

Minor in Business

This minor is only available to students not earning a degree from the College of Business.

The minor in Business augments the undergraduate education of non-business students by providing exposure to courses in Accounting, Finance, Marketing, Management, and Informatics. The goal of the minor is to provide students the opportunity to learn basic business language, concepts, and tools that will assist them in pursuing careers in their major fields.

Students not receiving BBA degrees from the College of Business may satisfy the requirements for a minor in Business by completing the following courses (total 18 credits):
