Master of Public Health (MPH)

Courses

MPH 5503 Health Topics: The Rural West: 3 semester hours.
Survey a variety of health topics specific to rural communities in the West. Critically examine social, cultural, economic, and political factors that shape the way health is addressed and explained. Develop a personalized career plan that addresses key take-aways from the course. F, Su

MPH 5507 Rural Health Systems: 3 semester hours.
Explore the wide variety of public health and healthcare delivery models currently operating in the rural west. Critically assess the connects and disconnects between Federally Qualified Health Centers, Critical Access Hospitals, Indian Health Services, public health departments, community-based organizations, workforce, telehealth systems and informal networks. F, Su

MPH 5511 Partnering for Rural Health: 3 semester hours.
Develop leadership and team-building skills with traditional and non-traditional partners in rural communities. Apply those skills by developing a funding proposal for a community or organization in a rural setting. S

MPH 5540 Research and Writing in Health: 1: 1 semester hour.
An introduction to the MPH program, critical thinking, principles of research design in the health sciences, and academic writing. Prerequisites: MPH 5520 and MPH 5530

MPH 5555 Independent Study in Public Health: 1-3 semester hours.
Individual work under staff guidance. Field and/or library research on specific health education problems of interest to majors and minors. May be repeated up to 6 credits. Prerequisites: Permission of instructor.

MPH 5599 Experimental Course: 1-6 semester hours.
The content of this course is not described in the catalog. Title and number of credits are announced in the Class Schedule. Experimental courses may be offered no more than three times with the same title and content. May be repeated.

MPH 6601 Applications in Epidemiology: 3 semester hours.
Facilitates an epidemiological approach to problem solving in the health sciences through practical application of field epidemiology concepts and methods. Prerequisites: Permission of instructor if student is not in the MPH program.

MPH 6602 Biostatistics: 3 semester hours.
This course will equip students with a conceptual understanding of the calculation and interpretation of inferential statistics in public health research. Prerequisites: Permission of instructor if student is not in the MPH program.

MPH 6604 Social and Cultural Perspectives in Public Health: 3 semester hours.
Exploration of multicultural health beliefs, health disparities and needs of our society focusing on local cultures to develop culturally competent interventions. Learn about ethical issues, social justice, community systems, coalition building, and development of community partnerships.

MPH 6605 Leadership Policy and Administration: 3 semester hours.
Development of leadership and administrative skills which contribute to implementation of effective public health policies and programs. Students will learn strategic planning, facilitation techniques, communication strategies, budget development, and management. Equivalent to HE 6605.

MPH 6606 Environmental and Occupational Health: 3 semester hours.
Understanding the interaction of humans with their environment and the implications of human actions. Learn about assessment and control of health risks posed by chemical and biological contaminants and physical exposures (noise, heat, and radiation) in occupational and non-occupational environments.
