Doctor of Pharmacy

Admission to the Doctor of Pharmacy Program

Admission Criteria

- The pre-pharmacy curriculum must be completed by the end of spring semester with the exception of biochemistry which may be completed in the summer prior to matriculation into the PharmD program
- Applicants are encouraged to obtain pharmacy experience prior to applying, by either shadowing or working in a paid position
- Apply on PharmCAS (https://www.pharmcas.org/) by the application deadline of June 1 (priority deadline December 1)
- Minimum GPA: 2.5 minimum GPA required in the Pre-Pharmacy requirements

Application Process

Applications submitted on PharmCAS (https://www.pharmcas.org/) between August and April each year are reviewed as they are completed and verified. Selected applicants receive invitation to interview. Multiple interview dates are available during the fall and spring semesters.

Application Materials

All PharmD application materials must be received by PharmCAS by the application deadline of April 1:

- Completed PharmCAS application for Idaho State University College of Pharmacy. PharmCAS application fee begins at $175
- Official transcripts of all previous college course work, including detailed evaluation of all international coursework
- Two letters of recommendation are required: it is preferred that one of the two be from a U.S. licensed pharmacist
- Personal statement

Students with international coursework to be considered must submit an official detailed evaluation report from an institution that is a member of the National Association of Credential Services Incorporated (NACSI) and meet Idaho State University’s admission requirements for international students (https://www.isu.edu/apply/international/).

ROAR Rx Early Assurance Program (EAP)

Want to become a PharmD student at ISU College of Pharmacy? Join our ROAR Rx Early Assurance Program at Idaho State University’s College of Pharmacy and we will assist you on a direct path to your Pharmacy goal!

This program is available to any college student who is:

- Just beginning their Pre-Pharmacy Requirements (https://www.isu.edu/pharmacy/prospective-students/pharmd-program/pre-requisites--curriculum/), right through to those who have at least one year of pre-pharmacy studies remaining
  
  OR

- A student completing prepharmacy requirements and an Associate’s or Bachelor’s Degree at an accredited college or university in the US

ROAR Rx Requirements

1. Enroll as an undergraduate at ISU or another accredited college
2. Join ROAR Rx Early Assurance Program (https://docs.google.com/forms/d/e/1FAIpQLSc3x9xeu3ug-hPjNQTBuL9Vv8f6vKoeL3sBof64ik7_BBQ/viewform/)
- Advising Session (https://www.isu.edu/pharmacy/contact/) with ISU College of Pharmacy during first semester of Early Assurance Program enrollment
- Complete all Pre-Pharmacy Courses (https://www.isu.edu/pharmacy/prospective-students/pharmd-program/pre-requisites--curriculum/) with C or better grades
- 2.5 minimum GPA required in the Pre-Pharmacy requirements
- During final year of pre-pharmacy studies:
  - Advising session with ISU College of Pharmacy
  - Apply via PharmCAS (https://www.pharmcas.org/) by December 1 to ISU’s PharmD Program

through sound instructional design and encourage the integration of active patient health outcomes. We embrace diversity in innovative teaching methods and fosters an evidenced-based approach to optimizing pharmacotherapy and that inculcates a drug-related problem-solving process specific to pharmacy practice. The primary curricular goal is the development of a strong responsibility for their own learning and who are committed to the advancement of pharmacy practice. We view the curriculum as a tool to develop professionals who assume professional roles within the healthcare team and continue to experiment, assess, revise, and innovate within our curriculum to graduate highly competent practitioners.

Professional Curriculum

The professional curriculum requires four years of study. The first three years are a mix of didactic/laboratory courses and practice experiences. The fourth year is comprised of 42 weeks of clinical experiences.

The Doctor of Pharmacy degree can be completed in Pocatello or Meridian, Idaho or in Anchorage, Alaska. Students may complete their fourth year at our clinical sites in Idaho (Meridian, Pocatello, Twin Falls, Coeur d’Alene), at our experiential sites in the Anchorage, Alaska region, or in Reno, Nevada.

The first professional year provides a foundation in the basic and pharmaceutical sciences that includes physiology, biochemistry, pharmacology, and pharmaceutics. Other courses provide a foundation for professional development that includes topics on ethics, law, drug information, research design, patient care, and the health care system.

Courses and clinical experiences in the second and third professional years build on accrued knowledge and skills. The curriculum centers on an integrated, organ-system approach to the therapeutic management of disease. Additional courses provide insight into the human relation aspects of pharmacy, dosage form design, pharmacy management, and physical assessment. A series of case studies courses, designed to enhance the student’s knowledge base and problem-solving skills while focusing on the application of knowledge to specific patient cases, spans the first three years.

The last 42 weeks, or the fourth professional year, is devoted to full-time clinical experience in various pharmacy practice environments. Students will complete seven, six-week experiences in various areas of practice. Students will also have the option of selecting an elective in an area of interest.

Given the length of the final year of the PharmD program, students will begin practice experiences in mid-May after completing their third academic year in the professional program and will continue throughout the ensuing twelve (12) months.

Program and course-level learning outcomes can be found in the PharmD Student Handbook (https://www.isu.edu/pharmacy/current-students/pharmd-students/).

Curricular Philosophy

We view the curriculum as a tool to develop professionals who assume responsibility for their own learning and who are committed to the advancement of pharmacy practice. The primary curricular goal is the development of a strong foundational knowledge in the biomedical, pharmaceutical, and clinical sciences that inculcates a drug-related problem-solving process specific to pharmacy and fosters an evidenced-based approach to optimizing pharmacotherapy and patient health outcomes. We embrace diversity in innovative teaching methods through sound instructional design and encourage the integration of active learning, and multiple curricular and co-curricular opportunities for leadership and professional development. Because it is a dynamic work in progress, we continue to experiment, assess, revise, and innovate within our curriculum to graduate highly competent practitioners.

### Evaluation of Applicants

- Up to 95 students are admitted each year.
- Faculty select the applicants best predicted to complete the curriculum and have productive professional careers.
- Invitation for applicants to schedule an interview is based upon academic success and other required components of the application.
- Preference is given to Idaho and Alaska residents.
- Following an interview, applicants are notified of their placement into one of three categories:
  - Admission
  - Reserve for possible admission pending available positions
  - No admission

New students are admitted to begin the professional program only in the fall semester of each year. A criminal background check is required; the background check process is initiated when an offer of admission is accepted by the applicant.

### Admission Under Special Circumstances

**Transfer from Other Colleges of Pharmacy**

Students wishing to be considered for transfer from another U.S. college of pharmacy must present the following materials to the College of Pharmacy Director of Admissions staff before being considered:

1. A letter from the Dean of the previous college of pharmacy certifying status of good academic standing.
2. Official transcripts of all pharmacy courses completed to date and that show pre-pharmacy requirements of Idaho State University are complete.
3. A letter requesting evaluation of class standing.

**Curricular Philosophy**

We view the curriculum as a tool to develop professionals who assume responsibility for their own learning and who are committed to the advancement of pharmacy practice. The primary curricular goal is the development of a strong foundational knowledge in the biomedical, pharmaceutical, and clinical sciences that inculcates a drug-related problem-solving process specific to pharmacy and fosters an evidenced-based approach to optimizing pharmacotherapy and patient health outcomes. We embrace diversity in innovative teaching methods through sound instructional design and encourage the integration of active learning, and multiple curricular and co-curricular opportunities for leadership and professional development. Because it is a dynamic work in progress, we continue to experiment, assess, revise, and innovate within our curriculum to graduate highly competent practitioners.

### Professional Curriculum

The professional curriculum requires four years of study. The first three years are a mix of didactic/laboratory courses and practice experiences. The fourth year is comprised of 42 weeks of clinical experiences.

The Doctor of Pharmacy degree can be completed in Pocatello or Meridian, Idaho or in Anchorage, Alaska. Doctor of Pharmacy

PHAR 9905  Pharmacy Problem-Based Learning Foundations  2
PHAR 9922  Introduction to Pharmacotherapy  5
PHAR 9926 & 9926R  Basic Pharmacokinetics and Calculations and Basic Pharmacokinetics and Calculations Recitation  4
PHAR 9942  Fundamentals of Study Design and Literature Evaluation in Pharmacy  3
PHAR 9956 & 9956R  Human Physiology II and Human Physiology II Recitation  4

Second Professional Year
PHAR 9913  Introductory Pharmacy Practice Experience II  1
PHAR 9933  Professional Development II  0
PHAR 9906  Pharmacy Problem-Based Learning I  2
PHAR 9920  Second Year Recitation  0
PHAR 9927 & 9927L  Dosage Form Design and Compounding with Lab and Dosage Form Design and Compounding Lab  4
PHAR 9961  Pharmacotherapy I with Lab  2-5
PHAR 9962  Pharmacotherapy II with Lab  2-5
PHAR 9907  Pharmacy Problem-Based Learning II  2
PHAR 9944  Health Care II with Lab  4
PHAR 9963  Pharmacotherapy III with Lab  2-5
PHAR 9964  Pharmacotherapy IV with Lab  2-5
PHAR 9965  Pharmacotherapy V with Lab  2-5
PHAR 9966  Pharmacotherapy VI with Lab  2-5

Third Professional Year
PHAR 9914  Introductory Pharmacy Practice Experience III  1
PHAR 9943  Professional Development III  1
PHAR 9908  Pharmacy Problem-Based Learning III  2
PHAR 9930  Third Year Recitation  0
PHAR 9945  Health Care III with Lab  4
PHAR 9967  Pharmacotherapy VII with Lab  2-5
PHAR 9968  Pharmacotherapy VIII with Lab  2-5
PHAR 9948  Pharmacy Law  2
PHAR 9969  Pharmacotherapy IX with Lab  2-5
PHAR 9970  Pharmacotherapy X with Lab  2-5
PHAR 9971 & 9971R  Capstone Pharmacy and Pharmacy Problem-Based Learning IV and Capstone Pharmacy and Pharmacy Problem-Based Learning IV Recitation  2-5

Electives—Must be completed prior to beginning APPEs  6

Fourth Professional Year
PHAR 9981  Advanced Pharmacy Practice Experience (Students will take 49 credits of PHAR 9981)  7
PHAR 9982  Pharmacy Information Mastery I  1
PHAR 9983  Pharmacy Information Mastery II  1
PHAR 9984  Pharmacy Information Mastery III  1

Student must fulfill ISU General Education requirements.

\(^1\) A minimum of six (6) elective credits must be completed prior to beginning APPEs. Elective courses must have relevance to the healthcare profession and serve to enhance the professional skills and knowledge of the student. For more information, refer to the ISU College of Pharmacy Student Handbook. (https://www.isu.edu/pharmacy/current-students/pharmd-students/)
