Museum Building, 4th Floor, Room 401

Idaho State University subscribes to the principles and laws of the State of Idaho and federal government, including applicable executive orders pertaining to civil rights, and all rights, privileges, and activities of the University are made available without regard to race, creed, color, sex, handicap, or national origin. The University is an Equal Opportunity and Affirmative Action employer. Evidence of practices which are not consistent with such policies should be reported to the Office of the President of the University.

Policy Statement Concerning Graduate Catalog Contents

Catalogs, bulletins, course or fee schedules shall not be considered as binding contracts between Idaho State University and students. The University reserves the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fees schedule; (c) change the academic calendar; (d) change admissions and registration requirements; (e) change the regulations and requirements governing instruction in, and graduation from, the University and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine, and shall apply not only to prospective students but also to those who are matriculated at the time in the University. When economic and other conditions permit, the University tries to provide advance notice of such changes.

Students enrolled in a program that is closed, relocated, or discontinued should be given notice of the closure as soon as is practical. Notwithstanding any other provision of State Board of Education policy, University policy, or University catalog statements to the contrary, arrangements should be made for enrolled students to complete affected programs in a timely manner and with minimum interruptions. When there is no similar program available within the institutions governed by the Board, an affected student will be provided with information on transferring to that program, although admission to any such program is contingent upon the availability of a position and the student meeting all applicable admission requirements. If none is available, the University will make reasonable efforts to assist the student in locating another program at the University or elsewhere for which he or she is qualified.

Postmaster

Postage paid at Pocatello, Idaho. The Idaho State University Graduate School Catalog is published annually; copies are available through the Graduate School, Idaho State University, 921 South 8th Avenue, Mail Stop 8075, Pocatello, Idaho 83209-8075.

Graduate School

Idaho State University Mission Statement
The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Graduate School Mission Statement
The Graduate School at Idaho State University provides quality control for and to the Idaho State University graduate education experience. Our mission is realized through high quality, effective, efficient, and courteous service to individuals and programs involved in graduate education.

Graduate School Vision Statement
The Graduate School at Idaho State University provides and supports exemplary service to its constituents (e.g., prospective and current students, faculty, departments, alumni) by working to increase national and international awareness of the high quality graduate education experience available at Idaho State University, by its positive and proactive response to technological change, and by its commitment to, and advocacy of, rigorous, fair, and consistent support of graduate students and programs.

Graduate School Belief Statement
The Graduate School at Idaho State University believes in:

- a. quality service
- b. integrity
- c. fairness
- d. consistency
- e. courtesy
- f. problem solving
- g. future looking
- h. graduate student advocacy
- i. accuracy
- j. facilitation
- k. communication
- l. life-long learning
- m. individual worth

Admission
Idaho State University invites applications for admission to Graduate School from students holding baccalaureate degrees from any regionally accredited college or university in the United States or with equivalent preparation acquired in another country. Prospective students may apply as degree-seeking or non-degree-seeking students. Non-degree-seeking students include those seeking certification, professional growth, or strengthened backgrounds for various professional and industrial occupations.

Admission Requirements for Doctoral Programs
Admission to doctoral programs varies depending upon the program of study. Potential applicants are encouraged to read the appropriate sections of the Graduate Catalog for individual program variations. Generally, students applying for admission to a doctoral program must hold a master’s degree and must have achieved at least the 50th percentile in one or more of the aptitude sections (Verbal, Quantitative, or Analytical) of the Graduate Record Examination. Doctor of Arts applicants must have an average total GRE placing them in the 50th percentile or above. Please see individual department sections for GPA requirements for doctoral programs.

Admission Requirements for Other Programs (e.g., Master's degrees)
Degree-seeking students must meet the following requirements:

1. A baccalaureate degree from a college or university regionally accredited in the United States or its equivalent from a school in another country.

2. The minimum Master’s level standards are:

<table>
<thead>
<tr>
<th>GPA (last 60 credits)</th>
<th>Standardized Test</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.5 to 4.000</td>
<td>No standardized test (GRE/MAT) required</td>
</tr>
<tr>
<td>3.0 to 3.499</td>
<td>40th Percentile on at least one area of the GRE or 40th Percentile on the MAT</td>
</tr>
<tr>
<td>2.5 to 2.999</td>
<td>Combined Verbal and Quantitative (V+Q) score of 1000 on GRE or 45th Percentile on the MAT</td>
</tr>
</tbody>
</table>

   Below 2.499          | No admission |

The method of calculating an Admission GPA is based on the last 60 semester undergraduate credits (90± quarter credits), using complete semesters (quarters).

3. In instances where a standardized test is required, to register for the GRE, contact either the GRE-ETS, Box 6000, Princeton, New Jersey, 08541-6000, or the ISU Counseling and Testing Center (208)282-2130. To register for the GMAT/MAT, contact the Idaho State University Counseling and Testing Center.

GRE/GMAT/MAT scores are used for other purposes in addition to admission. Most departments/colleges also use these scores as part of the criteria for awarding graduate assistantships, fellowships, or scholarships. Other parts of the campus may also use these scores in the process of awarding scholarships. Students at Idaho State University may take these tests at the Counseling and Testing Center. Special study sessions are available at the University in the Center for Teaching and Learning (208) 282-3662 to aid the student in preparing for the GRE/GMAT.

4. Recommendation for admission by the department or college offering the desired degree program. Please see individual department sections of this catalog for additional requirements.

5. Approval for admission by the Dean of the Graduate School.
The Application Process

The admission process is initiated as follows:

1. Applications for admission may be obtained online (www.isu.edu) or from the Graduate School.

2. Applicants applying as degree-seeking students must request that each institution at which they have taken any post-secondary work submit one official transcript directly to the Graduate School. Idaho State University undergraduate transcripts are available to the Graduate School and need not be forwarded by the applicant. Non-degree seeking applicants must provide a transcript (official or copy) showing proof of degree.

3. Applicants must include a $55 non-refundable processing fee with each application form. The files of students who do not pay the required application fee will not be processed for admission.

4. Some programs require additional information (e.g., letters of recommendation); please contact the specific department and review individual departmental sections of this catalog for additional requirements.

5. Applicants must clearly indicate the desired graduate program on the application form, or if a non-degree-seeking student, the college and department in which the student intends to take courses.

6. GRE/GMAT/MAT may be required for degree-seeking applicants at the discretion of the department.

7. Additional requirements for degree-seeking last semester seniors, and international students are described under those headings on the following pages.

Application Deadlines

Please note that some programs have earlier deadlines than those listed; please contact the program director or department chair for specific details. Priority deadlines for application forms to be completed and returned to the Graduate School are: April 1st for summer semester enrollment; April 1st for fall semester enrollment; and November 15th for spring semester enrollment, or the following Monday should these dates fall on a weekend.

Notification of Admission

Applicants will receive a notification letter from the Graduate School regarding their admission status.

Admission to Graduate School allows a student to enroll in graduate courses in the specified department and college. It does not imply admission to courses in other departments. Only those admitted as degree-seeking students may assume that they are permitted to seek an advanced degree in the discipline/department that approved the admission. Non-degree-seeking students who are admitted are permitted to take graduate courses, but this admission does not imply they will later be approved for admission as a degree-seeking student.

Re-Enrollment or Re-Admission of Graduate Students

Graduate students who have been admitted to Graduate School may enroll for graduate or undergraduate classes by preregistration or registration without further application activity if they enroll within two years from the beginning of the term for which they were accepted. Graduate students who fail to enroll during the two year period, or more restrictive period of the department, must reapply for admission, and pay a processing fee. Students who were not enrolled in the previous term may register for the current term. However, some departments may have more restrictive requirements and admission may be valid for only a particular semester or year. Students should contact departments to determine these more restrictive requirements.

Registration

All applicants who have received notice of admission into Graduate School may preregister during the appropriate preregistration periods or during the regular registration times prior to each semester. On-line registration is available to admitted students. To expedite completion of the registration procedure, all recipients of graduate teaching assistantships, graduate fellowships, and/or scholarships to be applied toward tuition and fees must preregister.

Restricted Registration

Any graduate student receiving a grade of C+ or below in two graduate courses on his or her program of study, or whose GPA falls below 3.0, will automatically be blocked from registering for additional courses. For the block to be removed, the student’s department or college must communicate to the Graduate School in writing its wish to allow the student to continue in the program. Please note that some programs vary in their restrictions with regard to this policy; contact the graduate program director or department chair for specific details.

Continuing Registration for Graduate Students

Graduate students who have registered for one or more credits of master's project, master's paper, master's thesis, or doctoral thesis or dissertation (usually, courses numbered 6650, 6651, 6699, 7750, or 8850) must be registered for at least one graduate credit during subsequent semesters, including each summer semester, until they have completed their degrees. Students who, for compelling reasons, wish to interrupt their work on projects, theses, or dissertations may request, in writing, a leave of absence from the Graduate School.

Graduate students who fail to meet the continuing registration requirement will be judged to have dropped out of their programs and will no longer enjoy access to university resources, including the library and computer facilities. In order to regain access to university resources, students will be required to reapply to the Graduate School and be readmitted. A corollary of this requirement is that a graduate student must be registered for at least one graduate credit in order to take a final oral examination or be processed for graduation. Any student who registers for the required credit and then subsequently drops the credit, will be considered in violation of this policy.

Registration without Permission

Students who register for graduate courses in violation of any restriction printed in the Graduate Catalog or written on their Admission notification, or who register for graduate courses after receiving a letter of dismissal from the department or college that admitted them, will be dropped from these graduate course(s) as soon as the violation is discovered.

Classifications of Degree-Seeking Graduate Students

Classified Status

Graduates of regionally accredited institutions who have earned grade point averages of 2.5 or higher for the last 60 credits taken at the undergraduate level, are eligible, upon submission of official GRE/GMAT/MAT scores
if appropriate, to be admitted to Classified status in graduate master’s programs. Doctoral students must meet individual department GPA and standardized test requirements. See department sections of this catalog for complete information.

The College of Business requires the GMAT. The Department of Counseling and the College of Education accept the MAT in lieu of the GRE. Please see the department sections for this information.

**Classified (with Performance Requirements) [Classified (w/PR)] Status**

Classified (with Performance Requirements) [i.e., Classified (w/PR)] status is a transitional status, and is not a valid status for a student to graduate. In order to graduate, a student must have Classified status (see the following section "Change from Classified (w/PR) to Classified Status").

A department/college may, at its discretion, recommend admission for graduate students in a degree program with Classified (w/PR) status to ascertain their ability to do graduate work within a particular curriculum. Students admitted to Classified (w/PR) status are those who may not have satisfactorily met all admission requirements.

Classified (w/PR) status also may be recommended by a department for students whose credentials do not meet specific departmental requirements.

**NOTE:** Students admitted to Classified (w/PR) status should ascertain their eligibility for federal financial aid. Such students are not eligible to receive Idaho State University graduate assistantships or Non-resident Tuition Waivers (NRTW).

**Change from Classified (w/PR) to Classified Status**

The following criteria must be met by the student before Classified (w/PR) status can be changed to Classified:

1. The student must complete at least nine graduate credits and maintain a 3.0 GPA or higher;
2. If the GRE/GMAT/MAT was not taken by the student prior to admission to Classified (w/PR) status, the student must take the GRE/GMAT/MAT specified in the Admission notification.

Upon completion of the above two criteria, a request to change the student’s status to Classified may be submitted to the Dean of the Graduate School. The following steps must be followed to accomplish this change:

1. At any time after meeting the above criteria, a student may initiate an Approval for Change of Student Status in the Graduate School. The department/college may also initiate the change and should do so by written request when the student has met the required criteria.
2. The change from Classified (w/PR) to Classified status must be approved by the Dean of the Graduate School.

If a student admitted to Classified (w/PR) status fails to meet the conditions for admission stated on the Admission notification the student’s admission may be revoked.

**Admission of International Students**

Applications for admission to Graduate School are processed in the Graduate School. Applications will not be processed until the processing fee has been received.

In addition to the admission requirements listed previously, international students must meet the following conditions:

1. As a step toward obtaining a U.S. visa, international students must submit a financial statement to the Graduate School verifying that they will be able to support themselves financially for a minimum of one year while attending Idaho State University. This document must consist of a statement or letter from a bank indicating that funds are available and accessible. The amount of money available to the student must be listed on the financial statement. A graduate assistantship or fellowship awarded by a department or college may be used as part of this amount.
2. International students who have not graduated from an accredited college or university in the United States and whose native language is not English, normally must achieve satisfactory scores on the Test of English as a Foreign Language (TOEFL) or on the International English Language Testing System (IELTS). Satisfactory TOEFL requirements for Classified admission are: (1) **Internet-based test (iBT):** a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) **Computer-based test:** a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) **Paper-based test:** a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test. Information about the TOEFL, including test dates and locations in international countries, can be obtained from Educational Testing Service (ETS) at www.ets.org. Satisfactory IELTS performance for Classified admission include scoring 6.5 or higher on the total band score. Graduate assistants who teach courses must score 6.5 or above on the speaking test component. An international student may also meet the English language proficiency requirement by achieving a Level 112 from an ELS Language Center. PHOTOCOPIES OF TOEFL OR IELTS SCORES WILL NOT BE ACCEPTED.
3. International students may not enter the United States for graduate study without a U.S. Immigration (I-20) form. This form will be issued by the International Program Office after the student is approved for admission by the Dean of the Graduate School. International students are urged to remain in their own countries until they receive notice of acceptance.
4. International students transferring from a school within the United States must be “IN STATUS” with Immigration and Naturalization Services to be issued an I-20 form from Idaho State University. A transfer form will be sent after the application has been received, to be completed as verification of acceptable immigration status.

If you have questions or need additional information, please contact the Graduate School at (208)282-2270, FAX number (208)282-4847.

**Unclassified (Non-degree Seeking Students) Status**

Individuals holding a bachelor’s degree who desire to take courses for graduate credit for personal or professional enrichment but who do not want to pursue a graduate degree are eligible to apply for admission to Unclassified (non-degree seeking) status. Students who are admitted to Unclassified status are allowed to register for a maximum of 9 graduate credits per semester. Since an Unclassified status student is not seeking a degree, course and/or
program advising, except on an informal basis if requested, will not be provided.

**Admission Requirements for Unclassified (Non-Degree seeking) students**

Individuals who apply for Unclassified status admission must submit the following information and meet the following requirements:

1. A baccalaureate degree, or higher, from a regionally accredited educational institution in the United States, or the equivalent from an educational institution in another country.
2. A copy of a transcript indicating that a baccalaureate degree, or higher, was awarded, including the date the degree was awarded.
3. Meet the following Grade Point Average (GPA) requirement: An earned grade point average (GPA) of 2.50 or higher on all undergraduate courses taken during the last 60 ± undergraduate semester credits (90 ± quarter credits), regardless of the institution at which the credits were earned. This GPA may be different from the final transcript GPA and/or different from the GPA on all upper-division credits. In the case of those students who have not completed the baccalaureate degree, the GPA will be calculated on the last 60 credits at the time of application.
4. A properly completed application form.
5. A $25.00 non-refundable application fee that will not be waived.

Academic departments may have additional requirements and/or may restrict enrollment of Unclassified graduate students to specific courses. Unclassified graduate students must meet all prerequisites for each class in which they want to enroll.

If an Unclassified student wishes to pursue a graduate degree at Idaho State University, the student must (1) meet the requirements for admission as a Classified student, and (2) complete all aspects of the Classified status application procedure for a specific degree program, detailed under "Admission" in the first part of the Graduate Catalog, including submission of official transcript(s) and payment of the classified application processing fee (the amount paid for Unclassified application will not apply for Classified application).

After admission as a Classified student, students may petition the Dean of the Graduate School to transfer course work taken while in Unclassified status to a degree program. This petition must have the written support of the degree program for each course. The total number of such credits transferred shall not be more than 30% of the total credits for the program of study required for the particular degree.

**Admission of Last-Semester Seniors**

Seniors in residence at Idaho State University may register for no more than 6 graduate credits during the semester or summer session in which they will complete the work for a bachelor’s degree at Idaho State University. This option is reserved for outstanding seniors who are seriously considering attending Idaho State University for graduate education. This registration must be approved by the course instructor, by the student’s advisor, and the department chairperson. ONLY COURSES NUMBERED 5500-5599 MAY BE TAKEN WITH THIS OPTION.

If a senior admitted to graduate study under this provision fails to complete graduation requirements for a bachelor’s degree, all graduate credits earned revert to undergraduate credit. The student’s load, including both graduate and undergraduate credit, may not exceed 16 credits, or 9 credits in the case of summer school. A senior selecting this option must file an Application for Admission with the Graduate School when he/she requests permission to take graduate level courses. Application deadlines for admission of last-semester seniors are the same as those for degree-seeking graduate students.

PharmD students may apply and be admitted to the Graduate School after completing 120 credits if they meet all application requirements.

**Admission Requirements for Professional Development Students - K-12 Teachers (5597 Courses)**

The Graduate School recognizes the need for K-12 teachers certified in Idaho to improve their professional capabilities. In most cases, the courses can be taken in a compressed time period. These types of courses are “advanced” with respect to the students who enroll, but are not usually courses that a particular discipline offers to a student with the goal of earning an advanced degree. Therefore, professional development courses are offered by many departments to meet the perceived need and are treated differently in the following respects:

1. Students may enroll in professional development courses offered under the 5597 number without the necessity of being admitted to Graduate School.
2. The credits earned will not count toward an advanced degree nor may they be petitioned to count at a later date.
3. There is no limit to the number of 5597 credits that a student may earn.
4. All instructors of 5597 courses must have an advanced degree.
5. For each 5597 course in which students enroll, students must certify that they possess a baccalaureate degree and agree to the conditions by which they are permitted to register for the course.
6. Students who have not been admitted previously to Graduate School at Idaho State University will be listed as Unclassified, Master’s, Professional Development students. They will not be permitted to register for any graduate level courses except 5597 courses, unless they apply for admission and are accepted into the Graduate School.
7. Students who have been admitted into the Graduate School are permitted to take 5597 courses.
8. Departments shall determine if and when professional development courses are to be offered with their prefix.

**Admission Requirements for Professional Development Students (5598P Courses)**

The Graduate School recognizes the need for individuals to improve their professional capabilities. In most cases, the courses can be taken in a compressed time period. These types of courses are “advanced” with respect to the students who enroll, but are not usually courses that a particular discipline offers to a student with the goal of earning an advanced degree. Therefore, professional development courses are offered by many departments to meet the perceived need and are treated differently in the following respects:

1. Students may enroll in professional development courses offered under the 5598P number without the necessity of being admitted to Graduate School. However, they must hold a baccalaureate degree from an accredited institution at the time they enter the class or receive special permission from the Dean of the Graduate School if they are last semester seniors at Idaho State University.
2. The credits earned will not count toward an advanced degree unless a petition is filed within three years of the last day of the course. The petition must have the following documentation: (1) A copy of the instructor’s curriculum vitae, (2) A copy of the course syllabus (including a list of achievement measures), (3) A copy of the class list (with grades). (The Office of Academic Support, Idaho State University Summer Programs, the Office of Continuing Education, and/or the department or college offering the course will provide materials not otherwise available to the student).

3. While there is no limit to the number of 5598P credits that a student may earn, a maximum of three credits may be petitioned for use to satisfy elective credits in the student’s program of study. 5598P courses may not be substituted for "required" courses.

4. All instructors of 5598P courses must have an advanced degree.

5. For each 5598P course in which students enroll, students must certify that they possess a baccalaureate degree and agree to the conditions by which they are permitted to register for the course.

6. Students who have not been admitted previously to Graduate School at Idaho State University will be listed as Unclassified, Master’s, Professional Development students. They will not be permitted to register for any graduate level courses except 5598P courses, unless they apply for admission and are accepted into the Graduate School.

7. Students who have been admitted into the Graduate School are permitted to take 5598P courses. If they desire to use 5598P credits in their degree program, a petition must be filed for each course in accordance with the procedures described.

8. Departments shall determine if and when professional development courses are to be offered with their prefix.

Activities Instructors May Require to Meet the “Additional Work” Requirement to Receive Graduate Credit in Those Courses Offered as 55xx:

The Graduate School expects instructors to require specific work to be done in a graduate level course to justify graduate credit being given. This expectation is particularly true for courses that may be used to count toward a degree. For students to receive graduate credit in those courses designated at the 55xx level, specific and evaluated activities and performances must be identified in the course syllabus. Below is a suggested list of activities that an instructor might use to meet this requirement.

1. An additional scholarly activity such as:
   a. integrative term paper(s);
   b. substantive report(s) that may be one of the following: survey, analysis and report; laboratory investigation and report; library research and report;
   c. participation in a significant regional or national meeting (e.g., poster session, panel discussion, paper presentation).

2. Classroom activities that are beyond those required of undergraduates and are evaluated:
   a. special presentation of some subject;
   b. provision of leadership on discussion of some significant topic in the classroom;
   c. any other classroom activity that is evaluated and not required of undergraduates.

3. Examinations: Special examinations that are different from those given to undergraduates and are more demanding than those given to undergraduates. Such exams should be those that require greater performance at the higher cognitive level such as interpretation, synthesis, and evaluation.

Credits

For a master’s degree, a minimum of 30 credits in approved course work, including thesis credits if required, must be completed. Except in the cases of the M.N.S., M.A.M.S.T., and M.P.A. degrees, a master’s degree student must complete at least fifteen 6600-level credits. Credit requirements for doctoral degrees vary by program.

A credit hour in graduate courses requires:

1. 50 minutes in class each week for 16 weeks (or equivalent in summer sessions and in courses offered in special formats), or

2. Approximately two and one-half hours in laboratory work each week for 16 weeks (or equivalent).

Students who, because of exceptional circumstances, want to take more than the maximum number of credits, must request permission in writing from the Dean of the Graduate School. They must also have support in writing from the graduate program director or chairperson of their department.

Thesis or dissertation credits are not awarded to the student until after completion and final approval by the examining committee. At this time, the advisor reports a grade of S or U for all previous thesis registrations. The student may register for thesis credits any semester she/he is enrolled as a degree-seeking student, subject to the approval of the department chair or program director, but the letters IP (in progress) are recorded on the transcript in place of a grade for all such registrants until final approval is obtained. Usually thesis credits are limited to 6 that can count toward a degree on a Master’s level program of study.

Semester Credit Limits

The maximum number of credits obtainable in a semester is 16, including courses taken at the undergraduate level. In a summer semester, a student may earn a number of credits equal to the number of weeks enrolled plus two, and the total number of summer semester credits may not exceed 12 (e.g., a student taking classes for eight weeks may earn up to 10 credits). Graduate Assistants may register for no more than 12 credits per semester.
Grading

A 3.0 GPA for the courses listed on the program of study is required for any graduate degree or certification at Idaho State University. A grade of C+ or lower indicates questionable performance at the graduate level. However, some departments may accept a C+ grade in one or two courses as long as the minimum overall 3.0 GPA is maintained. C+ or lower grades may cause departments/colleges to dismiss students from a graduate degree program. (See section entitled Restricted to dismiss students from a graduate degree lower grades may cause departments/colleges to dismiss students from a graduate degree program. See section entitled Restricted to dismiss students from a graduate degree lower grades may cause departments/colleges to dismiss students from a graduate degree program. However, some departments may accept a C+ grade.

Idaho State University uses a graduated letter grading system to indicate the instructor's evaluation of a student's performance in a course. These letter grades are converted to a numerical value for computing a student's semester and cumulative grade point averages. At the beginning of each course, an instructor should inform students of the criteria to be used in evaluating their performance through the class syllabus or other written means.

The grade of A is the highest possible grade; grades of D+ or lower will not be allowed for graduate work. Plus (+) or minus (-) symbols are used to indicate grades that fall above or below the letter grades. The grades of A+, F+, and F- are not used. A student's work is rated in accordance with the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Numerical Value</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
<td>Excellent performance</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
<td>Good performance</td>

</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Unacceptable performance</td>
</tr>
</tbody>
</table>

Courses in which A, A-, B+, B, or B- grades are earned are acceptable toward a graduate program and graduation requirements, unless specifically excluded for a particular course, program, or degree. Courses in which C+, C, or C- grades are earned might be used toward program and graduation requirements in some programs; two such grades will place the student on semester-by-semester review. Grades of D+, D, D-, or F may not be used to satisfy graduation requirements. No credits are awarded for any course in which an F grade is earned.

All thesis and dissertation credits and some research courses are graded on a satisfactory (S) or unsatisfactory (U) basis. Departments/colleges may grade additional graduate courses with the S/U system with approval of the Graduate Council. IP (in progress) grades may be given for those students who have initiated but not completed their thesis, dissertation, or research work. No graduate courses will be offered on a Pass/No Pass (P/NP) basis.

For “IP” (in progress) courses, instructors are responsible for processing a Change of Grade after the completion of all relevant course work. In the case of thesis and dissertation work, there may be multiple IP credits to be changed once the thesis/dissertation has been completed and fully approved.

As noted elsewhere in the Catalog, “I” (Incomplete) grades must be completed and the Change of Grade processed by the instructor within one calendar year of the awarding of the incomplete. Failure to change the “I” grade within this time period will result in the “I” grade becoming permanent.

For letter graded courses, prefixes, titles, and level (e.g., 4400/5500) are transcribed as originally registered once the semester is closed (i.e., the end of the semester within which the course was first registered for by the student). An example: A graduate student mistakenly registers for course ABC4400 for the Fall 2020 semester. During that semester a petition request to change the ABC4400 registration to ABC5500 (i.e., drop ABC 4400 and add ABC5500) may be submitted for consideration. However, once the Fall 2020 semester has concluded, the ABC4400 course cannot be changed.

With permission of the relevant department, students may repeat a course in which they received a grade lower than an A. In such cases, the last grade received shall be the grade used in the calculation of the program of study GPA.

Incomplete Grades

An Incomplete grade (I) may be awarded at midterm or semester end. At midterm, an Incomplete indicates the student, through illness or other excusable absence, has missed so much work the instructor cannot assign a regular grade. An Incomplete grade at midterm is not a final grade. An Incomplete grade may, at the option of the instructor, be given at the end of the semester only when a student has satisfactory performance within three weeks of the end-of-semester examination period.

The instructor must submit a Course Completion Contract along with the grade report for that class. The Course Completion Contract must be signed by the student and the instructor stipulating the assignment(s) required to finish the course within the allowable time period. A copy of the Contract is to be given to the student, a copy retained by the instructor, a copy sent to the Graduate School, and the original sent to the Registrar’s Office.

Incomplete work must be completed within one (1) calendar year from the date such grade is given, but an instructor could specify a shorter time period. A change of grade must be submitted by the faculty member or the Incomplete will become permanent.

To receive credit for a course in which an Incomplete grade has become permanent, the entire course must be repeated.

Petitions to deviate from the incomplete grade policy will not be allowed except under extraordinary circumstances (e.g., serious, long-term illness).

Transfer of Credits

Master’s Degrees

All graduate credits must be earned as Idaho State University resident credits except for the following:

In all master's degree programs a total of 9 semester credits may be transferred from an accredited institution. Transfer of credits from an accredited institution is acceptable only if the courses are specifically approved by the Graduate School and the academic department of Idaho State University when the final program of study is submitted. In these instances, only the credit hours transfer, not the grades.

Official transcripts to be used for transfer of credits in a degree program must be received by the Graduate School before application for a degree will be approved.

Intra-institutional Transfer

Transfer of Credits from Unclassified to Classified Status: Students may petition the Dean of the Graduate School to transfer course work taken while admitted to Unclassified status to a degree program. The total number shall not be more than 30% of the credits of the program of study required of each student for the degree.

Transfer of Credits from One Program to Another

There are no limits to the number of credits that may be applied toward a master’s degree pro-
gram or certificate program that were originally earned in a different degree program if:

1. the student was not awarded a degree in the original program, and
2. the department approves the transfer of such credits and the courses taken meet the requirements for the degree approved by the Graduate Council.

There are no limitations with respect to electives that exceed the requirement for the degree.

Departments and/or colleges may allow students to apply up to 9 semester credits earned at Idaho State University to two master’s degrees with Graduate School approval.

**Doctoral Programs**

Departments may accept credits by transfer in total or in part from a master’s degree earned at Idaho State University or at another accredited institution regardless of age of the courses. See section on “Time Limits” for further discussion of this policy.

**Residency Credits**

All credits that are to be applied to an advanced degree must be earned as resident credits or accepted for transfer as described in the Transfer of Credits section. Resident credits are those earned through the main Idaho State University campus, the Idaho State University-Idaho Falls campus, the Idaho State University-Meridian campus, and/or the Idaho State University-Twin Falls campus.

Courses approved by the Graduate Council and taught solely by approved faculty of Idaho State University at other sites in the state may be accepted as resident credit.

**Time Limits**

**Master’s and Educational Specialist Degrees**

All requirements for a master’s degree (except the MBA degree) or educational specialist degree must be completed within 8 years preceding the student’s graduation. An extension of time may be obtained for good cause with the approval of the Graduate Council (file petition through the Graduate School).

The time limit for the MBA degree is 5 years for any course used to meet MBA II, elective, or emphasis area graduation requirements. Please refer to the College of Business section of this catalog.

**Doctoral Degrees**

The doctorate is a research or performance degree and signifies that the holder has the competence to function independently at the highest level of endeavor in the chosen profession. Hence, the number of years involved in attaining or retaining competency cannot be readily specified. Rather, it is important that the doctoral student’s competency be assessed and verified in a reasonable period of time prior to conferment of the degree.

The comprehensive examination is the method of assessing whether the student has attained sufficient knowledge of the discipline and supporting fields in order to undertake independent research or practice. It is expected that the examination will occur after all course work has been completed and language or other requirements satisfied, and that it consists of a series of examinations covering all areas specified in the program of study.

Because the comprehensive examination attests to the academic competence of the student who is about to become an independent researcher or practitioner, the examination should not precede the awarding of the degree by too long a period of time. Consequently, doctoral candidates are allowed no more than 5 years in which to complete remaining degree requirements. In the event a student fails to complete the doctorate within 5 years after passing the comprehensive examination, an extension of time can be obtained by:

1. The student getting a specified set of requirements from the student’s committee that states in writing what must be done to make the candidate up-to-date in the discipline. These new requirements for obtaining an extension may include the necessity to repeat parts or all of the comprehensive examination;

2. The student must then submit a petition to the Graduate Council for the extension and provide the written documents showing the additional requirements established by the student’s committee justifying the requested extension.

**Out-of-Date Credits**

All credits applied to a master’s degree or to an educational specialist degree must have been taken within 8 years immediately prior to granting of the degree unless it can be shown that the course work taken more than 8 years earlier covers material that has not changed substantially during the intervening time or that the student has been able to remain current in the topics covered in the course. Evidence that the older course work is still appropriate must be supported and approved in writing by the student's advisor and department chair, and submitted with a petition to the Dean of the Graduate School.

**Advisors & Examining Committees**

All Examining Committees shall consist of an odd number of members. These members normally must be members of the Graduate Faculty and approved by the Dean of the Graduate School. Appointments to Examining Committees of non-faculty members or of faculty members not on the Graduate Faculty must be approved by the Dean of the Graduate School. A listing of Graduate Faculty is contained in this catalog.

Usually, when a student is admitted to graduate school, a temporary advisor is assigned. In some cases, the department chairperson or graduate program director serves in this capacity for all incoming graduate students. Following departmental procedures and regulations, a permanent advisor who will be responsible for helping the student to finalize the program of study is then selected.

For most degree options, a second member is selected from the student’s department to serve on the examining committee with final approval by the Dean of the Graduate School. In some programs of study, more than one departmental faculty member, in addition to the advisor, serves on the examining committee.

A third member of the examining committee, called the Graduate Faculty Representative (GFR), is approved by the Dean of the Graduate School. The GFR must be a current member of the Graduate Faculty and may not be selected from a separate discipline within a yoked department. The GFR is the representative of the Graduate School on the examining committee and is responsible for reporting the results of graduate examinations to the Dean of the Graduate School. The Graduate School welcomes suggestions from the student or department regarding candidates for the GFR.

**Conflict of Interest of Graduate Faculty**

Faculty are expected to exclude themselves from evaluation of graduate students with regard to whom impartiality may be jeopar-
Program of Study, Candidacy, Application for a Degree

Program of Study
A Program of Study must be submitted to and approved by the Graduate School by the third week of the semester in which a student intends to graduate. The Program of Study will list all requirements that must be completed in order to receive the degree or certificate.

If the requirements for the degree or certificate being sought change during a student’s program, the student is entitled to follow those requirements in effect at the time of admission, or the student may elect to follow the new requirements.

Candidacy for Doctoral Degrees
Admission to candidacy for doctoral degrees occurs only after the student has passed a preliminary examination that is usually administered early in the program, or when substantially all course work has been completed.

Students seeking doctoral degrees must submit a Program of Study to the Graduate School upon completion of examinations, but no later than the third week of the semester in which they intend to graduate. The Program of Study lists all requirements that must be completed in order to receive the doctoral degree.

Application for a Degree
Within the first three (3) weeks of the fall or spring semester in which the student expects to complete work for the degree, or the last day of the spring semester for completion during the summer semester, an application for graduation must be filed with the Graduate School.

The application and a diploma fee of $20 must be paid at this time. If the student does not complete requirements during this semester, an updated application must be submitted for the subsequent semester and a $20 reprocessing fee paid to the Graduate School.

Degree applicants must submit all official transcripts before applying for a degree. Official transcripts to be used for transfer of credits into a degree program must be received before the application for a degree will be processed.

Applications for degrees will not be processed without the prior approval of a Program of Study.

Examinations
All graduate students are required to complete a final examination. Final examinations are scheduled by departments after receiving approval of the student's program of study and reported to the Graduate School.

All examinations must be completed at least two weeks before the end of the semester in which the student plans to graduate. All graduate requirements must be completed prior to or at the end of the semester during which final examinations are held.

Students writing theses/dissertations/DA scholarly activities are given final oral examinations. Others are usually given both written and oral examinations.

Oral examinations are open to all members of the Graduate Faculty as observers. Oral examinations are not open to non-Graduate Faculty without permission of the advisor and the Dean of the Graduate School. When students are required to make presentations as part of the examination process, these presentations will be advertised, and they will be open to the public.

Following the oral exam, the committee meets in closed session to determine the outcome of the examination. The student passes the exam if a majority of the committee so votes. Otherwise, the student fails the exam. For students failing the oral exam, the Graduate School allows one re-examination. This re-examination is to take place during the subsequent three (3) semesters unless otherwise approved by the Graduate School. If the academic unit involved has a formal re-examination policy that is more stringent, that policy supersedes the Graduate School re-examination policy.

If the candidate’s program requires a thesis/dissertation/DA scholarly activity, copies in substantially final form shall be in the hands of the examining committee at least two (2) weeks before the date scheduled for the oral examination. Oral examinations are to be held at least two (2) weeks prior to the date of graduation. If any committee member questions the adequacy of the substance or form of the thesis/dissertation/DA scholarly activity, the student must re-examine. If the candidate fails the re-examination, that policy supersedes the Graduate School re-examination policy.

If the academic unit involved has a formal re-examination policy that is more stringent, that policy supersedes the Graduate School re-examination policy.

The major advisor is responsible for reporting a grade to the Registrar (using a Change of Grade) for all prior thesis/dissertation/DA scholarly activity registrations of the candidate when the document has been approved by the examining committee.

After the successful defense of a thesis/dissertation/DA scholarly activity, the student must submit all appropriate documents to the Graduate School within two weeks. Failure to do so may delay graduation. If the required documents are not submitted within one year, the Dean of the Graduate School may declare the defense void and require that it be repeated.
A manual with detailed instruction for thesis/dissertation/DA scholarly activity preparation and clearance (Instructions for Preparing Theses, Dissertations, DA Papers, and Professional Projects) is available on the Graduate School website or from the Graduate School.

If the candidate’s program requires no thesis/dissertation/DA scholarly activity, the department or college is responsible for having a written examination on the degree program prepared and administered. If the student’s performance is judged to be satisfactory or if it is determined that deficiencies may be cleared up during the oral examination, the examining committee conducts the oral examination on the scheduled date. Otherwise, the student may be expected to complete subsequent requirements before the oral examination is held. All oral examinations must be completed at least two (2) weeks prior to the date of graduation.

Petitions

A student may petition the Dean of the Graduate School for exceptions to the rules and procedures stated in the Graduate Catalog or for consideration of problems not covered by the stated procedures. Petition forms for graduate students are available only from the Graduate School; undergraduate petition forms will not be accepted.

A student may use the petition form to request:

1. withdrawal from courses after the deadline for withdrawal as stated in the University Calendar;
2. use of credits more than eight (8) years old to count towards a master’s degree;
3. transfer of credits from unclassified to classified status;
4. transfer of more than nine credits from another institution to a master’s degree program at Idaho State University;
5. an extension of the maximum time (eight years) allowed for completion of a master’s degree or educational specialist certificate;
6. an extension of the maximum time (five years) allowed for completion of a doctoral degree after comprehensive examinations have been passed;
7. correction of errors or inaccuracies on the student’s official transcript;
8. any other deviation from Graduate School policy listed in this catalog.

Petition forms may not be used for:

1. appeals of a grade or of dismissal from a program. See the section on "Appeals and Dismissals" in this Catalog;
2. substitutions of courses within degree requirements or waivers of degree requirements. Exceptions to degree requirements are requested as a part of the approval process for the Program of Study.

Drop or Withdrawal

Students may voluntarily drop graduate courses until the official drop date listed in the University Calendar. Dropped classes will not appear on a student's transcript. After the official drop date, students may withdraw from a course(s) prior to the withdrawal deadline with a "W" appearing on the transcript. To withdraw from a course or courses, students must provide a written request using a Graduate School Petition. Students wishing to withdraw from graduate courses or a graduate program after the official withdrawal date must obtain approval from their professors, program/department chair, and the Dean of the Graduate School. Voluntary withdrawal from a graduate program during an appeal of dismissal automatically terminates the appeals process.

Appeals and Dismissals

Appeal of a Grade

A grade appeal is not designed to evaluate general teaching effectiveness, but rather to determine whether a student was treated in an arbitrary and/or capricious manner by the instructor in regard to a final grade.

Graduate students who wish to appeal final grades must use the following procedural format. Appeal of a grade must be made within one semester following the posting of the grade. Grades earned in the spring semester, that are to be appealed, need not be appealed during the summer, but the appeal process must be initiated in the following fall semester. Documentation of the appeal must be sent to the Graduate School to be placed in the student's file. The Graduate School encourages resolution of appeals at the lowest possible level. Faculty members who are overruled in the appeal process are entitled to the same sequence of appeal as the graduate student.

Midterm grades are not official and may not be formally appealed. Students who wish redress for midterm grades should discuss the grade with the instructor of the course in order to determine a course of action leading up to the final grade.

When a grade appeal involves plagiarism, cheating, or other academic dishonesty, please also refer to the "Academic Dishonesty" section of the Graduate Catalog.

Procedures for the Appeal of a Grade

After each step in the procedures for the appeal of a grade, all written appeal request and decision statements must be copied to all involved parties (e.g., the student, the instructor, the department chair, the Dean of the academic college).

Step 1: The Instructor of the Course

When a student receives a grade that is judged by that student to be unjustifiably low, normally the first step in the appeal process is to discuss the matter with the instructor of the course. This is an informal meeting to attempt to resolve the issue. If the instructor agrees with the student, the grade is changed using standard procedures. If the instructor supports the original decision, the student may file a formal appeal. The student must prepare a formal written statement in accordance with the format presented in the "Protocol for Appealing a Grade," which is described in the next section. The original of this statement is given to the department chair, and a copy is given to the instructor. In response, the instructor must prepare a written statement explaining the reasons for the grade and submit that statement to the department chair with a copy to the student.

Step 2: The Department Chair

The chair of the department in which the appealed grade was received is charged with reviewing the student’s and the instructor’s written statements. The chair may also interview the student and the instructor, and may conduct whatever additional investigation deemed appropriate to help in the decision-making process. The chair must render a decision within 15 working days of receipt of the student’s appeal documents.

If the chair sustains the decision of the instructor, the appeal may be taken by the student to the Dean of the academic college. If the chair disagrees with the instructor’s decision, the chair must forward all appeal documents to the Dean of the academic college. Regardless of the decision, the chair must prepare and...
submit to the Dean of the academic college, a written statement that explains the reason for her/his decision with a copy to the instructor and the student.

**Step 3: The Dean of the Academic College**

The Dean of the academic college is next in the formal appeal process. The Dean’s first charge is to appoint an impartial committee of graduate faculty members to review all documentation pertaining to the appeal. The Dean will provide copies of all documentation to the committee. In addition to reviewing these documents, the committee should interview both the student and the instructor and may conduct any other investigation deemed necessary. The committee, which is advisory to the Dean, must submit a written statement of its recommendation to the Dean. The Dean should review all documents and recommendations and may interview the student, the instructor, department chair, and conduct any other investigation deemed necessary. The Dean’s decision is to be tendered in writing, and addressed to the student, sent by certified mail (return receipt requested) with copies to the instructor, department chair and chair of the impartial committee. The committee’s deliberation and the Dean’s decision must be completed within 30 working days of receipt of the student’s appeal in the Dean’s office. If the decision of the Dean is rejected by the student, the appeal may be taken by the student to the Graduate Council.

**Step 4: The Graduate Council via the Dean of the Graduate School**

At the request of the student, the Graduate Council will review all appeal documentation and respond within 30 working days of receipt of the student’s appeal. The Graduate Council may interview the student and instructor and carry out any other investigation deemed necessary. Once the decision is made, it is final and will be communicated by the Dean of the Graduate School.

**Step 5: Change of Grade Within the Specific College (instructor, department chair, dean)**

At any stage where the appeal process is concluded, the last appeal level will process a change of grade, if appropriate, using standard procedures upon receipt of Council’s appeal decision correspondence.

**Protocol for Appealing a Grade**

Protocol for appeal of a grade must include the student’s name, department/college, date of the appeal, course title and number, instructor’s name, and grade received in the course. Also included must be the student’s rationale for appeal of the grade. The student should state as succinctly as possible the reasons for making the appeal. The student must also state the remedy he/she is seeking.

**Dismissals**

**Dismissal Policy**

A graduate student may be dismissed from a graduate program by a department/college according to the following criteria:

1. If the student receives two or more grades of C+ or below, or
2. If the student fails to meet the continuation standards of the department (including conditions stated in the Admission letter), or
3. If it is the academic judgment of two-thirds of the graduate faculty in the department that the student is not making satisfactory progress in the program, and such judgment is recorded by formal vote.

In all cases the student must be notified in writing by certified mail, return receipt requested, that he/she is dismissed and must be told in the document that he/she has the right of appeal according to the Idaho State University Graduate Catalog. The student should be given a copy of the Graduate Catalog, appropriate catalog pages, or notified that the Catalog is available online or in the Graduate School.

All dismissal communications are to be copied to the department chair, Dean of the academic college, and Dean of the Graduate School.

Students receiving letters of dismissal will automatically be dropped from all graduate courses in the program from which they are being dismissed, regardless of whether they choose to appeal; fees will be refunded in accordance with university policy. A "W" grade will then be entered on the transcript for all graduate courses not completed. Students receiving dismissal letters after the 10th day of classes may petition the Dean of the Graduate School for permission to complete the graduate courses in which they are enrolled. Students who appeal the dismissal will be blocked from registration for additional graduate courses during the appeals process. See "Procedures for the Appeal of Dismissal from a Graduate Program" for specific procedures.

The initiation of the appeal of the dismissal must occur within 15 working days of the notification of the dismissal, unless the student is appealing dismissal due to receiving two or more grades of C+ or below. In that case, the student may wish to appeal one or more grades before beginning appeal of dismissal (see "Appeal of a Grade" section). If the grade is upheld, and the student now wishes to appeal the dismissal, the student must begin the appeal of dismissal within 15 working days of receipt of the notification of the decision of the grade appeal. If the grade is changed to a B- or above, and the student no longer has two or more grades of C+ or below, the dismissal will be cancelled by the department/college. However, if the dismissal is based on Items 2 or 3, previously listed, the dismissal proceedings may continue. The Graduate School encourages resolution of appeals at the lowest possible level. When a dismissal involves plagiarism, cheating, or other academic dishonesty, please refer to the "Academic Dishonesty" section of the Graduate Catalog.

**Procedures for the Appeal of Dismissal from a Graduate Program**

At each level appeal decisions are to be communicated in writing and addressed to the student, sent by certified mail (return receipt requested), and copied to all appropriate level decision persons, and the Graduate School.

**Step 1: The Departmental Level**

1. The student must request reconsideration in writing using the "Protocol for Appealing Dismissal from a Graduate Program," which is described in the next section.

2. A majority of the graduate faculty of the department must meet within 15 working days of the filed appeal and must decide by a 2/3 vote of those present to sustain the dismissal, or the dismissal is revoked. If necessary, the meeting of the graduate faculty may include those participating by telephone, email, or video conference. Should it prove impossible during the summer to convene a majority of the graduate faculty, the department chair/program director is required to assemble
General Information

Step 2: The Dean of the Academic College

1. If the student appeals to the Dean of the academic college, then the Dean should review all documents and recommendations and may interview the student, the instructor, department chair, and conduct any other investigation deemed necessary. The Dean must consider the appeal within 30 working days of the student’s filed appeal and must decide to either revoke or sustain the dismissal.

2. Dean Overrules Dismissal. If the dismissal is revoked, the Dean must state in writing the reasons for the overrule and notify the student, the department chair, and the Dean of the Graduate School, and the student shall be reinstated using standard procedures. The graduate faculty of the department may appeal the Dean’s decision to the Graduate Council following the appeal steps listed in this policy.

3. Dean Sustains Dismissal. If the Dean sustains the decision to dismiss, he/she must notify in writing the student, the department chair, and the Dean of the Graduate School.

Step 3: The Graduate Council via the Dean of the Graduate School

1. The student may appeal to the Graduate Council if the Dean of the academic college sustains the dismissal. The student must appeal to the Graduate Council within 15 working days of receipt of the notification of the dean’s decision. This appeal must be in writing.

2. The Graduate Council must consider the appeal within 30 working days of receipt of the student’s appeal. This appeal should include copies of all appeal documents.

3. The Graduate Council may interview the student, graduate faculty, and Dean of the academic college, and conduct any other investigation deemed necessary. The student may have an advisor present during Council’s interview, but this person shall not act in a legal capacity (these are not legal proceedings) and may not address the Council.

4. The Council’s decision to revoke or sustain the dismissal is final.

5. In instances where the appeal is resolved at the Graduate Council level, the Council’s decision is communicated in writing, by the Dean of the Graduate School to the student, and copied to the Dean of the academic college and the department chair.

6. The Council’s decision, with all other documentation, will be kept in the student’s file in the Graduate School.

7. If the decision is to revoke the dismissal, the Dean of the Graduate School will reinstate the student in the program.

Protocol for Appealing Dismissal from a Graduate Program

Protocol for appeal of dismissal from a graduate program must include the student’s name, department/college, and date of the appeal. Also, to be included is the rationale for appeal of the dismissal. The student should state as succinctly as possible the reason for making the appeal. The student must also state the remedy he/she is seeking.

Academic Dishonesty

Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program.

When a faculty member suspects a graduate student of academic dishonesty, the instructor should present the evidence to the student and consider the student’s response. If the instructor concludes after consultation with the student that academic dishonesty occurred, the instructor writes a letter to the chair of the department in which the student is seeking a graduate degree, describing the incident. The instructor should include with the letter any evidence used to draw the conclusion that academic dishonesty has occurred (e.g., copies of the student’s written assignment, copies of documents thought to have been plagiarized, etc.), and should state clearly the penalty imposed within the course itself. The penalty should be in proportion to the severity of the offense. If the penalty is to be a failing grade, the instructor should first consult with the chair of the department, and the chair should meet jointly with the student and faculty member to review the incident. The student may appeal the penalty by following the procedures in the Graduate Catalog entitled “Appeal of a Grade.”

The chair of the department should send a copy of the instructor’s letter reporting the offense, along with any evidence submitted to the chair, to the student, to the Dean of the academic college in which the student is seeking a graduate degree, and to the Dean of the Graduate School. A copy of the letter is to be placed in the student’s file in the department and in the Graduate School. If the student’s appeal is upheld, the letter and all other records of the accusation of academic dishonesty are to be deleted from the student’s files.

Graduate Student Participation in Classified or Proprietary Research

The Graduate School affirms the policy regarding the participation of graduate students in classified or proprietary research as it is stated in the Idaho State University Patent Policy. “Idaho State University shall only make agreements with third parties which will not inhibit a student’s timely completion of a course of study or degree.” This statement shall be interpreted to mean that students must not be delayed in their program of study up to and including the awarding of the degree and that placement of
the finished thesis or dissertation in the library for public access may not be delayed longer than six months.

**Interdisciplinary Degrees**

Idaho State University offers students the opportunity to pursue an interdisciplinary master’s degree (M.A., M.S., M.N.S., M.Ed.). The degree sought and the field appearing first in the title of the program will be that of the department providing the major portion of the graduate credits. Other fields in the title will be secondary fields of concentration.

The requirements include: completion of a minimum of 30 credit hours with a minimum of 10 credits in each of the departments participating. Students must be admitted into such a program by each department that participates. Students must contact each department contemplated to be involved prior to initiating the development of an interdisciplinary program.

Although students must take at least 10 credits in each of the departments participating, departments may, at their discretion, require additional credit hours of the students as a condition of the departmental participation and admission of the student in the program. An initial program of study must be submitted to the Graduate School during the first year of course work.

Requirements for interdisciplinary programs are the same as for other degree programs. An interdisciplinary thesis may be written with a minimum of three credits and a maximum of five credits in each department. The final oral examination must include a representative from each department and a GFR from a department not involved in the interdisciplinary program.

**Admission Requirements**

The student must apply to, and meet all criteria for, admission to the Graduate School. Certain departments may also have other admission requirements. Please check with specific departments for further details.

**Master of Natural Science**

Majors in Biology, Chemistry, Geology, and Physics or approved interdisciplinary combinations of the foregoing may lead to the degree of Master of Natural Science. This program is designed to provide subject matter material for those teaching at the secondary level or intending to do so. Requirements include possession of or pursuit of a standard secondary teaching credential. “Pursuit of a standard secondary teaching credential” shall be defined as follows: The following requirements must be completed by the student, or the student must have equivalency in these areas to meet the definition:

Requirements include: (1) completion of a prescribed program of study of at least 30 credits at the graduate level approved by a departmental committee selected by the student in consultation with the student’s major professor, and approved by the Dean of the Graduate School, and (2) satisfactory performance on final written and oral examinations.

If a student enters a M.N.S. program with no equivalent course work in education, the student must take additional credits in addition to 30 graduate credits in the discipline to receive the M.N.S. degree. This requirement involves 12-19 credits, including student teaching, to be completed to receive teacher certification in Idaho. Candidates must complete a program of study in one, two, or three of the areas listed. The committee designing the program of study, in consultation with the student, should be comprised of members from each department involved plus a GFR.

Courses to be counted toward the degree must be 5500-level or above. At least 22 credits must be taken in residence.

**Study Abroad**

STUA 5500 Study Abroad 9-12 credits. Pre-arranged, planned courses of study at selected academic institutions outside of the United States. Student is responsible for resident credit arrangements with department(s) and the International Programs Office prior to departure. Prefix and course name will be replaced on ISU transcript when study abroad transcript arrives. Graded S/U. REPEATABLE WITH DEPARTMENT PERMISSION.

**Enrollment Fees**

All graduate students will be charged fees as a full-time student whenever they enroll for 9 credits or more. For financial aid purposes, graduate assistants/fellows and students receiving other financial aid must enroll for 9 credits per semester to be considered full-time.

Certain programs require full-time summer study. Students in these programs are assessed full-time fees during the summer semester.

**Tuition and Fees**

Fees are subject to change without advance notice by the Idaho State Board of Education prior to the first official day of class. (See “Policy Statement Concerning Graduate Catalog Contents” on the title page of this catalog.)

In general, the expenses for Idaho State University graduate students may be divided into classifications of fees, board, and room. In addition to the fees listed, some courses may require the expense of special uniforms, protective clothing, field trip expenses, lab fees, or instructional costs for remedial courses.

**Idaho Residency Requirements for Fee Payment**

Residency for tuition purposes is governed by Idaho Code §33-3717 and the residency rules of the State Board of Education. Although a full-time regularly-enrolled resident student is not required to pay tuition while enrolled at Idaho State University, students are charged fees for educational costs excluding the cost of instruction in accordance with the Idaho State System of Higher Education “Notice to Nonresidents of the State of Idaho.”

A student is a “resident” for purposes of fee payment if:

1. He/She has a parent or court-appointed guardian currently domiciled in Idaho who has maintained a bona fide domicile in Idaho for at least one year prior to the opening day of the term for which the student enrolls; or
2. She/He receives less than 50% financial support from parents or guardians and has continuously resided in Idaho for at least 12 months prior to the opening day of the term for which the student enrolls and has established a bona fide domicile in Idaho primarily for purposes other than educational; or

3. He/She is a graduate of an accredited Idaho high school, unless the student graduates while attending on an exchange student visa; or

4. She/He is the spouse of an Idaho resident or person who qualifies for Idaho residency; or

5) He/She is a member of the armed forces stationed in Idaho or whose parents or guardians are members of the armed forces stationed in Idaho and who receives 50% or more financial support from parents or guardians; or

6. She/He is honorably discharged from the military and elects Idaho as his/her intended domicile within one year of discharge; or

7. He/She is a member of the Coeur d’Alene, Shoshone-Paiute, Nez Perce, Shoshone-Bannock, or Kootenai Tribe.

Direct specific questions to the ISU Admissions Office, Stop 8196, Pocatello, ID 83209, (208)282-4946.

A “Non-resident” Student shall Include: Any student attending an institution in this state with the aid of financial assistance provided by another state or governmental unit or agency thereof, such non-residency continuing for one (1) year after the completion of the semester for which such assistance is last provided.

Any person who is not a citizen of the United States of America, who does not have permanent or temporary resident status or does not hold "refugee-parolee" or "conditional entrant" status with the U.S. Immigration and Naturalization Service or is not otherwise permanently residing in the U.S. under cover of the law and who does not also meet and comply with all applicable requirements for establishing residency as covered under these provisions.

Establishing a New Domicile in Idaho: The establishment of a new domicile in Idaho by a person formerly domiciled in another state has occurred if such person is physically present in Idaho primarily for purposes other than educational and can show satisfactory proof that such person is without a present intention to return to such other state or to acquire a domicile at some other place outside of Idaho. In determining whether a student is domiciled in the state of Idaho primarily for purposes other than educational, Idaho State University shall consider, but shall not be limited to the following factors:

• Registration and payment of Idaho taxes or fees on a motor vehicle, mobile home, travel trailer, or other item of personal property for which state registration and the payment of a state tax or fee is required.

• Filling of Idaho state income tax returns.

• Permanent full-time employment or the hourly equivalent thereof in the state of Idaho.

• Registration to vote for state elected officials in Idaho at a general election.

Residency decisions for fee payment purposes for graduate students are made by the Office of the Registrar in compliance with the practices and policies of Idaho State University. Students may appeal through the Residency Appeals Committee at Idaho State University. Students who initially enroll at Idaho State University as non-residents and later wish to be considered for a change in residency status must obtain an affidavit for residency application from the Admissions Office, Stop 8270, (208)282-2475. The affidavit must be completed, notarized and submitted to the Admissions Office along with supporting documentation. If approved, the student’s status is changed in the computer and the student is billed as a resident. It is the responsibility of the person requesting reclassification of residency status to provide clear and convincing evidence of bona fide domicile in Idaho.

Other Fees and Charges

Graduate Application/Processing Fees

Classified (degree seeking) $55.00
Unclassified (non-degree seeking) $25.00
Late fee (after semester has started) $50.00
Reapplication fee (after 8 semesters/terms) $55.00
Change of status (unclassified to classified) $55.00

Student Health Insurance Fee: varies by semester; included in full-time fees

http://www.isu.edu/finserv/costinfo.shtml

Class Fees (in addition to regular registration fees)

Many university classes require additional fees for specialized instruction and/or supplies. See the Class Schedule for class fees required for specific courses.

Late Registration Processing Fees

Second thru 10th day of classes $50.00
After 10th day of classes $100.00

To help defray the extra cost involved with late registration, processing fees are charged in addition to any other regular fees (e.g., application fees). All students (full-time, part-time, faculty, staff, etc.) paying fees after the deadline for fee payment are charged a late processing fee. The cashier is not authorized to accept late registration fee payment without the appropriate late processing fee. This fee is non-refundable. No department or employee of the university, other than those specifically authorized, has the authority to waive the fee.

Faculty, Staff and Spouse Registration Fee $20.00 + $5.00 per credit hour

A copy of the current “Education Policy for Idaho State University Employees” is available in the Human Resources Office. Verification of employment and authorization forms for reduction in fees can be obtained from the Human Resources Office.

Senior Citizen Registration Fee $20.00 + $5.00 per credit hour

Age 60 years or older: proper identification indicating date of birth is required. Fee reduction applies to Idaho residents only. It does not apply to special class fees. Fee is for courses on a space available basis only.

Transcript Fee

Please see information at: http://transcripts.isu.edu

Application for Graduation and Diploma Fee $20.00

This fee is collected from each applicant for each graduate degree and for each certificate. This fee is paid to the Office of the Registrar.
Reprocessing Fee for Graduation $20.00

This fee is paid to the Graduate School.

Housing Costs
Please contact University Housing for more information, Stop 8083, Idaho State University, Pocatello, ID 83209, or (208)282-2120.

Refund Policy

General Fee Refunds
The Refund Policy applies to all for-credit classes regardless of location of the class.

All fee refunds will be paid by University check.

When any student enrolled in for-credit classes withdraws from Idaho State University or makes schedule changes that reduce the fee obligation, refunds are made on the following basis:

General University Fees Paid Without Use of a Fee Reduction Program

Refunds are calculated and authorized by the Office of Financial Services. The drop/withdrawal date is the actual date the drop or withdrawal form is received by an authorized University office or automated system.

Refunds of registration charges for full-time fees, part-time credit hour fees, nonresident tuition, professional program fees, and departmental fees are calculated on the total amount of fees paid, using the first official day of the University semester or session as the starting date.

First-time students at Idaho State University who receive Federal Financial Aid may have their refund determined on a pro-rated basis per Federal Guidelines.

Percentage Refund of Computed Base

Academic Semester:
Before and during the first week of classes 100%
(less a registration processing charge of $25.00)
During the second week of classes 75%
During third and fourth week of classes 50%
After the fourth week No Refunds

For classes, seminars and workshops with non-standard starting and ending dates, refund requests are reviewed on an exception basis. The starting and ending dates are those designated by the University Registrar.

Non-Refundable Fee Charges/Payments
1. The State Board of Education authorized reduced fee charges. (Examples include but are not limited to faculty/staff reduced fee, senior citizen reduced fee, education contract classes, etc.).
2. Late processing charges.
3. Any amounts paid to satisfy fees/charges due from previous terms.
4. Amounts paid for student health insurance and student malpractice insurance.

Refunds for Exceptional Circumstances

In specific cases, as listed below, a full refund of the registration fee, credit hour fee, nonresident tuition and professional fees will be granted following official withdrawal from school, provided the withdrawal process is completed during the first half of the semester or session (i.e., first eight weeks of a semester, first four weeks of a session). Proper documentation, including notification of the academic advisor and the Graduate School, must be presented and approval granted by the offices of Student Affairs and Financial Services before the refund will be processed.

1. Induction of the student into the U.S. armed forces.
2. Incapacitating illness or injury that prevents the student from returning to school for the remainder of the term. A medical withdrawal must be processed through the University Student Health Center.
3. Death of a student.
4. Death of spouse, child, parent, or legal guardian of student.

Deductions from Calculated/Authorized Refund

The University reserves the right to deduct from refunds any amounts due the University. Refunds of actual fees for the term, less any remaining fee loan balances for the term, are used to offset financial aid awarded as prioritized following:

1. Agency authorizations for payment of actual fees.
2. University authorizations specifically for the payment of fees (i.e., graduate teaching assistant, athletics, etc.).
4. Miscellaneous outstanding balances due the University.
5. University loan programs.
6. University and donor scholarship programs.
7. Balance to student.

Payment of Refund to Student

A check for the balance is mailed to the home address of the student with an itemized statement of deductions.

Refund checks are not processed until four weeks after the start of the term or until at least three weeks after the actual date of payment for the term.

Registration Refund Appeals

Contact the Vice President of Student Affairs or the University Controller for information on the University registration fee refund appeal process. Appeals should be submitted in writing before the end of the term for which the student is appealing.

Room and Board Fees

Students who fail to complete their agreement with University Housing will have their room and board fees pro-rated and, after appropriate penalties have been deducted, may receive a refund. See University Housing for details on residence hall and apartment living, and for details on any penalties for breaking agreements.

Delinquent Accounts

The cancellation of the registration and withholding of academic credit of any student with a delinquent account or an unsatisfactory financial relationship with the Office of Finance and Administration is authorized without further notice, provided an attempt has been made to notify the student by the campus department in which the hold originated. This regulation may be invoked at the discretion of the Vice President, Finance and Administration, in cases of disregard in the settlement of returned checks, residence hall damage, library fines, telephone toll charges, overdue notes, traffic
Dishonored Check Policy
A charge is assessed each time a check is returned, the amount is charged to the student’s account, and the student is so notified. If the check is not cleared within ten (10) days, a second notice is sent and a “hold” placed on his/her records.

Any check tendered in payment of registration fees and subsequently returned by the bank will result in automatic postponement of the student’s registration.

In the case of a check tendered in payment for room and board and subsequently returned by the bank, the student is notified immediately and allowed not more than five (5) days for the check to clear. If not cleared within that time, the student’s meal ticket and/or room reservations is canceled.

Federal Family Educational Rights and Privacy Act of 1974
Idaho State University in compliance with the Family Educational Rights and Privacy Act (FERPA), is responsible for maintaining educational records and monitoring the release of information of those records. Staff and faculty with access to student educational records are legally responsible for protecting the privacy of the student by using information only for legitimate educational reasons to instruct, advise, or otherwise assist students.

Only those records defined as "directory information" may be released without the express written permission of the student. Directory information includes the student's name, address listings, telephone listings, e-mail addresses, full-time/part-time status, class level, college, major field of study, degree types and dates, enrollment status, club and athletic participation records, and dates of attendance including whether or not currently enrolled. No other information contained in a student's educational records may be released to any outside party without the written consent of the student.

A student may restrict release of all directory information by filing a Declaration of Non-disclosure of Educational Record Information form in the Office of Registration and Records. Students may choose to restrict release of their address and telephone listings only. This may be done through BENGALWEB. This restriction will apply to the students' address and telephone listings only; all other directory listings will continue to be available for release.

Students must request complete directory information restriction or address/phone listing restrictions during the first week of the fall term to prevent their information from being published in the Student Directory. Any restriction is permanent and remains in place even after the student has stopped attending or has graduated from the University unless the student requests, in writing, that it be removed. Additional FERPA information may be found on the web at: http://www.isu.edu/areg/ferpa-facts.shtml

Financial Support
The following financial information is a listing of the categories of financial help that may be available to graduate students. However, in many instances specific sources of assistance are available only at certain times of the year and require application with a deadline enforced. With respect to campus-based aid (special non-resident waivers, loans, and college work study), applications should be made the January preceding the fall/spring semester for which aid is desired. To obtain specific details about a particular type of financial assistance, contact the Office of Financial Aid, Museum Building, Stop 8077, Idaho State University, Pocatello, ID 83209-8077, (208)282-2756.

Satisfactory Academic Progress
To retain financial support as a graduate student, almost all sources of funds require that the student must maintain satisfactory academic progress. For graduate assistantships and fellowships, students ordinarily must earn nine graduate credits hours or more each semester and maintain a 3.0 grade point average. Some departments may require additional evidence of satisfactory progress for a student to remain eligible to receive assistantship or fellowship support. Students who receive financial aid through the Office of Financial Aid must meet the criteria established by that office for satisfactory progress to remain eligible for further aid.

Assistantships and Fellowships
Assistantships and fellowships are awarded at the departmental or college level. Requests for consideration of these awards should be directed to the graduate program director, department chair, or academic dean of a specific academic unit. Most assistantships and fellowships are awarded on an academic year basis. These awards are generally made in the spring for the following academic year. To ensure consideration, a request for such financial support should be made to the academic unit by February or March. Contact individual departments or colleges for specific application deadlines.

Only students admitted as Classified (degree-seeking) students are eligible to apply for graduate assistantships or fellowships. Classified (w/PR) and Unclassified students are not eligible to receive assistantships. Because full-time graduate assistants are expected to work up to 20 hours per week, the maximum number of graduate credits an assistant may earn in a given semester is 12. Normally, a full-time graduate assistant is expected to carry a minimum of nine graduate credits, which is a full load. DA fellows are expected to carry a minimum of nine graduate credits per semester.

Permission to carry fewer than nine or more than 12 graduate credits may be granted by the Dean of the Graduate School upon written recommendation of the student’s advisor or program director.

Doctoral graduate assistants ordinarily receive higher stipends than those at the master's level. Full-time graduate assistants and fellows may also be awarded scholarships to cover in-state student fees, student health insurance, and non-resident tuition in addition to the stipend.

A student with a graduate assistantship or fellowship may be employed by the university for compensation in addition to the awarded stipend. This employment may only occur with permission of the Dean of the Graduate School and usually must be limited to 10 hours per week. Requests for permission for such employment must be sent in writing by the department chair or graduate program director to the Dean of the Graduate School.

Graduate Assistantships (GA)
There are about 200 GAs available across the University; most of these require serving as an instructor for a department. Most assistantships are awarded in the spring semester for the next academic year. Full-time GAs are expected to work up to 20 hours/week for their stipend.
Graduate School Awards

Graduate Assistantship Teaching Experience (GATE)

The former “At-Large” Graduate Assistantships are renamed: Graduate Assistant Teaching Experience (GATE) Assistantships. GATE assistantships are awarded annually by the Graduate School to departments. Department applications are due December 15, with awards being made in early March annually. GATE Assistantships are one year, Master’s level awards. GATE assistants are required to participate in the GATE Curriculum and the GATE opportunity; and allocate and fulfill their assistantship hour requirements as follows:

- Up to 15 hours/week = Department discretion in support of “teaching.”
- Up to 5 hours/week = dedicated to the GATE experience.

The GATE Curriculum requires GATE awardees to: (a) enroll in the GATE Seminar during their first (the Fall) semester of graduate study. The GATE Seminar (GRAD 6600) is a 1 credit graduate seminar, designed and delivered by the Graduate School, focused on enhancing, supporting, and facilitating graduate student exploration of, and success in college-level teaching; and (b) enroll/participate in “elective” graduate-level academic credit (or equivalent).

Non-Resident Tuition Waivers (NRTW)

There are several categories of non-resident tuition waivers. In each case a different contact person or procedure must be followed in applying. It is important to note that these waivers do not cover the required in-state enrollment fees, but only the non-resident tuition. Unless other scholarships are awarded, the student must pay the in-state enrollment fees each semester, including summer.

Alimited number of these awards are distributed on a competitive basis by the Graduate School. To be eligible for consideration for an NRTW, a graduate student must have Classified status and have submitted GRE/GMAT/MAT scores to the Graduate School. Students should apply using the form supplied by the Graduate School. Application must be received by May 1st for the following Fall Semester consideration and by December 1st for the following Spring Semester. The non-resident tuition waiver may be granted for the academic year or for one semester only. Awards are made after final grades for the current semester are recorded.

Other Non-Resident Tuition Waivers (NRTW)

Additional waivers beyond those described may be available and require application to the appropriate office. These waivers are awarded on a competitive basis. Contact and application may be made to the offices listed below.

Loans

Loans may be available to graduate students. To inquire about application and eligibility requirements contact the Office of Financial Aid.

Grants

Federal grant programs administered by the Office of Financial Aid are not available to graduate students. Pell Grants, Supplemental Educational Opportunity Grants, and State Student Incentive Grant Programs are only available to undergraduate students who have not earned a bachelor’s degree. Special non-resident waivers administered by the Office of Financial Aid are available to graduate students who are citizens or eligible non-citizens and meet other financial need criteria.

Research Grants

A small fund in the Office of Research has been created to provide money to graduate students on a competitive basis to conduct thesis or dissertation research. Research proposals with budgets must be submitted to the Office of Research by deadlines established by the Graduate Student Research and Scholarship Committee. This committee awards grants both fall and spring semester. Guidelines for proposal preparation are available in the Office of Research and from representatives on the committee. The Call for Proposals is sent out the first Monday in February for the following Fall Semester, and the last Monday in September for Spring Semester awards.
Expenses for thesis and dissertation research are often paid by research grants obtained by faculty or departments. In addition, students may be employed with such funds at the discretion of the principal investigator.

Scholarships
Scholarships are available to graduate students in some instances. Announcements of scholarships currently available are posted on the scholarship bulletin board located outside the Office of Financial Aid (Museum Building, Room 327). Please note that some scholarship categories are discontinued at times and new ones are created. Therefore, a regular check at the Office of Financial Aid may be useful to interested students. In addition, there may be off-campus scholarship sources such as parents' or spouses' employers, fraternal organizations, churches or businesses, or national foundations. These sources may be discovered by a systematic and careful search by the student. Departments/colleges may also have specific scholarships.

A small number of ASISU scholarships, which are derived from student fee payments, are available to graduate students. These are awarded on a competitive basis. Application materials can be obtained from the offices of Deans of academic colleges, the Office of Research, and the Graduate School near the middle of each semester. The Graduate Student Scholarship Committee recommends awardees to the Scholarship Office and the ASISU Senate. Graduate student applications for consideration of ASISU scholarships must be returned to the Scholarship Office in the Office of Financial Aid to be considered for a graduate student ASISU Scholarship.

Employment Information
A student with a graduate assistantship or fellowship may be employed by the university for compensation in addition to the awarded stipend. This employment may only occur with permission of the Dean of the Graduate School and usually must be limited to 10 hours per week. Requests for permission for such employment must be sent in writing by the department chair or graduate program director to the Dean of the Graduate School.

Other graduate students may find employment on campus or off-campus by applying at the appropriate office below.

### Travel Funds
Graduate students may request aid for travel expenses to present papers on thesis or dissertation research at regional or national meetings. Such requests should be presented only after a paper has been accepted by the official sponsoring organization of the discipline. Funds for such purposes are very limited, and only modest requests are likely to be funded. Funds for such purposes should be requested sequentially from the following contact points:

- Academic Department
- Academic College
- Office of Research
- Graduate School

When submitting written requests to the Office of Research for travel funds, a breakdown of expenses for registration, lodging, travel, and per diem is necessary.

### Publication Costs
Graduate students may submit requests for funding to meet publication costs of a paper accepted for publication up to $100 from the Graduate Student Research and Scholarship Committee (GSRSC) in the form of dissemination grants. Requests should be in the form required by the GSRSC and submitted to the Office of Research. (See previous information under Research Grants.)

### Thesis and Dissertation Research Costs
Academic departments ordinarily are expected to meet at least some of the costs of thesis and dissertation research. In some instances such costs may be met by extramural funds obtained by faculty and/or departments. With the exception of the small research grant program listed previously, the Office of Research does not provide funds for such purposes and will refer students to the department chair or dean of the college when such requests occur. Publication costs of theses and dissertations are met by the student unless a faculty member or department chooses to pay such costs with funds available to them.

## Physical Facilities and University Services

The Idaho State University campus is situated on 240 developed acres of its 1,100 acres of property. Its 105 buildings are surrounded by 180 acres of attractively maintained landscape. There are over 5,600 parking spaces available throughout the campus.

For convenience, a free on-campus shuttle bus is available during the fall and spring semesters. Riding a bicycle is also a popular way to get around campus. The campus is located just off the interstate, making access very easy. The University commuter bus system brings students to the campus from over one hundred miles away from Rexburg, Idaho Falls and areas in-between. A commercial bus service is also available from Twin Falls and surrounding areas to campus.

All seven colleges are housed in the various campus buildings ranging from the oldest, Frazier Hall (built in 1925), to the newest, the Rendezvous Building (completed in 2007). The Rendezvous is a new 256,000 square foot, multi-use facility located in the center of campus and contains 82 new student suites that house 300 students, a 40 classroom academic building with a 250 seat lecture hall/future planetarium, a new core food service facility to serve housing students and retail customers, as well as a 120 seat drop-in computer lab and numerous styles of study and relaxation spaces. This expansive facility creates a new living, learning, studying, social and academic heart for the campus.

The L. E. and Thelma E. Stephens Performing Arts Center, completed in 2004, is located on 16.8 acres, high on a hill on the perimeter of the campus, adjacent to Interstate 15. This 123,000 square foot facility includes a 1,200 seat concert hall, an elegant rotunda, a 446 seat thrust theatre, and a 200 seat black box theatre. The three-level concert hall, the Center’s largest venue, incorporates state-of-the-art design and technology to optimize sound. The Center also includes classroom space, offices for the Department of Theatre and Dance, and a conference room. The facility and the various, wonderful performances it holds are a must-see part of campus.

Opened in October 2008, the Center for Advanced Energy Studies or “CAES” Building is
a world-class research facility with offices and laboratories for collaborative projects between Idaho State University, Boise State University, the University of Idaho, and Idaho National Laboratory scientists and engineers. The building is planned as a LEED Gold building and located on our Idaho Falls campus. It is a 55,000 square foot, $18 million facility and includes a hydrogen lab, advanced materials lab, imaging suite, radio chemistry and chemistry labs, systems modeling, power wall, and visualization cave.

Scheduled to open in August 2009, a 46,000 square foot ISU-Meridian Building will include programs with an emphasis on health sciences, beginning with programs already leasing space in Meridian and the Treasure Valley.

Remodeling and updates of the campus are an ongoing process. All of the campus buildings are accessible to the disabled.

Occupied in 1971, Holt Arena was the first enclosed football stadium on any university campus. The arena is used for football and basketball games, indoor track meets, and various trade and garden shows. Since 1987, the Dodge National Circuit Finals Rodeo has brought rodeo circuit champions from across the country to compete for the National Circuit Championship in Holt Arena.

Remodeled in 2002, Reed Gymnasium provides a unique and exciting venue for basketball games, volleyball, and other sporting events. A world-class climbing wall is located in the Recreation Center along with racquetball courts, a running track, weight rooms and other sports equipment as well as an Olympic-size swimming pool. The Recreation Center was expanded in 1996. A new $7.7 million expansion scheduled for completion in March 2010 will include weight, cardio, and fitness areas, dance/multipurpose rooms, offices, and lobby.

Historic Davis Field provides a well-maintained, multi-use field and outdoor running track where Idaho State University hosts a variety of events including soccer and track tournaments and Special Olympics. Bartz Field is a 30 acre, dog-friendly field used for events such as softball, archery, sledding, cross country, golf, and rugby. The Pocatello Greenway passes through the campus above Davis Field, connecting with several miles of trail through the Portneuf Valley.

Outdoor recreation opportunities abound on the many acres of developed and undeveloped campus grounds. A disc golf course, challenging cross-country track, bike trails, jogging trails, hiking areas, and walking paths are part of the Idaho State University campus, and softball, track, ultimate frisbee, soccer, and rugby are all options for the active student. Summer and winter sports including skiing are also available only minutes away in the beautiful mountains surrounding the city.

The ISU-Idaho Falls campus provides modern classroom facilities and a student union. The University also has many outreach centers available to assist students in Southeast Idaho, Twin Falls, and Meridian.

**Student Health Services**

The ISU Student Health Center provides the entire range of medical office care as is provided at a hometown doctor’s office. This includes everything from treatment of colds and flu to treatment of high blood pressure and diabetes. Care is provided for broken bones, lacerations, abscesses, and other urgent care problems. Preventative health services such as immunizations, nutrition counseling, and birth control are areas of particular interest.

All full-time fee paying students (9 credits or more) are eligible to see a care provider at the Student Health Center at no charge. (Student insurance is not required to utilize the Student Health Center.)

Part-time students and spouses of full-time students are charged a clinic fee to see a care provider. The Student Health Center bills private insurance as well as student insurance when billable services such as laboratory tests, X-ray studies, special procedures, etc. are performed. Same day appointments are available as well as advance appointments. A walk-in clinic is held each day. A valid Bengal ID card is required to obtain services.

The Student Health Center is located at 990 Cesar Chavez Avenue—across from Graveley Hall. For additional information call 208-282-2330.

The Student Pharmacy provides low-cost prescription drugs as well as over-the-counter medications at reduced costs. Students may wish to transfer prescriptions to the Student Pharmacy while they are attending ISU. All ISU students, both full- and part-time can use the Student Pharmacy.

The Dental Hygiene Clinic provides dental care by dental hygiene students, evaluated by licensed hygienists serving as faculty, and supervised by licensed dentists.

The Department of Physical and Occupational Therapy operates several programs providing clinical services to patients from the university and community on a sliding payment scale.

The Department of Speech Pathology and Audiology operates the ISU Speech and Hearing Center and the Audiology Clinic, offering comprehensive evaluation, diagnostic testing and therapy services.

The ISU Wellness Center helps students maintain desired levels of health and fitness through a wide variety of classes, including aerobics, aquacise, and yoga, as well as weight machines, free weights, and a variety of cardio machines. The Wellness Center also provides fitness assessments, health appraisals, nutrition analyses and education, and campus-wide health screenings. Many Wellness Center services are free to ISU students.

The Janet C. Anderson Gender Resource Center at Idaho State University serves as the focal point on campus for the consideration of gender issues. The mission of the Center is to increase awareness and promote open dialogue about gender through its resources and services, educational programming and support of gender-related research. In our efforts, we are especially guided by the ideal of diversity, as valued by the Division of Student Affairs, which allows us to envision a future free of the limitations imposed by our culture’s standard definitions of gender. Funded by Student Affairs through mandatory student fees, the Center’s primary target audience is that of ISU students; the Center also welcomes the interest and participation of prospective students, ISU faculty and staff, and members of the Eastern Idaho community.

**Counseling and Testing Center**

The Center for Counseling and Testing Services provides personal counseling and individual assessments to assist students in coping with psychological, emotional and interpersonal stress. Crisis intervention and consultation with concerned faculty and staff regarding student’s needs are other important services available. Counseling staff can usually assist students with concerns such as anxiety, depression, self-esteem, motivation, eating problems, stress relief, and interpersonal relations. Personal counseling is free and confidential; all staff are licensed by the State of Idaho as counselors or psychologists.

The Center administers over 50 national and several institutional tests, including those for Graduate School and professional school admission, such as the Graduate Record Exam (GRE), Graduate Management Aptitude Test (GMAT), Medical College Aptitude Test (MCAT), etc., teacher certification (NTE), and
The Center is the Computer-Based Testing Center in this region for administering the GRE, GMAT, MAT, PPST, and NBTCP.

Information Technology Services

Information Technology Services (ITS), located in the basement of the College of Business building, is dedicated to meeting the computing needs of students. Kiosk computers are installed in numerous locations throughout campus to provide fast and convenient stand-up email and Internet access. Nine computer labs in Pocatello, three in Idaho Falls, two in Meridian, and one in Twin Falls are open to Idaho State University students. Additional computer labs with specialized discipline-specific software, operated by individual departments, but supported by ITS, are also available. Use of the computer labs, kiosks, wireless network and most departmental labs require the purchase of an ISU Computer Account (currently $35.00 per semester and $30.00 summer).

ISU Computer Accounts may be purchased at the IT Service Desk in Pocatello (BA-B9 and Rendezvous Computer Lab), and in the ISU-Idaho Falls, ISU-Twin Falls and ISU-Meridian computer labs. The ISU Computer Account allows access to the computer labs, kiosks, data storage, personal web page, printing, access to email and the ISU wireless network. Some courses require an ISU Computer Account.

The IT Service Desk, help@isu.edu or 208-282-HELP (4357), provides support to students accessing ISU’s information technology services, such as Moodle ISU and e-mail from personal computers and laptops. Students may also visit our IT Service Desk locations wherever ISU Computer Accounts are sold (locations listed above).

Idaho State University’s home page, http://www.isu.edu, provides access to a wide variety of university information (such as web-based course material, campus events, online library access and this Catalog). All admitted students have a personal customizable Web portal found at http://my.isu.edu. All enrolled students are provided an Idaho State University email account.

Students are encouraged to use the online technical support page at http://help.isu.edu.

For more information about ISU’s Information Technology Services, visit http://www.isu.edu/its and the Computer Labs & Technology web site found on ISU’s “Current Student” home page (http://www.isu.edu/current.shtml).

Eli M. Oboler Library Building

The University Library, named for its past Director, Eli M. Oboler, contains major collections of books, periodicals, electronic resources, maps microforms, and government publications, and provides a full range of services to students, faculty, and staff. The library collection of 656,827 book and serial volumes and its 4,444 active journal subscriptions in all formats are accessible through its automated catalog and circulation system, available through the library web page. In addition, the library provides access to an additional 39,000 journals. These resources are available to the Idaho State University community. For most resources, remote access is available across the state with appropriate authentication. The University Library has been a depository for federal publications since 1908, and for State of Idaho publications since 1972. The government publications collection contains over 445,024 printed items and approximately 1,964,868 items published in microform.

General reference service is provided on the first floor, where librarians are available to assist patrons in the use of over 89 databases and other reference resources. Library instruction is available to classes and student groups, and is tailored to address students' specific needs, from general library orientation to subject-specific bibliographic research. In addition to supplying informational materials from its own collections, the library provides an interlibrary loan service equipped to locate and deliver books and periodical articles from other libraries' holdings. Using online electronic ordering and transmission, as well as postal services, the interlibrary loan service fills most requests within a week, but students should allow a two-week turnaround time.

The Idaho Health Sciences Library, a department of the Eli M. Oboler Library, supports the health sciences information needs of the university and the Idaho health-care community. It also provides specialized health science reference, research, and instruction services. The Arthur P. Oliver Law Library, located on the first floor of the Eli M. Oboler Library, houses more than 13,000 law books. An excellent reference resource for students, faculty, and staff, it is supplemented with legal databases.

Idaho Falls Services: The University Library Center at Idaho State University-Idaho Falls provides reference services, a limited reference collection, and a study area for Idaho State University students. Also available are public access workstations on which students and faculty are able to access most of the information databases available to students at the main campus. With the assistance of trained staff, students are able to request the delivery of books and journal articles from the University Library.

Twin Falls and Lewiston: The Oboler Library has agreements with the libraries at the College of Southern Idaho and at Lewis-Clark State College. These agreements ensure strong library support for Idaho State University's students in the Twin Falls and the Lewiston areas. Under these agreements, Idaho State University students are able to access the two libraries and check out materials. They also receive full reference, instruction, interlibrary loan, and database searching services. On-line access to Idaho State University Library databases and the catalog are available.

Meridian: A similar agreement in Meridian provides Idaho State University students and faculty the same library privileges accorded to Boise State University students and faculty upon presentation of their Idaho State University Bengal identification cards.

Graduate students are encouraged to use all the services mentioned above, especially library instruction for any classes they teach. Those attending may also take advantage of the library's reserve service for class supplemental readings. Reserve services are available online, as well as in Pocatello and in Idaho Falls. Interlibrary loan is required to supplement the local collection in certain research fields. The reference staff is available for searching specialized databases and for assisting with research.

For more detailed information regarding Library services, including hours of service and policies, please visit the library website at www.isu.edu/library.

Idaho Museum of Natural History

The Idaho Museum of Natural History was founded by legislative proclamation in 1977. At that time, the Museum received its State-mandated mission to enhance in the citizens of Idaho and visitors an understanding of and delight in Idaho’s natural and cultural heritage. The Museum has four divisions: Anthropology, Earth Science, Life Science, and Public
Programs. Each of the first three divisions is headed by a Research Curator, with other division curators and collections managers. Significant collections include the Earl R. Swanson Archaeological Repository, vertebrate and invertebrate paleontology, and the Ray J. Davis Herbarium. Affiliated research institutes include the Center for Archaeology, Materials, and Applied Spectroscopy (CAMAS), the GIS Center, the Quaternary Research Group, the Informatics Research Institute, and the Don Crabtree Experimental Archaeology Lab.

Curators in Anthropology, Earth Science and Life Science lead national and international research in Quaternary studies. Our active research profile supports acquisition and use of collections for research and education. Undergraduate and graduate students have access to Museum collections for instruction, training, and graduate theses and dissertations.

Our Public Programs Division develops and implements programs and exhibitions on a wide range of science topics, emphasizing current Museum research and environmental and ecological themes.

The Museum offers undergraduate and graduate students educational credits under Museum prefixes and through courses in Anthropology, Biology, Education, Geosciences, History, and other affiliated Idaho State University departments.

Please call the Idaho Museum of Natural History at (208) 282-3168 for gallery hours. There is no admission fee.

Affirmative Action

Idaho State University endeavors to achieve equal educational opportunity for minorities, persons with disabilities and women students through recruitment, admission, curricular and extracurricular programs, advising and retention practices, and student aid and employment. Discrimination affecting any person based on race, religion, gender or disability is illegal and should be reported to the Office of Affirmative Action.

Recreational Services

There is a wide complement of recreational opportunities for students at Idaho State University. The recreational facilities in Reed Gym and Holt Arena provide indoor running tracks, indoor tennis courts, racquetball courts, swimming pools, weight and exercise rooms, and exercise classes. A highly regarded Outdoor Program is available to members of the university community. Throughout the year, activities and classes are organized in such outdoor pursuits as canoeing, kayaking, cross country skiing, rock and mountain climbing, hiking, camping trips, and river float trips. In addition, equipment may be rented for wilderness trips at nominal cost from the Wilderness Equipment Rental Center in the Student Union. The Student Union Crafts Shop offers a wide variety of workshops and classes in most craft areas to students, faculty, staff, and community in a casual learning environment.

C. W. Hog

The Cooperative Wilderness Handicapped Outdoor Program (C.W. HOG) is a year-round program of activities for people with and without disabilities. Academic credit may be granted for participation in activities which include weight training, swimming, snow skiing, water skiing, and whitewater rafting.

Americans with Disabilities

The Americans with Disabilities Act (ADA), of 1990, is the civil rights guarantee for persons with disabilities in the United States. It provides protection from discrimination for individuals on the basis of disability. The ADA extends civil rights protection to people with disabilities in matters which include transportation, public accommodations, accessibility, services provided by state and local government, telecommunication relay services, and employment in the private sector.

Idaho State University, in the spirit and letter of the law, will make every effort to comply with “reasonable accommodations”, according to section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADAA Amendments Act, (ADAAA), of 2008. Idaho State University will not discriminate in the recruitment, admission, or treatment of students or employees with disabilities.

Students with disabilities who wish to have accommodations provided by the University must self-identify to the ADA & Disabilities Resource Center for determination of need for accommodations. Information about and applications for accommodations are available at the ADA Center and may be picked up in person or requested by telephone or TDD by calling (208) 282-3599.

In order for the ADA Center to arrange accommodations for those who need assistance, they request documentation of disability as early as possible so that timely arrangements can be made.

Students and employees who need auxiliary aids or other accommodations should contact the Director, Dennis Toney, at the ADA & Disabilities Resource Center, Gravelry Hall, Room 123, Stop 8121, (208) 282-3599.

Other Student Services

In addition to the services mentioned previously, some of the other general student services available on campus are:

- the Office of International Programs, which provides assistance, support and guidance to Idaho State University’s international students. Services include student orientation to the Idaho State University campus and Pocatello community, on-going cross-cultural activities, student-to-student mentor programs, and additional programs to help international students make the most of their time at ISU.
- the Center for Student Success, which offers programs in study skills, reading, writing, mathematics, and English for speakers of other languages, and includes individualized instruction, tutoring, and workshops. The Center also administers the ASISU Content Area Tutoring Program.
- the Career Development Center, which provides career counseling, career testing, alumni consultants, internship opportunities, student employment assistance, job interviewing techniques, networking skills training, credential files, on-campus recruiter interview, and other career-related support to students and alumni in both individual and group settings.
- the Student Employment Center, which assists students seeking employment while enrolled at the university and provides lists of summer employment opportunities for Idaho and other states. Assistance is available to all students enrolled for 6 credit hours or more each semester. Employment vacancies are listed on the web and posted in the office.
- the Idaho State University Bookstore offers a selection of textbooks, computer supplies, school and office supplies, Idaho State University clothing, gifts and greeting cards, and general interest books. The Bookstore maintains branch offices in Idaho Falls (University Place) and Twin Falls (CSI Bookstore).
- the ASISU Early Learning Center, which provides child care for children six weeks of age through elementary school while their parents attend classes or work at the university. Children are enrolled in develop-
mentally appropriate classes led by a professional staff assisted by student employees. Parents are encouraged to visit the Center, for more information about services.

Alumni Association
www.isu.edu/alumni
alumni@isu.edu

The mission of the Idaho State University Alumni Association is to promote the welfare and to advance the objectives of Idaho State University through the sustained involvement of its alumni by providing philanthropic, intellectual and social opportunities.

The association is governed by a board of directors and administered through the office of Alumni Relations, 554 S. 7th Avenue, Pocatello, in the H. F. Magnuson House.

Specific goals are to identify alumni and friends to assist Idaho State University in strengthening support from its constituencies, to inform alumni and friends about Idaho State University; to provide for the efficient management of the Alumni Association, and to involve and motivate alumni and students to maintain their affiliation and support of Idaho State University.

The officers and directors meet three times a year with the director of alumni relations, who is appointed by the university administration.

Idaho State University Bengal Foundation

The Idaho State University Bengal Foundation is a nonprofit organization formed to raise money for athletic scholarships. The main fund raising activities include an annual auction, scholarship fund drive, athlete-to-athlete phone-a-thon, several golf tournaments, and other special events held throughout the year.

The Bengal Foundation was officially formed in September of 1976. It is governed by a board of directors and administered through the office of the Bengal Foundation located in Holt Arena. For information on becoming a member, contact The Bengal Foundation at (208) 282-2397.

Idaho State University Foundation, Inc.

The Idaho State University Foundation is a nonprofit corporation established in 1967 under the laws of the State of Idaho.

The Mission of the Idaho State University Foundation is to stimulate voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of Idaho State University.

The Foundation raises and manages private resources supporting the mission and priorities of the University, and provides opportunities for students and a degree of institutional excellence unavailable with state funding levels.

The Foundation is dedicated to assisting the University in the building of the endowment to address, through financial support, the long-term academic and other priorities of the University.

The Foundation is responsible for identifying and nurturing relationships with potential donors and other friends of the University; soliciting cash, securities, real and intellectual property, and other private resources for the support of the University; and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

The Idaho State University Foundation is located on the first floor of the Administration Building.

University Housing
www.isu.edu/housing
reslife@isu.edu
208-282-2120
745 S. 5th Avenue, Stop 8083
Pocatello, ID 83209-8083

The mission of University Housing is to provide secure, clean, and affordable living-learning environments that promote student engagement by encouraging and supporting opportunities for academic success, personal development, community building, and the well-being of each individual resident.

To Apply
Applying for University Housing is separate from application to Idaho State University. Housing applications are completed and submitted online. To apply simply go to the Housing website (www.isu.edu/housing) and then click the “Apply Now” link on the left. Then select either the residence hall or apartment application. First-year students can only sign up for the residence halls. If you have questions please email reslife@isu.edu.

Housing Options
University Housing offers traditional and suite-style residence halls. On-campus apartments are available for sophomores and above, married students, and students with children. Floor plans, photos, and virtual tours, as well as cost information, can be found on our website at www.isu.edu/housing. The Housing fee covers all utilities, as well as local telephone service, basic cable television, and wireless internet (internet service requires an ISU computer account).

Food Service
University food service is required for first and second-year students living in the residence halls, and is an option for other students.

Institutes

Biomedical Research Institute

Director and Professor: Daniels

The Biomedical Research Institute embraces the latest advances in biomedical engineering, biotechnology, nanotechnology, neuroscience and bioinformatics and bio-signaling research in medicine, biology, and healthcare. The Institute aims to further enhance the fulfillment of the mission and goal of Idaho State University as the lead among Idaho universities in the health professions.

Established in 2005 to increase the collaboration, efficiency and focus of the University’s biomedical research activities, the Biomedical Research Institute will provide additional resources for faculty to improve research capabilities.

The long-term vision of the Institute is to establish a nationally and internationally recognized interdisciplinary biomedical research environment where scientists, engineers, and health professionals can interact synergistically, without the restrictions of traditional discipline barriers.

The Institute’s four major focus areas are behavioral and neuroscience; bio-signaling and communication; functional genomics and biotechnology; and health science and engineering.

For more information, see IBRI.ISU.EDU.

Informatics Research Institute

The Informatics Research Institute (IRI) is an academic unit providing coordination for several interdisciplinary degrees and research centers across campus. Informatics is an integrative discipline that arises from the synergistic application of computational, informational, organizational, cognitive, and other disciplines whose primary focus is in the acquisition, storage and use of information in a broad spectrum of domains.
Cooperative Programs

Institute of Emergency Management

The Institute of Emergency Management, (IEM) located on the Idaho State University Meridian Center Campus, was approved by the Idaho State Board of Education in July 2003. The purpose of the Institute is to offer workshops, courses, certificates, and in the future degrees, to meet the professional and career development needs of Idahoans employed in or planning a career in Emergency Management. The Institute delivers courses statewide at various sites in Idaho communities, to meet the needs of local first responders. Here is the link to the IEM registration website.

Institute of Nuclear Science and Engineering

Idaho State University has established an Institute of Nuclear Science and Engineering (INSE) with approval from the Idaho State Board of Education in 2003. The Institute is a collaborative entity among ISU, University of Idaho and Boise State University. Under the INSE’s administrative umbrella, the three universities jointly focus on nuclear science and engineering education at the combined Idaho Falls campus. Nuclear-related research in conjunction with the new Idaho National Laboratory is also coordinated through the INSE at University Place in Idaho Falls.

The 2+2 scholars program is a special opportunity for students interested in pursuing a Bachelor of Science degree in nuclear engineering. While Idaho State University has offered a nuclear emphasis for its interdisciplinary engineering degree for many years, it established the specific Nuclear Engineering B.S. degree in 2004 at the request of the U.S. Department of Energy. The University of Idaho and Boise State University are working together with ISU through the “2 + 2” program: 2 years at the main campus of one of the three universities and the second 2 years in Idaho Falls at the University Place campus. The reason for the location is to have special opportunities for the students in conjunction with the Idaho National Lab, which is a partner in this effort as well. Scholarship money, donated by AREVA to jump start the program, will be awarded to this elite group of students. Funding for the entire 2 years in Idaho Falls will cover tuition and fees, a book allowance and a small stipend. For further information and a scholarship application, visit the Institute’s scholarship web page at http://www.isu.edu/departments/inse/ntmp.html

NAACP-College Exchange Program

In order to enhance campus diversity, the Faculty Senate and the local NAACP Branch sponsor and mentor minority faculty from traditionally African-American universities who seek masters or doctoral degrees. Individualized assistance packages are developed based on the applicant’s qualifications and interests. These faculty use sabbatical or leave time to acquire additional graduate training at ISU, then return to their home institutions. Interested applicants should contact Dr. Jack Owens, local NAACP representative, at (208) 282-3232 (Department of History).

Oak Ridge Associated Universities (ORAU)

Since 1993, students and faculty of Idaho State University have benefited from ISU’s membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 91 colleges and universities, and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country, to keep its members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education, the DOE facility operated by ORAU, undergraduates, graduates, postgraduates and faculty may access a multitude of opportunities for study and research. Students may participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the number of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at www.orau.gov/orise/educ.htm, or by calling either of the contact persons below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scientist Program, consortium research funding initiatives, faculty research, and support programs, as well as services to chief research officers. For more information about ORAU and its programs, visit the ORAU website at www.orau.gov or contact:

Dr. Thomas F. Gesell
Professor of Health Physics
ORAU Counselor for Idaho State University or
Monnie E. Champion
ORAU Corporate Secretary

Idaho State University Education Centers

Idaho State University has education centers throughout the state, with offices in Meridian, Idaho Falls, and Twin Falls.

Idaho State University-Meridian

Ms. Bessie Katsilometes, Dean, Academic Programs
Idaho State University-Meridian
1311 East Central Drive
Meridian, Idaho 83642
(208) 373-1700

In keeping with Idaho State University’s mission to educate health professionals and address the need for graduates in the health disciplines, Idaho State University–Meridian offers several programs in the health professions.

Idaho State University–Meridian currently offers five undergraduate programs that include an Associate of Science in Paramedic Science, Bachelor of Science degrees in Communication Sciences and Disorders, Clinical Laboratory Science, and Educational Interpreting, and a 16-month Fast Track Nursing program. Idaho State University–Meridian also offers 10 graduate degree programs, primarily in the health professions, including the third and fourth year in a Doctor of Audiology program. The College of Pharmacy oversees third- and fourth-year professional pharmacy students, including clinical rotations in the Meridian area. Other programs housed at Idaho State University–Meridian include a dietetic internship and a dental residency program.
The campus covers approximately 40,000 square feet and houses classrooms, six distance learning rooms, two computer labs, a laboratory, and clinics for speech-language pathology, nursing, and counseling.

Student applications and enrollment materials are available at Idaho State University–Meridian.

Idaho State University–Idaho Falls

Dean, Academic Programs: Lyle Castle, Ph.D.
Idaho State University–Idaho Falls
350 University Place
1784 Science Center Drive
Idaho Falls, ID 83402
7800 from campus telephones
(208) 282-7800 from off campus
www.isu.edu/departments/ifche

Idaho State University–Idaho Falls is the higher-education center of one of Idaho’s most dynamic cities. It offers a comprehensive general education curriculum as well as 29 complete degree programs, all from a Carnegie-classified research institution with more than 50 years of experience in helping Upper Snake River Valley residents achieve their goals. Idaho State University–Idaho Falls is the largest of Idaho State University’s statewide network of higher-education centers. It provides more than 2,000 students each semester the opportunity to complete associate, bachelor’s, master’s and doctoral degrees in Idaho Falls, making it the city’s hometown university. Conveniently located at University Place on the banks of the Snake River, Idaho State University–Idaho Falls’ neighbors include the U.S. Department of Energy headquarters for the Idaho National Laboratory, and the new Center for Advanced Energy Studies.

Students at Idaho State University–Idaho Falls take classes that are not only close to home, but also just a short drive from a three-state region’s commercial, health care, business and government centers. Upper Valley residents who are seeking continuing-education opportunities find electives as well as noncredit professional- and personal-development courses. Day and evening classes also are available. Among the many degree programs that can be completed at Idaho State University–Idaho Falls are associate degrees in biology, business, English, history, mathematics and physics; the M.B.A.; the B.S. in nuclear engineering; the Ph.D. in Engineering and Applied Science (Nuclear Engineering); the B.S. in nursing; and the M.Ed. and Ed.D.

Through its partnership with the University of Idaho, students can take classes from either university using a single admission, registration and fee-payment process. A partnership with Eastern Idaho Technical College makes health-professions education available close to the city’s high-tech regional medical center.

Idaho State University–Idaho Falls’ contemporary facilities include up-to-date computing labs, a large auditorium, and student-services offices. A campus centerpiece is the Samuel H. Bennion Student Union, a contemporary facility that includes study and games areas, cafeteria, lounge, bookstore and computing lab.

Between classes, students can cross-country ski at adjacent Freeman Park, jog on the paved riverside greenbelt, or watch University Place’s resident bald eagles and ospreys soar above the river.

To learn how Idaho State University–Idaho Falls can help you achieve your goals conveniently and affordably, call (208) 282-7800; visit the campus at 1776 Science Center Drive; or browse online at www.isu.edu/departments/ifche.

Idaho State University–Twin Falls

Ms. Chris Vaage, Director
Idaho State University–Twin Falls
Evergreen Building, Suite B-40
College of Southern Idaho
P.O. Box 1238
Twin Falls, ID 83303
(208) 736-2101 • (208) 282-4840
Idaho State University offers courses in the Twin Falls area since the 1960s. As part of the University’s mission to serve southern Idaho students, a center was established in Twin Falls in 1981. The center was moved in 1992 to the Evergreen Building on the College of Southern Idaho campus, which also houses two state-of-the-art distance learning classrooms and a student computer laboratory networked with the Idaho State University campus. Three professionals and support staff advise students with curriculum questions and act as general advocates for commuting students.

Idaho State University’s offerings in the Magic Valley include programs leading to one doctoral, four master’s, and five baccalaureate degrees from the Colleges of Arts and Sciences, Education, and Health Professions. Idaho State University provides the upper-division and graduate work on a rotating schedule, while the general education requirements and most other lower-division courses are available through CSI. University professors and highly qualified local adjunct instructors ensure that course quality is equal to that found on the Pocatello campus.

An interactive telecommunications system has broadcast classes live from Pocatello to CSI since 1990. Courses in anthropology, biology, communication and rhetorical studies, corporate training, education, English, geosciences, health education, history, library science, mass communication, nursing, pharmacy, political science, psychology, social work, sociology, women studies, and vocational education have all been presented in this way. Regularly scheduled courses are enhanced by courses Idaho State University delivers to area school districts for teacher development. Workshops and seminars in specific professional development areas are also available.

Access to Internet, email, and a large variety of software augment the Idaho State University student experience in a 20-station computer lab networked with the main campus. Twin Falls area Idaho State University students who have home computers with modems may access the network with a local phone call. Free computer workshops are routinely scheduled in the lab.

Other services include registration, fee payment, and assistance with University forms and information. In addition, a student commuter bus operates between Twin Falls and Pocatello.
**College of Arts and Sciences**

Kandi Turley Ames, Ph.D., Interim Dean

**Department of Anthropology**

Chair and Professor Holmer
Professors: Cartwright, Lohse, Loether, Maschner
Associate Professor:
Assistant Professors: Dudgeon, Peterson, Reedy-Maschner
Native Language Instructor: Gould
Adjunct Faculty: Dean, Hansen, Wood
Research Affiliate Faculty: Cartwright, Dean, Dudgeon, Hansen, Maschner, Peterson, Reedy-Maschner

**Mission**

The mission of the Department of Anthropology is to research and teach about human behavior in a holistic and respectful manner. Anthropology consists of sub-fields that specialize in the human past, human biology and evolution, language, and bio-cultural behavior. Anthropology provides cross-cultural, international, and global perspectives on past and present human behavior. At Idaho State University, an important part of the anthropology mission is to apply anthropological concepts to the resolution of important social, cultural, and environmental problems of our times. The Department of Anthropology offers a graduate program leading to the Master of Arts or a non-thesis applied Master of Science degree in Anthropology. The option must be selected in consultation with the student’s major advisor.

**Goals**

Students who have completed a graduate degree in Anthropology at Idaho State University should be able to:

1. Read and understand anthropological theory at a professional level.
2. Understand current debates within the field of anthropology.
3. Synthesize and critically evaluate the professional literature.

4. Use a comparative approach to theorize about the similarities and differences in the human condition across space and through time.

**Measurable Outcomes - The Thesis or Special Project should show the following competencies based on the learning objectives:**

1. Write a proposal for pure research or the application of theory to contemporary social issues.
2. Perform quantitative and/or qualitative analysis of data appropriate to the chosen subdiscipline.
3. Competently conceive, conduct, and write-up either research in anthropology or applications of anthropology at a level suitable for publication.

**Admission Requirements**

The student must apply to, and meet all criteria for admission to the Graduate School. In addition the student must provide:

1. A letter of application, including areas of interest and professional goals;
2. Three letters of recommendation;
3. Undergraduate transcripts;
4. Minimum grade point average of 3.0;
5. Total GRE scores that average at least the 50th percentile for admission;
6. An undergraduate degree in anthropology is not required for acceptance into the program; however, students without the equivalent of ANTH 5501, 5503, 5530, and an upper division linguistic anthropology course will be required to take these courses or approved readings courses before enrolling in content-respective graduate seminars.

**General Requirements**

1. A minimum of 30 credits must be taken, including these required courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 6605</td>
<td>Seminar in Linguistic Anthropology</td>
<td>3 cr</td>
</tr>
<tr>
<td>ANTH 6615</td>
<td>Seminar in Biological Anthropology</td>
<td>3 cr</td>
</tr>
<tr>
<td>ANTH 6625</td>
<td>Seminar in Sociocultural Anthropology</td>
<td>3 cr</td>
</tr>
<tr>
<td>ANTH 6635</td>
<td>Seminar in Archaeology</td>
<td>3 cr</td>
</tr>
<tr>
<td>ANTH 6641</td>
<td>Research Project</td>
<td>6 cr</td>
</tr>
<tr>
<td>ANTH 6650</td>
<td>Thesis</td>
<td>6 cr</td>
</tr>
</tbody>
</table>

In addition: Four semesters of foreign language must be completed, or competence must be demonstrated by an examination administered by the Department of Languages and Literature. Nine credits of graduate level courses approved by the major advisor are also required.

**Master of Science Option:**

Two of the following graduate seminars:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 6605, 6615, 6625, 6635</td>
<td></td>
<td>6 cr</td>
</tr>
<tr>
<td>PLUS</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ANTH 6641</td>
<td>Research Project</td>
<td>6 cr</td>
</tr>
<tr>
<td>OR</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ANTH 6650</td>
<td>Thesis</td>
<td>6 cr</td>
</tr>
</tbody>
</table>

**In addition:**

1. Nine credits of advanced techniques and methods courses and six additional credits of graduate level courses approved by the major advisor.
2. Each student must develop a proposed program of study specifying electives and methods (M.S.) courses in consultation with the student’s major advisor by the end of the first semester. The 12 elective credits may be satisfied by courses taken from the Medical Anthropology Option Area for those students also completing an MPH Degree. Students completing an MS or MA in Anthropology with an MPH degree may apply 12 credits to both degrees.
3. To maintain classified status, the student must register for a minimum of 6 credits each semester of the first year.
4. An acceptable thesis or publishable manuscript must be written and orally defended.

**Anthropology Graduate Courses**

ANTH 5501 History and Theory of Sociocultural Anthropology 3 credits. Survey of the development of anthropology, various schools of thought, important personalities, and concepts that have contributed to anthropology over time. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5502 Ecological Anthropology 3 credits. Interaction of human bio-cultural systems and environment. Relations of natural resources, tech-
ANTH 5503 Method and Theory in Archaeology 3 credits. History of the development of current methods and theory in archaeology and contemporary applications. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5504 Material Culture Analysis 3 credits. Method and analyses used in archaeology and anthropology to understand the relationship between objects and culture. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5505 Analytical Techniques Laboratory 1 credit. Analytical techniques laboratory to accompany ANTH 5504. Students will complete an assigned project in material culture analysis. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5506 American Indian Health Issues 3 credits. An overview of health concerns, both current and past, of American Indian people, and the biological and sociocultural factors which influence health status. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5507 Introduction to Medical Anthropology 3 credits. How cultures define health and illness, and how these definitions ultimately influence the health status of individuals. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5508 Special Topics in Medical Anthropology 3 credits. Rotating topics, including international health issues, ethno-psychiatry, ethnomedicine and non-western healing systems. May be repeated for a maximum of 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5509 Clinical Medical Anthropology 3 credits. Explores the culture of biomedicine and the beliefs of patients. Topics include doctor/patient communication, cultural competency, cultural construction of risk, critiques of high-tech medicine and the international pharmaceutical industry.

ANTH 5510 Introduction to Cultural Resources Management 3 credits. Introduction to CRM reviewing historic preservation and federal legislation as they pertain to archaeology; practical experience in site survey and recording. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5513 Old World Archaeology 3 credits. Prehistory of the Old World. Precise areal focus and periods may vary. Includes both theory and exposition. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5514 New World Archaeology 3 credits. Examination of the prehistory of the Americas with emphasis on the North American Continent. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5523 Anthropology of International Health 3 credits. Exploration of critical health issues that exist in the world today from an anthropological perspective. Diseases of poverty/development, emerging infectious diseases, medical tourism and the political arena of international health.

ANTH 5524 Ethnomedicine of Latin America 3 credits. Examines traditional medical systems and folk illnesses in order to better understand the underlying logics of healing that exist in Latino populations worldwide. Shamanism, witchcraft, spiritual healing and biomedicine will be addressed. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5530 Human Origins and Diversity 3 credits. Examines human origins, adaptations and biological diversity within the context of evolutionary processes. Primate lineages will be investigated. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5532 Human Osteology 3 credits. Provides a working knowledge of skeletal anatomy, primarily focusing on identification of individual bones. Other topics include: osteogenesis, pathologies and applications of knowledge and technique. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5533 Survey of Living Primates 3 credits. Explores the anatomy, behavioral ecology, and adaptive diversity of extant non-human primates. Begins with the history of human interaction with primates, and continues with a consideration of the major primate taxa and their anatomical and behavioral trends and distinctions. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5535 Survey of Fossil Primates 3 credits. Asurvey of the evolutionary history and adaptations of the primates emphasizing the interpretation of their fossil record; their differentiation and adaptive radiations spanning from the earliest primates in the shadow of the dinosaurs to the enigmatic giants of the Pleistocene. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5539 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed with BIOL 5539 and GEOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5549 Methods and Techniques of Ethnographic Field Research 3 credits. Participant observation, field notes, data types, analytical procedures, interviewing skills, oral history, report writing. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5550 Introduction to Sociolinguistics 3 credits. Study of the patterned co-variation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Cross-listed as ENGL 5586. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5552 American Indian Verbal Arts 3 credits. Analysis of current theories in the study of oral literature and ethnopoetics, focusing on the oral traditions of American Indians.

ANTH 5554 Survey of American Indian Languages 3 credits. History of scholarship, analysis and classification of American Indian languages with emphasis on the languages of a particular phylum or geographical area. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5555 Introduction to Phonetics 3 credits. Introduction to descriptive linguistics focusing on phonetics and phonetic phenomena of English and the other languages of the world. Extensive practice in perception and production of such phenomena. Cross-listed as LANG 5555.

ANTH 5556 Introduction to Phonology and Morphology 3 credits. Phonological theory and analysis; current theories in morphology. Phonological rules, representations, underlying forms, derivation, justification of phonological analyses; morphological structure, derivational and inflectional morphology; relation of morphology to phonology. Cross-listed as LANG 5556.

ANTH 5558 Historical Linguistics 3 credits. The methods and theories of the historical study of language. The comparative method, internal reconstruction, linguistic change over time, genetic typology of languages, and applications to prehistory.

ANTH 5559 Linguistic Field Methods 3 credits. Practical experience in linguistic analysis of a language using data elicited from a native speaker. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5563 Applied Statistics in Anthropology 3 credits. Practical applications of commonly used statistical analyses in anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5564 Advanced Analytical Methods in Anthropology 3 credits. Examination and practical experience in applying advanced quantitative and qualitative methods and analyses in anthropological research.

ANTH 5566 Current Issues in Indian Country 3 credits. Survey of significant issues affecting Indian communities including religious freedom, economic development, judicial systems, treaty rights and environmental regulation.

ANTH 5572 Native American Arts 3 credits. Survey of Native American arts and industries, including prehistoric, ethnographic, and contemporary venues. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5574 Special Topics in Indian Education 3 credits. Rotating review of topics dealing with issues in Indian education. Consult current schedule of classes for exact course being taught. May be repeated.

ANTH 5576 Seminar in American Indian Studies 3 credits. Advanced level course with critical examination, readings, discussion and presentation of selected issues facing American Indians. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5577 Federal Indian Law 3 credits. Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional conflicts over land and resources; and economic development. Cross-listed as POLS 5578.

ANTH 5579 Tribal Governments 3 credits. Complex legal position of Indian tribes as self-governing entities; principles of inherent powers;
governmental organization, lawmaking, justice, relation to state and federal government. Cross-listed as POLS 5579.

ANTH 5581 Specializations in Anthropology 3 credits. Rotating specialized topics such as applied anthropology, proxemics, ethnology, religion, international development. See current class schedule for titles. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5582 Independent Problems in Anthropology 1-3 credits. Investigation of an anthropological problem chosen by the student and approved by the staff. May be repeated up to 6 credits.

ANTH 5583 Field Research 3 credits. Practical experience in field research. May be repeated for up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5585 Anthropology of War and Violence 3 credits. Survey of war and violence from evolutionary foundations through modern representations. The course covers violence and war among chimpanzees, the genetics and biochemistry of violence, the role of evolution in making humans aggressive, and the history and ethnography of violent conflict around the world.

ANTH 5586 Archaeology Field School 1-9 credits. Practical field and laboratory training in archaeological excavation techniques and methods of analysis. May be repeated to a total of 9 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5587 Ethnographic Field School 1-6 credits. Supervised fieldwork in cultural anthropology in a given ethnographic setting where students and faculty work on a specific set of field problems. May be repeated to a total of 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5589 Special Topics in American Indian Studies 3 credits. Rotating review of topics dealing with issues in American Indian studies. Consult current schedule of classes for exact course being taught. May be repeated with different topics.

ANTH 5590 Topics in Folklore 3 credits. Focused study of an issue in folkloristics or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. May be repeated up to 9 credits with different topics. Cross-listed as ENGL 5590.

ANTH 5591 Archaeology Laboratory Analysis 3 credits. Directed analysis of archaeological remains and report writing. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5593 Interdisciplinary Anthropology 3 credits. Rotating review of cross-disciplinary anthropology: psychological, medical, visual, educational, bio-diversity conservation. See current class schedule for course titles. May be repeated up to 6 credits.

ANTH 5594 Visual Anthropology 3 credits. Documentary and ethnographic filmmaking techniques including story structure, interviewing, audio and lighting, camera handling, composition, POV, and editing. Anthropological critiques of visual representation. Students create their own short film for a final project. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 5595 Department Colloquium 1 credit. Presentations of current research issues in Anthropology by faculty and students. May be repeated.

ANTH 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

ANTH 6605 Seminar in Linguistic Anthropology 3 credits. Discussion of theories, methods, and results in linguistic anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 6610 Seminar in Medical Anthropology 3 credits. Discussion of current topics within the various specializations of medical anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 6615 Seminar in Biological Anthropology 3 credits. Discussion of theories, methods, and results in biological anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 6620 Seminar in Sociocultural Anthropology 3 credits. Discussion of theories, methods, and results in sociocultural anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 6625 Seminar in Sociocultural Anthropology 3 credits. Discussion of current theories within the various specializations of a. Digital file portfolios must be formatted for Macintosh computers. Twenty images should be submitted on a single CD.

ANTH 6641 Research Project 1-6 credits. The student will pursue original research under staff guidance. The final report will result in a publishable manuscript. May be repeated. Graded S/U. PREREQ: PERMISSION OF THE CHAIR OF STUDENT’S GRADUATE COMMITTEE.

ANTH 6642 Practicum in Teaching Anthropology 3 credits. Directed preparation of an anthropology course with a review of course materials, format, teaching techniques, films, and other aids. The trainee will participate in a supervised teaching experience.

ANTH 6649 Independent Study 1-4 credits. Independent research under the guidance of faculty. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

ANTH 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

ANTH 6655 Internship in Applied Anthropology 3-6 credits. Supervised experience in the development and implementation of an anthropological project.

Department of Art & Pre-Architecture

Chair and Professor Kovacs
Director of M.F.A. Program and Professor Martin
Professors: Evans, Warnock
Assistant Professors: Leeuwrik, Zielinski

Master of Fine Arts in Art

The MFA degree is the recognized terminal degree in the studio arts. The MFA program is designed to refine the visual art skills of the graduate student in a particular area or areas of concentration by providing the instruction, facilities and time for the student both to develop a significant body of studio work and to expand his or her intellectual horizons in preparation for a rewarding professional career.

Admission Requirements

Applicants for admission to the M.F.A. program must apply to, and meet all criteria for admission to the Graduate School. For admission to the Master of Fine Arts program in the Department of Art, the Graduate School does not require submission of Graduate Record Exam (GRE) scores, however, the taking of the GRE test is recommended for students who wish to compete for a non-resident tuition waiver.

Application must also be made to the Department of Art and Pre-Architecture. Departmental evaluation requires the following materials, which should be sent directly to the Department of Art and Pre-Architecture, Stop 8004, Idaho State University, Pocatello ID 83209:

• A letter of intent stating the applicant’s goals and objectives with regard to graduate study;
• A portfolio of work (20 digital images or slides of studio work which the applicant feels would most effectively represent his/her involvement, ability, and potential);
• a. Digital file portfolios must be formatted for Macintosh computers. Twenty images should be submitted on a single CD.
Please submit a duplicate CD as well. Both CDs should be labeled with the student’s name on the CDs, as well as on the sleeves. Digital images, in RGB color, may be no larger than 5 Megabytes each. We recommend a longest pixel dimension of 1600 at a resolution of approximately 140 ppi. Save files as TIFF or highest-quality JPEG formats. We will not accept directions to a web site, or files submitted in presentation software, such as PowerPoint, or PDF files.

b. Name and number all files with LastNameFirstname00.jpg or LastName-Firstname00.tif (e.g., JohnsonRobert12.jpg). Number images in the order to be viewed. Include with the submission a printed, hard-copy image inventory page headed with your name and the area/s of study to which you are applying. The inventory page should indicate, by corresponding number, the title, date, dimensions, and medium of each work; and

• Three letters of recommendation from undergraduate instructors, or other appropriate individuals, indicating the readiness of the applicant to pursue independent and sustained graduate-level work.

The Department has established March 15 as the application deadline for fall semester admission. Graduate Assistantship applications are also due by March 15.

October 15 is the application deadline for spring semester. (Assistantship applications are not considered for spring semester.)

The entire Graduate Faculty of the Department will review all materials submitted by each applicant. Recommendations are made by measuring, as accurately as possible:

• The applicant’s demonstrated preparedness and potential to be successful in the program;
• The sense, on the part of the faculty, that the faculty could contribute, in a meaningful and constructive way, to the student’s development as an artist;
• Available space in the program, as well as faculty and departmental resources.

Other admission requirements include twelve credits of undergraduate Art History course work. Art History deficiencies of up to 6 credits may be compensated for by enrolling in the necessary courses concurrent with graduate work.

**General Requirements**

Basic requirements are a minimum of 60 credits in graduate courses approved by the Department of Art and the Graduate School. A minimum of six credits must be in the area of art history, and a minimum of 12 credits must be thesis project. The student may elect, as a program option, to take up to six credits in other related areas outside the Art Department. These courses must be departmentally approved. Students are required to complete ART 6601 and ART 6621. The department will accept a grade of C in one class as long as the minimum overall 3.0 GPA is maintained. The student will have the opportunity to repeat the course.

Each applicant for the MFA degree must exhibit a one-person show during the last semester before the granting of the degree. A collection of slides of the exhibit must be turned in to the Art Department at this time. The thesis project consisting of original creative work by the applicant is the focal point of all the work necessary to the granting of the degree. The MFA degree is the terminal degree in the field of the visual arts. The applicant should have the time and opportunity to create a significant body of work that demonstrates a professional level of competency within a unified creative point of view. A minimum of two years of participation in the program is required for this goal. An oral examination is held concurrently with the thesis project show. Additional information is available from the Department of Art and Pre-Architecture.

**Art Graduate Courses**

**ART 5518 Art of the Book 3 credits.** Expands the traditional idea of book form with innovative structures and concepts. Textual and nontextual formats and methods for generating ideas for works are addressed. Traditional techniques for bookbinding will also be included. Cross-listed as M C 5518.

**ART 5522 World Arts 3 credits.** Study of the art produced in cultures outside of the western tradition. Topics include pre-Hispanic art of Mexico, Central and South American art, and North American Indian art, Oceanic art, and the art of Africa south of the Sahara.

**ART 5523 Nineteenth Century Art 3 credits.** History of the visual arts from the beginning of the 19th century up to the advent of Cubism.

**ART 5524 Twentieth Century Art 3 credits.** History of the visual arts from Cubism to the present.

**ART 5525 Contemporary Art Forms 3 credits.** The study of the major developments of art as an expression of contemporary society. Emphasis on art since 1950. PREREQ: PERMISSION OF INSTRUCTOR.

**ART 5526 Seminar in Art History 3 credits.** Extensive reading and discussion in Art History and aesthetics under the supervision of the instructor. May be repeated up to 6 credits.

**ART 5531-5532 Advanced Printmaking 3 credits.** Advanced work in printmaking. Choice of medium.

**ART 5541-5542 Advanced Painting and Composition 3 credits.** Special projects and experimental individual work for advanced students.

**ART 5551-5552 Advanced Metals-Jewelry 3 credits.** Experimental work. Individual projects may include plastics, electroplating, electroforming, advanced fabrication, anodizing or raising techniques.

**ART 5561-5562 Advanced Weaving 3 credits.** Experimental work. Individual projects may include on-loom and off-loom techniques, dyeing processes, basketry, or multi-layered fabrics.

**ART 5571-5572 Advanced Ceramics 3 credits.** Individual projects may include ceramic sculpture, mosaics or experimental problems in form and techniques.

**ART 5581-5582 Advanced Sculpture 3 credits.** Experimental work with an emphasis on scale and environmental problems.

**ART 5591 Advanced Papermaking 3 credits.** Further development of topics from ART 3391.

**ART 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**ART 6601 Independent Study in Drawing 3 credits (required).** Individualized course designed to address drawing-specific concerns: technical, material, and/or conceptual possibilities inherent to various drawing media. May be repeated for a total of 6 credits.

**ART 6621 Graduate Seminar 3 credits (required).** Reading and discussion of theories and practices related to the production and presentation of studio art under the supervision of the instructor. Students will research and prepare written presentations for weekly seminar discussion and evaluation. May be repeated.

**ART 6635 Research in Studio or Theory 4 credits.** Investigation of technical, material, and/or aesthetic/theoretical problems in art history/studio areas under the supervision of the instructor.

**ART 6640 Experimental Problems in Studio 4 credits.** Experimentation in technical, material, and aesthetic problems in a studio area under the supervision of the instructor.

**ART 6645 Studio 1-12 credits.** Studio work under the supervision of the instructor. May be repeated up to 12 credits.
ART 6649 Thesis Proposal 1 credit. Summary of the objectives and goals of the thesis project prepared under supervision of the student’s advisor. Concurrent with application for admission to candidacy.

ART 6650 Thesis Project 1-12 credits; 12 credits required minimum. Preparation and presentation in a one-person show of a significant body of work which demonstrates a professional level of competency within a unified creative point of view. An exhibition and slides of the works are required by the department under the supervision of the applicant’s advisor. A graduate faculty oral committee will review and approve or disapprove the show and thesis proposal. May be repeated up to 16 credits. PREREQ: ART 6649. Graded S/U.

ART 6699 Special Topics 1-4 credits. May be repeated.

**Department of Biological Sciences**

Chair and Professor: Bowyer
Assistant Chair for Undergraduate Programs and Professor: Scalarone
Assistant Chair for Graduate Programs and Professor: Rose
Professors: Crowell, Delehanty, Finney, Huntly, Inouye, Keeley, Kie, C. Peterson, Rodnick, R. Smith Stephens, Winston
Associate Professors: C. Anderson, Baxter, Bearden, DeVeaux, Germino, Groome, Hill, Kelchner, Magnuson, Meldrum, Pfau, St. Hilaire, Sheridan, Shields, Thomas, Williams
Assistant Professors: Cretacos, Evilia, Loxterman, Ma
Clinical Associate Professors: Galindo, Nehr-Kanet
Clinical Assistant Professors: Spiegel
Adjunct Faculty: Black, Frank
Affiliate Faculty: Apel, Beckmann, Belzer, Berger, Bleich, M. Boeger, W. Boeger, Bryant, Bunde, Burch, Carlson-Lammers, Colwell, Connelly, Cook, Eisenmenger, Foster, Galindo, Howard, LaPatra, Lenington, McGonigle, Newby, Pierce, Poulson, Patec, Quarder, Ray, Reed, Roberto, Rosenreiter, Schererman, Schwan, Scoville, Shell, Smith Jr., Stephenson, Stevens, Thompson, Ver Hoeft, Watwood, Weinberg, Wells, White, J. Young, M. Young, Zager

**Doctor of Philosophy (Ph.D.) in Biology**

The Doctor of Philosophy is a research degree granted for proven ability, independent investigation, and scholarly contribution in a specialized field. It is not granted solely on the completion of a certain number of credits, and there is no set credit requirement for this degree. The dissertation research must involve original and creative work. Credits for the dissertation and the research on which it is based should comprise a substantial portion of the program.

**Admission Requirements**

For applicants who hold a M.S. degree, entrance into the Ph.D. program requires a minimum GPA of 3.0 for courses taken in the previous degree program, and scores in the 35th percentile or higher on the verbal and quantitative sections of the GRE.

For applicants who hold only a Bachelor’s degree in biological sciences or a closely related discipline, entrance into the Ph.D. program requires a GPA of 3.0 or higher for all undergraduate work and scores in the 50th percentile or higher on the verbal and quantitative sections of the GRE.

Students for whom English is a second language who do not meet the minimum verbal GRE score must meet the Graduate School minimal TOEFL score. Other exceptions to the verbal and quantitative GRE requirements will be granted only in exceptional circumstances.

All applicants must also submit scores for the GRE subject area test in Biology or in Biochemistry/Cell/Molecular Biology.

The application must be approved by a majority vote of the Graduate Programs Committee prior to formal acceptance by the Department. No student in the Department’s Master’s program will be permitted to advance to the Ph.D. program without approval of the Graduate Programs Committee. Application for advancement must include (1) a letter from the student that provides a rationale for the status change and (2) a letter of support from the major professor.

**Progressing Through the Ph.D. Program (10 Easy Steps)**

1. **Initial Evaluation**

The purpose of this evaluation is to provide incoming students with guidance regarding coursework and other studies that will help them to be successful in their degree programs. The evaluation should take place by the end of the second full month in residence (October, for students entering in the fall).

The Evaluation Committee should consist of the major advisor and two other faculty members, at least one of whom is also a regular (i.e., tenure track or research) faculty member in the Department of Biological Sciences. Members of the Evaluation Committee should be chosen by the advisor and student, and may become part of the student’s Advisory Committee.

The result of the Initial Evaluation should be the creation of an Initial Program of Study.

2. **Initial Program of Study**

Based on the results of the GRE Subject test, the student’s transcripts, and the student’s research interests, the Evaluation Committee should help the student draft an Initial Program of Study that lists coursework the student will take to meet the program requirements and support the student’s research. The Initial Program of Study should indicate how the student will meet the requirement for exposure to three Core Areas (Cellular and Molecular Biology, Organismal Biology, and Ecology & Evolution). A copy of the Initial Program of Study should be given to the Chair of the Graduate Programs Committee and then filed in the student’s permanent file.

3. **Core Areas**

Students in the Ph.D. program are required to have some exposure to each of the following core areas:

- Cellular and Molecular Biology which can include cellular structure and function, genetics, and molecular biology
- Organismal Biology - which can include any of the ‘-ologies’, organismal structure, function, development, growth, and diversity
- Ecology and Evolution - which can include population biology, conservation biology, evolutionary ecology, community ecology, population ecology, and behavior

Exposure to these areas can include undergraduate coursework, graduate coursework, or directed readings. The taxonomic focus of coursework may reflect the student’s...
research focus. For example, a microbiologist could satisfy the first core area with coursework in microbial genetics, the second core area with coursework in microbiology, and the third core area with coursework in microbial evolution, whereas a mammalian physiologist could satisfy the first core area with coursework in population genetics, the second core area with coursework in comparative anatomy, and the third core area with coursework in vertebrate paleontology.

4. Advisory Committee

Ph.D. students should establish an advisory committee no later than the end of their second semester in residence. The Advisory Committee will consist of the major professor, at least three other members of the graduate faculty, and a Graduate Faculty Representative (GFR). The GFR is officially appointed by the Dean of the Graduate School, however, recommendations made by the Department are typically honored by the Graduate Dean. Because the primary role for GFR is to serve as a representative of the Graduate Faculty, the GFR does not have to be identified during the first year of the student’s program. The Advisory Committee may include individuals from other departments or persons from outside the University who hold affiliate rank in the Department, but the majority of any committee must consist of regular departmental faculty.

Within the broad guidelines outlined in this document and the General Graduate Program Requirements, it is the responsibility of the Advisory Committee to monitor and direct the student’s progress and:

1. identify how the student will satisfy the requirement to have some background in each of the three core areas;
2. review the student’s research proposal, conduct an oral examination following a public presentation of the research proposal, and determine if the student has passed that examination;
3. review and sign the student’s Program of Study, ensuring that it meets the Graduate School requirements (i.e., total number of credits, number of 6600-level credits, number of credits if a minor is part of the student’s program);
4. conduct a comprehensive examination after the student has completed the majority of the coursework on the Program of Study; and
5. review the dissertation and conduct a rigorous examination of the candidate’s research before approving and signing the dissertation.

5. Research Proposal

All Ph.D. students are required to develop a research proposal that details how they will develop the research that will form the basis of their dissertation. The proposal should follow the guidelines for an NSF dissertation improvement grant or proposal to a comparable national funding source. The proposal will include: (1) a survey of the literature to develop a rationale for the research, (2) a statement of the problem(s) or hypothesis(es) to be addressed, (3) detailed descriptions of methods including the experimental design and planned statistical analyses, (4) preliminary data (optional, but strongly encouraged), (5) a time line, (6) a bibliography, and (7) a budget.

The student must present the proposal to the department during a one-hour seminar to be scheduled no later than the end of the third semester of residency. The proposal must be provided to all members of the Advisory Committee at least seven days before the seminar. After the seminar, the student will meet with the Advisory Committee for an oral defense of the proposal. The committee may ask to re-examine the student upon revision of the proposal if significant shortcomings are identified.

If the committee decides that the student is not able to demonstrate sufficient mastery of the research area, the committee may recommend that the student not complete the Ph.D. program, but consider alternative possibilities, such as switching to the M.S. program. Following approval of the proposal by the Advisory Committee, the proposal should be submitted to an appropriate agency for funding.

Once the student has successfully defended the research proposal, the student is advanced to candidacy.

6. Revised Program of Study

Following the successful proposal defense, the student should submit to the Assistant Chair for Graduate Programs a Program of Study that has been approved and signed by the Advisory Committee. This form should indicate how the student will satisfy all of the degree coursework requirements. Subsequent substitutions for any courses on this Program of Study must be approved by the student’s Advisory Committee.

7. Minor

There is no requirement for Ph.D. candidates to have a minor, however a candidate may identify a minor that develops expertise in an area outside the major research focus. Courses to be applied to a minor must appear on the Final Program of Study for the minor to be noted on the transcript. The minor should consist of 9 or more credit hours that address a common theme. That theme may be in a subject area outside of Biology (e.g., Geosciences), or it may be an area within the Biological Sciences that is distinct from the candidate’s primary research topic. For example, a microbiologist might develop a minor in ecology, a physiologist might develop a minor in environmental science, an ecologist might develop a minor in microbiology. In addition, any candidate may develop a minor in Biology Education by taking advantage of the existing Doctor of Arts in Biology curriculum. The minor in biology Education will normally consist of 4 credits of seminars (BIOS 6693 - Seminar in College Teaching and/or BIOS 6694 - Advanced Studies in College Teaching) and 5 credits of Supervised Teaching Internship (BIOS 7700). Students who pursue the minor in Biology Education are eligible for one year of D.A. Fellowship support.

8. Comprehensive Examination

The student must pass a Comprehensive Examination intended to test his/her preparation for completing the Ph.D. degree program. The Comprehensive Examination should address at least two of the three core areas (see above). The extent to which these areas are addressed in the Comprehensive Examination will be determined by the Advisory Committee, and should reflect the student’s area of research specialization. In addition to the core areas, the Comprehensive Examination should address the specific knowledge the Advisory Committee feels the student will need to successfully address the research that is the focus of the dissertation.

The Comprehensive Examination should be scheduled after the student has completed the majority (i.e., all but one or two classes) of the coursework for the degree program. At least three months prior to the examination, the student should meet with the Advisory Committee to identify the specific areas that will be covered and the committee member who will be responsible for writing questions for each area. If the student has a minor, then a portion of the comprehensive examination should focus on that minor. Students should meet individually with committee members to determine how best to prepare
for the specific topics that will be covered by the examination. The examination must be partly written and partly oral. Both portions must be passed satisfactorily in order to complete the Comprehensive Examination requirements.

The written portion of the Comprehensive Examination generally will consist of eight sections (each meant to be completed in 3-4 hours). The form of the written portion is flexible. If it is of a ‘closed book’ type, it should not be less than the equivalent of three (8 hour-long) days nor more than five (8 hour-long) days of actual writing time. Normally the written exams will be completed within the span of one week. Evaluation of each section of the written examination is on a pass/fail basis. The student must earn a passing evaluation on at least 75% of the sections to pass the written portion of the comprehensive examination. Failed sections may be repeated once, at a time designated by the student’s Advisory Committee, but within a year of the original examination. The completed and graded written portion of the Comprehensive Examination is to be placed in the student’s departmental file.

The purpose of the oral portion of the examination is to provide an opportunity to clarify and explore further implications of the written examination as well as to present the student with new questions in the same general subject areas as those covered by the written exams. The oral portion should not be given until after the written examination has been evaluated by all of the committee members, but no later than two weeks after completion of the written portion. The orals must be passed by simple majority vote of the advisory committee. In case of failure, the student may be allowed to retake all or part of the oral examination at the discretion of his/her advisory committee.

If the Graduate Faculty Representative (GFR) was chosen to provide specific expertise to support the student’s graduate program, the GFR should participate in both the written and oral portions of the Comprehensive Examination.

9. Dissertation

Every student working toward the Ph.D. degree must submit a dissertation embodying the results of original and creative research. The dissertation must demonstrate the student’s ability in independent investigation and must be an original contribution to scientific knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions.

The form and style of the dissertation should comply with the format prescribed by the national- or international-level journal(s) in which the student intends to publish the material and must meet the requirements of “Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects,” which is available from the Graduate School. Within the framework of these constraints, however, the format of the dissertation can vary, ranging from a series of stand-alone chapters to a single, comprehensive unit. In the former case, a preface that explains the overall layout should be included. After the dissertation has been approved for format and content by the major professor, and at least two weeks before the date of the final examination, the student must deliver a copy of the dissertation to each member of the Advisory Committee.

10. Dissertation Defense

The student’s Advisory Committee, including the GFR, will conduct the final examination of the dissertation. The final defense must be completed at least two weeks before the date set for the commencement exercises at which the student expects to obtain a degree. Students are required to give a departmental seminar on the dissertation immediately preceding the final defense, and the student is required to publicize the seminar at least one week in advance (i.e., notice in the Departmental Newsletter and notices posted in the Life Sciences Building).

The examination is concerned primarily with the student’s research as embodied in the dissertation, but it may be broader and extend over fields of study related to the dissertation. The final examination is entirely oral and is open to faculty invited by the advisor, Department Chair, or Dean of the Graduate School. Committee members may ask questions, and those visitors specifically invited to do so by mutual agreement of the student’s Advisory Committee and the Dean of the Graduate School may also ask questions. A majority of the examining committee must approve the dissertation and the final defense.

Doctor of Philosophy (Ph.D.) in Microbiology

The degree of Doctor of Philosophy is granted for proven ability, independent investigation, and scholarly attainment in a special field. Although it is primarily a research degree and is not granted solely on the completion of a certain number of credits, there are specific course requirements that must be met. The training of a Ph.D.-level Microbiologist is based on a strong foundation in Mathematics, Chemistry, Genetics, Molecular Biology, and Biochemistry in addition to extensive coursework in the various disciplines within the field of Microbiology. This base is built upon advanced course work in the major sub-disciplines of Microbiology (Molecular Biology, Biochemistry and Physiology, Genetics, Biotechnology, Virology, Industrial and Environmental Microbiology, and Medical Microbiology) as the student focuses his/her area of interest.

Admission Requirements

Application to the Ph.D. program in Microbiology requires (1) at least a 3.0 grade point average (GPA) for all upper division credits taken in the previous degree program, (2) scores in the 35th percentile or higher on the verbal and quantitative sections of the Graduate Record Exam (GRE), (3) submission of scores for the GRE Biology or Biochemistry subject area exam, and (4) completed application forms for the Graduate School and Department of Biological Sciences, including three letters of recommendation. Scores in the verbal, quantitative, and analytical sections of the GRE must be submitted before entrance can be considered. International students may be accepted without GRE scores, with the requirement that they take the GRE during their first semester in residence. Individuals for whom English is a second language must meet the Graduate School minimal TOEFL score.

Applicants who do not meet the minimum GPA and/or GRE requirements may be admitted under “Classified (w/PR)” status. The conditions of acceptance will be specified on the applicant’s Approval for Admission to Graduate School.
form. In some cases, students may be required to retake the GRE during their first semester in residence. Students admitted under “Classified (w/PR)” status because of low/missing GRE scores will be transferred to “Classified” status if new GRE scores that meet the minimal requirement are submitted. Failure to meet the minimum GRE standards during the first year of residence may result in expulsion from the program. Students under “Classified (w/PR)” status must petition the Graduate Programs Committee for transfer to “Classified” status after a year of graduate work and successful remediation of any deficiencies in coursework or GRE scores. This petition will include a recommendation from the student’s Advisory Committee signed by the research advisor. Continuation in the Microbiology Ph.D. program is contingent upon approval of transfer to “Classified” status. In rare cases, the Graduate Programs Committee may grant approval for a student to remain on “Classified (w/PR)” status for a second year. Any student with “Classified (w/PR)” status who has not been approved for transfer to “Classified” status by the end of his/her second year will be dismissed from the program. Acceptance into the Microbiology Ph.D. program must be approved by the Microbiology Graduate Program committee.

For applicants who hold only a Bachelor’s degree, acceptance into the Microbiology Ph.D. program requires a minimum of a 3.0 GPA for all undergraduate work, scores in the 50th percentile or higher on the verbal and quantitative sections of the GRE, and submission of scores for the GRE Biology or Biochemistry subject area exam. No waiver of GRE scores is allowed except in the case of students for whom English is a second language who receive a lower verbal GRE score; these individuals must meet the Graduate School minimal TOEFL score. The application must include three letters of recommendation. The application must be approved by the Departmental Microbiology Program Committee.

Students in the Microbiology or Biology M.S. program may be permitted to change to the Microbiology Ph.D. program with approval of the Microbiology Graduate Program Committee. Application for change must include 1) a letter from the student that provides a rationale for the status change and 2) a letter of support from the research advisor.

Prerequisites
The following courses are recommended for the Microbiology Ph.D. program. It is expected that applicants to the program will have a broad background in Biology, and will have completed coursework at the undergraduate level in the following areas:

- 1 semester of Calculus (Calculus through Multivariable Calculus recommended)
- 1 year of General Chemistry
- 1 year of Organic Chemistry
- 1 year of Physics
- 1 semester of Quantitative Analysis, Analytical Chemistry, or Inorganic Chemistry
- 1 semester of Statistics or equivalent
- Genetics
- General Microbiology

The Microbiology Ph.D. program will be tailored to the requirements of the student’s program of study (as determined by the student’s Advisory Committee), and will include coursework to rectify any deficiencies as determined by the Microbiology Graduate Program Committee. Deficiencies will be made up in the first year of study.

Graduate Coursework in the Microbiology Ph.D. program
The intent of the Microbiology Ph.D. program is to produce scientists with a broad background in the major sub-disciplines of Microbiology, while ensuring focused study in their major field of interest. The student’s Graduate Advisory Committee will direct the student to specific course offerings within the Department and University to satisfy coursework guidelines. The three core areas in the Microbiology Ph.D. program are:

- Biochemistry, Genetics, Molecular Biology, and Physiology of Microorganisms
- Immunology, Virology, and Medical Microbiology
- Microbial Ecology and Applied, Industrial, and Environmental Microbiology

Students in the Microbiology Ph.D. program will take at least 30 credits of formal graduate coursework (at least 15 credits will be at the 6600-level). The following courses are NOT to be considered part of this 30 credits of formal graduate coursework: BIOL 5581-5582 Independent Problems; BIOL 6648 Graduate Problems; BIOL 6650 Thesis; BIOL 8850 Doctoral Dissertation. Six credits will consist of BIOL 6695 Graduate Seminar in Microbiology.

Six credits of courses will be taken in each of the three Microbiology core areas (18 credits total). The remaining 6 credits will be taken in any one of the three core areas or in subject areas recommended by the student’s Advisory Committee. It is expected that students in the Microbiology Ph.D. program will complete the majority of their coursework by the end of their 4th semester (or equivalent) in the program. Students in the Microbiology Ph.D. program may be required to take other courses (as determined by recommendation of the student’s Graduate Advisory Committee). The 6 credits of Graduate Seminar in Microbiology may be taken at any time during the student’s residence in the Microbiology Ph.D. program, but it is recommended that the student start taking Graduate Seminar no later than their 5th semester (or equivalent) in the program. The specific course list for each student will be determined by the student’s Graduate Advisory Committee based on the criteria outlined in this document. Students who have already received an M.S. degree may transfer 9 credits of graduate level work, providing a grade of “B” or higher was earned. Transfer of credits is subject to approval by the Graduate Programs Committee. Specific course requirements include:

| BIOL 6695 Graduate Seminar in Microbiology | 6 cr |
| Microbiology Core Area Courses | 18 cr |
| (6 credits in each area) | |
| Advisory Committee recommended Courses | 6 cr minimum |

Residency Requirements
The equivalent of at least four years of full-time study (minimum of 75 graduate credits) is required and the research upon which it is based should compose a substantial portion of the program and involve original work. Part of the work may be completed elsewhere with the approval of a student’s Advisory Committee, but two consecutive regular semesters of full-time study must be taken in residence at this university.
Advisory Committee
The student’s Advisory Committee will consist of the graduate research advisor and (at least) three additional members of the graduate faculty who are chosen by the student in consultation with the research advisor. It is the student’s responsibility to contact members of the faculty to ascertain their willingness to serve. The Advisory Committee may include individuals from other departments or persons from outside the University who hold affiliate rank in the Department, with the approval of the Dean of the Graduate School, but the majority of any committee must consist of regular departmental faculty.

The final member of the student’s Advisory Committee is a Graduate Faculty Representative (GFR) from outside the Department who is appointed by the Dean of the Graduate School. The Dean will automatically appoint a GFR to participate in the defense of the dissertation if one has not been appointed before that time. However, it has been traditional for the GFR to be an active member of the Advisory Committee who participated in committee meetings and the Comprehensive Examination. In such cases, the student must submit a request in writing to the Dean of the Graduate School that a particular individual be appointed. The GFR must be a member of the Graduate Faculty of Idaho State University.

Comprehensive Examination and Research Proposal Seminar
Before submission of the final program of study, the student must pass a Comprehensive Examination intended to test his/her knowledge of the relevant subdisciplines within the field of Microbiology that pertain to the dissertation research project(s). The student will be admitted to this examination when the student is considered by his/her Advisory Committee to be adequately prepared. This is to be interpreted as allowing the student to take the Comprehensive Exam, even though some courses remain to be taken for the completion of the student’s program of study. The Comprehensive Examination should be taken following the 2nd semester (or equivalent) of residence in the Microbiology Ph.D. program, and prior to the end of the student’s 5th semester (or equivalent) in the program. Several months (3 to 6) prior to the intended date for examination, the student should meet with his/her Advisory Committee to seek approval to schedule the exam. If approval is given, the student may at that time ascertain from the committee which topical areas will be covered and which committee member will be responsible for each. Students should meet individually with committee members to determine more specifically what materials will be pertinent and how to prepare for the exam. The examination will consist of a written and an oral portion, which will be administered during a closed session following the student’s public Research Proposal Seminar. Both portions must be passed satisfactorily in order to complete the comprehensive requirements.

The written portion of the Comprehensive Exam should not be less than 25 hours nor more than 40 hours of actual writing time. Normally the written exams will be completed within the span of one week. The written portion of the Comprehensive Examination generally will involve the student applying the knowledge gained through graduate coursework and readings suggested by the Advisory Committee. The examination will consist of five sections, each meant to be answered by a five-hour essay. The specific topic areas covered will be determined by the student’s Advisory Committee.

Grading on the written portion will be on a Pass/Fail basis with four of the five sections graded satisfactory required for a Pass. If the student fails two or more sections of the written portion of the exam, the student’s Advisory Committee will convene to determine if the student will be allowed to remain in the program. The student’s Advisory Committee may recommend one of three options: dismissal from the program; transfer from the Microbiology Ph.D. program to the Microbiology M.S. program; or re-examination of the failed sections of the written exam. Failed sections may be repeated once, at a time designated by the student’s Advisory Committee, but within a year of the original examination. If a student has not passed all the written sections after repeating the failed sections once, that student will be dismissed from the program. The completed and graded written portion of the Comprehensive Exam is to be deposited in the student’s department file.

Students pursuing the Microbiology Ph.D. are required to present a Seminar based on their Research Proposal to the Department of Biological Sciences prior to the end of their 5th semester (or equivalent) in the program. The seminar will be given during a scheduled meeting time of the Graduate Seminar in Microbiology (BIOL 6695) and will be considered part of the course requirements for that student. The purposes of Research Proposal Seminar is to assess the student’s potential for graduate study at the doctoral level, to determine areas in which the student shows strength or weakness, and to assess the student’s ability to assimilate, evaluate, and synthesize subject matter.

Immediately after the seminar, the student will meet in closed session with his/her Advisory Committee to review and critique the Research Proposal Seminar and the written portion of the Comprehensive Exam. This will qualify as the oral portion of the Comprehensive Exam.

The purpose of the oral portion of the examination following the Research Proposal Seminar is to provide an opportunity to clarify and explore further implications of the written examination as well as to present the student with new questions in the same general subject areas as those covered by the written exams, but it can also cover other areas that are relevant to the student’s graduate program. The oral portions should not be given until after the written examination has been evaluated by all of the committee members, but no later than four weeks after completion of the written portion. The student must pass the written portion of the Comprehensive Exam prior to taking the oral portion of the Comprehensive Exam. The oral exam must be passed by simple majority vote of the Advisory Committee. Once a student has passed both the written and oral portions of the Comprehensive Exam, the student will be admitted to Candidacy in the Microbiology Ph.D. program. When the student has passed both written and oral portions of the Comprehensive Exam, the Advisory Committee should finalize and approve the student’s Final Program of Study. The Advisory Committee may recommend additional coursework to strengthen the student’s background in areas in which the student was considered weak. In case of failure, the student may be allowed to retake all or part of the oral examination at the discretion of his/her Advisory Committee. If a student fails the oral exam a second time, that student will be dismissed from the program.
Doctoral Dissertation

Every student working toward the Microbiology Ph.D. degree must submit a dissertation embodying the results of original and creative research. The dissertation must demonstrate the student’s ability in independent investigation and must be a contribution to scientific knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and a creative discussion of the conclusions. Students may register for dissertation credit only after completion of all formal course work.

After the dissertation, in substantially final form, has been approved for format and content by the research advisor, and not later than two weeks before the date of the final examination, the student must personally deliver a copy of the dissertation to each member of the Advisory Committee.

Final Examination

The final examination of the dissertation will be conducted by the student’s Advisory Committee including the GFR. Students are required to give a departmental seminar on the dissertation immediately preceding the final examination. The examination is concerned primarily with the student’s research as embodied in the dissertation, but it may be broader and extend over fields of study related to the dissertation. Questions may be asked by committee members and those visitors specifically invited to do so by mutual agreement of the student’s Advisory Committee and the Dean of the Graduate School. A majority of the examining committee must approve the dissertation and the final examination.

Doctor of Arts (D.A.) in Biology

The Doctor of Arts degree in Biological Sciences is granted for proven ability and scholarly attainment in biological science instruction. The program stresses preparation for undergraduate teaching at colleges and universities and the development of research abilities that complement instruction at the college level. The program is concerned with the development of the candidate as a biologist, a scholar, and a professional educator. The program is designed to provide the student with a broad background in the biological sciences, the ability to conduct and interpret research, and excellent pedagogical skills.

Goals

All D.A. students must demonstrate:

1. a broad background in the biological sciences and an understanding of scientific inquiry;
2. the ability to synthesize concepts of biology and to effectively communicate these concepts;
3. the ability to conduct, analyze, and critique research in biological sciences and biological sciences instruction;
4. the ability to integrate current biological and educational research into their teaching;
5. an understanding of the history and philosophy of science and the impact of contemporary science on society;
6. expertise with teaching strategies appropriate for a variety of teaching and learning environments, including undergraduate research;
7. strong content knowledge in three of the departmental core coursework areas and competency in the remaining three core areas;
8. a well-developed philosophy of education.

Doctor of Arts Fellowships

Students admitted to the program with Fellowship Support can anticipate three years of support, contingent upon satisfactory performance toward their degree. Typically, provisions will be made for a fourth year of support, but the student and his/her major advisor must submit a letter to the departmental Graduate Programs Committee requesting an extension of support and provide a rationale and time line toward completion of the degree.

Master’s Degree Requirement

All applicants for the program must have completed a Master’s degree prior to entrance into the program. If a student enters the program without having completed a Master’s-level thesis or research paper in biology or a related science, he/she must complete this requirement in addition to the degree requirements or design a dissertation project that incorporates biological research as a major component. This additional requirement may increase the length of time in the program and may limit the flexibility of the degree.

Diagnostic Examination

Incoming D.A. students are required to take an oral diagnostic examination. The purpose of the examination is to assess the student’s potential to become an effective instructor by examining the depth of his/her background in biological science and communicative skills. The examination is meant to be primarily diagnostic, and the results are used by the student’s Advisory Committee to help plan the Program of Study. The examination covers six core conceptual areas of biology (Cell Biology, Genetics, Ecology, Evolution, Physiology, Organismal Biology) and knowledge of pedagogy. The purpose of the oral examination is to validate the results of the Biology GRE and the coursework listed on the student’s transcript, and to observe the student’s oral communicative skills.

The oral examination is conducted no later than six weeks after the beginning of the first semester of the student’s program (exception: for students taking the Biology subject GRE in November of their first semester, the oral exam may be delayed until the end of the student’s first semester). The oral examining committee is appointed by the Chair of the Graduate Programs Committee. After completion of the examination, the oral examining committee will submit suggestions to the student and his/her Advisory Committee for planning the Program of Study. Normally, the student, in conjunction with the committee, will select three of the core areas to emphasize, however a student must demonstrate competency in the remaining three areas as well.

Although the diagnostic examination is used primarily for advising purposes, if the student’s performance is generally unsatisfactory, the oral examining committee will select one of the following options: (1) the student may continue in the program but with certain specified additional requirements, (2) the student may take a second oral examination the following semester, or (3) the student will not continue in the program. If the performance on the second oral examination is unsatisfactory, the student will be dismissed from the program.

Advisory Committee

Graduate programs in the Department of Biological Sciences are directed by Advisory Committees selected by the student, in consultation with their advisor. The committee will consist of at least four faculty members, plus a Graduate Faculty Representative.
(GFR). At least three faculty must be from the Department of Biological Sciences, and at least two committee members should have expertise in the core areas of coursework chosen by the student.

**Coursework Requirements**

The D.A. degree program requires a minimum of 48 semester credits beyond the Master’s degree. A program of coursework is established jointly by the student and his/her committee. The program should reflect previous coursework, previous teaching experiences, results of the diagnostic examination, the interests and professional goals of the student, and the goals of the D.A. in Biological Sciences instruction as previously listed in this document. All D.A. students are required to take Advanced Studies in College Teaching (4 credits) and a minimum of two Seminars in College Teaching (4 credits). D.A. students are encouraged to participate in topical seminars, professional organizations, grant writing, and to submit their work to education and scientific journals.

**Internship Requirements**

Internships are a very important part of the D.A. program. Each internship should be a rigorous, thoroughly planned pedagogical activity that provides an opportunity for development of skills in traditional and innovative teaching methods and for utilizing techniques, etc. developed during the program. Students must follow the Guidelines for the Supervised Teaching Internships. The internship requirement is flexible to accommodate the needs of each student.

Written proposals for each internship must be discussed and approved by the student’s committee before the internship begins. Exact procedures for evaluating the internship will depend on the nature of what is done and where it occurs. However, evaluation is considered to be an integral and important part of the internship, and students must develop an evaluation system in concert with the internship supervisors. It is expected that this evaluation will at least include provisions for substantive feedback from students, the major advisor, committee members, and supervising faculty. Students must complete an internship report within one semester of teaching.

Typically, students will be expected to focus on coursework and their scholarly research during their first two semesters in residence, and not begin internships until after their second or third semester in the program. Internships must be completed prior to the last semester of residency. A minimum of 9 credits of internship are required, but no more than 16 can be counted toward the degree. A comprehensive report of each internship, including evaluation, must be submitted to the student’s committee prior to the final seminar and examination. This comprehensive internship report should be prefaced by a Statement of Teaching Philosophy. A copy of this report will be retained separately in the student’s departmental file unless it is part of the dissertation.

**Dissertation Proposal and Defense**

During the first three semesters in residence, the student will prepare a written dissertation proposal. The dissertation can be designed to include multiple components such as:

- biological research;
- application of biological research to the classroom;
- pedagogical research related to biological sciences instruction at the college level;
- assessment of student learning;
- in-depth analysis and evaluation of internship teaching;
- multi-media or other curricular development, use, and evaluation;
- conducting research and involving undergraduates in such research, and evaluating the efficacy of such involvement.

The written proposal will include: (1) a survey of the literature to develop a rationale for the research, (2) a statement of the problem(s) or hypothesis(es) to be addressed, (3) detailed descriptions of methods including the experimental design and planned statistical analyses, (4) preliminary data (optional, but strongly encouraged), (5) a time line, (6) a bibliography, and (7) a budget (optional).

When the research proposal has been approved by the major professor and the remainder of the Advisory Committee, the student will prepare and present a one-hour seminar on the proposed research to the Department. This presentation will occur no later than the end of the student’s third semester in residence. Immediately after the seminar, the student will be given an oral examination by his/her Advisory Committee. This examination will focus on the proposed research. The student’s Advisory Committee will evaluate the student’s performance and may (1) admit the student to further work toward the D.A.,

(2) recommend that the student revise the proposal and/or improve her/his background before attempting to continue graduate work, (3) recommend limitation of the program to the M.S. degree, or (4) in rare cases, recommend dismissal from the graduate program. In the event of the first two decisions, the committee will provide the student with specific recommendations or requirements. In the case of the second decision, the committee also will schedule a second evaluation after not less than one semester.

Once the student has successfully defended the research proposal, the student is advanced to candidacy.

**Comprehensive Examination**

The comprehensive examination consists of a written and oral portion. The written examination tests the student’s knowledge of the core areas of biology and the topics covered in the education seminars. Depth and breadth of the examination on these topics should be commensurate with the recommendations from the diagnostic examining committee, and the three selected core areas as represented in the student’s program of study. The oral examination assesses the student’s capability to communicate answers effectively and areas of weakness indicated by the written examination.

Each member of the student’s committee will submit a section of the examination on which the student will be expected to write for 4 to 6 hours. Each committee member will individually determine whether the student passed his/her section of the examination; the student must pass at least 75% of these sections. If the written examination is not passed, the committee may recommend that the student not proceed further in the program, or that the student re-take those portions of the written examination that were not passed.

The oral examination should be scheduled within two weeks of satisfactory completion of the written examination. Failure to pass the oral examination can result in the recommendation that the student not proceed further in the program, or that the oral examination should be re-taken at a later date. Failure to pass the comprehensive examination twice results in automatic termination from the program.

**Doctoral Dissertation**

Every student working toward the D.A. degree must submit a dissertation embodying the results of original and creative research. The dissertation must demonstrate the
A majority of the examining committee is concerned primarily with the student's ability in independent investigation and must be a contribution to scientific or science education knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions.

The form and style of the dissertation should comply with the format prescribed by the journal in which the student intends to publish the material and must meet the requirements of "Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects," which is available from the Graduate School. Within the framework of these constraints, however, the format of the dissertation can vary, ranging from a series of stand-alone chapters, to a single, comprehensive unit. In the former case, a preface that explains the overall layout should be included. After the dissertation has been approved for format and content by the major professor, and not later than two weeks before the date of the final examination, the student must deliver a copy of the dissertation to each member of the Advisory Committee (including the GFR).

Dissertation Defense
The student's Advisory Committee, including the GFR, will conduct the final examination of the dissertation. The final defense must be completed at least two weeks before the date set for the commencement exercises at which the student expects to obtain a degree. Students are required to give a departmental seminar on the dissertation immediately preceding the final defense. The examination is concerned primarily with the student's research as embodied in the dissertation, but it will also include the Teaching Internships. A majority of the examining committee must approve the dissertation and the final defense.

Master of Science in Biology (Botany or Zoology Emphasis) or Master of Science in Microbiology
A program of study leading to the Master of Science (M.S.) Degree is designed to enable students to develop an advanced understanding of the biological sciences and the capability to teach or conduct biological research. Programs are flexible and can be tailored to satisfy the professional and personal needs of each student.

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following department requirements. Acceptance to an M.S. program is contingent upon a biology faculty member agreeing to serve as the applicant's advisor. Students interested in pursuing an advanced degree in the biological sciences at Idaho State University are encouraged to contact the faculty member(s) with whom they wish to study, prior to making formal application to the department. Applicants must have at least a 3.0 GPA for all upper-division credits taken in the previous degree program. Scores on the verbal, quantitative, and analytical portions of the GRE must be submitted.

Certain courses are prerequisite for admission to the M.S. degree programs, and any student who has not met these requirements through previous course work must take them as part of his/her M.S. program. These courses are:

1. One semester of calculus
2. One year of inorganic chemistry
3. One semester of organic chemistry
4. One semester of physics
5. Six additional credits in physics, chemistry, or mathematics that differ from those courses listed in 1-4 above
6. Quantitative analysis and/or analytical chemistry (M.S. in Microbiology only)

Note: Because these are undergraduate courses, these credits do not count toward the 30-credit hour requirement for the M.S. degree.

General Requirements
A substantial, original research project is required that culminates in a written thesis and oral presentation of the findings at a Biological Sciences department seminar. A minimum of 30 credits (including research and thesis) are required in graduate courses and seminars that provide mastery in core conceptual areas in the biological sciences.

The core areas for the M.S. in Biology are:
1. genetics and evolution
2. animal or plant physiology
3. cell biology, biochemistry, or molecular biology, and
4. ecology or morphology

The core areas for the M.S. in Microbiology are:
1. biochemistry and molecular biology
2. physiology of microorganisms
3. immunology
4. microbial genetics, and
5. virology

Students may gain expertise in the core areas through a variety of mechanisms, including graduate courses, seminars, special projects, or readings. Although there are no specific credit hour requirements for the core areas, it is expected that the total effort expended in each area would be at least equivalent to that required in a rigorous course in that subject area, and that any credits earned as part of the graduate program will be at the graduate level (i.e., at the 5500-level or above). The credit hours earned in such classes will count toward the 30-credit requirement for the degree.

The ability to utilize a research tool is required, which can be satisfied by taking classes in biometry, electron microscopy, or a related field outside the biological sciences, such as geology, engineering, economics, or computer science. Graduate credits that satisfy the tool requirement count toward the 30-credit requirement for the degree.

Specific Requirements for the M.S. Degree
Of the required 30 credits for the M.S. degree, at least 15 credits must be earned at the 6600-level, which include:
In addition, all M.S. students must take a statistics course approved by their graduate committee.

**Note:** A student may take an unlimited number of credits of BIOL 6650 and BIOL 6648, although a maximum of only 6 credits of BIOL 6650 and 4 credits of BIOL 6648 may be counted toward the required 30 credit hours for the degree.

---

**Advisory Committee**

The Advisory Committee consists of a minimum of three faculty members who are members of the Idaho State University graduate faculty. The student, in consultation with the major advisor, selects at least one additional faculty member from the Department of Biological Sciences. An additional faculty member from outside the Department of Biological Sciences, designated as the Graduate Faculty Representative (GFR), also must serve on the committee. The GFR is appointed by the Dean of the Graduate School, who is open to recommendations from the major advisor. The GFR need only participate in the thesis defense, but may be involved throughout the student’s program. The initial committee meeting should be held during the first semester of the student’s graduate program.

---

**Written Proposal, Proposal Seminar, and Proposal Defense**

M.S. students are required to present a seminar on their proposed thesis research in the first year of their program. The purpose of this proposal seminar is to have each student develop and present formal statements of the objectives (hypotheses), design, and importance of their proposed research. Students must submit an abstract to the seminar organizer at least one week prior to their presentation. Students also must write a research proposal and have the proposal approved by the Advisory Committee by the end of the semester in which they present. This proposal will: (1) be at least 5 pages in length, with citations appended, (2) address comments that resulted from the seminar presentation, and (3) be retained in the student’s departmental file.

---

Each M.S. applicant must submit a thesis embodying the results of original and creative research. The thesis must demonstrate the student’s ability in scientific investigation. The thesis must include a comprehensive review of literature on the topic, and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions. The form and style of the thesis should comply with the format prescribed by the national- or international-level journal in which the student intends to publish the material and must meet the requirements of “Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects,” which is available from the Graduate School. Within the framework of these constraints, however, the format of the thesis can vary in the number and arrangement of chapters.

Following completion of the written thesis, the student will present the research findings in a seminar. The thesis presentation will be followed by an oral defense conducted by the Advisory Committee. The student is responsible for scheduling the defense with the Graduate School and advertising the thesis seminar, with notices posted in the Life Sciences Building and in the Department newsletter, at least one week in advance of the thesis date. After the thesis has been approved for format and content by the major professor, and not later than two weeks before the date of the final examination, the student must deliver a copy of the thesis to each member of the Advisory Committee.

---

**BS/MS Option**

The goal of this option is to allow academically strong students to begin work towards an M.S. degree after completing the Junior year. This will allow students to complete an M.S. degree, as well as a B.S. degree, with only one additional year in school. This option is only available to students who have demonstrated an interest in independent research before the end of the Junior year, who can meet the Biological Sciences GPA and GRE requirements for admission to the M.S. program, and who have worked with a member of the Graduate Faculty who has agreed to serve as the student’s Graduate Advisor. After being accepted into the M.S. program, students who pursue this option will have to spend at least two summers doing research and/or coursework. Given its compressed time line and academic intensity, this option is only available to students who have demonstrated a high level of academic ability.

The student will be required to complete all of the graduation requirements for a B.S. degree in the Department of Biological Sciences. That degree will be awarded when those requirements are met, typically at the end of the 4th year. In completing the graduation requirements for a B.S. degree, these students should have met all of the coursework requirements for admission to the M.S. program.

The student will be admitted Classified with Performance Requirements (W/PR) to the MS Program after completing the Junior year. Admission requires that the student meet the existing GPA requirement (at least 3.0 for the Sophomore and Junior years).

The M.S. degree will be awarded only after the student has completed all of the requirements for the M.S. program.

---

**Requirements**

These requirements are for undergraduate students admitted to the BS/MS Option ONLY. BS/MS students are restricted to a maximum of six graduate-level credits until after completion of the B.S. degree.

**Master of Natural Science in Biology**

The Master of Natural Science (MNS) degree is designed to strengthen an individual’s background in biological sciences for secondary school teaching or for work in nature interpretation or environmental education centers. The student must possess or be working toward a standard teaching certificate, or, under exceptional circumstances, be employed or have specific career objectives that would not require teacher certification (as approved by the Graduate Programs Committee). This degree emphasizes subject matter and is a non-thesis program. It is not designed to prepare students for a doctoral program with...
a research emphasis or requirement. The degree is granted upon successful completion of a minimum of 30 graduate-level credits and satisfactory performance on a comprehensive written and oral examination.

**General Requirements**

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following department requirements. The MNS degree is primarily a coursework degree and therefore differs from the MS degree in Biology in several important ways. It does not require course prerequisites for admission. To complete the program, MNS students: (1) need not demonstrate breadth through coursework in each of the Core Areas, (2) are exempt from the Experimental Design/Statistics requirement, and (3) do not complete a Thesis. MNS students must meet Admission, Residency, Transfer of Credit requirements, and minimum Performance Levels.

A minimum of 30 graduate credits is required to complete the MNS degree program. Courses numbered 5500 and above, and those completed with a grade of B or better, are the only courses which may be applied toward the degree. It is expected that the courses will enhance both the breadth and depth of the student’s biological content knowledge. At least 20 of the credits must be taken in Biological Sciences. Biology Teaching Methods (BIOS 5513) is strongly recommended. A proposed plan of study should be submitted to, and approved by, the student’s advisory committee by the end of the first semester.

**Advisory Committee**

The student must select a major advisor, and, in consultation with the advisor, select at least one additional faculty member from the Department of Biological Sciences to serve on an advisory committee. Additionally, a Graduate Faculty Representative (GFR) from outside the Department of Biological Sciences must serve on the committee. The GFR is approved by the Graduate School, though students may recommend to the Dean of the Graduate School a faculty member from another department to serve as GFR. The initial committee meeting should be held in the first semester of the program. However, the GFR need only attend the final oral comprehensive examination.

**Written and Oral Comprehensive Examination**

The comprehensive examination consists of a written and an oral portion. The written examination tests the student’s knowledge of biological and educational topics commensurate with the student’s program of study. The oral examination assesses the student’s capability to communicate answers effectively to areas of weakness indicated by the written examination.

The written comprehensive examination must be completed no later than six weeks before the end of the student’s last semester. Each member of the student’s committee (excluding the GFR) will submit a section of the examination on which the student will be expected to write. The entire examination should be designed to require no more than 10 hours for completion. Each committee member will individually determine whether the student passed his/her section of the examination; the student must pass at least 75% of these sections. If the written examination is not passed, the committee may recommend that the student not proceed further in the program, or that the student re-take those portions of the written examination that were not passed.

The oral comprehensive examination should be scheduled within two weeks of satisfactory completion of the written examination, and no later than three weeks prior to the end of the semester. The oral examination will consist of questions posed by the student’s advisory committee after they have reviewed the results of the written examination. Failure to pass the oral examination can result in the recommendation that the student not proceed further in the program, or that the oral examination be re-taken at a later date. Failure to pass the comprehensive examination twice results in automatic termination from the program.

**Biological Sciences Graduate Courses**

**BIOL 5500 Oral Histology and Embryology 3 credits.** The microanatomy and formative processes of the teeth and their surrounding structures. COREQ: BIOL 5500L.

**BIOL 5500L Oral Histology and Embryology Lab 0 credits.** Assignments to apply principles from BIOL 5500. COREQ: BIOL 5500.

**BIOL 5504 Plant Physiology 4 credits.** Study of plant physiological processes including water relations, mineral nutrition, photosynthesis, respiration, translocation of photosynthate, secondary compounds and phytohormones. PREREQ: BIOL 1101 AND BIOL 1102, AND ONE YEAR OF COLLEGE CHEMISTRY.

**BIOL 5505 Plant Form and Function 3 credits.** Integrated studies of anatomical and physiological adaptations of plants to their natural environment. Data collection and analysis will be emphasized. PREREQ: BIOL 1102. COREQ: BIOL 5505L.

**BIOL 5505L Plant Form and Function Lab 0 credits.** Assignments to apply principles from BIOL 5505. COREQ: BIOL 5505.

**BIOL 5506 Plant Diversity and Evolution 4 credits.** Study of the reproduction, structure, development, evolution, and classification of the fungi, algae, bryophytes, and vascular plants. Lectures, laboratories. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5506L.

**BIOL 5506L Plant Diversity and Evolution Lab 0 credits.** Assignments to apply principles from BIOL 5506. COREQ: BIOL 5506.

**BIOL 5508 Plant Ecology 3 credits.** Major factors limiting plant growth and distribution with emphasis on adaptation and response at the individual, population, and community levels. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5508L.

**BIOL 5508L Plant Ecology Lab 0 credits.** Assignments to apply principles from BIOL 5508. COREQ: BIOL 5508.

**BIOL 5509 Plant/Animal Interactions 3 credits.** Coevolution of plant and animal form and function emphasizing pollination, herbivory, parasitism, frugivory/seed dispersal, and optimal foraging. PREREQ: BIOL 2209.

**BIOL 5511D Clinical Microbiology I 3 credits.** Study and identification of medically important bacteria, viruses, fungi, chlamydiae, rickettsiae, and parasites as applicable to laboratory and infection control settings. PREREQ: BIOL 2235 OR 2221 OR EQUIVALENT, AND PERMISSION OF INSTRUCTOR.

**BIOL 5511E Clinical Microbiology II 3 credits.** Advanced topics in clinical microbiology, including application of laboratory techniques to the identification and evaluation of medically important pathogens, and correlations with disease states. PREREQ: BIOL 4411D, ADMITTED TO MED TECH INTERNSHIP.

**BIOL 5511F Clinical Hematology 3 credits.** Theoretical and applied aspects of clinical hematology and hemostasis with emphasis on recognition and correlation of abnormal laboratory observations with pathological conditions. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5511G Critical Analysis of Laboratory Values 3 credits.** Evaluation of clinical laboratory values with emphasis on advanced methods, specialized statistics, algorithm building, and clinical correlations. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5511I Immunology/Serology/Immunohematology II 3 credits.** Advanced topics in immunology/serology/immunohematology. Application
of laboratory techniques to the identification and evaluation of antibodies and antigens. Emphasis on transfusion therapy. PREREQ: BIOL 4411V, ADMITTED TO MED TECH INTERNSHIP.

BIOL 5511J Clinical Chemistry 3 credits. Theoretical and applied aspects of chemistry with emphasis on test development, validation, and use in diagnosis and management of pathological conditions. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5511K Molecular Biology Laboratory Methods 3 credits. Molecular biological techniques necessary for the understanding of research and diagnostics. Specific skills include DNA purification, amplification, cloning, manipulation, analysis, sequencing expression of cloned genes, and computer bioinformatic analysis of this information. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5511M Clinical Laboratory Research 3 credits. Individual theory and application of related topics associated with the clinical laboratory. PREREQ: PERMISSION OF INSTRUCTOR, ADMITTED TO MED TECH INTERNSHIP.

BIOL 5511S Laboratory Analysis and Management 3 credits. Advanced principles of current quality control, personnel, financial and regulatory issues laboratory information systems, management and education. Student presentations required. Students taking the course for graduate credit will develop, complete and present a project.

BIOL 5512L Systematic Botany Lab 0 credits. Assignments to apply principles from BIOL 5512. COREQ: BIOL 5512.

BIOL 5513 Biology Teaching Methods 3 credits. Planning, teaching and evaluating teaching activities. Practical experience in methods used in science classrooms and enhancing professional development. Required for secondary education majors in biology. PREREQ 16 CREDIT HOURS OF BIOLOGY AND EDUC 3302, OR PERMISSION OF INSTRUCTOR.

BIOL 5514 Graduate Teaching Assistant Seminar 2 credits. Introduction to college science teaching, with an emphasis on inquiry-based methods in the laboratory setting. Topics include how people learn, classroom management, professional ethics, peer evaluation of teaching. Required for all new graduate Teaching Assistants. Graded S/U.

BIOL 5515 Human Neurobiology 4 credits. Cellular-to-organismal structure and function of the human central nervous system (CNS), and CNS pathologies. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5515L Human Neurobiology Lab 1 credit. Detailed examination of the gross anatomy and pathways of the human central nervous system. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5516 Population/Community Ecology 4 credits. Introduces quantitative analysis of populations and communities, emphasizing demography, distribution, abundance, spatial and temporal dynamics, biodiversity, coexistence, and applications to conservation and land use decision-making. Includes data collection and analysis. PREREQ: BIOL 2209. COREQ: BIOL 5516L.

BIOL 5516L Population/Community Ecology Lab 0 credits. Assignments to apply principles from BIOL 5516. COREQ: BIOL 5516.

BIOL 5517 Organic Evolution 3 credits. An integrated study of evolution as a unifying concept in biology. An examination of patterns and processes that affect the origin and diversification of species through time. PREREQ: BIOL 3358.

BIOL 5518 Ecological Topics 1 credit. Flexible use of seminars, lectures, and laboratory/field work dealing with current issues in ecology. Topic emphasis varies. May be repeated until a maximum of 3 credits is earned. PREREQ: BIOL 2209 OR PERMISSION OF INSTRUCTOR.

BIOL 5519 Mammalian Histology 4 credits. Study of human animal tissues, including structural and functional characteristics of tissues and organs. PREREQ: BIOL 2206, BIOL 2207, OR BIOL 3301 OR BIOL 3303 AND BIOL 3302. COREQ: BIOL 5519L.

BIOL 5519L Mammalian Histology Lab 0 credits. Assignments to apply principles from BIOL 5519. COREQ: BIOL 5519.

BIOL 5520 Musculo-Skeletal Anatomy 2 credits. Study of human body structure emphasizing muscular system and its relationship to axial and appendicular skeleton. Focus on extremities, thorax, and pelvis with applications toward normal, diseased and rehabilitative functions. PREREQ: BIOL 3301 AND BIOL 3302.

BIOL 5521 Ecological Concepts 3 credits. Major concepts in ecology in relation to environmental degradation, pollution, hazardous materials, and environmental management. Credit may not be used for a graduate degree in biology.

BIOL 5522 General Parasitology 3 credits. Study of the parasitic symbiOLES of animals, plants and other organisms focusing on concepts, principles, and consequences of such interactions and the evolutionary processes by which they are created. PREREQ: BIOL 1101 AND BIOL 1102.

BIOL 5523 General Parasitology Lab 0 credits. Assignments to apply principles from BIOL 5522. COREQ: BIOL 5522.

BIOL 5524 General Parasitology Lab 0 credits. Assignments to apply principles from BIOL 5523. COREQ: BIOL 5533L.

BIOL 5525 Medical Parasitology and Entomology 3 credits. Study of animal parasites, with an emphasis on protozoa, helminths and arthropods affecting human health and welfare by their presence or indirectly via pathogens they transmit. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5525L.

BIOL 5526L Herpetology Lab 0 credits. Assignments to apply principles from BIOL 5526. COREQ: BIOL 5526.

BIOL 5527 Ichthyology 3 credits. The biology of fishes; lecture topics include evolutionary history, functional morphology, physiological ecology, and biogeography. Laboratory and weekend field trips cover identification, life history and collecting techniques. Emphasis on Idaho species. PREREQ: BIOL 2209. COREQ: BIOL 5527L.

BIOL 5527L Ichthyology Lab 0 credits. Assignments to apply principles from BIOL 5527. COREQ: BIOL 5527.

BIOL 5528 Medical Parasitology and Entomology 3 credits. Study of animal parasites, with an emphasis on protozoa, helminths and arthropods affecting human health and welfare by their presence or indirectly via pathogens they transmit. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5528L.

BIOL 5528L Medical Parasitology and Entomology Lab 0 credits. Assignments to apply principles from BIOL 5528. COREQ: BIOL 5528.

BIOL 5529 Regional Anatomy and Histology 4 credits. Regional approach to gross human anatomy emphasizing the use of dissected materials and microscopic anatomy. Designed primarily for students in the Physician Assistant Program. PREREQ: BIOL 3301, BIOL 3302. COREQ: BIOL 5529L.

BIOL 5529L Regional Anatomy and Histology Lab 0 credits. Assignments to apply principles from BIOL 5529. COREQ: BIOL 5529.

BIOL 5531 General Entomology 3 credits. Study of structure, development, classification, and life histories of insects, including ecological, economic and management considerations. An insect collection may be required. Field trips. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5531L.

BIOL 5531L General Entomology Lab 0 credits. Assignments to apply principles from BIOL 5531. COREQ: BIOL 5531.

BIOL 5532 Biochemistry 3 credits. Comprehensive discussion/presentation of structure, function and metabolism of biological macromolecules and their constituents, including energetics, regulation, and molecular biology, with emphasis on critical analysis of biochemical issues. PREREQ: Organic Chemistry or Introduction to Biology. OR PERMISSION OF INSTRUCTOR.

BIOL 5533 Microbial Physiology 3 credits. Comparative physiology of microorganisms, including structure/function, metabolic diversity, enzyme mechanisms of microbial metabolism, and physiology of extreme organisms. Lectures, Class Exercises. PREREQ: Microbiology OR PERMISSION OF INSTRUCTOR. COREQ: BIOL 5533L.

BIOL 5533L Microbial Physiology Lab 0 credits. Assignments to apply principles from BIOL 5533. COREQ: BIOL 5533.
BIOl 5534 Microbial Diversity 3 credits. Enrichment, cultivation, and isolation of prokaryotes from various metabolic groups and environments. Microorganisms will be identified using classical microbial techniques and modern molecular methodologies. PREREQ: Microbiology and BIOL 5533 or PERMISSION OF INSTRUCTOR. COREQ: BIOL 5544L.

BIOl 5534L Microbial Diversity Lab 0 credits. Assignments to apply principles from BIOL 5534. COREQ: BIOL 5534.

BIOl 5535 Vertebrate Paleontology 4 credits. Phylogenetic history of the vertebrates outlined in the light of morphology, classification, evolution, paleoecology, and the significance of fossils. Field trips. Cross-listed as GEOL 5535. PREREQ: GEOL 5531 or BIOL 3314 or EQUIVALENT.

BIOl 5537 Experimental Biochemistry 1 credit. Laboratory course including both qualitative and quantitative experiments. Cross-listed as CHEM 5538. PREREQ or COREQ: BIOL 5532 or BIOL/CHEM 5545.

BIOl 5538 Ornithology 3 credits. Study of the origin, evolution, structure, habits, adaptations, distribution, and classification of birds. Field trips. PREREQ: BIOL 1101 and BIOL 1102.

BIOl 5539 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed with ANTH 5539 and GEOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

BIOl 5540 Human Gross Anatomy 4 credits. Comprehensive regional study of gross human anatomy with emphasis on the upper limb, thorax, abdomen, pelvis and perineum. Designed for the first year dental students and complements BIOL 5550. Lecture and laboratory. COREQ: BIOL 5540L.

BIOl 5540L Human Gross Anatomy Lab 0 credits. Assignments to apply principles from BIOL 5540. COREQ: BIOL 5540.

BIOl 5541 Mammalogy 3 credits. General study of mammals including classification, identification, habits, ecology, economies, and techniques of study, with emphasis on North American forms. Field trips. PREREQ: BIOL 2209. COREQ: BIOL 5541L.

BIOl 5541L Mammalogy Lab 0 credits. Assignments to apply principles from BIOL 5541. COREQ: BIOL 5541.

BIOl 5542 Plant and Animal Interactions 3 credits. Coevolution of plant and animal form and function emphasizing pollination, herbivory, parasitism, frugivory/seed dispersal, and optimal foraging.

BIOl 5543 Endocrinology 3 credits. Study of the anatomy and physiology of the ductless glands and the properties and uses of natural and synthetic hormones. PREREQ: BIOL 3303.

BIOl 5544L Molecular Biology Laboratory 1 credit. Laboratory techniques in molecular biology, including cloning, PCR and DNA sequencing. COREQ: BIOL 5544.

BIOl 5545 Biochemistry 1.3 credits. Introduction to basic aspects of biochemical systems, including fundamental chemical and physical properties of biomolecules. Enzymology including allosterism, metabolic regulation, bioenergetics, and carbohydrate metabolism. Cross-listed as CHEM 5545. PREREQ: Introduction to Biology and Organic Chemistry OR PERMISSION OF INSTRUCTOR.

BIOl 5546 Selected Topics in Physiology 1 credit. Selected topics in physiology for dental students: blood coagulation-complement-kinin systems, prostaglandin and related substances, vitamins, steroids, mucopolysaccharides, collagen and other extracellular matrix molecules and cyto- and molecular genetics.

BIOl 5549 Human Physiology I 4 credits. First of a two-course sequence. Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. PREREQ: BIOL 2202; CHEM 1111, CHEM L1111, CHEM 1112, CHEM L1112; COREQ: BIOL 5525.

BIOl 5550 Head and Neck Anatomy 4 credits. Comprehensive presentation of the anatomy of the head and neck as it applies to the practice of dentistry. Lecture and laboratory. COREQ: BIOL 5550L.

BIOl 5550L Head and Neck Anatomy Lab 0 credits. Assignments to apply principles from BIOL 5550. COREQ: BIOL 5550.

BIOl 5551 Immunology 3 credits. Fundamental concepts of antibody-mediated and cell-mediated mechanisms of immunity. In-vivo and in-vitro antigen-antibody interactions are discussed. PREREQ: Microbiology OR PERMISSION OF INSTRUCTOR.

BIOl 5551L Immunology Laboratory 1 credit. Selected laboratory experiments to accompany BIOL 5551. Immunology. PREREQ OR COREQ: BIOL 5551. OPEN TO NON-MAJORS BY SPECIAL PERMISSION.

BIOl 5554 Advanced Immunology 3 credits. Detailed study of selected areas of immunobiology. Course content will vary with current demand. Students will lead discussions and present current literature. PREREQ: BIOL 5551 AND PERMISSION OF INSTRUCTOR. COREQ: BIOL 5554L.

BIOl 5555 Pathogenic Microbiology 3 credits. How the medically important bacteria, viruses and fungi interact with the host to produce disease, including microbe characteristics, pathogenesis, pathological processes, prevention, and treatment methods. PREREQ: Microbiology OR PERMISSION OF INSTRUCTOR.

BIOl 5555L Pathogenic Microbiology Laboratory 2 credits. Will emphasize procedures for the isolation and identification of pathogenic bacteria. Clinical specimens will be provided for use in identification of unknowns. PREREQ OR COREQ: BIOL 5555.

BIOl 5556 Human Physiology II 4 credits. Physiology of gastrointestinal, endocrine, and reproductive systems. Includes studies of acid-base balance, peripheral circulation, shock, and temperature regulation. PREREQ: BIOL 5549 OR EQUIVALENT.

BIOl 5559 Fish Ecology 3 credits. Study of the behavior, habitat use, population dynamics, and management of freshwater fishes, especially salmon and trout. Laboratory and weekend field trips emphasize sampling techniques and data analysis. PREREQ: BIOL 2209, BIOL 3315, BIOL 5527.

BIOl 5559L Fish Ecology Lab 0 credits. Assignments to apply principles from BIOL 5559.

BIOl 5560 Neuroscience 4 credits. Comprehensive presentation of the anatomy of the central nervous system, the brain and spinal cord. Combined lecture and laboratory demonstration. PREREQ: PERMISSION OF INSTRUCTOR.

BIOl 5560L Neuroscience Lab 1 credits. Detailed examination of the gross anatomy and pathways of the human central nervous system. PREREQ: PERMISSION OF INSTRUCTOR.

BIOl 5561 Advanced Genetics 3 credits. Detailed and critical consideration of selected genetic topics with emphasis of recent advances. PREREQ: Genetics AND PERMISSION OF INSTRUCTOR.

BIOl 5562 Freshwater Ecology 3 credits. Study of the interaction of physical and biotic factors in aquatic communities. Field trips. PREREQ: BIOL 2209.

BIOl 5563 Human Pathophysiology 4 credits. The study of basic processes underlying diseases with an emphasis on correlating anatomical, functional, and biochemical alterations with clinical manifestations. Laboratory required. PREREQ: BIOL 3301 AND BIOL 3302, OR PERMISSION OF INSTRUCTOR. COREQ: BIOL 5563L.
BIOL 5563L Human Pathophysiology Lab 0 credits. Assignments to apply principles from BIOL 5563. COREQ: BIOL 5563.

BIOL 5564 Lectures in Human Physiology 4 credits. Physiology of the nervous, muscular, circulatory, respiratory, and excractory systems. PREREQ: BIOL 3301, BIOL 3302, AND ONE YEAR OF COLLEGE CHEMISTRY.

BIOL 5566 Medical Mycology 3 credits. Lecture/laboratory course addressing medically important fungi. Taxonomy, clinical disease, pathogenesis, immunological diagnosis and laboratory identification of contaminants, opportunists, superficial, cutaneous, subcutaneous and systemic mycoses. PREREQ: Microbiology.

BIOL 5568 Oral Microbiology 1 credit. Study of microbiology of plaque, caries, periodontal disease, immunobiology of oral disease and control of microorganisms with antimicrobial agents. Four periods devoted to laboratory study of medically important oral microbes. PREREQ OR COREQ: BIOL 5555.

BIOL 5569 Special Topics in Microbiology 1-4 credits. Study of selected topics in microbiology. Course contents will vary with topics selected. May be repeated with departmental approval for non-repetitive course content. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5570 Cross-Sectional Anatomy 2 credits. Applied regional anatomy as viewed in sectional planes, emphasizing topographic relationships of organs and surface anatomy, with interpretation of correlated CT and MRI imaging. PREREQ: BIOL 3301 AND BIOL 3302.

BIOL 5573 Applied and Environmental Microbiology 3 credits. Concepts in applied microbiology and microbial ecology, including fermentation, biotechnology, and ecophysiology. COREQ: BIOL 5573L.

BIOL 5573L Applied and Environmental Microbiology Lab 1 credit. Laboratory exercises in applied and environmental microbiology. COREQ: BIOL 5573.

BIOL 5574 Human Anatomy (Occupational Therapy/Physical Therapy) 5 credits. Applied regional anatomy emphasizing the development, histology and gross anatomy of the musculoskeletal, peripheral nervous, and cardiopulmonary systems. Includes laboratory with cadaver dissection. PREREQ: PERMISSION OF INSTRUCTOR. COREQ: BIOL 5574L.

BIOL 5574L Human Anatomy (Occupational Therapy/Physical Therapy) Lab 0 credits. Assignments to apply principles from BIOL 5574. COREQ: BIOL 5574.

BIOL 5575 General Virology 3 credits. Introduction to the general principles of virology through consideration of structure, genetics, replication and biochemistry of animal and bacterial viruses. PREREQ: COMPLETION OF 90 CREDITS.

BIOL 5576 Ecology of Water Pollution 3 credits. Study of the causes of pollution and their effects on the aquatic environment and its inhabitants. Special consideration will be given to the biological and chemical assessment of pollution in streams and to its control. Field work. PREREQ: BIOL 5562 OR PERMISSION OF DEPARTMENT. COREQ: BIOL 5576L.

BIOL 5576L Ecology of Water Pollution Lab 0 credits. Assignments to apply principles from BIOL 5576. COREQ: BIOL 5576.

BIOL 5577 Bacterial Virology Laboratory 1 credit. Designed to acquaint students with the techniques and experimental principles used in the study of bacterial viruses. Must be accompanied by BIOL 5575.

BIOL 5578 Animal Virology Laboratory 1 credit. Introduces tissue culture methods and other techniques employed in the study of animal viruses. Must be accompanied by BIOL 5575.

BIOL 5579 Survey of Electron Microscopy 2 credits. Introduction to the potentialities, theory, techniques, and limitations of electron microscopy. The field will be surveyed as a whole, but primary emphasis will be on biological applications. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5581-5582 Independent Problems 1-4 credits. Individual problems will be assigned to students on the basis of interest and previous preparation. May be repeated. PREREQ: A MINIMUM OF TWO COURSES IN BIOLOGICAL SCIENCES AND PERMISSION OF INSTRUCTOR.

BIOL 5586 Human Systemic Physiology 5 credits. One semester human physiology course emphasizing the function and regulation of the muscular, skeletal, circulatory, respiratory, urinary, reproductive, and immune systems. PREREQ: CHEM 1111, CHEM 1111L, CHEM 1112, CHEM 1112L; BIOL 3301 AND BIOL 3302 OR EQUIVALENT. COREQ: BIOL 5586L.

BIOL 5586L Human Systemic Physiology Lab 0 credits. Assignments to apply principles from BIOL 5586. COREQ: BIOL 5586.

BIOL 5588 Advanced Radiobiology 3 credits. An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Cross-listed as PHYS 5588. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 5589 Field Ecology 3 credits. An intensive field study of at least one biogeographical region to increase students’ knowledge of and skill with field sampling techniques, field-study design, data collection and analysis, and report preparation. PREREQ: BIOL 2209.

BIOL 5595 Ethology 3 credits. Behavior of animals and the evolutionary mechanisms that dictate behavioral patterns. PREREQ: UPPER DIVISION OR GRADUATE STATUS.

BIOL 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

BIOL 6601 Animal Behavior 3 credits. Behavior and social organization of animals with particular attention to the vertebrates. Lecture, laboratory, and field work. PREREQ: GRADUATE STANDING AND PERMISSION OF DEPARTMENT.

BIOL 6602 Advanced Plant Physiology 3 credits. Study of interrelationships of soil, water, and minerals in the nutrition of plants. PREREQ: BIOL 5504.

BIOL 6603 Comparative Physiology 3 credits. Study of the ways in which organisms meet their functional requirements. Lecture and laboratory. PREREQ: GRADUATE STANDING AND PERMISSION OF DEPARTMENT.

BIOL 6604 Advanced Limnology: Streams and Biotic Production 3 credits. Study of the ecology of streams; chemical, physical, and geological aspects in relation to biota. The production of organic matter in flowing water is emphasized, including the tracing of food chains and food webs and the construction of energy budgets. Field trips. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 6605 Biometry 4 credits. Application of descriptive and analytical statistical methods to experimental design and biological research. PREREQ: MATH 1143 OR EQUIVALENT OR PERMISSION OF INSTRUCTOR.

BIOL 6606 Scientific Writing 3 credits. Review of basic principles of grammar, organization, style, and persuasive argument as applied to specific areas of scientific writing. Each student will write proposals, technical reports and review manuscripts, and reviews of proposals and manuscripts.

BIOL 6607 Environmental Physiology 3 credits. Study of the physiological mechanisms and interrelated behavioral patterns by which animals respond to environmental factors. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

BIOL 6610 Principles of Molecular Biology 3 credits. Introduction to subcellular biology and molecular genetics. DNA replication, cell division, the genetic code, transcription, translation, enzyme function, and control mechanisms in procaryotic and eucaryotic cells. PREREQ OR COREQ: BIOL 5532.

BIOL 6613 Biogeography 3 credits. Discussion of patterns of distribution of species and their historical and ecological causes. Includes research project.

BIOL 6614 Evolutionary Ecology 3 credits. Evolutionary theory applied to ecological processes, including selection theory, ecological genetics, life-history evolution and coevolution. PREREQ: BIOL 2209, BIOL 3358, BIOL 5517.

BIOL 6616 Advanced Community Ecology 4 credits. Historical and contemporary concepts and methods in community ecology and its interface with other fields, including molecular biology, informatics, conservation, social sciences, and landscape and ecosystem ecology. Emphasizes quantitative models and data analysis.
BIOL 6621 Advanced Methods in Microbiology 3 credits. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

BIOL 6623 Soil and Ground Water Bioremediation 3 credits. Theoretical and applied aspects of biological treatment for contaminated subsurface systems.

BIOL 6624 Microbial Ecology 3 credits. Ecological principles applied to microorganisms. PREREQ: GRADUATE STANDING AND A COURSE IN MICROBIOLOGY.

BIOL 6626 Cytology and Cell Physiology 4 credits. Advanced study of the functions and structural components of cells. Lecture and laboratory. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

BIOL 6628 Basic Concepts in Biology 3 credits. Considerations of fundamental concepts of biology, their origin and development. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 6629 Advanced Systematic Botany 3 credits. Classification of plants as it rests on morphological, chemical, ecological, and genetic bases. PREREQ: BIOL 5512.

BIOL 6630 Advanced Microbial Physiology 3 credits. Advanced topics in microbial physiology and biochemistry. PREREQ: BIOL 5532 AND PERMISSION OF INSTRUCTOR.

BIOL 6634 Intermediary Metabolism 3 credits. Theory, reactions, and methods pertinent to research in intermediary metabolism. PREREQ: BIOL 5532 AND PERMISSION OF INSTRUCTOR.

BIOL 6636 Experimental Intermediary Metabolism 2 credits. Must be accompanied by or preceded by BIOL 6634.

BIOL 6640 Advanced Topics in Hematology 1-4 credits. Current research and practice in hematology including molecular approaches to diagnosis and treatment and stem cell therapy. May be repeated for a maximum of 4 credits.

BIOL 6641 Advanced Topics in Immunology and Immunohematology 1-4 credits. Current research and practice in immunology and immunohematology (transfusion medicine) including molecular approach to diagnosis and treatment. May be repeated for a maximum of 4 credits.

BIOL 6642 Advanced Topics in Clinical Chemistry 1-4 credits. Current research and practice in clinical chemistry including innovative instrumentation and molecular diagnostics. May be repeated for a maximum of 4 credits.

BIOL 6643 Advanced Topics in Clinical Laboratory Education 1-4 credits. Curriculum design and evaluation in the clinical laboratory setting. May be repeated for a maximum of 4 credits.

BIOL 6648 Graduate Problems 1-9 credits per semester (may be repeated). Thesis related research. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. Graded S/U.

BIOL 6650 Thesis 1-6 credits. Graded S/U. May be repeated.

BIOL 6651 Advanced Studies in Ecology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with ecological relationships. May be repeated.

BIOL 6652 Advanced Studies in Physiology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in physiology. May be repeated.

BIOL 6653 Advanced Studies in Vertebrate Zoology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in vertebrate zoology. May be repeated.

BIOL 6654 Advanced Studies in Invertebrate Zoology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in invertebrate zoology. May be repeated.

BIOL 6655 Advanced Studies in Vertebrate Paleontology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in vertebrate paleontology. May be repeated.

BIOL 6656 Advanced Studies in Systematic Biology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in systematic biology. May be repeated.

BIOL 6657 Advanced Studies in Plant Biology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in plant biology. May be repeated.

BIOL 6658 Advanced Studies in Limnology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in limnology. May be repeated.

BIOL 6659 Advanced Studies in Genetics 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in genetics. May be repeated.

BIOL 6660 Selected Topics in Biochemistry 3 credits. Detailed study of selected areas of biochemistry. Course content will vary with current demand. PREREQ: BIOL 5532 OR PERMISSION OF INSTRUCTOR.

BIOL 6661 Advanced Studies in Environmental Physiology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in environmental physiology. May be repeated.

BIOL 6662 Advanced Studies in Developmental Biology 2-6 credits. Flexible use of seminars, lectures, and laboratory work dealing with problems in developmental biology. May be repeated.

BIOL 6670 Selected Topics in Microbiology 1-4 credits. Detailed study of selected areas of microbiology. Course content will vary with current demand. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

BIOL 6675 Advanced Bacterial Virology 3 credits. Detailed study of selected areas of bacterial virology. Course content will vary with current demand. PREREQ: BIOL 5575 AND PERMISSION OF INSTRUCTOR.

BIOL 6676 Advanced Animal Virology 3 credits. Detailed study of selected areas of animal virology. Course content will vary with current demand. PREREQ: BIOL 5575 AND PERMISSION OF INSTRUCTOR.

BIOL 6679 Electron Microscopy 5 credits. Introduction to uses of the electron microscope in biological research. Designed to develop proficiency in use and operation of the electron microscope, specimen preparation for electron microscopy, and photographic skills as applied to electron microscopy. In addition, students will develop a special project for individual study. Enrollment limited to students who have a demonstrated need to learn electron microscopy techniques. PREREQ: BIOL 5579, GRADUATE STANDING, AND PERMISSION OF INSTRUCTOR.

BIOL 6687 Environmental Science and Pollutants 3 credits. Structure and function of ecosystems, sources and characteristics of hazardous materials, mechanisms and pathways of pollutant transport and degradation, mechanisms of pollutant impact on ecosystems and human health. PREREQ: BIOL 5521, AN UNDERGRADUATE ECOLOGY COURSE, OR EQUIVALENT.

BIOL 6691 Seminar 1 credit. Review of current research and literature. May be repeated until a maximum of 4 credits is earned. Graded S/U.

BIOL 6692 Seminar 1 credit. Review of current research and literature. May be repeated until a maximum of 4 credits is earned. Graded S/U.

BIOL 6693 Seminar in College Teaching 2 credit. Review of current research and literature. Rotation of topics will include professional development, theory and practice of science education, and current issues in biology instruction. May be repeated for up to 6 credits. Graded S/U.

BIOL 6694 Advanced Study in College Teaching 2-6 credits. Rotating topics on practical approaches to teaching college-level biology and conducting research in science education. May be repeated for up to 6 credits.

BIOL 6695 Seminar in Microbiology 1-3 credits. Review of current research and literature in Microbiology. May be repeated until 6 credits are earned. Graded S/U.

BIOL 7700 Supervised Teaching Internship variable to 9 credits per semester. May be repeated. Graded S/U.

BIOL 8850 Doctor’s Dissertation variable credit. May be repeated. Graded S/U.
Department of Chemistry

Chair and Professor: De Jesus
Professors: Castle, Holman, Kalivas, Rodriguez, J. Rosentreter
Associate Professors: Goss, Holland, Pak
Assistant Professors: Bennett, Davis, Evilla
Instructor: Halpenny-Weathersby
Senior Lecturers: Omar, R. Rosentreter
Assistant Lecturers: Jolley, Quarder

Master of Science in Chemistry

The M.S. program includes both thesis and non-thesis options.

Thesis Option

The M.S. program, thesis option, requires a substantial, original research project that culminates in a thesis, a minimum of 30 credits (including thesis credit) earned in graduate courses and seminars.

Non-Thesis Option

A non-thesis option exists in which students are required to take 15 credits of approved 6600-level chemistry courses, including CHEM 601 (Seminar, 2 credits), and 15 credits of graduate electives.

Goals

1. Graduates will attain a broad knowledge in the four major areas of Chemistry.
2. Graduates will conduct novel research in Chemistry.
3. Graduates will be prepared to continue their education in pursuit of a Ph.D.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School in addition to department requirements.

In addition, applicants must have at least a 3.0 GPA for all upper-division credits taken in the previous degree program (a B.S. or a B.A. in Chemistry). Graduate Record Examination (GRE) scores must be reported, and the scores of two of the three sections must be in the 35th percentile or higher.

Several courses are prerequisite for the M.S. degree programs; any student who has not met these requirements through previous course work must take them as part of his/her M.S. program. These are: one semester of calculus, one year of physics, one semester of inorganic chemistry, one year of organic chemistry, one semester of analytical chemistry, and one year of physical chemistry. Because these are undergraduate course prerequisites, any credit earned in taking these courses does not count toward the 30 credit requirement for the M.S.

General Requirements (See the suggested schedule)

During the first semester each student is expected to select three faculty members to serve as his/her advisory committee subject to the approval of the Department Chair. In the second semester, each student will form his/her planned program of study with the research advisor, write a research overview of the project, apply and be admitted to the Graduate School. The student is expected to begin his/her research no later than the beginning of the summer session. Thereafter, individual sections of the research paper will be required as students progress through the program.

The student must apply to, and meet all criteria for, admission to the Graduate School prior to their fourth year. Continuation in the program requires that the student maintain a minimum GPA of 3.0 from date of admission and annual approval of his/her committee. It will be recommended that students who are not making adequate progress discontinue the program.

The student must complete a total of 158 credit hours. This corresponds to 128 credit hours for the BS degree and 30 credit hours for the MS degree. The final course selection must be approved by the Chemistry Graduate Program Committee. Students are required to have completed all general education requirements by the end of their second year in the combined BS/MS program. It is the intent that all students will finish within the period of 3 years after admission to the program. Successful completion of the program requires that the student write and defend a research paper embodying his/her research before his/her research committee.

Suggested Schedule

The following schedule will show how a typical student might progress through the BS/MS program. Even though courses are listed as suggested, each student is required to meet all course requirements for the BS degree in chemistry (except independent problems CHEM 4481 and CHEM 4482). Each student is also required to complete all four advanced chemistry courses (CHEM 6609, CHEM6630, CHEM6655, and CHEM 6671). These courses are taken during the second and third years of the program.

Third Year (Junior)

Fall/Spring

*CHEM 3305 Organic Chemistry Laboratory III 2 cr
Chemistry Graduate Courses
CHEM 5500 Practicum in Physical Science 2 credits. Practical problems associated with equipping, setting up, and operating laboratories in chemistry. PREREQ: PERMISSION OF INSTRUCTOR.

CHEM 5507 Inorganic Chemistry II 2 credits. Structure and reactivity of inorganic compounds including coordination compounds; acid-base chemistry and nonaqueous solvent systems; organometallic chemistry and other special topics of current interest. PREREQ: PERMISSION OF INSTRUCTOR.

CHEM 5553 Environmental Chemistry 2 credits. This course applies chemical principles and calculation to investigate environmental issues. Natural systems, environmental degradation and protection, and the methodology of chemical detection and monitoring. PREREQ: CHEM 2232 AND CHEM 2234, OR PERMISSION OF INSTRUCTOR.

CHEM 5557 Environmental Chemistry Laboratory 1 credit. This laboratory course utilizes both structured and self-designed field and classroom experiments to emphasize principles of environmental chemistry. COREQ: CHEM 5555, OR PERMISSION OF INSTRUCTOR.

CHEM 5538 Experimental Biochemistry 1 credit. Laboratory course including both qualitative and quantitative experiments. Cross-listed as BIOL 5538. PREREQ or COREQ: BIOL 5532 or BIOL/CHM 5545.

CHEM 5545 Biochemistry 3 credits. Introduction to basic aspects of biochemical systems, including fundamental chemical and physical properties of biomolecules. Enzymology including allosterism, metabolic regulation, bioenergetics, and carbohydrate metabolism. Cross-listed as BIOL 5545. PREREQ: Introduction to Biology and Organic Chemistry OR PERMISSION OF INSTRUCTOR.

CHEM 5547 Biochemistry II 3 credits. Functional continuation of 5545. Lipid, amino acid and nucleotide metabolism. Emphasis is on metabolic regulation, metabolic dysfunction, biochemical mechanism of hormone action, biochemical genetics, protein synthesis, and metabolic consequences of genetic defects. Cross-listed as BIOL 5547. PREREQ: BIOL/CHM 5545.

CHEM 5548 Advanced Experimental Biochemistry 2 credits. Advanced laboratory projects designed to emphasize techniques of qualitative and quantitative biochemical analysis. Cross-listed as BIOL 5548. PREREQ: BIOL/CHM 5537/CHM 5538. COREQ: BIOL/CHM 5547.

CHEM 5581-5582 Independent Problems in Chemistry 1-4 credits each. Directed library and laboratory research. Courses may be repeated to a maximum of 6 credits. PREREQ: CHEM 3352.

CHEM 5591 Seminar 1 credit. A formal introduction to the chemical literature including electronic methods of literature searching. A detailed treatment of methods for presenting scientific seminars including a full-length student presentation on selected library or laboratory research. COREQ: CHEM 5581, 5582, 4485, OR PERMISSION OF INSTRUCTOR.

CHEM 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

CHEM 6601 Seminar 1 credit. Oral reports of current literature and research in chemistry. This course may be taken multiple times as determined by degree requirements. Graded S/U.

CHEM 6609 Advanced Inorganic Chemistry 3 credits. Synthesis, reactions, spectroscopic characterization methods, and application of transition metal complexes. Foci will vary and may include metal carbon bond transformations, biomimetic chemistry, or materials chemistry. PREREQ: CHEM 5507 OR PERMISSION OF INSTRUCTOR.

CHEM 6610 Special Topics in Chemistry 1-3 credits. Detailed consideration of a limited phase of chemistry; course content will vary with current demand and with the instructor; may be repeated with departmental approval for non-repetitive course content.

CHEM 6615 Neutron Activation Analysis 4 credits. Theory and use of neutron activation methods for quantitative chemical analysis of natural and synthetic materials. Applications in geologic systems will be emphasized. Cross-listed as GEOL 6615, PHYS 6615. PREREQ: PERMISSION OF INSTRUCTOR.

CHEM 6617 Environmental Geochemistry 3 credits. Geochemistry of environmental systems. Emphasis given to low-temperature water-rock interactions, including sorption processes, retardation, reaction kinetics and reaction-mass transport modeling. Cross-listed as GEOL 6617. PREREQ: GEOL 5520, OR CHEM 3351.

CHEM 6621 Organic Reactions 3 credits. Advanced study of organic chemical reactions with emphasis on synthetic applications. PREREQ: CHEM 3302.

CHEM 6625 Quantitative Geochemistry Lab 3 credits. Applications of instrumental methods for geochemical analysis. Cross-listed as GEOL 6625.

CHEM 6630 Advanced Analytical Chemistry 3 credits. Advanced treatment of standards, sampling, special methods of analysis, and methods of separation. PREREQ: CHEM 3302, CHEM 3304, CHEM 3334 AND CHEM 3352, OR PERMISSION OF INSTRUCTOR.

CHEM 6635 Master’s Research 2-6 credits. A continuation of CHEM 4435 to improve ability
Master of Arts in Organizational Communication

OR

Master of Arts in Rhetorical Studies

Goals
The primary objectives related to the graduate program in Communication and Rhetorical Studies are to help students develop the following competencies:

1. An understanding of the history and nature of the Communication discipline.
2. The ability to read, understand, and critique scholarly communication-related research and analysis.
3. The ability to design and conduct original communication-related research and analysis.
4. The ability to engage in critical thinking.
5. The ability to communicate effectively in writing.
6. The ability to communicate effectively through oral presentation.
7. The ability to construct and evaluate persuasive messages.
8. The ability to use effective information research strategies.
9. An understanding of the role of communication in interpersonal settings.
10. An understanding of the role of communication in group settings.
11. An understanding of the role of communication in organizational settings.
12. An understanding of the role of communication in historical/current events.
13. The program will facilitate the development of knowledge and skill applicable in graduates’ professional lives.
14. The program will facilitate the development of knowledge and skill applicable to graduates’ personal lives.

Admission Requirements
To be admitted to classified status, students must apply to, and meet all criteria for, admission to the Graduate School
American theorists. Writings of Plato, Aristotle, Cicero, Quirillian, Campbell, Blair, Whately, and Burke are stressed.

COMM 5540 Gender and Communication 3 credits. Course examines communication arenas from a perspective that focuses on gender and includes study of similarities and differences in female/male patterns. Topics include nonverbal, organizational, language, family and friendship.

COMM 5541 Interpersonal Communication 3 credits. Largely theoretical course, drawing from research in social sciences as well as speech. Focuses on communication variables associated with interpersonal communication including awareness of self/others, nature/functions of language, non-verbal behavior, norms and roles.

COMM 5542 American Rhetoric and Public Address 3 credits. Has a dual purpose: to study the impact of rhetoric (oral and written persuasion) on major events in American history; examine great speakers and rhetorical documents in their historical context.

COMM 5547 Rhetoric of Hitler and Churchill 3 credits. Rhetorical theory and practice of these influential leaders and the impact of their persuasion. Topics include Hitler’s oratory, Nazi propaganda, and Churchill’s World War speeches.

COMM 5551 Recent Rhetorical Issues 3 credits. Study of the rhetoric of contemporary issues such as the Vietnam war, the Black revolution, and other current political and social topics, including the rhetoric of ongoing election campaigns (taught alternate years).

COMM 5552 Conflict Management 3 credits. Examines the dynamics of everyday conflicts across a variety of settings, from personal to organizational. Principles of conflict, similar across all communicative contexts, are emphasized. Theory and its applications are given equal importance.

COMM 5554 Management Communication 3 credits. Examines the communication goals and functions unique to organizational managers and leaders. Topics studied include socialization and training, leader-member relationships, incentive-based systems of motivation, employee identification and commitment, and organizational development.

COMM 5591 Independent Research Projects 1-3 credits. Under the supervision of professors in the various areas of communication, students will prepare reports and carry out projects designed to produce professional growth. May be repeated for up to 6 credits. PREREQ: Permission of instructor and department.

COMM 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

COMM 6601 Introduction to Graduate Research Methods 3 credits. Orientation to departmental graduate program policies and expectations, overview of the communication discipline, and introduction to methods used for producing scholarly research in the field.

COMM 6630 Seminar in Rhetorical/Communication Theory 3 credits. In-depth study and analysis of selected rhetorical and/or communication theories. See instructor for specific topics. May be repeated once with permission of instructor.

COMM 6635 Seminar in Organizational Communication 3 credits. In-depth study and analysis of selected topics in organizational communication. See instructor for specific topics. May be repeated once with permission of instructor.

COMM 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

COMM 6660 Graduate Degree Paper 1-2 credits. May be repeated. Graded S/U.

COMM 6691 Independent Study 1-3 Credits. Under the supervision of departmental graduate faculty, students will engage in self-directed reading, exploration, and study focused on topics relevant to the communication discipline and to the students’ planned academic program. May be repeated for up to 6 credits. PREREQ: Permission of instructor and department.

Department of Economics

Professors: Benson, Hill, Stegner, Tokle
Associate Professors: Green

Economics Graduate Courses

(No graduate degrees are offered)

ECON 5504 Game Theory 3 credits. A mathematical modeling technique used to describe the behavior of interdependent economic agents. We define Nash equilibria in games with varying information structures: normal and extensive form games of perfect, imperfect and incomplete information. PREREQ: ECON 2210 AND ECON 2202.

ECON 5509 Industrial Organization 3 credits. Industrial organization extends the theory of the firm to examine firms’ strategic behavior, including methods to differentiate products and aggressive prizing schemes, and the government’s response to these activities. PREREQ: ECON 2210 AND ECON 2202.

ECON 5511 Political Economy 3 credits. A critical introduction to the relationship between economic institutions and social analysis. The social implications of different views on economic concepts, such as the division of labor, capital, and value, are investigated from a classical, neoclassical and an institutional perspective.

ECON 5533 Economic Development 3 credits. Theories and principles of economic development, characteristics, and problems of underdeveloped and developing countries; alternative techniques and policies for the promotion of growth and development.

ECON 5539 State and Local Finance 3 credits. Study of taxation, borrowing and spending by state, city, county and other local governments. Taxing and spending patterns are evaluated and compared by states.

ECON 5572 Comparative Economic Systems 3 credits. Study and comparison of the theories and practices found in various economic systems. Includes a study of both the free market and socialist planning.

ECON 5574 Senior Seminar 3 credits. Discussion driven capstone class that integrates selected topics in economics. Students will be required to do economic research, and write on and discuss current economic issues. PREREQ: AT LEAST SENIOR STANDING.

ECON 5581 Independent Study 1-3 credits. Individuals will be assigned independent problems for research under the supervision of a departmental faculty member. May be repeated up to 6 credits.

ECON 5585 Econometrics 3 credits. The application of statistical and mathematical methods to the analysis of economic data, with a purpose of giving empirical content to economic theories and verifying them or refuting them. PREREQ: ECON 2201, ECON 2202, AND MATH 1153.

ECON 5591-5592 Economic Seminar 1-3 credits. May be repeated.

ECON 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

ECON 6610 Applied Economics 3 credits. Applied principles and techniques of analysis in micro and macro economics. Cross-listed as MBA 6610.

ECON 6620 Seminar: Philosophy of Social Science 3 credits. The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of D.A. students.

ECON 6621 Seminar: Interdisciplinary Topics in Social Sciences 3 credits. Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science, economics and sociology. Required of D.A. students.

ECON 6650 Thesis 1-6 credits. The student will do research of an economic nature supervised by a faculty member in the Economics Department. The research project will be of an interdisciplinary nature and the student will be supervised by faculty members from the department(s) involved as well as from the Economics Department. May be repeated. Graded S/U.
Department of English and Philosophy

Chair and Professor: M. Johnson
Director of Philosophy and Professor: Wahl
Director American Studies and Associate Professor: Engebretsen
Assistant Chair and Professor: Swetnam
Graduate Program Director and Associate Professor: Winston
Composition Director and Professor: Swetnam
Professors: B. Attebery, J. Attebery, Baergen, A. Johnson, Levenson, Schmidt, Westphal, Worsham
Associate Professors: Hellwig, Klein, Launspach, Skidmore, Whitaker, Wolter
Assistant Professors: Goslee, Petit, Shutters

The Department of English and Philosophy offers graduate curricula in English studies that include courses in language, literature, composition/rhetoric, and English pedagogy. The Department offers the Master of Arts and the Doctor of Philosophy degrees.

Admission Requirements for International Students

Students whose native language is not English must achieve at least one of the following minimum scores to be considered for admission into the M.A. or D.A. program in English: TOEFL 550/213; MTELP 84; IELTS 6.

Goals

The Department has articulated the following goals and student learning outcomes for students in graduate programs:

Learning Outcomes - Master of Arts

Stated Mission and Goals: Masters-level English programs in the Department of English and Philosophy provide students advanced training in language, literature, and composition/rhetoric in preparation for varying personal and career goals. Such training will provide students with the sound foundations needed to teach in the secondary schools, to teach in two-year colleges, to enter fields in which verbal and analytical training is essential, and to prepare for further graduate work in MFA, DA, or PhD programs.

Student Learning Outcomes

1. Masters-level English students will have an understanding of the history of British and U.S. literatures.
2. Masters-level English students will design and carry out substantive research projects.
3. Masters-level English students will be prepared for future professional activity as teachers, advanced graduate students, or for professional activity within occupations outside academe.
4. Masters-level English students will understand language as a medium of common linguistic principles; they will understand the relationship of these linguistic principles to communication and expression.
5. Masters-level English students will be prepared for future professional activity as teachers, advanced graduate students, or for professional activity within occupations outside academe.

Learning Outcomes - Doctor of Philosophy

Stated Mission and Goals: The PhD. in English and the teaching of English is a terminal degree program that trains students for teaching careers in English at colleges and universities.

Student Learning Outcomes

1. Ph.D. students will have a professional understanding of the history of British and American literatures.
2. Ph.D. students will understand and employ in their own work major theoretical approaches to literature and culture.
3. Ph.D. students will understand theories of college-level English teaching and will be able to effectively translate these theories into practice.
4. Ph.D. students will define, research, and complete a significant research project within English studies, and be prepared to conduct research independently once they graduate.
5. Ph.D. students will understand language as a medium of common linguistic principles; they will understand the relationship of these linguistic principles to communication and expression.
6. Ph.D. students will be prepared for future professional activities as college-level English teachers.

Doctor of Philosophy in English and the Teaching of English

The Doctor of Philosophy in English and the Teaching of English prepares students for teaching careers in English at colleges and universities. The program emphasizes the study of English and American literature, course work in content-specific pedagogy, and supervised teaching internships. Students also undertake directed, specialized research in a required dissertation.

Admission Requirements

For full consideration for admission and financial aid, applications for fall admission must arrive by February 15.

Applicants for classified admission and/or financial support must submit the following materials:

1. Undergraduate and graduate transcripts.
2. An M.A. in English (or appropriate related field) with an accumulative grade point average of 3.5 in M.A.-level English courses.
3. Three letters of recommendation from professors who can comment on the student’s recent academic work.
4. Scores at or above the 50th percentile on the verbal section of the GRE general test. Scores on the analytical writing section will also be considered in admission decisions.
5. A writing sample (about 10-20 pages).
6. A brief statement (about 500 words) describing the applicant’s academic background, reasons for applying to the program, research interests, and professional goals.

The Graduate Committee in consultation with the department Chair evaluates these materials to determine admission to the program. Priority will be given to experienced, successful teachers.

General Requirements

The Doctor of Philosophy in English requires a minimum of 39 semester credits beyond the M.A.
A course completed as part of a student’s M.A. program may be approved by the Graduate Director to satisfy a particular requirement of the Ph.D. program, up to a maximum of 9 credits; however, the substitution of course work does not waive the minimum credit requirement for the Ph.D. program.

With the approval of the Graduate Director, students may transfer up to 9 credits of coursework beyond the M.A. from other institutions.

Three semesters of full-time residence study are required.

Students must maintain a 3.5 grade point average to advance to candidacy for the Ph.D. Three grades below B- during the last semester of their degree work, which will allow them to obtain experience in presenting the results of their research to their peers.

**Course Work**

**Required Core Course**

ENGL 6612 Introduction to Graduate Studies in English 3 cr

**Pre- and Post-1800 Literature Component**

A minimum of six credits, fulfilling the following requirements:

1. One seminar in the 6662x series that is focused on pre-1800 literature
2. One seminar in the 6662x series that is focused on post-1800 literature

**Teaching Component**

A minimum of 12 semester credits, fulfilling the following requirements:

1. ENGL 6631 Seminar in Teaching Writing 3 cr
2. ENGL 7700 Supervised Teaching Internship 3 cr
3. An additional seminar in the teaching of English, approved by the department 3 cr
4. An additional supervised teaching experience, chosen from:
   - ENGL 7700 Supervised Teaching Internship 3 cr
   - ENGL 7783 Practicum in Second Language Teaching 3 cr

**Language Component**

A minimum of 3 credits, chosen from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 5501</td>
<td>Advanced Composition</td>
</tr>
<tr>
<td>ENGL 5580</td>
<td>Varieties of American English</td>
</tr>
<tr>
<td>ENGL 5581</td>
<td>Studies in Grammar</td>
</tr>
<tr>
<td>ENGL 5584</td>
<td>Special Topics in Linguistics</td>
</tr>
<tr>
<td>ENGL 5585</td>
<td>Linguistic Analysis</td>
</tr>
<tr>
<td>ENGL 5586</td>
<td>Old English</td>
</tr>
<tr>
<td>ENGL 5587</td>
<td>History of the English Language</td>
</tr>
<tr>
<td>ENGL 5588</td>
<td>Introduction to Sociolinguistics</td>
</tr>
<tr>
<td>ENGL 6680</td>
<td>Introduction to Linguistics</td>
</tr>
<tr>
<td>ENGL 6685</td>
<td>Seminar in Linguistics</td>
</tr>
</tbody>
</table>

**Electives**

Students take 15 additional credits of electives (chosen in consultation with their advisor) that will contribute to knowledge and skills necessary for their dissertation topics and professional goals.

**Course Work Limitations**

A maximum of 6 semester credits taken outside of ENGL-prefixed courses may be counted toward degree requirements, with the approval of the Graduate Director.

**Comprehensive Examination**

Students are eligible to take the comprehensive exam after completing 36 credits beyond the M.A. Students must take the exam before defending the dissertation.

The comprehensive examination is both written and oral. The examination tests the student in the general areas listed below, but the student in consultation with his/her dissertation committee will design the specific subjects and reading lists on which he/she will be tested. The exam lists must be approved by all members of the student’s dissertation committee and then submitted, along with the dissertation proposal, to the Graduate Director for review, according to the guidelines in the English Graduate Handbook.

The exam areas are:

a. the student’s dissertation area
b. a broader field or literary period
c. an area in the teaching of English

The examining committee will consist of the three-member dissertation committee. In order to ensure that the examining committee has sufficient expertise to test the student in all three exam areas, the dissertation committee chair may propose to substitute a member of the dissertation committee with another member of the graduate faculty, so long as two members of the examining committee are English graduate faculty. The substitution must be approved by the Graduate Director.

The comprehensive examination may be repeated only once, and must be retaken within 12 months.

**Foreign Language Requirement**

Students must demonstrate proficiency in one foreign language, either modern or ancient,
before the program of study is complete. The purpose of this requirement is for students to have a current knowledge of a language other than English and of its relation to the culture from which it originates.

Students may satisfy this requirement in one of the following ways:

1. By passing four semesters of one foreign language with an average grade of B, either during the course of study for the graduate degree or with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.

2. By passing a grade of B a two-part examination administered by the Foreign Language Department.

3. By having completed a major in a foreign language, as verified by a college transcript.

4. By having satisfied a foreign language requirement as part of having completed an M.A. in English with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.

Students who have a first language other than English will be considered to have satisfied this requirement.

Doctor of Arts in English

Applications are no longer being accepted for this program.

The Doctor of Arts in English prepares graduates to teach in two-year and four-year colleges. Thus, the program requires breadth of study in English and American literature, interdisciplinary coursework, course work in pedagogy, and supervised teaching internships. Students will undertake directed research in one or both required doctoral papers.

Admission Requirements

For classified admission to the D.A. program, applicants must satisfy the following criteria:

1. An M.A. in English (or appropriate related field) with an accumulative grade point average of 3.5 in English courses.

2. Scores at or above the 50th percentile on the verbal section of the GRE general test. Scores on the analytical writing section will also be considered in admission recommendations.

3. Three letters of recommendation, preferably from professors who know the student’s recent academic work.

4. A brief writing sample (about 10 pages).

5. A brief statement (about 500 words) of academic and professional goals.

Priority will be given to experienced, successful teachers.

General Requirements

The Doctor of Arts in English requires a minimum of 48 semester credits beyond the M.A. degree in English. A course completed as part of a student’s M.A. program may be approved to satisfy a particular requirement of the D.A. program, with the exception of the four required seminars in literature. However, the substitution of course work does not waive the minimum credit requirement for the D.A. program.

Not more than nine semester hours beyond the M.A. may be transferred from other institutions.

At least two consecutive semesters of full-time residence study are required.

Students must maintain a 3.5 grade point average to qualify for the D.A. degree. Three grades below B- during the entire program will automatically disqualify a student.

Graduate students must follow the policy on incomplete grades as it is listed in the Idaho State University Graduate Catalog.

Teaching assistantships and D.A. fellowships will not be renewed for students with incomplete grades on their transcripts.

Special Requirements

1. Students must complete two supervised teaching internships. The student must submit a detailed written prospectus for each proposed internship for approval by the Graduate Committee prior to the semester of the internship. An unacceptable D.A. internship will be interpreted the same as a course grade of C.

2. Students will write two Doctor of Arts papers, choosing from the following options:
   a. One pedagogical or interdisciplinary;
   b. One from the choice not taken above or a creative or critical literary paper.

3. A colloquium presentation on a topic of their current research, given in the penultimate or ultimate semester of full-time study, allows students to obtain experience in presenting the results of their research to their peers.

Course Work

Pedagogy Component

A minimum of 12 semester credits, including the following requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 6611</td>
<td>Seminar in Teaching Writing</td>
<td>3 cr</td>
</tr>
<tr>
<td>ENGL 7700</td>
<td>Supervised Teaching Internship</td>
<td>6 cr</td>
</tr>
</tbody>
</table>

An additional pedagogy course approved by the department is 3 cr.

Interdisciplinary Component

A minimum of 12 semester credits.

Students will design an interdisciplinary component appropriate for their interests and professional needs. The Graduate Committee must approve a written prospectus for this component before the student begins the course work. In this component students are expected to explore relationships between English and another discipline (e.g., art, drama, rhetoric, psychology, history, philosophy).

Language and Literature Component

A minimum of 24 credits, including the following requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 6612</td>
<td>Introduction to Graduate Studies in English</td>
<td>3 cr</td>
</tr>
<tr>
<td>Course work in language studies</td>
<td></td>
<td>6 cr</td>
</tr>
</tbody>
</table>

Course work in language studies must include two courses chosen from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 5501</td>
<td>Advanced Composition</td>
<td></td>
</tr>
<tr>

<td>Rhetorical Theory</td>
<td></td>
</tr>
</tbody>
</table>

Seminars in literature 15 cr

One of these must be in literature before 1800 and one must be in literature after 1800.

Comprehensive Examination

The comprehensive examination, taken after the student has completed at least 32 semester
credits beyond the M.A. degree, but before the student has defended either of the two D.A.
papers, includes the following sections:
  a. Pedagogy;
  b. Genre;
  c. Literature before 1800 or after 1800.
The comprehensive examination may be repeated one time, within 12 months.

**Foreign Language Requirement**

Students must demonstrate proficiency in one foreign language, either modern or ancient, before the program of study is complete. The purpose of this requirement is for students to have a current knowledge of a language other than English and of its relation to the culture from which it originates. Students may satisfy this requirement in one of the following ways:

1. By passing four semesters of one foreign language with an average grade of B, either during the course of study for the graduate degree or with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.

2. By passing a two-part examination administered by the Foreign Language Department with a grade of B.

3. By having completed a major in a foreign language, as verified by a college transcript.

4. By having satisfied a foreign language requirement as part of having completed an M.A. in English with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.

**Admission Requirements**

For classified admission to the M.A. program, the student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, applicants must satisfy the following criteria:

1. An accumulative grade point average of 3.0 over the last two years of undergraduate course work for the B.A.

2. Score at or above the 50th percentile on the verbal section of the GRE general test. Scores on the analytical writing section will also be considered in admission recommendations.

3. Three letters of recommendation, preferably from professors who know the student’s recent academic work.

4. A brief statement (about 500 words) of academic and professional goals.

5. A brief writing sample (about 5 pages).

Students admitted Classified with Performance Requirements without GRE scores must take the general test the first time it is offered following their admission. Continuation in the program is subject to a student’s meeting this requirement. Students admitted without at least 21 credits of undergraduate courses in English and American literature and language, excluding freshman composition, will be required to make up deficiencies in their undergraduate work. The Graduate Committee will specify the courses that the student must take to do so. For full consideration, materials should reach the department by March 1. Those applying for mid-year entry must submit materials by October 1, with the understanding that the department cannot assure aid. The Graduate Committee in the consultation with the department chair evaluates these materials to determine admission to the program.

**General Requirements**

The Master of Arts in English program provides both thesis and non-thesis options. Each option requires a minimum of 30 semester credits in courses approved by the Department of English, and students in each option must pass the General Literature Examination. Teaching assistants must take a minimum of 33 semester credits, including English 7731. Students must take at least 18 of these credits in 6600-level courses.

In place of the 6 credits granted for the thesis, students selecting the non-thesis option must take 6 credits of graduate course work.

Students selecting the non-thesis option must also pass a Set Text Examination to qualify for the M.A. degree. Students selecting the thesis option must pass the General Literature Examination before defending the thesis.

Students selecting either option must demonstrate proficiency in one foreign language (see options for satisfying requirement under Doctor of Arts in English).

All students must maintain a satisfactory record of scholarship. Three grades below B- during the entire program will automatically disqualify a student from continuing in the program.

Graduate students must follow the policy on incomplete grades as it is listed in the Idaho State University Graduate Catalog.

Teaching assistantships and D.A. fellowships will not be renewed for students with incomplete grades on their transcripts.

**All students must take the following 6 required credits:**

<table>
<thead>
<tr>

**TESOL Certificate**

Recommendations regarding admission will be made by the co-directors of the TESOL program in conjunction with the Graduate Director.

**Admission Requirements**

For admission into the TESOL Certificate program, applicants must satisfy the following criteria:

1. A bachelor’s degree from an accredited institution.

2. An accumulative grade point average of 3.0 over the last two years of undergraduate course work for the B.A.
In addition to the Graduate School requirements, score at or above the 35th percentile on the verbal section of the GRE general test.

Three letters of recommendation, preferably from professors, or colleagues who know the applicant's recent academic or professional work.

Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test, or a score of 84 on the MTEL, or a score of 6 on the IELTS.

It is strongly recommended that applicants have some knowledge of a second language.

General Requirements

The certificate program is 18 credits and is granted alone or in addition to a graduate degree.

All students must take the following 12 credits:

In addition to the required courses, students must take two 3-credit electives chosen from the graduate-level linguistics offerings in either the Department of English and Philosophy or the Department of Anthropology.

ENGL 5501 Advanced Composition 3 credits.

An advanced course in which students develop an independent style in writing such types of essays as the personal, biographical, argumentative, and critical. May contain prose analysis.

ENGL 5506 Advanced Creative Writing Workshop 3 credits.

Production and discussion of student writing. Study in a specific genre with emphasis on longer works. Repeatable with different topics.

ENGL 5509 Literary Magazine Production 3 credits.

Hands-on experience in literary magazine production: editing, proofreading, and design. Strategies for screening and selecting stories, poems, and reviews. Consideration of the role of the small press in national literary culture.

ENGL 5531 Teaching and Writing Projects: Special Topics 3 credits.

Aids teachers of all grade levels and all academic subjects in developing skills in teaching writing. Combines composition theory and practical classroom exercises with ongoing writing and critiques. Repeatable with different topics.

ENGL 5540 Philosophy and Literature 3 credits.

Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. Cross-listed as PHIL 5540. Repeatable with different topics.

ENGL 5553 American Indian Literature 3 credits.

Considers literary works by and about North American native people, especially in relationship to history, genre, and culture, including oral traditions. Cross-listed as ANTH 5553.

ENGL 5555 Studies in a National Literature 3 credits.

Studies in important literatures and cultures not otherwise covered in the curriculum. Will include literatures in translation and literature written in English outside of America and the British Isles. Cross-listed as CMLT 5515. Repeatable with different topics.

ENGL 5556 Comparative Literature 3 credits.

The analysis of ideas, problems, and techniques common to important writers of various national literatures. Repeatable with different topics.

ENGL 5561 Classical Literature 3 credits.

Study of the major literature of the classical Greek and Roman periods, especially in relationship to its cultural backgrounds. Repeatable with different topics.

ENGL 5562 Medieval Literature 3 credits.

Study of the major literature of the Middle Ages and its background, with emphasis upon the development of English literature. Repeatable with different topics.

ENGL 5563 Renaissance Literature 3 credits.

Study of the major literature of the Renaissance and its background, with emphasis upon the development of English literature. Repeatable with different topics.

ENGL 5564 Seventeenth-Century Literature 3 credits.

Study of the major literature of the seventeenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5565 Eighteenth-Century Literature 3 credits.

Study of the major literature of the eighteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5566 Early Nineteenth-Century Literature 3 credits.

Study of the major literature of the early nineteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5567 Late Nineteenth-Century Literature 3 credits.

Study of the major literature of the late nineteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5568 Early Twentieth-Century Literature 3 credits.

Study of the major literature of the early twentieth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5569 Contemporary Literature 3 credits.

Study of recent major literature and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

ENGL 5570 Post-Colonial Literature 3 credits.

Study of post-colonial literary texts, with attention to the role of literature in history, political resistance, and social movements of one or more colonized cultures. Repeatable with different topics.

ENGL 5572 Proseminar in a Major Literary Figure 3 credits.

Intensive study in a single major author other than Chaucer, Milton, and Shakespeare. Repeatable with different topics.

ENGL 5573 Chaucer 3 credits.

Intensive study of selected works of Chaucer.

ENGL 5574 Milton 3 credits.

Intensive study of selected works of Milton.

ENGL 5576 Shakespeare 3 credits.

Intensive study of selected works of Shakespeare.

ENGL 5577 Shakespeare in Performance 2 credits.

Intensive study of selected works by Shakespeare, with emphasis placed upon performance issues. Includes field trip to attend live dramatic productions of Shakespearian plays.

ENGL 5580 Varieties of American English 3 credits.

In-depth study of various dialects of American English, including historical evolution of different dialects, effects of migration on dialects, and influences of non-English immigrant languages on development of American English. Field-work studying the Snake River dialects of Idaho. Cross-listed as ANTH 5580.

ENGL 5581 Studies in Grammar 3 credits.

Focus on the study of transformational-generative grammar and its application to sentence level problems.

ENGL 5584 Special Topics in Linguistics 3 credits.

Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught.

ENGL 5585 Linguistic Analysis 3 credits.

Advanced topics course in the techniques of language analysis. Examples are phonology and morphology, semantics, or rhetorical grammar. May be repeated for up to 6 credits. Repeatable with different topics.

ENGL 5586 Old English 3 credits.

Intensive study of the Old English language, with attention to its intrinsic structure and its relation to Middle and Modern English.
ENGL 5587 History of the English Language 3 credits. Linguistic and historical study of the major changes and developments in the English Language.

ENGL 5588 Introduction to Sociolinguistics 3 credits. Study of the patterned covariation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Cross-listed as ANTH 5550. PREREQ: Permission of instructor.

ENGL 5589 American Indian Literature 3 credits. Considers literary works by and about North American native people, especially in relationship to history, genre, and culture, including oral traditions. Repeatable with different topics.

ENGL 5590 Topics in Folklore 3 credits. Focused study of an issue in folkloristics or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. Cross-listed as ANTH 5590. Repeatable with different topics.

ENGL 5592 Folklore and Literature 3 credits. Study of cross-influences between oral and written literatures. Emphasis may be on a written genre that imitates and draws upon oral genres, a movement or period in which oral tradition strongly influences written forms, or a particular writer who incorporates motifs and storytelling patterns from folklore. Rotating topics. Repeatable with different topics.

ENGL 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

ENGL 6610 Careers in English 1 credit. Preparation for English job searches and teaching careers. Graded S/U. Does not count toward degree requirements.

ENGL 6611 Literary Theory and Criticism 3 credits. Focused study of selected literary theories/critical approaches and their applications. Repeatable with different topics.

ENGL 6612 Introduction to Graduate Studies in English 3 credits. Introduces students to major literary theories and approaches and trains them in scholarly research methods. Requires development of a substantial research proposal.

ENGL 6613 Literary Bibliography/Manuscripts/Editing 3 credits. Training in bibliographical, manuscript, and/or editing methodologies relevant to English. Repeatable with different topics.

ENGL 6621 Seminar in a Major Literary Genre 3 credits. Focused study of the theory and conventions of a major form (such as lyric poetry or novel) or a broader genre (such as realism, pastoral, or the fantastic). Repeatable with different topics.

ENGL 6623 Seminar in Literary Themes 3 credits. Focused study of literature cohering around thematic content (such as religion, exploration, or diaspora). Repeatable with different topics.

ENGL 6625 Seminar in a Literary Period 3 credits. Focused study of a literary period and issues in periodization. Repeatable with different topics.

ENGL 6627 Seminar in Major Literary Figures 3 credits. Focused study of the writings of one or two major writers. Critical and biographical topics and historical significance may be considered. Repeatable with different topics.

ENGL 6631 Seminar in Teaching Writing 3 credits. Systematic application of contemporary composition theory to the teaching of writing; includes readings in and discussion of theories, research, issues, and practices relevant to effective teaching and learning in composition classrooms.

ENGL 6631L Teaching Composition Lab 1 credit. Lab for English 6631. Experiential training for new M.A. T.As. Requires attending graduate faculty mentor’s English 1101, regular meetings with mentor, teaching five times, and supervised grading. Graded S/U with written report by mentor. Required of first-semester M.A. TAs. PREREQ OR CORREQ ENGL 6631. Does not count toward degree requirements.

ENGL 6632 Seminar in Teaching Literature 3 credits. Theoretical and practical approaches to teaching literature and literary interpretation at the undergraduate level, with attention to issues in course design and implementation, such as designing syllabi, leading discussion, and grading papers.

ENGL 6633 Seminar in Teaching Business and Professional Writing 3 credits. Preparation to teach undergraduate business and technical writing courses, including the nature and history of business and technical writing, as well as attention to practical issues in teaching, such as pedagogical strategies, textbook choice, and research design.

ENGL 6635 Special Topics in the Teaching of English 3 credits. Focused study of topics in English pedagogy that are not regularly covered in ENGL 6631, ENGL 6632, ENGL 6633, ENGL 6681, or ENGL 6682. Repeatable with different topics.

ENGL 6640 Interdisciplinary Seminar 3 credits. Focused study of a literary or literary-related problem or subject using the theories and methods of literature and other closely-related disciplines such as folklore, communications, rhetorical studies, history, linguistics, or anthropology. Repeatable with different topics.

ENGL 6642 Seminar in Oral/Popular Culture 3 credits. Focused study of a body of oral and/or popular cultural expression in related historical and cultural contexts with emphasis on literary connections. Repeatable with different topics.

ENGL 6650 Thesis 1-6 credits. Research or creative project. M.A. program only. Optional. Repeatable up to six credits that count to degree requirements. Graded S/U.

ENGL 6662 Seminar in Creative Writing 3 credits. Advanced study of creative writing. Course involves intensive readings in one or more selected genres (poetry, prose, drama), analyzed from the perspective of criticism and craft, and the development of course-related writing projects. PREREQUISITE: ENGL 5506 or equivalent. Repeatable with different topics.

ENGL 6680 Introduction to Linguistics 3 credits. Introduction to fundamental concepts and methodologies of modern linguistics, including phonetics, phonology, morphology, syntax, semantics, sociolinguistics, programmatics, and language acquisition. May include opportunities to explore the practical application of course topics.

ENGL 6681 Theory of Second Language Acquisition 3 credits. The course will: 1) address theories describing the processes underlying second language acquisition, as well as relevant research, 2) consider what conditions increase the likelihood of successful second language acquisition, and 3) review the implications of 1 and 2 for second language learning and teaching.

ENGL 6682 TESL Methodology 3 credits. Building on the theoretical framework of ENGL 681, students develop effective ESL materials and curricula, taking into account SLA research as well as the characteristics, needs, and motivation of learners. The class will involve a large practical component. PREREQ OR COREQ: ENGL 6681.

ENGL 6685 Seminar in Linguistics 3 credits. Advanced studies in selected topics in linguistics. Course includes application of linguistic theories to specific forms of communication within the discipline of English. Repeatable with different topics.

ENGL 6690 Graduate Reading 1-3 credits. Supplementary reading course, arranged on an individual basis, to cover course content not otherwise available in the graduate program. Requires conferences with a faculty supervisor, written assignments or examination, and approval of a prospectus by the Graduate Committee. Repeatable with different topics. Does not count toward degree requirements.

ENGL 6694 Dissertation and Comprehensive Exam Preparation 1-6 credits. Student prepares a dissertation proposal and comprehensive exam lists and studies for qualifying exams in consultation with his or her dissertation director. Requires dissertation director’s approval of projected dissertation research area, exam areas, and committee members. Limited to Ph.D. students only. Does not count toward degree requirements. Repeatable up to 7 credits. Graded S/U.

ENGL 7700 Supervised Teaching Internship 3 credits. Practical experience in classroom or
laboratory teaching. Enrollment limited to Ph.D. students. Repeatable to up to 9 credits. Graded S/U.

ENGL 7750 Doctoral Thesis 1-9 credits. Doctoral thesis, consisting of two papers, each the equivalent of a well-developed article. D.A. program only. May be repeated for a maximum of 12 credits. Repeatable. Graded S/U.

ENGL 7783 Practicum in Second Language Teaching 3 credits. Supervised practicum in ELS teaching or tutoring. Required for TESOL certificate. PREREQ: ENGL 6681, 6682 AND 12-15 CREDITS TOWARD TESOL CERTIFICATE.

Philosophy Graduate Courses

PHIL 5500 Philosophy of Art 3 credits. Study of philosophic problems encountered in perceiving, interpreting, and evaluating works of art. Topics include the nature of a work of art, aesthetic response, expression, symbol; the nature and role of representation; the nature of interpretive and evaluative claims.

PHIL 5510 Philosophy of Language 3 credits. Study of theories of language, with emphasis on contemporary thinkers such as Frege, Heidegger, Russell, Wittgenstein, Piaget, and Chomsky. Topics include the nature and origin of meaning, the temporal dimension of discourse, the significance of syntax, animal languages, computer languages.

PHIL 5520 Philosophy of Mind 3 credits. Inquiry into the mind-body problem and representational solutions, such as dualism, philosophical behaviorism, central-state materialism. Related topics include the self, personal identity, immortality, claims of parapsychology, mystical consciousness.

PHIL 5525 Existentialism 3 credits. A survey of major works of Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus. Topics may include the origins of values, the death of God, the varieties of despair, the inevitability of love’s failure and the absurdity of life.

PHIL 5530 Philosophy of Science 3 credits. A critical analysis of the philosophical presuppositions of the empirical sciences with attention given to the wider expressions of the presuppositions in contemporary life.

PHIL 5535 Metaphysics 3 credits. A study of some of the main questions of metaphysics including such topics as being, substance, universals, space and time, appearance and reality, identity, freewill and determinism, causality and the nature and possibility of metaphysics itself.

PHIL 5540 Philosophy and Literature 3 credits. Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. Cross-listed as ENGL 5540.

PHIL 5550 Ethical Theory 3 credits. Study of the nature of value claims, stressing ethical value claims; examination of the scope of reason in ethical decision-making. Applications to normative ethical theories. Related topics include human rights, justice, ethical and legal systems.

PHIL 5560 Theory of Knowledge 3 credits. A survey of reflections on the question, “What, if anything, can we know?” Topics include knowing, believing, meaning, truth, and certainty.

PHIL 5570 Symbolic Logic and Foundations of Mathematics 3 credits. A comprehensive study of formal methods of determining validity and of systems of symbolic logic, with attention to the philosophy of logic and the relationship between logic and mathematics.

PHIL 5590 Philosophy Seminar 1-3 credits. Advanced reading and discussion on selected topics in philosophy. May be taken for credit more than once with permission of the department.

PHIL 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

PHIL 6600 Ethics in Health Care 3 credits. Application of ethical principles and theories to current issues in health care. Topics include allocation of scarce resources, informed consent, duty to treat, research on human subjects, organ transplants, death and dying.

Foreign Languages Graduate Courses

(NO graduate degrees are offered)

LANG 5537 The Teaching of Foreign Languages 2-3 credits. Study of the various methods used in teaching foreign languages, the extent and scope of language courses; the selection of suitable textbooks; audio-visual techniques and their contribution to language instruction. PREREQ: PERMISSION OF INSTRUCTOR.

LANG 5555 Introduction to Phonetics 3 credits. Introduction to descriptive linguistics focusing on phonetics and phonetic phenomena of English and the other languages of the world. Extensive practice in perception and production of such phenomena. Cross-listed as ANTH 5555. PREREQ: LANG/ANTH 1107.

LANG 5556 Introduction to Phonology and Morphology 3 credits. Phonological theory and analysis; current theories in morphology. Phonological rules, representations, underlying forms, derivation, justification of phonological analyses; morphological structure, derivational and inflectional morphology; relation of morphology to phonology. Cross-listed as ANTH 5556. PREREQ: LANG/ANTH 1107.

LANG 5577 Phonology 3 credits. Study of articulatory phonetics and practice in phonetic transcription of a broad survey of languages; phonological analysis and theory. PREREQ: PERMISSION OF INSTRUCTOR.

LANG 5584 Special Topics in Linguistics 3 credits. Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught. Specific and evaluated graduate level activities and performances are identified in the course syllabus.

LANG 5588 Foreign Language Seminar 3 credits. Advanced studies in selected topics from language, culture, literatures or methods of research. May be conducted in English. May be repeated up to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

LANG 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

Comparative Literature Courses

CMLT 5515 Studies in Major National Literatures 3 credits each. Studies in important literatures and cultures not otherwise covered by regular course offerings. Will include literatures in translation and literature written in English outside of America and the British Isles. Also listed as ENGL 5555.

Department of Languages and Literatures

Interim Chair and Professor Park Professors: Dolsen, Sieber Associate Professors: Hunt, Tarp Instructor and Lab Director: McCurry Adjunct Faculty: Alvarez, Brookman, Dil-lon, Fukuoka, Heath, Johnsen, Nagata, Robredo, Stewart, Tatarova, Yonk

Goals

To increase knowledge and understanding of languages and cultures other than English through the development of foreign language skills in speaking, writing, reading, listening, and cultural competence.
CMLT 5535 Topics in World Film Studies 3 credits. Rotating topics in world film studies. Consult schedule of classes for topic being taught. May be repeated with different content. PREREQ: PERMISSION OF INSTRUCTOR.

CMLT 5588 Comparative Literature Seminar 3 credits. Advanced work in the areas of cultural studies, literature, and research methods. May be conducted in English. May be repeated for up to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

French Graduate Courses

FREN 5500 French Advanced Grammar 3 credits. Survey of selected grammar and composition topics on the advanced level. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5510 Seventeenth Century French Literature 3 credits. Study of representative works of the 17th century, with particular emphasis on the works of Corneille, Moliere, and Racine. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5520 Eighteenth Century French Literature 3 credits. French thought as reflected in the literature from 1715 to the Revolution. Special emphasis on the works of Montesquieu, Voltaire, Diderot, and Rousseau. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5530 French Romanticism 3 credits. Study of the prose, poetry, and drama of the period: Lamartine, Musset, Vigny, Hugo, and others. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5540 French Realism and Naturalism 3 credits. Study of the main currents in French realism and naturalism, as reflected in the works of Balzac, Flaubert, Zola, Maupassant, and other writers of the latter 19th century. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5550 French Twentieth Century Literature 3 credits. Study of the main currents of contemporary French literature including symbolism, surrealism, existentialism, objectivism, etc. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5555 Dissidence in French Literature 3 credits. The study of French writings of a variety of genres that criticize political, social and religious practices spotlighting questions of moral values and human rights. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5560 Post-Colonial Francophone Literature 3 credits. Concentrates on the question of identity in a post-colonial context. Through the study of representative works, including literature, literary criticism, music and film, this course focuses on the impact of the Francophone World on contemporary French culture. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5570 Readings in French 2 credits. Reading, discussion, and writing on selected topics in French literature. May be repeated once with different content. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

FREN 5580 Independent Study in French 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

German Graduate Courses

GERM 5505 Introduction to German Poetry and Drama 3 credits. Study of representative works of German Poetry and Drama, with emphasis on works from the Enlightenment to the present. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5515 Introduction to the German Novel 3 credits. Comprehensive overview of the German novel from the Enlightenment to the present. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5520 The Age of Goethe 3 credits. A survey of the major works and movements of the preclassical and classical periods in German literature. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5525 The Holocaust in German Literature, Film and Art 3 credits. Examination of the representation of the Holocaust in literature, film, and art. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5535 German Culture through Film 3 credits. Examination of German politics, culture and identity through German film. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5545 Social Problems in German Literature 3 credits. Study of the representation of social problems in German literature from the Enlightenment to the present. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5555 GDR and Post-GDR Literature 3 credits. Examination of East German culture and politics through literature written from 1960-1989 and in the nostalgic texts of the post-unification period. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5560 German Translation and Interpretation 3 credits. Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary, may be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5570 Readings in German 1-2 credits. Reading, discussion, and writing on selected topics in German literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5580 Independent Study in German 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

GERM 5590 German Senior Seminar 3 credits. Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated up to 6 credits with different content. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

Japanese Graduate Courses

JAPN 5570 Readings in Japanese 2 credits. Reading, discussion, and writing on selected topics in Japanese literature. May be repeated once with different content. Conducted in English or Japanese, depending on each student’s skills. PREREQ: PERMISSION OF INSTRUCTOR.

Latin Graduate Courses

LATN 5570 Readings in Latin 2 credits. Reading, discussion, and writing on selected topics in Latin literature. May be repeated once with different content. Conducted in French or Japanese, depending on each student’s skills. PREREQ: PERMISSION OF INSTRUCTOR.

Spanish Graduate Courses

SPAN 5500 Spanish Advanced Grammar 3 credits. Survey of selected grammar and composition topics on the advanced level. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5512 Medieval Spanish Literature 3 credits. Study of representative works of Medieval Spanish literature with an emphasis on the major trends that shaped Spanish thought and letters. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5514 Golden Age Spanish Literature 3 credits. Study of representative works of Renaissance and Baroque Spanish literature with an emphasis on the major trends that shaped Spanish thought and letters. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5515 Cervantes and His Age 3 credits. Study of Cervantes’ artistic creation and relation to the 16th and 17th centuries. The course includes Don Quixote and the Novelas Ejemplares. May be offered in English. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5522 Colonial Spanish American Literature 3 credits. Study of major writers and their historical contexts from the conquest to the eve of
independence, including indigenous and colonial prose, poetry and drama. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5525 Nineteenth Century Spanish American Literature 3 credits. Study of major writers and their historical contexts in the nineteenth century, including prose, poetry and drama. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5530 Spanish Enlightenment and Romanticism 3 credits. Consideration of literary currents from the beginning of the Bourbon Monarchy in Spain (1700) until 1868. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5540 Spanish Realism through Generation of ‘98 3 credits. Examination of major literary works beginning with the realist and naturalist authors and concluding with the Generation of 1898. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5550 Twentieth Century Spanish Literature 3 credits. Examination of modern Peninsular letters as evidenced in poetry, the short story, the novel, and the essay. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5560 Spanish Translation and Interpretation 3 credits. Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary. May be repeated once with a different content. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5562 Early Twentieth Century Spanish American Literature 3 credits. Study of major writers and their historical contexts from “modernism” to the World War II, including prose, poetry and drama. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5565 Contemporary Spanish American Literature 3 credits. Study of major writers and their historical contexts from World War II until the present, including prose, poetry and drama. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5566 US Latino Literature 3 credits. Examination of major works and authors in historical perspective, with emphasis on literary and cultural contexts. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5570 Readings in Spanish 2 credits. Reading, discussion, and preparation of reports on selected topics in Spanish literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

SPAN 5580 Independent Study in Spanish 3 credits. A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the study. May be repeated. PREREQ: S PERMISSION OF INSTRUCTOR.

SPAN 5590 Spanish Senior Seminar 3 credits. Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated up to 6 credits with different content. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

Department of Geosciences

Interim Chair and Professor: Rodgers Professors: Link, McCurry, Thackray Associate Professor: Ames Assistant Professors: Crosby, Tapanila Research Associate Professor: Glenn, IGS Supervisory Research Geologist: Welhan GIS TREC Director Weber Affiliate Faculty: Aly, Cecil, Davis, Dehler, Huang, Kuntz, Plummer, Sherwin, Smith, Stephens, Thomas, Van Kirk, Welhan, Winterfeld

Goals - All Programs

1. Graduates will think critically and comprehend written and verbal communications about geoscience topics.
2. Graduates will have specific skills for careers in geoscience and related industries, licensure, or to continue in graduate study.
3. Graduates will attain employment in geology or related fields or gain admission to graduate programs.

Graduate Degree Programs

Goals
1. Graduates will be prepared to communicate effectively at the professional level.
2. Graduates will be prepared to define, implement, and complete geologic investigations.
3. Graduates will have professional skills for employment or further graduate study.

Objectives
1. Provide graduate students with coursework, laboratory experiences, field exercises and research opportunities in order to achieve all goals set forth above.
2. Provide graduate students with a professional interactive environment that improves their opportunities to enter successful careers in geoscience.

Admission Requirements

A complete graduate application for classified status in the Idaho State University Geosciences Department consists of:

1. The student must apply to and meet all criteria for admission to the Graduate School. In addition to the general requirements of the Graduate School. Applicants must hold the degree of Bachelor of Science or Bachelor of Arts in geology or the equivalent as determined by the department. An Idaho State University Graduate School application form and official copies of transcripts from all previous coursework are required.

2. GRE aptitude scores - 50th percentile or above in two of the three categories, or strengths clearly demonstrated in other components of the application.

3. A letter of intent and statement of goals in Graduate School

4. Three letters of recommendation

5. Notification to the department: geology@isu.edu

Doctor of Philosophy in Engineering and Applied Science

A Ph.D. program in Engineering and Applied Science, administered through the College of Engineering, is available to Geoscience students who wish to emphasize Subsurface Science. The complete program description is provided under the College of Engineering section of the Graduate Catalog.

Master of Science in Geology

The M.S. degree is offered to those students who have degrees in geology who have demonstrated the potential for research and a professional career. Classified (degree-seeking, fully accepted) admission to the program is recommended by the graduate faculty of the Geosciences Department.
The student’s course of study will be determined by consultation and possibly an entrance examination. Students will normally be required to complete deficiencies at the undergraduate level any courses required for the B.S. in geology at Idaho State University that they have not already taken. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average and making satisfactory progress toward the degree.

Unclassified status is used for students with large numbers of deficiencies or with low undergraduate GPAs. Unclassified students may apply for classified status when their performance warrants.

**General Requirements**

A student who wants to earn an M.S. in Geology must complete at least 30 credits of course work. These credits must be earned under the following conditions:

1. The student must earn at least 17 credits (including six Thesis credits) at the 6600 level in Geology.
2. The remaining 13 credits may be earned at the 5500 or 6600 level, of which eight credits may come from a related discipline.

In addition to the 30 required credits, each student must take two approved courses from outside the Geosciences Department (e.g., technical writing, anthropology, etc.) or may opt to take the foreign language challenge exam at the elementary level.

The department requires that the following core courses be completed. These courses are normally taken during the first and second semesters of graduate study:

- **GEOL 5591** Seminar 1 cr
- **GEOL 6601** Advanced Physical Geology 2 cr
- **GEOL 6603** Geologic Writing Seminar 1 cr

Graduate students may not sign up for GEOL 6650 (Thesis) until their thesis prospectus has been submitted and approved by the Thesis Committee. Additionally, all graduate students are required to present at least one geology colloquium dealing with their thesis topic prior to taking their oral examination.

### Master of Science in Geology with Emphasis in Environmental Geoscience

A Geology M.S. degree may be awarded with the annotation “Emphasis in Environmental Geoscience” added, if the student completes the requirements for an M.S. Geology degree plus at least 9 credits in approved graduate-level courses in the general area of Environmental Geoscience. Students who wish their M.S. degree to contain the added designation “With Emphasis in Environmental Geoscience”, need to file an amended program of study form with the Graduate School. The curriculum may be developed in, but is not limited to, the following areas: surface and groundwater hydrology; environmental geochemistry; surficial geological processes; geomorphology; volcanic, earthquake and other geologic hazards; environmental geophysics; assessment and remediation of hazardous waste sites; Neogene and Quaternary geology. Courses in related sciences and engineering disciplines may also be included.

The curriculum must be approved by the student’s graduate committee, and may include components taken at Boise State University and/or the University of Idaho. Inter-university graduate committees are encouraged.

### Master of Science in Geographic Information Science

The M.S. in GISc degree is offered to students who wish to become competent as researchers and as Geographic Information Systems (GIS) analysts and developers. The program focuses on advancing knowledge to acquire, store and manage, visualize, model, and analyze information about spatial features and phenomena, with strong emphasis on real-world geospatial applications. The M.S. in GISc is designed as an interdisciplinary study of the nature and function of spatial information systems and the application of these systems in research. Students will be involved in the technical study of the design and evaluation of methods, tools, and techniques that will involve formulating hypotheses, collecting spatial information, and developing techniques for spatial analysis.

Applicants must hold a degree of Bachelor of Science or Bachelor of Arts in any discipline that allows research focus on geotechnologies including, but not limited to: Geosciences, Anthropology, Biology, Business, and Engineering. Students can focus on either (1) the development of new GIS tools and analytical procedures, or (2) the application of established and new tools and procedures to scientific problems. Each student in this program will have a member of the current Geotechnology Faculty as his/her major advisor. Applicants will be requested to state an advisor preference at the time of application, otherwise a preliminary advisor will be assigned upon acceptance to the program.

**Admission Requirements**

The student must apply to and meet all criteria for admission to the Graduate School.

### General Requirements

A minimum of 30 credit hours is required for completion of the M.S. in Geographic Information Science, with a minimum of 15 credit hours (including six Thesis credits) completed in 6600-level courses. The student’s graduate advisory committee (major advisor and co-advisor) will establish specific research goals, thesis topic, and the course electives in the program of study.

A 6600-level graduate seminar and eight credits taken as core courses are required of each student. Generally these will be taken during the first year of study. Prerequisites for core courses are designed to permit students entering the M.S. program from all disciplines. Students entering with some or all of the core courses taken at the undergraduate level may, with permission from the student’s advisory committee, substitute other graduate-level courses in the program of study.

Program requirements are summarized as follows:
Graduate Seminar, 6600-level (taken in appropriate department): BIOL 6691, ANTH 6600, GEOL 6601 1 cr
Core Geotechnologies Courses 8 cr
Electives (ANTH, BIOL, GEOL, etc.) 15 cr
Thesis (ANTH 6650, BIOL 6650, GEOL 6650, etc.) 6 cr

Total (includes 15 hours at 6600-level) 30 cr

Section A - Core Courses
GEOL 5504 Advanced GIS 3 cr
GEOL 5507 GPS Applications in Research 3 cr
GEOL 5508 Geotechnology Seminar 2 cr
GEOL 5509 Remote Sensing 3 cr

Section B - Electives
ANTH 5523 Anthropology of International Health 3 cr
ANTH 5582 Independent Problems in Anthropology 3 cr
ANTH 5593 Interdisciplinary Anthropology 3 cr
ANTH 6641 Research Project 1-6 cr
ANTH 6649 Independent Studies 1-4 cr
BIOL 5518 Ecotopics: Ecological Applications of GIS 2 cr
BIOL 6648 Graduate Problems 1-9 cr
CIS 5580 Database Management Systems 3 cr
GEOL 5555 Geologic Data Methods 3 cr
GEOL 5527 Information Technology for GIS 3 cr
GEOL 5528 Programming for GIS 3 cr
GEOL 5581 Geotechnology Internship 1-3 cr
GEOL 6628 Advanced GIS Programming 3 cr
GEOL 6606 Geostatistical Spatial Data Analysis and Modeling 3 cr
GEOL 6607 Spatial Analysis 3 cr
GEOL 6609 Advanced Image Processing 1 cr
GEOL 6648 Research Problems 1-6 cr

Electives may also include extra core courses taken as electives beyond the required minimum number of core credits. Certain graduate courses not shown in the list above may be acceptable with approval of the student’s advisory committee. All courses in the program of study require approval by the student’s advisory committee and final approval by the Graduate School. Students are expected to complete a thesis that will be original and encompass all stages of scientific work, including project design, implementation, and communication.

Graduate students may sign up for Thesis credits only after their thesis prospectus has been submitted and approved by the advisory committee. Additionally, all graduate students are required to present at least one colloquium dealing with their thesis topic prior to taking their examination.

Master of Natural Science in Geology

The Master of Natural Science (MNS) degree in Geology is designed primarily for teachers and prospective teachers who wish to broaden their understanding of geologic processes, the nature of natural resources, and the effect of humans on their environment. This is a non-thesis program of study with an emphasis on subject matter that will enhance the ability of the teacher to give students an interesting, up-to-date class in earth science or geology. Those interested in the program should possess or be working toward a standard teaching certificate. Requirements include completion of a prescribed program of study of 30 credits approved by a departmental committee selected by the student in consultation with the student’s major professor and approved by the Dean of the Graduate School, and satisfactory performance on final written and oral examinations. See Master of Natural Science in the General information section of this catalog for details of the M.N.S. degree.

Cooperative Idaho State University-Boise State University Master’s Degree in Applied Geophysics

Graduate students admitted to the Boise State University M.S. program in Applied Geophysics may, subject to the approval of their thesis committee, transfer up to 12 credits of graduate credit from Idaho State University. For details of this cooperative program, the student should consult the BSU Graduate Catalog and the BSU Department of Geology and Geophysics.

University of Idaho-Boise State University Master’s Degree in Hydrology

Access to the University of Idaho (of I) M.S. program in hydrology is provided to Idaho State University and BSU graduate students via the offering of University of Idaho hydrology classes at Boise State University. Students interested in the University of Idaho hydrology degree should consult the of I Graduate Studies Catalog and the of I Department of Geology.
Graduate Certificate in GeoTechnology

Goals
1. Graduates will have the knowledge and skills necessary to apply geotechnology in their chosen careers or fields of interest.
2. Graduates will have the background to compete successfully for industrial and academic positions.
3. Increase knowledge of how geotechnical applications are incorporated into research, education, and industry.

Objectives
1. Learn and perform techniques in Geographic Information Systems, Global Positioning System, Remote Sensing, and related skills.
2. Increase knowledge of how geotechnical applications are incorporated into research, education, and industry.
3. Increase knowledge of geotechnical workforce needs and the future directions of geotechnological applications.

Admission Requirements
Classified admission is necessary to complete the Certificate and is recommended by the graduate faculty of the Geosciences Department in accordance with standards set by the Graduate School. Applicants must have a bachelor’s degree from an accredited institution and meet the Graduate School’s requirements. All applicants must submit four letters of recommendation, and a statement of goals for graduate study.

General Requirements
Students will complete 14 credits of required course work and 5 credits of elective course work to obtain the Certificate. The following courses are relevant:

Core Courses (14 credits required):
- GEOL 5503 Principles of GIS 3 cr
- GEOL 5504 Advanced GIS 3 cr
- GEOL 5507 GPS Applications in Research 3 cr
- GEOL 5508 GeoTechnology Seminar 2 cr
- BIOL 5518 Ecological Topics 1 cr
- GEOL 5509 Remote Sensing Applications 3 cr

Electives (5 credits required):
- ANTH 5582 Independent Problems in Anthropology* 3 cr
- BIOL 5582 Independent Problems in Biology 1-3 cr
- CIS 5580 Data Base Management Systems 3 cr
- GEOL 5527 Information Technology for GIS 3 cr
- GEOL 5528 Programming for GIS 2 cr
- GEOL 5550 Special Topics in GIS 1-3 cr
- GEOL 5581 GeoTechnology Internship 1-3 cr
- GEOL 6606 Geostatistics Spatial Data Analysis and Modeling 4 cr
- GEOL 6607 Spatial Analysis 3 cr
- GEOL 6628 Advanced GIS Programming 3 cr
- GEOL 6648 Research Problems 1-3 cr allowed
- TOTAL: 19 cr

* Topic: Geographical Information Systems and Anthropology (or GIS and Anthropology)

For current information regarding GIS Center and courses, see the website: http://giscenter.isu.edu

Geology Graduate Courses
- GEOL 5502 Geomorphology 4 credits. Process-response approach to landforms and landscapes. Historical perspectives, endo- and exogenic processes, equilibrium and relict landforms. Emphasis on interrelations among various geologic sub-disciplines. Field trips, some lab exercises. PREREQ: GEOL 3313 OR PERMISSION OF INSTRUCTOR.
- GEOL 5502L Geomorphology Laboratory 0 credits.
- GEOL 5503 Principles of Geographical Information System 3 credits. Study of GIS fundamentals, introduction to GPS, databases, and metadata. Practical application of ESRI ArcView®. Build, edit, and query a GIS; basic spatial analysis. Requires competence in computer operating systems. PREREQ: CIS 1101 OR INSTRUCTOR APPROVAL; COREQ: GEOL 5503L.
- GEOL 5503L Principles of GIS Laboratory 0 credits. Computer lab assignments to apply principles from GEOL 5503.
- GEOL 5504 Advanced Geographic Information Systems 3 credits. Study of relational databases, including spatial analysis, and remote sensing. Practical application of Arc/Info and Idrisi. Exercises include digitizing, querying, digital terrain modeling, and image processing. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.
- GEOL 5505 Volcanology 3 credits. Aspects of physical and chemical volcanology: types of volcanoes; interpretation of volcanic deposits; properties of magma; generation, rise, and storage of magma; volcanic hazards and prediction. PREREQ: ONE OF GEOL 3314, GEOL 4421, GEOL 5502, OR GEOL 5552.
- GEOL 5506 Environmental Geology 3 credits. Humans and the environment. Topics include: industrial exploitation of fossil fuels, energy sources, soils, water and other materials, environmental health, pollution, waste disposal, hazards, disasters, and land use. PREREQ: GEOL 1100 OR GEOL 1101.
- GEOL 5507 GPS Application in Research 3 credits. Overview of satellite positioning systems usage. Topics include GPS theory, basics, satellite mapping concepts, use of mapping grade receivers for GIS data collection, and processing of carrier phase data for high precision applications.
- GEOL 5508 GeoTechnology Seminar 2 cr. GIS applications in natural and social sciences; ethical and legal issues, current status and recent advances in GeoTechnology. Lectures, discussion, readings. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.
- GEOL 5509 Remote Sensing 3 credits. Fundamentals and applications of single frequency, multispectral, and hyperspectral remote sensing for physical, natural, engineering, and social sciences. Emphasis on acquiring, processing, integrating, and interpretation of imagery. Requires competence in computer operating systems.
- GEOL 5510 Science in American Society 2 credits. Observational basis of science; technology’s historical influences on scientific developments; perceptions of science in contemporary America; tool/strategies for teaching science. Cross-listed as PHYS 5510. PREREQ: JUNIOR STANDING AND PERMISSION OF INSTRUCTOR.
- GEOL 5515 Quaternary Global Change 3 credits. Use and interpretation of landforms, sediments, and fossil life in the reconstruction of Quaternary events, environment, and climates. PREREQ: PERMISSION OF INSTRUCTOR.
- GEOL 5516 Global Environmental Change 3 credits. Analysis of the causes and effects of both natural and human-induced environmental change. Integrates knowledge from other Earth Systems Science Courses, and examines and analyzes relevant problems in global environmental change using scientific methods. PREREQ: GEOL 1115, GEOL 1115L, GEOL 2310, GEOL 5506, and BIOL 2209.
- GEOL 5517 General Soils 3 credits. Formation, morphology, and distribution of soils, including developments in soil classification. PREREQ:
GEOL 1100 OR GEOL 1101 OR GEOL 1115, OR PERMISSION OF INSTRUCTOR.

GEOL 5520 Principles of Geochemistry 3 credits. Chemistry of the earth; discussion of factors controlling abundance, distribution, and migration of chemical elements within the earth. PREREQ: GEOL 2211, AND CHEM 1111, CHEM 1111L, CHEM 1112, CHEM 1112L, OR PERMISSION OF INSTRUCTOR.

GEOL 5522 Planetary Geology 3 credits. Formation of planetary bodies (planets, moons, asteroids, and comets), internal and surficial processes, tectonics, and planetary exploration. PREREQ: GEOL 1100 OR GEOL 1101 OR PERMISSION OF INSTRUCTOR.

GEOL 5527 Information Technology for GIS 3 credits. Study of servers, networks, system administration, relational database design and management, spatial database engines, and serving maps on the internet. The course uses traditional lectures along with demonstrations, and hands-on exercises. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.

GEOL 5528 Programming for GIS 3 credits. Course introduces students to Visual Basic programming for GIS. Students will learn the fundamentals of object oriented programming, rapid application development, basic coding, help documentation, and compiling. Students will complete a project where they develop a GIS utility of their choice. PREREQ: MATH 1147 AND GEOL 1100 OR 1101, OR PERMISSION OF INSTRUCTOR.

GEOL 5530 Principles of Hydrogeology 3 credits. Surface and groundwater occurrence, movement and recovery, water quality and pollution, well construction principles, and computer modeling. PREREQ: GEOL 1100 OR GEOL 1101, OR PERMISSION OF INSTRUCTOR.

GEOL 5531 Geobiology and the History of Life 4 credits. Principles of biology and geology applied to the study of fossil invertebrates; consideration is given to morphology, classification, evolution, paleoecology, and the stratigraphic significance of fossils. PREREQ: GEOL 2202 (recommended); PERMISSION OF INSTRUCTOR.

GEOL 5531L Invertebrate Paleontology Laboratory 0 credits.

GEOL 5539 Principles of Taphonomy 3 credits. Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed as ANTH 5539 and BIOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

GEOL 5540 Ore Deposits 3 credits. Nature, mode of occurrence, and origin of ores with each type related to a given rock association as well as the product of a particular environment. PREREQ: ONE OF GEOL 3314, GEOL 5552 (RECOMMENDED), OR GEOL 4421.

GEOL 5545 Environmental and Engineering Geophysics 4 credits. Geophysical applications to environmental and geological engineering problems. Includes seismic, gravity, magnetic, electrical, and electromagnetic methods. (Includes lab.) PREREQ: MATH 1144 OR 1147, GEOL 1100 OR 1101, OR PERMISSION OF INSTRUCTOR.

GEOL 5550 Field Geology 6 credits. Five-week summer field camp, applying standard geologic field instruments and geologic concepts to a series of field problems. PREREQ: GEOL 4421 and GEOL 5552, GEOL 3314 (recommended) or GEOL 4420.

GEOL 5551 Field Methods in Environmental Sciences 3 credits. Practical application of field methods with an Earth systems focus. Analysis of topographic and vegetational data, hydrologic methods, riverine processes and habitat, and soil characteristics, emphasizing use of GIS, GPS, remote sensing and other geotechnologies. Two-week summer course at Lost River Field Station. PREREQ: GEOL 5503 and GEOL 5503L, and either GEOL 5515 or GEOL 5516, and BIOL 2209.

GEOL 5552 Sedimentation-Stratigraphy 4 credits. Principles of sedimentation from source to diagenesis. The basis of stratigraphic nomenclature, classification, and correlation of rock units. Laboratory covers unconsolidated sediment, hand specimens, subsurface, and field techniques. PREREQ: GEOL 2210 AND ENGL 1102 OR PERMISSION OF INSTRUCTOR. COREQ: CHEM 1111.

GEOL 5552L Sedimentation-Stratigraphy Laboratory 0 credits. Assignments to apply principles in GEOL 5552. COREQ: GEOL 5552.

GEOL 5554 Basic Engineering Geology 3 credits. Geology applied to engineering projects; geotechnical problems in civil projects; site methods. Subsurface investigations including scope, logging, and in situ and geophysical methods. Cross-listed as CE 5554. PREREQ: GEOL 3314 OR CE 3332.

GEOL 5556 Geology of Idaho 2 credits. Geologic provinces and plate tectonic history of Idaho. Topics include basement, Belt Supergroup, Phanerozoic passive margin, Cordilleran orogen, accretion terranes, Idaho batholith, Challis volcanics, Idaho mineral deposits, Basin and Range, Snake River and Pleistocene floods. PREREQ: GEOL 1100 OR GEOL 1101.

GEOL 5558 Geology of North America 3 credits. Regional stratigraphy and tectonics of North America emphasizing National Parks and the Intermountain West. Graduate students will do extensive additional reading in current literature. PREREQ: GEOL 1100 OR GEOL 1101.

GEOL 5565 Subsurface Geology 3 credits. Principles of well log interpretation and correlation, core and cuttings description, cross section and subsurface map creation. Environmental geology, hydrogeology, mining, geological engineering, and petroleum applications. PREREQ: GEOL 2210 OR PERMISSION OF INSTRUCTOR.

GEOL 5571 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho’s economic, political and cultural history. May be team taught and include field trips, discussion sections. Cross-listed as HIST 5571 and POLS 5571.

GEOL 5575 Essentials of Geomechanics 3 credits. Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as CE 5575. PREREQ: GEOL 4421 OR ENGR 3350.

GEOL 5576 Engineering Geology Project 1 credit. Team projects studying actual problems in engineering geology. Cross-listed as CE 5576. PREREQ: GEOL 5554 OR CE 5554.

GEOL 5580 Special Topics in GIS 1-3 credits. Visual Basic programming for GIS. May be repeated. PREREQ: GEOL 5503 and GEOL 5503L OR PERMISSION OF INSTRUCTOR.

GEOL 5581 Geotechnology Internship 1-3 credits. Choose a project with either natural resource or municipal GIS emphasis and work with real-world data at the internship’s off-campus location. Projects focus on using/creating geotechnical data. PREREQ: GEOL 5503 and GEOL 5503L OR PERMISSION OF INSTRUCTOR.

GEOL 5583 Earthquake Engineering 3 credits. Mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. Cross-listed as CE 5580. PREREQ: GEOL 3313 OR CE 3332, OR PERMISSION OF INSTRUCTOR.

GEOL 5591 Seminar 1 credit. Field trip or discussion of current geologic literature and geologic problems. May be repeated until 3 credits are earned. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

GEOL 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

GEOL 6601 Advanced Physical Geology 2 credits. An advanced level course in physical geology required for all first year graduate students. A review of the principles of physical geology, and an overview of current hypotheses and research in the field.

GEOL 6602 Advanced Geomorphology 3 credits. Seminar in the treatment of theoretical concepts in classical and modern geomorphology.

GEOL 6603 Geologic Writing Seminar 1 credit. Review of quality geologic writing practices; extended field trip and introduction to regional geology. Topics include databases, abstracts, stratigraphic terminology, grant proposals, thesis
GEOL 6604 Watershed Modeling 3 credits. Use of geographic information systems and integrated simulation models to study the hydrologic cycle, water quality, agricultural and industrial impacts, environmental and related issues at the watershed scale. PREREQ: GEOL 5404.

GEOL 6606 Geostatistical Spatial Data Analysis and Modeling 4 credits. Description, analysis and modeling of spatial data in the geosciences, emphasizing hands-on application of geostatistical software tools for spatial analysis and probabilistic modeling in petroleum and groundwater reservoirs, environmental remediation, and mining or any application involving spatially-variying data. PRE-REQ: PERMISSION OF INSTRUCTOR.

GEOL 6607 Spatial Analysis 3 credits. This course focuses on advanced techniques for spatial data analysis covering issues in sampling, characterizing, visualizing, exploring and modeling spatial data. Techniques for point patterns, continuous data, area data, and spatial interaction data will be emphasized. PREREQ: GEOL 5503, MATH 1170/1175, AND A BASIC STATISTICS CLASS (e.g., MATH 2253) OR PERMISSION OF INSTRUCTOR.

GEOL 6609 Advanced Image Processing 1 credit. An advanced-level course in image processing techniques, such as using transforms, filters, and classifiers for data derived in the visible, infrared, and microwave. Specific topics include preprocessing, endmember analysis, classification (including spectral unmixing), and accuracy assessment. Practical application of theory for graduate student theses and dissertations. PRE-REQ: GEOL 5509.

GEOL 6615 Neutron Activation Analysis 4 credits. Theory and use of neutron activation methods for quantitative chemical analysis of natural and synthetic materials. Applications in geologic systems will be emphasized. Cross-listed as CHEM 6665, PHYS 6615. PREREQ: PERMISSION OF INSTRUCTOR.

GEOL 6617 Environmental Geochemistry 3 credits. Geochemistry of environmental systems. Emphasis given to low-temperature water-rock interactions, including sorption processes, retardation, reaction kinetics and reaction-mass transport modeling. Cross-listed as CHEM 6617. PREREQ: CHEM 1112 AND GEOL 5520 OR CHEM 3351.

GEOL 6618 Applied Geophysics 3 credits. Geologic interpretation of reflection seismic, gravity, magnetics, and ground-penetrating radar data.

GEOL 6621 Advanced Structural Geology 3 credits. Current aspects of structural geology or tectonics. May focus on regional structures, tectonic theories, orogenic mechanisms, global tectonic model(s), or topics of special interest in structural geology.

GEOL 6622 Orogenic Belts of the World 3 credits. Interdisciplinary analysis of Alpine and Cordilleran-type mountain belts including their infrastructure, tectonic evolution, and mechanisms of formation.

GEOL 6623 Tectonics and Sedimentation 3 credits. Sedimentary basin analysis and mechanisms of subsidence. Extensional, compressional and strike-slip tectonics as related to depositional systems, facies architecture, and provenance.

GEOL 6625 Quantitative Geochemistry Lab 3 credits. Practical application of theory involving use and operation of instrumental techniques. Cross-listed as CHEM 6625.

GEOL 6628 Advanced GIS Programming 3 credits. Course focuses on Visual Basic for Applications (VBA) programming for ArcGIS. Students will learn to navigate, interact, and utilize ArcObjects to customize ArcGIS and to create and distribute their own customizations (i.e., dll). PREREQ: GEOL 5503, GEOL 5528, AND PERMISSION OF INSTRUCTOR.

GEOL 6630 Advanced Hydrogeology 3 credits. Advanced topics in hydrogeology, including precipitation and stream flow, soil moisture, principles and modeling of groundwater flow, migration of wastes in both saturated and unsaturated zones, design and impact of production wells, water chemistry. PREREQ: GEOL 5530 OR EQUIVALENT.

GEOL 6631 Sedimentology 3 credits. Provenance, dispersal, and environments of deposition; emphasis on various aspects of surface equilibria.

GEOL 6641 Advanced Petrology 3 credits. Selected topics in igneous and/or metamorphic petrology, regional and/or global aspects of current interest, including relationship to major advances in other areas of solid earth sciences.

GEOL 6646 The Sedimentary Record 4 credits. Earth history as revealed in sedimentary facies, provenance, chemical and isotopic excursions. Methods of analysis including sequence stratigraphy, geochronology, biogeochemistry, chemostratigraphy, Sedimentary petrology and field methods emphasized in lab.

GEOL 6648 Research Problems 1-6 credits. Independent research on non-thesis subject matter, subject to approval of the staff before results receive credit. Course may be repeated until 10 credits are earned.

GEOL 6650 Thesis 1-9 credits. Ordinarily a field problem with supporting laboratory work undertaken by the student with approval of the geology graduate faculty, and after a thesis prospectus has been accepted. May be repeated. Graded S/U.

GEOL 8850 Doctoral Dissertation (Ph.D. in Engineering and Applied Science) variable credits. Research toward and completion of the dissertation. May be repeated Graded S/U.

Department of History

Chair and Associate Professor Marsh Professors: Christelow, Hale, Hatzenbuehler, Owens

Associate Professors: Kuhlman, Woodworth-Ney

Assistant Professors: Hinman

Adjunct Faculty: Reinke Emeritus Faculty: Marley, Ruckman, Swanson

Master of Arts in Historical Resources Management

The M.A. in Historical Resources Management trains students to apply sophisticated information technologies to a rigorous analysis of historical problems. Emphasis is placed on a practical, interdisciplinary approach to applied history, using new technologies to examine changes through time and place. Students within this innovative program choose between two concentrations or “tracks.”

1. The GIS track combines the use of geographic information systems (GIS) and related information technologies with historical research methods to conduct spatial analyses of the past. ISU is an internationally recognized center in applying GIS to historical research. Students may work closely with the award-winning ISU GIS Teaching and Research Center, which provides technical training and support and promotes multi-disciplinary collaboration among ISU faculty and graduate students. Geotechnology is a powerful tool and a highly sought skill in most job sectors, where demand far exceeds the supply of trained graduates. This technological training complements the fundamental historians’ skills of research, analysis, and writing that are always in demand.

2. The Digital Media track focuses upon using a variety of media tools to communicate historical information and interpretation. Students learn techniques of web design, museum displays, film production, and scholarly publishing. In addition to collaboration with faculty in the James E. Rogers Department of Mass Communication, students may gain ex-
perience from working with two peer-reviewed journals edited by faculty in the History Department, on-campus production facilities of Idaho Public Television, and local museums. Graduates will conduct significant historical research and present interpretations in a variety of engaging and effective formats.

Students in both tracks complete an internship that develops skills in analysis, collaboration, and communication. Both options emphasize individual research into historical documents and publication or presentation by students in a variety of formats. Students receive strong training that will enable graduates to compete successfully for a wide variety of jobs with businesses and educational, government, and private agencies and to prepare them for further graduate study.

Admission Requirements

The student must apply and meet all criteria for admission to the Graduate School. In addition, the student must comply with the following departmental requirements:

1. Applicants must submit three letters of recommendation at least two of which should be from individuals familiar with their academic work.

2. Applicants should have at least 12 credits of previous course work in History at the upper-division level.

3. Applicants planning to pursue the GIS track must have taken GIS for Social Sciences, Principles of Geographic Information Systems, an equivalent class, or present evidence that such a course will be completed prior to entering the Historical Resources Management master’s program. Note: student’s lacking this prior training may be admitted for the GIS track in the spring semester upon condition that they take one of these GIS classes during that first semester.

4. Applicants must submit, as part of their admissions application, a statement of interest in historical studies and personal goals that identifies which track the student’s wishes to pursue. Particular attention should be given to explaining how these interests and goals relate to a particular track within the Historical Resources Management master’s program.

5. To be successful, an applicant must receive the support of someone in the department willing to chair the applicant’s graduate committee.

General Requirements

1. A minimum of 30 semester credits, at least 15 of which must be at the 6600-level.

2. Core Courses (complete all of the following classes):
   - HIST 5590 Cartography: History and Design 3 cr
   - HIST 5590L Cartography Lab 1 cr
   - HIST 6600 Graduate Proseminar 3 cr
   - HIST 6642 Conferences and Grants 3 cr

3. Track-specific Requirements (complete one of the following options):

   **GIS Track**
   - HIST 6610 Geographical Information Systems in Historical Studies 3 cr

   **Digital Media Track**
   - MC 5570 Communication through Web Design 3 cr

4. An internship (HIST 6664) is required for a minimum of 3 credits.

5. Electives: at least enough credits at the 5500 and/or 6600-level beyond the required core courses and internship to reach the credit requirements stated in item #1 previously. At least 3 of these credits must be for individual research, usually either HIST 6645 or HIST 6650.

   6. There will be a final oral examination. For students pursuing the thesis option, the examination will be based on the thesis. For those with the non-thesis option, the examination will be based on an independent research project and/or internship work. The format of the non-thesis option examination will be flexible in order to accommodate a wide variety of possible student experiences.

History Graduate Courses

**HIST 5505 Problems in History 3 credits.** A thorough consideration of historical problems, particularly from a comparative perspective. Designed to give deeper insight into problems, issues, and topics which are treated more generally in other courses. May be repeated with different content.

**HIST 5518 U.S. History for Teachers 3 credits.** U.S. history from indigenous cultures through modern America. Based on Idaho Department of Education Standards for High School Students. PERMISSION OF INSTRUCTOR.

**HIST 5521 Federal Indian Relations 3 credits.** This course provides a legal-historical examination of the relationship between North American tribal peoples and the U.S. federal government between 1750 and the present. Special emphasis will be placed on Indian removal, assimilation policy, treaty negotiation, the Dawes Severalty Act, education policy, Indian reorganization policy, and termination.

**HIST 5523 Idaho History 3 credits.** A survey of the social, cultural, environmental, and political history of Idaho from pre-contact indigenous cultures to the present, emphasizing Idaho’s relation to other states and regions in the West.

**HIST 5525 Women in the North American West 3 credits.** Comparative examination of the varied experiences of women in the North American West. Analyzes perceptions of women and women’s views of themselves, women’s activism, and women’s cultural activities. Places special emphasis on the use of non-textual historical sources in uncovering the past lives of North American western women.

**HIST 5527 North American West 3 credits.** History of the North American West from pre-contact indigenous cultures to the present, with an emphasis on exploration, settlement, ethnic groups, borderlands, environment, federal policy, and cultural depictions.

**HIST 5529 Foreign Relations since 1900 3 credits.** An introduction to the history of international relations in the twentieth century. This course emphasizes the impact of wars on various peoples and cultures, anti-colonialism and the rise of the so-called ‘Third World,’ and the processes of political, cultural and economic ‘globalization.’

**HIST 5530 Global Environmental History 3 credits.** Comparative examinations of historical interactions between humans and environmental factors in various time periods and regions throughout the world, and an assessment of their impacts on historical change.

**HIST 5535 Colonial Frontiers in America and Africa 3 credits.** A comparative examination of exploration, conquest, and resistance, and the interaction of cultures in frontier settings. Examines both the realities of the frontier and their impact on Western thought and imagination.

**HIST 5537 Families in Former Times 3 credits.** Reconstructs the marriage patterns and domestic lives of people in pre-industrial Europe (1000-1700 AD).

**HIST 5538 Women in Pre-Industrial Europe 3 credits.** Compares and contrasts the social, cultural and economic roles of women from 700-1700 AD, and analyzes the impacts of historical change on their lives.

**HIST 5539 Women in History 3 credits.** Comparative study of the history of women in different world regions.

**HIST 5541 The Viking Age 3 credits.** Studies the cultures and societies of Scandinavia, England, and continental Europe from 700 to 1100 AD.

**HIST 5543 English History 3 credits.** Survey of the more important British political, constitutional, economic, and cultural developments from Anglo-Saxon times to the Victorian Period.
HIST 5544 Victorian England and After 3 credits. England, 1837 to the present. An examination of the cultural, social, political, and economic history of the most prosperous and productive period of English history, including British national and imperial decline in the twentieth century.

HIST 5546 Social and Economic History of Greece and Rome 3 credits. Investigates ways in which geography, demography, and politics affected the mentalities and behaviors of social groups—women, patrons, clients and slaves—and the functioning of households, villages and cities.

HIST 5548 Medieval Social and Economic History 3 credits. Analyzes the impact of political instability, migration and environment upon Europeans (AD 200 - 1400).

HIST 5550 Golden Age Castile 3 credits. History of a major European country in an age of globaliz, military revolution, religious conflict, and significant cultural development, 1450-1700.

HIST 5553 Renaissance Creativity 3 credits. Examination of the conditions promoting individual creativity among Europeans in the first global age, 1400-1700. Special emphasis on geospatial research on the history of printing.

HIST 5560 The Global Hispanic Monarchy 3 credits. The African, American, Asian, European, and Oceanic domains of the Iberian Habsburg dynasty, especially those of Castile and Portugal, whose officials and subjects created and maintained many of the communications routes that defined the first global age. Students prepare geospatial datasets on these routes.

HIST 5561 Independent Study: U.S. 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

HIST 5562 Independent Study: Europe 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

HIST 5563 Independent Study: World Regions 1-3 credits. Selected readings in areas and periods not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

HIST 5565 U.S. Political History 3 credits. Study of the political history of the United States involving a discussion of theories of popular voting behavior, critical elections, and political party systems.

HIST 5571 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho’s economic, political and cultural history. May be team taught, and includes field trips, discussion sections. Cross-listed as GEOG 5571 and POLS 5571.

HIST 5574 Islam and Nationalism in the Modern World 3 credits. A study of the interaction of Islam and national and ethnic identities in the Middle East including North Africa from 1800 up to the recent past.

HIST 5578 Imperialism and Progressivism 3 credits. A study of the world 1880-1920. Movements of change within the West, Third World responses to the Western challenge, and global crisis.

HIST 5579 Disease and U.S. Public Health 3 credits. A survey of health, disease, and public health developments in American history. The course takes a broad approach to health, but includes the development of public health offices, the role of disease in society, specific diseases and related eradication programs, and questions related to health, equity, and civil liberties.

HIST 5589 GIS for Social Sciences 3 credits. An introduction to geographic information systems theory and applications focusing on subjects related to human systems in historical context (census, health, urban communities, etc.). Students will work directly with GIS software and learn foundational data management and processing skills along with introductory spatial analysis. Requires competence in computer operating systems.

HIST 5590 Cartography: History and Design 3 credits. History of how map-makers represent geographic, spatial data. Special attention to the elements of successful cartographic design.

HIST 5591 Seminar 3 credits. Reading, discussion, and preparation for research papers on selected topics.

HIST 5592 Graduate Internship 3-12 credits. Supervised experience in the application of Geographic Information Systems (GIS) and other relevant Information Technologies to a historical project in a collaborative work environment. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR WHO WILL DIRECT THE PROJECT AND OF THE STUDENT’S HISTORICAL RESOURCES MANAGEMENT GRADUATE COMMITTEE.

HIST 5593 Study of the political history of the United States involving a discussion of theories of popular voting behavior, critical elections, and political party systems.

HIST 5571 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho’s economic, political and cultural history. May be team taught, and includes field trips, discussion sections. Cross-listed as GEOG 5571 and POLS 5571.

HIST 5574 Islam and Nationalism in the Modern World 3 credits. A study of the interaction of Islam and national and ethnic identities in the Middle East including North Africa from 1800 up to the recent past.

HIST 5578 Imperialism and Progressivism 3 credits. A study of the world 1880-1920. Movements of change within the West, Third World responses to the Western challenge, and global crisis.

HIST 5579 Disease and U.S. Public Health 3 credits. A survey of health, disease, and public health developments in American history. The course takes a broad approach to health, but includes the development of public health offices, the role of disease in society, specific diseases and related eradication programs, and questions related to health, equity, and civil liberties.

HIST 5589 GIS for Social Sciences 3 credits. An introduction to geographic information systems theory and applications focusing on subjects related to human systems in historical context (census, health, urban communities, etc.). Students will work directly with GIS software and learn foundational data management and processing skills along with introductory spatial analysis. Requires competence in computer operating systems.

HIST 5590 Cartography: History and Design 3 credits. History of how map-makers represent geographic, spatial data. Special attention to the elements of successful cartographic design.

HIST 5591 Seminar 3 credits. Reading, discussion, and preparation for research papers on selected topics.

HIST 5592 Graduate Internship 3-12 credits. Supervised experience in the application of Geographic Information Systems (GIS) and other relevant Information Technologies to a historical project in a collaborative work environment. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR WHO WILL DIRECT THE PROJECT AND OF THE STUDENT’S HISTORICAL RESOURCES MANAGEMENT GRADUATE COMMITTEE.

Women’s Studies Graduate Courses

WS 5561 Independent Study 1-3 credits. Selected readings and research in areas of Women’s Studies not covered by the regular curricular offerings. May be repeated for a maximum of six credits. PREREQ: 3.0 CUMULATIVE GPA AND W S 201 OR EQUIVALENT; PERMISSION OF INSTRUCTOR.
James E. Rogers  
Department of Mass Communication

Chair and Professor Terry  
Professors: Frazier, Jull  
Assistant Professors: Beachboard-Robbins, Hallaq

Mass Communication Graduate Courses

(No graduate degrees are offered)

M C 5518 Art of the Book 3 credits. Expands the traditional idea of book form with innovative structures and concepts. Textural and nontextual formats and methods for generating ideas for works are addressed. Traditional techniques for bookbinding will also be included. Cross-listed as ART 5518.

M C 5531 Teaching High School Journalism 2 credits. Current high school journalism practices. Includes newspapers, broadcast, advertising, photography as appropriate. Emphasis is on applying the content of other journalism courses in the high school.

M C 5540 Media Law and Ethics 3 credits. Principles of the law of libel, privacy, obscenity, press freedom, responsibility and ethics as they apply to the news media.

M C 5541 Intellectual Property Law 3 credits. Examination of principles and laws regarding intellectual property including copyright and trademark and examination of the regulation of commercial speech.

M C 5552 Mass Communication and Society 3 credits. Interface between mass media (news, entertainment and advertising) and audiences. Analysis of public’s right to know, press freedom, censorship, political and other leanings in the media, media effectiveness, and ethics. PREREQ: JUNIOR STANDING OR PERMISSION OF INSTRUCTOR.

M C 5560 Corporate Video Production 3 credits. Producing for corporate, educational, home video, documentary and other nonfiction markets. Advanced production techniques. Major project required. PREREQ: M C 3300.

MC 5570 Communication Through Web Design 3 credits. Theory, ideology and practical application of interactive document design utilizing several different software applications. Emphasis placed on communication. Also taught within a practical and aesthetic context, ethics, current practices, purposes, styles, genres and directions in authoring for the world wide web. PREREQ: M C 2260 OR PERMISSION OF INSTRUCTOR.

Department of Mathematics

Chair and Professor Fisher  
Assistant Chair and Professor Laquer  
Professors: Egger, Hanin, R. Hill, Krileff, Lang, Palmer, Payne, Stowe, Wolper  
Associate Professors: Chen, Gironella, Gryazin  
Assistant Professors: Derryberry, Zhu  
Adjunct Faculty: Kress, Martin, Miller, Mills, Potter, Reed, Walker, Yost  
Professor Emeritus: Cresswell, L. Hill, Parker

Goals
- M.S. students develop a broad knowledge of mathematics and a degree of competence in one field within mathematics.
- D.A. students develop a broad knowledge of mathematics; learn about the roles of instruction, service, and research in the mathematical profession; and study a mathematical topic in depth, reporting their findings in a thesis that meets professional standards.
- Graduate students find employment in teaching or industry.

Doctor of Arts in Mathematics

The Doctor of Arts program in mathematics is designed to prepare the student for a teaching career in institutions of higher learning. The program emphasizes broad competence in mathematics rather than specialization and makes provision for classroom teaching experience.

Admission Requirements

Admission to the D.A. program requires the completion of the requirements for a master’s degree equivalent to the M.S. in mathematics at Idaho State University with a 3.5 GPA or higher in all graduate work. The general Graduate Record Examination (GRE) is required with a minimum score at the 67th percentile on the quantitative section and at the 50th percentile for the average of the percentiles on the quantitative, verbal, and analytical sections.

In addition to completing the application procedure specified by the Graduate School (page 7), applicants to the D.A. program in Mathematics must:

1. Submit directly to the Department of Mathematics a letter discussing the applicant’s reasons for wishing to pursue the D.A. program. The letter must contain a request for an assistantship or fellowship if the applicant wishes to be considered for such.

2. Arrange for three confidential letters of recommendation to be sent directly to the Department of Mathematics. These letters must address the applicant’s background and potential for success in the study of advanced mathematics and in the teaching of college-level mathematics.

Applicants will be selected according to the following criteria:

1. Measure of success in completing the master’s program;
2. Satisfactory GRE scores;
3. Teaching experience;
4. Letters of recommendation;
5. Applicant’s reasons for wishing to pursue this specific program.

Applications must be received by April 1 to be given full consideration.

Residence

Up to six semester hours beyond the master’s degree may be transferred into the program. Two consecutive semesters of full-time study are required in residence.

Committees and Advising

The student will be advised initially by the departmental graduate committee. This group will be the student’s temporary advising committee and will assist in the selection of the student’s permanent committee which will supervise the remainder of the student’s program.

General Requirements

The program requires course work, a thesis, teaching internships, and examinations as described below. The program must include a minimum of 48 credits beyond the masters degree, and at least two 6000-level sequences taken in residence. Approval for optional courses is granted by the Mathematics Department Graduate Committee.

1. Course Work
   a. Mathematics Component
i. **CORE COURSES**

MATH 6625-6626 Real Analysis  
MATH 6627-6628 Complex Analysis  
MATH 6631-6632 Abstract Algebra  
MATH 6671-6672 Topology

ii. **Twelve additional 6600-level Mathematics credits, including one full-year sequence**

b. **Interdisciplinary and Applied Mathematics Component**

Fifteen (15) credit hours of coursework in statistics, applied mathematics, and/or approved interdisciplinary coursework in statistics, applied mathematics, and/or approved interdisciplinary subjects are required.

i. The following mathematics courses satisfy this requirement:

MATH 5550-5551 Mathematical Statistics  
MATH 5521-5522 Advanced Engineering Mathematics  
MATH 5541-5542 Numerical Analysis  
MATH 5577 Applied Regression Analysis  
MATH 5558 Experimental Design  
MATH 5559 Applied Multivariate Analysis  
MATH 5565 Partial Differential Equations  
MATH 6641-6642 Numerical Analysis  
MATH 6652 Stochastic Processes  
MATH 6653 Advanced Topics in Probability and Statistics  
MATH 6662-6663 Differential Equations  
MATH 6664-6665 Applied Mathematics

ii. **Education Component**

i. MATH 6600 Supervised College Teaching Practicum 2 cr  
ii. MATH 6692 Doctor of Arts Seminar 2 cr  
iii. MATH 6693 Mathematical Exposition 1 cr

An approved course in technical or expository writing if recommended by the departmental graduate committee in consultation with the student’s permanent committee.

2. **Doctor of Arts Thesis**

The Doctor of Arts Thesis is an expository or research paper in mathematics or mathematics education. Six hours of course credit are given for the completion of the thesis.

3. **Teaching Internship**

Each candidate must complete teaching internships under the supervision of the departmental Graduate Committee. Six hours of course credit must be earned in MATH 7700 Supervised Teaching Internship.

4. **Examinations**

a. **D.A. Written Examination:** A written comprehensive examination on undergraduate-level mathematics.

b. **Oral Examination:** An oral examination on the four core areas previously described in Section 1.

c. **Final Examination:** The candidate will present to the public a lecture on the candidate’s dissertation, and will answer any questions that arise. Following the lecture and question period, the candidate will be examined orally by the candidate’s dissertation committee on topics related to the dissertation.

---

**Doctor of Philosophy in Engineering and Applied Science**

This Ph.D. program is available to students wishing to study mathematics applied to problems in subsurface science. The complete program description is provided under the College of Engineering section of the Graduate Catalog.

**Master of Science in Mathematics**

The Master of Science degree program is designed to provide a broad and in-depth background and prepare the student for further study at the doctoral level or for an industrial or academic career.

**Admission Requirements**

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements.

For full admission to the M.S. degree program in mathematics, the applicant must have completed all requirements for a bachelor’s degree in mathematics at an accredited institution. The applicant should have a grade point average of at least 3.0 in upper-division undergraduate course work and have taken the Graduate Record Examination, achieving at least the 50th percentile on the quantitative part of the general aptitude test. The student should have completed course work in modern algebra, differential equations, advanced calculus, and introductory analysis. Applicants not fully meeting these requirements may be allowed to make up deficiencies at Idaho State University. If the applicant wishes to be considered for an assistantship, the applicant must send directly to the Department of Mathematics a letter requesting such and a brief outline of the applicant’s qualifications for a teaching or research assistantship.

Applications must be received by April 1 to be given full consideration.

---

**General Requirements**

The Master of Science program in Mathematics provides thesis and non-thesis options. Students choosing either option must take 15 credits in mathematics at the 6600 level, including two full-year sequences. Of the remaining 15 graduate credits required for the degree, at least 9 must be in mathematics. The entire program of study must be approved by the departmental graduate committee.

Students must pass a written examination on one of the 6600-level sequences in their programs of study. Those who choose the thesis option must also complete and defend an expository or research thesis, for which they will receive 6 credits of MATH 6649. Those who choose the non-thesis option must pass a final oral examination over all courses in their program of study.

**Master of Arts in Mathematics for Secondary Teachers**

The degree Master of Arts in Mathematics for Secondary Teachers (MAMST) is designed for people with a bachelor’s degree who hold a secondary school teaching certificate for the teaching of mathematics and have at least three years of full-time teaching experience. The objective of the program is to enhance the mathematical training of secondary teachers and to equip such teachers with a broad and modern background in mathematics.

**Admission Requirements**

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements. For full admission to the MAMST program, the applicant (1) must hold a bachelor’s degree and a standard secondary school teaching certificate in mathematics; (2) must have at least three years’ full-time teaching experi-
ence; (3) must have a GPA of at least 3.0 for the last two years of undergraduate work; (4) must have taken the Graduate Record Examination (GRE), achieving at least the 50th percentile on the quantitative part of the general aptitude test; and (5) must have completed undergraduate work equivalent to that required for the Idaho State University Teaching Major in Mathematics.

General Requirements
The MAMST degree requires the following:
1. Possession of a bachelor’s degree and a secondary teaching certificate in mathematics.
2. Completion of a program of study approved by the Graduate Committee of the Department of Mathematics and the Dean of the Graduate School.
3. Completion of a minimum of 30 credits beyond the bachelor’s degree in courses numbered 5500 or above.
4. Approval of semester papers as required by the Graduate Committee of the Department of Mathematics.
5. Satisfactory performance on comprehensive written and oral examinations on the student’s program of study.

Mathematics Graduate Courses

MATH 5507-5508 Modern Algebra 3 credits each. Rings, fields, groups, algebras, and selected topics in abstract algebra. Suggested prerequisite MATH 2240 and MATH 2287.

MATH 5522 Advanced Engineering Mathematics 3 credits. Analysis of complex linear and nonlinear engineering systems using advanced techniques, including probability and statistics, advanced numerical methods and variational calculus. Cross-listed as ENGR 5522. Suggested prerequisite ENGR 5521 or MATH 5521.

MATH 5523-5524 Introduction to Real Analysis 3 credits each. The real number system, limits, sequences, series, and convergence; metric spaces; completeness; and selected topics on measure and integration theory. Suggested prerequisite MATH 2240, MATH 3326, and MATH 3360.

MATH 5535 Elementary Number Theory 3 credits. Diophantine equations, prime number theorems, residue systems, theorems of Fermat and Wilson, and continued fractions. Suggested prerequisite MATH 5507.

MATH 5541 Introduction to Numerical Analysis 3 credits. Introduction to standard numerical techniques for solving problems dealing with nonlinear equations, systems of linear equations, differential equations, interpolation, numerical integration, and differentiation. Suggested prerequisite MATH 2240, MATH 3326, and MATH 3360 or PERMISSION OF INSTRUCTOR.

MATH 5542 Introduction to Numerical Analysis 3 credits. Extension of MATH 5541 for students who wish to pursue more advanced techniques with emphasis on analysis. Typical topics covered include numerical methods applied to partial differential equations, integral equations, and in-depth treatment of topics covered in MATH 5541. Suggested prerequisite MATH 5541.

MATH 5544 Modern Geometry 3 credits. Transformation groups. Topics from hyperbolic, projective, and other geometries.

MATH 5550-5551 Mathematical Statistics 3 credits each. Probability, random variables, discrete and continuous distributions, order statistics, limit theorems, point and interval estimation, uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests. Suggested prerequisites MATH 3326 and MATH 3352.

MATH 5553 Topics in Statistics 1-3 credits. Content varies. May be repeated for up to 6 credits. Suggested prerequisite PERMISSION OF INSTRUCTOR.

MATH 5557 Applied Regression Analysis 3 credits. Simple and multiple linear regression, polynomial regression, diagnostics, model selection, models with categorical variables. Suggested prerequisites MATH 3350 or MATH 3352 or PERMISSION OF INSTRUCTOR.

MATH 5558 Experimental Design 3 credits. The linear model for experimental designs, analysis of variance and covariance, block designs, factorial designs, nested designs, choice of sample size. Suggested prerequisite MATH 3350 or MATH 3352 or PERMISSION OF INSTRUCTOR.

MATH 5559 Applied Multivariate Analysis 3 credits. Matrix computation of summary statistics, graphical analysis of multivariate procedures, multivariate normal distribution, MANOVA, multivariate linear regression, principal components, factor analysis, canonical correlation analysis. Suggested prerequisite MATH 2240 and one of the following: MATH 3350, MATH 5557, MATH 5558 or PERMISSION OF INSTRUCTOR.

MATH 5573 Introduction to Topology 3 credits. Metric spaces; convergence; notions of continuity; connected, separable and compact spaces. Suggested prerequisite PERMISSION OF INSTRUCTOR.

MATH 5581 Special Problems 1-3 credits. Reading and conference in an area not usually covered by a regular offering. Individual work under the supervision and guidance of a professor whose specialty includes the chosen area. Open to seniors and graduate students in good standing and with the consent of the instructor. May be repeated until 6 credits are earned.

MATH 5591 Mathematics Seminar 1-3 credits. Advanced reading and discussion on selected topics in mathematics. May be taken for credit more than once. Suggested prerequisite SENIOR STANDING OR EQUIVALENT.

MATH 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

Courses 5526 through 5562 are restricted to students admitted to the MAMST program.

MATH 5526 Elementary Analysis 3 credits. Rigorous calculus on the real line. Completeness, compactness and connectedness. Continuity, images of compact and connected sets. Series, uniform convergence. Differentiability, inverse functions, chain rule. Integration, fundamental theorem, improper integrals. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5527 Vector Analysis 3 credits. Calculus of vector functions of several variables, derivative matrix, chain rule, inverse function theorem, multiple integration. Change of variables. Integrals over curves and surfaces. Green’s, Stokes’ and Divergence Theorems. Applications to Physics. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5543 Modern Geometry I 3 credits. Planar Euclidean geometry. Rigid motions and symmetry in the plane. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5552 General Statistics 3 credits. Probability, random variables, discrete and continuous distributions such as the Binomial, Poisson, Geometric, Hypergeometric, Normal and Gamma, sampling distribution, point and interval estimation, hypothesis testing. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.
MATH 5555 Operations Research 1 3 credits. Deterministic problems in operations research oriented towards business. Includes linear programming, transportation problems, network analysis, PERT, dynamic programming, and elementary game theory. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5556 Operations Research II 3 credits. Probabilistic models oriented towards business are treated. Selections from stochastic processes, Markov chains, queuing theory, inventory theory, reliability, decision analysis and simulation. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5560 Differential Equations 3 credits. Theory and applications of ordinary differential equations. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 5562 Introduction to Complex Variables 3 credits. Introduction to the study of functions of a complex variable including the algebra and geometry of complex numbers, analytic functions, power series, integral theorems, and applications. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

MATH 6600 Supervised College Teaching Practicum 1 Credit. Supervised classroom teaching of mathematics at the remedial and freshman level. Includes classroom observation and periodic meetings to discuss course management, pedagogy, and other relevant topics with peers and a faculty supervisor. Open only to graduate teaching assistants with responsibility for classroom instruction. May be repeated. Graded S/U.

MATH 6625-6626 Real Analysis 3 credits each. Measures, the Lebesgue integral, Lp spaces and other normed vector spaces, approximation theorems. Suggested prerequisite MATH 5524.

MATH 6627-6628 Complex Analysis 3 credits each. Theory of functions of a single complex variable, including their differentiation, integration and representation by sums, products and integrals. The Cauchy integral formula and its consequences, conformal mappings, harmonic functions.

MATH 6631-6632 Abstract Algebra 3 credits each. Advanced theory and structural properties of groups, rings, modules, and fields, including topics such as group actions, universal maps, and Galois theory. Suggested prerequisites MATH 5508 or PERMISSION OF INSTRUCTOR.

MATH 6633 Matrix Analysis 3 credits. Eigenvalues, special matrices, normal forms, matrix polynomials, matrix functions, matrix norms, Kronecker products, stability, matrix equations, generalized inverses, nonnegative matrices. Suggested prerequisites MATH 5506 and MATH 5524.

Suggested prerequisites MATH 5506 and MATH 5507 or PERMISSION OF INSTRUCTOR.

MATH 6641-6642 Numerical Analysis 3 credits each. Topics selected from approximation theory, optimization, numerical linear algebra, differential and integral equations, spline analysis, computer algorithms, and other areas of current research in numerical analysis. Suggested prerequisites MATH 5523 and MATH 5541.

MATH 6650 Thesis (M.S.) 1-6 credits. May be repeated. Graded S/U.

MATH 6652 Stochastic Processes 3 credits. Topics from conditional probability and expectation, martingales, Kolmogorov’s Theorem, Markov processes, random walks, Brownian motion, diffusions, dynamic programming, stochastic differential equations. Applications to modeling physical and/or social dynamical systems. Suggested prerequisite MATH 5550.

MATH 6653 Advanced Topics in Probability and Statistics 3 credits. Topics such as experimental design, regression analysis, multivariate statistical analysis. Suggested prerequisites MATH 3325 AND MATH 5506 or PERMISSION OF INSTRUCTOR.

MATH 6655-6656 Combinatorics 3 credits each. Theory and applications of: choice and enumeration techniques, generating functions, partitions, designs and configurations, graph theory including digraphs, algebraic graph theory and extremal problems. Suggested prerequisite PERMISSION OF INSTRUCTOR.

MATH 6662-6663 Differential Equations 3 credits each. Existence, uniqueness, and dependence of solutions upon initial conditions; linear equations; autonomous equations; dynamical systems and stability; partial differential equations of first and second order, with applications. Suggested prerequisites MATH 3326, MATH 3327, and MATH 3360.

MATH 6664-6665 Methods of Applied Mathematics 3 credits each. Transform, spectral, variational and perturbation methods applied to the analysis of equations involving differential and integral operators. Emphasis on equations arising in physical and biological sciences. Suggested prerequisites MATH 5506 and MATH 5565.

MATH 6667-6668 Functional Analysis 3 credits each. Major results of functional analysis, such as the Hahn-Banach, open mapping, and closed graph theorems; study of Hilbert and Banach spaces; spectral analysis. Suggested prerequisites MATH 5523 or MATH 6625 or PERMISSION OF INSTRUCTOR.

MATH 6671-6672 Topology 3 credits each. Fundamental theorems and examples from point-set topology; emphasis on general and metric topologies and continuous mappings; introduction to topology of manifolds, covering spaces, homotopy, homology, and cohomology. Suggested prerequisite MATH 5573 or PERMISSION OF INSTRUCTOR.

MATH 6681-6682 Differential Geometry 3 credits each. Differentiable manifolds and mappings; bundles, connections, geodesics, and curvature; Lie groups; topics from Riemannian, Hermitian, or symplectic geometry. Suggested prerequisite MATH 3327.
Museum Graduate Courses

(No graduate degrees are offered)

MUSE 5550 Independent Study in Museum Methods 1-3 credits. Individual projects based on student’s background and interests. Could include, but not limited to, advanced work in collections management, exhibit design and construction, museum education, or administration. May be repeated up to 6 credits. PREREQ: MUSE 4411 OR PERMISSION OF INSTRUCTOR.

Department of Music

Chair and Professor Earles

Professors: Bond, Brooks, Lane

Associate Professors: Hasenpflug, Livingston-Friedley, Schulte

Assistant Professors: Park, K. York

Assistant Lecturer: Helman

Master of Education in K-12 Education

Music Education 36 Credits

(course work only option)

The M.Ed. in Music Education is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Core Professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to music education. The program is designed to meet the needs of music education specialists who work in the public school system (grades K-12) or who aspire to further graduate study and teaching in music education.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, individuals applying for admission to the Master of Education/Music Education, must meet the following admission requirements:

- Bachelor’s degree in music from an accredited college or university.
- It is expected that students will meet basic requirements for public school certification.
- Completion of entrance examinations in music history and music theory. Students whose examination indicate deficiencies will be granted Classified (w/PR) Status. Any course used to remove deficiencies does not count toward the degree. When deficiencies have been removed, the student may seek Classified Status.

General Requirements

Students complete a minimum of 36 semester credit hours for the Master’s degree. Students seeking Idaho Certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students have professional experience in an education context.

Education Core (12 credits)

EDUC 6601 Research and Writing 3 cr
EDUC 6602 Theories of Learning 3 cr
EDUC 6610 Applied Educational Statistics 3 cr
EDUC 6616 Integration of Technology into School Curriculum 3 cr

Pedagogy and Content (24 credits)

MUSC 5515 Seminar in Band Music 2 cr
OR
MUSC 5516 Seminar in Choral Music 2 cr

MUSC 5518 Seminar in Orchestral Music 2 cr

MUSC 5545 Advanced Instrumental Conducting 2 cr
MUSC 5546 Advanced Choral Conducting 2 cr
MUSC 6601 Foundations in Music Education 3 cr
MUSC 6610 Practicum in Rehearsal Techniques 2 cr
MUSC 6611 Music Education Seminar 3 cr
Graduate Performance Ensemble (2 semesters) 2 cr
Music History/Theory Elective 2-3 cr
Music History/Theory Elective 2-3 cr
Other Music Electives 4-6 cr
Total 36 credits

Music Graduate Courses

MUSC 5506 Opera Literature 3 credits. Masterworks of operatic literature.

MUSC 5507 Symphonic Music Literature 3 credits. Masterworks of symphonic literature.

MUSC 5508 Chamber Music Literature 3 credits. Masterworks of chamber music literature.

MUSC 5511 Instrument Literature 2 credits. A study of instructional materials and literature for an orchestral instrument or guitar. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

MUSC 5512 Instrument Pedagogy 2 credits. A survey and comparative study of pedagogical materials, principles and procedures. Application of pedagogical techniques in teaching situa-

College of Arts and Sciences 73
phasic on contemporary styles. May be repeated up to 12 credits.

MUSC 5535 Analysis of Musical Styles 2 credits. The techniques of stylistic analysis of music from the Baroque period through the 20th century.

MUSC 5538 Special Topics in Music Theory 2 credits. Advanced studies in selected topics in music theory. May be repeated up to 6 credits with change of topic.

MUSC 5539 Advanced Music Theory Survey 3 credits. Study of music theory methods, including harmonic and formal analysis.

MUSC 5545 Advanced Instrumental Conducting 2 credits. Designed for secondary school music educators. Practical experience in analyzing and rehearsing instrumental conducting techniques for a wide variety of instrumental music. PREREQ: MUSC 3320.

MUSC 5546 Advanced Choral Conducting 2 credits. Designed for secondary school music educators. Practical experience in analyzing and rehearsing choral conducting techniques for a wide variety of choral music. PREREQ: MUSC 3319.

MUSC 5566 Chamber Choir 1 credit. Reading, study and performance of representative literature for chamber choir. Emphasis is placed on the individual’s contribution toward the highest of choral standards. May be repeated.

MUSC 5591 Independent Study 1-4 credits. Supervised study in selected areas, primarily research, writing, or analysis. May be repeated to a maximum of 7 credits. PREREQ: PERMISSION OF INSTRUCTOR AND DEPARTMENT CHAIR.

MUSC 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

MUSC 6601 Foundation in Music Education 3 credits. Historical, philosophical, and psychological foundations of music education, with their application to current instruction and evaluation.

MUSC 6610 Practicum in Rehearsal Techniques 2 credits. Advanced techniques of ensemble rehearsal, including procedures, diagnostic and achievement evaluation, planning and pedagogy. PREREQ: MUSC 5515 OR MUSC 5516, MUSC 5517.

MUSC 6650 Thesis Project 1-4 credits. The student will present a public graduate recital, supervised by a faculty member in the music department. In addition to the recital, a paper will be submitted demonstrating extensive familiarity with research relative to the music performed in the recital. This paper will be written under the supervision of a faculty member from the College of Education and faculty members from the Music Department. The completed paper and recital are to be accepted by the examining committee and the paper filed with the dean of the College of Education. A recording of the recital will be filed with the music department. May be repeated. Graded S/U.

MUSC 6671 Music Education Seminar 3 credits. Advanced examination of concepts, principles, models, and theories of instruction in music education. Seminar format requires active participation in readings, discussion, presentations, and written assignments. PREREQ: MUSC 6601 AND MUSC 6610.

MUSC 6695 Graduate Recital 2 credits. Public recital culminating from applied music study at the graduate level. Graded S/U.

**Graduate Performance Ensembles**

MUSC 5566 Chamber Choir 1 credit. Reading, study and performance of representative literature for chamber choir Emphasis is placed on the individual’s contribution toward the highest of choral standards. May be repeated. PREREQ: Junior level standing in applied music.

MUSC 5567 Opera Workshop 1 credit. Ensemble course devoted to the study and presentation of an opera. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

MUSC 5568 Instrumental Ensemble 1 credit. Ensemble training in various instrument combinations, such as string quartet and various woodwind and brass ensembles. Section 1, Woodwind Ensemble; 2, Brass Ensemble; 3, Percussion Ensemble; 4, String Ensemble; 5, Guitar Ensemble; 6, Keyboard Ensemble. May be repeated.

MUSC 5569 Orchestra 1 credit. Sight reading of representative orchestral literature; orchestral routine, study, and public performance of major symphonic compositions including orchestral accompaniments. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

MUSC 5572 ISU Women’s Choir 1 credit. Study, rehearsal and performance of traditional and non-traditional choral music for treble voices. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

MUSC 5573 Concert Choir 1 credit. Study and performance of the entire body of choral music. Includes several performances and concerts. Emphasis on attaining high musical standards and levels of choral-vocal proficiency. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

MUSC 5575 Woodwind Instruments 1-3 credits each. Study, rehearsal and performance of traditional and non-traditional woodwind and woodwind combo, with an emphasis on contemporary and modern works. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

MUSC 5578 Jazz Band 1 credit. Rehearsal and performance of standard and contemporary big band literature. One or two concerts are given each semester. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**Department of Physics**

**Professors:** Brey, Dale, Gesell, Shropshire, Wells

**Associate Professors:** Cole, Keeter, Tatar

**Assistant Professor:** Harris

**Senior Lecturer:** Hackworth

**Research Associate Professor:** Hunt

**Research Assistant Professors:** Chandler, Hall, Harker, Langley, Nigg, O’Rear, Roney, White

**Emeritus Faculty:** Parker, Price, Vegors

**Goals: All Programs**

The objectives of our graduate degrees, which are the M.S., M.N.S., and a Ph.D. in Applied Physics, are to develop a core competence in the fundamental physical science that is appropriate for the level of the degree, to develop more generalized skills of quantitative reasoning that are applicable to any discipline, and to understand the nature and influence of physics in particular, and science in general, upon our society. Additional objectives for these students include the development of (1) broad, fundamental technical skills and knowledge, (2) strong communication skills, and (3) the capability to think critically and work independently. The expectations for
each of these objectives has a “level” that is appropriate for the degree.

The Department offers two emphases in its Applied Physics programs. These are Health Physics, which is the science and practice of radiation protection, and Physics, which is the science and application of the physical laws of nature.

The learning objectives of the M.S. degree with an emphasis in physics, are mastery of the “core” subjects of electromagnetism, non-relativistic quantum mechanics, and theoretical methods of classical physics (principally mechanics) at the highest levels. This degree also requires completion of an original research thesis project with the objective of mastery of planning, completing, and publishing original research in physics.

The objectives of the Idaho State University Health Physics M.S. program are to produce health physicists with broad, yet fundamental, technical knowledge, written and verbal communication skills, professional judgement and capability to think critically, practical experience in solving applied health-physics problems, the ability to work independently, and a professional ethic of magnitude sufficient for students to productively and successfully work in a variety of health-physics settings.

The M.N.S. degree’s purpose is to provide a broad spectrum of knowledge in physical science for teachers of secondary education. The technical learning objectives are flexible in order to accommodate the interests of the student, so long as the subject area is physical science. There is no thesis requirement or expectation for this degree. The communication objectives for these degrees are writing and speaking skills that are sufficient to represent themselves, their projects, and their organizations at regional, national, or international scientific meetings. Our expectations are that these students will develop critical thinking skills and an ability to work independently such that they are capable of initiating and leading their own scientific projects, and can work at a level that requires no supervision.

Doctor of Philosophy in Applied Physics

Goals
• Prepare graduates to conduct and disseminate independent scholarly research in applied physics.
• Prepare graduates for careers in academia, or related fields in the health professions, industry, or government.

Objectives
• Increase the knowledge of graduates in their chosen field of applied physics.
• Enhance the ability of graduates to contribute to their chosen field of applied physics.
• Enhance effective written and oral communication skills of graduates.

The Ph.D. program in Applied Physics is an interdisciplinary program offered by the Department of Physics that allows for a broad range of research topics. Areas of emphasis in the department include: nuclear physics applications, health physics, radiation effects in materials, biological systems and devices, accelerator physics and applications, materials science, homeland security applications, and other areas of applied nuclear science.

To attain a degree in this program, a student must demonstrate scholarly achievement and ability for independent investigation. The program will normally require approximately five years of full-time study beyond the bachelor’s degree (or three years beyond the master’s degree), including class work, research, and preparation of the dissertation.

Admission Requirements
All applicants must meet Idaho State University Graduate School admission requirements for doctoral programs. In addition, applicants must have attained a minimum of a bachelor’s degree in physics, health physics, or a reasonably closely related field (engineering, chemistry, biology, etc.). Students with degrees in biology, for example, are excellent candidates for admission to the health physics program. The student’s course of study will be determined by consultation with the department chair, the health physics program director, or the department’s graduate advising committee. Students may be required to complete any missing course material that is required for the B.S. degree in physics or health physics at Idaho State University. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average, and upon making satisfactory progress toward the degree.

A complete graduate application for classified status in the Idaho State University Physics Department Ph.D. program consists of:
1. GRE scores (normally, a minimum of 50th percentile on verbal, quantitative, or analytical is required for classified students);
2. An Idaho State University Graduate School application form, fee, and official copies of transcripts;
3. Three letters of recommendation;
4. A statement of career goals.

General Requirements
The Ph.D. degree requires completion of at least 84 credits. Of these, at least 32 credits, but no more than 44 credits, must be doctoral dissertation credits (PHYS 6699). Of the remaining credits, at least 4 must be graduate seminar (or equivalent, as determined by the department), electives, and the required courses listed below. Students entering the program with a master’s degree may receive credit for up to 30 credits toward the Ph.D., subject to the department chair’s approval. Such students should have completed the required courses as listed below (or their equivalent, as determined by the department), at Idaho State University. The required courses depend upon whether the student is enrolled in the health physics option or the physics option.

Required Courses for the health physics option (or equivalent at other institu-
Doctoral oral examinations are open to all regular members of the graduate faculty as observers. Further, oral presentations are open to the public until questioning by the dissertation committee begins.

Doctor of Philosophy in Engineering and Applied Science

This Ph.D. program is available to students wishing to study mathematics applied to problems in subsurface science. The complete program description is provided under the College of Engineering section of the Graduate Catalog.

Master of Science Programs

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with departmental requirements:

A complete graduate application for classified status in the Idaho State University Physics Department consists of:

1. GRE aptitude scores;
2. An Idaho State University Graduate School Application form, fees, and official copies of transcripts;
3. Three letters of recommendation.

Applicants must hold the degree of Bachelor of Science or Bachelor of Arts in Physics, or a closely related field for the physics emphasis, or a B.S. or B.A. degree in health physics, biology, chemistry, physics, engineering, or similar field for the health physics option, as determined by the department. The student’s course of study will be determined by consultation and possibly an entrance examination. Students will normally be required to complete as deficiencies any courses required for the B.S. in Physics at Idaho State University which they have not already taken. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average and upon making satisfactory progress toward the degree.

Master of Science (Physics Emphasis):

A satisfactory score on physics examinations may be required before admission to candidacy.

8-12 additional credits in courses approved by the student’s advisor, department Chair, and the Graduate School.

Master of Science (Health Physics Emphasis):

The Department of Physics additionally offers the M.S. option in Health Physics. Health physics, an applied science, is concerned with the protection of humans and their environment from the possible harmful effects of radiation while providing for its beneficial uses. It is a multi-disciplined profession that incorporates aspects of both the physical and biological sciences. M.S. students completing this degree program receive a Master of Science degree in Physics with Emphasis in Health Physics indicated on their transcripts.

Students may enter the M.S. program in Health Physics from several undergraduate majors including health physics, physics, chemistry, biology, and other science or engineering majors. Additional course work to correct deficiencies may be necessary.

Admission Requirements

For admission, the student must apply to, and meet all criteria for, admission to the Graduate School, including a baccalaureate degree in a physical or biological science or engineering.
General Requirements

The basic program requirements are 33 credits, of which 15 credits must be at the 6600-course level. Six of the eighteen required credits may be thesis. The normal core program is listed below. Students who are prepared with some education and experience in health physics will likely not need all of the elective health physics courses. Therefore, the student’s program will be determined in consultation with the student's advisor and committee and can include electives to meet his/her needs. An oral examination in defense of the thesis is required for the thesis option.

In the Ph.D. program, a non-thesis option is available to students who do not pass the qualifying exam.

Master of Natural Science in Physics

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School.

The Master of Natural Science (MNS) in Physics is designed primarily for teachers and prospective teachers who want to improve their understanding of the subject matter of physics. Emphasis is upon the subject matter and is generally not a thesis program. Individuals interested in this degree should hold a teaching certificate or be working toward one.

General Requirements

The student’s program will be determined in consultation with the student’s advisor and committee. The program requires a minimum of 30 credits, 22 of which must be in residence. A final oral examination is required.

statistical mechanics, random motion and the theory of noise. Choice of topics will depend upon the interest of the students and instructor. PREREQ: PHYS 2212, MATH 3360.

PHYS 5516 Radiation Detection and Measurement 3 credits. Lecture/laboratory course emphasizing practical measurement techniques in nuclear physics. PREREQ: CHEM 1111, CHEM 1111L, CHEM 1112, CHEM 1112L, AND EITHER PHYS 1111 AND PHYS 1113 OR PHYS 2211 AND PHYS 2213.

PHYS 5517 Industrial and Aerosol Physics 3 credits. This course focuses on two distinct subject areas: an elaboration on the details of the ACGIH method of local exhaust-system design, and a study of applied aerosol physics based upon trajectory analysis. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5518 Non-ionizing Radiation Protection 3 credits. Occupational safety and health issues of human exposure to non-ionizing radiation. Topics include health concerns and safety strategies developed for extremely low frequency, microwave, ratio-frequency, ultraviolet, infrared, laser radiation, and sound waves. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5519 Radiological Emergency Planning 3 credits. Radiological emergency planning for facilities ranging from reactors and other major nuclear facilities to transportation accidents and smaller-scale nuclear accidents. Topics include planning, coordination, “exercises”, exposure pathways, modeling, measurement, control, decontamination, and recovery. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5520 Reactor Health Physics 3 credits. Introduction to reactor physics; nuances peculiar to reactor health physics; reactor designs. Critiques of exposure pathways accidents, decommissioning, contamination control, and emergency planning examine radiation safety approaches within the nuclear fuel cycle. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5521-5522 Electricity and Magnetism 3 credits. Intermediate course in fundamental principles of electrical and magnetic theory. Free use will be made of vector analysis and differential equations. PHYS 5521 is a PREREQ for 5522. PREREQ: PHYS 2212 AND MATH 3360.

PHYS 5551 Radiation Physics I 3 credits. Atomic and nuclear structure, series and differential-equation descriptions of radioactive decay, physical theory of the interaction of radiation with matter suitable for the discipline of Health Physics. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5552 Radiation Physics II 3 credits. Continuation of 5551 considering dosimetric quantities/units, theory and technology of radiation detection and measurement, and radiobiology important to an advanced understanding of radiation protection. PREREQ: PHYS 5531 OR PERMISSION OF INSTRUCTOR.
PHYS 5533 External Dosimetry 3 credits. A lecture course emphasizing external radiation protection including study of point kernel techniques, Monte Carlo modeling, and NCRP-49 methods. Also discussed are external dosimetry measurement techniques. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

PHYS 5534 Internal Dosimetry 3 credits. A lecture course emphasizing internal radiation protection including studies of ICRP-2, ICRP-26&30, ICRP-60&66, and MIRD methods of internal dosimetry. PREREQ: PHYS 5533 OR PERMISSION OF INSTRUCTOR.

PHYS 5542 Solid State Physics 3 credits. Introduction to the field of solid state physics emphasizing the fundamental concepts. Topics usually covered are crystal structure, X-ray diffraction, crystal binding energies, free electron theory of solids, energy bands. PREREQ: PHYS 3301, PHYS 5583, MATH 3360 OR PERMISSION OF INSTRUCTOR.

PHYS 5552 Intermediate Optics 3 credits. Wave theory, e/m waves, production of light, measurement of light, reflection, refraction, interference, diffraction, polarization, optical systems, matrix methods, Jones vectors, Fourier optics, propagation of e/m waves in materials, atmospheric optics. PREREQ: PHYS 2212. COREQ: MATH 3360.

PHYS 5553 Topics in Astrophysics 2 credits. Applications of physics to astronomy or cosmology. May include lab exercise. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5555 Topics in Health Physics I 2 credits. A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

PHYS 5556 Topics in Health Physics II 2 credits. A continuation of 5555. A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

PHYS 5561-5562 Introduction to Mathematical Physics 3 credits. Introduction to the mathematics most commonly used in physics with applications to and practice in solving physical problems; includes vector analysis, ordinary and partial differential equations. PHYS 5561 is a PREREQ for 5562. PREREQ: PHYS 2212 AND MATH 3360.

PHYS 5583 Theoretical Mechanics 4 credits. Detailed study of the motion of particles, satellites, rigid bodies and oscillating systems. Develop and apply Lagrangian and Hamiltonian methods. PREREQ: PHYS 2212 AND MATH 3360.

PHYS 5588 Advanced Radiobiology 3 credits. An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Cross-listed as BIOL 5588. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 5590 ABHP Review 3 credits. A course for practicing professionals aimed at the development and improvement of skills. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U.

PHYS 5592 Colloquium in Physics 1 credit. Faculty and student lectures in current research topics in physics. Open to upper division and graduate students in physics. May be repeated to a maximum of 4 credits.

PHYS 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

PHYS 6601 Quantitative Methods in Physics 3 credits. A review of the principles of physics and quantitative methods used: calculus, elementary differential equations and statistics. Designed for graduate students in the biosciences, chemistry, geology and interdisciplinary sciences.

PHYS 6602 Theoretical Methods of Physics 3 credits. Calculus of variations, Lagrangian and Hamiltonian formalisms of classical mechanics, some classical scattering theory, methods of solving PDEs, Green's functions, functions of complex variables, vector and tensor analysis, matrix, group and operator theory, and numerical methods integrated throughout each topic.

PHYS 6603 Particle Physics 3 credits. Basic constituents of the standard model, experimental methods, particle interactions: weak, gravitational, strong and electromagnetic, conservation laws, hadron structure and interactions, unification of interactions, physics beyond the standard model. PREREQ: PHYS 6624 OR PERMISSION OF INSTRUCTOR.

PHYS 6605 Radiological Environmental Monitoring and Surveillance 3 credits. Advanced considerations in the design of monitoring programs. Sampling and analytical measurement programs for specific radionuclides and sources with emphasis in quality assurance.

PHYS 6609 Advanced Nuclear Physics 3 credits. Nucleon-nucleon interaction, bulk nuclear structure, microscopic models of nuclear structure, collective models of nuclear structure, nuclear decays and reactions, electromagnetic interactions, weak interactions, strong interactions, nucleon structure, nuclear applications, current topics in nuclear physics. PREREQ: PHYS 6624 OR PERMISSION OF INSTRUCTOR.

PHYS 6610 Radiation Regulations 3 credits. Covers regulation of ionizing and non-ionizing radiation. Historical, biological, and legal foundations; federal regulations; state regulations; nuclear fuel cycle; emergency response; academic and medical facilities; transportation; accelerators; NORM/NAR; non-ionizing radiation. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 6611 Electricity and Magnetism 3 credits. Maxwell's equations and methods of solution, plane wave propagation and dispersion, wave guides, antennas and other simple radiating systems, relativistic kinematics and dynamics, classical interaction of charged particles with matter, classical radiation production mechanisms.

PHYS 6612 Advanced Electricity and Magnetism 3 credits. Advanced topics in application of Maxwell's equations to wave guides, antennas and other simple radiating systems. Particular emphasis upon the relativistic interaction of charged particles with matter, energy loss, and classical radiation production and absorption mechanisms. PREREQ: PHYS 6611 OR PERMISSION OF INSTRUCTOR.

PHYS 6615 Neutron Activation Analysis 4 credits. Theory and use of neutron activation methods for quantitative chemical analysis of natural and synthetic materials. Applications in geologic systems with be emphasized. Cross-listed as CHEM 6615, GEOL 6615. PREREQ: PERMISSION OF INSTRUCTOR.

PHYS 6621 Classical Mechanics 3 credits. Lagrange equations, small vibrations; Hamilton's canonical equations; Hamilton's principal, least action; contact transformation; Hamilton-Jacobi equation, perturbation theory; nonlinear mechanics. PREREQ: PHYS 5583, PHYS 5561-5562 OR PERMISSION OF INSTRUCTOR.

PHYS 6624-6625 Quantum Mechanics 3 credits. Schroedinger wave equation, stationary state solution; operators and matrices; perturbation theory, non-degenerate and degenerate cases; WKB approximation, non-harmonic oscillator, etc.; collision problems. Born approximation, method of partial waves. PHYS 6624 is a PREREQ for 6625. PREREQ: PHYS 5561-5562, PHYS 6621 OR PERMISSION OF INSTRUCTOR.

PHYS 6626 Advanced Quantum Mechanics 3 credits. Elementary quantum field theory and practical applications. Emphasis upon non-relativistic and relativistic quantum electrodynamics, radiative processes, bremsstrahlung, pair-production, scattering, photo-electric effect, emission and absorption. PREREQ: PHYS 6625 OR PERMISSION OF INSTRUCTOR.

PHYS 6630 Accelerator Physics 3 credits. The physics of direct voltage accelerators, betatrons, synchrotrons, linear induction acceleration; high current accelerators; electromagnetic particle optics, free electron lasers and synchrotron light sources. PREREQ: PHYS 6612, PHYS 6624 OR EQUIVALENT.

PHYS 6631 Accelerator Technology 3 credits. Topics will include high voltage and pulsed power techniques, wave guide and P.F. structures, ion and electron beam sources and beam measurements as applied to particle beam machines. PREREQ: PHYS 6612 OR EQUIVALENT.

PHYS 6632 Particle Beam Laboratory 1-4 credits. Laboratory projects in particle beam and ion optics, radiation detectors, ion source operation,
Doctor of Arts in Political Science

This program is intended for students interested in careers teaching political science in a variety of higher education settings ranging from community colleges to universities. Doctor of Arts recipients are prepared to teach a variety of political science courses including those in American politics and in two additional specialties selected from among the fields of public law, political theory, comparative/international politics, and public administration. Doctor of Arts students will have three interdisciplinary options to choose from. Option #1: D.A. students will take 9 credits each in TWO of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology. Option #2: D.A. students will take 18 credits in ONE of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology. Option #3: D.A. students will take 18 credits from at least two of the five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology built around an interdisciplinary theme such as methodology or theory (courses and theme must be pre-approved by the chair of the student’s D.A. committee).

The D.A. in political science is generalist in nature. The emphasis is on a thorough grounding in political science supported by work in committee-approved social science disciplines. The program places emphasis on teaching political science rather than on the development of a narrow research specialty. Anine-credit-hour component of the program includes the development of pedagogical skills as well as sustained experience in the classroom.

Goals

1. Graduates will demonstrate literature-based knowledge in three subfields of political science.
2. Graduates will gain this knowledge of political science through an interdisciplinary approach that includes course work in one or two cognate social science disciplines.
3. Graduates will have extensive training in pedagogy, craft a distinct teaching philosophy, and demonstrate a variety of pedagogical techniques and skills.

4. Graduates will demonstrate their research skills by presenting their work at professional conferences and/or submitting their work for publication review.
5. Graduates will gain employment and establish their careers in higher education.

Admission Requirements

For full admission to the Doctor of Arts program, the applicant should have a cumulative GPA of 3.0 for the last two years of undergraduate study, an average score in the 50th percentile or above on any one of the three sections of the GRE exam, and a 3.5 GPA in all previous graduate study. The candidate must also submit to the Department of Political Science three letters of recommendation and a statement of his/her personal goals that will be weighted equally with the applicant’s GPA and GRE scores.

The program also employs an admission scoring system which awards D.A. applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA or GPA in an MA program; (2) scores on the Graduate Record Exam (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant’s goal statement. Applicants who are slightly under official admission requirements may be admitted if they are given an overall favorable admissions score.

General Requirements

An applicant entering with a B.A. or B.S. degree must fulfill a minimum of 79 credit hours including the teaching internship and up to a maximum of six dissertation credits. No more than 18 interdisciplinary credit hours (exclusive of interdisciplinary seminars) count toward the 79 credit hour minimum requirement. Candidates have the option of completing the M.A. or M.P.A. in political science en route to the D.A.; if they choose the non-thesis M.A. or M.P.A. program, only 30 hours of course work from the M.A. or M.P.A. will apply to the Doctor of Arts program. Candidates entering the Doctor of Arts program with M.A. degrees must complete a minimum of 49 credit hours, including two full-time consecutive semesters in residence, including a maximum six hours of dissertation credit. The total length and number of credit hours of a student’s program, above the minimum, is dependent upon the student’s academic preparation and his/her committee’s recommendations.

Department of Political Science

Chair and Professor Gabardi
Professors: Adler, Anderson, McBeth
Associate Professor: Lybecker
Assistant Professor: Carlisle, Forbis, Newman
Adjunct Faculty: Chambers, Eckert, Phippen
Political Science
Doctoral students are examined in three fields of political science. For all doctoral students, the major field of American politics is required.
1. American Politics, and
2. Any two of the following fields:
   a. Public Law
   b. Political Theory
   c. Comparative/International Politics
   d. Public Administration

Doctor of Arts students are required to take nine hours of 6600-level seminar courses (not including POLS 6694) selected from the following courses: POLS 6611, 6612, 6613, 6614, and 6615. Students may repeat these courses, even from the same professor, as long as the subject matter is different. Each course can only be repeated once. D.A. students are required to complete the methodology course POLS 5519, 5519L. Doctor of Arts students are also required to take POLS 8850, Dissertation, for a minimum of 3 credits.

Doctor of Arts students write a doctoral dissertation that may deal with either substantive disciplinary issues or pedagogical innovations or techniques. The D.A. student committee will consist of two political science faculty and a Graduate Faculty Representative (GFR). The student may request a professor from his/her interdisciplinary area to serve as the G.F.R.

After the successful completion of written comprehensive examinations, the D.A. student is required to present and defend a dissertation prospectus to the doctoral committee. The D.A. student may elect to have a public presentation of the dissertation prospectus (a colloquium) separate from the prospectus defense. When the candidate’s committee determines that the dissertation is ready for a defense, there will be a public presentation by the student followed by a closed and balloted defense of the dissertation with the candidate and the committee.

Pedagogy
Students must complete a nine-credit component of pedagogy to include POLS 6694, POLS 7702, and POLS 7703.

Interdisciplinary Component

Option #1:
D.A. students will take 9 credits each in TWO of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology.

Option #2:
D.A. students will take 18 credits in ONE of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology.

Option #3:
D.A. students will take 18 credits from at least two of the five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology built around an interdisciplinary theme such as methodology or theory (courses and theme must be pre-approved by the chair of the student’s D.A. committee).

Interdisciplinary Classes
D.A. students must take POLS 6620, Philosophy of the Social Sciences, and POLS 6621, Interdisciplinary Topics in the Social Sciences.

Examinations
Comprehensive written examinations are administered at the conclusion of the program of study that test the candidate’s knowledge of three fields of political science. This occurs after all course work is completed and before the dissertation prospectus is defended.

Master of Arts in Political Science
The mission of the Master of Arts (MA) program is to prepare students for future graduate study in political science by helping them develop knowledge and skill in political science and research methodology. This program emphasizes general preparation in political science and research.

Specific outcomes of the program include:

Goals
1. Graduates will master literature-based knowledge in two areas of political science.
2. Graduates will develop an understanding of political science research methodology and the role of research in academia.
3. Graduates will further their graduate careers by pursuing a doctorate in political science.
4. Graduates pursuing a terminal degree will find professional employment in education, public service, and business.

Objectives
1. Graduates will pass comprehensive examinations.
2. Graduates will present papers at professional conferences.
3. Graduates will be accepted into doctoral graduate programs.
4. Graduates will find employment in education, public service, and business.

Thesis/non-thesis options are available.
Areas of emphasis in the M.A. program are limited, because of the research nature of the degree, to American governmental institutions and political behavior, public law, political theory, public administration and comparative/international politics.

M.A. students are required to present themselves for comprehensive examination on their thesis and/or in two of the five areas of emphasis mentioned previously.

Admission Requirements
The student must apply to, and meet all criteria for admission to the Graduate School. In addition to the general requirements of the Graduate School, a student must have achieved a cumulative GPA of 3.0 in upper-division undergraduate study, and submit official GRE scores. The applicant must also submit to the Department of Political Science three letters of recommendation and a statement of his/her personal goals that will be weighted equally with the applicant’s GPA and GRE scores.

The program employs an admission scoring system that awards M.A. applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA; (2) scores on the Graduate Record Examination (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant’s goal statement.

Students may choose a thesis or non-thesis program. The requirements for these respective options are detailed below.

Thesis Program
Requirements include a total of 36 credits in graduate level courses approved by the Department of Political Science and the Graduate School. Internship credits are not
goals of 15 credits taken at the 6600-level; the literature in two subfields; and the M.A. thesis. The thesis may be defended a second time if the first defense is not satisfactory and further revisions are required.

Non-thesis Program
Political Research Methods, POLS 5519 and 5519L, are required. Other requirements include a total of 36 credits in graduate level courses approved by the Department of Political Science and the Graduate School; a minimum of 15 credits taken at the 6600-level; a maximum of 9 credits of directed reading courses; a comprehensive oral examination that covers the student’s graduate course work and the literature in two subfields; and the M.A. thesis. The thesis may be defended a second time if the first defense is not satisfactory and further revisions are required.

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with departmental requirements. Students may enroll in the MPA program by applying to one of the participating universities. Acceptance by any one of the three universities admits a student into the MPA program. A matriculated student should complete graduate studies at the institution that offers the area of specialization that she/he wishes to emphasize. Each student’s program will be established by an advisory committee consisting of three faculty members. It is anticipated that students will come from widely differing academic preparations, since no specific undergraduate program is required in preparation for the MPA program. However, some coursework in humanities and social sciences is essential to the foundation of the MPA program for all students.

In addition to the general requirements of the Graduate School, students seeking admission must have completed a baccalaureate degree from an accredited institution, demonstrate satisfactory academic competency by attaining a cumulative GPA of 3.0 in upper-division undergraduate course work, or a 3.5 GPA in previous graduate courses, submit official GRE scores, submit three letters of recommendation from individuals who are qualified to evaluate the applicant’s academic potential, and submit a statement of the student’s personal goals. The letters and statement of goals will be weighted equally with the applicant’s GPA and GRE scores. Please contact the Department for specific guidelines for letters of recommendation and statement of goals.

Master of Public Administration
The Master in Public Administration degree is an inter-university cooperative graduate program offered jointly by Boise State University, Idaho State University and the University of Idaho. The purpose of the program is to provide present and prospective public administrators with the basic intellectual preparation necessary to understand and to adjust to a changing and challenging environment, through an introduction to the theories and practices of administration, management and social science research as these relate to effective performance in public organizations.

The inter-university MPA program has been designed in accordance with the Guidelines and Standards for Professional Master’s Degree Programs in Public Affairs and Public Administration prescribed through the National Association of Schools of Public Affairs and Administration (NASPAA).

Goals
1. Graduates will develop an appreciation of serving the public interest.
2. Graduates will respect the law and the Constitution.
3. Graduates will demonstrate personal integrity.
4. Graduates will promote ethical organizations.
5. Graduates will develop distinctive public administration skills.
6. Graduates will strive for professional excellence and updating of skills throughout their professional careers.

The program employs an admission scoring system that awards MPA applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA or GPA in an M.A. program; (2) scores on the Graduate Record Examination (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant’s goal statement.

General Requirements
The MPA degree may be achieved through the successful completion of at least 30 semester credit hours of approved course work plus 6 credits of public service internship. Eighteen credit hours must be completed in courses selected from prescribed “core areas” with 12 additional credit hours completed in designated optional areas of emphasis. Students may follow a thesis or non-thesis option in pursuing the MPA. Students choosing to write a thesis (POLS 6650 - 6 credits) do so in addition to normal MPA course work and internship requirements. The thesis is written in lieu of the comprehensive written examinations. All MPA applicants must complete final examinations. Those following the thesis option will complete an oral examination covering the thesis and program coursework. The non-thesis option requires a written and an oral examination over program coursework. The academic program of each student must satisfy the general requirements of an integrated program designed to meet career objectives of the student in public administration.

Core and Optional Area Requirements
The specific course requirements of the MPA program are set forth in a list of courses that has been approved by the inter-university committee. This list is available through each of the cooperating universities. Courses are available at each institution in the “core areas.” The optional “areas of emphasis” may vary among the universities according to the resources and competence that exist in the respective departments. A description of those areas of emphasis that are presently operational at each institution and admission forms to the MPA program are available through the Political Science Department at Idaho State University or the Departments of Political Science at Boise State University or the University of Idaho.
I. Core Area Requirements

All students must take 18 credit hours of core area courses. Each student must choose at least one course from each area; Political Science 5551 is required for all students.

Area 1 Management of Public Service Organizations

- POLS 5541 Administrative Law
- POLS 5552 Financial Administration and Budgeting
- POLS 5554 Public Personnel Administration
- POLS 5558 Public Administration Ethics

Area 2 Methodology and Policy Analysis

- POLS 5553 Public Policy Analysis
- POLS 6622 Research Methods
- POLS 6623 Program Assessment

Area 3 Public Policy, Organizational Theory, and Grantwriting

- POLS 5505 The Administrative Process
- POLS 5551 Organizational Theory & Bureaucratic Structure
- POLS 5557 Grantwriting

II. Specialized Areas

All students must take 12 credit hours in a specialized area. Courses that are used to fulfill a core requirement cannot also be counted as a specialized course. (Students should follow instructions under each specialized area.)

Specialized Area 1 State, Local, and Non-Profit Administration

Choose four courses:

- POLS 5503 The Presidency
- POLS 5506 Intergovernmental Relations
- POLS 5509 Community and Regional Planning
- POLS 5541 Administrative Law
- POLS 5557 Grantwriting
- POLS 5567 State and Local Administration
- POLS 6612 Seminar: State and Local Politics
- POLS 6623 Program Assessment
- POLS 6669 Independent Problems
- ECON 5539 State and Local Finance
- GEOL 5503 Principles of GIS
- HIST 5589 GIS for Social Sciences

Choose three courses:

- POLS 5555 Politics of Environmental Problems
- POLS 5551 Administrative Law
- POLS 5553 Public Policy Analysis
- POLS 5556 Public Lands Policy
- POLS 6623 Program Assessment

GEOL 5503 Principles of GIS
HIST 5589 GIS for Social Sciences

Students may take other graduate-level courses with an environmental emphasis from Biology, Geology, Engineering, or other departments as approved by student’s MPA committee.

Specialized Area 3 Public Health Administration:

Choose four courses:

- POLS 5553 Public Policy Analysis
- POLS 5557 Grantwriting
- POLS 6623 Program Assessment
- HIST 5579 Diseases and U.S. Public Health

You must take other graduate-level courses from Health Care Administration (HCA), Health Education (HE), Master of Public Health (MPH), and Philosophy (Philosophy 6600, Ethics in Health Care), as approved by your graduate chair. A class in health care ethics is strongly recommended.

Specialized Area 4 The Legal Environment of Administration

Required courses:

- SOC 5531 Criminology
- POLS 5543 Constitutional Law (Civil Liberties)

Choose two courses:

- POLS 5504 Legislative Process
- POLS 5506 Intergovernmental Relations
- POLS 5541 Administrative Law
- POLS 5542 Constitutional Law (Separation of Powers)
- POLS 6669 Independent Problems

III. Public Administration Internship

Each student must complete 6 credit hours of an approved internship.

American Politics Graduate Courses

POLS 5501 Political Parties and Interest Groups 3 credits. The nature and development of political parties and pressure groups as exemplified in the United States.

POLS 5503 The Presidency 3 credits. Evolution and development of the office of the president; its major responsibilities in domestic and foreign affairs, with emphasis on particular power problems that confront the president.

POLS 5504 The Legislative Process 3 credits. Nature and functions of the U.S. Congress. Topics covered: Legislative campaigns, the politics of law-making, congressional investigations, and major problems facing the Congress.

POLS 5506 Intergovernmental Relations 3 credits. Analysis of patterns of intergovernmental relations including changing patterns of program and fiscal responsibility in the federal system. The emerging role of new federal structures, state and substate regional organizations will be reviewed in the context of “new” federalism and its implications for intergovernmental relationships.

POLS 5508 Metropolitan and Urban Studies 3 credits. Analysis of metropolitan and smaller urban systems with emphasis on relationships among general issues, political organizations and institutions. Federal, state and interlocal programs will serve as a focus for analyzing particular problems of metropolitan and urban systems in the 20th century.

POLS 5509 Community and Regional Planning 3 credits. Steps involved in planning will be analyzed in the context of community and regional decision-making processes. Two perspectives will be stressed—that of the decision-maker, the social structure within which the decision-maker operates and strategies for implementing decision; and that of the citizen or group interest which lies outside the power structure of the community. Each perspective will be used as a framework for analyzing power configurations, techniques of identifying patterns of decision making, and various forms of citizen participation.

POLS 5527 Voting and Public Opinion 3 credits. Analysis of the way citizens and government communicate with each other. Elections, public opinion, and media influence are studied.

POLS 5553 Public Policy Analysis 3 credits. Theoretical and practical analyses of public policies, including theories of policy formation and their political implementation through governmental institutions. Case studies will provide the means of analyzing specific policy problems.

POLS 5555 Environmental Politics and Policy 3 credits. Study of the political forces affecting environmental policy and investigation of several specific policies affecting the environment, such as pollution control, energy production, hazardous chemicals, and the public lands.

POLS 5556 Labor Organization 3 credits. Evolution of economic systems and labor’s response to changing patterns of production is studied, and a counter perspective to traditional management views of “efficiency” is presented. Emphasis is on governmental employee unions.

POLS 5565 U.S. Political History 3 credits. Study of the political history of the United States involving a discussion of theories of popular voting behavior, critical elections, and political party systems. Cross-listed as HIST 5565.

POLS 5566 Public Lands Policy 3 credits. Analysis of the historical and contemporary use and disposition of the federal public lands. The agencies that manage the public lands, major laws, and regulations and the political conflict that surrounds their use and conservation.

POLS 5571 Historical Geography of Idaho 3 credits. Influences of geography and geology on Idaho’s economic, political and cultural history. May be team taught, and includes field trips, discussion sections. Cross-listed as HIST 5571 and GEOL 5571.

POLS 5578 Federal Indian Law 3 credits. Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional
Introduction to the Surveys the political, economic, and social issues of a nation or regions. May be repeated once for different topics.

Political Analysis Graduate Courses

POLS 5512 Modern Political Analysis 3 credits. Methods of political inquiry and theories and doctrines of politics, with emphasis on modern developments.

POLS 5519 Political Research Methods 3 credits. This class investigates the theory and application of various research methods and statistical techniques common to the social sciences, with particular reference to their use in political inquiry.

POLS 5519L Political Research Methods Lab 1 credit. Application of, and practice in research methods.

Administrative Graduate Courses

POLS 5505 Administrative Process 3 credits. Analysis of the principles of public administration with an introduction to theories of organization and administration.

POLS 5541 Administrative Law 3 credits. An introductory survey of the legal principals defining governmental administrative processes. Topics include judicial review, tort liability of governments and offices, rules and rule-making, due process, and the limits of administrative discretion.

POLS 5551 Organizational Theory and Bureaucratic Structure 3 credits. Introduction to the study of complex organizations and organizational behavior in the administration of public policy. Emphasis on public institutions.

POLS 5552 Financial Administration and Budgeting 3 credits. Emphasis on different approaches to financial administration, ranging from incremental and short-term planning to more recent and comprehensive emphases on management by objectives and zero-based budgeting. The development of the Office of Management and Budget and its relationship with the President, Congress and the Federal bureaucracy will be considered as well as political, organizational and behavioral constraints on budgetary decision-making.

POLS 5554 Public Personnel Administration 3 credits. Operations and processes of personnel management in public institutions. Major topics include personnel processes, public employee rights and duties, employee motivation and morale, the political environment of public personnel administration, and the impact of professionalism, technology, and participatory democracy on public personnel practices.

POLS 5557 Grantwriting 3 credits. Steps involved in the grantwriting process from strategic planning, research, writing to finding appropriate grant sources.

POLS 5558 Public Administration Ethics 3 credits. A course in applied ethics serving to educate students from a theoretical and a practical point of view. The course provides a historical and social perspective of ethics in public administration.

POLS 5557 State and Local Administration 3 credits. Seminar in the practice and principles of state, municipal, and sub-state management. Emphasis is given to the evolution of interaction between different branches of sub-national government.

Political Theory Graduate Courses

POLS 5511 American Political Theory 3 credits. Political ideas in the United States from Colonial and Revolutionary times through the controversies of the Civil War to the present.

POLS 5518 Topics in Political Theory 3 credits. This course requires examination, analysis and investigation of selected texts and topics in political philosophy. May be repeated for a maximum of 6 credits.

POLS 5520 Contemporary Political Theory 3 credits. Recent 20th century political philosophies and theories ranging from democratic, Marxist, and existentialist thought to Critical Theory and post-modernism.

POLS 5521 Democratic Political Thought 3 credits. Historical and contemporary models of democracy as well as contemporary debates in democratic thought. Democracy is treated as a contested idea.

International Politics Graduate Courses

POLS 5525 Topics in International Politics 3 credits. This course requires examination analysis and evaluation of selected topics in international politics. May be repeated for a maximum of 6 credits.

Comparative Politics Graduate Courses

POLS 5532 Comparative Politics: Change and Political Order 3 credits. The nature of political change is examined in a multifaceted framework consisting of concepts such as political order, progress and decay, revolutionary violence, and political culture. The technological and post-industrial revolutions are examined as they relate to political change and stability in developed societies.

POLS 5533 Politics of Developing Nations 3 credits. An examination of political change, political order, political culture and the role of revolutionary violence. Change and order in the context of globalization is emphasized.

POLS 5534 Terrorism and Political Violence 3 credits. A survey of forms of domestic and international terrorism, other forms of political violence, and problems of counter-terrorism.

POLS 5535 Topics in National/Regional Studies 3 credits. Surveys the political, economic, and social issues of one nation or regions. May be repeated once for different topics.

Public Law Graduate Courses

POLS 5542 Constitutional Law 3 credits. Analysis of opinions of the United States Supreme Court concerning the distribution of authority between the national government and the states and the relationship among the branches of the national government.

POLS 5543 Constitutional Law 3 credits. Analysis of opinions of the United States Supreme Court with a special emphasis on criminal cases and civil liberties.

POLS 5545 Jurisprudence 3 credits. Nature, source, and theories of law; the role of law in modern society; and the application of legal philosophy to the political system.

POLS 5550 Special Topics in Law 3 credits. Examines and analyzes selected topics in constitutional law and legal philosophy. Topics may include the constitution and foreign affairs, women and the law, law and literature, and law and film. May be repeated for up to 6 credits.

General Graduate Courses

POLS 5559 Government Internship 1-9 credits. Directed student internship in government and organizations or associations related to public policy and the selection of public officials involving supervised work experience in research, staff management practices, or making and implementing public policies. The student will be placed in a supervised position commensurate with his or her abilities as determined and approved by faculty in the department. May be repeated up to 9 credits. Graded S/U.

POLS 5591-5592 Seminar 1-3 credits. Research, reading, discussion, and the preparation of reports on selected topics. Ordinarily for seniors majoring in political science and having the instructor’s consent. Each course may be repeated for a total of 6 credits.

POLS 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

POLS 6606 Environmental Law and Regulation 3 credits. Federal, state, and local environmental regulations addressing environmental impact assessment; water and air pollution control, hazardous waste, resource recovery, reuses, toxic substances, occupational safety and health radiation, siting, auditing, liability. Cross-listed as ENGR 6606. PREREQ: PERMISSION OF INSTRUCTOR.

POLS 6609 Environmental Law: Natural Resources 3 credits. Federal and Idaho statutes and regulations as they apply to natural resources such as public lands, endangered species, and the EIS process. PREREQ: POLS 6606.

POLS 6611 Seminar: Political Theory 3 credits. Review of the primary and recent literature of political theory.

POLS 6612 Seminar: State and Local Politics 3 credits. Analysis of state, local and regional political institutions and processes from the federal and comparative perspectives.

POLS 6613 Seminar: American Politics—Behavior 3 credits. Micro inquiry and analysis into political behavior. Areas relevant to such inquiry may include but are not limited to, political psychology, political socializations, attitude and opinion formation, and voting behavior.

POLS 6614 Seminar: American Politics—Institutions 3 credits. Macro inquiry and analysis into the basic institutional structures and processes of the American political system. Areas of emphasis include, but are not limited to, executive, legislative, and judicial processes, political parties and interest groups.

POLS 6615 Seminar: World Politics 3 credits. World politics is analyzed both from the perspective of relationships between nation-states and the domestic political sources which influence and determine these relationships.

POLS 6616 Seminar: Public Administration and Public Policy 3 credits. Analysis of selected topics and academic literature in public administration and public policy.

POLS 6620 Seminar: Philosophy of Social Science 3 credits. The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of all D.A. students.

POLS 6621 Seminar: Interdisciplinary Topics in Social Science 3 credits. Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science economics and sociology. Required of all D.A. students.

POLS 6622 Public Administration Research Methods 3 credits. Emphasis on the role of research methodology in administrative decision-making. Topics to be covered include modeling, evaluation design, ethics, sampling, data collection, data processing, data analysis, and report writing.

POLS 6623 Program Assessment 3 credits. Techniques and analytical methods of assessing governmental program success. Emphasis is given to program designs, data collection, ethics, and quantitative applications.

POLS 6649 Research Problems 1-6 credits. Independent research on non-thesis and non-dissertation disciplinary questions. Credit hours and subject must be approved by instructor. May be repeated to a maximum of 6 credits.

POLS 6650 Thesis 1-6 credits. Graded S/U.

POLS 6669 Independent Problems-Tutorial 1-3 credits. A directed project emphasizing individual study, research, or the development of expository writings according to the needs of the individual student. May be repeated.

POLS 6694 Seminar in College Teaching 3 credits. Literature-based review of theory and practice for effective college teaching. Required of all D.A. candidates and must be successfully completed prior to matriculation in POLS 7702 or POLS 7703.

POLS 7701 Supervised Administrative Internship in Higher Education variable up to 6 credits.

POLS 7702 Team Teaching 3 credits. Doctor of Arts candidates team teach an entire course with a faculty member. PREREQ: POLS 6694

POLS 7703 Solo Teaching 3 credits. Doctor of Arts candidates assume total responsibility for teaching a class. PREREQ: POLS 6694 AND POLS 7702.

POLS 8850 Dissertation variable credits. May be repeated. Graded S/U.

Department of Psychology

Chair and Associate Professor Lynch Professors: Cellucci, Hatzenbuehler, Jackson, Roberts, Turley Ames, Vik Associate Professor: Lynch, Rasmussen, Wong Assistant Professors: Brumley, Lawyer, Letzring, McCulloch Adjunct Faculty: Amary, Atkins, Heyenman, Landers, Larsen, Pongratz, Simonson, Sommer, Stephens, Traughber, Welsh Research Faculty: Robinson

Doctor of Philosophy in Clinical Psychology

Doctoral training in clinical psychology is fully accredited by the American Psychological Association. All educational experiences needed to obtain a license to practice psychology in Idaho, and most other states and provinces, are offered. Theory, research, and practice are integrated into a comprehensive, five-year program. It is the goal of the doctoral training program to produce clinical psychologists who are well trained in the science of human behavior and its application to diverse clinical populations. All students are required to participate in course work and practica that emphasize assessments and treatments in all major areas of child and adult psychopathology. Evaluations of each student’s clinical-professional development and scholarship-research skills are continuous.

Goals

Five program goals have been defined: Research Knowledge and Skills; Professional Knowledge and Skills; Integration of Science and Practice; Professional Identification and Ethical Practice; and Appreciation of Individual Differences, Cultural Differences, and Diversity of Practice. Each goal has associated objectives and competencies.

Admission Requirements

Admission requirements are as stated for the Master of Science in Psychology with the following additions: all students must have been recommended by the Clinical Admissions Committee of the Psychology Department.

General Requirements

All doctoral students must complete the Master of Science in Psychology, or its equivalent, as noted below. Students entering the doctoral training program at Idaho State University with a master’s degree from another institution will receive full or partial credit, based on an examination of completed course work and research. The Department Chair, the Director of Clinical Training, and the departmental subject matter expert(s) will review all relevant documents and determine the course work and research, if any, that will be required to compensate
for omissions and/or non-equivalency. The following requirements are all in addition to the Master of Science requirements.

**Required Courses**

**Assessment Sequence**

- PSYC 6620 Psychodiagnostic I 3 cr
- PSYC 6621 Psychodiagnostics II 3 cr
- PSYC 6623 Advanced Psychological Measurements 3 cr

**Clinical Core**

- PSYC 5512 Ethical & Professional Issues in Psychology 2 cr
- PSYC 6634 Cultural Diversity 3 cr
- PSYC 6645 Theory and Method of Psychosocial Adult Therapy I 3 cr
- PSYC 6646 Theory and Method of Psychosocial Adult Therapy II 3 cr
- PSYC 6648 Advanced Psychopathology 3 cr
- PSYC 6649 Psychosocial Child Therapy 3 cr
- PSYC 7701 Clinical Psychology 3 cr
- PSYC 7702 Introduction to Psychotropic Medication 2 cr
- PSYC 7703 Advanced Ethics Seminar 1 cr

**Practicum**

- PSYC 5517 Interdisciplinary Evaluation Team 1 cr
- PSYC 7724 Community Practicum 0-3 cr
- PSYC 7725 Psychology Clinic Practicum 4-7 cr
- PSYC 7749 Clinical Internship 1 cr

**Research**

- PSYC 8850 Dissertation 12 cr

**Clinical Electives**

Each student must complete 12 credits of clinical electives from the following options or other graduate courses approved by the Clinical Training Committee.

- PSYC 5563 Clinical Psychology and the Law 3 cr
- PSYC 5565 Behavioral Medicine 3 cr
- PSYC 6601 Family Assessment and Therapy 3 cr
- PSYC 6633 Psychology of Addictive Behaviors 3 cr
- PSYC 6635 Marital Assessment and Therapy 3 cr
- PSYC 6636 Neuropsychological Assessment 3 cr
- PSYC 7736 Advanced Clinical Assessment or Treatment 1-12 cr

**Methodological Elective**

Each student must complete an additional 3-credit course in advanced statistics acceptable to the Clinical Training Committee.

**History and Systems Requirement**

- PSYC 6672 History and Systems 3 cr

**Minimum Total Credits – 71**

The 12 elective credits earned for the Master of Science degree, described below, will satisfy course requirements for the Doctor of Philosophy, subject to the approval of the Departmental Chair.

**Scholarship - Research Development**

Upon completion of Area Requirements plus PSYC 6627 and PSYC 6632, doctoral students are required to pass a Qualifying Exam, both written and oral, over the area requirements and statistical/methodological topics introduced during the first two years of graduate study.

Students may be admitted to candidacy for the doctoral degree upon satisfactory completion of the Master of Science degree (or its equivalent) and the Qualifying Exam. Candidates for the doctoral degree may not propose a dissertation (PSYC 8850) until admitted to candidacy.

A five-member doctoral committee will be formed by the student and his/her advisor. Three members of the doctoral committee must be full-time equivalent faculty members of the Department of Psychology, including at least one clinical and one experimental faculty member. The fourth and fifth members must meet Graduate School requirements and include the Graduate Faculty Representative. Students will present findings and implications of the dissertation to departmental faculty, students, and community members at an open forum.

**Clinical - Professional Development**

All students must complete 7 credits of PSYC 7725 (Psychology Clinic Practicum) and 1 credit of PSYC 5517 (Interdisciplinary Evaluation Team). Up to 3 credits of PSYC 7724 (Community Practicum) may be substituted for credits of PSYC 7725. Progress in the development of professional skills is evaluated by faculty supervisors and the Clinical Training Committee. Satisfactory evaluations of professional development by the Clinical Training Committee is a degree requirement.

All students must satisfactorily complete a one-year full-time clinical internship at a site belonging to the Association of Psychology Postdoctoral and Internship Centers or comparable supervised clinical practice approved by the Clinical Training Committee. Concurrent enrollment at Idaho State University in 1 credit of PSYC 7749 (Clinical Internship) is required. Students enrolled in PSYC 7749 will be considered full-time Idaho State University students. Application to clinical internships and acceptance into clinical internships requires completion of the dissertation prospectus and the approval of the Clinical Training Committee.

**Master of Science in Psychology**

**Goals**

To ensure that students who receive a master’s degree in psychology will be prepared for further post-graduate study and for careers in related areas, the department has identified the following goals: an understanding of core areas and the breadth of the field of psychology and its applications; ability to integrate knowledge and theories across, and to think critically about, topics within the domains of psychology; competence in library information technology and computer applications related to the study of psychology; competence in scientific methodology and analysis as they apply to the study of psychology; ability to communicate effectively, in both oral and written form, about issues within the field of psychology; active participation in the research process; and understanding and compliance with the APA code of ethics pertaining to research conduct. Each goal has associated objectives and competencies.

**Admission Requirements**

In addition to the general requirements of the Graduate School, the applicant must have:

1. Minimum entrance requirements include a 3.0 grade point average during the last two years of undergraduate study. Graduate Record Exam scores of the 50th percentile or higher are preferred on two of the three aptitude tests (verbal, quantitative, or analytical writing) and the advanced subject test in psychology.

2. An undergraduate major in psychology or the equivalent.

3. Recommendation by the Experimental or Clinical Admissions Committee of the Department of Psychology. The Clinical Admissions Committee only admits students into the combined Master of Science and Doctor of Philosophy course of study.
General Requirements

Area requirements assume the satisfactory completion of undergraduate courses that prepare the student for advanced study. Specifically, students must have completed undergraduate courses in experimental psychology, neuroanatomy, sensation, perception, learning, social psychology, developmental psychology, personality, history, and systems, or the equivalent of these topic areas. Each student’s records will be reviewed by the Departmental Chair in consultation with departmental staff. Students deficient in area prerequisites may be required to enroll in additional course work and/or experience limitation of choices in Areas A and D. An Area Requirement Plan of Completion must be finalized during the student’s first month following matriculation. The Chair, the student, and one or more faculty appointed by the Chair will meet and approve each student’s Plan of Completion.

In addition, each student must complete 12 elective graduate credits in psychology. A student may complete up to 6 of these elective credits in a related field approved by the student’s graduate advisor. Courses identified to remediate deficiencies by the Area Requirement Plan of Completion do not satisfy any portion of the 12-credit elective requirement.

Minimum Total Credits - 36

Psychology Graduate Courses

**PSYC 5501 Theories of Personality 3 credits.** Detailed study of the leading theories of personality with emphasis on the Freudian, Neo-Freudian, humanistic and existential theories. PREREQ: Permission of instructor.

**PSYC 5502 Teaching of Psychology 1-2 credits.** Prepare students to teach independently. Pedagogy, use of technology, and problem solving skills related to teaching psychology courses will be discussed. Supervised teaching will be treated as a separate module. Repeatable up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**PSYC 5504 Sensation and Perception 4 credits.** The anatomical and physiological basis of sensation will be reviewed. Moreover, traditional and contemporary theories of perception will be critically considered. Students will be expected to do laboratory work illustrating basic concepts of sensory and perceptual function. PREREQ: PSYC 4431; 4446.

**PSYC 5508 Science, Pseudoscience, and Psychology 3 credits.** Designed to teach scientific thinking and how to critically evaluate fringe-science, paranormal, and other unproven claims. The psychological processes underlying pseudo-scientific thinking and beliefs also are introduced.

**PSYC 5512 Ethical and Professional Issues in Psychology 2 credits.** Topics include informed consent, confidentiality, deception, duty to protect, competency, malpractice, and dual and collegial relationships, and impaired professionals in research and practice. PREREQ: 24 CREDITS IN PSYCHOLOGY OR PERMISSION OF INSTRUCTOR.

**PSYC 5531 Physiological Psychology I 3 credits.** Introduction to neuropsychology with an emphasis on methods, basic neuroanatomy, and neurophysiology. PREREQ: SIX HOURS IN PSYCHOLOGY BEYOND PSYC 1101 OR PERMISSION OF INSTRUCTOR.

**PSYC 5532 Physiological Psychology II 3 credits.** Survey of the physiological bases of psychological processes, including learning, emotion, motivation, sensation, and perception. Emphasizes current research and theory concerning brain mechanisms and behavior. PREREQ: PERMISSION OF INSTRUCTOR.

**PSYC 5535 Animal Behavior 3 credits.** Study of experiments in animal learning that have thrown light upon the problem of understanding human learning. Course is concerned with both observation and experimental studies of habit formation, conditioning, related endocrinology, and nerve structure as they are associated with behavior capabilities. PREREQ: SIX HOURS IN PSYCHOLOGY BEYOND PSYC 1101 OR PERMISSION OF INSTRUCTOR.

**PSYC 5545 Psychology of Learning 3 credits.** Survey of the major principles of learning, including the processes underlying classical and instrumental conditioning and motor skills behavior. PREREQ: PERMISSION OF INSTRUCTOR.

**PSYC 5563 Clinical Psychology and the Law 3 credits.** An introduction to the field of forensic psychology by exposing students to the primary areas in which clinical psychology relates to the legal system. Emphasis will be on expert testimony by clinicians in matters of criminal responsibility, mental competency, civil commitment, and child custody. PREREQ: PERMISSION OF INSTRUCTOR.

**PSYC 5564 Dilemmas of Youth 3 credits.** This course surveys theory and research concerned with dilemmas of identity formation. Personal accounts, literature-classic and psychological-will serve to illustrate dilemmas and explain their resolution.

**PSYC 5565 Behavioral Medicine 3 credits.** Psychological issues of health, disease states, and prevention. Critical evaluation of clinical research and practice including nontraditional healing techniques and current models used to understand health and disease. PREREQ: PSYC 1101 OR PERMISSION OF INSTRUCTOR.

**PSYC 5567 Topics in Psychology 1-3 credits.** Selected topics in psychology. Contents vary. May be repeated with different content and departmental approval for a total of 6 credits. PREREQ: Permission of Instructor.

**PSYC 5583 Special Problems 1-3 credits.** Research or readings in a special area of interest to be arranged on an individual basis with individual faculty. May be repeated to a maximum of 6 credits. PREREQ: 24 HOURS IN PSYCHOLOGY.

**PSYC 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**PSYC 6601 Family Assessment and Therapy 3 credits.** Introduction to clinical work with families, including theoretical models and intervention techniques, assessment methods, current research, and special topics relevant to families.

**PSYC 6611 Advanced Motivation 3 credits.** Surveys current and traditional theories of motivation with emphasis on empirical research illustrating the effects of motivational systems on both human and animal models. PREREQ: PSYC 5545 OR EQUIVALENT.

**PSYC 6612 Theories of Perception 3 credits.** Theories of perception, ecological, constructive,
gestalt, and motivational, will receive critical review. Students will perform measurements of perception and research guided by theoretical accounts of the perceptual process.

PSYC 6620 Psychodiagnosics I 3 credits. Theory, measurement development, and current use and limitations of major tests of intelligence, academic achievement, development, and neurological function. Practice in test administration is included. PREREQ: PERMISSION OF INSTRUCTOR.

PSYC 6621 Psychodiagnosics II 3 credits. Theory, measurement development, and current use and limitations of major tests of personality, both objective and projective, with an emphasis on classification decisions. Practice in test administration is included. PREREQ: PERMISSION OF INSTRUCTOR.

PSYC 6623 Advanced Psychological Measurements 3 credits. Psychological measurement theory, the mathematical basis of reliability and validity constructs, and test construction strategies are introduced. Measurement principles are then generalized across response modes and methods, focusing on direct observation technologies.

PSYC 6627 Statistics and Research Design I 3 credits. Critical review of the theory and the methods used to evaluate the outcome of empirical research in the life and social sciences. Chi square, correlation, regression, analysis of variance designs are considered and related to the theoretical distributions basic to statistical inference. PREREQ: Psychology Graduate Student or PERMISSION OF INSTRUCTOR.

PSYC 6632 Statistics and Research Design II 3 credits. Basic assumptions in the philosophy of scientific investigation, principles of design and analysis of experiments, including tests of significance and factorial designs, and reporting of research, in which the student is required to prepare reports of his own work as if for publication. PREREQ: Psychology Graduate Student or PERMISSION OF INSTRUCTOR.

PSYC 6633 Psychology of Addictive Behaviors 3 credits. Reviews research on alcohol and other drug use within biopsychosocial framework. Included are etiological factors and natural history, assessment and diagnosis, comorbidity, motivational interviewing, treatment models, and special population issues.

PSYC 6634 Cultural Diversity 3 credits. Examines various dimensions of cultural diversity in psychological science and practice. Topics include: conceptual, political, and practice considerations, cultural world views, psychologically relevant aspects of various diverse cultural groups, and culturally competent assessment and intervention.

PSYC 6635 Marital Assessment and Therapy 3 credits. Introduction to assessment of marital distress, theoretical approaches to treating couples, intervention techniques, current research, and special topics in the clinical study of couples.

PSYC 6636 Neuropsychological Assessment 3 credits. Introduction to the selection, administration, scoring, and interpretation of commonly used neuropsychological tests, including tests of conceptual, perceptual, and linguistic ability. PREREQ: PSYC 6620 AND PSYC 6621.

PSYC 6637 Multivariate Statistics and Research Design 3 credits. Continuation of research principles in design and analysis, emphasizing the use of multiple dependent variables, strategies for investigating latent variables, and testing complex causal models. PREREQ: PSYC 6632 OR PERMISSION OF INSTRUCTOR.

PSYC 6641 Special Problems 1-3 credits. Individual work under staff guidance. The student will pursue original research in some area of psychology of particular interest to him and write a report of his work in a form suitable for publication. Repeatable up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

PSYC 6642 Cognitive Psychology 3 credits. Examines cognitive processes underlying perception, attention, mental imagery, memory, language, and problem solving/decision making. Cognitive development and individual differences are discussed. Both theory and experimental findings are emphasized in each area.

PSYC 6643 Advanced Social Psychology 3 credits. Review of current research and major theories of social psychology. Areas of emphasis include attitude, persuasion, prejudice and stereotyping, attraction, aggression, helping, and social cognition.

PSYC 6644 Advanced Developmental Psychology 3 credits. Study of developmental theories, issues, and research across the life span. Emphasis is on current empirical research, highlighting the interaction of biological, cognitive, and social domains of development within and between individuals.

PSYC 6645 Theory and Method of Psychosocial Adult Therapy I 3 credits. A review of theoretical models and treatment methods across major psychosocial disorders of adults, including associated psychopathology and diagnostic material.

PSYC 6646 Theory and Method of Adult Psychosocial Therapy II 3 credits. Continuation of the review of theoretical models and treatment methods of clinical psychology. PREREQ: PSYC 6645 OR PERMISSION OF INSTRUCTOR.

PSYC 6647 Personality and Individual Differences 3 credits. This course will explore contemporary personality theory, as well as significant areas and trends in the current empirical literature.

PSYC 6648 Advanced Psychopathology 3 credits. Theories and forms of psychopathology are presented, incorporating the current empirical literature. Disorders covered include substance use, affective, thought, health-related, and personality disorders. Pathology is conceptualized from biological, medical, behavioral, and cognitive perspective.

PSYC 6649 Psychosocial Child Therapy 3 credits. Review of the psychopathology, assessment, diagnosis, and treatment of major psychological disorders of childhood, including mental retardation, autism, learning disability, attention deficit hyperactivity disorder, oppositional defiant disorder, and conduct disorder.

PSYC 6650 Thesis 1-6 credits. Graded S/U. May be repeated.

PSYC 6672 History and Systems 3 credits. Survey of historical and philosophical bases of theories of psychology presently used. Emphasis on understanding impact of political, cultural, and historical forces on ideas and methods used in psychology. PREREQ: PERMISSION OF INSTRUCTOR.

PSYC 7701 Clinical Psychology 2 credits. Orientation to professional training, evaluation, diagnosis, and treatment. Orientation to the Idaho State University Psychology Clinic procedures and report writing requirements. Introduction to clinical interviewing, crisis management, supervision, and consultation.

PSYC 7702 Introduction to Psychotropic Medication 2 credits. Introduction to clinical psychopharmacology meeting American Psychological Association guidelines for Level 1 pediatric training. Disorders of substance abuse, psychosis, mood, anxiety, and development are highlighted. PREREQ: PSYC 5532.

PSYC 7703 Advanced Ethics and Professional Issues 1 credit. Systematic review of ethical decision-making emphasizing analysis of complex ethical issues. Professional topics include supervision, post-doctoral training, licensure, management of high-risk patients, self-care, and emerging models of behavioral health consultation. PREREQ: PSYC 5512.

PSYC 7724 Community Practicum 1-2 credits. Students work in public or private mental health agencies under qualified supervisors. Professional activities include evaluation and therapy. Six hours per week per credit. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE.

PSYC 7725 Psychology Clinic Practicum 1-2 credits. Students are supervised in the evaluation and treatment of clients served by the Psychology Department Clinic. Six hours per week per credit. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE.

PSYC 7736 Advanced Clinical Assessment or Treatment 1-3 credits. A specific area of psychopathology is presented. Current theoretical and empirical information are explored in depth, emphasizing assessment and/or treatment.

PSYC 7748 Clinical Externship 1 credit. Clinical practice in regional human service agency. Minimum 10 hours per week; 1 hour
supervision by Ph.D. psychologist per 20 contact hours. Repeatable up to 6 credits. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/U.

PSYC 7749 Clinical Internship 1 credit. Predoctoral internship, 11-12 months, at a member site of the Association of Psychology Postdoctoral and Internship Centers, or comparable supervised clinical practice approved by the Clinical Training Committee. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/U.

Master of Arts in Sociology

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements: students must score a minimum of the 40th percentile in one of the three sections of the GRE, have a grade point average of 3.0 or higher (on a 4.0) for all upper division credits taken as an undergraduate, or permission of the Graduate Director. Three letters of recommendation must accompany the application.

For full admission to the graduate program in Sociology, the student must have completed the following courses or their equivalent: Introduction to Sociology, Social Theory, Social Statistics, and Social Science Research Methods. In cases of deficiencies, students may be granted waivers, alternative courses, or classified with Performance Requirements (w/PR) admission at the discretion of the Sociology Graduate Director.

General Requirements
SOC 5502 Proseminar 3 cr
SOC 5508 Advanced Sociological Statistics 3 cr
SOC 6600 Comparative Sociological Theories 3 cr
SOC 6603 Seminar: Topics in Methods 3 cr
SOC 6650 Thesis 6 cr
Sociology Electives 15 cr
Minimum Total Credits 33 cr

The Sociology electives may be selected from 5500- and 6600-level courses in Sociology or other graduate courses approved by the Sociology Graduate Director. If SOC 4408 was taken as an undergraduate, 3 credit hours of electives will be substituted for SOC 5508.

Other requirements include the successful completion of a written comprehensive examination, a thesis proposal presentation and an oral defense of the completed thesis.

For more information, please consult the Sociology Graduate Student Handbook and Sociology Graduate Director.

Sociology Graduate Courses
SOC 5502 Proseminar in Sociology 3 credits. An overview of the field of sociology, with emphasis on the teaching of sociology, orientation to graduate education, major sociological theories, issues, research approaches, and ethical problems in the field today. PREREQ: PERMISSION OF INSTRUCTOR.

SOC 5503 Contemporary Sociological Theory 3 credits. Survey and appraisal of sociological theories since 1945: structural functionalism, rational choice, conflict, symbolic interactionism, and phenomenology.

SOC 5508 Advanced Social Statistics 3 credits. Emphasizes advanced techniques in research design, data measurement, and multivariate analysis utilizing computer application.

SOC 5513 Mind, Body and Society 3 credits. Symbolic interaction and its relation to selfhood, sympathy, illness, sexuality, and addiction; and to groupings like enemies, communities, and associations.

SOC 5531 Criminology 3 credits. Analysis of criminal law, law enforcement, judicial roles and processes, correctional approaches, the criminal offender and societal reactions. Theory and research as applicable to behavior and institutional relationships.

SOC 5562 Power, Class and Prestige 3 credits. Theories and methodology of status systems; the relation of class to the social structure; analysis of class in different societies, with emphasis upon the class system and power.

SOC 5567 Community Networking: Cultivating the Sociological Imagination 3 credits. Advanced study of the sociology of community through readings, class discussions, lectures, and a community networking internship.

SOC 5583 Independent Problems in Sociology 1 - 4 credits. Readings, observations, applied work, or data analysis in content area not offered in our curriculum. May be repeated for up to 6 credits.

SOC 5591 Topics in Sociology 3 credits. Reading, discussion, and preparation of reports on selected topics. May be repeated with different content.

SOC 6600 Comparative Sociological Theories 3 credits. Comparative analysis of various theoretical perspectives in sociology with special emphasis on structural functionalism, symbolic interactionism, exchange theory, conflict theories, phenomenology, and ethnomethodology. Primary emphasis will be placed on the major propositions of each perspective and the significant contributions of scholarship in each area. PREREQ: SOC 5503 OR EQUIVALENT.

SOC 6601 Sociological Theories 3 credits. A seminar in selected topics in theory which will focus on either historical, comparative or contemporary theories. May be repeated for up to 9 credits.

SOC 6603 Topics in Methods 3 credits. In depth focus on methodological topics relevant
and timely to students’ needs and interests. May be repeated up to 6 credits.

SOC 6605 Social Organization 3 credits. A seminar in selected topics of social organization and disorganization that will include such themes as complex organization, industrial sociology, community, and urban studies. May be repeated for up to 6 credits.

SOC 6607 Topics in Diversity 3 credits. A seminar in selected topics of social differentiation such as stratification, minorities, etc. May be repeated for up to 6 credits.

SOC 6613 Social Behavior 3 credits. A seminar in social interaction which will consider such themes as collective behavior, social psychology, deviance, ethnography, and neo-positive approaches to behavioral analysis. May be repeated up to 6 credits.

SOC 6615 Social Institutions 3 credits. A seminar in selected aspects of medicine, law and crime, media, corporations, sports, religion, family, education, and political sociology. May be repeated up to 9 credits.

SOC 6620 Seminar: Philosophy of Social Science 3 credits. The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of all D.A. students.

SOC 6621 Seminar: Interdisciplinary Topics in Social Science 3 credits. Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science, economics and sociology. Required of all D.A. students.

SOC 6649 Independent Study 1-4 credits. Consultation course consisting of independent student effort under the guidance of the instructor. Students are assigned to, or request assignment to, specific independent problems on the basis of interest and preparation. This may include preparation and presentation of a major research project, directed readings, or tutorial study. May be repeated.

SOC 6650 Thesis 1-6 credits. Research, analysis, and writing of master’s thesis. 6 credits of SOC 6650 are required for graduation. Continuous enrollment at a minimum of 1 credit must be maintained until the thesis is defended. May be repeated. Graded S/U.

Social Work Graduate Courses

SOWK 5582 Independent Problems Consultation course which may be repeated for maximum of 6 credits. PREREQ: 12 CREDITS IN SOCIAL WORK.

SOWK 5591 Seminar 3 credits. Readings, discussion, and preparation of reports on selected topics. May be repeated to 9 credits with different topics. PREREQ: PERMISSION OF INSTRUCTOR.

SOWK 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be graded S/U.

Department of Theatre and Dance

Chair and Professor Earles
Professors: Dienstfrey, Schroder
Associate Professors: Gross, Harwood, Young
Assistant Lecturer: Romine

Master of Arts in Theatre

Goals
The primary objectives related to the graduate Theatre program are to help students develop the following competencies:

1. A highly developed understanding of the history and literature of the art.
2. The ability to read, understand, and critique scholarly theatre-related essays and books.
3. The ability to contribute to general theatre scholarship.
4. The demonstrated ability to continue with graduate work toward a terminal degree, whether an M.F.A. or Ph.D.
5. To develop pedagogical skills enabling the students to pass on their knowledge to others.
6. Knowledge of theatre as a social and aesthetic experience.
8. Competence in basic acting and directing skills.
10. Competence in study skills.
11. Competence in research skills.
12. Competence in thinking clearly, logically, and independently.
13. Ability to effectively communicate and work within a collaborative art.

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School.

General Requirements

THEA 6601 Introduction to Research in Drama 3 cr
THEA 6641 Seminar in Drama Theory 3 cr
THEA 6642 Seminar in Drama Theory 3 cr

Students must select one of the following three options:

Thesis Option
A minimum of 30 credits. One to six credits may be thesis credits.

Exam Option
A minimum of 30 credits and an oral and written examination.

Degree Paper Option
A minimum of 32 credits and three degree papers. Two credits may be degree paper credits.

Theatre Graduate Courses

THEA 5500 Theatre Backgrounds I 3 credits. Theatre and drama, from their origins through the Jacobean period.

THEA 5501 Theatre Backgrounds II 3 credits. Study of the theatre and drama from the Spanish Golden Age through the “well-made play.”

THEA 5502 Stage Costume History 3 credits. A survey of the history of western clothing from Ancient Egypt through the present. Study of the social context and motivations behind the evolution of clothing, silhouette, and costume components.

THEA 5503 Stage Costume Design 3 credits. Costume design for the theatre incorporating the influence of period, concept, and mood. Course work includes text analysis, research, drawing, painting, and collage.
THEA 5504 Problems in Acting 3 credits.  Focuses on special acting problems such as characterization, movement, voice, pantomime, and film and television acting. Content varies from year to year. May be repeated once with the consent of the instructor. Graded S/U.

THEA 5505 Advanced Costume Construction 3 credits. A study in period corset and millinery construction. A lab course in which students gain practical experience and skills crucial to a career in costume technology.

THEA 5506 Advanced Light Design 3 credits. Study of lighting design in performing arts. Students gain knowledge through actualized projects, study of television and film lighting, and exploration of the Controllable properties including color.

THEA 5512 Scenic Painting 3 credits. A study of painting techniques as used in theatrical scenery; theory, practice, and equipment will be investigated as they apply to the art of stage painting.

THEA 5519 Modern European Theatre 3 credits. Continental and British theatre and drama from 1850 to mid-twentieth century.

THEA 5520 American Theatre 3 credits. American theatre and drama from the beginning to mid-twentieth century.

THEA 5521 Basic Pattern Drafting for Stage Costuming 3 credits. Cutting patterns from measurements. Adjusting various patterns to designs. Alterations and fittings.

THEA 5522 Period Pattern Drafting for Stage Costuming 3 credits. Use of the basic patterns to reproduce historical costumes from the 12th century to 1950.

THEA 5524 Advanced Acting Styles 3 credits. Study of the various period styles of acting including Greek, Medieval, Elizabethan, Restoration, and 19th century melodrama. The student will act in a series of special projects encompassing a variety of styles.

THEA 5526 Advanced Scene Design 3 credits. Study of scene design in performing arts and beyond. Students work toward portfolio-quality work in realized and non-realized projects in theatre, television, film, and design areas.

THEA 5555 Beginning Stage Direction 3 credits. Consideration of aesthetics of dramatic production and the relationship of basic techniques of stage direction. Includes the direction of scenes and short one-act plays. PREREQ: PERMISSION OF INSTRUCTOR.

THEA 5556 Advanced Stage Direction 3 credits. Advanced theories in techniques of stage direction including consideration of period styles. The student will direct a series of advanced projects including scenes and a complete one-act play. PREREQ: THEA 5555, OR PERMISSION OF INSTRUCTOR.

THEA 5570 Contemporary Theatre 3 credits. World drama and theatre during the five most recent decades.

THEA 5590 Practicum Theatre Arts II 1-3 credits. Integrated projects for advanced students in various areas of theatre arts emphasizing analysis and presentation of experimental work. May be repeated for a maximum of four credits, with different content.

THEA 5591 Independent Research Project II 1-2 credits. Under the supervision of the drama faculty, students will undertake special research projects in theatre. May be repeated once with different content.

THEA 5597 Professional Education Development Topics. Variable credit. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

THEA 6601 Introduction to Research in Drama 3 credits.

THEA 6641 Seminar in Drama Theory 3 credits.

THEA 6642 Seminar in Drama Theory 3 credits.

THEA 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

THEA 6660 Graduate Degree Papers 1-2 credits. May be repeated. Graded S/U.

THEA 6691 Independent Study in Drama 1-4 credits. Supervised individual study in drama. Instructor’s consent required. May be repeated for a maximum of 4 credits.
College of Business

Kenneth Smith, Ph.D., Dean
Kregg Aytes, Ph.D., Associate Dean
Robert Picard, Ph.D., Associate Dean
Corey Schou, Ph.D., Associate Dean for Information Systems
Sam Peterson, M.B.A. Director

Department of Accounting
Chair and Professor: Picard
Professors: Boes, Frischmann, Plewa, K. Smith
Associate Professor: Reis

Department of Computer Information Systems
Chair and Professor: Ottaway

Professor: Hoover, Nitse
Assistant Professor: Carter

Master of Business Administration

The College of Business (COB) at Idaho State University (ISU) offers a program leading to the degree of Master of Business Administration (MBA) to holders of business and non-business bachelor’s degrees. The MBA program is accredited by AACSB International, the Association to Advance Collegiate Schools of Business. In addition to the traditional MBA degree, the program offers MBA degrees with emphasis areas in Accounting, Computer Information Systems (CIS), Finance, Health Care Administration (HCA), Management, and Marketing. The MBA program at Idaho State University was the first to be accredited by the AACSB in the State of Idaho and remains committed to the delivery of a high quality, rigorous program.

The traditional MBA provides a broad general degree particularly suited to those pursuing a managerial focus in their careers. The Accounting, Computer Information Systems, Finance, and Health Care Administration, Management, and Marketing options provide specialized knowledge relating to their respective fields. The Accounting emphasis meets the needs of students who wish to satisfy requirements for certification as public accountants (CPA) or certification as management accountants (CMA).

In the interest of a more diverse student body, the college encourages and attracts a number of full-time students from other parts of the United States and foreign countries.

Mission and Goals

The Idaho State University MBA program's mission is to develop and deliver programs that address the diverse needs of stakeholders. Our primary mission is to offer an MBA program that enhances our students' competence in business management, fosters their intellectual curiosity, and develops the personal skills necessary to be an effective manager. The MBA program prepares students for leadership roles in all areas of business requiring skilled and ethical decision making and analytical abilities.

Specific programs goals are to develop:

- Strengthened individual competencies in (1) communications (written and oral), (2) critical thinking, (3) technology skills, and (4) group processes/interpersonal skills.

The MBA Program

The MBA program consists of eight graduate core courses (MBA-I) covering basic knowledge skills and concepts, a core of eight broad integrative courses (MBA-II), plus six to twelve hours of additional graduate level courses depending upon the student's program of study.

The MBA-I core develops a broad competence in the functional fields of business: Accounting, Economics, Management, Marketing, Operations, and Finance. The core also examines behavioral, international, ethical, industry analysis, and strategic issues that cut across the functional boundaries and provide a basic educational background. Students with undergraduate degrees in business may have MBA-I classes waived.

The MBA-II core consists of eight required courses which, although anchored in traditional functional fields, are designed to provide a strong integrative focus building upon the competencies developed in MBA-I courses.

The traditional MBA degree requires six credit hours of graduate course work beyond the MBA-II core courses. The various emphases require nine to twelve credit hours of graduate course work beyond the MBA-II core courses. The courses in the Accounting, Computer Information Systems, Finance, Health Care Administration, Management, and Marketing areas of emphasis are designed to provide specialized knowledge specific to each of their respective fields.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School, and all additional College of Business requirements.

Admission to the MBA program is granted only to students showing high promise of success. The College of Business uses various measures of high promise, including the candidate’s performance on the Graduate Management Admissions Test (GMAT) and upper-division grade point average (GPA). Such measures, along with other reasonable indications of promise, will be used in combination to arrive at a final judgment.

The minimum requirement for admission is defined by the following:
The sum of 200 times the grade point average in upper-division course work (4.0 system) plus the total score on the Graduate Management Admission Test must equal at least 1150 points.

For applicants from schools with different grading systems a GPA will be inferred as accurately as possible. Also, graduate courses will be included in the upper-division GPA calculation. For applicants with a significant amount of recent upper-division academic course work versus course work that is considerably older, we may choose to consider only the recent GPA.

Individuals holding a current master’s degree from a regionally accredited institution may meet minimum requirements and be considered for admission if they meet the Graduate School requirements regarding GRE scores in which case the student is not required to take the GMAT for admission.

Meeting the minimum formula requirement or minimum GRE requirement does not assure admission to the MBA program since other factors may be considered if they are deemed important in the assessment of the applicant’s probable success in the MBA program.

All applicants are required to submit a resume outlining work experience and two letters of reference.

Please note that no individual can be admitted to classified status in the MBA program until the College of Business has received the applicant’s official transcripts and official GMAT/GRE scores.

Applications are accepted at any time. Complete applications are reviewed the first working day of each month up to the Graduate School deadlines for admission.

**Locations**

The MBA program serves Southeast Idaho’s need for part-time and full-time graduate education in business. The traditional MBA degree is offered in the evening in Pocatello and Idaho Falls to part-time and part-time students. The Finance, Marketing, and Management emphasis areas require that students be able to take at least some emphasis-area daytime courses in Pocatello, and are restricted to individuals who do not have an undergraduate major in the respective fields. The CIS emphasis and Accounting emphasis elective courses are only daytime courses offered in Pocatello. The Health Care Administration emphasis courses are offered primarily in the evening in Pocatello.

**Conduct**

Academic integrity is expected by the College of Business. All forms of academic dishonesty, including cheating and plagiarism, are prohibited. The penalties for students engaging in academic dishonesty, plagiarism, unprofessional or unethical conduct within the university community range from a failing grade to dismissal from the MBA program, and/or permanent expulsion from the university with notation on the student’s transcript. The Graduate Catalog explains the dismissal policy and the procedures for the appeal of dismissal. If you are unclear as to what constitutes academic dishonesty, you should consult the Graduate Catalog, then review the College of Business policy on Academic Integrity available from the College of Business Office in BA 202; from the College of Business web site at www.cob.isu.edu; or refer to the Idaho State University Faculty/Staff Handbook policy on academic dishonesty. If you are still in doubt about academic dishonesty, you’re encouraged to consult with a faculty member, the MBA Director, or the Dean.

**MBA Degree Requirements**

**MBA Minimum Prerequisites**

**Mathematics Skills**

The minimum level of mathematics required for the MBA program is college algebra. If students have not completed this course, they must do so early in their program to enroll in MBA-II courses. College algebra may be waived if the student scores in the 50th percentile or higher on the quantitative section of the GMAT. If all MBA-I courses are waived, the student may enroll in MBA-II courses provided they are concurrently enrolled in courses to meet the math requirement.

**Computer Skills**

Computer literacy is an essential skill for success in the MBA program and success in a professional business career. The minimum skills required are the ability to use a word processor, a spreadsheet, the Internet, and Windows. Students are required to maintain e-mail and Internet accounts on the Idaho State University network.

**Communications Skills**

Good communication skills are fundamental for students and managers. Students are expected to have a high degree of proficiency in both oral and written communication skills. Students failing to demonstrate communications proficiency will be required to take remedial work.

**MBA I (24 hours)**

Students must take the following courses or their undergraduate equivalents:

- MGT 2216 Business Statistics
- MBA 6610 Applied Economics
- MBA 6611 Financial Reporting and Managerial Accounting
- MBA 6612 Human Behavior in Organizations
- MBA 6613 Marketing
- MBA 6614 Operations Management
- MBA 6615 Finance
- MBA 6616 Business Policy

**Waiver of MBA-I Requirements**

MBA-I courses may be waived for students with a business degree from an AACSB accredited institution. MBA-I courses may be waived for students with a business degree not accredited by AACSB subject to a transcript and program evaluation by the MBA Director. For students with non-business degrees or degrees from foreign universities, courses may be waived where equivalency of content with the Idaho State University MBA core can be established and the student has earned at least a grade of C- or equivalent. Individuals with degrees greater than 10 years old may be required to take selected MBA-I courses. Work experience is not a basis for waiving MBA-I courses; however, students with substantial work experience may demonstrate competence in a particular field through examination.

**MBA-II (24 hours)**

After all MBA-I requirements are satisfied, students may enroll in the MBA-II core component courses listed below.

- MBA 6620 Quantitative Information for Business Decisions
- MBA 6621 Managerial Decision Making
- MBA 6622 Finance in an Integrated Environment
- MBA 6623 Marketing in an Integrated Environment
- MBA 6624 Information Technology in Business
- MBA 6625 Managerial Control Systems
- MBA 6626 Business Policy/Strategy in a Global Environment
- MBA 6628 Business Simulation and Application

Exceptions to the requirement that all MBA-I courses be completed prior to enrolling in MBA-II courses may be made when most MBA-I courses have been taken and enforcement of this requirement would cause undue hardship for a student (i.e., a delay in his/her...
program). Students may substitute a course for MBA 6620 with permission of the MBA Program Director. Exceptions will be granted only where it is reasonable to conclude that the student has sufficient background to perform satisfactorily in MBA-II courses.

A request for an exception to the MBA-I prerequisite requirement must be made to the MBA Director. This request should state the MBA-I courses remaining to be taken in the student’s program, when those courses will be taken, and what hardships will be incurred if the exception is not granted.

Additional Course Requirements

Students seeking the traditional MBA degree will complete six credit hours of additional graduate course work beyond the MBA-II core.

Students seeking the MBA with an emphasis in Accounting, Computer Information Systems, Finance, Management, or Marketing will complete nine credit hours of graduate work in their selected emphasis area.

Students seeking the MBA with an emphasis in Health Care Administration will complete twelve credit hours of graduate work in Health Care Administration.

Students may select as electives any 5500-level or 6600-level courses offered by the College of Business that meet emphasis area requirements with the exception of courses numbered between MBA 6600 and MBA 6626 inclusive and MBA 6628. Students wishing to take elective courses outside the College of Business must have those courses approved by the MBA Director. The electives may include MBA 6650 Thesis (6 credit hours), or MBA 6639 Paper (3 credit hours). Students may not take a 5500-level course for elective credit if a similar course has been taken at the undergraduate level.

The Traditional MBA degree (6 hours of electives)

Students pursuing the traditional MBA degree are required to meet the following requirements:

- Electives (6 credit hours). The traditional MBA degree requires six credit hours of College of Business electives at the 5500/6600 level approved by the MBA Director.

Accounting Emphasis (9 hours)

The MBA with an Emphasis in Accounting program produces graduates with the knowledge and skills for successful professional accounting careers. The goal of the accounting emphasis is to provide graduates with the following characteristics:

- Business and accounting knowledge.
- Capability and motivation for continued learning.
- Competence in learning skills (including research of data bases).
- Ability to analyze, critique, and communicate.
- Ability to work effectively with others.
- Rigorous ethical standards.

The Accounting Emphasis program enhances knowledge and skills for rapid advancement in either managerial or public accounting. MBA graduates should be prepared to pass certification examinations for both the Certified Public Accountant (CPA) and Certified Management Accountant (CMA).

Students choosing an emphasis in Accounting must select 9 hours of 5500/6600 level accounting courses. Appropriate undergraduate prerequisite courses are required. Courses at the 5500-level cannot be selected if a comparable undergraduate course has already been taken.

Computer Information Systems Emphasis (9 hours)

The MBA with an Emphasis in Computer Information Systems program is focused on providing managerial-level knowledge of information technology for MBA students. The CIS emphasis provides general business managers with a curriculum focused on building their knowledge of information systems and the opportunity to develop technical skills in this field.

Electives (9 credit hours). The MBA with an emphasis in Computer Information Systems requires 9 credit hours of 5500/6600-level elective course work in the field of computer information systems.

Finance Emphasis (9 hours)

The MBA with an Emphasis in Finance is not open to students who have a previous undergraduate major in Finance. The Finance emphasis requires that students must be able to take at least some daytime courses in Pocatello.

Marketing Emphasis (9 hours)

The MBA with an Emphasis in Marketing is not open to students who have a previous undergraduate major in Marketing. The Marketing emphasis requires that students must be able to take at least some daytime courses in Pocatello.

Management Emphasis (9 hours)

The MBA with an Emphasis in Management is not open to students who have a previous undergraduate major in Management. The Management emphasis requires that students must be able to take at least some daytime courses in Pocatello.

Health Care Administration Emphasis (12 hours)

Students who select the MBA with an Emphasis in Health Care Administration...
program take the following HCA courses, all of which are normally offered only in the evening in Pocatello.

Program of Study

All MBA students are required to meet with the MBA Director prior to or during their initial term in the program in order to develop an approved program of study. Students will be blocked from registering for the next term until this program of study is approved.

Examination Requirements

The MBA program requires the satisfactory completion of an oral examination in the final term of the student’s program.

Academic Requirements

Any student who, after admission to the College of Business graduate program, falls below a 3.0 GPA or receives two C (C+, C, or C-) grades or a grade of D+ or lower in the MBA program (MBA-I, MBA-II, and elective courses) is deemed to be doing unsatisfactory work and is subject to review by the College of Business MBA Administrative Committee and to dismissal from the program. A student dismissed for academic reasons may apply for readmission to the MBA program no earlier than four months following his/her dismissal. Requests for readmission will be denied unless the student can demonstrate that the reasons for the previous unsatisfactory work have been rectified and can show evidence of ability to perform satisfactorily in the MBA program.

Courses in which a grade of D+, D, D- or F has been earned will not be counted toward fulfillment of MBA-I or MBA-II program requirements. Students may not use more than two courses with a grade of C+, C, or C- to satisfy graduation requirements. Students must achieve a 3.0 or better GPA in order to graduate.

Time Limit

Any course used to meet MBA-II, elective, or emphasis area graduation requirements must be completed within five years prior to the date of graduation. This time limit does not apply to MBA-I courses.

MBA and PharmD Joint Degree Program

Students enrolled in the PharmD Program at Idaho State University may combine that degree program with an MBA degree with approximately one year of additional effort. The program is essentially the traditional MBA degree program with the use of some PharmD courses to meet MBA requirements. The program follows the PharmD program with the following changes and requirements:

• In the two years of pre-pharmacy coursework, students complete ECON 2201 (Macro Economics), ECON 2202 (Micro Economics), ACCT 2201 (Financial Accounting), and ACCT 2202 (Managerial Accounting). ECON 2202 and the accounting courses satisfy four hours of the 18 hours of electives required in the first two years of the pre-pharmacy program.

• Students may be admitted to the MBA program at the end of the second professional year. During the third professional year and summer preceding that year, the student takes MBA 6613 (Marketing), MBA 6614 (Operations Management), MBA 6615 (Finance), MBA 6616 (Business Policy). This satisfies four hours of electives specified in spring semester of the third professional year of the pharmacy program. MBA 6612 (Human Behavior in Organizations) substitutes for PHAR 5547 (Pharmacy Practice Management).

• In the fourth professional year the student takes six hours of clerkship to satisfy six elective hours in the MBA program.

• Following the fourth professional year the student would take the eight MBA-II courses. They are MBA 6620, MBA 6621, MBA 6622, MBA 6623, MBA 6624, MBA 6625, MBA 6626, and MBA 6628.

Award of the MBA degree requires successful completion of the PharmD degree or a bachelor’s degree at Idaho State University.

Admission Requirements

Admission to the MBA program will normally take place at the end of the second professional year. PharmD students must meet the regular admission requirements of the MBA program except they are required to have completed only the equivalent of an undergraduate degree at the time of admission. Applicants must request the College of Pharmacy to certify to the Graduate School that the student has completed 128 hours and that those 128 hours are equivalent to an undergraduate degree.

Graduate Certificate in Business Administration Program (18 credits)

The College of Business offers a Graduate Certificate in Business Administration for individuals with non-business degrees who wish to enhance their business knowledge and skills. The program is designed as an evening, part-time program for the working professional, providing a broad base of knowledge and skills needed for today's high technology business environment. Individuals who may subsequently apply for admission to the MBA program would have all MBA-I requirements completed.

Admission Requirements

Admission to the program and maintenance of good standing will be in accord with the requirements of the Graduate School of Idaho State University and additional College of Business requirements.

Admission to the Graduate Certificate in Business Administration program is open to students with non-business degrees only. Admission to the program requires that applicants meet one of the following two requirements.

1. The student has a minimum upper-division GPA of 3.0.

2. Please see Graduate School requirements regarding the Graduate Management Admissions Test (GMAT).

Students who complete the Graduate Certificate in Business Administration program are required to meet the regular MBA admission requirements if they wish to complete the MBA degree. Two modifications to the admission process are: (1) Grades in the certificate program will be included in computing upper-division GPA. (2) Only the GPA in MBA-I classes will be used in cases where an individual has an extremely old GPA.

The following actions are required to be considered for admission to the Graduate Certificate in Business Administration program.

1. Submit a Graduate School application form and application fee to the Graduate School. An online admission form is located at http://www.isu.edu/departments/graduate/graduate-application.html.
2. Provide official GMAT scores to the Idaho State University College of Business (COB). This is optional if an applicant has an admission GPA of 3.5 or greater.

3. Provide official transcripts to the Idaho State University Graduate School.

4. Provide a resume of work experience to the Idaho State University College of Business.

Locations
The Graduate Certificate in Business Administration program is offered in both Pocatello and Idaho Falls. In some instances, students may have to travel to Pocatello or Idaho Falls to obtain a specific class.

Requirements (18 hours)

• Certificate Minimum Prerequisites
Students entering the Graduate Certificate in Business Administration program are expected to have completed formal courses in statistics, college algebra, and Micro and Macro Economics. If students have not completed this work, they must do so early in their program.

• Required courses for the Graduate Certificate in Business Administration (18 hours as specified below):
  - MBA 6611 Financial Reporting and Managerial Accounting
  - MBA 6612 Human Behavior in Organizations
  - MBA 6613 Marketing
  - MBA 6614 Operations/Information Systems
  - MBA 6615 Finance
  - MBA 6616 Business Policy

Waiver of Requirements
Course requirements will be waived for students who can demonstrate that they have taken equivalent courses within the last 5 years. If a course is waived, the student is required to substitute an alternative course in the field of study that was waived. Waiver of courses and substitutions must be approved by the MBA Director.

Academic Requirements
Any student who, after admission to the College of Business certificate program, falls below a 3.0 GPA or receives two C+ grades or a grade of D or F in any course is deemed to be doing unsatisfactory work and is subject to dismissal from the program. A student dismissed for academic reasons may apply for readmission to the certificate program no earlier than four months following his/her dismissal. Requests for readmission will be denied unless the student can demonstrate that the reasons for the previous unsatisfactory work have been rectified and he/she shows evidence of ability to perform satisfactorily in the certificate program. Courses in which a grade of D or F has been earned will not be counted toward fulfillment of program requirements. Students may not use more than two courses with a grade of C+ to satisfy certificate completion requirements.

Accounting Graduate Courses

ACCT 5500 Managerial Tax Planning 3 credits.
For prospective business managers, owners, or investors interested in important tax consequences of alternative financial transactions.

ACCT 5531 Advanced Tax Concepts 3 credits.
Specialized federal tax concepts for individuals, businesses, estates, and trusts. Elaborates on basic principles discussed in Principles of Taxation.

ACCT 5533 Legal Environment of Accounting 3 credits.
Study of legal issues facing accountants, including business law, forms of organizations, and regulatory requirements.

ACCT 5541 Management Control Systems 3 credits.
Focuses on strategic and managerial evaluation and control systems using financial and nonfinancial accounting information.

ACCT 5556 Auditing 3 credits.
Concepts and practices of independent and internal auditing. Professional responsibilities, risk assessment, audit planning and reporting.

ACCT 5557 Advanced Auditing 3 credits.
Integration of financial statement auditing concepts in case discussions. Research into contemporary auditing literature.

ACCT 5560 Governmental and Not-For-Profit Accounting 3 credits.
Accounting and reporting principles, standards and procedures applicable to governmental units and not-for-profit institutions, i.e., universities, hospitals. Special consideration to financial management problems peculiar to the not-for-profit sector.

ACCT 5561 Advanced Accounting 3 credits.
Study of accounting problems arising in connection with partnerships, corporate affiliation; institutional, social, and fiduciary accounting; consignments; installment sales; and foreign exchange.

ACCT 5570 Contemporary Issues in Managerial Accounting 3 credits.
Contemporary topics and emerging issues in managerial accounting. This field is rapidly evolving to meet the needs of enterprises competing in a dynamic global environment.

ACCT 5580 Comparative International Accounting 3 credits.
Study of systems that have proven to be problems in an international accounting context, particularly for corporate financial reporting. Also, the progress toward international harmonization of financial reporting and taxation.

ACCT 5590 Financial Reporting and Statement Analysis 3 credits.
A financial accounting capstone course focusing on statement analysis from the point of view of the many users of financial statements: investors, creditors, managers, auditors, analysts, regulators, and employees through the case analysis of actual companies' financial statements.

ACCT 5591 Seminar in Accounting 3 credits.
Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. Specialized evaluated graduate level activities and performances are identified in the course syllabus. May be repeated for up to 6 credits with permission of instructor.

ACCT 5592 Special Problems in Accounting 1-3 credits.
Research and reports on selected problems or topics in accounting. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

ACCT 5593 Accounting Internship 1-3 credits.
A program of significant business experience coordinated by the faculty to provide a broad exposure to issues. May be repeated up to a total of 3 credits.

ACCT 5631 Accounting Theory 3 credits.
Study of accounting conceptual framework and accounting principles. Case discussions and research into contemporary accounting literature.

ACCT 5632 Advanced Auditing 3 credits.
Integration of auditing concepts in case discussions. Research into contemporary auditing literature and data bases. PREREQ: ACCT 5556.

ACCT 6634 Seminar in Accounting 3 credits.
Capstone course integrating special problems of financial, managerial, and tax accounting. Emphasis on analytical and communication skills.

ACCT 6635 Strategic Cost Management 3 credits.
Critical examination of various cost management issues and techniques with emphasis on strategic, behavioral, and cultural issues. PREREQ: MBA 6611, MBA 6615, AND MBA 6616.

Computer Information

Systems Graduate Courses

CIS 5503 Systems Analysis and Logical Design 3 credits.
Develops systems analysis skills, using modern CASE techniques, prototyping with a relational database, structured analysis and design phases of the systems development life cycle.

CIS 5507 Database Design and Implementation 3 credits.
Design and implementation of multiuser relational DBMS. Use of stored procedures, advanced SQL, query optimization, transaction processing, DBMS information assurance and administration. Secure object-oriented design, programming and UML.

CIS 5511 Intermediate Information Assurance 3 credits.
Focuses on homeland security, information assurance, integrity, control and privacy. Covers CNSS-4011, NIST-800-16 standards, national policy, and international treaties.
CIS 5512 Systems Security for Senior Management 1-3 credits. System architecture, security measures, operations, operations policy, management plan, and provisions for system operator and end user training.

CIS 5513 Systems Security Administration 1-3 credits. Course covers basic principles of systems security administration. Introduces students to the methods and technologies associated with running a system to maintain privacy and security.

CIS 5514 Systems Security Management 1-3 credits. Covers managing systems and systems administrators operating in secure and private computing environments. Deals with facilities management, contingency plans, laws, standards of contract and operations management.

CIS 5515 System Certification 1-3 credits. Describes techniques and methods for certifying a system is in compliance with national and governmental information assurance standards. Evaluates various certification methodologies.

CIS 5516 Risk Analysis 1-3 credits. Develops techniques to identify the character and likelihood of adverse events. Explains methods to characterize consequences and costs associated with adverse events. Provides insight into consequence combinations.

CIS 5519 Advanced Informatics Practicum 1-3 credits. Significant Informatics experience including research coordinated by the faculty designed to provide broad exposure to issues in Information Assurance. Does not fulfill major/minor requirements. May be repeated for a maximum of 6 credits. Graded S/U.

CIS 5524 Decision Support Systems 3 credits. Study of the design and implementation of decisions support tools and techniques used in programming languages and skills.

CIS 5530 Ebusiness and Web Development 3 credits. Technical and business topics related to conducting business over the Internet and other networks, including implementation technologies, electronic money and funds transfer, legal and regulatory considerations, security and privacy issues.

CIS 5540 Object-Oriented Development 3 credits. The organization of software as a collection of discrete objects incorporating both data and operations performed on that data. Concepts of object-oriented development, including classes, inheritance, and encapsulation in a modern object-oriented language.

CIS 5582 Advanced Systems Analysis and Design 3 credits. Provides the knowledge and tools necessary to develop a physical design and an operational computerized system in a secure environment.

CIS 5585 Network and Communication Systems 3 credits. Study of the implementation and development of network information systems. Protocols and techniques will be compared.

CIS 5586 Business System Simulation 3 credits. Study, construction, and operation of computer simulations as aids for management and administrative decisions.

CIS 5587 Software Systems Study of the Software Implementation Process 3 credits. System optimization techniques and management strategies are discussed.

CIS 5590 Management of Information Systems and Information Security 3 credits. Study of the problems associated with the organization, management and security of information technology services.

CIS 5591 Seminar in Computer Information Systems 3 credits. Reading, discussion, and reporting on selected topics. Restricted to senior/graduate students in business with consent of the instructor. May be repeated with the instructor’s permission for up to 6 credits.

CIS 5592 Special Problems in Computer Information Systems 3 credits. Research and reports on topics in computer science. Restricted to senior/graduate students in business with consent of the Dean. May be repeated under a different title for a maximum of 9 credits.

CIS 5593 Computer Information Systems Internship 1-3 credits. Significant business experience coordinated by the faculty to provide broad exposure to issues. May be repeated up to a total of 9 credits. Does not fulfill major or minor requirements.

CIS 6610 Computer Information Systems Security 3 credits. Network and IS security issues, risk assessment, technological, and procedural security measures; computer fraud and privacy issues; hacker attacks, phone fraud, denial of service, and virus and worm attacks; laboratory and professional practice.

CIS 6630 Implementing E-Commerce 3 credits. Discussion of technical and business topics related to implementing business electronically, over the Internet and other networks, electronic funds transfer; online marketing alternatives; legal and regulatory considerations; security and privacy issues.

Finance Graduate Courses

FIN 5505 Advanced Corporate Financial Management 13 credits. Asset valuation models, required returns, risk analysis and capital budgeting models, cost of capital determination, and factors affecting the firm’s capital structure and dividend policy.

FIN 5531 Financial Modeling 3 credits. Survey of integrative modeling with special applications of computer models. Includes topics from cash flow forecasting, mergers and acquisition, financial structure, and capital budgeting.

FIN 5545 Real Estate Finance 3 credits. Principles and methods of valuing business and residential land and improvements; analysis of sources and methods used in the financing of construction and development.

FIN 5548 Financial Management of Depositary Institutions 3 credits. An analysis of the managerial issues which affect the financial performance of depository institutions such as capital adequacy, liquidity and asset/liability management techniques, profitability analysis, funding and investment decisions.

FIN 5550 Advanced Corporate Financial Management II 3 credits. Advanced development of financial statement analysis, financial planning, working capital management, and special topics emphasizing analysis and application to financial management decisions.

FIN 5551 Student-Managed Investment Fund I 3 credits. Management of the D.A. Davidson Student-Managed Investment Fund. Students act as financial analysts. Provides students with real-world knowledge and judgment crucial to sound investing. Students may apply either FIN 5551 or FIN 5552, but not both, toward their electives.

FIN 5552 Student-Managed Investment Fund II 3 credits. Management of the D.A. Davidson Student-Managed Investment Fund. Students act as financial analysts. Emphasis on security selection, portfolio management, and creation of an annual report. Student can apply either FIN 5551 or FIN 5552, but not both, toward their electives.

FIN 5564 Entrepreneurial Finance 3 credits. This course develops financial and managerial skills important to students who are interested in pursuing careers in an entrepreneurial setting. Topics include: financial issues unique to entrepreneurial firms, development of skills with wide application in entrepreneurial situations, and financing sources available to entrepreneurial companies.

FIN 5575 International Corporate Finance 3 credits. Study of financing investment projects abroad including the tapping of overseas capital markets, financing export transactions, hedging foreign exchange risks, and the control alternatives of international business.

FIN 5578 Investments 3 credits. Fundamental principles in the risk-return valuation of financial instruments. Topics include the institutional framework in which securities are traded, modern portfolio theory, asset pricing, derivatives, and portfolio management.

FIN 5584 Options and Futures 3 credits. Examination of the pricing and use of options, financial futures, swaps, and other derivative securities.

FIN 5591 Seminar in Finance 3 credits. Reading, discussion and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor’s permission for up to 6 credits.

FIN 5592 Special Problems in Finance 2-3 credits. Research and reports on selected problems or topics in finance. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under different title for a maximum of 9 credits with the permission of the major advisor and the Dean.
Health Care Administration Graduate Courses
HCA 6625 Healthcare Law and Bioethics 3 credits. Comprehensive coverage of legal issues and the ethical implications of the law as applied to regulation and licensure, health care financing. Medicare and Medicaid, health care reform, and other relevant current issues. PREREQ: HCA 6610 AND HCA 6620.

HCA 6665 Managed Care 3 credits. Introduction to, and analysis of, the evolving managed care industry. Select topics include managed care’s relationship to traditional health care delivery models and the insurance industry; patient satisfaction and care delivery modes; clinical and managerial quality. PREREQ: HCA 3382.

HCA 6680 Applied Topics in Health Care 3 credits. Advanced readings and analysis in the areas of health economics, health finance, social aspects of medicine, bioethics, public health, and epidemiology. PREREQ: HCA 3382.

Management Graduate Courses
MGT 5510 Entrepreneurship 3 credits. Developing new business ideas, initiating a new enterprise, bringing new technology to the market; applying sound business practices involving management, marketing, accounting, finance and CIS to accommodate changing market opportunities.

MGT 5530 Advanced Operations/Production Management 3 credits. Study of problems on line management in organizations. Major sections include strategy, process analysis, person power planning, inventories, scheduling, and control of operations. Emphasizes both behavioral and technical aspects of problem solving in the area of operations management.

MGT 5534 Productivity and Quality 3 credits. Study of the factors involved in an organization’s productivity and quality of product or service.

MGT 5541 Organizational Behavior 3 credits. Case study approach designed to encourage independent thought in the application of behavioral theories and concepts of organizational problems. Emphasis on integrating theoretical concepts with patterns of organizational direction, control, communications and decision-making.

MGT 5550 Manufacturing Strategy 3 credits. Study of the various production alternatives as critical factors in a company’s competitive strategies.

MGT 5562 Issues in Business and Society 3 credits. Seminar course designed to focus thinking on critical issues facing managers in making decision choices regarding employees and other stakeholder groups, the community, and the environment.

MGT 5565 International Business 3 credits. Special emphasis on managerial functions and critical elements of the management process in a firm operating under foreign economic, technological, political, social and cultural environments.

MGT 5573 Human Resource Management 3 credits. Introduction to the methodology of employee selection, employment and development; personnel supervision and management; financial compensation; job analysis; behavioral tools and techniques employed to deal with personnel problems and contemporary problems of person power management.

MGT 5574 Advanced Human Resource Management 3 credits. In-depth study of selected personnel/human resources management topics, including employee selection, performance evaluation, and compensation administration.

MGT 5580 Labor and Employment Law 3 credits. Study of state and federal laws, domestic and foreign, governing employment relationships, including labor-management relations, discrimination and employee rights, workplace safety, compensation and benefits, and related topics.

MGT 5582 Project Management 3 credits. Philosophy and tools of project management focusing on applied methodologies. Addresses project scope, breakdown structure, schedules, and closure following professionally accepted industry standards.

MGT 5583 Industrial Relations 3 credits. Integrated study of principles and practices of collective bargaining and industrial relations. Discussion of methods and techniques in dealing with labor-management problems arising out of contract negotiations and administrations.

MGT 5591 Seminar in Management and Organization 3 credits. Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor’s permission for up to 6 credits.

MGT 5592 Special Problems in Management and Organization 2-3 credits. Research and reports on selected problems or topics in management and organization. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

MGT 6675 Environmental Management 3 credits. The study of environmental issues in managerial decision making. Total cost/benefit analysis, political ramifications, publicity, ethical considerations, global issues. Analysis of various business functions and their impact on short- and long-term concerns.

Marketing Graduate Courses
MKTG 5505 Sales Force Management 3 credits. Determination of the amount and allocation of personal sales effort to be applied to the market and methods of organization, evaluating, and controlling this effort.

MKTG 5521 Services Marketing 3 credits. Examines the development, promotion, and management of services. Topics covered include strategic planning, delivery channels and promotional challenges inherent to services.

MKTG 5526 Marketing Research 3 credits. Evaluation and study of providing relevant marketing information to management. Emphasizes problem formulation, consideration of data sources, means of acquiring information, sampling, interpretation of results.

MKTG 5528 Marketing Communications 3 credits. Introduction to the promotion process of business enterprises and other types or organizations. Emphasizes the management and implementation of advertising and sales promotion. Includes organizing and operating a sales force.

MKTG 5532 New Product Management 3 credits. Analysis of new product ideas: screening, business analysis, prototype development, market testing, and commercialization of goods and services. Includes diffusion of innovation issues in consumer and industrial markets.

MKTG 5540 Seminar in International Marketing 3 credits. Assessment of export potential using secondary research regarding the export feasibility of products offered by select firms in Southeast Idaho.

MKTG 5565 International Marketing 3 credits. Comparative marketing arrangements are examined. Covers factors which need to be recognized by international marketing managers in analyzing markets, covering foreign operations, and in assessing economic, cultural, and political aspects of international markets.

MKTG 5575 Competitive Intelligence 3 credits. How to use competitive intelligence to gain strategic advantage. Includes understanding of information gathering techniques, the conversion of information into intelligence, various analysis methodologies, and intelligence dissemination processes.

MKTG 5580 Marketing on the Internet 3 credits. Understanding and using the Internet for marketing communications. Includes evaluating current sites, developing skills for authoring HTML pages, and developing an Internet marketing strategy and site for an organization.

MKTG 5591 Seminar in Marketing 3 credits. Reading discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor’s permission for up to 6 credits.

MKTG 5592 Special Problems in Marketing 2-3 credits. Research and reports on selected problems or topics in marketing. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

MBA Graduate Courses
MBA 6610 Applied Economics 3 credits. Applied principles and techniques of analysis in micro and macro economics. Cross-listed with ECON 6610. Include GC, MBA.
MBA 6611 Financial Reporting and Managerial Accounting 3 credits. Integrates study of accounting concepts with understanding of financial reports. Use of accounting information in managerial decision making and control. Include GC, MBA.

MBA 6612 Human Behavior in Organizations 3 credits. Study of human behavior in organizations. Decision making and problem solving, interpersonal relations and communications, and negotiations. Include GC, MBA.

MBA 6613 Marketing 3 credits. Analysis of forces producing changes in general business conditions. Principles of market driven decision making. Application to marketing management decisions and marketing strategy. Include GC, MBA.

MBA 6614 Operations Management 3 credits. Decision making techniques for analysis of operational systems. Topics include operations/production planning, process analysis, project planning and control, and quality control. Include GC, MBA.

MBA 6615 Finance 3 credits. Study of the allocation of scarce resources, domestic and international financial management. Include GC, MBA.

MBA 6616 Business Policy 3 credits. Study of strategic decision making in a firm and its relation to the functional area of a business. Techniques of industry analysis. Study of ethics/social responsibility in the business organization. Include GC, MBA.

MBA 6620 Quantitative Information for Business Decisions 3 credits. Development and use of financial and non-financial information to support business analysis and decision making. Develops and applies analytical tools and framework through readings and case analysis. Include MBA.

MBA 6621 Managerial Decision Making 3 credits. Study of the environment in which managerial decisions are made. Includes issues of organizational change, leadership, values, regulation, corporate culture and process, and organizational diversity. Include MBA.

MBA 6622 Finance in an Integrated Environment 3 credits. Integrated analysis of a firm’s decisions with emphasis on the financial aspects of these decisions. Include MBA.

MBA 6623 Marketing in an Integrated Environment 3 credits. Integrated analysis of a firm’s decisions with emphasis on the marketing and distribution aspects of these decisions over time. Analysis of decisions involving product development and market strategy. Include MBA.

MBA 6624 Information Technology in Business 3 credits. The use and assessment of information technology in organizations. Focus is on strategic and integrative issues. Include MBA.

MBA 6625 Managerial Control Systems 3 credits. The managerial and strategic use of control systems. The impact of control systems on organizational behavior and decision making. Include MBA.

MBA 6626 Business Policy/Strategy in a Global Environment 3 credits. Strategic management of the firm, with emphasis on industry analysis, strategy formulation, implementation, cultural diversity in a global environment. Include MBA.

MBA 6627 Planning for E-Commerce 3 credits. Study of Internet marketing, business models, customer interfaces, and communication issues. Includes planning and evaluation of online enterprises. Group projects may develop an Internet presence for regional organizations. PREREQ: ALL MBA I COURSES. Include MBA.

MBA 6628 Business Simulation and Application 3 credits. Student teams manage a simulated company's operations and interact with various stakeholder groups. Focus is on enhancing broad-based, integrated understandings of complex business operations and applying discipline-based skills developed in other MBA courses. This course must be taken in the last spring semester in which a student is enrolled. Include MBA.

MBA 6639 MBA Paper 3 credits. May be repeated. Include MBA.

MBA 6650 Thesis 1-6 credits. Graded S/U. May be repeated. Include MBA.

MBA 6651 New Product Development 3 credits. Examines the successful origination, development, implementation, and diffusion of product and process innovations in industry and government. Management of the technological change process in new ventures. Include MBA.

MBA 6683 Entrepreneurship 3 credits. Study of the process of forming a new venture. Emphasis is on the preparation of realistic action-oriented business plans to launch a new enterprise. Include MBA.

MBA 6692 Special Problems in Business Administration 2-3 credits. Research readings or reports on selected problems and topics. May be repeated under a different title for a maximum of 6 hours credit. Requires the consent of the instructor. Include MBA.

MBA 6693 Graduate Internship 1-3 credits. A program of significant business experience coordinated by the faculty to provide broad exposure to issues. May be repeated for up to 3 credits. Graded S/U. Include MBA.
College of Education

Deborah L. Hedeen, Ph.D., Dean
Peter R. Denner, Ph.D., Assistant Dean for Assessment

Conceptual Framework

The College of Education conceptual framework guides the curriculum, instruction, and assessment for all initial and advanced professional education programs in the College of Education. This framework comprises a standards-driven, learner-centered, assessment-informed, collaborative approach through which teachers, administrators, and other school personnel develop the knowledge, dispositions, and skills deemed essential for effective professionals.

Standards for Advanced Professionals:
The College of Education Standards for Advanced Professionals address the knowledge, dispositions, and skills required for school personnel completing initial and advanced/administrative preparation. These standards present the advanced professional as reflective, inquiry-oriented, cognizant of cultural diversity and individual differences, able to communicate effectively, aware of the research in his/her field, and able to assume leadership responsibilities.

Professional Studies and Research: The professional accesses, reads, and interprets the literature in his/her field and applies information from the research to professional practice.

Theoretical Foundations: The professional understands the theoretical foundations of the profession and applies knowledge of theoretical foundations to professional practice.

Professional Practice: The professional recognizes and addresses current issues in the profession, solves problems encountered in professional practice, and reflects on his/her professional practice and its effects.

Exceptionality and Diversity: The professional addresses issues of exceptionality and cultural diversity in his/her professional practice.

Technology: The professional uses technology in his/her professional practice.

Assessment: The professional uses a variety of formal and informal assessments to evaluate his/her performance and the performance of others.

Management of the Work Environment: The professional creates and maintains a safe and productive work environment.

Leadership: The professional assumes leadership roles in the profession and shares knowledge and expertise with others in the profession and community.

Interpersonal Skills: The professional fosters and maintains positive work relationships and models effective oral and written communication.

Personal Characteristics: The professional displays the beliefs, values, and behaviors that guide the ethical dimensions of professional practice.

Organization of the College of Education

To facilitate student access to advising and other academic support services, the College of Education is organized into four departments: the Graduate Department of Educational Leadership and Instructional Design, the Department of Educational Foundations, the Department of School Psychology, Literacy, and Special Education, and the Department of Sport Science and Physical Education. Program descriptions, admission requirements, and program standards for each department are described in the following sections. However, the following are common elements to all master’s programs within the College of Education. Requirements for doctoral programs and educational specialists are listed with those programs.

Admission to College of Education Master’s Programs

At the time of application, the applicant must specify a single Master of Education program area to which admission is requested (i.e., Educational Administration, Elementary Education, Secondary Education, Literacy, Instructional Technology, K-12 Education/Music Education Emphasis, Child and Family Studies, School Psychology, Special Education, Human Exceptionality, or Physical Education/Athletic Administration). Should a student wish to change his/her program area, he/she must reapply to the Graduate School and to the new program area for admission.

The following are required for admission by all Master of Education program areas:

- The student must apply to, and meet all criteria for, admission to the Graduate School.
- Bachelor’s degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.
- Fulfill any additional requirements of the proposed Master’s program area (e.g., successful completion of an admission interview with the Master’s program faculty).

Program Requirements:

No more than 9 credits of unclassified graduate coursework may be applied to the student’s program. The student is responsible for meeting the requirements of, and being admitted to, the programs as a classified student before taking additional coursework.

Master of Education students are strongly encouraged to sequence the Master’s core courses as follows:

- EDUC 6601 within the first 9 credit hours
- EDUC 6602 within the first 18 credit hours
- EDUC 6610 within the first 24 credit hours

Additional program requirements specific to the Master’s of Education and the Master’s of Physical Education are listed below with each program description.

Retention in College of Education Graduate Programs:

Students must meet university, college, and department standards for grades, residency, time limits, and continuing registration (refer to the General Information section at the front of the Graduate Catalog, and program descriptions that follow.)
Doctor of Education in Educational Leadership and Instructional Design

Chair and Professor Lawson
Professors: Frantz, Pemberton
Associate Professors: Coffland, Neill, Sammons-Lohse, Strickland, Thomas
Assistant Professor: Meyer, Moulton
Lecturer: Lind

Doctor of Education in Educational Leadership

The Doctor of Education in Educational Leadership is the College of Education’s highest degree. Knowing that students enter the program with substantial knowledge, skills, abilities, and experience, the Doctorate in Educational Leadership seeks to support the development of education professionals as scholars, researchers, and practitioners. This three-part whole provides the grounding from which all benchmarks of the student’s educational journey, from admissions, to advancement to candidacy, and ultimately program completion, are assessed.

As scholars, Doctors of Educational Leadership demonstrate content mastery. As researchers, Doctors of Educational Leadership demonstrate the application of content mastery through scholarly contributions reflecting the necessary dispositions and skills to successfully conduct meaningful education research. Finally, through guided practicum experiences, Doctors of Educational Leadership demonstrate their ability to use acquired knowledge, dispositions and skills as scholars and researchers in applied educational leadership settings.

EdD Educational Leadership Standards

The Ed.D. in Educational Leadership is aligned with two sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described in the previous section), and the Doctor of Education in Educational Leadership Standards.

Doctor of Education in Educational Leadership Standards: The Doctor of Education in Educational Leadership Standards address the knowledge, dispositions, skills and strategies that frame successful educational leadership. They include: Organizational Development, Consultation, Diversity, Supervision, Managing Change, Applied Foundations, Technology, Research, Teaching and Learning Theory, and Leadership, Ethics and Communication.

Admission Requirements

Admission to the Educational Leadership doctoral program is based on a rolling-cohort model. Cohorts cycle through approximately every three years. Screening of applications for cohort admission begins April 15th of the year in which a cohort is scheduled to begin the program. Outside the cohort, applications are invited on an ongoing basis. Non-cohort applications are reviewed fall, spring and summer. Every effort is made to support the doctoral program of study of non-cohort students.

At the time of application, the applicant must specify a single area of concentration (i.e., Educational Administration, Higher Education Administration). Should a student wish to change his or her area of concentration, he or she must reapply to the Graduate School for readmission to the doctoral program in Educational Leadership.

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, individuals applying for admission to the doctoral program in Educational Leadership will be reviewed using the following criteria for admission. Preference will be given to applicants who have:

1. A master’s degree in education or a related field.
2. An academic record of at least 3.0 grade point average in the last two years of undergraduate course work and 3.5 grade point average at the graduate level.
3. For applicants submitting the MAT, as well as those with a Verbal GRE below 400, an on-site writing sample may be required.
4. A current curriculum vitae.
5. The Ed.D. Admission Checklist indicating competency in computer skills.
6. Successful completion of an interview with faculty in the area of proposed concentration (which may include an on-site writing experience).

International students whose native language is not English must comply with Graduate School admissions requirements. Additional language-based course work may be required of international students whose native language is not English.

General Requirements

The Doctor of Education in Educational Leadership requires a minimum of 65/66 semester credits of course work: For Educational Administration 25 credits in the doctoral core, and a minimum of 30 credits in the area of concentration. For Higher Education Administration 17 credits in the doctoral core and 39 credits in the area of concentration, including 6 credits of electives. Both emphases include 9 credits of graduate-level cognate study, and at least 10 credits of dissertation. The Educational Leadership program defines cognate study as a planned set of courses, 5500-level and above, outside the student’s concentration area, taken within the College of Education or outside it. Cognate study is to be determined prior to cognate course enrollment, in consultation with the student’s advisor.

Of the 65/66 semester credits required for the Ed.D. in Educational Leadership, at least 30 semester credits of course work must be taken at Idaho State University. Dissertation credits may not be transferred from another institution.

Students are required to maintain continuous enrollment in at least one semester credit of work each semester (including summers) from matriculation to completion of the program including completion of the dissertation and oral defense. Failure to maintain continuous enrollment can result in dismissal from the program.

Students must maintain a 3.2 grade point average to qualify for the Doctor of Education. Two grades of C+ or below during the entire program will result in admissions status review, with the possibility of dismissal.

Final Program of Study

Tentative programs of study may be drafted upon program entry with the help of the student’s advisor. The final program of study must be submitted with the Comprehensive Examination Notice of Intent and routed through the student’s advisor, the Department,
and the Dean of the College of Education. Upon submission of the final program of study to the Dean of the Graduate School, the Dissertation Committee, including the Graduate Faculty Representative, is established and the student is advanced to candidacy.

Comprehensive Examination
The comprehensive examination is a significant aspect of the student’s total doctoral program. The written examination is normally administered during or immediately following the last semester in which the student is engaged in formal course work.

The comprehensive examination has, as its overall objective, the assessment of the student’s knowledge, understanding, and skills as they relate to the field of educational leadership. Examination guidelines are provided in the Ed.D. Handbook.

Dissertation and Oral Defense
Upon successful completion of the comprehensive examination and approval of the dissertation proposal by his or her Dissertation Committee, the student is authorized to complete the dissertation in preparation for the final oral defense.

Required Courses
The Doctor of Education in Educational Leadership requires a minimum of 65/66 semester credits of course work: For Educational Administration, 25 credits in the doctoral core and a minimum of 30 credits in the area of concentration. For Higher Education Administration, 17 credits in the doctoral core and 39 credits in the area of concentration, including 6 credits of electives. Both emphases include 9 credits of graduate level (5500 or above) cognate study (determined in consultation with the student’s advisor and concentration area), and at least 10 dissertation credits. The student may select from the following areas of emphasis: Educational Administration or Higher Education Administration.

Cognate Study (minimum 9 graduate level credits (500 or above) - to be determined prior to cognate study enrollment, in consultation with the student’s advisor and confirmed by concentration area review)

Doctor of Philosophy in Instructional Design

The Doctor of Philosophy (Ph.D.) in Instructional Design degree prepares students to assume positions of leadership in instructional design, research, measurement, or evaluation. Graduates direct instructional design, research, measurement or evaluation projects as faculty at colleges and universities, in private or public institutions, or work as individual consultants.

While research is an integral component of the Instructional Design Ph.D. program, candidates are provided primarily with courses and experiences preparing them to function more effectively as leaders in guiding instruction to meet specific educational outcomes.

Admission Requirements
Admission to the Instructional Design Ph.D. program is based on a cohort model. Cohort cycles depend on the start date of the particular cohort (contact department chair for specific details). However, there is a specific sequencing of curriculum, and this may strongly influence the start date of a particular cohort. Applications for cohort admission are accepted at any time, in accordance with the deadlines set by the Graduate School. Every effort is made to accommodate the doctoral program of study for non-cohort students who enroll in full-time doctoral studies. In addition to the Graduate School general requirements, individuals applying for admission to the Instructional Design Ph.D. program will be reviewed using the following criteria for admission. Preference will be given to applicants who have:

1. A master’s degree in instructional technology, instructional design, or a related field.
2. An academic record of at least 3.0 Grade Point Average (GPA) in the last two years of undergraduate course work and 3.5 GPA at the graduate level.
3. A minimum score at the 45th percentile, or above, on the Miller Analogies Test (MAT) or a minimum combined score of 1100 on the Verbal and Quantitative sections of the Graduate Record Examination (GRE). For applicants submitting a Verbal GRE score below 400, an on-site writing sample will be required. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on
the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section I (Listening Comprehension) on the paper test, or a score of 84 on the MTEL, or a score of 6 on the IELTS.

4. A current curriculum vitae.

5. Successful passing of the Department of Educational Leadership and Instructional Design graduate technology performance examination.

6. Successful completion of an interview with graduate faculty from the Department of Educational Leadership and Instructional Design.

General Requirements
The Doctor of Philosophy in Instructional Design requires a minimum of 67 semester credits, 12 credits in the Instructional Design Ph.D. core, a minimum of 30 credits in the Instructional Design specialty area, 15 credits in the Instructional Design Ph.D. Research area, and at least 10 credits of dissertation. Of the 67 semester credits required for the Ph.D. in Instructional Design, at least 30 semester credits of course work must be taken at Idaho State University. Dissertation credits may not be transferred from another institution.

Upon initial enrollment, all Instructional Design Ph.D. students will be required to maintain continuous enrollment, with at least one semester credit of work each semester (including summers) from matriculation to completion of the program, including completion of the dissertation and oral defense. Failure to maintain continuous enrollment can result in dismissal from the program.

Students must maintain a 3.5 GPA to qualify for the Ph.D. in Instructional Design. Two grades of C+ or below, during the entire program will result in the Department of Educational Leadership and Instructional Design reviewing the student’s performance within the program. The result of this review may lead to dismissal from the program. Any additional grading policies are set by the Graduate School.

Program of Study
A Program of Study will be drafted during the first semester of course work. With the help of the student’s major advisor and departmental approval, this plan of study will be filed with the Graduate School. Programs of Study will be updated each semester. The final Program of Study must be submitted with the Comprehensive Examination Notice of Intent and routed through the student’s advisor, the Department, and the Dean of the College of Education. Upon successful completion of the comprehensive examination and submission of the final Program of Study to the Dean of the Graduate School, the Dissertation Committee, including the Graduate Faculty Representative (GFR), is established and the student is advanced to candidacy.

All doctoral requirements must be completed within five years of passing the Comprehensive Examination. Doctoral students must also meet appropriate residency requirements.

Doctor of Instructional Design Program Course Work
All course work is subject to the approval of the student’s academic advisor, Instructional Design Ph.D. program chair, and the Department.

Instructional Design Ph.D. Core (12 credits)
The following list of courses are suggested (not required) and may fulfill the requirements within the Instructional Design Ph.D. Core. The intent of the core area is to provide depth of knowledge in learning theory and/or organizational theory. A prerequisite for the core curriculum may include EDUC 6602 or demonstration of equivalent knowledge. Additional prerequisites may be required if the specific course indicates the need for a prerequisite.

- EDLP 7700 Change Strategies 3 cr
- EDLP 7702 Supervision and Empowerment 3 cr
- EDLP 7703 Leadership and Organizational Development 3 cr
- EDLP 7704 Conditions of Learning and Teaching 3 cr
- PSYC 6612 Theories of Perception 3 cr
- PSYC 6634 Cultural Diversity 3 cr
- PSYC 6642 Cognitive Psychology 3 cr
- PSYC 6644 Advanced Developmental Psychology 3 cr
- PSYC 7703 Advanced Ethics Seminar 1 cr

Instructional Design Ph.D. Research Area (15 credits)
The following list of courses are suggested (not required) and may fulfill the requirements within the Research Area. The intent of this Ph.D. Research Area is to provide depth of knowledge of qualitative and quantitative research designs and the statistical procedures that support both research design areas. Prerequisites for the research curriculum may include EDUC 6601, EDUC 6610, or demonstration of equivalent knowledge. Additional prerequisites may be required if the specific course indicates the need for a prerequisite.

- EDLP 7701 Advanced Statistics in Education (qualitative) 3 cr
- EDLP 7705 Advanced Research Design II 3 cr
- EDLP 7706 Advanced Research Design II (quantitative) 3 cr
- PSYC 6632 Advanced Experimental Design I 3 cr
- PSYC 6637 Advanced Experimental Design II 3 cr
- ANTH 5549 Methods and Techniques of Ethnographic Field Research 3 cr
- MATH 5558 Experimental Design 3 cr
- MATH 5559 Applied Multivariate Analysis 3 cr

Instructional Design Ph.D. Area (30 credits)
The following five courses are required, with the additional 15 credits intended to provide depth of knowledge of instructional design principles in print, digital, and classroom contexts. Instructional design for e-learning is emphasized. It is expected that this knowledge may be applied within a wide array of instructional design applications. Prerequisites for the Instructional Design curriculum may include EDUC 6622, EDUC 6655, EDUC 6656, EDUC 6639, or demonstration of equivalent knowledge. Additional prerequisites may be required if the specific course indicates the need for a prerequisite.

Required Courses
- EDLP 7707 Instructional Technology 3 cr
- EDLT 7740 Instructional Systems Design I 3 cr
- EDLT 7742 Multimedia Authoring I 3 cr
- EDLT 7743 Multimedia Authoring II 3 cr
- EDLT 7745 Instructional Design for Distance Learning Delivery 3 cr

The remaining 15 credits will be taken in appropriate course work that supports the candidate’s work within Instructional Design.

Dissertation (10 credits)
A minimum of 10 semester credits for dissertation work is expected. Please note that some students may require more than 10 semester credits in order to successfully meet the requirements of the dissertation investigation.

Comprehensive Examination
The comprehensive examination is a significant aspect of the student’s total doctoral program. The written examination is normally administered during, or immediately following, the last semester in which the doctoral student is engaged in formal course work.

The comprehensive examination has as its overall objective the assessment of the student’s knowledge, understanding, and skills as they relate to the field of Instructional Design.

Dissertation and Oral Defense
Upon successful completion of the comprehensive examination and approval of the
dissertation proposal by his or her Dissertation Committee, the student is authorized to complete the dissertation in preparation for the final oral defense.

**Educational Specialist in Educational Administration**

A program for advanced work in educational administration leading to an educational specialist certificate.

Applicants will enter the program after completion of the master’s degree in Educational Administration. Completion of the educational specialist program will require a minimum of 30 semester credit hours beyond the master’s degree with an accumulated GPA of 3.5 during the specialist program. Students with a master’s degree in areas other than administration may be required to take additional work equivalent to that required in the administration degree and must meet initial administrative certification.

**EdS Educational Leadership Standards**

The Education Specialist in Educational Administration curriculum is aligned with three separate but related sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), the Interstate School Leaders Licensure Consortium (Standards for School Leaders), and the Idaho State Department of Education’s requirements for an Administrator Certificate with the Superintendent endorsement. All sets of standards align and overlap with each other.

**Interstate School Leaders Licensure Consortium:** Codified in 1996, these standards were drafted by personnel from 24 state education agencies and professional associations. These standards represent best practice model standards for school leaders. They represent a common core of knowledge, dispositions and performance skills developed to link leadership more forcefully to productive schools and enhance educational outcomes. The standards include: Facilitating a Vision, School Culture & Instructional Program, Management, Collaboration with Families & Communities, Integrity, Ethics & Fairness, and Political, Social, Economic, Legal and Cultural Context.

**Idaho State Department of Education Administrator Certificate with the Superintendent Endorsement:** These standards address competencies determined by the State of Idaho to be necessary for effective school (district level) leadership (i.e., the superintendent). These standards include: Advanced School Finance, Grant Writing & Revenue Generation, Policy Development & School Board Relations, District Wide Support Services, Employment Practices & Negotiations, Educational Product Marketing & Community Relations, and Special Services & Federal Programs. Superintendent level certification endorsement can be a student outcome through this curricular/standards alignment.

**Admission Requirements**

For admission to the Educational Specialist program the student must apply to, and meet all criteria for, admission to the Graduate School. The student must also provide a letter of reference verifying five years of successful teaching and/or administration experience AND a letter from his/her supervisor attesting to the student’s school administration potential. (Administration experience must comprise at least one year).

A student who does not meet these requirements upon application may be admitted as Classified w/PR, and must complete all requirements for admission during the first semester of enrollment. Exceptions may be petitioned to a committee of educational administration faculty and the Department Chair.

**General Requirements**

Course requirements will be distributed within the areas listed below. Students must complete the minimum semester hours identified in each area. The courses used to meet the minimum area requirements may be taken during the master’s degree or educational specialist program. In general, the program of study for the Education Specialist in Educational Administration is as follows:

**Master of Education with Educational Administration Emphasis**

The curriculum in the Masters of Education with Educational Administration Emphasis is designed to strengthen the student’s understanding, knowledge, and skills in Core Professional Studies and Educational Leadership as they relate to building level leadership.

**Master of Education Educational Leadership Standards**

The Masters of Education with Educational Leadership Emphasis curriculum is aligned with three separate but related sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), the Interstate School Leaders Licensure Consortium (Standards for School Leaders described previously), and the Idaho State Department of Education’s Principalship Certification Standards. All three sets of standards align and overlap with each other.

**Idaho State Principalship Certification Standards:** These standards address competencies determined by the State of Idaho to be necessary for effective school (building) level leadership (i.e., the principalship). Standards must be met through graduate level course work in school administration for the preparation of school principals at an accredited college or university. The standards include: Vision & Strategic Leadership, Instructional Leadership, Management & Organizational Leadership, Family & Community Partnerships, Professional & Ethical Leadership, and Governance & Legal Leadership. Principal level certification endorsement can be a stu-
Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, individuals applying for admission to the Master of Education with Educational Leadership Emphasis will be reviewed using the following criteria. Preference will be given to applicants who meet or exceed these criteria:

1. Bachelor’s degree from a college or university accredited in the United States or its equivalent from a school in another country.

2. Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

3. Submission of GRE or MAT scores.

4. One year of pre-K-12 teaching experience or documentation of equivalent experience.

5. Submission of admission forms and application fee to the Graduate School.

Students must complete a minimum of 31 semester credit hours for the Master of Education with Educational Leadership Emphasis. Students will complete a 540-hour internship; hours are specified at the elementary, middle school, and high school levels. At least 3 internship credits are required. Candidates enroll in 3 credits during their first semester of internship work and thereafter maintain continuous enrollment of at least 1 credit per semester until internship hours are completed. Candidates completing a thesis will orally defend the thesis. Candidates not completing a thesis will be required to complete a case analysis and pass an oral examination.

Students seeking Idaho certification in the area of their training must meet requirements of the State Board of Education for certification. It is recommended that students pursuing the Master of Education with Educational Leadership Emphasis have professional experience in an educational context.

Required Core Professional Studies

EDUC 6601 Research and Writing 3 cr
EDUC 6602 Theories of Learning 3 cr
EDUC 6610 Applied Educational Statistics 3 cr

Leadership Foundation Studies

EDLA 6608 Organizational Leadership and Education Administration 3 cr
EDLA 6612 School Law, Governance and Ethics 3 cr
EDLA 6615 Supervision and Instructional Leadership 3 cr

Leadership Specialty Studies (School Principal)

EDLA 6609 Principalship 3 cr
EDLA 6614 Curriculum, Instruction, and Assessment 3 cr
EDLA 6642 School Culture and Community 3 cr

Integrative Field Research Studies (Either 6650 or 6651 and 6657)

EDLA 6650 Thesis 1-6 cr
EDLA 6657 Internship *# 1-3 cr
OR
EDLA 6651 Case Study/Field Project 1 cr
EDLA 6657 Internship *# 1-3 cr

*Minimum of 3 credits required. Three (3) credit enrollment first semester, thereafter at least one (1) credit per semester continuous enrollment until completed.

#Students must complete two (2) of the following three (3) courses as a prerequisite to admission to EDLA 6657 (Internship): EDLA 6608; EDLA 6612; and/or EDLA 6615.

Master of Education in Instructional Technology

The Master of Education in Instructional Technology prepares educators to greater depth in a cognitive area and in this way influences directions in elementary school curriculum. The program is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Educational, Core Educational, and Specialty Studies—as they relate to teaching in the secondary school.

Applicants enter the program after completion of the bachelor’s degree and will complete a minimum of 36 semester credit hours for the Master’s degree. Students seeking Idaho certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students pursuing the Master of Education degree in Instructional Technology have professional experience in an educational context.

1. The advanced secondary or elementary technology education professional is expected to extend his/her technology subject matter knowledge and expertise.

2. The advanced secondary or elementary technology education professional is expected to be aware of: theories of learning in education, research in education, the integration of technology in the elementary/secondary curriculum, and statistics that permit analyzing and interpreting student data.

3. The advanced secondary or elementary technology education professional is expected to be aware of testing, measurement, and assessment as it relates to the integration of technology in the K-16 curriculum.

4. The advanced secondary or elementary technology education professional is expected to utilize the knowledge of technology in specific applications and assessments within the educational methods curriculum.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education in Instructional Technology must meet all college requirements for admission and retention.

General Requirements

Core Professional Studies (12 credits)

EDUC 6601 Research and Writing 3 cr
EDUC 6602 Theories of Learning 3 cr

Lecturers: Jacobsen, Kauer
Master of Education in Elementary Education

The 36-credit non-thesis Master’s degree in Elementary Education is a combination of pedagogy and content; designed for the practicing elementary school teacher to meet the demands of content-focused accountability. This degree will permit the practicing teacher to acquire greater depth in English/language arts, history/social science, mathematics, or science (geology, physical science, and biology).

1. The advanced elementary education professional, through the core curriculum, is expected to meet the core standards for advanced professionals.

2. The advanced elementary education professional is expected to meet Idaho Core Teacher Standards and National Board for Professional Teaching Standards Core Propositions.

3. The advanced elementary education professional is expected to extend their subject matter depth in history/social science, English/language arts, science, or mathematics.

4. The advanced elementary education professional is expected to utilize the knowledge of subject area concentration in specific applications and assessments within the educational methods curriculum.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education in Elementary Education must meet all college requirements for admission and retention.

Master of Education in K-12 Education

Music Education 36 Credits (course work only option)

The Master of Education in Music Education is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Core professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to music education. The program is designed to meet the needs of music education specialists who work in the public school system (grades K-12), or who aspire to further graduate study and teaching in music education.

Admission Requirements

The student must apply to and meet all criteria for admission to the Graduate School. In addition, applicants for the Master of Education in K-12 Education must meet all college requirements for admission and retention.

Individuals applying for admission to the Master of Education in Music Education must meet the following admission requirements:

- Bachelor’s degree in music from a regionally accredited college or university.
- It is expected that students will meet basic requirements for public school certification.
• Completion of entrance examinations in music history and music theory. Students whose examination indicate deficiencies will be granted Classified (w/PR) Status. Any course used to remove deficiencies does not count toward the degree. When deficiencies have been removed, the student may seek Classified Status.

**General Requirements**

Students complete a minimum of 36 semester credit hours for the Master’s degree. Students seeking Idaho Certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students have professional experience in an education context.

**Education Core (12 credits)**

- EDUC 6601 Research and Writing 3 cr
- EDUC 6602 Theories of Learning 3 cr
- EDUC 6610 Applied Educational Statistics 3 cr
- EDLT 6616 Integration of Technology into School Curriculum 3 cr

**Pedagogy and Content (24 credits)**

- MUSC 5515 Seminar in Band Music OR MUSC 5516 Seminar in Choral Music 2 cr
- MUSC 5517 Advanced Conducting 2 cr
- MUSC 6601 Foundations in Music Education 3 cr
- MUSC 6610 Practicum in Rehearsal Techniques 2 cr
- MUSC 6671 Music Education Seminar 3 cr
- Graduate Performance Ensemble (2 semesters) 2 cr
- Music History/Theory Elective 2 cr
- Music history Theory Elective 2 cr
- Other Music Electives 6 cr
- Total 36 credits

**Master of Education with Child and Family Studies Emphasis**

**Family Studies**

The goal of the Early Childhood Education and Intervention Program is to prepare professionals who have the necessary knowledge, dispositions, and abilities to:

1. Enhance learning and development of young children, with and without disabilities, between the ages of birth and third grade.
2. Establish collaborative relationships with families, and other professionals in ways that produce positive outcomes for young children.
3. View their own professional development as a lifelong endeavor.

**Admission Requirements**

The candidate must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education with Child and Family Studies Emphasis must meet all college requirements for admission and retention.

**General Requirements**

The Master of Education with Child and Family Studies Emphasis is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Core Professional Studies, Integrative Field Research Studies, and Specialty Studies—as they relate to Child and Family Studies. The student must select one of the following option areas for the Master of Education with Child and Family Studies Emphasis:

**Option areas:**

- **Family Studies**
- **Early Childhood Education and Intervention**

Applicants enter the program after completion of the Bachelor’s degree. All candidates completing a Master of Education with Child and Family Studies Emphasis must complete a written comprehensive examination and an oral examination; a case study/project OR a case study/project/internship combination, OR a thesis.

**Required Core Professional Studies**

- EDUC 6601 Research and Writing 3 cr
- EDUC 6602 Theories of Learning 3 cr
- EDUC 6610 Applied Educational Statistics 3 cr

**Integrative Field Research Studies (must total 6 credits)**

- EITHER THESE TWO COURSES:
  - CFS 6647 Internship in Child and Family Studies 3 cr
  - CFS 6669 Case Study/Project in Child and Family Studies 3 cr
- OR
  - CFS 6647 Internship in Child and Family Studies 3 cr
  - CFS 6669 Case Study/Project in Child and Family Studies 6 cr
- OR
  - EDUC 6650 Thesis 6 cr

**Additional Requirements for Family Studies Option**

- CFS 5531 Family Resource Management 3 cr
- CFS 5535 Relationships Within Families 3 cr
- CFS 6600 Issues and Trends in Child and Family Studies 3 cr

Additional elective credits to total a minimum of 36 credits must be approved in advance by the student’s major advisor.

**Department of School Psychology, Literacy, and Special Education**

Chair and Associate Professor Squires
Interim Chair: Mercaldo
Professors: Hedeen, Nunn
Associate Professors: Klug
Assistant Professors: Cho, Coulter, Helfrich, Jantz
Lecturer: Toous

The Department of Educational Learning and Development offers the following graduate degrees: Educational Specialist in School Psychology or Special Education, M.Ed. with Child and Family Studies Emphasis, M.Ed. with Literacy Emphasis, and M.Ed. in Human Exceptionality (Special Education or School Psychological Examiner).
Educational Specialist in School Psychology or Special Education

The Ed.S. program is designed for persons who have completed a master’s degree and wish to increase their skills for advanced certification requirements or other professional objectives. The Ed.S. level is the minimum preparation for school psychologists and directors of special education in most states. Further, the Ed.S. has become the intermediate degree for many professionals who supervise master’s degree level personnel.

Goals

The School Psychologist is a professional operating within the school system, collaborating with professional educators, students, parents, and the community-at-large to improve psychosocial and academic success of all students. Primary goals of the program are grounded in research-based best practices promulgated by the National Association of School Psychologists Standards for Training and Field Placement programs (NASP, July, 2000). These standards represent an integrated and comprehensive model by which program content and experiences provided to school psychologists in training may be effectively organized and provided. These goals are:

1. **Diagnostic Goal.** The school psychologist will select, administer and interpret the results of various psychological instruments designed to evaluate a broad spectrum of human traits and characteristics, and make specific recommendations to provide insight and direction in dealing with the problem situation.

2. **Intervention Goal.** The school psychologist will provide direct service to students in such areas as academic skills and performance, life and social skills, social-emotional and behavioral disorders and conditions.

3. **Consultation Goal.** The school psychologist will consult with administrators, teachers, other professionals, and parents, regarding a wide variety of psychosocial, behavioral, academic and social-emotional problems affecting educational performance and life success.

4. **Research Goal.** The school psychologist will gather and analyze data in a systematic way utilizing experimental, developmental psychology, and statistical skills and competencies for contributing to existing knowledge in his or her field.

5. **Problem Solving Goal.** The school psychologist will act as a problem-solver, trained in using systematic methodologies of identifying and defining problems/concerns, determining best practice interventions and applying them, and using data-based decision-making to ascertain the impact upon presenting problems and concerns of the student.

Admission Requirements

Candidates for the Educational Specialist in School Psychology or Special Education degree must meet all college and university requirements for admission and retention. The student must hold a master’s degree in the area of the chosen Ed.S. major. Master’s degree majors in a closely related field may be approved upon recommendation of the selection committee.

General Requirements

The student must complete 64 credits in Special Education or 66 credits in School Psychology, including the master’s degree and a specialist paper. All post-master’s degree course work must be taken from members of the Idaho State University graduate faculty or be approved in advance by the graduate faculty. A minimum grade point average of 3.0 (B) is required of all course work taken in the Ed.S. program. An oral examination covering the specialist paper, portfolio, and/or relevant topics is required.

Time Requirement

All requirements for the Ed.S. must be completed within a period of five years from the date of completion of the first post-master’s degree course to be applied toward the degree.

Specific Requirements:

**School Psychology Major**

The Ed.S. in School Psychology is designed to be consistent with the minimal entry-level requirements in the field of school psychology as presented by the National Association of School Psychologists. A master’s degree as a school psychological examiner or its equivalent is required. The Ed.S. is viewed as a practitioner’s degree and will focus on applied activities.

</tr>
</tbody>
</table>

**Additional Requirements**

Students will also prepare a School Psychology Portfolio. The Portfolio will be presented and defended in the Oral Examination.

**Special Education Major**

The following course work is required:

a. A minimum of 21 credits in special education course work at or above the 6600 level (including administration of special education), of which 6 credits are in the supervision of clinical practicum in special education and 3 credits are in internship in special education.

b. Behavioral sciences and/or education/school psychology, 9 credits.

c. Educational Specialist Paper in Special Education, SPED 6652, 1-3 credits. The number of credits will be determined by the advisor and student.

**Master of Education with Literacy Emphasis**

1. The Literacy specialist understands the related nature of reading, writing, listening, speaking, and viewing and that literacy is a process of constructing meanings. These meanings begin with personal knowledge.

2. The literacy specialist understands the importance of building on strengths of individual learners rather than emphasizing needs.

3. The literacy specialist is able to support and expand student expression in speak-
ing, writing, and creative art forms across subject matter areas.

4. The literacy specialist is able to conduct assessment that involves multiple indicators of student progress and develop an instructional plan based on these indicators.

The Master of Education with Literacy Emphasis is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Core Professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to literacy education.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, students for the Master of Education with Literacy Emphasis must meet all college requirements for admission and retention.

Individuals applying for admission to the Master of Education with Literacy Emphasis must meet the following admission requirements:

- Bachelor’s degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

General Requirements

Candidates must complete a minimum of 33 semester credit hours for the Master of Education with Literacy Emphasis. They must complete EDUC 4419 Developmental Literacy or the Idaho Comprehensive Literacy Assessment. All candidates completing a thesis will orally defend the thesis, but will not complete written comprehensive examinations. All candidates not completing a thesis will be required to pass both a written comprehensive examination and an oral examination.

Candidates seeking Idaho certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students pursuing the Master of Education with Literacy Emphasis have professional experience in an educational context.

The deadline for submission of applications is July 1. Applications will be reviewed and degree-seeking students will continue to be admitted until program capacity is reached.

Master of Education in Deaf Education

The Deaf Education program has an outstanding history of identifying, educating, and placing highly qualified individuals in educational programs for Deaf and hard of hearing children and youth in Idaho and neighboring states. These educators have been instrumental in helping intermountain states expand the delivery of quality educational services to this school-age population in all educational settings. The Master of Education in Deaf Education is designed to strengthen the student's understanding, knowledge, and skills in four areas—Core Professional Studies, Specialty Studies, Integrated Field Research Studies, and Electives—as they relate to the education of children and youth who are Deaf and hard of hearing. This program is in alignment with the College of Education’s other graduate programs in that it includes research components (i.e., Core Professional Studies and Integrated Field Research Studies), a teacher certification component (i.e., Specialty Studies), and a supporting area (i.e., Electives) that augments a student’s undergraduate training.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education in Deaf Education degree must meet all college requirements for admission and retention.

Admission requirements for individuals applying to the Master of Education in Deaf Education:

- Bachelor’s degree from a regionally accredited college or university in the United States or its equivalent from a school in another country.
- Submit three letters of recommendation.

In that the mission of the Deaf Education program is to prepare individuals to become certified teachers of the Deaf, preference is given to individuals who have an undergraduate elementary, secondary, or special education major and who have American Sign Language skills. However, individuals without this background should consider applying after consulting their respective state department of education for details regarding teacher of the Deaf certification/licensure.

General Requirements

Students completing a Master of Education in Deaf Education must complete a minimum of 33 semester credit hours. Students seeking Idaho certification in the area of their training must meet the State Board of Education requirements for certification/licensure. Students seeking certification in their area of training from another state must meet the requirements of that state.

Elective credits to total a minimum of 33 credits hours for the Master’s must be taken from relevant graduate-level courses. Elective credits must be approved in advance by the student’s major advisor. In certain situations a student’s program of study might exceed 33 credits. The three most common situations are:

1. Applicants will be evaluated as to their teaching experience with Deaf/hard of hearing children: (a) those with three or more years of such teaching experience will be able to waive CSED 6609 (3 credits) but will need to take added electives; (b) those who do not meet the three years teaching experience will need to take CSED 6609 (3 credits).

2. Applicants who do not meet American Sign Language proficiency will need to complete appropriate coursework; verification can be established through various sign language quality assurance examinations (e.g., RID, NAD, or EIPA [3.5 or above] certification), or transcript verification.

3. Applicants who do not have appropriate coursework in communication sciences/disorders and audiology will be advised to take appropriate courses in order to meet teacher of the Deaf and hard of hearing standards as identified in state certification/licensing documents. A thorough examination of each applicant’s transcript will be completed to determine what coursework the student has completed and what coursework is needed to complete the Master of Education in Deaf Education, as well as state certification/licensure requirements to become a teacher of the Deaf/hard of hearing.

Department of Sport Science and Physical Education

Chair and Professor Lester
Professor: Lyons
Associate Professor: Appleby, Fitzpatrick
Assistant Professors: Faure, Gouthier
Instructor: Cordingley
Lecturer: Watters

The Department of Sport Science and Physical Education offers the Master of Physical Education/Athletic Administration degree at Idaho State University and through the Idaho State University-Boise State Cooperative Program.

Master of Physical Education/Athletic Administration

The Master of Physical Education/Athletic Administration is aligned with 2 sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), and the National Association for Sport and Physical Education (NASPE) and the North American Society for Sport Management (NASSM) Standards.

NASPE-NASSM Content Standards: The NASPE-NASSM standards for Master’s De-
Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Physical Education/Athletic Administration degree must meet all college requirements for admission and retention. Individuals applying for admission to the Master of Physical Education/Athletic Administration program will be reviewed using the following criteria. Preference will be given to applicants who meet or exceed these criteria.

- Bachelor’s degree from a regionally accredited college or university in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

In addition, the Department of Sport Science and Physical Education requires that the applicant shall have had the necessary background in tests and measurements, and a knowledge of statistical procedures. Both a thesis and non-thesis option are available.

General Requirements

Students must complete a minimum of 33 semester credit hours for the Master of Physical Education/Athletic Administration degree. Students completing a thesis will orally defend the thesis, but will not complete written examinations. Students not completing a thesis will be required to pass both a written examination and an oral examination.

All students must document professional experience in an athletic setting either by prior athletic administrative experience (minimum of one year) or by completing an approved internship for credit while completing the MPE/AA program.

Idaho State University

- Boise State Cooperative Program

Through the Idaho State University-Boise State Cooperative Program, students are able to complete the entire 33 credit hour Master of Physical Education/Athletic Administration degree program on the Boise State campus. Course requirements are the same as those for the on-campus program listed previously, and students have the option of completing the thesis or non-thesis option. Up to 15 credit hours of approved Boise State courses may be counted toward the degree.

Idaho State University is the degree-granting institution. Students must initially apply for admission to Idaho State University and then, if accepted, apply for admission to Boise State University. An application fee must be paid to each institution. For information about the Idaho State University-Boise State Cooperative Program in Physical Education/Athletic Administration, contact the Department Chair.

The following BSU faculty members are approved as Idaho State University At-large Graduate Faculty, and are listed with the Graduate Faculty at the back of this catalog: Professors Hoeger, McChesney, Petlichkoff, Pfleiffer, Potter, Spear, Vaughn.

Graduate Courses in the College of Education

Child and Family Studies

Graduate Courses

CFS 5501 Foundations of Early Childhood Education and Intervention 3 credits. Examination of social, historical, and philosophical foundations of early childhood education and intervention and their respective influences on currently accepted concepts and practices in programs serving young children from birth through age eight.

CFS 5531 Family Resource Management 3 credits. Management theory for resource utilization and goal achievement. Issues include stress, communication, and family types. Emphasis on decision-making related to the dynamics of balancing work and family. PREREQ: CFS 5570 OR PERMISSION OF INSTRUCTOR.

CFS 5535 Relationships Within Families 3 credits. Building and maintaining positive relationships within families. Critical issues facing individuals and families including communication, cultural diversity, balancing multiple roles, time management, and financial planning.

CFS 5539 Sports Nutrition 2 credits. Review nutrition recommendations for both competitive and recreational athletic performance. Background into metabolism of nutrients related to strength and endurance given as rationale for nutrition practices. Controversies and misinformation addressed. Cross-listed as NTD 5539. PREREQ: NTD 2239 SUGGESTED.

CFS 5561 Advanced Nutrition 3 credits. Advanced study of nutrition science, including protein, carbohydrate, lipid, vitamin, and mineral metabolism. Introduction to research methodology and professional literature. Cross-listed as NTD 5561. PREREQ: NTD 2239, CHEM 1102.

CFS 5570 Consumer Economics 3 credits. Financial management content with a focus on developing effective decision-making processes for managing resources. Topics: the changing American family; consumer protection and recourse; purchasing decisions; consumer credit; fundamentals of savings/investment; and insurance.

CFS 5571 Advanced Consumer Economics 3 credits. Advanced study of social and economic problems affecting individuals and families. Topics: financial security; credit and loans; tax planning; major consumer purchases; risk management; investments; retirement and estate planning. PREREQ: CFS 5570 OR PERMISSION OF INSTRUCTOR.

CFS 5572 Teaching Consumer Economics 1-3 credits. Designed to provide educators with current content and resources for developing consumer and economic education curriculum. Teaching techniques discussed and practiced. PREREQ: CFS 4471 OR PERMISSION OF INSTRUCTOR.

CFS 5579 Professional Education Development Topics. Variable credit. May be repeated. Acourse for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/ U.

CFS 6600 Issues and Trends in Child and Family Studies 3 credits. Exploration and discussion of current issues and trends impacting children and families and programs designed to serve them.

CFS 6621 Learning and Development in Early Childhood Education 3 credits. Investigation of
the development characteristics and processes of the young child from birth to age 8 related to the process of knowledge construction.

**CFS 6622 Curriculum in Early Childhood Education 3 credits.** Examination and implementation of developmentally appropriate curricular practices that simultaneously strengthen all domains of development and contribute to the construction of knowledge in content areas.

**CFS 6631 Family Diversity 3 credits.** Exploration and analysis of the role of diversity in defining family structure, functioning, and development. Includes focus on educational implications and opportunities for observation in a variety of settings.

**CFS 6632 Theoretical Frameworks for Understanding Families 3 credits.** Analysis of theories of family interaction and family functioning. Emphasis on family development theory, family systems theory, social models, and other relevant models of family functioning.

**CFS 6634 Public Policy for Children and Families 3 credits.** Analysis of selected state and federal legislation affecting the status of children and families. Focus includes legal definitions related to children and families and advocacy networks.

**CFS 6642 Assessment in Early Childhood Education and Intervention 3 credits.** Selection, administration, and interpretation of assessment tools employed in early childhood inclusive practice. Emphasizes screening, educational assessment, and monitoring of child progress. PREREQ: CFS 5501 OR PERMISSION OF INSTRUCTOR.

**CFS 6643 Curricular Adaptations and Intervention in Early Childhood Education 3 credits.** Overview of theoretical bases for early intervention and selected service delivery models. Focus on program planning, curriculum, materials, procedures, and program evaluation. PREREQ: CFS 5501 OR PERMISSION OF INSTRUCTOR.

**CFS 6644 Working with Families in Early Childhood Education and Intervention 3 credits.** Theoretical and applied perspectives in providing family-focused early childhood services. Emphasis on models for service delivery and service coordination for all families with young children including those from diverse backgrounds.

**CFS 6647 Internship in Child and Family Studies 1-6 credits.** Supervised practice in demonstration of competencies for children and families in a variety of educational settings. Fifty hours of experience and supervision equals one hour of academic credit. May be repeated.

**CFS 6659 Seminar in Child and Family Studies 1-3 credits.** Critical analysis of the literature in one or more areas related to children and families. May be repeated up to 6 credits.

**CFS 6669 Case Study/Project in Child and Family 1-6 credits.** Under faculty supervision, student is responsible for development and oral presentation of a comprehensive case study or a comprehensive graduate field project. May be repeated up to 6 credits.

**CFS 6676 Supervision of Family and Consumer Sciences Education 2 credits.** Explores roles and responsibilities of cooperating teachers and college supervisor in providing desirable experiences of family and consumer sciences student teachers in the public schools. Supervision styles will be reviewed and evaluated.

**CSE 6607 Directed Observation in Education of the Deaf 1 credit.** Directed observations at multiple levels and reporting of casual interactions and diagnostic/intervention approaches by instructor with Deaf or hard of hearing individuals (minimal 150 clock hours). May be repeated up to 3 credits.

**CSE 6608 Communication Practicum 2 credits.** Supervised experiences applying research and theory to language intervention practices for Deaf or hard of hearing individuals. May be repeated up to 6 credits.

**CSE 6609 Teaching Internship in Deaf Education 1 - 3 credits.** Directed classroom and clinical teaching experience with Deaf or hard of hearing students under supervision. Minimum 250 clock hours at the level specialization. May be repeated up to 6 credits. PREREQ: Approved application.

**CSE 6622 Literacy Curriculum in Deaf Education 3 credits.** Theory, research and practices for teaching and assessing written language for Deaf and hard of hearing students. Applications of principles of language acquisition to reading and writing.

**CSE 6628 Curriculum Organization in Deaf Education 3 credits.** Organizing, adapting and implementing curriculum across all areas to meet the special needs of Deaf or hard of hearing students. Includes assessment, behavior management, instructional technology, and individualized planning.

**CSE 6632 Theoretical Frameworks for Understanding Families 3 credits.** Psychological, educational and social influences of the hearing community on deaf persons and the structure of the deaf community as a socio-cultural entity.

**CSE 6637 Foundations of Deaf Education 3 credits.** A comprehensive study of the philosophies and theories that influence current practice and research in the education of Deaf or hard of hearing students.

**CSE 6651 Field Project/Case Study in Deaf Education 1 - 3 credits.** A field project or case study is completed in conjunction with the field internship and/or education scenario. Written report and oral explication required. May be repeated up to 6 credits. Graded S/U.

**CSE 6658 Teaching Language to the Deaf 3 credits.** Students gain theoretical and practical knowledge in the evaluation and habilitation of language/communication problems in Deaf and hard of hearing children and adolescents.

**CSE 6659 Teaching Academic Subjects to the Deaf 3 credits.** Students gain theoretical and practical knowledge of how to teach academic subjects to the Deaf and hard of hearing children and individuals.

**Educational Administration Graduate Courses**

**EDLA 6608 Organizational Leadership and Education Administration 3 credits.** Overview of leadership theories, principles of organizational development, and personal leadership development, and systems theory with applications to education leadership.

**EDLA 6609 Principalship 3 credits.** Exploration of the role of school principal as leader and manager. Topics include data and records management, personnel management, school finance, technology, special services, school safety, and other building-level topics.

**EDLA 6612 School Law, Governance, and Ethics 3 credits.** Study of the legal principles of school administration; overview of the case law, federal and state statutes, school governance policies, and ethics that provide the foundation for application of the law to schools.

**EDLA 6613 Using Data to Improve School Leadership 3 credits.** Emphasis on the use and understanding of data analysis to improve teaching and learning in the classroom. Statistical analysis relating to educational leadership decision-making applications.

**EDLA 6614 Curriculum, Instruction, and Assessment 3 credits.** Study of curriculum principles and practices of high achieving schools; overview of alignment of a standards-based curriculum with effective instructional practices and assessment.

**EDLA 6615 Supervision and Instructional Leadership 3 credits.** Examines the role of the principal as instructional leader in the supervision and evaluation of instruction, learning, and student achievement.

**EDLA 6630 Education Equity and Ethics 3 credits.** Designed to raise awareness among school leaders of equity issues and empower them to advocate equal opportunity for ALL students.

**EDLA 6637 Practicum 1-3 credits.** Students observe, participate in, and perform activities in a school setting over 2 semesters. Focus: Idaho Superintendent’s Certification competencies. 300 hours required (includes 20 hours/6600 level EdS course). May be repeated for a maximum of 12 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**EDLA 6642 School Culture and Community Relations 3 credits.** Overview of school culture and climate in relationship to school communications and public relations. Explores diversity and equity issues related to students, staff, and community.

**EDLA 6643 Public School Personnel Administration 3 credits.** Study of effective human resources management, including recruitment, selection, induction, staff development, employee
EDLA 6644 Instructional Leadership 3 credits. Course emphasizes leadership for district-wide planning, implementation and monitoring of curriculum, assessment and instruction. Designed to address superintendent certification competencies.

EDLA 6648 Independent Problems in Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

EDLA 6649 Issues in Education Administration 3 credits. Critical analysis of issues, trends and current topics in education administration.

EDLA 6650 Thesis 1-6 credits. PREREQ: PERMISSION OF INSTRUCTOR. May be repeated. Graded S/U.

EDLA 6651 Field Project/Case Analysis in Education 1-6 credits. A Field Project or Case Analysis is completed in conjunction with the field practicum/internship and/or an educational setting scenario. Written report and oral explanation required. May be repeated. Graded S/U.

EDLA 6657 Internship 1-3 credits. A partnership between the University and pre-K-12 schools providing students experience in school leadership and administration. Students complete 540 hours of internship including 400 hours of on-site work at all levels (elementary, middle, and high school) with accompanying portfolio. Student must enroll for 3 credits in their first semester, and at least 1 credit/semester of continuous enrollment. By application only. PREREQ: Two of EDLA 6608, EDLA 6612, and/or EDLA 6615; PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

EDLA 6662 The Superintendent 3 credits. Study of school district leadership including organizational systems, ethics, change processes, school board operations, community relations, the role of education in a democratic society, and the needs of diverse constituencies.

EDLA 6664 Public School Monetary Policy 3 credits. Advanced study of the financial structure of public schools, including equity issues, taxation, revenue generation (grants) and budget development. Special emphasis on Idaho public education.

EDLA 7751 Field Project/Case Analysis in Educational Administration 1-3 credit. A Field Project or Case Study/Analysis is completed in conjunction with the field practicum/internship and/or an educational scenario. Written report and oral explanation required. May be repeated. Graded S/U.

EDLA 7721 Educational Policy and Governance 3 credits. Study of the relationship between politics, policy and governance of schools, including political systems, inter-governmental relations, power and conflict, and policy development regarding equity, quality and efficiency.

EDLA 7722 Data-Driven Decision-Making 3 credits. Theory and practice for school system leaders to collect and use data for continuous school and school district improvement. PREREQ: EDUC 6610 OR EQUIVALENT.

EDLA 7723 Educational Planning and Evaluation 3 credits. Study of planning and evaluation in schools and school districts including strategic planning, effectiveness and curriculum audits, facility planning, and program planning and evaluation.

EDLA 7737 Practicum 1-3 credits. Students observe, participate in and perform activities in a school setting. Designed to facilitate school/district leadership knowledge, skills and dispositions. Focus on certification standards. May be repeated for a maximum of 12 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

Community College Doctoral Courses

EDLC 7730 The Modern Community College 3 credits. Course content addresses the history and philosophy of community college education, including Tribal colleges. Examines the mission, objectives, educational functions, populations served, student and faculty characteristics, and current issues facing community colleges in a global environment.

Higher Education Administration Doctoral Courses

EDLP 7700 Change Strategies 3 credits. Investigation and application of individual and organizational change strategies and tactics.

EDLP 7701 Advanced Statistics in Education 3 credits. Applications of advanced statistical methods most frequently used in the analysis of quantitative measurement data in education and related fields. PREREQ: EDUC 6610 AND EDLP 7705 OR EDLP 7706, OR PERMISSION OF INSTRUCTOR.

EDLP 7702 Supervision and Empowerment 3 credits. Practical study of leadership values; use of coaching, participative management, team building, and critical inquiry to improve supervision in complex organizations.
EDLP 7703 Leadership and Organizational Development 3 credits. Students will identify and critique several leadership and organizational theories and their application to work environments, and demonstrate a professional code of ethics and values.

EDLP 7704 Conditions of Learning and Teaching 3 credits. In-depth study of current theory, issues, and research on learning and teaching. Emphasis on understanding conditions of learning including motivation, social-cultural variables, and individual differences. PREREQ: EDUC 6602 OR EQUIVALENT.

EDLP 7705 Advanced Research Design I (qualitative) 3 credits. Process-based examination of qualitative research designs and methodologies commonly used in education and related fields. PREREQ: EDUC 6601 AND EDUC 6610 OR EQUIVALENT PREREQ: PERMISSION OF INSTRUCTOR.

EDLP 7706 Advanced Research Design II (quantitative) 3 credits. Process-based examination of quantitative research designs and methodologies commonly used in education and related fields. PREREQ: EDUC 6601 AND EDUC 6610 OR EQUIVALENT PREREQ: PERMISSION OF INSTRUCTOR.

EDLP 7707 Instructional Technology 3 credits. Examination of appropriate and effective uses of multimedia in K-college environments. Focus on exploration of the research on educational applications of multimedia.

EDLP 8800 Doctoral Seminar 1 credit. Serves as an initiation/orientation to doctoral study. Exploration of educational leadership through readings, reflections and dialog. Special attention will be paid to social justice advocacy and service learning. Taken during the first year of doctoral course work. May be repeated. Graded S/U.

EDLP 8801 Capstone Seminar 1 credit. Course provides doctoral students (typically advanced to candidacy) with a capstone experience designed to support and facilitate the dissertation process. May be repeated. Graded S/U.

EDLP 8850 Dissertation variable credits. May be repeated. Graded S/U.

### Instructional Technology and Design Courses

EDLT 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

EDLT 6616 Integration of Technology into School Curriculum 3 credits. Examination of appropriate and effective uses of technology in K-12 environments. Focus on exploration of the research on effective technology utilization in instruction.

EDLT 6621 Issues and Trends in Instructional Technology 3 credits. Examination and discussion of current issues and innovations in instructional technology. Includes analysis of relevant historical and current national trends and issues. PREREQ: EDLT 6616.

EDLT 6626 Instructional Technology and Staff Development 3 credits. Examination of in-service models for integrating technology into the K-12 curriculum. Students will deliver an in-service session related to instructional technology. PREREQ: EDUC 6601, EDLT 6616, EDLT 6621.

EDLT 6639 Delivering Instruction in Electronic Formats 3 credits. Advanced study of electronic distance education, especially web-based instruction. Using instruction design principles, students will design, develop, and conduct a formative evaluation of a web-based instructional unit.

EDLT 6646 Information Systems 3 credits. Investigation and application of computer software programs that reinforce administrative practices. Application of programs that promote effectiveness and efficiency through the appropriate development and use of data.

EDLT 6648 Independent Problems in Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR.

EDLT 6649 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

EDLT 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

EDLT 6651 Field Project/Case Study in Education 1-6 credits. A field project or case study is completed in conjunction with a field practicum/internship in an educational setting. Written report and oral explication of the project or case study required. Graded S/U.

EDLT 6652 Field Practicum in Education 1-6 credits. Individually designed practicum in an educational setting. The length, placement, and learning experiences will be determined in consultation with the major advisor. May be repeated. Graded S/U.

EDLT 6655 Fundamentals of Instructional Design 3 credits. Review of various instructional design models and fundamental design principles that guide the development of instructional materials. Students will create multimedia materials for incorporation into a final product. PREREQ: EDLT 6616, EDUC 6622.

EDLT 6665 Fundamentals of Multimedia Development in Education 3 credits. Exploration of the use of multimedia technology in education. Students will use multimedia authoring tools to develop instructional units for integration of technology into the curriculum. PREREQ: EDUC 6622, EDLT 6655.

EDLT 7737 Practicum 3 credits. This is an individually designed field experience in an area of technology, supporting and extending course work within this area of concentration. The length, placement, and prescribed learning experiences will be determined in consultation with the Educational Technology advisor. May be repeated for maximum of 12 credits.

EDLT 7740 Instructional Systems Design 1-3 credits. Examination of the instructional design process; applications of current research related to development of instructional multimedia materials. PREREQ: EDLP 7706.

EDLT 7742 Multimedia Authoring I 3 credits. Use of Macromedia Director as the main authoring system for designing instruction. PREREQ: STUDENT MUST HAVE EXPERIENCE WITH HYPERMEDIA PROGRAMS; EDLT 7740.

EDLT 7743 Multimedia Authoring II 3 credits. Advanced use of Macromedia Director as an authoring system. Includes creation of digital sound graphics, animation, and movies. Student will produce a multimedia project. PREREQ: EDLT 7742.

EDLT 7744 Instructional Systems Design II 3 credits. Advanced study of instructional design process. Includes consideration of current research related to formative and summative evaluation techniques for multimedia design. PREREQ: EDLT 7740.

EDLT 7745 Instructional Design for Distance Learning Delivery 3 credits. Exploration of effective uses of multimedia materials in the distance learning environment. Includes investigation of skills needed for creating instructional media for distance learning. PREREQ: EDLT 7742 AND EDLT 7744.

EDLT 8850 Dissertation variable credits. Graded S/U.

### Education Graduate Courses

EDUC 5519 Developmental Literacy 3 credits. Instructional strategies for reading, emphasizing early literacy and language development, phonemic awareness, phonics, word recognition strategies, comprehension and meta-linguistic awareness. PREREQ: EDUC 3321 OR PERMISSION OF INSTRUCTOR.

EDUC 5520 Advanced and Compensatory Reading Strategies 3 credits. Advanced training for developmental/remedial reading, emphasizing study skills, critical/creative reading, and meta-cognition. Content area application. PREREQ: TEACHING EXPERIENCE OR PERMISSION OF INSTRUCTOR.

EDUC 5524 Assessing Literacy Abilities 3 credits. Methods of assessment in literacy. Introduction to case study, formal and authentic measures of comprehension, vocabulary, study strategies, and writing. PREREQ: EDUC 5519 or the Idaho Comprehensive Literacy Assessment, OR PERMISSION OF INSTRUCTOR.

EDUC 5526 Remediation of Literacy Problems 3 credits. Teaching strategies for remediating
problems in literacy. Emphasis on planning, implementing, and evaluating approaches and materials. PREREQ: EDUC 5524.

EDUC 5560 Foundations of ESL 3 credits. Study of ESL learner characteristics, historical, philosophical, cultural and linguistic foundations of ESL. Theories of language acquisition and those of leaders in the field will be included.

EDUC 5563 ESL Methods 3 credits. Language assessment, planning, and delivery for teaching limited English proficient K-12 students. Appropriate methods for students at various developmental stages of language acquisition will be studied. PREREQ: EDUC 5560 OR PERMISSION OF INSTRUCTOR.

EDUC 5564 ESL Practicum 1 credit. Field experience in settings with English-as-a-Second-Language learners. COREQ: EDUC 5563 OR PERMISSION OF INSTRUCTOR.

EDUC 5570 Manipulative Mathematics 3 credits. Study of methods for teaching mathematics through the modern math approach stressing manipulations. Consideration is given to diagnostic and remedial procedures for exceptional children.

EDUC 5571 Interpersonal Communications 2 credits. Examination of basic concepts, principles, models, and theories of interpersonal communications and their application to educational settings.

EDUC 5581-5582 Contemporary Issues in Education 1-3 credits. Examination and analysis of contemporary issues and trends in theories and practices in education.

EDUC 5583 Instructional Improvement for Teachers 1-3 credits. Study of ways by which teachers can improve instruction in their own classrooms with emphasis on the findings of research and experiences.

EDUC 5585 Independent Problems in Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

EDUC 5591 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Limited enrollment. PREREQ: PERMISSION OF INSTRUCTOR.

EDUC 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

EDUC 6601 Research and Writing 3 credits. Examination of methods for designing/conducting research in education and related fields and of procedures for formal report writing using APA style and format.

EDUC 6602 Theories of Learning 3 credits. Advanced study of the psychology of human learning and instruction. Emphasis will be placed on the application of contemporary theories of learning to instructional practice and the design of effective learning environments.

EDUC 6610 Applied Educational Statistics 3 credits. Application of parametric and nonparametric statistical procedures for summarizing and analyzing qualitative and quantitative measurement data in conducting research and for report writing in education and related fields. Covers descriptive statistics to single-factor experiments.

EDUC 6612 Learners and the Content 3 credits. Examination of curriculum scope and sequence within the context of varying learner needs. The course will focus on curriculum alignment with state and national standards and the connecting of content to learner characteristics and developmentally appropriate teaching practices. PREREQ: COHORT ADMISSION. COREQ: EDUC 6602.

EDUC 6614 Pedagogy and Content Knowledge 3 credits. Investigation of the structure of subject matter knowledge and how it determines pedagogical content. The course will examine philosophical perspectives, models of teaching, and develop contemporary applications. PREREQ: COHORT ADMISSION AND EDUC 6602.

EDUC 6618 Learning Communities 3 credits. Exploration of learning communities and examination regarding models for how they are created and sustained through curriculum leadership. The course includes such topics as parental involvement, curriculum for diverse learners, and collaborative teaching practices. PREREQ: EDUC 6612 AND EDUC 6614.

EDUC 6620 Motivation for Learning 3 credits. Advanced study of theories and research on student motivation including strategies for linking motivation to classroom management and curriculum. Topics include individual differences, interpersonal motivation, self-motivation, and lifelong learning. PREREQ: EDUC 6612.

EDUC 6622 Educational Assessment and Evaluation 3 credits. Construction, administration and interpretation of educational assessments for the systematic analysis of student learning and teaching practice. Emphasis is placed on the use of assessment results in planning and valuation of curriculum leadership. PREREQ: EDUC 6610.

EDUC 6627 NBPTS Certification Part I 3 credits. Provides a framework for completion of the requirements for National Board for Professional Teaching Standards Certification. Examination of the standards and portfolio guidelines; provision of support and consultation in gathering and presenting documentation.

EDUC 6630 Advanced Elementary Methods 3 credits. Advanced study of the subject content and teaching methods in grade K-8 programs. The course includes emphasis on development of materials, lesson planning, instructional strategies, assessment, and application of technology for information acquisition, analysis, and presentation by students and teacher.

EDUC 6631 Advanced Secondary Methods 3 credits. Advanced study of the subject content and teaching methods in grade 6-12 programs. The course includes emphasis on development of materials, lesson planning, instructional strategies, assessment and application of technology for information acquisition, analysis, and presentation by students and teacher.

EDUC 6632 Psychology of Literacy 3 credits. Examination of the nature of symbolic systems within the literacy field from the perspective of contemporary psychological science. Topics include decoding, lexical access, referential representation, and meta-cognition.

EDUC 6633 Language, Literacy, and Neurology 3 credits. Theories and principles based on research in psycholinguistics and neuropsychology as related to literacy.

EDUC 6634 Literacy: Multicultural Views 3 credits. Theories and research in language acquisition and development across cultures including emphases on second language acquisition, dialects, and regionalisms affecting both oral and written codes.

EDUC 6635 Clinical Methods in Literacy 3-6 credits. Consulting, supervising, evaluating, writing case reports, and relating research and theories in literacy to clinical methods. May be repeated up to 6 credits. PREREQ: EDUC 5524, EDUC 5526, AND EDUC 6633.

EDUC 6637 Leadership in Curriculum Development 3 credits. Development of the knowledge, skills, and dispositions essential to effective curriculum leadership. While drawing on philosophy, the course focuses on the practical applications of leadership, including curriculum vision, development, management, and evaluation. PREREQ: EDUC 6618, EDUC 6660, AND EDUC 6622.

EDUC 6638 Supervision of Interns and Student Teachers 2 credits. Role and responsibilities of supervisory personnel in the intern and student teaching programs including student orientation readiness, planning and techniques of instruction, and evaluation. PREREQ: PERMISSION OF INSTRUCTOR.

EDUC 6640 Workshop 1-2 credits. Special projects concerned with public school education. Meets for a minimum of 36 clock hours with appropriate outside assignments, lessons, or papers. May be repeated up to 6 credits.

EDUC 6641 Advanced Studies in K-12 Curriculum 3 credits. Advanced study of research and development of subject-specific curriculum in K-12 environments. PREREQ: EDUC 6601 or EDUC 6630.
EDUC 6648 Independent Problems in Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR.

EDUC 6649 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

EDUC 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

EDUC 6651 Field Project/Case Study in Education 1-6 credits. A field project or case study is completed in conjunction with a field practicum/internship in an educational setting. Written report and oral explication of the project or case study required. Graded S/U.

EDUC 6652 Field Practicum in Education 1-6 credits. Individually designed practicum in an educational setting. The length, placement, and learning experiences will be determined in consultation with the major advisor. Graded S/U.

EDUC 6670 Seminar in Elementary Education 3 credits. Examination of research and current issues in Elementary Education. Seminar format requires active participation in readings, discussion, written assignments, and presentations.

EDUC 6671 Seminar in Secondary Education 3 credits. Examination of research and current issues in Secondary Education. Seminar format requires active participation in readings, discussion, written assignments, and presentations.

EDUC 6675 Curriculum Project 3 credits. Completion of a curriculum project within the context of a supportive learning community, or, for those teachers who have achieved National Board Certification, submission of the portfolio. PREREQ: PERMISSION OF CURRICULUM LEADERSHIP PROGRAM MAJOR ADVISOR AND EDUC 6601.

EDUC 6676 Evaluation Research Practicum 3 credits. Supervised on-going assessment of curriculum projects and the systematic evaluation of their implementation in educational settings or, for those teachers who have achieved National Board Certification, content analysis of the portfolio. Each student will complete an independent curriculum evaluation project. PREREQ: PERMISSION OF CURRICULUM LEADERSHIP PROGRAM MAJOR ADVISOR.

Physical Education Graduate Courses

P E 5527 Personal Trainer Certification 3 credits. Theoretical knowledge and practical skills in preparation for national certification exam in personal training. Guidelines for instructing safe, effective and purposeful exercise; essentials for the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

P E 5565 Organization and Administration of Intramural Sports 3 credits. Study of various methods of organizing and administering intramural sports programs on the junior high school, high school, and college levels.

P E 5570 Care and Prevention of Athletic Injuries 2 credits. Prevention, cause, and care of athletic injuries. Emphasis on the role of the coach relative to responsibility and resultant liability.

P E 5573 Facility Planning and Design 3 credits. An investigation of the various components, principles, and fundamental practices involved in facility planning and design for physical education, athletics, and recreation.

P E 5575 Organization and Administration of Physical Education and Sport 3 credits. Study of the management theory and practices utilized in conducting physical education and sports programs. Emphasis will be placed on intercollegiate as well as intercollegiate physical education and athletic programs.

P E 5580 Coaching Problems 2 credits. Athletic control, eligibility, new coaching techniques, finances, safety measures, public relations, duties of coaches, managers, and officials. May be repeated once for additional credit.

P E 5581 Coaching Clinic 1 credit. ISU is a sponsor of the annual Idaho Coaches Association Clinic held during the first week of August. Instruction offered in football, basketball, and other sports by coaches of national reputation. May not be applied to degree programs. May be repeated.

P E 5585 Independent Problems in Physical Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific physical education problems. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

P E 5591 Physical Education Workshop 1-3 credits. A critical analysis of one or more areas of physical education. Limited enrollment. May be repeated up to six credits. PREREQ: PERMISSION OF INSTRUCTOR.

P E 5594 Survey of Professional Literature 2 credits. An investigation of the various components, principles, and fundamental practices involved in facility planning and design for physical education, athletics, and recreation. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

P E 5595 Diversity Issues in Education and Sport 3 credits. Explores various issues of social justice that are encountered in education and sport settings. PREREQ: GENERAL EDUCATION GOAL 1.

P E 5596 Advanced Sport Psychology 3 credits. History, philosophy, and the teaching/learning process in providing adapted physical activity in schools and community-based settings. Includes clinical experiences. PREREQ: BIOL 3301 OR EQUIVALENT, OR PE 2243, PE 3300 AND PE 3362.

P E 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

P E 6605 Leadership and Administration 3 credits. Development of leadership skills and the dynamics of group process relative to effective interpersonal relationship with special emphasis on Physical Education and Athletic programs and personnel needs.

P E 6610 Advanced Sport Psychology 3 credits. Designed to define, critique, and apply critical perspectives of sport and exercise psychology, including aggression theories, violence, cohesion, and social facilitation. Aspects of coaching theory and its application are included.

P E 6612 Advanced Sociology of Sport 3 credits. Social aspects of sport and society, with emphasis on the relationship between sport, culture, and ideology.

P E 6615 Philosophy and Principles of Athletics in Education 3 credits. The role of athletics in education, the function and organization of leagues and conferences of coaches, certification of coaches, ethics, and public relations.

P E 6620 Curriculum and Supervision 3 credits. Consideration of the physical education curriculum in public schools and in colleges and universities. Recent developments and current trends that influence the curriculum and supervision policies. Observation techniques, standards in judging instruction, the supervisory conference, cooperative supervision, basic foundation of curriculum construction, and lesson planning.

P E 6622 Survey of Professional Literature 2 credits. Identification and investigation of professional literature and its application to current and future directions of the field. Extensive reading and formal writing required. May be repeated.

P E 6631 Athletics and the Law 3 credits. A study of the administrative role relating to the regulation of athletic competition and athletic programs. A review of significant court cases dealing with sports law, with application to the school setting.

P E 6635 Management Aspects of Athletics 3 credits. Factors involved in the conduct of athletic events such as contracts, scheduling, travel, game management, crowd control, and the legal implications of athletics.

P E 6640 Research and Writing 3 credits. Analysis and interpretation of the basic principles of research and writing as they relate to physical education, athletics and allied fields of endeavor. Integration of research and writing procedures likely to have the greatest influence on programs and practices relating to the administration of P.E.D. programs.

P E 6645 Sports Medicine 3 credits. Study of sports medicine principles and practices involved in athletic programs. Includes kinesiological and physiological principles involved in athletics as well as management and administrative concerns related to conducting sports medicine programs.

P E 6648 Problems 1-3 credits. Individual and group study of problems in the areas of physical education and recreation. May be repeated to 6 hours credit.
SPED 5523 Direct Instruction Systems 3 credits. This course provides mastery level skills training in direct instruction systems for reading, math, and written language. Includes field work, adaptation of curricula to direct instruction model and evaluation. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5533 The Emotionally Disturbed Child 3 credits. Survey of the causes of emotional disturbance in children and the effects upon the child’s school performance and achievement. School programs and treatment considerations will be reviewed.

SPED 5538 Policies and Procedures in Special Education 3 credits. Consideration of legal background, current court ruling, professional responsibilities, and models for consultation and collaboration in a variety of educational settings. Includes the IEP process. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5540 Biomedical Aspects of Physical Disability 2 credits. Study of the causes, treatments, and educational implications of physical and neurological disorders of genetically and orthopedically disabled children. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5543 Autism 2 credits. An overview of autism and implications for educational planning. Teaching strategies that are successful in working with individuals who have autism will be reviewed.

SPED 5546 Secondary Special Education 3 credits. Teaching methodology focusing on needs of secondary and adult special education students. Topics include functional academics, transition, independent living, social skills, vocational training, employment options, and accessing community resources. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5548 Pre-practicum, Moderately Handicapped 1-3 credits. Supervised practical work with moderately handicapped children in a clinical setting. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5550 Creating Inclusive Classes 3 credits. Curricula and methods for educating students with disabilities in general education classrooms. Emphasizes inclusive lesson design, curricular adaptations, and collaborative teaching.

SPED 5562 Advanced Issues in Behavior Disorders 2 credits. Study of educational organization, collaboration and consultation skills necessary to provide integrated service for this exceptionality. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5580 Seminar in Special Education 1 credit. Current topics in the field of special education by departmental faculty and guest lecturers. May be repeated for a total of 2 credits. GRADED S/U.

SPED 5581 Seminar: Behavior Disorders 1 credit. Covers topical issues related to the education of children with behavior disorders in a variety of educational and therapeutic settings. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 5585 Independent Problems 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U.

SPED 5591 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Limited enrollment. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U or on a letter-grade basis in separate sections.

SPED 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

SPED 6630 Professional Development in Special Education 2 credits. Issues related to the professional role of the master’s-degree-level special educator, including professional societies, history, philosophical and humanistic foundations.

SPED 6632 Administration of Special Education 2 credits. Supervision of special education, including the organization, financing, equipping, housing, and staffing of educational facilities for exceptional children. Also includes legal provisions relevant to special education.

SPED 6633 The Behaviorally Maladjusted Child 3 credits. Comprehensive study of the characteristics, learning problems, educational organizations, and teaching competencies for this exceptionality. PREREQ: SPED 4441 OR PERMISSION OF INSTRUCTOR.

SPED 6634 The Mentally Gifted Child 3 credits. Physical, mental, emotional, and social characteristics of the mentally gifted; teaching procedures, types of organization, analysis of educational need, and curricular material used in their education.

SPED 6636 Medical and Health Issues in Special Education 2 credits. Consideration of medical and health issues, problems, and practices as they pertain to children with disabilities in hospital-, home-, and school-based programs.

SPED 6638 Practicum in Special Education 2-8 credits. Individual observation, program development, and supervised practice in the development of teaching competencies for the education of exceptional children. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

SPED 6639 Internship in Special Education 3-12 credits. A combination of fifty hours of experience...
and supervision equals one hour of academic credit. PREREQ: SPED 6638 AND PERMISSION OF INSTRUCTOR. Graded S/U.

SPED 6650 Thesis 1-6 credits. May be repeated. Graded S/U.

SPED 6651 MASTER’S Paper 1-3 credits. A paper involving extensive familiarity with research findings written under the supervision of a faculty member in the department. May be repeated. Graded S/U.

SPED 6652 Specialist Paper 1-3 credits. A paper involving extensive familiarity with research findings written under the supervision of a faculty member of the program, consisting of applied research activity in the field of special education, written in format appropriate for publication consideration by a peer-reviewed journal.

SPED 6658 Independent Problems 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 6659 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 6662 Consultation in Schools 2 credits. Provides theoretical and practical experience in the development, implementation, and evaluation of a variety of consulting strategies suitable for working with teachers, administrators, community agencies, and parents. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 7758 Independent Problems 2-4 credits. Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 7759 Ed.S. Internship 1-9 credits. Placement in a post-master’s degree counseling, school psychology, or special education setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: COMPLETION OF ALL PROGRAM COURSE WORK, AND PERMISSION OF INSTRUCTOR. Graded S/U.

School Psychology Graduate Courses

SCPY 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

SCPY 6614 Diagnostic Evaluation of Learning Difficulties 3 credits. Investigation of theoretical and applied assessment of intervention measures suitable for remediating learning problems.

SCPY 6615 Advanced Child Psychology 3 credits. In-depth study of the principles of educational psychology and child development. Emphasis will be placed on applying research-based practices from the science of educational psychology to solve problems found in schools and other social settings. PREREQ: EDUC 6602.

SCPY 6616 Psychological Assessment 3 credits. Psychometric assessment to determine eligibility of students and provide diagnostic information to develop interventions and assess their effects. Includes writing of integrated reports that address various exceptionalities. PREREQ: SCPY 6614 AND SCPY 6619.

SCPY 6619 Individual Intelligence Testing 3 credits. Supervised practice in administering, scoring, and interpreting the results of individual intelligence tests. Each section limited to 6 students. PREREQ: PERMISSION OF INSTRUCTOR.

SCPY 6652 Specialist Paper 1 credit. An applied research paper in school psychology, written in format appropriate for publication consideration by a peer-reviewed journal. May be repeated. PREREQ: EDUC 6601.

SPED 6658 Independent Problems 1-3 credits. Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 6 credits. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

SPED 6660 Seminar in School Psychology 3 credits. Introduce students to the field of school psychology through guest speakers, literature, and discussion. Focus on assessment, diagnosis, professional ethics, historical development, and school law. PREREQ: PERMISSION OF INSTRUCTOR.

SCPY 6661 Techniques in School Psychology 3 credits. Design, implement, and evaluate in-service training activities suitable for teachers, administrators, community agencies, and parents over a wide variety of topics. PREREQ: SECOND-YEAR SCHOOL PSYCHOLOGY STUDENT. COREQ: EDUC 6616.

SCPY 6662 Consultation in the Schools 3 credits. Provides theoretical and practical experience in the development, implementation, and evaluation of a variety of consulting strategies suitable for working with teachers, administrators, community agencies, and parents. PREREQ: SCPY 6665 AND PERMISSION OF INSTRUCTOR.

SCPY 6664 Neurocognition and Learning 3 credits. This course will increase skills of school psychologists and educators in applying neurocognitive research to psychoeducational adjustment in schools. Content will emphasize intervention, assessment, instruction, consultation, individual differences in emotionality, attention, memory, and problem solving. PREREQ: EDUC 6602.

SCPY 6665 Clinical School Psychology 3 credits. Clinical practice in school settings including individual interviewing, and group training techniques, case study methods, behavioral methods, and clinical assessment strategies. PREREQ: PERMISSION OF INSTRUCTOR.

SCPY 6668 Practicum: Introduction to School Psychology, Learning Disabilities, and Special Education 3 credits. Supervised experience in educational, intelligence, and personality testing as well as diagnostic evaluation of learning difficulties and report writing. Special emphasis on the interpretation of test results to teachers, counselors, and administrative personnel. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: SCPY 6619 AND PERMISSION OF INSTRUCTOR. COREQ: SCPY 6614.

SCPY 6669 Advanced Practicum in School Psychology 1-12 credits. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: SCPY 6668 AND PERMISSION OF INSTRUCTOR.

SCPY 6670 Practicum in School Psychology Clinic 1-2 credits. Second-year students will process school and community-based referrals. Fifty (50) hours contact time per credit. This involves a collaborative problem-solving approach with school-based teams to gain experience with pre-referral activities, evaluation, and intervention plans. May be repeated. COREQ: SCPY 6665.

SCPY 7759 Ed.S. Internship 1-9 credits. Placement in a post-master’s degree counseling, school psychology, or special education setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: COMPLETION OF ALL PROGRAM COURSE WORK, AND PERMISSION OF INSTRUCTOR.
College of Engineering

George Imel, Ph.D., Dean and Professor
D. S. Naidu, Ph.D., Associate Dean and Professor
Professor and Chair, Department of Civil and Environmental Engineering: Zoghi
Professor and Interim Chair, Department of Electrical Engineering and Computer Science: Mousavinezhad
Professor and Interim Chair for Department of Mechanical and Nuclear Engineering: Imel
Professors: Bosworth, Ebrahimpour, Kunze, Leung, Lineberry, Sato, Schoen, Stuffle
Associate Professors: Ellis, Kantabutra, Wabrek, B. Williams
Assistant Professors: Chiu, Dunzik-Gougar, Perez, Tappan, Savage
Adjunct Faculty: Larson, Lucas, Maio

Doctor of Philosophy in Engineering and Applied Science

The Ph.D. program in Engineering and Applied Science is an interdisciplinary program administered by the College of Engineering and offered jointly with the Department of Physics. The program allows for a broad range of research topics in both engineering and physics, but also has two special emphasis areas: (1) Nuclear Science and Engineering; and (2) Subsurface Science, each of which draws on a long-established expertise at Idaho State University in both teaching and research in these areas. Because of the unique interdisciplinary nature of the Ph.D. program in the emphasis area of Subsurface Science, the graduate faculty in the Departments of Geosciences and Mathematics may serve as committee members and/or major advisors for students in this emphasis area.

Research areas are Engineering (Civil Engineering, Electrical Engineering, Environmental Engineering, Measurement and Control Engineering, Mechanical Engineering, and Nuclear Engineering), Physics (Radiation Science, Accelerator Applications, Applied Nuclear Physics, and Health Physics), Geosciences, (Geology, Geophysics, Geochemistry, Environmental Geosciences), and Mathematics (Applied Mathematics and Computational Mathematics). To attain a degree in this program, a student must demonstrate scholarly achievement and an ability for independent investigation. The program will normally require three years of full-time study beyond the master’s degree, including research and preparation of the dissertation.

Goals

• Prepare graduates to conduct and disseminate independent scholarly research.

• Prepare graduates for careers in academia or industry.

Objectives:

• Increase the knowledge of graduates in their specialized field: Engineering, Physics, Nuclear Science and Engineering, or Subsurface Science.

• Enhance the ability of graduates to contribute to their chosen field.

• Enhance effective written and oral communication skills of graduates.

Admission Requirements

All applicants must meet Idaho State University Graduate School admission requirements for doctoral programs. Additionally, applicants must have attained a master’s degree in engineering, physics, geosciences, mathematics, or a closely related field. Applicants must submit a one-page (only) statement of research interests, a one-page (only) statement of career interests, a resume, and at least 3 letters of reference along with their applications. In some special cases, a student with exceptional undergraduate academic record and aptitude for research but without an M.S. degree may be directly admitted to the Ph.D. program with the approval of the Ph.D. program committee.

General Requirements

The Ph.D. degree requires completion of at least 84 credits consisting of 30 credits for the M.S. degree, 18 credits of additional course work, 4 credits of graduate seminar and 32 credits of dissertation research. Six credits of core courses are required for each emphasis area. The 30 credits for the M.S. degree are the maximum allowed. At least 9 of the 18 credits of course work must be in collateral areas as designated by the student’s advisory committee. Additional dissertation research credits may be required by the student’s dissertation committee.

Program of Study

An advisory committee consisting of Idaho State University graduate faculty from the four academic units will be established for each student upon entry into the program. The committee will guide the student in establishing his or her program of course work and laboratory study based upon the student’s background and research interest. The advisory committee has the responsibility of ensuring that the student has adequate knowledge to support research in his or her chosen area of interest.

At the end of the first year, the student will take a written, comprehensive qualifying examination covering the relevant information within the scope of the research area. A student taking the comprehensive qualifying exam needs to be prepared to take an oral examination conducted by the student’s Advisory Committee. The oral exam needs to focus primarily on material in the written exam that was not adequately answered. However, the Advisory Committee, at its discretion, may excuse a student from taking the oral examination if the student excels in the written examination. The student will be allowed two attempts to pass the oral examination, and the second attempt must be within one-half year after the first attempt. The student will be admitted to candidacy upon passing the comprehensive qualifying examination.

A dissertation committee, chaired by the candidate’s major professor, will be appointed. Within six months of passing the comprehensive qualifying examination, the candidate, with guidance from the major professor, will satisfactorily complete an oral presentation and defense of a proposal for dissertation research to the committee.

The research and dissertation preparation must be conducted under the close supervision of the committee and must include at least one full year of work performed under Idaho State University graduate faculty. The candidate can submit the final dissertation anytime after six months from the date of acceptance of the research proposal.

Dissertation approval requires a public presentation of the dissertation and a satisfactory oral defense to the Dissertation Committee. Doctoral oral examinations are open to all
regular members of the faculty as observers. Further, oral presentations are open to the public until questioning by the Dissertation Committee begins.

Graduate Programs in Engineering

The graduate program in the College of Engineering offers the student a choice of five majors for specialization at the master’s level together with a breadth of courses to fit individual educational goals. The majors are:

1. Civil Engineering
2. Environmental Engineering
3. Measurement and Control Engineering
4. Mechanical Engineering
5. Nuclear Science and Engineering

Goals

- Prepare graduates to have an advanced understanding and the ability to apply problem-solving skills in their chosen field of study.
- Prepare graduates to undertake doctoral study and/or to take challenging careers in teaching, research, and industry, for continued personal growth and contribution to the global competitiveness of the United States.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School.

General Requirements

With the assistance of the graduate faculty of the College of Engineering, the student shall select an initial advisor during the first semester of residence to help in planning a program of studies and research. The student must also complete a Plan of Study and form a complete advisory committee by the time six credits of course work have been completed.

Depending on the major and thesis or non-thesis option, 30 to 33 credit hours are required to complete M.S. degree. Approximately half of the credits are engineering and technical electives, subject to the approval of the student’s advisory committee. The thesis project, required in each major, should consist of study and research that complements the course work selected. Depending on the major, each student may also be required to complete two semesters of seminar, an important component in developing research and communication skills.

Master of Science in Civil Engineering

The M.S. program in Civil Engineering is designed to provide advanced study, both theoretically and experimentally, in structures, mechanics, finite element methods, water resources, and geotechnics. This program prepares the student for advanced placement in the civil engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Civil Engineering. The program is offered both at the Pocatello and the Idaho Falls campuses, primarily through the use of telecommunications/distance learning, which includes partial in-class instruction.

Goals

- Enhance the knowledge of graduates in the advanced concepts in Civil Engineering fields such as structures, mechanics, finite element methods, geotechnics, and water resources.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic designs in fields related to civil engineering and to solve identified problems, and design strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to communicate these concepts effectively both in oral and written formats.

Thesis, Non-Thesis options

a. Thesis option (30 credits): 15 credits from the approved list of courses, 9 credits of electives from the approved list of electives, and 6 credits of thesis.

b. Non-thesis option (33 credits): 21 credits from the approved list of courses, 9 credits of electives from the approved list of electives, and 3 credits of Special Project in the related field and a written report. After completion of the course work and special project, students are required to take an oral exam on their special project, and other courses from the student’s approved M.S. program.

Note: For lists of approved courses and elective courses, student should see an advisor. The approved and elective courses may be changed with the approval of the advisor.

Master of Science in Environmental Engineering

This program is designed to provide the student with advanced technical training in environmental engineering, with an emphasis on hazardous waste treatment and control. The program fills a need in industry and government for professionals with a broad understanding of the technical aspects of environmental issues. Students enrolled in the program are generally expected to have a sufficient background in mathematics and chemistry (a minimum of one year of general chemistry). Students with an insufficient background in engineering and math are required to make up the deficiencies according to the advice of their advisory committee (usually includes ENGR 3307, CE 3332, CE 3341).

Goals

- Enhance the knowledge of graduates in the advanced concepts of environmental control and remediation, involving a significant fraction of the following: chemistry, water & waste water quality, air quality, radioactive material handling and disposal, environmental laws and regulations, global environmental issues, and cost benefit analyses.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic environmental engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to communicate these concepts effectively both in oral and written formats.

Thesis, Non-Thesis options

a. Thesis option (30 credits): 15 credits from the approved list of courses, 9 credits of electives from the approved list of electives, and 6 credits of thesis.
b. Non-thesis option (33 credits): 21 credits from the approved list of courses, 9 credits of electives from the approved list of electives, and 3 credits of Special Project in the related field and a written report. After completion of the course work and special project, students are required to take an oral exam on their special project, and other courses from the student’s approved M.S. program.

Note: For lists of approved courses and elective courses, student should see an advisor. The approved and elective courses may be changed with the approval of the advisor.

Master of Science in Environmental Science and Management

The Environmental Science and Management (ENSM) Program is an interdisciplinary program designed to allow students to combine courses in environmental engineering with related courses in an interdisciplinary area of emphasis. Interdisciplinary course work may come from a combination of courses from the following emphasis areas: Geosciences, Biological Sciences, Chemistry, Mathematics, Physics, Pharmaceutical Sciences, Political Science, and Business. Students may also choose Environmental Engineering as the academic emphasis; thus maintaining the entire program of study within the Department of Civil and Environmental Engineering. The ENSM program is jointly sponsored by the University of Idaho, and some of the courses are cross-listed. Students must complete at least ten credits in an interdisciplinary discipline (academic emphasis), and satisfy all departmental and Graduate School requirements.

Within the framework of the basic requirements, an advisory committee is chosen to work with the student to create an individualized program of study. The advisory committee consists of two faculty advisors: one from the Department of Civil and Environmental Engineering (CEE), and one from the student’s other academic discipline (emphasis). The student's major advisor provides direction to the student regarding all relevant aspects of the program. All courses selected for fulfillment of the program of study must be approved by the advisory committee. The initial program of study must be submitted to the ENSM program director no later than the second semester of enrollment. Changes in the initial program of study may only be made with the approval of the student’s advisory committee. The final program of study is submitted to the Graduate School for graduation clearance in accordance with Graduate School policy.

Required Courses

The following courses are required for every student receiving the M.S. degree in Environmental Science and Management.

Course  | Title & Code                      | Credits
---     | ---------------------------------|-------
ENVE 5510 | Introduction to Environmental Engineering | 3 cr
ENGR 6655* | Environmental Topics Seminar | 1 cr and
ENGR 6650** | Thesis | 1-6 cr or
ENGR 6660** | Special Project | 3 cr

*Course must be completed two times in order to satisfy requirement. A student may choose a seminar other than ENGR 6655 offered in his/her interdisciplinary discipline with approval of the advisory committee.

** Students will register for thesis or non-thesis “Special Project” credits in the home department of the thesis/non-thesis project advisor. Some departments’ “Special Project” courses may have a different title and/or course number.

In addition, the following courses are required for students choosing chemistry, environmental engineering or mathematics as the second academic emphasis. Course work in other emphasis areas will be selected from elective course work with the approval of the advisory committee.

Chemistry Emphasis

Course  | Title & Code                      | Credits
---     | ---------------------------------|-------
CHEM 5535 | Environmental Chemistry | 2 cr
CHEM 5537 | Environmental Chemistry Laboratory | 2 cr
Environmental Engineering Emphasis
ENVE 5508 | Water and Wastewater Quality | 3 cr
ENVE 5509 | Water and Wastewater Laboratory | 1 cr
ENVE 5504 | Environmental Risk Assessment | 3 cr

Mathematics Emphasis

Course  | Title & Code                      | Credits
---     | ---------------------------------|-------
MATH 5521 | Advanced Engineering Mathematics I | 3 cr
MATH 5522 | Advanced Engineering Mathematics II | 3 cr
MATH 5565 | Partial Differential Equations | 3 cr
**Master of Science in Measurement and Control Engineering**

The M.S. program in Measurement and Control Engineering is designed to provide advanced study (analytically, computationally, and experimentally) in measurements, modeling, simulation, adaptive, intelligent, nonlinear, optimal, robotics, and robust control. This program prepares the student for advanced placement in the measurement and control engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Electrical or Mechanical Engineering. The program is offered both at the Pocatello and the Idaho Falls campuses, primarily through the use of telecommunication and distance learning, which includes partial in-class instruction.

**Goals**

- Enhance the knowledge of graduates in advanced concepts of measurement, control, signal processing, engineering mathematics, computation and other related areas.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic measurement and control engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to communicate these concepts effectively both in oral and written formats.

**Required Courses**

- ENGR 5521 Advanced Engineering Mathematics I 3 cr
- M E 6607 Advanced Thermodynamics 3 cr
- M E 6640 Advanced Vibrations 3 cr
- Approved Engineering Electives 6 cr
- Approved Technical Electives 9 cr
- ENGR 6650 Thesis 6 cr

**Elective Courses**

Students will select a core of courses from the following list. (Students may select one or more courses not on this list, with the approval of the advisory committee, for the purpose of focusing students in a particular direction not covered by this abbreviated list.)

**Chemistry Electives**

- CHEM 5507 Inorganic Chemistry II 2 cr
- CHEM 6601 Seminar 1 cr
- CHEM 6609 Advanced Inorganic Chemistry 3 cr
- CHEM 6630 Advanced Analytical Chemistry 3 cr
- CHEM 6621 Organic Reactions 3 cr
- CHEM 6655 Advanced Physical Chemistry 3 cr
- CHEM 6671 Advanced Organic Chemistry 3 cr

**Environmental Engineering Electives**

- ENVE 5508 Water and Wastewater Quality 3 cr
- ENVE 5509 Water and Wastewater Quality Laboratory 1 cr
- ENVE 5530 Air Pollution and Solid Waste 3 cr
- ENVE 6610 Introduction to Radioactive Waste Management 3 cr
- ENVE 6611 Treatment Systems for Environmental Remediation 3 cr
- ENVE 6615 Water Quality Modeling and Control 3 cr
- ENVE 6617 Environmental Systems Engineering and Design 3 cr
- ENVE 6629 Physical and Chemical Treatment of Water and Wastewater 3 cr
- ENVE 6630 Air Pollution and Control 3 cr
- ENVG 6606 Environmental Law and Regulation 3 cr
- CE 5509 Open Channel Flow 3 cr
- CE 5535 Hydraulics Design 3 cr
- CE 5554 Basic Engineering Geol 3 cr
- CE 5555 Geologic Data Methods 3 cr
- NSEN 6618 Treatment of Low Level Radioactive Waste 3 cr
- NSEN 6619 Treatment of High Level Radioactive Waste 3 cr

**Geosciences Electives**

- GEOL 5504 Advanced Geographic Information Systems 3 cr
- GEOL 5506 Environmental Geology 3 cr
- GEOL 5509 Remote Sensing 3 cr
- GEOL 5515 Quaternary Global Change 3 cr
- GEOL 5516 Global Environmental Change 3 cr
- GEOL 5520 Principles of Geochemistry 3 cr
- GEOL 5530 Principles of Hydrogeology 3 cr
- GEOL 5554 Basic Engineering Geology 3 cr
- GEOL 5583 Earthquake Engineering 3 cr
- GEOL 6602 Advanced Geomorphology 3 cr
- GEOL 6606 Geostatistical Spatial Data Analysis and Modeling 4 cr
- GEOL 6617 Environmental Geochemistry 3 cr
- GEOL 6625 Quantitative Geochemistry Laboratory 3 cr
- GEOL 6630 Advanced Hydrogeology 3 cr
Master of Science in Nuclear Science and Engineering

The master’s degree program in Nuclear Science and Engineering prepares the student for advanced placement in the nuclear industry in commercial, research, or development areas. It provides in-depth studies and advanced design concepts in several areas of modern nuclear science and engineering. It is also an excellent program of study for entering the Ph.D. program in Nuclear Science and Engineering.

Goals

• Enhance the knowledge of graduates in the physics and engineering of nuclear reactors, the nuclear fuel cycle, and other aspects of the study of nuclear engineering. At Idaho State University, while our emphasis is on advanced reactors and the science and technology of nuclear fuel recycling, we allow the flexibility to build programs on other aspects, which can include systems studies and simulations including policy aspects, radiation shielding and detection, medical applications of radiation, and the economics and safety of all of these applications.

• Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic nuclear engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.

• Enhance the ability of graduates to communicate these concepts effectively both in oral and written formats.

Certificate Program in Applied Nuclear Energy

This program provides BS/BA graduates who do not have recent experience or education in the nuclear energy field with historical insights, information on basic concepts, regulatory requirements, and economic and environmental considerations. This program is not intended to lead to M.S. and Ph.D. programs in the areas of Nuclear Science and Engineering. The Certificate is granted upon completion of fourteen (14) credit hours of class work, consisting of nine credit hours of required courses, a three-credit elective course and participation in two semesters of a one-credit graduate seminar. Up to six credits of appropriate graduate course work taken at another university may be applied toward the Certificate subject to approval by the student’s Certificate Committee. With appropriate pre-planning, some of these credits could be applied to a master’s degree.

Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. An earned grade point average of at least 3.0 or higher is required for all upper division credits taken at the undergraduate level, regardless of the institution at which the credits were earned. GRE scores are not required.

Thesis Option in Engineering Master’s Programs

All students entering with less than two years of industrial experience as determined by the College are required to complete six credits of thesis in their related field. Students who are planning to continue their education beyond the master level are strongly encouraged to choose this option. After the completion of the course work and the thesis, an oral defense of the thesis will be required. No more than six credits of Thesis will be allowed on the student’s final Program of Study.

Non-Thesis Option in Engineering Master’s Programs

All students entering with a minimum of two years industrial experience in the related area as determined by the College are eligible to choose this option. In the non-thesis program students will be required to take an additional 3-credit course, to complete a 3-credit Special Project (ENGR 6660) in the related field and submit a written report. After completion of the course work and the Special Project, students are required to take a two-hour oral exam on their Special Project and other courses in the MS program. No more than three credits of special Project will be allowed on the student’s final Program of Study.

Engineering Graduate Courses

ENGR 5501 Methods of Engineering 3 credits. Introduction to fundamental concepts of engineering related to hazardous waste management. Not counted toward graduation. PREREQ: PHYS 111.

ENGR 5510 Introduction to Environmental Engineering 3 credits. Introduction to physical, chemical, and biological principles of solid and hazardous waste management, water and wastewater treatment, air pollution control, and national environmental regulation. PREREQ: CHEM 1112 AND ENGR 3309, OR PERMISSION OF INSTRUCTOR.

ENGR 5515 Model Theory 3 credits. Theory of design and testing of scaled system models. Dimensional analysis with application to physical models. True and distorted models, linear and non-linear models, and analogies. Laboratory work required. PREREQ: ME 3341, AND ENGR 3350.

ENGR 5522 Advanced Engineering Mathematics II 3 credits. Cross-listed as MATH 5522. Analysis of complex linear and nonlinear engineering systems using advanced techniques, including probability and statistics, advanced numerical methods and variational calculus. PREREQ: ENGR 5521 OR MATH 5521.

ENGR 5560 Engineering Cost Estimating 3 credits. Introduction to design/construction processes, planning, contracts, procurement, plans/specifications, productivity analyses, safety, cost estimating, scheduling and environmental considerations. Use of data from actual construction projects. PREREQ: ENGR 3360 OR PERMISSION OF INSTRUCTOR.

ENGR 5570 Survey of Hazardous Waste Management Problems 3 credits. Environmental, technical, political and economic aspects of hazardous waste management. Credit not given if UI ChE 5570 or ISU ENVE 6607 taken. PREREQ: ENGR 5501 OR EQUIVALENT.

ENGR 5572 Waste Treatment Technologies 3 credits. Procedures for characterization of hazardous waste sites, identification and application of physical, chemical, biological and thermal treatment. PREREQ: PERMISSION OF INSTRUCTOR.

ENGR 5578 Probabilistic Risk Assessment 3 credits. Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance emphasized. Cross-listed as NE 5578. PREREQ: ENGR 3364, MATH 3360 AND SENIOR STANDING IN ENGINEERING.

ENGR 5583 Engineering Law and Ethics 3 credits. Contracts, liability, registration laws, codes of ethics and professionalism applied to engineering. Includes seminar with guest speakers and student presentations. PREREQ: SENIOR STANDING IN ENGINEERING.

ENGR 5591 Seminar in Engineering I credit. A series of lectures on current topics in the literature by participants or guest lecturers chosen from industry. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

ENGR 5593 Human Factors in Engineering 3 credits. Overview of the discipline of human factors engineering, including design of information displays, controls, workspace, and human performance. Relationship of engineering to corporate issues such as R&D, maintenance, training, operations, safety.

ENGR 6606 Environmental Law and Regulations 3 credits. Federal, state, local environmental regulations addressing environmental impact assessment; water and air pollution control, hazardous waste, resource recovery, reuses, toxic substances, occupational safety and health, radiation, siting, auditing, liability. Cross-listed with POLS 6606. PREREQ: PERMISSION OF INSTRUCTOR.

ENGR 6607 Hazardous Waste Management 3 credits. Management of hazardous and solid wastes, emphasis on CERCLA (Superfund) process for cleaning of uncontrolled hazardous waste sites and RECPRA process for industrial treatment, storage, disposal facilities. PREREQ: MATH 5508.

ENGR 6609 Advanced Transport Phenomena 3 credits. Advanced theory and applications of heat, mass, and momentum transport; gasses for correlation in engineering design of a variety of process equipment. PREREQ: ME/NE 5576, ME 3341, MATH 5521.

ENGR 6650 Thesis 1-9 credits. Research required. May be repeated. Graded S/U.

ENGR 6651 Seminar I credit. Current topics in engineering. Invited speakers will be used when possible. Students presentations required. May be taken a maximum of four times. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

ENGR 6652 Special Problems 1-3 credits. Special experimental, computational, or theoretical investigation leading to development of proficiency in some area of engineering. Formal report required. PREREQ: PRIOR PROJECT APPROVAL REQUIRED BY AN ENGINEERING FACULTY. May be repeated. Graded S/U.

ENGR 6655 Environmental Topics Seminar I credit. Environmental engineering and science topics related to hazardous waste characterization, cleanup, regulations. Includes case histories and presentations by graduate students and visiting speakers. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

ENGR 6660 Special Project 1-9 credits. A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. May be repeated. Graded S/U.

Civil Engineering Graduate Courses

CE 5531 Advanced Mechanics of Solids 3 credits. An introduction to elasticity, plasticity, and energy foundations, stability, plates. PREREQ: ENGR 3350 AND MATH 3360.

CE 5535 Hydraulic Design 3 credits. Hydraulic design of water control and transport structures, pipelines, and distribution systems. Computer methods utilized. PREREQ: ME 3341.

CE 5536 Transportation Engineering 3 credits. Fundamentals of earthwork, route location, drainage, and pavement materials with application to geometric and pavement design of highways, streets and rural roads. PREREQ: ENGR 2224, CE 3301.

CE 5537 Geotechnical Engineering Laboratory I 1 credits. Field and laboratory work on site investigation, soil sampling classification and testing. Evaluation of soil properties. Design of experiment. PREREQ: CE 3332.

CE 5554 Basic Engineering Geology 3 credits. Geology applied to civil engineering projects; rock engineering classification and geological parameters such as joint set orientation; ground behavior and underground construction. Preparation of baseline geological reports. Cross-listed as GEOL 5554. COREQ: GEOL 3314 OR CE 3332.

CE 5562 Design of Steel Structures 3 credits. Design of steel members and connections with emphasis on the AISC specifications. PREREQ: CE 3362.

CE 5564 Design of Concrete Structures 3 credits. Design of reinforced concrete beams, columns, and slabs. Introduction to pre-stressing. PREREQ: CE 3362.

CE 5565 Prestressed Concrete Structures 3 credits. Basic concepts in prestressed concrete design, full versus partial prestressing, flexural design, ultimate load design, beams with constant and variable tendon eccentricity, design of reinforcement for shear and torsion. PREREQ: CE 5564.

CE 5566 Design of Wood Structures 3 credits. Design of solid and laminated wood members and connections. Includes the design of wooden diaphragms for resisting lateral loads. PREREQ: CE 3362.

CE 5567 Structural Engineering Laboratory I credit. Measurement of stresses and load distribu-
tion through concrete, steel and wood components and structures. Design of experiment. PREREQ: CE 3362.

CE 5568 Behavior of Composite Materials 3 credits. Macro and micromechanical behavior of laminae and laminates; bending, buckling and vibration of laminated beams and plates. Cross-listed as ME 5568. PREREQ: ENGR 3350 AND MATH 2240.

CE 5575 Essentials of Geomechanics 3 credits. Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as GEOL 5575. PREREQ: GEOL 5554 OR CE 5554.

CE 5576 Engineering Geology Project 1 credits. Team projects studying actual problems in engineering geology. Cross-listed as GEOL 5576. PREREQ: GEOL 5554 OR CE 5554.

CE 5580 Earthquake Engineering 3 credits. Topics include: mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. PREREQ: GEOL 3313 or CE 3332, OR PERMISSION OF INSTRUCTOR.

CE 6650 Thesis 1 - 6 credits. Thesis research must be approved by the student’s advisory committee. Total of six credits are required to satisfy the research requirements for the degree. May be repeated. Graded S/U.

CE 6652 Advanced Topics 3 credits. Advanced topics in Civil Engineering and related fields, depending upon the interest of students and faculty. May be repeated for credit when topics vary. PREREQ: PERMISSION OF INSTRUCTOR.

CE 6660 Special Project 1-3 credits. A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Total of three credits may be used to satisfy the degree requirement. May be repeated. Graded S/U.

CE 6664 Dynamics of Structures 3 credits. Evaluation of response of structures subjected to dynamic forces including earthquake-induced forces and deformations. Applications include single- and multi-degree of freedom systems, and continuous systems. PREREQ: CE/ME 5540 OR PERMISSION OF INSTRUCTOR.

CE 6665 Finite Element Methods 3 credits. Introduction to finite element methods applied to linear one- and two-dimensional problems. Application of the concept to specific problems in various fields of engineering and applied sciences. Cross-listed as ME 6665. PREREQ: ENGR 2264, ENGR 3350, AND MATH 3360.

CE 6667 Structures and Mechanics Laboratory 3 credits. Strain gauge installation and circuitry. Strain measurements and analysis of variety of structural and mechanical systems. Dynamic measurements of various structures. PREREQ: CE 5531 OR PERMISSION OF INSTRUCTOR.

Computer Science Graduate Courses

CS 5520 Computer Security and Cryptography 3 credits. Public key and private key cryptography, key distribution, cryptographic protocols, requisite mathematics and selected topics in the development of security and cryptography. PREREQ: CS 3385.

CS 5542 GUI Development 3 credits. Planning and construction of Graphical User Interfaces and essential software engineering concepts. Includes the use of a modern toolkit language. COREQ: CS 3385.

CS 5544 Image and Audio Processing 3 credits. Image/audio acquisition, quantization, spatial and spectral filters, sharpening, smoothing, restoration, compression, segmentation, Fourier and Wavelet transforms. PREREQ: CS 2287, MATH 3352, MATH 3630.

CS 5545 Data Compression 3 credits. A survey of modern techniques of data compression, both lossy and loss-less, and encryption. COREQ: CS 3386.

CS 5551 Data Base Theory and Implementation 3 credits. Data models, relational algebra, SQL, data storage, index structures, query compilation and execution, concurrency control. PREREQ: CS 2263, CS 3385. COREQ: CS 3386.

CS 5560 Comparative Programming Languages 3 credits. Design of historical and contemporary programming languages, concentrating on promoting understanding of structural organization, data structures and typing, name structures, and control structures. PREREQ: CS 3385. COREQ: CS 3386.

CS 5570 Parallel Processing 3 credits. Topics in high performance computing: parallel architectures, SIMD, MIMD, SMP, NUMA models, message passing, cache coherence issues, MPI, PVM, parallel programming languages, the Beowulf cluster approach, applications. COREQ: CS 3386.

CS 5577 Operating Systems 3 credits. Processes description and control, threads, concurrency, memory management scheduling, I/O and files, distributed systems, security, networking. PREREQ: CS 2263.

CS 5580 Theory of Computation 3 credits. Finite representations of languages, deterministic and nondeterministic finite automata, context free languages, regular languages, parsing, Turing Machines, Church’s Thesis, uncomputability, computational complexity classes. COREQ: CS 3386.

CS 5581 Compilers and Lexical Analysis 3 credits. Covers lexical analysis, syntax analysis, top-down, bottom-up, and LR parsing, syntax directed translation, type checking, code generation and optimization, and writing a compiler. COREQ: CS 3386.

CS 5587 Topics in Computer Science 3 credits. Selected topics in Computer Science will be chosen depending on the instructor’s interests. PREREQ: CS 3386.

CS 5591 Ethical and Societal Issues in Computer Science 3 credits. Investigates various ethical issues arising in the profession, ranging from research to commercial settings. The societal impacts of computing and its prevalence in all aspects of the modern world are investigated. Seminar format: students will read papers, make oral presentations, conduct class discussion, and submit written reports.

Electrical Engineering Graduate Courses

EE 5513 Techniques of Computer-Aided Circuit Analysis and Design 3 credits. Automatic formulation of equations and fundamental programming techniques pertinent to computer-aided circuit analysis, design, modeling. May include sensitivity calculations, system analogies, optimization. PREREQ: EE 3340, 3342.

EE 5516 Applied Engineering Methods 3 credits. Applied discrete and continuous probability, random variables, probability distributions, sampling, data description, parameter estimation, hypothesis testing, inference, correlation and linear and multiple regression.

EE 5518 Communication Systems 3 credits. Basic principles of analysis and design of modern analog and digital communication systems, including transmission and reception. PREREQ: EE 3329 AND EE 3345.

EE 5525 Mechatronics 3 credits. Basic kinematics, sensors, actuators, measurements, electronics, microprocessors, programmable logic controllers, feedback control, robotics and intelligent manufacturing. Cross-listed as ME 5525. PREREQ: ENGR 3340, ENGR 3342, MATH 3360.

EE 5527 Embedded Systems Engineering 2 credits. Integration of algorithms, software and hardware to design real-time and embedded systems for signal processing and control. PREREQ: CS 5575. COREQ: EE 5527L.

EE 5527L. Embedded Systems Engineering Laboratory 1 credit. Lab activities include the complete process of design and implementation of embedded signal processing and control systems.
EE 5529 Advanced Electronics 2 credits. Introduction to operational amplifiers and their applications, current mirrors, active loads, differential amplifiers, feedback and stability, filters, oscillators, Schmitt triggers, power amplifiers and voltage regulators. PREREQ: EE 3329, 3345. COREQ: EE 5529L.

EE 5532L Advanced Electronics Laboratory 1 credit. Laboratory course emphasizing transistor biasing, amplifiers and other basic analog circuit designs. COREQ: EE 5529.

EE 5572 Electrical Machines and Power 3 credits. Theory and application of electrical machinery and transformers. Power and energy relationships in power systems, transmission lines, network solutions and symmetrical components. Includes 1-credit laboratory component. PREREQ: ENGR 3340, ENGR 3332, MATH 3360.

EE 5572L Electrical Machines and Power Laboratory 1 credit. Laboratory course emphasizing an experimental study of the fundamental physical phenomena and characteristics of transformers, induction motors, synchronous and direct current machines. COREQ: EE 5572.

EE 5584 Signal Processing Laboratory 1 credit. Design finite and infinite response digital filters in digital signal processing system applications. COREQ: EE 5575.

EE 5592 Digital Control Systems 3 credits. Design of advanced control algorithms; topics include: observers and state estimation, linear quadratic regulator, frequency-domain techniques for robust control, and an introduction to multivariable and nonlinear control. PREREQ: ENGR 5573.

EE 5585 Computer Aided Design 1 credit. Computer-aided design techniques for electronic circuits. Includes the application of computer-aided design software tools. PREREQ: EE 3345.

EE 5591 Introduction to VLSI Design 3 credits. Photolithography, CMOS fabrication, MOSFET operation, CMOS passive elements, design rules and layout, CAD tools for IC design, inverters, static logic and transmission gates, dynamic logic. PREREQ: EE 3345.

EE 5592 Digital Control Systems 3 credits. Design of advanced control algorithms. Includes observers and state estimation, linear quadratic regulator, frequency-domain techniques for robust control, and an introduction to multivariable and nonlinear control. PREREQ: ENGR 5573.

EE 7725 Advanced Topics in Control and Signal Processing 3 credits. Corequisite: EE 5514 or ME 5505. Advanced topics in control and signal processing. May be repeated. Graded S/U.

EE 7727 Advanced Topics in Power Electronics 3 credits. Corequisite: EE 5514 or ME 5505. Advanced topics in power electronics. May be repeated. Graded S/U.

EE 8850 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8851 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8852 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8853 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8854 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8855 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8856 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8857 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8858 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8859 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8860 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8861 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8862 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8863 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8864 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8873 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

EE 8874 Doctoral Research 1-6 credits. May be repeated. Graded S/U.

**Measurement and Control Engineering Graduate Courses**

**MCE 6640 System Modeling, Identification and Simulation 3 credits.** Model development, off-line and on-line identification methods for engineering systems, diagnostic tests and model validation and analog and digital simulation methods. PREREQ: EE 5573.

**MCE 6642 Advanced Control Systems 3 credits.** State space analysis and design to include stability, controllability, observability, realizations, state feedback and estimation. PREREQ: EE/M E 5573 OR EQUIVALENT.

**MCE 6643 Advanced Measurement Methods 3 credits.** Instrumentation systems used in detection and signal conditioning of thermal-hydraulic process variables, radiation including lasers, and electrical and mechanical properties of materials. PREREQ: ME 5505 OR EQUIVALENT.

**MCE 6644 Measurements and Controls Laboratory 3 credits.** Work with measuring systems for a variety of process variables. Investigation of characteristics of various process control components and systems. Transient and stationary conditions will be included. PREREQ: MCE 6642 AND MCE 6643 OR EQUIVALENT.

**MCE 6645 Advanced Control Theory and Applications 3 credits.** Topics selected from advanced control theory and applications, depending upon the interest of students and faculty. May be repeated for credit when topics vary. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6646 Intelligent Control Systems 4 credits.** Analysis and design of systems using intelligent techniques such as neural networks, fuzzy logic, genetic algorithms, and artificial intelligence. PREREQ: PERMISSION OF INSTRUCTOR.

**MCE 6647 Nonlinear Control Systems 3 credits.** Phase plane analysis. Lyapunov stability. Describing functions. Singular perturbation and feedback linearization. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6649 Robotics and Automation 3 credits.** Robotic manipulator kinematics, dynamics, trajectory planning, sensors, programming and control. The application concepts of robotics in industry will be briefly introduced. PREREQ: MCE 6642.

**MCE 6656 Robust Control Systems 3 credits.** Analyze and design basic robust controllers using methods for robustness investigation such as v-analysis and H control algorithms. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**Mechanical Engineering Graduate Courses**

**ME 5505 Measurement Systems Design 3 credits.** Introduction to instrumentation systems analysis and design, including: statistical analysis, system modeling, actuators, transducers, sensor systems, signal transmission, data acquisition, and signal conditioning. PREREQ: ENGR 3340, ENGR 3342 AND MATH 3360.

**ME 5506 Measurement Systems Laboratory 1 credit.** Principles of measurement, measurement standards and accuracy, detectors and transducers, digital data acquisition principles, signal conditioning systems and readout devices, statistical concepts in measurement, experimental investigation of engineering systems. COREQ: ME 5505.

**ME 5516 Thermal Power Cycles 3 credits.** Application of thermodynamics to design of systems for conversion of thermal energy to power by various power cycles. PREREQ: ENGR 2264 AND ME 3341.

**ME 5519 Energy Systems and Resources 3 credits.** Fundamentals of conventional (fossil, nuclear fission), and alternative (solar, wind, geothermal) energy systems. Electrical energy supply, building HVAC, resources utilized by transportation sector.

**ME 5525 Mechatronics 3 credits.** Basic kinematics, sensors, actuators, measurements, electronics, microprocessors, programmable logic controllers, feedback control, robotics and intelligent manufacturing. Cross-listed as EE 5525. PREREQ: ENGR 3340, ENGR 3342, MATH 3360.

**ME 5543 Thermal Fluids Laboratory 1 credit.** Measurement of thermal and fluid properties, experiments on fluid flow and heat transfer systems. Cross-listed as NE 5543. PREREQ: CE/ME/NE 3341 AND ME/NE 5576.

**ME 5551 Compressible Fluid Flow 3 credits.** Fundamentals of compressible flow and gas dynamics, development of basic principles, practical applications. Techniques developed for isentropic friction, heat addition, isothermal flow, shock wave analysis, propagation, expansion waves, reflection waves. PREREQ: ENGR 3309 AND ENGR 3341.

**ME 5568 Behavior of Composite Materials 3 credits.** Macro and micromechanical behavior of laminae and laminates; bending, buckling and vibration of laminated beams and plates. Cross-listed as CE 5568. PREREQ: ENGR 3350 AND MATH 2230.

**ME 6607 Advanced Thermodynamics 3 credits.** Thermodynamic property relationships, gas mixtures, thermodynamic optimization, irreversible thermodynamics, constructal theory, applications towards solar power, power generation, and refrigeration systems. PREREQ: ME 5516, MATH 3360.

**ME 6643 Thermal Fluids and Vibrations Lab 3 credits.** Advanced thermal/fluid and vibrational system analysis measurements of mechanical systems. PREREQ: ME 5506, ME 5543.

**ME 6665 Finite Element Methods 3 credits.** Introduction to finite element methods applied to linear one- and two-dimensional problems. Application of the concept to specific problems in various fields of engineering and applied sciences. Cross-listed as CE 6665. PREREQ: ENGR 2264, ENGR 3350, AND MATH 3360.

Nuclear Engineering
Graduate Courses
NE 5519 Energy Systems and Resources 3 credits. Fundamentals of conventional (fossil, nuclear fission), and alternative (solar, wind, geothermal) energy systems. Electrical energy supply, building HVAC, resources utilized by transportation sector.

NE 5521 Applied Methods in Nuclear Engineering 3 credits. First and second order ordinary differential equations (ODEs), generalization to systems of ODEs, Laplace transforms, series solutions to second order ODEs, special functions and Sturm-Liouville systems; partial differential equations by separation of variables. Examples will emphasize practical problems of interest to nuclear engineers. PHYS 6602 may be substituted for this course. PREREQ: MATH 3360.

NE 5543 Thermal Fluids Laboratory 1 credit. Measurement of thermal and fluid properties, experiments on fluid flow and heat transfer systems. Cross-listed as ME 5543. PREREQ: ME 3341 AND ME/NE 5576.

NE 5545 Reactor Physics 3 credits. Neutron balance equations in reacting systems, diffusion and diffusion-perturbation theory, introductory reactor kinetics, the multi-group energy approach, neutron slowing down and thermalization, introductory concepts in reactor systems. PREREQ: NE 4402 or NSEN 6685, NE 5521 OR EQUIVALENT.

NE 5546 Nuclear Fuel Cycle Systems Analysis 3 credits. Uranium mining, milling, conversion; enrichment technology including cascade analysis; fuel fabrication, criticality safety in the nuclear fuel cycle, introduction to ORIGEN and Monte-Carlo methods and codes, reactor fuel management, waste management (LLW, HLW, TRU waste). PREREQ: NE 4402 or NSEN 6685, NE 5521 OR EQUIVALENT.

N E 5548 Design, Control and Use of Radiation Systems 3 credits. Generation detection and measurement systems design for control and use of neutrons and gamma rays in industrial and medical applications. Radiation protection, regulations, environmental and economic considerations. COREQ: ENGR 5544.

NE 5558 Monte Carlo Methods and Applications 3 credits. Basics of the application of stochastic methods to calculate the transport of neutrons, photons, and other sub-atomic particles. Includes introduction to the MCNP code, and sample application problems in both nuclear reactor design and in applications such as radiation beams used for cancer therapy.

NE 5587 Medical Applications in Engineering and Physics 3 credits. Applications of engineering and physics, principles, particularly nuclear science, to medicine. Covers radioisotopes, x-ray imaging, magnetic resonance and ultrasound imaging, radiation protection, codes and standards. PREREQ: MATH 3360 AND PHYS 2212.

Nuclear Science and Engineering Graduate Courses
NSEN 6601 Nuclear Engineering Experiments 3 credits. Experimental verification of theoretical models will be stressed. Kinetic behavior, neutron spatial distribution, perturbation, and other characteristic equations will be investigated. PREREQ: NE 5545 OR EQUIVALENT.

NSEN 6603 Thermal Hydraulics 3 credits. Advanced studies of both fluid flow and heat transfer in nuclear reactor cores. Conservation equations, constitutive relations, formulation and solution approaches for complete equation set. PREREQ: CE/ME/NE 3341, ME 5576.

NSEN 6604 Dynamic Behavior of Nuclear Systems 3 credits. Kinetic behavior of nuclear reactors including feedback effects of power transients, fuel burn up, coolant perturbations, etc. Mathematical models developed to predict both short and long term behavior. PREREQ: NE 5545.

NSEN 6605 Nuclear Reactor Design 3 credits. Detailed treatment of current, advanced nuclear power reactor designs. Emphasis on the inherent and engineered safety features and on advantages and disadvantages of each design. PREREQ: NE 5545.

NSEN 6607 Two-Phase Flow 3 credits. Deterministic and Monte-Carlo computer codes. PREREQ: CE/ME/NE 3341, ME 5576.

NSEN 6608 Radiation Transport 3 credits. Advanced treatment of radiation transport and shielding concepts; interaction and attenuation of neutral particles, including photons. Use of deterministic and Monte-Carlo computer codes. PREREQ: NE 5521 OR EQUIVALENT.

NSEN 6609 Radiation Detection, Measurements, and Applications 3 credits. Advanced treatment of radiation detectors measurement techniques, data acquisition, and signal processing. Emphasis on applications in science, industry and medicine. PREREQ: NE 5545.

NSEN 6615 Introduction to Practical Nuclear Engineering 3 credits. Basic concepts of nuclear reactor physics. Present nuclear plant descriptions. Evaluation of fossil, nuclear plant environmental impacts, cycle and overall efficiencies and economics. PREREQ: PERMISSION OF INSTRUCTOR.

NSEN 6616 Special Applications of Nuclear Energy 3 credits. Isotopic power systems for remote applications, nuclear propulsion for space vehicles, process heat and space heat reactors, maritime nuclear power plants, medical and industrial applications of nuclear radiation. PREREQ: PERMISSION OF INSTRUCTOR.

NSEN 6617 Applications of Nuclear Energy 3 credits. Continued study of nuclear power plant design, operation, and safety analysis of present plants, proposed future concepts. Examination of biological effects of radiation and nuclear medicine, food irradiation and waste heat applications. PREREQ: NSEN 6615.

NSEN 6618 Radioactive Waste Management 3 credits. Overview of the issue of radioactive waste management; definition and classification of wastes according to source, activity and volume; treatment and disposal options for HLW, LLW, mill tailings, and TRUs; design and assessment of waste repositories and radionuclide migration. PREREQ: NE 4402, NE 5546.

NSEN 6620 Radiation Health Physics and Safety 3 credits. Advanced health physics methods applied to nuclear plants. Radiation safety regulations and ALARA concept. Application of shielding codes to achieve compliance. PREREQ: PHYS 5532 OR EQUIVALENT.

NSEN 6631-6632 Advanced Reactor Physics 3 credits. Study of advanced theories used in the calculation of nuclear reactor parameters including such topics as the Boltzman transport equation with energy and space dependence, multi-group, multi-region diffusion for reflected systems, perturbation theory, etc. Special emphasis will be given to the application of digital computers in nuclear reactor design problems. PREREQ: NSEN 6608.

NSEN 6636 Boiling and Condensation 3 credits. Study of the thermophysics of vaporization and condensation, including heat transfer equipment applications. Includes interfacial phenomena, phase stability, homogeneous and heterogeneous nucleation, pool boiling, and external condensation. PREREQ: NSEN 6625.

NSEN 6678 Probabilistic Risk Assessment 3 credits. Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance emphasized. PREREQ: NSEN 6605

NSEN 6684-6685 Nuclear Engineering Basics 3 credits. For BS physical science graduates with little or no nuclear background. Lecture, laboratory each semester. Nuclear science; reactor physics, kinetics and thermal hydraulics; nuclear fuel cycle. PREREQ: PERMISSION OF NE DEPARTMENT CHAIR

NSEN 6686 Modeling, Experimentation, and Validation 3 credits. 2 week summer course. Provides early career nuclear engineers with advanced studies in integrated modeling, experimentation, and validation. The course emphasis rotates yearly among thermal-hydraulics, reactor physics, fuels and materials, and simulations. PREREQ: PERMISSION OF NE DEPARTMENT CHAIR

Engineering and Applied Science Doctoral Graduate Courses

Kasiska College of Health Professions

Kasiska College of Health Professions
Mission Statement
The mission of the Kasiska College of Health Professions (KCHP) is multifaceted. The primary responsibility of the college is the enhancement of the quality of life of the residents of Idaho and the greater community through the education of students in the health professions. This is facilitated through excellence in research, community service, and scholarly activity in the health professions. This is facilitated through excellence in research, community service, and scholarly activity in the health professions. This is facilitated through excellence in research, community service, and scholarly activity in the health professions. This is facilitated through excellence in research, community service, and scholarly activity in the health professions. This is facilitated through excellence in research, community service, and scholarly activity in the health professions.

Five Goal Categories have been identified in the KCHP Strategic Plan in order to fulfill the mission of the college: Access, Teaching, Scholarly Activity; Community Service; and Interprofessional Activity.

1. ACCESS: Providing the citizens of Idaho with a wide variety of educational choices within the health professions through addressing availability of programs and resources, student recruitment, marketing, and publicity.

2. TEACHING: Addressing faculty development, faculty recruitment and retention, and improvement of instructional capabilities.

3. SCHOLARLY ACTIVITY: Facilitating and improving faculty and student research and scholarly activity in the health professions.

4. COMMUNITY SERVICE: Facilitating the interaction of KCHP programs, faculty, staff, and students with the general public and the professional communities within Idaho and the country.

5. INTERPROFESSIONAL ACTIVITY: Encouraging interaction and collaboration among the college departments, professional disciplines, and faculty on projects relating to teaching, research, and clinical activities in the health professions.

Department of Communication Sciences and Disorders
Chair and Professor: Kangas
Professors: Seikel, Sorensen
Associate Professors: Brockett, Flipsen, Johnson
Assistant Professors: Sanford
Clinical Professor: Knudson, Loftin, Whitaker
Clinical Associate Professors: Bishop, Guryan, Holst, Wallber, Willer
Clinical Assistant Professors: Cummings, Humphreys, O’Donnell, Smith, Stone, Turner
Clinical Instructors: Miller, Melton

Doctor of Audiology (Au.D.)
Accreditation
The Doctor of Audiology (Au.D.) is accredited by the Council on Academic Accreditation (CAA) in Audiology and speech-Language Pathology (http://professional.asa.org/academic/)

Admission Requirements
For admission to the Au.D. degree program in audiology, an applicant is expected to meet the stated (Masters’) admission criteria to ISU Graduate School, and, in addition, provide three (3) letters of recommendation from those who can speak to the applicant’s academic qualifications to pursue graduate education.

International Students
Students whose native language is not English must achieve at least the 50th percentile on the Verbal section of the GRE, and a total score of 250 on the Test of English as a Foreign Language (TOEFL). Once admitted, non-native English-speaking students must also receive a passing score on a test of spoken English to participate in clinic.

Program Capacity
A total of 24 students are admitted to the program. The number of seats available for new admissions will vary. Classes begin in the Fall Semester of each year. Meeting entry-level requirements for admission does not guarantee a seat in the program.

Curriculum
The curriculum is four years in duration, and includes one year (fourth year) of full-time clinical practicum. There are eight regular (fall and spring) semesters and three summer semesters. For the third year, students will be required to relocate to the ISU Meridian campus to continue their academic and clinical instruction in a robust audiology community. Students will assume the financial, housing, and logistical responsibilities of the relocation.

Doctor of Audiology (Au.D.)
Course List (Regular 4 year)

performance, the student may reapply for more departmental courses, or if the cumulative GPA falls below 2.7 in the first year of graduate study, the student may be dismissed for failure to make satisfactory progress in clinical practicum. Additionally, graduate students deemed by the faculty not to have made satisfactory progress in the acquisition of clinical skills may be required to enroll for further credits in clinical practicum in addition to the minimum required of all students. Students may be dismissed for failure to make satisfactory progress in clinical practicum.

Master of Science in Speech-Language Pathology

Admission Requirements
For admission to the M.S. degree program in Speech-Language Pathology or Deaf Education, the applicant must:

1. Possess a 3.0 or higher GPA. The method of calculating an Admission GPA is based on the last 60± semester undergraduate credits (90± quarter credits) for course work taken during the last two years of undergraduate training.
2. Submit three letters of recommendation.
3. The student must apply to, and meet all criteria for, admission to Graduate School.

International Students
International students whose native language is not English need to meet the following TOEFL requirements for Classified admission:

- Internet-based test (iBT): a total score of 80 with a score of at least 20 on each section (oral, reading, listening, writing)
- Paper-based test: a total score of 520
- Computer-based test: a total score of 193

Note that an adequate undergraduate background is assumed for entry to the graduate curriculum in speech-language pathology. When meeting with an advisor, if deficiencies are found, such as lack of a basic course, the student may be required to make up the course. An advisor must be consulted during registration week. Note also that an undergraduate or graduate course in statistics or experimental design is required if not previously taken in an undergraduate program, as is CSED 5517, Interdisciplinary Emphasis.

Students in the Graduate Program in Speech-Language Pathology must have the following ISU courses or their equivalents from another institution, or provide evidence from course syllabi that the basic information was covered in their undergraduate program. Certain of these courses may be taken during the graduate program.

Note 1: If a student has not taken IET she/he may take it as a graduate student and substitute it for one of the 3 required topical seminars.

General Requirements
Students receiving the degree of Doctor of Audiology must have satisfactorily completed all courses in the curriculum and passed all clinical practicum assignments. In addition, in spring semester of the third year, the student must pass the written comprehensive examination, and an oral comprehensive examination that includes defense of the doctoral project. According to university regulations, no student may be granted a graduate degree who does not have a 3.0 grade point average for courses listed on the Program of Study upon completion of all academic work. The Department of Communication Sciences and Disorders, and Education of the Deaf will terminate the graduate program of any student who has received grades of C+ or lower in two or more departmental courses, or if the cumulative GPA falls below 2.7 in the first year of study, or 3.0 by the completion of graduate studies. If a student's graduate education is terminated for reasons of poor academic performance, the student may reapply for admission no sooner than one full semester following the semester of dismissal.

Non-Thesis students are required to complete three credits from the following courses:

- CSED 6638 School Practice in Speech-Language Pathology | 3 cr
- CSED 6640 Medical Practice in Speech-Language Pathology | 3 cr
- CSED 6651 Master's Paper | 3 cr
- CSED 6691 Topical Seminar | 3 cr

Additionally, in spring semester of the third year, the student must pass all clinical practicum assignments. The Department of Communication Sciences and Disorders, and Education of the Deaf will terminate the student's program, as is CSED 5517, Interdisciplinary Emphasis.

Students in the Graduate Program in Speech-Language Pathology must have the following ISU courses or their equivalents from another institution, or provide evidence from course syllabi that the basic information was covered in their undergraduate program. Certain of these courses may be taken during the graduate program.

- CSED 3300 Speech Science | 4 cr
- CSED 3315 Clinical Processes: Management | 3 cr
- CSED 3321 Clinical Phonology | 4 cr
- CSED 3325 Phonological Disorders | 3 cr
General Requirements

Students must pass written and oral comprehensive examinations. For the Master of Science in Speech-Language Pathology the written exam may be fulfilled by either a portfolio or a thesis.

According to the university regulations, no student may be granted a graduate degree who does not have a 3.0 grade point average for courses listed on the program of study upon completion of all academic work. In addition, the Department of Communication Sciences & Disorders will terminate the graduate program of any student who has received grades of C+, or lower, in two or more departmental courses, or if the cumulative GPA falls below 2.7 in the first year of study and 3.0 by the completion of graduate studies. If a student’s graduate education is terminated for reasons of poor academic performance, he/she may reapply for admission no sooner than one full semester following the semester of dismissal.

Students with inadequate backgrounds in speech pathology and audiology may be required to take up to one year of undergraduate course work in addition to the above courses. In addition to the required graduate courses, students may have to take other courses in the department and related areas such as psychology and statistics. In addition to taking clinical practice (CSED 6602, 6603, or 6604) in the department, all graduate students must complete a minimum of an eight-week, full-time externship in some professional program or agency. Exceptions may be made depending on the student’s background. Graduate students deemed by the faculty not to have made satisfactory progress in the acquisition of clinical skills may be required to enroll for further credits in clinical practicum in addition to the minimum required of all students. Students may be dismissed for failure to make satisfactory progress in clinical practicum.

Speech-Language Pathology, Audiology, and Deaf Education Graduate Courses

CSED 5500 Organic Speech Disorders 4 credits. Comprehensive review of organic speech disorders. Focus on Neurological disorders, voice, cleft palate and stuttering. Emphasis will be given to assessment and management of these disorders. PREREQ: CSED 3300 OR PERMISSION OF INSTRUCTOR.

CSED 5505 Neurological Bases of Communication Disorders 3 credits. Provides fundamental knowledge of neuroanatomy and physiology as related to speech, language and hearing disorders. Introduction to communication disorders related to neurological damage (e.g., dysarthria, apraxia, aphasia). PREREQ: CSED 3300 OR PERMISSION OF INSTRUCTOR.

CSED 5520 Clinical Processes: Assessment 3 credits. Advanced assessment treatment principles, methods, and procedures for speech and language disorders. PREREQ: PSYCH 4445, CSED 3315, AND STATISTICS, AND/OR APPROVAL OF INSTRUCTOR.

CSED 5525 Clinical Processes: Methods and Applications 3 credits. Application of assessment and treatment principles, methods, and procedures in speech and language disorders through classroom observation and indirect/direct clinical experiences. PREREQ: CSED 3315, CSED 3325, CSED 3335, CSED 5520, PERMISSION OF CLINICAL DIRECTOR.

CSED 5540 Special Topics Workshop 1-3 credits. Presentation of professionally related topics in workshop format. Meets for a minimum of 16 contact hours per credit with appropriate outside assignments, readings, or papers. May be repeated for up to 6 credits. Graded S/U.

CSED 5556 Psychosocial Aspects of Deafness 3 credits. Psychological, educational and social influences of the hearing community on deaf persons and the structure of the deaf community as a socio-cultural entity. PREREQ: CSED 3351 WITH A "B" OR BETTER.

CSED 5560 Educational Audiology 3 credits. Overview of school-based audiology services including working within the public school system and with related professionals, legal issues, and options for providing comprehensive services to children with hearing loss and their families.

CSED 5582 Independent Study 1-4 credits. Study of problems selected by students and faculty. May be repeated up to 8 credits.

CSED 5591 Seminar 1-4 credits. Reading, preparation, and discussion of reports and projects in all areas of speech and hearing science, speech pathology and audiology. May be repeated up to 12 credits.

CSED 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be graded S/U.

CSED 6600 Principles of Research in Communication Disorders 3 credits. Issues of validity, credibility, reliability and confirmability. Methodology including quantitative and qualitative approaches. Evaluation of research and use of evidence-based practice. Use of informational resources to develop a research proposal. PREREQ: STATISTICS OR PERMISSION OF INSTRUCTOR.

CSED 6601 Developmental Psycholinguistics and Reading 3 credits. Oral language development in young children and its relationship to early reading. Classroom language problems of older elementary and secondary students and language intervention to improve reading and writing discussed.

CSED 6602 Clinical Practicum: Speech-Language 1 credit. Students, under supervision, gain experience in the diagnosing, staffing, programming, and counseling of cases with speech and language disorders. May be repeated up to 16 credits. Approval of Clinic Director required.

CSED 6603 Clinical Practicum: Audiology 1-4 credits. Students gain experience in diagnosing, programming, and counseling cases with hearing disorders, and implementing rehabilitation programs for persons with hearing losses. May be repeated up to 13 credits. PREREQ: APPROVAL OF ADVISOR AND AUDIOLoGY CLINIC COORDINATOR.

CSED 6604 Off-Campus Practicum 1-4 credits. Designed to provide clinical experience under supervision of speech-language pathologist within placement setting. Placements include private clinics, hospitals, residential care facilities, developmental centers, and schools. May be repeated up to 16 credits. PREREQ: CLINIC DIRECTOR APPROVAL. Graded S/U.

CSED 6605 Externship in Audiology 4-8 credits. Eight week off-campus placement that can be split between two summers. Final approval is the responsibility of the clinic director. Each student should obtain a minimum of 100 clock hours of clinical experience per eight week externship. PREREQ: CLINICAL DIRECTOR APPROVAL. May be repeated. Graded S/U.

CSED 6606 Externship in Speech-Language Pathology 4-9 credits. Designed to give Speech-Language Pathology students full-time practical experience in a professional setting, i.e., schools, hospitals, clinics, and private practices. PREREQ: COMPLETION OF ACADEMIC PROGRAM. May be repeated up to 18 credits. Graded S/U.

CSED 6607 Directed Observation in Education of the Deaf 1 credit. Directed observations at multiple levels and reporting of casual interactions and
diagnostic/intervention approaches by instructor with Deaf or hard of hearing individuals ( minimal 150 clock hours). May be repeated up to 3 credits. PREREQ: CSED 6601 AND/OR PERMISSION OF INSTRUCTOR.

CSED 6608 Communication Practicum 2 credits. Supervised experiences applying research and theory to language intervention practices for Deaf or hard of hearing individuals. May be repeated up to 6 credits. PREREQ: CSED 6601, CSED 6607, OR PERMISSION OF INSTRUCTOR.

CSED 6609 Teaching Internship in Deaf Education 4-8 credits. Directed classroom and clinical teaching experience with Deaf or hard of hearing students under supervision. Minimum 250 clock hours at the level specialization. May be repeated. PREREQ: APPROVED APPLICATION. Graded S/U.

CSED 6610 Teaching Internship in Interpreter Training 1-8 credits. Supervised directed classroom teaching experience with college/university students in interpreter training program. Minimum 250 clock hours. May be repeated for up to 8 credits. PREREQ: APPROVED APPLICATION. Graded S/U.

CSED 6611 Advanced Auditory Assessment and Speech Audiometry 4 credits. Thorough study in the historical, theoretical, and clinical aspects of fundamental audiological procedures such as pure-tone air- and bone-conduction testing, speech audiometry, and masking.

CSED 6616 Augmentative and Alternative Communication 3 credits. Functional approaches to enhancing communication for people with severe disabilities. Includes introduction to electronic communication devices, low technology strategies, empowering clients, and inclusive practices. PREREQ: CSED 6629, CSED 6639 OR EQUIVALENT.

CSED 6620 Early Language Development and Disorders 3 credits. Study of language development and disorders in children (0-5 years of age). Includes theories of development and disorders, assessment and intervention of child and environment. PREREQ: CSED 3330, CSED 3335, OR EQUIVALENT.

CSED 6621 Aud Rehab and Amplification I 3 credits. Introduction to practice of audiologic rehabilitative patient care with an emphasis on acoustic hearing aids. Basic instrument design, components, and coupling features of various wearable amplification devices will be included. Assessment of patient candidacy, fitting protocols, and outcome measures.

CSED 6622 Speech Sound Disorders 3 credits. Characteristics of children with speech sound disorders. Current approaches to assessment and theoretically-based treatment of speech sound errors, including multicultural applications. PREREQ: CSED 3325, OR PERMISSION OF INSTRUCTOR.

CSED 6623 Pediatric Audiology 3 credits. Advanced study of hearing disorders and hearing test procedures in children. Topics include development of the auditory mechanism, auditory pathologies, developmental milestones, auditory testing, differential diagnosis, and management.

CSED 6624 Disorders of Swallowing 3 credits. Assessment and treatment of disorders associated with all stages of swallowing in adults and children. Includes oromyofunctional, oral preparatory, oral, pharyngeal, and esophageal swallowing disorders. PREREQ: CSED 4405, CSED 4435, OR PERMISSION OF INSTRUCTOR.

CSED 6625 Advanced Issues in Language Disorders 3 credits. Critical issues in childhood language disorders including linguistic and cultural diversity, classroom-based strategies, and children with mental retardation, autism, learning disability and deafness. PREREQ: CSED 6614 OR EQUIVALENT.

CSED 6627 Reading/Writing Curriculum in Deaf Education 3 credits. Theory, research and practices for teaching and assessing written language for Deaf and hard of hearing students. Applications of principles of language acquisition and development to reading and writing. PREREQ: PERMISSION OF INSTRUCTOR.

CSED 6628 Curriculum Organization in Deaf Education 3 credits. Organizing, adapting and implementing curriculum across all areas to meet the special needs of Deaf or hard of hearing students. Includes assessment, behavior management, instructional technology, and individualized planning. PREREQ: PERMISSION OF INSTRUCTOR.

CSED 6629 Neuropathologies I 3 credits. Examines etiologies, characteristics, assessment and treatment of aphasia, apraxia, and dementia. PREREQ: CSED 4405 OR PERMISSION OF INSTRUCTOR.

CSED 6630 Fluency Disorders in Children and Adults 3 credits. Advanced study of assessment and treatment for fluency disorders in adults and children. Includes theory, developmental issues, cluttering, and specific treatment for adults and children. PREREQ: CSED 4400 OR PERMISSION OF INSTRUCTOR.

CSED 6631 Immittance/Special Assessment 2 credits. Study of immittance and other special audiological tests used in site of lesion (differential) diagnostic workshops. Background, rationale, administration, and interpretations of immittance and other special tests will be considered along with the concept of Clinical Decision Analysis (CDA).

CSED 6632 Craniofacial Anomalies 2 credits. Consideration of the speech-language pathologist's role in the habilitation of patients with craniofacial anomalies. Clefts of the lip and palate are discussed. Team approaches to assessment and management are presented.

CSED 6633 Introduction to Evoked Potential Audiometry and Balance Function Assessment 3 credits. Introduction to the study of evoked potential audiometry, balance function testing, and otocoustic emissions. Emphasis will be on the physiologic processes and instrumentation. COREQ: CSED 6633L.

CSED 6633L Introduction to Evoked Potential Audiometry and Balance Function Assessment Laboratory 1 credit. An introductory hands-on study and clinical practice of ABR, ENG/VNG, and OAE tests. Emphasis on clinical protocol, interpretation of test findings, and methods of reporting interpretations to referring sources. COREQ: CSED 6633.

CSED 6634 Voice Disorders 2 credits. Study of the anatomical, physiological, and behavioral aspects of voice production. Consideration of voice disorders by the speech-language pathologist. Principles of assessment and treatment will be discussed.

CSED 6635 Speech Audiology 1 credit. Review of basic and advanced audiometric tests which utilize speech as an approach to hearing assessment. Course treatment includes historic development of speech tests and description of psychophysical principles which underlie speech audiology.

CSED 6637 Philosophical/Theoretical Foundations of Deaf Education 2 credits. A comprehensive study of the philosophies and theories that influence current practice and research in the education of Deaf or hard of hearing students. PREREQ: PERMISSION OF INSTRUCTOR.

CSED 6638 School Practice in Speech-Language Pathology 3 credits. Advanced preparation for practice in school settings. In-depth study of case load management, Interdisciplinary Education program requirements, legal mandates, collaborative strategies, and inclusive practices. PREREQ: CSED 6614 OR EQUIVALENT.

CSED 6639 Neuropathologies II 3 credits. Etiologies, characteristics, assessment, and treatment of aphasia, traumatic brain injury, and right hemisphere disorder. PREREQ: CSED 4405 OR PERMISSION OF INSTRUCTOR.

CSED 6640 Medical Practice in Speech-Language Pathology 3 credits. Examines methods and practices specific to medical settings, including billing procedures, record-keeping, referral procedures, ethics, treatment models related to settings. PREREQ: CSED 6639 OR EQUIVALENT.

CSED 6641 Aud Rehab and Amplification II 2 credit. Continuation of wearable amplification technology with focus on advanced signal processing, prescriptive fitting rationales, and programming software. Objective and subjective verification and validation methodologies as well as patient orientation, adjustment, and care of devices will be included. PREREQ: CSED 6621. COREQ: CSED 6641L.

CSED 6641L Aud Rehab and Amplification II Laboratory 1 credit. Experimental learning activities with hearing aid programming software, ANSI test measures, Real Ear Measurements
Advanced preparation for professional practice in speech-language pathology. Includes study of policies and practices in employment settings, service delivery models, ethics, counseling, supervision. PREREQ: CSED 6602. COMPREHENSIVE DISCUSSION OF THE ANATOMY, PHYSIOLOGY, AND NEUROANATOMY OF THE AUDITORY SYSTEM FROM THE OUTER EAR TO THE AUDITORY CORTEX.

CSED 6647 Auditory Physiology of Speech and Non-Speech Signals 2 credits. Continuation of advanced study of the auditory system, including central pathways, auditory perception of speech and non-speech signals, and psychoacoustics, with focus on pitch and loudness phenomenon, masking, and binaural effect. PREREQ: CSED 6645.

CSED 6648 Professional Issues: Speech-Language Pathology 3 credits. Advanced preparation for professional practice in speech-language pathology. Includes study of policies and practices in employment settings, service delivery models, ethics, counseling, supervision. PREREQ: CSED 6602.

CSED 6650 Thesis 1-9 credits. Research project under supervision of academic faculty member. May be repeated. PREREQ: ABILITY TO DEAL WITH TECHNICAL LITERATURE, PROVEN WRITING ABILITY, APPROVAL OF ADVISOR AND INSTRUCTOR. Graded S/U.

CSED 6651 Master’s Paper 1-3 credits. Major paper or project synthesizing aspects of a specialized area of speech-language pathology, audiology, or education of the deaf. A large component of the paper must reflect the student’s own original thinking. May be repeated. Graded S/U.

CSED 6652 Speech Development: Deaf Students 3 credits. Speech and hearing development in children; developmental oral language strategies for teachers serving deaf and hard of hearing students with an emphasis on children with cochlear implants. PREREQ: CSED 6601 OR PERMISSION OF INSTRUCTOR.

CSED 6658 Teaching Language to the Deaf 3 credits. Students gain theoretical and practical knowledge in the evaluation and habilitation of language/communication problems in Deaf and hard of hearing children and adolescents. PREREQ: CSED 6601 OR PERMISSION OF INSTRUCTOR.

CSED 6659 Teaching Academic Subjects to the Deaf 3 credits. Students gain theoretical and practical knowledge of how to teach academic subjects to children and Deaf and hard of hearing adolescents. PREREQ: PERMISSION OF INSTRUCTOR.

CSED 6670 Auditory Pathologies 2 credits. Study and discussion of a wide range of auditory pathologies. Emphasis will be placed on the relationship between the pathology and the corresponding audiometric findings.

CSED 6673 Instrumentation and Calibration 1 credit. Basic electronics, sound, acoustics, instrumentation, and the calibration of a wide variety of audiometric equipment.

CSED 6675 Hearing Conservation in Noise 2 credits. Hearing conservation programs from historical and current-model perspectives. Additionally, OSHA and other applicable regulations along with the effects of noise on human hearing will be discussed.

CSED 6680 Counseling in Audiology 3 credits. Examination of the role of personal adjustment counseling in audiology. Students review counseling theory and the application of counseling techniques to patient interactions.

CSED 6691 Topical Seminar 1-4 credits. Reading and discussions involving subjects of concern. May be repeated up to 12 credits.

CSED 6699 Advanced Graduate Study 1-6 credits. Structured advanced study of specific topic or area.

CSED 7705 Off-Campus Clinical Practicum 1-4 credits. These externships, referred to as 3rd year rotations, are for the two semesters of the third year. Students will rotate through one experience every eight weeks or two per semester. Affiliation agreements and placement decisions are arranged by the clinic director and the Boise Coordinator. May be repeated. COREQ: CSED 7705L. Graded S/U.

CSED 7705L Off-Campus Clinical Practicum Laboratory 1 credit. Grand rounds seminar conducted online with other students in clinical experience settings. May be repeated. PREREQ: CSED 6603. COREQ: CSED 7705. Graded S/U.

CSED 7710 Adv Topics in Aud Rehab 3 credits. Advanced topics include rehabilitation issues in cochlear implants, wireless technologies, assistive listening technologies, and tinnitus. Audiologic rehabilitation outcome measures and efficacy will be included. PREREQ: CSED 6621, 6641, 6643.

CSED 7720 Audiology Practice Management and Dispensing 3 credits. Practice management, particularly hearing aid dispensing, including legal issues, ethics, best practice, marketing, and business management theory. PREREQ: CSED 6641, 6643.

CSED 7730 Advanced Electrophysiology 3 credits. Comprehensive discussion of advanced evoked potentials including test protocols, measurement, and interpretation. Topics in early identification of individuals with hearing loss will also be covered. PREREQ: CSED 6633.

CSED 7740 Advanced Vestibular and Balance Function Assessment 3 credits. Advanced vestibular and balance function assessment including underlying causes of balance disorders, rotary chair, computerized posturography, VEMP, advances in VNG/ENG technology, and collaborative approaches to vestibular rehabilitation. PREREQ: CSED 6633.

CSED 8805 Fourth Year Externship 1-8 credits. Full time placement designed to provide the student with a breadth and depth of clinical experience equivalent to one year of full-time work (approximately 2,000 hours). Students must enroll for three semesters minimum. Students are responsible for identifying potential sites and arranging affiliation agreements. Final approval is the responsibility of the clinical director. May be repeated. Graded S/U.

CSED 8810 Clinical Project 1-6 credits. Clinically-based scholarly project completed under the supervision of the audiology faculty. May be repeated for a total of 6 credits. Graded S/U.

**Department of Counseling**

Chair and Professor: Feit
Professors: Allen, Kleist
Associate Professors: Crews, Hill, Paulson
Assistant Professors: Doughty, Harrowood, Vereen
Clinical Assistant Professor: Singarajah
Adjunct Associate Professor: Schmidt
Adjunct Assistant Professor: Curtis, Johnsen, Watts
Adjunct Instructor: Bolinger
Emeritus Faculty: Edgar, Lloyd

**Department Mission Statement**

The principle mission of the Department of Counseling is to prepare quality counselors for various settings in Idaho and the nation. More specifically, we seek to prepare quality School Counselors for public schools in K-12 settings, Mental Health Counselors and Marital, Couple, and Family Counselors for community agencies and other mental health settings, and Student Affairs Counselors for working in college settings such as advising, residence halls, and career centers.

We prepare doctoral-level counselor educators and supervisors to work primarily in institutions of higher learning as faculty members.

We believe that it is also our mission to instill a strong sense of professional identity, help students gain an appreciation for the rich
knowledge base in counselor education, develop expertise in the skills of counseling, aid students to become certified and/or licensed, and aid graduates in their initial job placement.

The Department of Counseling also has a mission within the Kassiska College of Health Professions (KCHP), which is to represent the mental health perspective within KCHP and to consult with KCHP faculty and departments in encouraging a holistic perspective toward health care services.

Counselor Education
Graduate-level preparation for (1) counselors who seek employment in schools, universities, community mental health, and various other settings, and (2) college student affairs professionals.

Pre-Counseling and Pre-Student Affairs
Preparation should consist of a broad undergraduate course of study, including some work in psychology (learning and personality theory), sociology, and the communication skills. For those seeking positions in public elementary and secondary schools, state certification requirements should be considered.

Degree Programs
Degree programs offered by the department include Doctor of Philosophy, Educational Specialist, and Master of Counseling. Majors are available in Counselor Education and Counseling (Ph.D.); Counseling (Ed.S.); Marital, Couple, and Family Counseling (M.Coun.); Mental Health Counseling (M.Coun.); School Counseling (M.Coun.); and Student Affairs Counseling (M.Coun.).

Accreditation
The program for preparation of school counselors is accredited by the State of Idaho (2008).

The Master of Counseling and Doctor of Philosophy counselor education programs are approved by the Council for Accreditation of Counseling and Related Educational Programs through June 30, 2017.

Progression in Clinical Track Classes - Master's
Students who obtain lower than a 3.0 in any clinical track class OR withdraw from any clinical track class (i.e., COUN 6621, COUN 6696, COUN 6697, COUN 6699) CANNOT continue taking Counseling classes the following semesters without petitioning and obtaining the approval of the Department of Counseling graduate faculty.

Departmental Dismissal Policies
Master's Degree Retention and Dismissal Policy
Department of Counseling faculty are confident that each student admitted has the potential to be successful in graduate study. To assure success, the student's major advisor plays an important role in giving feedback to the student.

A faculty member may consult with other Department of Counseling faculty regarding the apparent impediments to progress of an individual student. If other faculty have made similar observations, the major advisor, or other faculty member, will initiate a meeting with the student to discuss the perceived difficulty. Remedies and expected behavior changes will be discussed and outlined in verbal and/or written form.

If, after feedback is given, a student's impediments to progress are not remedied, the faculty may recommend dismissal from the program. Dismissal of a master's student will be subject to the following:

1. Dismissal criteria established by the Graduate School.
2. Dismissal from the program occurs if any one of the following conditions exist. Students earn:
   a) three final course grades lower than 2.7,
   b) OR six credits below 2.7,
   c) OR below a 3.0 GPA.
3. All degree-seeking students in the Department of Counseling will be evaluated near the end of the first semester by the Department of Counseling graduate faculty members. Based on this evaluation, students not making satisfactory progress toward the completion of a degree may be: (1) removed from graduate study, (2) provided with an alternate option for graduate study, or (3) placed on departmental probationary status.

This evaluation will include progress on all course work, anticipated GPA, non-academic conditions (outlined in 4. and 5. following) and any other concerns. Students will be notified of any of these actions by written and/or oral communication with the major advisor or the Department Chair.

4. Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program. For the complete statement on academic dishonesty, please refer to the Graduate School "Academic Dishonesty" policy in this Catalog. More information on academic dishonesty is also available in the ISU Student Handbook (http://www.isu.edu/references/st.hanbook) (Student Conduct).

5. An ethical violation is viewed by the faculty of the Department of Counseling as a serious offense and may result in dismissal from the program. The Department uses the latest edition of the ACA Code of Ethics. It is the student's responsibility to be knowledgeable of these standards. Refer to the current "Master of Counseling Graduate Program Handbook" for more information.

6. Admission into the Department of Counseling does not guarantee graduation. Success in academic coursework is only one component of becoming a successful counseling student. The following nonacademic conditions may result in dismissal if they are observed to impair the student's ability to work with others in class, practicum, or internship settings: (1) personal concerns or psychopathology, (2) interpersonal relationship issues, (3) personal attitudes or value systems that conflict with effective counseling relationships, and (4) unethical behavior.

Doctoral Degree Retention and Dismissal Policy
Department of Counseling faculty are confident that each student admitted has the potential to be successful in graduate study. To assure success, the student's major advisor plays an important role in giving feedback to the student.

A faculty member may consult with other Department of Counseling faculty regarding apparent impediments to progress of an individual student. If others have made similar observations, the major advisor, or other faculty member, will initiate a meeting with the student to discuss the perceived difficulty. Remedies and expected behavior changes will be discussed and outlined in verbal and/or written form.
If, after feedback is given, a student’s impediments to progress are not remedied, the faculty may recommend dismissal from the program. Dismissal of a doctoral student will be subject to the following:

1. Dismissal criteria established by the Graduate School.

2. Dismissal from the program occurs if any one of the following conditions exist. Students earn:
   a. three final course grades lower than 2.7,
   b. OR six credits below 2.7,
   c. OR below a 3.0 GPA,

3. All degree-seeking students in the Department of Counseling will be evaluated near the end of the first semester by the Department of Counseling graduate faculty members. Based on this evaluation, students not making satisfactory progress toward the completion of a degree may be: (1) removed from graduate study, (2) provided with an alternate option for graduate study, or (3) placed on departmental probationary status. This evaluation will include progress on all course work, anticipated GPA, non-academic conditions (outlined in 6. below) and any other concerns. Students will be notified of any of these actions by written and/or oral communication with the major advisor or the Department Chair.

4. Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program. For the complete statement on academic dishonesty, please refer to the Graduate School "Academic Dishonesty" policy in this Catalog. More information on academic dishonesty is also available in the ISU Student Handbook (http://www.isu.edu/references/st.handbook) (Student Conduct).

5. An ethnical violation is viewed by the faculty of the Department of Counseling as a serious offense and may result in dismissal from the program. The Department uses the latest edition of the ACA Code of Ethics. It is the student's responsibility to be knowledgeable of these standards. Refer to the current "Doctor of Philosophy Program Handbook" for more information.

6. Admission into the Department of Counseling does not guarantee graduation.

Success in academic coursework is only one component of becoming a successful counseling student. The following nonacademic conditions may result in dismissal if they are observed to impair the student’s ability to work with others in class, practicum, or internship settings: (1) personal concerns or psychopathology, (2) interpersonal relationship issues, (3) personal attitudes or value systems that conflict with effective counseling relationships, and (4) unethical behavior.

Doctor of Philosophy in Counselor Education and Counseling

The Doctor of Philosophy (Ph.D.) is the highest university award given in recognition of completion of academic preparation for professional practice in counseling. Candidates are provided primarily with courses and practicum/internship experiences that will be instrumental in assisting them to function more effectively as professional counselor educators, as counseling practitioners, and as researchers.

Goals

The Doctor of Philosophy (Ph.D.) in Counselor Education and Counseling is designed to prepare counselor educators for work in counselor education programs and for work in supervisory roles in university counseling centers and other counseling sites. The major emphasis of this program is to prepare graduates for careers in university teaching in counseling programs.

Counselor education and counseling students at Idaho State University will be:

1. Prepared to teach courses in counseling skills and counseling theories.
2. Prepared to supervise counselors and counseling students who are providing individual counseling, group counseling, and/or couple and family counseling.
3. Prepared to teach selected courses in one or more of the CACREP major areas.
4. Prepared to teach selected courses in the general CACREP common core.
5. Prepared to evaluate counselor education programs and counseling sites.

6. Knowledgeable of professional issues in the counselor education and counseling fields.
7. Knowledgeable of ethical issues and practices of counselor education and counseling.
8. Experienced in developing and conducting research.
9. Experienced in writing for professional publication.
10. Experienced in the advisement and mentoring of Master of Counseling students.
11. Knowledgeable and skilled in providing advanced clinical counseling skills.
12. Knowledgeable of the sociological manifestations of cultural diversity.

Admission Criteria

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, persons applying for admission to the doctoral program in Counselor Education and Counseling must meet the following criteria for selection. Applicants must have:

1. a master's degree from a CACREP accredited program and be licensed as a counselor in Idaho or a state with comparable requirements

OR

2. a master's degree in counseling and be a Nationally Certified Counselor and apply for an Idaho Counseling License upon admission to the doctoral program

OR

3. A professional resume.

Applicants must have:

1. a master's degree from a CACREP accredited program and be licensed as a counselor in Idaho or a state with comparable requirements

OR

2. Taken the Graduate Record Examination or the Miller Analogies Test. Preference will be given to scale scores of 50 percentile or more.

3. A professional resume.

5. Submitted three (3) letters of recommendation.

6. Completed both Idaho State University Graduate School and Department of Counseling application forms.

7. Completed an interview by the Department of Counseling Admissions Committee.

The Admissions Committee will make the final recommendation regarding admission. This decision will be based on grade point and test score ranking, as well as on the committee's impression of the applicant's interpersonal style and compatibility of personality with the program's training philosophy, and on the student's written statement.

**Selection Schedule for Doctoral Study**

Application forms will be mailed after August 1. Applications must be postmarked by January 15. Selection of applicants for on-campus interviews will be announced by February 1. Notification of successful applicants for admission and alternates will be announced by approximately March 1. A maximum of 3-4 students are admitted to the program each year. Classes begin in the Fall semester of each year.

**Master's Degree Curriculum Review**

Doctoral students who have earned their master's degree from a CACREP accredited program will have to have level knowledge in core and major course areas. Those not graduating from a CACREP accredited program will have their transcripts evaluated by a faculty committee to determine knowledge base deficiencies. A remediation plan of study will be developed and approved by the faculty as necessary.

**Specialization Areas**

Doctoral students will choose a prescribed program of study that develops counselor education specializations in the CACREP core and major areas.

The Area of Specialization will be approved by the faculty before the end of the first semester of doctoral study.

The Area of Specialization must be completed prior to the scheduling of the final oral examination.

**Admission to Candidacy**

Each student demonstrating an adequate foundation for doctoral study, based upon the selection criteria and the master's degree curriculum review, may apply for degree candidacy. The application for candidacy will include:

1. A course of study designed to remove entry level deficiencies as indicated by the master's degree curriculum review.

2. An approved plan for completion of specialization areas in both core and major areas.

3. An approved final program of study.

After receiving the written approval of the major professor and a second graduate faculty committee member from the department, the application may then be submitted to the department for approval and the appointment of a third departmental committee member. The balance of the committee will consist of a fourth member appointed by the Dean of the Kasiska College of Health Professions and a fifth member appointed by the Dean of the Graduate School.

**Comprehensive Examination**

The comprehensive examination will address information in the coursework required in the doctoral program, counselor education professional issues, and specific areas identified by the candidate’s committee. If failed, the comprehensive examination may only be retaken once after one year of additional study.

**Dissertation**

After the student is admitted to degree candidacy, the dissertation proposal and preliminary research that the candidate and first two committee members have agreed upon will be presented to the complete five-member committee for recommendations and approval. Following the approval of the proposal and the completion of the comprehensive examination, the candidate is authorized to proceed with the dissertation in preparation for a final oral examination defense. The final defense is open to any member of the graduate faculty directing a request through the Dean of the Graduate School and the chair of the committee.

**Residence**

Following the bachelor's degree, each applicant must complete the equivalent of ten semesters of graduate study including the master's degree and three semesters of doctoral internship. At least six of the semesters must be at the doctoral level and four of these must be consecutive semesters (not including summer sessions) of full-time graduate study on campus. Students are strongly encouraged to attend all six of these semesters on a full-time basis.

**Continuous Enrollment**

Following admission to doctoral study, the student must register for course work, practicum, internship, independent study, or dissertation credit each semester until the completion of the degree.

**Required Courses**

- **COUN 7701** Advanced Statistics 2 cr
- **COUN 7702** Advanced Research and Experimental Design 2 cr
- **COUN 7703** Qualitative Research 2 cr
- **COUN 7704** Qualitative Methodology 2 cr
- **COUN 7705** Instructional Theory for Counselors 2 cr
- **COUN 7710** Practicum in College Teaching 2 cr
- **COUN 7711** Advanced Psychological Testing and Assessment 2 cr
- **COUN 7724** Advanced Diversity Issues 3 cr
- **COUN 7727** Advanced Theories of Counseling 3 cr
- **COUN 7774** Advanced Group Procedures 3 cr
- **COUN 7790** Theories of Counseling Supervision 2 cr
- **COUN 7791** Supervision of Counseling Practicum 2 cr
- **COUN 8800** Research and Professional Issues 1-4 cr
- **COUN 8848** Doctoral Practicum in Counseling 3-6 cr
- **COUN 8849** Doctoral Internship 1-18 cr
- **COUN 8850** Dissertation 1-12 cr

**Suggested Electives**

- **COUN 7723** Advanced Vocational Theory 3 cr
- **COUN 7758** Independent Problems 1-4 cr
- **COUN 7775** Advanced Practicum in Group Counseling 2 cr

**Educational Specialist Degree**

**Education Specialist in Counseling**

The Ed.S. program is designed for persons who have completed a master's degree in counseling and wish to increase their skills for advanced certification requirements or other professional objectives.
Admission Requirements
The applicant must:

1. Hold a master's degree in counseling from a CACREP accredited school counseling program or equivalent CACREP course work.
2. Submit Graduate School application forms and application fee.
3. Submit departmental application form and application fee by specified application date.
4. Submit three (3) letters of recommendation; two (2) letters must be from Department of Counseling faculty who agree to serve on the graduate committee.
5. Have a minimum of two (2) years of work experience as a school counselor (post-master's), and be currently employed as a certified school counselor.
6. Be recommended for admission by the Department of Counseling Admissions Committee.

Degree Requirements
The student must complete a minimum of 70 credit hours of course work (including the master's degree) and a case study. All post-master's degree course work must be approved in advance by Department of Counseling faculty. A minimum grade point average of 3.0 is required over all course work taken in the Ed.S. program. An oral examination is required that involves the presentation of a case study and demonstration of advanced counseling skills.

Major Requirements
At the post-master's degree Ed.S. level, all course work must be in Counseling-related areas and must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HRD 5501</td>
<td>Foundations of Professional-Technical Education</td>
<td>3 cr</td>
</tr>

</tbody>
</table>

Educational Specialist Case Study
The case study presented during the oral examination reflects (both in written and video form) advanced counseling skills and theoretical orientation. It reflects therapeutic goals, client themes and counseling techniques necessary to facilitate client growth.

Time Requirement
All requirements for the Ed.S. must be completed within a period of seven (7) years from the date of completion of the first post-master's degree course to be applied toward the degree.

Master of Counseling in Marital, Couple, and Family Counseling, Mental Health Counseling, School Counseling, or Student Affairs Counseling

Goals
The general objective of the Master of Counseling (M.Coun.) degree is to prepare students to be professional counselors. The Department of Counseling faculty believe that the development of a strong professional identity, a rich knowledge base, and expertise in the skills of counseling are essential to functioning as a professional in each counseling setting.

The Master of Counseling degree is designed to be the strong foundation upon which graduates enter a lifetime career in the helping professions. This program prepares counselors to respond to the multitude of changes in society, and to enter the ever-expanding counseling profession. In addition to knowledge and experience in the following eight common-core areas, graduates also have specialized knowledge and skills as identified in the objectives of the Marital, Couple, and Family Counseling, Mental Health Counseling, School Counseling, and Student Affairs Counseling majors.

Curricular Objectives:
1. Students will have knowledge of Human Growth and Development so that they can understand the nature and needs of individuals at all developmental levels.
2. Students will have knowledge of Social and Cultural Foundations to be effective in a multicultural and diverse society.
3. Students will be knowledgeable and skillful in Counseling and Consultation processes.
4. Students will be knowledgeable about group development, dynamics, counseling theory, group counseling methods, and group work approaches.
5. Students will be knowledgeable and understand career development and related factors.
6. Students will understand and be knowledgeable about individual and group approaches to assessment and evaluation.
7. Students will be knowledgeable about various research methods and basic statistics.
8. Students will be knowledgeable about the profession of counseling including history, organizational structures, ethics, standards, and credentialing.

Student Professional Objectives:
In addition to the above curricular objectives, the Department of Counseling has program-wide objectives. These include:

9. School counseling students will obtain certification as school counselors.
10. Mental Health and Marital, Couple and Family students will obtain the appropriate state licensure.

Admission Requirements
Admission into the counseling program is competitive. A preset number of students will be admitted, according to faculty resources. The Admissions Committee will make the final recommendation regarding admission based on grade point and test score rankings, as well as on the committee's impression of the applicant's interpersonal style and compatibility of personality with the program's training philosophy, and on the student's written statement.

The student must apply to, and meet all criteria for, admission to the Graduate School inclusive of the submitting of the Graduate School application forms and application fee. In addition, the applicant must:
1. Have a bachelor’s degree from an accredited college or university in the United States, or its equivalent from a school in another country. (Must complete degree before onset of classes in the Fall semester in year of acceptance.)

NOTE: Preference will be given to those applicants who meet both GPA and GRE/MAT criteria. The Graduate School does consider requests by the department to waive either the GPA or the GRE/MAT so applicants are eligible to apply for admission if they meet one of the two criteria.

2. Prospective students are expected to come to campus (Pocatello or Boise) for an interview. Selected applicants will be interviewed by the Department of Counseling Admissions Committee as part of the admissions procedure. Ultimately, a student’s GPA and test scores qualify the student to take part in the interview process. Students are generally selected for admission based on the interview.

3. Submit three (3) letters of recommendation from individuals who have knowledge of the applicant’s academic capabilities, work performance, professional potential, and character.

4. Submit departmental application forms and application fee.

5. Read and sign the Department of Counseling Conditions for Admission/Retention/Dismissal form.

Only applicants who have submitted all application materials on or before the application deadline will have their material reviewed by the Admissions Committee to determine status as a competitive, qualified applicant (incomplete, late, or inaccurate files/forms will not be reviewed). Due to the competition for limited seats in the Master of Counseling program, satisfactory completion of the entry level requirements does not guarantee acceptance.

Selected applicants will be interviewed by the Department of Counseling Admissions Committee as part of the admissions procedure.

Selection Schedule

After August 1, application forms will be mailed upon request, or they are available for download at http://www.isu.edu/hpcounsel. Application review begins February 15, and continues until all seats are filled. Generally, the application process is complete by April 15. Selection of applicants for on-campus interviews will be announced approximately by March 15. Notification of selected applicants for admission, and alternates, will be announced approximately by April 1. A maximum of 20-25 students are admitted to the Master of Counseling program each year. Classes begin in the Fall semester of each year.

Classified w/Performance Requirements Status

Students who meet the undergraduate grade point average of 3.0 or higher for all upper division undergraduate classes but have not received their scores for the GRE or MAT or are registered to take one of these examinations at the next possible testing may be admitted Classified (w/PR) status, and may be considered for openings not filled by Classified applicants in the Department of Counseling program.

Students must request a change of status from Classified (w/PR) status to Classified status upon completion of their first semester of graduate study. The change from Classified (w/PR) to Classified status must be approved by the Department of Counseling and the Dean of the Graduate School.

Unclassified Status

Unclassified (non-degree seeking) status can only be used by students who have completed a master’s degree in a helping profession and who agree in writing that they are taking elective courses for continuing education credit.

Approval of Master's Degree Final Program of Study

A student who has been admitted to the Master of Counseling (M.Coun.) Program may submit a final program of study following the completion of COUN 6621, 6627, 6696 and during the semester in which COUN 6697 is being completed. The final program of study must include all coursework required to complete the selected M.Coun. major and must be approved by two counseling faculty members who have graduate faculty status (one of whom will serve as committee chair). Prior to the semester of the proposed graduation, the final program of study must receive the approval of a majority of the Counseling graduate faculty.

General Requirements

For the Master of Counseling (M.Coun.) degree the student is required to complete the equivalent of at least four full semesters of resident graduate study beyond the bachelor’s degree. For Marital, Couple, and Family Counseling majors, a minimum of 64 semester hours must be completed in the Core and Major Course Requirements. For the Mental Health Counseling, School Counseling, and Student Affairs Counseling majors, a minimum of 60 semester hours must be completed in the Core and Major Course Requirements.

**COUN 5594 Elementary School Guidance 2 credits.** Study of (1) the function of guidance in relation to children's needs; (2) principles and techniques of elementary school guidance; (3) analysis of representative programs of guidance in the elementary schools; and (4) research related to elementary school guidance and resulting trends.

**COUN 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**COUN 5599 Practical Application of Counseling Theory 2 credits.** Emphasizes the implications for assessment and treatment of the family with violence. Topics of physical abuse, sexual abuse and psychological/emotional abuse of adults and children within a family structure will be addressed.

**COUN 6607 The Family and Mental Illness 2 credits.** Addresses therapeutic and community support that enhances the family unit as the primary care system. Mental illness as it relates to the family system is presented.

**COUN 6608 The Family and Chemical Dependency 2 credits.** Addresses family systems under the influence of addictions with primary emphasis on alcohol dependency. Models and patterns of addictions will be examined.

**COUN 6609 The Family and the Aged 2 credits.** Emphasizes the impact of aging on family systems from an economic, emotional, social, spiritual, and physiological perspective.

**COUN 6611 Applied Statistics and Research 3 credits.** Basic understanding of applied statistics. Procedures for designing, interpreting, critiquing, and presenting professional research.

**COUN 6612 Psychological Testing for Counselors 2 credits.** An overview of the standardized tests most commonly used by counselors. In addition to learning the underlying concepts of standardized testing, students will also be taught how to select and use tests appropriate to their proposed work settings.

**COUN 6613 Basic Projective Techniques 2 credits.** Projective theory and its relationship to psychoanalysis, dynamic theory, and learning theory. Techniques including problems of clinical practicality, prediction of behavior, and personality assessment. Practical experiences available in laboratory courses.

**COUN 6619 Individual Intelligence Testing 3 credits.** Supervised practice in administering, scoring, and interpreting the results of individual intelligence tests. Each section limited to 6 students. PREREQ: COUN 6612 OR EDUC 6614 AND PERMISSION OF INSTRUCTOR.

**COUN 6621 Conceptualizing Counseling Theory 2 credits.** The conceptual study of selected counseling theories related to historical development, personality development, client maturation, and learning theory.

**COUN 6628 Applications of Counseling Theory 2 credits.** The application of selected counseling theories with emphasis on the evolution of maladjustment, process of change, and appropriate interventions for generating change. PREREQ: COUN 6627 OR PERMISSION OF INSTRUCTOR.

**COUN 6630 Substance Abuse Counseling 2 credits.** Acquaint students with the concepts of drug and alcohol dependence as a disease that impacts the entire family system and functioning. The course will explore the developmental model of addiction, recovery, and relapse prevention.

**COUN 6640 School Counseling Services 3 credits.** History, philosophy, recent legislation, consultation and the professional role of the school counselor.

**COUN 6641 Elementary School Counseling 1 credit.** Specialized role and responsibilities for the elementary school counselor.

**COUN 6642 Secondary School Counseling 1 credit.** Specialized role and responsibilities of the secondary school counselor.

**COUN 6644 Special Issues in School Counseling 1 credit.** Current information and strategies for counseling issues specific to school counselors such as: child study teams, drug abuse and peer relations. PREREQ: PERMISSION OF INSTRUCTOR.

**COUN 6650 Thesis 1-9 credits.** May be repeated. Graded S/U.

**COUN 6651 Master's Paper 3 credits.** A paper involving extensive familiarity with research findings written under the supervision of a faculty member in the department. May be repeated.

**COUN 6652 Specialist Paper 3 credits.** A paper involving extensive familiarity with research findings under the supervision of a faculty member of the department. May be repeated.

**COUN 6658 Independent Problems 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be re-
peated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 6659 Seminar 1-3 credits. Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 6660 Theories of Family Counseling 3 credits. The study of the development of the family-counseling field and the issues and theories related to its practice. PREREQ OR COREQ: COUN 6621, COUN 6627, COUN 6696, OR PERMISSION OF INSTRUCTOR.

COUN 6661 Issues in Family Counseling 3 credits. Examination of the effects of violence, chemical dependency and issues of sexuality on family dynamics and their impact on family counseling. COREQ: COUN 6660 OR PERMISSION OF INSTRUCTOR.

COUN 6662 Theories of Couple Counseling 2 credits. The study of the development of the couple-counseling field and the issues and theories related to its practice. PREREQ OR COREQ: COUN 6621, COUN 6660, COUN 6696, OR PERMISSION OF INSTRUCTOR.

COUN 6663 Parent Education 2 credits. Theoretical and research-based discussion of parent education programs. PREREQ: COUN 6627 AND COUN 6660, OR PERMISSION OF INSTRUCTOR.

COUN 6664 Family Assessment 2 credits. Introduction to family assessment models and instruments as well as evaluation of programs/agencies providing family counseling. PREREQ: COUN 6660, COUN 6662, OR PERMISSION OF INSTRUCTOR.

COUN 6665 Advanced Family Systems Theory 2 credits. Advanced theoretical study with emphasis on researched applications of family counseling. PREREQ: COUN 6660 OR PERMISSION OF INSTRUCTOR.

COUN 6666 Family/Couple Counseling Practicum 3 credits. Practicum experience counseling families and couples. PREREQ: COUN 6660, COUN 6663, COUN 6697, OR PERMISSION OF INSTRUCTOR.

COUN 6667 Small Group Activity 1 credit. Designed to give direct experiences as a group participant and provide preparation for COUN 6677. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

COUN 6677 Group Counseling Techniques 3 credits. Essential research, selected group development and therapy theories, leadership orientations and strategies, structural group dynamics, and applications. Skills development in a laboratory setting. PREREQ: COUN 6661, COUN 6676, AND COUN 6696 OR PERMISSION OF INSTRUCTOR.

COUN 6680 Foundations of Student Affairs 3 credits. History, philosophy, purpose, and function of student affairs practice including review of "The Student Personnel Point of View," theories of student development, and current trends. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 6683 Administration of Student Affairs Practice 3 credits. Leadership and management theories and practice in higher education and student services. Essential research, consultation, good practices, and assessment techniques for all student populations and services. PREREQ: COUN 6680 OR PERMISSION OF INSTRUCTOR.

COUN 6687 Field Work in Personnel Services 1-2 credits. Observation and learning the duties performed by the persons in the field work setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

COUN 6689 Internship in Student Personnel 3-12 credits. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 6690 Mental Health Counseling Foundations 2 credits. Orientation to the professional foundation and contextual dimensions of mental health counseling. Topics include roles, functions, identity, ethics, and practice parameters of mental health counseling.

COUN 6691 Issues in Mental Health Counseling 2 credits. Current information and strategies for counseling issues specific to mental health counseling. Topics include: managed care, public policy, needs assessment, and consultation. PREREQ: COUN 6690 OR PERMISSION OF INSTRUCTOR.

COUN 6692 Wellness and Prevention in Counseling 1 credit. The course will familiarize students with the wellness model and how it is integrated into counseling practice. The course will overview prevention program development, implementation, and evaluation as well as the theoretical and empirical underpinnings of such programming.

COUN 6693 Supervision of Counselors 1 credit. The study of current practices used in the clinical supervision of counselors. Current literature will be reviewed as well as standards for supervision which have been established by accrediting bodies and professional associations.

COUN 6694 Psychodiagnosis and Psychotropic Drugs 3 credits. Psychological classification systems, mental status evaluations, and the use of psychotropic drugs in treatment programs. PREREQ: COUN 6621 AND COUN 6696, OR PERMISSION OF INSTRUCTOR.

COUN 6696 Prepracticum Counseling Techniques 3 credits. The study and practice of counseling techniques including micro-counseling and role-playing. May be repeated. PREREQ: COUN 6621, AND COUN 6627 (OR CONCURRENT ENROLLMENT) AND PERMISSION OF INSTRUCTOR.

COUN 6697 Practicum in Counseling 3 credits. Supervised counseling experience. A combination of fifty hours of experience and supervision equals one hour of academic credit. Each section limited to 5 students. May be repeated. PREREQ: COUN 6696 AND PERMISSION OF INSTRUCTOR.

COUN 6697L Practicum in Counseling Lab 0 credits. Group supervision of students working in the field during their internship experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as tutorial experience based on the student's developmental needs. Graded S/U.

COUN 6699 Internship in Counseling 1-17 credits. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated for a maximum of 17 credits. PREREQ: COUN 6697 AND PERMISSION OF INSTRUCTOR.

COUN 6699L Internship in Counseling Lab 0 credits. Group supervision of students working in the field during their internship experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as a tutorial experience based on the student's developmental needs. Graded S/U.

COUN 7701 Advanced Statistics 2 credits. Statistical application appropriate for doctoral research and writing. PREREQ: COUN 6611 OR EQUIVALENT, AND PERMISSION OF THE INSTRUCTOR.

COUN 7702 Advanced Research and Experimental Design 2 credits. Quantitative methods of conducting research in doctoral study. PREREQ: COUN 7701.

COUN 7703 Qualitative Research 2 credits. Explores and contrasts philosophical assumptions of qualitative and quantitative research. Various methodologies and approaches to qualitative research are reviewed and applications discussed. PREREQ: COUN 7701.

COUN 7704 Qualitative Methodology 2 credits. Design, data collection, analysis and writing qualitative research. Practice using data collection procedures, traditional analytic methods and qualitative data processing programs for coding and matrix construction. Emphasizes grounded theory approach. PREREQ: COUN 7703.

COUN 7705 Instructional Theory for Counselor Educators 3 credits. Instructional theory and methods relevant to counselor education including models and methods of appraisal.

COUN 7710 Practicum in College Teaching 2 credits. Observation of and assisting in the teaching and evaluation of a college course under the supervision of the course instructor. The student will prepare and deliver at least five lectures which will be observed by the instructor and will, in addition to observing the balance of the course, meet individually with the instructor for periodic discussions of procedure and methodology. PREREQ: COUN 7705, COMPLETION OF THE COURSE IN WHICH THE PRACTICUM WILL BE SERVED, AND PERMISSION OF THE FACULTY.
COUN 7712 Advanced Psychological Testing and Assessment 2 credits. Advanced psychological testing concepts, test administration, test construction and interpretation. Advanced information of standardized tests commonly used in the counselor education field. PREREQ: COUN 6612 OR PERMISSION OF INSTRUCTOR.

COUN 7723 Advanced Vocational Theory 3 credits. Theory of vocational development, sociological aspects of vocational choice and entry, development of interests and aspiration levels, and research relating to entry into work, satisfaction in work, dissatisfaction in topics. Course is structured around the major theories of vocational development as they relate to individual development. Various approaches to vocational testing are included. PREREQ: COUN 6623.

COUN 7724 Advanced Diversity Issues 3 credits. Pedagogy relevant to current social and cultural issues. Role of diversity issues in counselor education, supervision, and counseling.

COUN 7727 Advanced Theories of Counseling 3 credits. Analysis of various counseling theories and their relationships to specific philosophies concerning humanity. PREREQ: COUN 6627 AND COUN 6627.

COUN 7758 Independent Problems 1-4 credits. Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 7759 Ed.S. Internship 1-9 credits. Placement in a post-master's degree counseling setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: ADMISSION AS AN ED.S. STUDENT AND PERMISSION OF INSTRUCTOR.

COUN 7774 Advanced Group Procedures 3 credits. Advanced group leadership theory and techniques. PREREQ: COUN 6677.

COUN 7775 Advanced Practicum in Group Counseling 2 credits. Fifty hours of group counseling as the group facilitator, plus a coordinating seminar. Includes the theoretical basis for group leaders and development of group leadership skills. PREREQ: COUN 6677 AND PERMISSION OF INSTRUCTOR.

COUN 7790 Theories of Counseling Supervision 2 credits. Analysis of systems for conducting counseling practicum. For individuals who will be supervising student or practicing counselors. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 7791 Supervision of Counseling Practicum 2 credits. Practical experience in the supervision of counseling practicum students, including field supervision and analysis of counseling audio and video tapes. PREREQ: COUN 7790 OR PERMISSION OF INSTRUCTOR.

COUN 8800 Research and Professional Issues 1 credit. Critical analysis of the literature in counselor education including topics such as program models, current research, and professional associations. May be repeated up to 4 credits. PREREQ: ADMISSION TO DOCTORAL STUDY.

COUN 8848 Doctoral Counseling Practicum 3 credits. Counseling under supervision and an intensive examination of the students own counseling philosophy and its relationship to client behavioral and attitudinal change. A combination of fifty hours of experience and supervision equals one hour of academic credit. Each section limited to 5 students. PREREQ: COUN 7727 AND PERMISSION OF INSTRUCTOR.

COUN 8848L Doctoral Counseling Lab 0 credits. Group supervision of student working in the field during their doctoral practicum experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as a tutorial experience based on the student's developmental needs. Graded S/U.

COUN 8849 Doctoral Internship 1-18 credits. Placement in a doctoral level counseling or counselor education setting. May be repeated. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: PERMISSION OF INSTRUCTOR.

COUN 8849L Doctoral Internship Lab 0 credits. Group supervision of student working in the field during their doctoral internship experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as tutorial experience based on the student's developmental needs. Graded S/U.

COUN 8850 Dissertation variable credits. May be repeated. Graded S/U.

Department of Dental Hygiene
Director and Associate Professor Boyd Professors: Bowen, Herzog, Hodges, Paarmann
Associate Professors: Calley, Rogo

Master of Science in Dental Hygiene

The Master of Science degree in Dental Hygiene is an advanced degree; therefore, the program is designed for students who are licensed dental hygienists with baccalaureate degrees. Graduates will be prepared for various career opportunities within the health care arena.

Goals

Program goals of this graduate level dental hygiene program are to prepare professional dental hygienists to:

1. Assume leadership roles in academics, rural and community health settings, research, professional associations or commercial industry.
2. Develop advanced clinical abilities that improve oral health and access to dental hygiene care.
3. Acquire research abilities that contribute to the scientific dental hygiene body of knowledge.
4. Assume responsibility for professional development through life-long learning capability.
5. Provide a foundation for future doctoral education.

Admission Requirements

The student must fulfill the following requirements:

- Graduation from an accredited entry level dental hygiene program
- Bachelor's degree in dental hygiene or a related field
- Minimum grade point average of 3.0 in upper division and dental hygiene coursework
- Current dental hygiene licensure in good standing

1. The student must apply to, and meet all criteria for, admission to the Graduate School, and submit a completed application, residency form, fee payment, and transcripts. International students should refer to the "Admission of International Students" section of this Catalog for TOEFL and other requirements. Information is online at www.isu.edu/departments/graduate admissions.shtml).
2. Complete the Dental Hygiene Department application form for the Master of Science degree program (available at www.isu.edu/departments/dentalhy/dhmasters/msadmissions.shtml).
3. Submit two recommendation forms provided by the department. One recommendation must be completed by an individual who has personal knowledge of the applicant's clinical skills such as a faculty member from a dental hygiene program, employer, or colleague. The second recommendation must be completed by an individual who has personal knowledge of
the applicant's academic and professional qualifications for graduate study such as a faculty member, officer of a professional association, or colleague.

4. Submit to the Graduate School official transcripts to provide evidence of:

- Graduation from an accredited entry level dental hygiene program
- Bachelor's degree in dental hygiene or a related field
- Minimum grade point average of 3.0 in upper division courses and a 3.0 in dental hygiene coursework.

5. Previous education in local anesthesia and nitrous oxide administration is not a requirement for admission; however, this requirement must be completed prior to enrollment in DENT 6616, Progressive Dental Hygiene Practice. If previous education in these pain control methods was completed, provide evidence of successful completion of classroom and clinical experiences in local anesthesia and nitrous oxide administration. Evidence could include transcripts, course descriptions, expanded functions or continuing education certificates. If classroom and clinical experience were not part of the coursework, then DENT 5598P or an equivalent continuing education course must be completed. Continuing education courses must be approved by the graduate program director. DENT 5598P credits may not be applied toward a graduate degree.

6. Send a photocopy of a license to provide evidence of current dental hygiene licensure in good standing.

7. Complete a telephone or personal interview.

Applicants can contact the Department at the following address:

Graduate Program Director
Department of Dental Hygiene
Division of Graduate Studies
Idaho State University
12301 W. Explorer Dr., Suite 102
Boise, ID 83713
E-mail address: mshil@mm.isu.edu
Telephone: (208) 373-1800

General Requirements

A total of 36 credits, including a thesis (3-6 credits), will be required for degree completion. Requirements include 7 courses (19-20 credits) in the core curriculum, 4 courses (a minimum of 11 credits) in an area of emphasis, and 6 credits of electives.

The core courses advance the theory and practice of dental hygiene and prepare students in research methodology to apply during the thesis process. A thesis is required because the Master of Science degree in Dental Hygiene is the terminal degree in the discipline and a research foundation is imperative to advance the theoretical knowledge base of the profession. In addition to the core curriculum, graduates complete an area of emphasis in dental hygiene education or rural and community health. Two required dental hygiene courses in the emphasis area, coupled with a practicum experience and a related elective course, provide a strong basis for advanced study and thesis work. To enhance the breadth of knowledge, students are required to complete a minimum of 6 credits of electives selected from related graduate coursework offered outside the Department of Dental Hygiene.

The program is an online graduate curriculum with on-campus visitations required for orientation, DENT 6616, and oral examination for thesis defense. The advanced clinical course will be offered in Pocatello at the on-campus clinical facility during the Summer Semester. A maximum of 9 credits may be transferred officially to Idaho State University.

Academic Requirements

1. Once admitted, students must complete a plan of graduate study with their dental hygiene graduate advisor no later than the end of the first semester after enrollment. This plan must be approved by the Program Director.

2. Any student who, after admission to the Master of Science program, falls below a 3.0 GPA, or who receives a grade of C+ or below in two graduate courses during his or her program of study will be deemed to be performing at an unsatisfactory level and will be dismissed.

3. Any student who, after admission to the Master of Science program, receives a C-, D, F, or grade in any graduate course in his or her program of study will be dismissed. Courses with grades of C or lower may not be used to satisfy graduation requirements.

4. Current CPR, related screenings and/or immunizations are required prior to attending the on-campus orientation.

Graduation Requirements

1. Successfully conduct and defend a thesis as outlined in the Department of Dental Hygiene, Division of Graduate Studies, Graduate Student Handbook.

2. Complete the coursework on the study plan approved by the Program Director, Department of Dental Hygiene, Division of Graduate Studies, and by the ISU Graduate School.

DENT 6605 Program Development and Evaluation 3 cr

DENT 6635 Rural and Community Health Practicum 2-4 cr

Elective course in emphasis area 3 cr
(Program Director approval required)

TOTAL 11-13 cr
DENT 6610 Special Care Populations 2 credits. Concepts related to providing oral health care for special care populations. Emphasis on assessment, planning, implementation and evaluation of care for individuals with transient or lifelong physical, mental, medical or social health needs.

DENT 6615 Progressive Dental Hygiene Theory 3 credits. Critical analysis of the dental hygiene process of care related to advanced preventive and therapeutic interventions to various population groups, technology and outcomes.

DENT 6616 Progressive Dental Hygiene Practice 1 credit. This clinical course provides students with experiential learning opportunities to enhance self-assessment and peer/student evaluation in clinical dental hygiene. Formative assessment techniques are applied to the process of dental hygiene care: assessment, diagnosis, care planning, implementation and evaluation. The course will culminate in an individualized professional development plan constructed by each student based upon faculty, self and peer assessments as well as career goals. May be repeated for up to 2 credits. PREREQ: DENT 6615 OR PERMISSION OF INSTRUCTOR. Graded S/U.

DENT 6617 Progressive Dental Hygiene Practice II. 1 credit. Clinical application of advanced dental hygiene care with the use of state-of-the-art technology throughout the process of dental hygiene care. PREREQ: DENT 6616 OR PERMISSION OF INSTRUCTOR. Graded S/U.

DENT 6618 Leadership Strategies to Improve Health Care 3 credits. Application of leadership theory and models to professional issues, policy development, advocacy, coalition building, strategic planning, communication, conflict resolution and professional advancement.

DENT 6620 Advanced Educational Theory and Methods 3 credits. Study of theory, principles, and research related to the faculty role in active teaching and learning, development of ethical reasoning, critical thinking and reflective judgment, development of curricular frameworks, outcomes and competencies, and course delivery methods. PREREQ: DENT 6605 OR DEPARTMENTAL APPROVAL.

DENT 6621 Dental Hygiene Clinical Instruction and Administration 3 credits. Theory and practices of clinical instruction and supervision, related to psychomotor skill development, competency-based evaluation, student mentoring and remediation. Examination of organizational and administrative philosophy and practice in curriculum planning, implementation, and evaluation based on accreditation standards. PREREQ: DENT 6620 OR DEPARTMENTAL APPROVAL.

DENT 6625 Dental Hygiene Education Practice 2-4 credits. Individualized experience to apply principles and theories in dental hygiene education. Approval required for practicum sites. May be repeated for a maximum of 6 credits. PREREQ: DENT 6616 and 6620, OR DEPARTMENTAL APPROVAL. Graded S/U.

DENT 6630 Rural and Community Health Programs 3 credits. Study of theories, epidemiology, cultural competence, and trends impacting rural and community health care programs. Emphasizes needs assessment, planning, implementation, and evaluation of health promotion/disease prevention programs and service-learning opportunities. Cross-listed as MPH 6620 or HE 6620. PREREQ OR COREQ: DENT 6605 OR DEPARTMENTAL APPROVAL.

DENT 6631 Management Strategies for Health Care 3 credits. Study of organizational leadership and management theory in a variety of health care delivery settings. Includes planning, organization, decision making, financial management, delivery of care, insurance and reimbursement practices. PREREQ: DENT 6605 OR 6630 OR DEPARTMENTAL APPROVAL.

DENT 6635 Rural and Community Health Practicum 2-4 credits. Individualized service-learning experience designed to apply theories in rural and community health to improve access to care. Approval required for practicum sites. May be repeated for a maximum of 6 credits. PREREQ: DENT 6616 AND 6630 OR DEPARTMENTAL APPROVAL. Graded S/U.

DENT 6640 Independent Study in Dental Hygiene 2-3 credits. Specific problems selected on the basis of interest and preparation. Individualized student effort under the guidance of the instructor. May be repeated up to 6 credits.

DENT 6648 Literature Analysis and Synthesis 2 credits. Introduction to the research process and the use of scientific literature to define a theoretical basis for future research. Requires gathering evidence, searching databases, analyzing and synthesizing literature to write a literature review. PREREQ OR COREQ: UNDERGRADUATE STATISTICS OR BIOSTATISTICS COURSE.

DENT 6649 Dental Hygiene Research Methodology 2 credits. Application of principles of problem and research question formulation, sampling, design and methods, reliability and validity, and applied statistics in dental hygiene. Requires preparation of a research proposal. PREREQ: DENT 6648.

DENT 6650 Thesis 1-9 credits. Research project under supervision of academic faculty member. May be repeated. Minimum of 3 credits required. PREREQ OR COREQ: DENT 6649 AND PERMISSION OF PROGRAM DIRECTOR. Graded S/U.

DENT 6660 Rural and Community Health Practicum 2-4 credits. Individualized experience to apply principles and theories in dental hygiene education. Approval required for practicum sites. May be repeated for a maximum of 6 credits. PREREQ: DENT 6616 and 6620, OR DEPARTMENTAL APPROVAL. Graded S/U.

Department of Dental Science
Chair, IAGD Director, and Associate Professor: Crawford
IDEP Director and Assistant Professor: Ybarguen
Adjunct Faculty: Nielsen

Certificate in Idaho Dental Education Program (IDEP)

The Department of Dental Science administers the Idaho Dental Education Program (IDEP) for predoctoral dental students, and the Idaho Advanced General Dentistry Residency (IAGD) as a postdoctoral program.

The Idaho Dental Education Program is designed to provide residents of Idaho with access to a high quality dental education as if Idaho had its own dental school. The IDEP program is fully accredited as a Satellite Program of Creighton University School of Dentistry by the American Dental Association. The program involves a first year curriculum at Idaho State University in Pocatello, followed by completion of the second through fourth years at Creighton University in Omaha, Nebraska. Students completing the four year program receive the Doctor of Dental Surgery (D.D.S.) degree and are eligible to take the licensure examinations necessary to become a practicing dentist. Students may also elect to pursue advanced training through residencies or specialty programs, eventually becoming board certified in one of the recognized dental specialties.

There are eight positions available for Idaho residents. Applicants to the program must have completed the necessary prerequisites in English, Biology, Inorganic Chemistry, Organic Chemistry, Physics and other requirements as outlined in the Department of Dental Science Bulletin. In addition to fulfilling the minimal prerequisites, most students accepted into the program will have a bachelor’s degree at the time of entry into IDEP. Occasionally, some exceptional students who have completed the junior level (upper division) of college course work are admitted into the program.

Students are encouraged to work closely with their pre-dental academic advisor in making
course selections which fulfill dental school and degree completion requirements.

Formal application for admission to the IDEP program follows the guidelines printed in the Department of Dental Science Bulletin and the Creighton University School of Dentistry Bulletin. The application process involves: taking the Dental Aptitude Test (DAT), completion of the American Dental Education Association Application Service centralized application, the Creighton Suppemental Application and the IDEP Residency Certification Form. Although the application process can be completed as late as January 1 of the year the student plans to enter the program, earlier application is strongly encouraged to allow adequate time for completion of admission requirements and consideration by the admission committee.

Further information concerning the program, admission requirements, Bulletins and Residency Certification forms can be obtained by contacting the program at the following address:

Idaho Advanced General Dentistry Residency Program (IAGD)

The Department of Dental Sciences sponsors the Idaho Advanced General Dentistry Residency. The goal of the program includes increasing the knowledge and clinical skills of the general dentist beyond that achieved in the predoctoral education. Through an integrated multidisciplinary learning environment, residents are able to increase their competence in the application of modern standards of care and practice management.

This one-year residency focuses on providing comprehensive care in a variety of clinical settings, emphasizing rural, underserved, and at-risk populations. Residents also receive training with patients who have emergency or episodic needs. A certificate is awarded upon the successful completion of the program.

The IAGD is fully accredited by the American Dental Association Commission on Dental Accreditation until 2008.

Further information concerning this program, e.g., admission requirements, forms, etc., can be obtained by contacting the Program Director.

Idaho Advanced General Dentistry Courses

| IAGD 6610 | General Dentistry Practicum I | 12 credits |
| IAGD 6620 | General Dentistry Practicum II | 12 credits |
| IAGD 6625 | Dental Practice Management II | 1 credit |
| IAGD 6626 | Dental Practice Management III | 1 credit |
| IAGD 6630 | Dental Implantology I | 1 credit |
| IAGD 6631 | Dental Implantology II | 1 credit |
| IAGD 6632 | Dental Implantology III | 1 credit |
| IAGD 6633 | Dental Medicine Seminar I | 1 credit |
| IAGD 6634 | Dental Medicine Seminar II | 1 credit |
| IAGD 6635 | Dental Medicine Seminar III | 1 credit |
| IAGD 6640 | Dental Conscious Sedation | 12 credits |
| IAGD 6641 | Dental Conscious Sedation II | 2 credits |
| IAGD 6645 | General Dentistry Videoteleconference I | 4 credits |

The IAGD 6610 General Dentistry Practicum I course focuses on supervised provision of general dental services with emphasis on increasing skills in routine general dental procedures and introduction to selected specialty procedures. Course may include periodic lectures on selected topics. PREREQ: ACCEPTANCE INTO IAGD PROGRAM.

The IAGD 6620 General Dentistry Practicum II course continues provision of general dental services with emphasis on increasing skills in advanced general dental procedures and completion of selected specialty procedures. Course may include periodic lectures on selected topics. PREREQ: IAGD 6610.

The IAGD 6625 Dental Practice Management II course focuses on experiential course in dental practice management. Enrollees will participate in aspects of the management of the AEGD program's dental clinic. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.
LUGD 6646 General Dentistry Video Teleconference II 4 credits. Continuing participation in the weekly two-way video-teleconference general dentistry series originating from Lutheran Medical Center in Brooklyn, NY, designed for AEGD programs. PREREQ: IAGD 6645.

LUGD 6647 General Dentistry Video Teleconference III 3 credits. Continuing participation in and presentation for the weekly two-way video teleconference general dentistry series originating from Lutheran Medical Center in Brooklyn, NY, designed for AEGD programs. PREREQ: IAGD 6646.

LUGD 6650 Dental Literature Review 1 credit. Critical review of current and historical dental literature in general dentistry and selected recognized specialty areas of dentistry. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

LUGD 6651 Dental Literature Review II 1 credit. Continuing review of current and historical dental literature in general dentistry and selected recognized specialty areas of dentistry emphasizing outcomes and parameters of care. PREREQ: IAGD 6650.

Idaho Dental Education Program Courses

IDEP 5513 Dental Anatomy Lecture I 1 credit. Nomenclature, chronology and methods of designation of human teeth. Form, size and contour of the teeth, including external and internal anatomy of the permanent and deciduous teeth, intertooth relations and occlusion. COREQ: IDEP 5514

IDEP 5514 Dental Anatomy Laboratory 3 credits. Carving of plaster teeth larger than average measurements and carving of wax teeth to natural size. Mounting of study casts on a functional articulator and waxing of teeth in occlusion. COREQ: IDEP 5513

IDEP 5515 Dental Materials Science I 2 credits. Composition, properties and application of the materials used in dentistry. Basic information on the design of preparatory work necessary for the mouth incident to the reception of these materials.

IDEP 5517 Interpersonal Relationships and Communication I 1 credits. To assist their orientation and adjustment to professional education, freshmen will participate in group introductions followed by a discussion on interpersonal relationships with classmates, administrators, faculty, and staff; dealing with stress; and establishing study habits.

IDEP 5523 Preventive Dentistry 2 credits. Introducing the philosophy and need for preventive dentistry by developing the student's knowledge of and skills for effective oral hygiene. Concepts of self-motivation, knowledge of dental diseases and abnormalities; application of the principles of fluoridation, nutrition, patient motivation, and home care.

IDEP 5525 History of Dentistry 1 credit. To acquaint the student with the history of dentistry from ancient times to present, emphasis is placed upon contributions by individuals and groups of individuals leading to the current status of dentistry in the United States.

IDEP 5526 Community Dentistry Field Experience I 1 credit. Designed to acquaint students with area health problems and with area health services and agencies. Field experience is gained during dental health and/or career presentations in public schools. To provide a variety of experiences, visits are made, for example, to the chronically ill, aged, or handicapped; to water purification facilities; to Indian groups.

IDEP 5533 Oral Hygiene Technique 1 credit. Introduction to the instruments and their usage in performing a complete scaling prophylaxis of the teeth. Perodontal charting and instrument sharpening techniques are also performed. Didactic, laboratory, and clinical introduction.

IDEP 5534 Dental Materials Science II 3 credits. Continuation of ISU DENT 5515. PREREQ: ISU DENT 5515.

IDEP 5535 Occlusion Laboratory 1 credit. Various exercises simulating clinical diagnostic and treatment procedures are employed to exemplify principles of maxillomandibular relationships. COREQ: IDEP 5554

IDEP 5544 Values and Ethics 1 credit. Designed to identify and understand one's own ethical decision-making processes and the relationship of religion with values and ethics. Students will discuss the areas of value of care for people as individuals, challenges of personal and professional opportunities, code of ethics of the ADA and dental care delivery systems.

IDEP 5545 Occlusion Lecture 1 credit. Basic principles of maxillomandibular relationships, static and functional, as related to the occlusal surfaces of the teeth. COREQ: IDEP 5535

IDEP 5563 Dental Radiology I I 1 credit. History, theory, and application of ionizing radiation resulting in radiography of the oral structures; including exposure and developing parameters along with basic interpretation. COREQ: IDEP 5564.

IDEP 5564 Dental Radiology Technique 1 credit. Practical experience in exposing and developing dental radiographs. The course will include techniques required to complete a diagnostic full mouth series, bitewing films and panoramic radiographs. COREQ: IDEP 5563.

IDEP 5565 Dental Radiology II I 1 credit. History, theory, and application of radiographic methods in dentistry including cephalometric, panoramic, and digital modalities. COREQ: IDEP 5563 and IDEP 5564.

IDEP 6617 Extramural Dental Education Program 2 credits. Community clinical experience at the ISU dental clinic. Under direct supervision, dental students observe and participate in patient care and office management while serving Idaho residents who would not normally receive dental care.

Department of Health and Nutrition Sciences

Chair and Professor McAleese
Professors: Rankin
Assistant Professors: Batacan, Blanton, Celucci, Louis, Olsen, Weeden
Joint Appointment Faculty: Piland
Clinical Faculty: Grimm, McKnight, Salazar, Schneider
Adjunct Faculty: D’Amico, Hanson, Lovell, St. Hilaire, Thomas, Vance

Master of Health Education (MHE)

The master's degree program in Health Education is designed to prepare students to teach strategies in health promotion/disease prevention. Coursework emphasizes the acquisition of skills to assess, plan, implement, and evaluate health education programs in the school, community, or worksite setting.

Admission Requirements

To be accepted as a applicant for the Master of Health Education degree, the student must apply to, and meet all criteria for, admission to the Graduate School. In addition, the Department of Health and Nutrition Sciences may require: (1) the applicant to have necessary background in the related natural sciences, and (2) that the applicant have the necessary background in tests and measurements and basic statistical procedures. Both thesis and non-thesis options are available.

Entrance Procedure

The Program Director and Department Chair will review MHE applications. Admission standards and application procedures are presented in the Graduate Catalog. The Program Director and the Chair will admit prospective students who satisfy the MHE Program and Graduate School admission requirements. Applicants who do not completely satisfy requirements are referred to the Health and Nutrition Sciences (HNS)Admissions Committee (the Chair, MHE Director, and HNS graduate faculty) to determine recommended admission or denial.

For classified admission into the program, applicants must satisfy the following criteria:
1. The student must apply to, and meet all criteria for, admission to the Graduate School.

2. Submit all previous college transcripts and have a cumulative undergraduate grade point average of at least 3.0 in upper division courses. An applicant who currently holds a graduate degree must submit transcripts, but the undergraduate GPA requirement will not be part of departmental consideration.

3. Submit two letters of recommendation from individuals (non-relatives) who are familiar with their abilities. The letters should be sent to the Department of Health and Nutrition Sciences at the same time the application is sent to the Graduate School.

4. Applicants must submit a typed essay (one to two pages, single spaced) describing their interest in pursuing the MHE degree and their vision of how it will facilitate their career goals.

Applicants currently holding degrees at the doctoral level from an accredited institution will not be required to submit GRE general test scores, except for applicants who have a professional doctoral degree (e.g., PharmD and Juris Doctorate). Those holding degrees at the baccalaureate and master’s level must submit GRE general test results to the Graduate School.

**Master of Public Health (MPH)**

Public health has as a basic goal to improve the health of populations through planning, implementing, and evaluating health promotion and disease prevention programs. Public health professionals design these intervention health programs by using a combination of health education and related organizational, economic, legislative, and environmental supports to enhance the probability of creating a healthier populace.

The Master of Public Health Program curriculum prepares individuals to carry out the following core public health functions as defined by the American Public Health Association: assess both the health needs and the resources available in a community, assist in health policy development that supports programs in prevention, and assure that necessary, high quality, effective services including education are available to every citizen.

To meet this challenge, the MPH degree at Idaho State University is designed to meet the needs of two types of students: (1) those practicing health professionals who desire to augment their previous preparation so they may better implement health promotion strategies in their current work setting or community, and (2) those professionals who wish to train for careers in public health.

Core courses focus on the acquisition of requisite public health knowledge and skills in the disciplines of epidemiology, biostatistics, health policy management, social and behavioral sciences and environmental health. Elective courses allow the student to focus additional coursework in her/his chosen area of interest.

**Admission Requirements**

For classified admission into the program, applicants must satisfy the following criteria:

1. The student must apply to, and meet all criteria for, admission to the Graduate School.

2. Meet one of the following GPA and GRE criteria (NOTE: GPA calculation based on the last 60 hours of undergraduate work):

   - If GPA is 3.5 or higher, then NO GRE is required.
   - If GPA is 3.0 - 3.49, then a score in the 40th percentile on at least one of the GRE is required.
   - If GPA is 2.5 - 2.999, then a combined (verbal/quantitative) GRE minimum score of 1000 is required

3. An applicant who currently holds a graduate degree must submit all transcripts, undergraduate and graduate. College transcripts must be submitted to the Idaho State University Graduate School.

4. No other instruments such as the MCAT, LSAT, or GMAT may be substituted. Applicants currently holding degrees at the doctoral level from an accredited institution will not be required to submit GRE general test scores (this includes professional doctoral degrees such as PharmD, Juris Doctorate, Medical Doctor, Doctor of Osteopathy, Doctor of Veterinary Medicine). Those holding degrees at the baccalaureate and master’s level must submit GRE general test scores if they do not meet the 3.5 GPA standard in item 2 above. Students who are admitted as Classified w/PR status without GRE scores must take the general test within their first semester of enrollment. Continuation in the program is contingent on the student meeting GRE score requirements. GRE scores must be submitted to the Idaho State University Graduate School.

5. Have two letters of recommendation from non-relative individuals familiar with the applicant's academic or professional abilities (no personal references) sent to the Department of Health and Nutrition Sciences at the same time the application is sent to the Graduate School. The letters must be sealed with the signature of the recommender across the envelope flap.

6. Two years of experience working in the health field is preferred for admission. A B.S. or B.A. degree in health or a health-related discipline may substitute for working experience. Applicants will be evaluated on an individual basis.

7. Submit a typed essay (one to two pages, single spaced) describing the applicant's interest in pursuing the MPH degree and vision of how it will facilitate the applicant's career goals.

8. International students who have not graduated from an accredited college or university in the United States, and whose native language is not English, must achieve satisfactory scores on the Test of English as a Foreign Language (TOEFL). Satisfactory TOEFL requirements for classified admission are described in the Idaho State University Graduate Catalog under "Admission of International Students." In addition, international student applicants who have not graduated from an accredited college or university in the United States must take the GRE and are required to score in the 40th percentile on at least one area of the GRE.
General Requirements:

Applicants’ transcripts will be evaluated by the Departmental Graduate Admissions Committee at the time of application to determine if deficiencies exist in the undergraduate coursework. Any deficiency that is identified must be made up prior to beginning the MPH program. Committee members will specify to the student courses that must be taken to rectify any deficiency.

Students pursuing the MPH degree must complete a minimum of 48 credits of coursework, including a 6-credit thesis and 9 credits of elective course work.

All students must maintain a satisfactory record of scholarship. A 3.0 grade point average (GPA) is required for any graduate degree or certification at Idaho State University. A grade of C+ or lower is essentially failing at the graduate level. However, the department may accept a C+ grade in one or two courses as long as the minimum overall 3.0 GPA is maintained.

Course Requirements

MPH/HE 5510 Behavior Change Theory and Applications 3 cr

Health Education Graduate Courses

HE 5501 Issues in Health and Wellness 1-3 credits. Contemporary health and wellness issues emphasizing education interventions and application. Topics may include: death and dying, computer technology in health, healthy aging, motivation, emergency preparedness, alternative and complementary medicine, international health. May be repeated to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

HE 5510 Behavior Change Theory and Applications 3 credits. Provides a basic understanding of the social, emotional, and lifestyle factors related to health behavior. Strategies designed to identify barriers to behavior and to enhance the health of selected populations are examined. Cross-listed with MPH 5510. PREREQ: PERMISSION OF INSTRUCTOR.

HE 5525 Patient Education Skills 2 credits. Explores the foundations and application of organizational and communication skills which promote a positive atmosphere for patient education in clinical and worksite settings.

HE 5542 Environmental Health and Health Education 3 credits. Study of a variety of issues related to protecting and preserving the environment with an emphasis on school and community educational programs. PREREQ: ADMISSION TO HEALTH AND NUTRITION SCIENCES PROGRAM OR PERMISSION OF INSTRUCTOR.

HE 5543 Substance Abuse and Health Education 3 credits. Study of the physical, psychological, sociological, and environmental factors related to drug use with emphasis on school and community prevention programs. PREREQ: ADMISSION TO HEALTH AND NUTRITION SCIENCES PROGRAM OR PERMISSION OF INSTRUCTOR.

HE 5545 Human Sexuality and Health Education 3 credits. Study of the multifaceted nature of human sexuality with an emphasis on school and community-level educational programs. PREREQ: ADMISSION TO HEALTH EDUCATION PROGRAM OR PERMISSION OF INSTRUCTOR.

HE 5585 Independent Problems in Health Education 1-3 credits. Individual work under staff guidance. Field and/or library research on specific health education problems of interest to majors and minors. Permission of instructor. May be repeated up to 6 credits.

HE 5591 Health Education Workshop 1-3 credits. A critical analysis of one or more areas of health education. Limited enrollment. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

HE 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

HE 6605 Leadership Policy and Administration 3 credits. Development of leadership and administrative skills which contribute to implementation of effective public health policies and programs. Students will learn strategic planning, facilitation techniques, communication strategies, budget development, and management. Cross-listed with MPH 6605. PREREQ: PERMISSION OF INSTRUCTOR.

HE 6620 Health Program Planning and Evaluation 3 credits. Theory and processes of assessment, planning, implementing, and evaluating health education, promotion, and disease prevention programs. Principles taught in this course will be applied to community situations. Cross-listed as MPH 6620.

HE 6623 Curriculum and Supervision 3 credits. Consideration of the health education curriculum in public schools and in colleges and universities. Recent developments and current trends that influence the curriculum and supervision policies. Observation techniques, standards in judging instruction, the supervisory conference, cooperative supervision, basic foundation of curriculum construction, and lesson planning.

HE 6639 Teaching Strategies in Health 3 credits. An advanced study of strategies and innovative methods of teaching health education. Emphasis on application to a variety of educational levels.

HE 6648 Problems in Health Education 1-3 credits. Individual and group study of problems in the area of health. May be repeated to 6 credit hours. PREREQ: APPROVAL OF ADVISOR AND/OR CHAIRPERSON. Graded S/U.

HE 6650 Thesis 1-6 credits. Graded S/U. May be repeated.

HE 6651 Master’s Project in Health Education 3 credits. Graded S/U. May be repeated.

HE 6655 Internship 1-3 credits. Administration, supervision and operation of a community health program. Students work under the direction of a graduate faculty member and practicing administrator. May be repeated up to 3 credits. PREREQ: APPROVAL OF ADVISOR AND/OR CHAIR. Graded S/U.

Master of Public Health Graduate Courses

MPH 5510 Behavior Change Theory and Applications 3 credits. Provides a basic understanding of the social, emotional, and lifestyle factors related to health behavior. Strategies designed to identify barriers to behavior and to enhance the health of selected populations are examined. Cross-listed with HE 5510. PREREQ: PERMISSION OF INSTRUCTOR.

MPH 6601 Applications in Epidemiology 3 credits. Facilitates an epidemiological approach to problem solving in the health sciences through practical application of field epidemiology concepts and methods. PREREQ: HE 3383.

MPH 6602 Biostatistics 3 credits. This course will equip students with a conceptual understanding of the calculation and interpretation of inferential statistics in public health research. PREREQ: PERMISSION OF INSTRUCTOR.

MPH 6604 Social and Cultural Perspectives in Public Health 3 credits. Exploration of multicultural health beliefs, health disparities and needs of our society focusing on local cultures to develop culturally competent interventions. Learn about ethical issues, social justice, community systems, coalition building, and development of community partnerships.

MPH 6605 Leadership Policy and Administration 3 credits. Development of leadership and administrative skills which contribute to implementation of effective public health policies and programs. Students will learn strategic planning, facilitation techniques, communication strategies, budget development, and management. Cross-listed with HE 6605.
**Understanding the Interaction of Humans with Their Environment and the Implications of Human Actions.** Learn about assessment and control of health risks posed by chemical and biological contaminants and physical exposures (noise, heat, and radiation) in occupational and non-occupational environments.

**MPH 6607 U.S. and Global Health Systems 3 credits.** Explore the historical and contemporary multi-layered social, cultural, political, and economic determinants in the US and internationally that shape health status, health behavior, and health inequalities. Practical application of creating appropriate interventions specific to the target population.

**MPH 6608 Technological Applications in Public Health 3 credits.** Introduction and application of software programs utilized in public health practice. Examples include SPSS, MS Excel, GIS, EpInfo, MS Publisher. PREREQ: MPH 6601, 6602.

**MPH 6609 Seminar in Public and Community Health 3 credits.** Study of topics, trends and challenges within public health.

**MPH 6620 Health Program Planning and Evaluation 3 credits.** Theory and processes of assessment, planning, implementing, and evaluating health education, promotion, and disease prevention programs. Principles taught in this course will be applied to community situations. Cross-listed as HE 6620.

**MPH 6632 Community Health 3 credits.** A study of the role of nutrition education/promotion in the community setting. Emphasis on methods to build coalitions to address community health concerns and on the role of needs assessment.

**MPH 6640 Research and Writing in Health 3 credits.** Application of principles of research design in the health sciences. Requires preparation of a thesis/project proposal. Cross-list with MHE 6640.

**MPH 6650 Thesis 1-6 credits.** Completion of a thesis/manuscript. Practical application of knowledge/skills in a public health setting. Graded S/U. May be repeated. PREREQ: MPH 6601, 6602, 6603, 6620, AND 6640.

**MPH 6655 Public Health Internship 3 credits.** Application of skills in a public health agency, organization or other entity to provide the student with practical experience in the field. Graded S/U. May be repeated.

**Nutrition and Dietetics Graduate Courses**

**NTD 5509 Professional Readings 1-3 credits.** Identification and investigation of conceptual ideas about the relationship of programs, trends, legislation, and developments in food and nutrition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**NTD 5520 Nutrition Education Strategies 2 credits.** Methods, materials, and evaluation procedures utilized in teaching nutrition to various audiences. Practical experiences for students in effectively educating consumers about nutrition. PREREQ: CFS 1139 OR CFS 2239.

**NTD 5539 Sports Nutrition 3 credits.** Nutrition recommendations for competitive and recreational athletic performance. Rationale for nutrition practices through an examination of individual nutrient metabolism. Controversies and misinformation addressed. PREREQ: NTD 2239 SUGGESTED.

**NTD 5557 Experimental Foods 3 credits.** Development of experimental methods and their application to cookery and food technology; preparation of student for independent investigation in foods; acquaintance with literature in the field. Two hours lecture/four hours laboratory. PREREQ: NTD 1104 or equivalent.

**NTD 5561 Nutritional Biochemistry 3 credits.** Advanced study of nutrition science, including protein, carbohydrate, lipid, vitamin, and mineral metabolism. Introduction to research methodology and professional literature. PREREQ: NTD 2239, CHEM 1102.

**NTD 5581 Special Problems in Nutrition and Dietetics 1-2 credits.** Students select problems on the basis of special needs, interests, or abilities and work on them independently in the laboratory, library, or community, with regular conferences with the advisor. PREREQ: Permission of instructor.

**NTD 5585 Nutritional Biochemistry II 3 credits.** Human metabolism in health and disease. Emphasizes interrelationships among hormones, carbohydrates, proteins, lipids, vitamins and minerals within tissues and organs. PREREQ: CHEM 1102 or higher and NTD 2239.

**NTD 5591-5592 Special Problems in Nutrition and Dietetics 1 & II 1-2 credits.** Students select problems on the basis of special needs, interests or abilities, and work on them independently in the laboratory, library, or community with regular conferences with the advisor. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**NTD 5595 Dental Nutrition 1 credit.** This course reviews the role of nutrition in attaining and maintaining optimal oral health. The course explores how the essential nutrients influence oral health. This course is only available to students in the Idaho Dental Education Program in the Department of Dental Science.

**NTD 6620 Nutritional Epidemiology 2 credits.** Specialized study of epidemiology including nutritional assessment methods, interrelationships between disease, diet, and health status, and implications for public health policy.

**NTD 6622 Maternal, Infant, and Child Nutrition 2 credits.** Advanced study of nutrition in human growth and development during pregnancy, lactation, infancy, childhood, adolescence. Therapeutic nutritional management of diseases specific to pregnancy, infancy, and childhood are addressed.

**NTD 6624 Nutrition and Aging 2 credits.** Exploration of the physiologic, psychosocial, and chronic degenerative conditions associated with aging and the nutritional implications of each. Epidemiological basis for setting dietary goals and program development to support the nutritional needs of the elderly is addressed.

---

**Department of Health Care Administration**

Associate Professor and Chair: Cellucci Professor: Assistant Professor: Farnsworth

**Health Care Administration Graduate Courses**

*(No Graduate Degrees Offered)*

**HCA 5550 Special Topics in Healthcare 1-3 credits.** Topics relevant to health professionals. May be repeated for up to 9 credits with different titles or content. Graded S/U.

**HCA 5573 Marketing for Health Care Organizations 3 credits.** Current marketing trends in the health care marketplace. Consumer orientation; health care marketing plans and strategy development.

**HCA 6610 Industry in Transition 2 credits.** Current readings from the popular and academic literature are used to explore and to understand the critical aspects of access, cost, and quality health care delivery across all areas of the industry.

**HCA 6615 Health Services Management 3 credits.** Determination and fulfillment of mission, plans, and structure, motivating individuals, and managing activities to support people in their work and in the achievement of their goals.

**HCA 6620 Economics and Reimbursement 2 credits.** In-depth synthesis of the insurance and reimbursement practices in today's health care environment, and the economic foundations upon which they are based.

**HCA 6625 Healthcare Law and Bioethics 3 credits.** Comprehensive coverage of legal issues and the ethical implications of the law as applied to regulation and licensure, health care financing, Medicare and Medicaid, health care reform, and other relevant current issues.

**HCA 6630 Financial Management 3 credits.** The application of financial management principles, practices, and techniques used in health care organizations. Financial tools as decision making, strategy, and planning tools.

**HCA 6635 Healthcare IT and Quality 2 credits.** Healthcare IT management framework, hardware and software, project management, and the collection, use, security of health information, external
the introduction to, and analysis of, health insurance in the United States. Select topics include reimbursement systems, public and private health insurance; their impact on patients, organizations, society, care delivery modes, and clinical and managerial quality.

HCA 6680 Applied Topics in Health Care 3 credits. Advanced readings and analysis in the areas of health economics, health finance, social aspects of medicine, bioethics, public health and epidemiology.

HCA 6682 U.S. Health Systems and Policy 3 credits. An examination of U.S. health industry, systems, and organizations from the four-point perspective of access, quality, finance, and policy.

HCA 6691 Independent Problems in Health Care Administration 1-3 credits. Individual work under faculty guidance may be repeated for up to 6 credits.

School of Nursing

Associate Dean/Director and Associate Professor: Ashton
Assistant Director for Graduate Programs and Assistant Director for Undergradu-

ate Programs and Assistant Professor: Renn
Professor: Neill
Associate Professors: Arvidson, Molinari, Patillo
Clinical Associate Professors: Mlandenka, Murphy, Reynolds
Clinical Assistant Professors: Brook, Damstrom, Friell, Goodwin, Hewett, Jardin-Dickerson, Klaus, Lassere, Marquette, Ovitt, Funkoney, Pesnell, Reiland
Clinical Instructor: Quiroz
Emeriti Faculty: Jacobson, McLaughlin, McRoberts, Sato

Master of Science in Nursing

This program is offered fully online and requires 39-53 credits depending upon the option. Full- and part-time study programs are available in the following options: Clinical Nurse Leader, Clinical Nurse Specialist, Family Nurse Practitioner, Nursing Education, and Nursing Leadership. All students are required to enroll in 5 core courses (16 credits). To develop clinical expertise, students are introduced to advanced knowledge and practice of nursing. Two pathways are available for the MS degree: AD-MS and BS-MS. A certificate program in available in all options for nurses with a master's degree who seek advanced preparation in a specialty.

Students enrolled in the Clinical Nurse Leader option are prepared to direct outcomes management for a distinct patient population, actively provide direct patient care and implement evidence-based practice to ensure patients benefit from the latest care delivery innovations. Students enrolled in the Clinical Nurse Specialist option will be prepared to care for adults with complex medical-surgical problems in a variety of acute and long term care settings. Students enrolled in the Family Nurse Practitioner option will gain expertise in primary care of families and individuals in rural and non-rural communities. Students enrolled in the Nursing Education option will be prepared to teach in an academic nursing program. Students enrolled in the Nursing Leadership option will be prepared as administrators and leaders in a variety of health care settings.

Application Requirements

BS-MS Pathway

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, the following must be complied with:

1. Application forms to the School of Nursing and the Graduate School. Each application requires a separate application fee. Deadline for application is February 2.

2. GRE scores.

3. Transcript of undergraduate work for BS-MS applicants. Transcripts of undergraduate and graduate work for Certificate applicants.

4. Three professional (not personal) references submitted on the School of Nursing forms.

5. An interview will complete the admission process.

Admission Requirements

BS-MS Pathway

1. A completed application as described previously.

2. Graduation from a nationally accredited baccalaureate nursing program.

3. Undergraduate cumulative grade point average of at least 3.0 in the last two years of undergraduate study.

4. GRE scores.

5. Active Idaho Registered Nurse license in good standing (or compact state).

6. Minimum of 3 credits of descriptive and inferential statistics with a grade of C or better.

NOTE: Admission is competitive. Achievement of minimum GPA and GRE requirements do not guarantee admission to the program. Consideration for admission includes all application data.

Progression of Master's Students

1. Progression criteria established by the Graduate School.

3. The following will constitute grounds for dismissal from the graduate program:

   • A grade of "C-" or below or "U" in any Program of Study course.
• A grade of "C-" or below in any Program of Study course with an associated Lab.
• More than three credits of "C-" or "C" in any Program of Study course not associated with a Lab.

4. Removal of incompletes by midterm of the subsequent semester.
5. Current CPR (BLS) certification, TB screening, up-to-date immunizations, and criminal background check are required.

Graduation Criteria
To qualify for graduation with a MS in Nursing, students must:
1. Successfully pass a written and oral comprehensive examination.

AND
2. The student must apply to, and meet all criteria to fulfill graduation requirements.

AD-MS Pathway
This degree pathway is designed to provide an accelerated program for nurses with an Associate Degree (AD) to be directly admitted into the master's nursing program. The AD nurse will receive a BS degree while completing coursework related to completing one of the nursing graduate program options.

Following admission to the School of Nursing graduate program, students will be eligible to take NURS 4404, the required five (5) credit nursing baccalaureate bridge course. Another 14 credits of undergraduate coursework must be completed prior to taking graduate courses. These 19 credits must be taken at a four-year institution. Students who received their AD out-of-state or prior to 1995 may be required to complete additional coursework.

Application deadline is October 1. Baccalaureate bridge coursework will be completed the subsequent spring semester and students will begin the graduate program the next summer/fall. The application and admission process is available on the School of Nursing website.

Requirements for Application (AD-MS Pathway)
1. A completed School of Nursing application.
2. A completed Graduate School application.

3. Graduation from an accredited nursing program with an Associate of Arts, Associate of Science, or Associate of Arts and Sciences degree.
4. Cumulative GPA of 3.0 or better.
5. Active Idaho Registered Nurse license in good standing (or compact state).

NOTE: Admission is competitive. Achievement of minimum GPA and GRE requirements do not guarantee admission to the program. Consideration for admission includes all application data.

Post-Master's Nursing Certificate Option
Applicants must have received a graduate degree from a nationally accredited program. To receive a Post-Master's Certificate, students must:
1. Meet all School of Nursing and Graduate School admission and progression criteria.
for the Master of Science in Nursing degree
for the option in which they enroll (no GRE
required).
2. Successfully complete a minimum of 12
credits from Idaho State University.
3. Successfully complete all prerequisite
courses with a grade of B or better.

The Graduate Nursing Council approves
prerequisite courses prior to or at the time
of admission to the certificate program. In
addition, students may transfer up to 9 credit
hours of required coursework with approval
of the Nursing Graduate Council.

Prerequisites for Admission to
All Options:
NURS 6600 Theoretical Foundations for
Nursing Practice 3 cr
NURS 6602 Health Policies and Issues 3 cr
NURS 6610 Advanced Evidence Application 4 cr
NURS 6621 Advanced Nursing Roles 3 cr

Additional Prerequisites for
CNL, CNS, FNP Options
NURS 6611 Advanced Health Assessment 2 cr
NURS 6611L Advanced Health Assessment Lab 3 cr
BIOL 5563 Human Pathophysiology 4 cr
PHAR 6645 Pharmacotheptics for Nurse Practitioners 3 cr

Additional Prerequisite for
Education Option
BIOL 5563 Human Pathophysiology 4 cr

Required Coursework:
Clinical Nurse Leader Option
NURS 6612 Health Care of Rural Communities 3 cr
NURS 6652 Administrative Approaches to Nursing Leadership 3 cr
NURS 6660 Care Environment Management 2 cr
NURS 6660L Care Environment Management Lab 1 cr
NURS 6661 Clinical Outcomes Management 2 cr
NURS 6661L Clinical Outcomes Management Lab 2 cr
NURS 6662 CNL Practicum 6 cr

Required Coursework:
Clinical Nurse Specialist Option
NURS 6604 Health Promotion 2 cr
NURS 6612 Health Care of Rural Communities 3 cr
NURS 6657 Advanced Adult Health Nursing I 3 cr
NURS 6657L Advanced Adult Health Nursing I Lab 1 cr
NURS 6658 Advanced Adult Health Nursing II 3 cr
NURS 6658L Advanced Adult Health Nursing II Lab 2 cr
NURS 6659 Advanced CNS Practicum 6 cr

Required Coursework: Family Nurse Practitioner Option
All students who are currently licensed nurse
practitioners (adult, pediatric, geriatric, etc.)
and desire the FNP post-master's certificate
must complete a combined 816 clinical con-
tact hours from their first NP program and
the ISU NP program.
NURS 6604 Health Promotion 2 cr
NURS 6612 Health Care of Rural Communities 3 cr
NURS 6642 Primary Care of the Young Adult 3 cr
NURS 6642L Primary Care of the Young Adult Lab 2 cr
NURS 6643 Primary Care of the Child and Adolescent 3 cr
NURS 6663L Primary Care of the Child and Adolescent Lab 2 cr
NURS 6644 Primary Care of the Middle and Older Adult 3 cr
NURS 6644L Primary Care of the Middle and Older Adult Lab 2 cr

Students who are not licensed nurse practitioners must also complete the following
additional course:
NURS 6646 NP Practicum 8 cr

Required Coursework:
Nursing Education Option
NURS 6612 Health Care of Rural Communities 3 cr
NURS 6633 Rethinking Nursing Education 3 cr
NURS 6635 Curriculum Issues and Development 3 cr
NURS 6639 Teaching and Learning Strategies 3 cr
NURS 6640 Evaluation Issues and Strategies 3 cr
NURS 6647 Advanced Practicum in Nursing Education 6 cr

Required Coursework:
Nursing Leadership Option
NURS 6612 Health Care of Rural Communities 3 cr
NURS 6652 Administrative Approaches to Nursing Leadership 3 cr
NURS 6653 Organizational Behavior in a Changing Health Care System 3 cr
NURS 6654 Financial Management 3 cr
NURS 6655 Advanced Leadership 3 cr
NURS 6655L Advanced Leadership Lab 2 cr
NURS 6656 Advanced Leadership Practicum 4 cr

Nursing Graduate Courses
NURS 4404 Professional Role Expansion 5 credits. A study of nursing theories and philosophy
as well as an integration of community, leadership,
management, and informatic principles to prepare
the Associate Degree to Master of Science nurse
to function in the changing health care environ-
ment. PREREQ: ADMISSION TO THE AD-MS
PROGRAM.
NURS 5517 Interdisciplinary Evaluation Team 1 credit. Introduction to the principles and techniques
associated with interdisciplinary evaluation. Disciplines emphasized: Audiology, Nursing,
Physical Therapy, Psychology, Social Work, Special Education,
Speech-Language Pathology. Cross-listed as
PSYC 5517, SOWK 5517, CSED 5517.
NURS 6600 Theoretical Foundations for Nursing Practice 3 credits. Critical examination of
the development of nursing knowledge; critique,
evaluate and apply a variety of theories from
nursing, family and related disciplines as a base
for advanced nursing practice.
NURS 6602 Health Care Policy and Finance 3 credits. Analysis of policy research relevant to
health care, finance and integrated care systems.
Evaluate effects of local, regional, national, and
international health policy and trends on delivery
systems and advanced nursing practice. PREREQ:
NURS 6600.
NURS 6604 Health Promotion and Disease Pre-
vention for Advanced Practice Nurses 2 credits.
Identification of risk factors and critical examination of
screening and therapeutic interventions employed
in health promotion and disease prevention across
age and culture in diverse populations. PREREQ:
NURS 6600.
NURS 6610 Advanced Evidence Application 4 credits. Application of evidence to advance nurs-
ing practice. Includes issue identification, research
process, statistical principles, and outcomes evalu-
ation PREREQ: NURS 6600.
NURS 6611 Advanced Health Assessment 2 credits. Concepts of advanced health assessment
required for advanced nursing practice in various
settings and diverse populations. Introduction
to differential diagnosis and clinical reasoning
skills. PREREQ: BIOL 5563; COREQ: NURS 6600,
6611L.
NURS 6611L Advanced Health Assessment Lab 3 credits. Acquisition and application of advanced
health assessment, skills in diverse populations.
Skills include health history, physical assessment
and health promotion. PREREQ: BIOL 5563;
COREQ: NURS 6611. Graded S/U.
NURS 6612 Health Care of Rural Communities 3 credits. Utilize appropriate epidemiological,
social, and environmental data sources to conduct rural
community assessment. Emphasis on developing
culturally relevant care systems at the community
level. PREREQ: NURS 6610.
NURS 6621 Advanced Nursing Roles 3 credits.
Integration of theory and research related to role
development, transition and ambiguity in
advanced nursing practice. Emphasis on evaluation
of health care delivery, ethical decision-making,
partner development, collaborative practice
and accountability for quality. COREQ: ONE OF
THE FOLLOWING COURSES DEPENDING
UPON OPTION: NURS 6646, 6647, 6656, 6659,
OR 6662.
NURS 6633 Rethinking Nursing Education 3 credits. Theoretical perspective on teaching and
learning in nursing education, creating a theoretical
base for the education curriculum. The learners will
examine theories of learning and adult learning and
explore their application to nursing education.
NURS 6635 Curriculum Issues and Development 3 credits. Examination of various external
and internal issues influencing nursing curricu-
lum. Curriculum components and designs will be
explored and a model curriculum developed.
PREREQ: NURS 6633.
NURS 6636 Special Problems 1-3 credits. Inde-
pendent study under faculty guidance. May be re-
peated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

NURS 6639 Teaching and Learning Strategies in Nursing Education 3 credits. Exploration of a variety of strategies to facilitate achievement of curriculum outcomes. The use of current technology and learner-centered strategies are emphasized. PREREQ: NURS 6633.

NURS 6640 Evaluation Issues and Strategies in Nursing Education 3 credits. Examination of issues surrounding program and student evaluation. Plans for formative and summative evaluation will be developed. COREQ: NURS 6633.

NURS 6642 Primary Care of the Young Adult 3 credits. Management and evaluation of primary care problems in the young adult. Provides the student with knowledge to assist individuals with common health problems, while integrating the concepts of health promotion. PREREQ: NURS 6611, 6611L, PHAR 6645; COREQ: 6642L.

NURS 6642L Primary Care of the Young Adult Lab 2 credits. Delivery of advanced nursing care to young adults and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6611, 6611L, PHAR 6645; COREQ: NURS 6642. Graded S/U.

NURS 6643 Primary Care of the Child and Adolescent 3 credits. Management and evaluation of primary care problems of children, adolescents and their families in a variety of ambulatory settings. The initiation of health promotion and maintenance activities is stressed. PREREQ: NURS 6642, 6642L; COREQ: NURS 6643L.

NURS 6643L Primary Care of the Child and Adolescent Lab 2 credits. Delivery of advanced nursing care to children and adolescents and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6642, 6642L; COREQ: NURS 6643. Graded S/U.

NURS 6644 Primary Care of the Middle and Older Adult 3 credits. Management and evaluation of primary care problems of middle and older adults, including acute episodic and chronic illnesses. The initiation of health promotion and maintenance activities is stressed. PREREQ: NURS 6642, 6642L; COREQ: NURS 6644L.

NURS 6644L Primary Care of the Middle and Older Adult Lab 2 credits. Delivery of advanced nursing care to middle and older adults and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6642, 6642L; COREQ: NURS 6644. Graded S/U.

NURS 6646 NP Practicum 8 credits. Application of theoretical content, research findings and intervention strategies to advanced nursing practice in both rural and non-rural settings. PREREQ: NURS 6604, 6612, 6643, 6643L, 6644, 6644L. Graded S/U.

NURS 6647 Advanced Practicum in Nursing Education 6 credits. Application of learning theories, strategies and evaluation in a nursing program. The learners will explore and practice various facets of the faculty role. PREREQ: NURS 6633, 6635, 6639, 6640. Graded S/U.

NURS 6653 Organizational Behavior in a Changing Health Care System 3 credits. Examination of administration and organizational behavior in relation to population-based needs. Includes examination of organization and management theory in relation to strategic planning, management of the changing health care delivery system, program planning and evaluation, decision-making, and change. PREREQ: NURS 6600, 6652.

NURS 6654 Financial Management 3 credits. Application of basic strategies for evaluating financial resources for health care systems; models of forecasting, prediction, and politics of budgeting and health care finances.

NURS 6655 Advanced Leadership 3 credits. Examination of nursing leadership in health care delivery systems. Theoretical knowledge required for program management and interdisciplinary collaboration. Examination of quality and risk management, legal and ethical implications, shared governance, and conflict management. PREREQ: NURS 6600, 6610, 6653; COREQ: NURS 6655L.

NURS 6656 Advanced Leadership Practicum 4 credits. Critical examination and application of leadership in health care delivery systems with an emphasis on individualized leadership experiences. PREREQ: NURS 6652, 6653, 6654, 6655, 6655L. Graded S/U.

NURS 6657 Advanced Adult Health Nursing I 3 credits. Physiological concepts of health and illness and the role of the Clinical Nurse Specialist in assisting patients, families, and caregivers to manage simple health situations in adult populations. PREREQ: NURS 6611, 6611L; COREQ: 6657L.

NURS 6657L Advanced Adult Health Nursing I Lab 1 credit. Delivery of advanced nursing care to adults and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by clinical nurse specialists. Management of simple health situations in various clinical settings. PREREQ: NURS 6611, 6611L; COREQ: NURS 6657. Graded S/U.

NURS 6658 Advanced Adult Health Nursing II 3 credits. Physiological concepts of health and illness and the role of the Clinical Nurse Specialist in assisting patients, families, and caregivers to manage complex health situations in specialty adult populations. PREREQ: NURS 6657, 6657L; COREQ: NURS 6658L.

NURS 6659 Advanced CNS Practicum 6 credits. Synthesis and application of clinical specialty and CNS role knowledge and skills in select areas of adult medical-surgical practice. PREREQ: NURS 6658, 6658L. Graded S/U.

NURS 6660 Care Environment Management 2 credits. Prepares the student for generalist practice in care environment management. Includes concept of horizontal leadership, unit level microsystems of care delivery, quality management, risk reduction, patient safety and informatics. PREREQ: NURS 6611, 6611L, 6652; COREQ: NURS 6660L, PHAR 6645.

NURS 6660L Care Environment Management Lab 1 credit. Clinical application of theoretical concepts of care environment management in a variety of clinical settings. PREREQ: NURS 6611, 6611L, 6652; COREQ: NURS 6660, PHAR 6645. Graded S/U.

NURS 6661 Clinical Outcomes Management 2 credits. Prepares the student for generalist practice in clinical outcomes management. Includes care management, outcome measurements, epidemiology, and clinical decision making. PREREQ: NURS 6660, 6660L; COREQ: 6661.

NURS 6662 Clinical Nurse Leader Practicum 6 credits. An immersion experience designed
as a full-time CNL practice role with a designated clinical preceptor. Emphasis on implementation and synthesis of the CNL role and skills in a selected care delivery system. PREREQ: NURS 6661, 6661L. Graded S/U.

Department of Physical and Occupational Therapy

Chair and Associate Professor: Creelman Occupational Therapy Program Director and Assistant Professor: Eakman Professor: Peterson, Seiger, Ralphs

Mission Statement

The mission of the Department of Physical and Occupational Therapy is to educate and train students at graduate levels who are able to competently assume roles as entry-level clinical practitioners in physical and occupational therapy in rural and urban practice settings. The department faculty is focused on providing an optimal learning environment for students through the development of a cohesive interdisciplinary curriculum, the pursuit of research and scholarly activity, encouragement of diversity in student learning experiences, emulation of professional and ethical conduct, and dissemination of current concepts and skills to the clinical and professional communities in the state and region.

Program Mission

The primary mission of the Doctor of Physical Therapy Program is to provide entry-level education in a supportive learning environment fostering diverse and interdisciplinary didactic and clinical experiences, clinical skills acquisition, and a desire for lifelong learning to enhance the delivery of physical therapy services and the profession. Further, the program emphasizes faculty and student enrichment through scholarly endeavors, teaching, service, and clinical practice contributions within their areas of expertise.

Goals of the Doctor of Physical Therapy Program

- Prepare physical therapists at the graduate level who have the skills and abilities necessary to become professionals.

1. Provide students with entry-point physical therapy examination, evaluation, prognostic, diagnostic, and intervention skills.
2. Educate students to evaluate and apply research based on the evidence for physical therapy intervention and practice validation.
3. Reinforce the concept that lifelong learning and professionalism are essential in the practice and promotion of physical therapy.
4. Encourage students to participate in determining the future development of the profession of physical therapy.
5. Facilitate critical thinking and problem solving abilities of students through the use and application of the foundational and clinical sciences related to the practice of physical therapy.

- Promote and provide physical therapy services to residents of Idaho including under-served populations.

1. Facilitate faculty and student involvement in various components of service learning related to physical therapy.
2. Provide the opportunity for patients to receive physical therapy services as a part of the program's health professions training mission

- Increase the availability and diversity of continuing education and interdisciplinary collaboration for physical therapists in the state of Idaho and surrounding regions.

1. Develop programs with a diversity of health care providers.
2. Foster collaboration and participation with health care agencies to enhance the practice of rehabilitation science.
3. Encourage educational advancement through degree enhancement, specialization, and certification.

- Development of faculty and student scholarly research activities.

1. Identify relevant clinical and academic research problems.
2. Provide consultation and cooperative efforts to support research and scholarly endeavors.
3. Identify funding resources to support research programs.

Doctor of Physical Therapy

The graduate entry level program in Physical Therapy is a professional entry level program designed to prepare students for licensure to practice as physical therapists. The program is accredited by the Commission on Accreditation in Physical Therapy Education of The American Physical Therapy Association.

The Doctor of Physical Therapy program (DPT) was granted re-accreditation status by the Commission on Accreditation in Physical Therapy Education (CAPTE) in October 2006. Prospective students having questions about the program's accreditation status should contact the Commission on Accreditation of Physical Therapy Education, 111 North Fairfax Street, Alexandria, VA 22314; accreditation@apta.org; (703)684-2782 or (703)706-3245.

Admission Requirements

The student must apply to, and meet all criteria for admission to the Graduate School. In addition, the following conditions must be met:

1. Completion of bachelor’s degree from a college or university accredited in the United States or its equivalent from a school in another country. (Must complete degree before onset of classes in PT Program of the Fall Semester in year of acceptance.)
2. Grade point average of 3.0 or above on the equivalent of the most recent four full-time semesters of academic work. GPA is calculated on upper division courses only.
3. Grade point average of 3.0 or above in each prerequisite set of science courses. Please contact the Department of Physical Therapy for clarification.
4. Applicants must take the Graduate Record Examination (GRE) or Miller Analogies Test (MAT).

a) GRE must meet the following requirements to be competitive: A total combined score of at least 950 in the verbal and quantitative portions. Verbal must be at least 400. Minimum of 4.5 on the analytical portion.

b) MAT must meet the following requirements to be competitive: A total score of 390.

c) Applicants whose first language is not English need to meet the following TOEFL requirements for Classified ad-
mission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 55 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test or a score of 84 on the MTEL or a score of 6 on the IELTS.

d) Applicants with scores lower than the requirements may not be considered.

e) The scores of the GRE/MAT/TOEFL must be received by the Graduate School by the application deadline (December 15) for an application to be considered. The ISU code for these three tests is: 4355.

At least 80 hours of salaried or voluntary experience in two or more physical therapy practice settings. Experience must be supervised and documented by licensed physical therapists. This experience must have occurred within the last five years.

Three letters of recommendation. Two letters must be from licensed physical therapists under whom the student has obtained hours of experience. One letter must be from a professor.

Applicants meeting all of the above requirements, and who have been more successful in gaining entry, will be given preference for admission into the program. The admissions committee reviews all applicants on a competitive case-by-case basis during any admissions cycle.

Qualified applicants may be invited for a personal interview with physical therapy admissions committee.

Prospective applicants should contact the department for specific descriptions of the above general requirements.

A maximum of 24 students are admitted to the program each year. Classes begin in the Fall Semester of each year. Meeting entry level requirements for admission does not guarantee a seat in the program. Admission is on a competitive basis, and 75% of the seats are offered to Idaho residents. Please contact the Department of Physical Therapy for details.

### General Requirements

The curriculum is 3 years in duration and includes 5 clinical affiliations. There are 8 semesters and 2 full-time summer sessions encompassing a total of 101 credits. The clinical affiliations mandate student travel and housing with the usual expenses borne by the student. Out-of-state travel for affiliations is required.

*Minor curriculum changes and progression alteration may occur without notice in line with accreditation standards.

### Degree and Licensure Requirements

Students receiving the degree of Doctor of Physical Therapy must satisfactorily complete all courses in the curriculum, prepare and present study papers on a regular basis, procure a license to practice in some states and written departmental examinations. For state licensure, students must have met the degree requirements and pass the National Board Examinations for Physical Therapy.

**NOTE:** Admitted students should be aware that some required external clinical rotation sites will require criminal background and drug checks. In addition, students who have a record of criminal activity may have difficulty procuring a license to practice in some states after completing the program.

### Grade Requirements

The Graduate School and the Department of Physical Therapy requires that an overall GPA of 3.0 be maintained in all graduate course work and all clinical affiliations must be completed with an S (satisfactory) grade. In addition, the Department of Physical Therapy will terminate the graduate program of any student who has received grades of “B-” or lower” in more than 6 credits or a maximum of two program courses. Students should consult specific departmental grading policies for specific information.

### Transitional DPT Program Transfer Option

The Department offers a concise sequence of web-based courses leading to the DPT degree for those physical therapy practitioners holding an entry-level credential and completed graduate-level degree. The sequence of
The curative nature of occupational therapy is extremely broad and requires individuals with an interest in the complexity of humanity and occupations. One also needs an ability to think critically and creatively and be able to address occupational performance problems resulting from disease, trauma and mental illness. To be well prepared, a student must enter the profession with a foundation in the liberal arts, biological, physical, and social sciences.

**Goals**

- **Instill the meaning and use of occupation from the perspectives of science and personal experience.**
  1. Educate and train students in foundational knowledge to understand occupation, self, and science.
  2. Provide opportunities and tools for reflection on the meaning and purpose of occupation.
  3. Educate students to prescribe and apply occupation to enhance performance outcomes.
  4. Provide students the opportunity to conduct basic and clinical research that is beneficial to the consumer and advances the profession of occupational therapy.

- **Understand and value the powerful nature of a collaborative therapeutic relationship and its impact on occupational performance.**
  1. Educate students in the worth and the autonomy of the individual and caregivers.
  2. Enable students to value the individual’s choices in occupation leading toward improved health and quality of life.
  4. Educate students to trust the individual’s capability to grow and reach his/her optimal occupational performance goals.

- **Prepare students to lead and develop occupation-based practice in diverse settings including environmental management, rural health, and the community.**
  1. Encourage students to value and understand how the environment enhances occupational performance.
  2. Teach students the skills to promote home and community as a natural environment for occupation-based practice.

3. Facilitate professional collaboration among students, faculty and practitioners in the rural community for the benefit of the citizens of Idaho and the intermountain region.

**Admission Requirements**

Students can be admitted into the Master of Occupational Therapy (MOT) program by applying to, and meeting all criteria for, admission to the Graduate School. They must also meet the prescribed prerequisite course requirements. Students may also have the option of early pre-professional entry into the program through the established guidelines of the Bachelors of University Studies (BUS) program. The BUS is an interdisciplinary degree designed for students whose career and educational goals are not met by traditional degrees offered at Idaho State University.

During the first three years, the student develops a course of study that will meet the student’s interests, university degree requirements and Occupational Therapy Program prerequisites admission requirements. The student can apply to the BUS program during his/her junior year. With successful completion of the first professional year in the OT program, the student will receive a Bachelor of University Studies and will continue directly into the MOT program over the next two years. The combination of the BUS degree with the MOT degree program creates a seamless entry into the occupational therapy profession, ensuring that all prerequisites in social, physical and biological sciences are completed in a timely manner. For further information on the BUS and Occupational Therapy program, contact the Department of Physical and Occupational Therapy at (208)282-4095.

1. Applicants must complete a bachelor’s degree from a college or university accredited in the U.S. or its equivalent from a school in another country. This degree may be in progress during the application process but must be completed prior to beginning OT courses in the Fall semester.

2. All applicants applying to the OT Program must also apply for admission to ISU through the Graduate School. General admissions requirements are explained in the Admissions section of the Graduate Catalog. **PLEASE NOTE:** Some of the requirements for admission into the OT Program are higher than the general requirements for admission to Graduate School.

3. Applicants must have a minimum of an earned grade point average (GPA) of at least
3. Applicants must complete specific prerequisites for admission. A minimum of 25 upper division credits must be completed, or in progress, by January of the year of application. Applicants with advanced degrees may use these courses toward the prerequisite requirements. For more information, please contact the Department of Physical and Occupational Therapy for specific information regarding clinical affiliations.

4. Applicants must take the Graduate Record Examination (GRE) or Miller Analogies Test (MAT).

a) GRE must meet the following requirements to be competitive: A total combined score of at least 950 in the verbal and quantitative portions. Verbal must be at least 400. Minimum of 4.5 on the analytical section.

b) MAT must meet the following requirements to be competitive: A total score of 390.

c) Applicants whose first language is not English need to meet the following TOEFL requirements for classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 840 on the MTELP, or a score of 6 on the IELTS.

d) Applicants with scores lower than the requirements may not be considered.

e) The scores of the GRE/MAT/TOEFL must be received by the Graduate School by the application deadline (December 15) for an application to be considered. The Idaho State University code for these three tests is: 4355.

5. Applicants must complete specific prerequisites courses with a GPA of 3.0 in each of the specified categories. Prerequisite course work in anatomy and physiology must be completed within the last five (5) years. Prerequisite course work that is ten (10) years or older may not be acceptable for admission unless approved by the Department Admissions Committee prior to application. An applicant with more than five (5) prerequisite courses in progress or planned for the spring/summer semesters may not be considered for admission. Please contact the Department of Physical and Occupational Therapy for specific information on the prerequisite course work.

6. Applicants must demonstrate knowledge and exposure to the occupational therapy profession. All of the required experience must be completed prior to applying to the Idaho State University OT Program. All of the experience must be completed under the direct supervision of a practicing occupational therapist or health service care provider and must have occurred within the last five years. A total of 20 hours of experience is required and must be completed in a minimum of two different occupational therapy practices.

Half of the hours must be completed in a community mental health setting, development center, hospice, or school setting under the supervision of a health service care provider. These may not be the hours obtained in the same facility used for the acute care hours.

7. Each applicant must submit three letters of reference with the application. Two of the letters must be from Occupational Therapists who directly supervised your volunteer or aide experience(s). Please contact the Idaho State University OT Program for additional information.

8. Applicants meeting all of the above requirements will be given preference for admission into the program, and have been more successful in gaining entry. The admissions committee reviews all applicants on a competitive case-by-case basis during any admissions cycle.

Program Accreditation

The Idaho State University Master of Occupational Therapy Program received accreditation from the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) in December 2000. ACOTE can be contacted at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220 or by telephone at (301) 652-AOTA. Graduates of the program will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT).

After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

In addition, the OT program requires that all occupational therapy students complete Level II Fieldwork within 12 months following the completion of academic component of the program.

General Requirements

The curriculum is 3 years in duration and includes 4 clinical affiliations. There are 6 semesters and 2 full-time summer sessions encompassing a total of at least 83 credits. Please contact the Department of Physical and Occupational Therapy for additional information regarding clinical affiliations.

</table>
Historical overview of occupational therapy in health care, education and psychosocial settings. Occupational therapy process, rural human service delivery system, professionalism, ethics, and legal issues will be examined.

PTOT 5514 Research Methodology 4 credits. Application of principles of research design in the biological, psychological and social sciences. Clinical and laboratory research in occupational and physical therapy are emphasized. Preparation for professional project. PREREQ: PTOT 5513, PTOT 5522, PTOT 6613.

PTOT 5515 Service Delivery of Occupational Therapy 3 credits. Application of theoretical concepts of management to the delivery of occupational therapy services. Development, implementation and outcome evaluation of community-based service delivery systems will be emphasized. PREREQ: PTOT 5522, PTOT 5532.

PTOT 5518 Practicum 1-3 credits. Clinical experience in the on-campus clinic or in the community under the direction and supervision of faculty. Current issues in management and administration of practice within interdisciplinary teams are discussed. PREREQ: PTOT 5532. Graded S/U.

PTOT 5519 Practicum 1-3 credits. Advanced experience in the on-campus clinic or community practice under the direction and supervision of faculty. Current issues in management and administration of clinical practice within interdisciplinary teams are discussed. PREREQ: PTOT 5533. Graded S/U.

PTOT 5521 Self-exploration in Occupation 3 credits. Focus on self-exploration in occupation and purposeful activity. Self-evaluation in occupational performance areas, components, and context. The student will complete a self-development plan in occupation.

PTOT 5522 Occupational Performance 3 credits. Person/occupation/environment interactions are examined from the perspective of multiple theories and models that analyze typical occupations and address performance dysfunctions. PREREQ: PTOT 5513, PTOT 5521. COREQ: PTOT 5542.

PTOT 5523 Therapeutic Use of Self in Occupation 2 credits. Survey of historical and philosophical perspective of the therapeutic relationship and its development and implementation with individuals and groups with psychosocial dysfunction. PREREQ: PTOT 5521.

PTOT 5524 Physical Function in Occupation Performance 4 credits. The study of theory and application of occupational performance addressing function. Overview of evaluation and treatment of physical and psychosocial function in rehabilitation and orthopedic management. PREREQ: PTOT 5501, PTOT 5502. COREQ: PTOT 5544

PTOT 5525 Psychosocial Function in Occupation 3 credits. Theory, evaluation and intervention techniques in occupational therapy across the lifespan for persons with psychosocial dysfunction in different treatment settings. PREREQ: PTOT 5522. COREQ: PTOT 5545.

PTOT 5526 Neurological Function in Occupation 5 credits. Occupational therapy management of clients with neurological trauma, degenerative disorders, central and peripheral neural and neuromuscualr dysfunction. Overview of rehabilitation approach to evaluation and treatment. PREREQ: PTOT 5502, PTOT 5524. COREQ: PTOT 5546.

PTOT 5527 Occupation and Environmental Management 3 credits. The study and application of occupational therapy in managing environmental factors that restore function and decrease disability. PREREQ: PTOT 5522, PTOT 5526. COREQ: PTOT 5547.

PTOT 5528 Occupation with Children and Adolescents 4 credits. Study of occupational therapy evaluations and interventions for children and adolescents who have disabling conditions that cause occupational performance problems. PREREQ: PTOT 5526. COREQ: PTOT 5548.

PTOT 5531 Clinical Affiliation I (Fieldwork I) 1 credit. Fieldwork opportunities to observe occupational performance of persons served by local institutional or community-based health, education, and human service organizations. PREREQ: PTOT 5522, PTOT 5542. Graded S/U.

PTOT 5532 Clinical Affiliation II (Fieldwork I) 1 credit. Fieldwork experiences focusing on evaluation of occupational performance dysfunction and interventions with persons served by local institutional or community-based health, educational, and human service organizations. PREREQ: PTOT 5531. Graded S/U.

PTOT 5533 Clinical Affiliation III (Fieldwork II) 7 credits. An in-depth clinical fieldwork with clients having physical, psychosocial, neurological, and/or multisystem impairments/disabilities in a facility-based setting such as a hospital or rehabilitation center. PREREQ: PTOT 5532. Graded S/U.

PTOT 5534 Clinical Affiliation IV (Fieldwork II) 7 credits. An in-depth clinical fieldwork with clients having physical, psychosocial, neurological, educational or health impairments/disabilities in community-based settings. PREREQ: PTOT 5533. Graded S/U.

PTOT 5542 Occupational Performance Laboratory 1 credit. Introduction to and practice using occupational focused evaluation tools and methodologies used in analyzing, evaluating, and categorizing occupational performance. COREQ: PTOT 5522.

PTOT 5544 Physical Function in Occupation Laboratory 1 credit. Laboratory exercise designed to apply evaluation and treatment techniques used in physical and psychosocial occupational performance approach. COREQ: PTOT 5524.
PTOT 5545 Psychosocial Function in Occupation Laboratory 1 credit. Laboratory exercise designed to apply evaluation and treatment techniques in the management of psychosocial dysfunction to optimal function. The laboratory develops preclinical competency in psychosocial function across the lifespan. COREQ: PTOT 5525.

PTOT 5546 Neurological Function in Occupation Laboratory 1 credit. Designed to apply evaluation and treatment techniques to promote adaptation and optimal function. The laboratory serves to develop preclinical competency in the management of neurological disorders. COREQ: PTOT 5526.

PTOT 5548 Occupation with Children and Adolescents Laboratory 1 credit. Laboratory exercise designed to apply evaluation and treatment techniques for children and adolescents specific to occupational performance dysfunction, adaptation and optimal function. COREQ: PTOT 5528.

PTOT 6606 Clinical Therapeutic Exercise 3 credits. Theoretical and evidence-based application of exercise for various pathological conditions. Aerobic conditioning, muscular strengthening, flexibility, balance, coordination, power and agility are discussed, demonstrated and evaluated. Specific exercise prescription, modes of exercise, and application for desired outcomes are emphasized. PREREQ: BIOL 5574 and 5586.

PTOT 6608 Applied Pharmacology for Physical and Occupational Therapists 3 credits. Study of the major drug groups, therapeutic implications and side effects. Musculoskeletal, cardiovascular, connective tissue and nervous system disorders are emphasized. PREREQ: BIOL 5574, BIOL 5586, PTOT 5502.

PTOT 6616 Professional Project 1-2 credits. Individual in-depth study of treatment, administrative or education problem in physical or occupational therapy. Preparation and public presentation of a publishable is required. Repeatable to 6 credits. PREREQ: PTOT 5514. Graded S/U.

PTOT 6617 Research Practicum 1-2 credits. Faculty supervised clinical, basic or applied research project which may include review of literature preparation, proposal development, data collection and manuscript preparation. PREREQ: PTOT 5514. May be repeated up to 4 credits. Graded S/U.

PTOT 6618 Practicum 1 1-2 credits. Supervised clinical experience in physical therapy (may be repeated up to four credits). PREREQ: PTOT 6621, PTOT 6641. Graded S/U.

PTOT 6619 Practicum II 1-2 credits. Supervised clinical experience in physical therapy (may be repeated up to four credits). PREREQ: PTOT 6618. Graded S/U.

PTOT 6620 Clinical Procedures 2 credits. Study and practice of theory and application of basic techniques of patient evaluation, handling, and treatment in physical therapy. COREQ: PTOT 5501 or PTOT 6640.

PTOT 6622 Musculo-Skeletal System Management 1 4 credits. Physical therapy evaluation, treatment, and management of patients with muscle, skeletal, and connective tissue problems. Overview of orthopedic pathology. PREREQ: BIOL 5574, BIOL 5586, PTOT 6621, PTOT 6601, PTOT 6621. COREQ: PTOT 6642.

PTOT 6623 Physical Agents 3 credits. Study and practice of theory and application of the therapeutic uses of physical agents and electromagnetic energy in physical therapy. PREREQ: PTOT 6620, PTOT 6640. COREQ: PTOT 6643.

PTOT 6624 Cardiac and Pulmonary Systems Management 5 credits. Physical therapy management of persons with dysfunction of the cardiac and/or pulmonary systems and related pathologies. Management by other health professional team members. PREREQ: BIOL 5586.

PTOT 6626 Neurological Systems Management 5 credits. Physical therapy management of patients with central and peripheral neural and neuromuscular dysfunction. Survey of management by other health professionals. PREREQ: PTOT 5502, PTOT 6605. COREQ: PTOT 6646.

PTOT 6631 Clinical Affiliation I 3 credits. Application of physical therapy manual evaluation and treatment skills in acute and rehabilitation settings. PREREQ: BIOL 5574, BIOL 5586, PTOT 6621. Graded S/U.

PTOT 6632 Clinical Affiliation II 3 credits. Clinical management practicum related to orthopedics, sports medicine, and/or cardiopulmonary problems. PREREQ: PTOT 6622, PTOT 6623, PTOT 6624, PTOT 6631. Graded S/U.

PTOT 6640 Clinical Procedures Lab 1 credit. Laboratory exercises designed to practice and enhance overall skills in the initial evaluation and treatment of patients. COREQ: PTOT 6620.

PTOT 6641 Manual Evaluation and Treatment Lab 1 credit. Laboratory exercises designed to introduce basic theoretic and applied concepts and skills of patient handling, evaluation and modalities. COREQ: PTOT 6621.

PTOT 6642 Musculo-Skeletal System Management Lab 1 credit. Designed to develop preclinical competency in the evaluation, treatment, and management of disorders of the musculoskeletal system. Emphasis on the trunk and lower extremities. COREQ: PTOT 6622.

PTOT 6643 Physical Agents Laboratory 1 credit. Designed to develop clinical competence in the use of physical agents in the treatment of patients with specific pathologies. PREREQ: PTOT 6620, PTOT 6640. COREQ: PTOT 6623.

PTOT 6646 Neurological Systems Management Lab 1 credit. Designed to develop preclinical competency in the evaluation, treatment, and management of the patient with neurological disorders including stroke, spinal cord injury, degenerative disease. COREQ: PTOT 6626.

PTOT 6648 Graduate Special Topics I 3 credits. Individual or group critical analysis and study of a specific area of physical therapy patient management, administration, or research. PREREQ: 2ND-YEAR STUDENTS, AND/OR PERMISSION OF INSTRUCTOR. May be repeated.

PTOT 6681 Theories and Resources to Guide Clinical Decision Making in Physical Therapy 3 credits. Study and application of applying evidence in physical therapy practice. The Guide to PT Practice, Physical Therapy differential diagnosis, and legal and ethical considerations will be addressed.

PTOT 6682 Promoting Behavioral Change in Physical Therapist Practice 2 credits. Study of the theories of learning, compliance, and behavior modification as related to the application of prevention and wellness in physical therapy practice. PREREQ: PTOT 6681.

PTOT 6693 Contemporary Musculoskeletal System Management for Physical Therapists 2 credits. Applying evidence and elements of accepted practice to PT management of patients across the lifespan with musculoskeletal diagnoses. PREREQ: PTOT 6682.

PTOT 6694 Contemporary Cardiopulmonary System Management for Physical Therapists 2 credits. Applying evidence and elements of accepted practice to PT management of patients across the lifespan with cardiac and/or pulmonary diagnoses. PREREQ: PTOT 6693.

PTOT 6695 Contemporary Neurological System Management for Physical Therapists 2 credits. Applying evidence and elements of accepted practice to PT management of patients across the lifespan with neurological diagnoses. PREREQ: PTOT 6694.

PTOT 6696 Patient Case Seminar 2 credits. Selection and development of a patient case with which the student has worked to demonstrate application of evidence and the Guide to Physical Therapist Practice to Physical Therapy practice. PREREQ: PTOT 6695. Graded S/U.

PTOT 7701 Contemporary Multiple System Management for Physical Therapists 2 credits. Applying evidence and accepted clinical practice to PT management of patients across the lifespan with diagnoses affecting multiple systems. PREREQ: PTOT 6696.

PTOT 7705 Clinical Case Management 3 credits. Advisor guided development and completion of a patient case study demonstrating the application
of evidence for PT examination, diagnoses, medical management, treatment and discharge. Oral presentation required. PREREQ: PTOT 7701. Graded S/U.

PTOT 7715 Physical Therapy Resource Management 3 credits. Application of business and health care administration principles to the practice of physical therapy; resource management strategies with an emphasis on community service delivery. PREREQ: PTOT 6612, PTOT 6663, PTOT 6621, PTOT 6632.

PTOT 7725 Multi-Systems Management 4 credits. Physical therapy management of persons with problems affecting multiple systems; burns, wounds, amputations, neoplasms, metabolic disorders. PREREQ: PTOT 6621, PTOT 6622, PTOT 6623, PTOT 6624.

PTOT 7727 Geriatric Management 1 credit. Examination, evaluation and treatment of the elderly population with emphasis on the management of normal and pathological conditions. PREREQ: PTOT 6626, PTOT 6646. COREQ: PTOT 7728.

PTOT 7728 Lifespan Development 4 credits. Normal and abnormal development of neuromuscular, musculoskeletal, cardiopulmonary systems; cognitive/perceptual and psychosocial behavior associated with life through adolescence. Evaluation, program planning and treatment strategies are introduced. PREREQ: BIOL 5574, BIOL 5856. COREQ: PTOT 7727.

PTOT 7733 Clinical Affiliation II 5 credits. Clinical management practicum related to patients with orthopedic, neurological, and multisystem problems. PREREQ: PTOT 6626, PTOT 6646, and PTOT 6632. Graded S/U.

PTOT 7734 Clinical Affiliation IV 5 credits. Clinical management practicum related to patients with orthopedic, neurological, cardiopulmonary, pediatric, and multisystem problems. PREREQ: PTOT 7733. Graded S/U.

PTOT 7735 Clinical Externship 5 credits. Clinical management experiences related to patient care, administration, or research in a variety of practice environments. PREREQ: PTOT 7734. Graded S/U.

Goals
Graduates of the Idaho State University PA Program will, using appropriate evidenced-based principles, achieve the following objectives:

1. History: Elicit an appropriate complete, interval or acute history from any patient in any setting.
2. Physical Examination: Perform complete and focused physical examination on a patient of any age, gender, or condition in any setting.
3. Diagnostic Studies: Identify, order, perform and interpret cost-effective diagnostic procedures, based on history and physical examination findings, and assist the physician with other diagnostic procedures as directed.
4. Clinical Knowledge: Explain the etiology, diagnosis, and management options of health problems within the scope of PA practice.
5. Differential Diagnosis: Develop an evidence-based differential diagnosis and diagnostic impression considering the subjective and objective data obtained.
6. Therapeutics: Identify, perform, and order cost effective pharmacologic and non-pharmacologic therapeutic modalities and assist the physician with other therapeutic modalities.
7. Emergency Skills: Recognize and manage life-threatening conditions jointly with, and in the absence of, the physician.
10. Research: Apply evidence-based medical research methodologies to clinical practice.
11. Cultural Competence: Demonstrate an understanding that cultural dimensions of health and illness are essential to effective patient care.

Master of Physician Assistant Studies (MPAS)
Physician Assistants (PAs) are academically and clinically prepared to provide healthcare services, including the diagnosis and treatment of disease, with the direction and supervision of a doctor of medicine or osteopathy. The physician-PA team relationship is fundamental to the PA profession and enhances the delivery of high quality health care. PAs make clinical decisions and provide a broad range of diagnostic, therapeutic, preventive, and health maintenance services. The clinical role of PAs includes primary and specialty care in all medical and surgical practice settings. PA practice is centered on patient care and may include educational, research, and administrative activities.

The role of the PA demands intelligence, sound judgment, intellectual honesty, appropriate interpersonal skills, and the capacity to react to emergencies in a calm and reasoned manner. An attitude of respect for self and others, adherence to the concepts of privilege and confidentiality in communicating with patients, and a commitment to the patient’s welfare are essential attributes of the graduate PA.

The Program
The Physician Assistant (PA) Program at Idaho State University awards the Master of Physician Assistant Studies (MPAS) degree and a PA certificate upon successful completion of its 24-month graduate curriculum. A new class of students is enrolled each fall semester. The program is fully accredited by the Accreditation Review Commission on the Education of Physician Assistants, Inc. (ARC-PA). Graduates of this program are eligible to take the NCCPA’s Physician Assistant National Certifying Exam (PANCE).

The Mission
The mission of the Idaho State University master’s-level Physician Assistant program is to:

Curriculum - Provide a quality graduate medical education that emphasizes critical thinking and problem solving, is technologically enhanced, research
Admission Requirements

1. A baccalaureate degree (received prior to matriculation in the PA Program)
2. A completed CASPA (Central Application Service for Physician Assistants) application (see CASPA) Deadline: December 1
3. The student must apply, and meet all criteria for, admission to the Graduate School, including GRE scores. Deadline: December 1
4. International Students who have not graduated from an accredited college or university in the United States and whose native language is not English, must achieve satisfactory scores on the Test of English as a Foreign Language (TOEFL) or complete an approved English as a Second Language (ELS) course. Please check with Idaho State University’s Graduate School for more information regarding minimum score requirements.
5. All applicants must undergo a personal interview as part of the admission process.

Required Prerequisite Courses

To be considered for admission, the applicant must have a minimum cumulative grade point average of 3.0 in upper-division course work, and a minimum 3.0 for the following required prerequisite courses.

All prerequisite courses must be completed at a regionally accredited institute of higher learning in the United States.

Courses 10 years or older are not accepted as prerequisite course work.

Exceptions are at the discretion of the Program.

1. Microbiology;
2. Biochemistry;
3. Human anatomy (or as part of a two semester combined anatomy and physiology course);
4. Human physiology (or as part of a two semester combined anatomy and physiology course);
5. Abnormal psychology, or developmental psychology throughout the life span;
6. Statistics (math or social science);
7. Computer literacy: All applicants are expected to possess Computer Literacy (either through course work or experience) that includes basic understanding of the operation of a Windows PC, word processing, file management, spreadsheets, and the Internet.

Highly Recommended Courses

- Upper level biology courses such as advanced anatomy, advanced human physiology, immunology, genetics, endocrinology.
- Other health-related courses from department such as psychology, sociology, anthropology, health education, gender studies.
- Proficiency in a foreign language.

Additional considerations for admission include:

- Maturity;
- Work and health care experience;
- Evidence of the ability to achieve academic success in a rigorous academic program;
- Interpersonal skills and the ability to relate effectively with patients, peers and at a professional level;
- Evidence of a desire to practice primary care in Idaho, particularly among the medically underserved.

Application Process

EARLY ADMISSIONS

The Admissions Committee will consider applications as soon as a completed CASPA (see below) application and a completed Graduate School application have been received. If all criteria are satisfied, applicants may be accepted before the application deadline. Admission decisions will take place in an ongoing, rolling manner.

Required Applications

The Idaho State University Department of Physician Assistant Studies requires two applications. The two applications are the CASPA (Central Application Service for Physician Assistants) and the Idaho State University Graduate School Application. The deadline for both of these applications is December 1.

CASPA Application

The Idaho State University PA Program participates in the Central Application Service for Physician Assistants (CASPA). Applicants must have official transcripts sent to CASPA. Letters of Recommendation must also be sent to CASPA. CASPA requires a fee to be paid at the time of application.

Note: The CASPA application is a separate application from the Idaho State University Graduate School application. Go to www.caspaonline.org for the application and more information about the application process and fees.

Idaho State University Graduate School Application

Idaho State University requires applicants to apply to the Graduate School. Applicants must have GRE scores AND official transcripts.
### PAS 6641 Orthopedics Module 1 cr
- PAS 6640 Rheumatology Module 1 cr
- Total Credits 16 cr

### PAS 6656 Alternative/Occupational Medicine Module 1 cr

### Summer Semester
- PAS 6639 Dermatology Module 1 cr
- PAS 6643 Genitourinary Module 3 cr
- PAS 6646 Neurology Module 2 cr
- PAS 6650 Obstetrics/Perinatology Module 1 cr
- PAS 6561 Pediatrics Module 2 cr
- PAS 6652 Geriatrics Module 1 cr
- PAS 6653 Surgery Module 2 cr
- PAS 6654 Emergency Medicine Module 2 cr
- PAS 6657 Comprehensive Evaluation 1 cr
- Total Credits 16 cr

### Clinical Year

#### Fall, Spring, Summer Semesters
- PAS 6661 Clinical Rotation I 4 cr
- PAS 6662 Clinical Rotation II 4 cr
- PAS 6663 Clinical Rotation III 4 cr
- PAS 6664 Clinical Rotation IV 4 cr
- PAS 6665 Clinical Rotation V 4 cr
- PAS 6666 Clinical Rotation VI 4 cr
- PAS 6667 Clinical Rotation VII 4 cr
- PAS 6668 Clinical Rotation VIII 4 cr
- PAS 6671 Capstone Assessment I 1 cr
- PAS 6672 Capstone Assessment II 2 cr
- PAS 6673 Capstone Assessment III 1 cr

### Didactic Year

#### Course Sequence

### Physician Assistant Studies Graduate Courses
- **PAS 5589 Individual Problems in Physician Assistant Studies 1-3 credits.** Assigned on the basis of interest, preparation, and faculty availability. Participation in this course in no way influences opportunity to be accepted into the PA Program. May be repeated for up to 3 credits. PREREQ: Successful completion of all PAS Didactic Year Requirements. Graded S/U.

#### Fall Semester
- **BIOL 5529 Regional Anatomy and Histology** 4 cr
- **BIOL 5563 Human Pathophysiology** 4 cr
- **PAS 6601 Intro to Physician Assistant** 2 cr
- **PAS 6602 Evidence-based Medicine and Biostatistics** 2 cr
- **PAS 6603 Clinical Assessment** 3 cr
- **PAS 6604 Pharmacology** 1 cr
- **Total Credits** 20 cr

#### Spring Semester
- **PAS 6630 Allergy/Immunology Module** 1 cr
- **PAS 6631 Infectious Disease Module** 2 cr
- **PAS 6632 Hematology/Oncology** 1 cr
- **PAS 6633 Endocrinology Module** 1 cr
- **PAS 6634 Renal Module** 1 cr
- **PAS 6635 Pulmonary Module** 2 cr
- **PAS 6636 Cardiology Module** 2 cr
- **PAS 6637 Gastroenterology Module** 1 cr
- **PAS 6638 ENT Module** 1 cr
- **PAS 6640 Rheumatology Module** 1 cr
- **PAS 6641 Orthopedics Module** 1 cr

### Total Credits 16 cr

**PAS 6642 Psychiatry Module** 1 cr
**PAS 6645 Ophthalmology Module** 1 cr
**PAS 6654 Emergency Medicine Module** 2 cr
**PAS 6657 Comprehensive Evaluation** 1 cr

---

**Note:** The Graduate School requires a fee to be paid at the time of application.

**Modules have the following content areas which are tailored to the specific module:**
- Case-Based Learning
- Clinical Anatomy
- Clinical Medicine
- Clinical Pharmacology
- Diagnostic Procedures
- Ethics and Law
- Health Promotion/Disease Prevention
- Laboratory Medicine
- PA Role and Issues
- Pathophysiology
- Physical Diagnosis
- Research/Evidence-Based Medicine
- Service Learning
- Therapeutics

**PAS 6657 Comprehensive Evaluation 1 credit.** An end-of-didactic-year comprehensive evaluation of the physician assistant student's knowledge, skills, abilities, and professional behavior. The student must receive a grade of “satisfactory” in order to progress to the clinical year of the program.

**PAS 6661 Clinical Rotation I 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: Successful completion of all PAS Didactic Year Requirements. Graded S/U.

**PAS 6662 Clinical Rotation II 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6661. Graded S/U.

**PAS 6663 Clinical Rotation III 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6662. Graded S/U.

**PAS 6664 Clinical Rotation IV 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6663. Graded S/U.

**PAS 6665 Clinical Rotation V 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6664. Graded S/U.

**PAS 6666 Clinical Rotation VI 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6665. Graded S/U.

**PAS 6667 Clinical Rotation VII 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6666. Graded S/U.

**PAS 6668 Clinical Rotation VIII 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6667. Graded S/U.

**PAS 6671 Capstone Assessment I 1 credit.** There are three Capstone Assessment Courses in the second year of the PA Program. Togeth-
er they represent a comprehensive assessment of the students. Capstone Assessment I course is the first one in the series and students are required to study for and pass multiple objective examinations. Graded S/U.

**PAS 6672 Capstone Assessment II 2 credits.** There are three Capstone Assessment Courses in the second year of the PA Program. Together they represent a comprehensive assessment of the students. The Capstone Assessment II course is the second one in the series and students are required to study for and pass multiple objective examinations, additionally they are required to complete and present a medical case study, under the direction of the PA Program faculty. Graded S/U.

**PAS 6673 Capstone Assessment III 1 credit.** There are three Capstone Assessment Courses in the second year of the PA Program. Together they represent a comprehensive assessment of the students. The Capstone Assessment III course is the third one in the series and students are required to study for and pass multiple objective examinations. Graded S/U.

**PAS 6689 Graduate Special Topics 1-4 credits.** Special topics in specific areas of physician assistant studies which may include didactic and/or clinical studies. May be repeated up to 8 credits.

---

### Family Practice Residency Program

The Idaho State University Family Practice Residency is a postgraduate training program for physicians who have an M.D. or D.O. degree. The program is affiliated with the medical schools of the University of Washington and the University of Utah and is accredited by the Accreditation Council for Graduate Medical Education.

The Pocatello Family Medicine Clinic, located on the Idaho State University campus, is the outpatient training site; hospital rotations are scheduled at Portneuf Medical Center.

Accepting six residents per year, the program trains Family Physicians to practice in rural Idaho. The curriculum includes family medicine, obstetrics/gynecology, surgery, internal medicine, pediatrics, geriatrics, emergency medicine, community medicine, behavioral science, rural medicine, orthopedics, and other subspecialties.

For more information, please contact:

**Family Practice Residency Program**

### Curriculum Overview

**First Year**

- 4 weeks Community Medicine
- 4 weeks Psychology
- 12 weeks Internal Medicine
- 8 weeks Pediatrics (Inpatient)
- 12 weeks Obstetrics
- 8 weeks General Surgery
- 4 weeks Emergency Medicine

**Second Year**

- 8 weeks Internal Medicine
- 8 weeks Pediatrics
- 4 weeks Cardiology
- 4 weeks Pulmonary/ICU
- 4 weeks Medicine Subspeciality
- 4 weeks Rural Rotations
- 4 weeks Emergency Medicine
- 4 weeks Electives

**Third Year**

- 8 weeks Obstetrics
- 4 weeks Orthopedic/Sports Medicine
- 4 weeks Family Medicine Center Chief

College of Pharmacy

Paul S. Cady, Ph.D., Professor, Interim Dean

Degree Programs
The College of Pharmacy offers two graduate degrees: the Master of Science (M.S.) in Pharmaceutical Sciences and the Doctor of Philosophy (Ph.D.) in Pharmaceutical Sciences. The College also offers a professional doctorate degree, Doctor of Pharmacy (Pharm.D.). The Pharm.D. is described in the College of Pharmacy section of the Idaho State University Undergraduate Catalog.

Department of Pharmacy Practice and Administrative Sciences
Interim Chair and Associate Professor: Hunt
Assistant Chair and Associate Professor: Oliphant
Professors: Adamcik, Culbertson, Erramouspe, Force, Lott, Madaras-Kelly, Mason, Rhodes
Associate Professors: Cleveland, Gould, Heyneman, Liday, Owens
Clinical Professor: Jue
Clinical Associate Professor: Hefflinger
Clinical Assistant Professors: Borzadek, Carr, Casperson, Davis, Eroschenko, Hachey, Pettinger, Pugmire, Steed, Wadsworth
Visiting Clinical Assistant Professor: Jantz
Adjunct Faculty: Hoagland
Emeritus: Galizia, Hurley, Sharp

Department of Biomedical and Pharmaceutical Sciences
Chair and Professor Cady
Assistant Chair and Professor Bhushan
Professors: Daniels, Diedrich, Dodson, Lai
Associate Professors: Bigelow, Eley, Wilson
Assistant Professor: Selvage

Goals
• To train and prepare students to succeed in their chosen career path in the variety of areas in pharmaceutical sciences.

Objectives
• To rigorously train students in the department focus areas;
• To train students to be effective communicators of their knowledge and scientific findings;
• To expose students to multidisciplinary approaches to problem-solving so that they can use them to solve scientific problems;
• To educate students to be competent practitioners of the scientific method;
• To expose students to a variety of professional strategies so that, upon finishing their training, they become adaptable and successful in achieving their long-range goals.

Doctor of Philosophy
Programs of study leading to the Doctor of Philosophy (Ph.D.) degree are offered through the Department of Biomedical and Pharmaceutical Sciences (emphasis areas of Biopharmaceutical Analysis, Drug Delivery, Medicinal Chemistry, or Pharmacology) and through the Department of Pharmacy Practice and Administrative Sciences (emphasis in Pharmacy Administration). The Ph.D. degree is a research degree and will be conferred upon the completion and report of a substantial body of original work.

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Baccalaureate degree in biology, chemistry, psychology, other scientific field, or a professional degree in pharmacy.
2. GPA of not less than 3.0 for all upper division courses.
3. Achieve at least the 50th percentile in one of the Graduate Record Examination aptitude section scores (Verbal, Quantitative, or Analytical).
4. Three letters of recommendation from individuals familiar with the applicant’s academic ability and potential for graduate study.

Meeting minimum requirements does not guarantee admission. Students not meeting the minimum admission requirements for the Ph.D. program may reapply to continue on for the Ph.D. degree following successful completion of the M.S. in Pharmaceutical Sciences.

General Requirements
Each beginning graduate student will have a graduate advisor assigned from the graduate faculty upon entry into the program. The student’s advisor will assist the student in preparing an appropriate program of study of course work. While there is no fixed credit requirement for the Ph.D. in Pharmaceutical Sciences, the overall program of study will include at least 72 semester hours of graduate course work. The student is expected to have selected a major advisor from the graduate faculty no later than the end of his/her second semester in residence.

A grade below B is unsatisfactory and will not be counted toward fulfilling the minimum requirements for the degree. Upon recommendation of the student’s advisor, and with the approval of the Director of the Graduate Program, a student may be required to withdraw at any time for failure to maintain satisfactory progress toward the degree.

When course work is essentially complete, candidates for the Ph.D. degree complete a series of written and oral comprehensive examinations that may include the defense of a written research proposal. Upon completion of all proposed research, the student’s findings will be reported in the form of a dissertation to be prepared in accordance with Department and Graduate School guidelines. While the dissertation must be defended to the graduate faculty of the College, acceptability only requires the affirmative vote of a majority of the student’s committee members.
Doctor of Philosophy in Pharmaceutical Sciences
(Biopharmaceutical Analysis, Medicinal Chemistry, Pharmaceutics, or Pharmacology Emphasis)

Admission Requirements

Official report of Graduate Record Examination scores. Applicants should achieve at least a 50th percentile on one of the three aptitude sections (Verbal, Quantitative, Analytical). Achievement of two or more scores at the 50th percentile is highly preferred. Applicants may be accepted as Classified (w/PR) students with lower GRE scores.

International students must have a demonstrated proficiency in the English language. Students from countries where English is not the first language must demonstrate proficiency in written and spoken English. Students may be required to successfully complete classes in speech and technical writing at the request of the appropriate department faculty.

Three letters of recommendation and a personal statement of interest must accompany the application. The personal statement of interest should clearly identify which area of emphasis in the graduate program the applicant intends to follow (e.g., pharmacology, medicinal chemistry, etc.), and members of the department faculty with whom the applicant would prefer to complete his/her degree. Applications without a personal statement following these guidelines will be rejected.

Applications for the graduate program in Pharmaceutical Sciences (Emphasis in Biopharmaceutical Analysis, Drug Delivery, Medicinal Chemistry, or Pharmacology) are reviewed twice yearly near the end of the fall and spring semesters. Deadline for the receipt of applications is April 1 for admission in the fall semester, and October 1 for admission in the spring semester. Incomplete applications and applications received after these deadlines will not be considered.

General Requirements

Candidates must complete the following courses:

- PSCI 6601 Graduate Seminar in Pharmaceutical Sciences 4 cr
- PSCI 6602 Research Design and Analysis for the Pharmaceutical Sciences 3 cr
- PSCI 6603 Scientific Writing 3 cr
- PSCI 6606 Selected Techniques in the Laboratory 2 cr
- PSCI 6607 Research Foundations in the Pharmaceutical Sciences 3 cr
- PSCI 6698 Dissertation Research 18 cr* min.
- PSCI 8850 Dissertation 1-2 cr* min.
- Electives in Pharmaceutical Sciences 9 cr

*Candidates must complete a minimum of 20 credits in combination of PSCI 698 and PSCI 699 toward completion of degree requirements after admission to candidacy.

A minimum of 72 credits including a minimum of 20 credit hours in dissertation research (PSCI 6698) and dissertation (PSCI 8850) are required. For all degree candidates, at least one half of total graduate credit hours required by the student’s Graduate Program Committee must be 6600 level. Minimum graduate credit requirements usually do not fulfill Departmental degree requirements. Specific details are provided in the Department of Pharmaceutical Sciences Graduate Guidelines.

All students in the graduate program, whether seeking the Doctor of Philosophy or the Master of Science, are expected to demonstrate proficiency in written and spoken English. Students may be required to successfully complete classes in speech and technical writing at the request of the Graduate program director and the graduate faculty of the Department of Biomedical and Pharmaceutical Sciences.

Joint Pharm.D.-M.S. in Pharmaceutical Sciences or Pharm.D.-Ph.D. in Pharmaceutical Sciences (Biopharmaceutical Analysis, Medicinal Chemistry, Pharmaceutics, or Pharmacology Emphasis)

Admission Requirements

Professional students currently enrolled in the College of Pharmacy may be granted early admission to a graduate program administered by the College. In order that a student be eligible for early admission to a graduate program in the College, the following criteria must be met:

1. Completion of at least 136 academic credits or a B.S. degree must be certified to the Graduate Dean by the Registrar. Such certification must include all University general education requirements, and meet all graduate student admission requirements.

2. Formal application for admission to the College graduate program, with acceptance as a classified (w/PR) student by the appropriate department faculty.

3. A non-B.S. degree-holding student may be admitted to the Graduate School as Classified (w/PR). Following the award of the Pharm.D. degree, the student may petition to change to classified status. Students should consult the Graduate Catalog for course requirements for the graduate degrees offered by the College.

4. Students must meet all the requirements of the Pharm.D. program; see Undergraduate Catalog.

5. Students must meet all the department requirements for the M.S. or Ph.D. degree described in the M.S. or Ph.D. section.

6. A joint-degree student cannot take more than 19 credits/semester while in the Pharm.D. program, of which no more than 3 credits can be graduate credits. After completing the Pharm.D. requirements, the joint-degree student reverts to the Graduate School requirements, not to exceed 16 credits/semester.
in Pharmaceutical Sciences (Social and Administrative Sciences).

Admission Requirements
The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, a student must possess a baccalaureate degree in biology, chemistry, psychology, other scientific field, or a professional degree in pharmacy (B.S. or Pharm. D.) from an accredited institution, and have a grade point average of 3.0 or better on all upper-division courses. Students with a grade point average between 2.75 and 3.0 will receive consideration for admission on a Classified (w/PR) basis.

All applicants are required to provide three letters of recommendation from professors from whom they have taken courses or under whose direction they have worked. It is highly recommended that the Graduate Record Examination be taken prior to the start of the semester in which a student begins graduate study. The GRE must be taken during the first semester in residence if it has not been taken previously.

General Requirements
All classified graduate students must register for the appropriate graduate seminar (601) each semester in which they are registered for graduate credit. A maximum of two credits in graduate seminar (601) may be applied toward the degree.

Early Entry Into the Graduate Program For Pharmacy Students Only
Professional students currently enrolled in the College of Pharmacy may be granted early admission to a graduate program administered by the College following completion of the second professional (P2) year in the Pharm.D. curriculum.

In order that a student be eligible for early admission to a graduate program in the College, the following criteria must be met:

1. Completion of at least 136 academic credits must be certified to the Graduate Dean by the Registrar. Such certification must include all University general education requirements, and all College of Pharmacy pre-pharmacy, first (P1) and second (P2) professional year course requirements in the Pharm.D. curriculum.

2. Minimum Graduate Record Examination scores.

Master of Science in Pharmaceutical Sciences (Medicinal Chemistry, Pharmaceutics or Pharmacology, Emphasis)

Admission Requirements
The student must apply to, and meet all criteria for, admission to the College School.

International students must have a demonstrated proficiency in the English language. Students from countries where English is not the first language must demonstrate proficiency in the English language. International students should refer to the "Admission of International Students" section of the Graduate Catalog.

Three letters of recommendation and a personal statement of interests must accompany the application. The personal statement of interest should clearly identify which area of emphasis in the graduate program the applicant intends to follow (e.g., pharmacology, medicinal chemistry, drug delivery), and members of the departmental faculty with whom the applicant would prefer to complete their degree. Applications without a personal statement following these guidelines will be rejected.

Applicants for the graduate program in Pharmaceutical Sciences (Emphasis in Medicinal Chemistry, Pharmaceutics, or Drug Delivery) are reviewed twice yearly near the end of the fall and spring semesters. Deadlines for the receipt of applications are April 1 for admission in the fall semester, and October 1 for admission in the spring semester. Incomplete applications and applications received after these deadlines will not be considered.
Applicants should select either the thesis or non-thesis option. The thesis option is intended for students seeking to enter a research career, and requires completion of an original research project. The non-thesis option is intended for students seeking careers in pharmaceutical sciences that do not require extensive laboratory experience. Applicants are strongly encouraged to contact the Department of Biomedical and Pharmaceutical Sciences for advice on choosing which option best meets their career goals.

**Thesis Option:**
Applicants must complete the following courses:

- PSCI 6601 Graduate Seminar 2 cr
- PSCI 6602 Research Design and Analysis for the Pharmaceutical Sciences 3 cr
- PSCI 6603 Scientific Writing 3 cr
- PSCI 6604 Research Practicum 3 cr
- PSCI 6607 Research Foundations 3 cr
- PSCI 6648 Master’s Paper 3 cr
- Electives in Pharmaceutical Sciences 6 cr

A minimum of 30 credits, including at least 6 credit hours in thesis research (PSCI 6650), is required by the Graduate School. For all degree applicants, at least one half of total graduate credit hours required by the student’s Graduate Program Committee must be at the 6600-level. Minimum Graduate School credit requirements may not fulfill Departmental degree requirements.

**Non-Thesis Option:**
Applicants must complete the following courses:

- PSCI 6601 Graduate Seminar 2 cr
- PSCI 6602 Research Design and Analysis for the Pharmaceutical Sciences 3 cr
- PSCI 6603 Scientific Writing 3 cr
- PSCI 6604 Research Practicum 3 cr
- PSCI 6607 Research Foundations 3 cr
- PSCI 6648 Master’s Paper 3 cr
- Electives in Pharmaceutical Sciences 9 cr

A minimum of 36 credits is required. For all degree applicants, at least one half of total graduate credit hours required by the student’s Graduate Program Committee must be at the 6600-level. Minimum Graduate School credit requirements may not fulfill Departmental degree requirements.

All students in the graduate program, whether seeking the Doctor of Philosophy or the Master of Science, are expected to demonstrate proficiency in written and spoken English. Students may be required to successfully complete classes in speech and in technical writing at the request of the graduate program director and the graduate faculty of the Department of Pharmaceutical Sciences.

---

### Master of Science in Pharmaceutical Sciences (Pharmacy Administration Emphasis)

Applicants may elect either a thesis or non-thesis option and must complete the following courses:

**M.S. Degree Option:**

A minimum of 30 credits, including at least 6 credit hours in thesis research (PSCI 6650), is required by the Graduate School. For all degree applicants, at least one half of total graduate credit hours required by the student’s Graduate Program Committee must be at the 6600-level. Minimum Graduate School credit requirements may not fulfill Departmental degree requirements.

### Joint Pharm.D.-Graduate Degree Program (Social and Administrative Sciences Emphasis)

Applicants must complete the following courses while enrolled in the P3 and P4 years of the Pharm.D. curriculum. (The courses listed below substitute for PSCI 5532 Clinical Research Design and Analysis, and 6 credits of professional electives required in the Pharm.D. curriculum). In addition, the following courses taken in the P3 year will constitute a minor area in Clinical Pharmacy as required in the graduate program: PPRA 5534 and PPRA 5535 Therapeutics I and II, PSCI 5529 Clinical Pharmacokinetics, and PSCI 5568 Toxicology; PPRA 5569 will substitute for 3 credits of PADM 6650 Thesis Research.

### Master of Science in Clinical Laboratory Science

The M.S. program in Clinical Laboratory Science requires an original research project that culminates in a thesis, a minimum of 32 credits earned in graduate courses (including research and thesis), and expertise in core conceptual areas of Clinical Laboratory Science.

**Admission Requirements**

Applicants must have a 3.0 GPA for upper division credits taken at the undergraduate level. Graduate School Admission GPA is calculated based on the last 60± semester undergraduate credits (90± quarter credits) and may differ from this requirement. The student must apply to, and meet all criteria for admission to the Graduate School.

In addition, admission into the M.S. program will require the student meeting one of the following conditions:

1. Professionals already credentialled as Clinical Laboratory Scientists or Medical Technologists: completion of a B.S. or B.A. degree in a related science from an accredited university or college and certification by either NCA or ASCP as a Clinical Laboratory Scientist or Medical Technologist. Categorical certification by either of these registries does not wholly satisfy this requirement. OR
2. Professional entry-level M.S. completing certification requirements while pursuing the M.S. degree: completion of a B.S. or B.A. degree from an accredited institution and completion of the following requirements either prior to entry or during the M.S. program:
   a. at least 16 semester hours of chemistry to include inorganic chemistry and some combination or organic, biochemistry and analytical chemistry;
   b. 16 semester hours of biology, to include at least one semester in microbiology;
   c. one semester of calculus.

The core curriculum in the Clinical Laboratory Science program is accredited by NAACLS (National Accrediting Agency for Clinical Laboratory Science). Successful completion qualifies the applicant to take the national credentialing examinations offered by NCA and ASCP.

Core Curriculum Areas

The three core areas for Clinical Laboratory Science that all students must include in their programs of study are:

Scientific subject core area including pathology, hematology, immunohematology, clinical chemistry, genetics microbiology and molecular biology.

Management core area including information management, statistics, Westgard rules, predictive value theory, personnel, financial organizational and regulatory concepts.

Educational core area including educational design and adult learning for professionals within and outside the clinical laboratory setting.

Students are expected to have significant exposure to these core areas by the time they complete their degree requirements. Students coming in with NCA or ASCP credentials have already demonstrated mastery of the core scientific subject area; those who do not have these credentials will be expected to demonstrate mastery by an examination administered by the program before they finish their M.S. studies.

Students may opt to gain expertise through a variety of mechanisms including independent readings, formal course work, seminars or special projects. For those students who are not already credentialed, an additional 6 credits at the undergraduate level, BIOL 4411N Clinical Experience, must be taken.

This is usually during the summer semester. This does not count toward the 32 graduate credit requirement.

Required Courses for the M.S. in CLS used to satisfy the core areas described below:

- BIOL 4411N Clinical Laboratory Site Experience 6 cr
- OR
- NCA/ASCP certification
  (does not count for graduate credit)
- BIOL 5511S Laboratory Analysis and Management 3 cr
- BIOL 6691-6692 Seminar 2 cr
- BIOL 6648 Graduate Problems (research) 4 cr
- BIOL 6650 Thesis 6 cr

The remaining credits are to be taken from graduate-level courses (a minimum of 16 at the 6600 level) in one or more of the core areas with the approval of the applicant’s committee.

Three graduate-level courses (6 to 9 credits) approved by the graduate student’s committee may be taken from outside the department (to be taken at Boise State University, Idaho State University, or another approved university) and may include adult education, management, and/or medical informatics.

The thesis project may be in a core scientific subject, management or education or a combination thereof.

Pharmaceutical Sciences Graduate Courses

- PSCI 5541 Diabetes for Health Sciences 2 credits. A discussion of Diabetes: types, development, complications, treatment, monitoring, and patient-related issues. Topics include basic science and the patient elements. Discussions will be based on student interest and back ground. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6601 Graduate Seminar 1 credit. Discussion of current research and theories in Pharmaceutical Sciences. May be repeated.
- PSCI 6602 Research Design and Analysis for Pharmaceutical Sciences 3 credits. Principles of research design and statistical analysis applicable to the pharmaceutical or biomedical sciences. Emphasis on evaluation of biomedical literature and on development of research plans. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6603 Scientific Writing 3 credits. Basic techniques in scientific writing including: philosophy of science and logic in writing; how to write scientific papers, thesis/dissertation, grant proposals, and reviews; use of computers and software.
- PSCI 6604 Research Practicum 3 credits. The student will receive practical laboratory training in pharmaceutical sciences under the guidance of faculty. May be repeated. PREREQ: ENROLLMENT IN THE NON-THESIS OPTION, AND PERMISSION OF THE INSTRUCTOR. Graded S/U.
- PSCI 6606 Selected Techniques in the Laboratory 2 credits. Practical experience in the use of instrumentation and techniques in the student’s area of specialization. Each student shall select three faculty laboratories in the Pharmaceutical Sciences for specific technical training. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6609 Advanced Drug Delivery 3 credits. Critical assessment of novel drug carrier systems regarding biological, drug-related, and carrier-related factors. Study of targeted drug delivery and controlled release devices with emphasis on bioerodible polymers, matrix and reservoir systems.
- PSCI 6610 Analytical Techniques in Pharmaceutics and Drug Delivery 3 credits. Theory and practice of analytical techniques in pharmaceutics and drug delivery research. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6611 Current Topics in Pharmaceutics and Drug Delivery 1 credit. Discussion of current research topics in pharmaceutics and drug delivery. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6620 Drug Discovery 2 credits. An overview of the process of drug discovery and the regulatory process of drug development, infrastructure of FDA and the process of clinical trials for approval of drugs, biologics, and medical devices. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6621 Biological Actions of Chemicals 3 credits. Introduction to basic principles of pharmacology, including the molecular basis for drug action; entry, distribution, metabolism and elimination of chemicals, genetic influences in chemical actions, and tolerance. PREREQ: PERMISSION OF INSTRUCTOR.
- PSCI 6622 Principles of Toxicology 3 credits. Introduction to basic concepts of toxicology, including mutagenesis, carcinogenesis, teratology, risk assessment, regulatory toxicology, toxicology of solvents, pesticides, metals and radioactive materials and design of toxicological studies. PREREQ: PSCI 6621 OR PERMISSION OF INSTRUCTOR.
- PSCI 6623 Pharmacology of the Pulmonary and the Renal Systems 2 credits. Provides a detailed examination of the pharmacology of pulmonary
and renal systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6624 Pharmacology of the Cardiovascular System 3-4 credits. Provides a detailed examination of the pharmacology of the cardiovascular system, focusing on mechanisms of action of major drug classes used in treatment of cardiovascular disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6625 Pharmacology of the Gastrointestinal and the Hepatic Systems 2 credits. Provides a detailed examination of the pharmacology of GI and hepatic systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6626 Pharmacology of the Immune System and Infectious Diseases 3 credits. Provides a detailed examination of the pharmacology of the immune system, focusing on mechanisms of action of major drug classes used in treatment of infectious diseases via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6627 Endocrine Pharmacology 2 credits. Provides a detailed examination of the pharmacology of endocrine systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6630 Psychopharmacology 3 credits. This course will cover the mechanisms of action of psychoactive drugs, including drugs used in the treatment of psychopathological disorders and drugs of abuse. Also covered will be the learned basis of drug effects. Students will critique contemporary readings in the application of psychotherapeutic agents and processes of addiction. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6631 Cancer Biology 3 credits. Study of the difference between normal and cancerous cells growth control, cell cycle, carcinogenesis, growth factor and oncogenes, cellular signaling, angiogenesis, telomerase, tumor invasion and metastasis, vitamins, diet and tobacco. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6632 Anti-cancer Drugs 3 credits. Cell cycle drug design and development, mechanisms of antimitabolites, alkylating agents, topoisomerase inhibitors, natural compounds, hormones and novel agents. Relationship between receptors and response to chemotherapy, drug resistance, drug delivery. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6633 Experimental Oncology 2 credits. Cell culture, anticancer drug screening, protein, RNA and DNA analysis, methods in signal transduction and oncogene expression. Immunohistology, cell cycle analysis, receptor binding, receptor screening of tumors. Laboratory work included. Limit 5 students.

PSCI 6634 Current Topics in Oncology 1 credit. Study of current topics in cancer research. Emphasis on novel approaches to understand and treat cancer. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6635 Special Topics in Oncology 2 credits. An introduction to cancer biology and cancer terminology. An overview of fundamentals of pharmacology as applied to cancer therapy. Mechanisms of action and resistance to chemotherapeutic drugs will be emphasized. A discussion of the importance of early detection. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6636 Concepts and Tools in Pharmacogenomics 2 credits. The role of genetic factors in the development and evaluation of drugs, basic principles of microarray analysis introduction to proteomics. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6640 Elements of Nanoscience and Nanotechnology 3 credits. An introduction to the properties of nanomaterials. Applications of nanomaterials in biomedical, pharmaceutical, environmental, and bioengineering systems and their impact on society. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6648 Master’s Paper 3 credits. The student will be required to complete an original literature review of a topical area in the pharmaceutical sciences. May be repeated. PREREQ: ENROLLMENT IN THE NON-THESIS OPTION, AND PERMISSION OF THE INSTRUCTOR. Graded S/U.

PSCI 6650 Thesis Research 1-10 credits. May be repeated. Graded S/U.

PSCI 6652 Advanced Biopharmaceutics and Pharmacokinetics 3 credits. Physicochemical principles involved in the kinetics of drug absorption, distribution, biotransformation, elimination, and therapeutic response. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6653 Principles of Biopharmaceutical Analysis 3 credits. A treatment of the principles of modern methods for the qualitative and quantitative determination of drugs in biological materials.

PSCI 6655 Advanced Biopharmaceutical Analysis 3 credits. A continuation of PSCI 653, this course covers the chromatographic techniques of analysis in detail including liquid chromatography, gas chromatography, thin layer capillary zone electrophoresis, and mass spectrometry, chromatography.

PSCI 6660 Molecular Pharmacology 3 credits. Advanced study in the transduction of biological signals, molecular basis for the action of hormones, neurotransmitters and growth factors on neurotransmission, metabolism, gene regulation and cell growth. PREREQ: PSCI 5567 AND PERMISSION OF INSTRUCTOR.

PSCI 6661 Drug Metabolism 3 credits. Advanced study in drug metabolism, cytochrome P450 oxidative system, toxic actions of drugs, mutagenicity, carcinogenicity, and in vitro systems for the study of metabolism. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6662 Neuropharmacology 3 credits. The molecular basis of drug action in the central nervous system including nerve excitation, molecular properties of ion channels, neuropharmacological methods, pharmacology of ethanol and the mechanisms in tolerance and physical dependence. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6680 Independent Problems in Pharmaceutical Sciences 1-4 credits. Advanced students are assigned special studies in areas of pharmaceutical sciences on the basis of interest and previous preparation. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

PSCI 6698 Dissertation Research variable credit. Research toward completion of the dissertation in the pharmaceutical, social, behavioral or administrative pharmacy sciences. Graded S/U.

PSCI 6885 Dissertation variable credit. Preparation of the written report of the dissertation research. Graded S/U.

Pharmacy Administration Graduate Courses

PADM 5538 Independent Problems in Pharmacy Administration 1-4 credits. Independent study of various topics in pharmacy administration. May be repeated.

PADM 5554 Pharmacy Management I 2 credits. Principles of organization, management and financial analysis as applied to the practice of pharmacy. PREREQ: PPRA 5519.

PADM 5556 Pharmacy Management II 2 credits. Problems of management, merchandising, and salesmanship, applied to community pharmacy. PREREQ: PHAR 4454.

PADM 6601 Graduate Seminar in Pharmacy Administration 1 credit. Discussion of current research and theories in pharmacy administration. May be repeated.

PADM 6603 Advanced Pharmacy Law 3 credits. Requirements of federal laws influencing the practice of pharmacy, including selected recent cases. PREREQ: PPRA 519 OR PERMISSION OF INSTRUCTOR.

PADM 6605 Research Methods in Pharmacy Administration 3 credits. Methods in research
design and analysis utilized in pharmacy administration research. PREREQ: GRADUATE LEVEL STATISTICS COURSE.

PADM 6610 Social and Behavioral Aspects of Pharmacy Practice 3 credits. Examination of sociological and psychological concepts and theories as applied to the practice of pharmacy. PREREQ: PERMISSION OF INSTRUCTOR.

PADM 6612 Ethics for Health Professionals 3 credits. Examination of ethical issues that arise in the provision of health care. PREREQ: PERMISSION OF INSTRUCTOR.

PADM 6624 Advanced Pharmacy Management I 3 credits. Principles of operation and management encountered in the drug distribution process. PREREQ: ONE YEAR OF ACCOUNTING OR PERMISSION OF INSTRUCTOR.

PADM 6626 Advanced Pharmacy Management II 3 credits. Case studies of problems encountered in pharmacy management. PREREQ: PADM 6624.

PADM 6630 Advanced Drug Marketing 3 credits. Approaches and methods of marketing as applied to pharmacy and the drug distribution process.

PADM 6632 Medical Economics 3 credits. Examination of the market forces encountered in the medical care system.

PADM 6634 Advanced Pharmacy Administration I 3 credits. An integration of socio-behavioral and management principles into an advanced consideration of pharmacy administration.

PADM 6635 Advanced Pharmacy Administration II 3 credits. A continuation of PADM 634, this course further explores issues in the discipline of pharmacy administration.

PADM 6649 Research in Pharmacy Administration 1-2 credits. Research problems ancillary to the thesis project. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. Graded S/U.

PADM 6650 Thesis Research 1-10 credits. May be repeated. Graded S/U.

PADM 6651 Master’s Paper 3 credits. May be repeated. Graded S/U.

PADM 6691 Topical Seminar in Pharmacy Administration 2-4 credits. Examination of selected topics in pharmacy administration. May be repeated.

Pharmacy Practice Graduate Courses
PPRA 5518 Clinical Research Design and Analysis 4 credits. The fundamentals of experimental design, implementation and data analysis pertinent to pharmaceutical clinical investigations.

PPRA 5596 Clinical Pharmacy Residency 0 credits. Advance practical experience in clinical pharmacy practice. PREREQ: MUST HAVE A DOCTOR OF PHARMACY DEGREE.

Services Courses
PHAR 6645 Pharmacotherapeutics for Advanced Practice Nurses 3 credits. A problem-based course emphasizing the fundamentals of drug action and the rational use of drugs to treat various organ system disease states. PREREQ: BIOL 5563.
College of Technology

Marilyn Davis, Ed.D., Dean
Debbie Thompson, M.Ed., Associate Dean

Geomatics Technology

Professor: Wissa
Associate Professor: Bajracharya

Geomatics Graduate Courses

(No graduate degrees are offered)

GEMT 5530 Principles and Applications 3 credits. Introduction to theory and use of GPS for mapping and survey quality application. Includes basic and advanced principles of GPS positioning, Differential GPS, types of GPS receivers, static, kinematics and RTK procedures, vector processing and adjustment using least squares concept, OPUS processing, coordinate creation and export results for use in specific application. PREREQ: CET/GEMT 2224 OR PERMISSION OF INSTRUCTOR.

GEMT 5532 Principles of Photogrammetry 3 credits. Introduction to vertical photo geometry and its scale, relief and tilt displacement, stereoscopic viewing, parallax measurement, mosaics, orientations, development of planimetric and topographic maps, flight planning, softcopy photogrammetry and introduction to aerial triangulation. PREREQ: CET/GEMT 2224 OR PERMISSION OF INSTRUCTOR.

Department of Human Resource Training and Development

Chair and Professor Croker
Professor: Johnson
Associate Professor: Kolody, Scott

Master of Training and Development

The Master of Training and Development, aligned with State educational standards, provides the adult learner with opportunities to engage in the processes of inquiry, learning, and applying known competencies within the fields of Human Resource Development and Professional Technical Education.

The Master of Training and Development is designed to strengthen the student’s understanding, knowledge, and skills in three major areas—Professional Core Requirements, Training Management Studies, and Integrative Field Research Studies—as they relate to Training and Development.

Admission Requirements

Individuals applying for admission to the Master of Training and Development program must meet the following admission requirements:

- Bachelor’s degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.
- The student must apply to, and meet all criteria for, admission to the Graduate School.

General Requirements

Students must complete a minimum of 36 semester credit hours for the Master of Training and Development. All applicants completing a thesis will orally defend the thesis, but will not complete written comprehensive examinations. All applicants not completing a thesis will be required to orally defend the findings of their field research. In addition, the Department of Human Resource Training and Development requires applicants to have a knowledge of statistical procedures.

Students seeking Idaho certification in the area of their training must meet any requirements of the State Board of Education for certification.

Designing and conducting evaluations at four levels in professional-technical education, and in business and industry training, including data analysis and preparation of evaluation reports.

HRD 5504 Evaluation in Corporate Training and Professional-Technical Education 3 credits. Designing and conducting evaluations at four levels in professional-technical education, and in business and industry training, including data analysis and preparation of evaluation reports.

HRD 5505 Learning Styles Fundamentals 3 credits. Examination of the research related to learning styles and implications for curriculum and instruction. Includes presentation of an eight-step approach for teaching instructional content.

HRD 5506 Grantwriting in Human Resource Training and Development 3 credits. Reasons for requesting a grant, goal setting, sample projects, identifying funding agencies, submitting a Request for proposal (RFP), elements of a good proposal, library resources, web sites, and other references for grant writing.
HRD 5509 Professional Readings and Writing in HRTD 3 credits. Exposure to the professional literature and web sites of professional-technical education and corporate training, including practice in writing abstracts of journal articles using APA Style.

HRD 5531 Workforce Leadership 3 credits. Supervising in a professional-technical education or corporate training setting. Study human relation factors: planning, organizing, evaluation, staff development, labor relations, and personnel policies/practices.

HRD 5544 Career Guidance and Special Needs in Professional-Technical Education 3 credits. Examine career guidance concepts, specialist services, special needs legislation, abilities and inabilities (both mental and physical), job seeking skills, and information sources.

HRD 5557 Facilitating Adult Learning 3 credits. Study of the needs and interests of adult learners in business and industry using Andragogy. Planning of conferences and workshops for adult learners.

HRD 5561 Directed Studies 1-4 credits. Individual work under staff guidance. Field research on specific occupational advances in technology. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

HRD 5564 Instructional Facilities Management 3 credits. Organization, safety and management of professional-technical education training facilities. An in-depth study of laboratory requirements and total facility planning.

HRD 5565 Practicum in Corporate Training 3 credits. Development of training competencies in an actual business and industry settings. Actual participation as a trainer is required. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

HRD 5568 Teaching Cooperative Education and School-to-Work 3 credits. Coordinating co-operative programs and school-to-work programs, occupational and job analysis, utilizing professional-technical advisory committees, organizing and advising vocational student organizations.

HRD 5597 Professional Education Development Topics. Variable credit. May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

HRD 6632 Research Methods in HRD 3 credits. Examination of methods for designing and conducting research in both educational and workplace settings. Introduction to procedures for summarizing and analyzing quantitative and qualitative data with proper style and format requirements for formal report writing. PREREQ: HRD 5509 OR PERMISSION OF INSTRUCTOR.

HRD 6633 Program Planning and Development in HRTD 3 credits. Preparing local plans for professional-technical education or training programs for business and industry. State, federal and private sector guidelines for program implementation, and effectiveness explored.

HRD 6634 Administration of HRTD 3 credits. Examination of the executive functions of the professional-technical or training administrator. Attention to budgeting, reporting, facility and equipment management, negotiations, advisory committees, and community relations.

HRD 6635 Practicum in Training Administration 3 credits. An individually designed internship under the supervision of the faculty and an experienced local professional-technical administrator or training manager. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

HRD 6636 Practicum 1-3 credits. An individually designed practicum under the supervision of the HRTD faculty and an experienced practitioner in the field of Human Resource Training and Development. May be repeated up to 6 credits. Graded S/U.

HRD 6640 Seminar in Training Management 1-2 credits. Current topics in the management of human resource development presented by department faculty and visiting lecturers. Maximum of 2 credits applied to the degree. Graded S/U.

HRD 6645 Field Research Project in Training Management 1-3 credits. An individual field research project must be completed; a written report and oral explanation of the report will be required. May be repeated up to 6 credits. Graded S/U. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

HRD 6650 Thesis 1-6 credits. Graded S/U. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

HRD 6660 Contemporary Issues in HRD 3 credits. Exploration of issues relating to the functions of HRTD - Individual Development, Career Development and Organizational Development. Emphasis on how these functions relate to the industrial/business environment.

HRD 6661 Management Issues in HRD 3 credits. Critical analysis and discussion of contemporary issues relating to management in HRD. Includes review of current research and theory.

HRD 6662 Distance Learning Delivery Practices 3 credits. Exploration of the distance delivery medium including on-screen practices, media development, curriculum planning, instructional strategies, technical support. Includes review of research and theory relating to distance learning.

HRD 6663 Instructional System Evaluation 3 credits. Critical analysis and discussion of the roles of evaluation in corporate training. Emphasis on theories of program and curriculum evaluation.

HRD 6664 Topics in Human Resource Development 3 credits. Critical analysis of current topics in human resource development. Opportunities will be provided for students to study independently with specialists in topic areas.

HRD 6680 Advanced Technical Competency 1-4 credits. Advanced occupational skills and knowledge obtained from modern practice in selected field. For experienced professionals seeking advanced techniques in specialized areas of PTE, and HRD. PREREQ: APPROVAL OF ADVISOR REQUIRED.
Informatics Research Institute

Director and University Professor of Informatics Schou
Associate Director and Professor Lohse Professor: Cady
Associate Professors: Sammons, J. Strickland, Turley-Ames
Assistant Professor: Frost
Affiliate Professors: Leibrock, Longley, Murray, Stephenson
Affiliate Assistant Professors: Moulton, Slay, Willes

Mission

The Informatics Research Institute (IRI) is an academic unit providing coordination for several interdisciplinary degrees and research centers across campus. Informatics is an integrative discipline that arises from the synergistic application of computational, informational, organizational, cognitive, and other disciplines whose primary focus is in the acquisition, storage and use of information in a broad spectrum of domains. It includes the study and application of information technology in the arts, sciences, commerce, medicine, and society in general. The IRI has a mission in teaching, research, and service. Activities include:

- Developing interdisciplinary programs in informatics
- Developing interdisciplinary degree programs
- Developing and offering outreach programs
- Coordinating activities of related centers on campus
- Providing leadership in critical infrastructure protection
- Developing educational programs
- Developing infrastructures to support research in diverse fields
- Coordinating interdisciplinary academic concentrations

The IRI coordinates activities among the National Information Assurance Training and Education Center (NIATEC), Simplot Decision Support Center (SDSC), Center for Innovative Technology in Archaeological Informatics (CITI-AI), and the Center for Innovative Technology in Mathematics, Science, and Social Sciences Learning (CITI-MSSSSL). The IRI charter includes development of interdisciplinary AA, AS, BA, BS, Masters and Doctoral programs, as well as concentrations in Information Assurance.

Archaeological Informatics

Associate Director and Professor of Anthropology Lohse

CITI-AI - Center for Innovative Technology in Archaeological Informatics

The CITI-AI leads research in the organization and analysis of archaeological information. It creates and maintains active partnerships within the archaeological community and serves as an interdisciplinary center of activity uniting basic informatics research and modeling within the Informatics Research Institute, Idaho State University, and its affiliated faculty.

Educational Informatics

CITI-MSSSTL - Center for Mathematics, Science, Social Sciences, and Technology Learning

The CITI-MSSSTL focus is on PK-16 learning in the current environment of accountability. The faculty of CITI-MSSSTL collaborates with other institutions to explore technology and informatics solutions to improve learning. Curriculum development, assessment, data management, and teacher training are but a few of the services offered by CITI-MSSSTL. The staff of CITI-MSSSTL are experienced in all aspects of instructional systems design and implementation. The center creates and maintains active partnerships with public schools and higher education institutions interested in improving the quality of learning within our educational systems.

Simplot Decision Support Center

SDSC - Simplot Decision Support Center

The Simplot Decision Center is a facility designed to increase group decision-making effectiveness and efficiency. It is a research and development effort of Idaho State University resulting from the generosity of the Simplot Corporation. The Simplot Decision Support Center is one of a few dedicated facilities in the nation and is available as a resource to both local and national organizations. It has led the national effort in developing information assurance and computer security training and education standards for the federal government.

Information Assurance

NIATEC - National Information Assurance Training and Education Center

The NIATEC Center is a consortium of academic, industry, and government organizations to improve the literacy, awareness, training, and education standards in information assurance. As the federally designated cornerstone for essential education and training components of a strong information assurance initiative, the mission is to establish an effective information assurance infrastructure. NIATEC is associated with the Idaho State University Center for Academic Excellence. It is a component in the national plan to establish a federal cyber-corps to defend against cyber-based disruption and attacks. Key to building such a cyber-corps is the implementation of robust graduate and undergraduate curricula in information assurance.

Information Assurance Degree Concentrations

The Informatics Research Institute coordinates the federally designated Center of
Academic Excellence in Computer Security Education. The Center of Academic Excellence includes formal concentrations in information assurance at the undergraduate and graduate level in cooperation with NIATEC and CITI-MSSSL. In addition, the IRI offers formal concentrations in information assurance for baccalaureate, masters, and doctoral programs. These concentrations may be above the regular degree requirements documented by the DHS/CNSS approved certificates offered by ISU.

Certificates for Concentrations:

- **CNSS 4011** - National Training Standard for Information Systems Security (INFOSEC) Professionals
- **CNSS 4012** - Senior Systems Manager
- **CNSS 4013** - Systems Security Administration
- **CNSS 4014** - Information Systems Security Officer
- **CNSS 4015** - Systems Certification

**General Requirements**

Students with appropriate prerequisites may take courses within the information assurance program as part of a formal information assurance concentration in their degree program. With approval of their advisor and the faculty, they may pursue certificates in specialty areas. In addition to courses that support specialized certificates, the program offers courses in computer forensics and risk analysis. All courses require preparation of research papers on information assurance topics related to their major fields.

**CNSS 4011** - Students in the CIS emphasis in the MBA program may take CIS 5511, a minimum of 6 hours of 5519 (Informatics Practicum) or 5593 (Internship) and two additional courses in information assurance. Graduate courses increase focus on theory, history, software assurance, assured systems design, and networks. Students in other majors may have to take additional remedial courses or demonstrate appropriate experience.

All students seeking additional certifications must complete the requirements for CNSS 4011 and the following:

- **CNSS 4012** - Students certifying for 4012 must complete CIS 5511, 5512, 5513, 5514, and 5515.
- **CNSS 4013** - Students certifying for 4013 must complete CIS 5511, 5513, and 5585
- **CNSS 4014** - Students certifying for 4014 must complete CIS 5511, 5513, and 5514
- **CNSS 4015** - Students certifying for 4015 must complete CIS 5511, 5514, and 5515

Doctoral students wishing to build a concentration in Information Assurance should contact the director to discuss research and coursework opportunities customized to meet their academic program.
Graduate Faculty

NOTE: The date in parentheses is the date of first appointment at Idaho State University. Adjunct, Affiliate and Emeritus Faculty are listed in the Undergraduate Catalog.

Adams, Barbara A., Professor, Pharmacy Practice and Administrative Sciences; Associate Vice President for Academic Affairs. B.A., 1974, University of California, Los Angeles; M.A., 1981; Ph.D., 1984, University of Southern California. (1985)

Adler, David G., Professor, Political Science. B.A., 1976, Michigan State University; Ph.D., 1982, University of Utah. (2001)

Ayun, Kregg J., Professor, Computer Information Systems; Department Chair. B.S., 1984; Ph.D., 1993, University of Arizona. (1993)

Beachboard, John C., Associate Professor, Computer Information Systems. B.S., 1976, University of Arizona; M.S., 1990, Boston University; M.S., 1995; Ph.D., 1999, Syracuse University. (2001)

Bearden, Shawn, Associate Professor, Biological Sciences. B.S., 1994, University of Virginia; M.S., 1996, George Mason University; Ph.D., 2000, Florida State University. (2004)

Beckmann, Jon, At-Large Graduate Faculty, Biological Sciences. B.S., 1996, Kansas State University; Ph.D., 2002, University of Nevada, Reno. (2005)

Bennett, Byron L., Assistant Professor, Chemistry. B.A., 1989, Cedarville College; Ph.D., 1997, University of Wyoming. (2007)

Benson, C. Scott, Jr., Professor, Economics. A.B., 1972, University of California, Berkeley; M.A., 1979; Ph.D., 1988, University of California, Davis. (1986)

Berger, Joel, At-Large Graduate Faculty, Biological Sciences. B.A., 1974; M.S., 1975, California State University, Northridge; Ph.D., 1978, University of Colorado, Boulder. (2005)

Bigelow, James, Associate Professor, Biomedical and Pharmaceutical Sciences. B.S., 1979, University of Illinois, Urbana-Champaign; Ph.D., 1985, Indiana University, Bloomington. (2004)

Blanton, Cynthia A., Assistant Professor, Health and Nutrition Sciences. B.S., 1994, California State University; Northridge; Ph.D., 2000, University of California, Davis. (2007)

Bowyer, Terry, Professor, Biological Sciences, Department Chair. B.S., 1970, Humboldt State University; M.S., 1976, Humboldt State University; Ph.D., 1985, University of Michigan. (2004)

Brey, Richard R., Professor, Physics. B.S., 1988; M.S., 1990; Ph.D., 1994, Purdue University. (1994)

Brooks, Patrick L., Professor, Music. B.S., 1980; University of Illinois;

Childress, Michael J., At-Large Graduate Faculty, Biological Sciences. B.S., 1987, University of Tampa; M.A., 1990, University of California, Berkeley; Ph.D., 1995, Florida State University.

Connelly, John William, Jr., At-Large Graduate Faculty, Biological Sciences. B.S., 1974, University of Idaho; M.S., 1977; Ph.D., 1982, Washington State University.

Creeelman, Jim, Associate Professor, Physical and Occupational Therapy. B.S., 1971, U.S. Naval Academy; B.S., 1982, University of Maryland; M.S., 1997, Idaho State University; D.P.T., 2006, University of St. Augustine. (1990)

Cretekos, Chris, Assistant Professor, Biomedical Sciences. B.S., 1989, University of Rochester; Ph.D., 1998, University of Utah. (2007)

Croker, Robert E., Professor, Human Resource Training and Development; Department Chair. B.S., 1979, Purdue University; M.S., 1980, Indiana State University; Ed.D., 1986, Washington State University. (1994)

Crosby, Benjamin T., Assistant Professor, Geosciences. B.A., 1999, University of California, Berkeley; Ph.D., 2006, Massachusetts Institute of Technology. (2006)

Culbertson, Vaughn L., Professor, Pharmacy Practice and Administrative Sciences. B.S., 1971, University of Nebraska, Lincoln; Pharm.D., 1981, University of Nebraska, Omaha. (1989)

Daniels, Christopher K., Professor, Biomedical and Pharmaceutical Sciences. B.S., 1972, Humboldt State University; M.S., 1975, University of Wisconsin; Ph.D., 1982, Stanford University. (1988)

Holman, Robert, Professor; Chemistry. B.S., 1983, University of Wisconsin; Ph.D., 1988, University of Nebraska, Lincoln. (2004)

Holmer, Richard N., Professor; Anthropology; Department Chair. B.A., 1972; M.A., 1975; Ph.D., 1978, University of Utah. (1983)

Hooper, Richard I., Associate Professor; Social Work. B.S., 1986, Brigham Young University; M.B.A., 1990, University of Phoenix; M.S.W., 1993, University of Georgia; Ph.D., 2001, Portland State University. (2006)

Hoover, Robert J., Professor; Marketing. B.B.A., 1967; M.B.A., 1968; Ph.D., 1975, University of Texas, Austin. (2001)

Howard, Hope, At-Large Graduate Faculty, Biological Sciences. B.A., 1996, Hood College; Ph.D., 2002, Georgia Institute of Technology. (2005)

Howlett, Bernadette, Research Assistant Professor; Physician Assistant Studies. B.A., 1999, Marylhurst University; M.S., 2002, Boise State University; Ph.D., 2009, University of Idaho. (2004)

Hunt, Alan W., Research Associate Professor; Physics. B.S., 1994, University of Michigan; Ph.D., 2000, Harvard University. (2002)

Hunterly, Nancy J., Professor, Biological Sciences. B.A., 1977, Kalamazoo College; Ph.D., 1985, University of Arizona. (1986)

Imel, George R., Professor, Mechanical and Nuclear Engineering; Dean, College of Engineering. B.S., 1971, Lafayette College; M.S., 1973; Ph.D., 1977, Pennsylvania State University. (2007)

Jackson, Thomas T., Professor, Psychology; Dean, Graduate School. B.A., 1967, California State College at Fullerton; M.A., 1969, California State College, Fullerton; Ph.D., 1974, Texas Tech University. (2006)

Jantz, Paul B., Assistant Professor, Educational Learning and Development. B.M.E., 1976, University of Wyoming; M.A., 1988; Ph.D., 1994, University of Northern Colorado. (2005)

Johnson, LaMar J., At-Large Graduate Faculty, Biological Sciences. B.S., 1959, Utah State University; M.S., 1963, University of Kansas; Ph.D., 1969, Colorado State University.

Johnson, Margaret E., Professor, English and Philosophy; Department Chair. B.S., 1986, University of California, Berkeley; M.A. 1990, San Jose State University; Ph.D., 1998, University of Oregon. (1999)

Jolly, James, Professor, Management; Department Chair. B.A. 1975, Purdue University; M.S., 1979; Ph.D., 1985, University of Texas, Dallas. (1982)

Kalivas, John H., Professor, Chemistry. B.S., 1978, California Polytechnic State University; Ph.D., 1982, University of Washington. (1985)

Kangas, Kathleen A., Professor, Communication Sciences and Disorders, and Education of the Deaf; Department Chair. B.S., 1974, Northern Michigan University; M.S.P.A., 1977, University of Washington; Ph.D., 1990, Purdue University. (1990)

Kantabutra, Vitit, Associate Professor, Computer Science (Engineering). M.Eng., 1979, McGill University; M.S.E., 1982; Ph.D., 1985, Johns Hopkins University. (1995)

Keener, William, At-Large Graduate Faculty, Biological Sciences. B.S., 1988, Texas A&M University; Ph.D., 1996, Oregon State University. (2001)

Kelchner, Scot, Associate Professor, Biological Sciences. B.S., 1992; M.S., 1996, Iowa State University; Ph.D., 2003, Australian National University. (2004)

Kie, John, Research Professor, Biological Sciences. B.S., 1972; M.S., 1973; Ph.D., 1977, University of California, Berkeley. (2005)

Kovaes, Rudy S., Professor, Art and Pre-Architecture; Department Chair. B.F.A., 1972, Ohio University; M.F.A., 1975, University of Kansas. (1980)

Krumwiede, Dennis, Professor, Management. B.S., 1977, University of Nebraska, Lincoln; M.S., 1989, University of Colorado; Ph.D., 1997, Kansas State University. (2000)

Lang, Patrick, Professor, Mathematics. B.S., 1980, Colorado State University; M.S., 1982, Brown University; Ph.D., 1985, Colorado State University. (1985)

Larson, Howard A., At-Large Graduate Faculty, Nuclear Engineering: B.S., 1962, University of North Dakota; Ph.D., 1970, University of Washington.

Lehman, R. Michael, At-Large Graduate Faculty, Biological Sciences. B.A., 1983, University of Colorado; M.S., 1991, University of Virginia; Ph.D., 2000, Idaho State University. (2001)

Lester, Michael J., Professor, Sport Science and Physical Education; Interim Department Chair. B.S., 1976, Lewis-Clark State College; M.S., 1978, University of Arizona; Ed.D., 1985, Oklahoma State University. (1990)

Lineberry, Michael J., Professor, Nuclear Engineering. B.S., University of California, Los Angeles; M.S., 1968; Ph.D., 1972, California Institute of Technology. (1986)

Link, Paul Karl, Professor, Geosciences. B.S., 1976, Yale University; B.Sc., 1977, University of Adelaide; Ph.D., 1982, University of California, Santa Barbara. (1980)

Loehs, Bruce D., Professor, Communication and Rhetorical Studies. B.A., 1959, University of California, Santa Barbara; M.S., 1964; Ph.D., 1968, University of Oregon. (1969)

Lutzerman, Janet L., Assistant Professor, Biological Sciences. B.S., 1992, Lehigh University; M.S., 1995, Virginia Commonwealth University; Ph.D., 2001, Idaho State University. (2008)

Ma, Yongsheng, Assistant Professor, Biological Sciences. M.D., 1982, Lanzhou Medical School; Ph.D., 1994, New York University. (2008)

Magnuson, Timothy, Associate Professor, Biological Sciences. B.S., 1987, University of Minnesota; Ph.D., 1991, University of Idaho. (2001)

Mahar, James W., At-Large Graduate Faculty, Civil and Environmental Engineering. B.S., 1967, Idaho State University; M.S., 1972, Colorado State University; Ph.D., 1977, University of Illinois. (2003)

Mannel, Sylvio, At-Large Graduate Faculty, Geosciences. M.S., 1999, Potsdam Germany; Ph.D., 2003 South Dakota School of Mines and Technology. (2008)

McAlessie, Willis J., Professor, Health and Nutrition Sciences; Department Chair. B.S., 1976, Northwest Missouri State University; M.P.E., 1978, Idaho State University; Ph.D., 1980, University of New Mexico. (1989)

McChesney, John W., At-Large Graduate Faculty, Sport Science. B.A., 1982, California State University, Chico; M.A., 1984, Western Michigan University; Ph.D., 1996, University of Oregon.

McCurry, Michael O., Professor, Geosciences. B.A., 1974, University of Washington; Ph.D., 1985, University of California, Los Angeles. (1990)

Meldrum, D. Jeffrey, Associate Professor, Biological Sciences. B.S., 1982; M.S., 1984, Brigham Young University; Ph.D., 1989, State University of New York, Stony Brook. (1993)

Mitchell, Marck, Research Assistant Professor, Physics. B.S., 2000, University of Evansville; M.S., 2004; Ph.D., 2007, Cornell University. (2006)

Molinari, Deana L., Associate Professor, Nursing. B.S.N., 1985, Walla Walla College;
M.S., 1996, Oregon Health Sciences University; Ph.D., 2003, Brigham Young University. (2006)

Mousavinezhad, Seyed Hossein, Professor, Electrical Engineering and Computer Science; Department Chair. B.S., 1972, National Taiwan University; M.S., 1973, Michigan State University; Ph.D., 1977, Michigan State University. (2007)

Murphy, Gregory B., Associate Professor, Management. B.A., 1985, Weber State University; M.S., 1989, University of Central Texas; Ph.D., 1996, University of Houston. (2008)

Newsome, Julie R., Associate Professor, Educational Foundations. B.S., 1983, University of Texas, Austin; M.Ed., 1988, University of North Texas; Ph.D., 1995, University of Alabama. (1996)

Pak, Joshua, Associate Professor, Chemistry. B.A., 1993, Whittier College; M.S., 1995, Duquesne University; Ph.D., 1999, University of Oregon. (2001)

Palmer, Bennett, Professor, Mathematics. B.S., 1979, University of Massachusetts; Ph.D., 1986, Stanford University. (2002)

Pan, Wei, At-Large Graduate Faculty, Electrical Engineering. B.S., 1989; M.S., 1992; Ph.D., 1996, Zhejiang University. (2008)

Park, Pamela, Professor, Languages and Literatures. B.A., 1972, Fordham University; Licence Lettres ès Modernes, 1974, Université de Nancy; Ph.D., 1979, City University of New York. (1985)

Paulson, Donald L., Associate Professor, Counseling. B.A., 1966, Hamline University; M.S., 1968, Indiana University; Ph.D., 1972, University of Iowa. (1991)

Perez, Alba, Assistant Professor, Mechanical Engineering. B.S., 1996, Polytechnic University of Catalonia, Spain; M.S., 1999; Ph.D., 2003, University of California, Irvine. (2004)

Petlichkoff, Linda M., At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1972; M.A., 1982, Michigan State University; Ph.D., 1988, University of Illinois at Urbana-Champaign.

Pfeiffer, Ronald P., At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1976, Central Michigan University; M.S., 1979, University of Oregon; Ed.D., 1985, Brigham Young University.

Picard, Robert R., Professor, Accounting; Department Chair. B.S., 1976, Northern Michigan University; M.B.A., 1984, University of St. Thomas; Ph.D., 1994, University of Kentucky. (1994)

Pierce, Becky, At-Large Graduate Faculty, Biological Sciences. B.S., 1987, California Polytechnic State University; M.S., 1991, University of Nevada, Reno; Ph.D., 1999, University of Alasaka, Fairbanks. (2005)

Porter, Warren P., At-Large Graduate Faculty, Biological Sciences. B.S., 1961, University of Wisconsin; M.A., 1963, University of California; Los Angeles; Ph.D., 1966, University of California, Los Angeles.

Rasmussen, Erin, Associate Professor, Psychology. B.S., 1994, Utah State University; M.S., 1999; Ph.D., 2001, Auburn University. (2004)

Ray, Beverly, Associate Professor, Educational Foundations. B.S., 1984, University of Texas, Austin; M.A., 1989; Ph.D., 2000, University of Alabama. (2001)

Reis, Priscilla R., Associate Professor, Accounting. B.A., University of Rhode Island; M.S., State University of New York, Albany; Ph.D., 1991, Rensselaer Polytechnic Institute. (1994)

Reynolds, Mary Anne H., Associate Clinical Professor, Nursing. B.S.N., 1979 University of Utah; M.S., 1984, University of California, San Francisco; Ph.D., 1997, University of Utah. (2001)

Roberts, Mark W., Professor, Psychology. B.A., 1971, Stanford University; M.S., 1975; Ph.D., 1977, University of Georgia. (1977)

Rodgers, David W., Professor, Geosciences; Interim Department Co-Chair. B.A., 1981, Carleton College; Ph.D., 1987, Stanford University. (1985)

Rodriguez, René, Professor, Chemistry. B.S., 1981, University of Colorado; M.S., 1984, University of Minnesota; Ph.D., 1987, University of Idaho. (1988)

Rodnick, Kenneth J., Professor, Biological Sciences. B.S., 1979, University of California, Davis; M.S., 1982; M.A., 1984, Oregon State University; Ph.D., 1989, Stanford University. (1993)

Rogo, Ellen, Associate Professor, Dental Hygiene. B.S., 1978, University of Missouri, Kansas City; M.Ed., 1981, University of Washington; Ph.D., 2009, Idaho State University (1992)

Rose, W. Jackson, Professor, Biological Sciences. B.S., 1975; M.S., 1979, The Ohio State University; Ph.D., 1985, Oregon State University. (1987)

Rosentreter, Jeffrey J., Professor, Chemistry. B.S., 1985, University of Montana; Ph.D., 1990, Colorado State University. (1991)

Sanford, Chris A., Assistant Professor, Communication Sciences and Disorders, and Education of the Deaf. B.S., 1997; M.S., 1999, Brigham Young University; Ph.D., 2006, University of Washington. (2009)

Santhanakrishnan, Mukunthan, Associate Professor, Finance. B.S., 1994, Birla Institute of Technology and Science; MBA, 1997, Cleveland State University; Ph.D., 2003, Arizona State University.(2003)

Sato, Chikashi, Professor, Civil and Environmental Engineering. B.S., 1971, Fukushima National College of Technology; M.S., 1976, University of Kansas; Ph.D., 1981, University of Iowa. (1995)

Savage, Bruce M., Assistant Professor, Civil and Environmental Engineering. B.S., 1992; M.S., 1997; Ph.D., 2002, Utah State University. (2006)

Schoen, Marco P., Professor, Mechanical Engineering. B.S., 1989, Swiss College of Engineering, Muttenz, Switzerland; M.E., 1993, Widener University; Ph.D, 1997, Old Dominion University. (2001)

Schou, Corey D., Professor, Computer Information Systems. B.S., 1968, Rollins College; M.S., 1970; Ph.D., 1972, Florida State University. (1985)

Seikel, J. Anthony, Associate Professor, Communication Sciences and Disorders, and Education of the Deaf. B.S., 1979, Phillips University; M.A., 1981, Wichita State University; Ph.D., 1988, University of Kansas. (1998)

Shapley, Mark, At-large Graduate Faculty, Geosciences. B.S., 1979, University of Washington; M.S., 1985, University of Montana; Ph.D., 2005, University of Minnesota. (2008)

Sheridan, Peter, Associate Professor, Biological Sciences. B.A., 1984; M.S., 1991, Rutgers University; Ph.D., 1996, University of Cincinnati. (2000)

Shields, Malcolm, Associate Professor, Biological Sciences. B.S., 1978, Virginia Polytechnic Institute and State University; M.S., 1980, University of Idaho; Ph.D., 1985, University of Tennessee, Knoxville. (2001)

Smith, Kenneth A., Professor, Accounting; Dean, College of Business. B.S., 1968, University of Montana; C.P.A., 1968; Ph.D., 1971, University of Texas. (1970)

Sorensen, David N., Professor, Communication Sciences and Disorders, and Education of the Deaf. B.S., 1970; M.S., 1971; University of Utah; Ph.D., 1980, Purdue University. (1985)

Spear, Caile E., At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1985, Texas Woman’s University; M.S., 1991; Ph.D., 1996, University of Arkansas, Fayetteville. (1996)

Spiegel, Kathleen, Clinical Assistant Professor, Biological Sciences. B.S., 1971, Old Dominion University; M.S., 1972, Idaho State University; Ph.D., 1983, University of Utah. (2000)

Squires, David, Associate Professor, Educational Learning and Development; Department Chair. B.S., 1971, Pacific Union College; M.A., 1992, Fresno Pacific College; Ph.D., 2001, Indiana University, Bloomington. (2000)

Stamm, Beth Hudnall, At-Large Graduate Faculty, Psychology. B.S., 1986; M.A., 1989, Appalachian State University; Ph.D., 1993, University of Wisconsin. (1992)

Stegner, Tesa, Professor, Economics; Department Chair. B.S., 1983, Valparaiso University; Ph.D., 1989, Washington State University. (1992)

Stephenson, Thomas, At-Large Graduate Faculty, Biological Sciences. B.S., 1986, Colorado State University; M.S., 1989, Virginia Polytechnic Institute and State University; Ph.D., 1995, University of Idaho. (2005)

St-Hilaire, Sophie, Associate Professor, Biological Sciences. M.S., 1996, University of Saskatchewan; Ph.D., 2000, University of Guelph. (2005)

Stowe, Dennis C., Professor, Mathematics. B.S., 1974, University of Michigan, Ann Arbor; M.A., 1977; Ph.D., 1980, University of California, Berkeley. (1988)

Tapanila, Leif, Assistant Professor, Geosciences. B.S., 1999, University of Waterloo, Canada; M.S., 2001, Laurentian University, Canada; Ph.D., 2005, University of Utah. (2005)

Tappan, Dan, Assistant Professor, Computer Science. B.A., 1992, Arizona State University; M.S.E., 1996, University of Arkansas, Fayetteville; Ph.D., 2004, New Mexico State University. (2005)

Tatar, Eddie, Associate Professor, Physics. M.S., 2001; Ph.D., 2000, University of Notre Dame. (2001)

Terry, Thomas C., Professor, Mass Communication; Department Chair. B.S., 1975, University of Iowa; M.A., 2003; Ph.D., 2007, University of North Carolina. (2008)

Thomas, Gloria Jean, Associate Professor, Educational Leadership and Instructional Design. B.A., 1974, Idaho State University; M.S., 1976, Oregon State University; M.B.A., 1985, Colorado State University; Ph.D., 1988, Brigham Young University. (2002)

Thomas, Michael, Associate Professor, Biological Sciences. B.S., 1991, University of Nebraska, Lincoln; M.S., 1994, Kansas State University; Ph.D., 2000, Pennsylvania State University. (2003)

Tokle, Joanne, Professor, Management. B.S., 1981, University of Wisconsin; M.S., 1983; University of Minnesota; Ph.D., 1988, Iowa State University. (1992)

Vaughn, Ross E., At-Large Graduate Faculty, Sport Science and Physical Education. B.A., 1968, Chico State College; M.S., 1969; Ph.D., 1982, Washington State University.

Vik, Peter W., Professor, Psychology. B.S., 1982, University of California, Davis; M.A., 1986, San Diego State University; Ph.D., 1992, University of Colorado. (1996)

Wabrek, Richard M., Associate Professor, Mechanical Engineering. B.S., 1971, Valparaiso University; M.S., 1976, University of Vermont; Ph.D., 1985, New Mexico State University. (1989)

Wells, Douglas P., Professor, Physics. B.S., 1982, Rutgers University; M.S., 1984, University of Virginia; M.S., 1985; Ph.D., 1990, University of Illinois. (1997)

**Wheaton, Joseph M.**, At-Large Graduate Faculty, Geosciences. B.S., 2002; M.S., 2003, University of California, Davis; Ph.D., 2008, University of Southampton. (2008)

**Williams, Brian G.**, Associate Professor, Mechanical Engineering. B.S., 1990, Brigham Young University; M.S., 1991; Ph.D., 1997 Utah State University. (2001)

**Williams, Charles F. (Rick)**, Associate Professor, Biological Sciences. B.S., 1979, University of Oklahoma; M.S., 1985, University of Miami; Ph.D., 1991, University of Wisconsin-Madison. (1998)

**Wolley, Jeanette**, At-Large Graduate Faculty, Anthropology. B.A., 1979, University of Minnesota; J.D., 1982, University of New Mexico School of Law.

**Yan, Guang**, Assistant Professor, Biomedical and Pharmaceutical Science. B.S., 1996; M.S., 1999, Shenyang Pharmaceutical University; Ph.D., 2004, University of Utah. (2009)

**Zhu, Wenxiang**, Assistant Professor, Mathematics. B.S., 1992; M.S., 1995, Fudan University, China; Ph.D., 2002, Iowa State University. (2006)
