, department chair, and the Associate Dean of the College of Technology.

Aircraft Maintenance Technology
(2½ to 4½ Semesters)
Program Coordinators and Instructors:
Prickett, Shipley
Instruction Assistant: Stewart

One Technical Certificate, one Advanced Technical Certificate, one Associate of Applied Science degree and one Bachelor of Applied Science degree are available.

Objective: To prepare graduates for entry-level employment in airframe and powerplant maintenance in compliance with FAA regulations as they begin their careers as technicians.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/aircraftmaint.html.

AIRM Courses
AIRM 101 Mathematics 3 credits. Mathematical theory pertaining to gear ratios, areas, power formulas, bend allowances, and weight and balances on aircraft. F
AIRM 102 Aircraft Drawing 1 credit. Theory and lab practice in making, reading, and using drawings and blueprints on aircraft. S
AIRM 103 Truss Structures 3 credits. Theory and lab practice in gas welding; rebuilding and repairing wooden structures, and fabric repair and recovering techniques. F
AIRM 104 Materials and Processes 7 credits. Theory and lab practice covering aircraft; ground operation; assembly and rigging; hardware; care, properties, and uses of various materials; aircraft finishes and the various methods of finish application. F
AIRM 105 Sheetmetal Structures 6 credits. Theory and lab practice in maintenance and repair of metal aircraft. S
AIRM 107 Forms and Regulations 3 credits. Theory and lab practice in interpretation and use of the various forms and regulations pertaining to aircraft maintenance. F
AIRM 108 Basic Electricity 3 credits. Theory and lab practice in principles and uses of electricity in the various circuits and controls of the aircraft. S
AIRM 109 Fluid Systems 5 credits. The students will learn how to identify the different fluids that are used in the hydraulic systems and the care and precautions that are necessary for the safe handling of these fluids. The students will be instructed in the operation of systems and be able to troubleshoot the systems. S
AIRM 110 Landing Gear Systems 4 credits. Theory and lab practice in operation, maintenance, and repair of landing gear systems of the aircraft. S
AIRM 111 Utility Systems 3 credits. Theory and lab practice in operation, maintenance, and repair of utility systems such as position and warning, aircraft instruments, climate controls, communication and navigation, ice and fire protection, and miscellaneous systems. 

AIRM 112 Electrical Systems 5 credits. Theory and lab practice in gas welding of aircraft structural components. 

AIRM 120 Structural Welding 2 credits. Theory and lab practice in gas welding of aircraft structural components. 

AIRM 221 Basic Reciprocating Engines 3 credits. Design, construction, and operation of radial, opposed, and in-line engines; disassembly, assembly, and run-up of various types of engines. 

AIRM 222 Advanced Reciprocating Engines 2 credits. Repair and overhaul of reciprocating engines, installation and test. 

AIRM 223 Basic Turbine Engines 3 credits. Design, construction, and operation of gas turbine and turbo-prop engines. 

AIRM 224 Advanced Turbine Engines 2 credits. Repair and overhaul of turbine engines. 

AIRM 225 Engine Lubrication Systems 2 credits. Design and operation of oil system; its repair and installation. 

AIRM 226 Induction and Exhaust Systems 2 credits. Design and operation of air intake, exhaust on reciprocating and jet engines. 

AIRM 227 Engine Fuel Systems 3 credits. Design and operation of carburetor, fuel injection, and hydromechanical fuel systems on reciprocating and jet engines. 

AIRM 228 Ignition and Cooling Systems 5 credits. Design, operation, and overhaul of magneto ignition and capacitor discharge ignition, and cooling systems. 

AIRM 229 Engine Electrical and Instrument Systems 4 credits. Design, operation, and overhaul of the various electrical components and system indicators used on aircraft engines. 

AIRM 298 Special Topics 1-8 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ:Permission of Instructor. 

Associate Degree Registered Nurse Program 

Director and Associate Professor: Smith 

Instructors: Knighton, Madsen, Pearce 

One Associate of Science degree, one Bachelor of Applied Technology degree (see description in the General Information section), and one Bachelor of Science in Health Science degree (see description under the Health Occupations Department) are available in the College of Technology. The program will provide students with the skills and knowledge to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Graduates are prepared to render competent nursing care in a variety of health care settings including hospitals, nursing homes, clinics, physicians’ offices, home health agencies, and health centers. 

Immediately upon deciding this major, please contact the Student Services department in the College of Technology at (208) 282-2622. The following criteria must be met prior to final admission into the Associate Degree Registered Nurse program: 

- All students must first be admitted to the University. For information on university admission, contact the College of Technology Student Services office at (208) 282-2622. 
- Completion of the following prerequisite courses, or equivalents, with a grade of “C” or better-and a cumulative grade point average of at least 2.5 for all prerequisite courses: ENGL 101 and 102; PSYC 101; NTD 239 or 340; BIOL 221 and 221L or equivalent, 3 credits from Goal 3; COMM 101; and BIOL 301, 301L, 302, and 302L. Options exist for transfer credit or testing. Please consult with Student Services at (208) 282-2622. 
- Active unrestricted licensure to practice as an LPN in the State of Idaho 
- Current CPR certification (Healthcare provider) 
- Proof of successful completion of IV Therapy course. 
- Proof of current immunization and verified good health status, upon acceptance into the program. 
- Background check and drug screening per department policy, upon acceptance into the program. 

Students are admitted to the ADRN program once per year using a competitive application process. Upon completion or near-completion of the above criteria, submit a program application to Student Services, College of Technology (208) 282-2622. Once application is submitted and complete, and eligibility verified, the student will take the TEAS (Test of Essential Academic Skills) from Assessment Technologies Institute. This score is combined with GPA earned, years of LPN experience, and documented adherence to nursing standards (reference) to rank-order applicants for each admission class. 

For a Program Information Packet showing course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/registerednurse.shtml. 

Associate of Science Degree: Nursing 

5 Semester Program, including prerequisite courses 

This is an Associate of Science degree program that provides classroom, laboratory, and nursing student clinical practicum instruction which prepares graduates to write the NCLEX-RN examination. Successfully passing this examination creates eligibility for the nurse to be licensed to practice as a Registered Nurse in Idaho and to be eligible to apply for licensure in other states. Articulation into BSN and MSN programs is available to the graduate. 

The courses listed below are specific to Idaho State University. Equivalent courses from other institutions will be evaluated and transferred in as appropriate.

ADRN 233 Medical and Surgical Nursing IV 3 cr
ADRN 245 Critical Care Nursing of Nursing V 3 cr

MINIMUM TOTAL FOR DEGREE: 68 cr

Progression
The student is required to earn a grade of “C” or better in all prerequisite and nursing courses to be eligible for the Associate of Science degree. The student is required to maintain a GPA of 2.0 or better in order to remain in the program. All non-nursing courses must be completed prior to the start of the final (summer) semester.

Suggested Course Sequence

Prior to program acceptance:
Options exist for transfer credit or testing.
Prior to program acceptance:

Semester 1 (Fall)
BIOL 221,221L Introductory Microbiology, 4 cr
BIOL 301,301L Anatomy and Physiology, 4 cr
COMM 101 Principles of Speech 3 cr
ENGL 101 English Composition 3 cr
PSYC 101 Introduction to General Psychology 3 cr
Total for Fall Semester: 17 cr

Semester 2 (Spring)
BIOL 302,302L Anatomy and Physiology, 4 cr
ENGL 102 Critical Reading and Writing 3 cr
NTD 340 Nutrition 3 cr
Goal 3 3 cr
One of Goals 9, 10A, or 10B* (minimum) 3 cr
*(if 10B is completed, 8 cr will be required)
Total for Spring Semester: 16 cr

After acceptance into program:

Semester 3 (Fall)
ADRN 210 Nursing Transition 2 cr
ADRN 211 Medical Health Nursing 3 cr
ADRN 212 Clinical Foundations of Nursing III 3 cr
ADRN 220,220L Health Assessment, and Lab 3 cr
Goal 11 3 cr
Total for Fall Semester: 12 cr

Semester 4 (Spring)
ADRN 230 Medical and Surgical Nursing III 3 cr
ADRN 231 Clinical Foundations of Nursing IV 3 cr
ADRN 232 Family Nursing 2 cr
Two of Goals 6, 7, 8 6 cr
Total for Spring Semester: 14 cr

Summer Semester
ADRN 233 Medical and Surgical Nursing IV 3 cr
ADRN 245 Clinical Foundations of Nursing V 3 cr
Total for Summer Semester: 6 cr

ADRN Courses

ADRN 210 Nursing Transition 2 credits.
Professional skills needed in the transition of roles from LPN to RN are addressed. PREREQ: Permission of instructor and program director. D

ADRN 230 Medical and Surgical Nursing III 3 credits.
Prerequisite: ADRN 210, ADRN 211, and ADRN 220. F

ADRN 231 Clinical Foundations of Nursing IV 3 credits.
Prerequisite: ADRN 210, ADRN 211, ADRN 220. F

ADRN 232 Family Nursing 2 credits.
Prerequisite: ADRN 210, ADRN 211, and ADRN 220. F

ADRN 245 Clinical Foundations of Nursing V 3 credits.
Prerequisite: ADRN 210, ADRN 211, ADRN 220. F

Technical Certificate:

Automotive Collision Repair and Refinishing
(2½ to 4 Semesters)
Program Coordinator and Instructor: Beamis
Instructor: Butler

Two Technical Certificates, one Advanced Technical Certificate, one Associate of Applied Science degree, and one Bachelor of Applied Technology degree are available.

Objective: To provide realistic training that prepares the graduate for a career in collision repair and/or refinishing, utilizing the latest technologies, methods, and materials.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/automotivecollision.shtml.

Technical Certificate:

Automotive Refinishing
(2½ Semesters)
Required Courses:
ACRR 146 Introduction to Collision and Refinishing 8 cr
ACRR 147 Minor Collision Repair and Refinishing 8 cr
ACRR 210 Advanced Collision Repair I 8 cr
ACRR 211 Advanced Collision Repair II 8 cr
ACRR 212 Advanced Collision Repair III 8 cr
TOTAL: 40 cr

Technical Certificate:

Automotive Collision Repair
(2½ Semesters)
Required Courses:
ACRR 146 Introduction to Collision and Refinishing 8 cr
ACRR 147 Minor Collision Repair and Refinishing 8 cr
ACRR 210 Advanced Collision Repair I 8 cr
ACRR 211 Advanced Collision Repair II 8 cr
ACRR 212 Advanced Collision Repair III 8 cr
TOTAL: 40 cr

Technical Certificate:

Automotive Refinishing
(2½ Semesters)
Required Courses:
ACRR 146 Introduction to Collision and Refinishing 8 cr
ACRR 147 Minor Collision Repair and Refinishing 8 cr
ACRR 210 Advanced Collision Repair I 8 cr
ACRR 211 Advanced Collision Repair II 8 cr
ACRR 212 Advanced Collision Repair III 8 cr
TOTAL: 40 cr
Advanced Technical Certificate: 
Automotive Repair and Refinishing

(4 Semesters)

Required Courses:

ACRR 160 Advanced Refinishing I 8 cr
ACRR 161 Advanced Refinishing II 8 cr
ACRR 162 Advanced Refinishing III 8 cr

TOTAL: 24 cr

ACRR 146 Introduction to Collision and Refinishing 8 cr
ACRR 147 Minor Collision Repair and Refinishing 8 cr
ACRR 160 Advanced Refinishing I 8 cr
ACRR 161 Advanced Refinishing II 8 cr
ACRR 162 Advanced Refinishing III 8 cr

TOTAL: 40 cr

ACRR 210 Advanced Collision Repair I 8 cr
ACRR 211 Advanced Collision Repair II 8 cr
ACRR 212 Advanced Collision Repair III 8 cr
ACRR 213 Advanced Collision Repair IV 8 cr
ACRR 252 Cooperative Work Experience 8 cr

TOTAL: 64 cr

Associate of Applied Science Degree: 
Automotive Collision Repair and Refinishing

(4 Semesters)

Required Courses:

ACRR 146 Introduction to Collision and Refinishing 8 cr
ACRR 147 Minor Collision Repair and Refinishing 8 cr
ACRR 160 Advanced Refinishing I 8 cr
ACRR 161 Advanced Refinishing II 8 cr
ACRR 162 Advanced Refinishing III 8 cr
ACRR 252 Cooperative Work Experience 8 cr

TOTAL: 40 cr

ACRR 210 Advanced Collision Repair I 8 cr
ACRR 211 Advanced Collision Repair II 8 cr
ACRR 212 Advanced Collision Repair III 8 cr
ACRR 213 Advanced Collision Repair IV 8 cr
ACRR 252 Cooperative Work Experience 8 cr

TOTAL: 64 cr

ACRR 214 Introduction to Automotive Collision and Refinishing 8 credits. Theory and practice to use and care for body tools, fasteners; operation of oxyacetylene and M.I.G. welding equipment including brazing and cutting. Also, the fundamentals of basic metal finishing including the use of plastic filler. Safety rules and procedures will be emphasized. "Right to know" laws, OSHA, and hazardous material are stressed. PREREQ: Must have tools required or ordered within one week of beginning of class.

ACRR 147 Minor Collision Repair and Refinishing 8 credits. Metal finishing with fillers is continued. Refinishing fundamentals are taught and practiced, including prepping vehicles for refinishing from washing the vehicle to the final top color or clear coat. Projects will be both components and customer vehicles. Systems application is taught. PREREQ: ACRR 146. F, S, Su

ACRR 160 Advanced Refinishing I 8 credits. Advanced technical refinishing terms will be introduced and explained along with Environmental Protection Agency laws. High Volume Low Pressure application will be used. Emphasis on detailing a vehicle. System application will be emphasized. F, S, Su

ACRR 161 Advanced Refinishing II 8 credits. Single stage, two stage and tri-coating will be stressed in live projects. The ability to use High Volume Low Pressure application system will be improved, paint problems will be introduced. PREREQ: ACRR 160. F, S, Su

ACCR 162 Advanced Refinishing III 8 credits. This course will prepare the student to match the area to be refinished for a better blend with the existing finish. Striping and painting variation of applications. Problems will be covered again. PREREQ: ACRR 161. F, S, Su

ACCR 210 Advanced Collision Repair I 8 credits. Training in automotive electrical circuitry. Fiberglass, interior and exterior plastic repair will be taught, glass removal and replacement, and removable body panel and parts. Advanced training in panel alignment and replacement. Advanced welding techniques will be taught. F, S, Su

ACCR 211 Advanced Collision Repair II 8 credits. Damage inspection; shop manuals will be used in damage analysis and writing collision damage reports. Basic frame and unibody repair and alignment. Steering and alignment systems will be diagnosed and repaired in conjunction with frame and unibody repair. F, S, Su

ACCR 212 Advanced Collision Repair III 8 credits. Advanced training in the areas needed most that have been covered in ACCR 210 and 211, with emphasis placed on quality and speed. PREREQ: ACCR 210 and ACCR 211. F, S, Su

ACCR 252 Cooperative Work Experience 8 credits. An opportunity for the student to receive on-the-job work experience with an automotive body business in either collision repair or refinishing.

ACCR 298 Special Topics 1-8 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

Automotive Technology

(3 to 4 Semesters)

Program Coordinator and Instructor: Fisher
Instructors: Gunter, Smith

One Advanced Technical Certificate option, one Associate of Applied Science Degree and one Bachelor of Applied Science Degree are available.

Objective: To provide theory, and help students develop diagnostic skills and practical experience in the repair of today’s automobiles in preparation for a lifelong career as an automotive technician.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/automotivetech.shtml.

Advanced Technical Certificate: 
Automotive Technology

(3 Semesters)

Required Courses:

AUTM 100 Introduction to Automotive Technology 1 cr
AUTM 101 Vehicle Controls 8 cr
AUTM 102 Power Train 8 cr
AUTM 103 Automotive Engines 8 cr
AUTM 104 Auto Electrical Units 8 cr
AUTM 105 Live Work 1 8 cr
AUTM 106 Live Work II 8 cr
AUTM 201 Advanced Electrical Systems 8 cr

TOTAL: 57 cr

Associate of Applied Science Degree: Automotive Technology

(4 Semesters)

Required Courses:

AUTM 100 Introduction to Automotive Technology 1 cr
AUTM 101 Vehicle Controls 8 cr
AUTM 102 Power Train 8 cr
AUTM 103 Automotive Engines 8 cr
AUTM 104 Auto Electrical Units 8 cr

TOTAL: 20 cr
AUTM Courses

AUTM 100 Introduction to Automotive Technology 4 credits. Personal and equipment safety procedures in the automotive industry, use of hand tools, component identification and function, fasteners, use of threaded materials, tubing, hydraulic tools, and familiarization with technical manuals and procedures. F, S, Su, W

AUTM 101 Vehicle Controls 4 credits. (Theory and Laboratory) Introduction to Automotive Technology. Front-suspension and rear-suspension systems, steering systems (power and manual). Brake systems (drum and disk, power and manual). Rear differentials, rear axles, universal joints, drivelines and front wheel drive shafts. Front- and rear-wheel alignments and wheel balancing (tires and wheels). D

AUTM 103 Automotive Engines 4 credits. (Theory and Laboratory) Domestic and Foreign) Engine overhaul procedures, electrical theory and test meters, soldering and constructing test leads. Batteries, theory and testing procedures. Electrical symbols and glossary. Engine test-up (standard and electronic). Ignition systems (standard and electronic) and air conditioning. D

AUTM 104 Automotive Electrical Units 3 credits. (Theory and Laboratory) Domestic and Foreign) Alternator repair and test procedures on all types. Starter motor repair and test procedures on all types. Chassis wiring, computer control fundamentals, computer control senders, computer control controls, computer test methods and monitors, fuel and carburetor standard types, computer control fuel solenoid and throttle body carburetors, port injection and computer controlled ignition and timing. Introduction to blowers and turbochargers and emission control systems. D

AUTM 105 Live Work I 4 credits. (Laboratory) Domestic and Foreign) Application of previously learned material in courses 101 to 104 by working on customers’ cars in an actual shop situation. D

AUTM 106 Live Work II 4 credits. (Laboratory) Domestic and Foreign) An extension of Live Work I, this course is also the final step in preparing students for industry. All work is on customers’ automobiles that are current and late models, conducted in a shop situation, and using flat rate for time. At this time the student will be trained in shop management and customer relations as a shop foreman. D

AUTM 198 Special Topics 1-8 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor. D

AUTM 201 Advanced Electrical Systems 3 credits. Multiplexing communication protocols, lab scooping senders, controls, actuators, pumps, and motors. Use electronic chassis controls to diagnose vehicle traction and stability control, emission control systems, electronic shift, and immobilizer systems; conduct drivability tests on a chassis dynamometer, and use hand held diagnostic tools. Su

Building Construction Technology

(4 Semesters)

Program Coordinator and Instructor: Callaghan
Instructor: Maag

One Advanced Technical Certificate, one Associate of Applied Science Degree and one Bachelor of Applied Science Degree are available to the student.

Objective: To prepare graduates for careers in the building construction industry with emphasis on framing, concrete, tile, finish work, cabinets, estimating, blueprint reading, and safety within a curriculum that transfers, directing students towards successful attainment of journeyman status.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/etech/buildingconstruction.shtml.

BCT Courses

BCT 110 Hand Tools, Power Hand Tools, and Power Tools 2 credits. Students will learn to properly use and maintain the tools used in the construction trade. F

BCT 112 Construction Blueprint Reading 3 credits. Students will learn to read a set of blueprints and list materials. F

BCT 115 Introduction to Masonry 2 credits. A review of masonry principles and how different materials are used in the building industry. Emphasis will be placed on the selection and use of various masonry products along with practical applications thereof. Students will use cement block, brick, pavers, and other masonry products in simulated building applications. F

BCT 116 Floor and Wall Construction 4 credits. Students will learn the different parts of a frame wall and roof, the methods for layout, the methods of assembly and erection, and how to estimate in simulated building applications. F

BCT 117 Foundation 2 credits. Students will learn classification, types, and how to figure materials for case construction. F

BCT 118 Roof Framing Construction 4 credits. Students will frame a gable roof, a gable roof with a dormer, a hip roof, and a gambrel roof, and will lay out a truss. S

BCT 120 Trim Carpentry Techniques 4 credits. Students will learn to build and install base molding, door and window casing, crown molding, chair rails, and wall molding. F

BCT 121 Basic Cabinetmaking 5 credits. Identify proper wood or plywood used in cabinetmaking; identify and cut a variety of wood-working joints; and layout, cut and assemble materials for case construction. F

BCT 142 Construction Blueprint Reading II 2 credits. An advanced blueprint reading course that utilizes residential drawings and light commercial plans. Emphasis placed on materials, symbols, specifications, framing systems, floors, plumbing, HVAC, and electrical. PREREQ: BCT 112. S

BCT 160 Construction Mathematics 2 credits. Students will learn the use of various measuring systems of construction and emphasis will be placed on the math used in the building construction trade. F

BCT 161 Planning and Estimating 2 credits. This class the student will learn how to estimate the amount of material it will take to build a house and plan the sequence of construction. F

BCT 201 Concrete Forming, Pouring and Finishing 3 credits. An introduction to concrete foundations used in residential structures. Students will learn methods to pour, reinforce, and estimate concrete volume. Modern architectural design is increasingly using concrete footings and foundations. Students will learn the use of form, ties, and clamps to pour footings and foundations. F

BCT 202 Floor and Sills 2 credits. Students will learn the proper techniques and methods to frame a wood structure. Components of floor and sill framing will be taught as well as materials estimating. F

BCT 203 Interior Wall and Ceiling 2 credits. Students will be taught the vertical and horizontal support members of a structure and their purpose as the basis for further construction. Students will be able to assemble all the framing members of a structure. F

BCT 204 Roof Rafters and Sheathing 3 credits. Various roof framing members and different types of roofs will be identified. Students will learn about different types of roof openings and sheathing. F

BCT 205 Stairways and Special Framing 3 credits. Stairways and other special framing situations will be covered. The types and parts of staircases will be identified. Methods used for measuring rise and run, and materials estimating will be included. F

BCT 206 Field Construction Methods 2 credits. The purpose of this course is to train and provide students with practical experience in powder actuated tools, fastening methods, engineered lumber systems, safe rigging practices, building and electrical codes, and construction safety. Students will apply skills and knowledge to the construction of a modern home. F

BCT 210 Cornices and Gable Ends 2 credits. Types and styles of cornices and gables will be identified including the proper construction of each and the appropriate methods for finishing and covering. The student will learn measuring and estimating for purchase of materials. S

BCT 211 Roofing 2 credits. Roof covering is becoming a specialized area of construction. Types of roofs, appropriate roofing materials and tools needed to complete roof application will be taught. Students will be able to select and apply roofing to a framed structure. S

BCT 212 Exterior Walls and Trim 2 credits. Different types of water and wind wall protection will be covered and installation of siding to a framed structure will be taught. Students will also learn joint finishing and trim techniques to complete exterior walls. F

BCT 213 Exterior Doors & Windows 2 credits. Students will learn types of exterior doors and provide complete installation procedures to include door, frame, hardware, threshold, and weather-stripping. S

BCT 214 Insulation 1 credit. Energy conservation as it relates to types and uses for insulation in a residential structure will be discussed. Students will learn classification, types, and how to figure quantities needed on a project. F

BCT 215 Drywall 2 credits. Drywall sizes, types, and uses of drywall will be covered. Students will learn techniques to install, finish drywall joints and depressions, and learn types of drywall finishes that may be applied. Measuring and estimating will also be taught. S

BCT 216 Interior Doors and Trim 3 credits. Students will learn the types and techniques for installing interior doors. Hardware, moldings, and trim will be taught. The proper installation relating to door frame, wall size and type of room will be covered. S

BCT 217 Flooring 1 credit. Various types of floor covering, underlayment, and wood flooring will be taught. Estimating materials for the size of area to be covered will be discussed. S

BCT 218 Steel Stud Framing 2 credits. The students will demonstrate the correct and safe use of power tools and describe the various uses of steel studs. S

BCT 298 Special Topics 1-16 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time, pre-employment curriculum. PRE-REQ: Permission of instructor.

Business Information

2 to 5 Semester Program Options

Assistant Professors: Enos, Spinner
Master Instructors: Campbell, Larson

Four Certificate options, an Advanced Technical Certificate, three Associate of Applied Science Degrees and a Bachelor of Applied Technology Degree are available.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.iisu.edu/ctech/officetechnology.shtml.

Business Information students perform a wide variety of administrative and office management skills used in business. They may work in medical, legal, accounting, or other administrative office settings.

Accounting clerks perform a combination of calculating, posting, and verifying duties involving financial data. They use computers and work with database or spreadsheet programs to maintain accounting records.

Administrative office assistants use skills in management functions, organization, and technology, and are frequently responsible for planning travel, meetings, and other executive support duties. Employment opportunities are available in offices both large and small including banks, insurance, education, real estate, and government.

Medical office personnel in a medical office environment may schedule appointments, greet patients, process insurance claims, transcribe medical reports, plan medical meetings and operate business
Technical Certificate: Administrative Technology

**required for graduation.** A minimum cumulative GPA of 2.0 is not achieved in a required class, the student may repeat the class only one time. A minimum cumulative GPA of 2.0 is required for graduation.

PARA 110 Introduction to Paralegal Studies 3 cr

BI 110 Introduction to Business Information 2 credits. This course is designed to introduce general organizational and administrative office skills, address professional dress, etiquette, ethics, and human relations skills in the workplace, and explore careers in the field of administrative information technology. F, S
BI 119 Business Communications I 3 credits. Develops and reinforces skills in grammar, sentence structure, spelling, word usage, vocabulary, and punctuation. Emphasis on discussions of workplace communication and short compositions for use in the business environment. F, S
BI 120 Concepts of Accounting 3 credits. Course in the basics of accounting and the accounting cycle. Includes exercises in journalizing, posting, closing procedures and financial statement generation. F, S
BI 121 Digital Input and Transcription 3 credits. Use current digital input devices (digital recorders, speech recognition, personal digital assistants, and handwriting tablets) and standard transcription equipment to produce and manage business information. Emphasis on punctuation, word study, spelling, formatting, and proofreading skills. PREREQ: BI 118 and BI 144 or permission of the instructor. D
BI 123 Business Mathematics 3 credits. Review of basic mathematics with emphasis on application problems in common business situations. F, S
BI 131 Shorthand I 3 credits. Introduction to the principles of shorthand, including the shorthand alphabet, brief forms and phrasing.

Develops the student’s ability to read shorthand and to take dictation at a minimum of 50 words per minute (nwpm). D
BI 132 Shorthand II 3 credits. Puts shorthand theory to work to build speed and accuracy in dictation and transcription. Student should achieve a minimum speed of 80 wpm. PREREQ OR COREQ: BI 144. PREREQ: BI 131. D
BI 140 Keyboard Skill Development I credit. Enhances keyboarding skills and challenges students to attain higher keyboarding speeds. Emphasis on mastering the keyboard, developing good keyboarding techniques, and building keyboarding skills in speed and accuracy. PREREQ: 25 nwpm. F, S, Su
BI 141 Keyboarding 1 credit. This is a tutorial class covering the keyboard and basic typing skills. Develops the student’s ability to type at a minimum rate of 25 nwpm. F, S, Su
BI 144 Document Processing 3 credits. Builds basic word processing competencies. Emphasis on learning word processing functions, developing basic formatting skills, and learning document production such as letters, memos, reports, and table functions. Participants will develop competency with hands-on experience utilizing word processing software. PREREQ: 25 nwpm. D
BI 145 Advanced Document Processing 3 credits. This course emphasizes advanced word processing proficiency and focuses on productivity and mailability in document production. Emphasis is also placed on work habits and communication skills. PREREQ: BI 144. F, S
BI 152 Legal Terminology and Office Procedures 3 credits. Prepares students for duties and responsibilities in a legal office, develops interpersonal skills, and explores career opportunities. Theory and application of terminology essential in the preparation of legal correspondence and documents. PREREQ: “C” or better in BI 118. PREREQ OR COREQ: BI 119 and BI 145, or permission of instructor. S
BI 153 Legal Document Processing 3 credits. Students will become familiar with the U.S. and Idaho court systems in the preparation of forms and legal documents. Students will follow a lawsuit from before it is filed through litigation, trial, judgment, and appeal. Terminology will be utilized in handling legal dictation and transcription. PREREQ: Must have completed or be enrolled in BI 152. S
BI 154 Administrative Management 3 credits. Preparation for a broad range of administrative office management responsibilities. Collaboration skills, professional development, and career planning strategies. PREREQ: BI 118 and BI 144. PREREQ OR COREQ: BI 173 and BI 174. F, S
BI 170 Introduction to Computers 3 credit. Basic concepts, vocabulary, and working knowledge required to use a computer. Weekly
lectures/labs utilizing computers to understand concepts, operating systems, and software applications such as word processing, database, spreadsheets, electronic presentations, E-mail/Internet, and integrated projects that are used in the business environment. PREREQ: 25 nwpm. F, S, Su

BI 171 Computerized Accounting 3 credits.
This course is designed to offer the student the opportunity to experience hands-on microcomputer bookkeeping procedures, generate reports, and analyze financial statements. PREREQ: BI 120, BI 140, BI 144, and BI 170, or permission of instructor. F, S

BI 172 Business Information Integration and Presentation 3 credits.
Integrate computer applications to produce and present project-based electronic business information, using software such as Adobe Acrobat, PhotoShop, MS Office, MS Publisher, and basic HTML. F, S

BI 173 Spreadsheets 3 credits.
This course is designed to acquaint users with the process and skills of using personal computers and application software to create and format spreadsheets for the use of data computation and manipulation, database and file management, spreadsheet analysis, graphs. PREREQ: BI 170 or permission of instructor; typing speed of 25 nwpm recommended. D

BI 174 Records and Database Management 3 credits.
Introduction to records management. Emphasis on principles and practices of effective records management for manual and computerized records systems. PREREQ: BI 170 or permission of instructor; typing speed of 25 nwpm recommended. D

BI 175 Computer Applications 1 3 credits.
This course is designed to allow students to complete simulated projects utilizing a variety of computer applications. PREREQ: Permission of instructor. D

BI 201 Business Information Resources Management 3 credits.
Tools for managing technology and productivity in today’s business environment. Basic computer and network maintenance and troubleshooting. PREREQ: BI 154 or permission of instructor. F

BI 298 Special Topics 1-8 credits.
This course is designed to address the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time employment curriculum. Permission of the instructor is required.

Child Development
(2 to 4 Semesters)
Program Coordinator/Advanced Instructor: McQuain
Instructor: Ingram
One Post-Secondary Technical Certificate, one Technical Certificate, one Associate of Applied Science Degree and one Bachelor of Applied Technology Degree are available.

In addition, twelve (12) credits of Child Development coursework may be articulated to the Bachelor of Arts in Early Childhood Education, offered in the College of Education.

This course will provide students with the skills and knowledge to be responsible for meeting the specific needs of a group of children by nurturing the children’s physical, social, emotional, and intellectual needs; setting up and maintaining the early care and education environment; and establishing a liaison relationship between parents and the program.

All courses in the major and ENGL (English) 101 and 102 must be completed with a grade of ‘C’ or better. Students must maintain a 2.0 GPA in all courses to graduate.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/childdevelopment.shtml.

Post-Secondary Technical Certificate:
Family Child Care

Program offering of this option will depend upon sufficient student interest and availability of instructor.
(2 Semesters —Evening)

Required Courses:

CHLD 160 Professionalism in Family Child Care 1 cr
CHLD 161 Child Health and Safety 1 cr
CHLD 162 Environments in Family Child Care 1 cr
CHLD 164 Early Childhood Social and Emotional Development 2 cr
CHLD 166 Guidance in Early Childhood Education 1 cr
CHLD 168 Early Childhood Physical and Cognitive Development 2 cr
CHLD 170 Fostering Creativity 1 cr
CHLD 172 Curriculum Implementation 2 cr

CHLD 174 Parent Involvement and Program Management 1 cr

TOTAL: 12 cr

Students who have earned a Post-Secondary Technical Certificate (12 credits) need the following course to build on these credits toward the Technical Certificate (32 credits):

CHLD 113 Child Care and Education Practicum 20 cr

*Students interested in this upgrade should contact program faculty prior to registering for this course.

Technical Certificate:
Early Childhood Care and Education
(2 Semesters, Daytime or Evening)

Required Courses:

CHLD 105 Introduction to Early Childhood Care and Education 3 cr
CHLD 110 Child Health, Safety, Nutrition, and Environments 4 cr
CHLD 120 Social and Emotional Development in Early Childhood Care and Education 6 cr
CHLD 125 Guidance In Early Childhood Care and Education 3 cr
CHLD 130 Physical and Cognitive Development in Early Childhood Care and Education 6 cr
CHLD 135 Fostering Creativity 3 cr
CHLD 141 Family-Centered Care and Program Management in Early Childhood Care and Education 3 cr
CHLD 151 Curriculum Planning and Implementation in Early Childhood Care and Education 4 cr

TOTAL: 32 cr

Associate of Applied Science Degree:
Early Childhood Care and Education
(4 Semesters)

Required Courses:

CHLD 105 Introduction to Early Childhood Care and Education 3 cr
CHLD 110 Child Health, Safety, Nutrition, and Environments 4 cr
CHLD 120 Social and Emotional Development in Early Childhood Care and Education 6 cr
CHLD 125 Guidance In Early Childhood Care and Education 3 cr
CHLD 130 Physical and Cognitive Development in Early Childhood Care and Education 6 cr
CHLD 135 Fostering Creativity 3 cr
CHLD 141 Family-Centered Care and Program Management in Early Childhood Care and Education 3 cr
CHLD 151 Curriculum Planning and Implementation in Early Childhood Care and Education 4 cr
CHLD 210 Advanced Topics in Early Childhood Care and Education 3 cr
CHLD 215 Administration and Program Management in Early Childhood Care and Education 2 cr

TOTAL: 32 cr

Business Technology
(See Marketing and Management Occupations)
CHLD 250 Childhood Care and Education 3 cr
Capstone Project in Early Childhood Care and Education 3 cr
BI 170 Introduction to Computers 3 cr

OPTIONAL:
CHLD 298 Special Topics in Early Childhood Care and Education 1-3 cr

General Education Requirements:
ENGL 101 English Composition 3 cr
ENGL 102 Critical Reading and Writing (Goal 1) 3 cr
Goal 2 3 cr
Goal 3 3 cr
BIOL 100/100L Concepts Biology: Human Concerns, and Lab (Goal 4) 4 cr
PSYC 101 Introduction to General Psychology (Goal 12) 3 cr
SOC 101 Introduction to Sociology (Goal 12) 3 cr
Total Required Credits: 66 cr

CHLD Courses

CHLD 105 Introduction to Early Childhood Care and Education 3 credits. Introduces early childhood education and care (ECCE) and the role of the teacher. Orientation to the Early Childhood Associate Degree Program, including professionalism in ECCE, an overview of child growth and development, and how to observe children. Includes classroom lecture and practicum. F

CHLD 110 Child Health, Safety, Nutrition, and Environment 4 credits. Promoting/maintaining health and well-being of children, including health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, indoor/outdoor environmental design, schedules and routines, recognition and reporting of abuse and neglect, and licensing regulations. Includes classroom lecture and practicum. F

CHLD 113 Curriculum Practicum in Early Childhood Care and Education 4-20 credits. Practical experience with planning, implementing and evaluating curriculum that enhances children’s development in all domains. Upon completion, students who have completed the PSTC will meet requirements for entry into the second year of the A.A.S. Includes credit for documented work experience after obtaining a CDA. May be repeated for up to 20 credits. PREREQ: Permission of instructor. D

CHLD 120 Social and Emotional Development in Early Childhood Care and Education 6 credits. Emphasizes stages of social and emotional development, encouraging self-esteem, cultural awareness, and effective communication skills. Introduces observation and assessment of social and emotional skills; describes strategies to promote healthy social and emotional development. Includes classroom lecture and practicum. F, S

CHLD 125 Guidance In Early Childhood Care and Education 3 credits. Principles and techniques for providing developmentally appropriate guidance. Emphasis is placed on communication skills, strategies, and observation to understand the underlying causes of behavior. Students will demonstrate appropriate interaction with children, families, and promote conflict resolution, self-control, and self-motivation. Includes classroom lecture and practicum. F, S

CHLD 130 Physical and Cognitive Development in Early Childhood Care and Education 6 credits. Introduction to children’s physical and cognitive development, including discovery experiences in math and science, block play, social studies, verbal and written language acquisition, and foundations in gross and fine motor development, brain development, multiple intelligences and learning styles. Includes classroom lectures and practicum. F, S

CHLD 135 Fostering Creativity 3 credits. Creative learning environments, planning and implementing developmentally appropriate experiences, and developing appropriate teaching materials for the classroom. Emphasizes creative activities for children in art, music, movement and physical skills, and dramatics. Includes classroom lecture and practicum. F, S

CHLD 141 Family-Centered Care and Program Management in Early Childhood Care and Education 3 credits. Relationships between families and programs. Emphasis on requisite skills and benefits for successfully establishing, supporting, and maintaining respectful, collaborative relationships between today’s diverse families, centers/school, and community resources. Strategies to ensure effective program operation are introduced. Includes classroom lecture and practicum. S

CHLD 151 Curriculum Planning and Implementation in Early Childhood Care and Education 4 credits. Philosophy, curriculum, scheduling, observation and assessment, and instructional planning and evaluation. Students will assess children and curriculum; plan for daily, weekly, and long-range instruction; and design environments with appropriate equipment and supplies. Includes classroom lecture and practicum. S

CHLD 160 Professionalism in Family Child Care 1 credit. An introductory course including orientation to the Child Development program; stages of child development; introduction to professional organizations, networks, community resources, and advocacy. Also including methods of observation and use of observations to plan curriculum. Includes classroom lectures and individualized instruction. D

CHLD 161 Child Health and Safety in Family Child Care 1 credit. Safe and healthy environments for young children. Health and safety practices in early care and education. Students will be taught how to assess and ensure safe indoor and outdoor areas. Includes mental health and personal safety, classroom lectures, and individualized instruction. D

CHLD 162 Environments in Family Child Care 1 credit. Students will be taught how to assess, develop and implement stimulating learning environments for infants, toddlers, and preschool children. Includes classroom lectures and individualized instruction. D

CHLD 164 Early Childhood Social and Emotional Development in Family Child Care 2 credits. Introduction to children’s social development, social awareness, and concept of self. This course focuses on development of personal self-esteem in caregivers as well as children. Includes classroom lectures and individualized instruction. D

CHLD 166 Guidance in Early Childhood Education in Family Child Care 1 credit. Positive guidance techniques. Learning includes supporting social and emotional development by helping children to learn and practice appropriate and acceptable behaviors as individuals and as a group. Includes classroom lectures and individualized instruction. D

CHLD 168 Early Childhood Physical and Cognitive Development in Family Child Care 2 credits. Introduction to children’s physical and cognitive development. This course focuses on providing an environment supportive of children’s acquisition of motor and cognitive competence through activities and opportunities that encourage curiosity, development levels and learning styles of children. Includes classroom lectures and individualized instruction. D

CHLD 170 Fostering Creativity in Family Child Care 1 credit. An introductory course which includes the value of play for children and methods to advance emotional, physical and intellectual competence through opportunities that stimulate children to play with sound, rhythm, language materials, space and ideas in individual ways, and to express their creative abilities. Creativity in caregivers is also examined. Includes classroom lectures and individualized instruction. D

CHLD 172 Curriculum Implementation in Family Child Care 2 credits. This course combines skills learned in previous courses into responsibility for planning and implementation in the classroom. This course focuses on applying theory into a practical setting. Includes classroom lectures and individual instruction. D

CHLD 174 Parent Involvement and Program Management in Family Child Care 1 credit. This course introduces students to family education, program management and professionalism in early childhood education. Topics studied include: parenting styles and strategies, family communication, discipline, stress management, functional and dysfunctional families, family structures, team building, time management, job interviews, resume development, professional image, and professional development. Includes classroom lectures and individualized instruction. D

CHLD 210 Advanced Topics in Early Childhood Care and Education 3 credits. Elaborates on developmentally appropriate practice in early childhood education and care and research into other current topics, as related to student needs and interest. A focus on anti-bias curriculum and children’s literature is also included. Includes classroom lecture and practicum. F

CHLD 215 Children with Exceptionalities 2 credits. Introduces working with children with exceptionalities. Emphasis on the characteristics of children and strategies for adapting the learning environment. Students will recognize atypical development, make appropriate referrals, and collaborate with families and professionals to plan, implement, and evaluate inclusion strategies. Includes classroom lecture and practicum. F

Courses listed will be taught in sequential blocks of instruction. At least a C- grade is required in all CET courses in order to continue to the next level course. A C- in any Civil Engineering Technology course will allow a student to continue; however, it could prevent a student from graduating if the cumulative grade point average is less than 2.0 (a C- equals 1.7). A student must have a 2.0 GPA in the program’s required curriculum in order to be eligible for a certificate or degree.

After successful completion of Civil Engineering Technology CET 110 Applied Mathematics I, and CET 120 Applied Mathematics II, a student may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply toward the 128 credits required for a bachelor’s degree.

CET Courses

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

CET 110 Applied Mathematics I 4 credits. Review of numerical computations, algebra, equations and word problems, functions and graphs, geometry, right triangle trigonometry and vectors, factoring and fractional equations. Emphasis on using scientific calculator. Math will be applied to practical lab and field work when possible. F

CET 111 Drawing with CAD 3 credits. A basic study of mechanical drawing with computer-aided-drafting emphasis. Instructional units include icon uses with layers, linetypes and colors, editing drawings, coordinate usage, polylines, text; hatching, dimensioning, multiview, and layout. Cross-listed as GEMT 111. F

CET 112 Beginning Surveying 5 credits. Introduction to surveying. Theory and field work using equipment in the areas of measuring (taping, chaining, using hand levels), leveling (differential and profile), theodolites and total stations. Field projects include alignment stakeout, profile leveling, closed traverse, and an introduction to survey coordinate geometry applications. Cross-listed as GEMT 112. F

CET 115 Materials Testing and Specifications I 2 credits. Use of materials testing equipment to conduct test procedures and to determine specifications for soils and aggregates used in construction. Prepares student for WAQTC aggregate qualifications examination. F

CET 120 Applied Mathematics II 4 credits. A continuation of CET 110 Applied Mathematics I studying oblique triangle trigonometry and vectors; radians, are length, and rotations; exponents and radicals; quadratic equations; systems of linear equations; ratio, proportion, and variation, with emphasis on areas relating to Civil Engineering Technology. PREREQ:
CET 110. S

CET 121 Civil Engineering Technology Drafting 3 credits. Civil Engineering Technology drafting, municipal and rural maps and drawing, drainage applications, plan and profile drawings, cross-sections, earthwork and other details relating to Civil Engineering Technology drawings. Computer-aided-drafting is used for drawings. Cross-listed as GEMT 121. PREREQ: CET/GEMT 111. S

CET 122 Intermediate Surveying 5 credits. Study survey of land, traverses and closures, bearings and coordinates, and construction surveying and staking. Control for surveys, topography surveying and mapping using calculators and COGO to solve surveying problems. Introduction to data collection. Produce survey drawings with TDS COGO. Cross-listed as GEMT 122. PREREQ: CET 112. S

CET 125 Materials Testing and Specifications II 2 credits. Concrete testing procedures are conducted and concrete specifications are determined. Prepares student for WAQTC concrete qualifications examination. PREREQ: CET 115. S

CET 211 Utility Design and Construction 3 credits. Basic study of water and wastewater distribution systems. Includes capacity analysis, pressure pipe analysis and gravity flow in pipe. Studies design and construction criteria for public utility systems. Include simple project design calculations and drafting using CAD drafting software. PREREQ: CET 110 and CET 120. COREQ: CET 212. F

CET 212 Route Survey, Design and State Plane Coordinates 10 credits. Study of route surveying. Circular, spiral, and parabolic curves as applied to highway design. Route locations, plans, and specifications. Is a study of Idaho state plane coordinate system, resections and radial surveying. Plans will be drawn with plotters using CAD and survey/engineering software. Cross-listed as GEMT 212. PREREQ: CET/GEMT 112.

CET 215 Materials Testing and Specifications III 3 credits. Soils testing procedures are conducted to determine soils specifications, culminating in soils survey/profile drawings. Hands-on radiation safety training on the nuclear densometer. Field trips to construction sites to collect soil samples for testing. Prepares students for WAQTC embankment and base in-place density qualification examinations. PREREQ: CET 125. COREQ: CET 212. F

CET 220 Engineering Mechanics 3 credits. Non-calculus course relating to the principles of plane statics and dynamics and their application to engineering problems. Includes such topics as force systems, equilibrium condition, force analysis of structures. Includes study of stresses and strains, beam section properties (physical and mechanical). Computation of bending and shear forces and design of structural beams will be included. PREREQ: CET 120.

CET 224 Land and Construction Surveys 10 credits. Advanced study of surveying topics including the Public Lands Survey System, land divisions and descriptions, and construction staking procedures. Use principles of calculations of roadway projects using data collection and computer software; basic GPS theory and operation in surveying practices. Cross-listed as GEMT 224. PREREQ: CET/GEMT 212. S

CET 225 Materials Testing and Specifications IV 3 credits. Asphalt testing procedures and asphalt specifications determinations. Roadway or subdivision civil engineering project plans are studied. Field trips to test asphalt density at construction paving project sites. Prepares students for WAQTC asphalt qualifications examinations. PREREQ: CET 115 and CET 215. S

CET 298 Special Topics 1-8 credits. This course is designed to address the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program's full-time pre-employment curriculum. PREREQ: Permission of instructor.

Computer Aided Design Drafting Technology

(9 sessions)

Instructors: Fanning, Holmes, Wheelock

One Advanced Technical Certificate, one Associate of Applied Science, and one Bachelor of Applied Science are available.

Objectives:
1. To provide educational opportunities for individuals who are seeking work in the design and drafting industry to gain necessary knowledge to create and revise engineering and architectural drawings in various disciplines and complete basic design calculations.
2. To provide students the opportunity to learn to plan drawing layout, project setup, and proficiency in computer-aided-design drafting (CADD) software in a hands-on setting.
3. To prepare students to become employed in a globally competitive marketplace.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/cadd.shtml.

Advanced Technical Certificate:
Computer Aided Design Drafting

Required Courses:
- CADD 101: Drafting Technology Theory 12 cr
- CADD 102: Drafting Technology Laboratory I 3 cr
- CADD 111: Drafting Technology Theory II 12 cr
- CADD 112: Drafting Technology Laboratory II 3 cr
- CADD 121: Mechanical Drafting Technology Theory I 2 cr
- CADD 122: Mechanical Drafting Technology Laboratory I 3 cr
- CADD 123: Drafting Applied Geometry and Trigonometry 2 cr
- CADD 131: Drafting Technology Theory III 2 cr
- CADD 132: Drafting Technology Laboratory III 3 cr
- CADD 133: Drafting Applied Algebra and Statics 2 cr
- CADD 141: Drafting Technology Laboratory IV 3 cr
- CADD 142: Drafting Technology Theory IV 2 cr
- CADD 201: Mechanical Drafting Technology Laboratory IV 3 cr
- CADD 202: Mechanical Drafting Technology Theory II 2 cr
- CADD 203: Mechanical Drafting Technology Laboratory II 5 cr
- CADD 211: Architectural Design Technology Theory 2 cr
- CADD 212: Architectural Design Technology Laboratory 3 cr
- CADD 214: Drafting Applied Science II 2 cr
- CADD 221: Electrical Drafting Technology Theory 2 cr
- CADD 222: Electrical Drafting Technology Laboratory 5 cr
- CADD 231: Mechanical Design Technology Theory 2 cr
- CADD 232: Mechanical Design Technology Laboratory 3 cr
- CADD 234: Drafting Applied Science III 2 cr

General Education Requirements:
- ENGL 101: English Composition 3 cr
- COMM 101: Principles of Speech 3 cr

TOTAL: 64 cr

Associate of Applied Science Degree:
Computer Aided Design Drafting Technology

Required Courses:
- CADD 101: Drafting Technology Theory 12 cr
- CADD 102: Drafting Technology Laboratory I 3 cr
- CADD 111: Drafting Technology Theory II 12 cr
- CADD 112: Drafting Technology Laboratory II 3 cr
- CADD 121: Mechanical Drafting Technology Theory I 2 cr
- CADD 122: Mechanical Drafting Technology Laboratory I 3 cr
- CADD 123: Drafting Applied Geometry and Trigonometry 2 cr
CADD 131 Drafting Technology Theory III 2 credits. Additional drafting principles and topics. Includes layout of electrical and electronic drawings, and steel detailing. PREREQ: CADD 121. COREQ: CADD 132. F, S, Su

CADD 132 Drafting Technology Laboratory III 3 credits. Computer and CAD system. PREREQ: CADD 102. F, S, Su

CADD 133 Drafting Applied Algebra and Statics 2 credits. Includes layout of electrical and electronic drawings, and steel detailing. PREREQ: CADD 121. COREQ: CADD 132. F, S, Su

CADD 141 Drafting Technology Theory IV 2 credits. COREQ: CADD 142. F, S, Su

CADD 142 Drafting Technology Laboratory IV 3 credits. Drafting of complete electrical drawings. PREREQ: CADD 111. COREQ: CADD 141. F, S, Su

CADD 143 Drafting Applied Algebra and Statics 2 credits. Geometry, trigonometry and introduction to statistics. Solutions of problems relating to design drafting are emphasized. PREREQ: CADD 123. F, S, Su

CADD 141 Drafting Technology Theory IV 3 credits. Descriptive geometry. Theory of graphical solutions to design problems relating to piping, machinery, and structures are emphasized, using both manual and computer-aided-design techniques. PREREQ: CADD 121. COREQ: CADD 142. F, S, Su

CADD 142 Drafting Technology Laboratory IV 3 credits. Apply Drafting Technology Theory IV, solving practical design problems using graphical techniques, and stressing logic. Includes structures, machines, and piping. Both manual and CAD procedures are presented. PREREQ: CADD 122. COREQ: CADD 141. F, S, Su

CADD 144 Drafting Applied Science I 2 credits. Review of algebra, geometry, and trigonometry to help students transition into physics and statics. PREREQ: CADD 123. F, S, Su

CADD 201 Mechanical Drafting Technology Theory II 2 credits. Instruction in drafting theory of working drawings, 3-D modeling, and piping. PREREQ: CADD 121. COREQ: CADD 202. F, S, Su

CADD 202 Mechanical Drafting Technology Laboratory II 5 credits. Application of computer-aided-design technology in drafting to help students transition into physics and statics. PREREQ: CADD 122. COREQ: CADD 201. F, S, Su

CADD 211 Architectural Design Technology Theory 2 credits. Drafting theory of weldments, gaskets, bearings, and assemblies. PREREQ: CADD 122. F, S, Su

CADD 212 Architectural Design Technology Laboratory I 3 credits. Application of computer-aided-design technology in drafting to help students transition into physics and statics. PREREQ: CADD 122. COREQ: CADD 211. F, S, Su

CADD 214 Drafting Applied Science I 2 credits. Properties of materials used in design and construction; construction processes, characteristics of materials including aggregates, Portland cement concrete, and masonry; use of lab equipment for testing of materials. PREREQ: CADD 133. F, S, Su

CADD 221 Electrical Drafting Technology Theory 2 credits. Electronic and electrical packaging concepts and standards. PREREQ: CADD 121. COREQ: CADD 222. F, S, Su

CADD 222 Electrical Drafting Technology Laboratory 5 credits. Application of Drafting Technology Theory. Drafting of complete electrical drawing packages. PREREQ: CADD 122. COREQ: CADD 221. F, S, Su

CADD 231 Mechanical Design Technology Theory 2 credits. Beam design; truss analysis by use of applied statics and strength of materials. Structural design is emphasized. PREREQ: CADD 121. COREQ: CADD 232. F, S, Su

CADD 232 Mechanical Design Technology Laboratory 3 credits. Application of Mechanical Design Technology Theory including beam design, truss analysis and structural design. PREREQ: CADD 122. COREQ: CADD 231. F, S, Su

CADD 234 Drafting Applied Science III 2 credits. Properties and associated testing of materials used in construction and planning details relating to these topics. Statics and strength of materials including stress and deformation, structural and mechanical joints, torsion, centroid and moments of inertia, beam and column design, and combined stresses. PREREQ: CADD 214. F, S, Su

CADD 291 CADD Directed Studies 1-8 credits. Individual work under staff guidance in short, specialized subject areas. PREREQ: CADD major or permission of coordinator. F, S, Su

CADD 295 CADD Internship 1-16 credits. Industrial work experience via a cooperative program for selected students. PREREQ: CADD major or permission of coordinator. F, S, Su

CADD 298 Special Topics 1-8 credits. Addresses specific needs of individuals, enabling student to upgrade technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: CADD major or permission of coordinator. F, S, Su

Computer/ Business Equipment Technology

(2 Semesters)
Coordinator and Instructor: Hill
Instructor: McElhinney

Objectives:
1. To develop entry-level skills in repairing and servicing business equipment.
2. To develop entry-level skills in setup and maintenance of computer networks.
Courses listed will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade of C- or better obtained before the student can advance in the program. However, a C- could prevent a student from graduating if the cumulative grade point average is less than 2.0 (a C- equals 1.7). A student must have a 2.0 GPA in the program’s required curriculum in order to be eligible for a certificate or degree.

Upon completion of the Associate of Applied Science Degree, a Bachelor of Applied Science Degree is available to a student with the completion of formally approved academic courses. Program length will vary depending on student’s academic qualifications at time of acceptance.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/computerbusiness.shtml.

Based on keyboarding skills, student may be required to take a 1 credit keyboarding class in order to meet the competencies of the program.

### CBET Courses

**CBET 140 Operating Systems – Installation and Configuration 4 credits.** Prepares the student with keyboarding skills and operating systems, their commands and functions. Theory of the electrical parts, their functions and adjustments, and troubleshooting, repair, and overhaul of mechanical devices. Instruction in hand tools, power tools, mechanical parts and lubrication of parts. Lecture/laboratory. F, S

**CBET 142 Beginning Customer Relations 2 credits.** Prepares student to meet the public and communicate orally. Introduces significance of maintenance agreements, telephone etiquette, dress standards, personal hygiene, work standards and human relations. Lecture. F, S
**Computer Software Development Technology**

(2½ to 4½ Semesters)

Program Coordinator and Senior Instructor: Naas

Instructor: Adjunct Faculty: Lewis-Mangum, Richardson, Ward

Two certificate options, one advanced Technical Certificate, two Associate of Applied Science Degrees, and one Bachelor of Applied Science Degree are available.

The program is accredited by The National Association of Industrial Technology. The primary purpose of the National Association of Industrial Technology accreditation is to provide recognition of the attainment of certain professional goals and standards for Industrial Technology. The secondary purpose is to encourage others to strive toward these goals and standards. Each curricular pattern is reviewed in terms of its stated objectives, content, methods, supporting resources and evaluating techniques.

**Objective:** To develop entry-level skills in computer software applications development.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to [http://www.isu.edu/ctech/computersoftware.shtml](http://www.isu.edu/ctech/computersoftware.shtml).

Every student is required to earn at least a “C” in the program’s technical/core courses as outlined per option or degree. A student must have a 2.0 GPA in the program’s required curriculum in order to be eligible for a certificate or A.A.S. Degree.

**Technical Certificate:**

**Computer Operator**

(2½ Semesters)

CSDT Courses

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

Every student is required to earn at least a “C” in the program’s technical/core courses as outlined per option or degree. A student must have a 2.0 GPA in the programs required curriculum in order to be eligible for a certificate or A.A.S. Degree.

CSDT 119 Computer Programming Concepts I 4 credits. Involves writing, executing, debugging, and documenting a series of computer programs for a typical business application using a modern computer language such as C++. Structured and object-oriented programming techniques will be covered. Taught as a first programming language. F

CSDT 120 Computer Programming Concepts II 4 credits. Continuation of CSDT 119, including arrays, iteration, sorting, classes and functions. F

CSDT 180 Web Application Development 3 credits. Introductory course in technologies behind e-commerce from a non-programmer’s viewpoint. Provides a basic understanding of server side security, how to create a simple shopping cart and how to connect web pages to a database. Students use ASP.net, Visual Basic and PHP in a visual environment. PREREQ: BI 170 and BI 178. S

CSDT 181 Computer and Internet Fundamentals 3 credits. Introduction to computer and Internet concepts. Exposure to major hardware components and productivity tools. Student design and creation of web pages using HTML and CSS. Overview of information systems and current uses of computers in business; current
CSDT 183 Computer Operating Systems and Internet Servers 3 credits. Functions and use of operating systems used to host web servers; use of file systems to maintain and secure files and web pages. Installation and configuration of software packages and web server software. Internet browsers and servers and their protocols. S

CSDT 187 Internet Networking and Connectivity 3 credits. Basic concepts and terms used in local area networks (LANs) and the Internet; use and configuration of network operating systems and Internet hardware. Prototype LAN design, including network hardware, software, and Internet connectivity, solving problems associated with its management, and use of Internet protocols such as TCP/IP, DNS, and DHCP. S

CSDT 202 Browser Scripting Language 3 credits. Browser and server communication protocols. Use of JavaScript to design and develop dynamic web pages with animation and cookies. Includes validation of web forms on the client side. PREREQ: CSDT 120 or permission of instructor. S

CSDT 217 Internet Server Scripting 3 credits. Fundamentals of Microsoft Visual Basic programming and ASP.Net to create web forms. Syntax of Visual Basic.NET and ASP.NET including control structures, arrays and functions. Basic web forms that include text boxes, labels, buttons, radio buttons, check boxes, and hypertext links. PREREQ: CSDT 212 or permission of instructor. S

CSDT 218 Internet Server Scripting Language II 3 credits. Continuation of CSDT 217. Linking web forms to databases, and creating classes using database objects to access Microsoft and Oracle databases. PREREQ: CSDT 217 or permission of instructor. S

CSDT 220 Internet Programming 3 credits. Study of basic protocols that constitute the core of Internet information resources. Introduction to HTTP server technology. Installation and configuration of an Internet server. Includes TCP/IP, HTML, FTP, NNTP and Usenet news basics; access and error logs; introduction to CGI. PREREQ: CSDT 225 and CSDT 287 or permission of instructor. S

CSDT 221 Internet Programming Advanced 3 credits. This course will familiarize the student with the Common Gateway Interface (CGI), teach the basics of CGI programming in Perl, show students how to find programming resources on the WWW and discuss the basic elements of web security. Students will create HTML forms and form actions, use the GET and POST methods of data submission, write common CGI applications in Perl, and learn Access control and Intranets. PREREQ: CSDT 220. S

CSDT 225 Internet Programming Concepts 3 credits. Explore issues involved in the design, development, and deployment of Internet based applications. PREREQ: CSDT 218 and CSDT 286 or permission of instructor. S

CSDT 227 Internet Page Design Languages 3 credits. Major languages used in the design and development of web pages, including HTML, XHTML, CSS and XML. Basic design principles of web pages and use of XHTML and CSS to design well formed web pages. S

CSDT 284 Oracle 3 credits. Programming in Oracle on the personal computers. The course includes design, development, and testing using Oracle Developer 2000 tools: forms, reports, and graphics. PREREQ: CSDT 286. F

CSDT 286 Database Programming 4 credits. Languages such as Oracle or Visual Basic, introduce the student to the concepts of managing and designing database management systems. Students design databases using Intensity Relationship Diagrams and normalization procedures. Two-tier client/server applications are developed and three-tier architectures are explored. Su

CSDT 287 E-Commerce Systems Analysis and Design 4 credits. Fundamentals of systems development life cycle with e-commerce applications. Design of a complete e-commerce system, creating and using process and data modeling tools such as data flow and entity relationship diagrams and navigation design principles. PREREQ OR COREQ: CSDT 220 or permission of instructor. S

CSDT 288 Advanced Database Programming 3 credits. Continuation of CSDT 286. Use of scripting languages such as PHP or Visual Basic to work with stored procedures and other advanced database features. Use of XML and AJAX to display database information in web pages. PREREQ: CSDT 286 or permission of instructor. F

CSDT 290 E-Commerce Systems Development and Implementation 4 credits. Continuation of CSDT 287. Coding, testing, and implementation of the system designed in CSDT 287, to produce a web site that contains front-end forms with back-end database access and maintenance. PREREQ: CSDT 287 or permission of instructor. S

CSDT 297 Internship 1-16 credits. On-the-job placement providing further work experiences for persons pursuing careers in data processing technology. PREREQ: Permission of instructor. S

CSDT 298 Directed Studies 1-16 credits. Work tailored to individual requirements under faculty guidance. PREREQ: Permission of instructor. S

CSDT 299 Directed Studies 1-16 credits. Work tailored to individual requirements under faculty guidance. PREREQ: Permission of instructor. S

Post-Secondary Technical Certificate: CNC Programmer

4 Sessions

Requires machining experience; a student needs instructor permission to enroll in this option.

Required Courses:

MACH 261 CNC Introduction to Theory 2 cr
MACH 270 CNC Machining Practice I 4 cr
MACH 271 CNC Programming Theory I 2 cr
MACH 272 CNC Math I 2 cr
MACH 281 CNC Programming Theory II 2 cr
MACH 290 CNC Machining Practice II 6 cr

TOTAL: 18 cr

Advanced Technical Certificate: CNC Operator

8 Sessions

Required Courses:

MACH 110 Engine Lathe Practice I 5 cr
MACH 111 Engine Lathe Theory I 2 cr
MACH 112 Machine Math I 2 cr
MACH 120 Milling Practice I 5 cr
MACH 121 Milling Theory I 2 cr
MACH 123 Interpreting Blueprints 2 cr
MACH 130 Engine Lathe Practice II 5 cr
MACH 135 Materials Science 2 cr
MACH 136 Applied Machining Geometry and Trigonometry 2 cr
MACH 140 Milling Practice II 6 cr
MACH 220 CNC Mill Operations 8 cr
MACH 240 CNC Lathe Operations 8 cr
MACH 250 Advanced Machine Practice I 7 cr
MACH 260 Advanced Machine Practice II 7 cr
MACH 261 CNC Introduction To Theory 2 cr

Objectives

Students will:

• develop entry-level skills in the operation of manual lathes and milling machines; and

• develop entry-level skills in CNC (Computerized Numerical Control) machine programming and operation.

The program is accredited by The National Association of Industrial Technology.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/machining_technology.shtml.

Computerized Machining Technology

One 5-session option; one 8-session option, and one 9-session option

Coordinator/Instructor: Gibbs

Instructor: Clay

One Postsecondary Technical Certificate, two Advanced Technical Certificates, one Associate of Applied Science Degree, and one Bachelor of Applied Science Degree are available.
Advanced Technical Certificate:
Machining Technology

9 Sessions

Required Courses:
The following required courses must be completed with a 2.0 GPA:

- MACH 110: Engine Lathe Practice I (5 cr)
- MACH 111: Engine Lathe Theory I (2 cr)
- MACH 112: Machine Math I (2 cr)
- MACH 120: Milling Practice I (5 cr)
- MACH 121: Milling Theory I (2 cr)
- MACH 123: Interpreting Blueprints (2 cr)
- MACH 130: Engine Lathe Practice II (5 cr)
- MACH 135: Materials Science (2 cr)
- MACH 136: Applied Machining Geometry and Trigonometry (2 cr)
- MACH 140: Milling Practice II (6 cr)
- MACH 220: CAD/CAM I Theory (3 cr)
- MACH 221: CAD/CAM I Applications (3 cr)
- MACH 225: Interpreting Technical Data (2 cr)
- MACH 250: Advanced Machine Practice I (7 cr)
- MACH 255: CAD/CAM II (2 cr)
- MACH 256: CNC Programming Theory I (2 cr)
- MACH 270: CNC Machining Practice I (4 cr)
- MACH 271: CNC Programming Theory I (2 cr)
- MACH 272: CNC Math I (2 cr)
- MACH 275: CAD/CAM II (2 cr)
- MACH 278: CNC Programming Theory II (2 cr)
- MACH 290: CNC Machining Practice II (6 cr)
- TGE 158: Employment Strategies (2 cr)

General Education Requirements:
- ENGL 101: English Composition (3 cr)
  - Goal 2
- ENGL 201: Technical Writing I (2 cr)
  - Goal 3
- ENGL 251: Advanced Writing (3 cr)
  - Goal 4
- MATH 110: College Algebra (3 cr)
  - Goals 6, 7, 9, 10, 11 or 12

TOTAL: 88 cr

Associate of Applied Science Degree:
Computerized Machining Technology

9 Sessions

Required Courses:
The following required courses must be completed with a 2.0 GPA:

- MACH 110: Engine Lathe Practice I (5 cr)
- MACH 111: Engine Lathe Theory I (2 cr)
- MACH 112: Machine Math I (2 cr)
- MACH 120: Milling Practice I (5 cr)
- MACH 121: Milling Theory I (2 cr)
- MACH 123: Interpreting Blueprints (2 cr)
- MACH 130: Engine Lathe Practice II (5 cr)
- MACH 135: Materials Science (2 cr)
- MACH 136: Applied Machining Geometry and Trigonometry (2 cr)
- MACH 140: Milling Practice II (6 cr)
- MACH 220: CAD/CAM I Applications (3 cr)
- MACH 221: CAD/CAM I Theory (3 cr)
- MACH 225: Interpreting Technical Data (2 cr)
- MACH 250: Advanced Machine Practice I (7 cr)
- MACH 256: Advanced Machine Practice II (7 cr)
- MACH 261: CNC Introduction To Theory 2 cr
- MACH 270: CNC Machining Practice I (4 cr)
- MACH 271: CNC Programming Theory I (2 cr)
- MACH 272: CNC Math I (2 cr)
- MACH 275: CAD/CAM II (2 cr)
- MACH 278: CNC Programming Theory II (2 cr)
- MACH 290: CNC Machining Practice II (6 cr)
- TGE 158: Employment Strategies (2 cr)

MACH Courses

- MACH 110: Engine Lathe Practice I (5 cr)
  - Basic engine lathe cutting operations of turning, facing, boring, tapping and threading as required when producing machine parts.
  - COREQ: MACH 111, F, S
- MACH 111: Engine Lathe Theory I (2 cr)
  - A basic theory course dealing with engine lathe terminology, use, functions, tooling and concepts.
  - Emphasis is placed on study habits and class participation.
  - COREQ: MACH 110, F, S
- MACH 112: Machine Math I (2 cr)
  - Basic math principles of fractional and decimal numbers as related to machine shop measuring, blueprint reading, taper turning, threading and cutting speeds and feeds.
  - Course covers basic algebra.
  - F, S
- MACH 120: Milling Practice I (5 cr)
  - Basic milling cutting operations of end milling, fly cutting, drilling and boring performed on the vertical mill. Also includes surface grinder, and benchmarking practices as scheduling permits.
  - COREQ: MACH 121, F, S, Su
- MACH 121: Milling Theory I (2 cr)
  - A basic theory course dealing with milling machine terminology, uses, functions, tooling and concepts.
  - Emphasis is placed on study habits and class participation.
  - COREQ: MACH 120, F, S, Su
- MACH 122: Milling Practice II (7 cr)
  - Basic milling cutting operations of end milling, fly cutting, drilling and boring performed on the vertical mill. Also includes surface grinder, and benchmarking practices as scheduling permits.
  - COREQ: MACH 121, F, S, Su
- MACH 130: Engine Lathe Practice II (5 cr)
  - Set-up and operation of computer numerically controlled (CNC) vertical milling centers. Build jigs, set tooling, and use pre-written programs to produce CNC parts.
  - COREQ: MACH 261, F, S, F
- MACH 135: Materials Science (2 cr)
  - Study of ferrous and nonferrous metals, heat treating, hardness testing, alloys, machinability and strength pertaining to the machinist trade.
  - F, S, Su
- MACH 136: Applied Machining Geometry and Trigonometry (2 cr)
  - More advanced math course using geometry and trigonometry required when solving threading, tapping, chords, arcs, areas, and milling speed/feed problems in a machine shop environment.
  - PREREQ: MATH 144, F, S
- MACH 140: Milling Practice II (6 cr)
  - A continuation of MACH 120 on horizontal and vertical milling machines, performed to closer tolerances and time limits. Also includes grinding, layout and drilling operations as scheduling permits.
  - PREREQ: MACH 120, F, S, Su
- MACH 220: CAD and CAM I Applications (3 cr)
  - A hands-on laboratory utilizing computers for programming CNC machining centers for production purposes.
  - COREQ: MACH 221. Su
- MACH 221: CAD and CAM I Theory (3 cr)
  - Introductory theory course in the utilization of CAD/CAM systems.
  - PREREQ: Permission of program coordinator. Su
- MACH 225: Interpreting Technical Data (2 cr)
  - Study of tables, charts, formulas, thread calculations, and related information as required of a machinist working in industry.
  - PREREQ: MACH 132 and MACH 135 Su
- MACH 230: CNC Mill Operations (8 cr)
  - Set-up and operation of computer numerically controlled (CNC) vertical milling centers. Build jigs, set tooling, and use pre-written programs to produce CNC parts.
  - PREREQ: MACH 261, S, F
- MACH 240: CNC Lathe Operations (8 cr)
  - Set-up and operation of computer numerically controlled lathes. Set the tooling and use pre-written programs to produce CNC parts.
  - PREREQ: MACH 261, S, F
- MACH 250: Advanced Machine Practice I (7 cr)
  - Advanced machining practices on
Cosmetology

(3½ Semesters and/or ½ Session)
Advanced Instructors: Fitch, Jackson
Instructors: Fuger, Wilde

Two certificates are available. Also see Marketing and Management (Business Technology option) for the Associate of Applied Science Degree.

This program will provide students with the skills and knowledge to perform a variety of beauty services which cover all phases of the beauty culture such as manicuring, shampooing, hair styling, make-up application, temporary and permanent hair waving, hair straightening, bleaching and tinting, and various skin and scalp treatments. Graduate Cosmetologists will also have strong human relations skills and the ability to communicate with people.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/cetch/cosmetology.shtml.

All courses in the Cosmetology program require a letter grade of “C” or better in order to progress in the program and to graduate. A grade of “C” or better, in each course taken, is a prerequisite to continue to the next semester.

Technical Certificate: Cosmetology

(3 Semesters)

Required Courses:
Successful completion of the 56 credits is required to be eligible to take the State Board Examination.

COSM 116 Introduction Principles and Practice of Cosmetology 8 cr
COSM 117 Beginning Principles and Practice of Cosmetology 8 cr
COSM 126 Fundamental Principles and Practice of Cosmetology I 8 cr
COSM 127 Fundamental Principles and Practice of Cosmetology II 8 cr
COSM 156 Fundamental Principles and Practice of Cosmetology III 2 cr
COSM 157 Fundamental Principles and Practice of Cosmetology IV 6 cr
COSM 236 Advanced Principles and Practice of Cosmetology I 8 cr
COSM 237 Advanced Principles and Practice of Cosmetology II 8 cr
TOTAL: 56 cr

Technical Certificate: Nail Technology

(½ Semester—Summer Only)

Required Courses:
Successful completion is required to be eligible to take the State Board Examination.

COSM 150 Principles and Practice of Nail Technology 11 cr
TOTAL: 11 cr

COSM Courses

COSM 116 Introduction to Principles and Practices of Cosmetology 8 credits. This course is designed to provide the student with basic knowledge of the fundamentals of hair chemistry and biology with an introduction to basic permanent waving chemistry, hair cutting and hair styling. The student will perform and demonstrate application of the basic principles on a mannequin. Interpersonal skills, professional and personal development, the dynamics of people skill within the salon industry will be introduced. This course requires critical thinking, writing and verbal communication skills pertaining to the field of cosmetology. Role playing and mock situations will be utilized. Classroom and lab will be integrated. F, S

COSM 117 Beginning Principles and Practice of Cosmetology 8 credits. This course builds upon concepts taught in COSM 116 - Principles and Practice. This course will continue with the basic fundamentals of hair design, hair chemistry and biology, and interpersonal skills. Classroom and lab will be integrated. PREREQ: COSM 116. F, S

COSM 126 Fundamental Principles and Practice of Cosmetology I 8 credits. Continuation of concepts and practices taught in COSM 117. This course is a combination of classroom, lab and live work on the clinic floor dealing with customer needs and practical application therein. PREREQ: COSM 117. F, S

COSM 127 Fundamental Principles and Practice of Cosmetology II 8 credits. Continuation of COSM 126. This course is a combination of lab, live work, and classroom work. The students will perform services on clientele, learn retail, customer relation, scheduling appointments, and dispensary duties pertaining to all phases of cosmetology. PREREQ: COSM 126. F, S

COSM 150 Principles and Practice of Nail Technology 11 credits. Course activities explore all types of nail care and design methods including manicuring, pedicuring, sculpted nail application, nail care, chemistry, biological concepts, anatomy and physiology of nails, and safety standards and procedures. Su

COSM 156 Fundamental Principles and Practice of Cosmetology III 2 credits. Continuation of COSM 127. PREREQ: COSM 127. Su

COSM 157 Fundamental Principles and Practice of Cosmetology IV 6 credits. Continuation of COSM 156. PREREQ: COSM 156. Su

MACH 260 Advanced Machine Practice II 7 credits. Advanced machining practice on milling machines and surface grinders. Tasks are performed in an industrial shop atmosphere, working close to tolerance and time limits. PREREQ: MACH 250. F, S, Su

MACH 261 CNC Introduction to Theory 2 credits. An introductory course in basic programming of computer controlled machine tools. Emphasis is theory only. PREREQ: Permission of program coordinator.

MACH 270 CNC Machining Practice I 4 credits. An introductory course in basic computer skills, programming, set-up and operations of computer numerically controlled machine tools. PREREQ: Recommendation of program coordinator. F, S, Su

MACH 271 CNC Programming Theory I 2 credits. This course prepares the student in the programming of computer numerically controlled machine tools. Includes computer application of absolute/incremental, EIA/ISO, and conversational address systems. PREREQ: Program coordinator recommendation based upon demonstrated proficiency on conventional machine tools. F, S, Su

MACH 272 CNC Math I 2 credits. An advanced math course covering the basic use of geometric/trigonometric principles for identifying and solving all types of machine shop triangulation problems for the purpose of manufacturing parts on conventional and CNC machines. PREREQ: MACH 132. F, S, Su

MACH 275 CAD and CAM II 2 credits. Programming CNC machines utilizing CAD/CAM systems. Course familiarizes the student with applications, theory, and operation of CAD/CAM. PREREQ: MACH 220 and MACH 221. F, S, Su

MACH 281 CNC Programming Theory II 2 credits. An advanced course in the programming, set-up and operations of computer numerically controlled machine tools and accessory devices. MACH 281 is a continuation of MACH 271. PREREQ: MACH 271. F, S, Su

MACH 290 CNC Machining Practice II 6 credits. An advanced course in the programming, set-up and operations of the computer numerically controlled machine tools. MACH 280 is an advanced continuation of MACH 270. PREREQ: MACH 270. F, S, Su

MACH 298 Special Topics 1-8 credits. Addresses the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.
COSM 236 Advanced Principles and Practices of Cosmetology 18 credits. Continuation of COSM 157. Study of advanced techniques and concepts of cosmetology, including salon development, the salon business, and state laws and regulations. PREREQ: COSM 157. F, S

COSM 237 Advanced Principles and Practice of Cosmetology II 8 credits. Continuation of COSM 236. State board preparation and advanced techniques and concepts of cosmetology. PREREQ: COSM 236. F, S

COSM 279 Seminar 1-16 credits. This course is designed as a review for re-examination and/or refresher course for cosmetologists from Idaho or other states in preparation for the Idaho State Board of Cosmetology Examination.

COSM 298 Special Topics 1-8 credits. This course is designed to meet the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time or full-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment program. Teacher training is available for those individuals preparing to take the State Board Instructors Examination. PREREQ: Permission of program coordinator.

Culinary Arts Technology

(2 and 4½ Semesters)

Coordinator and Instructor: Miller
Instructor: Peters

Two Technical Certificates, three Associate of Applied Science Degrees and a Bachelor of Applied Science Degree are available.

Objectives:

1. To train students to produce safe, healthy, and creative food for all segments of the food service industry handling one type of specialized food preparation or preparing all the foods served in a given establishment.

2. To train students to plan menus, control costs, purchase food supplies, and supervise personnel.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/culinary.shtml.

Technical Certificate: Culinary Arts

(2 ½ Semesters)

Required Courses:

- CUAR 111 Culinary Skill Development I 8 cr
- CUAR 115 Applied Sanitation 2 cr
- CUAR 117 Dining Room, Banquet, and Catering Operations 2 cr
- CUAR 119 Culinary Skills and Measures 2 cr
- CUAR 121 Culinary Skill Development II 8 cr
- CUAR 131 Culinary Skill Development III 4 cr
- CUAR 135 Menu Mechanics 2 cr
- CUAR 137 Nutrition in Food Service Operations 2 cr

TOTAL: 39 cr

Technical Certificate: Culinary Management

(2 Semesters)

Required Courses:

- CUAR 119 Culinary Skills and Measures 2 cr
- CUAR 214 Beverage Operations 3 cr
- CUAR 216 Fundamentals of the Restaurant Industry 3 cr
- CUAR 218 Issues Facing Restaurant Operations 3 cr
- CUAR 224 Food Service Operations 3 cr
- CUAR 226 Restaurant Cost Controls 3 cr
- CUAR 228 Restaurant Training and Development 3 cr
- CUAR 240 Culinary Management Internship 2 cr
- MANT 240 Legal Environments 3 cr
- MANT 250 Front Line Supervision 3 cr
- MANT 252 Employment Seminar 1 cr
- BI 120 Concepts of Accounting 3 cr

TOTAL: 32 cr

Associate of Applied Science Degree: Culinary Arts

(4 ½ Semesters)

Required Courses:

- CUAR 111 Culinary Skill Development I 8 cr
- CUAR 115 Applied Sanitation 2 cr
- CUAR 117 Dining Room, Banquet, and Catering Operations 2 cr
- CUAR 119 Culinary Skills and Measures 2 cr
- CUAR 121 Culinary Skill Development II 8 cr
- CUAR 131 Culinary Skill Development III 4 cr
- CUAR 135 Menu Mechanics 2 cr
- CUAR 137 Nutrition in Food Service Operations 2 cr
- CUAR 211 Entree and Sauteing Preparation 3 cr
- CUAR 212 Advanced Garde Manger and Appetizers 3 cr
- CUAR 214 Beverage Operations 3 cr
- CUAR 221 Culinary Management 3 cr
- CUAR 223 Advanced Baking and Desserts 3 cr
- CUAR 224 Food Service Operations 3 cr
- CUAR 250 Culinary Internship 2 cr
- MANT 252 Employment Seminar 1 cr

CIS 101 Introduction to Computers 3 cr
CSET 181 Computer Fundamentals 3 cr
BI 170 Introduction to Computers 3 cr

General Education Requirements:

- ENGL 101 English Composition 3 cr
- Goal 2 3 cr
- Goal 3 3 cr
- Goal 12 3 cr
- Goals 2-11 4 cr

TOTAL: 68 cr

Associate of Applied Science Degree: Culinary Management

(4½ Semesters)

Required Courses:

- CUAR 111 Culinary Skill Development I 8 cr
- CUAR 115 Applied Sanitation 2 cr
- CUAR 117 Dining Room, Banquet, and Catering Operations 2 cr
- CUAR 119 Culinary Skills and Measures 2 cr
- CUAR 121 Culinary Skill Development II 8 cr
- CUAR 131 Culinary Skill Development III 4 cr
- CUAR 135 Menu Mechanics 2 cr
- CUAR 137 Nutrition in Food Service Operations 2 cr
- CUAR 211 Entree and Sauteing Preparation 3 cr
- CUAR 212 Advanced Garde Manger and Appetizers 3 cr
- CUAR 214 Beverage Operations 3 cr
- CUAR 221 Culinary Management 3 cr
- CUAR 223 Advanced Baking and Desserts 3 cr
- CUAR 224 Food Service Operations 3 cr
- CUAR 250 Culinary Internship 2 cr
- MANT 252 Employment Seminar 1 cr

Three credits from the following courses to fulfill the course requirements in computers:

- CIS 101 Introduction to Computers 3 cr
- CSET 181 Computer Fundamentals 3 cr
- BI 170 Introduction to Computers 3 cr

Goal 12 3 cr

General Education Requirements:

- ENGL 101 English Composition 3 cr
- Goal 2 3 cr
- Goal 3 3 cr
- Goal 12 3 cr
- Goals 2-11 4 cr

TOTAL: 68 cr

TOTAL: 68 cr
Associate of Applied Science Degree: Restaurant Management  
(4 ½ Semesters)

Required Courses:

- **CUAR 111** Culinary Skill Development I 8 credits. Basic food service skills. Hands-on food preparation in a commercial kitchen environment, using standardized recipes and procedures. Daily end product critiquing. Station rotations in: baking, banquet/catering, entree preparation, garde manger, and short order cookery. F, S
- **CUAR 115** Applied Sanitation 2 credits. A study of sanitary regulation practices for the proper preparation and service of food. Students learn how to maintain compliance with the FDA Food Code and Uncodes through the use of the Hazard Analysis Critical Control Point (HACCP) approach. F
- **CUAR 117** Dining Room, Banquet, and Catering Operations 2 credits. This course demonstrates methods of managing service in an a la carte restaurant and how to manage banquet and catering functions. F
- **CUAR 119** Culinary Weights and Measures 2 credits. Hands-on application of basic math principles that are used in food service operations. F
- **CUAR 120** Culinary Skill Development II 8 credits. Continues to advance the student’s baking and food preparation skills through different station rotations. F, S
- **CUAR 121** Culinary Skill Development III 4 credits. Continues to advance the student’s baking and food preparation skills through different station rotations. Su
- **CUAR 133** Marketing Your Restaurant 3 credits. This course provides students the opportunity to apply the basic knowledge and practical experience to develop strategic marketing plans for restaurant operations. Su
- **CUAR 135** Menu Mechanics 2 credits. This course prepares students with the techniques and knowledge to develop menus that are compatible with various types of food operations. All aspects of menu layout and development are studied. Su
- **CUAR 137** Nutrition in Food Service Operations 2 credits. This course addresses the fundamental nutritional concepts for food service professionals. Su
- **CUAR 198** Industry Practicum (variable 1-8 credits). This course provides students the opportunity to gain practical experience. Training plans are utilized to ensure maximum training opportunities for the student. F, S, Su
- **CUAR 212** Advanced Garde-Manger and Appetizers 3 credits. Advanced hands-on preparation of salads, cold sauces, appetizers, and garnishes and their applications. Emphasis on color, texture, and temperature in preparation and presentation. F
- **CUAR 214** Beverage Operations 3 credits. Practical experience and approaches in beverage operations and service. Service and storage of beverages in food service operations. F
- **CUAR 216** Fundamentals of the Restaurant Industry 3 credits. Provides an overview of the history, current issues, likely direction and dynamics of the industry. F
- **CUAR 218** Issues Facing Restaurant Operations 3 credits. A comprehensive survey of issues unique to restaurant operations. Topics covered include restaurant law, facility management, and ethics. F
- **CUAR 220** Culinary Management 3 credits. The principles of management and supervision within a food service kitchen are studied. The importance of menu planning, cost control, purchasing, catering, and management functions is covered. S
- **CUAR 221** Advanced Baking and Desserts 3 credits. Advanced hands-on preparation of baked goods, pastries and desserts will be given to the student in both theory and practice. S
- **CUAR 222** Food Service Operations 3 credits. Students learn the principles and practices to increase profits by maximizing service, efficiency, productivity, technology, and how to build business through effective marketing strategies. S
- **CUAR 226** Restaurant Cost Controls 3 credits. This course reviews methods used to budget and control costs. The course demonstrates how spreadsheet software facilitates the tasks of the manager in budgeting and assessing financial performance. S
- **CUAR 228** Restaurant Training and Development 3 credits. This course provides a thorough look at the training and development of restaurant personnel by addressing training needs; how to design, implement, and evaluate training; and how to manage the basic training function. S
- **CUAR 240** Culinary Management Internship 2 credits. Supervised field experience at cooperating operations to gain practical experience. Training plans are utilized to ensure maximum training opportunities. F, S, Su
- **CUAR 250** Career Internship 2 credits. This course is designed to provide students the opportunity to gain practical experience. Training plans are utilized to ensure maximum training opportunities for the student. F, S, Su
- **CUAR 260** Restaurant Management Internship 2 credits. Supervised field experience at cooperating operations to gain practical experience. Training plans are utilized to ensure maximum training opportunities. F, S, Su
- **CUAR 298** Special Topics 1-16 credits. Supervised field experience at cooperating operations to gain practical experience. Training plans are utilized to ensure maximum training opportunities. This course also discusses aspects of how to secure employment. F, S, Su

Choose one course:

- **CIS 101** Introduction to Computers 3 credits
- **CIS 181** Computer Fundamentals 3 credits
- **BI 170** Introduction to Computers 3 credits

General Education Requirements:

- **ENGL 101** English Composition 3 credits
- **COMM 101** Principles of Speech 3 credits
- **Goal 3** 3 credits
- **Goal 12** 3 credits
- **Goals 2-11** 4 credits

TOTAL: 69 credits

---

**Dental Laboratory Technology**

(5 Semesters)

Program Coordinator and Instructor: Edmunds
Instructor: Davidson
One Associate of Applied Science Degree, one Bachelor of Science in Health Science Degree, and one Bachelor of Applied Science Degree are available.

This program will provide students with the skills and knowledge to work in cooperation with licensed dentists with the ultimate goal of maintaining and improving a patient’s dental health, function, and/or esthetics.

Graduate dental technicians will fabricate dental restorations, corrective appliances, or any device the licensed dentist might place in the mouth of a patient.
For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/dentaltech.shtml.

DLT Courses
All listed prerequisite courses must be completed with a grade of “C” or better.

DLT 111 Oral Anatomy and Tooth Morphology 4 credits. A theoretical study of oral structures, systems and dentition. The student will study the skeletal, muscular, vascular and neural systems of the oral environment as well as terminology, tooth anatomy and general considerations. F

DLT 112 Dental Anatomy Laboratory 4 credits. This laboratory course provides the student experience in waxing anatomically correct individual tooth patterns on models with removable dies. F

DLT 113 Occlusal Concepts 2 credits. This course is designed to enable the student to become acquainted with various occlusal concepts and theories commonly accepted within the dental field. F

DLT 114 Occlusal Laboratory Practice 3 credits. Laboratory exercises provide practice in waxing anatomically correct tooth patterns on casts with removable dies, mounted on semi-adjustable articulators, so that the patterns interdigitate and occlude. F

DLT 115 Applied Dental Chemistry and Physics 2 credits. A lecture/lab class relating basic chemistry and physics applied to materials used in dental laboratories. Topics include, but are not limited to, atomic structure, bonding, investments, gypsum materials. Properties of metals: malleability, ductility, electronegativity, stress, strain, elasticity, and thermal properties. F

DLT 131 Crown and Bridge Concepts 3 credits. A theory course to study various procedures for model development, waxing, casting, finishing and polishing crowns and bridges. Primarily crown and bridge and full-cast restorations. PREREQ: DLT 132 and DLT 133. S

DLT 132 Crown and Bridge Techniques 4 credits. A laboratory course to introduce students to various techniques in model development, waxing, sprung, investing, casting, finishing and polishing crowns and bridges. PREREQ: DLT 111 and DLT 113. S

DLT 133 Complete Denture Principles 2 credits. The theory course introduces the student to the general principles and procedures involved in the fabrication of complete dentures. PREREQ: DLT 111 and DLT 113. S

DLT 134 Complete Denture Techniques 3 credits. A laboratory course designed to provide experiences in laboratory procedures used in the fabrication of complete dentures. PREREQ: DLT 112 and DLT 114. S

DLT 135 Dental Materials 3 credits. This theory course describes the uses, characteristics, properties, manipulation, reactions and technique variables that affect the desired properties of commonly used dental materials. PREREQ: DLT 115. S

DLT 151 Removable Partial Denture Concepts 2 credits. This lecture course covers the broad aspect of removable partial dentures from identification of parts of frameworks and completed dentures to classifications, concepts of survey and design, duplication, waxing, casting, finishing and polishing using chrome cobalt alloys. In addition, tooth arrangement, processing and other considerations are covered. PREREQ: DLT 131, DLT 133 and DLT 135. Su

DLT 152 Removable Partial Denture Techniques 3 credits. This laboratory course offers the student experience in surveying, duplication, waxing, casting finishing and polishing frameworks. PREREQ: DLT 132 and DLT 134. Su

DLT 153 Concepts of Orthodontic/Pedodontic Treatment Appliances 1 credit. This lecture course is designed to enable the student to acquire the knowledge necessary to perform the varied laboratory procedures in the fabrication of orthodontic/pedodontic appliances. PREREQ: DLT 131, DLT 133 and DLT 135. Su

DLT 154 Orthodontic/Pedodontic Treatment Appliance Techniques 1 credit. This laboratory course will provide experience in wire bending and contouring necessary for the fabrication of removable appliances. PREREQ: DLT 132 and DLT 134. Su

DLT 155 Professional and Industrial Relations 3 credits. Covers a variety of topics necessary to the understanding and comprehension of the relationships between the dental profession and dental laboratory industry. Topics include history, education, recognition programs. Ethical and legal aspects are covered as well as the work environment and infection control. The dental health team concept is covered also. PREREQ: DLT 131, DLT 132, DLT 134 and DLT 135. S

DLT 263 Removable Prosthodontics Concepts 2 credits. This theory class is a continuation of DLT 133 and 151. Topics covered deal with different types of removable prosthodontic appliances, complete denture to partial denture, plastic vs. porcelain teeth, overdentures, and repairs among other topics. PREREQ: Completion of DLT 133, DLT 151, DLT 153, and DLT 155 with a “C” or better. F

DLT 264 Removable Prosthodontic Techniques 3 credits. This laboratory course covers different types of cases, tooth arrangements, immediate dentures, repairs and relines. PREREQ: Completion of DLT 152, DLT 154, and DLT 155 with a “C” or better. F

DLT 265 Dental Laboratory Orientation 1 credit. This course will consist of visits to different laboratories to observe dental technology in the real world, dental lab environment. Insurance required. PREREQ: completion of DLT 111 through DLT 155 with a “C” or better. F

DLT 271 Porcelain Fused to Metal Substructure Concepts 3 credits. A lecture course designed to give the student an understanding of the requirements of porcelain fused to metal substructure design in single crowns, bridge construction, combination crown and bridge porcelain cased, and in the use of stress breakers (semi-precision attachment). PREREQ: Completion of DLT 131, DLT 135, and DLT 155 with a “C” or better. F

DLT 272 Porcelain Fused To Metal Substructure Techniques 4 credits. Laboratory course designed to give the practical hands-on experience of fabricating P.F.M. substructures of different design requirements. The projects completed in this course will be used to fabricate
the P.F.M. projects for DLT 274. PREREQ: Completion of DLT 132, DLT 135, and DLT 155 with a “C” or better. F

DLT 273 Fixed Ceramic Restoration, Porcelain Concepts 3 credits. A lecture course in the porcelain phase of porcelain fused to metal restoration and also, all porcelain (no metal) jacket crowns, veneers, inlays and onlays. PREREQ: Completion of DLT 135 and DLT 272 with a “C” or better. S

DLT 274 Fixed Ceramic Restoration, Porcelain Technique 4 credits. This is a lab course in the porcelain phase of porcelain fused to metal restoration and all porcelain (no metal) jacket crowns, veneers, inlays and onlays. PREREQ: Completion of DLT 135 and DLT 272 with a “C” or better. S

DLT 277 Dental Implants and Precision Attachments 3 credits. This course covers the different kinds of implants: subperiosteal, transosteal, but primarily endosseous (osseointegration). Also covered are different parts used: screws, posts, analogs, healing caps, etc. and some of the procedures used with each. The precision attachments covered will be intracoronal and extracoronal for fixed restorations, fixed to removable and fully dentulous, also stud and bar attachments with miscellaneous screws, plungers, and cross arch bracing. PREREQ: DLT 263, DLT 264, DLT 271 and DLT 272 with “C” or better. S

DLT 285 Dental Laboratory Clinical Practice 5 credits. This course is an on-site laboratory experience designed to provide the student with an actual work load and environment. The requirements of this course may also be met through actual employment. All necessary evaluation procedures must be followed. Insurance required. *Important! The student must be enrolled and participating in DLT 285 either in a clinical practice environment or as an employee of a dental lab. If the student is not fulfilling the requirement of DLT 285 (240 hours) or not enrolled in DLT 286 a grade of “F” will be given to the respective student. PREREQ: completion of DLT 263, DLT 264, DLT 267, DLT 271, DLT 272, DLT 273, and DLT 274 with a “C” or better. Su

DLT 286 Dental Laboratory Specialty Practice 5 credits. This course is a practical laboratory experience designed at ISU to provide the student the opportunity to apply the knowledge and skills learned in the formal portion of the program. This course may be taken in lieu of DLT 285 with the instructor’s approval. PREREQ: Completion of DLT 263, DLT 264, DLT 273 and DLT 274 with a “C” or better and permission of the instructor. Su

DLT 298 Advanced Directed Studies 1-8 credits. Designed to meet specific needs of the student through individual work under faculty guidance. PREREQ: Permission of instructor.

Diesel/Diesel Electric Technology

(3 to 5 Semesters)
Program Coordinator and Instructor: Bullock
Instructors: Dixon, Holmes, Huls, Schwope

Two Advanced Technical Certificate options, two Associate of Applied Science Degrees and a Bachelor of Applied Science Degree are available.

Students wishing to complete the Diesel Electric Technology portion of the program may have a break in their training between the completion of the Diesel Technology coursework and the beginning of the Diesel Electric Technology coursework.

Objective: To produce graduates that can perform complex diagnostic operations, repair, and maintain the latest heavy truck, agricultural, or mining related diesel equipment; to include an option to complete training in diesel electric generator repair.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/dieseltechnology.shtml

DESL Courses
DESL 101 Introduction To Mechanics 2 credits. A review of the diesel industry and safety policies along with theory and practice of use and care of hand tools, fasteners, precision measuring devices, tubing fabrication, soldering, and applied shop mathematics. D
DESL 107 Fundamentals of Electricity 6 credits. Theory and practice in basic electricity and electronics, ignition systems, wiring circuits, charging and starting systems (both 12 and 24 volts). Troubleshooting and repair with proper use and care of tools and testing equipment. D
DESL 109 Cab Air Conditioning 1 credit. The fundamentals of cab air conditioning and the basic concepts of refrigeration as used in the diesel industry using the theory and lab practice in the principles of operation, repair and testing. D
DESL 113 Diesel Fuel Systems 6 credits. Fundamentals of diesel fuel systems which include theory and lab practice on theory of operation, repair, troubleshooting, and adjustments of fuel injection systems including electronically controlled systems. D
DESL 115 Diesel Hydraulics 2 credits. Theory and operation of hydraulics. Lab practice covering testing, troubleshooting techniques, and repair will be covered. D
DESL 116 Power Shift Transmissions 3 credits. Theory and practice of power-shift transmissions with introduction to electronically integrated shift. Lab practice covering testing, troubleshooting techniques and repair to return the units to manufacturer’s specifications will be presented. D
DESL 117 Heavy Duty Brake Systems 2 credits. Theory and lab practice for diagnosing, troubleshooting, and repairing of farm, construction, and truck brake systems. Introduction to ABS braking systems will be presented. D
DESL 125 Heavy Duty Power Trains 7 credits. Theory and lab practice for diagnosing, troubleshooting, and repairing of farm, construction, and truck power train systems. D
DESL 182 Gas Engines 2 credits. Theory in the fundamentals of the operation of gas engines. The laboratory section consists of overhaul procedure, repair, tune-up diagnosis and testing of operable engines. D
DESL 184 Diesel Engines 5 credits. Theory in the fundamentals of the operation of diesel engines. The laboratory section consists of overhaul procedure, repair, tune-up, diagnosis and testing of operable engines. PREREQ: DESL 182 or comparable. D
DESL 231 Live Work I 8 credits. This course covers the principles of diagnosis, repair and trouble shooting on operable equipment. The classroom portion will include customer relations and shop management techniques. D
DESL 241 Diesel Electric I 8 credits. This course covers the principles, diagnosis, repair and trouble shooting on operable diesel electric equipment. D
DESL 243 Diesel Electric II 8 credits. A continuation of DESL 241. D
DESL 251 Internship 8 credits. A final phase of training in an actual diesel shop repair facility, performing all types of repair work and receiving pay for services completed.

DESL 298 Special Topics 1-16 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time, pre-employment curriculum. PREREQ: Permission of instructor.

Electrical Technician
(2 Semesters)
Coordinator/Instructor: Averett

One Technical Certificate in Electrical Technician, one Advanced Technical Certificate and one Associate of Applied Science degree in Industrial Controls, and one Bachelor of Applied Technooogy (see Instrumentation Technology) are available.

Objectives:
1. To develop entry-level skills in assembling, installing and maintaining electrical systems in residential, industrial and commercial buildings.
2. To train students to follow blueprints to install conduit, wire, circuit breakers, switches, outlets, and electrical components.
3. To provide training in the use of hand tools and various test equipment to repair, replace and maintain motors, electronic controllers and other electrical devices.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/electricaltechnician.shtml.

Technical Certificate: Electrical Technician

Required Courses:
ELTY 131 Electrical Theory I 4 cr
ELTY 132 Electrical Theory II 5 cr
ELTY 133 Applied Mathematics I 4 cr
ELTY 134 Applied Mathematics II 5 cr
ELTY 135 Electrical Laboratory I 4 cr
ELTY 136 Electrical Laboratory II 5 cr
ELTY 137 Electrical Code I 3 cr
ELTY 138 Electrical Code II 3 cr
ELTY 139 Print Reading 2 cr
ELTY 140 Motor Control Theory 2 cr
TGE 151 Technical Writing 2 cr
TGE 158 Employment Strategies 2 cr
TOTAL: 41 cr

Safety Instruction: Electrical and occupational safety will be presented as part of the laboratory instruction. Safe and proper methods of using tools, meters, and equipment in the lab will be presented. Safety instruction as it pertains to the electrical occupation will be presented. Safety films, lectures and demonstrations will be used. Safety instruction will be presented throughout the course.

The courses listed above will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade obtained before the student can advance in the program. The student must exit the program and make up their deficiency through Technical General Education or other appropriate methods. The student will then be allowed to repeat the course at the next available program opening.

Advanced Technical Certificate: Industrial Controls
(4 Semesters)

Required Courses:
ELTY 131 Electrical Theory I 4 cr
ELTY 132 Electrical Theory II 5 cr
ELTY 133 Applied Mathematics I 4 cr
ELTY 134 Applied Mathematics II 5 cr
ELTY 135 Electrical Laboratory I 4 cr
ELTY 136 Electrical Laboratory II 5 cr
ELTY 137 Electrical Code I 3 cr
ELTY 138 Electrical Code II 3 cr
ELTY 139 Print Reading 2 cr
ELTY 140 Motor Control Theory 2 cr
TGE 151 Technical Writing 2 cr
TGE 158 Employment Strategies 2 cr
Industrial Controls Theory 8 cr
Industrial Controls Laboratory 5 cr
Process Measurement and Control Theory 10 cr
Process Measurement and Control Laboratory 5 cr

**ELTY Courses**

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

ELTY 131 Electrical Theory I 4 credits.
Topics discussed are electron theory, sources of electromotive force, what is electric current, effect of electricity, magnetism, electromagnetism, putting electricity and magnetism to work, the electric circuit, resistance, resistors, Ohm’s Law, power, D-C parallel circuits, series-parallel circuits, Kirchhoff’s law. F

ELTY 132 Electrical Theory II 5 credits.

ELTY 133 Applied Mathematics I 4 credits.
Course studies measurement, positive and negative numbers, exponents, powers of ten, formula addition and subtraction, square roots, combining terms, solving algebraic equations, percentages, ratio and proportions. F

ELTY 134 Applied Mathematics II 5 credits.
Course studies trigonometry, graphing, instantaneous values, vectors and phasors, Pythagorean theorem, delta and yee connections, and power factor. PREREQ: ELTY 133. S

ELTY 135 Electrical Laboratory I 4 credits.
Course topics are shop safety; hand tools; house, commercial, and industrial wiring; voltage sources and measurements. F

ELTY 136 Electrical Laboratory II 5 credits.
Course topics are meters, transformers, electric motor controls, manual motor starters, three-phase systems, magnetic line voltage starters, multi-speed controllers, and motor devices. PREREQ: ELTY 135. S

ELTY 137 Electrical Code I 3 credits.
Topics include an introduction; definitions; requirements for electrical installation in residential, commercial and industrial buildings. F

ELTY 138 Electrical Code II 3 credits.
Course is a continuation study of National Electrical Code. PREREQ: ELTY 137. S

ELTY 139 Print Reading 2 credits.
Introduction to basic print reading, materials and specifications, and reading prints for residential and commercial structures. F

ELTY 140 Motor Control Theory 2 credits.
Introduces basic motor control. Includes two-wire and three-wire control using various pilot devices and motor magnetic controllers. Introduces control relays, time relays, solenoid valves, latching relays, and motor control centers. Course of study includes using the computer to draw motor control circuits. PREREQ: ELTY 131 and ELTY 135. S

ELTY 298 Special Topics (variable) 1-8 credits. This course is designed to address the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

**Electro-Mechanical Technology**

**(4½ Semesters)**

**Program Coordinator and Instructor:** Beatty

Instructors: Buffaloe, Fitzen, Larson, Shepherd, Womack

One Advanced Technical Certificate, one Associate of Applied Science Degree, and one Bachelor of Applied Science Degree are available.

**Objective:** To provide students with the skill set to be technicians for the expanding factory automation industry. Graduates from this program will learn in-depth electronics as well as some mechanical, pneumatic, and process high vacuum technology. Graduates with have skills needed to work in such areas as semiconductor manufacturing line maintenance, industrial manufacturing concerns and general factory automation of a great many varieties.

Selection of the Electronics option for each accepted student in the Electronic Core curriculum will occur in the second semester. Acceptance into particular options is based upon available openings and other factors such as a grade point average and attendance.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to [http://www.isu.edu/ctech/electromechanicaltech.shtml](http://www.isu.edu/ctech/electromechanicaltech.shtml).

All theory classes and laboratory classes to apply these theories require concurrent enrollment. Concurrent enrollment in ELMT 250, 252, 254, 255, 256 and 257 is required.

**Advanced Technical Certificate: Electromechanical Technology**

**(4½ Semesters)**

**Required Courses (see Electronics Core section for required Core courses):**

**ELMT 250**
Electronics for Instrumentation and Automation 2 cr

**ELMT 251**
Introduction to Fiber and Electro-Optics 2 cr

**ELMT 252**
Fundamentals of Logic Control 2 cr

**ELMT 253**
Applications of Process Control Devices 2 cr

**ELMT 254**
Introduction to Electrical Power Systems 2 cr

**ELMT 255**
Electrical Automation Theory 2 cr

**ELMT 256**
Electrical Automation Lab 5 cr

**ELMT 257**
Measurement and Controls Laboratory 3 cr

**General Education Requirements:**

ENGL 101  English Composition 3 cr

TGE 158  Employment Strategies 2 cr

TOTAL: 77 cr

**Associate of Applied Science Degree: Electromechanical Technology**

**(4½ Semesters)**

**Required Courses (see Electronics Core section for required Core courses):**

**ELMT 250**
Electronics for Instrumentation and Automation 2 cr

**ELMT 251**
Introduction to Fiber and Electro-Optics 2 cr

**ELMT 252**
Fundamentals of Logic Control 2 cr

**ELMT 253**
Applications of Process Control Devices 2 cr

**ELMT 254**
Introduction to Electrical Power Systems 2 cr

**ELMT 269**
Electronic Drafting I 2 cr

**ELMT 281**
Electrical Automation Theory 2 cr

**ELMT 282**
Electrical Automation Lab 2 cr

**ELMT 255**
Fundamentals of Mechanical Systems 1 cr

**ELMT 256**
Measurement and Controls Laboratory 3 cr

**ELMT 257**
Digital and Analog Devices 2 cr

TOTAL: 77 cr
General Education Requirements:
ENGL 101 English Composition 3 cr
Goal 3 3 cr
One of Goals 6, 7, 9, 10A, 11, or 12 3 cr
TGE 158 Job Search 2 cr
TOTAL: 83 cr

The courses listed above will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade obtained before the student can advance in the program. The student must exit the program and make up their deficiency through Technical General Education or other appropriate methods. The student will then be allowed to repeat the course at the next available program opening.

Upon successful completion of Electronics (ELTR) 141, Applied Mathematics I, and ELTR 142, Applied Mathematics II, a student may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.

Courses

Official articulation agreements have been established with other Idaho post-secondary and secondary schools. Where these agreements exist, the specific block of training (i.e., session/semester/year) will be accepted as equivalent to that at Idaho State University and will count equally toward graduation.

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

Please see descriptions for courses with the ELTR prefix in the Electronics Department section above.

ELMT Courses

ELMT 250 Fundamentals of Mechanical Systems 1 credit. Topics include machine components, brief introduction to mechanical vibrations and kinematics of machines and devices. Students will participate in laboratory based learning experiences to strengthen and apply the principles taught in this course. PREREQ: Electronics Core Courses. S

ELMT 252 Fundamentals of Measurement 1 credit. Instrumentation and measurement apparatus. Calibrate, install and troubleshoot sensors measuring such variables as pressure, temperature, mass flow, and displacement. PREREQ: Electronics Core Courses. S

ELMT 255 Electromechanical Systems Laboratory 3 credits. Apply the principles of robotic control and manipulation. Apply the theories of sensors, controls, and actuators to obtain controlled electromechanical motion. PREREQ: Electronic Core Courses. S

ELMT 256 Digital and Analog Devices 2 credits. Topics include the application and troubleshooting of the devices, circuits, and systems related to control of electromechanical systems. Projects will include at least the following areas: researching, prototyping, and operating a unit, with oral presentations and written documentation. PREREQ: Electronic Core Courses. S

ELMT 257 Measurement & Controls Laboratory 3 credits. Apply the theories and principles of analog process measurement, analog and digital control, control algorithms, and control loop tuning. PREREQ: Electronic Core Courses. S

ELMT 263 EM Digital Devices and Systems Theory 6 credits. A course of study on the theory, application troubleshooting techniques of solid-state devices used in logic-controlled systems. These principles are applicable to microprocessors and industrial measurement/control processes. This will include: computers peripheral devices, interfacing, Robotic Arms, machine language, and A-D/D-A conversion methods. F

ELMT 264 EM Digital Devices and Systems Laboratory 6 credits. A hands-on experience in the application and troubleshooting of the devices, circuits, and systems studied in ELMT 263. Student projects will be given and will include at least the following areas: research, prototyping, operating unit, with oral presentations and written documentation. Results of circuit and system testing and troubleshooting will be maintained in written log form. F

ELMT 271 EM Analog Devices and Systems Theory 6 credits. An integrated study of electronics and electromechanical devices and their interrelationships in complex automated systems. Topics discussed will be: semiconductor devices, transducers, electromagnetic devices, mechanical devices and systems such as control, servo, robotic and electromechanical. S

ELMT 272 EM Analog Devices and Systems Laboratory 6 credits. This is a practical application of the theory class, ELMT 271. Assignments in lab will cover the electronic and/or mechanical adjustment, calibration, troubleshooting and repair of automated systems. Each student will prototype and analyze components, sub-systems and complete automated electromechanical systems. All results of experiments will be recorded in written log form in the student’s log notebook. S

ELMT 290 Internship 1-8 credits. On-the-job placement providing work experience for students pursuing careers in Electromechanical Technology. Permission of the instructor is required.

ELMT 298 Special Topics 1-8 credits. This course is designed to address the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. Permission of the instructor is required.

Electronics Department
Chair: Rasmussen
Program Coordinators and Instructors: K. Buffaloe, Slack, Snarr
Instructors: Beatty, R. Buffaloe, Durtschi, Fitzen, Larson, Norton, Shepherd, Womack

The Electronics Programs are accredited by The National Association of Industrial Technology (NAIT). The primary purpose of the NAIT accreditation is to recognize the attainment of certain professional goals and standards for Industrial Technology. The secondary purpose is to encourage others to strive toward these goals and standards. Each curricular pattern is reviewed in terms of its stated objectives, content, methods, supporting resources and evaluating systems.

The Department of Electronics administers the following programs, all of which use the Electronics Courses listed below.

• Electromechanical Technology
• Electronic Systems Technology
• Electronic Wireless Telecommunication Technology
• Laser Electro-Optics Technology
• Instrumentation and Automation Technology

The Department’s activities are illustrated and described at http://electronics.isu.edu/.

Upon successful completion of Electronics (ELTR) 141, Applied Mathematics I, and ELTR 142, Applied Mathematics II, a student may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.
Electronics Core Curriculum (35 cr)

(2 Semesters)
Program Coordinator and Instructor: Larson
Instructors: Fitzen, Larson, Shepherd, Womack

Objective: To provide students with skills in the fundamental areas of electronics including soldering, DC analysis, electrical units, Ohm’s Law, series, parallel and series parallel resistive circuits, voltage, current, meters, network theorems, AC fundamentals, magnetism, inductors, capacitors, AC-DC network analysis and related algebraic principles. Students will also receive 15 hours per week of related practical laboratory experience to reinforce the theoretical principles discussed above.

All theory classes and laboratory application classes of these theories require concurrent enrollment.

Selection of the Electronics options for each accepted student in the Electronics Core Curriculum will occur in the second semester. Acceptance into particular options is based upon available openings and other factors such as grade point average and attendance.

Electronics Core Courses:
ELTR 121 Introduction to Electronics Theory 1 cr
ELTR 122 Introduction to Electronics Lab 1 cr
ELTR 123 DC Electronics Principles Theory 2 cr
ELTR 124 DC Electronics Principles Lab 2 cr
ELTR 125 AC Electronics Principles Theory 4 cr
ELTR 126 AC Electronics Principles Lab 2 cr
ELTR 127 Electronic Principles Capstone 2-8 cr
ELTR 128 Principles of Control Devices Theory 3 cr
ELTR 129 Principles of Control Devices Lab 3 cr
ELTR 130 Fundamentals of Digital Devices Theory 3 cr
ELTR 131 Fundamentals of Digital Devices Lab 2 cr

ELTR Courses
ELTR 110 Electronic Terminology 1 credit.
The study of basic electronic theory vocabulary. This course is to be taken in conjunction with ENGL 101, the second eight weeks of the semester. It is designed for those students who will opt to pursue a Bachelor of Applied Technology degree after earning an Associate of Applied Science degree. F, S

ELTR 121 Introduction to Electronics Theory 1 credit.
Fundamentals of DC electronics—soldering, DC analysis, electrical units, Ohm’s Law, series and parallel resistive circuits, and related algebraic principles. F, S

ELTR 122 Introduction to Electronics Lab 1 credit.
Experiments in DC electronic circuits covered in ELTR 121, using electronic components, equipment, and tools. F, S

ELTR 123 DC Electronics Principles Theory 2 credits.
Fundamentals of DC electronics—voltage, current, meters, network theorems, and related algebraic principles. F, S

ELTR 124 DC Electronics Principles Lab 2 credits.
Experiments in DC electronic circuits analyzing voltage and current, meters, and network theorems. F, S

ELTR 125 AC Electronics Principles Theory 4 credits.
Electronics AC fundamentals—magnetism, inductors, capacitors, AC-DC network analysis, and related algebraic principles. F, S

ELTR 126 AC Electronics Principles Lab 2 credits.
Experiments in basic AC electronic circuits topics covered in ELTR 125, using electronic components, equipment, and tools to analyze current and voltage. F, S

ELTR 127 Electronics Principles Capstone 2-8 credits.
Fundamentals of DC and AC electronics: safety, soldering, electrical units, Ohm’s Law, series and parallel resistive circuits, voltage and current, meters, network theorems, magnetism, inductors, capacitors, and AC-DC network analysis. F, S

ELTR 130 Fundamental Electricity and Electronic Theory 5 credits.
Fundamentals of electrical electronics, direct and alternating current circuits, LCR networks, electrical circuit components, meter usage, and test equipment. Includes algebraic and trigonometric topics as they relate to DC and AC circuit analysis. S

ELTR 131 Fundamental Electricity and Electronic Lab 5 credits.
Experiments involving subjects covered in ELTR 130. Students will construct experimental circuits upon which tests and measurements will be made to attain specified objectives. S

ELTR 133 Principles of Control Devices Theory 3 credits.
Comprehensive study of semiconductors, power supplies, transistor amplifiers, operational amplifiers, and related algebraic principles. F, S

ELTR 134 Principles of Control Devices Lab 3 credits.
Experiments involving semiconductors, power supplies, transistor amplifiers, and operational amplifiers. F, S

ELTR 135 Principles of Digital Devices Theory 2 credits.
Digital fundamentals including logic gates, Boolean algebra, combination logic circuits, digital registers, counters, and timing circuits, and related algebraic principles. F, S

ELTR 136 Principles of Digital Devices Lab 2 credits.
Experiments involving digital fundamentals including logic gates, Boolean algebra, combination logic circuits, digital registers, counters, and timing circuits. F, S

ELTR 140 Directed Study AC-DC/LCR 8 credits.
Continuation of ELTR 141. Selected algebraic and trigonometric topics as related to DC and AC (sine wave) circuit analysis. F, S

ELTR 141 Applied Mathematics I 4 credits.
Basic math as it applies to Electrical Theory; includes algebraic and trigonometric topics as they relate to DC and AC (sine wave) circuit analysis. F, S

ELTR 142 Applied Mathematics II 4 credits.
Continuation of ELTR 141. Selected algebraic and trigonometric topics as related to DC and AC (sine wave) circuit analysis with special emphasis on trigonometric solution and vector analysis. F, S

ELTR 147 Applied Science 4 credits.
Study of matter and energy relationships pertaining to motion, mechanics, heat, light, sound, electricity, magnetism and atomic energy. PREREQ: ELTR 141 or Equivalent. This class will be substituted by PHYS 100. F, S

ELTR 153 Electronic Theory 5 credits.
Fundamentals of DC and AC electronics: safety, soldering, electrical units, Ohm’s Law, series and parallel resistive circuits, voltage and current, meters, network theorems, magnetism, inductors, capacitors, AC-DC network analysis,
Technology

College of

One Bachelor of Applied Science Degree isometric drawings, and development of basic INTEL SDK-85 Microprocessor board. Receivers and basic timing circuitry. An introduction to the basic architecture of the INTEL 8085 (8-bit) microprocessor. A brief introduction to assembly language programming. Students will construct, measure, and analyze circuits. COREQ: ELTR 153. F, S

ELTR 155 Electronic Lab 5 credits. Experiments involving subjects covered in ELTR 153 and ELTR 155. COREQ: ELTR 156 and ELTR 142. F, S

ELTR 156 Electronic Control Devices Lab 5 credits. Experiments involving subjects covered in ELTR 154. Students will construct, measure, and analyze circuits. COREQ: ELTR 153. F, S

ELTR 161 Digital and Microprocessor Systems Theory 5 credits. A basic study of electronic logic devices and circuits. Includes a study of Boolean Algebra, basic logic gates, combination logic circuits, digital registers and counters and basic timing circuitry. An introduction to the basic architecture of the INTEL 8085 (8-bit) microprocessor. A brief introduction to assembly language programming. Su

ELTR 162 Digital and Microprocessor Systems Application 5 credits. This is a practical application of the theory class. Individual labs provide experience with basic logic gates, their configuration and troubleshooting techniques. Microprocessor labs are centered around the INTEL SDK-85 Microprocessor board. Recognition of key processor signals from troubleshooting perspective is emphasized. Su

ELTR 256 Internship 1-8 credits. On-the-job placement providing work experience for persons pursuing careers in electronics technology. PREREQ: Permission of instructor. D

ELTR 257 Directed Studies 1-8 credits. Individual work under faculty guidance. D

ELTR 269 Electronic Drafting I 2 credits. Drawing fundamentals, orthographic and isometric drawings, and development of basic wire drawings. F, S

Electronic Systems Technology

6 to 6½ Semesters

Coordinator and Instructor: Slack
Instructors: R. Buffalo, Durschi, Fitzen, Hawley, Larson, Norton, Shepherd, Womack

One Advanced Technical Certificate, one Associate of Applied Science Degree, and one Bachelor of Applied Science Degree are available.

Objective: To provide students with the skills to become professional, highly skilled, broad-based electronics technicians who can work within an ever-changing arena—electronics.

Graduates will be able to install, maintain and repair equipment and circuit integrated in audio, video, wireless, digital and pulse electronic systems. It is, by design, a balance of analog and digital training with specialties in wireless telecomm and RF applications, microprocessor interfacing, digital and analog TV and component level circuit analysis.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://electronics.isu.edu/elec_sys.tech.shtml.

All theory courses require concurrent enrollment in the laboratory courses in which those theories are applied.

Selection of the Electronics option for each accepted student in the Electronics Core Curriculum will occur in the second semester. Acceptance into particular options is based upon available openings and other factors such as a minimum 2.5 cumulative grade point average in core courses and program completion.

Advanced Technical Certificate: Electronic Systems Technology

(6 Semesters)

The courses listed above will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade obtained before the student can advance in the program. The student must exit the program and make up
their deficiency through Technical General Education or other appropriate methods. The student will then be allowed to repeat the course at the next available program opening.

Upon successful completion of Electronics (ELTR) 141, Applied Mathematics I, and ELTR 142, Applied Mathematics II, a student may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.

**ELSY Courses**

Official articulation agreements have been established with other Idaho post-secondary and secondary schools. Where these agreements exist, the specific block of training (i.e., session/semester/year) will be accepted as equivalent to that at Idaho State University and will count equally toward graduation.

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

*Please see descriptions for courses with the ELTR prefix in the Electronics Department section above.*

**ELSY 251 Systems Analog and Digital Theory 7 credits.** Analog circuit analysis applied to amplifiers, power supplies, op-amps, and discrete switching circuits, with an emphasis on frequency limitations of discreet components and circuitry. Review of digital components and principals. COREQ: ELSY 253 and ELSY 264. F, S

**ELSY 253 Systems Analog and Digital Laboratory 5 credits.** Emphasizes understanding of analog and digital circuitry by allowing students to design, construct, test, and troubleshoot using proper test equipment. PREREQ: ELTR 156. COREQ: ELSY 253 and ELSY 251, F, S

**ELSY 298 Special Topics 1-8 credits.** Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. Permission of the instructor is required.

**ELSY 332 Laser Systems/Optics Laboratory 4 credits.** Practical application of the study of analog/digital circuits used in analyzing laser/optics systems. Su

**ELSY 337 Advanced Math for Electronics 4 credits.** The study of computer programming languages at the machine level, assembler level, and high level, a standard operating system, UNIX, translation of numbers between number systems. F, S

**ELSY 372 Calculus for Advanced Electronics 4 credits.** Algebraic, trigonometric, logarithmic and exponential functions, derivatives and integrals with electronic and other physical applications. Also included McClaurin’s, Taylor’s and Fourier’s series and introduction to differential equations. Supports ELSY 374. Satisfies Goal 3 of the General Education Requirements. PREREQ: ELSY 262. F, S

**ELSY 373 Advanced Digital Theory 5 credits.** A study of microcomputer operation, programming, interfacing to digital and analog systems, and troubleshooting. Memory and storage systems. System microcontroller integration using a software development system. F, S

**ELSY 374 Advanced Pulse Theory 5 credits.** A study of analog/digital circuits used in the video studio, integrated circuit testers and computer systems. Introduction and analysis of a television studio system, modules, and individual analog/digital circuits will be covered. Practical application of circuits used in conjunction with Advanced Pulse Laboratory (ELSY376). Discussion, lectures, classroom and lab demonstrations are used to help the student gain knowledge and troubleshoot equipment in large system. F, S

**ELSY 375 Advanced Digital Laboratory 5 credits.** Practical application of topics covered in ELSY 371 and 373 while building, programming, and troubleshooting microprocessor and microcontroller based systems. F, S

**ELSY 376 Advanced Pulse Laboratory 5 credits.** Practical equipment and systems application of analog/digital circuits used in conjunction with Advanced Pulse Theory (ELSY 374). Operation of the lab is by an exploratory method with guides furnished by the instructor. Test results of these explorations will be maintained in written log form and will be presented in verbal form to other student technicians. One major student project is accomplished during the semester, evaluation, troubleshooting, and integration into the existing video studio or, integrated circuit tester or, computer systems. The student must give an oral and written presentation on the project. F, S

**ELSY 384 Advanced Laser Systems/Optics Laboratory 3 credits.** Practical application of advanced theory and analysis in analyzing laser/optics systems. PREREQ: ELSY 331 and ELSY 332. Su

---

**Electronic Wireless/Telecom Technology**

**4½ Semester Program**

Instructors: Fitzen, Larson, Shepherd, Womack

One Advanced Technical Certificate, one Associate of Applied Science Degree and one Bachelor of Applied Science Degree are available.

**Objective:** To provide students the opportunities to obtain skills for the ever expanding wireless telecommunications fields, including consumer products, RF communications for public radio services, police, fire, utility companies, and cellular, PCS and land mobile services.

Graduates will be able to install, maintain and repair specialized communications equipment including system switching equipment, carrier equipment, and microwave systems. Virtually all non-military areas of the electronic communications industry are addressed. The emphasis of this program is both hands on and theoretical.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other...
expenses, go online to http://electronics.isu.edu/elec_wire_teletech.shtml.

All theory courses require concurrent enrollment in the laboratory courses in which the theories are applied.

Selection of the Electronics option for each accepted student in the Electronic Core curriculum will occur in the second semester. Acceptance into particular options is based upon available openings and other factors such as a grade point average and attendance.

**Advanced Technical Certificate:**

**Electronic Wireless/Telecom Technology**

(4½ Semesters)

**Required Courses (see Electronics Core section for required Core courses):**

- **ELTR 269** Electronic Drafting I 2 cr
- **EWTT 165** Digital Modulation Schemes for Electronic Communications 5 cr
- **EWTT 166** Digital Modulation Schemes for Electronic Communications Lab 5 cr
- **EWTT 211** Radio Frequency/Telecom Systems I 7 cr
- **EWTT 212** Radio Frequency/Telecom Systems I 7 cr
- **EWTT 212** Radio Frequency/Telecom Systems I 7 cr
- **EWTT 221** Radio Frequency/Telecom Lab II 6 cr
- **EWTT 222** Radio Frequency/Telecom Lab III 3 cr
- **EWTT 223** Radio Frequency/Telecom Lab III 3 cr

**General Education Requirements:**

- **ENGL 101** English Composition 3 cr
- **TGE 158** Employment Strategies 2 cr
- **TOTAL:** 78 cr

**Associate of Applied Science Degree:**

**Electronic Wireless/Telecom Technology**

(4½ Semesters)

**Required Courses (see Electronics Core section for required Core courses):**

- **ELTR 269** Electronic Drafting I 2 cr
- **EWTT 165** Digital Modulation Schemes for Electronic Communications 5 cr
- **EWTT 166** Digital Modulation Schemes for Electronic Communications Lab 5 cr
- **EWTT 211** Radio Frequency/Telecom Systems I 7 cr
- **EWTT 212** Radio Frequency/Telecom Systems I 7 cr

**EWTT Courses**

**EWTT 165 Digital Modulation Schemes for Electronic Communications 5 credits.**

The process of digital modulation necessary for current communications systems is a multi-step function involving a variety of signal processing standards for voice, video, and data. Provides understanding of these standards, the North American digital hierarchy, and the various compression/coding techniques utilized in electronic wireless telecommunications industries. PREREQ: Electronics Core Courses. Su

**EWTT 166 Digital Modulation Schemes for Electronic Communications Lab 5 credits.**

Supports the digital modulation theory course with an experiential emphasis. Measurement, testing, and troubleshooting digital transmission signals, with appropriate tools, safety procedures, and appropriate utilization of test equipment to provide a reinforcement of theoretical concepts concurrently covered in EWTT 165. COREQ: EWTT 165. Su

**EWTT 211 Radio Frequency and Telecommunications I Laboratory 7 credits.**

Addresses the specific needs of individuals for theoretical study of radio frequency/telecommunications circuits, RF wideband and narrow band amplifiers, electronic switching/programming and digital data communications systems that utilizes laboratory information from EWTT 212. RF/Telecommunications test equipment, radio frequency generation, reception, amplification, modulation, and radiation at appropriate intervals through the HF, VHF, UHF and SHF radio frequency spectrum. COREQ: EWTT 212. F

**EWTT 212 Radio Frequency and Telecommunications I Laboratory 7 credits.**

Practical application of radio frequency/telecommunications circuits, RF wideband and narrow band amplifiers, electronic switching/programming and digital data communications systems that utilizes theory studied in EWTT 211. RF/telecommunication test equipment, radio frequency generation, reception, amplification, modulation, and radiation at appropriate intervals through the HF, VHF, UHF and SHF radio frequency spectrum. COREQ: EWTT 211. F

**EWTT 221 Radio Frequency and Telecommunications Systems II 6 credits.**

Addresses the theoretical application of radio frequency/telecommunications circuits, electronic switching/programming and digital data communications utilizing laboratory/experiments developed in EWTT 222. RF/telecommunication test equipment, mobile telephone, carrier fundamentals, repeater systems, fiber optic principles, microwave antennas and transmission line system concepts are emphasized. COREQ: EWTT 222. S

**EWTT 222 Radio Frequency/Telecommunications Laboratory II 3 credits.**

Practical application of radio frequency/telecommunications utilizing EWTT 221 Radio Frequency/Telecommunications Systems II. RF/telecommunication test equipment, mobile telephone, carrier fundamentals, repeater systems, fiber optic principles, microwave antennas and transmission line systems concepts are emphasized. To be taken first 8 weeks of semester. COREQ: EWTT 221. S

**EWTT 223 Radio Frequency/Telecommunications Laboratory III 3 credits.**

Continuation of EWTT 222, second 8 weeks of semester, for those not enrolled in EWTT 289 Coop. S

**EWTT 289 Coop 1-4 credits.**

Students pursues on-the-job training in the electronic information...
systems industry which satisfies competencies in lieu of radio frequency/telecommunications lab. A Coop agreement must be signed by all parties involved, i.e., student, instructor, employer.

EWTT 290 Internship 1-8 credits. On-the-job placement providing work experience for students pursuing careers in radio frequency and/or telecommunications technology. PREREQ: Permission of instructor.

EWTT 294 Directed Studies 1-8 credits. Study tailored to individual assignment and reporting under faculty guidance; permission of instructor required. Students will pursue a unit of activity related to the radio frequency/telecommunications technology field.

EWTT 298 Special Topics 1-8 credits. Addresses specific needs of individuals. Will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

Emergency Management

Energy Management Courses
EMGT 101 Incident Command System 3 credits. Basic through advanced emergency management practices used during an emergency situation. A Coop agreement must be signed by all parties involved, i.e., student, instructor, employer. PREREQ: Permission of instructor.

EMGT 122 Emergency Resources Management 3 credits. Manages resources in an Emergency Operations Center. D

EMGT 221 Emergency Management Operations 3 credits. Incident Management System based on the Incident Command System. The roles and responsibilities of emergency management related actors, with emphasis on the Incident Command System and interaction with the Emergency Operations Center. D

EMGT 222 Mitigation for Emergency Managers 3 credits. Hazard mitigation at the local through federal levels of governance, emphasizing the importance of avoiding or preventing future and recurring losses. D

Energy Systems Electrical Engineering Technology
4 Semesters
Coordinator and Instructor: Instructors: Snarr, Beaty, Fitzen, Larson, Shepherd, Womack

Associate of Applied Science degree in Energy Systems Electrical Engineering Technology are available.

Objective: To prepare students for employment as electrical engineering technicians in electrical power generation fields. Electrical generation technologies addressed include nuclear, coal, gas and renewable technologies. Selection of the Electronics option will occur in the second semester of the Electronics Core. Acceptance into particular options is based upon available openings and other factors such as a grade point average and attendance.

For a Program Information Packet, visit http://www.isu.edu/ctech/programs.shtml, which leads to descriptions of each program in general, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses.
Associate of Applied Science Degree: Energy Systems Electrical Engineering Technology  
(4½ Semesters)

See Electronics Core Curriculum* section for required Electronics core courses. Students must register concurrently for the lab course associated with each theory course.

*MATH 170 may be substituted for MATH 153.*

**Of the 16 credits of General Education coursework required for the degree, 7 credits are part of the Electronics Core.**

Official articulation agreements have been established with other post-secondary and secondary schools. Where these agreements exist, the specific block of training (i.e., session/semester/year) will be accepted as equivalent to that taught at ISU and will count equally toward graduation.

The courses listed above will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade obtained before the student can advance in the program.

The student must exit the program and make up the deficiency through Technical General Education or other appropriate methods. The student will then be allowed to repeat the course at the next available program opening.

Once a student successfully completes ELTR 141 and 142, Applied Mathematics I and II, s/he may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.

**Energy Systems Electrical Engineering Technology Courses**

**ESET 100 Engineering Technology Orientation 1 credit.** An introduction to the opportunities and responsibilities of an engineering technician. Exposure to the various fields of technology through field trips, movies and guest lectures. Introduction to materials, techniques, and college services, which will assist the student in completing a technology program. F S

**ESET 101 Electrical Circuits I 5 credits.** Includes measurements and calculation of current, voltage, resistance and power in series, parallel and combination circuits with DC and AC power sources. Voltage and current in resistive-capacitive (R-C) and resistive-inductive (R-L) circuits during switch transitions, AC power circuits including reactance and transformation. Voltage and current in non-resonant and resonant AC circuits and filters. F S

**ESET 102 Electrical Circuits II 4 credits.** Continuation of electrical circuit study introducing the fundamentals of semiconductors, amplifier theory, digital logic and logical devices. S

**ESET 101L Electrical Circuit Laboratory 5 credits.** Electrical circuits are analyzed, designed and constructed using various DC and AC theories and electrical quantities are measured using appropriate test equipment. F

**ESET 102L Electrical Circuits II 4 credits.** Laboratory applications and experiments in troubleshooting of semiconductor devices and circuits, digital logic and logic device application. S

**ESET 230 Communication Circuits 2 credits.** Communication and various types of data and information transfer circuits. Analysis of the various types of communication available, and their principles of operation. F

**ESET 230L Communication Circuits Laboratory 1 credit.** Laboratory applications and explorations of various communication circuit types. Includes installation and maintenance considerations of the various types of communication available. F

**ESET 231 Microcontrollers 2 credits.** Principles of microcontroller and programmable controller programming including I/O devices and integration of process control principles. F

**ESET 231L Microcontrollers Laboratory 1 credit.** Applications of microcontroller and programmable controller programming including I/O device connections and interface to final elements of process control. F

**ESET 232 Electrical Machines 3 credits.** Energy storage, transfer, and conversion, force and emf production, coupled circuit analysis of systems with both electrical and mechanical inputs. Applications to electric motors and generators and other electromechanical transducers. F

**ESET 232L Electrical Machines Laboratory 3 credits.** Laboratory applications of electrical machines including, testing, evaluation and industry best practices for installation and troubleshooting. F

**ESET 233 Electrical Power Systems 3 credits.** The electric power industry, operation of power systems, load flow, fault calculations, economic dispatch and general technical problems of electric power networks. S

**ESET 233L Electrical Power Systems Laboratory 3 credits.** Applications and laboratory studies of power network principles, equipment application and device evaluation. S

**ESET 235 Power Electronic Circuits 2 credits.** Electronic theory addressing power electronic components, functions and configurations of power, multistage differential and operational amplifiers, oscillators, thyristors, power control and regulation circuits, sensors and networks. S

**ESET 235L Power Electronic Circuits Laboratory 1 credit.** Electronic laboratory addressing the components, functions and configurations of power, multistage differential and operational amplifiers, oscillators, thyristors, power control and regulation circuits, sensors and networks. S

**Energy Systems Instrumentation and Controls Engineering Technology**

Coordinator and Instructor: Snarr  
Instructors: Beatty, Fitzen, Larson, Shepherd, Womack  
Associate of Applied Science degree and Bachelor of Applied Science degree in Energy Systems Instrumentation and Controls Engineering Technology are available.

**Objective:**

To prepare students for employment as Instrumentation and Controls engineering technicians in electrical power generation fields. Electrical generation technologies addressed include nuclear, coal, gas and renewable technologies.
Selection of the Electronics option will occur in the second semester of the Electronic Core. Acceptance into particular options is based upon available openings and other factors such as a grade point average and attendance.

**Associate of Applied Science Degree: Energy Systems Instrumentation and Controls Engineering Technology**

(4% Semesters)

**Required Courses:**

See Electronics Core Curriculum* section for required Electronics core courses. Students must register concurrently for the lab course associated with each theory course.

- **ESET 201** Electronics for Instrumentation and Controls 2 cr

Once a student successfully completes ELTR 141 and 142, Applied Mathematics I and II, s/he may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.

**Energy Systems Instrumentation and Controls Engineering Courses**

**ESET 201** Electronics for Instrumentation and Controls 2 credits. Electronic theory and laboratory addressing the components, functions and configurations of power, multistage differential and operational amplifiers, oscillators, thyristors, power control and regulation circuits, sensors, and networks. Laboratory based learning experiences strengthen principles. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 202** Introduction to Fiber and Electro-Optics 2 credits. Fundamental physics of fiber/electro-optics, electro-optical spectrum, EO detectors, and arrays, IR sources, IR optical systems, light transmission/propagation, nonlinear optics, laser bandwidth, power supplies, optical fibers, fiber installation, testing, and maintenance. Lecture/Laboratory. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 203** Fundamentals of Electrical Generation 2 credits. Introduction to generator and prime mover principles covering major sources of utility generation. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 204** Process Control Devices 2 credits. Electronic control device theory and laboratory including sensors, device communication, controller fundamentals, control loops and loop tuning, device and system calibration and diagnostics, heat transfer, fluid flow, and refrigeration control. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 205** Fundamentals of Control Logic 2 credits. Introduction to control logic, relay logic principles, electronics in logic, logic and control drawings, fundamentals of programmable logic controllers (PLCs), and electrical automation concepts. Lecture/Laboratory. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 206** Health and Safety in Power Generation 1 credit. Regulatory and practical considerations of occupational health and safety associated with working with power generation systems. PREREQ: Electronics Core courses or permission of instructor. Su

**ESET 210** Principles of Power Generating Systems 2 credits. Transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis on circuit performance addressing voltage regulation, power factor, and protection devices. Lecture/Laboratory. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 211** Sensors and Control Devices 2 credits. Theory and application of control devices, sensors, timers, relays. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 212** Electrical Systems Documentation and Standards 2 credits. Introduction to print reading, technical specifications, print annotation, report writing and Electrical codes. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 213** Motors, Generators and Industrial Electrical Systems 2 credits. The construction, design aspects and theory of operation of DC, single and poly-phase motors, variable frequency motor control, electrical switch-boards and electrical distribution systems. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 214** Motor Control Laboratory 1 credit. Applications of AC and DC motor control theory and motor protection systems. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 215** Controller Laboratory 1 credit. Applications of Programmable Logic Controls and DCS including I-O configuration, Ladder logic design and function block use. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 216** Sensors and Control Device Laboratory 1 credit. Laboratory applications of sensors (including photoelectric and proximity types), relay and timer circuits, and application of automation devices. PREREQ: Electronics Core courses or permission of instructor. F

**ESET 217** Motor, Generator and Electrical Systems Laboratory 2 credits. Installation, setup, control, maintenance, and troubleshooting of AC and DC motors, electrical device installations and industrial safety and proper tool usage. PREREQ: Electronics Core courses or permission of instructor. F
ESET 218 Discrete Control Systems 2 credits. Discrete control concepts of power system operation including motor operated valve control, turbine sequencing and electrical system protection. PREREQ: Electronics Core courses or permission of instructor. S

ESET 220 Thermal Cycles and Heat Transfer 2 credits. Introduction to the Rankine, Carnot, and Brayton cycles. Includes principles of heat transfer and fluid flow and thermodynamic principles. PREREQ: Electronics Core courses or permission of instructor. F

ESET 221 Boiler, Reactor and Turbine Principles 2 credits. Survey of various boiler types and principles of combustion, overview of reactor principles and steam generation, turbine types and principles of operation. PREREQ: Electronics Core courses or permission of instructor. F

ESET 222 Process Control Theory 3 credits. Electronic instruments-sensors, indicators, transmitters, computing relays, electro-optics, electronic controllers, ratio control, cascade control, recorders, analytical equipment, troubleshooting. PREREQ: Electronics Core courses or permission of instructor. S

ESET 223 Digital Control Theory 2 credits. Digital systems, digital control, analog-to-digital and digital-to-analog interfacing, signal conditioning, programmable controllers, computer application. PREREQ: Electronics Core courses or permission of instructor. S

ESET 224 Measurement Theory 2 credits. Calibration calculations, pressure scales, level considerations, specific gravity, elevation suppression, closed and open systems, temperature scales, thermocouple and RTD values, bulb and capillary devices, heat transfer, flow with square root linearization, gas flow measurement calculations, mass flow, humidity measurements, PH measurements. PREREQ: Electronics Core courses or permission of instructor. S

ESET 225 Instrument Calibration Laboratory 1 credit. Use of test equipment, power supplies, current and volt measurements, use of oscilloscope, capacitor checker, decade box, Wheatstone bridge, transmitter simulator, manometers, pressure calibration devices. PREREQ: Electronics Core courses or permission of instructor. S

ESET 226 Process Control Devices Laboratory 1 credit. Set up, maintenance and troubleshooting of electronic sensors, indicators, transmitters, relays recorders, and controllers, transmission with twisted pair, fiber optics, smart systems, and analytical equipment. PREREQ: Electronics Core courses or permission of instructor. S

ESET 227 Digital Control Systems Laboratory 1 credit. Computer and programmable controller interfacing with transmitters and final elements, PID loops, auto tuning, set up to complete control loops, computer graphics. PREREQ: Electronics Core courses or permission of instructor. S

ESET 228 Measurements Laboratory 1 credit. Calibration of transmitters, simulation of process variables, temperature, pressure, level flow, and humidity control loops PREREQ: Electronics Core courses or permission of instructor. S

ESET 298 Independent Study 1-8 credits. Study tailored to individual assignment and reporting under faculty guidance. Student will pursue a unit of activity related to electrical power generation. PREREQ: Permission of instructor. S

### Fire Services Administration

Coordinator: Mikitish

One Associate of Applied Science degree (which requires 68 credits) is available in this online program.

As a result of rapid changes in firefighting and the administrative duties currently being experienced in the field, academic degrees are being made available to those who have chosen firefighting as a career to enhance their knowledge base as well as to prepare them for organizational leadership positions.

The National Fire Science Curriculum Committee (NFSCC) of the United States Fire Academy Fire and Emergency Service Higher Education (FESHE) is working to attain the following objectives:

1. Creation of degree programs that teach critical thinking skills by requiring a significant number of general education courses rather than mostly fire science courses;

2. Development of associate degree programs that are transferable to baccalaureate programs;

3. Establishment of a model fire science curriculum at the associate level that universally standardizes what students learn and facilitates the application of these courses toward certification goals; and

4. Collaboration between fire certification and training agencies and academic fire programs.

The Fire Service Technology program is designed to upgrade the fire fighting skills and knowledge of volunteer and paid fire fighters. In some instances a volunteer fire fighter may use this degree as a means to enter the fire service as a paid professional. The program covers all phases of fire fighting. The intent is to provide fire fighters with the skills needed to save lives and protect property in a safe and efficient manner. Special fees apply to this program.

Students must be registered at Idaho State University to apply for graduation.

In order to apply for this program, one must currently be employed in the fire fighting profession. Students must be registered at Idaho State University to apply for graduation.

Because students must complete 38 credits of general education courses in addition to other degree requirements, it is highly recommended that a student meet with an advisor prior to beginning this program. An Associate of Science degree in Fire Services Administration is required for those wishing to pursue a Bachelor of Science in Fire Services Administration.

All Fire Services Administration courses are online. Students must have minimum computer requirements as listed in the program information packet, provided at [http://www.isu.edu/ctech/programs.shtml](http://www.isu.edu/ctech/programs.shtml).

Bachelor of Science
Degree: Geomatics Technology

The following courses are required for a Bachelor of Science Degree.

Required Courses:
- CET/GEMT 111 Drawing with CAD 3 cr
- CET/GEMT 112 Beginning Surveying 5 cr
- CET/GEMT 121 Civil Engineering Technology Drafting 3 cr
- CET/GEMT 122 Intermediate Surveying 5 cr
- CET/GEMT 212 Route Survey, Design and Engineering 10 cr
- CET/GEMT 224 Land and Construction Surveys 10 cr
- ENGL 307 Technical Writing 3 cr
- MATH 147 Pre-calculus 5 cr
- MATH 175 Calculus I 4 cr
- GEMT 310 Surveying Law and Boundary Description 3 cr
- GEMT 311 Advanced Surveying 3 cr
- GEMT 312 Public Land Surveying 3 cr
- GEMT 331 Surveying Software Applications 3 cr
- GEMT 334 Research and Evidence in Surveying 3 cr
- GEMT 335 Surveying Adjustments and Coordinate Systems 3 cr
- GEMT 337 Subdivision Planning and Platting 3 cr
- GEMT 411 Geodesy 3 cr
- GEMT 413 Land Information Systems 3 cr
- GEMT 415 Survey Office Practice 3 cr
- GEMT 420 Surveying Project I 1 cr
- GEMT 421 Surveying Project II 2 cr
- GEMT 425 Principles of Cartography 3 cr
- GEMT g430 Principles of Photogrammetry 3 cr

General Education Requirements:
- ENGL 101 English Composition 3 cr
- ENGL 102 Critical Reading and Writing 3 cr
- COMM 101 Principles of Speech 3 cr
- MATH 170 Calculus I AND 4 cr
- MATH 153 Introduction to Statistics 3 cr
- GOAL 4 Goal 4 6 cr
- PHYS 101, 101L Elements of Physics, and Lab 4 cr
- HIST 118 U.S. History and Culture 3 cr

- ECON 201 Principles of Macroeconomics 3 cr
- Any two (2) of Goals 6, 7, and 8 6 cr
- Any one (1) of Goals 10A, 10B or 12 3 cr or 8 cr
- TOTAL: 129 or 134 cr

GEMT Courses

GEMT 111 Drawing with CAD 3 credits.
A basic study of mechanical drawing with computer-aided drafting emphasis. Instructional units include icon uses with layers, linetypes and colors, editing drawings, coordinate usage, polylines, text, hatching, dimensioning, multiview and layout. Cross-listed as CET 111. F

GEMT 112 Beginning Surveying 5 credits.
Introduction to surveying. Theory and field work using equipment in the areas of measuring (taping, chaining, using hand levels), leveling
GEMT 121 Civil Engineering Technology Drafting. 3 credits. Civil Engineering Technology drafting, municipal and rural maps and drawings, drainage applications, plan and profile drawings, cross-sections, earthwork and other details relating to pertinent drawings. Computer-aided-drafting is used for drawings. Cross-listed with CET 112. F

GEMT 122 Intermediate Surveying. 5 credits. Study survey of land, traverses and closures, bearings and coordinates, and construction surveying and staking. Control for surveys, topography surveying and mapping using calculators and COGO to solve surveying problems. Introduction to data collection. Produce survey drawings with TDS/COGO. Cross-listed with CET 121. PREREQ: CET/GEMT 111. S

GEMT 212 Route Survey and Design and State Plane Coordinates 10 credits. Studies route surveying, circular, spiral, and parabolic curves as applied to highway design; route locations, plans, and specifications; Idaho state plane coordinate system, resections and radial surveying. Uses CAD and survey software; produces maps on plotters. Cross-listed as CET 212. PREREQ: CET/GEMT 122. F

GEMT 224 Land and Construction Surveys 10 credits. Advanced study of surveying topics including the public lands survey system, land divisions and descriptions, and construction staking procedures. Use principles of calculations of roadway projects using data collection and computer software; basic GPS theory and operation in surveying practices. Cross-listed as CET 224. PREREQ: CET/GEMT 212. S

GEMT 310 Surveying Law and Boundary Descriptions 3 credits. Riparian and littoral rights, ownership, transfer of legal description, boundary law, presumptions, easements and reversions, sequential and simultaneous conveyances, case studies, brief history of public land surveys, state laws, rules for practicing surveying, ALTA survey. PREREQ: GEMT junior status or permission of instructor. D

GEMT 311 Advanced Surveying 3 credits. Discuss transverse mercator projection and state plane coordinates, spherical trigonometry and astronomical observation, and coordinate geometry calculations. Control surveys include triangulation, precise traverse, intersection and resection. Collect data using robotic station, digital level, and precise leveling. PREREQ: CET/GEMT 224. F

GEMT 313 Surveying Software Applications 3 credits. Civil survey software. Topics include data download; batch file creation; editing and processing; COGO functions; field to finish functions; area and lot sizing; TINs, DTMs and contours creation; calculation of volumes and basic road design and layout. PREREQ: CET/GEMT 224 or permission of instructor. F

GEMT 314 Research and Evidence in Surveying 3 credits. Survey of research sources and techniques including field, surveyors’ offices, governmental agency, courtroom procedures and practices. Local government agency permit and approval procedures. Surveyor/attorney interaction and roles. Student will work on case studies and prepare a final report. PREREQ: CET 224. S

GEMT 315 Surveying Adjustments and Coordinate Systems 3 credits. Studies matrix inverse; solution of linear equation by matrices, theory and computation of least squares adjustments, coordinate transformation, error ellipses, and statistical testing. PREREQ: MATH 170, MATH 153 and CET/GEMT 224. S

GEMT 317 Subdivision Planning and Plotting 3 credits. Land use planning; governmental regulations and permits as applied to subdivisions; subdivision planning, computations and preparation of subdivision plats. PREREQ: GEMT 313 and GEMT 315. F

GEMT 400 Essentials of Surveying 2 credits. Preparation for fundamentals of surveying exam. May not be used as a technical elective. May be repeated once for a total of 4 credits. PREREQ: Senior in Geomatics, graduate or Civil Engineering Technology, Civil Engineering, or industry experience. Graded S/U. F, S

GEMT 411 Geodesy 3 credits. Introduces geometry of ellipsoid, reference coordinate systems, local geodetic coordinate system, reduction of observation to other geodetic values, precise leveling and orthometric height, direct and inverse geodetic position computation and gravity field of earth. PREREQ: Senior standing or permission of instructor. S

GEMT 413 Land Information System 3 credits. Model of land information system, reference systems, data capture, structure, quality, and implementation of land information system. Student works on a case study and writes a final report. PREREQ: CET 224 and MATH 147 or permission of instructor. S

GEMT 415 Survey Office Practice 3 credits. Introduction to the broad skills required of a surveyor running a business. Topics covered include formulating a business plan, forms of business organizations, basic financial forms and accounting, concepts of pricing and bidding, personnel management, marketing, contracts and proposals, and project management. PREREQ: Senior standing or permission of instructor. S

GEMT 417 Independent Study 1-3 credits. Study of a selected surveying topic chosen by the student and approved by the instructor. Student will complete a final report. PREREQ: PERMISSION OF INSTRUCTOR. D

GEMT 420 Surveying Project 1 credit. An independent study capstone course designed to further develop the skills required of a professional surveyor. Project is selected, designed, and performed under the guidance of a faculty member. PREREQ: Senior standing or permission of instructor. D

GEMT 421 Surveying Project II 2 credits. Continuation of the independent study capstone course designed to further develop the skills required of a professional surveyor. Project is designed and performed under the guidance of a faculty member. A formal presentation and defense of the project to faculty and peer committee is required. PREREQ: Senior standing or permission of instructor. D

GEMT 425 Principles of Cartography 3 credits. Studies history of cartography; theory and practice of cartography including map reading, scales, spatial reference systems, projections, data acquisition, thematic mapping, map simplification, classification, generalization and map design, and computer mapping. PREREQ: GEMT junior status or higher or permission of instructor. S

GEMT 432 Principles of Photogrammetry. 3 credits. Introduction to vertical photo geometry and its scale, relief and tilt displacement, stereoscopic viewing, parallax measurement, aerial triangulation. PREREQ: CET/GEMT 224 or permission of instructor. F

GEMT 433 Principles of Photogrammetry. 3 credits. Introductions to three-dimensional modeling and its scale, relief and tilt displacement, stereoscopic viewing, parallax measurement, aerial triangulation. PREREQ: CET/GEMT 224 or permission of instructor. F

GEMT 498 Special Topics 1-3 credits. Designed for creative problem solving and for integrating techniques into geomatics. Topics chosen depend upon student’s interest or specific need of individuals in the area of surveying, mapping, geodetic surveying, boundary surveying, geodesy, remote sensing, cartography, and photogrammetry. PREREQ: Permission of instructor. D

Graphic Arts/Printing Technology

3 to 4½ Semesters

Program Coordinator/Instructor: O’Neil
Instructors: Appgood, Hawk

Two Advanced Technical Certificates, one Associate of Applied Science Degree and one Bachelor of Applied Science Degree are available.
Objective: To prepare graduates for careers in the graphic communications profession through classroom and practical applications to include: digital imaging, press operations, applications for reproduction photography, bindery, pre-press operations, and other customer oriented activities in a live-work learning environment.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/graphicarts.shtml.

Advanced Technical Certificate:
Graphic Arts-Desktop Publishing/Print Media
(3 Semesters)

Required Courses:
GART 121 Introduction to Graphic Arts 2 cr
GART 123 Finishing Binding 1 cr
GART 124 Printing Mathematics 2 cr
GART 127 Beginning Press Operations 5 cr
GART 129 Beginning Desktop Publishing/Print Media 6 cr
GART 130 Intermediate Desktop Publishing/Print Media 7 cr
GART 131 Advanced Press Operation 6 cr
GART 132 Advanced Desktop Publishing/Print Media 7 cr
GART 133 Advanced Desktop Publishing/Print Media 6 cr
GART 134 Graphic Arts Production 8 cr
GART 135 Intermediate Desktop Publishing/Print Media 6 cr
GART 136 Digital Imposition 6 cr

General Education Requirements:
COMM 101 Principles of Speech 3 cr
TGE 151 Technical Writing 2 cr
TGE 152 Technical Writing II 2 cr
TGE 158 Employment Strategies 2 cr
PSYC 101 Introduction to General Psychology 3 cr
TOTAL: 55 cr

Associate of Applied Science Degree: Graphic Arts-Graphic Communication
(4½ Semesters)

Required Courses:
GART 121 Introduction to Graphic Arts 2 cr
GART 123 Finishing Binding 1 cr
GART 124 Printing Mathematics 2 cr
GART 127 Beginning Press Operations 5 cr
GART 128 Intermediate Press Operations 7 cr
GART 129 Beginning Desktop Publishing/Print Media 6 cr
GART 130 Intermediate Desktop Publishing/Print Media 7 cr
GART 131 Advanced Press Operation 6 cr
GART 132 Advanced Desktop Publishing/Print Media 6 cr
GART 133 Advanced Desktop Publishing/Print Media 6 cr
GART 136 Graphic Arts Production 8 cr
GART 137 Screen Printing 7 cr

General Education Requirements:
ENGL 101 English Composition 3 cr
Goal 2 3 cr
Goal 3 3 cr
Goal 6, 7, 9, 10A, 11 or 12 3 cr
TGE 158 Employment Strategies 2 cr
TOTAL: 81 cr

GART Courses
This program uses a cohort admission policy; enrollment in any course requires instructor permission. Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

GART 121 Introduction To Printing 2 credits.
Introduction to the graphic arts industry, including procedures and processes required to produce a printed job from start to finish. D

GART 123 Finishing Binding 1 credit.
This course will introduce the student to the binding and finishing operations that are necessary to prepare the printed job for final delivery. This will include cutting the paper before and after printing, folding, creasing, slitting, scoring, binding and other finishing operations. D

GART 124 Printing Mathematics 2 credits.
This course applies basic mathematics related to the graphic arts industry. This includes addition, subtraction, multiplication, division, fractions, percentages and appropriate conversions used in the graphic arts industry.

General Education Requirements:
COMM 101 Principles of Speech 3 cr
TGE 151 Technical Writing 2 cr
TGE 152 Technical Writing II 2 cr
TGE 158 Employment Strategies 2 cr
PSYC 101 Introduction to General Psychology 3 cr
TOTAL: 54 cr

GART 127 Beginning Press Operations 5 credits. Produce single color printed material on small offset presses. D

GART 128 Intermediate Press Operations 7 credits. Complex small offset press work to produce multicolor printing requiring close register. D

GART 129 Beginning Desktop Publishing/Print Media 6 credits. Basic theory, industry standards, and layout skills. Introduction to typography and to desktop publishing equipment and software as used in the graphic arts industry. D

GART 130 Intermediate Desktop Publishing/Print Media 7 credits. Produce artwork for print production using graphic manipulation software. Theory for design, color, and digital imaging combined with typography skills. D

GART 131 Advanced Press Operation 6 credits. This course is designed to train the student in the operation of larger sheet-fed offset presses. The student will produce single and multicolor close register printing on larger format presses. D

GART 132 Advanced Desktop Publishing/Print Media 6 credits. Advanced training in more complex desktop publishing and electronic graphic applications. D

GART 135 Graphic Arts Production 8 credits. Produce live work from concept to completion, layout, typeset, produce negatives for masking and platemaking, print and complete the bindery work on small and large printing projects for the University. May include supervised internships and job shadowing. D

GART 136 Digital Imposition 6 credits. Terminology, materials, equipment, and methods used in manual and digital imposition. File formats, fonts, imposition, trapping, screen angling, Preflight, PostScript output, imagesetting equipment, proofing, and platemaking. D

GART 137 Screen Printing 7 credits. Provide first hand experience in the varied aspects of screen printing processes and enable students to confidently produce quality, multi-colored and registered prints. D

GART 298 Independent Study 1-8 credits. Faculty-supervised individual study to upgrade skills in graphic arts and/or printing technology. D
Health Information Technology

4 Semester Program for full time students. Part time program also available. This program can be taken fully online.

Coordinator/Instructor: Young Lowry

The program is accredited by the Commission on Accreditation of Allied Health Educational Programs in conjunction with the American Health Information Management Association’s Council on Accreditation. Graduates of the programs are eligible to write the national certification examination for the Registered Health Information Technician (RHIT).

One Associate of Applied Science Degree, one Bachelor of Science in Health Science Degree, and one Bachelor of Applied Science Degree are available. One Medical Transcription Certificate is available.

This program will provide students with the skills and knowledge to:

1. Maintain components of health information systems consistent with the medical, legal, accreditation and regulatory requirements of the health care delivery system.
2. Maintain, compile and report health information data for reimbursement, facility planning, marketing, risk management, utilization management, quality assessment and research; abstract and code clinical data using appropriate classification systems.
3. Analyze health records according to standards.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/etech/healthinfo.shtml.

Post-Secondary Technical Certificate: Medical Transcription

(3 Semesters)

This program will provide students with the skills and knowledge to transcribe (type) dictated medical reports that document a patient’s medical care and condition. These include office chart notes, history and physical examinations, consultations, letters, memos, admission notes, emergency department notes, operative reports, discharge summaries, and laboratory tests and diagnostic studies.

Classes are delivered via the internet. No financial aid is available to the student. These credits do not articulate into Health Information Technology AAS Degree. Recommended 50 nwpm.

Required Courses:

All required courses must be completed with a “C” grade or better.

HIT Courses

HIT 201 Supervised Professional Practice I 2 credits. Directed clinical practice in various health information sites under the preceptorship of a practicing professional for 4 hours per week for eight weeks. PREREQ: All first year courses must be completed. Graded P/NP. S

HIT 202 Health Information I 4 credits.

HIT 211 Medical Transcription II 3 credits. Directed clinical practice in a health information department under the preceptorship of a practicing professional for 40 hours per week for four weeks. PREREQ: All courses must be completed. Graded S/U. F, S

HIT 209 CPT Coding 3 credits. Principles and application of coding for statistical and reimbursement purposes utilizing the International Classification of Diseases. PREREQ: HO 106, BIOL 101, BIOL 101L, and HO111 or BIOL 301 and BIOL 302. F, S

HIT 210 Medical Transcription I 3 credits.

HIT 210 Medical Transcription II 3 credits. Directed clinical practice with an emphasis on the profession, history and physical report, pharmacology, laboratory and dermatology specialities. F, S, Su, W

HIT 211 Medical Transcription II 3 credits. Medical transcription with an emphasis on the genitourinary, gastroenterology, orthopedics, and cardiology specialities. F, S, Su, W

HIT 212 Medical Transcription III 3 credits. Medical transcription with an emphasis on pulmonary, endocrinology, obstetrics, gynecology, ophthalmology, orthohalinarygology, and neurology specialities. F, S, Su, W

HIT 213 Advanced Coding and Reimbursement 3 credits. Practical application of ICD and CPT coding utilizing software and actual patient records. Application of coded data in payment and reimbursement systems, including the basic instructions for filing various types of health care claims and accounts receivable. Students will use medical software to perform...
Health Occupations Department

Chair: Peterson
Instructional Assistant, Nursing Programs: Krueger
Education Specialist: Flint
Senior Lab Supervisor: Allen

Health Occupations Programs:
The Health Occupations Department administers several programs leading to certificates and degrees in health fields. Included are the following:

- Associate Degree Registered Nursing
- Bachelor of Science in Health Sciences
- Child Development
- Dental Lab Technology
- Health Information Technology
- Massage Therapy
- Medical Assisting
- Paramedic Science
- Physical Therapist Assistant
- Practical Nursing

This department offers programs to prepare students for a variety of health occupations. The programs offer Certificates, Associate of Applied Science, Associate of Science, and Bachelor’s Degrees.

In each of these programs that offers an Associate degree, the student may elect to earn a Bachelor of Applied Technology (B.A.T.) or Bachelor of Science in Health Science (B.S.H.S.) degree. Students should consult with their program advisors about which University general education courses can be used to fulfill requirements for both the associate degrees and either the B.A.T. or the B.S.H.S. degrees. More detailed information is provided under Academic Information in the General Information section of this Catalog.

The Department offers a Prehealth option for students who wish to explore the variety of health professions. Those courses are listed below. Students who wish to enroll in any of the Health Occupations programs should review the specific program requirements listed in the College of Technology.

For a list of links to programs in this department, go online to http://www.isu.edu/ctech/healthdepartment.shtml.

Bachelor of Science in Health Science Degree

This is a baccalaureate degree designed to provide Associate degree graduates the opportunity to pursue a Bachelor of Science (BS) degree in health studies and satisfy many of the prerequisites for a variety of health science related graduate programs. The objective of the Bachelor of Science in Health Science (B.S.H.S.) program is to allow students who have graduated or are enrolled in health occupations training at the level of an associate degree to pursue a bachelor’s degree with an advanced general health science focus. This degree provides a curriculum for students who desire an education that can serve as a foundation for additional professional or graduate work in several health science professions, including medicine, dentistry, hospital administration, medical technology, physical therapy, and occupational therapy. All students are encouraged to work closely with an advisor within their associate degree programs to ensure that the courses they plan to take will meet the specific career goals of each student.

Students pursuing the Bachelor of Science in Health Science Degree must complete the same goals as those pursuing other Bachelor of Science Degrees: Goals 1, 2, and 3; Goals 4 and 5; or 12 credits in the physical or biological sciences; two of Goals 6, 7, and 8; and three of Goals 9, 10a or 10b, 11, and 12.

Specific goal requirements may be listed under individual health occupations program curricula.

The B.S.H.S. Degree includes the following credit requirements:

**Associate Degree Requirements:** Students must be a graduate of or be enrolled in a health related program that awards an associate degree. * Students with an Associate of Applied Science Degree may transfer up to a maximum of 50 credits from this degree (all lower division credits).

* Out-of-state associate degrees must be evaluated for meeting the Idaho State Board of Education standards. If the associate degree is over five years old, the degree must be evaluated for currency in the technical field.

**General Education Requirements:** Minimum of 34 credits. A student may need more depending on the results of placement testing.

**Academic Coursework:** 30-35 credits from specific courses listed below.

**Upper Division Credits:** A total of 36 upper division credits is required.

**Total Minimum Credits Required** (including transfer credits from Associate of Applied Science Degree): 128 credits.

**Required Academic Coursework:**

<table>
<thead>
<tr>

<tr>
<td>CHEM 111</td>
<td>General Chemistry I and Lab* 5 cr</td>
</tr>
<tr>
<td>CHEM 112</td>
<td>General Chemistry II and Lab* 4 cr</td>
</tr>
</tbody>
</table>

Or these three courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 101</td>
<td>Introduction to General Chemistry* 3 cr</td>
</tr>
<tr>
<td>CHEM 102, 103</td>
<td>Introduction to Organic and Biochemistry, and Lab* 4 cr</td>
</tr>
</tbody>
</table>

**Total: 28-33 cr**

* The chemistry and physics requirements collectively satisfy Goals 4 and 5.

**Upper Division Credit Choices and Electives**

Students may choose from a variety of upper division courses on campus that will facilitate their career goals and opportunities. There are some upper division classes listed that require a lower division prerequisite or permission of the instructor.

The Bachelor of Science in Health Science is a multi-disciplinary/interdisciplinary degree and allows freedom for students to pursue areas of study that will best meet their professional or graduate school goals. In order to assure that students have the appropriate prerequisites and/or permission from instructors, that degree requirements are met and that the student has a degree that is appropriately focused; the degree plan will be approved by a committee.
consisting of the Associate Dean and qualified faculty and staff of the Health Occupations Department of the College of Technology.

Below are several areas that a student may select to fulfill the student’s individual goals. The student must complete a minimum of three (3) upper division biology credits. It is expected that a student will complete a minimum of at least one course out of three of the areas listed below. The above-described committee will approve the selection of these upper division credits to assure coherence in the degree plan.

Areas of Possible Study:

Biology:
A minimum of 3 credits in upper division biology courses.

Psychological and Social Sciences:
- ANTH g407 Introduction to Medical Anthropology 3 cr
- ANTH g408 Special Topics in Medical Anthropology 3 cr
- PSYC 225 Child Development 3 cr
- PSYC 302 Abnormal Psychology II 3 cr
- SOC 301 Classical Social Theory 3 cr
- SOC 330 Sociology of Health and Illness 3 cr
- SOC 366 The Community 3 cr
- SOC g413 Mind, Body, and Society 3 cr

Health Education:
- H E 332 Community and Public Health 3 cr
- H E 340 Fitness and Wellness Programs 3 cr
- H E 383 Epidemiology 2 cr
- H E g420 Health Planning and Evaluation 3 cr
- H E g460 Health Behavior Change Theory and Application 3 cr

Physical Education:
- P E 300 Movement Theory and Motor Development 4 cr
- P E 301 Physiology of Exercise 4 cr
- P E 302 Biomechanics 3 cr
- P E 322 Psycho-Social Aspects of Human Activity 2 cr
- P E g470 Care and Prevention of Athletic Injuries 3 cr
- P E g494 Adapted Physical Activity 4 cr

Chemistry and Physical Science:
- CHEM 301/303 Organic Chemistry I and Lab 4 cr
- CHEM 302/304 Organic Chemistry II and Lab 4 cr
- PHYS 312 Introduction to Biophysics 4 cr

HO Courses
- HO 105 Introduction to Allied Health Careers 2 credits. Introduction to allied health careers emphasizing the interrelationships and the team approach to health care. F, S, Su
- HO 106 Medical Terminology 2 credits. Body systems approach to theory and application of medical terms including anatomical, pathological, surgical and diagnostic as well as appropriate abbreviations. F, S, Su
- HO 107 Medical Law and Ethics 3 credits. Principles and application of law to health care organizations and personnel, standards of care and liability; covers tort, contract and statutory law. F, S, Su
- HO 108 Basic Anatomy 2 credits. The study of the structure and function of the body and its parts. F, S
- HO 111 Introduction to Anatomy and Physiology 4 credits. An introductory study of the normal structure and function of body cells, tissues, organs, and systems. BIOL 101/101L is suggested as a prerequisite to this course. F, S
- HO 204 Medical Transcription 4 credits. Transcription of a wide variety of medical reports including history and physicals, discharge summaries, operative reports, consultations, emergency room, obstetrics, pathology, autopsy, radiology and others. PREREQ: HO 106. F, S
- HO 208 Introduction to Pathology 3 credits. An introductory course in the concepts of pathology. Includes causes, common mechanisms, and anatomic or functional manifestations of human disease. PREREQ: HO 106, BIOL 101/101L, HO 111 or BIOL 301/301L and BIOL 302/302L. F, S, Su
- HO 209 Principles of Drugs and their Uses 3 credits. Introduction to the study of drugs, their sources, appearance, actions, uses, and basic principles of therapeutic drug administration. Classification of drug safety issues, sources of drug information, legislation related to drugs, and drug references will be included. PREREQ: HO 106, BIOL 101/101L; HO 111 or BIOL 301/301L and BIOL 302/302L. F, S, Su.

Department of Human Resource Training and Development
Chair and Professor: Croker
Professor: Johnson
Assistant Professor: Wilson-Scott
Adjunct Faculty: Buffaloe, Jacobsen, Treasure
Emeriti: Bobell, Humphrey

This department offers professional courses to prepare students for bachelor’s degrees in Human Resource Training and Development with options in Corporate Training or Professional-Technical Teacher Education. A master’s degree in Human Resource Training and Development is offered. Courses listed with the letter “g” before their number can be taken for graduate credit. The master’s degree in HRSD is described in the Graduate Catalog.

Bachelor of Science Degree: Human Resource Training and Development
Field of Specialization
Students enrolled in the PTE option must possess a technical specialization in at least one occupational area recognized as a specialization offered in a post-second ary professional-technical system, or in employee training programs in business and industry.

Credit Requirements
Credit toward the Professional-Technical Teacher Education or Corporate Training option must be earned in four specific areas:

1. Work experience-Credit may be granted for occupational competency based on work experience: 32 credits maximum for work experience. A minimum of five years of documented full-time work experience is mandatory. A maximum of 24 months of professional-technical, proprietary, or military education successfully completed in an approved program may be applied. All applicable work experience and technical education must be documented, verified, and evaluated by a review committee prior to granting of credit. The credit granted may be applied toward the Professional-Technical Teacher Education or Corporate Training option only.

2. General education university requirements for a B.S. Degree: 34 credits minimum (see General Education Requirements section of catalog).

3. Professional-technical Teacher Education or Corporate Training coursework: 44 credits minimum (see requirements).
### Professional-Technical Teacher Education Option

The Bachelor of Science Degree in Human Resource Training and Development Professional-Technical Teacher Education prepares persons for instructional responsibilities in professional-technical education, and other related fields. The program includes content applicable to State of Idaho standards for Professional-Technical educators. It emphasizes teaching in public and proprietary secondary and postsecondary schools.

### Minimum Requirements: Professional-Technical Teacher Education Option

**General Education requirements** for a B.S. Degree (minimum) 34 cr
- Major coursework and electives (minimum) 44 cr
- Field of specialization (work experience) (HRD 210/310) 32 cr
- Technical specialization or minor field of study (minimum) 18 cr
- University graduation requirements (minimum) 128 cr

### Required Courses: Professional-Technical Teacher Education Option

### Corporate Training Option

The Bachelor of Science Degree in Human Resource Training and Development Corporate Training Option prepares the student to analyze, design, develop, implement, and evaluate training in business and industry. The degree has been designed to recognize work experience competency and technical skill earned through a postsecondary technical program, the military, or continuing education evaluated by the American Council of Education Guide.

### Minimum Requirements: Corporate Training Option

- General education requirements for a B.S. Degree (minimum) 34 cr

### HRD Courses

- **HRD 210 Competency-Based Equivalency I 16 credits.** Credit, unique to the corporate training and vocational teacher education majors, for technical competence gained through verified employment evaluated by review committee. PREREQ: Sophomore standing and 6 required credits in the major. Graded S/U. F, S, Su

- **HRD 220 Technical Education Equivalency 1-18 credits.** Credit, unique to the corporate training and professional teacher education majors, for technical competence acquired through verified post-secondary professional-technical, proprietary, or military education evaluated by review committee. Graded S/U. F, S, Su

- **HRD 310 Competency-Based Equivalency II 16 credits.** Credit, unique to the corporate training and vocational teacher education majors, for technical competence gained through verified employment evaluated by review committee. PREREQ: Sophomore standing and 6 required credits in the major. Graded S/U. F, S, Su

- **HRD 397 Professional Education Development 1-3 credits.** A course for the practicing occupation educator aimed at the development and improvement of educational skills. Various sections will have different subtitles. May be repeated up to four times. Graded S/U. D

- **HRD g401 Foundations of Professional-Technical Education 3 credits.** Acquistes the student with the various aspects of professional-technical (formerly vocational) education: history, legislation, philosophy and organization of professional-technical education. D, W

- **HRD g402 Occupational Analysis and Course Construction 3 credits.** Analysis of components of occupations to determine instructional content. Development of instructional materials based on performance objectives and competency identification. F, S

- **HRD g403 Methods for Teaching Professional-Technical Education 3 credits.** Teaching methods and techniques applicable to professional-technical education. F, S

- **HRD g404 Evaluation in Corporate Training and Professional-Technical Education 3 credits.** Designing and conducting evaluations at four-levels in professional-technical education, and in business and industry training, including data analysis and preparation of evaluation reports. F, S

- **HRD g405 Learning Styles Fundamentals 3 credits.** Examination of the research related to learning styles and implications for curriculum and instruction. Includes presentation of an eight-step approach for teaching pedagogical content. F, S

- **HRD g406 Grantwriting in Human Resource Training and Development 3 credits.** Reasons
for requesting a grant, goal setting, sample projects, identifying funding agencies, submitting a Request for Proposal (RFP), elements of a good proposal, library resources, websites, and other references for grantwriting. D

HRD g407 Technology in Human Resource Training and Development 3 credits. Using computers in HRTD: hardware, software, and peripherals. Advanced word processing, database development, spreadsheets, and presentations software. How to access and use the Internet. Web-based instruction software will be introduced. F, S

HRD g409 Professional Readings and Writing 3 credits. Exposure to the professional literature and websites of professional-technical education and corporate training, including practice in writing abstracts of journal articles using APA Style. D

HRD g410 Group Initiative and Change 3 credits. Tasks in a work environment; activities that develop both a team atmosphere and an understanding of how teams work; types of teams, synergy, team conflict, use of games, the change phenomenon, and team challenge activities. Su

HRD g420 Selected Topics 1-8 credits. Examination and analysis of special topics for professional-technical education teachers/trainers. PREREQ: Permission of instructor. D

HRD g431 Workforce Leadership 3 credits. Supervising in a professional technical education or corporate training setting. Study human relations factors: planning, organizing, evaluation, staff development, labor relations, and personnel policies/practices. D

HRD g444 Career Guidance and Special Needs in Professional-Technical Education 3 credits. Examine career guiding concepts, specialist services, special needs legislation, abilities and inabilities (both mental and physical), job seeking skills, and information sources. D

HRD g450 Principles of Adult Education 3 credits. Provides an understanding of adult education as a field of academic inquiry and professional practice. Examines current and past trends and practices of adult learning. D

HRD g457 Facilitating Adult Learning 3 credits. Study of the needs and interests of adult learners in business and industry using Andragogy. Planning of conferences and workshops for adult learners. F, S

HRD g461 Directed Studies 1-4 credits. Individual work under staff guidance. Field research on specific occupational advances in technology. PREREQ: Permission of instructor. D

HRD g464 Instructional Facilities Management 3 credits. Organization, safety, and management of professional-technical education training facilities. An in-depth study of laboratory requirements and total facility planning. D

HRD g465 Practicum in Corporate Training 3 credits. Development of training competencies applicable to business and industry settings. Actual supervised participation as a trainer is required. PREREQ: Permission of instructor. Graded S/U. F, S

HRD 467 Practicum: Student Teaching 3-8 credits. Development of teaching competencies applicable to professional-technical (formerly vocational) education settings at the secondary and post-secondary levels. Actual participation as an associate teacher is required. PREREQ: Permission of instructor. Graded S/U. F, S

HRD g468 Teaching Cooperative Education and School-to-Work 3 credits. Coordinating cooperative education and school-to-work programs, occupational and job analysis, utilizing professional-technical advisory committees, organizing and advising vocational student organizations. S

HRD g480 Advanced Technical Competency 1-4 credits. Advanced occupational skills and knowledge obtained from modern practice in selected field. For experienced professionals seeking advanced techniques in specialized areas of vocational education. D

Instrumentation and Automation Engineering Technology

4½ Semester Program

Program Coordinator and Instructor: Snarr
Instructors: Fitzen, Larson, Shepherd, Womack

One Post-secondary Technical Certificate, two Advanced Technical Certificates, two Associate of Applied Science Degrees, and one Bachelor of Applied Science Degree are available.

Objective:
To prepare students for employment as technicians meeting the changing electrical and process automation needs of industry.

Employers include food processing, mining, semiconductor, chemical, nuclear, paper, steel, petroleum, utilities and manufacturing industries. Graduates will have theoretical knowledge and hands on experience setting up and calibrating electronic devices that measure and control temperature, level, flow, pressure, motion, force, humidity and pH.

Graduates will be able to troubleshoot single and three phase motor controls, basic variable frequency drives, programmable logic controllers, sensors, relays, timers, solenoids, and other automation devices.

This program requires concurrent enrollment in ELTR 131, ELTR 130, INST 220, and INST 140 in the spring semester and concurrent enrollment in INST 240, 242, 250, 251, 253, and 254 during summer semester.

Required Courses:

ELTR 130  Fundamental Electricity and Electronic Theory 5 cr
ELTR 131  Fundamental Electricity and Electronic Lab 5 cr
INST 140  Introduction to Motors and Motor Control Theory 2 cr
INST 220  Introduction to Programmable Logic Controllers 3 cr
INST 240  Instrumentation Theory 2 cr
### Associate of Applied Science Degree: Instrumentation and Automation Technology

**Engineering Technology**

(4% Semesters)

**Required Courses**

See the Electronics Core Curriculum section for required Electronics core courses.

**Courses**

- **INST 236** Applications of Electronic, Electrical, and Process Control Fundamentals and Safety 5 cr
- **INST 260** Electrical Systems Documentation and Standards 2 cr
- **INST 281** Electrical Automation Theory 8 cr
- **INST 282** Electrical Automation Lab 5 cr
- **INST 296** Process Measurement and Control Theory 10 cr
- **INST 297** Process measurement and Control Lab 5 cr

**General Education Requirements:**

- **ENGL 101** English Composition 3 cr
- **COMM 101** Principles of Speech 3 cr
- **TGE 158** Employment Strategies 2 cr

**TOTAL:** 75 cr

---

### Associate of Applied Science Degree: Industrial Controls

**Engineering Technology**

(5 Semesters)

**Required Courses**

See the Electronics Core Curriculum section for required Electronics core courses. For this degree, the General Education Requirements portion of the Electronics Core does not apply, because students in this program may choose between a Physics and a Chemistry course to satisfy the physical science requirement.

Students must register concurrently for the lab course associated with each theory course.

**Courses**

- **ELTY 131** Electrical Theory I 4 cr
- **ELTY 132** Electrical Theory II 5 cr
- **ELTY 134** Electrical Code I 3 cr
- **ELTY 135** Electrical Code II 3 cr
- **ELTY 136** Electrical Theory I 4 cr
- **ELTY 137** Electrical Theory II 5 cr
- **ELTY 138** Electrical Code I 3 cr
- **ELTY 139** Print Reading 2 cr
- **ELTY 140** Motor Control Theory 2 cr

**TOTAL:** 69 cr

---

### Advanced Technical Certificate: Instrumentation and Automation Engineering Technology

(4% Semesters)

**Required Courses**

See the Electronics Core Curriculum section for required Electronics core courses.

**Courses**

- **INST 242** Instrumentation Theory 2 cr
- **INST 250** Laboratory 1 cr
- **INST 251** Laboratory 1 cr
- **INST 253** Laboratory 1 cr
- **INST 254** Laboratory 1 cr

**TOTAL:** 23 cr

---

### Advanced Technical Certificate: Industrial Controls

(4 Semesters)

**Required Courses**

See the Electronics Core Curriculum section for required Electronics core courses.

**Courses**

- **ELTY 131** Electrical Theory I 4 cr
- **ELTY 132** Electrical Theory II 5 cr
- **ELTY 134** Applied Mathematics I 4 cr
- **ELTY 135** Electrical Theory I 4 cr
- **ELTY 136** Electrical Theory II 5 cr
- **ELTY 137** Electrical Code I 3 cr
- **ELTY 138** Electrical Code II 3 cr
- **ELTY 139** Print Reading 2 cr
- **ELTY 140** Motor Control Theory 2 cr

**TOTAL:** 69 cr
INST 231 Electronics for Instrumentation and Automation 2 credits. Electronic theory and laboratory addressing the components, functions and configurations of power, multistage differential and operational amplifiers, oscillators, thyristors, power control and regulation circuits, sensors, and networks. Laboratory based learning experiences strengthen principles. PREREQ: Electronics Core courses. Su

INST 232 Introduction to Fiber and Electro-Optics 2 credits. Fundamental physics of fiber/electro-optics, electro-optical spectrum, EO detectors, and arrays, IR sources, IR optical systems, light transmission/propagation, nonlinear optics, laser bandwidth, power supplies, optical fibers, fiber installation, testing, and maintenance. Laboratory based learning experiences strengthen and apply the principles taught in this course. PREREQ: Electronics Core courses. Su

INST 233 Fundamentals of Logic Control 2 credits. Introduction to control logic, relay logic principles, electronics in logic, logic and control drawings, fundamentals of programmable logic controllers (PLC’s), and electrical automation concepts. Laboratory based learning experiences strengthen the principles taught. PREREQ: Electronics Core courses. Su

INST 234 Applications of Process Control Devices 2 credits. Electronic control device theory and laboratory including sensors, device communication, controller fundamentals, control loops and loop tuning, device and system calibration, and diagnostics, heat transfer, fluid flow, and HVAC control. PREREQ: Electronics Core courses. Su

INST 235 Applications of Process Control Devices 2 credits. Principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis on circuit performance addressing voltage regulation, power factor, and protection devices. Laboratory based learning experiences strengthen and apply principles taught. PREREQ: Electronics Core courses. Su

INST 236 Applications of Electronic, Electrical, and Industrial Process Control Fundamentals 5 credits. Overview and application of electronic sensors, thyristor power control circuits, and networks. Electrical motor control, relays, timers, PLCs, and computer software used to design and verify motor control circuits. Basic process control, print reading and device calibration methods. Troubleshooting techniques and safety practices included in all course elements. Su

INST 240 Theory 2 credits. Basic concepts of process control devices, calibration and test equipment, diagrams and symbols. F, S, Su

INST 241 Theory 2 credits. Measurement errors, pneumatic-sensors, indicators, transmitters, air supplies, regulators, control valves, actuators, positioners, introduction to controllers, pneumatic controllers. F, S, Su

INST 242 Theory 2 credits. Electronic instruments-sensors, indicators, transmitters, computing relays, electro-optics, electronic controllers, ratio control, cascade control, recorders, analytical equipment, troubleshooting. F, S, Su

INST 243 Theory 2 credits. Digital systems, digital control, analog-to-digital and digital-to-analog interfacing, signal conditioning, programmable controllers, computer application. F, S, Su

INST 244 Theory 2 credits. Calibration calculations, pressure scales, level considerations, specific gravity, elevation suppression, closed and open systems, temperature scales, thermocouple and RTD values, bulb and capillary devices, heat transfer, flow with square root linearization, gas flow measurement calculations, mass flow, humidity measurements, PH measurements. F, S, Su

INST 250 Laboratory 1 credit. Use of test equipment, power supplies, current and voltage measurements, use of oscilloscope, capacitor checker, decade box, Wheatstone bridge, transmitter simulator, manometers, pressure calibration devices. F, S, Su

INST 251 Laboratory 1 credit. Set up, maintenance, and troubleshooting of pneumatic control systems, air supply, air regulators, pressure gauges pneumatic transducer calibration, control valve operation with and without positioner, controller operation set point, measurement error, offset, proportional band, reset, derivative, reverse and direct acting. F, S, Su

INST 252 Laboratory 1 credit. Set up, maintenance and troubleshooting of electronic sensors, indicators, transmitters, relays recorders, and controllers, transmission with twisted pair, fiber optics, smart systems, analytical equipment. F, S, Su

INST 253 Laboratory 1 credit. Computer and programmable controller interfacing with transmitter and final elements, PID loops, auto tuning, set up to complete control loops, computer graphics. F, S, Su

INST 254 Laboratory 1 credit. Calibration of transmitters, simulation of process variables, temperature, pressure, level flow, and humidity control loops. F, S, Su

INST 281 Electrical Automation Theory 8 credits. Theory in application of control devices, sensors, timers, relays, programmable controllers, electrical code, print reading, single phase, split phase, three phase and variable frequency motor control, interfacing with devices used in automated manufacturing and process facilities. F

INST 282 Electrical Automation Laboratory 5 credits. Experiments in motor control circuits, relay and ladder logic circuits, computer interfacing with programmable controllers, transformers, timers, sensors, variable frequency controllers, thyristor circuits, troubleshooting electrical devices, adapting relay logic circuits to programmable controllers. F

INST 288 Directed Studies 1-8 credits. Study tailored to individual assignment and reporting under faculty guidance. Student will pursue a unit of activity related to the instrumentation/industrial controls field. May be repeated for a maximum of 16 credits. PREREQ: Permission of instructor. D

INST 294 Cooperative Training 1-16 credits. Student pursues on-the-job training in the instrumentation/industrial controls industry which satisfies competencies in lieu of instrumentation/industrial controls courses. A University Co-op agreement must be signed by all parties involved. Student will pursue a pre-determined unit of activity related to the field of study. May be repeated for a maximum of 16 credits. PREREQ: Permission of instructor. D

INST 296 Process Measurement and Control Theory 10 credits. Theory in the application of control devices that measure and control pressure, temperature, level, flow, humidity, PH, viscosity, velocity, volume, density, conductivity and composition; instruction in calibration and test procedures used to install, maintain, and troubleshoot components common to industrial facilities. S

INST 297 Process Measurement and Control Laboratory 5 credits. Application of INST 296; calibration of transmitters, recorders, indicators, and controllers. Interfacing pneumatic, electrical, electronic, hydraulic, programmable controllers, and computer devices. PID control loop tuning, installation and troubleshooting of working systems. S

INST 298 Special Topics 1-8 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

Laser/ Electro-Optics Technology

4/4 Semester Program

Program Coordinator

Instructor: K. Buffalo

Instructors: Fitzner, Larson, Shepherd, Womack

One Advanced Technical Certificate, one Associate of Applied Science Degree, and one Bachelor of Applied Science Degree are available.

Objective: To provide students with the skills to work in an ever-expanding laser/optics field. Graduates in this program will be able to perform duties such as cavity alignment for medical lasers, optical path alignment for scientific testing and many numerous applications that deal with the light spectrum. They will be efficient with optoelectronic components for triggering and sensing circuits; lens configurations for distance and movement measurements; fiber optics for data transfer and optical alignments and will have a basic knowledge of laser to computer communication. This
is a hands on learning environment with practical industry challenges.

All theory classes and laboratory application classes of these theories require concurrent enrollment.

Selection of the Electronics option for each accepted student in the Electronic Core curriculum will occur in the second semester. Acceptance into particular options is based upon available openings and other factors such as a grade point average and attendance.

Advanced Technical Certificate: Laser/Electro-Optics Technology

(4½ Semesters)

TOTAL: 76 cr

The courses listed above will be taught in sequential blocks of instruction. Successful completion of a course is required before the student can progress in the program. If the student fails any math, theory, or lab course, then that course must be repeated and a passing grade obtained before the student can advance in the program. The student must exit the program and make up their deficiency through Technical General Education or other appropriate methods. The student will then be allowed to repeat the course at the next available program opening.

Upon successful completion of Electronics (ELTR) 141, Applied Mathematics I, and ELTR 142, Applied Mathematics II, a student may enroll directly into an academic math course which requires MATH 147 as a prerequisite. Students will receive five credits that apply towards the 128 credits required for a bachelor’s degree.

Courses

Official articulation agreements have been established with other Idaho post-secondary and secondary schools. Where these agreements exist, the specific block of training (i.e., session/semester/year) will be accepted as equivalent to that at Idaho State University and will count equally toward graduation.

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

See descriptions of courses with the ELTR prefix in the Electronics Department section above.

ELEO Courses

ELEO 234 Optoelectronics and Data Acquisitions Lab 5 credits. Experiments developed to enhance and supply practical hands-on experience of theory covered in ELEO 233. PREREQ: Electronics Core Courses. Su

ELEO 245 Laser Fundamentals and Application Theory 6 credits. The dual nature of light and how light interacts with various media.

Associate of Applied Science Degree: Laser/Electro-Optics Technology

(4½ Semesters)

ELEO Courses

ELEO 234 Optoelectronics and Data Acquisitions Lab 5 credits. Experiments developed to enhance and supply practical hands-on experience of theory covered in ELEO 233. PREREQ: Electronics Core Courses. Su

ELEO 245 Laser Fundamentals and Application Theory 6 credits. The dual nature of light and how light interacts with various media.

Topics include: multiple types of detection techniques, laser safety and practices, laser cavity fundamentals, various types of Q-switching, and fiber optic theory and applications. PREREQ: ELEO 233 and ELEO 234. F

ELEO 246 Laser Fundamentals and Application Lab 6 credits. Experiments developed to enhance and supply practical hands-on experience of theory covered in ELEO 245. F

ELEO 247 Geometric Optics and Applications Theory 6 credits. Movement of light through optical systems. Analytical and graphical study of reflection and refraction. PREREQ: Electronics Core Courses. S

ELEO 248 Geometric Optics and Applications Lab 6 credits. Experiments developed to enhance and supply practical hands-on experience of theory covered in ELEO 247. COREQ: ELEO 247. S

ELEO 298 Special Topics 1-8 credits. Addresses the specific needs of individuals, enabling students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

Law Enforcement

2 to 4½ Semester Program

Program Coordinator and Master

Instructor: Edwards

One Technical Certificate, one Post-secondary Technical Certificate, one Associate of Applied Science Degree and a Bachelor of Applied Technology Degree are available.

Objective: To provide the knowledge and technical skills for eligibility to become certified peace officers as set forth by the standards of the Idaho Peace Officers Standards and Training Academy for the State of Idaho.

The Law Enforcement Training Program provides classroom, laboratory and cadet practicum instruction enabling students to enter the general field of law enforcement.

The Law Enforcement Program is designed to prepare graduates to enter the law enforcement field. The Law Enforcement Program has been duly approved by the Idaho Police Officers Standards and Training (POST) Council, thus eliminating the graduates’ need to attend the basic police academy before taking the certification exam. Because the Law Enforcement Program is driven by POST standards for certification into the law enforcement field, applicants to the program must meet POST standards for admission. These admission
Prerequisites for Entry into Program:

1. Must pass a background and driver’s license check.
2. Must pass an FBI fingerprint check.
3. Must pass physical agility test.
4. Must pass a medical physical exam with checks for fitness, vision, and hearing.
5. Must apply for Fall Semester by August 1st deadline.
6. Must apply for Spring Semester by December 15th deadline.

Physical Agility

Students must pass a physical agility test to be accepted into the program. This test includes running, push-ups, sit-ups, and jumping.

Technical Certificate: Law Enforcement

Required Courses:
All courses must be completed with a minimum grade of “C-” to continue in the program.

LAWE Courses

Based on keyboarding skills, students may be required to take a 1 credit Keyboarding class in order to meet the competencies of the program.

LAWE 170 Detention Procedures I credits. This course is designed to teach officers the knowledge and skills necessary for P.O.S.T. certification in the Idaho Detention System. Courses are specifically designed for learning procedure and techniques specific to the needs of detention officers. Courses include Idaho minimum jail standards, legal issues, jail medical issues, practical skills, detention techniques, incident procedures, and emergency procedures. F, S

LAWE 171 Cadet Practicum credits. This course is designed to help the cadet put all skills and practical knowledge to use in the working environment. The cadet rides with a full-time uniform police officer within the department where they are evaluated, trained, and allowed to put new skills and ideas into practice. The cadets do fifty (50) hours of patrol time, fifty (50) hours of detention time, twenty-five (25) hours of dispatch time, and twenty-five (25) hours of other time which may include directing traffic, security, or crowd control at a specific event. F, S

LAWE 172 Health and Fitness credits. This course is a practical physical fitness program tailored to the specific demands of the police profession. Lectures include nutrition, fitness lifestyles, and health. A first aid course for police officers including cardio-pulmonary resuscitation (CPR) is included in this series of instruction. F, S

Associate of Applied Science Degree: Law Enforcement

Required Courses:
All Law Enforcement courses must be completed with a minimum grade of “C-” to continue in the program.

LAWE 170 Detention Procedures I 3 cr
LAWE 171 Cadet Practicum 3 cr
LAWE 172 Health and Fitness I 3 cr
LAWE 174 Human Relations 2 cr
LAWE 175 Health and Fitness II 1 cr
LAWE 176 Investigations I 3 cr
LAWE 177 Investigations II 3 cr
LAWE 178 Law I 3 cr
LAWE 179 Law II 3 cr
LAWE 180 Patrol Procedures I 3 cr
LAWE 181 Patrol Procedures II 3 cr
LAWE 182 Detention Procedures II 1 cr
LAWE 183 Detention Procedures III 2 cr
TGE 158 Employment Strategies 2 cr
TOTAL: 35 cr

LAWE 174 Human Relations 2 credits. This course provides officers with better understanding of their roles in the community and how the public responds to the police officer. Courses focus on the abilities of the officer to communicate with the public in a professional manner with respect to the task at hand. F, S

LAWE 175 Health and Fitness II 1 credit. This course is a continuation of LAWE 172. PREREQ: 172, F, S

LAWE 176 Investigations I 3 credits. A series of basic courses in preliminary investigations designed for the initial officer responding to a crime scene. Introduction to scientific aids and examinations, laboratory procedures, and the collection of evidence. Applications of specific investigative techniques for specific offenses are studied. F, S

LAWE 177 Investigations II 3 credits. This course is a continuation of LAWE 176. PREREQ: LAWE 176, F, S

LAWE 178 Law I 3 credits. This course is an orientation to methods, practices, and procedures in Idaho Criminal Law. Course work includes instruction in basic laws and powers derived from the U.S. and Idaho Constitutions, classification of crimes, punishments, and procedural law dealing with search and seizure and rules of evidence. F, S

LAWE 179 Law II 3 credits. This course is a continuation of LAWE 178. PREREQ: LAWE 178, F, S

LAWE 180 Patrol Procedures I 3 credits. This series of courses prepare the officers for patrol operations in their communities. Varied facets of patrol procedures including the sensitive handling of citizen crisis situation as well as the technical aspects of police patrol are studied. Several courses have practical application sessions following classroom instruction allowing the officer time to put new skills and ideas into practice. F, S

LAWE 181 Patrol Procedures II 3 credits. This course is a continuation of LAWE 180. PREREQ: LAWE 180, F, S

LAWE 182 Detention Procedures II 1 credit. Detention procedures relating to mental health, medical procedures, cross-gender supervision, human relations, and hostage relations. PREREQ: LAWE 170, S

LAWE 183 Detention Procedures III 2 credits. Topics include fire evacuation, security envelopment, cell searches, con games, inmate supervision, use of force, transports, extraction, and gang awareness. PREREQ: LAWE 182, F

LAWE 184 Patrol Procedures III 1 credit. Covers a study of crimes against property, crimes against persons, traffic stops, family disturbances, and introduction to modern law enforcement. F, S, S

LAWE 185 Police Procedures 2 credits. Radio procedures, jail procedures, booking, fingerprinting, report writing and note taking, courtroom testimony, searching suspects and handling prisoners, and building searches. F, S, S

Marketing and Management Occupations
2 Semester, 2½ Semester and 4½ Semester Program Options
Senior Instructor: Davis
Advanced Instructor: Curtis

Program Options
One technical certificate, three Associate of Applied Science degrees and a Bachelor of Applied Technology degree are available.

Objectives:
1. To provide the educational opportunity for students seeking careers in the marketing, management, and entrepreneurship fields.
2. To provide the student with the knowledge and skills necessary to attain his/her career goals in a dynamic global marketplace.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/marketingmanagement.shtml.
HOST Courses

HOST 240 Introduction to Travel, Tourism and Hospitality Services 3 credits. This course is designed to provide students the opportunity to apply the basic knowledge of marketing to the hospitality industry. This course provides the student with the basic knowledge of tourism-related concepts and marketing strategies for the hospitality industry. PREREQ: MANT 121 and MART 121. S

HOST 241 Rooms Division Operations 3 credits. This course presents a systematic approach to rooms division management. This includes the management operations of the housekeeping and front office departments. PREREQ: MANT 121. F

HOST 242 Marketing Your City 3 credits. This course will focus on local tourism strategies, including writing marketing plans to attract tourists to a local area; advertising and marketing a local area at trade shows; and attracting conferences and conventions to a local area. PREREQ: MANT 121 and MART 121. F

HOST 251 Marketing Hospitality Services 3 credits. This course is designed to provide students the opportunity to apply the basic knowledge of marketing to the hospitality industry. This course provides the student with the basic knowledge of tourism-related concepts and marketing strategies for the hospitality industry. PREREQ: MANT 121 and MART 121. S

HOST 252 Food and Beverage Management 3 credits. Provides a basis for understanding the various challenges and responsibilities involved in managing a food and beverage operation. PREREQ: MANT 121. S

HOST 253 Corporate Travel 3 credits. Background in the field of corporate travel management, including requests for proposal, selecting a travel agency vendor, and corporate travel operations. PREREQ: MANT 121 and MART 121. S

HOST 254 International Travel and Tourism 3 credits. Comprehensive study of international travel industry, including international geography, international monetary exchange, ticketing procedures, itinerary design, ethics, and international politics. PREREQ: MANT 121 and MART 121. F

HOST 259 Career Internship 3 credits. This course is designed to provide students an opportunity to gain practical experience in applying their management, marketing, and hospitality skills in a practical work setting. Training plans are utilized to insure maximum training opportunities for the student. This is a non-paid training situation which is completed during the last semester enrolled.

MART Courses

MART 130 Business Communications 3 credits. Develop and produce effective communication in business letters, memos, reports, and meetings. Learn strategies in writing direct requests, neutral and good-news messages, bad-news messages, and persuasive requests. PREREQ: ENGL 101. D

MART 135 Work Place Relations 3 credits. Study of the motivation and behavior of people and how they affect all work place relationships including both internal and external customers. S

MART 242 Introduction to Business Law and Ethics 3 credits. Provides an overview of the types and formation of business entities under the law. Presents legal and ethical issues as they relate to the business environment including contract law, employment law, and tort law as relevant to a business environment. S

MART 245 Introduction to Finance 4 credits. Broad survey of financial markets, security valuation, time value of money, risk and return, capital budgeting, and the basic techniques of financial analysis. All course content will include spreadsheet and database software application exercises. F

MART 250 Supervision 3 credits. Practical supervisory skills such as decision making, critical thinking, supervision, motivation, evaluation, and reprimand. S

MART 251 Small Business Management 3 credits. Small Business Management 3 credits. Managerial and entrepreneurial skills, including analysis of the elements of starting and managing a small business venture. Develop your own business plan. PREREQ: BI 120. S

MART 259 Career Internship 3 credits. Practical experience using the skills learned in the Marketing and Management Occupations program. F, S, Su

MART 262 Retail Technology 3 credits. This course presents a systematic approach to retail technology, including requests for proposal, neutral and good-news messages, bad-news messages, and persuasive requests. PREREQ: MART 111, MART 112, and MART 113. S

MART 268 E-Commerce and Business Marketing 3 credits. Apply marketing skills and understanding to the Internet, examine usability of for profit and not-for-profit websites; examine the customer trends and make-up on the Internet. PREREQ: MART 111, MART 112, and MART 113. S

MART 270 Retail Technology 3 credits. A survey course covering the principles of retailing including store location, design, and organization, merchandising, sales promotion, personnel, services, and control; an exposure to career options; and an exploration of trends in retailing as related to social, technological, and economic changes. S

MART 279 Career Internship 3 credits. This course is designed to provide students an opportunity to gain practical experience in applying their management, marketing and hospitality skills in a practical work setting. Training plans are utilized to insure maximum training opportunities for the student. This is a non-paid training situation which is completed during the last semester enrolled.

MART 280 Special Topics 1-8 credits. This course is designed to address the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.

Massage Therapy

(3 1/2 Semesters)

Coordinator/Instructor: Beck

The Massage Therapy Program provides classroom, laboratory, and student practicum instruction which prepares graduates to sit for the National Certification for Therapeutic Massage and Bodywork (NCTMB) exam.

One Certificate, one Associate of Applied Science Degree (see Associate of Applied Science Degree in Business Technology), a Bachelor of Applied Technology Degree, and a Bachelor of Science in Health Science are available.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/massagetherapy.shtml.

Technical Certificate: Massage Therapy

Prerequisite Courses:

(Courses must be completed prior to acceptance into the program.)
MSTH Courses

MSTH 101 Introduction to Massage Therapy 2 credits. Introductory class that will provide an overview of what Massage Therapy is; how Massage Therapy fits with the health care and cosmetology industries; and various issues in Massage Therapy including ethics, legal concepts, and basic communication concepts. S

MSTH 102 Palpation, Postural Assessment, and Spinal Education 3 credits. Postural misalignment, common patterns of misalignment of muscle groups, palpation skills and how the spine works and various disfunctions of the spine will be covered. The arch of the foot and its impact on posture, as well as scoliosis will be discussed. F

MSTH 105 Principles of Therapeutic Massage 2 credits. History, requirements to practice, professionalism, ethics, sanitary and safety practices, effects, benefits, indications, contra-indications, equipment and products, policies, procedures, basic intake and consultation. PREREQ: Admission to MSTH program. F

MSTH 110 Therapeutic Massage Techniques 4 credits. Classification of movements, body mechanics, exercise for the practitioner, draping, basic and professional massage routines, hydrotherapy. Foundations for developing massage practitioner skills. PREREQ: Admission to MSTH program. COREQ: MSTH 107L. F

MSTH 121 Massage Therapy Practicum* 2 credits. Students perform massage in a supervised clinical setting. May be repeated for up to 2 credits. PREREQ: Admission to MSTH program. F, S

MSTH 150 Therapeutic Procedure and Assessment 2 credits. Client history and intake, therapeutic procedure and treatment, postural and gait assessment; record keeping; SOAP charting. PREREQ: Admission to MSTH program. COREQ: MSTH 150L. S

MSTH 170 Spa Techniques 2 credits. Introduction to spa techniques and the spa environment. PREREQ: Admission to MSTH program. Su

MSTH 200 Special Issues in Massage 3 credits. Massage procedure and protocol for prenatal, infant, elderly, medical, critically ill, and special needs clients. PREREQ: Admission to MSTH program. COREQ: MSTH 200L. F

MSTH 200L Special Issues in Massage Lab 0 credits. Skill building addressing special issues and needs in massage therapy. PREREQ: Admission to MSTH program. COREQ: MSTH 200. F

MSTH 203 Oriental Theory and Techniques 3 credits. This course will cover the body/energy systems from an Eastern or Oriental standpoint. Students will be introduced to acupuncture, meridian lines, and the flow of energy (Chi) through the body. Shiatsu flow will also be covered. S

MSTH 203L Energetic and Asian Bodywork Techniques Lab 0 credit. Skill building lab for energetic and Asian bodywork techniques. PREREQ: Admission to MSTH program. COREQ: MSTH 203. S

MSTH 205 Aromatherapy 1 credit. This course will cover the use of essential oils in massage therapy. S

MSTH 210 Business Skills for Massage 3 credits. This course will cover a variety of business skills needs for a student to work for themselves and manage a budget wisely. Accounting skills, taxes, marketing (advertising, promoting, selling, and pricing) office management, telephone skills, customer service, and ethics will be covered. The course will also cover how to write a two-year business plan. Su

MSTH 221 Massage Therapy Internship 2-3 credits. Students are supervised in an actual work environment performing massage therapy skills to gain work readiness skills. 2 credits for Technical Certificate, 3 credits for Associates of Applied Science. PREREQ: Admission to MSTH program. Su

MSTH 240 Clinical and Sports Massage Techniques 2 credits. Skills for working in clinical environments, communication, and insurance billing. Massage for clinical settings in hospitals, pre- and post sports events, restorative and rehabilitative settings. PREREQ: Admission to MSTH program. COREQ: MSTH 240L. S

MSTH 240L Clinical and Sports Massage Technique Lab 0 credit. Skill building in Clinical and Sports Massage. COREQ: MSTH 240. S

Associate of Applied Science Degree: Massage Therapy

Prerequisite Courses:
(Courses must be completed prior to acceptance into the program.)

PSYC 101 Introduction to General Psychology (Goal 12) 3 cr

TOTAL: 60 cr
Medical Assisting

Coordinator/Master Instructor: Bird
Advanced Instructor: Mooso

5 Semester Program for full-time students. Part time program also available.

One Associate of Applied Science Degree, one Bachelor of Science in Health Science Degree, and one Bachelor of Applied Technology Degree are available.

This program will provide students with the skills and knowledge to:
1. Help physicians examine and treat patients and
2. Perform routine tasks to keep offices running smoothly.
3. Deal with the public, schedule appointments, process insurance claims, perform bookkeeping duties, etc.
4. Perform some transcription of medical reports and perform a wide variety of other clerical tasks.

Graduates will also take and record vital signs and medical histories, explain treatment procedures to patients, prepare patients for examination, assist during the examination, collect blood and specimen samples, and perform basic lab procedures.

The Idaho State University College of Technology Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Educational Programs (CAAHEP, www.caahep.org), upon the recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (AAMAE). The program’s accreditation status is current until September, 2016.

Commission on Accreditation of Allied Health Education Programs
1361 Park St
Clearwater FL 33756
(727) 210-2350
Fax: (727) 210-2354

NOTE: Graduates will be eligible to take the national certification exam for the Certified Medical Assistant (CMA). Individuals who have been found guilty of a felony, or pleaded guilty to a felony, are not eligible to take the CMA Exam. However, the Certifying Board may grant a waiver based upon mitigating circumstances.

The MA Curriculum is sequenced to provide the student with the best possible learning experience. Students who do not complete proper class sequence each semester will not progress to the next semester. All classes must be completed with a grade of “C” or higher to progress to any Clinical or Externship course.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/medicalassisting.shtml.

Associate of Applied Science Degree:

MA Courses

MA 104 Introduction to Medical Assisting Administrative I 4 credits. An introduction to the administrative skills and functions of the Medical Assistant in the medical office which include: communications, appointment scheduling, accounting, insurance processing, and management skills. PREREQ: Previous semester course sequence. F

MA 200 Clinical Medical Assisting I 4 credits. Course includes vitals; medical asepsis and health maintenance; disinfection and sterilization procedures; charting; assisting with examinations and minor surgery; application and removal of bandages, dressings, and casts; therapy modalities; patient education. PREREQ: Previous semester course sequence. F

MA 202 Administration of Medications and Phlebotomy 4 credits. Covers routes of administration and the proper delivery of medication by those routes. Medications and rules of administration are discussed. Includes phlebotomy skills and safety requirements for hematology, chemistry, and serology. Principles and theory of IV Therapy are also covered. PREREQ: Previous semester course sequence. S

MA 203 Advanced Coding and Computers in Medical Assisting 4 credits. Data entry of patient information, accounting, scheduling, insurance filing. Complete, accurate computer accounting process. Simulated computer exercises in functions pertaining to the medical office, advanced coding, and abstracting patient information from medical records. PREREQ: Previous semester course sequence. S

MA 204 Clinical Externship 8 credits. Application of the principles and practice of medical assisting in an external learning environment/externship of a medical practice under the supervision of a physician and the medical practice staff. PREREQ: All other MA required courses (including general education and HO courses). F, S

MA 205 Clinical Medical Assisting II 4 credits. Course includes assisting with specialty exams and procedures, radiology, diagnostic CLIA waived lab testing and screening; EKGs, spirometry, specimen collection; urinalysis, microscopic testing, and OSHA regulations are covered. PREREQ: Previous semester course sequence. S

MA 206 Administrative Externship 4 credits. Application of the principles and practice of the administrative clerical functions of a medical office in an externalearning/externship environment under the supervision of a physician and the business management staff. PREREQ: All other MA required courses (including general education and HO courses). F, S

MA 207 Professional Development 1 credit. Principles and applied techniques for Medical Assisting professional career development. Preparation for transition from school to the workplace. PREREQ: Previous semester course sequence, and OT 170. F

MA 298 Special Topics 1-8 credits. This course is designed to address the specific needs of individuals. It will enable students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor. D
Paralegal Studies

4 Semesters

Program Coordinator and Instructor: Keilholtz

An Associate of Applied Science Degree in Paralegal Studies and a Bachelor of Applied Technology are available.

This program will provide students with the skills and knowledge to work under the supervision of an attorney in all areas of the law including administrative, bankruptcy, civil litigation, corporate, criminal, domestic, employment, environmental, estate planning, health care, and real estate law. Graduates will investigate, interview, research, organize, analyze, and draft case documents and materials, and generally assist attorneys in all phases of client representation.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/paralegal.shtml.

A grade of “C” or better in all courses of a chosen option is required for graduation. If a “C” or better is not achieved in a required class, the student may repeat the class only one time.

PARA Courses

PARA 110 Introduction to Paralegal Studies 3 credits. The legal system and the paralegal’s role in it; fundamental paralegal skills and tasks; law office administration; computer technology; regulation of paralegals and paralegal ethics; and employment opportunities. A survey of the major substantive areas of the law is presented, with a summary discussion of the paralegal’s role in each area. F

PARA 111 Ethics and Professionalism 3 credits. Ethical standards and regulations governing paralegals and attorneys. Unauthorized practice of law, confidentiality of information, conflict of interest are covered in depth, along with common billing practices and fee arrangements, client trust accounts, filing and calendaring systems, and the documentation of client files. F

PARA 112 Estates, Wills and Trusts 3 credits. Learn what estates, wills, trusts and guardianships are and how to write the documents pertaining to them. Emphasis on Uniform Probate Code including formal and informal probate proceedings and the administration and closing of estates. Focus is on the role of the paralegal in gathering information, researching, and drafting estate planning. F

PARA 113 Contract Law 3 credits. Basic principles of contract law, including capacity, formation, conditions, enforcement, statute of frauds, performance and breach, remedies, defenses, and third-party rights. Portions of Articles 2 and 9 of the Uniform Commercial Code will also be addressed. Emphasizes the role of the paralegal in gathering information, researching, and drafting contract documents. F

PARA 114 Family Law 3 credits. This course instructs students in the law governing marriage, prenuptial agreements, marital property, divorce, child custody and support, paternity, termination of parental rights, adoption, and other matters relating to domestic legal rights. The role of the paralegal in the area of domestic law is emphasized. F

PARA 115 Property Law 3 credits. The paralegal’s role with regard to documents and concepts of ownership, conveyance, and encumbrance of real and personal property, including leases, licenses, liens, easements, remainder interests, and life estates. Includes public and private restrictions on land use, and proper drafting of deeds, leases, mortgages, foreclosure and eviction documents. S

PARA 116 Tort Law 3 credits. The paralegal’s role regarding fundamental concepts of tort law, including intentional torts, negligence, strict liability, and product liability and the elements necessary to prove each tort. Defense to and damages recoverable for a tort claim. Personal injury litigation and worker’s compensation will be discussed in depth. F

PARA 117 Criminal Law and Procedure 3 credits. Statutory and common law crimes against person, property, and society; the elements required to prove a crime; and the defenses available to a defendant. Constitutional and statutory standards for law enforcement practices, plea negotiation, trial, sentencing, and appeal. Conducting preliminary factual investigation and other pre-trial work. F

PARA 118 Business Organizations 3 credits. This course explores the basic types, formation and operation of business organizations, including corporations, partnerships, limited partnerships, limited liability companies, and sole proprietorships. The role of the paralegal in drafting documents and maintaining records for business organizations will be emphasized. F, S

PARA 119 Legal Research and Analysis 3 credits. Introduction to basic elements of legal research and analysis and sources of the law. Development of rudimentary skills for identifying and analyzing legal issues and for formulating logical and practical legal arguments. Emphasis on research methods for finding the law using a law library and computer technology. S

PARA 120 Legal Writing 3 credits. Effective writing skills, proper sentence and paragraph structure, the correct use of grammar and punctuation, diction, and basic composition rules. Drafting and formatting of basic legal documents. Development of related preparatory skills in legal research and analysis. PREREQ: BI 170 or CIS 101, S

PARA 121 Law Office Management 3 credits. Introduction to the structure and dynamic of the law office. Examines the legal team, personnel relations, legal fees, timekeeping, billing and financial management, law office technology, legal application software, records systems, docket control, and file and records management. F

PARA 210 Legal Research and Analysis II 3 credits. 3 credits. Development of more advanced legal analysis and issue identification skills. In-depth legal research of primary and secondary authority using law library resources and computerized legal databases. Related legal writing skills are developed further. PREREQ: PARA 119. F

PARA 211 Legal Writing II 3 credits. Advanced legal document preparation including memoranda, litigation and transaction documents, and other types of legal writing. Related skills of legal analysis and research are developed further. PREREQ: PARA 120. F
**Para 212 Pre-Trial Civil Litigation and Procedure 3 credits.** Based on a fictional civil lawsuit, students perform tasks of a paralegal at every stage of pre-trial litigation, including initial client contact, investigation and identification of claims and issues, legal research, preparation and filing of all appropriate documents. PREREQ: PARA 212.

**Para 213 Trial and Post-Trial Civil Litigation and Procedure 3 credits.** Continue with the fictional civil lawsuit beginning at a point sixty days before the trial date. Learn the paralegal’s role in preparing witnesses, making trial notebooks, giving jury instructions, assisting at trial, making post-judgment motions, and handling appeals and collection. PREREQ: PARA 212.

**Para 214 Environmental Law 3 credits.** The paralegal’s role with regard to federal and state laws governing the preservation, regulation and use of public and private lands for the protection of the environment and natural resources. Students are introduced to key environmental legislation, including NEPA, RCRA, CERCLA, FIFRA, TOSCA, the Clean Air Act, the Clean Water Act, and the Endangered Species Act. F, S

**Para 215 Debtor and Creditor Rights and Bankruptcy Law 3 credits.** The paralegal’s role relating to business transactions, debtor/creditor relations, consumer protection, and bankruptcy. Students explore secured and unsecured transactions, rights and remedies available under Article 9 of the Uniform Commercial Code and other statutes, and the types of relief afforded under the Bankruptcy Code. S

**Para 216 Administrative Law 3 credits.** The paralegal’s role with regard to administrative law, including legislative delegation and limitations on agency authority, due process of law, agency action, rule making, acquiring and disclosing information, agency decision makers and decisions, administrative hearings, and judicial review. S

**Para 217 Constitutional Law 3 credits.** Fundamental precepts of constitutional law — federalism, separation of powers, checks and balances — are examined, as well as individual rights guaranteed by the Bill of Rights. The function of the federal courts as interpreters of the Constitution is analyzed. Emphasis is given to the role of the paralegal in constitutional law cases. F, S

**Para 220 Paralegal Internship 4 credits.** Students acquire practical experience in doing the job of a paralegal in the workplace. The course is arranged on an individual basis. S

**Para 298 Independent Paralegal Studies 1-8 credits.** This course is designed to address the specific needs of individual students employed full-time who wish to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s curriculum. PREREQ: Permission of the instructor.

---

### Paramedic Science

**4 1/2 to 5 Semesters**

**Idaho State University-Boise:**

Program Director/Instructor: Bates Medical Director/Adjunct Instructor: Carvalho

Clinical Coordinator/Instructor: Crutcher

**Idaho State University Pocatello Campus**

Instructor: Allen

One Emergency Medical Technical - Basic (EMT-B) Postsecondary Technical Certificate, one Advanced Technical Certificate, one Associate of Science degree, and one Bachelor of Science in Health Sciences Degree are available. The Paramedic Program is offered at the Idaho State University Center in Boise as well as on the Pocatello campus.

This program will provide students with the skills and knowledge to:

1. Provide care to patients in and out of the hospital setting.
2. Through patient assessments and provision of medical care, they will work to prevent and reduce mortality and morbidity due to illness and injury.

Graduates of the program will also provide public education and health promotion, and participate in injury and illness prevention programs. They will function as a facilitators of access to care, as well as be initial treatment providers.

The objective of the Associate of Science in Paramedic is to prepare Emergency Medical Technicians with the opportunity to attain an Associate of Science degree in the Paramedic profession. This degree will provide employment and additional education opportunities for the student to become a registered, certified paramedic and work in the paramedic field in Idaho as well as surrounding states.

The Paramedic Program curriculum consists of a pre-professional year followed by three semesters of lecture, laboratory, and clinical field experience, including a three-month field internship. Students who earn the Associate of Science Degree are qualified to take the EMT-P examination through the National Registry of Emergency Medical Technicians.

An Advanced Technical Certificate in Paramedic Science is also offered. Only those students who are currently employed by, and sponsored by, a pre-hospital paramedic level service, and have at least five years of experience as an EMT-Basic or Advanced, are eligible for the Academic Certificate. These students must coordinate their field internship with their current paramedic level service upon approval by the Program Director. Graduates who have earned this Certificate may also take the EMT-P examination through the National Registry of Emergency Medical Technicians. This Certificate requires minimal prerequisite and general education courses and the same second year curriculum as the A.S. Degree.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to [http://www.isu.edu/etech/paramedic/programinfo.shtml](http://www.isu.edu/etech/paramedic/programinfo.shtml).

### Postsecondary Technical Certificate: Emergency Medical Technician - Basic

**1 Semester**

**Required Courses:**

- EMTB 119 Fundamentals of Emergency Medical Care 4 cr
- EMTB 119L Fundamentals of Emergency Medical Care Laboratory 1 cr
- EMTB 120 Emergency Department Clinicals 2 cr
- EMTB 121 EMS Field Practicum 1 cr

**TOTAL: 11 cr**

### Advanced Technical Certificate: Paramedic Science

**3 1/2 Semesters**

The student is required to maintain a “C” or better GPA to remain in the program. All Biology, Health, and Paramedic courses must be completed with a “C” or better in each course for the student to remain in the program.

**Required Pre-professional Courses:**

- BIOL 101, 101L Fundamentals of Anatomy and Physiology 4 cr
- BIOL 301, 301L Anatomy and Physiology and Labs 8 cr

**OR**

- HO 111 Introduction to Anatomy and Physiology 4 cr

- Mathematics requirement (Goal 3) 3 cr
ENGL 101 English Composition 3 cr
ENGL 102 Critical Reading and Writing 3 cr
HCA 210 Medical Terminology and Communication 2 cr
OR
HO 106 Medical Terminology 2 cr
Soc 101, SOC 102, or PSYC 101 3 cr
TOTAL: 22 or 26 cr

Required Professional Courses:

Second Year, Fall Semester
EMTP 201 Paramedic I 5 cr
EMTP 201L Paramedic I Laboratory 3 cr
EMTP 202 Paramedic Clinical Practicum I 2 cr
EMTP 203 Advanced Airway Management Practicum 1 cr
EMTP 210,210L Paramedic Pre-Hospital Pharmacology, and Lab 7 cr
TOTAL: 18 cr

Second Year, Spring Semester
EMTP 220 Paramedic II 5 cr
EMTP 220L Paramedic II Laboratory 3 cr
EMTP 222 Paramedic Clinical Practicum II 2 cr
EMTP 223 Paramedic Field Practicum I 2 cr
EMTP 225,225L Cardiology and EKG Interpretation, and Lab 7 cr
TOTAL: 19 cr

Second Year, Summer Semester
EMTP 230 Paramedic Field Practicum II 4 cr
TOTAL: 4 cr

TOTAL for Associate Degree: 82 cr

EMTP Courses
EMTB 119 Fundamentals of Emergency Medical Care 4 credits. Introductory survey of emergency medical services, including medical, legal, and ethical aspects; techniques of CPR, extraction, management of trauma and administration of appropriate emergency medical care will be covered. COREQ: EMTP 119L, 120, and 121. F, S
EMTB 119L Fundamental of Emergency Medical Care 4 credits. Practical application of didactic instruction in EMTB 119. Discussion and application of basic computer skills in the health care setting is also covered. COREQ: EMTB 119, 120, and 121. F, S
EMTB 120 Emergency Department Clinical Practicum 2 credits. Students rotate through various emergency room departments at local hospitals observing and performing basic life support skills under the direct supervision of an assigned preceptor. COREQ: EMTB 119, EMTB 119L, and EMTB 121. F, S
EMTB 121 EMS Field Practicum 2 credits. Students are exposed to pre-hospital emergency medicine and observation of emergency medical dispatch in a 911 Dispatch/Communication center. COREQ: EMTB 119, EMTB 119L, and EMTB 120. F, S

EMTP 201 Paramedic I 5 credits. Paramedic roles and responsibilities. Medical, legal and ethical issues. General principles of pathophysiology, therapeutic communications and documentation. Patient assessment, history gathering, advanced airway management, intravenous cannulation, treatment of shock. PREREQ: Admission to Paramedic Program and Anatomy and Physiology. COREQ: EMTP 201L. F
EMTP 201L Paramedic I Laboratory 3 credits. Practical application of didactic instruction from EMTP 201, including role of the paramedic in health care delivery, duties and responsibilities, shock assessment and management, medication administration, and IV therapy. COREQ: EMTP 201. F
EMTP 202 Paramedic Clinical Practicum I 2 credits. Student rotations through various departments in hospitals, performing paramedic skills under the direct supervision of the clinical instructor and/or assigned clinical preceptors. May be repeated for up to 10 credits, only 6 of which may be applied to any subsequent degree or certificate. COREQ: EMTP 202 and EMTP 220L. S
EMTP 203 Advanced Airway Management Practicum 1 credit. Introduces the student to the interpretation of cardiac rhythms and treatment of dysrhythmias. PREREQ: Admission to Program. COREQ: Spring semester program courses. S
EMTP 204 Paramedic Pre-Hospital Pharmacology 3 credits. Introduction to principles and theories of pharmacology and the administration of medications in an emergency setting. Dosage calculations and medication preparation are presented. COREQ: EMTP 201/201L. F
EMTP 210L Prehospital Pharmacology Laboratory 4 credits. Assists the student with cognitive and psychomotor skills required for the administration of medications in the prehospital setting. COREQ: Spring semester program courses. F
EMTP 220 Paramedic II 5 credits. Introduction to medical and traumatic emergencies. Anatomy, physiology, and pathophysiology of human organs and organ systems in medical and traumatic emergencies is presented. Special considerations, scene awareness, rescue, and command issues in emergency care are also covered. PREREQ: Successful completion of first semester of Paramedic curriculum. COREQ: EMTP 220L. S
EMTP 220L Paramedic II Laboratory 3 credits. Practical application of didactic instruction in EMTP 220. Includes medical and traumatic emergencies. Advanced Cardiac Life Support, Pediatric Advanced Life Support, Pre-hospital Trauma Life Support and Advanced medical Life Support. COREQ: EMTP 220. S
EMTP 222 Paramedic Clinical Practicum II 2 credits. Student rotation through various departments in local hospitals, performing paramedic skills under the direct supervision of the clinical instructor and/or assigned clinical preceptors. Skills performed include all those learned, acquired, and practiced in EMTP 201, 201L and 220, 220L. COREQ: EMTP 220 and EMTP 220L. S

Associate of Science Degree: Paramedic Science

5 Semesters

Pre-professional requirements:
Biol 101,101L Biology I, and Lab 4 cr
Biol 301,301L and BIOL 302,302L Anatomy and Physiology, and Labs 8 cr
Comm 101 Principles of Speech 3 cr
ENGL 101 English Composition 3 cr
ENGL 102 Critical Reading and Writing 3 cr
HCA 210 Medical Terminology and Communication 2 cr
OR
HO 106 Medical Terminology 2 cr

General Education Requirements
Goal 3 3 cr
Two of Goals 6, 7, or 8 6 cr
Goals 9, 10A, 10B, or 11 6 cr
Soc 101, SOC 102 or PSYC 101 (Goal 12) 3 cr

Paramedic (Professional) Requirements:

Second Year, Fall Semester
EMTP 201 Paramedic I 5 cr
EMTP 201L Paramedic I Laboratory 3 cr
EMTP 202 Paramedic Clinical Practicum I 2 cr
EMTP 203 Advanced Airway Management Practicum 1 cr
EMTP 210,210L Paramedic Pre-Hospital Pharmacology, and Lab 7 cr
TOTAL: 19 cr

Second Year, Spring Semester
EMTP 220 Paramedic II 5 cr
EMTP 220L Paramedic II Laboratory 3 cr
EMTP 222 Paramedic Clinical Practicum II 2 cr
EMTP 223 Paramedic Field Practicum I 2 cr
EMTP 225,225L Cardiology and EKG Interpretation, and Lab 7 cr
TOTAL: 18 cr

Second Year, Summer Semester
EMTP 230 Paramedic Field Practicum II 4 cr
TOTAL: 4 cr

College of Technology
Physical Therapist Assistant

4½ Semesters
Coordinator/Instruction: Jernigan
Instructor: Lamé

An Associate of Applied Science degree, a Bachelor of Science in Health Science degree, and a Bachelor of Applied Technology degree are available.

Objectives:
This program will provide students with the skills and knowledge to:

1. Be a part of the health care team that plans and implements a patient care program.

2. Under the supervision of a physical therapist, they will carry out a treatment program that might include exercises for increasing strength, endurance, coordination, and range of motion; the use of heat, cold, electricity, sound or water to relieve pain and stimulate muscle activity; instruction in safe physical activities and the use of devices such as walkers, crutches and wheelchairs.

The graduate might also assist the therapist in performing tests and assessments, as well as observing and reporting patient responses to treatment.

The Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE). Graduates of the program will be eligible to sit for the national examination for registration/licensure for Physical Therapist Assistants.

General education requirements must be completed with a cumulative 2.0 GPA. All other courses in the program must be completed with a ‘C’ or higher. If a student fails to meet the grade requirements, they will be dismissed from the PTA program. Students who are dismissed may petition to return the following year, however re-entry is not guaranteed but dependent on the approval of the petition and availability of a seat in that years cohort of students.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/physicaltherapistassistant.shtml.

Associate of Applied Science Degree: Physical Therapist Assistant

Required Courses:

- HO 106 Medical Terminology 2 cr
- HO 107 Medical Law and Ethics 3 cr
- HO 111 Introduction to Anatomy and Physiology 4 cr
- BIOL 301, 301L Anatomy and Physiology, and Lab 4 cr
- BIOL 302, 302L Anatomy and Physiology, and Lab 4 cr
- HO 208 Introduction to Pathology 3 cr
- BIOL 305 Introduction to Pathobiology 3 cr
- PTA 104 Introduction to Kinesiology 2 cr
- PTA 105 Introduction to Physical Therapy 1 cr
- PTA 106 Applied Kinesiology 4 cr
- PTA 107 Procedures I 5 cr
- PTA 201 Procedures II 5 cr
- PTA 202 Physical Therapy Assessment 4 cr
- PTA 203 Therapeutic Exercise 5 cr
- PTA 204 Seminar 3 cr
- PTA 213 Clinical Affiliation I 7 cr
- PTA 214 Clinical Affiliation II 7 cr

General Education Requirements:

- ENGL 101 English Composition 3 cr
- ENGL 102 Critical Reading and Writing 3 cr
- Goal 3 3 cr
- BIOL 101, 101L Biology I, and Lab 4 cr
- PSYC 101 Introduction to General Psychology 3 cr

TOTAL: 71 or 75 cr

Courses

For course descriptions of the academic courses required by the Physical Therapist Assistant A.A.S. Degree, see the College of Arts and Sciences.

PTA Courses

PTA 104 Introduction to Kinesiology 2 credits. Fundamental principles of anatomical terminology, osteology, arthrology. Basic observation and palpation skills required. PREREQ: Admission to the PTA program. F

PTA 105 Introduction to Physical Therapy 1 credit. Roles and responsibilities of physical therapists and physical therapist assistants will be explored, as well as, the history of physical therapy. Includes patient care, legal issues, principles of physical therapy treatment, education requirements, and functions of the American Physical Therapy Association (APTA). Local physical therapy facilities visited. PREREQ: PTA 104 or permission of instructor. F

PTA 106 Applied Kinesiology 4 credits. Studies the human anatomy with an emphasis on the musculoskeletal system, identification of structures and relationship to function, normal and abnormal biomechanical principles of joint motion and gait patterns. PREREQ: PTA 105, BIOL 101, BIOL 101L, and BIOL 301. S

PTA 107 Procedures I 5 credits. Procedures related to physical therapy treatment, including, universal precautions, principles of physics, anatomy, kinesiology, thermal agents, ultrasound, vital signs and their use in therapeutics. Also, transfer training, ROM, ultrasound, wheelchair, and wound management. PREREQ: Second year student in good standing, and PTA 105. S

PTA 201 Introduction to Clinical Affiliation 3 credits. A continuation of PTA 107, Procedures I, including electrical stimulation theory and techniques for applying variations of electrical current, biofeedback, and other modalities. Students will also learn therapeutic management of prosthetics and orthotics. PREREQ: Second-year student in good standing, and PTA 104, PTA 105, PTA 106, PTA 107, and PTA 213. F

PTA 202 Physical Therapy Assessment 4 credits. Observation skills, tests and measurements in physical therapy including manual muscle testing, goniometry, vital signs, gait, pain, posture and functional assessment as related to patient progress. PREREQ: Second-year student in good standing, and PTA 104, PTA 105, PTA 106, PTA 107, and PTA 213. F

PTA 203 Therapeutic Exercise 5 credits. Therapeutic exercise principles and practices related to patient treatment. Includes stretching, proprioceptive neuromuscular facilitation, other rehab techniques like NDT, Rood, Brunnstrom, cardiopulmonary rehab, and exercise equipment. PREREQ: Second-year student in good standing, and PTA 200, PTA 201, and PTA 202. S

PTA 204 Seminar 3 credits. Current practices and issues in physical therapy. Includes clinical problem solving, ethics, legal aspects, reimbursement, case management, research, and employment issues. PREREQ: Second year student in good standing, and PTA 200, PTA 201, and PTA 202. S

PTA 213 Clinical Affiliation I 7 credits. Clinical instructor supervised, eight-week clinical experience starting in the summer (May) after the first year. Experience will focus on initiating and developing beginning Physical Therapist Assistant skills in the treatment setting. PREREQ: Second year student in good standing, and PTA 200, PTA 201, and PTA 202. S

PTA 214 Clinical Affiliation II 7 credits. Clinical instructor supervised, eight-week clinical experience starting in March of the second year. Experience will focus on performing Physical Therapist Assistant skills at a professional level in preparation for entering the workforce. PREREQ: Second year student in good standing, PTA 203, PTA 204, and PTA 213. S

PTA 298 Special Topics 1-8 credits. This course is designed to address the specific needs of individuals. It will enable the students to upgrade their technical skills through part-time enrollment in units of instruction that are currently available through the program’s full-time pre-employment curriculum. PREREQ: Permission of instructor.
Practical Nursing
2½ Semester Program (Full-time)
7½ Semester Program (Part-time or Outreach)
Coordinator and Instructor: Lewis
Instructors: Eddington, Madsen, Mapes, Neitzel-Jones, Pearce, Smith
Adjunct Faculty: Mansfield
One Advanced Technical certificate is available (via full-time or part-time scheduling). Graduates of this program who are Licensed Practical Nurses are eligible to apply to the Associate Degree Registered Nursing program.

This program will provide students with the skills and knowledge to sit for the National Council Licensure Examination for Practical Nurses (NCLEX–PN). Graduates will provide care that requires practical nursing skill and knowledge. In health care facilities, they will:

1. Provide bedside care.
2. Provide intravenous therapy, draw blood, assess vital signs, change dressings, administer most prescribed medications, and assist patients with personal care.
3. Assist physicians and registered nurses in implementing plans of care for patients.

Some graduates may work in specialized units, perform special nursing procedures, and operate sophisticated equipment.

The Practical Nursing Program provides classroom, laboratory, and student nurse practicum instruction that prepares graduates for entry into practical nursing.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/practicalnursing.shtml

Advanced Technical Certificate: Practical Nursing

Program Prerequisites
1. Certified Nursing Assistant (CNA) card
2. Current Health Care Provider CPR card
3. The following courses must be completed prior to starting the program:

PNUR Courses

Every student is required to earn a grade of “C-” or better in every class to be eligible for a certificate.

PNUR 110 Basic Foundations of Nursing 3 credits. Principles of disease transmission, therapeutic communication, patient teaching/learning, medication administration, and the nursing process; basic clinical skills which provide the foundation for practical nursing. PREREQ: Admission to PNUR Program. COREQ: PNUR 110L. F, SU

PNUR 110L Basic Foundations of Nursing Lab 1 credit. Practical application of the nursing process and basic clinical skills which provide the foundation for practical nursing. COREQ: PNUR 110. F, SU

PNUR 112 Medical Surgical Nursing I 3 credits. Principles of practical nursing care for the ill adult. COREQ: PNUR 110 or permission of instructor. F

PNUR 113 Medication Administration for Practical Nursing 1 credit. The basics of safe medication administration, including math calculations and proper procedures. The medication examination included in this class must be successfully passed before the student practical nurse administers medication in clinical settings. COREQ: PNUR 110 or permission of instructor. F, SU

PNUR 114 Clinical Foundations of Nursing I 3 credits. Through hands on clinical experience in a variety of settings the student practical nurse learns skills basic to practical nursing. COREQ: PNUR 110 or permission of instructor. F

PNUR 115 Professional Development Seminar 1 credit. Professional development to increase understanding of the practical nurse’s role and responsibilities. COREQ: PNUR 110 or permission of instructor. F

PNUR 121 Clinical Foundations of Nursing II 4 credits. Application of practical nursing concepts within increasingly more complex patient care situations including care of the family; includes application of the nursing process as well as drug and IV therapy. PREREQ: PNUR 110 and PNUR 123. S, AF

PNUR 123 Drug Therapy for the Practical Nurse 3 credits. Drugs and their actions as related to patient care in practical nursing practice. COREQ: PNUR 110 or permission of instructor. F

PNUR 124 Nutrition and Diet Therapy for the Practical Nurse 2 credits. Basic nutrition principles and the application of diet therapy for health promotion. D

PNUR 125 Family Nursing for the Practical Nurse 5 credits. Principles of practical nursing care of the child-bearing woman and newborn. The disorders of childhood and the principles of pediatric nursing care. Principles of normal growth and development of the child are incorporated throughout. PREREQ: PNUR 110. COREQ: PNUR 121. S

PNUR 126 Medical Surgical Nursing II 4 credits. Principles of practical nursing care for the ill adult. PREREQOR COREQ: PNUR 112. COREQ: PNUR 121 and PNUR 126L. S

PNUR 126L Medical Surgical Nursing Lab 1 credit. Practical application of medical surgical nursing interventions and procedures / skills within the practical nursing scope of practice. PREREQ OR COREQ: PNUR 112 or PNUR 126. S, AF

PNUR 131 Clinical Foundations of Nursing III 2 credits. Theory and principles of practical nursing care are applied within the clinical setting. PREREQ: PNUR 121. COREQ: PNUR 140. AS, SU

PNUR 133 Intravenous Therapy for the Practical Nurse 1 credit. Principles and practice of intravenous therapy for the Practical Nurse. Fluid and electrolyte balance, acid-base balance, parenteral solutions, infection control relating to IV therapy, central venous access, intravenous nutritional support, and clinical skills relating to intravenous therapy. PREREQ: or COREQ: PNUR 110 or permission of instructor. COREQ: PNUR 133L. S

PNUR 133L Intravenous Therapy Lab for the Practical Nurse 1 credit. Application of intravenous therapy skills for the practical nurse. COREQ: PNUR 110 or permission of instructor, and PNUR 133. S
Technology College of

One Associate of Science Degree and one Part-time program also available.

1. Submit completed application for admission to Idaho State University College of Technology. (Goal 1)
2. a) Submit all official college or university transcripts (minimum GPA 2.5). If a student has 14 or more college or university academic credits, those will be used to calculate GPA instead of high school grades.
   b) Submit an official high school transcript or GED scores (minimum GPA 2.5)

3. Job Shadowing--Complete a minimum of 12 hours of job shadowing in a respiratory therapy setting (please use form contained in application).

4. Submit proof of current Health Care Provider CPR (Cardiopulmonary Resuscitation) certification. You must remain current throughout the program.

5. The following prerequisite courses, or equivalents, must be completed with a grade of “C” or better in each course:

   - BIOL 221, 221L Introduction to Microbiology, and Lab* 4 cr
   - BIOL 301, 301L Anatomy and Physiology, and Lab* 4 cr
   - BIOL 302, 302L Anatomy and Physiology, and Lab* 4 cr
   - CHEM 101 Introduction to General Chemistry 3 cr
   - CHEM 111 General Chemistry I 5 cr
   - COMM 101 Principles of Speech 3 cr
   - ENGL 101 English Composition 3 cr
   - HO 105 Introduction to Allied Health Careers 2 cr
   - HO 106 Medical Terminology 2 cr
   - HO 107 Medical Law and Ethics 3 cr
   - HO 208 Introduction to Pathology 3 cr
   - HO 209 Principles of Drugs and Their Uses 3 cr
   - MATH 106 Intermediate Algebra or sufficient ACT/COMPASS score
   - PSYC 101 Introduction to General Psychology** 3 cr
   - SOC 101 Introduction to Sociology** 3 cr
   - SOC 102 Social Problems** 3 cr

   *Collectively, these Biology courses satisfy Goals 4 and 5.

   **Any one of these courses satisfies Goal 12.

   Upon successful completion of the Respiratory Therapy Program, graduates are eligible to take the National Board for Respiratory Care (NBRC) entry-level examination to become certified respiratory therapists (CRT). They would then be eligible, and are encouraged, to complete the NBRC advanced-level examination to become registered respiratory therapists (RRT).

   Respiratory Therapy students must maintain a GPA of 2.0 or better, and complete all Biology, Health, and Respiratory Therapy courses with a “C” or better to remain in the program.

   Associate of Science Degree: Respiratory Therapy

   **Additional General Education and Other Courses:**

   - BIOL 301, 301L Anatomy and Physiology, and Lab* 4 cr

   - ENGL 102 Critical Reading and Writing (Goal 3) 3 cr
   - MATH 153 Introduction to Statistics (Goal 3) 3 cr
   - Two of Goals 6, 7, and 8 6 cr
   - Two of Goals 9, 10 A or 10B, and 11 6 or 11 cr

   *If not taken prior to admission--both 301 and 302 are required.

   **Respiratory Therapy Courses**

   - RESP 200 Introduction to Respiratory Care 4 cr
   - RESP 211 Pharmacotherapy for Respiratory Therapists 2 cr
   - RESP 214 Introduction to Pulmonary Disease 4 cr
   - RESP 231 Patient Assessment I 2 cr
   - RESP 232 Patient Assessment II 2 cr
   - RESP 280 Case Management I 2 cr
   - RESP 301 Mechanical Ventilators 4 cr
   - RESP 310 Case Management II 2 cr
   - RESP 320 Clinical Practice of Therapeutic Procedures I 5 cr
   - RESP 325 Clinical Practice of Therapeutic Procedures II 3 cr
   - RESP 330 Clinical Practice of Therapeutic Procedures III 5 cr
   - RESP 335 Clinical Practice of Therapeutic Procedures IV 5 cr

   **TOTAL: 65 or 71 cr**

   **RESP Courses**

   - RESP 200 Introduction to Respiratory Care and Lab 4 credits. Introduction to the care of pulmonary patients. Focus on skills required and methods used to manage cardiopulmonary problems. Includes clinical practice of procedures and skills. PREREQ: HCA 110 and HCA 210. F
   - RESP 211 Pharmacotherapy for Respiratory Therapists 2 credits. Study of therapeutic drug administration for respiratory therapists. Special emphasis on safety issues, sources of drug information, and application to respiratory care practice. PREREQ: HCA 110 and HCA 210. F
   - RESP 224 Introduction to Pulmonary Disease 4 credits. Integrated approach to the anatomy, physiology, and pathology of the cardiopulmonary system. Comparison of normal and abnormal function. Emphasis on cardiopulmonary functions that are frequently measured to monitor patient status. Includes clinical practice of procedures and skills. PREREQ: RESP 200, BIOL 301, BIOL 301L, BIOL 302 and BIOL 302L. S
   - RESP 232 Patient Assessment II 2 credits. Holistic approach to assessment of adult and pediatric patients in acute care settings. Special emphasis on assessment of the cardiopulmonary function. PREREQ: RESP 231. F, S
   - RESP 280 Case Management I 2 credits. Holistic approach to the management of adult and pediatric patients in subacute settings. Special emphasis on management of cardio-
pulmonary problems. PREREQ: RESP 211 and RESP 214. F

RESP 301 Mechanical Ventilators 4 credits. 
Exploration of operational characteristics of critical care, home care, transport, and neonatal ventilators. Includes clinical practice of procedures and skills. PREREQ: RESP 200 and RESP 214. S

RESP 310 Case Management II 2 credits. 
Holistic approach to the management of adult and pediatric patients in acute care settings. Special emphasis on management of cardiopulmonary problems. PREREQ: RESP 280. F, S

RESP 320 Clinical Practice of Therapeutic Procedures I 5 credits. Focus on conducting respiratory care in the sub-acute setting. PRE-REQ: RESP 230 and RESP 280. S

RESP 325 Clinical Practice of Therapeutic Procedures II 3 credits. Focus on conducting respiratory care in the acute setting. PREREQ: RESP 320. Su

RESP 330 Clinical Practice of Therapeutic Procedures III 5 credits. Focus on conducting respiratory care in the acute setting. PREREQ: RESP 232 and RESP 310. F

RESP 335 Clinical Practice of Therapeutic Procedures IV 5 credits. Focus on conducting respiratory care in the acute and intensive care settings. PREREQ: RESP 330. S

Web Site Design and Management

(2 and 4-5 semester options)

Coordinator and Master Instructor: 
Stroud

Master Instructor: Ketterman

One Technical Certificate, one Associate of Applied Science degree, and one Bachelor of Applied Technology degree are available.

Graduates from the Web Site Design and Management program will possess the ability to produce and maintain large scale, highly visible, interactive professional Web sites for business and personal use. Web site design specialists perform tasks that enhance and maintain Internet and Intranet web sites, and use desktop publishing software to create business presentations, publications, and Internet-ready graphics. In addition, they incorporate communication, presentation skills, and teamwork as well as visual interface design, scripting languages, and advanced animation production techniques.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to http://www.isu.edu/ctech/websitedesign.shtml.

A grade of “C-” or better in all courses of a chosen option is required for graduation. If a “C-” or better is not achieved in a required class, the student may repeat the class only one time.

Technical Certificate: Web Site Design and Management

(2 Semesters)

Required Courses:
- BI 170 Introduction to Computers 3 cr
- ENGL 101 English Composition 3 cr
- TGE 158 Employment Strategies 2 cr
- WDM 176 Desktop Publishing/ Multimedia 3 cr
- WDM 177 Principles of HTML/XML 4 cr
- WDM 179 Web Site Authoring Tools 3 cr
- WDM 181 Fundamentals of Cascading Style Sheets 2 cr
- WDM 183 Web Site Dynamics and Scripting 4 cr
- WDM 187 Web Graphics and Animation 4 cr
- WDM 188 Coding with XML 2 cr

Total 30 cr

Associate of Applied Science Degree: Web Site Design and Management

4 to 5 semesters

Required Courses:
- BI 170 Introduction to Computers 3 cr
- CSDT 180 Web Application Development 3 cr
- TGE 158 Employment Strategies 2 cr
- WDM 176 Desktop Publishing/Multimedia 3 cr
- WDM 177 Principles of HTML/XML 4 cr
- WDM 179 Web Site Authoring Tools 3 cr
- WDM 181 Fundamentals of Cascading Style Sheets 2 cr
- WDM 183 Web Site Dynamics and Scripting 4 cr
- WDM 185 Digital Media Applications 3 cr
- WDM 187 Web Graphics and Animation 4 cr
- WDM 188 Coding with XML 2 cr
- WDM 190 Advanced Digital Imaging for the Web 3 cr
- WDM 192 Database Applications 3 cr
- WDM 200 Scripting for the Web 3 cr
- WDM 202 3D Animation Techniques 3 cr
- WDM 210 Web Design Integration 3 cr
- WDM 211 Web Design Internship 4 cr

General Education Requirements:
- ENGL 101 English Composition (Goal 1) 3 cr
- ENGL 102 Critical Reading and Writing 3 cr
- COMM 101 Principles of Speech (Goal 2) 3 cr
- MATH 123 Math in Modern Society (Goal 3) 3 cr

Choose ONE of the following (Goal 11):
- ECON 100 Economic Issues 3 cr
- ECON 201 Principles of Macroeconomics 3 cr
- ECON 202 Principles of Microeconomics 3 cr

Choose ONE of the following (Goal 12):
- PSYC 101 Introduction to General Psychology 3 cr
- SOC 101 Introduction to Sociology 3 cr

TOTAL: 70 cr

WDM Courses

WDM 176 Desktop Publishing and Multimedia 3 credits. This course introduces the use of Corel Suite, Corel Draw, Adobe, and presentations software to format documents including brochures, business cards, newsletters, advertisements, letterheads, web pages, etc. Students will also obtain skills in creating presentations utilizing various multimedia technology. PREREQ: BI 170, or permission of instructor. F, S, Su

WDM 177 Principles of HTML and XML 4 credits. This course is designed to provide students with the vocabulary and concepts required to develop a Web site. Students will be able to create, link, and validate XML documents to cascading style sheets, design XML schemas, and utilize Javascript to create cookies, etc. PREREQ: BI 170 or permission of instructor. F

WDM 179 Web Site Design Authoring Tools 3 credits. This course emphasizes planning and publishing professional web sites using software such as Macromedia Dreamweaver and Fireworks integrated features. Students produce integrated professional web sites with database functionality. Advanced features of Fireworks will be utilized to create, modify, and optimize static and animated graphics. PREREQ: WDM 177 or permission of instructor. S

WDM 181 Cascading Style Sheets Fundamentals 2 credits. In-depth coverage of how cascading style sheets interact with HTML and HTML authoring tools to design appealing, innovative Web sites. Creation of style sheets that are cross-platform compatible and match display devices such as handheld computers, cellular phones, and similar instruments. PREREQ: WDM 177 and WDM 179. F

WDM 185 Digital Media Applications 3 credits. Course emphasizes beginning and intermediate concepts of digital media. Students will create high quality animation, sound, and video utilizing current digital media technology. Basic procedures for managing media, i.e., importing and exporting, converting file types, and controlling file sizes are covered. PREREQ: WDM 176 and WDM 187. F

WDM 187 Web Graphics and Animation 4 credits. Course utilizes software such as Adobe Photoshop and Illustrator to perform complex image editing, optimize graphics, create slices for rollovers and animation for Web sites within a page layout or multimedia presentation. Students will utilize techniques for creating complex multilayered vector graphics, textures for backgrounds, and special effects with type. F

WDM 188 Coding with XML 2 credits. Builds on previous XML coding knowledge. Students
will use XML to manipulate and share data. Includes XSLT and linking to Cascading Style Sheets. S

**WDM 190 Advanced Digital Imaging for the Web 3 credits.** Course utilizes industry-leading software to perform advanced image processing, image optimization, special effects, and complex multimedia techniques for Web sites. PREREQ: BI 170 and WDM 187. F

**WDM 192 Database Applications 3 credits.** Introduction to commands, functions, and operators for extracting data. Includes retrieving, sorting, and manipulating data. Su

**WDM 200 Scripting for the Web 3 credits.** Client-side scripting (such as JavaScript) to create dynamic and compliant Web sites. Scripting to create content and modify the site’s display characteristics. PREREQ: WDM 177, WDM 179, and WDM 181. F

**WDM 202 3D Animation Techniques 3 credits.** Introduction to 3D techniques and theory with application of the fundamentals of modeling, rendering, texturing, lighting, and animation to create 3D imagery and animation. PREREQ: WDM 187 and WDM 190. F

**WDM 210 Web Design Integration 3 credits.** Applies and integrates knowledge from previous courses to develop professional, dynamic, portfolio-quality Web sites. Emphasizes search engine optimization, collaboration, communication, and critical thinking skills. S

**WDM 211 Web Design Internship 4 credits.** Capstone course designed to use the three-stage development cycle: innovation, creation, and implementation. Provides field experience working in a team with business entities to design and implement Web sites based on objectives of the client. PREREQ: WDM 190, WDM 200. S

### Welding (2 to 4 Semester Program Options)
Program Coordinator and Instructor:
Humpherys
Instructors: Bloxham, Erickson

One certificate, one Advanced Technical Certificate, one Associate of Applied Science Degree and a Bachelor of Applied Technology Degree are available.

**Objectives:**

1. To prepare graduates for gainful employment in critical welding applications to include: pipeline, petro-chemical, power generation, sanitation, and high purity welding.

2. Additionally, graduates will be prepared to begin their welding careers by completing courses in math, theory, layout, and blueprint reading to augment their welding skills.

For a Program Information Packet showing descriptions of each option, course descriptions, lists of course sequences, and the cost of books, tools, uniforms, fees, and other expenses, go online to [http://www.isu.edu/ctech/welding.shtml](http://www.isu.edu/ctech/welding.shtml).

Students must pass each welding core course with a letter grade of no less that a C (2.0) before continuing in the program.

### Technical Certificate: Weldor General

**(2 Semesters)**

**WELD Courses**

Students who demonstrate adequate academic skill to succeed in the occupational content courses of the program will be given an "S" grade for WELD 100 and will not be required to attend the initial session.

**WELD 105 Welding 1-4 credits.** Introduction to practice of arc welding. Metals and various types of welds. D

**WELD 131 Welding Practice I 12 credits.** Welding practice techniques for successful fillet and groove welds in all positions utilizing SMAW E7018, GMAW ER70S-6, and FCAW E71T-1 processes and filler metals. F, S

**WELD 132 Welding Practice II 12 credits.** Open groove welding practice to develop skills in preparation to weld pipe. Students will first become proficient on plate and progress into carbon steel pipe welding using E6010 and E7018 electrodes. PREREQ: WELD 131. F, S

**WELD 140 Welding Theory 2 credits.** Processing and manufacturing of ferrous and nonferrous metals; effect welding has on different metals, how to weld them and the heat treatment of them. F, S

**WELD 141 Mechanical Drawing 2 credits.** Proper care and use of equipment, alphabet of lines, orthographic projections, dimensioning, section view drawing, freehand sketching of isometrics, pattern development and geometric construction. S

**WELD 142 Blueprint Reading 2 credits.** Study of trades symbols, dimensioning from working drawings of the trade. Identification of lines, views, materials and dimensions; study of basic drawings of welding trade. S

**WELD 143 Shop Math I 12 credits.** Basic study of trade math concentrating on basic arithmetic, common fractions, decimals, ratios, percentages, square root, and appropriate conversions as they apply to the welding trade. F, S

**WELD 159 Arc Welding 1-8 credits.** Special course with emphasis on shop practice in the general areas of arc welding. Open for enrollment only with approval of the advisor, program coordinator and C-Tech counselor. (This is a special certificate option.) F, S

**WELD 231 Welding Practice III 13 credits.** Low hydrogen, stainless steel, and pipe welding techniques in shop applications. PREREQ: WELD 132. F

**WELD 232 Welding Practice IV 13 credits.** GTAW process welding practice using both manual and automated orbital equipment, procedures, and techniques. Carbon and stainless steel pipe welding emphasized; includes high-purity and sanitary stainless welding. PREREQ: WELD 231. F

**WELD 241 Metal Layout 3 credits.** Introduction to geometric construction, principles of metal layout, special trade charts and tables, and basic slide rules. PREREQ: WELD 141. F

**WELD 243 Shop Math II 13 credits.** Continuation of WELD 143, with introduction to specific trade formulas, basic algebra, proportions, right
triangle math, trigonometry, special trade charts and tables, and basic slide rules. PREREQ: WELD 143, F, S

General Education Department
Chair: Rhoads

Technical General Education
Instructors: Allen, Barclay, Haeberle, Lambert, Lyda, Mundt, Packer, Pein

One semester emphasizing technical general education basic coursework is incorporated into each program curriculum for students who do not demonstrate adequate academic skill to succeed in the occupational content courses of their programs. These students enroll for 1-16 credits of Technical General Education (TGE) basic courses prior to placement in their occupational-based curriculum. Students demonstrating academic proficiency in math and written communications will bypass this section of the curriculum.

Technical General Education core course content is designed in accordance with suggestions and directions from program instructors, advisory committees, and industry employers. TGE core coursework supplements the student’s technical training by providing education in business/technical writing, oral communication, building job search skills, and understanding human relations issues pertinent to the workplace.

Technical General Education core courses are taken concurrently with the student’s program courses and may be required to complete the Technical Certificate, Advanced Technical Certificate, and/or Associate of Applied Science Degree. Students should consult their programs’ required course lists to determine which of the TGE core courses must be taken.

For online information about this department and its programs, visit http://www.isu.edu/ctech/student/services/tge.pdf.

TGE Basic Courses

TGE 100A Algebra I 4 credits. Topics include linear equations, factoring, graphing, functions, and quadratic equations with an emphasis on practical and technical problems.

Equivalent to MATH 025. Not eligible for academic credit. D

TGE 100C Critical Thinking 3 credits. Course teaches creative and critical thinking. This is an integrated approach that deals with thinking about thinking, imagining, and solving problems. Informal logic, induction, deduction, and prose analysis are emphasized. D

TGE 100G Grammar 4 credits. Course is designed to provide an introduction to and analysis of the basic grammatical principles of the English language. Application of these principles to spoken and written English is introduced. Course is for students whose occupations require language editing. D

TGE 100I Independent Study 1-2 credits. Course is designed to meet individual student needs. D

TGE 100M Math 4 credits. Course provides an overview of complex fractions, decimals, and percents with an emphasis on practical application. D

TGE 100R Reading 3 credits. Course is competency based and thus addresses the performance of the students. Speed and comprehension are emphasized, with critical textual interpretation as the main objective. D

TGE 100S Strategies for Learning 2 credits. Memory skills, time management, critical thinking, learning styles, note and test taking strategies, and use of technology in successful completion of programs. Credit not applicable toward degree or certificate. D

TGE 100T Technical Science 2 credits. Course provides instruction in the development of basic mathematical relationships and their use in the study of forces and force analogs in fluid, thermal, electrical, and mechanical systems. Force, work, power, rate, and resistance are studied. Basic trigonometric relationships are defined. D

TGE 100W Writing 3 credits. Clear writing in standard, edited American English. Equivalent to ENGL 090. Not eligible for academic credit. D

TGE Core Courses

COMM 101 Principles of Speech 3 credits. (see description in the Department of Communication and Rhetorical Studies, in the College of Arts and Sciences section of this Catalog.)

ENGL 101 English Composition, and ENGL 102 Critical Reading and Writing (see descriptions in the Department of English and Philosophy, in the College of Arts and Sciences section of this Catalog.)

MATH 123 Mathematics in Modern Society (see description in the Department of Mathematics, in the College of Arts and Sciences section of this Catalog.)

TGE 151 Technical Writing I 2 credits. Course provides instruction in informal technical report writing and business correspondence. Includes grammar/punctuation review, introduction to word processing, and technical terminology/vocabulary building. D

TGE 152 Technical Writing II 2 credits. Course provides instruction in application of formal technical report writing strategies and fundamentals of research. D

TGE 158 Employment Strategies 1-2 credits. Comprehensive study and practice of job search activities, including company research, networking strategies, interviewing behavior, and writing the resume and business correspondence. Course culminates in the preparation of a professional portfolio. The two-credit option provides students with extensive interviewing experience in a variety of settings. D

TGE 162 Keyboarding 1 credit. Course enables the development of alphabetic and numeric information input through touch keyboarding. Open exit is available when student reaches proficiency rate established by program area. D

TGE 257 Applied Ethics in Technology 1 credit. Ethical issues in engineering and contemporary technology that engineering technicians may face in professional practice. Topics include moral obligations and rights of society, employers, colleagues and clients; cost-benefit-risk analysis, safety and informed consent; the ethics of whistle-blowing. S

Adult Basic Education

Coordinator: Margaret Jacob
Instructors: Clegg, Graham, Ostin, Ray
(208) 282-2468
http://www.isu.edu/ctech/cotgened/abe_main.shtml

The program offers free assistance for people 16 and older who are not in school and are performing at the nonreader through twelfth-grade levels. Services are provided at the Adult Success Center on the top floor of the Roy F. Christensen Building (building #48) and at outreach sites in seven southeastern Idaho counties.

Adult Basic Education (ABE) -- This service provides assessment and instruction in basic math, reading, and writing to assist people with their educational or employment goals. The program offers different settings and methods to help students learn at their own rate in the style they prefer. Instruction includes both classes and independent study using books, audio and video materials, tutors, and computers. An Internet option is available.

General Educational Development (GED) -- This service assists people who have not received a high school diploma. In addition to assessment and instruction, the program administers Official Practice Tests as preparation for the GED. Students may combine the GED with the government course taken at the center to obtain a High School Equivalency Certificate from the State of Idaho. Some scholarships are available for the GED Tests, and a GED commencement ceremony is held every spring on the Idaho State University campus.
**English as a Second Language (ESL)** -- This service helps speakers of other languages learn to speak, understand, read, and write English. It offers instruction in the English needed for daily life in the United States and includes skills useful for education, employment, residency, and citizenship. Both formal grammar lessons and instruction in the social uses of language are emphasized.

**Center for New Directions**
Director: Christine Brower
(208) 282-2454
Email: cnd@isu.edu
http://www.isu.edu/cnd/

The Center for New Directions (CND) provides assistance for people in transition who are interested in gaining self-sufficiency skills for educational and employment success. The CND provides resource and support services through personal and career counseling and a variety of workshops, classes, and groups aimed at helping individuals return to school and train for job placement. The CND offers scholarships for persons who plan to enter non-traditional technology programs. All services are confidential and provided at no cost. Call the CND for information about services at the Pocatello campus and at Idaho State University Outreach Centers located in American Falls, Blackfoot, Malad, Montpelier, Preston, and Soda Springs.

**WORKFORCE TRAINING**
Joseph H. Fleishman, Director
WORKFORCE TRAINING
College of Technology
Roy F. Christensen Building
921 S 8th Ave Stop 8380
Pocatello, ID 83209-8380
(208) 282-3372
http://workforcetraining.isu.edu/

Class offerings include specialized vocational courses during non-traditional hours and customized training for business and industry. Classes (including short-term workshops) are offered both on and off campus during afternoons, weekdays, evenings, and Saturdays. The purpose of open-enrollment classes is to offer training and/or retraining for persons who have already entered the labor market and who desire to achieve stability or advancement in gainful employment. Customized courses are offered to assist local industry with expansion of the workforce and upgrading and retraining of their current employees. Instruction may include laboratory, shop and related classroom instruction appropriate for the specific group being served.

Open enrollment offerings are announced each semester through the press, radio, and special bulletins. More than 500 courses ranging in length from one week to two years are offered and start at varying times throughout the year.

Classes in the following general areas are offered each year:
- Agriculture
- Automotive Trades
- Business Management
- Computers
- Drafting
- Electronics
- Electrical
- Health
- Home Economics
- Office Practices
- Production Management
- Real Estate
- Related Industrial
- Welding

Customized courses are offered at the request of a specific business. Curriculum is designed to meet the need of employees and is offered either on campus or on site at the business. Classes can also be offered through distance learning classroom and via the Internet.

In addition to short-term courses, three A.A.S. Degree programs are offered in specialized areas. They are as follows:

**Fire Services - A.A.S.**
The Fire Service Certification program is designed to be an outreach program for people already in fire service occupations. Information may be obtained by contacting Idaho State Fire Service Training, Division of Professional Technical Education, PO Box 83720, Boise, ID 83720-0095 at (208)223-3216.

**Electrical Apprenticeship - A.A.S.**
This Associate of Applied Science Degree is designed for the student who has a current Idaho journeyman license, has proof of completed apprenticeship, and proof of registration with the Idaho Department of Labor and Industrial Services. Call WORKFORCE TRAINING at (208) 282-3372.

**Plumbing Apprenticeship - A.A.S.**
This Associate of Applied Science Degree is designed for the student who has a current Idaho plumber’s license, proof of completed plumbing apprenticeship, and proof of registration with the Plumbing Division, Idaho Department of Labor and Industrial Services. Contact WORKFORCE TRAINING at (208) 282-3372.

Because of the constant demand for short-term courses, people are encouraged to register for classes as early as possible. Persons interested in enrolling in any of these offerings may contact WORKFORCE TRAINING.

**Southeast Idaho Region 5 Tech Prep**
Coordinator: Ann Marie Corbridge
Southeast Idaho Region 5 Tech Prep
921 S 8th Ave Stop 8380
Pocatello ID 83209-8380
(208) 282-4663
http://www.isu.edu/techprep/

Tech Prep is a professional/technical program that coordinates what is taught in high school with the postsecondary curriculum. Students enrolled in approved high school programs can receive postsecondary credit toward technical or professional degrees. Students may enroll in some professional/technical classes for concurrent college credit while still in high school. This process allows students to begin working on an Associate of Applied Science (A.A.S.) Degree or certificate while still in high school. The A.A.S. Degree articulates into Idaho State University’s Bachelor of Applied Technology (B.A.T.) Degree.

Up to eight (8) professional/technical credits earned through the Tech Prep articulation agreements while in high school may be used to fulfill academic elective requirements when students are pursuing a Bachelor of Science or Bachelor of Arts degree.

A Tech Prep student can earn a degree in less time or go into greater depth of study at the college level. In Region V, there are more than 90 high school programs that articulate credit to Idaho State University.

The Tech Prep office provides support services designed to assist high school students to earn concurrent college credits while in high school or in articulating credits from high school to the College of Technology after graduation. Students are encouraged to contact the office for further information.
Institutes

Biomedical Research Institute
Director and Professor: Daniels

Established in 2005 to increase collaboration, efficiency and focus of the University’s biomedical research activities, the Biomedical Research Institute will provide additional resources for faculty to improve research capabilities.

The long-term vision of the Institute is to establish a nationally and internationally recognized interdisciplinary biomedical research environment where scientists, engineers, and health professionals can interact synergistically, without the restrictions of traditional discipline barriers.

The Institute’s four major focus areas are behavioral and neuroscience; bio-signaling and communication; functional genomics; and health science and engineering.

For more information, see IBRI.isu.edu.

Informatics Research Institute
Director and Professor: Schou
Associate Directors and Professors: 
Lohse, A. Strickland
Associate Professors: Cady, Sammons, J. Strickland
Research Associate Professor: Narayan
Assistant Professors: Frost, Springer
Affiliate Professors: Leibrock, Longley, Murray
Affiliate Assistant Professors: Moulton, Slay, Willis

The Informatics Research Institute (IRI) is an academic unit providing coordination for several interdisciplinary degrees and research centers across campus. Informatics is an integrative discipline that arises from the synergistic application of computational, informational, organizational, cognitive, and other disciplines whose primary focus is in the acquisition, storage and use of information in a broad spectrum of domains. It includes the study and application of information technology in the arts, sciences, commerce, medicine, and society in general. The IRI has a mission in teaching, research, and service. Activities include:

- Developing interdisciplinary programs in informatics
- Developing interdisciplinary degree programs
- Developing and offering outreach programs
- Coordinating activities of related centers on campus
- Providing leadership in critical infrastructure protection
- Developing educational programs
- Developing infrastructures to support research in diverse fields
- Coordinating interdisciplinary academic concentrations

The IRI coordinates activities among the National Information Assurance Training and Education Center (NIATEC), Simplot Decision Support Center (SDSC), Center for Innovative Technology in Archaeological Informatics (CITI-RAI) and the Center for Innovative Technology in Mathematics, Science, and Social Sciences Learning (CITI-MSSSL). The IRI charter includes development of interdisciplinary AA, AS, BA, BS, Masters and Doctoral programs as well as concentrations in Information Assurance.

ARCHAEOLOGICAL INFORMATICS

CITI-RAI – Center for Innovative Technology in Archaeological Informatics. The CITI-RAI leads research in the organization and analysis of archaeological information. It creates and maintains active partnerships within the archaeological community and serves as an interdisciplinary center of activity uniting basic informatics research and modeling within the Informatics Research Institute, Idaho State University, and its affiliated faculty. The Center is directed by E.S. Lohse, Professor of Anthropology and Division Head for Anthropology, Idaho Museum of Natural History.

EDUCATIONAL INFORMATICS

CITI-MSSSL – Center for Mathematics, Science, Social Sciences, and Technology Learning. The CITI-MSSSL focus is on PK-16 learning in the current environment of accountability. The faculty of CITI-MSSSL, directed by Professor A.W. Strickland, collaborates with other institutions to explore technology and informatics solutions to improve learning. Curriculum development, assessment, data management, and teacher training are but a few of the services offered by CITI-MSSSL. The staff of CITI-MSSSL are experienced in all aspects of instructional systems design and the implementation. The center creates and maintains active partnerships with public schools and higher education institutions interested in improving the quality of learning within our educational systems.

SIMPLOT DECISION SUPPORT CENTER

The Simplot Decision Support Center (SDSC) is a facility designed to increase group decision making effectiveness and efficiency. It is a research and development effort of Idaho State University resulting from the generosity of the Simplot Corporation. The Simplot Decision Support Center is one of a few dedicated facilities in the nation and is available as a resource to both local and national organizations. It has led the national effort in developing information assurance and computer security training and education standards for the federal government.

INFORMATION ASSURANCE

NIATEC – The National Information Assurance Training and Education Center is a consortium of academic, industry, and government organizations to improve the literacy, awareness, training, and education standards in Information Assurance. As the federally designated cornerstone for essential education and training components of a strong Information Assurance initiative, the mission is to establish an effective Information Assurance infrastructure. NIATEC is associated with Idaho State University Center of Academic Excellence. It is a component in the national plan to establish a federal cyber-corps to defend against cyber-based disruption and attacks. Key to building such a cyber-corps is the implementation of robust graduate and undergraduate curricula in Information Assurance.
Information Assurance
Degree Concentrations

The IRI coordinates the federally designated Center of Academic Excellence in Computer Security Education. The Center of Academic Excellence includes formal concentrations in Information Assurance at the undergraduate and graduate level in cooperation with NIATEC and CITI-MS-SSL. In addition, the Informatics Research Institute offers formal concentrations in Information Assurance for Baccalaureate, Masters, and Doctoral Programs. These concentrations may be above the regular degree requirements documented by the DHS/CNSS approved Certificates offered by Idaho State University.

Certificates for Concentrations:
- CNSS 4011 -- National Training Standard for Information Systems Security (INFOSEC) Professionals
- CNSS 4012 -- Senior Systems Manager
- CNSS 4013 -- Systems Security Administration
- CNSS 4014 -- Information Systems Security Officer
- CNSS 4015 -- Systems Certification

Program of Study:
Students with appropriate pre-requisites may take courses within the information assurance program as part of a formal information assurance concentration in their degree program. With approval of their advisor and the faculty they may pursue certificates in specialty areas. In addition to courses that support specialized certifications the program offers courses in Computer Forensics and Risk analysis. All courses require preparation of research papers in information assurance topic related to their major field.

- CNSS 4011 -- Students in the Computer Information System major may take CIS 411, a minimum of 6 hours of 419 (Informatics Practicum) or 493 (Internship) and two additional courses in Information Assurance. Students in the CIS minor may take the same series of courses. Students in other majors may have to take additional courses.

All students seeking additional certifications must complete the requirements for CNSS 4011 and the following:
- CNSS 4012 – Students certifying for 4012 must complete CIS 411, CIS 412, CIS 413, CIS 414, CIS 415
- CNSS 4013 – Students certifying for 4013 must complete CIS 411, CIS 413, and CIS 485
- CNSS 4014 – Students Certifying for 4014 must complete CIS 411, CIS 414 and CIS 413
- CNSS 4015 – Students Certifying for 4015 must complete CIS 411, CIS 415 and CIS 414

Institute of Nuclear Science and Engineering

Idaho State University has established an Institute of Nuclear Science and Engineering (INSE) with approval from the Idaho State Board of Education in 2003. The Institute is a collaborative entity among ISU, University of Idaho and Boise State University. Under the INSE’s administrative umbrella, the three universities jointly focus on nuclear science and engineering education at the combined Idaho Falls campus. Nuclear-related research in conjunction with the new Idaho National Laboratory is also coordinated through the INSE at University Place in Idaho Falls.

The 2+2 scholars program is a special opportunity for students interested in pursuing a Bachelor of Science degree in nuclear engineering. While Idaho State University has offered a nuclear emphasis for its interdisciplinary engineering degree for many years, it established the specific Nuclear Engineering B.S. degree in 2004 at the request of the U.S. Department of Energy. The University of Idaho and Boise State University are working together with ISU through the “2 + 2” program: 2 years at the main campus of one of the three universities and the second 2 years in Idaho Falls at the University Place campus. The reason for the location is to have special opportunities for the students in conjunction with the Idaho National Lab, which is a partner in this effort as well. Scholarship money, donated by AREVA to jump start the program, will be awarded to this elite group of students. Funding for the entire 2 years in Idaho Falls will cover tuition and fees, a book allowance and a small stipend. For further information and a scholarship application, visit the Institute’s scholarship web page at http://www.isu.edu/departments/inse/tnp.html.

State Board of Education

Asterisks denote members of the Graduate Faculty. The date in parentheses is the date of first appointment at Idaho State University. Adjunct faculty, Affiliate faculty, Emeritus faculty, and Athletics coaches are shown at the end of this section.

Idaho State University Faculty Roster

Appgood, Gary, Instructor, Graphic Arts/Printing Technology Program. (2007)

Arvidson, Cathy Ruth,* Coordinator, Family Nurse Practitioner Program; Associate Professor, Nursing. B.S.N. 1978, Vanderbilt; M.S.N. 1981, University of Florida; Ph.D. 1990, Texas Women’s University; FNP 1995, University of Wisconsin Oshkosh. (1992)

Ashton, Carol Ann,* Associate Dean and Director, School of Nursing; Associate Professor, Nursing. B.S. 1972; M.S. 1975, The Ohio State University; Ph.D. 1989, University of Utah. (2001)

Averett, Colby J., Coordinator and Instructor, Electrical Technical Program. (2007)

Aytes, Kregg John,* Associate Dean, College of Business; Professor, Computer Information Systems. B.S. 1984, Ph.D. 1993, University of Arizona. (1993)

Baergen, Ralph,* Professor, Philosophy; Chair, Human Subjects Committee. B.A. 1983, University of Manitoba; M.A. 1989, Ph.D. 1990, Syracuse University. (1994)

Bala, Janet Waite, Assistant Lecturer, Biological Sciences. (2007)

Ballard, Melvin J., Assistant Lecturer, Foreign Languages. (2007)

Barclay, Bryan, Senior Instructor, Technical General Education. B.S. 1980, Brigham Young University; M.S. 1987, University of Washington. (1999)

Battle, Laurie E., Visiting Faculty, Mathematics. (2007)

Beachboard, Martine Robinson, Assistant Professor, Mass Communication. B.S. 1976, Northern Arizona University; B.A. 1990, University of Maryland; M.S. 1995; M.A. 1996, Syracuse University. (2001)

Bearden, Shawn E.,* Assistant Professor of Physiology. B.S. 1994, University of Virginia; M.S. 1996, George Mason University; Ph.D. 2000, Florida State University. (2005)

Beaty, Lawrence H., Coordinator and Instructor, Electromechanical Technology. (2006)

Beck, Susan, Coordinator and Instructor, Massage Therapy. (2006)

Beedasy, Jaishree, Research Assistant Professor, Institute of Rural Health. B.Sc. 1989, University of Mauritius, Mauritius; M.Sc. 1993, University of York (UK); Ph.D. 2002, University of Mauritius, Lancaster. (2005)

Bennett, Byron L.,* Assistant Professor, Chemistry. B.A. 1989, Cedarville College; Ph.D. 1997, University of Wyoming. (2007)

Benson Jr., Charles Scott,* NCAA Representative; Professor, Economics. B.A. 1972, University of California, Berkeley; M.A. 1979, Ph.D. 1988, University of California, Davis. (1986)

Beran, Mary Lou, Database Manager, Library (equivalent rank, Professor). B.S. 1963, Mankato State College; M.Libr. 1968, University of Washington. (1968)

Bezik, Mark H., Assistant Professor, Accounting. BBA 1974, Cleveland State University; MBA 1978, Case Western Reserve University; CPA, Ohio, 1977. (1998)

Bhushan,Alok,* Assistant Department Chair and Associate Professor. Biomedical and Biomedical and Pharmaceutical Sciences. B.S. 1975, M.S. 1977, University of Delhi; Ph.D. 1982, Punjab Agricultural University. (1998)

Bigelow, James,* Associate Professor, Biomedical and Biomedical and Pharmaceutical Sciences. B.S. 1979, University of Illinois at Urbana-Champaign; Ph.D. 1985, Indiana University at Bloomington. (2004)

Bion, Camille, Clinical Associate Professor, Dental Hygiene. B.S. 1997, Idaho State University. (2001)

Bishop, Randy L., Clinical Associate Professor, Audiology. B.A. 1987; M.S. 1990, University of Utah.(1999)

Blanton, Cynthia A., Assistant Professor, Nutrition and Dietetics. B.S. 1990, California State University, Northridge; Ph.D. 2000, University of California, Davis. (2007)

Bokelmann, Jean, Physician and Clinical Associate Professor (non-classified), Family Practice Residency Program. A.B. 1975, Stanford University; M.D. 1980, Case Western Reserve University Medical School. (1993)

Borzadek, Eliza, Clinical Assistant Professor, Family Practice Medicine. (2007)

Bown, Denise M.,* Professor, Dental Hygiene. B.S. 1975, M.S. 1976, Old Dominion University. (1976)

Bowyer, R. Terry,* Department Chair, Biological Sciences; Professor, Ecology. B.S. 1970; M.S. 1976, Humboldt State University; Ph.D. 1985, University of Michigan. (2004)

Brackenridge, Sandra S., Associate Professor, Sociology, Social Work and Criminal Justice. B.A. 1978, Newcomb College of Tulane University; M.S.W. 1980, Tulane University. (1994)

Broadhead, Kay Lynn, Senior Lecturer, Communication and Rhetorical Studies. B.S. 1975, Brigham Young University; M.A. 1991, Idaho State University. (1991)

Brook, Susan J., RNC, Clinical Assistant Professor, Nursing. A.S. 1985, Ricks College; B.S. 1987, University of Utah; M.S. 2006, Idaho State University. (2006)

Brunley, Michele R., Assistant Professor, Psychology. B.A. 1999, DePaul University; Ph.D. 2005, University of Iowa. (2005)

Butler, Russell, Master Instructor, Automotive Collision Repair and Refinishing. (1996)

Cady, Paul S.,* Associate Director, Informatics Research Institute; Associate Dean, College of Pharmacy; Associate Professor, Informatics and Pharmacy Practice and Administrative Sciences. B.S. 1980, M.S. 1985, Ph.D. 1988, University of Arizona. (1990)

Callery, Kristin H.,* Associate Professor, Dental Hygiene. B.S. 1988, Idaho State University; M.S. 1993, Old Dominion University. (1992)

Campbell, Marie, Master Instructor, Office Technology. B.S. 1976, Utah State University. (1996)

Castle, Lyle W.,* Dean, Academic Programs, Idaho State University-Idaho Falls; Professor, Chemistry. B.S. 1985, Southern Utah State College; M.S. 1988, University of Nebraska; Ph.D. 1992, University of Florida. (1994)

Cellucci, Anthony J.,* Director, Psychology Clinic; Professor, Psychology. B.S. 1973, Rutgers College; M.S. 1975, Southern Illinois University-Carbondale; Ph.D. 1981, University of North Carolina-Greensboro. (1998)

Chen, Jianwei, Assistant Professor, Nuclear Engineering. B.S. 1996, Harbin Engineering University, China; M.S. 2001; Ph.D. 2004, University of Cincinnati. (2007)

Cheney, Timothy D., Assistant Professor, Management. B.A. 1971, Stanford University; J.D. 1976, University of Santa Clara. (1999)

Chiu, Steve C.,* Assistant Professor, College of Engineering. B.S. 1990, University of Illinois at Chicago; M.E.M. 1995; Ph.D. 2004, Northwestern University. (2005)

Cho, Jeong-il, Assistant Professor, Educational Learning and Development. B.A. 1996, Kwan-Dong University, Korea; M.Ed. 1999, University of North Carolina at Greensboro; Ph.D. 2007, University of Iowa. (2007)

Choufani el Fassi, Khalid, Research Associate Professor, Physics. B.S. 1987, École Nationale Supérieure de Physique de Marseille, France; M.S. 1988, Université de Saint Jérôme Marseille; M.S. 1992; Ph.D. 1995, Catholic University of America. (2001)

Christensen, Kay M., Department Chair, Business and Services. B.S. 1977, University of Utah; J.D. 1984, University of Idaho. (1997)

Christie, Carole R., Associate Professor, Dental Hygiene. B.A. 1979, University of Northern Colorado; M. Couns. 1982, Idaho State University. (1979)

Dye, Deanna, Assistant Professor, Physical and Occupational Therapy. B.S. 1990, Boston University; M.A. 2000, University of Wyoming; Ph.D. 2007, University of Idaho. (2002)

Dye, Mary Kay, Instructor, College of Education. (2007)

Dyer, Donald A., Obstetrics Coordinator (non-classified; equivalent rank, Clinical Associate Professor), Family Practice Residency Program. B.S. 1968, Memphis State University; M.D. 1972, University of Tennessee. (2001)

Eakman, Aaron, Director of Occupational Therapy Program; Assistant Professor, Occupational Therapy. B.S. 1989, University of North Dakota; M.S. 1992, Western Michigan University; Ph.D., 2007, University of Southern California. (2007)

Eckert, Thomas E., Assistant Lecturer, Communication and Rhetorical Studies. (2007)

Eley, John G., Associate Professor, Biomedical and Pharmaceutical Sciences. B.Sc. 1980, University of Aberdeen, Scotland; M.Sc. 1982; Ph.D. 1988, University of Strathclyde, Scotland. (2005)

Ellis, Kimberlee A., Clinical Assistant Professor, Dental Hygiene. B.S. 1990, Idaho State University. (2000)

Ellis, Mike V., Associate Professor, Electrical Engineering. B.S. 1983, Brigham Young University; M.S. 1984, Rensselaer Polytechnic Institute; Ph.D. 1994, Virginia Polytechnic and State University. (1999)

Eloe-Dep, Elizabeth JoAnn, Associate Lecturer, Special Education. (2007)

Engelbreten, Terry O., Department Chair, English and Philosophy; Associate Professor, English. B.A. 1973, Lewis and Clark College; M.A. 1975, Portland State University; Ph.D. 1982, Washington State University. (1988)

Enos, Marcella, Assistant Professor, Office Technology. B.S. 1979; M.S. 1986, Montana State University. (1990)

Erickson, David L., Instructor, Welding. (2007)

Eroschenko, Kathy S., Visiting Clinical Assistant Professor, Pharmacy Practice and Administrative Science. (2007)

Farrar, Richard, Assistant Lecturer, Biological Sciences. (2005)

Finney, Bruce P., Professor, Biological Sciences. (2007)

Fitzen, John E., Senior Instructor, Basic Electronics. B.S. 1981; B.S. 1982, Park College; M.Ed. 1989, Idaho State University. (19882)

Fogelquist, James Donald, Department Chair, Foreign Languages; Professor, Spanish. B.A. 1972, University of California Los Angeles; Ph.D. 1977, Yale University. (2005)

Force, Rex W.,* Director of Grants and Research and Professor (non-classified), Family Practice Residency Program; Associate Professor, Pharmacy Practice and Administrative Sciences. B.S. 1988, Oregon State University; Pharm.D. 1991, University of Texas Health Science Center at San Antonio. (1993)

Ford, Lawrence C.,* Associate Vice President for Special Programs and Enrollment Management; Associate Professor, Mathematics. B.S. 1968, M.S. 1970, Portland State University; Ph.D. 1974, California Institute of Technology. (1984)

Francis, Marcia J., Director, Idaho Health Sciences Library (equivalent rank, Associate Professor). B.S. 1984, University of North Dakota; M.A. 1996, University of Arizona; M.Ed. 2004, Idaho State University. (1992)

Francis, Charles A., Jr., Department Chair and Associate Professor, Radiographic Science. B.S. 1974, Ohio State University; M.Ed. 1986, Ohio University. (1987)

Frank, Barbara, Assistant Lecturer/Advisor, Biological Sciences. B.S. 1984, University of California, Davis; Ph.D. 1989, Washington State University. (1999)

Freudenthal, Jacqueline G., Assistant Professor, Dental Hygiene. B.S. 1982; M.H.E. 2005, Idaho State University. (1992)

Fukuoka, Sachiko, Assistant Lecturer, Foreign Languages. (2006)

Galindo, Susan E., Clinical Associate Professor, Biological Sciences. B.S. 1974, University of Nevada, Las Vegas; B.S. 1976, University of Nevada, M.S. 1979, University of Oklahoma Health Science Center. (2002)

Gansauge, Todd, Engineer and Assistant Lecturer, College of Engineering. B.S. 1985; M.S. 1990, University of Utah. (1997)

Garland, Kandis V., Assistant Professor, Dental Hygiene. B.S. 1998, University of Minnesota. (2006)

Gee, Bryan M., Clinical Assistant Professor, Occupational Therapy. B.S. 2002, D’Youville College; M.S. 2002; OTD 2007, University of St. Augustine. (2007)

Gesell, Thomas F.*, Professor, Health Physics, Director of Environmental Safety. B.S. 1965, San Diego State University; M.S. 1968, Ph.D. 1971, University of Tennessee. (1991)

Gibbs, William I., Jr., Coordinator/Advanced Instructor, Computerized Machining Technology. (1997)

Goodwin, Michal, R.N., Clinical Assistant Professor, Nursing. Nursing Diploma 1980, University College Hospital, London; b.s. 1996, Holy Names College; M.S. 2006, Idaho State University. (2005)

Gould, Frederica A., Director, Ambulatory Care Services, Southeast Idaho Veterans Affairs Clinic; Associate Professor, Pharmacy Practice and Administrative Sciences. B.S. 1973, M.S. 1979, University of Iowa. (1981)

Gray, Catherine J., University Library Center Librarian, Idaho Falls (equivalent rank, Assistant Professor). B.A. 1981, Boise
State University; M.Ed. 1989, Idaho State University; M.S.L.I.S., 1991, University of Kentucky. (1994)

Green, Gregory G.,* Associate Professor, Economics. B.A. 1990, Idaho State University; Ph.D. 1997, Temple University. (1997)

Gribas, John S.,* Faculty Ombudsman; Professor, Communication and Rhetorical Studies. B.S. 1984, Montana State University - Billings; M.A. 1990, Ph.D. 1993, University of Kansas. (1996)

Grisé, Monte, Assistant Professor, Music, B.M.E. 1996, Montana State University - Bozeman; M.M. 2002, Oklahoma State University. (2005)

Groome, James R.,* Assistant Professor, Biological Sciences, B.A. 1981, Wake Forest University; Ph.D. 1988, University of New Hampshire. (2003)

Haan, Brenda K., Assistant Lecturer, Communication and Rhetorical Studies. (2007)

Hachey, David M.,* Director of Pharmacy Clinical Services (non-classified; equivalent rank, Clinical Associate Professor), Family Practice Residency Program; Clinical Assistant Professor, Pharmacy Practice and Administrative Science. Pharm.D. 1998, University of Rhode Island. (1998)

Hackworth, Martin, Senior Lecturer, Lab Supervisor, Physics. B.S. 1990; M.S. 1992, Eastern Kentucky University. (1992)

Hale, Thomas F.,* Professor, History; Director, Oral History. B.A. 1967, Bellarmine College; M.A. 1969, Ph.D. 1972, University of Kentucky; J.D. 1985, Northwestern School of Law, Portland. (1977)

Hales Reynolds, Mary Anne, Clinical Assistant Professor, Nursing. A.S. 1978, Weber State College; B.S.N. 1979, University of Utah; M.S. 1984, University of California, San Francisco; Ph.D. 1997, University of Utah. (2001)

Halpenny-Weathersby, Anne, Instructor, Chemistry. (2006)

Harmon, Kelli, Assistant Lecturer, Biological Sciences. (2005)

Harris, Jason T.,* Assistant Professor, Health Physics. B.S. 1995, University of Tampa; M.S. 2002, University of Illinois at Urbana-Champaign; Ph.D. 2007, Purdue University. (2008)

Hart, Kenyon, Electrical Engineer and Associate Lecturer, College of Engineering. B.S. 1978, Brigham Young University; M.S. 1984, University of Arizona. (1994)

Hartmann, Thomas, Joint Research Faculty, College of Engineering. (2007)

Hart, Kenyon, Associate Lecturer, Electrical Engineering. B.S. 1978, Brigham Young University; M.S. 1984, University of Arizona. (1994)

Hatzenbuehler, Linda C.,* Dean, College of Health Professions; Professor, Psychology. B.A. 1969, John Carroll University; M.A. 1971, Ph.D. 1977, Kent State University. (1976)

Hauer, Anna Marie, Assistant Professor, Dental Hygiene. B.S.1978, Idaho State University; B.S. 1984, Utah State University; M.A. 1986, Idaho State University. (2004)

Hawk, Brian, Instructor, Graphic Arts/Printing Technology. B.S. 1995, Idaho State University. (1990)

Hedeen, Deborah L.,* Dean, College of Education; Professor, Educational Learning and Development (Special Education). B.S. 1984, Saint Cloud State University; M.A. 1985, Lesley College; Ph.D. 1994, Syracuse University. (1993)

Hefflinger, Roger G., Associate Professor, Pharmacy Practice and Administrative Sciences. Pharm.D. 1986, University of Nebraska - Omaha. (1987)

Helgeson, Kevin, Assistant Professor, Physical and Occupational Therapy. B.S. 1986; M.S. 1992, University of Montana; D.HSc. 2002 University of St. Augustine. (2004)

Hellwig, Harold H.,* Associate Professor, English. B.A. 1972, SUNY-Buffalo; M.A. 1976, California State University, Fullerton; Ph.D. 1985, University of California-Los Angeles. (1987)
Henderson, Richard A., Associate Lecturer, Special Education. (2006)

Hewett, Beverly J., Coordinator, Learning Resources Center and Clinical Assistant Professor, Nursing. B.S. 1975; M.S. 1998, Idaho State University. (1992)

Hill, Jeffrey Patten, Associate Professor, Biology. B.S. 1982, State University of New York; M.S. 1984, University of California, Davis; Ph.D. 1989, University of California, Riverside. (1991)

Hill, Sheryl, Assistant Lecturer, Biological Sciences. (2005)

Hodges, Kathleen O.*, Department Chair and Professor, Dental Hygiene. B.S. 1977, M.S. 1979, Old Dominion University. (1979)

Hoffmann, Sandra J., Clinical Associate Professor, Director of Internal Medicine, Family Practice Residency Program. (2003)

Holle, Mary M., Department Chair and Associate Lecturer, Mechanical Engineering. B.S. 1982, University of Akron; M.S. (2) 1984, Rensselaer Polytechnic Institute. (1998)

Holland, Andrew.*, Assistant Professor, Chemistry. B.S. 1997, University of Washington; Ph.D. 2002, University of California, Berkeley. (2004)

Holman, Robert.*, Department Chair and Professor, Chemistry. B.S. 1983, University of Wisconsin; Ph.D. 1988, University of Nebraska - Lincoln. (2004)

Hong, Lesa, Instructor, Adult Basic Education. B.S. 1982, Brigham Young University, M.A., 1992, Idaho State University. (2006)

Hove, Frank, Associate Lecturer, Special Education. (2006)

Howlett, Bernadette Mary Ann, Instructional Designer and Assistant Professor, Physician Assistant Studies. (2000)

Hughes, Scott S.*, Interim Dean, College of Arts and Sciences; Professor, Geosciences. B.S. 1972, Virginia Tech; M.S. 1979, Northern Arizona University; Ph.D. 1983 Oregon State University. (1991)

Hunt, Timothy, Associate Professor, Pharmacy Practice and Administrative Sciences and Institute of Rural Health. B.A. 1967, Otterbein College; M.S. 1997, South Dakota State University; Ph.D. 1981, Kansas State University. (2005)

Jackman, Trent D., Clinical Assistant Professor, Physical and Occupational Therapy. (2007)

Jackson, Thomas T.*, Dean, Graduate School; Professor, Psychology. B.A. 1967; M.A. 1969, California State College at Fullerton; Ph.D. 1974, Texas Tech University. (2006)

Jacob, Margaret, Coordinator and Instructor, Adult Basic Education. B.A. 1976, Idaho State University. (1989)

Johnson, Margaret E.*, Interim Associate Dean, College of Arts and Sciences; Associate Professor, English and Philosophy. B.S. 1986, University of California, Berkeley; M.A. 1990, San Jose State University; Ph.D. 1998, University of Oregon. (1999)

Jolly, James P.*, Department Chair and Professor, Management. B.A. 1975, Purdue University; M.S. 1979, Ph.D. 1985, University of Texas at Dallas. (1982)

Jones, Daniel, Faculty Physician (equivalent rank, Clinical Associate Professor), Family Medicine. B.S. 1996, Brigham Young University; M.D. 2002, University of Utah. (2005)

Jones, Pageant L., Assistant Lecturer, Mathematics. (2001)

Jørgensen, Molly S., Assistant Lecturer, Theatre and Dance. B.A. 1999, Brigham Young University; M.F.A. 2007, University of Utah. (2007)

Jue, Sandra G., Clinical Professor, Pharmacy Practice. Pharm D. 1972, University of California - San Francisco. (1973)

Kangas, Kathleen A.*, Director for Graduate Studies, Department of Communication Sciences & Disorders, and Education of the Deaf; Associate Professor, Speech-Language Pathology. B.S. 1974, Northern Michigan University; M.S.P.A. 1977, University of Washington, Seattle; Ph.D. 1990, Purdue University. (1990)

Knighton, Sandra, Instructor, Associate Degree Nursing Program. A.AS 1988, Brigham Young University - Idaho; B.A. 1990, Idaho State University; Associate of Science 2002, Brigham Young University - Idaho; M.S.N. University of Phoenix. (2008)

Kovacs, Rudolph S.*, Department Chair, Art and Pre-Architecture; Professor, Art. B.F.A. 1972, Ohio University; M.F.A. 1975, University of Kansas. (1980)
Kratz, Lawrence J.,* Professor, Mathematics. B.A. 1963, Xavier University; M.A. 1965, University of Wisconsin; Ph.D. 1975, University of Utah. (1966)

Krehbiel, Lee, Interim Vice President for Student Affairs; Assistant Professor, Education. B.A. 1981, Wichita State University; B.S. 1984, University of Kansas; M.S. 1989; Ph.D. 1996, Indiana University - Bloomington. (1996)

Kress, Randa L., Associate Lecturer, Mathematics (1995)

Krumwiede, Dennis W.,* Professor, Management. B.S. 1977, University of Nebraska, Lincoln; M.E.M. 1989, University of Colorado, Boulder; Ph.D. 1997, Kansas State University. (2000)

Kuhlmans, Erika, Director, Women’s Studies; Assistant Professor, History. B.A. 1983; M.A. 1987, University of Montana; Ph.D. 1995, Washington State University. (1996)

Kunicki, Catherine, Director, Mathematics Center; Adjunct Faculty, Mathematics. B.S. 1983; M.S. 1985; D.A. 1990, Idaho State University. (1997)

Ladd, Elaine, Clinical Assistant Professor, Pharmacy Practice and Administrative Science. (2007)

Lai, James Chung Kang, Professor, Biomedical and Pharmaceutical Sciences. B.S. 1970, University College, Cardiff, Wales; M.S. 1971, the Medical School, Birmingham University, U.K.; Ph.D. 1975, St. Bartholomew’s Hospital Medical College, London University. (1991)

Lane, Kathleen, Professor, Music. B.M.E. 1978, University of Montana; M.Mus. 1988, Yale School of Music. (1993)

Larsen, Debra, Research Assistant Professor, Institute of Rural Health. B.S. 1990, Brigham Young University; M.S. 1993; Ph.D. 2002, Idaho State University. (1998)

Lay, Terry L., Data Integrity Officer, Information Technology Services; Associate Professor, Mathematics. B.S. 1969, Oklahoma State University; M.A. 1975, University of Oklahoma; Ph.D. 1980, University of Texas. (1980)

Leavitt, Gregory C.,* Professor, Sociology. B.A. 1970, Central Washington University; M.A. 1972, University of Bridgeport; Ph.D. 1976, University of Nebraska/Lincoln. (2001)

Leeuwrik, Linda, Assistant Professor, Art History. B.S. 1985, Virginia Tech University; M.A. 1997, Georgia State University; M.A. 2001; Ph.D. 2007, Bryn Mawr College. (2006)

Leight, Jennifer, Clinical Assistant Professor, Physical and Occupational Therapy. B.S. 1987, East Stroudsburg University; MSPT 1993, Washington University School of Medicine. (2003)

Lester, Michael J.,* Professor, Sport Science and Physical Education. B.S. 1976, Lewis-Clark State College; M.S. 1978, University of Arizona; Ed.D. 1985, Oklahoma State University. (1990)

Letzring, Tera, Assistant Professor, Psychology. B.A. 1999, University of Puget Sound; M.A. 2002; Ph.D. 2005, University of California, Riverside. (2005)

Lewis, Judy, Program Coordinator and Instructor, Practical Nursing, BSN 1999, Oregon Health Sciences University. (2005)

Lin, Shu-Yuan, Coordinator, Instructional Materials Center; Associate Lecturer, Educational Foundations. B.A. 1985, National Chungshing University, Taiwan; M.Ed. 1993, University of Houston; Ed.D. 2003, Idaho State University. (2001)

Lineberry, Michael J.,* Senior Lecturer, Engineering; also faculty for Office of Research. Ph.D. 1972, California Institute of Technology. (2003)

Link, Paul K.,* Professor, Geosciences. B.S. 1976, Yale University; B.S. 1977, University of Adelaide; Ph.D. 1982, University of California, Santa Barbara. (1980)

Livingston Friedley, Diana, Associate Professor, Music. B.Mus. 1988, Westminster Choir College; M.Mus. 1991, Indiana Uni-
versity; D.M.A. 2002, Mason Gross School of the Arts at Rutgers, The State University of New Jersey. (2002)

Loebs, Bruce D.,* Professor, Communication and Rhetorical Studies. B.A. 1959, University of California at Santa Barbara; M.S. 1964, Ph.D. 1968, University of Oregon. (1969)

Loftin, Joni Grey, Clinical Professor, Communication Sciences & Disorders, and Education of the Deaf. B.S. 1984, Appalachian State University; M.S.P. 1986, University of South Carolina. (1990)

Lohse, Ernest S.,* Interim Director, Idaho Museum of Natural History; Department Chair and Professor, Anthropology; Associate Director, Informatics Research Institute. B.A. 1975, California State University, Chico; M.A. 1977, Ph.D. 1981, University of Utah. (1989)

Long, Margaret H. (Meg), Clinical Associate Professor, Dental Hygiene. B.S. 1978, Idaho State University. (1990)

Louis, Galen K., Assistant Professor, Master of Public Health Program. B.S. 1991; MHE 1993, Idaho State University; Ph.D. 2001, University of Illinois at Urbana-Champaign (2006)

Luckey, Angela S.,* Associate Professor, Educational Foundations. B.M.Ed. 1965, Texas Western College; M.Ed. 1980, Idaho State University; Ph.D. 1996, University of Idaho. (1996)

Lyda, Cheryl, Associate Professor, Technical General Education (also Adjunct Faculty, English and Philosophy; Affiliate Faculty, Counselling). B.S. 1984, University of Utah; M.Coun. 1987, Idaho State University; M.A. 1998, University of Oklahoma; Ed.D 1991, Idaho State University. (1997)

Lyons, Gerard G.,* Department Chair and Professor, Sport Science and Physical Education. B.S. 1977, St. Joseph’s College, Brentwood, NY; M.S. 1978, Long Island University Graduate School; Ed.D 1984, Texas A&M University. (1998)

Madsen, Pat, Instructor, Associate Degree Nursing Program. B.S.N. 1986, California State University, Sacramento; M.S.N. 1996, University of Utah. (2006)

Magnuson, Timothy S.,* Associate Professor, Microbial Physiology. B.S. 1987, University of Minnesota; M.S. 1991, Ph.D. 1996, University of Idaho. (2001)

Mahar, James,* Senior Lecturer, Civil Engineering; Adjunct Faculty, Geosciences. B.S. 1967, Idaho State University; M.S. 1972, Colorado State University; Ph.D. 1977, University of Minnesota. (2003)

Malepeai, Brenda, Clinical Professor, Department of Communication Sciences & Disorders, and Education of the Deaf. B.A. 1975; M.S. 1977, Idaho State University. (1980)

Manopoulos, Monique,* Assistant Professor, French. Licence-és-Lettres - Université de Provence,Aix-en-Provence, France; M.A. 1989, Arizona State University; Ph.D. 1994, University of Iowa. (2005)

Mapes, Virginia Lee, Instructor, Practical Nursing. (2005)

Marquette, Lois M., Clinical Assistant Professor, Nursing. B.S. 1979; M.S. 2003, Idaho State University. (2000)

Marsden, Louis L., Senior Lecturer, Mathematics. B.S. 1951, Utah State University; M.S. 1961, University of Idaho. (1991)

Martin, Annik, Associate Lecturer, Mathematics. B.A. 1998, Bishops University; M.S. 1999, Dalhousie University. (2001)

Martin, David E., Clinical Assistant Professor, Physician Assistant Studies. B.S. 1980, University of Oklahoma; M.S. 1999, University of Nebraska; M.P.A.S. 2000, University of Nebraska. (2003)

Mason, Barbara J.,* Interim Department Chair and Professor, Pharmacy Practice and Administrative Sciences. Pharm.D. 1982, University of Nebraska. (1987)

Masserini, John Patrick, Associate Professor, Music. B.Mus. 1995, University of New Mexico; M.Mus. 1997; D.M.A. 1999, Michigan State University. (2001)

Matoqc, Marjorie,* Associate Professor, Biological Sciences. M.A., San Francisco State University, 1996; Ph.D. 2000, University of California, Berkeley. (2002)

Maughan, Jackie J., Associate Lecturer, English. B.A. 1974, University of Idaho; M.A. 1986, Idaho State University. (1975)

Mayne, Michelle, Clinical Assistant Professor, Pharmacy Practice and Administrative Science. (2007)

McAleese, Willis J.,* Department Chair and Professor, Health and Nutrition Sciences. B.S. 1976, Northwest Missouri State University; M.P.E. 1978, Idaho State University; Ph.D. 1990, University of New Mexico. (1989)

McCarthy, Mike, Clinical Assistant Professor, Nursing. B.S.N. 1981, University of Arizona; M.S. 2007, Idaho State University. (2006)

McClusky, David A., Medical Director and Assistant Professor, Physician Assistant Studies. B.S. 1966; M.S. 1972, University of Idaho; M.D. 1976, Northwestern University Medical School. (2002)

McCurry, Michael O.,* Professor, Geosciences. B.S. 1974, University of Washington; Ph.D. 1985, University of California, Los Angeles. (1990)

McKnight, Laura E. G., Director, Didactic Program in Dietetics: Clinical Associate Professor, Health and Nutrition Sciences. B.S. 1986; M.P.H. 1999, Idaho State University. (1994)

McQuain, Betty, Program Coordinator and Senior Instructor, Child Development. B.S. 1978, Brigham Young University; M.T.D. 2004, Idaho State University. (2001)

Meldrum, D. Jeffrey,* Associate Professor, Biological Sciences; Adjunct Faculty, Anthropology. B.S. 1982, M.S. 1984, Brigham Young University; Ph.D. 1989, State University of New York at Stony Brook. (1993)

Meyer, Andrew J., Assistant Professor, Educational Leadership. B.A. 1971, California State University, Long Beach; M.Ed. 1975, University of Southern California; Ed.D. 1992, University of La Verne, La Verne, California. (2006)

Miles, Michele, Clinical Instructor, Physician Assistant Studies. (2007)

Miller, David, Program Coordinator and Instructor, Culinary Arts. (1997)

Miller, Joseph L., Assistant Lecturer, Mathematics. (1996)

Miller, Melvin D., Assistant Professor, Communication Sciences & Disorders, and Education of the Deaf. B.A. 1978; M.C.D. 1979, Brigham Young University; Ph.D. 1988, University of Oklahoma Health Sciences Center. (2005)

Mladenka, Christine F., Clinical Associate Professor, Nursing. B.S.N. 1983, University of Texas at Arlington; M.S. 1994, University of Texas Medical Branch. (1999)

Molinari, Deana L.,* Associate Professor, Nursing. B.S.N. 1985, Walla Walla College; M.S. 1996, Oregon Health Sciences University; Ph.D. 2003, Brigham Young University. (2006)

Montgomery, Tracy T.,* Associate Professor, English and Philosophy. B.A. 1975, Georgia State University; M.A. 1977, D.A. 1987, Idaho State University. (1990)

Moss, John M., Instructor, Practical Nursing. (2007)

Mousavinezhad, Seyed Hossein,* Department Chair and Professor, Electrical Engineering. B.S. 1972, National Taiwan University; M.S. 1973; Ph.D. 1977, Michigan State University. (2007)

Murphy, Peter, Visiting Assistant Professor, Biological Sciences. (2005)

Murphy, Virginia A., Clinical Assistant Professor, Nursing. A.S. 1973; B.S. 1978, University of Nebraska Medical Center, Omaha; M.S.N. 1995, University of Nebraska Medical Center, Kearney. (1999)

Negliski, Kristin, Clinic Director and Clinical Assistant Professor, Communication Sciences & Disorders, and Education of the Deaf. (2005)

Nehr-Kanet, Sonja, Clinical Associate Professor, Biological Sciences. B.S. 1982, Northern Michigan University; BMLS 1990; M.S. 1993, University of British Columbia. (2002)

Neill, Karen,* Interim Director of Research, School of Nursing; Professor, Nursing. A.S. 1980, Sierra College; B.S. 1982; M.S. 1985; Ph.D. 1994, Idaho State University. (1984)

Newman, James,* Assistant Professor, Political Science. B.S. 1991, University of Alabama; M.P.A. 1994, Jacksonville State
Pierson, Donald S.,* Professor, Social Work. B.S. 1969, University of Wisconsin, White-water; M.S.W. 1971, Tulane University; D.S.W. 1984, University of California, Los Angeles. (1985)

Popa, Amy J., Assistant Lecturer, Art and Pre-Architecture. (2005)

Poulos-Edmo, Helene, Clinical Assistant Professor, School of Nursing. B.S. 1991; M.S. 1997, Idaho State University. (2007)

Pratt, CPT Stephen N., Chair, Department of Military Science (not an ISU employee) (2006)

Prause, Nicole Renee,* Assistant Professor, Psychology. B.A. 2000, Indiana University, Bloomington; Ph.D. 2007 Indiana University, Bloomington; Internship Boston Consortium. (2007)

Rankin, Linda L.,* Assistant Dean, Kasiska College of Health Professions; Associate Professor, Health and Nutrition Sciences; Registered Dietician. B.S. 1974, Iowa State University; M.S. 1985, University of Wisconsin; Ph.D. 1996, University of Idaho. (1991)

Ray, Beverly B.,* Department Chair and Associate Professor, Educational Foundations. B.S. 1984, University of Texas; M.A. 1989; Ph.D. 2000, University of Alabama. (2001)

Reed, Jason D., Assistant Lecturer, Mathematics. (2005)

Renn, Nancy, Assistant Director for Undergraduate Studies, School of Nursing; Clinical Assistant Professor, Nursing. B.S. 1980; M.S. 1990, Idaho State University. (1993)

Rhodes, Richard S.,* Director of Pharmacy Services, Idaho State Veterans Hospital; Professor, Pharmacy Practice and Administrative Sciences. B.S. 1972, Mercer University; B.S. 1978, Florida A&M University; Pharm.D. 1983, Mercer University. (1987)

Risinger, Fred O.,* Department Chair and Professor, Biomedical and Pharmaceutical Sciences. B.S. 1978, Louisiana State University in Shreveport; M.S. 1981, Ph.D. 1987, University of Louisiana Monroe. (2002)

Roberts, Mark W.,* Professor, Psychology; Director, Clinical Training. B.A. 1971, Stanford University; M.S. 1975, Ph.D. 1977, University of Georgia. (1977)

Rodgers, David,* Department Chair and Professor, Geosciences. B.A. 1981, Carleton College; Ph.D. 1987, Stanford University. (1985)

Rodnick, Kenneth J.*, Professor, Physiology. B.S. 1979, University of California, Davis; M.S. 11982, M.A. 1984, Oregon State University; Ph.D. 1989, Stanford University. (1993)

Rodriguez, Rene G.*, Professor, Chemistry. B.S. 1981, University of Colorado; M.S. 1984, University of Minnesota; Ph.D. 1987, University of Idaho. (1988)

Rogo, Ellen,* Professor, Dental Hygiene. B.S. 1978, University of Missouri; M.Ed. 1981, University of Washington. (1992)

Rose, William Jackson,* Assistant Department Chair for Graduate Studies, Biological Sciences; Professor, Physiology. B.S. 1975, M.S. 1979, Ohio State University; Ph.D. 1985, Oregon State University. (1987)

Russell, Barbara, Lecturer, College of Business. (2006)

Smith, Anna-Lise K., Electronic Resources Librarian (equivalent rank, Instructor), Library. (2007)

Smith, Jill M., Assistant Professor, Accounting. B.S. 1968, University of Montana; M.B.A. 1975, Idaho State University. (1986)

Smith, Kenneth A.,* Dean, College of Business; Professor, Accounting. B.S. 1968, University of Montana; Ph.D. 1971, University of Texas. (1970)

Sorensen, David N.*, Assistant Dean, Kansas College of Health Professions; Professor, Speech-Language Pathology. B.S. 1970, M.S. 1971, University of Utah; Ph.D. 1980, Purdue University. (1985)

Speck, Sandra K. Smith,* Department Chair and Professor, Marketing. B.A. 1977; MBA 1979, University of Wyoming; Ph.D. 1992, University of Illinois. (2005)

Spinner, Jeri W., Program Coordinator and Assistant Professor, Business Information. B.S. 1981, Utah State University; M.B.A. 1985, University of Idaho. (1995)

Squires, David,* Associate Professor, Literacy Education, Educational Learning and Development. B.S. 1986; M.A. 1989, Appalachian State University; Ph.D. 1993, University of Wyoming. (1999)

Starovoitova, Valeria N., Visiting Faculty, Physics. (2007)

Stegner, Tesa,* Department Chair and Professor, Economics. B.S. 1983, Valparaiso University; Ph.D. 1989, Washington State University. (1992)

Steiner, Joseph,* Dean, College of Pharmacy; Professor, Pharmacy Practice. B.S. 1971; Pharm.D. 1974, University of Michigan. (2001)

Steiner, Susan,* Assistant Director for Graduate Studies, School of Nursing; Assistant Professor, Nursing. B.S. 1971 University of Michigan; M.S. 1988, Ph.D. 2001, University of Wyoming. (2002)

St. Hilaire, Sophie, Research Assistant Professor, College of Arts and Sciences. D.V.M. 1994, University of Prince Edward Island; M.Sc. 1996, University of Saskatchewan; Ph.D. 2000, University of Guelph, Canada. (2005)

Story, John W.,* Professor; Management; Adjunct Faculty, Marketing and Management Occupations. B.B.A. 1991; M.S. 1995, Texas A&M University; Ph.D. University of Colorado at Boulder. (2004)

Street, Jeff, Assistant Professor, Management. B.S. 1982, East Tennessee State University; M.B.A. 1990, University of Tennessee; Ph.D. 2007, University of Georgia. (2007)

Strickland, Albert Wesley, Jr.,* Associate Director, Informatics Research Institute; Professor, Informatics. B.S. 1963, University of Florida; Gainesville; M.S. 1965, The University of Notre Dame; M.Ed. 1966, Ph.D. 1976, University of Florida, Gainesville. (1994)

Swain, Marcia, Assistant Professor, Speech Language Pathology. B.A. 1971; M.S. 1972, Eastern Washington University; Ph.D. 1986, University of Idaho. (2005)

Swetnam, Susan H.,* Professor, English. B.A. 1972, University of Delaware; M.A. 1975, Ph.D. 1979, University of Michigan. (1979)

Talford, David, Clinical Instructor, Physician Assistant Studies. B.S., PA-C 1999, Des Moines University. (2007)

Tapanila, Leif, Assistant Professor, Geosciences. Honors B.S. 1999, University of Waterloo, Waterloo, Canada; M.S. 2000, Laurentian University, Sudbury, Canada; Ph.D. 2005, University of Utah. (2005)

Tapanila, Lori, Assistant Lecturer, Geosciences. (2006)

Tappan, Dan, Assistant Professor, College of Engineering. B.A. 1992, Arizona State University; MS 1996, University of Arkansas, Fayetteville; Ph.D. 2004, New Mexico State University. (2005)
Whitaker, Mary M., Clinical Associate Professor, Communication Sciences & Disorders, and Education of the Deaf. B.S., 1984, University of Utah; M.S. 1986, University of Arizona; Ed.S. 1998, Idaho State University. (1986)

Wiggins, Carla,* Department Chair and Professor, Health Care Administration. B.S. 1985, Ithaca College; Ph.D. 1994, University of Minnesota. (1997)

Willer, Janene, Clinical Associate Professor, Communication Sciences & Disorders, and Education of the Deaf. B.A. 1971; M.A. 1972 University of Northern Iowa. (1990)

Williams, Brian G.,* Associate Professor, College of Engineering. B.S. 1990, Brigham Young University; M.S. 1991; Ph.D. 1997 Utah State University. (2002)

Williams, Charles F. (Rick),* Assistant Professor, Biological Sciences. B.S. 1979, University of Oklahoma; M.S. 1985, University of Miami; Ph.D. 1991, University of Wisconsin, Madison. (1999)

Wood, Lisa B., Director and Clinical Instructor, Respiratory Therapy program. (2007)

Woodhouse, William M., Associate Residency Director (non-classified; equivalent rank, Clinical Associate Professor), Family Practice Residency Program. (1994)

Wright, Derek, Clinical Assistant Professor, Family Medicine. B.A. 1992, Brigham Young University; M.D. 1996, University of Utah. (2007)

Ybarguen, Jeffrey, Clinical Assistant Professor, Dental Sciences; Adjunct Faculty, Dental Hygiene. B.S. 1997, Idaho State University; D.D.S. 2001, Creighton University. (2005)

Yost, Luther, Senior Lecturer, Mathematics. B.S. 1981, Frostburg State University; M.A. 1987, University of Maryland. (1994)

Young, Glenna, Department Chair, Health Occupations. A.S. 1986, Boise State University; Accredited Records Technician. (1995)

Zhu, Wenxiang,* Assistant Professor, Mathematics. B.S. 1997; M.S. 1995, Fudan University, China; Ph.D. 2002, Iowa State University. (2006)

Zielinski, Angela M., Assistant Professor, Art. B.FA 2003, Millikin University; M.F.A. 2006, Bowling Green State University. (2007)

Zink, John J., Visiting Faculty, Economics. (2006)

Zoghi, Manoochehr,* Department Chair and Professor, Civil and Environmental Engineering. B.S. 1979; M.Eng. 1981, University of Louisville; Ph.D. 1988, University of Cincinnati. (2007)

Zollinger, Jann B., R.D.H., Clinical Assistant Professor, Dental Hygiene. B.A. 1977, Idaho State University (1990)

Adjunct Faculty

Adams, George, Music

Adams, Michelle, Music

Adams, Shawn, Sport Science and Physical Education

Agado, Brooke E., Clinical Adjunct Faculty, Dental Hygiene

Alexander, Kathy, Physical and Occupational Therapy

Allen, James C., Dental Hygiene

Alvarez, Amando, Foreign Languages

Anderson, Janet C., Dean of Students, Professor, Counseling. 1967-1998

Anderson, Robert C., Professor, Zoology. 1969-2007

Asboe, Donald E., Assistant Professor, Speech Communication and Theatre. 1947-1986

Bain, Barbara A., Director of Undergraduate Studies and Professor, Communication Sciences & Disorders, and Education of the Deaf. 1989-2004

Balsley, Ronald D., Professor, Marketing. 1978-2005

Beebe, Thomas G., Instructor, Electronics Technology. 1957-1989

Benintendi, Wilma, Associate Professor, Education. 1967-1984

Bielby, Victor C., Instructor, Civil Engineering Technology. 1966-1993

Bilyeu, Charles E., “Chick,” Professor, Speech and Drama. 1950-1982

Black, James M., Instructor, Electronics Technology. 1963-1993

Bliiesner, Frances E., Professor, Theatre. 1967-1995

Bliss, Traci, Professor, Educational Foundations. 1996-2008

Blount, Charles W., Professor, Geology. 1975-1990

Bobell, John LV, Professor, Human Resource Training and Development. 1990-2002

Booher, Shirley (Deagle), Instructor, Office Technology, 1964-1996

Bowen, Richard L., University President. 1985-2005

Bowers, Richard G., Professor, Botany. 1961-1997

Braun, Loren, Professor, Chemistry. 1957-1989

Brown, Donald D., Professor, Art. 1956-1994

Brown, Norris C., Instructor, Diesel Technology. 1972-1997

Browning Jr., Wallace E., Professor, Physical Education. 1963-1990

Bryan, Clifford E., Professor, Sociology. 1971-2001

Bunde, Daryl E., Associate Professor, Zoology. 1965-1998

Burns, Mary Jane,* Co-director, Women’s Studies Program; Associate Professor, Political Science. 1985-2006

Butler, B. Robert, Professor, Anthropology. 1960-1989

Cantrill, Dante K.,* Professor, English. 1974-2005

Carlile, Clark S., Professor, Speech. 1947-1973

Chambers, Darold, Registrar. 1961-1990

Christensen, Calvin D., Instructional Coordinator, Laser/Electro-Optics Technology. 1971-2000

Cole, Franklin R., Professor, Pharmacognosy. 1956-1991

Condie, Helen, Associate Professor, Home Economics. 1966-1988

Cowles, Lois Anne, Associate Professor, Sociology, Social Work, and Criminal Justice. 1993-2003

Craven, Evelyn, Professor, Education. 1963-1986

Cresswell, Donald J., Associate Professor, Mathematics. 1968-2000

Cullen, Arthur, Associate Professor, Education. 1970-1990

Cullen, Carol, Instructor, Office Occupations. 1963-1990

Davis, Everett Eugene (Gene), Professor, Educational Leadership; Director, Intermountain Center for Education Effectiveness. (1992-2007)

Deagle, Frances K., Instructor, Office Technology. 1969-1997

Dial, Theresa Gail, Professor, Art. 1974-2008

Downing, Joan K., Public Services Director, Library (equivalent rank, Professor). 1969-1986

Eastman, Philip, Vice President for Financial Services. 1956-1988

Edgar, Thomas E., Professor, Counselor Education. 1966-1987

Edwards, Marilyn, Instructional Program Coordinator, Culinary Arts Technology. 1966-1997

Ekstrom, Grant, Instructor, Diesel/Diesel Electric Technology. 1973-1996

Enloe, Linda J.*, Associate Professor, Psychology. 1974-2007

Faler, Kenneth T., Professor, Chemistry and Physics. 1967-1991

Farrell, Larry D.*, Professor, Microbiology. 1972-2008

Feige, Gary, Coordinator/Senior Instructor, Machining Technology. 1977-2003

Fontenelle, L. Judy, Professor, Biomedical and Pharmaceutical Sciences. 1969-1998

Fortsch, David E., Senior Lecturer, Geosciences 1974-2004

Foster, Richard H., Jr., Professor, Political Science. 1973-2008

Galizia, Virginia, Associate Dean, College of Pharmacy; Professor, Pharmacy Practice and Administrative Sciences. (1996-2002)

Gantt, Gamewell D.*, Professor, Management. 1982-2004

Geisler, Don, Instructor, Auto Collision Repair and Refinishing. 1971-1992

Gibson, Philip J., Department Chair, Instructor, Business and Service. 1981-2000

Goetsch, Robert W., Professor, Pharmaceutics. 1965-1997

Goff, Glen F., Instructor, Electronics Technology. 1960-1989
Goldbeck, H. Janne, Professor, English. 1976-2006
Gravatt, Darwin, Instructional Program Coordinator, Auto Collision, Repair and Refinishing. 1974-1997
Green, Joel N., Instructor, Diesel/Diesel Electric Technology. 1975-2001
Greenwood, Audrey, Professor, Foreign Languages. 1957-1978
Griffith, John S., Professor, Biology. 1977-1999
Hansen, Vaughn, Coordinator/Senior Instructor, Electromechanical Design Drafting Technology. 1970-2005
Harmon, J. Frank, Director and Research Professor, Idaho Accelerator Center; Professor, Physics. 1969-2008
Helfant, Mary Linda, Associate Professor, Journalism. 1948-1964
Herzog, Anita, Professor, Dental Hygiene. 1978-2008
Hill, Linda Charlotte, Associate Professor, Mathematics. 1976-2006
Hillyard, Ira W., Professor, Pharmacology. 1969-1991
Hitchcock, Leonard A., Associate University Librarian, Collection Development (equivalent rank, Professor). 1984-2006
Hjelm, Victor S. "Butch," Dean, College of Arts and Sciences; Professor, Political Science. 1968-2001
Hofman, Cornelius A., Professor, Economics. 1960-1997
Hogge, Donna, Associate Professor, Physical Education. 1949-1984
Holte, Karl E., Professor, Botany; Curator, Museum. 1965-1997
House, Edwin W., Chief Research Officer; Professor, Physiology. 1966-2004
House, Janet G., Associate Professor, Mass Communication. 1985-2002
Huck, Wilbur, Associate Professor, English. 1957-1990
Hurley, Stephen C., Professor, Pharmacy Practice and Administrative Sciences. 1976-2006
Jacob, Wilmer E., Professor, English. 1947-1971
Jacobson, Grace, Associate Professor, Nursing. 1981-2002
Jenkins, Robert M., Coordinator/Senior Instructor, Automotive Technology. 1974-2005
Jensen, Jay, Dean of Students. 1956-1989
Jensen, Mary Donna, Associate Professor, English. 1964-1989
Joe, Victor C., Department Chair and Professor, Psychology. 1969-2003
Johnson, Frank J., Instructor, Civil Engineering Technology. 1966-1993
Johnson, George A., Professor, Management. 1973-2002
Jones, Gordon E., Associate Dean, School of Applied Technology. 1968-1995
Kawamura, Carole J., Assistant Professor, Dental Hygiene. 1975-2002
Kearns, Richard L.* Director of Undergraduate Programs and Professor, Health and Nutritional Sciences. 1988-2004
Kidd, Paul F., Instructor, Graphic Arts. 1965-1995
Kijinski, John L., Dean, College of Arts and Sciences; Professor, English. 1985-2007
Kilpatrick, John A., Professor, Management. 1977-2006
King, William L., Professor, Philosophy. 1960-1994
Kirkpatrick, David, Professor, Military Science, Director of Housing. 1951-1955, 1958-1981
Kritsky, Delane C., Associate Dean, College of Health Professions; Professor, Health and Nutrition Sciences and Biological Sciences. 1974-2008
Laurence, Dennis, Instructor, Upholstery. 1971-1992
LeBlanc, Ronald P., Professor, Marketing; Adjunct Faculty, Sport Science and Physical Education. 1980-2006
Lerch, Robert, Professor, Education. 1971-1995

Noakes, Sandra D., Assistant Professor, Physical Education. 1966-2002
Obermayer, Lorna,* Associate Professor, Art. 1974-1988
Ore, H. Thomas, Professor, Geology. 1963-1997
Parker, Barry R., Professor, Physics. 1967-1997
Parker, Stephen K., Associate Professor, Mathematics. 1972-2002
Pawar, Sheelwant B., Professor, Management. 1967-1999
Pehrsson, Robert S.,* Professor, Teacher Education. 1980-2003
Price, Joseph, Professor, Physics. 1959-1992
Priddy, Kathleen S., Senior Instructor, Office Technology. 1976-2005
Ronald, Bruce P., Professor, Chemistry. 1968-2001
Rose, Fred L., Professor, Biological Sciences. 1969-2000
Ruckman, JoAnn S., Co-director, Women’s Studies Program; Professor, History. 1974-2001
Rush, Robert, Clinical Associate Professor, Family Practice Residency Program and School of Nursing
Sagness, Richard L., Director, Office of Clinical Experiences and Student Services; Professor, Teacher Education. 1979-1999
Sahlberg, Jeanne H., Instructor, Office Occupations. 1967-1990
Salzman, Stephanie, Professor, Teacher Education. 1986-2002
Sarraf, Tahmoores, Professor, Sociology. 1972-2001
Sato, Alyce, Associate Professor, Nursing. 1976-2004
Saul, William E., Professor, Botany. 1955-1985
Schneider, Audrey D. (Weston), Associate Professor, Speech-Language Pathology. 1990-2005
Schow, H. Wayne, Professor, English. 1967-1999
Schow, Ronald L., Professor, Audiology. 1975-2007
Scott, Darrell F., Assistant Dean, College of Business; Senior Lecturer, Marketing. 1970-2007
Schwendig, Warren Lee, Professor, Marketing. 1968-2003
Seeley, Rodney R.,* Professor, Physiology. 1973-2008
Sharp, William T., Professor, Pharmacy Practice and Administrative Sciences. 1975-2000
Shiflett, William H., Instructor, Electronics. 1945-1975
Simmons, Robert, Instructor, Machining Technology. 1965-1989
Smedley, Thayne, Professor, Audiology. 1983-2001
Smith, Denzell S., Professor, English. 1972-1991
Spadafore, Gerald J., Professor, Teacher Education. 1969-1999
Spall, Richard D., University Ombudsman; Professor, Pathology. 1981-2003
Standley, Mike, Director of Registration and Records. 1971-1999
Stanek, Alan E., Chair and Professor, Music. 1976-2001
Stenson, Carol M., Professor, Special Education. 1978-2003
Stocks, Anthony, Chair and Professor, Anthropology. (1979-2006)
Streubel, Donald P., Professor, Biology. 1974-1999
Strommen, Dennis, Department Chair and Professor, Chemistry. 1992-2004
Sutcliffe, Roy M., Instructor, Electronics Technology. 1958-1989
Sutter Jr., E. John, Professor, Chemistry. 1971-2004
Swanson, Merwin, Professor, History. 1972-2002
Sweat, Robert C., Coordinator/Senior Instructor, Computer/Business Equipment Technician Program. 1978-2004
Tate, Paul D., Dean, Graduate School; Professor, Philosophy. 1976-2006
Trinklein, Michael J., Professor, Mass Communication. 1984-2004
Trost, Charles H., Professor, Biological Sciences; Curator, Museum. 1968-2000
Tullis, James, Professor, Biological Sciences. 1965-1996
Vegors, Stanley, Professor, Physics. 1958-1992
Vittetoe, Dennis, Master Instructor, Electronic Systems Technology. 1976-2003
Walsh, Dennis M., Professor, English. 1979-2004
Walsh, Mary Ellen,* Professor, English. 1971-2002
Watters, Ronald, Senior Lecturer, Sport Science and Physical Education. 1974-2007
Watts, Robert T., Associate Professor, Computer Information Systems. 1978-1999
Wiegand, Gayl H., Professor, Chemistry. 1965-2004
Williams, Thomas, Professor, Mathematics. 1954-1984
Wilson, Albert E.,* Professor, Engineering and Nuclear Science, 1966-1995

Intercollegiate Athletics—Directors and Coaches
Alexander, Geoff, Assistant Coach, Men’s Basketball
Amrine, Steve, Assistant Coach, Football
Brossman, Christa N., Assistant Coach, Women’s Basketball
Brown, Michael A., Assistant Coach, Men’s Basketball
Bushman, Lisa, Assistant Coach, Volleyball
Campbell, Mark, Assistant Strength Coach
Falevai, Junior, Assistant Coach, Football
Gibson, Allison, R., Head Coach, Women’s Soccer
Goeltz, Robert, Head Coach, Tennis
Graziano, Nancy, Associate Athletic Director
Green, Jordan, Associate Head Coach, Women’s Basketball
Hineline, Aaron, Assistant Coach, Football
Hofmaier, David, Head Strength Coach
Hofmaier, Hillary, Director, Spirit Squad
Janssen, Brian, Head Coach, Track and Field
Jenson, Brian, Assistant Coach, Football
Kopp, Kalee L., Director, Intercollegiate Athletics Administration
Litchfield, Paul, Assistant Coach, Track and Field
Massengale, Lindsey, Assistant Coach, Women’s Soccer
Miller, Drew, Assistant Coach, Football
Molitor, David, Director, Golf
Nakada, Hideki, Assistant Coach, Women’s Soccer
Nielsen, Dave, Head Coach, Track
Newlee, Jon, Head Coach, Women’s Basketball
O’Brien, Joe, Head Coach, Men’s Basketball
Okoh, Jemre, Assistant Coach, Tennis
Orthmann, Mike Assistant Coach, Football
Petersen, Gavin, Associate Head Coach, Women’s Basketball
Poulsen, Jackie, Assistant Coach, Track and Field
Pugmire, Rance, Senior Associate Athletic Director
Rhodes, Rodrick, Assistant Coach, Men’s Basketball
Robinson, Mika, Assistant Coach, Volleyball
Smaha, Ryan, Assistant Coach (Graduate Assistant), Football
Stocking, Larry, Head Coach, Softball
Strandley, Brian, Assistant Coach, Football
Swanson, Steve, Assistant Coach, Men’s Basketball
Tingey, Jeffrey, Acting Athletic Director
Tucker, Lindsay, Assistant Dance Coach
Valeria, Brandon, Assistant Coach, Football
Welch, Michael, Head Coach, Volleyball
Whitworth, Nick, Assistant Coach, Football
Williams, Kaci, Assistant Strength Coach
Wilson, Andrea, Assistant Coach, Softball
Zamberlin, John, Assistant Coach, Football
