Idaho State University has served the citizens of the state since 1901, when the institution was first established as the Academy of Idaho. Renamed the Idaho Technical Institute in 1915 and reorganized as the Southern Branch of the University of Idaho in 1927, it was established as Idaho State College in 1947. By action of the 37th Idaho Legislature, the institution became Idaho State University on July 1, 1963. The University’s Strategic Plan is online at https://isu.edu/strategicplan/.

Certificate programs of varying lengths, an Associate of Applied Science degree, and a Bachelor of Applied Science degree are included in the curricula of the College of Technology. Bachelor’s and master’s degrees in a variety of fields are awarded by the College of Arts and Letters, College of Business, College of Education, College of Science and Engineering, Kasiska Division of Health Sciences, and the Graduate School. Terminal and professional degrees offered at Idaho State University include Master of Fine Arts, Doctor of Philosophy, Doctor of Arts, Doctor of Education, Doctor of Nursing Practice, Doctor of Audiology, Doctor of Physical Therapy, and Doctor of Pharmacy.

Mission
We engage students through learning and research opportunities that improve the intellectual vigor, cultural vitality, and health of our communities.

Vision
We inspire a passion for knowledge and discovery.

Values
• Integrity
Honesty in our actions and words

• Community
Fostering connections

• Inclusivity
Valuing all and building a culture of belonging

• Teamwork
Collaborating with compassion and respect

• Shared Responsibility
All contributing to our success

• Learning
Continuous growth and development

Goals
Goal 1: Increase Student Access, Opportunity, Retention, and Success
We build a diverse and thriving student population by providing all students with the tools, opportunities, and environment to support their goals, learning, and achievement.

Objectives
• Increase access and enrollment using targeted recruitment efforts
• Improve student retention by strengthening students’ ISU experience
• Improve ISU’s graduation rate

Goal 2: Strengthen Programmatic Excellence
Programmatic excellence is at the core of student achievement. The University continually evolves to meet workforce demands and recruit, retain, and support highly qualified faculty and staff. We allocate resources to strengthen programs and opportunities focused on student achievement and success.

Objectives
• Attract, support, and retain outstanding faculty and staff
• Enhance ISU’s infrastructure
• Increase the number of nationally recognized programs
• Align ISU’s programs with community, regional, and national needs

Goal 3: Cultivate External Partnerships
We contribute to the betterment of all communities through strong collaborations and partnerships. The University will continue to foster existing beneficial partnerships and build new associations that advance Idaho State’s mission.

Objectives
• Increase the number of relationships with corporate, non-profit, and government entities.
• Maximize the impact of new and existing relationships partnerships to support ISU’s mission
• Expand collaborations with K-12 and post-secondary educational institutions

Goal 4: Expand Research, Clinical, and Creative Activities
We change lives for the better by expanding our research, clinical, and creative activities. We focus on increasing human knowledge, serving the needs of society, and supporting artistic ventures.

Objectives
• Enhance faculty’s ability to initiate research and innovative projects
• Increase productivity in research, scholarly, and creative activities
• Engage students in Interprofessional Educational and/or clinical research
• Enhance ISU student research, clinical, and creative opportunities

Goal 5: Energize the Bengal Community
We engage and build strong relationships with all members of the Bengal Community to achieve academic success and innovation, advance learning and research, and enhance lives. The Bengal Community includes students, faculty,

- National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- National Council for Accreditation of Teacher Education (NCATE) for Health Education

** Please note that the program identified an error in the reporting of program completion data in our 2022 annual accreditation report resulting in not meeting Standard 5.5 of the Accreditation Standards (https://caa.asha.org/sitesassets/files/accreditation-standards-for-graduate-programs.pdf). The corrected data demonstrates that we do meet the standard. We are in communication with the CAA in order to rectify the reporting error; the Council will be meeting September 20-22 and will review our updated data report and evidence of error. The full CAA Action Report and reporting of probationary status can be found on the CAA Decisions (http://caa.asha.org/programs/accreditation-decisions/) webpage linked here.

Proclamation Statement:
The Master of Science (MS) graduate education program in speech-language pathology (including residential, distance education, and satellite campus modalities) at Idaho State University has been placed on probation by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700. A program on probation is not currently in full compliance with the accreditation standards. Programs on probation remain accredited but must demonstrate compliance with the standards within one year.

- Commission on Accreditation in Physical Therapy Education (CAPTE)
- Engineering Technology Accreditation Commission of ABET
- Medical Assisting Education Review Board (MAERB)
- National Association of Early Childhood Programs (NAEYC)

Program Accreditation Requirements

Current and future programs not offered by the College of Business may include no more than 1/4 of ISU minimum credit requirements for a baccalaureate degree from classes offered by the College of Business.

Student Outcomes Assessment

All undergraduate academic programs at four year public institutions in Idaho are required to assess student learning in the major and general education programs. Similar requirements for assessment also appear in the new guidelines issued by the Northwest Commission on Colleges and Universities, which provides Idaho State University’s institution-wide accreditation.

Idaho State University’s goal is to encourage students to develop abilities and acquire knowledge that will be of lasting benefit in their personal and professional lives. To ensure that this goal is met, a program of student outcomes assessment has been implemented to improve the teaching and learning process.

Comprehensive information that includes student performance and student opinion is vital to the success of the assessment program. To provide this information, undergraduate students in the academic division may be asked to participate in a variety of assessment activities that may include formal and informal examinations, interviews, surveys, and follow-up studies after graduation.

Federal Family Education Rights and Privacy Act of 1974

Idaho State University, in compliance with the Family Educational Rights and Privacy Act (FERPA), is responsible for maintaining educational records and monitoring the release of information of those records. Staff and faculty with access to student educational records are legally responsible for protecting the privacy of the student by using information only for legitimate educational reasons to instruct, advise, or otherwise assist students.

Only those records defined as “directory information” may be released without the express written permission of the student. Directory information includes the student’s name, address listings, telephone listings, e-mail addresses, full-time/part-time status, class level, college, major field of study, degree types and dates, enrollment status, club and athletic participation records, and dates of attendance including whether or not currently enrolled. No other information contained in a student’s educational records may be released to any outside party without the written consent of the student.

A student may restrict release of directory information through the BengalWeb (https://bengalweb.isu.edu) by accessing the “Update Addresses and Phones” screen under the Academic Tools tab. This restriction will apply to the student’s address and telephone listings only. All other directory listings will continue to be available for release.

Additional FERPA information may be found on the web at: https://isu.edu/registrar/student-resources/ferpa/.

Policy Statements

Catalogs, bulletins, course and fee schedules, etc., are not to be considered as binding contracts between Idaho State University and students. The university and its divisions reserve the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fee schedules; (c) change the academic calendar; (d) change admissions and registration requirements; (e) change the regulations and requirements governing instruction in, and graduation from, the university and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine, and shall apply not only to prospective students but also to those who are matriculated at the time in the university.

When economic and other conditions permit, the university tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, the university will make every reasonable effort to ensure that students who are within two (2) years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program which is to be withdrawn.

Students enrolled in a program that is closed, relocated, or discontinued should be given notice of the closure as soon as is practical. Notwithstanding any other provision of State Board of Education policy, university policy, or university catalog statements to the contrary, arrangements should be made for enrolled students to complete affected programs in a timely manner and with minimum interruptions. When there is a similar program within the institutions governed by the Board, an affected student will be provided with information on transferring to that program, although admission to any such program is contingent upon the availability of a position and the student’s meeting any applicable admission requirements. If there is no similar program available within the institutions governed by the Board or the student is not able to gain admission to a similar program, the university will make reasonable efforts to place the student in a related or comparable program within the university. If none is available, the university will make reasonable efforts to assist the student in locating to another program at the university or elsewhere for which he or she is qualified.

Idaho State University is committed to providing a positive education for all students. The university has a legal and ethical responsibility to ensure that all students and employees can learn and work in an environment free of harassment and discrimination. It is the ISU policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, age, or disability. This policy applies to all programs, services, and facilities, and includes, but is not limited to, recruitment, applications, admissions, and access to programs, services, and employment. For additional information and specific contact information, see: https://www.isu.edu/auction/.
