Overview

The mission of the Department of Human Performance and Sport Studies at Idaho State University is to provide candidates with the intellectual and physical skills necessary to maximize their potential. The study of the physical education discipline is an important part of the curriculum at Idaho State University; it strives to fulfill the university mission as well as the College of Education’s mission in the enhancement of learning, lifelong development, and educational leadership. The study of physical education encourages candidates to respect human dignity, to be critical thinkers, and to be effective communicators. It provides an opportunity for the individual to make decisions regarding lifestyle and health choices enhancing self-direction and self-esteem. Physical education develops both the mental and physical discipline to provide opportunities for mental, social, emotional, spiritual, and personal development while interacting in a university environment.

The Idaho State University Department of Human Performance and Sport Studies is committed to providing an academic program in which men and women can discover, experience, and reflect upon the study of movement. Curricula are designed to challenge candidates in the theory and to provide opportunity for practical experiences. Candidates are expected to become both advocates for and contributors to the discipline on personal and professional levels. Faculty members are committed to excellence in teaching, concerns for the needs of candidates, service to the community, and expertise in their discipline.

Physical Education Standards and Outcomes

The Physical Education Learning Goals are aligned with 2 sets of standards: The Idaho State University College of Education Core Standards and the Content Standards in Physical Education of the National Association for Sport and Physical Education (NASPE).

The candidate completing the Physical Education program:

1. Demonstrates competency in many movement forms and proficiency in a few movement forms;
2. Applies movement concepts and principles to the learning and development of motor skills;
3. Exhibits a physically active lifestyle;
4. Achieves and maintains a health-enhancing level of physical fitness;
5. Demonstrates responsible personal and social behavior in physical activity settings;
6. Demonstrates understanding and respect for differences among people in physical activity settings; and
7. Understands that physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.

Graduation Requirements

In order to graduate from the Sport Science and Physical Education Program as a major, the candidate must achieve the following in addition to completing the course requirements:

1. Minimum grade of “C” (2.0) in professional courses.
2. Minimum overall cumulative GPA of 2.7.
3. Minimum GPA of 3.00 in the major.
4. Completion of candidate portfolio, with review by advisor.
5. Exit interview with advisor.

Majors

Majors in Physical Education receive preparation for a number of careers. The candidate majoring in Physical Education may select from four emphasis areas including exercise science, outdoor education, sport management, and teaching. Majors receive preparation for graduate work in areas such as physical education, physical therapy, exercise science, outdoor education, and athletic administration.

Minors

The Department of Human Performance and Sport Studies also offers three minor areas of study to facilitate professional and career development needed by women and men to succeed in a changing world. Candidates may choose to minor in coaching, outdoor education, or sport management. In order to graduate with a minor from the Department of Human Performance and Sport Studies, the candidate must achieve the following in addition to completing the course requirements:

1. A minimum grade of “C” (2.0) in all required and elective minor courses; and
2. A minimum GPA of 3.0 in the minor.

Activity Program

The Department of Human Performance and Sport Studies is committed to make the sport and leisure activity program for the major and non-major an experience
serving the needs and interests of participants. The activity program is designed
to develop participants’ skills in lifetime activities and to increase participants’
fitness level.

**Graduate Degree Programs**

The Department of Human Performance and Sport Studies also offers two
master’s degree programs. The Master of Physical Education degree with an
emphasis in Athletic Administration is designed to facilitate the intellectual
and practical knowledge necessary to enter the field of sport management or
administration upon graduation. The Master of Science in Athletic Training
develops competent athletic training students who qualify to sit for the
Board of Certification examination. Please see the Graduate Catalog (http://
