

# Accelerated B.A. to M.A. in Spanish

The Department of Anthropology and Languages offers an accelerated BA/MA program for its most talented undergraduates in the Spanish BA program. This accelerated program gives outstanding bachelor's degree students in Spanish a "fast-track" option to pursue graduate-level coursework towards the Master of Arts degree beginning in the third year of undergraduate coursework, and will count up to 12 credits of that coursework towards completion of the bachelor's degree. Graduates will receive separate BA and MA degrees, as noted on their transcripts. The program is designed to be completed in five years of full-time study, with students taking some 5500-level electives in their third or fourth year of undergraduate study along with their undergraduate coursework, and taking the remaining 5500 and 6600-level courses in their fifth and final year. For details on application and admission into the Accelerated program in Spanish, please see (Spanish).
